This degree allows those who are currently working in an engineering-related field to expand their career potential and earn a degree that will pay dividends toward their future. The degree is applicable to individuals working in the aerospace, biosystems, chemical, civil, computer science and software, electrical and computer, industrial and systems, materials, mechanical and wireless industries.

Certificate in Manufacturing Systems

Online and On-Campus Options Available

The Manufacturing Systems Certificate is for students looking to acquire more knowledge in manufacturing. Students completing this certificate will explore the design, analysis, and operation of manufacturing systems as a combination of humans, machinery, equipment, tooling, controls, building, transportation, etc. that are bound by a common material and information flow through application-based courses in state-of-the-art labs and classroom environments.

12 hours total

Required Courses

Code	Title	Hours
INSY 6330	Six Sigma	3
INSY 6800	Lean Systems	3
Total Hours		**6**

Choose 2 of the following:

Code	Title	Hours
INSY 6240	Production and Inventory Control Systems	3
INSY 6450	Simulation-based Planning and Scheduling	3
INSY 6830	Vehicle Technology and Trends	3
INSY 6840	Control of the Manufacturing Floor and Processes	3
INSY 6850	Electronics Manufacturing Systems	3
INSY 6860	Innovations in Manufacturing Systems	3
INSY 7400	Applied Discrete-event Simulation Modeling	3
INSY 7940	Industrial and Systems Engineering Problems	1-5
INSY 7970	Industrial and Systems Engineering Special Topics	1-5
INSY 8970	Industrial and Systems Engineering Special Topics	1-5

Special Topics/Problems courses require Department Approval and only will count as credit towards the certificate based on the topic of the course. Students cannot take 5xxx and the corresponding 6xxx course and receive credit for both.

Lean Six Sigma Green Belt Certification

GR students who complete INSY 6800 and INSY 6330 with a B average receive the certification.

Modeling and Data Analytics for Operations — Graduate Certificate

This graduate certificate provides basic knowledge in computer modeling and data analytics for operations, including manufacturing and service systems which would be appropriate in all types of business, industries, government, and in public and private organizations.

Code	Title	Hours
Choose 3 out of 4 courses		9
INSY 6500	Modern Tools for Data Analytics and Modeling	3
INSY 6550	Decision Support Systems for Operations	3
INSY 7120	Data Analytics for Operations	3
INSY 7130	Data Mining Techniques and Applications for Operations	3

Occupational Safety & Ergonomics — Graduate Certificate

This graduate certificate prepares individuals who are seeking advanced knowledge in occupational safety and ergonomics fields. Students who complete the certificate will have a strong foundation in topics such as safety engineering, risk quantification, ergonomics, human factors engineering, and occupational biomechanics.

Code	Title	Hours
Occupational Safety & Ergonomics (Graduate Certificate)		
Select 15 hours from the following:		15
INSY 6010	Occupational Safety Engineering	
INSY 7020	System Safety Engineering	
INSY 7060	Fundamentals of Ergonomics

INSY 8060	Contemporary Ergonomics	

INSY 7040	Cognitive Engineering and System Design
INSY 6050	Industrial Hygiene and Environmental Hazards
INSY 6080	Human Factors Engineering
PSYC 7760	Occupational Health Psychology
PSYC 7700	Foundations in Industrial and Organizational Psychology
INSY 7940	Industrial and Systems Engineering Problems
INSY 7970	Industrial and Systems Engineering Special Topics
INSY 8010	Advanced Safety Engineering
INSY 8020	Research Methods in Occupational Safety, Ergonomics, and Injury Prevention
Total Hours	**15**

Kinesiology — Graduate Certificate, MS, DPT, PhD, Minor

Degree Programs

- Exercise, Performance and Health Optimization — MS (p. 1695)
- Exercise Science — MS (p. 1695)
- Kinesiology — PhD (p. 1696)
- Physical Education/Teacher Education — MS (p. 1696)
- Physical Therapy — DPT (p. 1698)

Graduate Certificate

- Movement Skill Analysis (p. 1696)

Graduate Minor

- Sport Management (p. 1699)

The School of Kinesiology offers graduate degree programs leading to a master of science (non-thesis and thesis options) and doctor of philosophy. Offerings also include a graduate certificate and a graduate minor. The school’s advanced programs prepare students for careers in sport performance, health optimization, fitness program management for community and corporate settings, the allied health, fitness and sport-related industry, as well as teaching and research in educational settings.

Master’s Degree Programs (MS)

Master’s programs are offered in exercise, performance, and health optimization; exercise science; and physical education/teacher education. Specialized areas of study include biomechanics, exercise physiology, motor neuroscience, physical activity and health, pedagogy and post-certification athletic training.

Applicants to MS programs must satisfy the Graduate School’s admission requirements. School of Kinesiology admission requirements include a bachelor’s degree from an accredited college or university, academic good standing at the institution last attended, an undergraduate minimum GPA of 2.75, competitive GRE scores, letters of recommendation, and School approval. For admission to the MS in physical education/teacher education, the undergraduate GPA must be documented on the official transcript of the degree-granting institution and must be the GPA that was used as the basis for granting the degree (not a GPA that includes post-degree courses); alternatively, a minimum GPA of 3.0 in a master's of higher degree program may be used for admission.

MS programs in physical education/teacher education include alternative certification and traditional certification programs. The alternative MS certification program offers qualified students who hold non-teaching baccalaureate degrees a route to initial teacher certification while simultaneously earning a master’s degree; the traditional MS certification program offers advanced study for individuals who hold a valid bachelor’s-level professional educator certificate in physical education/teacher education. Applicants to the alternative MS certification program in physical education/teacher education must submit a clear background check and satisfy the State’s teaching field admission requirements; applicants to the traditional MS certification program in physical education/teacher education must submit a clear background check and hold a valid bachelor’s-level professional educator certificate in physical education. Both certification programs are approved by the Alabama State Department of Education (ALSDE). The College of Education is accredited by the Council for Accreditation of Educator Preparation (CAEP).

Degree requirements for all non-thesis master’s programs include a minimum of 33 hours and 36 hours for thesis master's programs. All non-thesis master's degrees require a written comprehensive exam. Additional degree requirements for the alternative MS certification program in physical education/teacher education are in compliance with regulations established by the Alabama State Department of Education. These requirements include a semester long, full-time internship and satisfactory completion of the State's testing program and official submission of the edTPA assessment for scoring. Additionally, in order to be recommended for teacher certification candidates must receive passing scores on the edTPA assessment. In accordance with State regulations, effective for students unconditionally admitted prior to July 1, 2017, a minimum GPA of 3.00 is required on all courses used to meet master's-level program requirements. Effective for students unconditionally admitted July 1, 2017, and after, a minimum GPA of 3.25 will be required on all courses used to meet master's-level certification program requirements.

Doctor of Physical Therapy Degree Program (DPT)

Auburn University's Doctor of Physical Therapy (DPT) program offers an entry-level degree. The program will admit 38 students annually into every cohort. Students who successfully complete the program will receive a Doctor of Physical Therapy Degree and will be eligible to take the national licensure exam for physical therapists. Auburn's charter cohort of students will start in May 2025. Admission to the DPT program will occur once a year, with applications opening in the fall of each year. The application deadlines can be found on our Prospective Students page. Each new cohort of students will begin their course work in May of the year they are admitted.

The Auburn University Physical Therapy program at the School of Kinesiology creates a learning environment that promotes health and equity of our community. Surrounded by experienced faculty engaged across the aim of education, research, and clinical practice, our students will work collaboratively with expert clinicians immersed in the contemporary clinical environment, researchers who incorporate new discovery in the classroom, and master educators who integrate new knowledge through the best practices in the learning sciences. We take a learner-centered approach to education that will provide active, flexible, and individualized learning opportunities supported through coaching and mentoring and an assessment philosophy that is focused on continuous growth and improvement.

The three-year, nine-semester program engages students in enriching learning experiences that will involve' patients in the academic and clinical settings. Classes feature case studies, grand rounds, and training at off-site clinical locations. Students will encounter increasingly complex cases as they move through the curriculum. Part time integrated clinical experiences and full-time clinical education begin early and are distributed throughout the curriculum to provide real-world experience and deeper experiential learning.

Before graduates from accredited physical therapy programs can practice physical therapy, they must pass a licensure board examination. Once the license examination has been passed, graduates are entitled to practice physical therapy in that state. All 50 states, Puerto Rico, the US Virgin Islands, and the District of Columbia recognize the Federation of State Boards of Physical Therapy (FSBPT) National Physical Therapy Examination (NPTE) as the standard for determining licensure eligibility.

Doctor of Philosophy Degree Program (PhD)

Applicants to the School of Kinesiology’s PhD program must satisfy the Graduate School’s admission requirements. School of Kinesiology admission requirements include competitive GRE scores, current resume, statement of purpose (including research focus), letters of recommendation, and approval by the school.

The PhD program requires a minimum of 60 semester hours beyond the master’s degree. Research methods and statistics are components of all doctoral programs. The remaining hours are divided between the area of specialization and approved support courses. After satisfactory completion of coursework and a general written and oral examination, the student advances to candidacy. Doctoral students must register for at least 10 semester hours of doctoral research while completing a dissertation.

Specialized areas of doctoral study include biomechanics, exercise physiology, motor neuroscience, motor development, sport and exercise psychology, motor learning and control, physical activity and health, and teaching and research in physical education.

Master’s- and Specialist-Level Certification

Individuals completing the State-approved MS certification programs in physical education/teacher education are eligible to apply for Alabama Class A certification. Effective September 1, 2018, the Alabama State Board for Education will require an acceptable score on the edTPA for initial certification in a teaching field. This state certification requirement applies to individuals completing alternative master’s programs.

Individuals seeking certification in states other than Alabama are responsible for contacting those state certification offices to obtain their application form and requirements. These individuals should first meet the requirements for certification in the State of Alabama.

The State of Alabama signs the National Association of State Directors of Education and Certification (NASDTEC) Interstate Agreement which facilitates the applications of program graduates when they apply for certification in other states.

Graduate Minor and Graduate Certificate

The School of Kinesiology in collaboration with the Department of Educational Foundations, Leadership and Technology offers a graduate minor in sport management. In addition, the School of Kinesiology offers a graduate certificate in movement skill analysis.

Additional Information

Detailed admission requirements for the school's multiple areas of graduate study are available on the College of Education's website, Academics (https://education.auburn.edu/academic-programs/).

The University schedule of courses is available on the University website.

Information about undergraduate programs for the School of Kinesiology is available at: School of Kinesiology: Undergraduate (p. 521).

Exercise, Performance & Health Optimization — MS

Movement Skill Analysis — Graduate Certificate

Movement Skill Analysis — Graduate Certificate

This graduate certificate prepares individuals to learn to use Dartfish software and analyze physical movement and skills. This certificate would be of value to coaches, teachers, instructors, choreographers, or marching band directors.

Code	Title	Hours
Movement Skill Analysis - GCRT		
KINE 7620	Principles of Biomechanics in Human Movement	3
KINE 7400	Advanced Anatomical Principles	3
KINE 7420	Biomechanics of Skill Analysis: Dartfish I	3
KINE 7430	Biomechanics of Skill Analysis: Dartfish II	3
Total Hours		**12**

Physical Education/Teacher Education — MS

Physical Education/Teacher Education — MS (https://education.auburn.edu/kinesiology/academic-programs/physical-education/ms-physicial-education.php)

Code	Title	Hours
Physical Education/Teacher Education – MS (Alternative Certification)		
Alternative Class A Education Program Checklist [5]		
Teaching Field: 14 hours		
At least 1/3 of the program shall be in teaching field courses.		
KINE 6350	Assessment in Physical Education [1,3]	3
KINE 7010	Research Methods in Physical Activity	3
KINE 7910	Practicum [2]	2
Advisor-approved KINE 6000 or 7000 electives		3
Professional Studies: 22 hours		
KINE 7260	Individuals with Disabilities in Physical Education [4]	3
or RSED 6000	Advanced Survey of Exceptionality	
CTRD 6000	Language and Literacy in the Content Areas [3]	3
KINE 7200	Curriculum and Teaching in Physical Education	3
KINE 7350	Organization and Analysis of Instruction in Physical Education [2]	3
KINE 7920	Internship [1,3]	10
Total Hours		**33**

1 Take KINE 6350 Assessment in Physical Education and KINE 7920 Internship concurrently.

2 Take KINE 7910 Practicum and KINE 7350 Analysis of Instruction concurrently.

3 Clearance for Internship includes completion of all other coursework except KINE 7920 Internship and KINE 6350 Assessment in Physical Education. Exceptions require approval using the Student Petition Form.

[4] KINE 7260 OR RSED 6000 must be completed if survey of special education course was not completed prior to unconditional admission. If a survey of special education course was completed prior to unconditional admission, the state diversity course requirement is fulfilled with CTRD 6000 Language and Literacy.
In addition to the Graduate School requirement of a cumulative 3.0 GPA on all AU courses carrying graduate credit, a minimum cumulative GPA of 3.25 is required on all courses used to meet program requirements
Coursework used to meet admission requirements cannot be used again to meet Alternative Class A program requirements.
All substitutions for required courses must be approved using the Course Substitution Form, including transfer work.
Undergraduate courses may be required by your advisory committee for your plan of study. This coursework is in addition to the total graduate program hours noted above and must be completed prior to Internship.

[5] The following courses: KINE 3300, KINE 4200, and KINE 4300 must be completed in addition to all other program requirements unless they were previously completed.

Code	Title	Hours
Physical Education/Teacher Education – MS (Certification)		
Class A Program Checklist for Teaching Field		
Teaching Field: 12 hours		
At least 1/3 of the program shall be teaching field courses.		
Required: 3 hours		
KINE 7350	Organization and Analysis of Instruction in Physical Education	3
Select 9 Credits of the following:		9
KINE 6350	Assessment in Physical Education	
KINE 7200	Curriculum and Teaching in Physical Education	
KINE 7250	Evaluation of Programs in Physical Education	
KINE 7300	Content and Pedagogy in Physical Education	
KINE 7380	Integrating Classroom Concepts	
KINE 7740	Advanced Motor Development	
Other advisor-approved KINE courses		
Survey of Special Education/Diversity Course		
See KINE 7260, RSED 6000 and CTRD 6000 in Additional Courses. [1]		
Additional Courses: 18 Hours		
Required: 6 hours		
CTRD 6000	Language and Literacy in the Content Areas [1]	3
KINE 7010	Research Methods in Physical Activity	3
Select 12 hours of the following:		12
KINE 7260	Individuals with Disabilities in Physical Education [1]	
or RSED 6000	Advanced Survey of Exceptionality	
KINE 6200	Research Project in Physical Education	
KINE 6250	Instructional Supervision for Physical Education	
KINE 6300	Advocacy in Physical Education	
KINE 7280	Naturalistic Inquiry in Physical Activity Settings	
KINE 7750	Advanced Sport Psychology	
KINE 7780	Exercise Motivation and Adherence	
KINE 7790	Motor Behavior of Individuals with Disabilities	
KINE 7910	Practicum [2]	
KINE 7990	Research and Thesis (required for MS degree thesis option)	
Other advisor-approved supporting courses 6000 level and above [3]		
Total Hours		**30**

1 KINE 7260 Individuals with Disabilities in Physical Education OR RSED 6000 Advanced Survey of Exceptionality must be completed if survey of special education course was not completed for prior level certification. If a survey of special education course was completed for prior level certification, the state diversity course requirement is fulfilled with CTRD 6000 Language and Literacy.

2 A minimum of 1 hour of practicum is required as a co-requisite with KINE 7350 if candidate is not teaching in area of certification at an approved school site.

3 Supporting courses must be applicable to the area of certification (e.g., research, assessment/evaluation, classroom management, pedagogy, human behavior/development, foundations, technology, teaching field).
In addition to the Graduate School requirement of a cumulative 3.0 GPA on all AU courses carrying graduate credit, a minimum cumulative GPA of 3.25 is required on all courses used to meet program requirements.
Coursework used to meet Class B certification requirements may not be used to meet requirements for Class A certification.
All substitutions for required courses must be approved using the Course Substitution Form, including transfer work.

Physical Therapy — DPT

Auburn University Physical Therapy provides academic and clinical training commensurate with the Doctor of Physical Therapy (DPT) degree. Graduates from the entry-level program are eligible to take the National Physical Therapy Examination (NPTE) and apply for licensure to practice as physical therapists in all states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands.

Graduation from a physical therapist education program accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, Virginia 22305-3085; Phone: 703-706-3245; Email: accreditation@apta.org, is necessary for eligibility to sit for the licensure examination, which is required in all states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands.

Candidacy is considered to be an accredited status, as such the credits and degree earned from a program with Candidacy status are considered, by CAPTE, to be from an accredited program. Therefore, students in the charter (first) class should be eligible to take the licensure exam even if CAPTE withholds accreditation at the end of the candidacy period. That said, it is up to each state licensing agency, not CAPTE, to determine who is eligible for licensure. Information on licensing requirements should be directed to the Federation of State Boards of Physical Therapy (FSBPT; www.fsbpt.org (https://www.fsbpt.org/)) or specific state boards (a list of state boards and contact information is available on FSBPT's website.)

Auburn University is seeking accreditation of a new physical therapist education program from CAPTE. The program has submitted an Application for Candidacy, which is the formal application required in the pre-accreditation stage, on May 1st, 2024. Submission of this document does not assure that the program will be granted Candidate for Accreditation status. Achievement of Candidate for Accreditation status is required prior to implementation of the professional/technical phase of the program; therefore, no students may be enrolled in professional/technical courses until Candidate for Accreditation status has been achieved. Further, though achievement of Candidate for Accreditation status signifies satisfactory CAPTE Rules of Practice and· Procedure (22.3.12) 53 progress toward accreditation, it does not assure that the program will be granted accreditation. Full accreditation is anticipated in Spring of 2028, prior to the graduation of the charter cohort. Implementation of this program is Pending approval by the Southern Association of Colleges and Schools Commission on Colleges.

The Doctor of Physical Therapy program is housed in the School of Kinesiology, College of Education at Auburn University. The program has modern, well-equipped laboratories for research, teaching, and hands-on clinical training. Also located on-site is the human anatomy simulation laboratory wherein experiential learning opportunities are provided to complement classroom instruction.

Sport Management — Graduate Minor

Sport Management — Graduate Minor (https://education.auburn.edu/kinesiology/academic-programs/graduate-minor-sport-management/)

The purpose of the sport management minor is to provide master's degree students with the specialized knowledge of the sport industry and to prepare those students to work in sport organizations as administrators and managers. The minor is administered by the Graduate School. Participating units include the School of Kinesiology and the Department of Educational Foundations, Leadership and Technology. Students selecting the minor must satisfy the degree requirements for a master's degree program in one of these units. For additional information, please contact the school director or department head of the participating units.

The Sport Management graduate minor requires completion of 15 hours of courses as follows:

Code	Title	Hours
KINE 6820	Sport Management	3
KINE 7750	Advanced Sport Psychology	3
or KINE 7970	Special Topics	
HIED 7400	Sport Marketing and Public Relations	3
HIED 7410	Sport Ethics	3

HIED 7910	Practicum	3
Total Hours		**15**

Degree seeking students who intend to add the graduate minor to their current degree program must notify the coordinator before completion of their degree program.

Landscape Architecture — MLA

The School of Architecture, Planning and Landscape Architecture offers the Master of Landscape Architecture (MLA). This is a first professional degree program accredited by the American Society of Landscape Architects. The MLA consists of 96 credit hours delivered over six and a half semesters. Students with undergraduate degrees in disciplines other than landscape architecture enter in the Summer Mini-Semester II and graduate three years later. Students are encouraged to pursue internships during the remaining Summer Semesters. The program accepts and encourages applicants from a wide range of disciplines in the humanities, the sciences and the arts. Students who have an undergraduate degree in landscape architecture can complete the Master of Landscape Architecture in two years, by application, through Advanced Placement. Advanced Placement is not automatic, but based on portfolio and academic merit. Successful applicants for Advanced Placement enter in the Fall semester. Students who are currently in the Auburn University pre-landscape architecture programs [Bachelor of Horticulture and Bachelor of Environmental Design] complete their undergraduate degrees as the first year of the MLA. These applicants should contact the Program Chair or the Program Administrator for more information. Pre-landscape architecture students enter in the Summer Mini-Semester II.

Prospective students apply for admission online to the Graduate School. The Graduate Record Examination is not a requirement; however, the Admissions Committee will require the undergraduate record, three letters of recommendation, a 500 word statement of intent and, in the case of applicants for Advanced Placement, a portfolio of work.

The program is a studio design-based course of study that incorporates learning from across the disciplines of art, architecture, urban design, ecology, information technology and the natural sciences. The program studies regional and urban landscape systems through the relationships between human dwelling and natural systems. Graduates will be prepared to take action in rebuilding urban landscapes, reconnecting fractured ecosystems, and regenerating human and nonhuman habitats.

Each semester consists of 15 credit hours, including six credit hours of studio and fieldwork. In their final year of study students engage a comprehensive design studio that explores research by design. Students must also be prepared to undertake numerous field studies in a variety of locations that can involve interstate visits and several days away from Auburn University. All field trips and Study Abroad incur extra costs.

The Master of Landscape Architecture offers a limited number of Graduate Assistantships each year. GA positions are highly competitive, and applications exceed availability. The assistantships are awarded on the basis of merit. Students who wish to apply for an assistantship must do so when they send their materials to the Program Chair. When assessing the merit of applications for research assistantships, faculty review the following:

- Academic transcript
- GPA
- Portfolio
- Statement of intent

Applicants who can attend the Master of Landscape Architecture only if they receive an assistantship should make this clear to the Program Chair on application. As a rule Graduate Assistantships involve working with faculty on research projects. A wide range of tasks is expected to be performed to a high standard. Punctuality, timeliness and cordiality are strict requirements. Graduate Assistantships provide a partial tuition waiver and a monthly stipend. The tuition waiver applies to in-state and out-of-state students alike, and covers a portion of the tuition fee for each semester that the student is a GRA. Students who are appointed as GAs are required to pay the Professional Fee. Assistantships are awarded on a semester basis (and they are not available in the first summer) and there is no guarantee that recipients will receive a continuance of their assistantship. Reappointment will be made on the basis of students having:

- Maintained a high work standard
- Completed all their coursework and assignments satisfactorily
- Performed well for the faculty member to which they have been assigned.

Any questions about assistantships should be directed to the Program Chair. The Master of Landscape Architecture does not currently offer scholarships.

All students who enter the MLA must ensure that they have a their own laptop computer that conforms to the requirements set out on the Landscape Architecture page of the College of Architecture Design and Planning website.

Management Information Systems — Graduate Certificate

This graduate certificate is designed to develop an individual's skills in database development and administration, security and information assurance, systems analysis and design, and business analysis. This certificate is targeted for current students and working professionals to specialize in management information systems knowledge and skills.

This certificate program has one required course. Students may select either ISMN 7660 (Information Systems Analysis and Design) or ISMN 7830 (Database Design and Development) to satisfy this requirement. The remaining 9 hours may be chosen from any ISMN courses at the 6000 level or above. Current Auburn University graduate students may substitute one of their program courses for 3 of the 9 hours of electives with approval from the certificate granting department advisor.

Master of Accountancy — MAcc, Graduate Certificate

Degree Programs

- MAcc (p. 1702)

Graduate Certificates

- Accountancy (p. 1703)

Master of Accountancy (Campus or Online Options)

The Master of Accountancy (MAcc) is a professional non-thesis degree program requiring a minimum of 30 semester hours and a maximum of 42 semester hours and a two- and one-half day campus residency. The program provides students additional technical skills, research and communication skills, as well as focused preparation on passing the CPA Exam. During spring semester, campus students enroll in six hours of coursework and the Auburn Becker CPA Exam Review. Before graduation, campus students sit for all four parts of the CPA Exam.

The degree may be earned as a traditional, campus student or through the online option. Campus classes are recorded and streamed to online students. Therefore, online students receive the same lectures and AACSB accredited degree as their campus peers. The online option is identical to the campus option regarding rigor, standards, and student accountability.

Graduate Certificate in Accountancy (Campus or Online Options)

The online Graduate Certificate in Accountancy (GCA) is a 12-semester hour non-degree seeking program offering graduate level accounting coursework. The certificate is a great option for students who just need a few more hours of coursework for CPA licensure, need credentials to teach at the collegiate level, or would like to add a certificate to another graduate business degree.

For more information, please visit https://harbert.auburn.edu/. Questions should be directed to Mrs. Andee Hodo, Director of Graduate & Online Programs in the School of Accountancy, at andee.hodo@auburn.edu or (334) 844-6207.

Master of Accountancy — MAcc

The following are the requirements for the Campus and Online Options of the Master of Accountancy program.

The Campus MAcc program is non-thesis 30-semester hour program. There are four required courses (12 hours) and students must choose 9 hours in ACCT courses and 9 hours in either ACCT or Business (BUAL, FINC, or ISMN) courses to complete the degree requirements.

Code	Title	Hours
MAcc Program (Campus Option)		
ACCT 7110	Research in Accounting	3
ACCT 7300	Advanced Auditing and Assurance Services	3
ACCT 7410	Federal Tax Research	3
ACCT 7510	Integrated Accounting Applications	3
ACCT 7710	Professional Development (Fall and Spring)	0
Select 9 Credit Hours of ACCT Electives 6000-7000		9

Select 9 Credit Hours of ACCT or Business Electives 6000-7000	9
Total Hours	**30**

The Online MAcc program is a non-thesis 42-semester hour program unless students have already completed at least 21-semester hours in undergraduate accounting coursework. If applicants have completed the equivalent of an undergraduate accounting degree, they can complete the Master of Accountancy degree with only 30-semester hours.

Code	Title	Hours

Master of Engineering

This is an interdisciplinary degree which allows each student the opportunity to design an individual curriculum that is aligned with specific career or personal objectives. This degree requires a coordinated program of 30 credit hours of graduate level coursework. In coordination with an engineering faculty advisory committee, each student in the program will design a plan of study to meet his or her specific needs and interests. The plan must identify multiple outcomes, each of which should be supported by multiple courses in the plan of study. The plan must contain at least 21 hours of 6000#level and above engineering courses. Students must also take ENGR 7940 Master of Engineering Program Assessment , in which they provide an evaluation of the extent to which the program helped them to meet their objectives. There is no thesis requirement, and research and thesis credits cannot be used to meet the requirements of this degree.

Materials Engineering — MS, PhD

Degree Programs

- Materials Engineering — MS (p. 1704)
- Materials Engineering — PhD (p. 1705)

Materials Engineering offers graduate programs of instruction and research leading to the degrees of master of science (MS) and doctor of philosophy (PhD). All applicants must submit GRE scores for the General Test. Students completing all degree programs are expected to have knowledge in the following areas: mechanical properties; materials structure; materials thermodynamics; kinetics; and electrical, optical and magnetic properties of materials. There are no foreign language or minor requirements for materials engineering graduate degrees. All students must submit an approved plan of study within one year of matriculating in the program.

The MS (non-thesis) is intended for those who expect to enter the engineering profession at an advanced level or are practicing engineers wishing to gain additional fundamental knowledge in the field of materials. Those students lacking the necessary background may be required to take additional course work. The requirements for the degree are 30 credit hours including a final engineering report. The topic of the report will be agreed upon by the student and the advisory committee. Applicants must have a baccalaureate degree in engineering or science from an institution of recognized standing. Students must pass a qualifying examination prior to taking the final general comprehensive examination required by the Graduate School.

The MS is intended for those who seek advanced knowledge in materials science or engineering for a career in research or other professional practice. The applicant must have a baccalaureate degree or its equivalent in an engineering or scientific discipline from an institution of recognized standing. Those lacking the necessary background will be required to take additional course work to ensure the continuity of their educational and professional experience. The MS program consists of 30 credit hours selected from areas of study appropriate to the objectives of the applicant and includes a thesis. Students must pass a qualifying examination prior to taking the final comprehensive examination required by the Graduate School. The PhD program requires that students pass qualifying examinations (oral and written) with a greater proficiency than master’s students prior to taking the comprehensive examinations. The program is arranged on an individual basis with the student’s advisory committee and in accordance with Graduate School guidelines. Students admitted to the doctoral program are required to take the general comprehensive examination based on a research proposal developed by the student within two years after entering the program. The student should be prepared to be examined in all areas of materials engineering.

Mathematics — MAM, MS, PhD

Degree Programs

- Applied Mathematics Non-Thesis — MAM (p. 1706)
- Mathematics Option Thesis — MS (p. 1707)
- Mathematics — PhD (p. 1707)

Graduate Certificate

- Data Science (p. 1706)

The Department of Mathematics and Statistics offers programs leading to the master of science and doctor of philosophy in both pure and applied mathematics and non-thesis master's degrees in both applied mathematics and statistics. In addition, the department regularly offers actuarial science courses that are approved by both the Society of Actuaries and the Casualty Actuarial Society; they are designed to provide the background and material covered in the first three actuarial exams.

The master of applied mathematics gives students a strong foundation in one of several fundamental areas of applied mathematics. It is a flexible degree with courses being chosen in conjunction with the advisory committee, some of which may be relevant courses offered by other departments. The master of science degree in mathematics develops both content knowledge of the student through coursework, and provides the opportunity to delve deeper into an area of mathematics through the writing of a thesis. The Ph.D. is designed to give students a thorough understanding of a broad body of knowledge related to their field of study, as well as to develop their research capabilities. Ph.D. students are required to pass one oral and three written preliminary examinations. A statistics concentration is available for the Ph.D. degree (see Statistics).

The internationally known faculty of around 50 professors work in areas of algebra, analysis, applied mathematics, discrete mathematics, geometry, linear algebra, logic, numerical analysis, partial differential equations, probability, set theory, statistics and topology. Some professors maintain applied research programs associated with several government and industrial laboratories, and one holds the Associate of the Society of Actuaries designation.

Admission to the program is based on a student's undergraduate record, three letters of recommendation from former teachers, GRE scores and graduate GPA (for doctoral students). The GRE subject test is not required. A bachelor's degree in mathematics is not required, but students without such a background may be expected to take additional courses to make up for deficiencies. The department follows the guidelines for graduate degrees set forth in this *Bulletin*. Doctoral students must satisfy the departmental preliminary examination requirement to continue their teaching assistantship. Course work in mathematics may be transferred from other institutions, subject to university limitations (See math.auburn.edu (https://www.auburn.edu/cosam/departments/math/)).

Most students in the program are supported financially during their studies through Graduate Teaching Assistantships and through tuition waivers given to all teaching assistants (with some restrictions). The Baskervill, Fitzpatrick, and Haynesworth Fellowships (around $5,000 each) are awarded annually to qualified students in the Department of Mathematics and Statistics. The department occasionally has Graduate Research Assistantships available in conjunction with departmental contractual research programs. The department requires that all international GTAs who have responsibility for teaching a class be proficient in English, passing the test of spoken English.

Mechanical Engineering — MS, PhD

Degree Programs

- Mechanical Engineering — MS (p. 1708)
- Mechanical Engineering — PhD (p. 1708)

The Mechanical Engineering Department offers graduate programs of instruction and research leading to the degrees of master of science (thesis and non-thesis options), and doctor of philosophy. Educational and research facilities are available to support graduate study in solid mechanics, experimental mechanics, electronic packaging and reliability, fracture and failure mechanics, robotics, vibrations, controls, dynamical systems, engineering design, additive manufacturing, friction-lubrication-wear, computer-aided design, fluid dynamics, transportation systems, conventional and renewable energy systems, thermal/fluid sciences, HVAC systems and nanotechnology applications. The applicant must hold a bachelor's degree or its equivalent from an institution of recognized standing. If the applicant's undergraduate degree is not closely related to mechanical engineering, an individualized plan of study will be developed to impart the critical skills inherent in the bachelor's mechanical engineering program. This typically includes completing a prescribed number of core undergraduate mechanical engineering courses in addition to the graduate requirements. All applicants must submit Graduate Record Examination scores for the General Test and will be evaluated on an individual basis by the Mechanical Engineering Graduate Committee.

MS (Non-Thesis Option): This degree is intended for those applicants who expect to enter the engineering profession at an advanced level or those who are employed and seeking professional development. Requirements for the degree consist of completing 30 credit hours of 6000-7000 level courses. A minimum of 21 credit hours of graded course work should be in mechanical engineering. Substitution of courses from other engineering/science disciplines is permitted with prior approval when appropriate courses are

unavailable in mechanical engineering. A committee of three faculty members including a major professor will supervise the plan of study of each student. There is no faculty supervised project requirement.

MS (Thesis Option): This degree is intended for those applicants who expect to enter the engineering profession at an advanced level with some creative research experience. The MS applicant must have a baccalaureate or its equivalent in an engineering or scientific discipline from an institute of recognized standing. The degree requires 30 credit hours of 6000-7000 level courses including 6 credit hours of MECH 7990 and 9 credits of graduate engineering/science technical elective courses. A minimum of 15 credit hours of graded course work should be in mechanical engineering courses. Substitution of courses from other engineering/science disciplines is permitted with prior approval when appropriate courses are unavailable in mechanical engineering. All candidates must pass an oral defense of their written thesis including a comprehensive examination covering the major courses. A committee of at least three faculty members including the major professor will take part in evaluating the thesis.

Doctor of Philosophy (PhD): This degree provides for advanced coursework and emphasizes original, creative research. A dissertation embodying the results of this research represents a major portion of the requirements for this degree. The PhD program will consist of a minimum of 60 credit hours, including dissertation, beyond the BS degree. PhD students will select their major courses from those at the 7000-8000-level unless there are special requirements for more basic courses. A minimum of 21 credit hours of graded course work should be in mechanical engineering courses. This amount could include up to 4 credit hours of MECH 7990 or equivalent. Substitution of courses from other engineering/science disciplines is permitted when appropriate courses are unavailable in mechanical engineering. The PhD also requires a coordinated minor of at least 9 credit hours of graded coursework in a closely related field such as mathematics, physics, chemistry, or other engineering disciplines. A minimum of 10 credit hours of MECH 8990 Research & Dissertation is also required. There is no language requirement for the PhD.

The General Doctoral Examination (Preliminary Examination) must be taken by those seeking a PhD. This examination, administered by the major professor in coordination with members of a committee of at least four faculty (including the major professor) consists of two parts: (1) a written Qualifying Examination based upon knowledge acquired from coursework, taken four semesters from the date of entry, and (2) an oral examination which includes questions on knowledge acquired from coursework as well as a presentation and defense by the student of his/her proposed dissertation research. All PhD candidates must also pass a Final Examination consisting of an oral defense of their written dissertation. A maximum of two attempts each is allowed for passing the General Doctoral Examination and the Final Examination.

Medicinal Chemistry — Graduate Certificate

This graduate certificate enables students to obtain training and to become credentialed in the field of medicinal chemistry. This field encompasses the study of drug mechanisms of action and biodisposition (absorption, distribution, metabolism and elimination), the design and synthesis of bioactive molecules, the detection and quantification of bioactive molecules, and the chemistry of natural products. Thus, the knowledge base and credentialing available through this program will enhance the ability of students to obtain employment, particularly, but not exclusively, in the pharmaceutical industry.

Pharmaceutical Sciences: Medicinal Chemistry Option — MS

The Auburn University Harrison College of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The MS degree is offered under the thesis option. Students must earn a minimum of 30 semester hours of graduate courses (6000–8999). Thesis students register for Research and Thesis in semester(s) when working on the thesis, when submitting, defending or awaiting final approval of the thesis, and when taking final examinations. Candidates for the MS degree are required to prepare a thesis proposal and complete a proposal defense.

For the MS Program, students must complete a Core Curriculum outlined below.

Code	Title	Hours
DRDD 7090	Pharmaceutical Science I: Targets	4
DRDD 7100	Pharmaceutical Science II: ADME	4
DRDD 7230	Advanced Medicinal Chemistry I	3
DRDD 7240	Advanced Medicinal Chemistry II	3
DRDD 7260	Separation Science	4
DRDD 7950	Seminar (May be repeated multiple times for credit.)	1
DRDD 7990	Research and Thesis (Total of 4 CR required)	1-6

In addition to the specific core course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 30 hour degree requirement.

Pharmaceutical Sciences: Medicinal Chemistry Option (Non-Thesis) — MS

Pharmaceutical Sciences Non-Thesis Masters Degree Program — Medicinal Chemistry Option

A. Program Administration

Admission to the program will be accompanied by assignment to a specific Medicinal Chemistry faculty member, who will serve as the research mentor for the student. Thus, admission to the program will be offered only upon approval of that faculty member. Upon acceptance of admission, the student will work with the faculty member to formulate an advisory committee. This advisory committee will consist of no fewer than three members and a majority of members must come from the Medicinal Chemistry option. This committee will assist the faculty mentor in the selection of coursework and in oversight of the student's research activity. In particular, the committee will assist the faculty member in evaluating the student's performance in the non-thesis research course (DRDD 7980). Because of the demands of this program, students will not be permitted to engage in outside employment while enrolled in the program.

B. Program Curriculum

1. Curricular Overview

The required courses of this curriculum are aligned with the three core competencies of the graduate program: Scientific Communications, Data Analyses and Interpretation, and Experimental Design. The Scientific Communications requirement (3 credits) is to be fulfilled by DRDD 7950 (1 credit per semester). The Data Analyses and Interpretation requirement (3 credits) is to be fulfilled by DRDD 7230 (3 credits). The Experimental Design requirement (3 credits) is to be fulfilled by DRDD 7980 (1–3 credits per semester).

Additional required courses for this option are listed below. DRDD 7950 (1 credit per semester) is required for each Fall and Spring semester enrolled in the program. Four credits of DRDD 7980 (1–3 credits per semester) are required for graduation; furthermore, DRDD 7980 is required for each semester enrolled in the program.

Code	Title	Hours

DRDD 7230	Advanced Medicinal Chemistry I	3
DRDD 7260	Separation Science	4
DRDD 7950	Seminar (May be repeated multiple times for credit.)	1
DRDD 7980	Non-Thesis Research (Total of 4 CR required)	1–6

In addition to the specific core and option course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 30 hour degree requirement.

---

1 Students must take DRDD 7950 each fall and spring semester. A total of at least 3 credit hours are required.
2 Students must take 1–3 hours of DRDD 7980 each semester. A total of at least 6 credit hours are required.
3 At least 2 credit hours of restricted electives are required from the following list: CHEM 7220, DRDD 7600.

Pharmaceutical Sciences: Medicinal Chemistry Option — PhD

The Auburn University Harrison College of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes and are affiliated with the Department of Drug Discovery and Development. Areas of interest include

neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The PhD program requires a minimum of 60 semester hours earned through instruction beyond the bachelor's degree including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (6000–8999); and 2) a minimum of 30 semester hours of additional graduate course work (6000–8999) that may include ungraded courses, and must include at least 10 hours of research and dissertation. A general examination, often called the preliminary examination, is required of all applicants for the degree of doctor of philosophy. It consists of written and oral testing. The student becomes a candidate for the degree upon successful completion of the general examination. Students working on the dissertation, submitting their dissertation or awaiting approval of their final examination must register for Research and Dissertation in the semester(s) when these steps occur. Candidates for the PhD degree must complete a dissertation proposal and successfully defend their proposal during the final examination.

For the PhD program, students must complete a core curriculum outlined below.

Code	Title	Hours
DRDD 7090	Pharmaceutical Science I: Targets	4
DRDD 7100	Pharmaceutical Science II: ADME	4
DRDD 7230	Advanced Medicinal Chemistry I	3
DRDD 7240	Advanced Medicinal Chemistry II	3
DRDD 7250	Drug Action and Design	3
DRDD 7260	Separation Science	4
DRDD 7270	Mass Spectrometry of Organic Compounds	4
DRDD 7600	Heterocyclic Medicinal Chemistry	3
DRDD 8950	Seminar (May be repeated multiple times for credit.)	1
DRDD 8990	Research And Dissertation (Total of 10 CR required)	1-10

In addition to the specific core and option course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 60 hour degree requirement.

Natural Resources — MNR, MS

Degree Programs

- Natural Resources — MNR (On-campus or Online) (p. 1712)
- Natural Resources — MS (On campus only) (p. 1712)
- Professional Forester Option — MNR (On campus only) (p. 1712)

Graduate study in natural resources leads to the Master of Natural Resources (MNR), Master of Science (MS), or MNR — Professional Forester degrees. In addition to meeting Graduate School admission requirements, applicants are evaluated and recommended for admission by the graduate faculty of the College of Forestry, Wildlife and Environment based on an examination of scores on the TOEFL tests for international students, previous academic records, experience, and recommendations. While exceptions may be made, the faculty generally expect a minimum GPA of 3.0 in previous academic course work. Course deficiencies are identified by the student's advisory committee and approved by the GPO with due consideration for the student's previous training and experience.

Degrees Offered

- **Master of Natural Resources (MNR)** — The **MNR** is a non-thesis degree.

  Natural Resource Management is available for individuals with a baccalaureate degree who are interested in careers in the natural resources arena. This degree can be completed in 3–4 semesters depending upon coursework selected and requires a minimum of 30 semester hours of on-campus or online distance education graduate courses.

- **Master of Science** (**MS**) A research proposal and thesis based on original research are required components of the MS degree. The program normally requires 2 – 3 years for completion. The MS degree program requires a minimum of 30 hours beyond the bachelor's degree at the graduate level, 21 hours of which must be in the major. A minimum of 4 but not more than 6 hours in Research and Thesis (FORY 7990) is required. All MS students are required to take Research Methods (FORY 7510), Seminar (FOWS 7950), and Research and Thesis (FORY 7990).
- **MNR - Professional Forester Option** is for individuals with baccalaureate degrees in fields other than forestry and those who are interested in becoming Registered Foresters in Alabama. This track is a two-year program which begins with a 10-week summer Field Practicum and requires a minimum of 64 semester hours. This includes 34 hours of specified undergraduate course work plus 30 hours of graduate course work. The MNR Professional Forester option degree program is accredited by the Society of American Foresters (SAF). SAF is the accrediting body recognized by the Council on Higher Education Accreditation as the accrediting agency for forestry education in the United States. Graduation from such SAF-accredited programs is required of all applicants for Registered Forester status in Alabama and several other states.

Natural Resources — MNR

Code	Title	Hours
Natural Resources (MNR)		
Select 30 Credits in @ 6000-8999 (Electives)		30
Total Hours		**30**

Natural Resources (Distance Option) — MNR

The distance-learning option enables students to participate in online learning. The College of Forestry, Wildlife and Environment offers the Masters of Natural Resources distance program (non-thesis), which is the online version of the Masters of Natural Resources (non-thesis option) program. The MNR (non-thesis) degree requires a minimum of 30 graduate semester credit hours. All courses in the degree must be taken for a grade.

Natural Resources (MNR)
Select 30 Credits in @6000 – 8999 (Electives)

Professional Forester Option — MNR

The Master of Natural Resources (MNR) Professional Forester option is for individuals with baccalaureate degrees in fields other than forestry and those who are interested in becoming Registered Foresters in Alabama or elsewhere in the United States. This degree program is a two-year program which begins with a 10 week summer Field Practicum and requires a minimum of 65 semester hours of which 35 hours of specified undergraduate course work plus 30 hours of graduate course work.

The MNR Professional Forester program is accredited by the Society of American Foresters (SAF). SAF is the accrediting body recognized by the Council on Higher Education Accreditation as the accrediting agency for forestry education in the United States. Graduation from such SAF-accredited programs is required of all applicants for Registered Forester status in Alabama and several other states.

Neuroscience Certificate

The **Certificate Program in Neuroscience** at Auburn University is tailored for MS/PhD students who have a keen interest in brain-related sciences but are primarily focused on a different subject area. To earn the certificate, students must complete 12 credit hours from various departments and colleges. At least one elective must be taken outside the student's home department, and all courses must be completed with a "B" average or higher. Courses are taught by distinguished research faculty from multiple departments and schools/colleges, preparing the next generation of neuroscientists.

Code	Title	Hours
Choose 12 hours from courses below:		
DRDD 7000	Introduction to Grant Writing [1]	3
DRDD 7280	Neuroscience Methods	3
DRDD 7290	Neuropharmacology of Drug Abuse	2
DRDD 7300	Neuropharmacology	3
DRDD 7310	Psychopharmacology I	3
DRDD 7320	Psychopharmacology II	3
PHYS 5600/6600	Frontiers of Physics	3
PSYC 5610	Behavioral Effects of Environmental Contaminants	3
PSYC 6620	Neuropharmacology and Behavior	3
PSYC 7150	Biological Psychology [2]	3
PSYC 7400	Cognitive Neuroscience [2]	3
VBMS 7000	Neuroanatomy	5
VBMS 7160	Neuroscience [2]	4
VBMS 7960	Veterinary Neuroradiology	1

1 *To count towards the certificate requirement, the application must be neuroscience-related.*
2 *Recommended introductory courses to neuroscience.*

Nursing: Doctor of Nursing Practice — DNP

The Doctor of Nursing Practice (DNP) is the terminal practice degree for advanced nursing practice. The DNP degree program at Auburn University College of Nursing can be completed as a post-master's or BSN to DNP program. The post-master's DNP is designed for students who are advanced practice registered nurses and hold national certification in the advanced practice role prior to starting the DNP program. The BSN to DNP is designed for students who have completed a BSN program and hold licensure as a registered nurse.

The DNP program is designed to prepare nurses for the highest level of clinical nursing practice with a focus on enhancing leadership skills, improving patient outcomes, and translating research into practice. The program emphasizes evidence-based practice, quality improvement, and systems leadership, equipping nurses with the advanced knowledge and skills needed to lead in various healthcare settings. Courses are delivered primarily online, with some on-campus requirements.

Post-Master's DNP Pathway

The post-master's DNP pathway is designed for advanced practice registered nurses (APRNs) who already hold a master's degree in nursing. This pathway builds on the competencies acquired at the master's level and provides additional specialized knowledge and skills. The pathway requires 41 credit hours and can be completed in six semesters of full-time study. Students complete a practice-focused scholarly project and 300 practicum hours during the last three semesters of study. Some students may need to complete more credits beyond the 40 required for graduation to meet the *Commission on Collegiate Nursing Education Standards for Accreditation of Baccalaureate and Graduate Nursing Programs* (2024) practicum hour requirement of at least 1,000 post-baccalaureate practicum hours. Students may take and repeat NURS 8540 Advanced Practice Practicum until the 1,000 hours are achieved.

BSN to DNP Pathway

The BSN to DNP pathway is tailored for registered nurses who hold a Bachelor of Science in Nursing (BSN) and wish to pursue a Doctor of Nursing Practice degree. This pathway requires 71 credit hours, 1,140 practicum hours, and can be completed in nine

semesters of full-time study. Once students in this pathway complete the first six semesters, they become eligible to sit for the Nurse Practitioner (NP) certification exam.

Admission to the DNP Program is competitive and all qualified applicants may not be admitted. All applications must meet the admission criteria for applications to be considered complete and to be considered for admission.

Admission Criteria

- Submission of all official transcripts to the Graduate School
- Nursing GPA of 3.0 on a 4.0 scale (in master's program for post-MSN)
- Good academic standing from last university attended
- A master's degree (post-MSN pathway) or bachelor’s degree in nursing (BSN to DNP pathway) from an accredited nursing program: Commission on Collegiate Nursing Education (CCNE), Accreditation Commission for Education in Nursing (ACEN), or NLN Commission for Nursing Education Accreditation (CNEA).
- Current unencumbered license as a registered nurse in the state in which student plans to participate in clinical experience
- National certification and recognition or licensure as a nurse practitioner or nurse anesthetist in the state where practicing
- Three professional references for online recommendation form – References should be qualified to judge abilities to be successful in graduate studies.
- 500-word Professional Goal Statement; statement will address reasons for pursuing the DNP degree, past clinical experiences, career goals, and past achievements.
- Resume or curriculum vitae
- Personal interview with a faculty member may be required

College of Nursing Specific Admission and Progression Information

- If applicant is currently a student in last semester of a BSN or MSN NP program (at time of application), the applicant must submit a request for waiver of the BSN and RN licensure or MSN and NP certification admission requirements to the DNP Coordinator. If waiver request is approved and applicant is admitted, the student must complete the degree in good standing prior to enrollment and must obtain the RN licensure or NP certification during the first semester of study. These applicants will be admitted under provisional status until all admission requirements are fulfilled. An official transcript indicating completion of the degree must be submitted directly to the Graduate School and documentation of RN licensure or NP Certification must be submitted to AU College of Nursing before the student will be a fully approved admission. If a waiver is obtained, these applicants will be considered based on the nursing GPA on the current transcript.
- Applicants may be admitted under provisional status, if otherwise qualified, if the nursing GPA is less than 3.0 on 4.0 scale.
- Once the student has completed 9 hours of graduate credit with a cumulative graduate GPA of 3.0 or higher on a 4.0 scale, the provisional status will be removed. Failure to meet the requirement as stated will prevent progression in the nursing graduate program.
- Students must complete the Letter of Intent form sent by the AU College of Nursing, accept enrollment within their application, and meet all compliance requirements by the deadline indicated on the admission offer.
- Students are required to provide compliance documentation and must complete a background check and drug screen. All compliance documentation, background check, drug screen, and any requirements by Auburn University and/or College of Nursing must be completed by the deadline indicated, prior to registering for courses. Students who fail to satisfy all requirements for admission within the specified time period will be dismissed from the nursing graduate program.
- To progress through the program, students must receive a grade of at least a B in all courses. Students earning any two course grades of less than a B will be dismissed from the graduate program.

Code	Title	Hours
Semester I		
NURS 8320	Informatics and Technology in Healthcare	3
NURS 8510	Foundation for Evidence-Based Practice *	3
NURS 8710	Transitional Skills for DNP Practice *	2

Total Hours		**40**

* NURS 8710 and NURS 8510 marked * are pre-requisites to both NURS 8720 Health Innovations and Clinical Outcomes Improvements and NURS 8930 DNP Project Practicum I: Development.
* NURS 8720 and NURS 8350 marked * are pre-requisites to NURS 8930 DNP Project Practicum I: Development. DNP Project courses I, II and III must be taken in sequence.
** STAT 7000 marked ** may be pre-requisite *or* co-requisite to NURS 8930 DNP Project Practicum I: Development.

- DNP Project courses I, II, and III must be taken in sequence.
- NURS 8540 Advanced Practice Practicum is only required for students with <700 clinical hours from Master's Program.
- Courses listed under each semester are only taught during that semester.

Doctor of Philosophy in Nursing — PhD

The PhD in Nursing is designed for nurses who are driven to discover, challenge, and lead in healthcare science, policy, intervention, and technology. Auburn’s PhD students will work alongside scholars and scientists in many disciplines, developing innovative and practical solutions to the healthcare challenges of today and the future.

PhD graduates will provide leadership to the nursing profession: preparing new generations of professionals, expanding healthcare excellence in their communities and globally, driving innovative research and scientific advancement, and exploring new technologies and programs to create lasting health and wellness.

There are two pathways for admission: MSN-PhD or DNP-PhD. Full-time PhD students can complete their plan of study in nine semesters. The PhD program is primarily online. Auburn uses a variety of state-of-the-art online and distance learning technologies and techniques to facilitate the program and enrich the student learning experience. PhD students are admitted in fall semester only. The application deadline is June 1.

Admission Criteria

- Possess a current, unencumbered RN license from your state of residence within the United States.
- Have earned a master's degree in nursing or Doctor of Nursing Practice degree from an accredited nursing program with a minimum nursing GPA of 3.0 (MSN or DNP nursing courses are used to calculate the nursing GPA).
- Provide three professional references for the online recommendation form from individuals familiar with your capabilities for doctoral study and for future performance as a nurse scholar and researcher. Generally, two references from former professors are expected.
- Submit a Professional Goal Statement of approximately 750-1,000 words indicating your present research interests and career goals, including how the PhD in nursing will prepare you to achieve those goals. Describe any prior experiences that have prepared you for doctoral study (e.g., previous research presentations and leadership roles in practice, education, or professional organizations).
- Provide a writing sample (e.g., published paper or paper from previous degree program is acceptable).
- Provide a current curriculum vitae (CV) or resume.
- Complete an interview via telephone, on-campus, or video-conference.
- Submit all official transcripts to the Graduate School.

College of Nursing Specific Admission and Progression Information

Applicants must meet all College of Nursing admission criteria. Applicants may be admitted under fully approved status, or under provisional or exception status. Approved admissions meet all the criteria listed for the Graduate School and any additional criteria for the college. Provisional or exception status admission *may* be granted for students who do not meet certain requirements for admission. Applicants admitted as provisional or as an exception will be fully admitted to the nursing graduate program only when all requirements for admission have been satisfied. Applicants admitted as provisional or as an exception who fail to satisfy all requirements for admission within the specified time period will be dismissed from the nursing graduate program.

Continuation Requirements:

To progress through the program, all nursing graduate students must earn a grade of at least a B in all courses. Students receiving any two course grades of less than a B will be dismissed from the program. All PhD students must take and pass a comprehensive examination before commencing their dissertation research. The PhD comprehensive examination can be taken once the student has completed at least 28 credit hours of PhD course work.

Nursing — MSN

Track Options:

- Nurse Practitioner Primary Care — MSN (p. 1722)
- Nurse Educator — MSN (p. 1723)

The College of Nursing offers a Master's of Science in Nursing (MSN) with two program options: Nurse Educator and Primary Care Nurse Practitioner. Both program options share a core curriculum and have track specific courses. Courses are delivered primarily online, with some on-campus requirements. MSN graduates are ready to lead in educator and advanced practice nursing roles in health-related services to diverse populations.

Admission to all program options is competitive and all qualified applicants may not be admitted. All applications must meet the admission criteria for applications to be considered complete and to be considered for admission.

Admission Criteria

- Submission of all official transcripts directly to the Graduate School
- A Bachelor of Science degree in nursing from an accredited college or university or waiver request granted (see below)
- Nursing grade point average (GPA) of 3.0 on a 4.0 scale (students with GPAs lower than 3.0 may be considered for provisional admission if otherwise qualified)
- Current unencumbered license as a registered nurse in the state in which student plans to participate in any clinical experience
- Three professional references for online recommendation form - References should be qualified to judge abilities to be successful in graduate studies
- 500 word professional goal statement
- Current resume or curriculum vitae
- Successful completion (C or better) of an undergraduate statistics course
- Good academic standing from last university attended

College of Nursing Specific Admission and Progression Information

- If applicant is a student in the final semester of a BSN program at time of application, the applicant must submit a request to the Nurse Educator or Nurse Practitioner Program Coordinator for a waiver to apply. If waiver is approved, the applicant must successfully complete the BSN program in good standing before admission and must obtain the RN license during the first semester of study. These students will be admitted as provisional until the RN license is obtained. An official transcript indicating completion of the BSN program must be sent directly to the Graduate School and proof of RN license must be provided to the College of Nursing in order to remove the provisional status. If a waiver is granted, these applicants will be considered based on the nursing GPA on their current transcript.
- Students may be interviewed by the Graduate Admission, Progression, and Graduation Committee and other faculty and/or community members.
- Students must accept enrollment within their application and complete the letter of intent by the date indicated on the admission offer.

- Students are required to submit required compliance documentation, including a background check and drug screen. All compliance requirements must be completed by the date indicated prior to course registration. Students who fail to satisfy all requirements for admission within the specified time period will be dismissed from the nursing graduate program.
- To progress through the program, all AUCON graduate students must receive a grade of at least a B in all courses. Students earning any two course grades of less than a B will be dismissed from the graduate program.

Students may be admitted full-time (fall semester only) or part-time (fall, spring, or summer semester). Courses are offered only one time each academic year, therefore, changing status from full-time to part-time may impact planned graduation dates. Application deadlines are: (1) Summer Semester- March 1, (2) Fall Semester-June 1, and (3) Spring Semester-October 1. The application is completed online and may be found on the Auburn University Graduate School webpage and the Auburn University College of Nursing webpage.

Nursing Education Graduate Certificate

The purpose of the Post-Master's (MSN) Nursing Education Certificate program is to provide specialization in nursing education for nurses who already hold a Master's degree in nursing.

Admission to the Post-MSN Nursing Education Certificate program is competitive and all qualified applicants may not be admitted. All applications must meet the admission criteria for applications to be considered for admission.

Admission Criteria

- Master's of Science in Nursing (MSN) or Master's in Nursing (MN or MS) from an accredited nursing program
- Current unencumbered license as a registered nurse in the United States
- Nursing GPA of 3.0 on a 4.0 scale in the Master's Program
- Good academic standing from the last university attended

- Successful completion of Advanced Pathophysiology, Advanced Pharmacology, and Advanced Physical Assessment with 3.0 or higher within the last 5 years
- Successful completion (C or better) of an undergraduate statistics course
- Three professional references for online recommendation form — References should be qualified to judge abilities to be successful in graduate studies.
- 500-word Professional Goal Statement
- Submission of all official transcripts sent directly to the Graduate School
- Current resume or curriculum vitae

College of Nursing Specific Admission and Progression Information

- If applicant is a student in the last semester of an MSN program at time of application, the applicant must submit a request for waiver of the MSN Nursing Education Graduate Certificate to the Nurse Educator Program Coordinator. If waiver is granted, the applicant must complete the MSN Program in good standing before admission and meet the admission requirements during the first semester of study. These students will be admitted as provisional until the requirements are met. An official transcript indicating completion of the MSN program must be sent directly to the Graduate School in order to remove the provisional status. If a waiver is granted, the applicant will be considered based on the nursing GPA on their current transcript.
- Students may be interviewed by the Graduate Admission, Progression, and Graduation (APG) Committee and other faculty and/or community members.
- Students must accept enrollment within their application and complete the letter of intent by the date indicated on the admission offer.
- Students are required to submit required compliance documentation, including a background check and drug screen. All compliance requirements must be completed by the date indicated prior to course registration. Students who fail to satisfy all requirements for admission within the specified time period will be dismissed from the nursing graduate program.
- To progress through the program, all AUCON graduate students must receive a grade of at least a B in all courses. Students earning any two course grades of less than a B will be dismissed from the graduate program.

First Year	
Summer	**Hours**
NURS 7260 Transition from Clinician to Nurse Educator	2
NURS 7210 Evidence-Based Teaching Strategies	2

First Year	
Fall	**Hours**
NURS 7320 Curriculum Development and Evaluation	4

First Year	
Spring	**Hours**
NURS 7810 Nursing Education Practicum (180 Practicum hrs, 3 Clinical)	3

* Courses only taught during semester listed.

*Total Credit Hours = 11; Total Clinical Hours = 180

Nursing: Primary Care Nurse Practitioner — Graduate Certificate

The Post-Master's Primary Care Nurse Practitioner (PCNP) Certificate program is offered to nurses who hold a master's degree in another specialty area. Students who complete the PCNP graduate certificate can apply to sit for the certification exam to be licensed as a family nurse practitioner. Students who complete the certificate program will be ready to lead in advanced practice roles in health-

related services for diverse populations. The PCNP Certificate program is offered via a hybrid format which includes online courses and some on-campus sessions.

Admission to the Post-MSN Certificate program is competitive and all qualified applicants may not be admitted. All applications must meet the admission criteria to be considered for admission.

Admission Criteria

- Master's of Science in Nursing (MSN) or Master's in Nursing (MN or MS) from an accredited nursing program
- Current unencumbered license as a registered nurse in the United States
- Nursing GPA of 3.0 on a 4.0 scale in the master's Program
- Good academic standing from the last university attended
- Successful completion of Advanced Pathophysiology, Advanced Pharmacology, and Advanced Physical Assessment with 3.0 or higher within the last 5 years
- Successful completion (C or better) of an undergraduate statistics course
- Three professional references for online recommendation form - References should be qualified to judge abilities to be successful in graduate studies
- 500-word Professional Goal Statement
- Submission of all official transcripts sent directly to Graduate School
- Current resume or curriculum vitae

College of Nursing Specific Admission and Progression Information

- If applicant is a student in an MSN program at time of application, the applicant must submit a request for waiver of the MSN and NP certification admission requirements to the Nurse Practitioner Program Coordinator. If waiver is approved, the applicant must complete the MSN in good standing before admission and must obtain the NP certification during the first semester of study. These students will be admitted as provisional until the NP Certification is obtained. An official transcript indicating completion of the MSN and documentation of NP Certification must be provided to AUCON and the Graduate School to remove the provisional status. If a waiver is obtained, these applicants will be considered based on the MSN GPA on their current transcript.
- Students may be interviewed by the Graduate Admission, Progression, and Graduation Committee and other faculty and/or community members.
- Students must accept enrollment within their application and complete the letter of intent by the date indicated on the admission offer.
- Students are required to submit required compliance documentation, including a background check and drug screen. All compliance requirements must be completed by the date indicated prior to course registration. Students who fail to satisfy all requirements for admission within the specified time period will be dismissed from the nursing graduate program.
- To progress through the program, all AUCON graduate students must receive a grade of at least a B in all courses. Students earning any two course grades of less than a B will be dismissed from the graduate program.

- Courses listed under each semester are taught only during that semester.
- **NURS 7340 Advanced Theoretical Foundations of Nursing and NURS 7210 Teaching Strategies: Methods, Design, and Technology** are pre-requisites to NURS 7320 Curriculum Development and Evaluation.

Nutrition — MS, PhD

- Nutrition — MS (p. 1727)
- Nutrition — PhD (p. 1728)

The Department of Nutritional Sciences offers graduate study leading to the Master of Science (MS) and the Doctor of Philosophy (PhD) degrees in nutrition. For the MS degree, the student may specialize in general, community, clinical or sports nutrition. The department emphasizes the integration of knowledge from various fields for the purpose of understanding and developing professional skills for careers in higher education, government, and food, and healthcare industries.

For admission to the MS or PhD programs, the student must have a bachelor's degree from an accredited institution, a satisfactory GPA, and acceptable undergraduate academic preparation. The admission committee will evaluate all application items, including transcripts, letters of recommendation, a statement of intent, and resume. International applicants are also required to submit satisfactory TOEFL scores. Applicants lacking background requirements in chemistry and anatomy and physiology for the nutrition program must make up deficiencies prior to starting the program.

The **MS degree** with a thesis track requires a minimum of 30 semester hours and a thesis. The MS degree with the nonthesis track requires a minimum of 33 semester hours and a scholarly research project.

Required courses for the thesis track in nutrition include:

Code	Title	Hours
NTRI 7500	Minerals	3
NTRI 7510	Vitamins	3
NTRI 7520	Macronutrients Integr Metabo	4
NTRI 7530	Human Nutrient Metabolism	4
ERMA 7300	Design and Analysis in Ed I	3-4
or STAT 7000	Experimental Statistics I	
NTRI 7050	Methods Of Research	3
NTRI 7850	Research Seminar for MS	1
NTRI 7990	Research And Thesis (minimum of 5 hours)	1-10
Elective Graduate Level Courses		5

The non-thesis track in Nutrition is available through both distance education and on campus.

Required courses for the non-thesis track in nutrition include:

Code	Title	Hours
NTRI 7500	Minerals	3
NTRI 7510	Vitamins	3
NTRI 7520	Macronutrients Integr Metabo	4
NTRI 7530	Human Nutrient Metabolism	4
ERMA 7300	Design and Analysis in Ed I	3-4
or STAT 7000	Experimental Statistics I	
NTRI 7050	Methods Of Research	3
NTRI 7850	Research Seminar for MS	1
NTRI 7980	Nonthesis Research (minimum of 5 hours)	1-6
Elective Graduate Level Courses		8

The MS in Nutrition (Non-Thesis) with Dietetic Internship Experience offers a minimum of 1200 hours of supervised field experience in conjunction with the MS degree to enable baccalaureate degree graduates of Didactic Programs in Dietetics (DPDs) the opportunity to fulfill the experiential requirements to sit for the Registration Examination for Dietitians. Students complete 9-credit hours of field experience taking NTRI 7010 Advanced Practicum in Dietetics as the elective courses for the non-thesis option. Academic coursework is completed over the first year, followed by the field experience. Supervised practice will occur in various settings, including acute and critical care, outpatient, long-term care, wellness, public health, community, school foodservice, and other professional settings. The Auburn University Dietetic Internship Experience emphasis is in Public Health and Community Nutrition. The supervised practice is completed regionally in Alabama and Georgia (within an approximate 60 mile radius) or may be arranged via distance at student-coordinated sites subject to approval by the Dietetic Internship Director. Graduates who successfully complete the Auburn University MS in Nutrition with Dietetic Internship Experience will be eligible to take the Registration Examination for Dietitians.

Examples of elective courses for the MS in nutrition may include:

Code	Title	Hours
NTRI 6820	Nutrition In The Life Cycle	3
NTRI 6560	Nutr And Food Service Mgt	3
NTRI 6020	Medical Nutrition I	4
NTRI 6030	Medical Nutrition II	4
NTRI 7620	Sports & Perform Nutrition	3
KINE 7680	Adv Physiology of Exercise	3
KINE 7700	Adv Physiology of Exercise II	3
KINE 8780	Biochemistry of Exercise	3
KINE 6500	Exercise Assessment & Testing	3
KINE 6400	Ex Assessment Rx & Programming	3
KINE 7750	Advanced Sport Psychology	3
VBMS 7070	Endocrinology	4
BIOL 6220	Intro Molecular Genetics	3
BIOL 6190	Cell And Mol Signal Transduct	3
BCHE 7220	Prin Of Cellular Molec Enzy	3
BIOL 6500	Immunology	3
BCHE 7280	Topics In Biochemistry	1-3
NTRI 7910	Practicum In Nutr and Dietetic	1-12
ADED 7600	Nature Of Adult Education	3
ADED 7060	Curic And Pgm Plan In Adult Ed	3

NTRI 7930	Advanced Independent Study	1-6
NTRI 7010	Advanced Practicum in Dietetic	1-9

PhD Degree

The PhD degree requires a minimum of 60 semester hours beyond the bachelor's degree, a general doctoral examination with written and oral components, and a dissertation describing original research in the area of nutrition. The student becomes a candidate for the degree on successful completion of the general examinations. Course requirements for the PhD degree in nutrition are the same as for the corresponding Master's degree or an equivalent course from another institution plus NTRI 8970, NTRI 8850, and NTRI 7280. Laboratories are available for human, animal, chemical, and physical research. Supporting courses to strengthen the nutrition major may be in, but not limited to, biochemistry, physiology, chemistry, animal science, kinesiology, education, and biostatistics.

Course requirements for the PhD degree in nutrition include:

Code	Title	Hours
NTRI 7500	Minerals	3
NTRI 7510	Vitamins	3
NTRI 7520	Macronutrients Integr Metabo	4
NTRI 7530	Human Nutrient Metabolism	4
NTRI 7280	Lab Meth In Food Sci And Nutr	3
ERMA 7300	Design and Analysis in Ed I	3-4
or STAT 7000	Experimental Statistics I	
ERMA 7310	Design & Analysis in Ed II	3
or STAT 7010	Experimental Statistics II	
NTRI 7050	Methods Of Research	3
NTRI 8850	Research Sem For Doct Program	1-2
NTRI 8970	Adv Top Nutr, Diet & Hosp Mngt	1-6
NTRI 8990	Research And Dissertation	1-10
Elective Graduate Level Courses		

Examples of elective courses for the PhD degree in nutrition may include:

Code	Title	Hours
NTRI 6020	Medical Nutrition I	4
NTRI 6030	Medical Nutrition II	4
NTRI 6560	Nutr And Food Service Mgt	3
NTRI 7620	Sports & Perform Nutrition	3
NTRI 6820	Nutrition In The Life Cycle	3
KINE 7680	Adv Physiology of Exercise	3
KINE 7700	Adv Physiology of Exercise II	3
KINE 8780	Biochemistry of Exercise	3
KINE 6500	Exercise Assessment & Testing	3
KINE 6400	Ex Assessment Rx & Programming	3
KINE 7750	Advanced Sport Psychology	3
VBMS 7070	Endocrinology	4
BIOL 6220	Intro Molecular Genetics	3
BIOL 6500	Immunology	3
BIOL 6190	Cell And Mol Signal Transduct	3
BCHE 7220	Prin Of Cellular Molec Enzy	3
BCHE 7280	Topics In Biochemistry	1-3
NTRI 7910	Practicum In Nutr and Dietetic	1-12
ADED 7600	Nature Of Adult Education	3

ADED 7060	Curic And Pgm Plan In Adult Ed	3
NTRI 7930	Advanced Independent Study	1-6
NTRI 7010	Advanced Practicum in Dietetic	1-9

Nutrition — MS

Code	Title	Hours

NTRI 7930	Advanced Independent Study	1-6
VBMS 7070	Endocrinology	4

[1] Required for Dietetic Internship track.

The Master of Science degree in Nutrition (non-thesis track) with Dietetic Internship requires a minimum of 34 semester hours. It will serve as an additional track for the MS Nutrition non-thesis track within the department. Students who successfully complete this program will be eligible to sit for the Registered Dietitian Nutritionist qualifying examination. The program will provide academic work and field work (practicum) to prepare future Registered Dietitian Nutritionists.

There are three graduate degrees outside of Nutrition that students can utilize for the required Master's Degree to be eligible for the Dietetic Internship. The three options are MEd in Adult Education, MS Hospitality Management, and MS Exercise, Performance, and Health Optimization. Each of these options will allow the Dietetic Internship practicum course (NTRI 7010) to serve as an elective course within the program.

One Health — Graduate Certificate

The One Health concept is based on the premise that health related interactions among people, animals, and the environment have profound influences on disease risk, transmission, and prediction efforts. This graduate certificate requires a minimum of 15 credits from the following list of on-campus and on-line distance education courses offered at Auburn University or the University of Alabama at Birmingham School of Public Health. Those completing the certificate program will increase their knowledge regarding relationships between One Health concepts and many other professions such as urban planning, engineering, and natural resource management. This certificate will also ensure students are competent in the fundamentals of One Health concepts and able to articulate linkages between One Health concepts and challenging technical problems related to the environment.

Social and Ethical Issues in Public Health (HCO 670) – This course examines ethical issues related to public health research and practice and explores the social issues that complicate ethical decision making.

Public Health Policy (HCO 604) – This course applies basic microeconomic principles to the study of the U.S. health care system and public health policy.

Required Courses - 6 Credits

Code	Title	Hours
FOWS 7200	Disease Ecology	3
FOWS 7400	Introduction to Public Health	3

Elective Courses - 9 Credits needed

Code	Title	Hours
Social and Ethical Issues in Public Health (HCO 670)		3
Public Health Policy (HCO 604)		3
FOWS 7300	Current Topics in One Health	1
HDFS 6930	Society and Health	3
FOWS 7500	Outbreaks to Pandemics: Emerging Infectious Diseases in a Modern World	2
NTRI 6100	Nutrition in Disease Prevention	2
NURS 8420	Population Health Outcomes	3

Pavement Analysis and Design — Graduate Certificate

The overall objective of the program is to provide interdisciplinary graduate-level education for those seeking advanced professional knowledge and skills in Pavement Analysis and Design, who do not wish to gain a graduate degree at this point.

Auburn's pavement and materials program is focused on making transportation networks sustainable. Our graduates make a positive impact locally, regionally, and globally. Students can take advantage of research studies conducted at Auburn University such as

projects about increasing the use of recycled materials, reducing greenhouse gas emissions, and extending the life of pavements to minimize reconstruction work.

This Graduate Certificate Program is built on top of the successful Engineering Online Program within the Samuel Ginn College of Engineering, which was ranked highly in U.S. News and World Reports for Best Online Engineering Programs. It is an on-campus equivalent educational program that combines traditional instruction with modern delivery methods to offer graduate degrees beyond Auburn's campus.

The program is structured to advance the working engineer's knowledge and skills in the rapidly changing field of pavement analysis and design. Engineers in the pavement analysis and design area are responsible for roadway design, construction, maintenance, and rehabilitation of pavements. Pavements – a primary component of transportation infrastructure – are engineered with a strong understanding of materials behavior, mechanistic principles, and construction details.

At a Glance

- The program requires students to take four related graduate courses (12 credit hours).
- Students attending courses online have the same professors as their on-campus peers.
- Students can access lectures online through a live feed or at their convenience via streaming video.
- The online schedule allows for flexibility to maintain a career while completing the program.

Faculty

Pavement analysis and design courses are taught by Auburn's outstanding civil engineering faculty and research professors from the National Center for Asphalt Technology (NCAT).

Pavement Materials — Graduate Certificate

This graduate certificate prepares individuals to advance an engineer's knowledge and skills in the rapidly changing field of pavement materials. Engineers in the pavement materials area are responsible for roadway design, construction, maintenance, and rehabilitation of pavements. Pavements, a primary component of transportation infrastructure, are engineered with a strong understanding of materials behavior, mechanistic principles, and construction details.

The certificate requires two required and two elective graduate courses (12 credit hours) from the following:

Code	Title	Hours
Required (6 hours)		
CIVL 6820	Design and Production of Asphalt Paving Mixtures (Required)	3
CIVL 7870	Advanced Characterization of Pavement Materials (Required - prerequisite CIVL 6820)	3
Electives (6 hours)		
CIVL 6810	Pavement Design and Construction	3
CIVL 7820	Advanced Pavement Design and Rehabilitation (Prerequisite CIVL 6810)	3
CIVL 7840	Pavement Management and Rehabilitation	3
CIVL 7860	Pavement Construction	3
CIVL 6630	Advanced Concrete Materials	3
CIVL 6970	Civil Engineering Special Topics (e.g., Asphalt Binders)	3
CIVL 7970	Special Topics in Civil Engineering	3
Total Hours		**12**

Pharmaceutical Sciences: Health Outcomes Research and Policy Option — MS

The Auburn University Harrison College of Pharmacy offers interdisciplinary MS and PhD degree programs in pharmaceutical sciences. Those pursuing one of these degrees must select one of four curricular options: 1) medicinal chemistry, 2) pharmaceutics, 3) pharmacology, or 4) health outcomes research and policy.

The medicinal chemistry, pharmaceutics and pharmacology options are designed for students interested in the drug discovery or development processes and are affiliated with the Department of Drug Discovery and Development. Areas of interest include

neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The MS degree is offered under the thesis option. Students must earn a minimum of 30 semester hours of graduate courses (6000–8999). Thesis students register for Research and Thesis in semester(s) when working on the thesis, when submitting, defending or awaiting final approval of the thesis, and when taking final examinations. Candidates for the MS degree are required to prepare a thesis proposal and complete a proposal defense.

For the MS Program, students must complete a Core Curriculum outlined below:

Code	Title	Hours
Scientific Communications (Three credits required)		3
HORP 7950	Seminar (may be repeated multiple times for credit)	
DRDD 7950	Seminar (may be repeated multiple times for credit)	
Data Analyses and Interpretation (Three credits required)		3
ERMA 7300	Design and Analysis in Education I	
DRDD 7010	Pharmacokinetics	
DRDD 7030	Drug Products and Biopharm	
DRDD 7230	Advanced Medicinal Chemistry I	
DRDD 7340	Organ Systems Pharmacology I	
DRDD 7360	Cellular & Molecular Pharmacology & Toxicology I	
STAT 7000	Experimental Statistics I	
Experimental Design (Three credits required)		3
HORP 7990	Research And Thesis (may be repeated multiple times for credit)	
DRDD 7990	Research and Thesis (may be repeated multiple times for credit)	
Option specific requirements for MS students pursuing the Health Outcomes Research and Policy option include:		
HORP 7510	Health Services Delivery and Evaluation	3
HORP 7520	Social and Behavioral Theory in Health	3
HORP 7530	Pharmaceutical Economics, Outcomes, and Policy	3
HORP 7540	Pharmacoepidemiology: Methods and Applications	3
HORP 7820	Research Methods and Design Health Science I	2
HORP 7950	Seminar (may be repeated multiple times for credit)	1
HORP 7990	Research And Thesis (Total of 4 CR required)	4
DRDD 7000	Introduction to Grant Writing	3
STAT 6110	Sas Programming and Applications	3

In addition to the specific core and option course requirements listed above, students must complete instructor approved graduate electives (6000–8999) to reach the 30 hour degree requirement.

Pharmaceutical Sciences: Health Outcomes Research and Policy Option (Non-Thesis) — MS

Pharmaceutical Sciences Non-Thesis Masters Degree Program — Health Outcomes Research and Policy Option

A. Program Administration

After the student is admitted to the non-thesis Masters Program, the student will be assigned to the Graduate Program Officer (GPO) as his/her temporary advisor. By the end of the second semester in the non-thesis MS program, the student must select a faculty member, who will serve as the research advisor for the student. The advisor selection process will be the same with PhD and thesis-option MS programs. The student will work with the research advisor to formulate an advisory committee. This advisory committee will consist of no fewer than three HORP faculty members. This committee will assist the research advisor in the selection of coursework

and in oversight of the student's overall progress. In addition, the committee will assist the research advisor in evaluating the student's performance in the non-thesis research course (HORP 7980). Because of the demands of this program, students will not be permitted to engage in outside employment while enrolled in the program.

B. Program Curriculum

1. Curricular Overview

The required courses of this curriculum are aligned with the three core competencies of the graduate program: Scientific Communications, Data Analyses and Interpretation, and Experimental Design. The Scientific Communications requirement (3 credits) is to be fulfilled by HORP 7950 (1 credit per semester). The Data Analyses and Interpretation requirement (3 credits) is to be fulfilled by ERMA 7300 or STAT 7000 (3 credits). The Experimental Design requirement (3 credits) is to be fulfilled by HORP 7980 (1–3 credits per semester, student must take a minimum of 4 to satisfy the degree requirement).

Code	Title	Hours
STAT 6110	Sas Programming and Applications	3
HORP 7510	Health Services Delivery and Evaluation	3
HORP 7520	Social and Behavioral Theory in Health	3
HORP 7530	Pharmaceutical Economics, Outcomes, and Policy	3
HORP 7540	Pharmacoepidemiology: Methods and Applications	3
HORP 7820	Research Methods and Design Health Science I	2
HORP 7950	Seminar [1]	3
HORP 7980	Non-Thesis Research [2]	4
Core Data Analysis Requirement [3]		3
Restricted Advisor Approved Electives [4]		3
Total Hours		**30**

1. Students must take HORP 7950 each fall and spring semester. A total of at least 3 credit hours are required.
2. Students may take 1–3 credit hours of HORP 7980 per semester. Students must take a total of 4 credit hours of HORP 7980.
3. STAT 7000 or ERMA 7300 must be taken to fulfill 3 credit hour core data analysis requirement.
4. At least 3 credit hours of restricted advisor approved electives are required.

Pharmaceutical Sciences: Health Outcomes Research and Policy Option — PhD

The Auburn University Harrison College of Pharmacy offers interdisciplinary MS and PhD degree programs in pharmaceutical sciences. Those pursuing one of these degrees must select one of four curricular options: 1) medicinal chemistry, 2) pharmaceutics, 3) pharmacology, or 4) health outcomes research and policy.

The medicinal chemistry, pharmaceutics and pharmacology options are designed for students interested in the drug discovery or development processes and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The health outcomes research and policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The PhD program requires a minimum of 60 semester hours earned through instruction beyond the bachelor's degree including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (6000–8999); and 2) a minimum of 30 semester hours of additional graduate course work (6000–8999) that may include ungraded courses, and must include at least 10 hours of research and dissertation. A general examination, often called the preliminary examination, is required of all applicants for the degree of doctor of philosophy. It consists of written and oral testing. The student becomes a candidate for the degree upon successful completion of the general examination. Students working on the dissertation, submitting their dissertation or awaiting approval of their final examination

must register for Research and Dissertation in the semester(s) when these steps occur. Candidates for the PhD degree must complete a dissertation proposal and successfully defend their proposal during the final examination.

For the PhD program, students must complete a core curriculum outlined below:

Code	Title	Hours
Scientific Communications (Six credits required)		6
HORP 8950	Seminar (may be repeated multiple times for credit)	
DRDD 8950	Seminar (may be repeated multiple times for credit)	
DRDD 7000	Introduction to Grant Writing	
Data Analyses and Interpretation (Six credits required)		6
ERMA 7300	Design and Analysis in Education I	
ERMA 7310	Design and Analysis in Education II	
MNGT 8400	Advanced Quantitative Methods for Management I	
DRDD 7010	Pharmacokinetics	
DRDD 7030	Drug Products and Biopharm	
DRDD 7230	Advanced Medicinal Chemistry I	
DRDD 7240	Advanced Medicinal Chemistry II	
DRDD 7340	Organ Systems Pharmacology I	
DRDD 7350	Organ Systems Pharmacology II	
DRDD 7360	Cellular & Molecular Pharmacology & Toxicology I	
DRDD 7370	Cellular & Molecular Pharmacology & Toxicology II	
STAT 7000	Experimental Statistics I	
STAT 7010	Experimental Statistics II	
Experimental Design (Six credits required)		6
HORP 8990	Research And Dissertation	
DRDD 8990	Research And Dissertation	
Option specific requirements for PhD students pursuing the Health Outcomes Research and Policy option include:		
HORP 7510	Health Services Delivery and Evaluation	3
HORP 7520	Social and Behavioral Theory in Health	3
HORP 7530	Pharmaceutical Economics, Outcomes, and Policy	3
HORP 7540	Pharmacoepidemiology: Methods and Applications	3
HORP 7820	Research Methods and Design Health Science I	2
HORP 8950	Seminar (may be repeated multiple times for credit)	1
HORP 8990	Research And Dissertation (total of 10 CR required)	10
DRDD 7000	Introduction to Grant Writing	3
STAT 6110	Sas Programming and Applications	3
In addition to the specific core and option course requirements listed above, students must complete instructor approved graduate electives (6000–8999) to reach the 60 hour degree requirement.

Pharmaceutical Sciences: Pharmaceutics Option — PhD

The Auburn University Harrison College of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The PhD program requires a minimum of 60 semester hours earned through instruction beyond the bachelor's degree including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (6000–8999); and 2) a minimum of 30 semester hours of additional graduate course work (6000–8999) that may include ungraded courses, and must include at least 10 hours of research and dissertation. A general examination, often called the preliminary examination, is required of all applicants for the degree of doctor of philosophy. It consists of written and oral testing. The student becomes a candidate for the degree upon successful completion of the general examination. Students working on the dissertation, submitting their dissertation or awaiting approval of their final examination must register for Research and Dissertation in the semester(s) when these steps occur. Candidates for the PhD degree must complete a dissertation proposal and successfully defend their proposal during the final examination.

For the PhD program, students must complete a core curriculum outlined below.

Code	Title	Hours
DRDD 7090	Pharmaceutical Science I: Targets	4
DRDD 7100	Pharmaceutical Science II: ADME	4
DRDD 7010	Pharmacokinetics	4
DRDD 7030	Drug Products and Biopharm	4
DRDD 8950	Seminar (May be repeated multiple times for credit.)	1
DRDD 8990	Research And Dissertation (Total of 10 CR required)	1-10

In addition to the specific core and option course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 60 hour degree requirement.

Pharmaceutical Sciences: Pharmaceutics Option — MS

The Auburn University Harrison College of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The MS degree is offered under the thesis option. Students must earn a minimum of 30 semester hours of graduate courses (6000–8999). Thesis students register for Research and Thesis in semester(s) when working on the thesis, when submitting, defending or awaiting final approval of the thesis, and when taking final examinations. Candidates for the MS degree are required to prepare a thesis proposal and complete a proposal defense.

For the MS Program, students must complete a Core Curriculum outlined below.

Code	Title	Hours
DRDD 7090	Pharmaceutical Science I: Targets	4
DRDD 7100	Pharmaceutical Science II: ADME	4
DRDD 7010	Pharmacokinetics	4
DRDD 7030	Drug Products and Biopharm	4
DRDD 7950	Seminar (May be repeated multiple times for credit.)	1
DRDD 7990	Research and Thesis (Total of 4 CR required)	1-4

In addition to the specific core and option course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 30 hour degree requirement.

Pharmaceutical Sciences: Pharmaceutics Option (Non-Thesis) — MS

A. Program Administration

Admission to the program will be accompanied by assignment to a specific Pharmaceutics faculty member, who will serve as the research mentor for the student. Thus, admission to the program will be offered only upon approval of that faculty member. Upon acceptance of admission, the student will work with the faculty member to formulate an advisory committee. This advisory committee will consist of no fewer than three members and a majority of members must come from the Department of Drug Discovery and Development. This committee will assist the faculty mentor in the selection of coursework and in oversight of the student's research activity. In particular, the committee will assist the faculty member in evaluating the student's performance in the non-thesis research course (DRDD 7980). Because of the demands of this program, students will not be permitted to engage in outside employment while enrolled in the program.

B. Program Curriculum

1. Curricular Overview

The required courses of this curriculum are aligned with the three core competencies of the graduate program: Scientific Communications, Data Analyses and Interpretation, and Experimental Design. The Scientific Communications requirement (3 credits) is to be fulfilled by DRDD 7950 (1 credit per semester). The Data Analyses and Interpretation requirement (3 credits) is to be fulfilled by DRDD 7030 (3 credits). The Experimental Design requirement (3 credits) is to be fulfilled by DRDD 7980 (1–3 credits per semester).

Additional required courses for this option are listed below. DRDD 7950 (1 credit per semester) is required for each Fall and Spring semester enrolled in the program. Four credits of DRDD 7980 (1–3 credits per semester) are required for graduation; furthermore, DRDD 7980 is required for each semester enrolled in the program.

Code	Title	Hours
DRDD 7090	Pharmaceutical Science I: Targets	4
DRDD 7100	Pharmaceutical Science II: ADME	4
DRDD 7010	Pharmacokinetics	4
DRDD 7030	Drug Products and Biopharm	4
DRDD 7930	Directed Studies in Pharmacal Sciences	2
DRDD 7950	Seminar (May be repeated multiple times for credit.)	1
DRDD 7980	Non-Thesis Research (Total of 4 CR required)	1–6

In addition to the specific core and option course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 30 hour degree requirement.

1 Students must take DRDD 7950 each fall and spring semester. A total of at least 3 credit hours are required.
2 Students must take 1–3 hours of DRDD 7980 each semester. A total of at least 3 credit hours are required.
3 At least 7 credit hours of restricted electives are required from the following list: DRDD 6800, DRDD 7020, DRDD 7021, DRDD 7050, DRDD 7060, DRDD 7110, DRDD 7260, DRDD 7270, DRDD 7360, DRDD 7930, DRDD 7960.

Pharmaceutical Sciences: Pharmacology Option — MS

For the MS Program, students must complete a Core Curriculum outlined below.

The Auburn University Harrison College of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The MS degree is offered under the thesis option. Students must earn a minimum of 30 semester hours of graduate courses (6000–8999). Thesis students register for Research and Thesis in semester(s) when working on the thesis, when submitting, defending or awaiting final approval of the thesis, and when taking final examinations. Candidates for the MS degree are required to prepare a thesis proposal and complete a proposal defense.

Code	Title	Hours
DRDD 7090	Pharmaceutical Science I: Targets	4
DRDD 7100	Pharmaceutical Science II: ADME	4
DRDD 7340	Organ Systems Pharmacology I	3
DRDD 7360	Cellular & Molecular Pharmacology & Toxicology I	3
DRDD 7950	Seminar (May be repeated multiple times for credit.)	1
DRDD 7990	Research and Thesis (Total of 4 CR required)	1–6

In addition to the specific core and option course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 30 hour degree requirement.

Pharmaceutical Sciences: Pharmacology Option (Non-Thesis) — MS

Pharmaceutical Sciences Non-Thesis Masters Degree Program — Pharmacology Option

A. Program Administration

Admission to the program will be accompanied by assignment to a specific Pharmacology faculty member, who will serve as the research mentor for the student. Thus, admission to the program will be offered only upon approval of that faculty member. Upon acceptance of admission, the student will work with the faculty member to formulate an advisory committee. This advisory committee will consist of no fewer than three members and a majority of members must come from the Department of Drug Discovery and Development. This committee will assist the faculty mentor in the selection of coursework and in oversight of the student's research activity. In particular, the committee will assist the faculty member in evaluating the student's performance in the non-thesis research course (DRDD 7980).

B. Program Curriculum

1. Curricular Overview

The required courses of this curriculum are aligned with the three core competencies of the graduate program: Scientific Communications, Data Analyses and Interpretation, and Experimental Design. The Scientific Communications requirement (3 credits) is to be fulfilled by DRDD 7950 (1 credit per semester). The Data Analyses and Interpretation requirement (3 credits) is to be fulfilled by DRDD 7030 (3 credits). The Experimental Design requirement (3 credits) is to be fulfilled by DRDD 7980 (1-3 credits per semester).

Additional required courses for this option are listed below. DRDD 7950 (1 credit per semester) is required for each Fall and Spring semester enrolled in the program. Four credits of DRDD 7980 (1-3 credits per semester) are required for graduation; furthermore, DRDD 7980 is required for each semester enrolled in the program.

Code	Title	Hours
DRDD 7090	Pharmaceutical Science I: Targets	4
DRDD 7100	Pharmaceutical Science II: ADME	4
DRDD 7330	Pharmacology Research Methods	3
DRDD 7340	Organ Systems Pharmacology I	3
DRDD 7360	Cellular & Molecular Pharmacology & Toxicology I	3
DRDD 7950	Seminar (May be repeated multiple times for credit.)	1
DRDD 7980	Non-Thesis Research (Total of 4 CR required)	1–6

In addition to the specific core and option course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 30 hour degree requirement.

1 Students must take DRDD 7950 each fall and spring semester. A total of at least 3 credit hours are required.
2 Students must take 1–3 hours of DRDD 7980 each semester. A total of at least 6 credit hours are required.
3 At least 3 credit hours of restricted electives are required from the following list: STAT 7000, STAT 7010, DRDD 6800, DRDD 7300, DRDD 7310, DRDD 7960, VBMS 7140, VBMS, 7180.
4 At least 3 credit hours of restricted advisor approved electives are required.

Pharmaceutical Sciences: Pharmacology Option — PhD

The Auburn University Harrison College of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The PhD program requires a minimum of 60 semester hours earned through instruction beyond the bachelor's degree including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (6000–8999); and 2) a minimum of 30 semester hours of additional graduate course work (6000–8999) that may include ungraded courses, and must include at least 10 hours of research and dissertation. A general examination, often called the preliminary examination, is required of all applicants for the degree of doctor of philosophy. It consists of written and oral testing. The student becomes a candidate for the degree upon successful completion of the general examination. Students working on the dissertation, submitting their dissertation or awaiting approval of their final examination must register for Research and Dissertation in the semester(s) when these steps occur. Candidates for the PhD degree must complete a dissertation proposal and successfully defend their proposal during the final examination.

For the PhD program, students must complete a core curriculum outlined below.

Code	Title	Hours
DRDD 7090	Pharmaceutical Science I: Targets	4
DRDD 7100	Pharmaceutical Science II: ADME	4

DRDD 7340	Organ Systems Pharmacology I	3
DRDD 7360	Cellular & Molecular Pharmacology & Toxicology I	3
DRDD 8950	Seminar (May be repeated multiple times for credit.)	1
DRDD 8990	Research And Dissertation (Total of 10 CR required)	1-10

In addition to the specific core and option course requirements listed above, students must complete committee approved graduate electives (6000–8999) to reach the 60 hour degree requirement.

Physics — MS, PhD

Degree Programs

- Physics — MS (p. 1738)
- Physics — PhD (p. 1739)

The Department of Physics offers the doctor of philosophy degree to students who have achieved a mastery of the fundamental laws of nature and demonstrated the ability to complete a research project that results in new knowledge in physics. All students complete the basic graduate level courses in Classical Mechanics, Electricity and Magnetism, Quantum Mechanics and Statistical Physics. They demonstrate their mastery of these subjects by passing a General Doctoral Examination that has both a written and an oral component. To increase their knowledge of a broad range of advanced physics topics and to develop expertise in their chosen area of focus, students complete at least 12 additional hours of graded course work with a minimum of nine at the 8000-level. The research project is usually undertaken in one of the research focuses of the Department—plasma physics, condensed matter and surface physics, atomic and molecular physics, space physics, and computational physics. It is completed with the defense of the student's dissertation. Students are also expected to publish their research in a refereed journal and/or present it at an appropriate professional meeting.

The master of science is also offered. Successful students complete the same basic graduate level courses as PhD students. Students electing the non-thesis option complete an additional 12 hours of graduate level course work. Students electing the thesis option complete at least an additional 6 hours of graduate level course work and at least 4 hours of thesis work. In addition to defending their thesis, they are encouraged to publish their results in a refereed journal or present them at a scientific meeting.

Plant Pathology — MAg, MS, PhD

Degree Programs

- Plant Pathology — MAg (p. 1741)
- Plant Pathology — MS (p. 1741)
- Plant Pathology — PhD (p. 1741)

The Department of Entomology and Plant Pathology offers plant pathology degrees including a Master of Science (MS), Master of Agriculture (MAg) and Doctor of Philosophy (PhD). The Graduate program emphasizes basic and applied aspects of the science of plant pathology preparing students for careers in teaching, research and extension with a variety of academic, governmental, state, private and industrial opportunities. The educational goals and objectives of the MS degree program are to produce graduates who are fundamentally trained in the scientific principles and general knowledge of plant pathology and related sciences and who are able to apply these principles to successfully solve problems and employ this knowledge at an advanced level of study. The purpose of the PhD program in plant pathology is to produce graduates who are fundamentally trained in the scientific principles and general knowledge of plant pathology and related sciences and who are able to employ this knowledge at the advanced level of study and apply these principles to solve problems involving plant diseases and associated pathogens.

Admission is based primarily on a combination of Grade Point Average (GPA) and Graduate Record Examination (GRE) scores and (if an international student) TOEFL tests are also required.

Students holding baccalaureate degrees in agriculture or the biological sciences may find this degree program helpful to their professional development and career goals. For a major in plant pathology at the MS level, the student should have a baccalaureate degree from a recognized institution with pre-requisite training in agriculture, biology, botany, microbiology and related fields such as chemistry, physics, and mathematics. Qualified students lacking mandatory courses may be admitted but will be required by the student’s advisory committee to make up any deficiencies.

The MS program in plant pathology is available to qualified individuals who wish to pursue a master's level program that requires a thesis. Importance is placed on both classroom and research training.

The MS requires a minimum of 30 semester hours, including:

Code	Title	Hours
MS		
PLPA 6200	Mycology	2
PLPA 6300	Plant-Bacterial Interactions	2

PLPA 6400	Plant Virology	2
PLPA 6500	Plant Nematology	2
PLPA 7950	Seminar in Plant Pathology	1
PLPA 7990	Research and Thesis	6
Graduate level statistics		3
Select 6 Credits in PLPA @ 6000-8990 (Electives)		6
Select 6 Credits @ 6000-8990 (Electives)		6
Total Hours		**30**

A graduate-level course in statistics is also required. A minimum of 21 semester hours must be taken in plant pathology and a specialty area may be selected from related subject matter fields. There is no language requirement for the MS degree. In addition to the required course work, the student must complete research, a written thesis and a thesis defense examination as defined by the student's advisory committee.

The master of agriculture (MAg) program with a specialization in plant pathology is available to qualified applicants who wish to pursue a master's level program that does not require a thesis. The MAg with a specialization in plant pathology carries the same entrance requirements as the MS but is a non-thesis degree.

The MAg requires a minimum of 32 semester hours, 21 of which must be in plant pathology, including:

Code	Title	Hours
MAg		
PLPA 6200	Mycology	2
PLPA 6300	Plant-Bacterial Interactions	2
PLPA 6400	Plant Virology	2
PLPA 6500	Plant Nematology	2
Select 21 Credits in @ 6000-8999 (Electives) [1]		21
Course in Statistics (strongly recommended)		3
Total Hours		**32**

[1] The remaining graduate level courses can be taken from a variety of subject areas determined in consultation with the student's advisory committee. A comprehensive examination is required after all courses are completed.

There is no language requirement for the MAg degree.

The PhD program requires 60 semester hours of course work, including:

Code	Title	Hours
PhD		
PLPA 6200	Mycology	2
PLPA 6300	Plant-Bacterial Interactions	2
PLPA 6400	Plant Virology	2
PLPA 6500	Plant Nematology	2
PLPA 8910	Teaching Practicum	1
PLPA 8950	Seminar	1
PLPA 8990	Research and Dissertation	10
Graduate level statistics		3
Select 10 Credits in PLPA @ 6000-8999 (Electives)		10
Select 27 Credits @ 6000-8999 (Electives)		27
Total Hours		**60**

Of the 60 semester hours, 30 must be graded graduate courses 6000-level and taken at Auburn University. There is no language requirement for the PhD. Upon completion of the course work, PhD students must take a general written examination. Students must pass all parts of the written examination before scheduling the preliminary oral examination (referred to as the PhD prelim exam). After

satisfactory completion of the prelim exam the student advances to candidacy. The PhD student will conduct independent research and prepare a dissertation through the guidance and direction of an advisory committee. After completion of the dissertation, the student must pass a final oral examination defending the dissertation.

Political Science Graduate Programs — Graduate Certificate, MPA, PhD

Degree Program:

- Public Administration — MPA (p. 1747)
- Public Administration and Public Policy — PhD (p. 1747)

Graduate Certificates:

- Economic Development (p. 1637)
- Election Administration (p. 1748)
- Global Public Service (p. 1748)
- NonProfit Organizations and Community Governance (p. 1749)

The Department of Political Science offers the Master of Public Administration (MPA) and the PhD in Public Administration and Public Policy. Graduates from the MPA program are employed as managers, planners, and directors in city, state, and local government agencies and federal government programs; they also serve as program officers, development directors, executive directors, and senior administrators in local and national nonprofit organizations. The Department of Political Science also offers four graduate certificates: Graduate Certificate in Economic Development, Graduate Certificate in Election Administration, Graduate Certificate in Global Public Service, and Graduate Certificate in Non-Profit Organizations and Community Governance.

- For more information about the MPA program, see http://www.cla.auburn.edu/polisci/graduate-programs/mpa/.
- For more information about the PhD program, see http://www.cla.auburn.edu/polisci/graduate-programs/phd-in-public-administration-and-public-policy/.

Master of Public Administration

The Department of Political Science offers the MPA. It is a professional degree program for leadership in public service at all levels of government as well as in nonprofit organizations. The program is accredited by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA). Highly qualified students may pursue concurrently the Master of Community Planning.

Application Process

Applicants for the MPA must have a bachelor's degree or its equivalent from an accredited college or university. The admissions committee will evaluate the undergraduate transcripts, personal statement, letters of recommendation, a writing sample, and any public sector experience in government agencies or nonprofit organizations. The program is not limited to political science majors, but successful applicants who have little background in public sector institutions and processes may be required to take additional courses.

Applicants should ensure these materials are sent to the Graduate School web application:

- Official transcripts from every institution attended
- Personal statement of purpose in pursuing the MPA degree
- Three letters of professional or academic recommendation
- Writing sample
- Statement of merit or need (if applying for a graduate assistantship)
- Other information listed in the application

Web applications are located at: http://graduate.auburn.edu/prospective-students/application-instructions/

Degree Requirements

Once they are admitted, the program requires 36 semester hours (pre-service students) or 33 semester hours (in-service students) and an ePortfolio. Six core courses for a total of 18 hours credit are required of all pre-service students. The required 18 hours include 3 credit hours of an administrative internship in a governmental agency or nonprofit organization. Five core courses for a total of 15 hours credit are required of all in-service students. In-service students are not required to complete the internship. All students take an additional 18 hours of electives either through one of the graduate certificates offered by the MPA program or an approved concentration in a related administrative field or policy area.

Details about the requirements are provided below.

Pre-Service Students (Track 1)

Core Courses (18 credit Hours)

Code	Title	Hours
POLI 6150	Intergovernmental Relations	3
POLI 7000	Research Methods	3
POLI 7350	Foundations of Public Admin	3
POLI 7360	Foundations of Policy	3
POLI 7520	Program Evaluation	3
POLI 7920	MPA Internship	3
POLI 7AA0	MPA ePortfolio	0
MPA Electives		18
Total Hours		**36**

In-Service Students (Track 2)

Core Courses (15 credit Hours)

Code	Title	Hours
POLI 6150	Intergovernmental Relations	3
POLI 7000	Research Methods	3
POLI 7350	Foundations of Public Admin	3
POLI 7360	Foundations of Policy	3
POLI 7520	Program Evaluation	3
POLI 7AA0	MPA ePortfolio	0
MPA Electives		18
Total Hours		**33**

Practical Experience through Internship (3 hours)

The program requires a total of 3 credit hours of internship (POLI 7920 Internship) for pre-service students. In-service with extensive direct experience with government agencies or nonprofit organizations are not required to complete the internship.

Electives (18 hours)

The MPA requires 18 credits of electives. This requirement may be fulfilled in any one of the three following ways:

- By completing one of the following four formal specializations: Graduate Certificate in Economic Development, Graduate Certificate in Election Administration, Graduate Certificate in Global Public Service, Graduate Certificate in Non-Profit Organizations and Community Governance
- By completing the Dual MPA-MCP Degree with Community Planning
- By taking 18 credits of classes approved by the MPA director that support the generalist public administration curriculum

ePortfolio

Successful completion of the degree includes the preparation of the MPA ePortfolio. The MPA ePortfolio demonstrates mastery of the competencies established by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA).

The MPA Portfolio reviews are scheduled in the final semester of course work. Students who do not pass the MPA Portfolio review have one additional opportunity to present their material to MPA faculty in the following fall or spring semester.

PhD in Public Administration and Public Policy

Code	Title	Hours
PhD in Public Administration and Public Policy		
POLI 8000	Doctoral Seminar in Public Administration	3
POLI 8010	Research Design and Analysis	3
POLI 8020	Doctoral Seminar in Public Policy	3

POLI 8120	Qualitative Research Methods	3
POLI 8130	Quantitative Methods	3
POLI 8210	Seminar in Professional Development Part 1	1
POLI 8220	Seminar in Professional Development Part 2	2
POLI 8990	Research and Dissertation	10
POLI 6000-8999	47 Hours of Advisor Approved Courses	47
Total Hours		**75**

The PhD in Public Administration and Public Policy is offered by Auburn University's Department of Political Science. Only students with master's degrees from accredited universities or colleges will be considered for the PhD program. Applicants having an insufficient background in public administration and public policy may be required to take additional prerequisite courses as determined by the admissions committee.

Application Process

Applicants must submit transcripts, a CV or resume, a statement of purpose, and letters of recommendation. Applicants are encouraged, though not required, to submit GRE scores for evaluation. The committee welcomes additional evidence of strong analytical and verbal skills, creativity and commitment to the field of study.

Applicants should ensure these materials are sent to the Graduate School web application:

- Official transcripts from every institution attended

Applicants should ensure these materials are sent to the PhD administrators in the Department of Political Science:

- CV or resume
- Three letters of recommendation
- Statement of purpose

For more information, see the website for the PhD in Public Administration.

Requirements

The PhD curriculum includes core courses, a research methodology sequence, and two subfields. Details about the requirements for the subfields are given below.

Core Courses

All students in the program take the core courses in Public Administration and Public Policy.

Research Methodology Courses

Students will take a three-course methodology sequence covering a broad scope of political inquiry, research design, qualitative methods, and quantitative analysis. Students must earn a grade of A or B in each of the methodology courses before they can progress to the general comprehensive exams.

Subfields

The PhD program has seven subfields: American Politics & Policy, Applied Research, Community Planning, Election Administration, Global (IR/Comparative), Nonprofit Organizations & Community Governance, and Public Administration. Students choose seven courses (21 hours) across their chosen subfields: three in one area, three in the other, and one from any subfield.

Minimum Credit Requirements

Code	Title	Hours
Hours of formal PhD course work		39
Hours of dissertation credit		10
Total hours for PhD course work		49
Hours needed past bachelor's degree		75

Comprehensive Exams, Oral Exams, and Dissertation Defense

During the spring or fall semester after the course work is completed, students take comprehensive exams administered by the department. The exams will consist of sections testing core and track knowledge as well as one section focusing on students' areas of specialization. Students will have two opportunities to pass the comprehensive exams and must pass each written examination before

scheduling the oral examination. Upon successful completion of the comprehensive exams, students should prepare a prospectus to present to their dissertation committee during their oral examinations. Admission to doctoral candidacy is contingent upon successful completion of all elements of the written and oral doctoral exams. After completion of the dissertation, the students must pass a final oral examination defending their dissertation work before their committee and a University Reader approved by the Graduate School.

Graduate Certificates

Four graduate certificates are offered in public administration and public policy: The Graduate Certificate in Economic Development, Graduate Certificate in Election Administration, Graduate Certificate in Global Public Service, and Graduate Certificate in Non-Profit Organizations and Community Governance.

Application Process

Applications for graduate certificates include the same items as applications for the MPA degree.

Applicants should ensure these materials are sent to the Graduate School web application:

- Official transcripts from every institution attended
- Other information listed in the application

Graduate Certificate in Economic Development

The Graduate Certificate in Economic Development provides a specialization in the theories and practice of economic development, primarily within the U.S and Alabama. It is an interdisciplinary graduate certificate offered by the faculty of participating departments (Public Administration, Community Planning, and Agricultural Economics and Rural Sociology) and is administered by the Master of Public Administration program.

Students may pursue the Graduate Certificate in Economic Development as a degree-seeking or non-degree seeking student. To earn the graduate minor, students must complete the program's basic course, Economic Development and Competition (POLI 7700/7706), three elective courses selected from an approved list, and a one-week non-credit intensive economic development training course sponsored by the Government and Economic Development Institute (GEDI). The Auburn Intensive Economic Development Course is accredited by the International Economic Development Council (IEDC). Since its inception, this program has produced 1,300 alumni, 70% of whom have had jobs in community economic development. GEDI will be an active partner with the MPA program, linking the program to its extensive network of economic development practitioners throughout Alabama.

G raduate Certificate in Election Administration

Required Classes

These courses are required for the Graduate Certificate in Election Administration. Corresponding 5000-level classes taken as an undergraduate fulfill the graduate certificate requirement but do not count toward the 42 graduate credits needed for the MPA. Substitutions require permission of MPA Director.

This graduate certificate is designed to provide students and practicing professionals with the knowledge, skills, and abilities to function effectively in election administration specifically law and policy and critical contemporary issues facing the election administration community.

The Graduate Certificate in Election Administration is a 15 graduate credit hour certificate according to the courses outline below, and a 12 graduate credit hour certificate if the student has completed the CERA Program (Certified Election and Registration Administrators). CERA was developed by the Election Center (a national nonprofit organization also known as the National Association of Election Officials) along with Auburn MPA faculty, and is the only national certification program for election officials and vendors in the election administration arena. CERA includes 12 courses in professional education and development taught by Auburn faculty and other requirements established by the Election Center including substantial professional engagement in the field through research, conference presentations, and participation in working groups and other similar activities.

Certificate in Polymer Engineering

This graduate certificate prepares individuals to advance their level of knowledge and understanding in polymer materials and engineering that can be applied in their area of specialty. Polymer materials are ubiquitous in our daily lives and in advanced industrial applications critical to our society. The focus of this coursework is to equip students with the advanced education required to contribute to the existing industries which produce, process, or utilize polymer materials as well as those working in research and development where new discoveries in polymer materials will enable new discovery that will impact every sector's use of polymer materials, from space to sports, transportation to medicine.

The certificate will focus on the fundamentals of polymer chemistry and structure, polymer processing, and polymer characterization.

Students will take the following (3) required courses for a total of eleven (11) hours.

Code	Title	Hours

Poultry Science — MAg, MS, PhD

Degree Programs

- Poultry Science — ABM (p. 1504)
- Poultry Science — MAg (p. 1751)
- Poultry Science — MS (p. 1752)
- Poultry Science — PhD (p. 1752)

The Department of Poultry Science offers graduate programs in Poultry Science, leading to Master of Agriculture, Master of Science, and Doctor of Philosophy degrees. These degrees are designed to prepare outstanding students for careers in the commercial poultry industry, allied industries, government, and academia. Research training and experience can be acquired in the specialized areas of poultry management, poultry nutrition, poultry health (parasitology, pathology, virology), poultry physiology, processing and product technology, and food safety.

Applicants must indicate which graduate degree they wish to pursue in Poultry Science. All applications are reviewed by the departmental Graduate Committee. Application materials include: official copies of all college transcripts, TOEFL scores (for international students), 3 letters of recommendation, a resume, and a statement of purpose. Transcripts and test scores are sent directly to the Graduate School. The letters of recommendation may either be submitted online (preferred) or mailed to the graduate program officer. The resume and statement of purpose are sent to the graduate program officer at the departmental address or via email attachment. The GRE is not required. For graduate studies leading to MS or MAg degrees, applicants must have a bachelor's degree in poultry science, animal science, or the biological sciences from a recognized institution with a minimum GPA of 3.0 out of 4.0. To be considered for the PhD program, applicants must have a MS degree with thesis in an appropriate field. The course of study, developed by the student and the advisory committee, may include additional courses to address specific needs or course work deficiencies.

Additional information about the departmental requirements, policies and availability of financial support can be obtained by contacting the graduate program officer, Dr. Wilmer Pacheco (wjp0010@auburn.edu).

MS/MAg Degree Requirements

1. The Master of Science (MS degree) requires a research project with a formal written thesis while the Master of Agriculture (MAg) requires a research project with a written report. The MS degree requires a minimum of 30 semester credit hours while the MAg requires a minimum of 33 semester credit hours. Both degrees require a comprehensive final oral examination.
2. Curriculum – Courses are selected in conjunction with the major professor and advisory committee to address the area of emphasis. All students are required to take 2 credits of POUL 7950, a course in statistics, and 4 credits of POUL 7990 or POUL 7980.

PhD Degree Requirements

1. For the PhD degree, a minimum of 30 semester hours of graduate coursework beyond the MS (60 hours beyond the bachelor's degree) is required.
2. Curriculum – Courses are selected in conjunction with the major professor and advisory committee to address the area of emphasis. All students are required to take 3 credits of POUL 7950, a minimum of one course in statistics, and at least 10 credits of POUL 8990.
3. Examinations – Upon completion of course work, students must pass general written examinations administered by the advisory committee, followed by a comprehensive preliminary oral examination. After satisfactory completion of these exams, the student advances to candidacy. A dissertation based on an independent research project is required to earn a PhD degree. After completion of the dissertation, the student must pass a final Doctoral oral examination defending the dissertation.

- Industrial & Organizational Psychology (Non-Thesis) — MS (p. 1754)
- Clinical Psychology — PhD (p. 1755)
- Cognitive and Behavioral Sciences — PhD (p. 1756)
- Industrial & Organizational Psychology — PhD (p. 1756)

The Department of Psychological Sciences offers two terminal master's degrees—a Master of Science (Non-Thesis) in Applied Behavior Analysis (ABA) and a Master of Science (Non-Thesis) in Industrial & Organizational Psychology (I-O)—and doctoral degrees in three areas—a PhD in Clinical Psychology, a PhD in Cognitive and Behavioral Sciences (CaBS), and a PhD in Industrial & Organizational Psychology (I-O). The doctoral programs do not offer terminal master's degrees.

For the most accurate and up-to-date information about program requirements, applicants should consult the department's webpage (https://cla.auburn.edu/psychological-sciences/graduate-studies/graduate-application-requirements/ (https://nam11.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcla.auburn.edu%2Fpsychological-sciences%2Fgraduate-studies%2Fgraduate-application-requirements%2F&data=05%7C01%7Cblltn%40auburn.edu%7Cb7de73bd2546469d2b3d08db45cb408c%7Cccb6deedbd294b388979d72780f62d3b%7C1%7C0%7C638180511634074498%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=mfwtKcOebPzcImyW418ZjzqHT0j80gzEIEkMs18u2D0%3D&reserved=0)). Please email bryangt@auburn.edu for application and general program information.

Graduate degrees in Counseling, Counseling Psychology, Educational Psychology, and School Psychology are offered through the College of Education.

Admission Requirements for the MS and the PhD

Holders of the bachelor's degree in any discipline from an accredited institution will be considered for graduate work in psychology. Students admitted to the PhD programs earn a thesis-based MS degree after completing intermediate program requirements. All programs commence in the fall semester. Spring or summer semester admission is not available.

To be considered for admission, potential applicants must submit an online application and related materials. Required materials and deadlines are subject to change, so it is imperative that applicants consult the application instructions on the Department of Psychological Sciences' web page for up-to-date directions.

To ensure consideration, the application process should be completed by December 1 for the PhD programs, February 1 for the ABA-MS program, and March 31 for the MS in I-O program.

MS in Applied Behavior Analysis

In the ABA program, students are trained to provide clinical and educational services to individuals from various populations and backgrounds including: children and adolescents with autism spectrum disorders in a clinic setting; typically developing children in school settings; children and adolescents, as well as their caregivers, in foster care settings; and adolescents in a juvenile residential facility. The ABA program is accredited by the Association of Behavior Analysis International.

General Requirements

The MS in ABA is a full-time non-thesis program requiring six consecutive semesters of full-time coursework (24 semester hours) and practicum training (21 semester hours). All students complete a capstone research project. Course and credit-hour requirements for the program total 45 hours.

Required Courses

See the Applied Behavior Analysis (Non-Thesis) — MS (p. 1755)

MS in Industrial and Organizational (I-O) Psychology

The non-thesis M.S. in I-O Psychology program is designed to train students with the skills and knowledge to enable students to become Industrial - Organizational practitioners in an applied setting. I-O Psychology focuses on understanding, predicting, and modifying behavior in organizational settings, typically, but not limited to, work environments.

General Requirements

The M.S. in I-O Psychology program provides students with a well-rounded foundation in Industrial and Organizational Psychology. This degree does not require research or a thesis, and students participate in applied opportunities and internships. For the online program, enrollment in at least six credit hours (two 3-credit courses) per semester of required coursework (including approved electives) constitutes a full-time course load.

Required Courses

See the Industrial & Organizational Psychology (Non-Thesis) — MS (p. 1754)

PhD in Clinical Psychology

The Clinical Psychology PhD program uses a scientist-practitioner training model that blends basic and applied research with clinical practice.

General Requirements

Typically, the program requires five years at Auburn in course work, individualized research, and practicum experiences. In addition, a one-year full-time internship at an APA-approved program is required. 83 credit hours total are required.

Students enrolled in the Clinical Psychology PhD program complete a sequence of departmental core courses providing a foundation in psychology on which specialization is based. In doctoral study, students are expected to write and defend an empirically based master's thesis. Admission to doctoral candidacy is contingent upon the successful completion of the general doctoral examination. Students must also write and defend a research dissertation.

Required Courses

See the Clinical Psychology - PhD (p. 1755)

PhD in Cognitive and Behavioral Sciences

The CaBS program provides a firm foundation in cognitive and behavioral sciences. Electives allow students in the CaBS PhD program flexibility in developing their own areas of specialization.

General Requirements

CaBS students are required to complete a series of core courses, write and defend an empirically based master's thesis, and successfully complete a general doctoral examination before being admitted to doctoral candidacy. They must also write and defend a research dissertation. 60 credit hours total are required.

Required Courses

See the Cognitive and Behavioral Sciences — PhD (p. 1756)

PhD in Industrial and Organizational (I-O) Psychology

Students enrolled in the I-O Psychology doctoral program will be trained in scientific methods applied to the industrial and organizational environment. Graduates of the program will be prepared to work in academic, research, and/or applied settings.

General Requirements

The I-O Psychology doctoral program provides doctoral students with a well-rounded foundation in Industrial Psychology, Organizational Psychology, and quantitative coursework. Students are required to complete a research-based thesis and a general doctoral exam before advancing to doctoral candidacy. The last milestone is a doctoral dissertation. The degree requires a total of 73 semester hours of credit.

Required Courses

See the Industrial & Organizational Psychology — PhD (p. 1756).

Pulp and Paper Engineering — Graduate Certificate

This graduate certificate prepares individuals to advance their level of knowledge and understanding in pulp and paper science and engineering that can be applied in their area of specialty. The certificate will focus on the application of mathematical and scientific principles to the design, development, and manufacturing of pulp and paper products. This certificate will prepare individuals for employment in pulp and paper facilities as mechanical engineers, industrial engineers, chemical engineers, process engineers, and electrical engineers.

Code	Title	Hours
Graduate Certificate in Pulp and Paper Engineering - 12 hours:		
Students will complete the following three core courses:		
CHEN 6090	Pulp and Paper Technology	3
CHEN 6110	Pulp and Paper Engineering	3
CHEN 6970	Advanced Special Topics in Chemical Engineering (Special Topics in Pulp and Paper Technology)	3
Additionally, students will select three (3) credit hours from the approved elective courses.		3
Total Hours		**12**

Real Estate Development — MRED

The Auburn University Executive Master of Real Estate Development (AUMRED) program is an executive graduate degree offered jointly by the College of Architecture, Design and Construction and the College of Business. The program emphasizes best development practices related to environmental sustainability, economic resilience, social responsibility, financial feasibility and design excellence. It provides a targeted understanding of multiple disciplines that puts students at an advantage in their real estate development careers. The program is entrepreneurially and industry focused, designed for practicing professionals with a minimum of three to five years in real estate development or related fields (real estate or mortgage brokerage, architecture, landscape architecture, community planning and building construction, for example). It combines short, intense on-campus residencies with distance modules and four-day field trips to nationally and internationally significant cities and development projects. The curriculum consists of 39 credit hours that are delivered over a five semester period.

Information concerning specific program requirements may be obtained by visiting www.harbert.auburn.edu.

First Year

Fall	Hours	Spring	Hours	Summer	Hours
RDEV 7120 Field Studies	1	RDEV 7350 Real Estate Investment Analysis	3	RDEV 7120 Field Studies	1

Total Hours: 39

Graduate Executive Programs

The graduate executive programs comprise the Executive MBA, the Physicians Executive MBA, and the Masters of Real Estate Development Executive programs. These programs are designed to be taken as a cohort with one start in the Fall of each year, an exact sequence of courses taken each term and with graduation in the Spring—five semesters later.

Non-Standard Calendar

Due to the hybrid nature of these graduate executive programs, which use a format that combines on-campus residency with online learning, the residencies typically occur during breaks on campus. See the relevant program website for the exact calendar dates per term for each executive program.

Full-Time Credit Hour Requirements

- Students in the graduate executive programs are restricted to the exact courses which are offered to that cohort in any one semester.
- The course load varies from term to term—from a minimum of 5 hours to a maximum of 9 hours.
- The course load is thus considered to be full time as they cannot take more hours or less as they follow the mandated and approved curriculum.

Tuition Costs Excluded VA Benefit Coverage

VA benefits will not cover costs for lodging, meals, travel, books, supplies or memberships to organizations. As many of these costs are included in the graduate executive programs' tuition, those costs have been broken out and will be billed separately. See the relevant program website for the exact amounts per term.

Restoration Ecology — Graduate Certificate

Offered entirely via distance education by the College of Forestry, Wildlife and Environment faculty, this certificate is designed to help those interested in natural resource management with training in restoration ecology, giving them the tools to better manage our natural resources while advancing their careers. The Restoration Ecology Graduate Certificate courses are designed to 1) provide graduate-level education for those seeking advanced positions in natural resource fields, or 2) place students in a position so that they can continue their graduate education in the certificate focus area.

This graduate certificate is designed to advance the level of knowledge and skills for individuals interested or working in the areas of natural resource management, forest and wildlife management, environmental sciences, natural resource management consulting, or environmental education. This graduate certificate is designed to help students better understand natural processes in terrestrial ecosystems; provide information on processes and practices that are relevant to the restoration of these ecosystems; and enhance critical thinking and communication skills.

Interdepartmental Graduate Program in Sociology: Rural Sociology (Thesis & Non-Thesis) — MS

Degree Programs

- Rural Sociology — MS (p. 1765)
- Sociology — MA, MS (p. 1763)

The master's program in rural sociology is part of the Interdepartmental Graduate Program in Sociology (IDGPS). The program is administered by co-directors representing the Departments of Sociology, Anthropology & Social Work (College of Liberal Arts) and Agricultural Economics & Rural Sociology (College of Agriculture).

IDGPS offers study and research leading to the degrees of Master of Science in Rural Sociology and Master of Arts or Master of Science in Sociology. Anthropologists, social work faculty, rural sociologists, and sociologists make up the faculty.

Admission Requirements

Applicants are required to have a bachelor's degree from an accredited institution and a GPA of at least 3.0 on all completed coursework. The applicant's statement of interest, GRE scores (recommended but not required), letters of recommendation, and curriculum vitae are also considered in making a decision on admission.

Applicants should ensure the following materials are submitted to the Graduate School web-based application system:

- Official scores from the General Test of the GRE
- Official transcripts from every college and university attended
- If an international student, the official score from the TOEFL exam
- Three recommendations that address academic abilities
- Statement of interest in the program and field of study
- Curriculum Vitae

Applications to the Program are reviewed, year-round, by the admissions committee who will evaluate each dossier.

Thesis and Non-Thesis Options

Thesis and non-thesis options are available for the MS degree in Rural Sociology. These two degree options are designed to serve the needs of differing types of students. The thesis option is recommended for students who are interested in gaining research experience or who might be interested in pursuing advanced graduate work. The non-thesis option is designed for individuals who are in mid-career, who wish to learn new skills in order to be more productive professionally, and who do not plan to pursue a more advanced

graduate degree. However, PhD students in other programs often choose to complete a Rural Sociology non-thesis degree to augment their studies.

The thesis option requires a minimum of 30 semester hours, with 6 semester hours of this total being for research and thesis (RSOC 7990 Research And Thesis). The non-thesis option requires 36 semester hours of course credit and the completion of a capstone paper.

Required Core Courses

All IDGPS students take three core graduate courses:

- SOCY 7000 Adv Sociological Theory
- SOCY 7100 Stat Anlys Surv Aggr And Data
- RSOC 7700 Methods Of Social Research

Students without undergraduate coursework in these core areas may be required to take additional courses. Remaining courses, at the 6000-level and above, are taken with the advice of the student's graduate advisory committee.

Financial Aid

A variable number of graduate research assistantships (GRA) are available on a competitive basis to support graduate students in the program. When assessed, strong preference is given to funding students pursuing the thesis option.

GRAs require work with faculty conducting research on a variety of topics dealing with, but not limited to, environment and natural resources, food and agriculture, and community and rural development. While funding from grants may become available throughout the year, GRAs are generally made available in February or March for the following academic year.

Most graduate assistantships require the commitment of 13–15 hours of work per week. Given these responsibilities, graduate students holding assistantships are expected to take no more than 9 hours of graduate credit coursework per semester.

Rural Studies — Graduate Certificate

Rural Studies

This graduate certificate is designed to advance the knowledge and skills of those who serve in the areas of social work, community planning, public services, or human development. This program can benefit those who work in small communities or who seek a position in an organization that works to make a difference in the quality of rural lives. The certificate focuses on applying critical thinking skills, cultural understanding, and creating positive change in the health, social, political, economic, and cultural aspects of rural communities.

Select 9 hours from the following courses:

Code	Title	Hours
RSOC 6190	Sociology of Sustainable Agrifood Systems	3
RSOC 6510	Social Welfare, Family and Poverty	3
RSOC 6610	Rural Sociology	3
RSOC 6650	Sociology of Natural Resources and the Environment	3
RSOC 6410	Extension Programs and Methods	3
RSOC 7620	Sociology of Community	3
RSOC 7630	Political Economy of Development	3
RSOC 7700	Methods of Social Research	3
RSOC 7960	Special Problems in Rural Sociology and Community Development	1-3
RSOC 7970	Special Topics in Rural Sociology and Community Development	3

Spanish — MA, MHS

Degree Programs

- Spanish — MA, MHS (p. 1762)

Graduate studies in Spanish lead to the Master of Arts (MA) in Spanish or the Master of Hispanic Studies (MHS). The Spanish graduate program is designed to prepare students for careers in teaching, business, government, world affairs, diplomacy, social service, and law enforcement and for doctoral studies in Spanish, with emphases such as literature, linguistics, or world language education. Students may begin their graduate studies at the beginning of any semester during the academic year.

Information about the MA and the MHS can be found at https://www.cla.auburn.edu/world-languages/future-students/graduate/graduate-degrees/.

Admission Requirements

Candidates wishing to pursue the MA or the MHS must have a bachelor's degree from an accredited institution, with at least 38 semester hours of undergraduate Spanish course work above the freshman level and satisfactory scores on the General Test of the GRE. International students must have acceptable scores on the TOEFL. Applicants lacking course requirements need to make up de#ciencies before admission to the graduate program.

Applicants should ensure that the following materials are sent to the Graduate School via the Graduate Web Application and Admission Process (https://graduate.auburn.edu/prospective-students/application-instructions/).

- Official transcripts from every undergraduate institution attended
- Official scores from the General Test of the GRE sent from ETS (for domestic students; not required for international students)
- Official scores from the TOEFL (for international students)
- Three letters of recommendation
- Graduate teaching assistantship application
- Writing sample. A writing sample in Spanish should be submitted to the Department of World Languages, Literatures, and Cultures at the time of the application. The writing sample typically is a research paper completed for a course taken as an undergraduate, usually a paper written for a senior-level literature or civilization course. It should be a minimum of five pages, typed.

Applicants should also provide two speaking samples electronically via a OneDrive folder shared privately with each candidate once the formal application has been completed through the Apply Yourself online system:

- Speaking biographical sample: Candidates must provide a 2–3 minute extemporaneous autobiography on the candidate's relevant background, including an explanation of the candidate's interest in pursuing a graduate degree in Spanish, and his/her professional plans for the future.
- Reading sample: The second speaking sample should be a reading from a printed text, for example, a poem, a paragraph or two from a novel or short story, or a newspaper article. Applicants should identify the selection on the recording. This selection should be approximately 1–2 minutes in length.
- The speaking samples will be requested electronically through a OneDrive folder shared privately with each candidate once the formal application has been completed through the Apply Yourself online system.
- All materials should be received by February 15.

Courses and Other Graduation Requirements

- The MA requires at least 30 semester hours including 4 credit hours for thesis.
- Candidates for the MHS must earn a minimum of 36 semester hours in their major, but no thesis is required. A concentration consisting of 6 semester hours of graduate-level courses in a related #eld or #elds may be earned as part of the MHS degree. These 6 hours do not have to be taken in the Department of World Languages, Literatures, and Cultures.
- Both degrees require satisfactory performance on the comprehensive examinations.
- Reading knowledge of one other world language is required. This knowledge may be demonstrated by earning a passing score on the proficiency test for that language or by completing the first-year sequence (or equivalent) in that language with a grade of B or better.

Financial Aid

- Graduate teaching assistantships are available to quali#ed students. For more information, please contact the department.
- All MA-Spanish or MHS graduate students are required to take FLSP 7090 Intro College Level Span Inst. For more information, check the student handbook available from the department.

Social Work — MSW

The Auburn University MSW program is fully accredited by the Council on Social Work Education. It prepares students for advanced Clinical Social Work practice with a focus on the areas of health and mental health with an emphasis on health disparities, prevention, and policy.

The MSW program can be completed online or on campus.

The program's mission is to make a positive impact on health care needs and social problems unique to Alabama’s citizens by preparing students for specialized social work practice with diverse populations through the establishment and maintenance of community partnerships, along with the development and implementation of research techniques and evaluative strategies.

MSW Traditional Program (61 Credit Hours)

This program can be completed in a full-time (2 years) or part-time format (3 years). Students are required to complete two field experiences. The first internship is a generalist placement focusing on the acquisition and development of generalist practice skills using a strengths perspective. The second internship is an advanced clinical placement focusing on the development of advanced clinical social work practice skills.

Curriculum List Shown Below:

Code	Title	Hours
SOWO 7000	Introduction to Social Work and Social Welfare	3
SOWO 7060	Social Work Practice with Individuals and Families	3
SOWO 7070	Social Work with Groups and Communities	3

SOWO 7930	Advanced Field	12

SOWO 7950	Integrative Seminar	3
SOWO ELEC	Social Work Elective (Need 9 hours of SOWO electives)	9

MSW Advanced Standing Program (39 Credit Hours)

Students who have earned an undergraduate degree in social work from a program that is accredited by the Council on Social Work Education may qualify for admission to the MSW Advanced Standing Program. Classes can be taken in a full-time or part-time format. It typically takes 1 year / 3 semesters (full-time) or 2 years (part-time) to complete the 39 credit-hour program.

Students will complete one internship, an advanced clinical placement that focuses on the development of advanced clinical social work practice skills. This internship will be completed in a part-time format across two semesters.

Curriculum List Shown Below:

Code	Title	Hours
SOWO 7010	Advanced Clinical Practice	3
SOWO 7020	Psychopathology	3
SOWO 7030	Evaluation in Social Work Practice	3
SOWO 7940	Advanced Field Placement I	6
SOWO 7960	Advanced Field Placement II	6
SOWO 7950	Integrative Seminar	3
SOWO ELEC	Social Work Elective (Need 15 hours of SOWO electives)	15

Sociology — MA, MS

Degree Programs

- Sociology — MA (p. 1764)
- Sociology — MS (p. 1765)
- Rural Sociology — MS (p. 1765)

The interdepartmental graduate program in sociology offers study and research leading to the degrees of Master of Arts or Master of Science in Sociology and in Rural Sociology. Anthropologists, social work faculty, rural sociologists, and sociologists make up the faculty. The program is administered by a two-member coordinating committee from the Department of Agricultural Economics and Rural Sociology and the Department of Sociology, Anthropology, and Social Work. Information about the two degrees is available at https://www.cla.auburn.edu/sociology-anthropology-social-work/sociology/graduate-degrees/.

Admission Requirements

Admission to the program is administered by co-directors representing the Department of Sociology, Anthropology & Social Work and the Department of Agricultural Economics & Rural Sociology. Applicants are required to have a bachelor's degree from an accredited institution. A cumulative GPA of 3.0 on all completed coursework is desired. The applicant's statement of interest and letters of recommendation also are considered in making a decision on admission.

Applicants should ensure the following materials are submitted to the Graduate School web application:

- Official transcripts from every college and university attended
- If an international student, the official score from the TOEFL exam
- Three letters of recommendation

Applicants should ensure that the following materials are submitted to the graduate program officer in the Department of Sociology, Anthropology, and Social Work:

- Statement of interest

Applications to the program are reviewed year-round.

The program’s coordinating committee will evaluate each applicant’s dossier.

Thesis (MS) and Non-Thesis (MA) Options

The MS and MA degree options are designed to serve the needs of differing types of students. The thesis option is recommended for students interested in pursuing advanced graduate work and in gaining research experience. The non-thesis option is designed for individuals who are in mid-career, who wish to learn new skills in order to be more productive professionally, and who have no intent on pursuing a more advanced graduate degree.

The thesis option requires a minimum of 30 semester hours, with 6 semester hours of this total being for research and thesis (SOCY 7990 Research And Thesis or RSOC 7990 Research And Thesis). The non-thesis option requires 36 semester hours of course credit. Additionally, a capstone paper is required for the non-thesis option.

Required Core Courses

All students take core graduate courses in social theory, social research methods, and statistics:

- SOCY 7000 Adv Sociological Theory
- SOCY 7100 Stat Anlys Surv Aggr And Data
- RSOC 7700 Methods Of Social Research

Students without undergraduate course work in these areas may be required to take additional courses to prepare for the core graduate courses. Additional courses at the 6000-level and above are taken with the advice of the student's graduate advisory committee.

Financial Aid

A variable number of graduate teaching assistantships and graduate research assistantships are available on a competitive basis to support graduate students in the program. Strong preference is given to funding students pursuing the thesis option.

Admission to the program is determined collectively by the coordinating committee, but funding decisions are made by individual departments. To be considered for funding, applicants should send three letters of recommendation to the coordinating committee member in the appropriate department.

Most graduate teaching assistantships and graduate research assistantships require the commitment of 13–15 hours of work per week. Given these responsibilities, graduate students holding graduate teaching assistantships and graduate research assistantships are expected to take no more than 9 hours of graduate credit course work per semester. Experience indicates that a heavier course load leads to an erosion of performance both on the job and in the course work.

Graduate teaching positions are associated primarily with the Department of Sociology, Anthropology, and Social Work and involve working with faculty teaching in the undergraduate core curriculum. Students seeking graduate teaching assistantships should submit their completed applications by March 1 to be included in the review process regarding funding decisions for the following academic year. However, occasionally, funds for graduate teaching assistantships may become available later in the year, and applications are then reviewed accordingly.

Graduate research assistantships are associated primarily with the Department of Agricultural Economics and Rural Sociology and require working with faculty conducting research on a variety of topics dealing with rural development. Funding from grants becomes available at different times of the year. The funds for graduate research assistantships generally are made available in February or March. Please contact the coordinating committee member from the Department of Agricultural Economics and Rural Sociology for further information on funding.

- Intervention for Students with Autism and Developmental Disabilities (p. 1781)
- Transition Specialist (p. 1781)
- Vocational Evaluation Forensic (p. 1781)
- Vocational Evolutional Forensic DE (p. 1782)

The Department of Special Education, Rehabilitation, and Counseling offers graduate degree programs leading to a master of science, master of education, education specialist, and doctor of philosophy. Offerings also include graduate certificates.

Master ’s Degree Programs (MEd)

Clinical Mental Health Counseling - MEd

This Master’s program is a 60-credit hour graduate program that prepares students to become Mental Health Counselors and is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Applicants may be considered for full-time or part-time enrollment with coursework that emphasizes trauma-informed, evidence-based, integrative counseling practices. Typically, graduates are employed in hospitals, outpatient clinics, community agencies, non-profit organizations, substance abuse centers, social service agencies, college counseling centers, and private practice. Students will complete practicum and internships in settings related to their career goals. The CMHC program considers applicants with Psychology, Counseling, Liberal arts, Education, Social Work, Criminal Justice, and other general areas of study undergraduate degrees. Coursework will prepare you for the educational requirements for licensure as a Licensed Professional Counselor (LPC) or Licensed Clinical Mental Health Counselor (LCMHC). Program requirements include a 100-hour Practicum and 600-hour Internship; this program is offered on-campus and on-line.

Clinical Rehabilitation Counseling - MEd

This Master's program is a 60-credit hour program which is fully accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and provides students with the necessary academic and clinical experiences to sit for the Certified Rehabilitation Counselor (CRC) examination. The program requires a 100 hour practicum taken early in the course work, and a 600 hour supervised clinical internship generally taken near the conclusion of the program. Auburn University’s Clinical Rehabilitation Counseling Program has been ranked as 15th among the universities in the nation by US News & World Report. Graduates of the program are prepared to serve youth and adults with disabilities as Rehabilitation Counselors in the state-federal Vocational Rehabilitation system, in the proprietary sector of Rehabilitation, and in non-profit community-based Rehabilitation agencies. This program is offered on-campus and on-line.

Collaborative Teacher Special Education K-12 (MEd)

This program prepares teachers to serve students with disabilities at the elementary (K-6) and secondary (6-12) grade levels. Graduates are prepared at an advanced level to work with children and youth who have disabilities and implement evidence-based practices to meet their individual needs. There are curriculum options for students who have (a) a teaching certificate in Special Education, (b) a teaching certificate in an area other than Special Education, and (c) an undergraduate degree, but no teaching certification.

Early Childhood/Elementary Special Education P-6 (MEd)

This program prepares teachers to serve infants and toddlers (0-2 years), children in preschool (3-5 years), and students in K-6 settings. Graduates are prepared to implement evidence-based practices at an advanced level. There are curriculum options for students who have (a) a teaching certificate in Special Education, (b) a teaching certificate in an area other than Special Education, and (c) an undergraduate degree, but no teaching certification.

NOTE: Master of Education (MEd) degree programs in **Special Education** include both Alternative and Traditional certification options. Alternative MEd certification programs offer qualified students who hold non-teaching baccalaureate degrees a route to initial teacher certification while simultaneously earning a Master's degree. Admission requirements for the Alternative and Traditional Master's programs include a clear Alabama Fingerprint Background Check.

Additional admission requirements for the Alternative Master's programs in Special Education include documentation of a Bachelor's degree from an accredited college or university with a minimum GPA of 2.50 overall or a Master's degree or higher with a GPA of at least 3.0. This GPA must be documented on the official transcript of the degree granting institution and must be the GPA that was used as the basis for granting the degree, not a GPA that includes post-degree courses. Additionally, applicants must posses the appropriate number of teaching field courses or pass the appropriate content subject assessments.

Additional admission requirements for the Traditional Master's programs in Special Education include a valid Bachelor's level professional educator certificate in a teaching field and may include additional certification tests.

Degree requirements for Master's-level Special Education programs are in compliance with regulations established by the ALSBE and include a written comprehensive exam as well as a passing score on the appropriate content assessment for Alternative Master's students and Traditional Master's students with prior certification in a teaching field other than Special Education. In accordance with State regulations, effective for students unconditionally admitted to certification programs prior to July 1, 2017, a minimum GPA of 3.00 is required on all courses used to meet Master's-level certification program requirements. Effective for students unconditionally admitted to certification programs July 1, 2017 and after, a minimum 3.25 GPA will be required on all courses used to meet Master's-level certification program requirements.

School Counseling - MEd

This Master's program is a 60-credit hour program accommodating either full-time or part-time students with coursework that emphasizes advocacy and social justice. The program of study is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduates typically are employed in public or private elementary, middle/junior high, or high schools as professional school counselors. The School Counseling program considers applicants with Psychology, Counseling, Liberal Arts, Education, Social Work, Criminal Justice, and other general areas of study. Students complete practica and internships in settings related to their career goals. This program is offered on-campus and on-line.

NOTE: Students in all Master's-level **Counseling** programs must pass a comprehensive graduation exam which currently consists of the Counselor Preparation Comprehensive Examination (CPCE) and complete other assigned work and/ or examinations designed to evaluate students' skills in areas related to program goals. All Master's programs require extensive extramural practicum and internships in placements related to the area of professional preparation. Students in the Clinical Rehabilitation Counseling program are required to complete the Certified Rehabilitation Counselor (CRC) Examination, and students in all other Counseling Master's programs are provided the opportunity to complete the National Counselor Examination (NCE).

All graduate educator preparation programs are approved by the Alabama State Board of Education (ALSBE). Auburn University's College of Education is accredited through the National Council for Accreditation of Teacher Education (NCATE). Master's and Doctoral programs in Counselor Education are accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP). The Doctoral program in Counseling Psychology is accredited by the American Psychological Association (APA). Application to the master's programs includes meeting Graduate School requirements for admission, and submitting appropriate documents as indicated on the Graduate School application.

Students in the School Counseling program must earn a passing score on the appropriate Praxis II subject assessment and may be subject to other components of the State testing program depending on prior professional educator certification. In accordance with State regulations, effective for students unconditionally admitted to the School Counseling certification program prior to July 1, 2017, a minimum GPA of 3.00 is required on all courses used to meet Master's-level certification program requirements. Effective for students unconditionally admitted to certification programs July 1, 2017 and after, a minimum GPA of 3.25 will be required on all courses used to meet Master's-level certification program requirements. Students must pass a comprehensive graduation exam which currently consists of a Portfolio/Summative Evaluation and complete other assigned work and/ or examinations designed to evaluate students' skills in areas related to program goals. The program requires extensive extramural practicum and internships in placements related to the area of professional preparation. Students are provided the opportunity to complete the National Counselor Examination (NCE)

for certification purposes. Additional admission requirements for the School Counseling program include a clear Alabama Fingerprint Background Check.

Specialist in Education Degree Program (EdS)

Special Education Collaborative Teacher (EdS)

This program prepares students to be a special education leader at the local, state, or national level, and is aligned with the National Board for Professional Teaching Standards. This alignment provides opportunities that may be helpful in program graduates' future pursuits in becoming National Board-Certified Teachers. Employment opportunities include, but are not limited to, public sector positions such as: local special education coordinators or directors, special education lead teachers or chairpersons, special education supervisors, state special education specialists or administrators, and national associate division directors or division team members. In addition, those gaining an EdS in Special Education are eligible for a number of private sector positions. To be considered for entry into this program, applicants must have a Master's degree in Special Education and a minimum of three years of teaching experience. Applicants to the EdS program in Special Education Collaborative Teacher must satisfy the Department and Graduate School's admission requirements, which includes uploading documents to their Graduate School application. This material includes Master's degree transcripts from an accredited college or university, academic good standing at the institution last attended, competitive GRE scores, three reference writers name and email addresses, current resume, a valid Master's-level professional educator certificate in Special Education, and a clear State of Alabama Fingerprint Background check. In some cases, depending on prior level certification, additional certification tests may be required. Degree requirements for Specialist-level teacher certification programs are in compliance with regulations established by the ALSBE. Specialist programs include a minimum of 30 semester hours beyond the Master's degree. Additional requirements include satisfactory completion of a field project and a written comprehensive exam. In accordance with State regulations, effective for students unconditionally admitted prior to July 1, 2017, a minimum GPA of 3.25 is required on all courses used to meet Specialist-level certification program requirements. Effective for students unconditionally admitted July 1, 2017 and after, a minimum GPA of 3.50 will be required on all courses used to meet Specialist-level certification program requirements.

NOTE: Masters and Specialist-Level Certification Individuals completing State-approved **Master's-level Special Education** certification programs are eligible to apply for Alabama Class A certification; individuals completing State-approved **Specialist-level Special Education** certification programs are eligible to apply for Alabama Class AA certification. Effective September 1, 2018, the Alabama State Board of Education will require an acceptable score on the edTPA for initial certification in a teaching field. This certification requirement applies to individuals completing Alternative Master's programs. Individuals seeking certification in states other than Alabama are responsible for contacting those state certification offices to obtain their application form and requirements. The State of Alabama signs the National Association of State Directors of Education and Certification (NASDTEC) Interstate Agreement which facilitates the applications of program graduates when they apply for certification in other states.

Doctoral Degree Programs (PhD)

Counseling Psychology (PhD)

This doctoral program is a health service psychology program that is accredited by the American Psychological Association (APA). The next re-accreditation visit is scheduled to take place in 2027. Successful fulfillment of all requirements results in a Ph.D. (Doctor of Philosophy) degree in Counseling Psychology. The curriculum is built on a framework referred to as the "Scientist-Practitioner" model for training in Health Service Psychology, wherein emphasis is placed on the integration of the science and practice of Counseling Psychology. In addition to the core competencies articulated by the APA, the program assists students in developing competence in Group Therapy and Social Justice. The required curriculum includes a full-time, one-year, pre-doctoral internship. Graduates work in a wide range of settings including university Counseling Centers, VA hospitals, private and university affiliated hospitals, private practices, Community Mental Health agencies, academic departments as faculty, and postdoctoral fellowships. Counseling Psychology applicants may apply with a Bachelor's degree, some graduate coursework, a Master's degree, or a Doctoral degree (the latter in the case of re-specialization).

Counselor Education (PhD)

This doctoral program is a 64 credit program of study accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Admission requirements include meeting the clinical practice and academic coursework required by CACREP-accredited Master's level programs. The program focuses on the development of professional skills and competencies through course work and practicums in research, teaching, supervision, and advanced counseling. Integrated into these program requirements is an emphasis on social justice, advocacy and professional ethics. Students also complete an internship (3 semesters) that incorporates programmatic and student professional goals in the areas of counseling, supervision, teaching, research, and leadership and advocacy. Program requirements include a comprehensive exam (i.e., portfolio) and dissertation. Graduates are typically employed in Counselor Education faculty positions or Mental Health Counseling, Rehabilitation Counseling, or School

Counseling positions. Counselor Education applicants must have completed an approved Master's degree program prior to enrollment, preferably from a CACREP accredited Master's program requiring 60 credit hours.

Special Education (PhD)

This doctoral program prepares graduates for careers in research and instruction in higher education, or leadership roles in administration and policy-making at the state and national levels. Prospective students should have at least three years of teaching experience in Special Education and hold a teaching certificate in Special Education, and a Master's degree in Special Education. Special Education applicants must have completed three years of direct teaching of students with disabilities.

NOTE: The number of hours required for the three **Doctoral programs** varies and within each program is dependent on previous graduate work, ranging from 60–109 hours. Research methods, statistics, and foundations of education are components of all Doctoral programs. Doctoral students must register for at least 10 hours of dissertation credit while completing a dissertation.

Graduate Certificates

Inclusive Elementary Education Practices

This graduate certificate provides opportunities for elementary teachers in general education or Special Education to learn about curricula design, specialized teaching techniques, program implementation, current research directions and findings, and translating research into elementary inclusive teaching practices. Coursework and course activities will prepare you to implement evidence-based practices for students with autism spectrum disorders and other developmental disabilities

Admissions Prerequisites

- A Master's degree in a field related to education of students with disabilities, or intent to incorporate this certificate into a graduate degree in Special Education and thus meet the appropriate application requirements.

Degree Seeking Students

- Degree seeking students who plan to add a graduate certificate to their current degree program will apply for admission to the graduate certificate program at the **Graduate School** before completion of their degree program.

Non-Graduate Degree Admission

- Prospective students intending to pursue a graduate certificate without enrolling in a degree program must apply to the **Graduate School** for admission to the graduate certificate program

Intervention for Students with Autism and Developmental Disabilities

This graduate certificate allows teachers and educational professionals to access high quality professional development leading to improved educational outcomes for students with developmental disabilities and autism spectrum disorders. This certificate meets the significant need within Alabama's public schools and the region to provide instruction for children with developmental disabilities and autism spectrum disorders. Although the target audience for this graduate certificate will be Special Education teachers or those seeking a Master's degree in Special Education, other appropriate participants include professionals with Master's degrees in other related Human Service fields. Coursework and course activities will prepare you to implement evidence-based practices for students with autism spectrum disorders and other developmental disabilities

Coursework– 15 hours

- RSED 7400 (fall)
- RSED 7420 (summer)
- RSED 7230 (spring)
- RSED 7430 (summer)
- RSED 7410 (spring)

Admissions

- A master's degree in a field related to education of students with disabilities or
- Intend to incorporate this certificate into a graduate degree in special education and thus meet the appropriate application requirements.

Degree Seeking Students

- Degree seeking students who plan to add a graduate certificate to their current degree program will apply for admission to the graduate certificate program at the **Graduate School** before completion of their degree program.

Non-Graduate Degree Admission

- Prospective students intending to pursue a graduate certificate without enrolling in a degree program must apply to the **Graduate School** for admission to the graduate certificate program

Transition Specialist

This graduate certificate incorporates coursework and applied experiences to prepare you to collaborate with other professionals and transition stakeholders. Although the target audience for this graduate certificate is Special Education teachers or those preparing to be Special Education teachers, other appropriate participants include those majoring in General Education, Educational Administration, Rehabilitation Counseling, and other related Human Service fields. As defined by federal legislation, transition requires a set of "coordinated activities." In keeping with this federal definition and the standards set forth in professional organizations, those completing the Transition Specialist Graduate Certificate will gain an emphasis in transition and collaboration, while integrating up-to-date research on effective practice. In addition to the required courses identified for this graduate certificate program, the choices provided for elective courses will allow students to select the courses that will be most beneficial to them in their professional area. Professionals in education and other related human service fields with specialized training are needed to deliver transition services that address the unique needs of youth with disabilities as they exit high schools. Professional organizations have recognized this need and developed specific standards or guidelines to address the competencies needed by professionals who work with individuals with disabilities. These include the Council for Exceptional Children, Division of Career Development and Transition (Transition Specialist) standards, Council on Rehabilitation Education (CORE) standards, Council for Accreditation of Counseling and Related Education Programs (CACREP) standards, and APA Guidelines for Assessment and Intervention with Persons with Disabilities, to name just a few.

Degree Seeking Students

- Degree seeking students who plan to add a graduate certificate to their current degree program will apply for admission to the graduate certificate program at the **Graduate School** before completion of their degree program.

Non-Graduate Degree Admission

- Prospective students intending to pursue a graduate certificate without enrolling in a degree program must apply to the **Graduate School** for admission to the graduate certificate program

Vocational Evaluation Forensics

Purpose: Auburn University's Vocational Evaluation Forensic Certificate (VEFC) program is a short-term training certificate that exists for professionals and paraprofessionals who desire to work in the field of vocational rehabilitation. This new certificate incorporates current knowledge and training on societal trends in the areas of economics, forensics, employment, and evaluation, serving to enhance and improve students' education, ultimately leading to greater employment for individuals with disabilities. Upon completion of this one-year certificate program, students will possess the knowledge and skills to help consumers achieve positive employment outcomes in a technological society. Guided by our core values of diversity and evidence-based practice, we seek to foster student experiences that emphasize culture, values, knowledge, and navigational tools needed to become competent vocational service providers.

Eligibility: Individuals with a bachelor's or master's degree are eligible. Individuals with a disability and/or another minority status are strongly encouraged to apply. Those who are currently in the AU Clinical Rehabilitation Counseling program are also eligible for the VEFC program.

Program Overview: The VEFC certificate program at Auburn University is grant-funded by the Rehabilitation Services Administration (RSA) within the U.S Department of Education. The program is a one-year, six course, graduate certificate allowing both on campus and online undergraduate and graduate students to further their education in vocational rehabilitation. Each academic year, a cohort of students will be admitted beginning in the Fall 2021 semester. Scholarships and other financial assistance are available but competitive. There are 15 scholarships available each year. Students who have obtained a Master's degree will be well-trained and eligible to take the Certified Rehabilitation Counselor (CRC) exam and engage in the Certified Vocational Evaluation (CVE) process. Students who have previously obtained a Bachelor's degree will have enhanced competencies to serve individuals with disabilities.

Program Options: Accessibility is a priority and value of the program, therefore the VEFC certificate program can be completed on campus or via distance education (DE). Courses have been developed in collaboration with Auburn Online, Auburn University's premiere resource for distance and continuing education program support.

Degree Seeking Students

- Degree seeking students who plan to add a graduate certificate to their current degree program will apply for admission to the graduate certificate program at the **Graduate School** before completion of their degree program.

Non-Graduate Degree Admission

- Prospective students intending to pursue a graduate certificate without enrolling in a degree program must apply to the **Graduate School** for admission to the graduate certificate program

Online Learning Graduate Programs and Courses

The Department of Special Education, Rehabilitation, and Counseling offers the Special Education (MEd and EdS), Clinical Mental Health Counseling, Clinical Rehabilitation Counseling, and School Counseling graduate programs through online learning as well as through residential study.

Additional information

Detailed admission and program requirements for the department's multiple areas of graduate study are available on the College of Education's website, Academics (https://education.auburn.edu/academic-programs/).

Information about undergraduate programs offered in the Department of Special Education, Rehabilitation, and Counseling is available at: Special Education, Rehabilitation, and Counseling: Undergraduate (https://bulletin.auburn.edu/undergraduate/collegeofeducation/specialeducationrehabilitationandcounseling/).

Total Hours		**30**

1 RSED 6000 Advanced Survey of Exceptionality must be completed if survey of special education course was not completed for prior level certification. If a survey of special education course was completed for prior level certification, the state diversity course requirement must be fulfilled with RSED 7400 Curriculum & Teaching: Learning Strategies, RSED 7410 Program Implementation: Leadership, or RSED 7460 Positive Behavior Supports.

2 The following courses or equivalents are required if not previously completed--particularly for candidates whose prior certification was NOT in special education: RSED 6000, RSED 6140, RSED 6150, RSED 6160, RSED 6170, RSED 6190, RSED 6120, RSED 6420, RSED 6130, RSED 6180. These credit hours are in addition to the 30 total program hours.
In addition to the Graduate School requirement of a cumulative 3.0 GPA on all AU courses carrying graduate credit, a minimum cumulative GPA of 3.25 is required on all courses used to meet program requirements.

Coursework used to meet Class B certification requirements may not be used to meet requirements for Class A certification.
All substitutions for required courses must be approved using the Course Substitution Form, including transfer work.

Stats courses approved by program	6
Total Hours	**33**

COUN 8910: Advanced Practicum can substitute for COUN 7910 (the student must still complete 6 credits total from COUN 7910 or COUN 8910).

In addition to the above stated requirements, students must submit documentation of their clinical hours (including hours of direct provision of psychotherapy services to clients), evaluation forms completing by external supervisors for the two semesters of COUN 7910 (COUN 8910, if used to substitute for COUN 7910), and annual self-evaluations required by the program using the program form.

The student must meet the following additional outcomes beyond completion of courses with grades of Satisfactory (for S/U) courses and a GPA of 3.0 or better for traditionally graded courses: (A) accumulate 100 hours of direct provision of psychotherapy services to clients; (B) receive ratings of "consistent with beginning practicum student" or better in two semesters of practicum (COUN 7910 or COUN 8910) for the following items on the student evaluation form completed by external supervisors: (1) ability to form good relationships with clients, (2) ability to work with diverse clients (a rating of "cannot judge" is acceptable for one of the two semesters of this particular outcome but no ratings of "below expectations" or worse are acceptable for the two semesters used to meet this required outcome for the MA degree), and (3) ability to handle cases more effectively as a result of supervision; (C) two semesters of practicum ratings in which they did not receive a rating suggesting that the supervisor believes the student violated ethical principles of psychologists (this criterion requires that, for two semesters of practicum, a supervisor not indicate "yes" in response to the question, "Do you have any reason to believe that the student has violated ethical principles of psychologists?" found on the rating form that is completed by external supervisors); (D) successful completion of an outcome assessment assignment used in COUN 7910 (successful completion is defined as "acceptable/meets expectations/satisfactory" or better); and (E) receive a rating of satisfactory on making progress in research from program faculty during annual faculty evaluations of students.

Doctor of Philosophy

The American Psychological Association (APA) is the accrediting body for this program. The APA implemented new standards (called the Standards of Accreditation) with corresponding Implementing Regulations (which specify how standards are to be met and can be modified more frequently) that became effective January 1, 2017. This curriculum is designed to meet those standards.

Inclusive Elementary Education Practices — Graduate Certificate

This graduate certificate provides opportunities for elementary teachers in general education or special education to learn about curricula design, specialized teaching techniques, program implementation, current research directions and findings, and translating research into elementary inclusive teaching practices.

The program requires 15 hours of coursework. Everyone in the program will complete six hours of required coursework. Key assessments will be included in these classes which will be used for program evaluation. Students will select nine additional hours of coursework from a given list.

In many fields the term "forensic" means any legal or court related process (forensic refers to more than clinical pathology). In this case using forensic rehabilitation skills will further develop our students understanding and application of vocational skills.

This is a graduate level certificate, as such students with a bachelors degree or masters degree are eligible to enroll in the FVRC program. Students will take six courses, which are required for certificate completion. There are no electives. Students will take two courses each semester, for three semesters to complete the programs. Cohorts will be admitted each fall semester. Courses can be taken as non-degree by students eligible for Master' level coursework, or have a degree in Rehabilitation Counseling, or those completing a master's degree.

Auburn University's (AU) *Vocational Evaluation Forensic Certificate* program is designed to help State VR entities meet personnel standards as required by the Workforce Innovation and Opportunity Act (WIOA; 2014; 2016), and the 1998 Amendments to the 1973 Rehabilitation Act. This proposal is designed to address the specific personnel needs of State VR system requirements, providing greater emphasis on evidence-based practices within vocational programming. Although some studies suggest that counselors who hold a master's degree in rehabilitation counseling perform significantly better with VR clients who have significant disabilities (Fleming, Del Valle, Kim, & Leahy, 2013), the creation of WIOA has downgraded the educational requirements to serve individuals with disabilities in a vocational capacity (McClanahan & Sligar, 2015; WIOA, 2014). This legislation allows employees with many different bachelor's degrees to provide vocational services to individuals with disabilities, despite a lack of specific training related to the rehabilitation field. This means that employees without education in vocational services or counseling will be working with individuals with disabilities, including those who have severe disabilities. Although there are a few forensic programs that exist, they do not incorporate the needs of State VR services. The AU *Vocational Evaluation Forensic Certificate program* will provide programming that covers the commonalities from both the State VR and Forensic systems. The main goal is to train skilled personnel to fill State vocational rehabilitation vacancies, and/or work in the forensic arena.

Speech, Language, and Hearing Sciences

Degree Programs

Speech, Language, and Hearing Sciences — MS (p. 1784)

The Department of Speech, Language, and Hearing Sciences offers a master's programs in speech-language pathology accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). A Master of Science in Speech, Language, and Hearing Sciences (MS) has a thesis or non-thesis requirement. The degree does not require expertise in a foreign language. Information about the degree program is available at https://www.cla.auburn.edu/speech-language-hearing-sciences/.

The plan of study for the MS must conform to academic and practicum requirements for ASHA certification and Alabama licensure. Students then are prepared for careers in school systems, clinics, hospital/rehabilitation centers, physicians' offices, and private practice and for pursuing the doctoral degree.

Admission Requirements

A baccalaureate degree from an accredited university is necessary. Those with a degree in speech, language, and hearing sciences, or equivalent, complete the Master of Science in Speech, Language and Hearing Sciences (MS) degree with 52–59 hours semester credit hours dependent on whether a student selects the thesis or non-thesis track. General education courses on the undergraduate transcript should include at least one course in each of the following areas: statistics, biological science, physical science (must be chemistry or physics), and behavioral science. As this background is expected by the program's accreditation agency, any deficiency must be fulfilled before conferral of the master's degree in this program. Students who do not have required undergraduate prerequisite courses will be required to take the coursework prior to entering or as part of their graduate program. If any prerequisite coursework has not been completed, it is with the understanding that it could delay the student's graduation date.

Some application materials are sent directly to the Graduate School and other materials are sent CSDCAS.

Application to Auburn University's Speech, Language and Hearing Sciences Dept. requires that you complete both the electronic application through the Communication Sciences and Disorders Centralized Application Service (CSDCAS) AND the online application to the Auburn University Graduate School. Here are specific steps:

1. Apply online to AU's Graduate School and submit payment.
2. Complete the Casper Assessment through Altus Suite. Casper scores are sent directly to Auburn University so you do not need to upload your scores to CSDCAS.
3. Official transcripts from every college or university attended must be sent to CSDCAS.
4. Three professional letters of recommendation must be submitted to CSDCAS
5. A video: See website for instructions and prompt.
6. A personal statement. See website for instructions.
7. For international students whose native language is not English, the TOEFL must be taken and submitted to both CSDCAS and AU Graduate School. In keeping with the requirements of the Auburn University Graduate School, successful international applicants must score at least 550 on the Test of English as a Foreign Language (TOEFL) paper version (pBT), 213 on the computer version (cBT), and 79 on the internet version (iBT). Additionally, successful applicants must score minimums of 16 on the listening, reading, speaking, and writing components of the iBT.

January 15th is the annual deadline for applications to the graduate program. To be considered for admission, all materials need to be submitted to AU and CSDCAS no later than January 15th.

Graduation Requirements

The Master of Science in Speech, Language, and Hearing Sciences non-thesis track requires a minimum of 53 hours of graduate course work, including five semester hours of SLHS 7920 Internship in Speech-Language Pathology. Students must pass the comprehensive examination process to graduate (See handbook).

The MS in Speech, Language, and Hearing Sciences thesis track requires a minimum of 52 hours of graduate course work, including at least four hours of SLHS 7990 Research and Thesis. Although SLHS 7920 Internship is not required for thesis students, historically all students have enrolled in this course to acquire the required 400 clock hours of supervised practicum in speech language pathology.

Clinical Experience Requirements

In addition to academic course work requirements, the MS degree program requires a minimum of 400 clock hours of supervised clinical experience in the practice of speech-language pathology.

Graduate Assistantship Opportunities

The department has a limited number of graduate assistantships available. These assistantships must be applied for using the Application for Assistantship form downloaded from the departmental website. Assistantships are awarded based on academic performance and research experience.

Speech, Language, and Hearing Sciences — MS

First Year

Fall	Hours	Spring	Hours	Summer	Hours
SLHS 7570 Research Methods in Speech-Language Pathology	3	SLHS 7820 Dysphagia	3	SLHS 7840 Augmentative and Alternative Communication	3
SLHS 7860	3	SLHS 7550 Adult Aphasia	3	SLHS 7530 Stuttering	3
SLHS 7700 Clinical Problem Solving I	2	SLHS 7720 Clinical Problem Solving II	2	SLHS 7590 Language Disorders: School-Age	3
SLHS 7970 Special Topics Seminar	2	SLHS 7500 Clinical Practicum in SLP	1	SLHS 7500 Clinical Practicum in SLP	1
SLHS 7500 Clinical Practicum in SLP	1	SLHS 7510 Advanced Speech Sound Disorders	3		
SLHS 7520 Language Disorders: Birth to Five	3				

Second Year

Fall	Hours	Spring	Hours
SLHS 7810 Motor Speech Disorders	3	SLHS 7920 Internship in Speech-Language Pathology	5
SLHS 7560 Craniofacial Anomalies	3	SLHS 7990 Research and Thesis[2]	4-5
SLHS 7970 Special Topics Seminar	2		
SLHS 7500 Clinical Practicum in SLP	1		
SLHS 7540 Voice & Upper Airway Disorders	3		

* Thesis Track: A minimum of 4 and a maximum of 5 credit hours of SLHS 7990 Research and Thesis count toward the degree. Thesis students waive academic comprehensive examinations (0 credit) and also may waive SLHS 7920 Internship (5 credits) unless additional clock hour experience is needed. This option requires a minimum total of 52 semester credit hours.
Non-Thesis Track: Non-Thesis students waive must complete and pass comprehensive examinations (0 credit) and complete the SLHS 7920 Internship (5 credits). This option requires a minimum total of 53 semester credit hours.

1 Internship is required for non-thesis track students and is recommended for thesis track students.

2 Thesis hours should be completed by second year spring, but may be distributed across previous semesters.

Statistics — MS

Degree Programs

- Statistics (Non-Thesis) — MS (p. 1707)

The Department of Mathematics and Statistics offers a graduate degree program leading to a non-thesis master of science in statistics. The program is designed to provide a suitable mix of theoretical and applied backgrounds for students interested in a career in statistics. The curriculum provides students with the necessary technical, analytical, and interpretive skills required of professional statisticians while concentrating on education in the fundamentals of statistics and its interdisciplinary nature. Course offerings are structured to give students a variety of choices of specialization to pursue a career in academia, government, or industry and/or further their pursuit of a PhD degree in statistics. Students are required to complete a project that may involve statistical consulting, programming and/or complex data analysis. A PhD degree in mathematics with concentration in statistics is also available (see Mathematics (p. 1705)).

For those students whose graduate research includes a substantial amount of statistical methodology or data analysis, but who do not wish to pursue a degree, a graduate minor in statistics is available (see Statistics (p. 1801) under Graduate Minors (p. 1797)).

Statistics and Data Science — PhD

The Doctor of Philosophy program in the field of Statistics and Data Science (CIP code: 30.7001) is designed to prepare students for research and teaching positions in academia, industry, or government. Graduates are expected to have a broad set of fundamental skills in statistics and data science, as well as the ability to collaborate with researchers in applied fields through the formulation and implementation of novel statistical models and methods.

The program provides rigorous training in theory, methodology, and application of statistics and data science, and offers the opportunity to work with faculty on advanced research topics covering a wide range of theory and application areas. The PhD in Statistics and Data Science requires 60 credit hours, which include both required and elective coursework.

In order to demonstrate mastery of the subject matter, students are required to pass two qualifying exams: the first in theoretical statistics and data science and the second in statistical and data science methodology. These exams are typically taken by the end of the second year of study. In addition to coursework and qualifying exams, students are required to successfully defend their dissertation proposal and to present a final oral defense of their dissertation before a committee of faculty members.

In addition to coursework, research, and other program requirements, students in the Ph.D. program in Statistics and Data Science at Auburn University are expected to engage with the broader academic community through a range of activities. These activities include attending seminars, presenting at conferences, and publishing research articles. The requirement for students to engage with the broader academic community through such activities is designed to provide students with a comprehensive education in statistics and data science, as well as to help them build a strong professional network and establish themselves as experts in the field.

Overall, the PhD program in Statistics and Data Science provides students with the skills, knowledge, and experience needed to pursue successful careers in a wide range of fields in academia, industry, and government.

Structural Analysis in Structural Engineering — Graduate Certificate

The overall objective of the program is to provide interdisciplinary graduate#level education for those seeking advanced professional knowledge and skills in structural analysis, who are not enrolled in a graduate degree program.

This Graduate Certificate Program is built on top of the successful Engineering Online Program within the Samuel Ginn College of Engineering, which was ranked highly in U.S. News and World Reports for Best Online Engineering Programs. It is an on#campus equivalent education program that combines traditional instruction with modern delivery methods to offer graduate studies beyond Auburn’s campus.

The program is structured to advance the working engineer’s knowledge and skills in the rapidly changing field of structural analysis. It deals with advanced graduate courses related to the structural analysis of a wide variety of structural systems and under both static and dynamic loading. Typical problems include:

- Analysis of complex structural systems for both static and dynamic loading
- Analysis and modeling of structural systems to account for dynamic loading due to wind, seismic and blast loads
- Structural engineering analysis for the repair of existing structures which represents a significant step in the direction of sustainability
- Advanced analysis topics in stability and complex stress analysis

At a Glance

- The program requires students to take four related graduate courses (12 credit hours).
- Students attending courses online have the same professors as their on#campus peers.
- Students can access lectures online through a live feed or at their convenience via streaming video.
- The online schedule allows for flexibility to maintain a career while completing the program.

Faculty

Structural Analysis courses in Structural Engineering are taught by Auburn’s outstanding civil engineering faculty.

Structural Design in Structural Engineering — Graduate Certificate

The overall objective of the program is to provide interdisciplinary graduate#level education for those seeking advanced professional knowledge and skills in Structural Design in Structural Engineering, who are not enrolled in a graduate degree program.

This Graduate Certificate Program is built on top of the successful Engineering Online Program within the Samuel Ginn College of Engineering, which was ranked highly in U.S. News and World Reports for Best Online Engineering Programs. It is an on#campus

equivalent education program that combines traditional instruction with modern delivery methods to offer graduate studies beyond Auburn's campus.

The program is structured to advance the working engineer's knowledge and skills in the rapidly changing field of the structural design. It deals with advanced graduate courses related to structural design for a wide variety of structural systems and under both static and dynamic loading. Typical problems include:

- Design of buildings and other structures using multiple types of construction materials (steel, reinforced concrete, prestressed concrete, masonry, and timber)
- Advanced design of structures under both statically and dynamically applied loads (gravity, wind, seismic, and blast)
- Design of both building and bridge structures for the expected service and extreme event demands

At a Glance

- The program requires students to take four related graduate courses (12 credit hours).
- Students attending courses online have the same professors as their on#campus peers.
- Students can access lectures online through a live feed or at their convenience via streaming video.
- The online schedule allows for flexibility to maintain a career while completing the program.

Faculty

Structural Design courses are taught by Auburn's outstanding Structural Engineering faculty.

Supply Chain Management — Graduate Certificate, MS, PhD

Supply Chain Management — Graduate Certificate, MS, PhD (https://harbert.auburn.edu/about/academic-departments/supply-chain-management.html)

Degree Programs:

- Supply Chain Management — MS (p. 1788)
- Business (Supply Chain Management Concentration) — PhD (p. 1787)

Graduate Certificates:

- Supply Chain Management Innovation (p. 1789)
- Supply Chain Operations (p. 1789)
- Supply Chain Planning (p. 1790)

Business (Supply Chain Management Concentration) — PhD

Program Structure: Ph.D. students are required to complete a minimum of 60 hours of coursework, including 18 Research and Dissertation hours. *This structure is highly consistent with the existing Ph.D. concentrations.* The general structure is presented below.

Year 1 - Semester 1

Code	Title	Hours
ISMN 8010	IS Management Research Sem. I	3
MNGT 8030	Research Methods in Management I	3
SCMN 8900	Directed Studies	3

Year 1 - Semester 2

Code	Title	Hours
MNGT 8400	Advanced Quantitative Methods for Management I	4
SCMN 7900	Directed Studies	3
MNGT 7970	Special Topics in Management	3

Year 1 - Summer - Research Project (data collection and analysis) - 3 hours. Outcome Paper 1 - Extended abstract conference submission or Category 1 journal

Code	Title	Hours
Summer Research Project		3

Year 2 - Semester 3

Code	Title	Hours
ERMA 7200	Basic Methods in Education Research	3
SCMN 8900	Directed Studies	3
Research Methods - select 1 class		3
HDFS 8090	Qualitative Methods in the Social Sciences	
PSYC 7270	Experimental Design in Psychology	
HDFS 8060	Multilevel Modeling	
ERMA 7400	Mixed Methods Research	

Year 2 - Semester 4

Code	Title	Hours
MNGT 8310	Seminar in Advanced Organizational Behavior	3
SCMN 7900	Directed Studies	3
Research Methods - select 1 class		3
HDFS 8090	Qualitative Methods in the Social Sciences	
PSYC 7270	Experimental Design in Psychology	
HDFS 8060	Multilevel Modeling	
ERMA 7400	Mixed Methods Research	

Year 2 - Summer - Research Project (data collection and analysis) - 3 hours. Outcome Paper 2 - Elite journal; prepare for comprehensive exam.

Code	Title	Hours
Summer Research Project		3

Year 3 - Semester 5 and 6: Research and Dissertation Hours

Code	Title	Hours
SCMN 8990	Research and Dissertation	9

Year 4 - Semester 7 and 8: Research and Dissertation Hours

Code	Title	Hours
SCMN 8990	Research and Dissertation	9
Total Minimum Hours - 60 hours		

Supply Chain Management — MS

The Master of Science in Supply Chain Management (MSCM) degree is designed to provide advanced and specialized education for a rapidly growing field and related industries. The underlying curriculum model aims to develop the necessary skills for professionals to perform at the middle and top management level in supply chain management. The degree program is designed for students that are interested in combining work life with the need for educational advancement.

The MSCM degree offers an interesting blend of theoretical knowledge and practical skills through courses created to keep students abreast of current management thinking and practice. Emphasis is placed on the concepts of strategic planning, informed decision-making and supply management trade-offs. Collectively, these graduate courses provide students a rigorous training in essential theories, business concepts, quantitative tools and analytical skills that can be used to source, design, plan and manage modern supply chains.

The Master of Science in Supply Chain Management is a non-thesis degree program that will be offered online and on-campus. The degree program requires a minimum of 30 credit-hours based on the following coursework:

Code	Title	Hours
SCMN 7600	Supply Mngt and Manufacturing	3
SCMN 7700	Demand Mngt & Fulfillment	3
SCMN 7800	Supply Chain Strategy	3
SCMN 6500	Inventory and Warehouse Management	3
SCMN 6600	Supply Chain Planning	3
BUSI 7150	Operational Excellence Through Supply Chain and Quality Management	3
At least four elective courses from the following list:		
BUSI 7120	Quantitative Analysis for Business Decisions	3
BUSI 7130	Strategic Analysis and the Competitive Environment	3
ISMN 6370	Project Management	3
SCMN 6390	Integrating Business Processes with ERP	3
SCMN 6960	Special Problems	3
SCMN 6720	Quality & Process Improvement	3
BUAL 6610	Predictive Modeling for Business Decisions	3
BUAL 6650	Business Data Management and Acquisition	3
BUAL 6660	Descriptive Analytics for Business Decisions	3
BUSI 7140	Organizational Leadership, Ethics and Change	3
BUSI 7250	International Business Operations	3
ISMN 7880	Adv Mngt of Info Sys	3

Additional electives can be added to the degree plan with departmental approval.

Students pursuing the MSCM degree will have a plan of study supervised by the Department of Supply Chain Management. This degree does not have a residency requirement, so students can complete the degree through either on-campus instruction or fully online through distance education.

Supply Chain Management Innovation — Graduate Certificate

This graduate certificate prepares individual's skills and knowledge in the supply chain field to include supply chain tactics, tools, and techniques. This certificate is designed to assist students to understand the essential role of supply chain management in achieving manufacturing and service operations excellence; develop expertise in supply chain planning, sourcing, transformation, fulfillment, and technology; evaluate a company's supply chain strategy, effectiveness; and, make constructive adjustments to support the organizational mission and vision.

Code	Title	Hours
BUSI 7150	Operational Excellence Through Supply Chain and Quality Management	3
and		
SCMN 7600	Supply Mngt and Manufacturing	3
and		
SCMN 7700	Demand Mngt & Fulfillment	3
and		
SCMN 7800	Supply Chain Strategy	3

Supply Chain Operations — Graduate Certificate

The Graduate Certificate in Supply Chain Operations is designed to provide advance and specialized education for executives and professionals working in or planning to transition to the supply chain field. The curriculum places emphasis on the concepts of operational planning, inventory control and process management through technology. Collectively, this graduate certificate provides students a rigorous training in managing supply chain operations and information technology.

Code	Title	Hours
BUSI 7150	Operational Excellence Through Supply Chain and Quality Management	3
SCMN 6720	Quality & Process Improvement	3
SCMN 6500	Inventory and Warehouse Management	3
SCMN 6390	Integrating Business Processes with ERP	3

Supply Chain Planning — Graduate Certificate

The Graduate Certificate in Supply Chain Planning is designed to provide advance and specialized education for executives and professionals working in or planning to transition to the supply chain field. The curriculum places emphasis on concepts of strategic planning, informed decision-making and supply management trade-offs. Collectively, this graduate certificate provides students a rigorous training in managerial quantitative tools and analytical skills that can be used to source, design, plan and manage modern supply chains.

Code	Title	Hours

BUSI 7120	Quantitative Analysis for Business Decisions	3
SCMN 6600	Supply Chain Planning	3
ISMN 6370	Project Management	3

Business Analytics and Information Systems — Graduate Certificate, MS, PhD

Degree Programs:

- Information Systems Management — MS (On-Campus/Online) (p. 1791)
- Information Systems Management — PhD (p. 1791)

Graduate Certificates:

- Business Analytics (p. 1791)
- Management Information Systems (p. 1702)

The Business Analytics and Information Systems department offers graduate study leading to the master of science and the doctor of philosophy degrees in Information Systems Management. The program also offers a joint program leading to both the MSIS and MBA degrees. Applicants must hold a bachelor’s degree from a recognized institution. Graduates of business schools will likely have met this requirement; graduates of other programs may be required to complete additional courses to compensate for deficiencies.

Master of Science in Information Systems

The (MSIS) Program in Business is a non-thesis program that emphasizes practical application of management information systems to managerial problem solving and decision making. Students are required to complete a final project. The program is designed to provide students the opportunity to develop an expertise in a chosen area of management. Applicants to the master's program must have completed an undergraduate degree. The MSIS program is offered as a traditional, on-campus program and as an online program. A twelve-hour graduate certificate is also available.

The MBA/MSIS is a 54-hour program administered jointly by the Business Analytics and Information Systems faculty and the MBA program. The program saves the student fifteen hours of coursework over completing both degrees separately. For the MBA, students without two years full time work experience are required to do an additional 0-3-credit hour internship. Students must apply separately to each program (MSIS and MBA), but only have to pay one application fee. Students can also opt to apply for the second degree program during their first year in the other program.

The PhD program in Business with Information Systems Management concentration prepares graduates to conduct high-quality research in universities, colleges, government and business. Individual flexibility is provided in a program of study that develops the conceptual and methodological skills that graduates need to establish a leadership position in their chosen fields. Objectives of the program are accomplished through the completion of a formal program of study, successful completion of a statistics core, preparation and completion of two examination manuscripts, and dissertation research. Students with assistantships may also be required to teach.

Students are expected to have a fulltime presence on campus. Applications to the PhD program must complete an Auburn University Graduate School application. For full consideration, applications must be received no later than February 1, prior to the Fall term.

Information concerning specific program requirements may be obtained by visiting https://harbert.auburn.edu/degrees-programs/graduate/ms-information-systems/index.html (https://harbert.auburn.edu/degrees-programs/graduate/ms-information-systems/).

Information Systems Management — MS

Code	Title	Hours
MS Information Systems Management Non-Thesis (on-campus/online)		
ISMN 7830	Database Development and Design	3
ISMN 7660	Information Systems Analysis and Design	3
ISMN 7980	MSIS Project	3
Select 21 Credits from any approved ISMN 6000-7999 or BUAL 6000-7999		21
Total Hours		**30**

Business - Information Systems Management — PhD

Code	Title	Hours
PhD Business - Information Systems Management		
ISMN 8990	Research and Dissertation	10
50 Credits in @ 6000-8999		50
Total Hours		**60**

The PhD in Business requires 60 semester hours earned through instruction beyond the bachelor's degree, including 1) a minimum of 30 semester hours graded (e.g., A, B) graduate course work (6000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses, 7990 and 8990, and must include at least 10 hours of 8990. Up to 30 hours (if less than half of the total number of hours) of applicable master's level course work may be used to satisfy part of these requirements with advisor approval.

The total number of credit hours that may be transferred from another accredited institution toward a doctoral degree varies by program but must be less than 50 percent of the credit hours listed on the Plan of Study. Such transfer credit 1) must fall within the time limits of the degree; and 2) must be approved by the advisory committee and the dean of the Graduate School. A maximum of four hours of 7990 (Research and Thesis) from a completed master's program may be counted.

All doctoral students must complete a minimum of 10 hours of 8990. Enrollment in 8990 may take place at any time the student and the advisory committee deem appropriate. During any one semester, the number of hours of 8990 in which the student enrolls should reflect the amount of instructional time being spent on the dissertation and the degree to which university resources are being utilized. Students may enroll, during any one semester, for as few as one hour or as many as 16 hours of 8990. Dissertation students submitting their dissertation, awaiting committee review and approval, or taking their final examination must register for 8990 Research and Dissertation in the semester(s) when these steps in the process take place. The requisite 10 hours of 8990 should be included in the Plan of Study. No grade is assigned.

Business Analytics — Graduate Certificate

This graduate certificate will help develop working skills in building data models used in business decision making and business applications, basic data analytics techniques for the business setting;

Managing, governing, extracting, merging, and preparing large data sets for analysis; and data management, emphasizing loading and cleansing data for analysis.

Students must take the two required courses listed below. The remaining 6 hours may come from any BUAL course at the 6000 level or higher, ISMN 6290, or ISMN 6650. Current Auburn University graduate students may substitute one of their program courses for 3 of the 6 hours of electives with approval from the certificate-granting department advisor.

Code	Title	Hours
BUAL 6610	Predictive Modeling for Business Decisions	3
BUAL 6650	Business Data Management and Acquisition	3

Management Information Systems — Graduate Certificate

This graduate certificate is designed to develop an individual's skills in database development and administration, security and information assurance, systems analysis and design, and business analysis. This certificate is targeted for current students and working professionals to specialize in management information systems knowledge and skills.

This certificate program has one required course. Students may select either ISMN 7660 (Information Systems Analysis and Design) or ISMN 7830 (Database Design and Development) to satisfy this requirement. The remaining 9 hours may be chosen from any ISMN courses at the 6000 level or above. Current Auburn University graduate students may substitute one of their program courses for 3 of the 9 hours of electives with approval from the certificate granting department advisor.

Mechanical Engineering Tribology — Graduate Certificate

This graduate certificate prepares individuals to advance their level of understanding in the area of tribology engineering. Tribology engineering is the science and engineering of interacting surfaces in relative motion and includes the study and application of friction, lubrication, and wear principles.

All of the following courses must be completed:

Code	Title	Hours
MECH 6230	Friction, Wear and Lubrication	3
MECH 6240	Boundary and Full-Film Lubrication	3
MECH 6250	Multiscale Contact Mechanics	3

TOTAL HOURS - 171

Students are required to have 3 hours of elective credit in the pre-clinical curriculum (semesters 2-5), but may have more. In spring of year 3 (semester 6), students are required to take EITHER VMED 9320 or VMED 9420, but may take both, if their schedule allows.

Most clinical rotations are two weeks long with rare 3-week exceptions. Each student must complete 13 core clinical rotations and 9 elective rotations, which are selected from a pre-approved list.

Veterinary Social Work Certificate

The Auburn University Veterinary Social Work (VSW) Certificate is a **Social Work Graduate level Certificate** completed by Master of Social Work (MSW) students at Auburn University.

The Certificate, which is imbedded within the MSW program at Auburn, is designed to increase the number of graduate level social workers educated in how human-animal interactions impact the human experience.

MSW Students develop knowledge and skills as they think critically about the core content areas of Veterinary Social Work which include:

- The Human Animal Relationship
- Compassion Fatigue and conflict management
- Animal related grief and bereavement
- The link between human-animal violence
- Animal Assisted Interventions

Certificate Completion Process

1. Application. Admitted MSW students may submit an application in the form of a letter of intent to the MSW Program Director. This application should be completed in 750 words or less.

2. Complete Course Credits as specified in this table.

Code	Title	Hours
SOWO 7600	Veterinary Social Work Practice	3
SOWO 7040	Social Work Practice in the Health Care Field	3
SOWO 7950	Integrative Seminar	3
Total Hours		**9**

3. In addition to completing the courses above, the student will:

- Include a Veterinary Social Work Concept in the Advanced Field Placement Learning Plan.
- Participate in the Veterinary Social Work oath ceremony.

Water Environmental Modeling — Graduate Certificate

The overall objective of the program is to provide interdisciplinary graduate#level education for those seeking advanced professional knowledge and skills in water environmental modeling, who are not enrolled in a graduate degree program.

This Graduate Certificate Program is built on top of the successful Engineering Online Program at Samuel Ginn College of Engineering, which was ranked highly in U.S. News and World Reports for Best Online Engineering Programs. It is an on#campus equivalent education program that combines traditional instruction with modern delivery methods to offer graduate studies beyond Auburn's campus.

The program is structured to advance the working engineer's knowledge and skills in the rapidly changing field of water environmental modeling. It deals with the flow, water quality, and ecological modeling studies and consists of a vast field that focuses on water quality, its applications in human activities and its interactions with the water environment such as rivers, lakes, reservoirs, estuaries, groundwater, and watersheds. Typical problems include:

- The transport and diffusion of pollutants in the runoff and aquatic systems.
- The modeling of sediment, heat, and contaminant transport/chemical/biological processes in rivers, lakes, reservoirs, and estuaries, and in the groundwater system.
- The interaction between the hydrologic cycle and nutrient and energy cycles in terrestrial ecosystems.

At a Glance

- The program requires students to take four related graduate courses (12 credit hours).
- Students attending courses online have the same professors as their on#campus peers.
- Students can access lectures online through a live feed or at their convenience via streaming video.
- The online schedule allows for flexibility to maintain a career while completing the program.

Faculty

Water environmental modeling courses are taught by Auburn's outstanding civil and environmental engineering faculty.

Water Resources Engineering — Graduate Certificate

The overall objective of the program is to provide interdisciplinary graduate#level education for those seeking advanced professional knowledge and skills in water resources engineering, who are not enrolled in a graduate degree program.

This Graduate Certificate Program is built on top of the successful Engineering Online Program at Samuel Ginn College of Engineering, which was ranked highly in U.S. News and World Reports for Best Online Engineering Programs. It is an on#campus equivalent education program that combines traditional instruction with modern delivery methods to offer graduate studies beyond Auburn's campus.

The program is structured to advance the working engineer's knowledge and skills in the rapidly changing field of Water Resources Engineering, which deals with hydraulic and hydrologic studies and consists of a vast field that focuses on water resources, its applications in human activities and its interactions with the environment. Rooted in fluid mechanics, water resources (hydraulics and hydrology) engineers focus on problems that include:

- Conveyance of water in the urban environment, with applications on water supply and wastewater and stormwater collection and management.
- The motion of water in the overland flows, rivers, aquifers, coastal environments, etc.
- Sediment, heat, and contaminant transport processes in rivers, lakes, reservoirs, and estuaries, and in the groundwater system.
- Hydraulic structures such as reservoirs, dams, canals, etc.
- The interaction between the hydrologic cycle and nutrient and energy cycles in terrestrial ecosystems.

At a Glance

- The program requires students to take four related graduate courses (12 credit hours).
- Students attending courses online have the same professors as their on#campus peers.

- Students can access lectures online through a live feed or at their convenience via streaming video.
- The online schedule allows for flexibility to maintain a career while completing the program.

Faculty

Water resources engineering courses are taught by Auburn's outstanding civil and environmental engineering faculty.

Wildlife Sciences — MS, PhD

Degree Programs:

- Wildlife Sciences — MS (p. 1796)
- Wildlife Sciences — PhD (p. 1796)

Wildlife Sciences graduate programs are available for both MS and PhD degrees. Admission requirements parallel those for Forestry graduate programs. In addition to meeting Graduate School admission requirements, applicants are evaluated and recommended for admission by the graduate faculty of the College of Forestry, Wildlife and Environment based on examination of scores on the TOEFL tests for international students, previous academic records, experience, and recommendations. While exceptions may be made, the faculty generally expect a minimum GPA of 3.0 in previous academic course work.

Degrees offered:

Master of Science (**MS**) which requires a minimum of 30 hours beyond the bachelor's degree at the graduate level, 21 hours of which must be in the major. A minimum of 4 but not more than 6 hours in Research and Thesis (WILD 7990) is required. All MS students are required to take Research Methods (FORY 7510) and Graduate Seminar (FOWS 7950). A research proposal and thesis based on original research are required components for the MS degree.

Doctor of Philosophy (PhD) degree requires 60 semester hours beyond the bachelor's degree. There must be a minimum of 30 semester hours in graded coursework at the 7000-level or above. Of the remaining 30 semester hours, 10 hours must be Research and Dissertation (WILD 8990) and 20 hours of 6000-level or above. While some of these 60 hours can be from previous graduate work, such as a MS degree, the majority of hours of graded coursework at the 6000-level or above must be completed at Auburn. All PhD students are required to take Research Methods (FORY 7510) and Graduate Seminar (FOWS 7950). A research proposal and dissertation based on original research are required as major components of the PhD degree program. Oral and written preliminary exams are required for advancement to candidacy and must be completed no less than two academic terms prior to graduation. The written and oral preliminary examinations for PhD students will normally consist of questions from each committee member regarding technical competency and other related issues.

Wildlife Sciences — MS

Code	Title	Hours
Wildlife Sciences (MS)		
FORY 7510	Research Methods	2
FOWS 7950	Graduate Seminar	1
WILD 7990	Research and Thesis	4
Select 23 Credits in @ 6000-8999 (Electives)		23
Total Hours		**30**

Wildlife Sciences — PhD

Code	Title	Hours
Wildlife Sciences (PhD)		
FORY 7510	Research Methods	2
FOWS 7950	Graduate Seminar	1
WILD 8990	Research and Dissertation	10
Select 47 Credits in @ 6000-8999		47
Total Hours		**60**

Wireless Engineering — Graduate Certificate

Complete a total of four courses (12 hours), with two (2) courses from the electromagnetics group and two (2) courses from the communications group.

Code	Title	Hours
Electromagnetics (select any 2 courses)		**6**
ELEC 6130	RF Devices and Circuits	
ELEC 6310	Design of Antennas and Antenna Systems	
ELEC 6340	Microwave and RF Engineering	
ELEC 6350	Radar Principles	
Communications (select any 2 courses)		**6**
ELEC 6120	Telecommunication Networks	
ELEC 6220	Information Networks and Technology	
ELEC 7440	Wireless Communication Theory	
Total Hours		**12**

Post-Masters Healthcare Simulation — Graduate Certificate

The purpose of the post-master's simulation graduate certificate program is to provide the essential components of simulation as a teaching strategy for healthcare educators. The program enables learners to use evidence-based principles and best practices to facilitate learning in the simulation environment. This graduate certificate academically prepares individuals who are interested in healthcare simulation development, practice, design, implementation and evaluation.

Fall Semester:

Foundational Concepts in Healthcare Simulation (3 credit hours)

(No clinical component)

Spring Semester:

Evidence-based Application of Technology and IPE in Healthcare Simulation (3 credit hours)

(2 didactic, 1 clinical = 3 credit hours)* 60 Clinical Hours

Summer Semester:

Healthcare Simulation Capstone Course (4 credit hours)

(2 didactic, 2 clinical = 4 credit hours)* 120 Clinical Hours

Code	Title	Hours
NURS 7000	Foundational Concepts in Healthcare Simulation	3
NURS 7010	Evidence-Based Application of Technology and IPE in Healthcare Simulation	3
NURS 7020	Healthcare Simulation Capstone	4
Total Hours		**10**

Graduate Minors

- Advanced Manufacturing
- Agricultural Economics (GMAE)
- Community Planning (p. 1798)
- Critical Studies in Education (p. 1650)
- Ecology (p. 1798)
- Economic Development (p. 1799)
- Entomology (p. 1799)

- Environmental Studies (p. 1799)
- Golf Course Design (p. 1799)
- Plant Pathology (p. 1800)
- Psychology of Learning (p. 1800)
- Rural Sociology (p. 1800)
- Sport Management (p. 1800)
- Statistics (p. 1801)
- Women's and Gender Studies (p. 1801)

Advanced Manufacturing Minor

Alabama Industry, the Department of Commerce and the Department of Defense have identified a lack of manufacturing process knowledge as a critical element in the development of the next generation of manufacturing engineers and workers.

This minor, like manufacturing in general, is open to all majors within the College of Engineering and the Auburn University community.

Students will take the following five required courses (17 hours).

Code	Title	Hours
INSY 6700	Digital Drawings, Geometric Tolerances, and Metrology for Industry 4.0	4
INSY 6710	Basic Concepts of 21st Century Manufacturing Processes	3
INSY 6720	Advanced Concepts of 21st Century Manufacturing Processes	3
INSY 6730	Concepts of Computer Numerical Controls	4
INSY 6740	Concepts of Industry 4.0	3
Total Hours		**17**

Three of the five classes include engineering laboratories using the new equipment within the Interdisciplinary Center for Advanced Manufacturing Systems (ICAMS). ICAMS is largely funded by the Department of Defense as part of their workforce development program

Agricultural Economics Minor

A Graduate Minor in Agricultural Economics (GMAE) is offered for nonmajors wishing to obtain training in the application of economic principles to problems affecting rural communities and households. The GMAE requires 12 credit hours of graduate-level coursework in agricultural economics (6 hours must be at the 7000 level or above). The student’s graduate committee must include a faculty member from the agricultural economics department, and the student must demonstrate competence in the application of economic principles to problems in research. The latter requirement is typically met via a chapter or section in the student’s thesis or dissertation.

Community Planning Minor

The Community Planning minor is open to graduate students in any discipline. This minor affords students with interests in planning, development and urban design the opportunity to explore the discipline. Students must complete 9 credit hours of Community Planning coursework and notify the director of the community planning program that they are completing the Planning minor. The Community Planning minor is housed in the Department of Political Science.

Ecology Minor

Ecology is an academic minor administered by the Graduate School in cooperation with faculty and departments that participate in the Auburn University Ecology Group. The Ecology minor is open to graduate students whose thesis or dissertation research will benefit from a broader and enriched perspective in the fundamentals and applications of the ecological sciences. For more information, students should contact any of the following coordinators.

Coordinator	Contact Info
Agricultural Economics and Rural Sociology, Bo Nelson	
Animal Sciences, Russ Muntifering	Upchurch 108
Biological Sciences, Matt Wolak	Rouse 101
Entomology and Plant Pathology, Kira Bowen	Rouse 209

Fisheries, Aquaculture, and Aquatic Sciences, Alan Wilson	Swingle 203; wilson@auburn.edu
Forestry and Wildlife Sciences, Ed Loewenstein	F&WS 4431
Horticulture, Kathry Piefelice	
Veterinary Medicine, Amy Wright	

Economic Development Minor

The economic development graduate minor provides a specialization in the theories and practice of economic development, primarily within the U.S and Alabama. It is an interdisciplinary minor offered by the faculty of participating departments (Agricultural Economics and Rural Sociology, Community Planning, Economics, and Political Science) and is administered by the Master of Public Administration program.

Students may attach the economic development graduate minor to their degrees in agricultural economics (MS and PhD), business administration (MBA), community planning (MCP), economics (MS), public administration (MPA), public administration and public policy (PhD), and rural sociology (MS). To earn the graduate minor, students must complete the program's basic course, Economic Development and Competition (POLI 7700), two elective courses selected from an approved list, and a one week non-credit economic development training course sponsored by the Economic and Community Development Institute. Contact the Master of Public Administration program for more information.

Entomology Minor

A Graduate Minor in Entomology (ENTM) is offered for non-majors wishing to obtain training in entomology for promoting public health, ensuring safer food, and creating healthier communities. The ENTM graduate minor requires 9 credit hours of graduate-level coursework in entomology (9 hours must be at the 6000 level or above). The student's graduate committee must include a faculty member from the entomology department, and the student must demonstrate competence in the application of entomology principles and research problems. The latter requirement is typically met via a chapter or section in the student's thesis or dissertation.

Environmental Studies Minor

This is an interdisciplinary academic minor administered by the Graduate School in cooperation with participating departments. It is open to any graduate student whose thesis or dissertation is in the environmental area. Participating departments include Aerospace Engineering, Agricultural Economics, Biosystems Engineering, Crop, Soil and Environmental Sciences, Animal Sciences, Architecture, Biological Sciences, Chemical Engineering, Civil Engineering, Entomology, Fisheries and Allied Aquacultures, Forestry, Geography, Geology, Horticulture, Landscape Architecture, Pathobiology, Physiology and Pharmacology, Plant Pathology, Psychology and Sociology.

Basic guidelines are:

1. The minor is open to any graduate student whose thesis or dissertation is environmentally oriented.
2. The student's department retains primary control over the student's program.
3. One committee member must be from outside the student's department and this member must be involved in environmental research.
4. Each student must take BIOL 3060 or the equivalent, and CSES 5000 (Soils & Environmental Quality) or an equivalent.
5. Each student must take at least three hours of environmental-related course work from outside the student's "broad group discipline."
6. Each student must take at least three hours of environmental-related course work from outside of the student's home department but within the student's "broad group discipline."
7. Each student must meet the degree requirements of the student's home department.
8. At the discretion of the student's advisory committee, graduate-level courses required for this program also may be counted towards the completion of other degree requirements.

For more information, contact Dr. John Beasley, Department of Crop, Soil and Environmental Sciences, 202 Funchess Hall.

Golf Course Design Minor

The graduate minor in Golf Course Design is open to graduate students in Landscape Architecture, Agronomy and Soils, and Landscape Horticulture, or others with permission. This minor provides students with additional coursework and field experience in

landscape form and function for golf course construction. Specifically, the minor requires 19 credit hours in Landscape Architecture and Agronomy, including courses in Soil Resources and Conservation, Advanced Turfgrass Management, Landscape Construction, and Landscape Ecology. The minor is administered through the Department of Agronomy and Soils. For specific information students should contact Dr. Beth Guertal in Agronomy and Soils, eguertal@acesag.auburn.edu.

Plant Pathology Minor

A Graduate Minor in Plant Pathology (PLPA) is offered for non-majors wishing to obtain training in a broad range of both basic and applied plant pathology course material promoting more plentiful food and fiber while protecting our natural ecosystems.The PLPA graduate minor requires 9 credit hours of graduate-level coursework in plant pathology (9 hours must be at the 6000 level or above). The student's graduate committee must include a faculty member from the plant pathology department, and the student must demonstrate competence in the application of plant pathology principles and research problems. The latter requirement is typically met via a chapter or section in the student's thesis or dissertation.

Psychology of Learning Minor

Code	Title	Hours
Take 12 credit hours from the following courses:		
EPSY 7100	Learning & Wellness in Later Life	
EPSY 7400	Ed Psych & Educational Implica	
EPSY 7410	The Individual in the Teaching-Learning Process	
EPSY 7420	Learning Theory and Educational Practice	
EPSY 7430	Motivation and Achievement	
EPSY 8410	Learning in the Social Context	
EPSY 8440	Ed Psych Apprent Seminar	

Rural Sociology

Rural Sociology (RSOC) is an academic minor open to graduate students whose degree program will benefit from a broader and enriched understanding of the livelihoods, social organization, and social processes that characterize rural communities in the U.S. and internationally. The minor consists of 15 credits of RSOC graduate courses. For more information students should contact the graduate coordinator for Rural Sociology in the Department of Agricultural Economics and Rural Sociology in the College of Agriculture.

Sport Management

The purpose of the sport management minor is to provide master's degree students with the specialized knowledge of the sport industry and to prepare those students to work in sport organizations as administrators and managers. The minor is administered by the Graduate School. Participating units include the School of Kinesiology and the Department of Educational Foundations, Leadership and Technology. Students selecting the minor must satisfy the degree requirements for a master's degree program in one of these units. For additional information, please contact the school director or department head of the participating units.

The Sport Management graduate minor requires completion of 15 hours of courses as follows:

Code	Title	Hours
KINE 6820	Sport Management	3
KINE 7750	Advanced Sport Psychology	3
or KINE 7970	Special Topics	
HIED 7400	Sport Marketing and Public Relations	3
HIED 7410	Sport Ethics	3
HIED 7910	Practicum	3
Total Hours		**15**

Degree seeking students who intend to add the graduate minor to their current degree program must notify the coordinator before completion of their degree program.

Statistics Minor

Auburn University offers a graduate academic minor in Statistics administered by the Graduate School in cooperation with the Department of Mathematics and Statistics. The objective of the minor is to provide education and training for students whose graduate research includes a substantial amount of statistical methodology and/or data analysis. Students are required to complete 12 hours of graduate level statistics (STAT) graded course work. Courses that count towards the graduate minor in Statistics are only those designated with the STAT prefix.

For verification of graduate minor completion and other inquiries, please contact the Statistics Program Coordinator in the Department of Mathematics and Statistics.

Women's and Gender Studies Minor

The Women’s and Gender Studies Program offers an interdisciplinary graduate minor in Women’s and Gender Studies, open to any graduate student. The minor provides students with specific coursework in women’s and gender studies and a teaching practicum that helps prepare them to teach an introductory women’s and gender studies course. The minor is recommended for students who seek positions in women’s and/or gender studies departments or joint positions for which part of the responsibility is to women’s and/or gender studies.

Students are required to complete 10 hours of graduate-level coursework, including WMST 6980 (Feminist Theory; 3 hours) and WMST 7910 (Teaching Practicum; 1 hour). Students fulfill the remaining hours with graduate courses cross-listed with Women’s and Gender Studies; these must be from outside of the student’s home department. See the Women’s and Gender Studies Program website for a full listing of course offerings. https://cla.auburn.edu/womens-gender-studies/.

For more information, contact the director of the Women’s and Gender Studies Program.

- POTTER, JOEL – Urban Regional Extension Agent
- QUINTANA, ADELINE – 4-H Youth Development Coordinator
- ROBARDS, ANDREA – Extension Agent, AFNR, Forestry, Wildlife & Natural Resources

MONROE COUNTY – MONROEVILLE

- POWELL, MISTY – Extension Agent, Alabama 4-H
- ROTHSCHILD, CAROLYN – SNAP-ED Agent Assistant
- STANLEY, ETHEL – Administrative Support Associate
- WIGGINS, ANTHONY – County Extension Coordinator

MONTGOMERY COUNTY – MONTGOMERY

- BIXLER, KAREN – Administrative Secretary
- BLACKMON, TRENICHA – Agent Assistant
- DICKINSON, LYNN – Regional Extension Agent (Forestry, Wildlife, & Natural Resources)
- GUNN, JOVONNA – EFNEP Agent Assistant
- MAXIE, GLORIA – SNAP-ED Regional Educator
- MCNEALY, BRENDEN – 4-H Youth Development Coordinator
- ROBINSON, ROOSEVELT – Urban Regional Extension Agent
- SMITHERMAN, JIMMY – County Extension Coordinator
- TYSON-BAILEY, LULA – Administrative Support Associate
- WHITE, CYNTHIA – Regional Extension Agent (Financial Resource Management & Workforce Development)

MORGAN COUNTY – HARTSELLE

- CROW, BRETT – County Extension Coordinator
- FIELDS, ERIN – Urban Regional Extension Agent
- GARDNER, NORMA – Administrative Support Associate
- MARKHAM, JULIANA – 4-H Youth Development Coordinator
- SHABEL, ALLYSON – Urban Regional Extension Agent

PERRY COUNTY – MARION

- EASLEY, KATRINA – County Extension Coordinator
- HOGUE, MELANIE – Administrative Support Associate
- JOHNSON, YANNA – Agent Assistant, SNAP-Ed

PICKENS COUNTY – CARROLLTON

- CREPPS, BRIDGET – Administrative Support Associate
- GANN, CHELSEY – 4-H Youth Development Coordinator
- GLENN, TERA – Regional Extension Agent (Human Nutrition, Diet, & Health)
- SMART, JED – County Extension Coordinator
- VINES, RENEE – Regional Extension Agent (Financial Resource Management & Workforce Development)

PIKE COUNTY – TROY

- BEASOCK, DONNA – Administrative Support Associate II
- BROWN, JENNIFER – 4-H Agent Assistant
- MARTIN, DONNA – Administrative Support Associate
- PETERS, ABBY – County Extension Coordinator
- PEOPLES, HILLARY – 4-H Youth Development Coordinator
- SANDERS, KAYLA – Agent Assistant
- STEEDLEY, KERRY – Extension Agent, ACES-AFNR-Field

RANDOLPH COUNTY – WEDOWEE

- HOWE, LAURIE – Administrative Support Associate
- MOORE, TIFFANY – County Extension Coordinator
- MULDER, SHERRI – SNAP-ED Agent Assistant
- WILLIAMS, SHEALISSA– Agent Assistant, EFNEP
- WILSON, AMBER – Extension Agent, Alabama 4-H

RUSSELL COUNTY – PHENIX CITY

- DAVIDSON, JENNIFER – County Extension Coordinator
- GARCIA, ELIZABETH – Administrator, Instructional Outreach Programs
- GONTERMAN, KATHY – Administrative Support Associate
- JOHNSON, JANET – Regional Extension Agent (Food Safety & Quality)
- KEARNS, MORGAN – 4-H Agent Assistant
- PAYNE, GENI – 4-H Youth Development Coordinator

SHELBY COUNTY – COLUMBIANA

- EVANS, JESSICA – Administrative Support Associate
- VANDERFORD, JOHN – County Extension Coordinator
- YOCOM, JULIE – 4-H Youth Development Coordinator

ST CLAIR COUNTY – PELL CITY

- ANDERSON, JAYME – Agent Assistant, Alabama 4-H
- EMBERY, VERHONDA – Administrative Support Associate
- HARPER, CINDY – SNAP-ED Agent Assistant
- JACKSON, ALAYNA – 4-H Youth Development Coordinator
- PERRY, BROOKE – 4-H Ctr Summer Camp Counselor
- TAYLOR, JOSH – Count Extension Coordinator

SUMTER COUNTY – LIVINGSTON

- HALE, SHERITA – SNAP-ED Agent Assistant
- MACK, TRENISHA – County Extension Coordinator
- MCKENZIE, TAMEKA – Administrative Support Associate
- THOMPSON, SANQUENETTA – Regional Extension Agent
- WILLIAMS, SHAKERIA – Administrative Support Specialist

TALLADEGA COUNTY – TALLADEGA

- EATON, ANNIE – Agent Assistant
- BAKER, WHITLEY – Agent Assistant
- GOOD, KIM – Extension Agent, Alabama 4-H
- ROBERSON, SAMUEL – County Extension Director
- STRICKLAND THOMPSON, ASHLEE – Administrative Support Associate
- TURNER, JACOB – Regional Extension Agent

TALLAPOOSA COUNTY – DADEVILLE

- CARBONI, TRENT – 4-H Youth Development Coordinator
- ENNIS, JAMIE – Agent Assistant
- HARRIS, SHANE – County Extension Coordinator
- HICKS, CHRISTY – Extension Agent, Agronomic Crops
- PHILLIPS, TONYA – Administrative Support Associate
- SMITH, DAWN – Community Workforce, Leadership & Economic Development Outreach Programs Administrator

- TAYLOR, ANGELA – Extension Agent, Financial Resource Management & Workforce Development
- TAYLOR, LATAWN – Agent Assistant, EFNEP

TUSCALOOSA COUNTY – TUSCALOOSA

- BENISON-SIMMONS, CHERYL – Administrative Support Associate
- FULLER, OLIVIA – Regional Extension Agent (Commercial Horticulture)
- HARGLE, NEAL – Regional Extension Agent (Home Grounds, Gardens, & Home Pests)
- HUFF, CHERI – SNAP-ED Agent Assistant
- MAKEMSON, CINDY – Administrative Support Associate
- MCNEALY, IZETTE – County Extension Director
- MILLER, LAURA – 4-H Youth Development Coordinator
- PAYNE, CASSANDRA – SNAP-ED Educator

WALKER COUNTY – JASPER

- BLACKWELL, PATRICIA – Administrative Support Associate
- CAIN, DANNY – County Extension Coordinator
- GRACE, CADE – Regional Extension Agent (Agronomic Crops)
- PERSONS, REBECCA – 4-H Youth Development Coordinator

WASHINGTON COUNTY – CHATOM

- BRYANT, ALEXIS – Extension Agent, Alabama 4-H
- CROUCH, JAMIE – Extension Agent, Financial Resource Management & Workforce Development
- ETHEREDGE, NICOLE – Administrative Support Associate
- FERGUSON, STACY – County Extension Coordinator

WILCOX COUNTY – CAMDEN

- CRAWFORD, LEEELLEN – Administrative Support Associate
- DAVIS, SHANICQA – Administrative Support Associate II
- HIVES, JACQUELINE – Agent Assistant
- JOHNS, SHAREKA – County Extension Director
- PHILLIPS, CAMILLA – 4-H Youth Development Coordinator
- ROTHSCHILD, CAROLYN – Agent Assistant, SNAP-Ed

WINSTON COUNTY – DOUBLE SPRINGS

- BRANNON, ZACK – County Extension Coordinator
- BRILEY, LAURA – Agent Assistant
- DENNY, KAYLIE – Agent Assistant II, SNAP-Ed
- HILL, SUSAN – Regional Extension Agent (Food Safety & Quality)
- ROBBINS, BETSY – Administrative Support Associate

Faculty

The following is a list of full-time teaching faculty at Auburn University. The date indicates the year of first appointment to any position in the institution.

A

AAKUR, SATHYANARAYANAN, Assistant Professor, 2024 (COMP)

ABBASI, MEHRNAZ, Assistant Professor, 2023, PhD Texas Tech University, MS BS Shahid Beheshti University of Medical Sciences, Tehran, Iran (NDHM)

ABBATE, ANTHONY, Assistant Research Professor, 2023, PhD Auburn University, MS University of Florida, BS High Point University (ENPL)

ABDEL-HADI, ALI, Lecturer, 2015 (MECH)

ABEBE, ASH, Department Chair, Professor, 2007, PhD Western Michigan, BS Addis Ababa (MATH)

ABIEDALLA, YOUNIS, Assistant Research Professor, 2023, PhD, MS Auburn (DRDD)

ACOSTA, YADRIANNA, Assistant Professor, 2022, PhD MSE University of Michigan, BS University of Puerto Rico – Mayagüez (INSY)

ADAIR, RUSTY, Professor of Practice, 2021 (MNGT)

ADAMS, GARRY, Associate Professor, 2003, PhD Florida State, MBA BS Southern Illinois (MNGT)

ADAMS, MARK L., Godbold Professor, AMNSTC Director, 2014, PhD MS California Institute of Technology, BEE Auburn University (ELEC)

ADAMS, LAUREN, Lecturer (CMJN)

ADAMS, STEPHEN, Lecturer, MS Auburn University, MM BS Stephen F. Austin State University, BM East Texas Baptist University (PHYS)

ADANUR, SABIT, Professor, 1992, PhD MS North Carolina State, BS Istanbul Tech (PFEN)

ADANUR, SABIT, Professor, 1992, PhD MS North Carolina State, BS Istanbul Tech (MECH)

ADHIKARI, SUSHIL, Alumni Professor and Director, CBB, 2008, PhD Mississippi State, MS Asian Institute of Tech Thailand, BS Tribhuvan (BSEN)

ADLER-BAEDER, FRANCESCA, Professor, 2001, PhD MS North Carolina-Greensboro, BA Pembroke (HDFS)

ADRIAN, MARK, Associate Research Professor, 2022, PhD The University of Alabama, Huntsville, MS BS The University of Iowa (PHYS)

AGHAZADEH, SARAH, Assistant Professor, PhD University of Maryland-College Park, MA BS San José State University (CMJN)

AGNE, ROBERT, Associate Professor, 2004, PhD University of Colorado-Bolder, MA BS University of Dayton (CMJN)

AGRAWAL, VINAMRA, Assistant Professor (AERO)

AHMED, ANWAR, Professor, 1998, PhD MS Wichita State, BS Peshawar (AERO)

AHNELL, SARA, Clinical Assistant Professor, 2024 (CTCH)

AISTRUP, JOSEPH, Professor (POLI)

AJEDA, ANN, Assistant Professor, 2019, PhD The University of Oklahoma, MS Texas AM University, BS Lyon College (GEOL)

AKINGBEMI, BENSON T., Alumni Professor, 2004, DVM PhD Ibadan University Nigeria (VMAP)

AL FAKIR, RAZAN, Assistant Professor, 2024 (SLHS)

ALABI, JAENA, Librarian II, 2011, MLIS MA BA Alabama ()

ALAVALAPATI, JANAKI, Emmett F. Thompson Dean, 2015 (FOWS)

ALBERT, TANESHIA, Associate Professor, MFA The Florida State University, BA Dillard University (CADS)

ALCEDO, KAREL, Assistant Professor, 2025 (BIOL)

ALEXANDER, HEATHER, Dwain G. Luce Endowed Associate Professor, 2021 (FOWS)

ALEXANDER, COURTNEY WATTS, Assistant Professor, 2020, PharmD Auburn, BS Alabama (PYPP)

ALEXANDER, SYMONE L., Assistant Professor, 2021, PhD Case Western Reserve University, BS Howard University (CHEN)

ALI, HANEEN, HADM Program Director and Associate Professor, 2024 (POLI)

ALLEN, BRENDON, Assistant Professor, 2021, PhD BS University of Florida, MS Brigham Young University (MECH)

ALLEN, JOHN, NTTF, Operations Manager (ARCH)

ALLEN, SCOTT, Visiting Assistant Professor, 2024 (ARCH)

ALLISON, LYDIA, Assistant Clinical Professor (SLHS)

ALMOND, GREGORY T., Associate Clinical Professor, 2002, DVM Tennessee, Diplomate American College of Veterinary Radiology (VMCS)

ALTINDAG, DUHA, Associate Professor, 2011, PhD MS Louisiana State, BA Bogazici (ECON)

AMIN, RAJESH H., Professor, 2009, PhD MS BS Wayne State (DRDD)

AN, MYOUNG, Associate Research Professor (COMP)

AN, LI, Solon Martha Dixon Endowed Professor, PhD MS Michigan State University, MS Chinese Academy of Sciences, BS Peking University, China (FOWS)

ANDERSON, J. BRIAN, Professor, Graduate Program Officer, Associate Chair for Research, 2010, PhD ME University of Florida, BS North Carolina State University (CIVL)

ANDERSON, CHRIS, Professor, 2008, PhD Ohio State University, MS University of South Florida, BS Virginia Tech (FOWS)

ANDERSON, WESLEY, Assistant Professor Extension Specialist, 2021, PhD University of Florida, MS Texas Tech University, BS Davidson College (FOWS)

ANDRUS, MIRANDA R., Clinical Professor, 2000, PharmD Samford University (PYPP)

ANDRZEJEWSKI, CAREY E., Emily R. Gerald S. Leischuck Endowed Professor for Educational Leadership, 2008, PhD MA Ohio State, MA Texas Woman’s, BS Berry (EFLT)

ANGELO, ADRIENNE, Professor, 2009, PhD Emory, BA Groucher (FLNG)

ANTIC, ALEKSANDER, Visiting Assistant Professor, 2023 (MECH)

APPEL, ART, Associate Dean for Research; Associate Director, Endowed Professor, 1985, PhD MS California-Riverside, BA UCLA (ENPL)

ARD, MADISON, Instructor and Child Life Practicum Coordinator, MSW BS Auburn University (HDFS)

ARIK, MEHMET, Associate Professor, 2022, PhD University of Minnesota, MS University of Miami, BS Istanbul Technical University (MECH)

ARMBRUSTER, JONATHAN W., Professor and Director-Auburn University Museum of Natural History, 1998, PhD BS Illinois (BIOL)

ARMSTRONG, CHANCE, Associate Clinical Professor, 2002, DVM MS Auburn University, Diplomate American College of Veterinary Theriogenologists (VMCS)

ARMSTRONG-WRIGHT, DEBRA, Pre-Law Program Coordinator, 2024 (POLI)

ARNOLD, CHRISTOPHER, Associate Professor, 2003, MCP Auburn, BInd Auburn (INDD)

ARNOLD, ROBERT D., Professor, 2012, PhD Buffalo-SUNY, BS Plattsburgh State-SUNY (DRDD)

ARSENIOU, GEORGIOS, Assistant Professor Extension Specialist, 2023, PhD Michigan State University, MS University of Applied Sciences of Stuttgart, Germany, BS Aristotle University of Thessaloniki, Greece (FOWS)

ASHURST, W. ROBERT, Uthlaut Family Professor and Associate Chair; Director, Design and Innovation Center, 2004, PhD California Berkeley, BS Auburn (CHEN)

AUAD, MARIA L., Charles Gavin Distinguished Professor and Associate Dean for Graduate Studies and Faculty Development, Samuel Ginn College of Engineering, 2006, PhD University of Mar del Plata, BS University of Mar del Plata (PFEN)

AUAD, MARIA L., Charles Gavin Distinguished Professor and Associate Dean for Graduate Studies and Faculty Development, Samuel Ginn College of Engineering, 2006, PhD University of Mar del Plata, BS University of Mar del Plata (CHEN)

AVILA-FLORES, ADRIANA, Associate Professor and Undergraduate Program Officer (BIOL)

AYALA LOPEZ, CHRISTIAN, Assistant Research Professor, 202510, MS Rice University, BAR Auburn University, BIA Auburn University (ARCH)

AYASOUFI, ANAHITA, Senior Lecturer, 2015 (MECH)

AYDELOTT, STEVE, Senior Lecturer, 2024 (BSCI)

AYOUN, BAKER M., Professor, 2007, PhD Oklahoma State, MBA Yarmouk Jordan, BBA Mu’tah Jordan (HOSP)

AZHAR, SALMAN, Professor and Chair, Graduate Programs, 2006, JD Alabama, PhD Texas AM, MBC Florida, BS Auburn (BSCI)

B

BABL, RYAN M., Assistant Professor, Physical Therapy, PhD University of Mississippi, DPT University of Alabama at Birmingham, MS University of Southern Mississippi, BS University of Nebraska (KINE)

BAGGETT, HANNAH C., Associate Professor, 2015, PhD North Carolina State, MAT BA University of North Carolina-Chapel Hill (EFLT)

BAGINSKI, MICHAEL E., Associate Professor, 1985, PhD MS BS Penn State (ELEC)

BAILEY, RICH, Instructor, 2024 (AVTN)

BAIRD, A. NICKIE, Associate Dean, Clinical Affairs, 2022, DVM Auburn University, MS Texas AM, BS NC State, Diplomate American College of Veterinary Surgeons (VMCS)

BAKER, LAKAMI, Russell Professor Associate Professor, 2008, PhD Texas-San Antonio, MS Texas, BS Prairie View AM (MNGT)

BAKER-COOK, BETHANY, Assistant Professor, 2021, PhD University of Saskatchewan, Canada, MSc. University of Glasgow, Scotland (POUL)

BALDWIN, STEWART, Professor, 1997, PhD BA Colorado (MATH)

BALKCOM, KRIS, Extension Specialist (CSES)

BALL, JESSICA, Assistant Clinical Professor, 2023, DVM Auburn University (VMCS)

BALLEN, CISSY J., Associate Professor (BIOL)

BALTUSKONIS, PHILIP, Assistant Professor, PhD MA University of Mississippi, BA D'Youville University (HIST)

BANERJEE, TANNISTA, Professor, 2011, PhD MA Purdue, BA Jadavpur (ECON)

BANERJEE, RAHUL, Assistant Professor (CHEM)

BANERJEE, PRIYANKA, Assistant Professor, 2024 (ANSC)

BANIYA, ROJAN, Assistant Professor, 2024 (HOSP)

BANNON, SUSAN, Associate Professor and Director, Learning Resources Center, 1985, EdD Louisiana State, MEd BS Auburn (EFLT)

BARGER, PRISCILLA, Assistant Research Professor, 2005, PhD BS Auburn University, MS University of West Georgia (VMPB)

BARKER, DANA, Part-time Instructor (GEOL)

BARNES, ROBERT W., Professor, Associate Chair for Undergraduate Studies, and Feagin Chair, 2000, PhD MSE Texas, BCE Georgia Tech (CIVL)

BARNETT, MARK O., Professor, 2000, PhD University of North Carolina, MS BS University of Tennessee (CIVL)

BARRY, NANCY H., Professor, 2007, PhD MME Florida State, BM Middle Tennessee State (CTCH)

BARTLEY, PAUL, Assistant Professor Landscape Environment Steward (HORT)

BARTO, RON, Lecturer, 2021 (SCMN)

BARTOL, FRANK F., Associate Dean for Research and Graduate Studies Alumni Professor, 1983, PhD MS Florida, BS Virginia Tech (VMAP)

BARTON, CALLIE, Lecturer (CHEM)

BASHIR, ADIL, Associate Professor (ELEC)

BASKIYAR, SANJEEV, Professor, 1999, PhD MSEE Minnesota, BE Indian Inst. of Science (COMP)

BASSAR, RON, Associate Professor, 2022, PhD University of California, Riverside; BA Prescott College (BIOL)

BATCHELOR, WILLIAM D., Dean and Professor, 2010, PhD Florida, MS BS Georgia (AGRI)

BATCHELOR, WILLIAM, Professor, 2015 (BSEN)

BAUGHMAN, REBECCA, Lecturer (AVTN)

BAUMANN, STEPHANIE, Lecturer and Coordinator of Undergraduate Internships, 2022, PhD MS Georgia State University, MA BA Virginia Tech (HDFS)

BAUMANN, JENNIE, Assistant Professor, 2024 (CTCH)

BAWEJA, HARSIMRAN S., Associate Professor and Director of Physical Therapy, 2023, PhD University of Florida, BPT Sardar Patel University, India (KINE)

BAXTER, ANGELA, Affiliate Faculty (CHEM)

BAYNE, JENNA, Associate Clinical Professor, 2021, DVM Western College of Veterinary Medicine, University of Saskatchewan; PhD Auburn University, Diplomate American College of Veterinary Medicine - Large Animal (VMCS)

BEARD, PHILLIP, Lecturer (ENGL)

BECKINGHAM, BRYAN S., Mary and John H. Sanders Associate Professor and Director, Center for Polymer and Advanced Composites, PhD MS Princeton University, BS Clarkson University (CHEN)

BECKINGHAM, LAUREN, Associate Department Chair, Ginn Faculty Fellow, and W. Allen and Martha Reed Associate Professor, 2016, PhD MS Princeton University, BS Michigan Technological University (CIVL)

BECKMANN, JOHN, Assistant Professor, 2018, PhD, BA University of Minnesota (ENPL)

BELK, AERIEL, Assistant Professor, 2022, PhD BS Colorado State University, MS Texas AM University (ANSC)

BELL, MACY, Lecturer, 2024 (CTCH)

BELSARE, ANIRUDDHA, Assistant Professor, 2023, PhD University of Missouri, BVSc AH Bombay Veterinary College (FOWS)

BELSARE, ANIRUDDHA, Assistant Professor, 2023, PhD University of Missouri, BVSc AH Bombay Veterinary College (VMPB)

BENEFIELD, JUSTIN, Professor, Walker Reynolds Bickerstaff Professor, 2012, PhD MA BS The University of Alabama (FINC)

BENNETT, W. ANDY, Assistant Clinical Professor, 2023, DVM University of Florida (VMCS)

BENSON, ELIZABETH, Assistant Professor, 2014, DMA City University of New York, MM New England Conservatory of Music, BA Occidental College (THEA)

BERGMAN, NOELLE, Assistant Clinical Professor, 2019, DVM Ross University, MS Auburn University, Diplomate American College of Veterinary Internal Medicine - Oncology (VMCS)

BERGQUIST, BRENDAN, Assistant Clinical Professor, 2019, DVM Ross University (VMCS)

BERK, CHRIS, Senior Lecturer (SOCY)

BERNAL, MOISES A., Assistant Professor (BIOL)

BERNARDI, RAFAEL, Associate Professor, 2020, PhD Federal University of Rio de Janeiro, MSc Brazilian Center for Research in Physics, BS State University of Londrina (PHYS)

BERTOLET, ANNA RIEHL, Associate Professor, 2007, PhD MA BA Illinois (ENGL)

BERTOLET, CRAIG E., Professor, 1997, PhD MA Pennsylvania State, BA Millersville (ENGL)

BETANZOS, LOURDES, Professor, 2001, PhD MA Tennessee, BA Rutgers (FLNG)

BEVLY, DAVID M., McNair Professor, 2001, PhD MS MIT Stanford, BS Texas AM (MECH)

BEZDEK, ANDRAS, Professor, 1997, PhD Eotvos, PhD Ohio State (MATH)

BHUIYAN, NADIA, Associate Clinical Professor, 2016, PhD MS Florida, BA Auburn University (PSYC)

BIAN, MORRIS L., Professor, 1998, PhD Washington, MA NE Normal, BA Mudanjiang (HIST)

BIANCARDI, VINICIA C., Associate Professor, 2016, MS PhD Federal University of Sao Paulo (VMAP)

BIAZ, SAAD, Professor, 2001, PhD Texas AM, PhD MS BS Université Henri Poincaré (COMP)

BIDLEMAN, DALTON, Lecturer, 2025 (MATH)

BILBAO, ERNESTO, Assistant Professor, 2021, PhD The University of Texas at Austin, MArch Rice University, BArch Universidad San Francisco de Quito (ARCH)

BILENKER, LAURA, Assistant Professor, 2018, PhD University of Michigan, MS University of California, Riverside, BS University of Maryland (GEOL)

BILLINGSLEA, WILLIE, Lecturer (AVTN)

BILLOR, NEDRET, Professor, 1992, PhD Sheffield, MS BS Turkey (MATH)

BIRD, RICHARD C., Professor, 1985, PhD Toronto (VMPB)

BIRD, GORHAM, Assistant Professor, 2019, MS University of Michigan, BArch BIntArch Auburn University (ARCH)

BIRDSONG, JAMES, Assistant Professor and Interim Director, School of Aviation, 2014 (AVTN)

BLACK, CHRISTOPHER, Instructor (ENGL)

BLACK, PAUL, Assistant Professor (ACCT)

BLAINE, SARA, Associate Professor, 2019, PhD Colorado at Boulder, MS New Mexico, BA Cornell (PSYC)

BLAIR, MELISSA, Professor and Department Chair, 2015, PhD MA University of Virginia, BA University of Kentucky (HIST)

BLANKENSHIP, JUSTIN, Associate Professor, Associate Director of Journalism, PhD University of North Carolina at Chapel Hill, MA The University of Alabama, BA University of South Alabama (CMJN)

BLERSCH, DAVID, Associate Professor, 2013, PhD MS Maryland, BS Notre Dame (BSEN)

BLUMBERG, ANGELA, Postdoctoral Teaching Fellow (ENGL)

BLUMBERG, MARK, Assistant Professor, MArch Harvard University, BArch University of Tennessee (ARCH)

BOCANEGRA, MARIO, Assistant Professor, MFA BFA Oklahoma State University (INDD)

BOCK, DORA, Department Chair and Kerry and Laura Bradley Professor, 2015, PhD Louisiana State University, BS University of Wisconsin-La Crosse (MKTG)

BODEWITS, DENNIS, Professor, 2018, PhD MSc MSc University of Groningen (PHYS)

BOONE, LINDSEY H., Joezy Griffin Endowed Associate Professor, 2016, PhD DVM The University of Georgia, Diplomate American College of Veterinary Surgeons - Large Animal (VMCS)

BORNIER, EVELYNE, Professor, 2012, PhD Louisiana State University, MA Universite de Franche-Comte (FLNG)

BOSTON, BRIAN, Assistant Professor (GEOL)

BOUNDS, BONNIE, Lecturer, 2021, PhD The Ohio State University, MA University of California, Santa Barbara, BA University of North Carolina, Chapel Hill (GEOL)

BOURASSA, DIANNA, Associate Professor and Extension Specialist, 2016, PhD MS BS University of Georgia (POUL)

BOURDEAU, BRIAN, Professor, 2005, PhD MS BSBA Florida State (MKTG)

BOVELAND, SHANNON D., Clinical Professor, 2017, DVM Tuskegee University, Diplomate American College of Veterinary Ophthalmology (VMCS)

BOWDEN, ANNA-CATHERINE, Assistant Professor, 2022, DVM The University of Georgia, Diplomate American College of Veterinary Ophthalmology (VMCS)

BOWEN, KIRA L., Professor, 1988, PhD Illinois, MS Minnesota, BS Penn State (ENPL)

BOWERS, BENJAMIN, McCartney-Chase Highway Engineering Distinguished Associate Professor (CIVL)

BOWLING, CYNTHIA J., Associate Dean and Professor, 1998, PhD MA North Carolina, BA Tennessee (POLI)

BOYD, DANIELLE PESTER, Assistant Professor, PhD MS BA Texas AM University, MA Union University (SERC)

BOZEK, DENISE, Visiting Assistant Professor, 2024, PhD Auburn University (SERC)

BROCK, SHERI J., Professor, 2002, PhD Alabama, MS BS Troy State (KINE)

BROFFITT-KUNZER, VIRGINIA, Professor, 2021 (MUSI)

BROOKS, JENNIFER E., Professor, 2006, PhD Tennessee, BA Massachusetts-Boston (HIST)

BROTHERS, DENNIS, Associate Extension Professor (AGEC)

BROWN, M. MITCHELL, Curis O. Liles III Professor, 2006, PhD MA Maryland, MA George Washington, BA Meredith (POLI)

BROWN, STEVEN P., LAWJ Program Director and Morris Savage Professor, 1998, PhD MA Virginia, BA Brigham Young (POLI)

BROWN, ONIKIA, Associate Professor, 2012, PhD Iowa State, RD Utah State, S North Carolina AT State, BS Fort Valley State (NDHM)

BROWN, CORDELIA, Senior Lecturer, PhD MS Vanderbilt University, BS Tuskegee University (ELEC)

BROWN, STEVEN, Assistant Professor/Extension Specialist (CSES)

BROWN, MICHAEL, Assistant Professor (MATH)

BROWN, TIFFANY, Associate Professor, 2021, PhD Florida State University (PSYC)

BRUCE, TIMOTHY J., Assistant Professor, 2021, PhD South Dakota State University, MS Purdue University-Fort Wayne, BMSc University of Western Ontario (FISH)

BRUMBAUGH, BARBARA, Lecturer (ENGL)

BRUMBELOE SCHWECK, KELLY, Assistant Clinical Professor, 2006, PhD MS BS Auburn University (SERC)

BRUNNER, BRIGITTA R., Alumni Professor; Associate Director, School of Communication Journalism, 2002, PhD Florida, MA Auburn, BA Juniata (CMJN)

BRUNSON, BRANDON L., Director, Student Services Senior Lecturer, 2012, DVM PhD Auburn University (VMAP)

BRUNSON, MICHAEL, Professor of Practice, PhD Kansas State University, MA Prescott College, BS Northern Arizona University (FOWS)

BRUSH, CHRISTOPHER J., Assistant Professor, 2025, PhD Rutgers University, BS Rutgers University (KINE)

BRYANT, JASON, Associate Clinical Professor and Director, Truman Pierce Institute, 2016, PhD Auburn, EdS MSEd BSEd Troy (EFLT)

BUBASH, CONNIE, Instructor (ENGL)

BUBB, ROBERT, Lecturer, 2011, MS BS Brigham Young (HDFS)

BUCHANAN, MEGHAN, Associate Professor (SOCY)

BUCHANNON, CHENETRA, Visiting Clinical Assistant Professor , 2024, PhD Auburn University, MAE, BS University of Alabama at Birmingham (SERC)

BUCKLEY, KATHERINE M., Associate Professor (BIOL)

BUGG, ALAN, Associate Professor, Service Learning Chair, MBC MBA BS Auburn University (BSCI)

BULLARD, STEPHEN A., Professor, 2008, PhD MS University of Southern Mississippi, BS University of South Carolina (FISH)

BULLOCH, MARILYN N., Associate Clinical Professor, 2009, PharmD Rutgers (PYPP)

BURCH, THOMAS E., Senior Lecturer, 1992, PhD Louisiana State, MS BS Auburn (MECH)

BURCH, HUNTER, Assistant Professor and Co-Graduate Program Officer, PhD MS University of Florida, BEE Auburn University (ELEC)

BURDY, HENRY B., Professor Emeritus, 2016 ()

BURKHOLDER, ERIC, Assistant Professor, 2021, PhD MS California Institute of Technology, BA Cornell University (PHYS)

BURNS, EMILY, Associate Professor, 2013, PhD Washington University (ARTS)

BURNSED, ANNETTE, Senior Lecturer, 2021 (CADS)

BURQUE, ANGELA D., Clinical Professor, 1992, MSW Florida State, BSSW Alabama (SOCY)

BURRIS, GREGORY, Lecturer (GEOL)

BURT, RICHARD, Professor and School Head, 2000, PhD MS Texas AM (BSCI)

BURTON, MEGAN E., Professor, 2012, PhD Alabama, MEd Kennesaw State, BS Auburn (CTCH)

BUSH, BENJAMIN, Associate Professor, 2017, MId BId Auburn University (INDD)

BUTLER, AMANDA, Instructor and Director of Child Life Programs, 2015 (HDFS)

BUTLER, ASHLEY, Lecturer (THEA)

BUTTS, IAN, Associate Professor, 2017, PhD MS BS University of New Brunswick, Canada (FISH)

BYAHUT, SWETA, Associate Professor (POLI)

C

CABIROU, LATIFAT, Assistant Professor, 2020, PhD Loyola University Chicago, MA Benedictine University, BS University of Illinois (SERC)

CAIN, LAURA ANNA, Professor of Practice, 2025, DVM BS Auburn University (VMCS)

CALDERON, ANGELA I., Associate Professor, 2008, PhD Laussane, MS Illinois-Chicago, BPharm Panama (DRDD)

CALDWELL, FRED J., Professor, 2005, DVM Auburn, MS BS Kentucky, Diplomate American College of Surgeons and American College of Sports Medicine and Rehabilitation (VMCS)

CALHOUN, CATE, Librarian II, 2012, MALS Missouri, MA North Carolina State, BA Wake Forest ()

CALLAHAN, MELISSA, Collections Manager, 2025 (BIOL)

CAMPBELL, ANNIE, Associate Professor, 2016, MFA Indiana University, BFA Virginia Commonwealth University (ARTS)

CAMPBELL, ELLEN, Instructor (ENGL)

CAMPBELL, ANTHONY, Assistant Professor (SOCY)

CAMPBELL, JESSE C., Associate Extension Professor, National Poultry Technology Center, 2001, PhD MS BS Auburn University (BSEN)

*SUNDERMANN, CHRISTINE A., Professor Emerita, 2002, PhD MS Georgia, BS Iowa State (BIOLOGICAL SCIENCES)

*SUPPIRAMANIAM, VISHNU, Professor Emeritus, 2001, PhD MS Auburn, DVM Madras Veterinary (DRUG DISCOVERY AND DEVELOPMENT)

SUTTON, DAVID L., Professor Emeritus, 1993, PhD Georgia, MA Auburn University, BA Baylor (SCHOOL OF COMMUNICATION AND JOURNALISM)

SUTTON, CHARLOTTE D., Associate Professor Emerita, 2016, PhD Texas AM, MBA BA Baylor (MANAGEMENT)

SWAIM, STEVEN F., Professor Emeritus, 2003, DVM Kansas State, MS Auburn (CLINICAL SCIENCES)

SWAMIDASS, PAUL M., Professor Emeritus, 1992, PhD MBA Washington, BE Osmania (AVIATION AND SUPPLY CHAIN MANAGEMENT)

SWANGO, LARRY, Professor Emeritus, 2000, PhD Purdue, DVM BS Oklahoma State (LAB ANIMAL RESOURCES)

*SWIDLER, STEVEN M., J. Stanley Mackin Professor Emeritus, 2001, PhD MS Brown, BA Oberlin (FINANCE)

SZECHI, DANIEL, Professor Emeritus, 2007, PhD Oxford, BA Sheffield (HISTORY)

SZEDLMAYER, STEPHEN T., Professor Emeritus, 1990, PhD William Mary, MS South Florida, BA Millersville (SCHOOL OF FISHERIES, AQUACULTURE AQUATIC SCIENCES)

T

TABOR, RICHARD H., Professor Emeritus, 2009, PhD Florida, MBA BS Tennessee (ACCOUNTANCY)

*TAM, TIN YAU, Professor Emeritus, 2012, PhD BS Hong Kong (MATHEMATICS AND STATISTICS)

TAMBLYN, JOHN W., Professor Emeritus, 1991, PhD MMus Rochester, BS BS Auburn (MUSIC)

TARRER, ARTHUR R., Professor Emeritus, June 2007, PhD MS Purdue, BS Auburn (CHEMICAL ENGINEERING)

TAYLOR, C. ROBERT, Professor Emeritus, 1988, PhD Missouri, MS Kansas State, BS Oklahoma State (AGRICULTURAL ECONOMICS AND RURAL SOCIOLOGY)

TAYLOR, DEBRA C., Associate Professor Emerita, 1995, MS DVM Auburn (CLINICAL SCIENCES)

TAYLOR, JANET B., Professor Emerita, September 2002, PhD Florida State, MEd BS Francis Marion (CURRICULUM AND TEACHING)

TEEM, DAVID, Professor Emeritus, 2007, PhD MS BS Auburn University (AGRONOMY SOILS)

*TEETER, LAWRENCE D., Professor, 1985, PhD Colorado State, AB Michigan (FORESTRY WILDLIFE SCIENCES)

TEIRLINCK, LUC M., Professor Emeritus, June 2011, PhD BS Vrije (MATHEMATICS AND STATISTICS)

THOMAS JR, ROBERT E., Professor Emeritus, 2009, PhD MS Texas AM, BIE Georgia Tech (INDUSTRIAL AND SYSTEMS ENGINEERING)

THOMPSON, ANNE E., Assoc. Provost and Vice President Emerita, September 1994, EdD Oklahoma St, MA Maryland, BS Auburn (UNIVERSITY OUTREACH)

THOMPSON, EMMETT F., Dean and Professor Emeritus, June 1998, PhD Oregon State, MS North Carolina State, BS Oklahoma State (FORESTRY)

THOMPSON, ISABELLE, Professor Emerita, 2012, EdD MAT Duke, MA North Carolina State (ENGLISH)

THOMPSON, HENRY, Professor Emeritus, 1987, PhD Houston (ECONOMICS)

THORNE, JACK F., Professor Emeritus, 1990, PhD MA Alabama, BS Auburn (ACCOUNTANCY)

*TIAN, HANQIN, Professor Emeritus, 2003, PhD SUNY, MS Chinese Academy of Agric. Sciences Beijing, BS Zhejiang (FORESTRY WILDLIFE SCIENCES)

TILT, KENNETH M., Professor Emeritus, 2012, PhD BS North Carolina State, MS East Carolina (HORTICULTURE)

TIN, CHIN-CHE, Professor Emeritus, July 2013, PhD Alberta, MS BS London (PHYSICS)

TOLE, THOMAS M., Assoc. Professor Emeritus, 1998, PhD MBA BCE Oklahoma (FINANCE)

TORREJON, ALFREDO., Associate Professor Emeritus, 2007, PhD MA SUNY – Buffalo (WORLD LANGUAGES, LITERATURES, AND CULTURES)

TRENTHAM, GARY L., Alumni Professor Emeritus, September 1995, MA BS Murray State, MFA Indiana (CONSUMER AND DESIGN SCIENCES)

TRENTHAM, LANDA L., Professor Emerita, September 1995, EdD Indiana, MA Murray State, BS Kentucky (EDUCATIONAL FOUNDATIONS, LEADERSHIP AND TECHNOLOGY)

TRIMBLE, WILLIAM F., Professor Emeritus, 2014, PhD MA BA Colorado (HISTORY)

TROY, JUDY R., Professor and Alumni Writer-in-Residence Emerita, 1992, MA Indiana, BA Illinois (ENGLISH)

TU, MAOBING, Associate Professor Emeritus, 2008, PhD Univ British Columbia and East China Univ, MS Tianjin Univ, BS Anhui Ag Univ (FORESTRY WILDLIFE SCIENCES)

TUFTS, ROBERT A., Associate Professor Emeritus, 1979, JD Jones, PhD Virginia Tech, MS BS Louisiana State (FORESTRY WILDLIFE SCIENCES)

TURNQUIST, PAUL K., Professor Head Emeritus, 1998, PhD MS Oklahoma State, BS Kansas State (AGRICULTURAL ENGINEERING)

TYSON, TED W., Professor Emeritus, 2012, MS BSAE Georgia (BIOSYSTEMS ENGINEERING)

*TZENG, YONHUA, Professor Emeritus, 2007, PhD MS Texas Tech, BS National Taiwan (ELECTRICAL AND COMPUTER ENGINEERING)

U

UHLIG, FRANK, Professor Emeritus, 2013, PhD California Institute of Technology, MA Ball State University (MATHEMATICS AND STATISTICS)

*ULRICH, PAMELA V., Professor and Department Head Emerita, 1992, PhD Oregon, MS Auburn, BS Oregon State (CONSUMER AND DESIGN SCIENCES)

*UMPHRESS, DAVID, COLSA Corporation Cyber Security and Information Assurance Professor Emeritus, 1999, PhD Texas AM University (COMPUTER SCIENCE AND SOFTWARE ENGINEERING)

UNGER, VERNON E., Professor Emeritus, 1998, PhD MSMS BES Johns Hopkins (INDUSTRIAL AND SYSTEMS ENGINEERING)

UZUMERI, MUSTAFA V., Associate Professor Emeritus, August 2012, PhD Rensselaer, MBA York, BA Toronto (AVIATION AND SUPPLY CHAIN MANAGEMENT)

V

VAN SANTEN, EDZARD, Professor Emerita, 1988, PhD MSc Wisconsin (CROP, SOIL AND ENVIRONMENTAL SCIENCES)

VAN SANTEN, VICKY L., Professor Emerita, 1988, PhD University Chicago (PATHOBIOLOGY)

*VAUGHN, BRIAN E., Professor Emeritus, 1989, PhD Minnesota, BA Arizona State (HUMAN DEVELOPMENT AND FAMILY SCIENCE)

VECELLIO, ROBERT L., Associate Professor Emeritus, 2012, PhD MSCE BSCE Ohio State (CIVIL ENGINEERING)

VILLAUME, SUSAN K., Professor and Associate Dean Emerita, 1988, PhD Ohio State, MS Tennessee, BA Carson Newman (CURRICULUM AND TEACHING)

VILLAUME, WILLIAM A., Professor Emeritus, 2011, PhD Ohio State, MDiv Lutheran Theo, BA Waterloo (PHARMACY CARE SYSTEM)

VINSON, JOHNNIE B., Professor Emeritus, November 2007, D. Arts Mississippi, BS MS Auburn (MUSIC)

VIVES, DONALD L., Professor Emeritus, June 1987, MS BS Columbia (CHEMICAL ENGINEERING)

W

WADDELL, FRED E., Assoc. Professor Emeritus & Extension Family Resource Management Specialist, 2000, PhD MS BS Virginia Tech (HUMAN DEVELOPMENT AND FAMILY SCIENCE)

WADE, LARKIN H., Professor Emeritus, July 1993, MS BS Auburn (FORESTRY)

WAGONER, GARY, Professor Emeritus, 1980, MFA Alfred New York, BFA Wichita State (ART)

WALKER, ROBERT H., Professor Emeritus, PhD MS BS Mississippi State (AGRONOMY SOILS)

WALKER, ROBERT P., Professor Emeritus, 1994, MS Inst. Textile Tech., BS Auburn (TEXTILE ENGINEERING)

WALLACE JR, RICHARD K., Professor Director Emeritus, 2008, PhD Auburn, MS Puerto Rico, BA Ohio Wesleyan (SCHOOL OF FISHERIES, AQUACULTURE AQUATIC SCIENCES)

WALLS, KIMBERLY C., Professor and Head Emerita, 1997, PhD Florida State, MEd BS Auburn (CURRICULUM AND TEACHING)

WALSH, WILLIAM K., Professor Emeritus, 2001, PhD North Carolina State, BS South Carolina (TEXTILE ENGINEERING)

WALTERS, KENNETH W., Professor Emeritus, July 2000, PhD MA Northwestern, BA Roosevelt (PHILOSOPHY)

WARBINGTON, THOMAS L., Assoc. Professor Emeritus, 1992, MA BS Mississippi (WORLD LANGUAGES, LITERATURES, AND CULTURES)

WARD, CHARLOTTE E., Assoc. Professor Emerita, June 1994, PhD MS Purdue, MS BS Kentucky (PHYSICS)

WARD, KEITH J., Director Emeritus, June 1998, PhD Tennessee, MPA BS Brigham Young (CENTER FOR GOVERNMENTAL SERVICES)

WARFIELD, CAROL L., Professor and Head Emerita, 1977, PhD MS Illinois, BS South Dakota State (CONSUMER AND DESIGN SCIENCES)

WATERS, GARY L., Senior Associate Athletics Director Emeritus, June 1, 2017 (ATHLETICS DEPARTMENT)

WATERS JR, LUTHER, Professor Emeritus, 2010, PhD Oregon State, MS BS Clemson (HORTICULTURE)

*WATSON, FURMAN DALE, Director of Professional Development Emeritus, MS Aeronautical Science Embry-Riddle Aeronautical University, BS Auburn University (GRADUATE SCHOOL)

*WEATHERS III, FRANK W., Professor Emeritus, 1997, PhD Indiana, BA Butler (PSYCHOLOGICAL SCIENCES)

WEAVER, DAVID B., Professor Emeritus, 1981, PhD Purdue, MS BSA Georgia (CROP, SOIL AND ENVIRONMENTAL SCIENCES)

WEAVER, ANDREW, Professor Emeritus, August 2007, EdD MA Tennessee, BS Tennessee Tech. (CURRICULUM AND TEACHING)

WEBB, THOMAS R., Associate Professor Emeritus, 2007, PhD Iowa State, BS Oregon State (CHEMISTRY AND BIOCHEMISTRY)

WEBSTER, GWYNEDD A. THOMAS, Associate Professor Emerita, 1996 (MECHANICAL ENGINEERING)

*WEESE, SONDRA JEAN, Professor Emerita and Extension Specialist, 1987, PhD Tennessee, MA BS Eastern Kentucky (POULTRY SCIENCE)

WEETE, JOHN D., Assoc. Dean and Professor Emeritus, September 1998, PhD Houston, MS BS S.F. Austin State (SCIENCES AND MATHEMATICS)

WEHTJE, GLENN R., Professor Emeritus, 1981, PhD Nebraska, MS N. Dakota State, BS Washington State (CROP, SOIL AND ENVIRONMENTAL SCIENCES)

WELLES, ELIZABETH G., Professor Emerita, 1990, PhD Georgia, DVM Auburn, BS North Carolina State (PATHOBIOLOGY)

*WENTWORTH, STUART, Associate Professor Emeritus, 1990, PhD MS University of Texas, BS Auburn University (ELECTRICAL AND COMPUTER ENGINEERING)

*WENZEL, JAMES G., Professor Emeritus, 1990, PhD Minnesota, DVM Auburn, MS Georgia (CLINICAL SCIENCES)

WERSINGER, JEAN-MARIE P., Associate Professor Emerita, 2011, PhD BS Ecole-Lausanne (PHYSICS)

WEST, KATHRYN MILLY, Academic Program Associate Emerita (CHEMISTRY AND BIOCHEMISTRY)

WHITE, B. DOUGLAS, Associate Professor Emeritus, 1996, PhD Louisiana State, MS BS Auburn (NUTRITIONAL SCIENCES)

WHITE, STEPHEN, Associate Professor Emeritus, 1985, PhD MA Georgia, BA Oglethorpe (PHILOSOPHY)

WHITE, BONNIE J., Professor Emerita, December 2010, EdD Tennessee, MA Eastern Kentucky, MS Florida State, BA Evangel (CURRICULUM AND TEACHING)

WHITE, CHARLES R., Assoc. Professor Emeritus, September 1994, PhD MS BS Purdue (INDUSTRIAL AND SYSTEMS ENGINEERING)

WHITE, J. HERBERT, Executive Director Emeritus, October 1993, BS Auburn (UNIVERSITY RELATIONS)

*WHITFORD, BETTY LOU, Dean and Wayne T. Smith Distinguished Professor Emerita, 2010, PhD MAT AB North Carolina Chapel Hill (EDUCATION - ADMINISTRATION)

WHITLEY, R. DAVID, Professor Emeritus, December 2008, DVM MS Auburn University (VETERINARY MEDICINE)

WHITTEN, DAVID O., Professor Emeritus, PhD Tulane, MA South Carolina, BS Charleston (ECONOMICS)

WHITTENBURG, BOBBY L., Extension Animal Scientist & Assoc. Professor Emeritus, 1994, MS Tennessee (ANIMAL SCIENCES)

WHYTE, ALYSON I., Associate Professor Emerita, 2001, PhD BA Stanford (CURRICULUM AND TEACHING)

WIGGINS, LORNA A., Librarian III Emerita, September 1995, MLS Emory, BA Agnes Scott ()

*WILAMOWSKI, BOGDAN D., Professor Emeritus, 2003, D.Sc. PhD MSc Technical University of Gdansk (ELECTRICAL AND COMPUTER ENGINEERING)

WILBANKS, JAMES R., Director Emeritus, 1994, MME BME Auburn (ENGINEERING EXTENSION)

WILBANKS, MARY ELIZABETH, Librarian Emerita, 1985, MA Emory, MSLS North Carolina, AB Montevallo (RALPH BROWN DRAUGHON LIBRARY)

WILKE, ARTHUR S., Professor Emeritus, 2002, PhD MA Minnesota, BS Wisconsin (SOCIOLOGY, ANTHROPOLOGY, AND SOCIAL WORK)

*WILLIAMS, J. DAVID, Professor Emeritus, 1984, PhD Ohio State, MS BS Auburn (HORTICULTURE)

WILLIAMS, DOUGLAS F., Assoc. Professor Emeritus, June 1990, PhD Texas, MA Michigan, BA N. Michigan (EDUCATIONAL FOUNDATIONS, LEADERSHIP AND TECHNOLOGY)

WILLIAMS, ELIZABETH G., Assoc. Professor Emerita, June 1987, MS BS Auburn (ACCOUNTANCY)

WILLIAMS, HUGH O., Alumni Professor Emeritus, June 1985, MA Columbia, BAA Auburn ()

WILLIAMS, JOHN R., Professor Emeritus, December 2011, PhD North Carolina State, BS North Georgia (PHYSICS)

WILLIAMS, MICHAEL L., Professor Emeritus, June 2012, PhD MS Virginia Tech, BS Arkansas State (ENTOMOLOGY PLANT PATHOLOGY)

WILLIAMS, JAMES S., Professor Emeritus, 1982, MS Clemson, BS Toledo (MCWHORTER SCHOOL OF BUILDING SCIENCE)

WILLIAMS JR, KING E., Professor Emeritus, 1983, MA BA Alabama (SCHOOL OF COMMUNICATION AND JOURNALISM)

WILMOTH, JAMES N., Professor Emeritus, September 1995, PhD MS Wayne State, BS Marshall (VOCATIONAL AND ADULT EDUCATION)

WILSON, MARTHA W., Clinical Professor Emerita, 1990, AuD Penn. School of Optometry, MA Kent State, BS Miami (SPEECH, LANGUAGE, AND HEARING SCIENCES)

WILSON, ARLETTE C., Professor Emerita, June 2010, PhD Arkansas, MBA BBA Mississippi (ACCOUNTANCY)

WILSON, DENNIS, Professor Emeritus, December 2008, EdD MS Tennessee, BS Union (SCHOOL OF KINESIOLOGY)

WINDLE, ROBERT T, Senior Associate Athletics Director and Chief Financial Officer Emeritus (ATHLETICS DEPARTMENT)

WIT, LAWRENCE C., Assoc. Dean and Professor Emeritus, October 2012, PhD Missouri, MS Western Illinois, BS Wheaton (BIOLOGICAL SCIENCES)

WITT, BARBARA, Dean and Professor Emerita, 2010, EdD Columbia, MSN BSN Connecticut (NURSING)

WITTE, JAMES, Delta Air Lines Endowed Professor Emeritus, PhD University of South Florida, MS College of William and Mary, BS University of Nebraska (SCHOOL OF AVIATION)

WOLF, LORRAINE W., Professor Emerita, 1993, PhD Alaska, MA BA SUNY Binghamton (GEOSCIENCES)

WOLFE, DWIGHT F., Professor Emeritus, 1980, DVM MS Auburn, BS Tennessee (CLINICAL SCIENCES)

WOLFE, LAUREN G., Professor Emeritus and Head, October 2006, PhD DVM MS Ohio State (PATHOBIOLOGY)

WOLTERS, ROGER S., Professor Emeritus, 2008, PhD Illinois, MAc BBA North Florida (MANAGEMENT)

WOOD, C. Wesley, Professor Emeritus, 2014, PhD Colorado State, MS BS Mississippi State (AGRONOMY SOILS)

*WOODS, FLOYD M., Associate Professor Emeritus, 1990, PhD Mississippi State, MS Cornell, BS Tuskegee (HORTICULTURE)

*WOOTEN, MICHAEL C., Professor Emeritus, 1986, PhD North Texas State, MS BS Memphis State (BIOLOGICAL SCIENCES)

WORTHINGTON, JAMES E., Assoc. Professor Emeritus. Accountancy, 2000, PhD MA Missouri, BSBA Pittsburg State ()

*WRIGHT, JAMES C., Professor Emeritus, 1985, PhD MS Missouri, DVM Georgia, BS Virginia Tech (PATHOBIOLOGY)

WU, CHWAN-HWA, Professor Emeritus, 1987, PhD MS PolyTechnic-New York, BS National Chiao Tung (ELECTRICAL AND COMPUTER ENGINEERING)

WYLIE, ROY, Professor Emeritus, 2007, D Mus Arts Texas, MM Manhattan School of Music, BM SMU (MUSIC)

WYSOCKA-DILLER, JOANNA, Associate Professor Emerita, 2000, PhD MA Columbia, BS Hunter (BIOLOGICAL SCIENCES)

Y

YOO, KYUNG HAK, Professor Emeritus, 2014, Professor Emeritus (BIOSYSTEMS ENGINEERING)

YOUNG, SAM W., Assoc. Professor Emeritus, 1997, PhD MS BA Texas (MATHEMATICS AND STATISTICS)

Z

ZEE, RALPH H., Associate Dean and Professor Emeritus, 1986, PhD MS BS Wisconsin (ENGINEERING - ADMINISTRATION)

*ZHONG, JUMING, Professor Emeritus, 2001, PhD University of Missouri, DVM Southwest Chengdu P.R.China (ANATOMY, PHYSIOLOGY PHARMACOLOGY)

*ZINNER, BERTRAM, Associate Professor Emeritus, 1994, PhD Utah, BS Darmstadt (MATHEMATICS AND STATISTICS)

ZORR JR, PAUL A., Professor Emeritus, 1980, MArch BArch Illinois Inst. (ARCHITECTURE)

*ZYLLA-JONES, ELIZABETH, Clinical Professor Emerita, 1991, MS Purdue, BA Pacific (SPEECH, LANGUAGE, AND HEARING SCIENCES)

Courses of Instruction

This section lists and describes all undergraduate and graduate courses taught by the departments of the university. The courses are presented by subject area and arranged in departmental order, alphabetically. The subject name (the heading in large type) is followed by the subject area code in parentheses.

Courses of Instruction

By Subject

Accounting - ACCT (p. 1918)
Adult Education - ADED (p. 1921)
Aerospace Engineering - AERO (p. 1923)
Aerospace Studies (AFROTC) - AIRF (p. 1927)
African American and Africana Studies - AAAS (p. 1928)
Agricultural Economics - AGEC (p. 1928)
Agriculture - AGRI (p. 1932)
Animal Sciences - ANSC (p. 1933)
Anthropology - ANTH (p. 1936)
Applied Biotechnology - APBT (p. 1939)
Architecture - ARCH (p. 1939)
Art - ARTS (p. 1942)
Auburn Global - GLOB (p. 1946)
Aviation Management - AVMG (p. 1948)
Biochemistry - BCHE (p. 1952)
Biological & Agricultural Technology Management - BATM (p. 1950)
Biology - BIOL (p. 1952)
Biomaterials and Packaging - BIOP (p. 1963)
Biosystems Engineering - BSEN (p. 1965)
Building Science - BSCI (p. 1968)
Business Administration - BUSI (p. 1973)
Business Analytics - BUAL (p. 1975)
Career and Technical - CTCT (p. 1977)
Chemical Engineering - CHEN (p. 1981)
Chemistry - CHEM (p. 1984)
Civil Engineering - CIVL (p. 1989)
Communication - COMM (p. 1998)
Communication and Journalism - CMJN (p. 2003)
Community and Civic Engagement - CCEN (p. 2004)
Community Planning - CPLN (p. 2004)
Computer Science - CPSC (p. 2012)
Computer Science & Software Engineering - COMP (p. 2006)
Consumer and Design Sciences - CADS (p. 2014)
Cooperative Education - COOP (p. 2021)
Counselor Education, Counseling Psychology - COUN (p. 2021)
Crop, Soil, and Environmental Sciences - CSES (p. 2026)
Drug and Biopharmaceutical Sciences - DBPS (p. 2031)
Drug Discovery and Development - DRDD (p. 2033)
EAGLES Program - EAGL (p. 2036)
Early Childhood Education - CTEC (p. 2037)

Earth System Science - ESSI (p. 2039)
Economics - ECON (p. 2040)
Educational Leadership - EDLD (p. 2046)
Educational Media - EDMD (p. 2048)
Educational Psychology - EPSY (p. 2045)
Educational Research Methods & Analysis - ERMA (p. 2043)
Electrical and Computer Engineering - ELEC (p. 2050)
Elementary Education - CTEE (p. 2058)
Engineering - ENGR (p. 2060)
English - ENGL (p. 2063)
English for Speakers of Other Languages - CTES (p. 2070)
Entomology - ENTM (p. 2071)
Entrepreneurship and Family Business - ENFB (p. 2073)
Environmental Design - ENVD (p. 2074)
Environmental Science - ENVI (p. 2076)
Exploratory - EXPL (p. 2076)
Film and Media Studies - Film - FILM (p. 2199)
Film and Media Studies - MDIA (p. 2198)
Finance - FINC (p. 2077)
Fisheries, Aquaculture, and Aquatic Sciences - FISH (p. 2080)
Flight Education - AVMF (p. 2085)
Food Science - FDSC (p. 2086)
Forest Engineering - FOEN (p. 2087)
Forest Products - FOPR (p. 2087)
Forestry - FORY (p. 2091)
Forestry & Wildlife Sciences - FOWS (p. 2088)
Foundations of Education - FOUN (p. 2095)
Geography - GEOG (p. 2096)
Geology - GEOL (p. 2099)
Geosciences - GEOS (p. 2103)
Geospatial and Environmental Informatics - GSEI (p. 2103)
Global Studies/Human Sciences - GSHS (p. 2104)
Graduate Studies - GRAD (p. 2105)
Graphic Design - GDES (p. 2106)
Health Administration - HADM (p. 2108)
Health Outcomes Research & Policy - HORP (p. 2109)
Higher Education Administration - HIED (p. 2110)
History - HIST (p. 2111)
Honor - HONR (p. 2120)
Horticulture - HORT (p. 2121)
Hospitality Management - HOSP (p. 2124)
Human Development & Family Science - HDFS (p. 2129)
Human Resource Management - HRMN (p. 2135)
Human Sciences, General - HUSC (p. 2136)
Industrial & Systems Engineering - INSY (p. 2138)
Industrial Design - INDD (p. 2146)
Information Systems Management - ISMN (p. 2149)
Interdepartmental Education - EDUC (p. 2152)

Interdepartmental Pharmacy - PYDI (p. 2153)
Interdisciplinary Studies - IDSC (p. 2154)
Interior Architecture - ARIA (p. 2154)
International Programs-Special Topics - INTL (p. 2155)
Journalism - JRNL (p. 2156)
Journalism - Sports Production - JRSP (p. 2158)
Kinesiology - KINE (p. 2158)
Laboratory Science - LBSC (p. 2166)
Landscape Architecture - LAND (p. 2166)
Leadership - LEAD (p. 2172)
Liberal Arts, General - LBAR (p. 2172)
Management - MNGT (p. 2173)
Marketing - MKTG (p. 2174)
Materials Engineering - MATL (p. 2176)
Mathematics - MATH (p. 2179)
Mechanical Engineering - MECH (p. 2191)
Middle School Education - CTMD (p. 2200)
Military Science (AROTC) - MILS (p. 2201)
Music - Applied - MUAP (p. 2202)
Music - MUSI (p. 2203)
Music Education - CTMU (p. 2208)
Music Ensemble - MUSE (p. 2210)
Natural Resources Management - NATR (p. 2216)
Naval Science (NROTC) - NAVS (p. 2219)
Nursing - NURS (p. 2220)
Nutrition - NTRI (p. 2228)
Parks and Recreation - PARK (p. 2232)
Pharmacy (PharmD) - PYPD (p. 2233)
Philosophy - PHIL (p. 2242)
Physical Education - PHED (p. 2245)
Physics - PHYS (p. 2248)
Plant Pathology - PLPA (p. 2251)
Political Science - POLI (p. 2254)
Polymer & Fiber Engineering - PFEN (p. 2263)
Poultry Science - POUL (p. 2265)
Psychology - PSYC (p. 2267)
Public and One Health - PAOH (p. 2273)
Public Relations Communication - PRCM (p. 2275)
Reading Education - CTRD (p. 2276)
Real Estate Development - RDEV (p. 2277)
Rehabilitation & Special Education - RSED (p. 2278)
Religion - RELG (p. 2285)
Rural Sociology - RSOC (p. 2285)
Sciences & Math - SCMH (p. 2287)
Secondary Education - CTSE (p. 2288)
Social Work - SOWO (p. 2293)
Sociology - SOCY (p. 2295)
Space Systems - SPCE (p. 2298)

Speech, Language, and Hearing Sciences - SLHS (p. 2299)
Statistics - STAT (p. 2303)
Supply Chain Management - SCMN (p. 2308)
Sustainability Studies - SUST (p. 2311)
Theatre - THEA (p. 2312)
Undergraduate Studies - UNDG (p. 2317)
University Courses - UNIV (p. 2317)
Veterinary Medicine - Biomedical Sciences - VBMS (p. 2326)
Veterinary Medicine - VMED (p. 2320)
Wildlife Sciences - WILD (p. 2333)
Women's Studies - WMST (p. 2337)
World Language - Arabic - FLAR (p. 2338)
World Languages - Asian Culture - FLAS (p. 2338)
World Languages - Chinese - FLCN (p. 2339)
World Languages - FLNG (p. 2338)
World Languages - French - FLFR (p. 2340)
World Languages - German - FLGR (p. 2342)
World Languages - Global Cultures - FLGC (p. 2345)
World Languages - Greek - FLGK (p. 2345)
World Languages - Italian - FLIT (p. 2345)
World Languages - Japanese - FLJP (p. 2346)
World Languages - Korean - FLKN (p. 2347)
World Languages - Latin - FLLN (p. 2348)
World Languages - Russian - FLRU (p. 2348)
World Languages - Spanish - FLSP (p. 2349)

Accounting - ACCT

Courses

ACCT 2110 PRINCIPLES OF FINANCIAL ACCOUNTING (3) LEC. 3. Basic accounting principles with focus on preparation and use of financial statements. Credit will not be given for both ACCT 2110 and ACCT 2810. Sophomore standing.

ACCT 2117 HONORS PRINCIPLES OF FINANCIAL ACCOUNTING (3) LEC. 3. Pr. Honors College. Basic accounting principles with focus on preparation and use of financial statements. Sophomore standing.

ACCT 2210 PRINCIPLES OF MANAGERIAL ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Emphasis on cost accounting, budgeting, and decision making using managerial accounting information. Sophomore standing.

ACCT 2700 BUSINESS LAW (3) LEC. 3. Introduction to contracts, sales, torts, ethics and the judicial system. Focus is on the business environment.

ACCT 2707 HONORS BUSINESS LAW (3) LEC. 3. Pr. Honors College. Introduction to contracts, sales, torts, ethics and the judicial system. Focus is on the business environment.

ACCT 2810 FUNDAMENTALS OF ACCOUNTING (3) LEC. 3. Principles of financial and managerial accounting. Not open to undergraduates majoring in Business. Credit will not be given for both ACCT 2110 and ACCT 2810.

ACCT 2817 HONORS FUNDAMENTALS OF ACCOUNTING (3) LEC. 3. Pr. Honors College. Principles of financial and managerial accounting. Not open to undergraduates majoring in Business. Credit will not be given for both ACCT 2110 and ACCT 2810.

ACCT 3210 ACCOUNTING FOR DECISION MAKING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making. Junior standing applies to ACCT 3210. ACCT 3210 is limited to students in the BSBA Online completer program.

ACCT 3310 BUSINESS PROCESSES AND INTERNAL CONTROLS (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment. Limited to students in the BSBA Online completer program. Credit will not be given for both ACCT 3310 and ACCT 3520.

ACCT 3810 PROFESSIONAL DEVELOPMENT IN ACCOUNTANCY (1) LEC. 1. SU. Pr. (P/C ACCT 3110 or P/C ACCT 3113 or P/C ACCT 5110) and P/C BUSI 2010. Career planning and preparation for transition from university student to accounting professional.

ACCT 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Advanced individual research and study in accounting under the direction of a faculty member. Course may be repeated for a maximum of 6 credit hours.

ACCT 4920 ACCOUNTING INTERNSHIP (1-6) DSL/LEC. SU. Internship opportunity with an accounting firm, corporation, or governmental entity. Course may be repeated for a maximum of 6 credit hours.

ACCT 5110 INTERMEDIATE ACCOUNTING I (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Accounting principles and theory including accounting for current assets, liabilities, and investments. Junior standing applies to ACCT 5110. ACCT 5113 is limited to students accepted to online accounting program.

ACCT 5120 INTERMEDIATE ACCOUNTING II (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110. Grade of C or better. Continuation of ACCT 5110, with emphasis on fixed assets, capital structure, and cash flows. Junior standing applies to ACCT 5120. ACCT 5123 is limited to students accepted to online accounting program.

ACCT 5130 ADVANCED ACCOUNTING TOPICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Emphasis on advanced accounting topics including business combinations, foreign currency transactions, derivatives, and other advanced financial topics.

ACCT 5140 SPECIAL TOPICS IN ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. A study of current issues in accounting theory and practice. Topics include regulations and economic and technological developments.

ACCT 5150 CURRENT ISSUES IN ACCOUNTING (3) LEC. 3. Pr. P/C ACCT 5110. Departmental approval. Examination of current issues in the accounting profession.

ACCT 5210 COST ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making. Junior standing applies to ACCT 5210.

ACCT 5300 AUDITING & ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 3110 or ACCT 5110. Principles of auditing standards, ethics, controls, evidence, sampling, and audit reports.

ACCT 5410 INCOME TAX I (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110. Principles of federal taxation as it applies to individuals and property transactions.

ACCT 5420 INCOME TAX II (3) LEC. 3. Pr. ACCT 4410 or ACCT 4413 or ACCT 5410. Tax accounting for individuals, partnerships, corporations, estates, and trusts. Extensive use of a tax-service program. ACCT 5423 is limited to students accepted to online accounting program.

ACCT 5510 ACCOUNTING INFORMATION SYSTEMS (3) LEC. 3. Pr. P/C ACCT 3110 or P/C ACCT 3113 or P/C ACCT 5110. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment.

ACCT 5520 ACCOUNTING ANALYTICS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110) and (CTCT 3250 or CTCT 3253) and (P/C ACCT 3520 or P/C ACCT 3523 or P/C ACCT 5510). Students will learn to analyze data and solve accounting based problems using advanced spreadsheet techniques, database management systems and other analysis tools.

ACCT 5610 GOVERNMENTAL AND NOT-FOR-PROFIT ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Accounting for governmental and not-for-profit entities. Focus on effective use of resources.

ACCT 5620 ISSUES IN INTERNATIONAL ACCOUNTING (3) LEC. 3. Pr. P/C ACCT 5110. Departmental approval. Accounting issues concerning international business activity.

ACCT 5700 ADVANCED BUSINESS LAW (3) LEC. 3. Pr. ACCT 2700. Legal principles concerning secured transactions, bankruptcy, trusts and estates, partnership law, property, corporations, accountant's legal liability, and negotiable instruments. ACCT 5703 is limited to students accepted to online accounting program.

ACCT 5810 CORPORATE GOVERNANCE & ACCOUNTING ETHICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Analyzing the impact of corporate governance and accounting ethics on business transactions.

ACCT 6110 INTERMEDIATE ACCOUNTING I (3) LEC. 3. Accounting principles and theory including accounting for current assets, liabilities, and investments.

ACCT 6120 INTERMEDIATE ACCOUNTING II (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116. Continuation of ACCT 6110/6116, with emphasis on fixed assets, capital structure, and cash flows.

ACCT 6130 ADVANCED ACCOUNTING TOPICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120 or ACCT 6126. Emphasis on advanced accounting topics including business combinations, foreign currency transactions, derivatives, and other advanced financial topics.

ACCT 6150 CURRENT ISSUES IN ACCOUNTING (3) LEC. 3. Pr. ACCT 5110. Departmental approval. Examination of current issues in the accounting profession.

ACCT 6210 COST ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making.

ACCT 6300 AUDITING & ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 3110 or ACCT 5110 or ACCT 6110. Principles of auditing standards, ethics, controls, evidence, sampling, and audit reports.

ACCT 6410 INCOME TAX I (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116. Principles of federal taxation as it applies to individuals and property transactions.

ACCT 6420 INCOME TAX II (3) LEC. 3. Pr. ACCT 4410 or ACCT 4413 or ACCT 5410 or ACCT 6410 or ACCT 6416. Tax accounting for individuals, partnerships, corporations, estates and trusts. Extensive use of a tax-service program.

ACCT 6510 ACCOUNTING INFORMATION SYSTEMS (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or P/C ACCT 6110 or P/C ACCT 6116. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment.

ACCT 6520 ACCOUNTING ANALYTICS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116) and (ACCT 3520 or ACCT 3523 or ACCT 5510 or ACCT 5513 or ACCT 6510 or ACCT 6516). Students will learn to analyze data and solve accounting based problems using advanced spreadsheet techniques, database management systems and other analysis tools.

ACCT 6610 GOVERNMENTAL AND NOT-FOR-PROFIT ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Accounting for governmental and not-for-profit entities. Focus on effective use of resources.

ACCT 6620 ISSUES IN INTERNATIONAL ACCOUNTING (3) LEC. 3. Pr. ACCT 5110. Departmental approval. Accounting issues concerning international business activity.

ACCT 6700 ADVANCED BUSINESS LAW (3) LEC. 3. Pr. ACCT 2700. Legal principles concerning secured transactions, bankruptcy, trusts and estates, partnership law, property, corporations, accountant's legal liability, and negotiable instruments.

ACCT 6810 CORPORATE GOVERNANCE & ACCOUNTING ETHICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120 or ACCT 6126. Analyzing the impact of corporate governance and accounting ethics on business transactions.

ACCT 7110 RESEARCH IN ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Departmental approval. An evaluation, critique, and application of financial accounting theory to current reporting problems using current research tools and resources.

ACCT 7130 FINANCIAL ANALYSIS & VALUATION (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Financial analysis to support managerial, investor, and creditor decision-making, forecasting financial statements and earnings, and applying valuation models to accounting measurement and investment decisions.

ACCT 7210 ACCOUNTING FOR DECISION MAKING AND CONTROL (3) LEC. 3. Pr. ACCT 3210 or ACCT 3213 or ACCT 5210 or ACCT 5213 or ACCT 6210 or ACCT 6216. Departmental approval. Relationship between management accounting and information systems and analysis of costs.

ACCT 7300 ADVANCED AUDITING AND ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 4310 or ACCT 4313 or ACCT 5300 or ACCT 5303 or ACCT 6300 or ACCT 6306. Advanced topics in auditing and assurance services.

ACCT 7320 FRAUD EXAMINATION (3) LEC. 3. Pr. ACCT 4310 or ACCT 4313 or ACCT 5300 or ACCT 5303 or ACCT 6300 or ACCT 6306. Learning how and why occupational fraud is committed and how fraudulent conduct is deterred, investigated, and resolved.

ACCT 7410 FEDERAL TAX RESEARCH (3) LEC. 3. Pr. ACCT 5420 or ACCT 5423 or P/C ACCT 6420 or ACCT 6426. Departmental approval. Sources of authority used in federal tax research and survey of tax policy issues.

ACCT 7420 CORPORATE AND PARTNERSHIP TAXATION (3) LEC. 3. Pr. ACCT 5420 or ACCT 5423 or ACCT 6420 or ACCT 6426. Tax issues involving corporations and partnership.

ACCT 7510 INTEGRATED ACCOUNTING APPLICATIONS (3) LEC. 3. Pr. ACCT 3530 or ACCT 3533 or ACCT 5520 or ACCT 5523 or ACCT 6520 or ACCT 6526. Design and analysis of accounting information systems and relational databases.

ACCT 7520 ENTERPRISE ACCOUNTING SYSTEMS (3) LEC. 3. Departmental approval. Design, analysis and use of Enterprise accounting systems.

ACCT 7710 PROFESSIONAL DEVELOPMENT (0) IND. Professional development topics and events for Master of Accountancy students. Course may be repeated for a maximum of 10 credit hours.

ACCT 7970 ADVANCED SPECIAL TOPICS IN ACCOUNTING (3) LEC. 3. Departmental approval. Industry issues in accounting.

Adult Education - ADED

Courses

ADED 4010 LEARNING RESOURCES IN AREA OF SPECIALIZATION (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching.

ADED 4050 METHODS OF TEACHING IN ORGANIZATIONS (3) LEC. 2. LAB. 2. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within adult education.

ADED 4600 NATURE OF ADULT EDUCATION (3) LEC. 3. History and principles of adult education applied to the development and implementation of programs in remedial, occupational, continuing, and life-long learning.

ADED 4610 DIRECTED WORK EXPERIENCE (3) LEC. 3. SU. In-service, supervised work experience individually designated for part-time or summer work experience.

ADED 4620 COMMUNITY CONCEPTS, PROGRAMS, AND RESOURCES IN ADULT EDUCATION (3) LEC. 3. Processes by which adult education is merged with community organizations to maximize the effective use of physical and human resources.

ADED 4650 TEACHING THE DISADVANTAGED ADULT (3) LEC. 3. Problems of the disadvantaged adult with emphasis on the unique sociological, psychological, and physiological factors that influence learning and participation in remedial learning activities.

ADED 4660 TEACHING IN THE NON-SCHOOL SETTING (3) LEC. 3. Planning, conducting, and supervising instruction for adults in varied non-school settings.

ADED 4900 INDEPENDENT STUDY (1-6) IND. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

ADED 4910 PRACTICUM (1-6) PRA. SU. Departmental Approval. Experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

ADED 4920 PROFESSIONAL INTERNSHIP IN ADULT EDUCATION (9) INT. 9. SU. Supervised internship experiences in a school or other appropriate setting. Evaluation and analysis of the internship experience. Or Minor.

ADED 4970 SPECIAL TOPICS (1-6) LEC. Current or special topics within adult education. Course may be repeated for a maximum of 6 credit hours.

ADED 7010 LEARNING RESOURCES (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching. May count either ADED 7010 or ADED 7016.

ADED 7050 METHODS OF TEACHING IN ADULT EDUCATION (3) LEC. 3. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within adult education. May count either ADED 7050 or ADED 7056.

ADED 7060 CURRICULUM AND PROGRAM PLANNING IN ADULT EDUCATION (3) LEC. 3. Introduction to principles and practices involved in designing education programs in the area of specialization. May count either ADED 7060 or ADED 7066.

ADED 7600 NATURE OF ADULT EDUCATION (3) LEC. 3. History and principles of adult education applied to the development and implementation of programs in remedial, occupational, continuing and life-long learning. May count either ADED 7600 or ADED 7606.

ADED 7620 CONCEPTS, PROGRAMS, AND RESOURCES IN ADULT EDUCATION (3) LEC. 3. Processes by which adult education is merged with community organizations to maximize the effective use of physical and human resources. May count either ADED 7620 or ADED 7626.

ADED 7640 WORKFORCE EDUCATION (3) LEC. 3. Identification and evaluation of basic skills problems in the workplace. Strategies for addressing workplace education issues. May count either ADED 7640 or ADED 7646.

ADED 7650 TEACHING DIVERSE POPULATIONS IN ADULT EDUCATION (3) LEC. 3. This course is designed to define, analyze, and understand diverse populations of adult learners with emphasis on the unique sociological, psychological, and physiological factors that influence learning and participation in workforce education, community agencies, higher education, or other educational roles.

ADED 7670 ADULT EDUCATION IN COOPERATIVE EXTENSION (3) LEC. 3. Exploration of the unique relationship between adult education and the Cooperative Extension System. May count either ADED 7670 or ADED 7676.

ADED 7680 EXPERIENTIAL LEARNING IN ADULT EDUCATION (3) LEC. 3. This course is designed to introduce the key theories of teaching and learning related to experiential learning in adult education and training.

ADED 7690 MEETING DIVERSE NEEDS IN ADULT EDUCATION SETTINGS (3) LEC. 3. This course provides an innovative look at disability services in post-secondary institutions. Learners will study the history of disability services, legislation, campus accessibility, assessment of the accessibility of adult education settings and other topics of interest.

ADED 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 3 credit hours.

ADED 7910 PRACTICUM (1-3) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 3 credit hours.

ADED 7920 INTERNSHIP (1-10) DSL/INT. SU. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. May count either ADED 7920 or ADED 7926. Course may be repeated for a maximum of 10 credit hours.

ADED 7950 SEMINAR (1-3) DSL/SEM. SU. Presentation of research projects, analysis of procedures, and findings. Course may be repeated for a maximum of 3 credit hours.

ADED 7960 READINGS (1-3) DSL/IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 6 credit hours.

ADED 7970 SPECIAL TOPICS (1-6) LEC. 1-6. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

ADED 7990 RESEARCH AND THESIS (1-10) DSL/MST. Departmental approval. Individualized support and direction for students writing their thesis. Course may be repeated with change in topics.

ADED 8900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

ADED 8910 PRACTICUM (1-6) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

ADED 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised internship experiences in a school, college, or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 10 credit hours.

ADED 8950 SEMINAR (1-6) DSL/SEM. SU. Presentation by graduate students of research projects and/or analysis of procedures and findings. Course may be repeated for a maximum of 6 credit hours.

ADED 8960 SPECIAL PROBLEMS (1-6) IND. Departmental approval. Critical analysis of current and classical research writings. Course may be repeated for a maximum of 6 credit hours.

ADED 8970 SPECIAL TOPICS (1-6) DSL. Departmental approval. Current or advanced topics within adult education. Course may be repeated for a maximum of 6 credit hours.

ADED 8980 FIELD PROJECT (1-10) DSL/FLD. SU. Field project formulated, planned, conducted, evaluated, and reported in appropriate written form and oral formats under the direction of the student's major professor. Course may be repeated for a maximum of 10 credit hours.

ADED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Departmental approval. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 hours

Aerospace Engineering - AERO

Courses

AERO 2200 AEROSPACE FUNDAMENTALS (2) LEC. 1. LAB. 3. Pr. ENGR 1110 and (PHYS 1600 or PHYS 1607). C or better in PHYS 1600 and ENGR 1110. Introduction to the fundamental physical concepts required for the successful design of aircraft and spacecraft.

AERO 3110 AERODYNAMICS I (3) LEC. 3. Pr. MATH 2650 and AERO 2200. C or better in AERO 2200 and MATH 2650. Properties of fluids, fluid statics, conservation of mass and momentum, atmospheric properties, two dimensional airfoils, three dimensional wings, drag, and flight performance.

AERO 3120 AERODYNAMICS II (3) LEC. 3. Pr. ENGR 2010 and MATH 2650 and AERO 2200. C or better in AERO 2200, MATH 2650, and ENGR 2010. Principles of compressible flow including flows with area changes, friction and heat transfer. Fundamental analysis of aerodynamics and potential flow theory. Correlation of potential flow theory with experimental data.

AERO 3130 AERODYNAMICS LABORATORY (2) LEC. 1. LAB. 3. Pr. P/C AERO 2200. C or better in AERO 2200. Application of fundamental aerodynamic principles to subsonic and supersonic wind tunnel experiments.

AERO 3220 AEROSPACE SYSTEM DYNAMICS AND CONTROLS (3) LEC. 3. Pr. ENGR 2350 and MATH 2650 and (MATH 2660 or MATH 2667). C or better in ENGR 2350, MATH 2650, and MATH 2660. Modeling of system elements, classical feedback control techniques used in the analysis of linear systems, analysis of systems undergoing various motions connected with flight.

AERO 3230 FLIGHT DYNAMICS (4) LEC. 3. LAB. 2. Pr. AERO 3110 and ENGR 2350 and MATH 2650 and AERO 3220. C or better in MATH 2650 and ENGR 2350. Airplane performance and stability and control including analytical prediction of performance characteristics, experimental determination of static stability parameters, and analytical prediction of dynamic stability characteristics.

AERO 3310 ORBITAL MECHANICS (3) LEC. 3. Pr. ENGR 2350 and MATH 2650. C or better in ENGR 2350 and MATH 2650. Geometry of the solar system and orbital motion, mathematical integrals of motion, detailed analysis of two-body dynamics and introduction to artificial satellite orbits; Hohmann transfer and patched conics for lunar and interplanetary trajectories.

AERO 3610 AEROSPACE STRUCTURES I (2) LEC. 1. LAB. 3. Pr. ENGR 2070 or ENGR 2077. C or better in ENGR 2070. Fundamental concepts employed in the mechanical testing of engineering materials and structures. Load, stress, and strain measurement techniques are utilized to determine material properties and structural response.

AERO 3970 SPECIAL TOPICS (1-3) AAB. SU. Departmental approval. Investigation of various topics in Aerospace Engineering. Course may be repeated for a maximum of 6 credit hours.

AERO 4140 AERODYNAMICS III (3) LEC. 3. Pr. AERO 3110. Theoretical background essential to a fundamental understanding of laminar and turbulent boundary layers and their relations to skin friction and heat transfer.

AERO 4510 AEROSPACE PROPULSION (4) LEC. 3. LAB. 3. Pr. AERO 3120. Fundamental analysis of airbreathing jet propulsion. Introduction to chemical rocket propulsion.

AERO 4620 AEROSPACE STRUCTURES II (4) LEC. 3. LAB. 3. Pr. AERO 3610 and (MATH 2660 or MATH 2667). C or better in MATH 2660. Aircraft and space vehicle structures. An introduction to the finite element method and its application to structural analysis. The laboratory will utilize state-of-the-art software numerical solution of aerospace structural systems.

AERO 4630 AEROSPACE STRUCTURAL DYNAMICS (4) LEC. 3. LAB. 3. Pr. AERO 4620 and MATH 2650. C or better in MATH 2650. Free, forced and damped vibration of single and multiple degree-of-freedom systems. The laboratory will utilize state-of-the-art software for the analysis of the vibration and dynamic response of structural systems.

AERO 4710 AEROSPACE DESIGN I: AIRCRAFT DESIGN (3) LEC. 2. LAB. 3. Pr. AERO 3120 and AERO 3110 and AERO 3610 and P/C AERO 3230. Introduction to the principles required to design aerospace vehicles.

AERO 4720 AEROSPACE DESIGN II: AIRCRAFT DESIGN (3) LEC. 2. LAB. 3. Pr. AERO 4710. This course is continuation of AERO 4710.

AERO 4730 AEROSPACE DESIGN I: SPACE MISSION (3) LEC. 2. LAB. 3. Pr. AERO 3120 and AERO 3610 and P/C AERO 3310. Introduction to the design of space systems including the identification of launch requirements, spacecraft system components, satellite tracking and orbital analysis to achieve a stated scientific objective.

AERO 4740 AEROSPACE DESIGN II: SPACE MISSION (3) LEC. 2. LAB. 3. Pr. AERO 4730. A continuation of AERO 4730, Space Mission Design I.

AERO 4750 AEROSPACE DESIGN I: LAUNCH VEHICLE (3) LEC. 2. LAB. 3. Pr. AERO 3120 and AERO 3610 and AERO 3310. Introduction to the principles required to design aerospace vehicles.

AERO 4760 AEROSPACE DESIGN II: LAUNCH VEHICLE (3) LEC. 2. LAB. 3. Pr. AERO 4750. This course is continuation of AERO 4750.

AERO 4970 SPECIAL TOPICS IN AEROSPACE ENGINEERING (1-3) AAB. Departmental approval. Investigation of current state-of-the-art technologies in aerospace engineering. Course may be repeated for a maximum of 9 credit hours.

AERO 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. Membership in the Honors College and departmental approval required; Directed research and writing of an honors thesis. Course may be repeated for a maximum of 3 credit hours.

AERO 4AA0 PROGRAM ASSESSMENT (0) LAB. SU. Pr. P/C AERO 4710 or P/C AERO 4730 or P/C AERO 4750. Academic program assessment covering the areas of aerodynamics, aerospace structures, orbital mechanics, propulsion and vehicle design.

AERO 5110 MISSILE AERODYNAMICS (3) LEC. 3. Pr. AERO 3120. Coreq. AERO 4140. Aerodynamics of slender wing-body combinations, interference effects, linear and non-linear effects, applications to missile design and performance.

AERO 5120 ROTARY WING AERODYNAMICS (3) LEC. 3. Pr. AERO 3110. Aerodynamics and flight characteristics of rotary-wing aircraft.

AERO 5140 COMPUTATIONAL FLUID DYNAMICS (3) LEC. 3. Pr. AERO 3110. An introduction to finite-difference and finite-volume methods for solving partial differential equations of interest in fluid dynamics.

AERO 5210 FLIGHT SIMULATION (3) LEC. 3. Pr. AERO 3230. Time domain simulation of nonlinear, six-degree-of-freedom motion of flight vehicles. Development of modular digital simulations including vehicle models for aerodynamics and propulsion, control, guidance subsystems.

AERO 5330 APPLIED ORBITAL MECHANICS (3) LEC. 3. Pr. AERO 3310. Introduction to general and special perturbations; N-body and restricted three-body problems; C-W equations, targeting and rendezvous; satellite constellations.

AERO 5410 AEROACOUSTICS (3) LEC. 3. Pr. AERO 3120 or Departmental approval. Fundamental concepts in acoustics: decibel scales, sound propagation and measurement, plane and spherical waves, room acoustics, transmission and reflection, reverberant fields and noise assessment. May count either AERO 5410 or AERO 6410.

AERO 5460 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2650. Analytical solutions of nonlinear problems, ODEs, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods. May count either AERO/MATH 5460 or AERO/MATH 6460.

AERO 5520 ROCKET PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of the thermodynamics, gas dynamics and design of liquid and solid propellant rocket engines.

AERO 5530 SPACE PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of space propulsion systems. Dynamics of electromagnetic systems, ion engines, photon drives, laser propulsion.

AERO 5630 AEROSPACE APPLICATIONS OF COMPOSITE MATERIALS (4) LEC. 3. LAB. 3. Pr. AERO 3610. Basic material and manufacturing information for laminated composite structures. Computational structural analysis of typical aerospace composite structures coupled with experimental verification of the structural response.

AERO 6110 MISSILE AERODYNAMICS (3) LEC. 3. Coreq. AERO 4140. Aerodynamics of slender wing-body combinations, interference effects, linear and non-linear effects, applications to missile design and performance.

AERO 6120 ROTARY WING AERODYNAMICS (3) LEC. 3. Aerodynamics and flight characteristics of rotary-wing aircraft.

AERO 6140 COMPUTATIONAL FLUID DYNAMICS (3) LEC. 3. An introduction to finite-difference and finite-volume methods for solving partial differential equations of interest in fluid dynamics.

AERO 6210 FLIGHT SIMULATION (3) LEC. 3. Time domain simulation of nonlinear, six-degree-of-freedom motion of flight vehicles. Development of modular digital simulations including vehicle models for aerodynamics and propulsion, control, guidance subsystems.

AERO 6330 APPLIED ORBITAL MECHANICS (3) LEC. 3. Special perturbation techniques: N-body perturbations; general and restricted three-body problems; preliminary orbit determination; C-W equations, targeting and rendezvous; constellation design; mission planning.

AERO 6410 AEROACOUSTICS (3) LEC. 3. Pr. AERO 4140 or Departmental approval. Fundamental concepts in acoustics: decibel scales, sound propagation and measurement, plane and spherical waves, room acoustics, transmission and reflection, reverberant fields and noise assessment. May count either AERO 5410/5413 or AERO 6410/6416.

AERO 6460 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2650. Departmental approval. Analytical solutions of nonlinear problems, ODES, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods. May count either AERO/MATH 5460 or AERO/MATH 6460.

AERO 6520 ROCKET PROPULSION (3) LEC. 3. Analysis of the thermodynamics, gas dynamics and design of liquid and solid propellant rocket engines.

AERO 6530 SPACE PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of space propulsion systems. Dynamics of electromagnetic systems, ion engines, photon drives, laser propulsion.

AERO 6630 AEROSPACE APPLICATIONS OF COMPOSITE MATERIALS (4) LEC. 3. LAB. 3. Pr. AERO 3610. Basic material and manufacturing information for laminated composite structures. Computational structural analysis of typical aerospace composite structures coupled with experimental verification of the structural response.

AERO 6640 ADVANCED VISCOELASTICITY (3) DSL/LEC. An introduction to polymers and the theory of viscoelasticity. Topics include (1) a review of stress and strain analysis and measurement; (2) characteristics, applications, and properties of polymers; (3) polymerization and classification; (4) differential constitutive equations; (5) time and temperature behavior of polymers; (6) viscoelastic stress analysis; and (7) rate and time-dependent failure.

AERO 7100 ADVANCED SUPERSONIC AERODYNAMICS (3) LEC. 3. Pr. AERO 4140. A rigorous development of linearized and nonlinear fluid flow theories and application. Lifting surfaces, lifting bodies, duct flow, boundary layer effects, shock and expansion waves and method of characteristics.

AERO 7120 DYNAMICS OF VISCOUS FLUIDS I (3) LEC. 3. Pr. AERO 7100 or AERO 7106. Exact solutions to the Navier Stokes equations. Exact and approximate solutions of the laminar boundary layer equations. Incompressible and compressible boundary layers in theory and experiment.

AERO 7130 DYNAMICS OF VISCOUS FLUIDS II (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Turbulent flows, the Reynolds stresses and turbulence modeling. Computation of incompressible and compressible turbulent boundary layers. Stability theory and transition.

AERO 7140 ADVANCED COMPUTATIONAL FLUID DYNAMICS (3) LEC. 3. Pr. AERO 5140 or AERO 6140. Advanced methods for solving problems in computational fluid dynamics. Topics include: discretization approaches, implicit solution techniques, curvilinear coordinate systems, and upwind schemes.

AERO 7150 COMPRESSIBLE FLUID DYNAMICS (3) LEC. 3. Pr. AERO 4140. Departmental approval. An introduction to the fundamental of compressible fluid dynamics. Application of conservation of mass, momentum and energy for compressible flows. May count either AERO 7150 or AERO 7156.

AERO 7160 PHYSICAL FOUNDATIONS OF TURBULENCE (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Departmental approval. An introduction to turbulence using classical descriptions with a focus on the physics of turbulence phenomena. May count either AERO 7160 or AERO 7166.

AERO 7170 FUNDAMENTALS OF FLUIDS (3) LEC. 3. Introduction to principal concepts and methods of fluid dynamics; similarity and dimensional analysis; conservation of mass, momentum, and energy for flows in continuum; circulation and vorticity theorems; potential flow theory; introduction to some exact solutions based on simplifying assumptions for inviscid, viscous, unsteady, and compressible flow problems.

AERO 7200 DYNAMICS OF FLIGHT (3) LEC. 3. Departmental approval. Development of specialized concepts and methods in dynamics applicable to the modeling of flight vehicle motion. Stability concepts and analysis of the stability of flight vehicle motions. Effects of variable mass and flexibility.

AERO 7210 FLIGHT DYNAMICS OF HYPERVELOCITY VEHICLES (3) LEC. 3. Pr. AERO 7200 or AERO 7206. Departmental approval. Development of specialized concepts and methods in dynamics applicable to the modeling of hypersonic flight vehicle motion. Stability concepts and analysis of the stability of steady-state motions of very high speed flight vehicles.

AERO 7220 SPACECRAFT ATTITUDE DYNAMICS AND CONTROL (3) LEC. 3. Pr. AERO 7200 or AERO 7206. Development of specialized concepts and methods in dynamics applicable to the modeling of spacecraft rotational motion. Methods for controlling spacecraft attitude. Analysis of the attitude stability and controllability of spacecraft attitude motion. Department approval.

AERO 7330 ORBIT DETERMINATION (3) LEC. 3. Pr. AERO 6330 or AERO 6336 or AERO 6230 or AERO 6236. Elements of orbit determination; least squares, minimum norm, minimum variance solutions; batch, sequential and extended sequential filters.

AERO 7340 ADVANCED ORBITAL MECHANICS (3) LEC. 3. Pr. AERO 6330 or AERO 6336 or AERO 6230 or AERO 6236. Elements of time measurements, earth orientation/coordinate system; f and g series; Lambert's Problem; linear orbit theory and circumlunar trajectories.

AERO 7350 OPTIMAL CONTROL OF AEROSPACE VEHICLES (3) LEC. 3. Principles of optimization; Pontryagin's principle; Linear quadratic regulator; Observers, state estimation, LQG problem. Optimal output feedback; Synthesis of flight control systems. AERO 3220 or equivalent.

AERO 7360 ADVANCED TRAJECTORY OPTIMIZATION (3) LEC. 3. Departmental approval. This course reviews single- and multi-variable optimization techniques of deterministic continuous systems. A review of the necessary (KKT) and sufficient conditions for optimality is given. We will review principles of dynamic programming and the Hamilton-Jacobi-Bellman (HJB) equation. We will also review Linear Programming (LP) problems and Quadratic Programming (QP) problems. Application of the QP problems for minimum-snap trajectory optimization for path planning of quad-rotors is demonstrated. We will also introduce basic concepts of convex optimization, which uses many of the concepts introduced in the LP and QP problems. The final project is to solve a trajectory optimization problem using successive linearization, which is a widely used technique for converting non-convex problems to convex ones.

AERO 7410 LIGHT-FIELD IMAGING (3) LEC. 3. Pr. AERO 7160 or AERO 7166. Departmental approval. An introduction to light-field imaging. Topics include light parameterization, light field cameras, computational photography and Fourier slice photography theorem. May count either AERO 7410 or AERO 7416.

AERO 7420 PARTICE IMAGE VELOCIMETRY (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Departmental approval. An introduction to particle image velocimetry and it variations including conventional planar PIV, stereo PIV, stereo-PIV and torno-PIV. May count either AERO 7420 or AERO 7426.

AERO 7450 AEROSPACE ENGINEERING ANALYSIS (3) LEC. 3. Analysis and techniques for solving ordinary and partial differential equations common in Aerospace applications.

AERO 7460 ADVANCED PERTURBATION METHODS (3) LEC. 3. Departmental approval. Solutions of nonlinear problems and integrals using WKB, Rayleigh-Janzen, Generalized Scales, Latta, van der Pol, Watson, Laplace, Adomian, homotopy, Pade, Liouville-Green and Burmann transformations. May count either AERO 7460/7466 or MATH 7460/7466.

AERO 7510 THRUST GENERATION (3) LEC. 3. Pr. AERO 4510. Aerothermodynamics of propulsion. Selected topics in gas dynamics, thermodynamics, and heat transfer as applied to airbreathing and space propulsion.

AERO 7520 ADVANCED AIR-BREATHING PROPULSION (3) LEC. 3. Topics emphasizing interaction between external aerodynamics and performance of airbreathing jet engines. Performance optimization of ramjet, turbojet, and turbofan engines. Component matching.

AERO 7530 AEROTHERMCHEM OF PROPULSION (3) LEC. 3. Aerothermodynamics of compressible flow, chemical propellant characteristics, heat transfer in fluid flow, statistical gas dynamics, kinetic theory of gases.

AERO 7600 AEROSPACE SOLID MECHANICS (3) LEC. 3. An introduction to solid mechanics concepts with aerospace engineering applications. The course develops equations of motions from conservation laws and introduces constitutive equations from linearized continuum mechanics perspective for aerospace related applications. Topics include elastostatic solutions, elastodynamic solutions and plasticity.

AERO 7620 AEROSPACE COMPUTATIONAL STRUCTURAL ANALYSIS: STATIC STRUCTURES (3) LEC. 3. Pr. AERO 4620. Departmental approval. Advanced techniques for the numerical solution of static elastic and plastic problems, including two and three dimensional solutions.

AERO 7630 AEROSPACE COMPUTATIONAL STRUCTURAL ANALYSIS: STRUCTURAL DYNAMICS (3) LEC. 3. Pr. AERO 4630. Departmental approval. Advanced techniques for the numerical solution to problems in structural dynamics, including steady state and transient response of two-and three-dimensional structures.

AERO 7950 SEMINAR (0) SEM. 0. SU. Weekly lectures on current developments in aerospace sciences by staff members, graduate students, and visiting scientists and engineers. Course may be repeated for a maximum of 1 credit hours.

AERO 7970 SPECIAL TOPICS IN AEROSPACE ENGINEERING (1-3) DSL. Course may be repeated for a maximum of 9 credit hours.

AERO 7980 AEROSPACE ENGINEERING PROJECT (3) LEC. 3. SU. Departmental approval. Intended for students in the MAE program. On or off-campus project. The nature of the project is to be determined by the student's major professor. Approval of the project and its final written report by the student's advisory committee is required. Course may be repeated with change in topic.

AERO 7990 RESEARCH AND THESIS (1-10) DSL/MST. Credit hours to be arranged. Course may be repeated with change in topics.

AERO 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individual doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics.

Aerospace Studies (AFROTC) - AIRF

Courses

AIRF 1010 HERITAGE AND VALUES I (1) LEC. 1. This is a survey course designed to introduce students to the Department of the Air Force (DAF) and provides an overview of the basic characteristics, missions, communications and organization of the Air and Space Forces. This course can only be taken in Fall Semester.

AIRF 1011 AFROTC LEADERSHIP LABORATORY I (0) LAB. 3. SU. Departmental approval. Required for all AFROTC cadets. Leadership Lab (LLAB) is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of the Air Force Second Lieutenants and complement the AFROTC academic program. It is a student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander. This course can only be taken in Fall Semester. Course may be repeated with change in topics.

AIRF 1020 HERITAGE AND VALUES II (1) LEC. 1. This is a survey course designed to introduce students to the Department of the Air Force (DAF) and provides an overview of the basic characteristics, missions, communications and organization of the Air and Space Forces. This course can only be taken in Spring Semester.

AIRF 1021 AFROTC LEADERSHIP LABORATORY II (0) LAB. 3. SU. Departmental approval. Required for all AFROTC cadets. Leadership Lab (LLAB) is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Department of the Air Force Second Lieutenants and complement the AFROTC academic program. It is a student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander. This course can only be taken in Spring Semester. Course may be repeated with change in topics.

AIRF 2010 TEAM AND LEADERSHIP FUNDAMENTALS I (1) LEC. 1. This course provides a fundamental understanding of both leadership and team building. The lessons and course flow are designed to prepare students for field training and leadership positions in the detachment. This course can only be taken in Fall Semester.

AIRF 2020 TEAM AND LEADERSHIP FUNDAMENTALS II (1) LEC. 1. This course provides a fundamental understanding of both leadership and team building. The lessons and course flow are designed to prepare students for field training and leadership positions in the detachment. This course can only be taken in Spring Semester.

AIRF 3010 LEADING PEOPLE AND EFFECTIVE COMMUNICATION I (3) LEC. 3. Pr. AIRF 2020. Departmental approval. This course utilizes student's field training experience to take a more in-depth look at leadership. Special emphasis is placed on enhancing communication skills, and why that is important as a leader. Students have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. This course can only be taken in Fall Semester.

AIRF 3011 AFROTC PHYSICAL TRAINING I (0) LAB. 3. SU. Required for all AFROTC cadets. AFROTC Physical Training (PT) and combatives program for cadets pursuing a commission in the Department of the Air Force. This course can only be taken in Fall Semester. Course may be repeated with change in topics.

AIRF 3020 LEADING PEOPLE AND EFFECTIVE COMMUNICATION II (3) LEC. 3. Pr. AIRF 3010. Departmental approval. This course utilizes student's field training experience to take a more in-depth look at leadership. Special emphasis is placed on enhancing communication skills, and why that is important as a leader. Students have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. This course can only be taken in Spring Semester.

AIRF 3021 AFROTC PHYSICAL TRAINING II (0) LAB. 3. SU. Departmental approval. Required for all AFROTC cadets. AFROTC Physical Training (PT) and combatives program for cadets pursuing a commission in the Department of the Air Force. This course can only be taken in Spring Semester. Course may be repeated with change in topics.

AIRF 4010 NATIONAL SECURITY AND PREPARATION FOR ACTIVE-DUTY I (3) LEC. 3. Pr. AIRF 3020. Departmental approval. This course is designed for college seniors and provides them the foundation to understand their role as military officers and how they are directly tied to our National Security Strategy. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. This course can only be taken in Fall Semester.

AIRF 4011 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force. Course may be repeated with change in topics.

AIRF 4020 NATIONAL SECURITY AND PREPARATION FOR ACTIVE-DUTY II (3) LEC. 3. Pr. AIRF 4010. Departmental approval. "National Security and Preparation for Active-Duty" is designed for college seniors and provides them the foundation to understand their role as military officers and how they are directly tied to our National Security Strategy. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. This course can only be taken in Spring Semester.

AIRF 4021 AFROTC LEADERSHIP LABORATORY (0) LAB. 0. SU. Departmental approval. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force. Course may be repeated with change in topics.

African American and Africana Studies - AAAS

Courses

AAAS 2000 INTRODUCTION TO AFRICAN AMERICAN & AFRICANA STUDIES (3) LEC. 3. An introduction to the interdisciplinary field of African American and Africana Studies through an exploration of the literature, culture, politics, and history of African Americans and other African descended peoples. The course highlights an intentional study of blackness, including critical discussions of social and political realities, arts and aesthetics, and narratives of enslavement, freedom, and radicality.

Agricultural Economics - AGEC

Courses

AGEC 1000 GLOBAL ISSUES IN FOOD, AGRICULTURE, DEVELOPMENT, AND ENVIRONMENT (3) LEC. 3. To expose students to global issues in food, agriculture, development, and natural resource/environmental economics and to learn about career opportunities in the field.

AGEC 3010 AGRIBUSINESS MARKETING (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Principles and problems of marketing farm and agribusiness products including marketing methods, channels, structures, and institutions. May count either AGEC 3010 or AGEC 3013.

AGEC 3050 FARM APPRAISAL (2) LEC. 2. Theory of land values; terminology, processes and procedures for alternative appraisal purposes; factors affecting value; and evaluation of appraisal methods.

AGEC 3080 FUTURES AND OPTIONS MARKETING (2) LEC. 2. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Functions, institutions, economic performance, and practices and procedures involved in utilizing futures and options markets to manage market price risks.

AGEC 3100 COMPUTER APPLICATIONS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. P/C STAT 2010 or P/C STAT 2017 or P/C STAT 2510 or P/C STAT 2513 or P/C STAT 2610 or P/C BUAL 2600. Analytical methods for agricultural economics: spreadsheet applications, optimization, regression, budgeting, and risk management.

AGEC 3200 QUANTITATIVE METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. (MATH 1680 or MATH 1610) and AGEC 3100. The course covers mathematical and econometric models for the quantitative analysis of problems in food, agricultural, development and resource/environmental economics.

AGEC 3300 AGRICULTURAL POLICIES AND TRADE (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Public policies affecting agriculture. Theory and significance of international trade, distribution of production and trade, issues and policies, and influence of exchange rates.

AGEC 3920 AGRICULTURAL BUSINESS AND ECONOMICS INTERNSHIP (1-3) INT. SU. Departmental approval. Practical experience with agricultural business firms and agencies including finance, farm supply, production, marketing and sales and government. Course may be repeated for a maximum of 6 credit hours.

AGEC 3950 CAREERS IN AGRICULTURAL BUSINESS AND ECONOMICS (1) LEC. 1. SU. To develop skills to find a job and learn about career opportunities in agricultural business and economics.

AGEC 4000 PRINCIPLES OF AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2027 or ECON 2023). Economics and business principles applied to agriculture: business formation, composing and analyzing financial statements, financial analysis and decision-making functions of management, capital budgeting and investment decisions. (Credit will not be given to majors in AGEC, ECON, or business).

AGEC 4040 AGRIBUSINESS FINANCE (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600). ECON 2020 or ECON 2023 or ECON 2027 with minimum grade of C. Economic problems and policies in financing agriculture.

AGEC 4047 HONORS AGRIBUSINESS FINANCE (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600). ECON 2020 or ECON 2023 or ECON 2027 with minimum grade of C. Economic problems and policies in financing agriculture.

AGEC 4070 AGRICULTURAL LAW (3) LEC. 3. Recognition of legal problems associated with property ownership, contracts, torts, financing, estate planning and environmental controls and restrictions.

AGEC 4100 AGRICULTURAL COOPERATIVES (2) LEC. 2. Principles and problems of organizing and operating farmers' cooperative buying and selling associations.

AGEC 4120 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3) LEC. 3. Economic principles related to common property, public goods, property rights, externalities and resource scarcity and allocation applied to current issues.

AGEC 4960 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS (1-2) IND. Departmental approval. Individual or group projects with a faculty member in agricultural economics or agribusiness. May include research, data analysis or a combination of these. Course may be repeated for a maximum of 4 credit hours.

AGEC 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Membership in the Honors College required; Topics in agricultural economics. Course may be repeated for a maximum of 3 credit hours.

AGEC 4970 SPECIAL TOPICS IN AGRICULTURAL ECONOMICS (1-3) LEC. 1-3. Departmental approval. Topics of special interest in agricultural economics. May be repeated with change of topic. Course may be repeated for a maximum of 6 credit hours.

AGEC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

AGEC 4997 HONORS THESIS (1-3) LEC. 3. Pr. Honors College. Directed research and writing of honors thesis. Course may be repeated for a maximum of 3 credit hours.

AGEC 5010 FARM MANAGEMENT (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613) and (ECON 2020 or ECON 2023 or ECON 2027) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and AGEC 3100. ECON 2020 or 2023 or 2027 minimum grade of C. Principles of economics applied to agriculture; uses of farm records to improve management of the farm; developing enterprise budgets and use in preparing a profit-maximizing farm plan.

AGEC 5030 AGRICULTURAL PRICES (3) LEC. 3. Pr. (STAT 2010 or STAT 2510 or STAT 2610 or BUAL 2600) and (MATH 1680 or MATH 1610) and ECON 3020. Functions of prices and principles of supply and demand in price determination for agricultural products and markets. Statistical estimation of price and demand relationships. Spring. May count either AGEC 5030 or AGEC 6030.

AGEC 5090 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS I (3) LEC. 3. Pr. ECON 3020. Supply, demand, future requirements and availability of environmental and natural resources plus institutional framework affecting and conditioning such use through property rights, zoning, taxation, etc. May count either AGEC 5090 or AGEC 6090.

AGEC 5100 AGRICULTURAL BUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and AGEC 3100 and ACCT 2210 or ACCT 2217 or ACCT 2810 and P/C AGEC 4040. Principles and problems in acquiring or starting, organizing, and operating successful agribusiness; financial and operational efficiency; human resource and public relations; decision-making tools. May count either AGEC 5100 or AGEC 6100.

AGEC 5210 ADVANCED AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 5100 and ECON 3020 and MATH 1690 and (STAT 2010 or STAT 2510 or STAT 2610). Case studies, managerial economics. May count either AGEC 5210 or AGEC 6210.

AGEC 5250 BIG DATA FOR AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 3200. To expose students to essential tools for acquiring, managing, and visualizing large datasets in agribusiness.

AGEC 6010 FARM MANAGEMENT (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613 or MATH 1617) and (ECON 2020 or ECON 2023 or ECON 2027) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600 or BUAL 2603) and (ACCT 2110 or ACCT 2113 or ACCT 2117 or ACCT 2810 or ACCT 2813) and AGEC 3100. ECON 2020/ECON 2027 minimum grade of C. Principles of economics applied to agriculture; uses of farm records to improve management of the farm; developing enterprise budgets and use in preparing a profit-maximizing farm plan.

AGEC 6030 AGRICULTURAL PRICES (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613 or MATH 1617) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600 or BUAL 2603) and ECON 3020. Functions of prices and principles of supply and demand in price determination for agricultural products and markets. Statistical estimation of price and demand relationships. Spring.

AGEC 6090 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS I (3) LEC. 3. Pr. ECON 3020. Supply, demand, future requirements and availability of environmental and natural resources plus institutional framework affecting and conditioning such use through property rights, zoning, taxation, etc.

AGEC 6100 AGRICULTURAL BUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2210 or ACCT 2217 or ACCT 2810) and P/C AGEC 4040. Principles and problems in acquiring or starting, organizing, and operating successful agribusiness; financial and operational efficiency; human resource and public relations; decision-making tools.

AGEC 6210 ADVANCED AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 6100 and ECON 3020 and MATH 1690 and (STAT 2010 or STAT 2510 or STAT 2513 or STAT 2610). Case studies, managerial economics.

AGEC 6250 BIG DATA FOR AGRIBUSINESS MANAGEMENT (3) LEC. 3. To expose students to essential tools for acquiring, managing, visualizing, and analyzing large datasets in agribusiness.

AGEC 7000 ADVANCED AGRICULTURAL AND ENVIRONMENTAL POLICY (3) LEC. 3. Pr. AGEC 6090 and (AGEC 3300 or AGEC 6030 or AGEC 5030). Food and farm problems and related governmental actions from historical, political and analytical viewpoints. Welfare economics and other procedures used to evaluate costs and benefits of existing and proposed governmental programs and actions affecting agriculture, environment and the consumer.

AGEC 7030 ADVANCED AGRICULTURAL PRICES (3) LEC. 3. Pr. AGEC 6030 and ECON 6020. Theory and measurement of farm supply, retail demand and marketing-margin relationships. Introduction to equilibrium-displacement modeling.

AGEC 7080 PRODUCTION ECONOMICS I (3) LEC. 3. Pr. ECON 6020. Resource allocation and efficiency of production in the firm, between firms, and between agriculture and other industries.

AGEC 7090 RESOURCE ECONOMICS II (3) LEC. 3. Pr. AGEC 6090. Analysis of institutional and economic factors affecting use of natural resources including economic feasibility/conservation, benefit-cost analysis, environmental controls and other interventions.

AGEC 7100 OPERATIONS RESEARCH METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Optimization techniques with emphasis on linear programming and its extensions applied to agriculture. General theoretical background and associated computational procedures are used for presentation of models and modeling techniques.

AGEC 7110 AGRICULTURAL ECONOMIC DEVELOPMENT (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Conceptual and empirical analysis of economic development with emphasis on the lesser developed areas and countries. Analysis of financial and technical aid to other countries case studies of development problems.

AGEC 7200 AQUACULTURAL ECONOMICS I (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Application of economic theories and principles to production, marketing, and consumption of aquacultural enterprises and products. Role of aquaculture in economic development.

AGEC 7590 INTRODUCTION TO AGRICULTURAL ECONOMETRICS (3) LEC. 3. Pr. (MATH 1610 or MATH 1613 or MATH 1617) and STAT 2610. Regression analysis in economic research. Model specification and estimation plus introduction to detection and correction of violations of assumptions of OLS. Hypothesis testing, dummy variables, heteroschedasticity, autocorrelation and measurement errors.

AGEC 7690 MICROECONOMETRICS IN AGRICULTURAL ECONOMICS I (3) LEC. 3. Pr. AGEC 7590. The focus will be on implementation and interpretation, as well as on the microeconomic foundations of the econometric models covered in the course.

AGEC 7700 RESEARCH METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. ECON 7130 and AGEC 7590. Overview of the philosophy of science, detailed discussion of how various research tools are used to perform applied research in agricultural economics.

AGEC 7960 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS (1-3) AAB. Departmental approval required; Individualized direction/instruction by faculty on research, teaching and/or outreach issues. Course may be repeated for a maximum of 6 credit hours.

AGEC 7970 SPECIAL TOPICS IN AGRIC ECON (3) LEC. 3. Departmental approval. New topics in agricultural and applied economics.

AGEC 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

AGEC 8060 THEORY OF AGRICULTURAL MARKETS (3) LEC. 3. Pr. AGEC 7590 and ECON 6020. Theory and methods for estimating complete demand systems (e.g., LES, Translog, ALIDS, and Rotterdam) for food products. Introduction to imperfect competition models.

AGEC 8080 PRODUCTION ECONOMICS II (3) LEC. 3. Pr. AGEC 7080. Firm-level economics problems are extended. Consideration of the influence of risk on firm behavior; empirical analysis of theoretical problems; welfare analysis; technical change; impacts of research investments.

AGEC 8090 FOOD AND AGRICULTURAL POLICY (3) LEC. 3. Pr. ECON 6020 or ECON 7000 or ECON 7110. The course will cover current issues in the economics and policies associated with food, food production and marketing.

AGEC 8690 MICROECONOMETRICS IN AGRICULTURAL ECONOMICS II (3) LEC. 3. Pr. AGEC 8310. The focus will be on implementation and interpretation, as well as on the microeconomic foundations of the econometric models covered in the course. May count either AGEC 8310 or AGEC 8690.

AGEC 8890 TOPICS IN AGRICULTURAL MICROECONOMETRICS (3) LEC. 3. Pr. AGEC 8690. This course is meant to assimilate knowledge acquired throughout core coursework in the Agricultural Economics PhD program.

AGEC 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Agriculture - AGRI

Courses

AGRI 1000 INTRODUCTION TO AGRICULTURE (2) LEC. 1. LAB. 2. Provide information about the College of Agriculture and Alabama Agriculture. An emphasis will be placed on learning about the different departments in the college.

AGRI 1080 AGRICULTURAL COMMUNICATIONS (3) LEC. 3. Departmental approval. Introduction to agricultural communications and professional development as applied to the ag sector; overviews of common communication methods and possible careers.

AGRI 3000 AGRICULTURAL GENETICS (4) LEC. 3. LAB. 2. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027. Introductory understanding of the applications of genetics to agricultural and natural systems. Theoretical and practical knowledge of qualitative, quantitative, molecular, population, and biotechnological aspects of genetics will be developed.

AGRI 3800 LEADING PEOPLE AND TEAMS IN AGRICULTURE (3) LEC. 3. Course focuses on creating and leading high functioning teams in Agriculture.

AGRI 4000 AGRICULTURE STUDY ABROAD (1-10) AAB/FLD. Departmental approval. Study abroad programs with emphasis on agricultural topics. Credit awarded in consultation with departmental chair. Course may be repeated for a maximum of 10 credit hours.

AGRI 4920 INTERNSHIP IN AGRICULTURAL COMMUNICATION AND LEADERSHIP (1-3) INT. Departmental approval. Supervised, closely monitored work experience in agricultural communications or leadership. Course may be repeated for a maximum of 6 credit hours.

AGRI 4940 AGRICULTURAL COMMUNICATIONS CAPSTONE (3) LEC. 3. Pr. AGRI 1080. A capstone experience for the Agricultural Communications major that brings together the agricultural topics and communication techniques that have been developed throughout the course of the student's study.

AGRI 4970 SPECIAL TOPICS IN AGRICULTURAL COMMUNICATION AND LEADERSHIP (1-3) DSL. Departmental approval. Directed study in agricultural communications or leadership. Course may be repeated for a maximum of 6 credit hours.

AGRI 5010 ANALYSIS OF PLANT, SOIL, AND ANIMAL DATA (3) LEC. 3. Pr. (MATH 1130 or MATH 1133) or (STAT 2510 or STAT 2513). Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc. Credit will be given for only one of either AGRI 5010, AGRI 5013, AGRI 6010, or AGRI 6016.

AGRI 5840 LEADING ORGANIZATIONAL AND COMMUNITY CHANGE IN AGRICULTURE (3) LEC. 3. Course designed for students who want to make meaningful change in agricultural organizations and communities. Focuses on leading organizations/communities to adapt and thrive. Credit will only be given for one of the following: AGRI 5840 or AGRI 6840.

AGRI 6010 ANALYSIS OF PLANT, SOIL & ANIMAL DATA (3) LEC. 3. Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc. Credit will be given for only one of either AGRI 5010, AGRI 5013, AGRI 6010, or AGRI 6016.

AGRI 6840 LEADING ORGANIZATIONAL AND COMMUNITY CHANGE IN AGRICULTURE (3) LEC. 3. Course designed for students who want to make meaningful change in agricultural organizations and communities. Focuses on leading organizations/communities to adapt and thrive. Credit will only be given for one of the following: AGRI 5840 or AGRI 6840.

AGRI 7080 ADVANCED ANALYSIS OF PLANT, SOIL, AND ANIMAL DATA (3) LEC. 3. Pr. AGRI 5010 or AGRI 5013 or AGRI 6010 or AGRI 6016 or STAT 7000. Analysis of continuous, count, and binary data from randomized, paired, blocked, and split-plot experimental designs used in agricultural research. Use of statistical software and interpretation of results for applied agricultural research with plants, soils, and animals.

AGRI 7820 RESEARCH PROPOSAL WRITING (3) LEC. 3. Graduate level standing or Departmental approval. Experience in all aspects of writing and reviewing competitive research proposals through a workshop-format culminating in each student writing a proposal on research topics of their choosing. Fall.

Animal Sciences - ANSC

Courses

ANSC 1000 INTRODUCTION TO ANIMAL SCIENCES (4) LEC. 3. LAB. 2. The importance of livestock to agriculture and to the health and nutrition of a modern society. Livestock terminology, selection, reproduction, nutrition, management, marketing, and species characteristics of beef and dairy cattle, swine, sheep and horses.

ANSC 1050 INTRODUCTION TO EQUINE CARE AND USE (3) LEC. 2. LAB. 2. This course serves as an introductory course to the history, care, use, and enjoyment of horses. Students will learn the foundations of numerous topics of working with horses and how to handle horses safely and effectively.

ANSC 1100 ORIENTATION TO ANIMAL SCIENCES (1) LEC. 1. SU. An introduction to the departmental programs and personnel and how to make the most of the college experience. Breadth of career opportunities for animal science graduates.

ANSC 2000 COMPANION ANIMAL MANAGEMENT (3) LEC. 3. Practical aspects of behavior, nutrition, breeding, reproduction, health and management of dogs, cats and other animals generally considered to be human companions.

ANSC 2010 ANIMALS AND SOCIETY (3) LEC. 3. Ethical and scientific issues surrounding human-animal interactions and the role human-animal interactions play in modern society.

ANSC 2050 EQUINE BEHAVIOR AND TRAINING (3) LEC. 1. LAB. 4. Pr. ANSC 1050. This course is designed to teach students concepts of how equine behavior applies to training. Students will be exposed to a variety of training methods used in the equine industry.

ANSC 2100 DAIRY GOAT U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Dairy Goat U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2150 SKILLS AND CONCEPTS OF EQUESTRIAN SPORTS (1) LAB. 4. SU. Departmental approval. Basic management and care of animals used in intercollegiate equestrian and rodeo sports. Must be affiliated with the NCEA Equestrian Team or IHSA Equestrian Team in current term. Course may be repeated for a maximum of 2 credit hours.

ANSC 2200 DAIRY U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Dairy U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2300 BEEF U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Beef U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2400 HORSE U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Horse U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2720 THE MEAT WE EAT (3) LEC. 3. Foundation course on the global meat industry with emphasis on meat products, modern processing techniques, concepts of food safety, sanitation, inspection, grading and meeting consumer demands.

ANSC 2910 PRACTICUM IN LIVESTOCK WELFARE AND MANAGEMENT (2) LAB. 6. Pr. ANSC 1000. Departmental approval. Hands-on laboratory teaching applied management of livestock species, including horses, cattle, swine and small ruminants, using modern equipment and techniques.

ANSC 3000 HERD HEALTH MANAGEMENT (3) LEC. 3. Pr. ANSC 1000. The prevention and control of the major diseases of farm animals and the development of herd health programs.

ANSC 3150 EQUINE MARKETING (3) LEC. 3. Pr. ANSC 1000 and (ECON 2020 or ECON 2023 or ECON 2027). Practical concepts of equine marketing including evaluating the horse, assessing the market, targeting customers, and presenting the horse.

ANSC 3300 INTRODUCTORY LIVESTOCK EVALUATION AND MARKETING (2) LAB. 6. Pr. ANSC 1000. Comprehensive study of live animal and carcass evaluation techniques used in the selection and marketing of beef cattle, swine and sheep. The development of decision-making oral communication skills is emphasized.

ANSC 3310 INTRODUCTION TO MEAT SELECTION AND GRADING (2) LAB. 4. Instruction for the evaluation of meat carcasses, cuts, and products from cattle, swine, sheep, and goats. Understanding and calculating meat yield and quality for each species, evaluation of valuable traits, understanding product specifications, and preparation of written reasons. This course is required for participation in the meat judging program but is open to all students.

ANSC 3400 ANIMAL NUTRITION (4) LEC. 3. LAB. 2. Pr. CHEM 1040 and (BIOL 1030 or BIOL 1037 or POUL 3150). Principles and practice of animal nutrition, nutrient contents of feedstuff, and diet formulation.

ANSC 3410 ANIMAL METABOLISM AND NUTRITION (3) LEC. 3. Pr. (CHEM 2030 or CHEM 2070 or CHEM 2077) and (BIOL 1030 or BIOL 1037 or POUL 3150). Principles of animal nutrition and nutrient metabolism and a study of nutrients and their utilization by animals.

ANSC 3420 APPLIED ANIMAL FEEDING AND NUTRITION (3) LEC. 2. LAB. 1. Pr. ANSC 3410. Feedstuffs, diet formulation, and feeding practices applicable to the well-being and performance of economically important livestock and companion animals.

ANSC 3500 ANIMAL BREEDING (3) LEC. 3. Pr. ANSC 1000 and (STAT 2510 or STAT 2513 or BIOL 3000 or BIOL 3003 or AGRI 3000). Genetic and environmental effects of animal differences. Selection and mating systems used in the improvement of domestic animals with an emphasis on livestock.

ANSC 3600 REPRODUCTIVE PHYSIOLOGY (4) LEC. 3. LAB. 2. Pr. ANSC 1000 and BIOL 2510. Comparative anatomy, physiology and endocrinology of animal reproduction; principles of reproductive biotechnologies used to enhance reproductive efficiency in mammalian systems.

ANSC 3610 ANIMAL GROWTH AND DEVELOPMENT (4) LEC. 3. LAB. 2. Pr. ANSC 1000 and (BIOL 1030 or BIOL 1037). Biology of prenatal and postnatal growth of meat animals, emphasizing muscle, adipose, and bone tissues from a molecular, cellular, endocrine perspective. Application of concepts to improve rate, efficiency, and composition of growth.

ANSC 3650 PHYSIOLOGY OF EQUINE ATHLETE (3) LEC. 3. Pr. ANSC 1000 and BIOL 2510. Selection and development of the horse for athletic performance; exercising, training, and fitness conditioning for performance horses.

ANSC 3700 MUSCLE FOODS (4) LEC. 3. LAB. 2. Pr. ANSC 1000. Introduction to domestic animal growth and development, comparative evaluation of livestock and carcass composition. Biochemical and physiological factors affecting fresh meat and processed meat quality. Fundamentals of ante-and postmortem muscle biology, slaughter, processing, storage and merchandising of meat and meat products.

ANSC 3760 VALUE BASED MARKETING OF LIVESTOCK (3) LEC. 2. LAB. 2. Livestock grading standards and their application to carcasses of meat producing animals, concepts and principles of marketing, advertising, promotion and sales of commercial livestock.

ANSC 3800 CAREERS IN ANIMAL SCIENCE (1) LEC. 1. SU. Career opportunities for animal science graduates. Identifying and investigating careers and presenting oneself professionally for employment or post-baccalaureate education.

ANSC 3840 STUDY/TRAVEL IN ANIMAL SCIENCE (1-10) AAB/FLD. Departmental approval. Concentrated study in animal production and management, equine science and the meats industry within the US or international locations. Course may be repeated for a maximum of 10 credit hours.

ANSC 4000 MODERN LIVESTOCK SYSTEMS (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Overview of beef, dairy, swine and small ruminant production systems. Modern concepts, ideas, and methodology associated with the application of technology to reproduction, breeding, health, nutrition, waste nutrient utilization, and management.

ANSC 4010 BEEF PRODUCTION (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Overview of the beef cattle industry. Modern concepts, ideas and methodology associated with the application of technology to reproduction, breeding, nutrition, management and the use of facilities in a modern beef cattle enterprise.

ANSC 4050 EQUINE PRODUCTION AND MANAGEMENT (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420 or ANSC 4450) and ANSC 3500 and ANSC 3600. Practical application and integration of nutrition, breeding, reproduction, selection, herd health, and management for efficient horse production.

ANSC 4150 ADVANCED SKILLS AND CONCEPTS OF EQUESTRIAN SPORTS (1) LAB. 4. SU. Pr. ANSC 2150. Principles and skills utilized in intercollegiate equestrian and rodeo team competition and management. Issues affecting management, training, marketing, and promotion of animals used in equestrian and rodeo sports. Must be affiliated with the NCEA Equestrian Team or IHSA Equestrian Team in current term. Course may be repeated for a maximum of 2 credit hours.

ANSC 4300 ADVANCED LIVESTOCK JUDGING (1) LAB. 4. Departmental approval. Advanced course in principles and techniques of livestock selection based on visual criteria, performance records, and other advanced technologies. Course may be repeated for a maximum of 2 credit hours.

ANSC 4310 ADVANCED MEAT JUDGING (1) LAB. 4. Pr. ANSC 3310. Practice in evaluation and grading of beef, pork, and lamb carcasses and cuts. Development of communication skills and exposure to animal agriculture through training and intercollegiate competition. Course may be repeated for a maximum of 2 credit hours.

ANSC 4450 EQUINE NUTRITION (3) LEC. 2. LAB. 2. Pr. ANSC 3410 or ANSC 3400. Principles of digestive physiology, nutrition, and metabolic disorders unique to various classes of horses.

ANSC 4700 MEAT PROCESSING (4) LEC. 3. LAB. 3. Integration of topics in meat and non-meat ingredient chemistry and their applications to muscle food processing. Physical, chemical, and sensory properties of fresh and processed meat products.

ANSC 4800 ISSUES IN ANIMAL AGRICULTURE (2) LAB. 4. Pr. COMM 1000 or COMM 1003. Issues affecting animal agriculture, dealing with concerns of consumers and activists, involvement in public debate, and the political process.

ANSC 4810 PROFESSIONAL DISCOURSE IN AGRICULTURE (1) LAB. 2. Pr. COMM 1000 or COMM 1003. Methods for enhancing effective discourse concerning issues facing the livestock industry.

ANSC 4920 INTERNSHIP IN ANIMAL SCIENCES (2) INT. SU. Departmental approval. Practical experience in an animal agriculture industry. Course may be repeated for a maximum of 4 credit hours.

ANSC 4960 SPECIAL PROBLEMS (1-5) IND. Departmental approval. Students will work under the direction of staff members on specific problems. Course may be repeated for a maximum of 15 credit hours.

ANSC 4967 HONORS SPECIAL PROBLEMS (3-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

ANSC 4970 SPECIAL TOPICS IN ANIMAL SCIENCES (1-4) IND. Instruction and discussion of selected current topics in Animal Sciences. Course may be repeated for a maximum of 4 credit hours.

ANSC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ANSC 4997 HONORS THESIS (3-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

ANSC 5070 ANIMAL WELFARE (3) LEC. 3. Pr. (POUL 1000 or ANSC 1000) and (POUL 3150 or ANSC 3600 or ANSC 3410). This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

ANSC 5700 MICROBIOLOGY OF MEATS AND OTHER FOODS (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037 or BIOL 3200. Microorganisms associated with meat and other foods production, spoilage, and safety with training in both traditional and modern detection techniques. Credit will only be given for one of the following courses: ANSC 5700 or ANSC 6700.

ANSC 6070 ANIMAL WELFARE (3) LEC. 3. This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

ANSC 6700 MICROBIOLOGY OF MEATS AND OTHER FOODS (3) LEC. 3. LAB. 0. Microorganisms associated with meat and other foods production, spoilage, and safety with training in both traditional and modern detection techniques. Credit will only be given for one of the following courses: ANSC 5700 or ANSC 6700.

ANSC 7010 ADVANCED BEEF SYSTEMS (3) LEC. 3. Advanced study of contemporary beef cattle production systems, including principles of planning, resource management and financing plus integrated biology in areas of breeding and selection, reproduction, metabolism, nutritional physiology and growth, health and disease; integration of forage system biology, soil and forage management as related to performance and sustainability.

ANSC 7400 RUMINANT NUTRITION (3) LEC. 3. Digestive physiology, mechanisms of rumen fermentation, postruminal nutritional biochemistry.

ANSC 7410 NONRUMINANT NUTRITION (3) LEC. 3. Departmental approval. Digestion, absorption, and utilization of macro and micro nutrients, nutrient interrelationship in swine and other non-ruminant species.

ANSC 7610 PHYSIOLOGY OF GROWTH (3) LEC. 3. Pr. BCHE 7210. Molecular and cellular basis of tissue differentiation, growth and development with emphasis on muscle, adipose and connective tissues and factors influencing gene expression controlling such events.

ANSC 7700 MUSCLE FOODS AND APPLIED MUSCLE BIOLOGY (4) LEC. 3. LAB. 2. Pr. ANSC 3700 and BCHE 7210. Investigations of muscle microanatomy, biochemistry of muscle proteins and lipids, biochemistry of skeletal muscle contraction, lipid/protein interactions, antemortem and postmortem factors affecting fresh and processed meat quality; discussion of classic and current scientific literature.

ANSC 7950 SEMINAR (1) LEC. 1. An intensive scientific literature study and subsequent seminar presentation of selected topics in some facet of animal sciences (Animal Genetics, Reproductive Biology, Growth and Development, Nutrition, Animal Production, Equine Studies, Meat Science and Food Animal related Biochemistry) by enrolled students. Course may be repeated for a maximum of 3 credit hours.

ANSC 7960 SPECIAL PROBLEMS (1-5) DSL/LEC. Conference problems, assigned reading, literature searches in one or more of the following major fields; (a) biochemistry, (b) nutrition, (c) animal breeding, (d) reproductive physiology, (e) growth physiology, (f) muscle foods, (g) microbiology, and (h) behavior. Course may be repeated for a maximum of 15 credit hours.

ANSC 7970 SPECIAL TOPICS IN ANIMAL SCIENCES (1-5) IND. Emerging topics in Animal Science and related industries. Course may be repeated for a maximum of 5 credit hours.

ANSC 7990 RESEARCH AND THESIS (1-15) MST. Research and thesis may be on technical laboratory problems or on problems directly related to beef and dairy cattle, sheep, swine, or laboratory animals. Course may be repeated with change in topics.

ANSC 8400 PROTEIN AND ENERGY METABOLISM (3) LEC. 3. Pr. BCHE 7210. Nutritional biochemistry of protein and energy metabolism of mammalian, avian and aquatic species. Concepts of protein turnover, nutrient-gene interactions, control of bioenergetics, nutritional assessment, nutritional quality of nutrient sources.

ANSC 8410 VITAMIN AND MINERAL METABOLISM (3) LEC. 3. Departmental approval. Vitamin and mineral nutrition with emphasis on chemical structures and characteristics, metabolic functions, deficiencies and toxicity syndromes, interrelationships and requirements of vitamins and minerals.

ANSC 8950 DOCTORAL SEMINAR (1) LEC. 1. An intensive scientific literature study and subsequent seminar presentation of selected topics in some facet of animal sciences (Animal Genetics, Reproductive Biology, Growth and Development, Nutrition, Animal Production, Equine Studies, Meat Science and Food Animal related Biochemistry) by enrolled students. Course may be repeated for a maximum of 3 credit hours.

ANSC 8990 DOCTORAL RESEARCH AND DISSERTATION (1-15) DSR. Course may be repeated with change in topics.

Anthropology - ANTH

Courses

ANTH 1000 ANTHROPOLOGY: CULTURE AND ADAPTATION (3) LEC. 3. Social Science core. Anthropology is the exploration of human evolution and cultures. This course surveys the four subfields of Archaeology, Biological Anthropology, Cultural Anthropology and Linguistic Anthropology. We will see how anthropology provides a broad framework for understanding and solving pressing social problems in the world today.

ANTH 1007 HONORS INTRODUCTION TO ANTHROPOLOGY (3) LEC. 3. LAB. 0. Pr. Honors College. Social Science core. Anthropology is the exploration of human evolution and cultures. This course surveys the four subfields of Archaeology, Biological Anthropology, Cultural Anthropology and Linguistic Anthropology. We will see how anthropology provides a broad framework for understanding and solving pressing social problems in the world today. Credit will not be given for both ANTH 1000 and ANTH 1007.

ANTH 2000 ETHNOGRAPHIC METHODS (3) LEC. 3, AAB/LEC. 0. Pr. (ANTH 1000 or ANTH 1003 or ANTH 1007) or (SOCY 1000 or SOCY 1007) or GEOG 1100. Approaches, techniques, and strategies for carrying out ethnographic research and analyzing qualitative data in the social sciences.

ANTH 2500 ANTHROPOLOGY OF GLOBAL STUDIES (3) LEC. 3. Any Social Science Core course. Broad-based study of processes and problems that transcend national boundaries, including global historical processes, politics, migrations, trade, disease, environmental change, and sustainability.

ANTH 2600 MUSEUM STUDIES IN ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003. Students will consider the history of museum anthropology and reflect on contemporary anthropological engagement in/of museums and other cultural institutions.

ANTH 2610 FORENSIC ANTHROPOLOGY (3) LEC. 3. Explores standards of practice in forensic anthropology and analysis of case studies.

ANTH 2700 PEOPLES AND CULTURES OF ASIA (3) LEC. 3. Any Social Science Core course. Introduction to the traditions, religions, histories, and nation-states of the people of Asia, using a cultural approach.

ANTH 2800 ANTHROPOLOGY OF THE AFRICAN DIASPORA (3) LEC. 3. Any Social Science Core course. Anthropological perspectives on African Diasporas. Diaspora. Archaeological, ethnohistorical, and contemporary research exploring identity, symbols, power, and social relations in the lives of enslaved Africans and descendants in the Caribbean, Latin America and North America.

ANTH 2900 WORLD PREHISTORY (3) LEC. 3. Explore broad patterns in human prehistory over the past 10,000 years, including the origins of culture, religion, domestication and agriculture, writing, cities, and states.

ANTH 3000 CULTURE, MARRIAGE, AND THE FAMILY (3) LEC. 3. Role and meaning of kinship and its universal and particularistic features in human society.

ANTH 3010 MAGIC, MYTH, AND RITUAL: ANTHROPOLOGY OF RELIGION (3) LEC. Pr. P/C ANTH 1000. This course explores religious beliefs and practices around the world from an anthropological perspective. Our focus will be on how anthropologists study religion and how religious beliefs, practices, and practitioners are understood in their historical and cultural contexts.

ANTH 3100 LANGUAGE AND CULTURE (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Contemporary perspectives on cultural and linguistic anthropology, emphasizing language acquisition and culture change; language as socially charged; performance; status and inequality; and the study of globally diverse linguistic communities of practice.

ANTH 3110 ANTHROPOLOGY AND FICTION (3) LEC. Inter-disciplinary study of fiction from an anthropological perspective.

ANTH 3200 ANTHROPOLOGY OF GENDER (3) LEC. 3. Pr. P/C ANTH 1000 or P/C ANTH 1003 or P/C ANTH 1007 or P/C WMST 2100 or P/C WMST 2103. Gender relations and representations in different cultures, historical periods, and discourses.

ANTH 3300 BIOLOGICAL ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007 or BIOL 1000 or BIOL 1010. Overview of biological anthropology, including evolutionary theory and genetics, primatology, human origins, and biological variation of contemporary human populations. Concepts will be applied during in-class exercises and discussions.

ANTH 3410 APPLIED & PRACTICING ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Explores application and practice of anthropology in settings such as cultural resource management, museums, social and environmental policy, and healthcare. This course emphasizes how careers in anthropology contribute to resolving contemporary social problems.

ANTH 3500 ARCHAEOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Archaeology is the study of human societies based on the material remains they left behind. This course explores the history, theories, methods, and applications of archaeology.

ANTH 3600 MEDICAL ANTHROPOLOGY (3) LEC. 3. Any Social Science Core course. Explores biological and cultural dimensions of global health from an anthropological perspective. Topics include the political economy of health, gendered health disparities, cross-cultural healing traditions, pluralistic medical systems, and evolutionary medicine.

ANTH 3620 FORENSIC ANTHROPOLOGY II: ADVANCED METHODS, THEORY, AND CASE STUDIES (3) LAB. Pr. ANTH 2610. Forensic Anthropology II is a hybrid seminar and lab course that teaches practical applications and methods in forensic anthropology through the exploration of case studies and laboratory exercises.

ANTH 3700 ENVIRONMENTAL ANTHROPOLOGY (3) LEC. 3. Problems in environmental anthropology including ethnoecology, cultural ecology, political ecology and environmentalism.

ANTH 3810 ARCHAEOLOGY OF NORTH AMERICA (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Explores archaeological evidence for the history of indigenous peoples in North America during the past 10,000 years.

ANTH 3850 ARCHAEOLOGY OF THE SOUTHEASTERN AND MIDWESTERN U.S. (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Diversity and complexity of late prehistoric cultures of the Southeastern and Midwestern United States.

ANTH 3900 BIOARCHAEOLOGY (3) LEC. 3. Pr. (ANTH 1000 or ANTH 1003 or ANTH 1007). Archaeologically-derived skeletal remains provide essential information for reconstructing broad patterns of human health and behavior over time. Students will learn to apply methods and theory in social bioarchaeology to understand demography, diet, disease, and physical activity in past populations.

ANTH 3950 CURATION (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. History, legislation, and ethical concerns associated with the accumulation and curation of archaeological collections.

ANTH 4310 THEORIES OF CULTURE IN ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Major thinkers in anthropology and their theoretical models considered in historical perspective.

ANTH 4400 ARCHAEOLOGICAL FIELD SCHOOL (3) LEC. 1. LAB. 2. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Field methods, including archaeological surveying and excavation procedures at selected locations. Course may be repeated for a maximum of 6 credit hours.

ANTH 4910 BIOLOGICAL ANTHROPOLOGY LABORATORY PRACTICUM (3) LEC. 1. LAB. 2. Pr. (ANTH 1000 or ANTH 1003 or ANTH 1007). Investigation of specific biological anthropology problem or problems, involving students in laboratory techniques and research.

ANTH 4920 INTERNSHIP IN ANTHROPOLOGY (1-3) AAB/INT. 1-3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Internship for practical work with anthropological/archaeological collections or anthropological research in a professional setting, including federal or state agencies, NGOs, NPOs, community and voluntary organizations, and industry (e.g., healthcare and medicine, advertising/media, architecture/design, high technology, Cultural Resource Management and historic preservation, etc.). Course must be approved by the faculty advisor and department. Internship must be a supervised, closely monitored work experience, appropriate to the major. Course may be repeated for a maximum of 6 credit hours.

ANTH 4930 CULTURAL ANTHROPOLOGY FIELD SCHOOL (3) FLD. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. This practice anthropology course examines the relationship between culture, community, and environment in a particular field setting, in the United States or abroad.

ANTH 4940 ARCHAEOLOGY LABORATORY PRACTICUM (3) LEC. 1. LAB. 2. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Analysis, preservation, cataloging, and restoration of archaeological materials. May count either ANTH 4940 or ANTH 3910.

ANTH 4960 SPECIAL PROBLEMS (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Specific topics in anthropology not covered in other courses. Course may be repeated for a maximum of 6 credit hours.

ANTH 4967 HONORS SPECIAL PROBLEMS (1-3) IND. 3. Pr. Honors College. ANTH 1000. Departmental approval. Specific topics in anthropology not covered in other courses. Course may be repeated for a maximum of 3 credit hours.

ANTH 4997 HONORS THESIS (1-3) IND. Pr. Honors College. ANTH 1000. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

ANTH 5200 GENDER DEVELOPMENT AND CULTURE (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. or junior standing. Role of gender and culture in Third World development from an anthropological perspective.

ANTH 5600 CULTURE, MEDICINE, AND POWER (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. or junior standing. Power in the context of illness and healing at local, national, and international levels.

ANTH 5700 CRITIQUE OF DEVELOPMENT (3) LEC. 3. Pr. ANTH 3700. Meanings and structures of national and international development.

ANTH 5930 DIRECTED STUDIES (1-3) IND. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Directed study course in anthropology that allows students to explore concepts not covered in other courses. Course may be repeated for a maximum of 6 credit hours.

ANTH 5970 SPECIAL TOPICS IN ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Examination of a specific problem in ethnographic methods, theory, and cultural analysis.

ANTH 6200 GENDER DEVELOPMENT AND CULTURE (3) LEC. 3. Role of gender and culture in Third World economic development from an anthropological perspective.

ANTH 6600 CULTURE MEDICINE AND POWER (3) LEC. 3. Power in the context of illness and healing at local, national, and international levels.

ANTH 6930 DIRECTED STUDY (1-3) IND. Directed study course in anthropology that allows students to explore concepts not covered in other courses. Course may be repeated for a maximum of 6 credit hours.

ANTH 6970 SPECIAL TOPICS IN ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Examination of a specific problem in ethnographic methods, theory, and cultural analysis.

Applied Biotechnology - APBT

Courses

APBT 1000 INTRODUCTION TO APPLIED BIOTECHNOLOGY (1) LEC. 1. Introduction to the field of biotechnology including key concepts from biology, chemistry, and physics, and career opportunities.

APBT 2950 PROFESSIONAL DEVELOPMENT (1) LEC. 1. Development of professional skills required for modern careers in entomology, plant pathology and applied biotechnology.

APBT 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

APBT 3100 METHODS OF SYNTHETIC BIOLOGY (4) LEC. 2. LAB. 5. Pr. (BIOL 1030 or BIOL 1037) and APBT 1000. This course provides an overview of the basic cellular processes harnessed by synthetic biology and biotechnology. It also provides an introduction to recombinant DNA and its applications. It combines lectures with labs to provide hands-on experience with molecular techniques, DNA cloning, heterologous protein expression, and methodologies used to engineer organisms.

APBT 4100 APPLIED BIOTECHNOLOGY (4) LEC. 2. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and (BIOL 3000 or BIOL 3003 or AGRI 3000) and APBT 3100. or instructor's approval. Principle and up-to-date advances of genetic modification of organisms; its practices and influences in a broad range of basic and applied sciences which have revolutionized "mean" of sustainable agriculture.

APBT 4920 INTERNSHIP (3) LEC. 3. SU. Pr. APBT 1000. Practical professional experience under the supervision of internship faculty and/or representatives of state, federal or private agency.

APBT 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

APBT 5660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC/STU. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May count either APBT 5660, ENTM 5660, or ENTM 6660.

APBT 5800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 3000 or AGRI 3000. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

APBT 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

Architecture - ARCH

Courses

ARCH 1000 CAREERS IN DESIGN AND CONSTRUCTION (1) LEC. 1, LST. 1. Introduction to the environmental design and construction professions and the curricula in the chosen field.

ARCH 1010 INTRODUCTION TO ARCHITECTURE DESIGN (6) LEC/STU. 12. Coreq. ARCH 1060. Principles of visual organization, research and design process skills, and the graphic communication of form and ideas.

ARCH 1020 INTRODUCTION TO ARCHITECTURE DESIGN II (6) LEC. 6, LST. 12. Pr. ARCH 1010 and ARCH 1000 and ARCH 1060. Coreq. ARCH 1420. Principles of visual organization, research and design process skills, and the graphic communication of form and ideas.

ARCH 1060 VISUAL COMMUNICATION (2) LEC/STU. 2. Coreq. ARCH 1010. Introduction to graphic communication. Focus on developing graphic skills for the purpose of explaining form and communicating ideas via exercises in drafting, sketching, and diagramming.

ARCH 1420 INTRODUCTION TO DIGITAL MEDIA (3) LEC. 3, LST. 0. Pr. ARCH 1060. Coreq. ARCH 1020. Introduction to the principles of 2-D and 3-D digital media and how these principles are utilized in architectural design.

ARCH 2010 STUDIO I (6) LEC. 2, LST. 10. Pr. ARCH 1020 and ARCH 1420. Basic issues of architectural design centered around the thoughtful creation of exterior and interior space. Studies of light, material, texture, proportion, scale, and site are integrated into each project.

ARCH 2020 STUDIO II (6) LEC. 2, LST. 10. Pr. ARCH 2010. Fundamental design process skills including observation, analysis, and synthesis.

ARCH 2110 HISTORY OF WORLD ARCHITECTURE I (3) LEC. 3. Pr. ARCH 1020. Examination of the social determinants that shape the public beliefs and practices that produce buildings.

ARCH 2210 ENVIRONMENTAL CONTROLS I (3) LEC. 3. Pr. ARCH 1020. This course provides the basic knowledge and skills requisite an architect in the design of environmentally responsive buildings.

ARCH 2220 ENVIRONMENTAL CONTROLS II (3) LEC. 3. Pr. ARCH 1020. This course provides the basic knowledge and skills requisite an architect in the design of environmentally responsive buildings.

ARCH 2600 THE ART OF ARCHITECTURE, PLACE, AND CULTURE (3) LEC. 3. The interrelationship of art, architecture, place, and culture with emphasis on the art of architecture from a global multicultural perspective. Illustrated lecture, readings, and essays.

ARCH 3010 STUDIO III (6) LEC. 2, LST. 10. Pr. ARCH 2020 and ARCH 3110. Builds on ARCH 2010 and 2020. The process of making architecture through critical inquiry and investigation. The physical, social, ethical contexts that inform the design of every building.

ARCH 3020 STUDIO IV (6) LEC. 2, AAB/LST. 10. Pr. ARCH 3010 or ARIA 3020. Builds on ARCH 3010 and adds an emphasis on the integration of construction tectonics in the development of architectural form.

ARCH 3110 HISTORY OF WORLD ARCHITECTURE II (3) LEC. 3. Pr. ARCH 2110 or ARCH 2117. Introduction to key European buildings and towns from the Bronze Age to the Enlightenment. Examines how societal beliefs and practices influence the making of architecture.

ARCH 3120 HISTORY OF MODERN ARCHITECTURE (3) LEC. 3. Pr. ARCH 3110. The history of architecture, 1850-present, with an emphasis on the rise of the modern movement in Europe and the U.S.

ARCH 3320 MATERIALS AND METHODS OF CONSTRUCTION I (3) LEC. 3. Pr. ARCH 1020. The properties and potential design function of materials used in contemporary construction, with an emphasis on foundation systems, wood, and masonry.

ARCH 3410 DESSEIN ELECTIVES (3) LEC. 3. Explorations in the art of representation. Complete descriptions of specific courses and their prerequisites are available from the School of Architecture, Planning and Landscape Architecture Course may be repeated for a maximum of 9 credit hours.

ARCH 3500 SEMINAR IN METHODS AND PROCESSES (3) LEC. 3. The tools and techniques available to the design professional including specific design specializations, and design methodologies. Descriptions of specific seminars are available from the School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 3600 SEMINAR IN CONTEMPORARY ISSUES (3) LEC. 3. Pr. ARCH 2020. Investigation of significant topics that present opportunities and constraints to architectural thought and practice. Course may be repeated for a maximum of 9 credit hours.

ARCH 3700 SEMINAR IN HISTORY AND THEORY (3) LEC. 3. Pr. ARCH 2010. Investigation of theories, schools or periods to examine the potential and limitations of architecture. Descriptions of specific seminars available from School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 3800 SEMINAR IN ASPECTS OF DESIGN (3) LEC. 3. Pr. ARCH 2020. Study of aspects of architectural design, such as form, space, style, meaning, perception, culture. Descriptions of specific seminars available from the School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 4010 STUDIO V (6) LEC. 2, LST. 10. Pr. (ARCH 3010 or ARIA 3020) and BSCI 3440. The comprehensive design of buildings, building complexes, and spaces in an urban context. Lectures emphasize urban issues, research methods. Programming and analysis will parallel studio projects of increasing complexity.

ARCH 4020 STUDIO VI (6) LEC. 2, AAB/LST. 10. Pr. ARCH 4010 or ARIA 4020. The design of buildings, building complexes, and spaces with emphasis on the integration of building systems and tectonic development.

ARCH 4110 HISTORY OF URBAN ARCHITECTURE (3) LEC. 3. Pr. ARCH 2110 or ARCH 2117 and ARCH 3110. The course surveys the history of the physical and formal manifestations of the urban environment from its inception to our days.

ARCH 4320 MATERIALS AND METHODS OF CONSTRUCTION II (3) LEC. 3. Pr. ARCH 3320. Properties and potential design applications of materials used in contemporary construction, with an emphasis on steel and concrete, roofing, glass and glazing, cladding, and interior finishes.

ARCH 4500 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. ARCH 3020 or ARIA 3020. Architects' legal responsibilities, frameworks of professional practice, office organization, business planning, marketing, project delivery, internship and professional ethics and leadership.

ARCH 4900 DIRECTED STUDIES (1-6) AAB. Development of an area of special interest through independent study. Evaluation of the work may be by faculty jury. School approval. Course may be repeated for a maximum of 6 credit hours.

ARCH 4910 RURAL STUDIO COMPLETION (0) DSL/LEC. Completion of construction project for ARCH 4120 Elective Studio. This studio is based in the School's remote facilities in Newbern, AL.

ARCH 4920 PROFESSIONAL INTERNSHIP (1-3) INT. Departmental approval. Application of principles and theories in a professional setting. Course may be repeated for a maximum of 9 credit hours.

ARCH 4960 SPECIAL PROBLEMS (1-6) LEC. Special problems Course may be repeated for a maximum of 6 credit hours.

ARCH 5010 STUDIO VII (6) LEC. 2, AAB/LST. 10. Pr. ARCH 4020 or ARIA 4020. Advanced problem-solving in the synthesis of previous design experiences. Development of a comprehensive design project.

ARCH 5020 THESIS STUDIO (6) LEC. 6, AAB/LST. 13. Pr. ARCH 5010 and ARCH 5990. Exploration and development of an architectural project under the direction of a faculty member.

ARCH 5100 TEACHING METHODS (1) LEC. 1.

ARCH 5240 BEING THERE (1) LEC. 1. Course may be repeated for a maximum of 2 credit hours.

ARCH 5340 METHODS IN COMMUNITY BASED LEARNING (3) LEC. 3.

ARCH 5990 THESIS RESEARCH (3) LEC. 3. Pr. ARCH 4020. Coreq. ARCH 5010. The tools, techniques, and strategies required to select, develop, refine, write, and present a thesis argument.

ARCH 5991 THESIS RESEARCH (1) LEC. 1. Pr. ARCH 5990. Expansion on the individual thesis argument and research begun in ARCH 5990 in parallel with the development of their thesis design project in ARCH 5020.

ARCH 7010 FALL STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a schematic, client-driven architectural proposal.

ARCH 7020 SPRING STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a client-driven architectural proposal.

ARCH 7030 SUMMER STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a client-driven architectural proposal.

ARCH 7110 SEMINAR IN COLLABORATIVE DESIGN METHODS AND PROCESS (3) SEM. 3. Introduction to the core theories of collaboration within interdisciplinary design and construction project teams teams and community-based client groups. Students develop an understanding of the fundamentals of collaborative process design, principles negotiation, communication across disciplines, and conflict resolution.

ARCH 7120 SEMINAR IN DESIGN TECTONICS (3) SEM. 3. Taught as a series of workshops, this course provides the disciplinary framework necessary to apply technical research methods when evaluating options and reconciling the implications of design development decisions across systems and scales.

ARCH 7130 SEMINAR IN PROJECT COMMUNICATIONS (3) SEM. 3. This course provides the disciplinary framework necessary to develop all project documentation required for project construction, delivery, record keeping, as well as future research and analysis.

ARCH 7210 EXECUTIVE ISSUES: DISCIPLINARY FRAMEWORK (3) SEM. 3. Taught as a series “overlay” lectures and workshops. Provides the disciplinary framework to apply case study research methods when evaluating options and reconciling the implications of schematic design decisions across systems/scales.

ARCH 7220 EXECUTIVE ISSUES: RESEARCH METHODS (3) SEM. 3. Taught as a series "overlay" lectures and workshops. Provides the disciplinary framework necessary to apply case study research methods when evaluating options and reconciling the implications of design development decisions across systems/scales.

Art - ARTS

Courses

ARTS 1040 BASIC PAINTING FOR NON MAJORS (3) STU. 6. Instruction in painting concepts, materials, and techniques. Oil and water-based paints and other media are used to explore a variety of approaches and subject matter. Not open to ARTF, ARTH, and ATLA majors.

ARTS 1110 DRAWING I (3) AAB/STU. 6. Basic drawing with emphasis on accurate observation, pictorial organization, and the depiction of space; development of drawing skills using various black and white media.

ARTS 1210 STUDIO FOUNDATIONS I: MATERIALS AND CONCEPTS (3) STU. 6. An introductory course on the application of two-dimensional and three-dimensional art materials and conceptual development.

ARTS 1220 STUDIO FOUNDATIONS II: PROCESS AND CONCEPT (3) STU. 6. Pr. P/C ARTS 1210. An introductory art course focusing on in-depth creative research in conjunction with artmaking.

ARTS 1230 INTRODUCTION TO DIGITAL ART (3) STU. 6. An introduction to the skills and concepts of digital art such as imaging, time, and 3D modeling using computer-based tools and techniques.

ARTS 1250 ORIENTATION TO STUDIO ART FOR THE MAJOR (0) LEC. 0. SU. Introduction to the BA and BFA studio arts major, photo documentation, and portfolio development.

ARTS 1510 LOOKING AT ART: APPROACHES TO INTERPRETATION (3) LEC. 3. Introduces the fundamental structures of the art world and multiple approaches to looking at and responding to art.

ARTS 1610 INTRODUCTION TO ART HISTORY (3) LEC. 3. This introduction to global art history teaches the basic concepts of visual analysis by discussing the historical, social, and political contexts of major themes in art history. Specific topics and emphases vary by instructor.

ARTS 1617 HONORS INTRODUCTION TO ART HISTORY (3) LEC. 3. Pr. Honors College. This introduction to global art history teaches the basic concepts of visual analysis by discussing the historical, social, and political contexts of major themes in art history. Specific topics and emphases vary by instructor.

ARTS 2100 FOUNDATIONS OF ART HISTORY I (3) LEC. 3. A history of art from ancient cultures to approximately 1300 CE, with an introduction to basic art historical research and writing skills.

ARTS 2150 FOUNDATIONS OF ART HISTORY II (3) LEC. 3. A history of art from approximately 1300 CE to the contemporary period, with an introduction to basic art historical research and writing skills.

ARTS 2970 SPECIAL TOPICS IN STUDIO ART AND ART HISTORY (3) LEC. 3. Topics in studio art and art history. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours.

ARTS 3020 2-D ANIMATION (3) STU. 6. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1110 and ARTS 1210 and ARTS 1230. Introduction to the fundamental principles of animation and storytelling in 2-D traditional and digital formats.

ARTS 3030 B.F.A. PORTFOLIO REVIEW (0) IND. SU. Pr. ARTS 1110 and ARTS 1210 and ARTS 1220 and ARTS 1230 and ARTS 1250 and ARTS 2100 and ARTS 2150. Preparation, presentation, and faculty advisory review of a portfolio of artworks, a statement of academic and career goals, and a declaration of a BFA concentration area. Completed by ARTF students after 24 credit hours of ARTS courses.

ARTS 3110 FIGURE DRAWING I (3) STU. 6. Pr. ARTS 1110 and ARTS 1210 and (ARTS 2100 or ARTS 2150). The human figure as form and as compositional element. Measuring and sighting for proportion. Drawing from casts, skeletons, and nude models.

ARTS 3120 3-D ANIMATION (3) STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 3020 and ARTS 3110. Introduction to the fundamental principles of 3D modeling and animation.

ARTS 3130 THEMES IN CONTEMPORARY ANIMATION (3) STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 3120. Creative exploration of varying topics in contemporary animation. Studio work supplemented with lectures, critiques, and reading. Course may be repeated for a maximum of 6 credit hours.

ARTS 3140 ADVANCED DRAWING I (3) STU. 6. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1220 and ARTS 1230 and ARTS 3110. Concepts, materials and techniques with emphasis on the development of a personal vision and individual approach. Nude models may be used.

ARTS 3150 ADVANCED DRAWING II (3) STU. 6. Pr. ARTS 3140 and (ARTS 2100 and ARTS 2150). Medium and subject determined by student with approval of instructor. Emphasis on strengthening the student's aesthetic awareness and technical skills.

ARTS 3160 FIGURE DRAWING II (3) STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 1230 and ARTS 3110. Continued study of life-drawing from nude models and casts. Materials and techniques emphasize building observational drawing skills and strengthening aesthetic awareness. Repeatable up to 6 hours. Course may be repeated for a maximum of 6 credit hours.

ARTS 3210 INTRODUCTION TO PHOTOGRAPHY (3) STU. 3. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1110 and ARTS 1210. Departmental approval. Fine art photographic concepts and techniques including camera operation, tonal control of black and white prints, presentations of historical and contemporary photography.

ARTS 3220 DIGITAL AND COLOR PHOTOGRAPHY (3) AAB/STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 1230 and ARTS 3210. Departmental approval. Concepts and practices of contemporary art photography including digital production techniques and color photographic theory.

ARTS 3230 INTERMEDIATE PHOTOGRAPHY (3) STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 1230 and ARTS 3210. Departmental approval. Intermediate study of photographic processes with emphasis on technique, classroom craftsmanship, medium and large camera formats, approaches to content and researching concepts to inform studio production.

ARTS 3310 PAINTING I (3) STU. 6. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1110 and ARTS 1210. Instruction in painting concepts, materials, and methods.

ARTS 3320 PAINTING II (3) AAB/STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 1230 and ARTS 3310. Departmental approval. Instruction in painting concepts, materials, and techniques with emphasis on the development of technical skills and a personal vision and individual approach.

ARTS 3330 PAINTING III (3) AAB/STU. 6. Pr. ARTS 3140 and ARTS 3320 or Departmental approval. Medium and subject determined by student and instructor. Emphasis on strengthening aesthetic awareness and technical skills.

ARTS 3410 PRINTMAKING: RELIEF (3) STU. 6. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1110 and ARTS 1210. Introduction to relief printmaking. Studio work supplemented with lectures, critiques, and readings.

ARTS 3420 PRINTMAKING: INTAGLIO (3) STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 1230 and (ARTS 3410 or ARTS 3430) or Departmental approval. Introduction to intaglio printmaking. Studio work with lectures, critiques, and readings.

ARTS 3430 PRINTMAKING: SCREEN-PRINTING (3) STU. 6. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1110 and ARTS 1210 and ARTS 1230. Departmental approval. Introduction to water based screen-printing. Studio work supplemented with lectures, critiques, and reading.

ARTS 3510 INTRODUCTION TO SCULPTURE (3) STU. 6. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1110 and ARTS 1210. Introduction to wood working, metal fabrication, casting, and additional materials, processes, and issues involved in mixed media sculpture production. Department approval.

ARTS 3520 INSTALLATION ART (3) STU. 6. Pr. ARTS 2100 and ARTS 2150 and ARTS 1220 and ARTS 1230 and ARTS 3510. Investigation of the methods, theory, and technologies involved in contemporary indoor and outdoor installations and site-specific intervention. Readings and discussions on relevant sculptural practices. Department approval.

ARTS 3530 CASTING AND FOUNDRY (3) STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 1230 and ARTS 3510. Instruction in mold making, casting, papermaking, and figure modeling as it applies to metal, plaster, and additional materials. Department approval.

ARTS 3620 COLONIAL LATIN AMERICAN ART (3) LEC. 3. Pr. ARTS 2100 and ARTS 2150. Study of the major art and architectural traditions of Latin America from the early 16th to the early 19th centuries.

ARTS 3630 ART OF THE ANCIENT NEAR EAST (3) LEC. 3. Pr. ARTS 2100 and ARTS 2150. This course examines the visual arts and architecture of the Near East within their social and historical contexts. Departmental Approval needed.

ARTS 3640 ANCIENT GREEK ART (3) LEC. 3. Pr. ARTS 2100 and ARTS 2150. This course examines the visual arts and architecture of ancient Greece (Early Bronze Age to Hellenistic Period) in their social and historical contexts. Departmental Approval needed.

ARTS 3650 HISTORY OF PHOTOGRAPHY (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150) or Departmental approval. Introduction to the history and theory of photography from its 19th-century origins to contemporary global practices.

ARTS 3660 EIGHTEENTH-CENTURY ART IN EUROPE (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150) or Departmental approval. Study of the architecture, painting, and sculpture in 18th-century Europe.

ARTS 3670 CONSTRUCTING RACE IN THE VISUAL ARTS (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150) or Departmental approval. Study of the role of visual imagery in inscribing and. challenging racial hierarchies in the history of art.

ARTS 3680 20TH-CENTURY ART II: 1945-2000 (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). An introduction to the artists, movements, institutions, concepts, and themes of late 20th-century art.

ARTS 3690 ARTS OF AFRICA (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). Introduction to the art, artists, themes and issues in African art from the pre-colonial period to the contemporary era.

ARTS 3700 ART OF THE UNITED STATES (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). Study of architecture, painting, and sculpture from colonial to recent times. Selected movements and works are considered in relationship both to European and to indigenous conditions and attitudes.

ARTS 3710 ANCIENT ART OF THE WEST (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150) or Departmental approval. Examination of major art traditions of the ancient world, including for example: Egypt, Near East, Aegean, Greece, and Rome.

ARTS 3720 MEDIEVAL ART OF THE WEST (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). Study of major art traditions of the West from the fall of Rome to CE 1400, with a selective focus on the major art traditions, including Migration period, Carolingian, Ottonian, Romanesque, Gothic, and Italo-Byzantine.

ARTS 3730 RENAISSANCE ART IN ITALY (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). Study of the architecture, painting, and sculpture of the 15th and 16th centuries in Italy.

ARTS 3740 SEVENTEENTH-CENTURY ART IN EUROPE (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150) or Departmental approval. Study of the architecture, painting, and sculpture of 17th-century Europe.

ARTS 3750 19TH CENTURY ART (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). Introduction to major art movements from Neo-Classicism to Post-Impressionism and Art Nouveau.

ARTS 3760 20TH CENTURY ART I 1900–1945 (3) LEC. 3. Pr. ARTS 2100 and ARTS 2150. Study of major developments in painting, sculpture, and architecture in Europe and the United States from 1900 to 1945. Departmental Approval.

ARTS 3770 MESOAMERICAN ART (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). Study of the major art and architectural traditions of Mesoamerica from 1800 BCE until 1519 CE.

ARTS 3790 ARTS OF ASIA (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). Introduction to major art traditions of Asia from the beginnings to the present.

ARTS 3800 ISSUES AND CRITICISM IN CONTEMPORARY ART (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150). and one 3000-level art history class or Departmental approval. Readings and discussions about contemporary art.

ARTS 3810 GENDER AND THE VISUAL ARTS (3) LEC. 3. Pr. (ARTS 2100 and ARTS 2150) or Departmental approval. Introduction to gender issues in the visual arts in historical and contemporary contexts. Examines the cultural notions of both masculine and feminine gender roles at play in works of art and explores key issues that have affected women's production of works of art in the past and present.

ARTS 3820 INTRODUCTION TO WHEEL-THROWN CERAMICS (3) STU. 6. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1110 and ARTS 1210. Departmental approval. Introduction to wheel-thrown pottery. Presentation of historical and contemporary contexts for fine arts ceramics. Work with glazes and firing.

ARTS 3840 INTRODUCTION TO HAND-BUILT CERAMICS (3) STU. 6. Pr. (ARTS 2100 or ARTS 2150) and ARTS 1110 and ARTS 1210. Departmental approval. Introduction to handforming methods for sculpture and vessel forms in clay. Work with glazes and firing.

ARTS 3850 INTERMEDIATE CERAMICS (3) STU. 6. Pr. (ARTS 2100 and ARTS 2150) and ARTS 1220 and ARTS 1230 and (ARTS 3820 or ARTS 3840). Departmental approval. Individual approaches to ceramic sculpture and vessel forms, techniques building on previous experience with hand-building and/or wheel-throwing, with emphasis on stylistic and conceptual concerns.

ARTS 3920 INTERNSHIP IN STUDIO ART/ART HISTORY (3) AAB/PRA. 15. SU. Junior standing and 3.0 GPA in major and completion of at least two 3000-level courses in ARTF, ARTH, or ATLA major. Internships appropriate to the major with a departmental-approved sponsor providing hands-on, practical learning experiences in a professional setting.

ARTS 3930 STUDIO ART ABROAD (3) AAB/LEC. 6. Studio art taught on site in foreign destination.

ARTS 3940 ART HISTORY ABROAD (3) LEC. 3. Art History taught on site in foreign destination.

ARTS 4100 SEMINAR IN PRE-MODERN ART HISTORY (3) SEM. 3. 6 hours of 3000-level art history courses. Or departmental approval. Examination of varying topics in art history from the ancient era until 1750 CE. Course may be repeated for a maximum of 6 credit hours.

ARTS 4140 ADVANCED ANIMATION (3) STU. 6. Pr. ARTS 3130. An advanced investigation of theory, history, contemporary practice, and techniques through research and studio practice. Emphasis on mature creative expression and production as an animator. Course may be repeated for a maximum of 6 credit hours.

ARTS 4150 SEMINAR IN MODERN AND CONTEMPORARY ART HISTORY (3) SEM. 3. 6 hours of 3000-level art history courses. Or departmental approval. Examination of varying topics in modern and contemporary art history, 1750 CE-present. Course may be repeated for a maximum of 6 credit hours.

ARTS 4240 ADVANCED PHOTOGRAPHY (3) STU. 6. Pr. ARTS 3220 and ARTS 3230. Advanced investigations of theory, history, and methods to inform photographic practice. Emphasis on production of mature work and individual artistic identity. Frequent individual and group critiques. Course may be repeated for a maximum of 9 credit hours.

ARTS 4340 PAINTING IV (3) STU. 6. Pr. ARTS 3330. Advanced painting with medium and subject idea determined by student with approval of the instructor. Emphasis on strengthening the student's awareness and technical skills as a maturing painter. Nude models may be used. Course may be repeated for a maximum of 9 credit hours.

ARTS 4440 ADVANCED PRINTMAKING (3) STU. 6. Pr. ARTS 3410 and ARTS 3420 and ARTS 3430. Individual research in printmaking. Students focus on conceptual and technical development through continued research in relief, intaglio, or screen-printing. Course may be repeated for a maximum of 9 credit hours.

ARTS 4540 ADVANCED SCULPTURE (3) STU. 6. Pr. ARTS 3520 and ARTS 3530. Advanced study of sculpture techniques and concepts. Students create an independently designed, instructor-approved body of work. Individual instruction and supervision of material exploration, research and reading. Course may be repeated for a maximum of 9 credit hours.

ARTS 4700 SENIOR CAPSTONE: ART HISTORY (3) SEM. 3. Declared ARTH major or minor and completion of 18 hours of 3000-level art history courses. Capstone course for ARTH majors.

ARTS 4840 ADVANCED CERAMICS (3) STU. 6. Pr. ARTS 3820 and ARTS 3840 and ARTS 3850. Advanced study of ceramic techniques and concepts. Student will create an independently-designed, instructor-approved body of work. Individual instruction and supervision of material exploration, research and reading. Frequent individual and group critiques. Course may be repeated for a maximum of 6 credit hours.

ARTS 4850 PROFESSIONAL STUDIO PRACTICES (3) LEC. 3. Pr. ARTS 3030. Instruction in portfolio preparation, professional practices, and information on studio art careers and graduate study. Must have completed ARTS 3030 and nine credit hours in one concentration; taken concurrently with 4000-level studio in same concentration and prior to ARTS 4980 Senior Project in Studio Arts.

ARTS 4860 BFA CRITIQUE SEMINAR (1) LEC. 1. SU. Pr. ARTS 3030. Rigorous group critiques of artwork produced in media concentration courses, discussions and writing about art, art documentation, and exhibition practices. Course may be repeated for a maximum of 3 credit hours.

ARTS 4930 DIRECTED STUDIES (2-3) IND. Pr., Open only to ARTS students who have shown ability, initiative, and industry. Departmental approval and 3.0 minimum GPA in 3000-level ARTS courses in area of directed study. Directed studies are offered in painting, printmaking, sculpture, art history, photography, animation, and ceramics. Course may be repeated for a maximum of 6 credit hours.

ARTS 4950 BA STUDIO ART CAPSTONE (1) LEC. 1. SU. Students must have Senior Standing and have completed a minimum of 39 hours in the Major. Professional skills development and career strategies for BA Studio Art Majors.

ARTS 4967 HONORS SPECIAL PROBLEMS (1-3) LEC. Pr. Honors College. Course may be repeated for a maximum of 3 credit hours.

ARTS 4970 SPECIAL TOPICS IN STUDIO ART AND ART HISTORY (3) ST1/STU. 3. Topics in studio art and art history. Focus will vary according to the instructor. Departmental approval needed. Course may be repeated for a maximum of 6 credit hours.

ARTS 4980 SENIOR PROJECT FOR STUDIO ARTS (3) STU. 6. Pr. ARTS 3030 and ARTS 4860 and (ARTS 3820 and ARTS 3840 and ARTS 3850 and ARTS 4840) or (ARTS 3310 and ARTS 3320 and ARTS 3330 and ARTS 4840) or (ARTS 3410 and ARTS 3420 and ARTS 3430 and ARTS 4440) or (ARTS 3510 and ARTS 3520 and ARTS 3530 and ARTS 4540) or (ARTS 3210 and ARTS 3220 and ARTS 3230 and ARTS 4240) or (ARTS 3020 and ARTS 3120 and ARTS 3130 and ARTS 4140). And three additional courses in a single studio art concentration. Must be taken in the student's final semester concurrent with third enrollment in ARTS 4860. Directed terminal studio project with faculty-approved choice of content and medium. Project will be exhibited.

ARTS 4997 HONORS RESEARCH AND THESIS (1-3) IND. Pr. Honors College. Course may be repeated for a maximum of 6 credit hours.

Auburn Global - GLOB

Courses

GLOB 0100 FOUNDATIONS OF AMERICAN UNIVERSITY LIFE (0) LEC. 1. International Students. This class orients and acclimates international students to Auburn University, the surrounding area, and American cultural contexts.

GLOB 0210 READING AND WRITING FOUNDATION (0) LEC. 10. SU. This course develops critical Reading and Writing skills for students learning English as a Second Language. The course seeks to bring students to the level of an Intermediate User (B1) as described by the Common European Framework and Reference (CEFR).

GLOB 0220 LISTENING AND SPEAKING FOUNDATION (0) LEC. 10. SU. This course develops critical listening and speaking skills for students learning English as a Second Language. The course seeks to bring students to the level of an Intermediate User (B1) as described by the Common European Framework and Reference (CEFR).

GLOB 0310 ENGLISH FOR ACADEMIC PURPOSES I: INTEGRATED SKILLS (0) LEC. 10. This is an integrated-skills ESL course: listening, speaking, reading, and writing skills are combined and mutually reinforce each other. Students practice language and academic skills through exercises and types of technology associated with academic pursuits, including University-specific technologies (Canvas, databases).

GLOB 0410 ENGLISH FOR ACADEMIC PURPOSES II: ORAL PROFICIENCY FOR IAP STUDENTS (0) LEC. 3. The purpose of this course is to help improve the students' listening and oral communication skills in English. The course will provide opportunities to work on language skills and pronunciation, make presentations and arguments, and discuss and debate academic topics.

GLOB 0420 ADVANCED ORAL PROFICIENCY (0) LEC. 3. Pr. GLOB 0410. International Accelerator. The course improves students' listening and oral communication skills in English on the advanced level; it provides opportunities to work on language skills and pronunciation, present, discuss and debate academic topics germane to the undergraduate experience at Auburn University. The focus is on academic language and advising, building on the suite of essential communication skills, speech acts, and conversational gambits which students learned in GLOB 0410.

GLOB 0430 ENGLISH SUPPLEMENT (0) LEC. 1. The English Supplement explains in-depth the key themes and concepts of a specific course topic to facilitate comprehension. Its field-specific content also assists in development of study skills for international students to use throughout their academic career. Course may be repeated for a maximum of 5 credit hours.

GLOB 0440 INTRODUCTION TO ACADEMIC WRITING PROFICIENCY (0) LEC. 6. International student. Develops critical academic writing skills necessary to successfully complete assignments related to academic coursework. Students will learn the fundamentals of effective academic writing including construction and flow management, as well.

GLOB 0450 ACADEMIC WRITING PROFICIENCY (0) LEC. 3. International students. Develops critical writing skills related to academic coursework. Students acquire key organizational concepts germane to academic writing including essay construction, patterns of organization, and a basic tool kit of attribution strategies and organizational concepts.

GLOB 0700 ENGLISH FOR ACADEMIC AND PROFESSIONAL PURPOSES (0) LEC. 6. SU. Acquisition of professional English language skills and field-specific, academic vocabulary. International Graduate students. Course may be repeated for a maximum of 12 credit hours.

GLOB 0710 ENGLISH FOR PROFESSIONAL PURPOSES (0) LEC. 4. LAB. 0. SU. Students will develop professional English language skills, both written and spoken.

GLOB 0720 ENGLISH FOR SPECIFIC PURPOSES (0) LEC. 2. Students will study and learn field-specific and academic vocabulary.

GLOB 0730 MAKING THE CASE: STRUCTURE. ARGUMENT, AND COMPOSITION IN RESEARCH CONTEXTS (0) LEC. 3. SU. This course provides students practice in skills necessary for graduate level research writing.

GLOB 0740 THE ART OF PRESENTING. ADVANCED ORAL COMMUNICATIONS (0) LEC. 2. SU. The purpose of this course is to help students improve oral communication skills in English. The course will provide students with activities designed to help them improve spoken English in presenting information, participating in discussions, and engaging in debates.

GLOB 0750 ENGLISH SUPPLEMENT: GRADUATE READING AND WRITING (0) LEC. 1. SU. The Graduate Reading and Writing course assists students to improve their academic reading and writing skills by using different reading and writing techniques.

GLOB 0810 PROFESSIONAL DEVELOPMENT SEQUENCE I (0) LEC. 1. SU. Understanding the workplace and enhancing the skills necessary to be an effective worker are the goals of this course. Expectations of employees in the American workplace and other cultures are explored. Students will participate in networking and a company visit.

GLOB 0820 PROFESSIONAL DEVELOPMENT SEQUENCE II (0) LEC. 1. SU. This course is designed to enhance the students' effectiveness in career planning. Resumes, cover letters and professional portfolios are developed and incorporated into classroom activities. Through the use of role plays and mock interviews, students demonstrate the professional skills introduced.

GLOB 0830 RESEARCH COLLOQUIUM AND METHODS 1 (0) LEC. 2. SU. Exploration of research methods and techniques, problem solving strategies, challenges graduate students face and how to successfully pursue graduate studies. Students interact with professors, advanced graduate students and professionals to learn from their expertise and observe different presentation styles. Course may be repeated for a maximum of 2 credit hours.

GLOB 0840 RESEARCH COLLOQUIUM AND METHODS 2 (0) LEC. 2. SU. Further exploration of research methods and techniques, problem solving strategies, challenges graduate students face and how to successfully pursue graduate studies. Students interact with professors, advanced graduate students and professionals to learn from their expertise and observe different presentation styles.

GLOB 0850 DATA MANAGEMENT: GATHERING, ANALYZING, AND INTERPRETING DATA (0) LEC. 3. SU. Pr., International graduate students. Introduction to the management of research data and the analysis and the interpretation of research data gathered in a number of settings including experiments and surveys. Students interact with professors and graduate students to understand data usage in research.

GLOB 0900 SPECIAL TOPICS (0) LEC. 1-9. SU. International student only. The course prepares international students for the rigors of graduate study in a variety of academic courses of the MAP (Masters Accelerator Program) curriculum. It is repeatable with change in topic. Course may be repeated for a maximum of 9 credit hours.

GLOB 1010 COLLEGIATE ACADEMIC PERFORMANCE AND EXPECTATIONS (1) LEC. 1. International Students. The Collegiate Academic Performance and Expectations class assists students in the International Accelerator Program in developing collegiate academic skills in order to perform well in Auburn University classes and meet the rigorous expectations of Auburn University for graduation.

GLOB 1020 FROM UNIVERSITY TO PROFESSIONAL LIFE (0) LEC. 1. International Students. This class is designed to help students be prepared for life after university by helping them better understand professional development and career skills to transition their success in the classroom to their professional life.

GLOB 1030 COLLEGIATE ACADEMIC PERFORMANCE AND EXPECTATIONS II (1) LEC. 1. The course is designed to help students prepare for their academic careers by helping them better understand their majors, including the core curriculum, major curriculum, and all requisites and expectations for successful navigation of their major program. Understanding of resources at Auburn University. Students participate in a variety of individual and group projects, online and in-class discussions, and reflective analysis activities.

GLOB 1100 ADVANCED ACADEMIC WRITING PROFICIENCY (1) LEC. 1. Develops advanced writing skills for Auburn Global Pathway students.Students acquire advanced concepts germane to academic writing including the use of a wide range of rhetorical devices, as well as advanced skills such as synthesis, critical analysis, and reflection.

Aviation Management - AVMG

Courses

AVMG 1010 INTRODUCTION TO AVIATION (3) LEC. 3. Orientation to aviation management career opportunities. The history of significant events and accomplishments in the attempt to move through the air and space.

AVMG 2050 INTRODUCTION TO UNMANNED AIRCRAFT SYSTEMS (UAS) (3) LEC. 3. Orientation to unmanned aircraft systems with emphasis on pilot and operating rules, National Airspace System (NAS) integration, safety, and commercial uses of Small UAS (sUAS).

AVMG 2400 THEORY OF FLIGHT (3) LEC. 2.5. Introduction to the many systems that make up the aviation ecosystem, including aircraft, the humans and organizations that interact with them, and the principles and aerodynamics of flight.

AVMG 2600 HUMAN FACTORS IN AVIATION (3) LEC. 3. Principles of human cognitive and physical performance, and man/machine interface and design, in aviation. Study of information processing, workload management, situational awareness, and decision-making.

AVMG 2810 LEADERSHIP FOR THE AVIATION PROFESSIONAL (3) LEC. 3. Pr. AVMG 1010. AVMN and AVPF majors only. The course is designed to socialize the student into the roles, activities, and responsibilities essential for the emerging aviation leader, and is foundational to preparation for a career in the aviation industry or aviation-related environments.

AVMG 3050 AVIATION WEATHER (3) LEC. 3. Pr. AVMG 1010. Meteorology as it applies to the operation of aircraft with emphasis on observation of weather elements and interpretation of flight planning weather information.

AVMG 3140 AIR TRANSPORT INDUSTRY DEVELOPMENT (3) LEC. 3. Pr. AVMG 1010. Principles and analysis of air transport industry development, its regulatory environment, and associated certification processes.

AVMG 3200 APPLIED ANALYSIS IN AIR TRANSPORTATION (3) LEC. 3. Pr. (AVMG 1010 or AVMG 1013) and (ECON 2020 or ECON 2023 or ECON 2027). Economic theory and applications in the evolving air transport industry. Analysis of market forces and government regulation that drive resource allocation and industry performance.

AVMG 3500 AIRPORT OPERATIONS (3) LEC. 3. Pr. (AVMG 1010 and AVMG 2400) or AVMF 2150. Practices in managing airport operational systems at air carrier airports.

AVMG 3600 AIRCRAFT MAINTENANCE MANAGEMENT (3) LEC. 3. Pr. AVMG 1010. Aircraft maintenance program fundamentals, procedures, and practices, with an emphasis on regulatory requirements.

AVMG 3710 STRESS MANAGEMENT IN AVIATION (3) LEC. 3. Pr. AVMG 2600. Examine stress and stress management techniques related to pilot decision-making, situational awareness, crew coordination, communication, human error, fatigue, fitness, attitudes, workload management and Crew Resource Management (CRM). Senior, Junior, or departmental approval required.

AVMG 3810 PROFESSIONAL DEVELOPMENT IN AVIATION (1) LEC. 1. AVMN and AVPF majors only. Career planning and preparation for aviation internships and professional experience opportunities.

AVMG 4040 BUSINESS AVIATION MANAGEMENT (3) LEC. 3. Pr. AVMG 1010. Current principles and practices in commercial and business/corporate flight operations including organizational sources of revenue, functions, domestic and international operations, maintenance requirements, and the importance of a sound safety culture.

AVMG 4060 COMMERCIAL AVIATION SAFETY (3) LEC. 3. Pr. AVMG 1010. Analysis of safety principles and regulatory practices of the FAA, NTSB, and ICAO, emphasizing FAA and ICAO Safety Management Systems.

AVMG 4080 AIR TRANSPORT PLANNING (3) LEC. 3. Pr. AVMG 3140 and AVMG 3200 and AVMG 3600. Management decision making involved in selection of equipment, routes and the establishment of rates by certified and non-certified air carriers.

AVMG 4130 AIRPORT MANAGEMENT (3) LEC. 3. Pr. AVMG 3050. Practices in management of a civil public airport, including organization, functions, operations, sources of revenue, funding, maintenance and administration.

AVMG 4140 AIRPORT PLANNING AND DESIGN (3) LEC. 3. Pr. AVMG 4130. Principles and procedures pertaining to planning airport facilities required to meet the immediate and future air transportation of a community or region.

AVMG 4190 AIRSPACE MANAGEMENT (3) LEC. 3. Pr. AVMG 3050. Air traffic control procedures, facilities, center, and operations. Theory of radar operation and air traffic separation.

AVMG 4200 AIR CARGO OPERATIONS (3) LEC. 3. Pr. AVMG 1010. Domestic and international air cargo operations with emphasis on cargo economics, equipment, domestic and international regulatory activities, agents, operational techniques, systems and problems.

AVMG 4920 INTERNSHIP IN AVIATION MANAGEMENT (1-6) INT. Practical on-the-job training under supervision with aviation agencies. Written reports are required by designated faculty supervisors. Course may be repeated for a maximum of 6 credit hours.

AVMG 4967 HONORS SPECIAL PROBLEMS (1-3) LEC. 1-3. Pr. Honors College. Honors College. Special topics presented to Honors College students. Course may be repeated for a maximum of 3 credit hours.

AVMG 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Honors College. Thesis for Honors College students. Course may be repeated for a maximum of 3 credit hours.

AVMG 5090 AVIATION LAW AND POLICY (3) LEC. 3. Pr. AVMG 1010. The legal structure of aviation including federal, local and state statutes, contracts, insurance and liability, regulatory statutes, and case law.

AVMG 5170 AIRLINE MANAGEMENT (3) LEC. 3. Pr. AVMG 1010 and AVMG 3050. Airline manufacturing, economic, and operational/ managerial issues, research and development and competition issues and a survey of the world's major airlines in terms of their management strategies and style.

AVMG 5180 GLOBAL AIR TRANSPORTATION MANAGEMENT (3) LEC. 3. Pr. AVMG 3140 and AVMG 3200. Junior Standing or departmental approval. The economic development of international air transportation from its beginnings to present day. Explores a wide range of international aviation issues such as bilateral and open skies agreements, airline mega alliances, and joint ventures.

AVMG 5970 SPECIAL TOPICS IN AVIATION MANAGEMENT (3) LEC. 3. Investigation of current issues in the aviation industry.

AVMG 6090 AVIATION LAW AND POLICY (3) LEC. 3. The legal structure of aviation including federal, local, and state statutes, contracts, insurance and liability, regulatory statutes and case law.

AVMG 6170 AIRLINE MANAGEMENT (3) LEC. 3. Departmental approval. Airline manufacturing, economic, and operation/managerial issues, research and development and competition issues and a survey of the world's major airlines in terms of their management strategies and style.

AVMG 6180 GLOBAL AIR TRANSPORTATION MANAGEMENT (3) LEC. 3. Pr. AVMG 3140 and AVMG 3200 or departmental approval. International foreign air carriers, influences of ICAO and IATA, national ownership, determinants of power, operational and management practices, routes and fares/ Junior standing

AVMG 6970 SPECIAL TOPICS AVIATION MNGT (1-3) LEC. 1-3. Departmental approval. Investigation of current issues in the aviation industry. Credit will not be given for both AVMG 5970 and AVMG 6970. Course may be repeated for a maximum of 9 credit hours.

AVMG 7930 SPECIAL PROBLEMS AVIATION MNGT (1-3) LEC. 1-3. Departmental approval. Special problems and current status of the aviation and aerospace industries are analyzed though a problem solving exercise. Course may be repeated for a maximum of 6 credit hours.

Biological & Agricultural Technology Management - BATM

Courses

BATM 1110 INTRODUCTION TO TECHNOLOGY DESIGN (3) LEC. 2. LAB. 3. Introduction to the design process, 2D and 3D parametric solid modeling, and both manual and automated fabrication processes.

BATM 2110 DIGITAL ANALYTICS IN AGRICULTURE AND TECHNOLOGY (3) LEC. 2. LAB. 1. Pr. BATM 1110 or BIOP 2120. An introduction to creative and analytical methods to solve technological problems. Define the problem, explore strategies, select and implement solutions, and evaluate results.

BATM 3100 COMPUTER AIDED DESIGN TECHNOLOGY (3) LEC. 2. LAB. 1. Introductory course in computer aided design (CAD) and land mapping. Students gain competence in CAD operations used to fabricate parts and to develop field- and watershed-scale maps. Class and project topics include drawing for mechanical part fabrication and scale mapping for construction site development and agricultural field management. Must be in Junior standing Course may be repeated for a maximum of 6 credit hours.

BATM 3110 AG TECHNOLOGY GEOSPATIAL APPLICATIONS (3) LEC. 2. LAB. 3. Pr. BATM 1110 and (PHYS 1500 or PHYS 1600). Geospatial applications for agricultural land resource management. Course introduces equipment and practices used in conventional land surveying and geospatial mapping as they interface with global positioning systems (GPS), geographic information systems (GIS), and computer-aided design (CAD).

BATM 3500 NATURAL RESOURCE SYSTEMS CONSERVATION (3) LLB. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680) and (PHYS 1500 or PHYS 1600). Natural resource conservation technologies including rainfall-runoff relationships, sediment transport capacity, runoff control structures, water supply development, surveying techniques including GPS methods.

BATM 3510 AGRICULTURAL POWER AND MACHINERY FUNDAMENTALS (3) LLB. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680) and (PHYS 1500 or PHYS 1600). Power unit fundamentals with emphasis on diesel and small gasoline engines; mechanics of operation, safety, use, and adjustment of machines used for horticultural and agronomic crop production; and precision agriculturr principles and technology.

BATM 3530 AGRICULTURAL PRODUCTION AND PROCESSING FACILITY TECHNOLOGY (3) LEC. 3. Pr. MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680. Fundamental requirements for the design and operation of agricultural production and processing facilities.

BATM 3560 TURF SYSTEMS IRRIGATION DESIGN (3) LEC. 3. Pr. MATH 1120 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680. Irrigation system design for turf-based systems including residential lawns, commercial properties, athletic fields, and golf courses. Irrigation scheduling and water demand are presented to provide management capabilities.

BATM 4100 PROFESSIONAL PRACTICE IN TECHNOLOGY MANAGEMENT (2) LEC. 1. LAB. 3. Pr. BATM 5110. First in the two-course capstone experience. This course focuses on professional topics that prepare students for technical careers; teamwork, communication, standards and codes, economics, project and time management. Teams initiate the capstone design project.

BATM 4110 TECHNOLOGY CAPSTONE (3) LEC. 1. LAB. 6. Pr. BATM 4100. Development and evaluation of a team-based capstone project using tools from the technology curriculum; emphasizing communication, critical thinking, and technical and economic analyses.

BATM 4960 SPECIAL PROBLEMS IN AGRICULTURAL TECHNOLOGY MANAGEMENT (3-6) IND. Departmental approval. Faculty supervision of individual student investigations of specialized problems in biological and agricultural technology management. May be repeated with change in problem. Course may be repeated for a maximum of 6 credit hours.

BATM 4970 SPECIAL TOPICS IN AGRICULTURAL TECHNOLOGY MANAGEMENT (3) LLB. Departmental approval. Investigation of current issues in biological and agricultural technology management. Course may be repeated for a maximum of 6 credit hours.

BATM 4980 UNDERGRADUATE RESEARCH (3) LLB. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 6 credit hours.

BATM 5110 AGRI-INDUSTRIAL ELECTRICAL APPLICATIONS (3) LEC. 2. LAB. 3. Pr. BATM 2110 and (PHYS 1500 or PHYS 1600). An introduction to the fundamentals of electricity and electrical systems used in agricultural and industrial applications. Electricity basics include safety, AC (single and three phase) and DC power. Selecting and sizing components include wiring conductors, safety devices, motors, other loads.

BATM 5120 AGRI-INDUSTRIAL ELECTRONICS AND CONTROLS (3) LEC. 2. LAB. 3. Pr. BATM 5110. An introduction to the fundamentals of electronic control systems used in agricultural and industrial production and processing applications. Electronic control system components include programmable logic controllers (PLCs), switches, relays, sensors, and ladder logic.

BATM 5130 PRECISION AG TECHNOLOGY (3) LEC. 2. LAB. 3. Pr. BATM 3510. An overview of the principles of precision agriculture with focus on prescriptive agriculture and the ability to effectively execute input management plans using today's technologies. Course material and discussions will include how technologies such as GPS, agricultural GIS, sensors for qualitative and quantitative measurement of soil and plant variables, variable-rate technology are being implement with data informing sub-field level management and subsequent farm business decisions.

BATM 5140 COMMERCIAL POULTRY & LIVESTOCK HOUSING (3) LEC. 2. LAB. 3. Pr. STAT 2510. An introduction to the basic design, operation, and maintenance of modern commercial animal housing systems. Emphasis will be placed on poultry and swine systems with elements of dairy and beef when applicable.

BATM 5150 DRONE TECHNOLOGIES IN AGRICULTURAL AND BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Pr. STAT 2510 and PHYS 1500. Drone or Unmanned Aerial Vehicles (UAV) technologies and the data generated from these systems are being utilized in agricultural, biological and natural resource systems. Topics will include UAV types, sensors and application systems for drones, sensor resolution and calibration, flight and mission planning techniques. Image and date collection techniques, analysis, interpretation and decision making, generation of prescriptive maps, and other emerging drone technologies.

BATM 5550 PRINCIPLES OF FOOD ENGINEERING TECHNOLOGY (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617) and (PHYS 1000 or PHYS 1003 or PHYS 1007 or PHYS 1500 or PHYS 1600 or PHYS 1607). Engineering concepts and unit operations used in processing food products. Fall.

BATM 6110 AGRI-INDUSTRIAL ELECTRICAL APPLICATIONS (3) LEC. 2. LAB. 3. Departmental approval. An introduction to the fundamentals of electricity and electrical systems used in agricultural and industrial applications. Electricity basics include safety, AC (single and three phase) and DC power. Selecting and sizing components include wiring conductors, safety devices, motors, other loads.

BATM 6120 AGRI-INDUSTRIAL ELECTRONICS AND CONTROLS (3) LEC. 2. LAB. 3. Pr. BATM 6110. An introduction to the fundamentals of electronic control systems used in agricultural and industrial production and processing applications. Electronic control system components include programmable logic controllers (PLCs), switches, relays, sensors, and ladder logic.

BATM 6130 PRECISION AG TECHNOLOGY (3) LEC. 2. LAB. 3. An overview of the principles of precision agriculture with focus on prescriptive agriculture and the ability to effectively execute input management plans using today's technologies. Course material and discussions will include how technologies such as GPS, agricultural GIS, sensors for qualitative and quantitative measurement of soil and plant variables, variable-rate technology are being implement with data informing sub-field level management and subsequent farm business decisions.

BATM 6140 COMMERCIAL POULTRY AND LIVESTOCK HOUSING (3) LEC. 2. LAB. 1. An introduction to the basic design, operation, and maintenance of modern commercial animal housing systems. Emphasis will be placed on poultry and swine systems with elements of dairy and beef when applicable.

BATM 6150 DRONE TECHNOLOGIES IN AGRICULTURAL AND BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Drone or Unmanned Aerial Vehicles (UAV) technologies and the data generated from these systems are being utilized in agricultural, biological and natural resource systems. Topics will include UAV types, sensors and application systems for drones, sensor resolution and calibration, flight and mission planning techniques. Image and date collection techniques, analysis, interpretation and decision making, generation of prescriptive maps, and other emerging drone technologies.

BATM 6550 PRINCIPLES OF FOOD ENGINEERING TECHNOLOGY (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1133) and (PHYS 1000 or PHYS 1003 or PHYS 1007). Engineering concepts and unit operations used in processing food products. Fall.

Biochemistry - BCHE

Courses

BCHE 3180 NUTRITIONAL BIOCHEMISTRY (3) LEC. 3. Pr. CHEM 2030 or CHEM 2070 or CHEM 2077 or CHEM 2080 or CHEM 2087. Fundamental pathways of carbohydrate, lipid, and amino acid metabolism in human beings.

BCHE 3200 PRINCIPLES OF BIOCHEMISTRY (3) LEC. 3. Pr. (BIOL 1010 or BIOL 1020 or BIOL 1030 or BIOL 1027 or BIOL 1037) and (CHEM 2030 or CHEM 2070 or CHEM 2077 or CHEM 2080 or CHEM 2087). Structure and function of biomolecules, enzyme catalysis, processing of genetic information, bioenergetics and metabolism, and regulatory mechanisms in cellular processes.

BCHE 5180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Fundamentals of metabolism, focusing on the design and regulation of the major catabolic and biosynthetic metabolic pathways. Bioenergetics.

BCHE 5181 BIOCHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C BCHE 5180 or P/C CHEM 5180. Laboratory techniques required for identification and quantification of compounds of important biochemical classes.

BCHE 5190 BIOCHEMISTRY II (3) LEC. 3. Pr. BCHE 5180 or BCHE 6180. Fundamentals of metabolism, focusing on the design and regulation of the major catabolic and biosynthetic metabolic pathways.

BCHE 5191 BIOCHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C BCHE 5190 or P/C CHEM 5190. Laboratory techniques required for partial purification, kinetic studies, and characterization of enzymes and nucleotides from various plants, animals and bacteria.

BCHE 6180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Departmental approval. Fundamentals of the classification, structure, and reactions of the major constituents of living matter and evaluation of binding phenomena and bioenergetics.

BCHE 6181 BIOCHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C BCHE 6180 or P/C CHEM 6180. Laboratory techniques required for identification and quantification of compounds of important biochemical classes.

BCHE 6190 BIOCHEMISTRY II (3) LEC. 3. Pr. BCHE 6180. Departmental approval. Fundamentals of metabolism, focusing on the design and regulation of the major catabolic and biosynthetic metabolic pathways.

BCHE 6191 BIOCHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 6190. Laboratory techniques required for partial purification, kinetic studies, and characterization of enzymes and nucleotides from various plants, animals, and bacteria.

BCHE 7200 ADVANCED BIOCHEMISTRY I (3) LEC. 3. Graduate credit will not be given for both BCHE 6190 and BCHE 7200.

BCHE 7210 ADVANCED BIOCHEMISTRY II (3) LEC. 3. Structure and function of macromolecules participating in the flow of molecular information. Graduate credit will not be given for both BCHE 6180 and BCHE 7210. Or equivalent.

BCHE 7220 PRINCIPLES OF CELLULAR AND MOLECULAR ENZYMOLOGY (3) LEC. 3. Pr. BCHE 6190 or CHEM 6190 or BCHE 7200. Departmental approval. The principles of enzyme chemistry including the physical, chemical, and catalytic properties of enzymes.

BCHE 7230 BIOCHEMISTRY OF MACROMOLECULES (3) LEC. 3. Pr. BCHE 6180 or BCHE 7200. Departmental approval. Advanced study of the structure of protein and nucleic acids: DNA replication, RNA transcription and protein synthesis.

BCHE 7260 BIOINFORMATICS (3) LEC. 3. Pr. BCHE 7210. Departmental approval. Advanced study of main concepts and tools of genomics and proteomics.

BCHE 7270 BIOCHEMICAL RESEARCH TECHNIQUES (3) LEC. 3. Pr. BCHE 6190. Modern biochemical laboratory techniques. Course may be repeated for a maximum of 6 credit hours.

BCHE 7280 TOPICS IN BIOCHEMISTRY (1-3) LEC. Pr. BCHE 7210. Departmental approval. Directed studies in biochemistry. BCHE 7210 or equivalent. Course may be repeated for a maximum of 3 credit hours.

Biology - BIOL

Courses

BIOL 1000 INTRODUCTION TO BIOLOGY (3) LEC. 3. Science Core. Introduction to biological principles relevant to human society. Designed for non-science majors. Credit will not be given for both BIOL 1000 and BIOL 1020 or BIOL 1027.

BIOL 1001 INTRODUCTION TO BIOLOGY LABORATORY (1) LAB. 2. Pr. P/C BIOL 1000 or P/C BIOL 1003. Laboratory course for BIOL 1000 or BIOL 1003.

BIOL 1010 A SURVEY OF LIFE (3) LEC. 3. Pr. BIOL 1000 or BIOL 1020 or BIOL 1023 or BIOL 1027 or SCMH 1010 or SCMH 1013 or SCMH 1017 or SCMH 1020 or SCMH 1023 or SCMH 1027. Science Core. Emphasis on contrasting strategies employed by organisms to meet similar biological needs. Credit will not be given for both BIOL 1010 and BIOL 1030 or BIOL 1037.

BIOL 1011 A SURVEY OF LIFE LABORATORY (1) LAB. 2. Pr. P/C BIOL 1010 or P/C BIOL 1013. Laboratory course for BIOL 1010.

BIOL 1020 PRINCIPLES OF BIOLOGY (3) LEC. 3. Science Core. Introduction to the physical, chemical, and biological principles common to all organisms. Credit will not be given for both BIOL 1020 and BIOL 1000 or BIOL 1027.

BIOL 1021 PRINCIPLES OF BIOLOGY LABORATORY (1) LAB. 2. Pr. P/C BIOL 1020 or P/C BIOL 1023 or P/C BIOL 1027. Laboratory Course for BIOL 1020.

BIOL 1027 HONORS BIOLOGY (4) LEC. 3. LAB. 2. Pr. Honors College. Science Core. Introduction to the physical, chemical, and biological principles common to all organisms. Credit will not be given for both BIOL 1027 and BIOL 1000 or BIOL 1020.

BIOL 1030 ORGANISMAL BIOLOGY (3) LEC. 3. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027. Science Core. Principles and fundamentals of biology at the organismal level. Credit will not be given for both BIOL 1030 and BIOL 1010 or BIOL 1037.

BIOL 1031 ORGANISMAL BIOLOGY LABORATORY (1) LAB. 2. Pr. P/C BIOL 1030. Laboratory Course for BIOL 1030.

BIOL 1037 HONORS ORGANISMAL BIOLOGY (4) LEC. 3. LAB. 1. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027. Science Core. Principles and fundamentals of biology at the organismal level. Credit will not be given for both BIOL 1037 and BIOL 1010 or BIOL 1030.

BIOL 2100 PROFESSIONAL DEVELOPMENT (1) LEC. 1. Introduction to career opportunities and student development options for majors in biological sciences. Students will investigate post-graduation academic and professional options, develop writing skills by creating resumes and ePortfolios, and explore course and research options with the department. Biology majors only.

BIOL 2425 MARINE BIOLOGY (4) LEC. 4. Pr. BIOL 1030 or BIOL 1037. Departmental approval. The invertebrates, vertebrates and marine plants as communities with emphasis on local examples. Taught only at Dauphin Island Sea Lab. (DISL).

BIOL 2500 HUMAN ANATOMY AND PHYSIOLOGY I (3) LEC. 3. Pr. BIOL 1000 or BIOL 1020 or BIOL 1023 or BIOL 1027. Study of the structure and function of the human body. First half of two-part sequence with BIOL 2510, concentrating on tissues, muscle, and nervous system.

BIOL 2501 HUMAN ANATOMY AND PHYSIOLOGY I LABORATORY (1) LAB. 1. Pr. (BIOL 1000 or BIOL 1020 or BIOL 1027) and (P/C BIOL 2500 or P/C BIOL 2503 or P/C BIOL 2507). Lab course for study of the structure and function of the human body. First half of two-part sequence with BIOL 2510, concentrating on tissues, muscle, and nervous system.

BIOL 2507 HONORS HUMAN ANATOMY AND PHYSIOLOGY I (3) LEC. 3. Pr. Honors College. BIOL 1000 or BIOL 1020 or BIOL 1023 or BIOL 1027. Study of the structure and function of the human body. First half of two-part sequence with BIOL 2510, concentrating on tissues, muscle, and nervous system.

BIOL 2510 HUMAN ANATOMY AND PHYSIOLOGY II (3) LEC. 3. Pr. (BIOL 2500 or BIOL 2503 or BIOL 2507) and BIOL 2501. Study of the structure and function of the human body. Second half of two-part sequence with BIOL 2500/2501, concentrating on cardiovascular, respiratory, digestive, urinary, reproductive, and endocrine systems.

BIOL 2511 HUMAN ANATOMY AND PHYSIOLOGY II LABORATORY (1) LAB. 1. Pr. (BIOL 2500 or BIOL 2503 or BIOL 2507) and BIOL 2501 and (P/C BIOL 2510 or P/C BIOL 2517). Lab course for study of the structure and function of the human body. Second half of two-part sequence with BIOL 2500, concentrating on the individual organ systems.

BIOL 2517 HONORS HUMAN ANATOMY AND PHYSIOLOGY II (3) LEC. 3. Pr. Honors College. BIOL 2501 and BIOL 2500 or BIOL 2503 or BIOL 2507. Study of the structure and function of the human body. Second half of two-part sequence with BIOL 2500/2501, concentrating on cardiovascular, respiratory, digestive, urinary, reproductive, and endocrine systems.

BIOL 3000 GENETICS (3) LEC. 3. Pr. (BIOL 1020 or BIOL 1023 or BIOL 1027). An overview of theoretical principles of transmission, cytological, molecular, and population genetics. Problem solving will be emphasized. May count either BIOL 3000 or BIOL 3003 or AGRI 3000.

BIOL 3001 GENERAL GENETICS LABORATORY (1) LAB. 2. Pr. (BIOL 1020 or BIOL 1023 or BIOL 1027) and (P/C BIOL 3000 or P/C BIOL 3003). Laboratory provides practical experience in the areas of transmission, cytological, molecular, and population genetics. Problem solving is emphasized though analysis of simulated and real genetics data sets.

BIOL 3010 COMPARATIVE ANATOMY (4) LEC. 3. LAB. 1. Pr. BIOL 1030 or BIOL 1037. We will examine evolution of anatomical structures from early chordates through vertebrates (both living and extinct). Students will learn the main vertebrate taxa and how each anatomical system appears in them. Students will also examine the linkage of these systems through all vertebrates. The phylogenetic tree (evolutionary relationships of the vertebrates) will be the backbone on which we explore the diversity of anatomy. In lab, students will use and develop their integrative skills by examining the anatomy of a wide variety of organisms.

BIOL 3011 COMPARATIVE ANATOMY LABORATORY (1) LAB. 1. Pr. P/C BIOL 1030 or BIOL 1037. Laboratory to accompany Comparative Anatomy Lecture. This lab course will explore the diverse morphologies of vertebrates.

BIOL 3020 GENOMIC BIOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 3000 or BIOL 3003 or AGRI 3000. An overview of genes, genomes, and genomic and proteomic approaches and methodology. Application of principles of biology at the genomic level. Includes an introduction to bioinformatic approaches to genomic problems in a computer laboratory setting.

BIOL 3030 EVOLUTION AND SYSTEMATICS (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. An introduction to evolutionary processes, classification, of organisms and scientific nomenclature.

BIOL 3040 BIOLOGY OF MARINE SYSTEMS (3) LEC. 3. Pr. (BIOL 1020 or BIOL 1023 or BIOL 1027) and (BIOL 1030 or BIOL 1037). Introduction to marine systems and biological investigations of coastal, near shore and open ocean organisms and processes.

BIOL 3060 ECOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1020 or BIOL 1023 or BIOL 1027) and (BIOL 1030 or BIOL 1037). Interactions of organisms with their environments and characteristics of populations, communities, and ecosystems. 8 hours of Biology.

BIOL 3075 INTRODUCTION TO OCEANOGRAPHY (4) LEC. 4. Pr. (MATH 1150 or MATH 1153) and (CHEM 1110 or CHEM 1117 or CHEM 1030 or CHEM 1033) and PHYS 1500. Departmental approval. The physics, chemistry, biology, and geology of the oceans. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 3100 PLANT BIOLOGY (4) LEC. 4. LAB. 1. Pr. (BIOL 1030 or BIOL 1037) and (CHEM 1010 or CHEM 1030 or CHEM 1033 or CHEM 1110 or CHEM 1117). Introduction to the morphology, anatomy, physiology and classification of plants with laboratory.

BIOL 3200 GENERAL MICROBIOLOGY (3) LEC. 3. Pr. (BIOL 1020 or BIOL 1023 or BIOL 1027) and (CHEM 1030 or CHEM 1033 or CHEM 1110 or CHEM 1117) and P/C BIOL 3201. Introduction to the science of microbiology, emphasizing cell structure, systematics, growth, genetics, and the role in human affairs.

BIOL 3201 GENERAL MICROBIOLOGY LABORATORY (1) LAB. 2. Pr. (BIOL 1020 or BIOL 1023 or BIOL 1027) and (CHEM 1030 or CHEM 1033 or CHEM 1110 or CHEM 1117) and (P/C BIOL 3200 or P/C BIOL 3203 or P/C BIOL 3207). Fundamental laboratory techniques required to safely handle, enumerate, identify, and provide basic biochemical characterization of microorganisms.

BIOL 3207 HONORS GENERAL MICROBIOLOGY (3) LEC. 3. Pr. Honors College. CHEM 1030 or CHEM 1033 or CHEM 1110 or CHEM 1117 and BIOL 3201. and BIOL 1020 or BIOL 1023 or BIOL 1027. Introduction to the science of microbiology, emphasizing cell structure, systematics, growth, genetics, and the role in human affairs.

BIOL 4000 HISTOLOGY (3) LEC. 3. Pr. (BIOL 1030 or BIOL 1037) and BIOL 1031 and (BIOL 2500 or BIOL 2507 or BIOL 2510 or BIOL 2517 or BIOL 3010 or BIOL 5240). Coreq. BIOL 4001. Morphology and classification of tissues; arrangement of tissues in organs and systems of vertebrate animals.

BIOL 4001 HISTOLOGY LABORATORY (1) LAB. 3. Pr. (BIOL 1030 or BIOL 1037). Coreq. BIOL 4000. Laboratory investigation of the morphology and classification of tissues using prepared slides to reveal the arrangement of tissues in organs and organ systems of vertebrate animals.

BIOL 4010 INVERTEBRATE BIODIVERSITY (4) LEC. 3. LAB. 3. Pr. BIOL 1030 or BIOL 1037. Survey of the phyla of invertebrates with emphasis on morphology, anatomy, ecology, evolution, and systematics.

BIOL 4015 BIOLOGY AND CONSERVATION OF MARINE TURTLES (2) LEC. 15. LAB. 45. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027 and BIOL 1030 or BIOL 1037 and BIOL 3040. OR permission of Marine Biology coordinator. An introductory overview of the biology of marine turtles. Topics include: identification, distribution, nesting & migratory behavior, feeding, population biology, development, paleontology and conservation. Extensive laboratory and field studies of multiple species of turtles. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4020 VERTEBRATE BIODIVERSITY (4) LEC. 3. LAB. 3. Pr. BIOL 1030 or BIOL 1037. Ecology and evolution of living vertebrates of the world.

BIOL 4025 ECOLOGY OF THE FLORIDA EVERGLADES (2) LEC. 15. LAB. 45. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027 and BIOL 1030 or BIOL 1037 and BIOL 3040. Examines the natural history, ecology and evolution, and human impact on the Everglades. Includes intensive lectures and a more than 1-week long campsite based field trip in the Everglades. Multiple short trips to various locales within the Everglades. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4035 INTRODUCTION TO MARINE ANIMAL NEUROBIOLOGY (3) LEC. 15. LAB. 60. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027 and BIOL 1030 or BIOL 1037. The neuroanatomy and neurophysiology of marine invertebrates and vertebrates. Lectures and labs on neurons, glia, resting and action potentials, synapses and neurotransmitters, muscle contraction, sensorimotor integration; neurophysiological bases of behavior; labs include computer simulation of cellular neurobiology. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4045 MARINE MAMMAL BIOLOGY (4) LEC. 30. LAB. 60. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027 and BIOL 1030 or BIOL 1037 and BIOL 3040. Introduction to the evolution, taxonomy and classification, anatomy, physiology, behavior, conservation and management issues of marine mammals, including cetaceans, pinnipeds, mustelids, sirenians and the polar bear. Lab and field research methods used to study marine mammals will be covered. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4065 MARINE CONSERVATION BIOLOGY (4) LEC. 45. LAB. 30. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027 and BIOL 1030 or BIOL 1037 and (BIOL 3040 or BIOL 3060). Study of major threats to marine biodiversity as and potential solutions to the threats. Students discuss current topics in marine conservation biology and critically debate marine conservation literature. Field trips to impacted and pristine sites will demonstrate principles. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4085 HURRICANES OF THE GULF OF MEXICO (2) LEC. 30. An introductory survey with emphasis on Gulf of Mexico hurricanes. Hurricane features. Basic principles of the atmosphere, review of Gulf, Atlantic and Caribbean hurricanes, El Nino, changes in the Atlantic circulation, hurricane formation, development, features, movement, steering and forecasting. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4095 COASTAL BIRDS OF ALABAMA (2) LEC. 15. LAB. 30. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027 and BIOL 1030 or BIOL 1037 and BIOL 3040. Behavior and ecology-oriented avian field biology. Identification, banding, record/broadcast, other survey methods. Emphasis on behavioral ecology. Extensive field effort along the Gulf Coast and in the Mobile/Alabama/Tombigbee/Tensaw River Delta, other riparian environments, and salt marshes. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4100 CELL BIOLOGY (3) LEC. 3. Pr. CHEM 2030 or (CHEM 2070 or CHEM 2077) and (BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000) and (BIOL 1030 or BIOL 1037). Introduction to cellular structure and processes, including evolution, organization, physiology, molecular biology of cells, membranes, cytoplasm, and organelles as well as energy, transport, motility, cell division, signaling, transcription, and translation.

BIOL 4101 CELL BIOLOGY LABORATORY (2) LAB. 4. Pr. P/C BIOL 4100 or P/C BIOL 4103. Light/electron microscopy, cell structure, origins of life, centrifugation, protein/nucleic acid electrophoresis, and blotting, motility, DNA purification, chromatography, pH, fluorescence microscopy.

BIOL 4135 MARINE BEHAVIORAL ECOLOGY (4) LEC. 30. LAB. 60. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027 and BIOL 1030 or BIOL 1037 and BIOL 3040. Animal behavior in the context of the marine environment. Students study the ecological and evolutionary significance of behavior in a marine setting. Topics include principles of marine behavioral ecology, techniques for observing behavior, conducting behavior experiments, and data collection. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4150 HUMAN GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 or AGRI 3000 or FISH 3000 and BIOL 4100 and (CHEM 2080 or CHEM 2087). Study of the biological interaction of genes, effects of mutation and changes in gene frequency in human populations. Emphasis on molecular approach to study evolutionary changes in human gene pools.

BIOL 4410 VERTEBRATE DEVELOPMENT (5) LEC. 3. LAB. 4. Pr. BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000. Morphogenesis and organogenesis of frog, chick, pig, and human from a descriptive and analytical viewpoint.

BIOL 4415 SHARK AND RAY BIOLOGY (2) LEC. 15. LAB. 45. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027 and BIOL 1030 or BIOL 1037 and BIOL 3040. An introduction to the biology of sharks and rays with special emphasis on regional shark fauna and field technique. Topics: chondrichthyan origin, systematics, sensory biology, trophic ecology, reproductive biology, life history, ecology, fisheries and conservation. Extensive lab and field work. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 4445 SPECIAL PROBLEMS IN MARINE SCIENCE (1-6) AAB/LEC. Departmental approval. Individualized research-oriented experience. Taught at Gulf Coast Research Laboratory. Course may be repeated for a maximum of 6 credit hours.

BIOL 4455 MARINE INVERTEBRATE ZOOLOGY (6) LEC. 6. Departmental approval. Structure, classification, phyogenetics, larval development and functional processes of marine and estuarine invertebrates. Taught at Gulf Coast Research Laboratory.

BIOL 4475 MARINE ICHTHYOLOGY (6) LEC. 6. Departmental approval. Biology of the major piscine taxa in Mississippi Sound. Principles involved in classification and evolutionary relationships of these organisms. Taught at Gulf Coast Research Laboratory.

BIOL 4515 MARINE INVERTEBRATE ZOOLOGY (4) LEC. 4. Pr. At least 10 credits in BIOL 2000-8990. Departmental approval. The natural history, systematics, and morphology of marine invertebrates from the Gulf of Mexico; oriented toward a field and laboratory approach. Participation in extended field trips is part of the course. Taught at DISL.

BIOL 4525 DOLPHINS AND WHALES (2) LEC. 2. Pr. BIOL 1030 or BIOL 1037. Departmental approval. Classification, anatomy, and ecology of the cetaceans. Taught at DISL.

BIOL 4565 MARINE VERTEBRATE ZOOLOGY (4) LEC. 4. Pr. BIOL 1030 or BIOL 1037. Departmental approval. Systematics, zoogeography and ecology of marine fishes, reptiles, and mammals. Taught at DISL. May not be substituted for BIOL 4020.

BIOL 4575 MARINE ECOLOGY (4) LEC. 4. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027. Prerequisites: BIOL1020 or marine biology. Departmental approval. Experimental ecological theory and its application to interactions of marine organisms with each other and the environment. Includes laboratory, extensive field trip experience. Taught at DISL.

BIOL 4585 PLANKTON BIOLOGY (2) LEC. 15. LAB. 15. Pr. ((BIOL 1020 and BIOL 1021) or BIOL 1027) and ((BIOL 1030 and BIOL 1031) or BIOL 1037). Students will learn about the biology of all forms of plankton and the methods for their study including optical and chemical techniques. Students will understand the basic methods of study and be able to sight-identify major groups. Taught at Dauphin Island Sea Lab (DISL).

BIOL 4700 PEDAGOGY OF PEER-LED INSTRUCTION (1) LEC. 1. Departmental approval. This is the pedagogical training course designed for students serving as peer instructors who are interested in effective instructional strategies in the STEM disciplines. This course helps peer instructors integrate educational theory, pedagogy, content, and practice. Course meetings will focus on practical concerns as well as associated theoretical models. This is a seminar course where students are responsible for weekly readings, in-class discussions, reflections and projects which are coordinated with students' practice.

BIOL 4920 INTERNSHIP IN BIOLOGY (1-4) INT. SU. Application of biology concepts and skills in a professional experience. 12 credit hours in 3000-level or higher BIOL courses. Departmental approval. Student must be enrolled in a major offered by the Department of Biological Sciences. Course may be repeated for a maximum of 4 credit hours.

BIOL 4950 SENIOR SEMINAR (1) LEC. 1. Oral presentation and discussion of recent scientific publications from a selected area of biological sciences. One hour is required for all majors. Course may be repeated for a maximum of 3 credit hours.

BIOL 4967 HONORS SPECIAL PROBLEMS (1-3) DSL/LEC. Pr. Honors College. Departmental approval and membership in the Honor College. Course may be repeated for a maximum of 3 credit hours.

BIOL 4970 SPECIAL TOPICS (1-4) AAB. Departmental approval. Instruction and discussion in a selected current topic in Biological Sciences. Course may be repeated for a maximum of 8 credit hours.

BIOL 4980 UNDERGRADUATE RESEARCH (2-4) AAB/IND. Directed research in an area of specialty within the department. Course may be repeated for a maximum of 6 credit hours.

BIOL 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Undergraduate research and thesis. Course may be repeated for a maximum of 3 credit hours.

BIOL 4AA0 PROFESSIONAL DEVELOPMENT II (0) PRA. SU. Students enrolled in this course will complete the ePortfolio that they began developing as Freshmen, in BIOL 2100 - Professional Development I. Successfully designing and completing a professional ePortfolio will provide students with: 1. An opportunity to create a unified, polished and coherent educational and professional history of themselves. 2. A platform to organize their thinking about skills and experiences and the opportunity to connect them to the next step in career development. 3. A place to collect, present and reflect on evidence of professional development and growth during the undergraduate experience.

BIOL 5000 HUMAN CARDIOVASCULAR PHYSIOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 2510 or BIOL 2517 or BIOL 5240 or BIOL 5600. An in-depth exploration of molecular events and mechanisms governing heart and vascular function in health and disease. Laboratory will provide hands-on experiences with ECG, local blood flow, and case study examples.

BIOL 5020 EMBRYONIC DEVELOPMENT (3) LEC. 3. Pr. (BIOL 4100 or BIOL 4103). This course is designed to teach students the evolution of the molecular mechanisms used by developing embryos to form the adult body plan with a focus on the vertebrate model systems used to understand human developmental biology. In addition, the course will expose students to current research on these processes and the techniques used to carry out these studies.

BIOL 5050 FUNDAMENTALS OF BIOPHYSICS (2) LEC. 2. Pr. PHYS 1510 or BIOL 4100. Introduction to use of theories and methods of physics in biology, illustrated by discussion of organism size, metabolism, physiology, vision, hearing, cell cellular and molecular processesern medicine, physiology and molecular biology.

BIOL 5090 CONSERVATION BIOLOGY (3) LEC. 3. Pr. BIOL 3060. This course is an overview of ethical, economic and biological aspects of conservation biology at scales ranging from local to global. Credit will not be given for both BIOL 5090 and BIOL 6090.

BIOL 5110 PARASITOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 1030 or BIOL 1037 or BIOL 2500 or BIOL 2503 or BIOL 2507. Students must have Junior or Senior standing. Development, identification, host-parasite relationships, and medical significance of parasitic protozoa, helminthes, and arthropods that infect humans, domestic animals and wildlife. May count either BIOL 5110 or LABT 4050.

BIOL 5120 SYSTEMATIC BOTANY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037). Classification, nomenclature, distribution, systematics, and evolution of vascular plants.

BIOL 5130 ADVANCED PLANT PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3100 and (CHEM 2030 or CHEM 2080 or CHEM 2087). Physiological and biochemical processes affecting plant growth and development including water relations, photosynthesis, respiration, and hormones.

BIOL 5131 ADVANCED PLANT PHYSIOLOGY LABORATORY (1) LAB. 3. Pr. BIOL 3100 and (CHEM 2081 or BIOL 5130). Laboratory exercises in plant physiology. Including water relations, metabolism and growth, and development.

BIOL 5140 PLANT ECOLOGY (4) LEC. 3. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Exploration of ecological interactions between plants and their environment. Field trips emphasize Southeastern habitats/plant examples. Includes 3-day weekend field trip.

BIOL 5150 POPULATION AND COMMUNITY ECOLOGY (3) LEC. 3. Pr. BIOL 3060. Quantitative study of natural population and ecological communities. Selected topics include density-dependent population growth, life-history theory, mark-recapture analysis, eco-evolutionary dynamics, and species interactions especially how they relate to questions of species distributions in time and space.

BIOL 5160 FIELD BIOLOGY AND ECOLOGY (3-15) LEC. 3. Prereq. 15 hours of biology. Intensive classroom and field studies of an area outside Alabama. Course may be repeated for a maximum of 15 credit hours.

BIOL 5190 CELL AND MOLECULAR SIGNAL TRANSDUCTION (3) LEC. 3. Pr. BIOL 4100 and BIOL 5220. Study of cellular communication and regulation with emphasis on integration between cellular, molecular, genetic, and biochemical approaches.

BIOL 5200 CLINICAL MICROBIOLOGY (5) LEC. 3. LAB. 4. Pr. (BIOL 3200 or BIOL 3203 or BIOL 3207) and BIOL 3201. Isolation, cultivation, identification, classification and pathogenesis of infectious agents with emphasis on bacteria; includes clinical materials, Eubacteria, Mycoplasmata, Rickettsiae and Spirochetes. May count either BIOL 5200 or BIOL 6200.

BIOL 5210 MICROBIAL PHYSIOLOGY (3) LEC. 3. Pr. (BIOL 3200 or BIOL 3207 or BIOL 3203) and BIOL 3201 and (CHEM 2030 or CHEM 2080 or CHEM 2087). General physiology of microbial cells emphasizing fermentation, respiration, photosynthesis, nitrogen fixation, cell wall synthesis, membranes, and macromolecular synthesis.

BIOL 5220 INTRODUCTORY MOLECULAR GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000) and (BIOL 3200 or BIOL 3207 or BIOL 3203) and BIOL 3201. Principles of gene expression including replication, transcription, and translation; structure and regulation of genes; concepts and techniques in recombinant DNA.

BIOL 5230 VIROLOGY (3) LEC. 3. Pr. (P/C BIOL 5220 or P/C BIOL 6220) or (P/C BIOL 5260 or P/C BIOL 6260). Biology of viruses, including structure, entry, replication, assembly and release, pathogenesis, and epidemiology of viral infections. May count BIOL 5230 or BIOL 6230.

BIOL 5240 ANIMAL PHYSIOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 4100 or (CHEM 2030 or CHEM 2070 or CHEM 2077). General overview of the function of the major systems in animals, including evolution and adaptation to specific environments.

BIOL 5250 MICROBIAL EVOLUTION AND DIVERSITY (4) LEC. 3. LAB. 2. Pr. BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000 and (BIOL 3200 or BIOL 3207 or BIOL 3203) and BIOL 3201. Introduction to microbial evolutionary history and theory, and survey of microbial diversity. Credit will not be given for both BIOL 5250 and BIOL 6250.

BIOL 5260 PROKARYOTIC MOLECULAR GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000 and (BIOL 3200 or BIOL 3207 or BIOL 3203) and BIOL 3201. Molecular principles of bacterial genetics including gene structure, genetic organization, regulation of gene expression, acquisition and loss of genes leading to microbial evolution. Credit will not be given for both BIOL 5260 and BIOL 6260.

BIOL 5270 HOST-MICROBE INTERACTIONS (3) LEC. 3. Pr. (BIOL 3200 or BIOL 3207 or BIOL 3203) and (BIOL 3201) and (BIOL 5220 or BIOL 5260). This course will explore interactions between microbes and their hosts including plants, insects and animals. Credit will not be given for both BIOL 5270 and 6270.

BIOL 5280 GENETHICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000. Twenty-first century biotechnology and related ethical issues, including human cloning, stem cells, neuroenhancement, age retardation, genetic enhancement, and nanobiology. May count BIOL 5280 or 6280.

BIOL 5290 CASE STUDIES IN INFECTION AND IMMUNITY (3) LEC. 3. Pr. BIOL 5500. This course is designed to enrich student understanding of infection and immunity in the context of clinical presentations. Students will learn to use deductive reasoning to narrow down potential causes of symptoms and then use scientific literature to gain a detailed understanding of the mechanisms underlying disease. Cases covered will include infectious disease, immunodeficiency, neoplasms and/or autoimmunity.

BIOL 5300 PLANT ANATOMY AND DEVELOPMENT (4) LEC. 3. LAB. 4. Pr. BIOL 3100. Investigation of the various levels of plant organization from subcellular to organ through use of light and scanning electron microscopes.

BIOL 5320 PLANT GENE EXPRESSION (3) LEC. 3. Pr. BIOL 3100. Departmental approval. Genetic expression of genetic elements in plants from the recent literature.

BIOL 5330 DEVELOPMENTAL GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 or AGRI 3000 or FISH 3000. Study of the genetics and genetic mechanisms behind developmental processes occurring in a range of species. May count either BIOL 5330 or BIOL 6330.

BIOL 5340 PROTOZOOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000. Life history, identification, cell biology, and evolution of free-living and parasitic protozoa of the major groups. Laboratory includes techniques for microscopy.

BIOL 5350 BEHAVIORAL ECOLOGY (3) LEC. 3. Pr. (BIOL 3030 or BIOL 3033) and BIOL 3060. Evolution of behaviors via natural, sexual, and kin selections; evolutionary influences on social groups, mating systems, cooperative breeding, and other interactions.

BIOL 5370 MOLECULAR ECOLOGY (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000) and BIOL 3060. General overview of the concepts and techniques regarding the application of molecular variation in answering questions pertaining to populations and communities of organisms. Credit will not be given for both BIOL 5370 and BIOL 6370.

BIOL 5380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 4. Pr. BIOL 1030 or BIOL 1037. Survey of the biodiversity of world and local fishes with an overview of ecology, behavior, biology, and conservation of fishes.

BIOL 5425 MARINE BOTANY (4) LEC. 4. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027. Departmental approval. Pr. BIOL 1020 or equiv. Survey of microscopic and macroscopic algae, salt marsh vegetation, sea grasses, mangroves and maritime forests with regard to identification, distribution, structure, ecology and physiology. Field trips and laboratory work. Taught at DISL.

BIOL 5440 CLIMATE CHANGE PHYSIOLOGY AND EVOLUTION (3) LEC. 3. LAB. 0. This class investigates on the basic mechanisms of climate change and its impact on living organisms, focusing on their physiological, evolutionary, behavioral and molecular responses. Special interest is given to plants and marine organisms.

BIOL 5500 IMMUNOLOGY (3) LEC. 3. Pr. (BIOL 3200 or BIOL 3203 or BIOL 3207) and BIOL 3201 and (BIOL 3000 or BIOL 3003 or BIOL 3020). The cellular and molecular basis of the immune response, including antigen presentation, immunogenetics, effector mechanisms, and medical immunology. May count either BIOL 3500 or BIOL 5500.

BIOL 5501 IMMUNOLOGY LAB (2) LAB. 2. Pr. P/C BIOL 5500 or P/C BIOL 3500. Techniques illustrating principles of antigen-antibody interactions and their application in immunoassays, identification of leukocytes, cellular interactions, and antibody production.

BIOL 5521 GENE EXPRESSION AND RECOMBINANT DNA LABORATORY (2) LEC. 2. LAB. 4. Pr. P/C BIOL 5220 or P/C BIOL 5260. Laboratory experiences demonstrating concepts and techniques in recombinant DNA.

BIOL 5550 NANOMEDICINE (2) LEC. 2. Pr. PHYS 1510 and CHEM 2080 and (P/C BCHE 5180 or P/C BIOL 4100). Nanomedicine is a branch of medicine that applies the knowledge and tools of nanotechnology to the prevention and treatment of disease. It involves the use of nanoscale materials, such as biocompatible nanoparticles, nanorobots and nanosensors, for diagnosis, drug delivery, and sensing in living organisms.

BIOL 5560 RNA IN BIOMEDICINE (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003. This course introduces the basic and novel types and functions of RNAs, as well as the integration of these molecules in biomedical contexts. Students will learn about the 'RNA World' theory, the diverse roles of RNA in cellular processes, and pathogenesis. Technological approaches to RNA research will be covered, as well as the application of this research to the diagnosis and therapy of genetic diseases.

BIOL 5600 BIOMEDICAL PHYSIOLOGY (5) LEC. 4. LAB. 3. Pr. ((BIOL 1030 or BIOL 1037) or ((BIOL 2500 or BIOL 2507) and BIOL 2501)) and (CHEM 2030 or CHEM 2070 or CHEM 2077). An in-depth investigation into the physiology of major mammalian organ systems, with a special focus on their biomedical functions and applications.

BIOL 5650 ANIMAL BEHAVIOR (3) LEC. 3. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Animal behaviors, analysis of their adaptive value, development, and evolution.

BIOL 5660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 3200 or BIOL 3207 or BIOL 3203) and BIOL 3201. Introduction to basic and applied microbiology in food, including how bacteria, viruses, parasites, yeasts and mold affect and in turn are affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6600, or BIOL 6600.

BIOL 5700 APPLIED AND ENVIRONMENTAL MICROBIOLOGY (4) LEC. 3. LAB. 2. Pr. (BIOL 3200 or BIOL 3207 or BIOL 3203) and BIOL 3201. Introduction to the ecology, systematics, interrelationships, and role of micro-organisms in geochemical cycles, bioremediation and pharmaceutical production.

BIOL 5740 HERPETOLOGY (4) LEC. 3. LAB. 3. Ecology and evolution of living amphibians and reptiles of the world.

BIOL 5750 ORNITHOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 3030 or BIOL 3033) and BIOL 3060. Taxonomy, evolution, ecology, and behavior of birds.

BIOL 5760 MAMMALOGY (4) LEC. 3. LAB. 3. Characteristics, origins, ecology, behavior, reproduction, physiology, and diversity of mammals. Labs include survey or current literature, field trips, data analysis, and report preparation.

BIOL 5800 INTRODUCTION TO COMPUTATIONAL BIOLOGY (3) LEC. 2. LAB. 1. Pr. STAT 2510 or STAT 2513. Overview of computational approaches to biological data analysis. Additionally, students will learn basic statistical and graphical analysis. May count either BIOL 5800 or BIOL 6800.

BIOL 5850 FUNCTIONAL GENOMICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or BIOL 3020 or FISH 3000 or AGRI 3000) and BIOL 4100 and BIOL 5800. An active-learning course to study the functional aspects of the genome emphasizing gene regulation and functional genetic variation. May count either BIOL 5850 or BIOL 6850.

BIOL 5860 BIOINFORMATICS AND GENOME ANALYSIS (3) LEC. 2. LAB. 1. Pr. (BIOL 3000 or BIOL 3003 or BIOL 3020 or FISH 3000 or AGRI 3000) and BIOL 5800. Overview of informatic approaches to biological data analysis. Students will use the scientific method to investigate key questions in model organisms through emerging 'omics fields. May count either BIOL 5860 or BIOL 6860.

BIOL 6020 EMBRYONIC DEVELOPMENT (3) LEC. 3. Pr. BIOL 4100 or BIOL 4103. Consideration of induction, constancy of the genome, pathfinding by migrating cells, morphogenetic movements, and other developmental processes.

BIOL 6050 FUNDAMENTALS OF BIOPHYSICS (2) LEC. 2. Pr. PHYS 1510 or BIOL 4100. Introduction to use of theories and methods of physics in biology, illustrated by discussion of organism size, metabolism, physiology, vision, hearing, cell cellular and molecular processesern medicine, physiology and molecular biology.

BIOL 6090 CONSERVATION BIOLOGY (3) LEC. 3. Pr. BIOL 3060. This course is an overview of ethical, economic and biological aspects of conservation biology at scales ranging from local to global. Credit will not be given for both BIOL 5090 and BIOL 6090.

BIOL 6110 PARASITOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) or (BIOL 2500 or BIOL 2503) and BIOL 2501. Development, identification, host-parasite relationships, and medical significance of parasitic protozoa, helminthes, and arthropods that infect humans, domestic animals, and wildlife.

BIOL 6120 SYSTEMATIC BOTANY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037). Classification, nomenclature, distribution, systematics, and evolution of vascular plants.

BIOL 6130 ADVANCED PLANT PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3100 and (CHEM 2030 or CHEM 2080 or CHEM 2087). Physiological and biochemical processes affecting plant growth and development including water relations, photosynthesis, respiration, and hormones.

BIOL 6131 ADV PLANT PHYSIOLOGY LAB (1) LAB. 3. Pr. BIOL 3100 and (CHEM 2081 or CHEM 2088). Laboratory exercises in plant physiology. Including water relations, metabolism, and growth and development.

BIOL 6140 PLANT ECOLOGY (4) LEC. 3. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Departmental approval. Exploration of ecological interactions between plants and their environment. Field trips emphasize Southeastern habitats/plant examples. Includes 3-day weekend field trip.

BIOL 6150 POPULATION AND COMMUNITY ECOLOGY (3) LEC. 3. Pr. BIOL 3060. Quantitative study of natural population and ecological communities. Selected topics include density-dependent population growth, life-history theory, mark-recapture analysis, eco-evolutionary dynamics, and species interactions especially how they relate to questions of species distributions in time and space.

BIOL 6190 CELL AND MOLECULAR SIGNAL TRANSDUCTION (3) LEC. 3. Pr. BIOL 4100 and BIOL 5220 and (CHEM 2080 or CHEM 2087). Study of cellular communication and regulation with emphasis on integration between cellular, molecular, genetic, and biochemical approaches.

BIOL 6200 CLINICAL MICROBIOLOGY (5) LEC. 3. LAB. 4. Pr. (BIOL 3200 or BIOL 3203) and BIOL 3201. Isolation, cultivation, identification, classification and pathogenesis of infectious agents with emphasis on bacteria; includes clinical materials, Eubacteria, Mycoplasmata, Rickettsiae and Spirochetes. May count either BIOL 5200 or BIOL 6200.

BIOL 6210 MICROBIAL PHYSIOLOGY (3) LEC. 3. Pr. (BIOL 3200 or BIOL 3203) and BIOL 3201 and (CHEM 2030 or CHEM 2080 or CHEM 2087). General physiology of microbial cells emphasizing fermentation, respiration, photosynthesis, nitrogen fixation, cell wall synthesis, membranes, and macromolecular synthesis.

BIOL 6220 INTRODUCTORY MOLECULAR GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or AGRI 3000) and (BIOL 3200 or BIOL 3203) and BIOL 3201. Advanced principles of gene expression including replication, transcription and translation; structure and regulation of genes; detailed concepts and techniques in recombinant DNA. Credit will not be given for both BIOL 6220 and CMBL 6220.

BIOL 6230 VIROLOGY (3) LEC. 3. Pr. (P/C BIOL 5220 or P/C BIOL 6220) or (P/C BIOL 5260 or P/C BIOL 6260). Biology of viruses, including structure, entry, replication, assembly and release, pathogenesis, and epidemiology of viral infections. May count BIOL 5230 or BIOL 6230.

BIOL 6240 ANIMAL PHYSIOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 4100 or CHEM 2030 or CHEM 2070 or CHEM 2077. General overview of the function of the major systems in animals, including evolution and adaptation to specific environments.

BIOL 6250 MICROBIAL EVOLUTION AND DIVERSITY (4) LEC. 3. LAB. 2. Pr. (BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000) and (BIOL 3200 or BIOL 3203) and BIOL 3201. Introduction to microbial evolutionary history and theory, and survey of microbial diversity. Credit will not be given for both BIOL 5250 and BIOL 6250.

BIOL 6260 PROKARYOTIC MOLECULAR GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000) and (BIOL 3200 or BIOL 3203) and BIOL 3201. Molecular principles of bacterial genetics including gene structure, genetic organization, regulation of gene expression, acquisition and loss of genes leading to microbial evolution. Course will not be given for both BIOL 5260 and BIOL 6260.

BIOL 6270 HOST-MICROBE INTERACTIONS (3) LEC. 3. Pr. (BIOL 3200 or BIOL 3203) and (BIOL 3201) and (BIOL 5200 or BIOL 5260). This course will explore interactions between microbes and their hosts including plants, insects and animals. Credit will not be given for both BIOL 5270 and BIOL 6270.

BIOL 6290 CASE STUDIES IN INFECTION AND IMMUNITY (3) LEC. 3. Pr. BIOL 6500. This course is designed to enrich student understanding of infection and immunity in the context of clinical presentations. Students will learn to use deductive reasoning to narrow down potential causes of symptoms and then use scientific literature to gain a detailed understanding of the mechanisms underlying disease. Cases covered will include infectious disease, immunodeficiency, neoplasms and/or autoimmunity.

BIOL 6300 PLANT ANATOMY AND DEVELOPMENT (4) LEC. 2. LAB. 4. Pr. BIOL 6130. The study of the structure and ontogeny of plant cells, tissues, and organs. Fall.

BIOL 6320 PLANT GENE EXPRESSION (3) LEC. 3. Departmental approval. Genetic expression of genetic elements in plants from the recent literature. Credit will not be given for both BIOL 6320 and CMBL 6320.

BIOL 6330 DEVELOPMENTAL GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000. Study of the genetics and genetic mechanisms behind developmental processes occurring in a range of species. May count either BIOL 6330 or BIOL 5330.

BIOL 6340 PROTOZOOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000. Life history, identification, cell biology, and evolution of free-living and parasitic protozoa of the major groups. Laboratory includes techniques for microscopy.

BIOL 6350 BEHAVIORAL ECOLOGY (3) LEC. 3. Pr. (BIOL 3030 or BIOL 3033) and BIOL 3060. Evolution of behaviors via natural, sexual, and kin selections; evolutionary influences on social groups, mating systems, cooperative breeding, and other interactions.

BIOL 6370 MOLECULAR ECOLOGY (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000) and BIOL 3060 and BIOL 6800. General overview of the concepts and techniques regarding the application of molecular variation in answering questions pertaining to populations and communities of organisms. Credit will not be given for both BIOL 5370 and BIOL 6370.

BIOL 6380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 4. Pr. BIOL 1030 or BIOL 1037. Survey of the biodiversity of world and local fishes with an overview of ecology, behavior, biology, and conservation of fishes.

BIOL 6440 CLIMATE CHANGE PHYSIOLOGY AND EVOLUTION (3) LEC. 3. LAB. 0. Pr. BIOL 1030. This class investigates on the basic mechanisms of climate change and its impact on living organisms, focusing on their physiological, evolutionary, behavioral and molecular responses. Special interest is given to plants and marine organisms.

BIOL 6500 IMMUNOLOGY (3) LEC. 3. Pr. (BIOL 3200 or BIOL 3203) and BIOL 3201 and (BIOL 3000 or BIOL 3003 or FISH 3000 or BIOL 3020) and P/C BIOL 6501. The cellular and molecular basis of the immune response, including antigen presentation, immunogenetics, effector mechanisms, and medical immunology.

BIOL 6501 IMMUNOLOGY LABORATORY (2) LAB. 4. Pr. P/C BIOL 5500 or P/C BIOL 6500. Techniques illustrating principles of antigen-antibody interactions and their application in immunoassays, identification of leukocytes, cellular interactions, and antibody production.

BIOL 6521 GENE EXPRESSION AND RECOMBINANT DNA LABORATORY (2) LEC. 2. LAB. 4. Pr. P/C BIOL 5220 or BIOL 6220 or BIOL 5260 or BIOL 6260. Laboratory experiences demonstrating concepts and techniques in recombinant DNA.

BIOL 6525 MARINE BEHAVIORAL ECOLOGY (4) LEC. 3. LAB. 3. Study of animal behavior and the influence by and interaction with the environment and the ecological and evolutionary significance of these behaviors. Vertebrate and Invertebrate Zoology required. Taught at DISL.

BIOL 6550 NANOMEDICINE (2) LEC. 2. Pr. PHYS 1510 and CHEM 2080 and BCHE 5180. Nanomedicine is a branch of medicine that applies the knowledge and tools of nanotechnology to the prevention and treatment of disease. It involves the use of nanoscale materials, such as biocompatible nanoparticles, nanorobots and nanosensors, for diagnosis, drug delivery, and sensing in living organisms.

BIOL 6560 RNA IN BIOMEDICINE (3) LEC. 3. This course introduces the basic and novel types and functions of RNAs, as well as the integration of these molecules in biomedical contexts. Students will learn about the ‘RNA World’ theory, the diverse roles of RNA in cellular processes, and pathogenesis. Technological approaches to RNA research will be covered, as well as the application of this research to the diagnosis and therapy of genetic diseases.

BIOL 6600 BIOMEDICAL PHYSIOLOGY (5) LEC. 4. LAB. 3. Pr. ((BIOL 1030 or BIOL 1037) or (BIOL 2500 and BIOL 2501)) and (CHEM 2030 or CHEM 2070 or CHEM 2077). An in-depth investigation into the physiology of major mammalian organ systems, with a special focus on their biomedical functions and applications.

BIOL 6650 ANIMAL BEHAVIOR (3) LEC. 3. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Animal behaviors, analysis of their adaptive value, development, and evolution.

BIOL 6660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 3200 or BIOL 3203) and BIOL 3201. Introduction to basic and applied microbiology in food, including how bacteria, viruses, parasites, yeasts and mold affect and in turn are affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6600, or BIOL 6600.

BIOL 6700 APPLIED AND ENVIRONMENTAL MICROBIOLOGY (4) LEC. 3. LAB. 2. Pr. (BIOL 3200 or BIOL 3203) and BIOL 3201. An advanced treatment of bacteria comprising the Kingdom Prokaryotae, emphasizing ecology, systematics, interrelationships, geochemical cycles, and bioremediation.

BIOL 6740 HERPETOLOGY (4) LEC. 3. LAB. 3. Ecology and evolution of living amphibians and reptiles of the world.

BIOL 6750 ORNITHOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 3030 or BIOL 3033) and BIOL 3060. Departmental approval. An intensive investigation of the current literature and relevant research dealing with birds.

BIOL 6760 MAMMALOGY (4) LEC. 3. LAB. 3. Characteristics, origins, ecology, behavior, reproduction, physiology, and diversity of mammals. Labs include survey or current literature, fieldtrips, data analysis and report preparation.

BIOL 6800 INTRODUCTION TO COMPUTATIONAL BIOLOGY (3) LEC. 2. LAB. 1. Pr. STAT 2510 or STAT 2513. Overview of computational approaches to the analysis of biological data. Students will learn basic statistical and graphical analysis. May count either BIOL 5800 or BIOL 6800.

BIOL 6850 FUNCTIONAL GENOMICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or BIOL 3020 or FISH 3000 or AGRI 3000) and BIOL 4100 and BIOL 5800. Active-learning course to study the functional aspects of the genome emphasizing gene regulation and functional genetic variation. May count either BIOL 5850 or BIOL 6850.

BIOL 6860 BIOINFORMATICS AND GENOME ANALYSIS (3) LEC. 2. LAB. 1. Pr. (BIOL 3000 or BIOL 3003 or BIOL 3020 or FISH 3000 or AGRI 3000) and BIOL 5800. Overview of informatic approaches to biological data analysis. Students will use the scientific method to investigate key questions in model organisms through emerging 'omics fields. May count either BIOL 5860 or BIOL 6860.

BIOL 7035 MARINE ANIMAL NEUROBIOLOGY (4) LEC. 30. LAB. 60. Pr. BIOL 1020 or BIOL 1023 and BIOL 1021 and BIOL 1030 and BIOL 1031 and BIOL 4100. Biophysical neurobiology of marine invertebrates and vertebrates. Lectures and labs on neurons, glia, resting and action potentials, synapses, neurotransmitters, muscle contraction, sensorimotor integration, computer simulation and extensive technical methods: extra-, intracellular, patch recording, molecular neuroimmunology, confocal fluorescence microscopy. Evening/Saturday classes.

BIOL 7075 INTRODUCTION TO OCEANOGRAPHY (4) LEC. 30. LAB. 60. Pr. MATH 1150 or MATH 1153 and CHEM 1030 or CHEM 1033 or CHEM 1110 or CHEM 1117 and PHYS 1500 and BIOL 3040. An in-depth examination of the physics, chemistry, geology and biology of the oceans. Lectures cover the interrelationships of these components to each other. Field and lab work will introduce students to research on oceanographic processes of the Gulf of Mexico. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 7170 POPULATION GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000. Examination of the theories relating to maintenance of variation in natural populations of plants and animals.

BIOL 7180 SCRIPTING FOR BIOLOGISTS (3) LEC. 2. LAB. 1. Pr. BIOL 6800 and STAT 7000. or Instructor approval. A hands-on course to teach students concepts, applications, and best practices of utilizing computer scripting languages in the life sciences.

BIOL 7200 EVOLUTIONARY BIOLOGY (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000) and (BIOL 3200 or BIOL 3203) and BIOL 3201. Topics of current interest in evolution. Readings and presentation required.

BIOL 7210 EVOLUTIONARY ECOLOGY (3) LEC. 3. The Evolutionary Ecology research paradigm is a key approach to the study of behavioral, evolutionary, and ecological processes in the context of realistic or natural environmental settings. We will investigate a number of current "hot" research topics in Evolutionary Ecology, discuss the leading hypotheses being developed and how they are cast as statistica.

BIOL 7250 PRACTICAL DATA ANALYSIS AND COMPUTATION FOR THE LIFE SCIENCES (3) LEC. 2. LAB. 3. Pr. STAT 7020 or WILD 7150. or equivalent; or permission of the instructor. Data from the life sciences and advanced statistical techniques for data analyses and computation are brought together through a cross-fertilization of graduate student students in the life sciences, statistics, and mathematics. Focus on production of publication-quality research on student-identified projects. May count either BIOL 7250 or STAT 7250.

BIOL 7290 EVOLUTIONARY GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003 or FISH 3000 or AGRI 3000) and BIOL 6170. Departmental approval. The role of population processes as mechanisms for evolution; and evolution at the molecular level. Credit will not be given for both BIOL 7290 and CMBL 7290.

BIOL 7440 ADVANCED CELL BIOLOGY (3) LEC. 3. Pr. BIOL 4100. Examination of current areas of research in cell and developmental biology by directed reading and discussion. Credit will not be given for both BIOL 7440 and CMBL 7440.

BIOL 7470 GENOME EVOLUTION (3) LEC. 3. Provides a broad evolutionary perspective on the origin, composition, and architecture of eukaryotic genomes. Students will participate in a literature-driven discussion format and will complete weekly writing assignments.

BIOL 7485 ADVANCED MARINE ECOLOGY (4) LEC. 2. LAB. 2. Pr. (BIOL 1020 or BIOL 1023) and BIOL 1021 and BIOL 1030 and BIOL 1031 and (BIOL 3060 or BIOL 3040). An advanced course open only to MS or PhD students. Interactions between marine organisms and the environment. In-depth discussion of ecological theory with emphasis on the latest research, using extensive reference to the literature. Lecture, lab and overnight field trips.

BIOL 7490 PHYSIOLOGICAL ECOLOGY (3) LEC. 3. Pr. BIOL 3060. A study of the physiological adaptations that allow animals to survive in unusual environments. A course in ecology required.

BIOL 7500 STRESS PHYSIOLOGY (2) LEC. 2. Pr. (BIOL 4100 or BIOL 5240 or BIOL 5600). This course is a discussion-based course focusing on physiological stress responses at various levels of organization and communication among them, from molecules, cells, organ, to whole organism.

BIOL 7510 NATURAL HISTORY MUSEUM PRACTICUM (1) LAB. 3. Practical methods in natural history museum curation. Students will assist in curating collections at the Auburn University Museum of Natural History. Course may be repeated for a maximum of 4 credit hours.

BIOL 7525 MARINE INVERTEBRATES (4) LEC. 2. LAB. 2. Morphology, natural history, physiology, evolution and ecology. Students examine modern literature and develop an advanced presentation on invertebrate biology involving problem solving in an area such as sensory biology, molecular evolution or management. Term paper, classroom presentation and lecture.

BIOL 7540 PROFESSIONAL ASPECTS OF BIOLOGY (3) LEC. 3. Departmental approval. Instruction on practical aspects of a career in biological sciences.

BIOL 7550 PHYSIOLOGICAL ECOLOGY OF REPRODUCTION (3) LEC. 3. This course focuses on physiological ecology of reproduction by identifying key physiological mechanisms linking the environmental change, reproductive constraints, and reproductive performance and describing how variation in reproductive performance are impacted by ecological and evolutionary processes.

BIOL 7800 COMPUTATIONAL BIOLOGY COLLOQUIUM (2) LEC. 0. LAB. 0, LEC. 0. Pr. (BIOL 7180) or (PLPA 6820). Oral presentations and discussions of recent scientific publications, challenges, and opportunities within the field of computational biology. Hands-on experience in data analysis and presentation.

BIOL 7880 MITONUCLEAR ECOLOGY (2) LEC. 2. Pr. BIOL 3030. This course will explore the implications of the necessity of mitonuclear coadaptation for the evolution of quintessential eukaryotic characteristics, including sex and two sexes, a sequestered germ line, senescence, discrete species, mate choice, and adaptation. Permission of instructor may be needed.

BIOL 7950 MASTERS THESIS SEMINAR (1) LEC. 1. SU. Departmental approval. Oral presentation and discussion of research in the field of specialization. Course may be repeated for a maximum of 2 credit hours.

BIOL 7960 SPECIAL PROBLEMS (1-4) DSL/LEC. Pr. P/C BIOL 6220. Oral presentation and discussion of recent scientific publications from a selected area molecular biology. Credit will not be given for both BIOL 7960 and CMBL 7960. Course may be repeated for a maximum of 4 credit hours.

BIOL 7970 SPECIAL TOPICS (1-4) AAB. Departmental approval. Instruction and discussion in a selected current topic in botany, microbiology, molecular biology, or zoology. A different topic for advanced study will be selected each semester this course is offered. Course may be repeated for a maximum of 8 credit hours.

BIOL 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topic.

BIOL 8950 DOCTORAL SEMINAR (1) SEM. 1. SU. Oral presentation and discussion of research in the field of specialization. Course may be repeated for a maximum of 3 credit hours.

BIOL 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topic.

Biomaterials and Packaging - BIOP

Courses

BIOP 1390 INTRODUCTION TO FOREST PRODUCTS AND PACKAGING (3) LEC. 2. LAB. 4. Basic properties of wood and their impact on the manufacture of forest products. Identification of important products and woods.

BIOP 2120 FRONTIERS FOR SUSTAINABLE BIOMATERIALS (3) LEC. 3. Introduction to the sustainability of biomaterials and resource efficiency to produce materials, food, energy and services, that decrease society's dependency on fossil fuels.

BIOP 2140 FUNDAMENTALS OF PACKAGING TECHNOLOGY (3) LEC. 3. An introduction into basic concepts and theories of packaging design, manufacturing, characterization, and development. The packaging materials covered in this course include paper and paperboard, metal, and plastics.

BIOP 3391 FOREST AND MANUFACTURING OPERATIONS (1) LEC. .5. LAB. 2. Introduction to basic field operations in Forestry including site preparation and planting, harvesting and primary manufacturing processes relative to specific geographic locations.

BIOP 3840 SUSTAINABLE PACKAGING CONCEPTS (3) LEC. 3. Examines the performance and durability of products and packaging, including sustainability of raw materials and society energy needs, the use of sustainable materials to meet these needs and reduce impact on environment, and associated methods.

BIOP 4060 ECONOMICS OF SUSTAINABLE BIOMATERIALS AND PACKAGING (3) LEC. 3. Pr. ECON 2020. The course will familiarize students with the economic theory of resource allocation in a market economy as applied to the specific sustainable biomaterials and packaging industry. This will include; production and consumption theory, engineering and financial decision making.

BIOP 4080 BUSINESS MANAGEMENT FOR SUSTAINABLE BIOMATERIALS (3) LEC. 3. Introduction to key forest products and sustainable biomaterials business management topics including supply chain management policies and limitations specific to the forest products, sustainable biomaterials and packaging industry.

BIOP 4360 SUSTAINABLE BIOMATERIALS TRADE AND MARKETING (3) LEC. 3. Covers the general structure of the sustainable bioproducts/biomaterials industry and the major product markets. Students will be provided an overview of structure of both traditional forest products as well as emerging sustainable biomaterial industry segments.

BIOP 4400 SUSTAINABLE BIOMATERIALS & PRODUCT DEVELOPMENT (4) LEC. 4. Pr. BIOP 5080 or BIOP 5800. Examines the stages of product development, providing a blend of economics, engineering, marketing, and sustainability to design a product that meets the needs of a chosen/participating customer.

BIOP 4410 SUSTAINABLE BIOMATERIALS & PRODUCT DEVELOPMENT II (2) LAB. 2. Pr. BIOP 4400. Continues and completes the final stages of product development (initiated in BIOP 4400), providing a blend of economics, engineering, marketing, and sustainability to finalize the product design that meets the needs of a chosen/participating customer.

BIOP 4700 PACKAGING FOR DISTRIBUTION SYSTEMS (3) LEC. 3. Pr. BIOP 3000. This course explores the role of sustainable raw materials in packaging for distribution systems. Students will learn about the properties, design, and optimization of renewable and recyclable materials to ensure product protection, efficiency, and environmental responsibility throughout the supply chain. Emphasis is placed on material selection, performance in distribution environments, and innovative solutions for sustainable packaging.

BIOP 4920 INTERNSHIP IN SUSTAINABLE PACKAGING (4) INT. 4. Pr. FOWS 3850. Supervised work experience in a Sustainable Packaging (BIOP) setting for a minimum of 50 hours/credit hour. BIOP major, 2.2 cumulative GPA, and senior standing required. Department approval.

BIOP 5050 BIOMASS PROCESSING CHEMISTRY (3) LEC. 3. Wood and fiber morphology, cellulose, hemicellulose and lignin chemistry; biodegradations of cellulose, hemicellulose and lignin. Emphasis on bioenergy and bio-products.

BIOP 5060 PRODUCTION PACKAGING EVALUATION LAB (1) LAB. 3. Pr. BIOP 2140. This lab course provides hands-on experience in evaluating packaging materials and products made from wood, cellulose fibers, and plastics. Students will assess the performance of packaging materials, focusing on real-world applications in product packaging design and manufacturing. The evaluation lab mainly focusses on testing physical, mechanical, and chemical properties of the packaging materials.

BIOP 5070 PERFORMANCE AND DURABILITY OF PRODUCTS AND PACKAGING (3) LEC. 3. Examines the performance and durability of products and packaging, including physics and mechanics properties of solid wood and wood- and bio-based products and packaging materials, as well as notions about durability, thermal, electric and acoustic properties.

BIOP 5080 FIBER-BASED PRODUCTS IN PACKAGING (3) LEC. 3. Pr. BIOP 2140. The manufacturing process of fiber-based products and the applications of the products in packaging industry. Characteristics of wood fibers, including the chemical composition of wood and fibers. Various pulping processes used to separate fibers from other components of the renewable materials. Fiber preparation for papermaking. Property characterization methods for fibers and their products.

BIOP 5250 WOOD COMPOSITES FOR BIOMATERIALS & PACKAGING (3) LEC. 3. Pr. BIOP 3390. Relationships between various biomass feedstock properties and the physical, chemical, and mechanical properties of the biocomposite from various manufacturing processes.

BIOP 5800 BIOPOLYMERS FOR SUSTAINABLE BIOMATERIALS AND PACKAGING (3) LEC. 3. Students will learn packaging functions, classification, and regulations; polymers classification and properties; as well as engineering principles applied to biomaterials and packaging materials. Thermo-mechanical properties and polymers processing methods of natural and sustainable biomaterials will be discussed. An understanding of the advantages and limitations/challenges of bio-based polymers for packaging systems will be gained through the course.

BIOP 6050 BIOMASS PROCESSING CHEMISTRY (3) LEC. 3. Wood and fiber morphology, cellulose, hemicellulose and lignin chemistry; biodegradations of cellulose, hemicellulose and lignin. Emphasis on bio-energy and bio-products.

BIOP 6060 PRODUCTION PACKAGING EVALUATION LAB (1) LAB. 3. This lab course provides hands-on experience in evaluating packaging materials and products made from wood, cellulose fibers, and plastics. Students will assess the performance of packaging materials, focusing on real-world applications in product packaging design and manufacturing. The evaluation lab mainly focusses on testing physical, mechanical, and chemical properties of the packaging materials.

BIOP 6070 PERFORMANCE AND DURABILITY OF PRODUCTS AND PACKAGING (3) LEC. 3. Examines the performance and durability of products and packaging, including physics and mechanics properties of solid wood and wood- and bio-based products and packaging materials, as well as notions about durability, thermal, electric and acoustic properties.

BIOP 6080 FIBER-BASED PRODUCTS IN PACKAGING (3) LEC. 3. The manufacturing process of fiber-based products and the applications of the products in packaging industry. Characteristics of wood fibers, including the chemical composition of wood and fibers. Various pulping processes used to separate fibers from other components of the renewable materials. Fiber preparation for papermaking. Property characterization methods for fibers and their products.

BIOP 6250 BIOCOMPOSITES (3) LEC. 3. Relationships between various biomass feedstock properties and the physical, chemical, and mechanical properties of the biocomposite from various manufacturing processes.

BIOP 6800 BIOPOLYMERS FOR SUSTAINABLE BIOMATERIALS AND PACKAGING (3) LEC. 3. Students will learn packaging functions, classification, and regulations; polymers classification and properties; as well as engineering principles applied to biomaterials and packaging materials. Thermo-mechanical properties and polymers processing methods of natural and sustainable biomaterials will be discussed. An understanding of the advantages and limitations/challenges of bio-based polymers for packaging systems will be gained through the course.

Biosystems Engineering - BSEN

Courses

BSEN 2210 ENGINEERING METHODS FOR BIOLOGICAL SYSTEMS (2) LEC. 1. LAB. 3. Pr. (ENGR 1110 or ENGR 1113) and (PHYS 1600 or PHYS 1607) or Departmental approval. Introduction to experimental design methodology, basic engineering design and problem solving methodology for Biological Engineering. Visualization skills, computer-aided 3-D solid modeling of parts, 3-D assembly of solid part geometries, computation of mass properties, 2-D engineering drawings, engineering design process, safety, tools and fabrication processes and design, and hands-on shop fabrication of semester project.

BSEN 2240 BIOLOGICAL AND BIOENVIRONMENTAL HEAT AND MASS TRANSFER (3) LEC. 3. Pr. (MATH 2630 or MATH 2637) and (PHYS 1600 or PHYS 1607) and P/C ENGR 2010. Basic principles of heat and mass transfer with special applications to biological and environmental systems. Introduction to steady state and transient heat conduction. Convection, radiation, diffusion, simultaneous heat and mass transfer, and generation and depletion of heat and mass in biological systems.

BSEN 3210 MECHANICAL POWER FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. ENGR 2010 and MATH 2650 and P/C ENGR 2350. Basic engineering analysis, synthesis, and design concepts applied to power sources, mobile equipment, and machinery applications for agricultural, forestry, and natural resource systems.

BSEN 3230 NATURAL RESOURCE CONSERVATION ENGINEERING (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Departmental approval. Engineering analysis applied to natural resource systems. Design principles and practices in rainfall-runoff relationships, soil erosion and its prediction and control, hydraulic structures, and open channel hydraulics.

BSEN 3240 PROCESS ENGINEERING IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 2240. Departmental approval. Theory and application of process operations in biological, food and agricultural systems. Heat transfer, fluid flow, thermal processing, evaporation, psychrometrics, refrigeration, drying freezing.

BSEN 3260 ENGINEERING FOR PRECISION AGRICULTURE AND FORESTRY (3) LEC. 2. LAB. 3. Pr. BSEN 3610 and MATH 2650. Departmental approval. Engineering aspects of spatial technologies applied to agricultural and forest production. Data collection in the field using GPS and use of field data in site specific applications. Fall.

BSEN 3310 HYDRAULIC TRANSPORT IN BIOLOGICAL SYSTEMS (4) LEC. 3. LAB. 3. Pr. (ENGR 2050 or ENGR 2053) and MATH 2650 or Departmental approval. Fluid properties, Non-Newtonian fluids and biological systems, Fluid statics, Energy equation, mass and momentum balance, pipe flow for Newtonian and Non-Newtonian fluids, dimensional analysis, compressible flows.

BSEN 3610 INSTRUMENTATION AND CONTROLS FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Pr. MATH 2650 and BSEN 2210. Departmental approval. Understanding of fundamentals of electrical circuits, sensing and sensors, simple digital electronics, analog measurement circuits, introductory digital signal processing, computer data acquisition.

BSEN 4200 POLYMERS FROM RENEWABLE RESOURCES (2) LEC. 2. Fundamental aspects of natural, biodegradable polymers, including fibers, adhesives, films and coatings, their synthesis, their structure/properties relationships, and the microbiology of their degradation.

BSEN 4210 IRRIGATION SYSTEM DESIGN (3) LEC. 2. LAB. 3. Pr. BSEN 3230. Departmental approval. Theory and design of irrigation systems for the application of water and wastewater including surveying techniques for system design. Systems include solid-set, traveler, center-pivot, and trickle. Fall.

BSEN 4250 HYDRAULIC CONTROL SYSTEMS DESIGN (3) LEC. 2. LAB. 3. Pr. BSEN 3310 or Departmental approval. Principles of energy transfer by means of fluid power. Design of hydraulic control systems using prime movers, valves, actuators, and accessories. Spring.

BSEN 4300 PROFESSIONAL PRACTICE IN BIOSYSTEMS ENGINEERING (2) LEC. 1. LAB. 3. Pr. ENGR 2070 and (BSEN 4240 or BSEN 3230). This course focuses on issues related to the professional practice of biological engineering including preparing students for transition to careers as professional engineers.

BSEN 4310 ENGINEERING DESIGN FOR BIOSYSTEMS (3) LEC. 1. LAB. 6. Pr. BSEN 4300. Departmental approval. Capstone design course in biosystems engineering emphasizing teamwork, communication, safety engineering, and economic analysis to complete an engineering design project. Spring.

BSEN 4960 SPECIAL PROBLEMS IN BIOSYSTEMS ENGINEERING (1-4) AAB/IND. Departmental approval. Faculty supervision of individual student investigations of specialized problems in biosystems engineering. May be repeated with change in problem. Course may be repeated with change in topics.

BSEN 4970 SPECIAL TOPICS IN BIOSYSTEMS ENGINEERING (1-4) DSL. Departmental approval. Individual or small group study of a specialized area in biosystems engineering. Course may be repeated for a maximum of 12 credit hours.

BSEN 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

BSEN 5220 GEOSPATIAL TECHNOLOGIES IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or Departmental approval. Geospatial technologies including GPS, GIS, and remote sensing systems applied to biosystems. Collecting, managing, and analyzing spatial data for agricultural and forest systems. Spring.

BSEN 5230 WASTE MANAGEMENT AND UTILIZATION FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. (CHEM 1040 or CHEM 1120) and BIOL 3200 and (BSEN 3230 or BSEN 4240). Introduction to animal waste management problems of confined production systems, and characterization of animal waste types. Design of biological treatment and processing systems. Departmental approval. May count either BSEN 5230 or BSEN 6230.

BSEN 5240 BULK BIOLOGICAL SOLIDS BEHAVIOR, HANDLING AND PROCESSING (3) LEC. 3. Pr. BSEN 3310 or CIVL 3310. Understanding of the properties of bulk solids and how these properties influence the behavior, handling and processability of biological solids.

BSEN 5250 DETERMINISTIC MODELING FOR BIOSYSTEMS (3) LEC. 3. LAB. 2. Pr. MATH 2650. Modeling of biosystems, methods to deal with complexity, and validation tools.

BSEN 5260 RENEWABLE ENERGY IN BIOSYSTEMS PROCESS OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Application and use of renewable energy in biological, food, forest and agricultural systems including bioenergy, solar energy, wind power and geothermal. Departmental approval. May count either BSEN 5260 or BSEN 6260.

BSEN 5270 METABOLIC ENGINEERING FOR BIOPROCESS (3) LEC. 3. Pr. BIOL 3200 and (CHEM 1040 or CHEM 1120). Or with the consent of the instructor. Introduction of basic principles of bioprocess engineering and metabolic engineering, to prepare engineers and scientists for biotechnology and bioeconomy industries.

BSEN 5280 LIFE-CYCLE ASSESSMENT FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 1. Pr. BSEN 2240 and BSEN 3310. Introduces the concept of life cycle assessment (LCA) in in the context of biological engineering. Examples will include LCA applications to engineered biological systems and other engineering processes and products.

BSEN 5510 ECOLOGICAL ENGINEERING (3) LEC. 3. Pr. BSEN 3230. Ecological engineering non-point source transport of nutrients, sediment, pesticides, pathogens, and chemicals from agricultural, forestry, and urban activities. Departmental approval. May count either BSEN 5510 or BSEN 6510.

BSEN 5520 WATERSHED MODELING (3) LEC. 3. Pr. BSEN 3230. Modeling of non-point source pollution at watershed scale using Soil and Water Assessment Tool model including underlying processes that control movement of pollutants. Departmental approval. May count either BSEN 5520 or BSEN 6520.

BSEN 5540 BIOMASS AND BIOFUELS ENGINEERING (3) LEC. 2. LAB. 3. Pr. (CHEM 1040 or CHEM 1120) and MATH 2650 and BSEN 3310. This course introduces the various processes and engineering principles in converting biomass into biofuels and chemicals. The focus will be on thermochemical and biochemical conversion platforms. May count either BSEN 5540 or BSEN 6540.

BSEN 5560 SITE DESIGN FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 3230 or (CIVL 3110 and CIVL 3010). Development of student skills in computer-aided site design and restoration by using rural and urban best management practices to reduce environmental impacts. Departmental approval. May count either BSEN 5560 or BSEN 6560.

BSEN 5570 COASTAL ECOLOGICAL ENGINEERING (3) LEC. 1. LAB. 4. Pr. BSEN 3310. Fundamentals of coastal processes and engineering and also provide an introduction to modeling the flow of water in coastal systems

BSEN 6220 GEOSPATIAL TECHNOLOGIES IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Geospatial technologies including GPS, GIS, and remote sensing systems applied to biosystems. Collecting, managing, and analyzing spatial data for agricultural and forest systems. Spring.

BSEN 6230 WASTE MANAGEMENT AND UTILIZATION FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Coreq. BSEN 3230. Introduction to the animal waste management problems of confined production systems and characterization of animal waste types. Design of biological treatment and processing systems.

BSEN 6240 BULK BIOLOGICAL SOLIDS BEHAVIOR, HANDLING AND PROCESSING (3) LEC. 3. Understanding of the properties of bulk solids and how these properties influence the behavior, handling and processing ability of biological bulk solids.

BSEN 6250 DETERMINISTIC MODELING FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Modeling of biosystems, methods to deal with complexity, and validation tools.

BSEN 6260 RENEWABLE ENERGY IN BIOSYSTEMS PROCESS OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Departmental approval. Application and use of renewable energy in biological, food forest and agricultural systems including biomass and bioenergy, solar energy, wind power and geothermal.

BSEN 6270 METABOLIC ENGINEERING FOR BIOPROCESS (3) LEC. 3. Department/instructor approval. An introduction of basic principles of bioprocess engineering and metabolic engineering, to prepare engineers and scientists for biotechnology and bioeconomy industries. May count either BSEN 5270 or BSE 6270.

BSEN 6280 LIFE-CYCLE ASSESSMENT FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. This course introduces the concept of life cycle assessment (LCA) in in the context of biological engineering. Examples will include LCA applications to engineered biological systems and other engineering processes and products.

BSEN 6510 ECOLOGICAL ENGINEERING (3) LEC. 3. Departmental approval. The course introduces students to ecological engineering non-point source transport of nutrients, sediment, pesticides, pathogens, and chemicals from agricultural, forestry, and urban activities.

BSEN 6520 WATERSHED MODELING (3) LEC. 3. Departmental approval. The course covers modeling of non-point source pollution at the watershed scale using Soil and Water Assessment Tool model including underlying processes that control movement of pollutants.

BSEN 6540 BIOMASS AND BIOFUELS ENGINEERING (3) LEC. 2. LAB. 3. This course introduces the various processes and engineering principles in converting biomass into biofuels and chemicals. The focus will be on thermochemical and biochemical conversion platforms. May count either BSEN 5540 or BSEN 6540.

BSEN 6560 SITE DESIGN FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. The course is designed to develop student skills in computer-aided site design and restoration by using rural and urban best management practices to reduce environmental impacts.

BSEN 6570 COASTAL ECOLOGICAL ENGINEERING (3) LEC. 1. LAB. 4. Fundamentals of coastal processes and engineering. Introduction to modeling the flow of water in coastal systems.

BSEN 7110 FUNDAMENTALS OF INSTRUMENTATION FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Students will gain an understanding of the fundamentals of sensing and sensors, simple digital electronics and measurement circuits, introductory digital signal processing, and computer data acquisition. They will be required to build and test instrumentation to collect data on biological systems that might include fluid flow, pressure, force, or other transducers.

BSEN 7140 ALGAE SYSTEMS ENGINEERING (3) LEC. 2. LAB. 1. This course is a study of engineered systems for cultivating algae for various uses in society. To develop an understanding of engineering principles applied to growing, cultivating, and producing algal biomass for a number of applications, study into the biology, physiology, and ecology of algae and similar species will be a major part of the course. Departmental Approval.

BSEN 7510 INTRODUCTION TO LAND AND WATER ENGINEERING (3) LEC. 3. This course aims at equipping students with the engineering tools and knowledge needed for advanced courses in land and water engineering.

BSEN 7520 INTRODUCTION TO FLUVIAL GEOMORPHOLOGY (3) LEC. 3. Pr. BSEN 3230. This course provides an overview of stream geomorphology as it relates to natural stream physical processes.

BSEN 7900 SPECIAL PROBLEMS IN BIOSYSTEMS ENGINEERING (1-4) IND. Departmental approval. Faculty supervision of individual student investigations of advanced specialized problems in biosystems engineering at the graduate level. Pr., Course may be repeated with change in topics.

BSEN 7950 SEMINAR (1) SEM. SU. Reviews and discussions of research techniques, current scientific literature, and recent developments in biosystems engineering. Course may be repeated for a maximum of 12 credit hours.

BSEN 7970 SPECIAL TOPICS IN BIOSYSTEMS ENGINEERING (1-4) AAB. Departmental approval. Individual or small group study of an advanced specialized area in biosystems engineering at the graduate level. Course may be repeated with change in topics.

BSEN 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topic.

BSEN 8990 RESEARCH AND DISSERTATION (1-12) DSR.

Building Science - BSCI

Courses

BSCI 1100 INTRODUCTION TO CONSTRUCTION (3) LEC. 3. Introduction to construction industry and education, current issues, and career opportunities.

BSCI 2200 CONSTRUCTION DOCUMENTS (3) LEC. 2. LAB. 3. Pr. BSCI 2300. Reading and interpreting working drawings, specifications, shop drawings, and digital 3D models for use in estimating and administrating various types of construction projects.

BSCI 2300 CONSTRUCTION METHODS AND MATERIALS (3) LEC. 3. Materials, methods and construction equipment used in the construction of buildings.

BSCI 2400 STRUCTURE OF BUILDINGS I (3) LEC. 3. Pr. (PHYS 1500 or PHYS 1600) and (MATH 1610 or MATH 1150 or (MATH 1120 and MATH 1130)). Principles of mechanics and materials behavior related to building structures. Includes force systems, frame analysis, gravity load tracing, wind and seismic resistance for concrete and steel buildings.

BSCI 3200 CONSTRUCTION COMMUNICATION (3) LEC. 3. Overview of communication skills and tools required to succeed as a construction manager. Oral communication, written communication, ethics, visual literacy, and video capture in the context of construction risk management.

BSCI 3300 FIELD SURVEYING (2) LEC. 1. LAB. 6. Surveying techniques, construction layout, use of equipment, and dimensional controls for buildings. Surveying camp, a concentrated, 10 working day course held during breaks.

BSCI 3400 STRUCTURES FOR ARCHITECTS II (3) LEC. 3. Pr. BSCI 2400. Primary and secondary member design, connection design, temporary bracing/shoring, and steel shop drawing review.

BSCI 3440 STRUCTURE OF BUILDINGS II (3) LEC. 3. Pr. BSCI 2400. Principles of static equilibrium and materials behavior related to building structures. Includes force systems, frame analysis, section properties, stress, basic design of structural elements in buildings.

BSCI 3450 STRUCTURES FOR ARCHITECTS III (3) LEC. 3. Pr. BSCI 3400. Introduction to the design of reinforced concrete and related formwork including beams, columns, slabs, footings, retaining walls, and pre-stressed members.

BSCI 3500 CONSTRUCTION AND INFORMATION TECHNOLOGY I (3) LEC. 2. LAB. 2. To explore, discover and create applications of information communication technology (ICT) for Construction Processes.

BSCI 3600 ESTIMATING AND COSTING (4) LEC. 3. LAB. 3. BSCI Major. Introduction to construction estimating for CSI Divisions 1-33. Students perform quanity take-of (QTO), pricing, and preparation for a commercial construction project using computer-based techniques.

BSCI 3660 PRECONSTRUCTION AND PROJECT MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BSCI 3600. Project(s) simulation as a context to discuss, negotiated procurement, pre-construction services in the alternative delivery environment and construction phase management procedures.

BSCI 3700 CONSTRUCTION SAFETY (3) LEC. 3. Construction safety, including OSHA guidelines, accident investigation, and the creating of construction safety plans and worker training program.

BSCI 3800 CONTRACTING BUSINESS (4) LEC. 4. Pr. BSCI 3600. Construction-specific look at the business functions associated with the industry; includes organizational structures, construction finance, risk analysis, construction contracts, project delivery, and associated documents with these functions.

BSCI 4200 RESIDENTIAL CONSTRUCTION (3) LEC. 3. Provides an overview of residential construction and development practices and professional issues including: local ordinances and codes, land use law, financing practices, architect-builder relationship, spec homes vs. custom homes, etc.

BSCI 4300 PRINCIPLES OF CONSTRUCTION & DESIGN (3) LEC. 3. Provides a basic overview of the design and construction process with a focus on project planning and management practices which relate to interactions between thearchitect, constructor, and project developer. Includes: aspects of the roles and responsibilities of the designer and contractor, design process, pre-construction and construction phase contractor activities.

BSCI 4350 CONSTRUCTION PROJECT ANALYSIS (3) LEC. 3. Pr. BSCI 3660. Analysis of methods, materials and equipment used to construct projects. Methods used to assure the quality of construction projects.

BSCI 4360 SERVICE LEARNING IN CONSTRUCTION (2-3) LEC. 2. LAB. 2. Pr. BSCI 3700 and BSCI 3660. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience. Course may be repeated for a maximum of 3 credit hours.

BSCI 4410 PROBLEMS IN CONSTRUCTION MEANS AND METHODS (3) LEC. 2. LAB. 2. Pr. BSCI 3660. Solving challenging problems encountered in construction processes, including form work, scaffolding, framing, steel erection, rigging, lifting, safety,and site management.

BSCI 4420 MANAGEMENT FOR CONSTRUCTION SUPERINTENDENTS (3) LEC. 1. LAB. 4. Pr. BSCI 3660. Senior Standing in Building Science. Development of expanded management strategies for construction superintendents including field conditions analysis, direction of tradesmen, communication skills, and project hoisting and equipment.

BSCI 4500 INFORMATION AND COMMUNICATION TECHNOLOGY FOR CONSTRUCTION II (3) LEC. 2. LAB. 2. To recognize, experiment and practice the applications of advanced information and communication technology (ICT) for Construction Processes.

BSCI 4610 SCHEDULING AND FIELD OPERATIONS (4) LEC. 4. Pr. BSCI 3660. The third of a sequence of three project controls classes; an in-depth study of construction project sequencing and scheduling, jobsite cost control measures, construction cash flow analysis, and a variety of leadership and management issues associated with field operations.

BSCI 4700 MECHANICAL SYSTEMS IN BUILDINGS (3) LEC. 2. LAB. 2. Pr. BSCI 3500 and BSCI 3600. Overview of the plumbing and mechanical systems of buildings. Basic design, sustainability concepts, systems, installation and testing are covered.

BSCI 4710 MECHANICAL CONSTRUCTION ESTIMATING AND MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BSCI 4700. Advance study of mechanical construction industry. Study and application of design principles, estimating and management techniques used in the industry.

BSCI 4750 ELECTRICAL SYSTEMS IN BUILDINGS (3) LEC. 3. Pr. BSCI 3500. Electrical systems commonly used in buildings; basic theory and design concepts, with emphasis on lighting and electrical distribution equipment and its installation.

BSCI 4850 CONSTRUCTION LAW AND RISK MANAGEMENT (3) LEC. 3. Pr. BSCI 3660. Construction law, business law and risk management; the legal system and terminology, contracts, insurance, warranties, liens, environmental concerns, workplace issues, damages, and dispute resolution.

BSCI 4860 ADVANCED CONSTRUCTION INFORMATION TECHNOLOGY (3) LEC. 2. LAB. 2. Pr. BSCI 3660. Exploration and creation of advanced applications of Information and Communication Technology (ICT) for planning, decision making, projects monitoring, and controls.

BSCI 4870 CONSTRUCTION HISTORY (3) LEC. 3. Survey of historic construction projects to analyze how and why buildings and structures were constructed in the way they were.

BSCI 4880 CONSTRUCTION EQUIPMENT MANAGEMENT (3) LEC. 3. Pr. BSCI 3660. Construction equipment management and ownership. Equipment acquisition and disposition options, production costs and productivity, cost analysis and control, management staffing and responsibilities.

BSCI 4890 LEAN CONSTRUCTION PRINCIPLES AND PRACTICES (3) LEC. 3. Pr. BSCI 3660. This course provides an understanding of lean construction principles involving lean design, assembly, supply, production and work processes.

BSCI 4960 SPECIAL PROBLEMS (1-6) IND. Special problems in construction topics. Course may be repeated for a maximum of 6 credit hours.

BSCI 4990 BUILDING SCIENCE THESIS (4) LAB. 12. Individual project demonstrating mastery of curriculum content through the application of skills/knowledge to a theoretical construction company and project. Requires a written thesis and oral defense of work.

BSCI 5430 SITE & EARTHWORK CONSTRUCTION (3) LEC. 3. Pr. BSCI 3660. This course provides a general overview of means and methods associated with sitework-related construction through evaluation of Earthwork Operations, Equipment Selection and Productivity, Optimizing crew and productivity, Cost Estimating, Risks related Sitework-Related Projects, Concrete Construction, Erosion and Sediment Control, and an overview of Bridge and Highway Construction.

BSCI 5450 BUILDING GREAT STRUCTURES (3) LEC. 3. Departmental approval. Conceptual Analysis of a variety of structural systems using observation and modeling of the world's greatest structures. Emphasis on construction innovations necessary to build these structures. May count either BSCI 5450 or BSCI 6450.

BSCI 5460 PLANNING AND DECISION MAKING IN CONSTRUCTION (3) LEC. 3. Pr. BSCI 3660. Departmental approval. Applications of quantitative methods in various phases of project life cycle to assist project stakeholders in making effective planning and informed decision making. May count either BSCI 5460 or BSCI 6460.

BSCI 5470 SMALL UNMANNED AIRCRAFT SYSTEMS IN CONSTRUCTION (3) LEC. 3. Departmental consent. Overview of FAA requirements including hands on training with small unmanned aerial systems and associated software focused on applications in construction.

BSCI 5810 SERVICE LEARNING IN CONSTRUCTION MANAGEMENT - STUDY ABROAD OR STUDY AWAY (3) LEC. 1. LAB. 4. Pr. BSCI 3700. Departmental approval. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience at an international or domestic location. Repeatable with instructor permission.

BSCI 5830 GLOBAL CONSTRUCTION MANAGEMENT (3) LEC. 3. This course will discuss global construction issues and related project management practices. Departmental approval. May count either BSCI 5830 or BSCI 6830.

BSCI 5840 MULTI-CULTURAL ISSUES IN CONSTRUCTION (3) LEC. 3.

BSCI 5920 INTERNSHIP IN CONSTRUCTION MANAGEMENT (0) INT. SU. Professional work experience in a construction management position. Students participating in BSCI 5920/6920 are expected to work in a full-time, 40 hour/week, construction management job. Course may be repeated for a maximum of 10 credit hours.

BSCI 5960 SPECIAL PROBLEMS (1-6) AAB. Departmental approval. Special problems in construction topics. Offered only at the discretion of the department head. Course may be repeated for a maximum of 6 credit hours.

BSCI 5970 SPECIAL TOPICS IN CONSTRUCTION (1-3) AAB. 1-3. Departmental approval. Special topics in construction focuses on topics in Building Science that are in addition to the regular curriculum. Offered only at the discretion of the department head. Course may be repeated for a maximum of 6 credit hours.

BSCI 6430 SITE & EARTHWORK CONSTRUCTION (3) LEC. 3. Pr. BSCI 7020. This course provides an overview of sitework-related construction through evaluation of Earthwork Operations, Equipment Selection and Productivity, Optimizing crew and productivity, Cost Estimating, Risks related Sitework-Related Projects, Concrete Construction, Erosion and Sediment Control, and an overview of Bridge and Highway Construction.

BSCI 6450 BUILDING GREAT STRUCTURES (3) LEC. 3. Conceptual Analysis of a variety of structural systems using observation and modeling of the world's greatest structures. Emphasis on construction innovations necessary to build these structures. May count either BSCI 5450 or BSCI 6450.

BSCI 6460 PLANNING AND DECISION MAKING IN CONSTRUCTION (3) LEC. 3. Departmental approval. Applications of quantitative methods in various phases of project life cycle to assist project stakeholders in making effective planning and informed decision making. May count either BSCI 5460 or BSCI 6460.

BSCI 6470 SMALL UNMANNED AIRCRAFT SYSTEMS IN CONSTRUCTION (3) LEC. 3. Overview of FAA requirements including hands on training with small unmanned aerial systems and associated software focused on applications in construction.

BSCI 6810 SERVICE LEARNING IN CONSTRUCTION MANAGEMENT - STUDY ABROAD OR STUDY AWAY (3) LEC. 1. LAB. 4. Pr. BSCI 7020. Departmental approval. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience at an international or domestic location. Repeatable with instructor approval. Must complete Construction Safety elective course prior to taking this course. Course may be repeated for a maximum of 6 credit hours.

BSCI 6830 GLOBAL CONSTRUCTION MANAGEMENT (3) LEC. 3. This course will discuss global construction issues and related project management practices. Departmental approval. May count either BSCI 5830 or BSCI 6830.

BSCI 6840 MULTI-CULTURAL ISSUES IN CONSTRUCTION LABOR (3) LEC. 3.

BSCI 6920 INTERNSHIP IN CONSTRUCTION MANAGEMENT (0) INT. SU. Professional work experience in a construction management position. Students participating in BSCI 5920/6920 are expected to work in a full-time, 40 hour/week, construction management job. Course may be repeated for a maximum of 10 credit hours.

BSCI 6960 SPECIAL PROBLEMS IN CONSTRUCTION (1-5) AAB. Departmental approval. Individually proposed problems or projects related to the construction industry. Students must prepare a written proposal with defined deliverables. Course may be repeated for a maximum of 5 credit hours.

BSCI 6970 SPECIAL TOPICS IN CONSTRUCTION (1-3) AAB. Departmental approval. Special topics in construction focuses on topics in Building Science that are in addition to the regular curriculum. Course may be repeated for a maximum of 3 credit hours.

BSCI 7010 CONSTRUCTION LABOR AND PRODUCTIVITY (3) LEC. 3. Departmental approval. Construction labor issues, productivity measurement, and productivity improvement in the construction industry. Includes reading, research, and an out of class project.

BSCI 7020 INTEGRATED BUILDING PROCESSES I (3) LEC. 3. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability.

BSCI 7030 CONSTRUCTION INFORMATION MANAGEMENT (3) LEC. 3. Applications of advanced information technology in construction.

BSCI 7040 INTEGRATED BUILDING PROCESSES II (3) LEC. 3. Departmental approval. Construction project delivery, from pre-construction service through ownership. Topics include project management, pre-construction services, pre-planning, procurement, site utilization, subcontracts, commissioning, closeout, building operation, and long-term ownership.

BSCI 7050 EXECUTIVE ISSUES IN CONSTRUCTION (3) LEC. 3. Construction industry executives will present 6 to 10 topics that represent a cross-section of significant management issues.

BSCI 7060 RESEARCH METHODS IN BUILDING SCIENCE (3) LEC. 3. A study of the academic research process, with an emphasis on defining research problems in construction and the development of a research proposal.

BSCI 7100 GRADUATE ELECTIVE IN PROJECT MANAGEMENT: PROJECT MANAGEMENT AND SCHEDULING (3) LEC. 3. This course develops advanced student knowledge and skills in construction business facets such as delivery, contracts and financial management; and develops tactile skills in producing advanced construction schedules in current software applications. Credit will not be given for both BSCI 7100 and BSCI 7106. Course may be repeated with change in topics.

BSCI 7110 CONSTRUCTION CONTRACTING BUSINESS (3) LEC. 3. Business functions associated with construction industry; organizational structure, construction finance; risk analysis, construction contracts, project delivery, and associated documents. Admission to Certificate in Construction Management.

BSCI 7120 CONSTRUCTION LAW AND RISK MANAGEMENT (3) LEC. 3. Construction law, business law and risk management; the legal system and terminology, contracts, insurance, warranties, liens, environmental concerns, workplace issues, damages and dispute resolution. Admission to Certificate in Construction Management.

BSCI 7130 BUILDING CONSTRUCTION SUSTAINABILITY (3) DSL. Students must be admitted to the Executive Technical Certificate in Construction Management. The role of sustainable practices & processes in the construction industry. Role of built environment in consuming resources. Minimizing construction waste. Standards for sustainable construction.

BSCI 7140 STRUCTURAL SYSTEMS OF BUILDINGS (3) LEC. 3. Students must be admitted to the Executive Technical Certificate in Construction Management. Role of structural systems of buildings. Forces in buildings. Temporary structures in construction. Common failure models of structures.

BSCI 7150 HEAVY CIVIL CONSTRUCTION (3) LEC. 3. Students must be admitted to the Executive Integrated Processes Certificate in Construction Management. Principles of heavy civil construction including budget, planning, excavation, haul, equipment, temporary structures and types of projects involved.

BSCI 7200 ELECTIVES IN CONSTRUCTION LABOR (3) LEC. 3. Departmental approval. Special course offerings related to construction labor topics. Course may be repeated with change in topic.

BSCI 7300 ELECTIVES IN INFORMATION TECHNOLOGY AND INNOVATION (3) LEC. 3. Departmental approval. Special course offerings related to information technology, innovation, and robotics in construction. Course may be repeated with change in topic.

BSCI 7900 DIRECTED READING IN CONST (1-3) IND. Departmental approval. Individually proposed exploration of a construction industry related topic not covered in existing course offerings. Students must prepare a written proposal of the topic. Course may be repeated for a maximum of 3 credit hours.

BSCI 7950 GRADUATE SEMINAR (1) SEM. 1. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability. Course may be repeated for a maximum of 3 credit hours.

BSCI 7980 CAPSTONE PROJECT (3) LAB. 6. Departmental approval. Independent exploration of an approved topic with final written report of findings and an oral defense of the work. Specific capstone project requirements are established by the supervising committee and vary based on the chosen topic.

BSCI 8060 ADVANCED RESEARCH METHODS IN BUILDING SCIENCE-I (3) LEC. 3. Current areas and topics of research in building construction, study of academic research process, defining a research problem, develop effective search and analytical evaluation skills of published literature, analyze research products and write a comprehensive review of literature, and understand ethical principles and methods to successfully carry out research projects. The course is designed to provide a comprehensive introduction to the doctoral research process and methods used in building construction research.

BSCI 8070 ADVANCED RESEARCH METHODS IN BUILDING SCIENCE-II (3) LEC. 3. A study of the practical skills necessary to produce and disseminate doctoral level research in Building Construction. The course is designed to provide comprehensive knowledge about research design and selecting an appropriate methodology, qualitative, quantitative and mixed data collection and analysis methods appropriate for Building Construction research, research validation techniques, and technical writing strategies appropriate for a PhD dissertation.

BSCI 8950 DISSERTATION SEMINAR (1) LEC. 1. Professional and social integration into doctoral program; enhancement of professional knowledge through structured inquiry, professional dialogue, and reflective thinking; and preparation of students to develop pedagogical skills. Departmental Permission Required. Course may be repeated for a maximum of 6 credit hours.

BSCI 8990 RESEARCH AND DISSERTATION (1-10) LEC. 1-10. Individual doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics.

Business Administration - BUSI

Courses

BUSI 1010 PROFESSIONAL AND CAREER DEVELOPMENT IN BUSINESS I (1) LEC. 1. Introduction to career readiness including exploration and discovery of career interests and values, with an emphasis on personal and professional development opportunities that enhance career preparedness.

BUSI 1040 FINANCIAL WELLNESS (3) LEC. 3. This course gives students an understanding of relevant personal finance topics and the tools needed to plan and execute their financial goals. The course covers topics currently relevant to college students as well as those that will have long-term implications for careers and retirement. The course is designed to be accessible and relevant to all students regardless of major.

BUSI 2010 PROFESSIONAL AND CAREER DEVELOPMENT IN BUSINESS II (1) LEC. 1. Articulation and creation of personal branding through learning job search essentials including resumes, cover letters, social media, interviewing, networking, and internships.

BUSI 2100 ORAL COMMUNICATION FOR BUSINESS (1) LEC. 1. Theories and techniques of strong oral communication skills, with real-world applications for business.

BUSI 2900 DIRECTED STUDIES (1-3) AAB/IND. SU. Independent study option for freshmen and sophomores in the College of Business for students who seek general or free elective credit. Course may be repeated for a maximum of 3 credit hours.

BUSI 3010 PROFESSIONAL DEVELOPMENT IN BUSINESS III (1) LEC. 1. Pr. P/C BUSI 2010. Preparation for conducting an intern/career position job search. Develop career planning and job search skills.

BUSI 3250 INTERNATIONAL BUSINESS (3) LEC. 3. Beginning with a foundation in the movement of goods, services, people, money, technology, and information across borders students will learn how culture, social issues, economic, regulatory, legal and political factors impact businesses and consumers alike. A running theme will be the diversity of environments and people that impact international business.

BUSI 3257 INTERNATIONAL BUSINESS (3) DSL/LEC. Beginning with a foundation in the movement of goods, services, people, money, technology, and information across borders students will learn how culture, social issues, economic, regulatory, legal and political factors impact businesses and consumers alike. A running theme will be the diversity of environments and people that impact international business.

BUSI 3500 LEADERSHIP IN ENGINEERING & BUSINESS THEORY (4) LEC. 3. LAB. 3. This class investigates the challenges of integrating engineering design with business requirements as they related to product innovation. Specific focus is placed on strategic planning and leadership needs to successfully steer product ideas into business reality. Case study problems from business and engineering practice.

BUSI 3510 PRODUCT INNOVATION: FROM CONCEPT TO PRODUCTION (4) LEC. 3. LAB. 2.33. Pr. BUSI 3500 and BUSI 3520 and BUSI 3560. This course takes students on a journey from conceptualization (concept) to production to market (production). Students are introduced to the basics of modern computer-aided design (CAD), classic manufacturing processes, and design tools. They will learn how to use Fusion 360 to create 2D and 3D models, as well as how to use CAD to generate concepts, conduct market research, benchmark designs, and create prototypes. Students will also learn about classic manufacturing processes such as casting. Department approval.

BUSI 3560 LEADERSHIP FOR BUSINESS AND ENGINEERS (1) LEC. 1. Overview of leadership concepts and skills.

BUSI 4010 PROFESSIONAL AND CAREER DEVELOPMENT IN BUSINESS IV (1) LEC. 1. Execution of career readiness concepts, integrating ethical leadership and decision making in order to assist in the transition from the classroom to the workforce.

BUSI 4920 BUSINESS INTERNSHIP (1-3) AAB/INT. SU. Internship option for students to gain work experience who seek general or free elective credit. Approval of instructor prior to internship, and completion of or current enrollment in two or more of the following: ACCT 2110, ECON 2020, ECON 2030, FINC 3610, MNGT 3100, or MKTG 3310. Course may be repeated for a maximum of 3 credit hours.

BUSI 4970 SPECIAL TOPICS IN BUSINESS (3) LEC. 3. Coreq. BUSI 4540. A special topics course to encompass a variety of interdisciplinary business topics. Course may be repeated for a maximum of 6 credit hours.

BUSI 5500 ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. (BUSI 3500 or BUSI 3520) and BUSI 3560 and BUSI 3510. Acceptance into the BET minor program. The course focuses on the entrepreneurial aspects in the strategic management of technology and innovation in new ventures, new products and processes that influence the competitiveness of the firm. Department approval.

BUSI 5510 BUSINESS ENGINEERING TECHNOLOGY MINOR-CAPSTONE (4) LEC. 1. LAB. 6. Pr. (BUSI 3500 or BUSI 3520) and BUSI 3560 and BUSI 3510 or BUSI 5500 or ENGR 6500. Department approval. Must be admitted to BET minor. You will be required to apply everything you've learned in the Business Engineering Technology minor to deliver a “fully realized” working product along with supporting project documentation.

BUSI 5550 PRODUCT/PROCESS DESIGN AND DEVELOPMENT I (2) LEC. 2. Must be enrolled in BET minor. Processes to develop and present design proposal for cooperating industry.

BUSI 5600 INTERNATIONAL ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. BUSI 3500 or BUSI 3520 and BUSI 3560 and BUSI 3510. Department approval. The course focuses on the entrepreneurial aspects in the strategic management of technology and innovation in new ventures, new products, and processes that influence the firm's competitiveness. The main emphasis of this course will be on the process of commercializing an innovation - bringing the innovation to market via the creation of a company. Must be enrolled in the Business-Engineering-Technology minor and participating in the International BET.

BUSI 5610 INTERNATIONAL BUSINESS ENGINEERING TECHNOLOGY MINOR-CAPSTONE (4) LEC. 1. LAB. 4. Pr. (BUSI 3500 or BUSI 3520) and BUSI 3560 and BUSI 3510 and BUSI 5600 or ENGR 6600. Department approval. Must be admitted to International BET minor. This course is intended to immerse the student in the new product design and development experience. Students will work directly with international companies and fellow international students to generate working prototypes that offer solutions. Students are expected to develop a successful new product development plan and execute all necessary activities to bring a functional prototype to life by semester's end. Specific focus is placed on creative product ideas.

BUSI 7110 FINANCIAL ANALYSIS (3) LEC. 3. Departmental approval. Integrated course combining financial accounting and corporate finance for MBA students.

BUSI 7120 QUANTITATIVE ANALYSIS FOR BUSINESS DECISIONS (3) LEC. 3. Departmental approval. Integrated course in statistical methods and management science for MBA students.

BUSI 7130 STRATEGIC ANALYSIS AND THE COMPETITIVE ENVIRONMENT (3) LEC. 3. Departmental approval. Integrated course covering business strategy and the external environment in a global context.

BUSI 7140 ORGANIZATIONAL LEADERSHIP, ETHICS AND CHANGE (3) LEC. 3. Integrated course covering individual and group behavior in organizations, effective team building, motivation, and communications, ethical behavior, and leading organizations through change. May count either BUSI 7140 or BUSI 7146.

BUSI 7150 OPERATIONAL EXCELLENCE THROUGH SUPPLY CHAIN AND QUALITY MANAGEMENT (3) LEC. 3. An examination of the strategic roles of supply chain and quality management in the creation of outstanding product and service operations. Departmental approval. May count either BUSI 7150 or BUSI 7156.

BUSI 7160 ADVANCED PROFESSIONAL DEVELOPMENT (1) LEC. 1. This course prepares students for career success by focusing on self-assessment, industry/job/company research, personal brand identification, resumes and cover letters, interviewing, career and company research, presentation skills, and benefits and negotiation. Course may be repeated for a maximum of 3 credit hours.

BUSI 7210 STRATEGIC MARKETING MANAGEMENT (3) LEC. 3. Departmental approval. Covers key aspects of marketing, including product, pricing, distribution, and promotion strategies. Emphasis is placed on marketing analysis and strategy development.

BUSI 7220 INFORMATION TECHNOLOGY FOR COMPETITIVE ADVANTAGE (3) LEC. 3. Examines the strategic role information technology plays in influencing competitive advantage. Departmental approval. May count either BUSI 7220 or BUSI 7226.

BUSI 7230 COST ANALYSIS AND SYSTEMS (3) LEC. 3. Departmental approval. Integrates production and cost theory from economics with managerial and cost accounting theory and systems for MBA

BUSI 7250 INTERNATIONAL BUSINESS OPERATIONS (3) AAB. Departmental approval. Examines the economic, financial, legal, political, social, and cultural factors impacting international business operations. Participation in a specified global experience is a requirement of this course.

BUSI 7310 INTEGRATED BUSINESS PROJECT AND CASE ANALYSIS (3) LEC. 3. Integrates knowledge gained from MBA classes and applies that knowledge to address actual business problems. May count either BUSI 7310 or BUSI 7316.

BUSI 7920 MBA INTERNSHIP (0-6) DSL. SU. Departmental approval. Internship for MBA students in business organizations. Course may be repeated for a maximum of 6 credit hours.

BUSI 7970 SPECIAL TOPICS IN BUSINESS ADMINISTRATION (1-3) AAB. Departmental approval. Specialized topics in business administration not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

Business Analytics - BUAL

Courses

BUAL 2600 BUSINESS ANALYTICS I (3) LEC. 3. Pr. (MATH 1610 or MATH 1617 or MATH 1680 or MATH 1683). Introduction to analytics in business including use of data to make business decisions, basic predictive business modeling, and communication of analytical results.

BUAL 2650 BUSINESS ANALYTICS II (3) LEC. 3. Pr. BUAL 2600 or STAT 2610 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 3010 or STAT 2513. A second course in quantitative analysis in business including statistical inference, classification analysis, predictive modeling, forecasting, introduction to data mining.

BUAL 3010 PROFESSIONAL DEVELOPMENT IN BUSINESS ANALYTICS (1) LEC. 1. SU. Pr. P/C BUAL 2650. Career planning and preparation for employment as an analytics professional.

BUAL 3100 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3) LEC. 3. Pr. BUAL 2600. This course introduces business students to the foundational concepts of Artificial Intelligence (AI) and its applications in business environments. It focuses on how AI technologies like machine learning, natural language processing, and data analytics drive innovation and enhance decision-making. Students will explore real-world business applications of AI, covering topics such as automation, predictive analytics, customer service, and AI-driven strategy. The course is designed to

BUAL 4910 PRACTICUM (1-3) PRA. SU. Supervised practical application of business analytics theory and methods. Course may be repeated for a maximum of 3 credit hours.

BUAL 4920 BUSINESS ANALYTICS INTERNSHIP (1-3) INT. SU. Pr. BUAL 3010. The internship program represents an opportunity for students to be exposed to analytics environments first-hand and to integrate this experience with their formal education. The practical nature of the internship facilitates the educational process and provides valuable work experience. Departmental approval required. Course may be repeated for a maximum of 3 credit hours.

BUAL 5500 BUSINESS DATA MANAGEMENT AND ACQUISITION (3) LEC. 3. Pr. BUAL 2600 and P/C BUAL 3010. Management and governance of the big data environment that is necessary to support extracting, merging, and preparing large data sets for analysis.

BUAL 5600 PRINCIPLES OF PREDICTIVE MODELING (3) DSL/LEC. Pr. BUAL 2650. Introduction to linear models including multiple linear regression and model building in business decision making and applications. Credit will not be given for both BUAL 5600 and BUAL 6600/6606.

BUAL 5610 PREDICTIVE MODELING FOR BUSINESS DECISIONS (3) DSL/LEC. Pr. BUAL 2650 and (BUAL 5500 or BUAL 5650). Basic data mining techniques including neural networks, decision trees, clustering algorithms, linear programs, text and web mining in business setting. Credit will not be given for both BUAL 5610 and BUAL 6610/6616.

BUAL 5660 DESCRIPTIVE ANALYTICS FOR BUSINESS DECISIONS (3) LEC. 3. Pr. BUAL 5500 or BUAL 5650. Advanced topics in big data management, with emphasis on various technical environments used in the big data environment. Credit will not be given for both BUAL 5660 and BUAL 6660/6666.

BUAL 5700 BIG DATA INFRASTRUCTURE AND APPLICATIONS (3) LEC. 3. Pr. ISMN 5650. Advanced topics related to big data infrastructure and using these technologies to create data science applications. The course provides deep understanding of various state-of-art data science approaches using different distributed and (or) cloud computing environments. Credit will not be given for both BUAL 5700 and BUAL 6700/6706.

BUAL 5710 ADVANCED DATA AND TEXT ANALYTICS (3) LEC. 3. Pr. (BUAL 5700 or BUAL 6700 or BUAL 6706) and (P/C BUAL 5660 or P/C BUAL 6660 or P/C BUAL 6666). This course covers advanced approaches used for writing crawlers and spiders, text analytics, sentiment analysis, social media analytics, network analytics, and deep learning for solving business and organizational problems. The course provides conceptual and hand-on understanding of such state-of-art analytics approaches using various python libraries. Knowledge of python programming is necessary to do well in the course.

BUAL 5800 DATA VISUALIZATION (3) LEC. 3. Pr. BUAL 2650. The course will focus on learning the challenges of big data and how effectively utilizing data visualization techniques can help with decision-making. The course will cover the principles of effective visualization designs as well as get hands-on experience with developing dashboards and presenting analysis in other visual formats.

BUAL 5850 FOUNDATIONS OF SPORTS ANALYTICS (3) LEC. 3. Pr. BUAL 2650. This course provides an introduction to analyzing and representing sports data. Students will learn how to develop narratives about team and player performance. Students will also learn various techniques that are suitable for analyzing sports data. Examples will be used from various sports to generate results that can explain outcomes.

BUAL 5860 COMMUNICATING QUANTITATIVE RESULTS IN BUSINESS (3) LEC. 3. Pr. BUAL 5610 and BUAL 5660. A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives. Credit will not be given for both BUAL 5860 and BUAL 6860/6866.

BUAL 5900 DIRECTED STUDIES (1-3) IND. SU. Faculty led individualized or group-oriented in-depth study of a topic in business analytics. May include literary research, algorithm development, programming, data analysis, or a combination of these. Course may be repeated for a maximum of 6 credit hours.

BUAL 5960 SPECIAL PROBLEMS (3) DSL. This course may be either a self-learning course or a lecture course designed to enhance the student's knowledge of a selected topic. If self-learning, the course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the course objectives. Course may be repeated for a maximum of 6 credit hours.

BUAL 6600 PRINCIPLES OF PREDICTIVE MODELING (3) DSL/LEC. Pr. BUAL 2650. Introduction to linear models including multiple linear regression and model building in business decision making and applications. Credit will not be given for both BUAL 5600 and BUAL 6600/6606.

BUAL 6610 PREDICTIVE MODELING FOR BUSINESS DECISIONS (3) DSL/LEC. Basic data mining techniques including neural networks, decision trees, clustering algorithms, linear programs, text and web mining in business setting. Credit will not be given for both BUAL 5610 and BUAL 6610/6616.

BUAL 6650 BUSINESS DATA MANAGEMENT AND ACQUISITION (3) LEC. 3. Managing, governing, extracting, merging, and preparing large data sets for analysis.

BUAL 6660 DESCRIPTIVE ANALYTICS FOR BUSINESS DECISIONS (3) LEC. 3. Advanced topics in big data management, with emphasis on loading and cleansing the data for analysis. May count either BUAL 5660 or BUAL 6660/6666.

BUAL 6700 BIG DATA INFRASTRUCTURE AND APPLICATIONS (3) LEC. 3. Pr. ISMN 5650 or ISMN 6650 or ISMN 6656. This course covers advanced topics related to big data infrastructure and using these technologies to create data science applications. The course provides deep understanding of various state-of-art data science approaches using different distributed and (or) cloud computing environments. Credit will not be given for both BUAL 5700 and BUAL 6700/6.

BUAL 6710 ADVANCED DATA AND TEXT ANALYTICS (3) LEC. 3. Pr. (BUAL 5700 or BUAL 6700 or BUAL 6706) and (P/C BUAL 5660 or P/C BUAL 6660 or P/C BUAL 6666). This course covers advanced approaches used for writing crawlers and spiders, text analytics, sentiment analysis, social media analytics, network analytics, and deep learning for solving business and organizational problems. The course provides conceptual and hand-on understanding of such state-of-art analytics approaches using various python libraries. Knowledge of python programming is necessary to do well in the course.

BUAL 6800 DATA VISUALIZATION (3) DSL. This course is designed as a graduate level class in which graduate students will learn the various elements and techniques of data visualization. The focus of the course will be to learn the challenges of big data and how effective utilization of data visualization techniques can help with decision making. Course will cover the principles of effective visualization designs as well as get hands on experience with developing dashboards and present analysis in other visual formats.

BUAL 6850 FOUNDATIONS OF SPORTS ANALYTICS (3) DSL/LEC. This course provides an introduction to analyzing and representing sports data. Students will learn how to develop narratives about team and player performance. Students will also learn various techniques that are suitable for analyzing sports data. Examples will be used from various sports to generate results that can explain outcomes.

BUAL 6860 COMMUNICATING QUANTITATIVE RESULTS IN BUSINESS (3) LEC. 3. Pr. BUAL 6610 or BUAL 6616. A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives. Credit will not be given for both BUAL 5860 and BUAL 6860/6866.

BUAL 6900 DIRECTED STUDIES (3) IND. 3. SU. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

BUAL 6960 SPECIAL PROBLEMS (3) IND/LEC. 3. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

BUAL 7000 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3) DSL/LEC. This course introduces business students to the foundational concepts of Artificial Intelligence (AI) and its applications in business environments. It focuses on how AI technologies like machine learning, natural language processing, and data analytics drive innovation and enhance decision-making. Students will explore real-world business applications of AI, covering topics such as automation, predictive analytics, customer service, and AI-driven strategy. The course is designed to help students understand practical AI applications

Career and Technical - CTCT

Courses

CTCT 2100 POWER EQUIPMENT TECHNOLOGY (3) LEC. 2. LAB. 3. Repair and maintenance of small air-cooled engines and power equipment in Agriculture. May count either CTCT 2100 or CTCT 3100.

CTCT 2200 COMPUTER LITERACY IN BUSINESS EDUCATION (3) LEC. 1. LAB. 4. Advanced formatting, processing, and evaluation of business correspondence, as well as administrative and employment documents. Includes basic computer literacy skills. May count either CTCT 2200 or CTCT 2203.

CTCT 3000 LEADERSHIP SKILLS FOR PERSONAL AND ORGANIZATIONAL DEVELOPMENT (3) LEC. 3. Organizational and leadership skills needed to become successful professionals in work or community activities; skills and strategies for conducting efficient meetings.

CTCT 3250 INFORMATION ANALYSIS (3) LEC. 3. Decision-making and business problem solving using microcomputer software applications including spreadsheets, database management programs, and operating systems. May count either CTCT 3250 or CTCT 3253.

CTCT 4000 CLASSROOM/LABORATORY MANAGEMENT, ORGANIZATION AND EVALUATION IN CAREER AND TECHNICAL EDUCATION (2) LEC. 2. Admission to Teacher Education. Organization, objectives, principles, management, and evaluation of career and technical education classrooms, laboratories, and programs. May count either CTCT 4000 or CTCT 4003.

CTCT 4030 CAREER AND TECHNICAL STUDENT ORGANIZATIONS (3) LEC. 3. Survey of career and technical student organizations; procedures involved in developing and implementing informal and co-curricular educational programs for students and preparing students for state and national competitions.

CTCT 4140 AGRICULTURAL STRUCTURE AND METAL FABRICATION TECHNOLOGY (3) LEC. 2. LAB. 3. Materials selection and construction procedures for carpentry, concrete, masonry, electricity, plumbing, and metal fabrication.

CTCT 4160 SUPERVISED AGRICULTURAL EXPERIENCE PROGRAMS (2) LEC. 2. Responsibility for SAEP planning, supervision, and evaluation of entrepreneurship, placement, exploratory, analytical, and experimental SAEPs and record books; completing award applications.

CTCT 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. The student's learning efforts are guided toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTCT 4910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Provides experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

CTCT 4920 CLINICAL RESIDENCY (12) AAB/DSL. 40. SU. Admission to Clinical Residency. Supervised clinical residency experiences abroad in a school or other appropriate setting. Evaluation and analysis of the clinical residency experience. May count either CTCT 4920 or CTCT 4923.

CTCT 4940 DIRECTED FIELD EXPERIENCE IN AREA OF SPECIALIZATION (1-3) DAG/FLD. SU. Supervised occupational work experience in an approved specialization-related occupation. Departmental approval. May count either CTCT 4940 or CTCT 4943. Course may be repeated for a maximum of 3 credit hours.

CTCT 4970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DSL. Departmental approval. Current or special topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 5050 METHODS OF TEACHING IN AREA OF SPECIALIZATION (3) LEC. 2. LAB. 2. Admission to Teacher Education. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within career and technical education. May count CTCT 5050, CTCT 5053, CTCT 6050, or CTCT 6056.

CTCT 5060 PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Admission to Teacher Education. Introduction to principles and practices involved in designing education programs in the area of specialization. May count CTCT 5060, CTCT 5063, CTCT 6060, or CTCT 6066.

CTCT 5080 PRINCIPLES OF COORDINATION (3) LEC. 3. Admission to Teacher Education. Coordination, placement, and supervision of students in work-based programs; development of employability skills. May count CTCT 5080 or 6080.

CTCT 5200 RECORDS MANAGEMENT SYSTEMS (3) LEC. 3. Study of integrated records management systems, functions, systems, and careers; including decision making and problem solving using software applications. May count either CTCT 5200/CTCT 6200 or CTCT 6200/CTCT 6206.

CTCT 5240 MULTIMEDIA DESIGN (3) LEC. 3. Focus on presentation, desktop publishing, multimedia production, web page design, and digital graphics. May count either CTCT 5240/CTCT 5243 or CTCT 6240/CTCT 6246.

CTCT 5250 INFORMATION DESIGN & ANALYSIS (3) LEC. 3. Decision making, problem solving, and presentation using business software applications. May Count Either CTCT 3250/CTCT 3253 or CTCT 5250/CTCT 5253 CTCT 6250/CTCT 6256.

CTCT 5260 APPLIED COMPUTER TECHNOLOGY (3) LEC. 3. Capstone course with emphasis on integration of business software for decision making, processing, collaboration and management functions, including accounting and financial management. May count either CTCT 5260/CTCT 5263 or CTCT 6260/CTCT 6266.

CTCT 5940 WORK EXPERIENCE IN INFORMATION TECHNOLOGY (3) LEC. 3. SU. Supervised occupational work experience in a Commerce and Information Technology environment. May count either CTCT 4940/CTCT 4943 or CTCT 5940/CTCT 5943 or CTCT 6940/CTCT 6946.

CTCT 6050 METHODS OF TEACHING IN AREA OF SPECIALIZATION (3) LEC. 2. LAB. 2. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within the area of specialization. Admission to alternative master's program. May count CTCT 5050, CTCT 5053, CTCT 6050, or CTCT 6056.

CTCT 6060 PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Introduction to principles and practices involved in designing educational programs in the area of specialization. Admission to alternative master's program. May count CTCT 5060, CTCT 6060, or CTCT 6066.

CTCT 6080 PRINCIPLES OF COORDINATION (3) LEC. 3. Coordination, placement, and supervision of students in work-based programs; development of employability skills. May count CTCT 5080, CTCT 5083, CTCT 6080, or CTCT 6086.

CTCT 6200 RECORDS MANAGEMENT SYSTEMS (3) LEC. 3. Study of integrated records management systems, functions, and careers; including decision making and problem solving using software applications. May count either CTCT 5200/CTCT 5203 or CTCT 6200/CTCT 6206.

CTCT 6240 MULTIMEDIA DESIGN (3) LEC. 3. Focus on presentation, desktop publishing, multimedia production, web page design, and digital graphics. May count either CTCT 6240/CTCT 62406 or CTCT 5240/5243.

CTCT 6250 INFORMATION DESIGN & ANALYSIS (3) LEC. 3. Decision making, problem solving, and presentation using business software applications. May count either CTCT 6250/CTCT 6256 or CTCT 5250/5253.

CTCT 6260 APPLIED COMPUTER TECHNOLOGY (3) LEC. 3. Capstone course with emphasis on integration of business software for decision making, processing, collaboration and management functions, including accounting and financial management. May count either CTCT 5260/CTCT 5263 or CTCT 6260/6266.

CTCT 6940 WORK EXPERIENCE IN INFORMATION TECHNOLOGY (3) LEC. 3. SU. Supervised occupational work experience and software application in a Commerce and Information Technology environment. May count either CTCT 6940/CTCT 6946 or CTCT 5940/5943.

CTCT 7000 FOUNDATIONS OF CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Philosophical, historical, economic, and sociological perspectives of vocational education in relation to the organization of vocational education programs. May count either CTCT 7000 or CTCT 7006.

CTCT 7010 YOUTH PROGRAM DEVELOPMENT (3) LEC. 3. Developing, managing, and evaluating formal and informal youth education programs; training volunteers for youth development programs; securing and developing supporting resources. Departmental approval. May count either CTCT 7010 or CTCT 7016.

CTCT 7100 TEACHING MECHANICAL TECHNOLOGY (3) LEC. 2. LAB. 2. Theory and practice of managing agricultural mechanics laboratories, theories of machine operation, and maintaining laboratory equipment. May count either CTCT 7100 or CTCT 7106.

CTCT 7120 COURSES OF STUDY IN AGRISCIENCE EDUCATION (3) LEC. 3. Departmental approval. Emerging technologies in agriscience education; principles and procedures of curriculum construction applied to courses of study in agriscience education.

CTCT 7200 CAREER AND OCCUPATIONAL INFORMATION (3) LEC. 3. Trends and issues in occupational structure, job qualifications and requirements, and sources of occupational information for new and emerging occupations; analysis of career education models for students.

CTCT 7240 ADMINISTRATIVE MANAGEMENT (3) LEC. 3. Management of office systems, information and personnel. Managing and controlling administrative services.

CTCT 7300 INTEGRATING TECHNOLOGY IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching.

CTCT 7400 AGRICULTURAL LITERACY EDUCATION (3) LEC. 3. Theories and application of agricultural literacy related scientific and technologically based concepts and processes required for personal decision making, participating in civic and cultural affairs, and economic productivity.

CTCT 7710 ADVANCED TEACHING METHODS (3) LEC. 3. Analysis of research in theories of teaching and learning, effective teacher characteristics, learning styles, teaching methodologies, and diversity in teaching.

CTCT 7720 ADVANCED PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Issues affecting the development and management of educational programs; strategies for improving educational programs.

CTCT 7730 PROGRAM EVALUATION (3) LEC. 3. Principles and procedures used in evaluating academic- related programs. Alternative approaches to evaluation and practical guidelines for conducting evaluations.

CTCT 7750 ADMINISTRATION OF CAREER AND TECHNICAL EDUCATION (3) DAG. Introduction to concepts, theories and practices related to administration, organizational behavior, and leadership in secondary and post-secondary vocational education programs.

CTCT 7760 COMPREHENSIVE PLANNING IN CAREER AND TECHNICAL EDUCATION (3) LLB. Processes of comprehensive planning for vocational education programs at high school and secondary school levels using local, state, and regional data.

CTCT 7770 CLINICAL SUPERVISION (3) LEC. 3. Theories, concepts, models, and techniques of student teacher and beginning teacher supervision by administrators, school district personnel, and university supervisors. Recommended for individuals who supervise or plan to supervise student teachers.

CTCT 7780 RESEARCH IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Review, analysis and interpretation of research procedures and data with emphasis on designing new research in vocational and adult education.

CTCT 7810 SUPERVISED COLLEGE TEACHING (1) LEC. 1. SU. Departmental approval. Practical experience in the classroom under the supervision of a faculty mentor. Course may be repeated for a maximum of 2 credit hours.

CTCT 7900 DIRECTED STUDIES (1-3) DAG. SU. Departmental approval. Independent learning effort directed toward desired objectives. Includes evaluation at regular intervals by student and professor. Course may be repeated for a maximum of 3 credit hours.

CTCT 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-3) DAG. SU. Departmental approval. Experiences closely relating theory and practice. Course may be repeated for a maximum of 3 credit hours.

CTCT 7920 CLINICAL RESIDENCY (9-12) AAB. 40. SU. Admission to Clinical Residency. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Departmental approval. May count either CTCT 7920 or CTCT 7926. Course may be repeated for a maximum of 12 credit hours.

CTCT 7950 SEMINAR IN AREA OF SPECIALIZATION (1-3) DBU/SEM. SU. Presentation by graduate students of research projects and/or findings. Analysis of procedures and findings. Course may be repeated for a maximum of 3 credit hours.

CTCT 7960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 3 credit hours.

CTCT 7970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DAG. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated for a maximum of 10 credit hours.

CTCT 8730 CURRICULUM DEVELOPMENT IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Principles of career and technical education curriculum planning, identification of educational needs of students, selecting technical content, and evaluating materials.

CTCT 8770 SUPERVISION OF INSTRUCTION (3) LEC. 3. Theories and models to become effective supervisors of vocational and adult education programs; philosophies and styles of supervision used to improve schools, instruction, curriculum and personnel.

CTCT 8800 TEACHER EDUCATION (3) LEC. 3. Emphasis on beliefs, philosophy, issues, research, roles, student selection, curriculum, methodology, internships, organization, and administration of teacher education programs.

CTCT 8810 SUPERVISED COLLEGE TEACHING (1-10) LEC. 3. SU. Practical experience in the classroom under the supervision of a faculty mentor. Course may be repeated for a maximum of 10 credit hours.

CTCT 8900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent learning efforts at desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTCT 8910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice. Course may be repeated for a maximum of 6 credit hours.

CTCT 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 10 credit hours.

CTCT 8950 SEMINAR IN AREA OF SPECIALIZATION (1-6) DSL/SEM. Departmental approval. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 6 credit hours.

CTCT 8960 SPECIAL PROBLEMS (1-6) DSL/IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 6 credit hours.

CTCT 8970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DSL. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 8980 FIELD PROJECT (1-10) DAG. 1. SU. Departmental approval. Field project. Course may be repeated for a maximum of 10 credit hours.

CTCT 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated for a maximum of 20 credit hours.

Chemical Engineering - CHEN

Courses

CHEN 1000 CONCEPTS OF CHEMICAL ENGINEERING: THE DESIGN OF COFFEE (3) LEC. 2. LAB. 2. This course is an introduction to chemical engineering concepts and approaches to innovation and problem solving. Qualitative overviews are presented for principles and practices of engineering analysis and design, with corresponding hands-on laboratories applying the concepts to processes for roasting and brewing coffee. The course is intended as a free elective for all majors.

CHEN 1007 HONORS CONCEPTS OF CHEMICAL ENGINEERING: THE DESIGN OF COFFEE (3) LEC. 2. LAB. 2. Pr. Honors College. This course is an introduction to chemical engineering concepts and approaches to innovation and problem solving. Qualitative overviews are presented for principles and practices of engineering analysis and design, with corresponding hands-on laboratories applying the concepts to processes for roasting and brewing coffee. The course is intended as a free elective for all majors.

CHEN 2100 PRINCIPLES OF CHEMICAL ENGINEERING (4) LEC. 3. LAB. 3. Pr. (CHEM 1110 or CHEM 1117 or CHEM 1030 or CHEM 1033) and (MATH 1610 or MATH 1613 or MATH 1617) and (PHYS 1600 or PHYS 1607) and (P/C CHEM 1120 or P/C CHEM 1127 or P/C CHEM 1040 or P/C CHEM 1043). Application of multicomponent material and energy balances to chemical processes involving phase changes and chemical reactions.

CHEN 2110 CHEMICAL ENGINEERING THERMODYNAMICS (3) LEC. 3. Pr. CHEN 2100 and (P/C PHYS 1600 or P/C PHYS 1607) and (P/C MATH 2630 or P/C MATH 2633 or P/C MATH 2637) and (P/C CHEN 2650). This course is intended to comprehensively introduce the thermodynamics of single- and multi-phase, pure systems, including the first and second laws of thermodynamics, equations of state, simple processes and cycles, and their applications in chemical engineering. CHEN 2100 requires a grade of C or better.

CHEN 2610 TRANSPORT I (3) LEC. 3. Pr. (PHYS 1600 or PHYS 1607) and CHEN 2100 and P/C MATH 2650 and P/C CHEN 2110. CHEN 2100 requires a grade of C or better. Introduction to fluid statics and dynamics; dimensional analysis; compressible and incompressible flows; design of flow systems, introduction to fluid solids transport including fluidization, flow through process media and multiphase flows.

CHEN 2650 CHEMICAL ENGINEERING APPLICATIONS OF MATHEMATICAL TECHNIQUES (3) LEC. 3. Pr. CHEN 2100 and (P/C MATH 2630 or P/C MATH 2637) and P/C MATH 2650 and (COMP 1200 or COMP 1220 or COMP 1230). CHEN 2100 requires a grade of C or better. CHEN 2610 and MATH 2650 are Prerequisites with Concurrency. Application of a broad range of mathematical techniques to chemical engineering problems. Emphasis on engineering significance and interpretation of mathematical operations.

CHEN 2AA0 CHEMICAL ENGINEERING PROGRESS ASSESSMENT I (0) LAB. SU. Pr. CHEN 2100. Progress assessment examination in basic science, general chemistry, physics, basic math principles (geometry, algebra), multivariable calculus, chemical engineering process principles (mass and energy balances). CHEN 2100 requires a grade of C or better. Course may be repeated with change in topics.

CHEN 3370 PHASE AND REACTION EQUILIBRIA (3) LEC. 3. Pr. (MATH 2630 or MATH 2633 or MATH 2637) and CHEN 2110 and CHEN 2100 and CHEN 2650. Molecular thermodynamics of phase and chemical reaction equilibria including non-ideal thermodynamics and multicomponent applications. ((ENGR 2010 or CHEN 2110) and CHEN 2100 require a grade of C or better.)

CHEN 3600 COMPUTER-AIDED CHEMICAL ENGINEERING (3) LEC. 2. LAB. 3. Pr. (COMP 1200 or COMP 1220 or COMP 1230) and MATH 2650 and CHEN 2610 and P/C CHEN 2650 and (MATH 2630 or MATH 2637) and CHEN 2110 and CHEN 2100. CHEN 2650 is prerequisite with concurrency. General and structured programming concepts, numerical methods, and introductory probability and statistics concepts. Application to chemical engineering problems involving material and energy balances and transport process, data validation, and analysis. (CHEN 2100 and (CHEN 2110 or ENGR 2010) and CHEN 2610 all require a grade of C or better.)

CHEN 3620 TRANSPORT II (3) LEC. 3. Pr. CHEN 2110 and CHEN 2610 and MATH 2650 and P/C CHEN 2650. Fundamentals and applications of heat and mass transfer in chemical processes including conduction, convection, and radiation, heat exchange, evaporation, chemical reaction gas absorption, drying and humidification. ((ENGR 2010 or CHEN 2110) and CHEN 2610 require a grade of C or better.)

CHEN 3650 CHEMICAL ENGINEERING ANALYSIS (3) LEC. 2. LAB. 3. Pr. CHEN 2650 and CHEN 3600 and CHEN 3620 and CHEN 2AA0 and MATH 2650 and P/C CHEN 3700. CHEN 2650, CHEN 3600 and CHEN 3620 all require a grade of C or better. Mathematical modeling, analytical, numerical and statistical analysis of chemical processes.

CHEN 3660 CHEMICAL ENGINEERING SEPARATIONS (3) LEC. 3. Pr. CHEN 2100 and CHEN 3370 and CHEN 3620. Separations processes including distillation, extraction, membrane separation, and other separation operations. (CHEN 3370, CHEN 3600, and CHEN 3620 all require a grade of C or better.)

CHEN 3700 CHEMICAL REACTION ENGINEERING (3) LEC. 3. Pr. MATH 2650 and CHEN 2610 and CHEN 2110 and P/C CHEN 3620 and P/C CHEN 3600. Design of chemical reactors with homogeneous reaction systems. CHEN 2610 and (ENGR 2010 or CHEN 2110) require a grade of C or better.

CHEN 3820 CHEMICAL ENGINEERING LABORATORY I (2) LEC. 1. LAB. 3. Pr. CHEN 3600 and CHEN 3620 and MATH 2650. Experimental study of chemical thermodynamics, heat and momentum transfer with analytical, numerical, and statistical analysis. CHEN 3600 and CHEN 3620 require a grade of C or better.

CHEN 3AA0 CHEMICAL ENGINEERING PROGRESS ASSESSMENT II (0) LAB. SU. Pr. CHEN 2AA0 and P/C CHEN 3370 and P/C CHEN 3650 and P/C CHEN 3700 and P/C CHEN 3660 and CHEN 2650. Progress assessment examination in thermodynamics, linear differential equations, organic chemistry, transport phenomena (fluid mechanics, heat, mass transfer), phase and reaction equilibria, reaction engineering, design and conduction of experiments, analysis and interpretation of data, professional, ethical, societal and contemporary issues. CHEN 2650 requires a grade of C or better. Course may be repeated with change in topics.

CHEN 4100 PULP AND PAPER PROCESSING LABORATORY (2) LAB. 6. Pr. CHEN 5090 or Departmental approval. Experimental study of pulping and papermaking operations.

CHEN 4170 DIGITAL PROCESS CONTROL (3) LEC. 3. Pr. (CHEN 3650 or CHEN 3653) and CHEN 3600 and CHEN 3660. Introduction of basic concepts and principles for control system. Analysis of open loop and closed-loop processes using transfer functions. CHEN 3600, CHEN 3650, and CHEN 3660 all require a grade of C or better.

CHEN 4450 PROCESS ECONOMICS AND SAFETY (3) LEC. 2. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3370 and (CHEN 3650 or CHEN 3653) and CHEN 3660 and CHEN 3700 and CHEN 3600. Fundamentals and applications of process economics and design, computer-aided cost estimation, profitability analysis and process improvement. Application of chemical process safety, risk assessment and management, hazard and operability analysis, chemical engineering principles for risk reduction. (CHEN 3370, CHEN 3600, CHEN 3650, CHEN 3660 and CHEN 3700 require a grade of C or better).

CHEN 4460 PROCESS SIMULATION SYNTHESIS AND OPTIMIZATION (2) LEC. 1. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3370 and CHEN 3650 and CHEN 3660 and CHEN 3700 and CHEN 3600. Fundamentals of computer-aided simulation and synthesis. Process integration and optimization principles including their applications in design, retrofitting and operation of chemical processes. (CHEN 3370, CHEN 3600, CHEN 3650, CHEN 3660 and CHEN 3700 require a grade of C or better).

CHEN 4470 PROCESS DESIGN PRACTICE (3) LEC. 2. LAB. 3. Pr. CHEN 3AA0 and CHEN 4450 and CHEN 4460 and CHEN 3650 and CHEN 3660 and CHEN 3700 and PHYS 1610. Flow sheet simulation and techno-economic analysis applied to complex, open-ended chemical processes. Screening of alternatives and economic optimizations. Capstone design course. CHEN 3650, CHEN 3660, and CHEN 3700 all require a grade of C or better.

CHEN 4860 CHEMICAL ENGINEERING LABORATORY II (2) LEC. 1. LAB. 3. Pr. CHEN 3660 and CHEN 3820 and P/C CHEN 3700 and CHEN 3650 and P/C CHEN 4170 and PHYS 1610. Experimental study of mass transfer, separations and reaction engineering. Emphasis is on open-ended laboratory projects with electronic instrumentation; experimental design with numerical and statistical analysis of data. CHEN 3650 requires a grade of C or better.

CHEN 4970 SPECIAL TOPICS IN CHEMICAL ENGINEERING (1-10) AAB. Departmental approval. Topical courses in special areas. Topic must be arranged with instructor during pre-registration. Course may be repeated for a maximum of 10 credit hours.

CHEN 4980 UNDERGRADUATE RESEARCH (1-3) IND. Pr. 3.00 GPA. Departmental approval. GPA of 3.0 or higher and junior standing. Individual and small group projects. Topic must be arranged with instructor during preregistration. Research Report. Course may be repeated for a maximum of 3 credit hours.

CHEN 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

CHEN 5090 PULP AND PAPER TECHNOLOGY (3) LEC. 3. Pr. (ENGR 2010 or CHEN 2110) and (CHEM 1030 or CHEM 1033 or CHEM 1110 or CHEM 1117) and MATH 2650. An introductory course on the technology of pulp and paper manufacturing with emphasis on raw materials, pulping, bleaching, paper making, coating and environmental control. For students with no previous formal pulp and paper background.

CHEN 5110 PULP AND PAPER ENGINEERING (3) LEC. 3. Pr. CHEN 3620 and CHEN 3700 and P/C CHEN 4450. Chemical and engineering principles in the manufacturing of pulp and paper. (CHEN 3620 and CHEN 3700 require a grade of C or better.)

CHEN 5120 SURFACE AND COLLOID SCIENCE (3) LEC. 3. Pr. CHEN 3620 and CHEN 4100. Fundamentals of surface and colloid science with applications in pulping and papermaking, including sizing, retention and drainage, charge measurements, dry/wet strength additives, fillers, colorants, foams, pitch and deposits. (CHEN 3620 and CHEN 4100 require a grade of C or better).

CHEN 5130 INTEGRATED BIOREFINERIES (3) LEC. 3. Pr. CHEN 5090 or CHEN 6090. Departmental approval. Chemical and engineering principles in biomass conversion processes with emphasis on producing value-added materials and chemicals. By the end of the semester students should understand the principles and reasoning behind emerging biorefinery processes integrated to the pulp and paper manufacturing.

CHEN 5410 MACROMOLECULAR SCIENCE AND ENGINEERING (3) LEC. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3370. Statistical mechanics of chain molecules; thermodynamics of polymer solutions; dilute, semi-dilute, and concentrated solutions and gels; polymer physics; scaling concepts in polymer physics; reputation theory (deGennes, Doi, Edwards) and molecular dynamics; phase separations; crystallization of polymers; rubber elasticity theory; mechanical analysis; viscoelasticity; diffusion theory of polymers; surface properties of polymers. (CHEN 3370 requires a grade of C or better.)

CHEN 5420 POLYMER CHEMICAL ENGINEERING (3) LEC. 2. LAB. 3. Pr. (CHEM 2070 or CHEM 2077) and CHEN 3620 and CHEN 5410. Polymer rheology, transport phenomena, thermodynamics, membranes, conducting polymers, surfaces, interfaces and processing. (CHEN 3620 and CHEN 5410 require a grade of C or better).

CHEN 5430 BUSINESS ASPECTS OF CHEMICAL ENGINEERING (3) LEC. 3. Pr., Departmental Approval. The procession of activities required to successfully commercialize and market new chemical-engineering-based technologies to the consumer and process industries.

CHEN 5660 MACROSCALE ASSEMBLY AND APPLICATIONS OF NANOMATERIALS (3) LEC. 3. Departmental approval. Production of macroscopic assemblies and structures from nanomaterials. Processing and applications of inorganic, organic, biological and hybrid nanomaterials.

CHEN 5800 BIOCHEMICAL ENGINEERING (3) LEC. 3. Pr. P/C CHEN 3700. Bioreactor design. Analysis of enzyme and microbial processes. (CHEN 3700 requires a grade of C or better).

CHEN 5810 BIOMEDICAL ENGINEERING (3) LEC. 3. Pr. (CHEM 2080 or CHEM 2087) and P/C CHEN 3620. Application of chemical engineering principles to the study of medical physiology. Human biochemistry, anatomy and physiology, rheological properties of blood and synovial fluid, rheology of cell membranes. Biomedical fluid mechanics and heat and mass transfer.

CHEN 5970 ADVANCED SPECIAL TOPICS IN CHEMICAL ENGINEERING (1-6) LEC. Departmental approval. Topical courses in areas for advanced undergraduate and graduate students. Topics must be arranged with instructor during preregistration. Course may be repeated for a maximum of 24 credit hours.

CHEN 6090 PULP AND PAPER TECHNOLOGY (3) LEC. 3. An introductory graduate level course on the technology of pulp and paper manufacturing with emphasis on raw materials, pulping, bleaching, paper making, coating and environmental control. For students with no previous formal pulp and paper background.CHEN Department Approval and Alabama Center for Paper and Bioresource Engineering Director approval.

CHEN 6110 PULP AND PAPER ENGINEERING (3) LEC. 3. Chemical and engineering principles in the manufacturing of pulp and paper.

CHEN 6130 INTEGRATED BIOREFINERIES (3) LEC. 3. Pr. CHEN 5090 or CHEN 6090. Departmental approval. Chemical and engineering principles in biomass conversion processes with emphasis on producing value-added materials and chemicals. By the end of the semester students should understand the principles and reasoning behind emerging biorefinery processes integrated to the pulp and paper manufacturing.

CHEN 6410 MACROMOLECULAR SCIENCE AND ENGINEERING (3) LEC. 3. Statistical mechanics of chain molecules; thermodynamics of polymer solutions; dilute, semi-dilute, and concentrated solutions and gels; polymer physics; scaling concepts in polymer physics; reptation theory (deGennes, Doi, Edwards) and molecular dynamics; phase separations; crystallization of polymers; rubber elasticity theory; mechanical analysis; viscoelasticity; diffusion theory of polymers; surface properties of polymers.

CHEN 6660 MACROSCALE ASSEMBLY AND APPLICATIONS OF NANOMATERIALS (3) LEC. 3. Production of macroscopic assemblies and structures from nanomaterials. Processing and applications of inorganic, organic, biological and hybrid nanomaterials. Or departmental approval. May count either CHEN 6660 or CHEN 6666.

CHEN 6800 BIOCHEMICAL ENGINEERING (3) LEC. 3. Bioreactor design. Analysis of enzyme and microbial processes.

CHEN 6810 BIOMEDICAL ENGINEERING (3) LEC. 3. Application of chemical engineering principles to the study of medical physiology. Human biochemistry, anatomy, and physiology, rheological properties of blood and synovial fluid, rheology of cell membranes. Biomedical fluid mechanics and heat and mass transfer.

CHEN 6970 ADVANCED SPECIAL TOPICS IN CHEMICAL ENGINEERING (1-6) DSL. Departmental approval. Topical courses in areas for advanced undergraduate and graduate students. Topics must be arranged with instructor during preregistration. Course may be repeated for a maximum of 24 credit hours.

CHEN 7100 TRANSPORT PHENOMENA (3) LEC. 3. Principles of heat, mass and momentum transport in application of intermediate complexity. Mathematical analysis of transport problems.

CHEN 7110 CHEMICAL ENGINEERING ANALYSIS AND ADVANCED TRANSPORT PHENOMENA (3) LEC. 3. Pr. CHEN 7100 or CHEN 7106. Analytical solutions of ordinary and partial differential equations pertaining to transport phenomena and other areas of chemical engineering.

CHEN 7200 CHEMICAL ENGINEERING THERMODYNAMICS (3) LEC. 3. Chemical reaction and phase equilibrium applied to chemical engineering problems. Properties of multicomponent real gases, liquids, and solids and property relationships. Criteria for thermodynamic equilibrium and stability, molecular thermodynamics.

CHEN 7250 CHEMICAL REACTION ENGINEERING (3) LEC. 3. Pr. P/C CHEN 7100 or P/C CHEN 7106. Analysis and design of homogeneous and heterogeneous chemical reactors. Physicochemical factors and analysis of non-ideal chemical reactor behavior.

CHEN 7900 INDEPENDENT STUDY (1-10) DSL/IND. SU. Departmental approval. Supervised study in specialized areas of chemical engineering. Topic must be arranged with instructor during pre-registration. Course may be repeated for a maximum of 20 credit hours.

CHEN 7950 GRADUATE SEMINAR (1) SEM. 1. SU. Seminar. Course may be repeated for a maximum of 12 credit hours.

CHEN 7970 ADVANCED SPECIAL TOPICS IN CHEMICAL ENGINEERING (1-6) DSL. Departmental approval. Topical courses for graduate students. Topics must be arranged with instructor during preregistration. Course may be repeated for a maximum of 12 credit hours.

CHEN 7990 RESEARCH AND THESIS (1-20) MST. Credit hours to be arranged. Course may be repeated with change in topics.

CHEN 8990 RESEARCH AND DISSERTATION (1-20) DSR. Credit hours to be arranged. Course may be repeated with change in topics.

Chemistry - CHEM

Courses

CHEM 1010 SURVEY OF CHEMISTRY I (3) LEC. 3. Science Core. Survey of important topics from general and organic chemistry. Atomic and bonding theory, chemical reactions and stoichiometry, gas laws, solutions, acids and bases, hydrocarbons, alcohols, ethers and amines.

CHEM 1011 SURVEY OF CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 1010. Science Core. Laboratory experiments emphasizing course material in CHEM 1010.

CHEM 1020 SURVEY OF CHEMISTRY II (3) LEC. 3. Pr. CHEM 1010. Science Core. Survey of important topics from organic and biochemistry. Aldehydes and ketones, carboxylic acids, carbohydrates, lipids, proteins, enzymes, extracellular fluids, metabolism, nucleic acids, radioactivity.

CHEM 1021 SURVEY OF CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 1020 and CHEM 1011. Science Core. Laboratory experiments emphasizing course material in CHEM 1020.

CHEM 1030 FUNDAMENTALS CHEMISTRY I (3) DSL/LEC. Science Core. Atomic and molecular theory, chemical equations, stoichiometry, gas laws, thermochemistry, bonding, electronic structure, molecular geometries, solids, liquids, properties of solutions, problem-solving techniques. Credit will not be given for both CHEM 1030 and CHEM 1110 or CHEM 1117.

CHEM 1031 FUNDAMENTAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 1030 or P/C CHEM 1033. Science Core. Laboratory experiments emphasizing course material in CHEM 1030. Credit will not be given for both CHEM 1031 and CHEM 1111 or CHEM 1118.

CHEM 1040 FUNDAMENTAL CHEMISTRY II (3) LEC. 3. Pr. CHEM 1030 or CHEM 1033 or CHEM 1110 or CHEM 1117. Science Core. Chemical kinetics; chemical equilibrium; acids and bases; calculations of pH; equilibrium constants and thermodynamical properties; electrochemistry; descriptive chemistry. Credit will not be given for both CHEM 1040 and CHEM 1120 or CHEM 1127.

CHEM 1041 FUNDAMENTAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. (P/C CHEM 1040 or P/C CHEM 1043) and (CHEM 1031 or CHEM 1111 or CHEM 1118). Science Core. Laboratory experiments emphasizing course material in CHEM 1040. Credit will not be given for both CHEM 1041 and CHEM 1121 or CHEM 1128.

CHEM 1110 GENERAL CHEMISTRY I (3) LEC. 3. Pr. P/C MATH 1610 or P/C MATH 1613 or P/C MATH 1617. Science Core. Chemical principles for chemistry and related majors. Atomic and molecular theory, periodicity, chemical reactions, Stoichiometry, gases, thermochemistry, bonding, molecular geometries, liquids, solids, and solutions. Credit will not be given for both CHEM 1110 and CHEM 1030 or CHEM 1117.

CHEM 1111 GENERAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 1110 or P/C CHEM 1117. Science Core. Laboratory experiments emphasizing course material in CHEM 1110. Credit will not be given for both CHEM 1111 and CHEM 1031 or CHEM 1118.

CHEM 1117 HONORS GENERAL CHEMISTRY I (3) LEC. 3. Pr. Honors College. Science Core. General chemistry for students in the honors program. Topics similar to CHEM 1110, but covered in more depth. Credit will not be given for both CHEM 1117 and CHEM 1030 or CHEM 1110.

CHEM 1118 HONORS GENERAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. Honors College. CHEM 1117. Science Core. Laboratory experiments emphasizing course material in CHEM 1117. Credit will not be given for both CHEM 1118 and CHEM 1031 or CHEM 1111.

CHEM 1120 GENERAL CHEMISTRY FOR SCIENTISTS AND ENGINEERS II (3) LEC. 3. Pr. CHEM 1110 or CHEM 1117. Science Core. Continuation of CHEM 1110. Chemical kinetics, chemical equilibrium, acids and bases, thermodynamics, electrochemistry, representative element and transition metal chemistry. Credit will not be given for both CHEM 1120 and CHEM 1040 or CHEM 1127.

CHEM 1121 GENERAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. (P/C CHEM 1120 or P/C CHEM 1127) and (CHEM 1111 or CHEM 1118). Science Core. Laboratory experiments emphasizing course material in CHEM 1120. Credit will not be given for both CHEM 1121 and CHEM 1041 or CHEM 1128.

CHEM 1127 HONORS GENERAL CHEMISTRY II (3) LEC. 3. Pr. Honors College. CHEM 1117. Science Core. General chemistry for students in the honors program. Topics similar to CHEM 1120, but covered in more depth. Credit will not be given for both CHEM 1127 and CHEM 1040 or CHEM 1120.

CHEM 1128 HONORS GENERAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. Honors College. Science Core. Laboratory experiments emphasizing course material in CHEM 1127. Credit will not be given for both CHEM 1128 and CHEM 1041 or CHEM 1121.

CHEM 2030 SURVEY OF ORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or CHEM 1120 or CHEM 1127. Structure, nomenclature and reactions of the functional group classes of organic compounds polymers, and molecules of biological interest. Credit will not be given for both CHEM 2030 and CHEM 2070.

CHEM 2070 ORGANIC CHEMISTRY I (3) LEC. 3. Pr. CHEM 1040 or CHEM 1043 or CHEM 1120 or CHEM 1127. In-depth study of organic chemistry including structure, nomenclature, reactions, reaction mechanisms, stereochemistry, synthesis and spectroscopic structure determination organized by the functional group approach. Considers alkanes, alkenes, alkynes, alkyl halides, alcohols, ethers, and aromatic compounds. Credit will not be given for both CHEM 2070 and CHEM 2030.

CHEM 2071 ORGANIC CHEMISTRY I LABORATORY (1) LAB. 3. Pr. (P/C CHEM 2070 or P/C CHEM 2077) and (CHEM 1041 or CHEM 1128 or CHEM 1121). Laboratory for CHEM 2070.

CHEM 2077 HONORS ORGANIC CHEMISTRY I (3) LEC. 3. Pr. Honors College. Organic chemistry for students in the honors program and Chemistry & Biochemistry majors. Topics similar to CHEM 2070, but covered in more depth. Additional credit will not be given for CHEM 2070. Member of the Honors College or CHEM 1110 with grade of A or B or CHEM 1040 with grade of A.

CHEM 2078 HONORS ORGANIC CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 2070 or P/C CHEM 2077. Laboratory experiments emphasizing course material in CHEM 2077. Additional credit will not be given for CHEM 2071. Course may be repeated for a maximum of 3 credit hours.

CHEM 2080 ORGANIC CHEMISTRY II (3) LEC. 3. Pr. CHEM 2070 or CHEM 2077. Continuation of CHEM 2070. Aldehydes, ketones, amines, carboxylic acids, esters, amides, anhydrides, polymers, carbohydrates and amino acids.

CHEM 2081 ORGANIC CHEMISTRY II LABORATORY (1) LAB. 1. Pr. (CHEM 2070 or CHEM 2077) and (CHEM 2071 or CHEM 2078) and (P/C CHEM 2080 or P/C CHEM 2087). Laboratory for CHEM 2080.

CHEM 2087 HONORS ORGANIC CHEMISTRY II (3) LEC. 3. Pr. Honors College or departmental approval. Organic chemistry for students in the honors program and Chemistry & Biochemistry majors. Topics similar to CHEM 2080, but covered in more depth. Additional credit will not be given for CHEM 2080. Member of the Honors College or CHEM 2077

CHEM 2088 HONORS ORGANIC CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 2080 or P/C CHEM 2087. Laboratory experiments emphasizing course material in CHEM 2087. Additional credit will not be given for CHEM 2081. May count either CHEM 2081 or CHEM 2088. Course may be repeated for a maximum of 3 credit hours.

CHEM 2100 PROFESSIONAL DEVELOPMENT (1) LEC. 1. This course is designed to introduce students to the many opportunities available in chemistry, both as a career choice and while as a student. Students will have the opportunity to investigate available options, will reflect on what career success means to the student, and will chart a pathway to student professional success.

CHEM 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH IN CHEMISTRY (1-3) LAB. SU. Individual problems course. Students will work under the direction of a staff member on some problem of mutual interest. Departmental approval required. Only Freshman or Sophomore. Course may be repeated for a maximum of 6 credit hours.

CHEM 3000 CHEMICAL LITERATURE (1) LEC. 1. Pr. CHEM 2080 or CHEM 2087. Chemical literature with emphasis on primary and secondary sources and the various computer data bases available.

CHEM 3050 ANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or CHEM 1120 or CHEM 1127. Theory and application of volumetric, potentiometric and photometric chemical analysis.

CHEM 3051 ANALYTICAL CHEMISTRY LABORATORY (1) LAB. 3. Pr. P/C CHEM 3050. Analytical techniques applied to chemical analysis.

CHEM 3160 SURVEY OF PHYSICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or (CHEM 1120 or CHEM 1127). The principles of physical chemistry.

CHEM 4070 PHYSICAL CHEMISTRY I (3) LEC. 3. Pr. (CHEM 1040 or CHEM 1120 or CHEM 1127) and (MATH 2630 or MATH 2637) and (MATH 2650 or PHYS 2400) and (PHYS 1610 or PHYS 1617). Principles of chemical thermodynamics, principles of application to problems of chemical interest.

CHEM 4071 PHYSICAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 4070.

CHEM 4080 PHYSICAL CHEMISTRY II (3) LEC. 3. Pr. (CHEM 1040 or CHEM 1120 or CHEM 1127) and (MATH 2630 or MATH 2637) and (MATH 2650 or PHYS 2400) and (PHYS 1610 or PHYS 1617). Principles of quantum mechanics and spectroscopy; application in molecular structure and in statistical thermodynamics.

CHEM 4081 PHYSICAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 4080. Laboratory for CHEM 4080.

CHEM 4100 INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 4080 or CHEM 3160. Principles of inorganic chemistry emphasizing periodic properties, bonding, structure and symmetry, the solid state, acid-base theory and coordination chemistry.

CHEM 4101 INORGANIC CHEMISTRY LABORATORY (1) LAB. 3. Pr. P/C CHEM 4100. Synthesis and characterization of a variety of inorganic compounds.

CHEM 4110 ORGANOMETALLICS AND CATALYSIS (3) LEC. 3. Pr. CHEM 4100. Departmental approval. Survey of organometallic chemistry and catalysis with main group, transition metal, and f-block elements.

CHEM 4130 INSTRUMENTAL ANALYSIS (3) LEC. 3. Pr. P/C CHEM 3050. Fundamental concepts used in instrumental analytical chemistry emphasizing spectrophotometric, electroanalytical and chromatographic analysis.

CHEM 4131 INSTRUMENTAL ANALYSIS LABORATORY (1) LAB. 3. Pr. P/C CHEM 4130. Laboratory for CHEM 4130.

CHEM 4920 CHEMISTRY INTERNSHIP (3) INT. 12. Departmental approval. Application of chemistry concepts and skills in a professional setting. The course may be repeated for a maximum of 6 credit hours.

CHEM 4950 UNDERGRADUATE SEMINAR (1) LEC. 1. Oral presentation and discussion of research in the area of specialization.

CHEM 4980 UNDERGRADUATE RESEARCH IN CHEMISTRY (3) LAB. 9. Departmental approval. This is an individual problem course. Each student will work under the direction of a staff member on some problem of mutual interest. Course may be repeated for a maximum of 9 credit hours.

CHEM 4997 HONORS THESIS (1-3) LEC. 3. Pr. Honors College. Departmental approval. Honors College Members Only; Course may be repeated for a maximum of 6 credit hours.

CHEM 5200 PYTHON PROGRAMMING IN CHEMISTRY (3) LEC. 3. Pr. CHEM 3160 or CHEM 4080. Computer programming in the Python language using specific examples relevant to different branches of chemistry. Emphasizes best practices for collaborative writing, documenting, and validating the program so that it is readable and maintainable.

CHEM 5280 COMPUTATIONAL CHEMISTRY (4) LEC. 3. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEM 4080. Modern computational chemistry including molecular mechanics and quantum mechanical calculations.

CHEM 5450 FOUNDATIONS OF R FOR DBER (3) LEC. 3. R is an open-source statistical software that allows nearly limitless data manipulation, statistical analysis, and advance data visualizations for both the social and physical sciences required for quality research in discipline-based education research (DBER). This course will dedicate approximately one half to learning the basics of coding in R for many common tasks found in DBER (focusing on how to independently find and apply new functions as only a portion of functions can possibly be discussed) and the second half on applying these principles into real data from students' thesis or dissertation (or data can be provided by instructor).

CHEM 6200 PYTHON PROGRAMMING IN CHEMISTRY (3) LEC. 3. Computer programming in the Python language using specific examples relevant to different branches of chemistry. Emphasizes best practices for collaborative writing, documenting, and validating the program so that it is readable and maintainable.

CHEM 6280 COMPUTATIONAL CHEMISTRY (4) LEC. 3. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEM 4080. Modern computational chemistry including molecular mechanics and quantum mechanical calculations.

CHEM 6450 FOUNDATIONS OF R FOR DBER (3) LEC. 3. R is an open-source statistical software that allows nearly limitless data manipulation, statistical analysis, and advance data visualizations for both the social and physical sciences required for quality research in discipline-based education research (DBER). This course will dedicate approximately one half to learning the basics of coding in R for many common tasks found in DBER (focusing on how to independently find and apply new functions as only a portion of functions can possibly be discussed) and the second half on applying these principles into real data from students' thesis or dissertation (or data can be provided by instructor).

CHEM 7100 ADVANCED INORGANIC CHEMISTRY (3) LEC. 3. Departmental approval. Current concepts of inorganic chemistry with an emphasis on theory, structure, bonding and reactivity.

CHEM 7110 PHYSICAL METHODS IN INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Or equivalent. Theory and application of techniques for obtaining information inorganic compounds including magnetism, multinuclear nmr, mass spectrometry, x-ray diffraction, vibrational and electronic spectroscopies.

CHEM 7120 ORGANOMETALLIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Departmental approval. Main group and transition metal organometallic chemistry.

CHEM 7160 ADVANCED TOPICS IN INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Departmental approval. Currently active research areas in inorganic chemistry. Course may be repeated for a maximum of 12 credit hours.

CHEM 7200 PHYSICAL ORGANIC CHEMISTRY (3) LEC. 3. This course will combine the foundations of undergraduate organic chemistry reactions and add to this the physical properties of chemical reactions as affected by real laboratory applications.

CHEM 7210 STRUCTURE ELUCIDATION OF ORGANIC COMPOUNDS (3) LEC. 3. Pr. CHEM 7200 or CHEM 7220. The early stages of this course will focus on the identification of functional groups, saturated, unsaturated and cyclic compounds using IR and NMR spectroscopy, as well as mass spectrometry. Detailed analyses of 1H NMR spectra, i.e., chemical shift, multiplet shape, and coupling constants will demonstrate the power of these methods in ascertaining atom connectivity in simple organic molecules. More advanced two-dimensional NMR techniques such as COSY, HSQC and HMBC will be discussed and used for determining the structures of more complex organic molecules. The determination of absolute and relative stereochemistry using Mosher ester analyses and NOESY, respectively, in chiral molecules will also be covered. Most of the structures that will be discussed and analyzed will be stereochemically complex systems and polycyclic molecules that require a combination of multiple one-dimensional and two-dimensional NMR techniques.

CHEM 7220 ORGANIC REACTIONS (3) LEC. 3. Pr. (CHEM 2070 or CHEM 2073 or CHEM 2077) and (CHEM 2080 or CHEM 2083 or CHEM 2087). Organic reactions are described in the context of oxidation; reduction; C-C, C-N, C-O bond forming; olefination; aldol (and related) condensations; pericyclic, fragmentation, ring-expansion and ring-contraction reactions; and, named organic reactions and their reaction mechanisms and their application to chemical synthesis. Concurrent enrollment with CHEM 7200 is highly recommended.

CHEM 7230 COMPLEX MOLECULE SYNTHESIS (3) LEC. 3. Pr. CHEM 7220. This class is focused on target-oriented chemical synthesis of complex organic molecules. The main objective is to teach students how to use retrosynthetic analysis, a method for disconnecting a complex molecule into simpler starting materials, as well classical and modern organic reactions to plan syntheses of organic compounds that are biologically relevant and important in the development of better pharmaceuticals. During the course of the semester, students will be introduced to important classes of natural products including terpenes, terpenoids, alkaloids, macrolides, polycyclic ethers, as well as designed molecules that are biologically relevant, but not natural products themselves. Identifying key structural components (i.e., retrons), stereogenic centers, and substructures that can be derived from the chiral pool will be emphasized in synthesis planning. All lecture content will come from the current literature, with only manuscripts published in the past 12 months being discussed in class. Students will be responsible for reading Classics in Total Synthesis on their own and tested on the content of this book as well as assigned current literature in class. Emphasis will be placed on identifying economical and streamlined synthetic protocols that can employ cascade or domino reaction sequences.

CHEM 7260 SPECIAL TOPICS IN ORGANIC CHEMISTRY (1-3) LEC. Pr. CHEM 7200. Advanced course in a research area in organic chemistry which is of mutual interest to graduate students and the instructor. Course may be repeated for a maximum of 6 credit hours.

CHEM 7270 SUPRAMOLECULAR CHEMISTRY: SYNTHESIS, STRUCTURES, AND APPLICATIONS (3) ST1. 3. Pr. CHEM 2080. Supramolecular Chemistry bridges organic, inorganic, surface science, and analytical chemistries. It is a topical area that explores synthesis, spatial organization, weak bonding interactions, hydrogen bonding or covalent bonding, and is interest for numerous industrial or pharmacy applications.

CHEM 7300 ADVANCED PHYSICAL CHEMISTRY (3) LEC. 3. Topics of general and current interest; may vary from year to year.

CHEM 7330 CHEMICAL KINETICS (3) LEC. 3. Theoretical and experimental aspects of reaction rates. The mathematics and characterization of chemically reacting systems.

CHEM 7350 QUANTUM AND STATISTICAL MECHANICS (3) LEC. 3. Pr. CHEM 7300. A quantum mechanical and statistical approach to molecular structure and chemistry.

CHEM 7370 SPECIAL TOPICS IN PHYSICAL CHEMISTRY (1-3) LEC. 3. Pr. CHEM 7300. Modern topics in advanced physical chemistry. Course may be repeated for a maximum of 3 credit hours.

CHEM 7380 MOLECULAR SPECTROSCOPY (3) LEC. 3. Pr. CHEM 7300. Theory and application of optical and magnetic resonance spectroscopy.

CHEM 7410 A DBER APPROACH TO TEACHING AND LEARNING IN CHEMISTRY (3) LEC. 3. Pr. CHEM 1030 and CHEM 1040. Discipline-based education research (DBER) theory andtrends, consuming and evaluating DBER research, activelearning in advanced chemistry topics, action research,review of pedagogical tools, assessment. This coursewill be of use to chemistry graduate students aimingfor careers in academia, masters education studentslooking to take a chemistry course for the fulfillmentof their degree requirements, and other fields that wantto know more about evaluating and critiquing current DBERliterature and methods.

CHEM 7500 ADVANCED ANALYTICAL CHEMISTRY (3) LEC. 3. Analytical principles, applications and methods, mathematical interpretations and current developments.

CHEM 7510 ELECTROANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Analytical applications of electrochemistry.

CHEM 7530 ADVANCES IN BIOANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Analytical Chemistry of microfluidic devices and "Lab on a chip." New methods of miniaturization of separations and analysis with emphasis on bioanalytical applications.

CHEM 7540 FLUORESCENCE IN BIOANALYTICAL CHEMISTRY: SPECTROSCOPY AND IMAGING (3) LEC. 3. Pr. CHEM 7500. Modern fluorescence-based bioanalytical methods as well as an advanced study of related literature. Standard approaches such as biosensors, nucleic acid analysis will be covered, as well as modern techniques such as Fluorescence microscopy, FRET, immunoassays, ELISAs and single-molecule detection.

CHEM 7550 PHOTO AND ELECTROCHEMISTRY (3) ST1. The course offers a simultaneous and comprehensive treatment of photochemistry and electrochemistry.

CHEM 7560 MASS SPECTROMETRY: INSTRUMENTATION AND APPLICATIONS (3) LEC. 3. Departmental approval. Several notable developments in mass spectrometry instrumentation platforms have been introduced which has led to significant increase in their implementations to various research and clinical applications. Learning about the fundamental principles of these instrumentation platforms will guide the users in selecting the correct instrument for a specific application. This course is designed to offer such an approach.

CHEM 7610 BIOCHEMISTRY AND BIOPHYSICS TECHNIQUES (3) LEC. 3. Fundamental concepts in biochemistry, molecular microbiology, and principles of physics will be introduced. This will be followed by presentations on the theory and practical application of common biophysical techniques. The techniques discussed will include, but will not be limited to: Raman, NMR, and Mass Spectrometry of biological molecules, X-ray Diffraction, Ion Mobility, Fluorescence Microscopy, Single-Molecule Approaches, EM/Cryo-EM, and Nano-particle techniques.

CHEM 7750 FORMAL PRESENTATIONS IN MODERN CHEMISTRY (1) LEC. 1. Oral presentations skills will be developed with a focus on the dissemination of new discoveries in the field of Chemistry. Course may be repeated for a maximum of 6 credit hours.

CHEM 7930 DIRECTED INDIVIDUAL STUDY (1-15) IND. Credit to be arranged. Course may be repeated for a maximum of 15 credit hours.

CHEM 7950 SEMINAR (1) SEM. 1. SU. Course may be repeated for a maximum of 6 credit hours.

CHEM 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CHEM 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Civil Engineering - CIVL

Courses

CIVL 2010 SURVEYING (3) LEC. 2. LAB. 3. Pr. (ENGR 1110 or ENGR 1113) and (MATH 1610 or MATH 1613 or MATH 1617) and (COMP 1200 or COMP 1220 or COMP 1230). Civil engineering surveying theory and practice including history of land surveys and U.S. datums; field measurements, office calculations and graphical/digital presentation of spatial data.

CIVL 3010 CIVIL ENGINEERING ANALYSIS (4) LEC. 3. LAB. 3. Pr. MATH 2650 and (COMP 1200 or COMP 1220 or COMP 1230) and (ENGR 2050 or ENGR 2053) and STAT 3010. Applications of calculus and ordinary differential equations, numerical methods, vector algebra, and linear algebraic expressions to practical civil engineering problems. Heavy emphasis on computerized techniques and civil engineering software.

CIVL 3110 HYDRAULICS (4) LEC. 3. LAB. 3. Pr. (ENGR 2010 or ENGR 2200) and MATH 2650 and P/C ENGR 2350 and P/C CIVL 3010. Pr. ENGR 2010 is only allowed for students who transfer into Civil Engineering. Students already enrolled in Civil Engineering should take ENGR 2200. Introduction to fluid mechanics, fluid properties, hydrostatics, kinematics, dynamics, energy equation, ideal flow and energy losses. Applications of fluid mechanics, pipe flow, fluid measurements, pumps, open channel flow, dimensional analysis and theory of modeling.

CIVL 3220 WATER AND WASTE TREATMENT (4) LEC. 3. LAB. 3. Pr. CHEM 1040 and BIOL 3200. Fundamentals of potable water treatment and wastewater treatment and disposal. Treatment systems; operation/ process physics, chemistry, and biology; operation and maintenance issues; regulatory requirements. Credit will not be given to students majoring in Civil Engineering.

CIVL 3230 ENVIRONMENTAL ENGINEERING (4) LEC. 3. LAB. 3. Pr. BSEN 3310 or CIVL 3010 or ENGR 2200 and CHEM 1040 or CHEM 1043. Fundamental principles of environmental engineering, including basic environmental chemistry and microbiology; materials and energy balances; diffusion; chemical equilibrium; kinetics; and chemical reaction engineering.

CIVL 3310 GEOTECHNICAL ENGINEERING I (4) LEC. 3. LAB. 3. Pr. (CHEM 1040 or CHEM 1043) and (ENGR 2070 or ENGR 2077). Soil-forming processes, physical properties of soils, subsurface investigations, clay mineralogy, soil classification, permeability, effective stress, consolidation theory, time-settlement analysis, compaction, shear strength, geosynthetics.

CIVL 3410 CONSTRUCTION ENGINEERING (3) LEC. 3. Pr. CIVL 2010 and P/C CIVL 3010. Basic concepts of the construction industry, contractual methods, estimating and scheduling.

CIVL 3510 TRANSPORTATION ENGINEERING (4) LEC. 4. Pr. CIVL 2010 and STAT 3010. Introduction to transportation engineering practice with emphasis on highway facility design, traffic operations, and life-cycle costing.

CIVL 3610 STRUCTURAL ANALYSIS (4) LEC. 3. LAB. 3. Pr. (ENGR 2070 or ENGR 2077) and P/C CIVL 3010. Basic structural analysis of determinate and indeterminate structures, deflections by moment-area and virtual work, influence lines, force method and moment-distribution methods of analysis.

CIVL 3820 CIVIL ENGINEERING MATERIALS (3) LEC. 2. LAB. 3. Pr. P/C CIVL 3310. Introduction to common materials used in construction of civil facilities including highways; aggregate, concrete, asphalt, and steel.

CIVL 4210 WATER AND WASTEWATER TREATMENT AND DESIGN (3) LEC. 3. Pr. CIVL 3230. Departmental approval. The fundamentals of theory, design, and operation of water and wastewater treatment systems are covered.

CIVL 4211 WATER AND WASTEWATER LABORATORY (1) LAB. 3. Pr. CHEM 1040 and BIOL 3200. Coreq. CIVL 4210. Introduction to analytical techniques used to assess water quality. Credit will not be given to students majoring in Civil Engineering.

CIVL 4220 ENVIRONMENTAL ENGINEERING DESIGN (3) LEC. 3. Pr. CIVL 4210 or CIVL 4230. Process design of environmental engineering systems.

CIVL 4230 URBAN HYDRAULIC SYSTEM DESIGN (3) LEC. 3. Pr. CIVL 3230 and CIVL 3110. Engineering approaches to designing and managing urban water supply, sanitary sewer, storm water collection systems and flood control works.

CIVL 4310 GEOTECHNICAL ENGINEERING II (3) LEC. 3. Pr. CIVL 3310. Analysis and design in geotechnical engineering based on principles of soil mechanics and soil behavior. Problems of slope stability, earth pressure and design of earth retaining structures, foundation bearing capacity and settlement.

CIVL 4420 PROJECT MANAGEMENT (3) LEC. 3. Pr. CIVL 3410. Planning and management of construction/engineering projects and organizations, project management techniques, skills, and applications.

CIVL 4490 DESIGN-BUILD PROJECT (3) LEC. 3. Pr. CIVL 4420. Develop a design-build proposal for a civil engineering improvement including engineering study, consideration of alternative designs, and formal written and oral presentation.

CIVL 4500 TRAFFIC ENGINEERING FUNDAMENTALS (3) LEC. 3. Pr. CIVL 3510. The fundamental elements of traffic engineering including traffic operations and traffic control devices.

CIVL 4520 AIRPORT DESIGN (3) LEC. 3. Pr. CIVL 3510. Departmental approval. An analysis of the elements affecting the design of airports including forecasting, runway configuration, capacity analyses, geometric design of runways and taxiways, pavement design and airfield drainage.

CIVL 4530 GEOMETRIC DESIGN (3) LEC. 3. Pr. CIVL 3510. An analysis of the elements affecting the location and design of rural highways, urban highways and arterial streets including design controls and criteria.

CIVL 4590 TRANSPORTATION DESIGN PROJECT (3) LEC. 3. Pr. CIVL 4530. Individual senior design project requiring the development of plans for a roadway over a large land segment: horizontal and vertical curves in accord with State and AASHTO standards; topographic terrain features; historical preservation area; minimum elevation; intersection design; earthwork balance.

CIVL 4600 REINFORCED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 3610. Concrete and reinforcing steel properties; analysis and design of reinforced concrete beams, one-way slabs, columns and footings; anchorage of reinforcement.

CIVL 4650 STRUCTURAL STEEL DESIGN (3) LEC. 3. Pr. CIVL 3610. Steel properties. Design and analysis of structural steel members in tension, compression, shear, flexure and combined compression and flexure. Bolted and welded connections.

CIVL 4690 STRUCTURAL DESIGN PROJECT (3) LEC. 3. Pr. CIVL 4600. Execution of a comprehensive design of a major structure. Emphasis on the design process, creative thinking, analysis, synthesis, teamwork and communications.

CIVL 4960 SPECIAL PROBLEMS (1-3) LEC. Departmental approval. Individual student endeavor under staff supervision involving advanced special problems in civil engineering. Course may be repeated for a maximum of 6 credit hours.

CIVL 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

CIVL 5110 OPEN CHANNEL HYDRAULICS (3) LEC. 3. Pr. CIVL 3110. Application of continuity, energy, and momentum analyses to problems of open channel flow. Topics include rapidly and gradually varied flow, unsteady flow, flood routing, computational methods, design concepts and applications. Credit will not be given for both CIVL 5110 and CIVL 6110/ CIVL 6116.

CIVL 5120 HYDROLOGIC ANALYSIS AND MODELING (3) LEC. 3. Pr. CIVL 3110 and STAT 3010. Hydrologic cycle, hydrologic frequency analysis, precipitation, infiltration, runoff hydrograph, flood routing, urban hydrology, watershed hydrologic modeling, and computer modeling applications. Departmental approval. May count either CIVL 5120 or CIVL 6120.

CIVL 5130 HYDRAULIC DESIGN OF PRESSURIZED SYSTEMS (3) LEC. 3. Pr. CIVL 3110. Pressurized flow applications; pump-pipeline design optimization; multiple reservoir operation; flow measurement/control systems; distribution manifolds; fundamentals of unsteady flows. Departmental approval. May count either CIVL 5130 or CIVL 6130.

CIVL 5150 GROUNDWATER HYDRAULICS (3) LEC. 3. Pr. CIVL 3110. Mechanics of groundwater flow, definitions, conservation of mass, Darcy's law, confined and unconfined flow, steady and transient flow, groundwater transport. Credit will not be given for both CIVL 5150 and CIVL 6150/CIVL 6156.

CIVL 5160 STORMWATER MANAGEMENT AND MODELING (3) LEC. 3. Pr. CIVL 3110. Introduction of current stormwater management practices (e.g., lower impact development and green infrastructures) and polices, rainfall analysis with different inter-event dry period, flood analysis, stormwater runoff hydrograph modeling (rainfall loss, overland flow hydrograph, unit hydrograph theory, and hydrograph routing), stormwater quality modeling (pollutant buildup, washoff, and transport), peak discharge control using detention ponds, and various best management practices for stormwater volume and quality control. May count either CIVL 5160, CIVL 6160, or CIVL 6166.

CIVL 5170 NUMERICAL SOLUTIONS FOR HYDRO-ENVIRONMENTAL APPLICATIONS (3) LEC. 3. Pr. CIVL 3110 and CIVL 3230. Theoretical and numerical solutions of various problems in water resources and environmental engineering using computational tools. Development of simple codes and spreadsheet-based tools for the description and prediction of flows, contaminant spreading, and other relevant processes in natural and built systems. May count either CIVL 5170 or CIVL 6170/6176.

CIVL 5210 CHEMICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3) LEC. 3. Pr. CIVL 3230. Fundamentals of aquatic chemistry as applied to environmental engineering: chemical thermodynamics, acid/base equilibrium, solution/dissolution chemistry, redox equilibrium, and chemical kinetics. Departmental approval. Credit will not be given for both CIVL 5210 and CIVL 6210/CIVL 6216.

CIVL 5230 ENVIRONMENTAL HEALTH ENGINEERING (3) LEC. 3. Application of engineering methodology in environmental health; communicable disease control, insect and rodent control, solid and hazardous wastes, noise, radiological health, legal and administrative considerations, etc. Departmental approval. Credit will not be given for both CIVL 5230 and CIVL 6230/CIVL 6236.

CIVL 5240 AIR POLLUTION (3) LEC. 3. Nature, sources and effects of air pollutants; effects of atmospheric conditions on dispersion; dispersion modeling, theory and design of control devices; legal/ administrative control. Departmental approval. Credit will not be given for both CIVL 5240 and CIVL 6240/CIVL 6246.

CIVL 5250 BIOLOGICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3) LEC. 3. Pr. CIVL 3230. Fundamentals of aquatic biology and microbiology as applied to environmental engineering: microbial growth, microbial metabolism, microbial population dynamics, wastewater treatment microbiology, environmental impacts, toxicity testing, and biomonitoring. Departmental approval. Credit will not be given for both CIVL 5250 and CIVL 6250/CIVL 6256.

CIVL 5260 SURFACE WATER QUALITY MODELING (3) LEC. 3. Pr. CIVL 3230. Water uses and water quality goals, objectives, and criteria of natural aquatic systems. Principles of surface water quality modeling and waste load allocation. Physical, chemical, biological, and hydrological considerations relating to the fate and transport of pollutants in water environment.

CIVL 5330 LANDFILLS (3) LEC. 3. Pr. CIVL 3310. Landfill siting design, construction and operational practices; regulations, terminology, closure regulations and procedures. Credit will not be given for both CIVL 5330 and CIVL 6330/CIVL 6336.

CIVL 5340 GEOSYNTHETICS AND SOIL IMPROVEMENT (3) LEC. 3. Pr. CIVL 3310. Use of geosynthetics in civil engineering design: reinforcement, retaining walls, filtration, slopes, roads and erosion control. Evaluation and testing of geosynthetics. Improvement of soil properties for civil engineering design: principles and practice of densification, grouting, reinforcement, stone columns, soil nailing. Credit will not be given for both CIVL 5340 and CIVL 6340/CIVL 6346.

CIVL 5350 EARTH RETAINING STRUCTURES (3) LEC. 3. Pr. CIVL 3310. Analysis and design of earth retaining structures. Shear strength; earth pressure theory; gravity, mechanically stabilized, flexible sheet, and anchored structures. May count either CIVL 5350 or CIVL 6350/CIVL 6356.

CIVL 5410 GEOGRAPHIC INFORMATION SYSTEMS IN CIVIL ENGINEERING (3) LEC. 3. Pr. CIVL 2010. Departmental approval. Basic principles and the development of geographic information systems and practical experiences in the field of civil engineering. Credit will not be given for both CIVL 5410 and CIVL 6410.

CIVL 5420 CONSTRUCTION PROJECT SCHEDULING AND CONTROL (3) LEC. 3. Pr. CIVL 3410 and CIVL 4420. Principles related to planning, scheduling and control of civil engineering projects. Deterministic and probabilistic methods of scheduling, resource usage optimization. May count either CIVL 5420 or CIVL 6420.

CIVL 5430 CONSTRUCTION SAFETY AND HEALTH MANAGEMENT (3) LEC. 3. Pr. CIVL 3410. Departmental approval. Various causes of construction accidents and adopted strategies for preventing worksite injuries and illness are investigated. Emphasis on OSHA standards, insurance, and health and safety hazards. Credit will not be given for both CIVL 5430 and CIVL 6430/CIVL 6436.

CIVL 5440 CONSTRUCTION EQUIPMENT AND METHODS (3) LEC. 3. Pr. CIVL 3410. Selection of equipment for heavy construction operations, production rates, owning and operating costs, fleet management. May count either CIVL 5440 or CIVL 6440/CIVL 6446.

CIVL 5450 EROSION AND SEDIMENT CONTROL TECHNOLOGIES IN CONSTRUCTION (3) LEC. 3. Pr. CIVL 3410. Process of erosion, sediment transport, and sedimentation along with strategies adopted to prevent and manage erosion on construction sites. May count either CIVL 5450 or CIVL 6450.

CIVL 5460 PROJECT ESTIMATING (3) LEC. 3. Pr. CIVL 3410. Conceptual and definitive estimates, overhead and profit determination; claim change order pricing. May count either CIVL 5460 or CIVL 6460.

CIVL 5480 LEGAL ASPECTS OF CIVIL ENGINEERING PRACTICE (3) LEC. 3. Pr. CIVL 3410. Covered is the law of contracts, agency, association, property, and labor law, studied generally and in the context that the practicing civil engineer encounters them. Departmental approval. May count either CIVL 5480 or CIVL 6480/CIVL 6486.

CIVL 5500 TRAFFIC ENGINEERING ANALYSIS (3) LEC. 3. Pr. CIVL 3510. Capacity analysis of rural and suburban highways, 2-lane highways, freeways, weaving sections, ramps and intersections. May count either CIVL 5500 or CIVL 6500/CIVL 6506.

CIVL 5510 TRAFFIC CONTROL SYSTEMS DESIGN (3) LEC. 3. Pr. CIVL 3510 and STAT 3010. Fundamental design concepts for highway traffic control systems. Control requirements and warrants; hardware operation and equipment selection; development and implementation of timing plans for isolated intersections and intersection networks. May count either CIVL 5510 or CIVL 6510/CIVL 6516.

CIVL 5560 PLANNING FOR MULTIMODAL TRANSPORTATION SYSTEMS (3) LEC. 3. Pr. CIVL 3510 and STAT 3010. The planning process for urban and regional transportation development. Topics include planning objectives and data requirements; planning inventories; modeling of trip-making behavior, development and evaluation of alternate plans; multimodal applications, including railway operations.

CIVL 5580 INTELLIGENT TRANSPORTATION SYSTEMS (3) LEC. 3. Pr. CIVL 3510. Departmental approval. Introduction to intelligent transportation systems, covering applications of information and communication technologies to transportation, with emphasis on operations of traffic management and traveler information systems. Credit will not be given for both CIVL 5580 and CIVL 6580/CIVL 6586.

CIVL 5600 ADVANCED REINFORCED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 4600. Analysis and design of continuous beams and one-way slabs, bond and development length, torsion, slenderness effects in columns, two-way slabs, footings, and retaining walls. May count either CIVL 5600 or CIVL 6600/CIVL 6606.

CIVL 5620 PRESTRESSED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 4600. Properties and behavior of pre-stressed concrete, pre-stressing systems and end anchorages, analysis and design of beams for flexure and shear, camber and deflection, cable lay-out, pre-stressed concrete slabs. May count either CIVL 5620 or CIVL 6620/CIVL 6626.

CIVL 5630 ADVANCED CONCRETE MATERIALS (3) LEC. 3. Pr. CIVL 3820. Comprehensive coverage of concrete materials. Topics include cement and aggregate properties; concrete microstructure; mechanical properties; supplementary cementing materials; chemical admixtures; durability issues; special concretes. May count either CIVL 5630 or CIVL 6630/CIVL 6636.

CIVL 5640 STRUCTURAL MASONRY DESIGN (3) LEC. 3. Pr. CIVL 4600. Properties of masonry component materials; behavior and design of unreinforced and reinforced masonry assemblages and structures. May count either CIVL 5640 or CIVL 6640/CIVL 6646.

CIVL 5650 ADVANCED STEEL DESIGN (3) LEC. 3. Pr. CIVL 4650. Composite construction, open web joists, torsion, plate girders, plastic analysis and design, highway bridges, computer applications. May count either CIVL 5650 or CIVL 6650/CIVL 6656.

CIVL 5660 BRIDGE ENGINEERING (3) LEC. 3. Pr. CIVL 4600 and CIVL 4650. The modern approach to design, evaluation, and rehabilitation of bridges, including design of abutments, piers, concrete deck slabs, non-composite and composite steel girders, and prestressed concrete girders.

CIVL 5670 ADVANCED STRUCTURAL ANALYSIS (3) LEC. 3. Pr. CIVL 3610. Analysis of continuous beams and frames by slope-deflection method. Analysis of beams, trusses, grids, and frames by direct stiffness method. Buckling of planar frames. Use of structural analysis software. May count either CIVL 5670 or CIVL 6670/CIVL 6676.

CIVL 5690 TIMBER DESIGN (3) LEC. 3. Pr. CIVL 3610. Properties and behavior of timber and plywood; design of timber beams, columns, floor and wall assemblies and wood formwork; timber trusses and laminated arches. May count either CIVL 5690 or CIVL 6690/CIVL 6696.

CIVL 5700 DESIGN FOR LATERAL LOADS (3) LEC. 3. Pr. CIVL 3610 and (CIVL 4600 or CIVL 4650). Wind meteorology and loadings, effects of wind loadings, building code wind pressures and load provisions, fundamentals of structural vibrations, earthquake characteristics and loadings, building code earthquake provisions, building lateral load resisting systems. May count either CIVL 5700 or CIVL 6700/CIVL 6706.

CIVL 5710 STRUCTURAL REPAIR (3) LEC. 3. Pr. CIVL 4600. Evaluation of causes of distress; condition; repair materials; methods of repair; protection methods; and structural strengthening in structural concrete applications. May count either CIVL 5710 or CIVL 6710/ CIVL 6716.

CIVL 5720 RELIABILITY OF STRUCTURES (3) LEC. 3. Pr. CIVL 4600 or CIVL 4650. Reliability-based methods of structural analysis including review of probability and statistics, reliability analysis methods, development of design codes, load and resistance models, system reliability, and practical applications. May count either CIVL 5720 or CIVL 6720/6726.

CIVL 5810 PAVEMENT DESIGN AND CONSTRUCTION (3) LEC. 3. Pr. CIVL 3820 and CIVL 3310 and CIVL 3510. General concepts, traffic factors, material characterization, layer thickness selection, earthwork, base and sub-base construction, surface course construction, quality control/assurance. May count either CIVL 5810 or CIVL 6810/CIVL 6816.

CIVL 5820 DESIGN AND PRODUCTION OF ASPHALT PAVING MIXTURES (3) LEC. 2. LAB. 3. Pr. CIVL 3820. Selection and optimization of component materials based on physical properties, specification criteria, performance expectations, and costs. Production and quality assurance. May count either CIVL 5820 or CIVL 6820.

CIVL 5970 CIVIL ENGINEERING SPECIAL TOPICS (3) LEC. 3. Special topics of an advanced undergraduate nature pertinent to civil engineering. Specific prerequisites will be announced for each course offering. Credit will not be given for both CIVL 5970 and CIVL 6970. Course may be repeated for a maximum of 6 credit hours.

CIVL 6110 OPEN CHANNEL HYDRAULICS (3) LEC. 3. Pr. CIVL 3110. Application of continuity, energy, and momentum analyses to problems of open channel flow. Topics include rapidly and gradually varied flow, unsteady flow, flood routing, computational methods, design concepts and applications. Credit will not be given for both CIVL 5110 and CIVL 6110/CIVL 6116.

CIVL 6120 HYDROLOGIC ANALYSIS AND MODELING (3) LEC. 3. Pr. CIVL 3110 and STAT 3110. Departmental approval. Hydrologic cycle, hydrologic frequency analysis, precipitation, infiltration, runoff hydrograph, flood routing, urban hydrology, watershed hydrologic modeling, and computer modeling applications.

CIVL 6130 HYDRAULIC DESIGN OF PRESSURIZED SYSTEMS (3) LEC. 3. Pr. CIVL 3110. Pressurized flow applications; pump-pipeline design optimization; multiple reservoir operation; flow measurement/control systems; distribution manifolds; fundamentals of unsteady flows. Departmental approval. May count either CIVL 5130 or CIVL 6130.

CIVL 6150 GROUNDWATER HYDRAULICS (3) LEC. 3. Pr. CIVL 3110. Mechanics of groundwater flow, definitions, conservation of mass, Darcy's law, confined and unconfined flow, steady and transient flow, groundwater transport. May count either CIVL 5150 or CIVL 6150/CIVL 6156.

CIVL 6160 STORMWATER MANAGEMENT AND MODELING (3) LEC. 3. Introduction of current stormwater management practices (e.g., lower impact development and green infrastructures) and polices, rainfall analysis with different inter-event dry period, flood analysis, stormwater runoff hydrograph modeling (rainfall loss, overland flow hydrograph, unit hydrograph theory, and hydrograph routing), stormwater quality modeling (pollutant buildup, washoff, and transport), peak discharge control using detention ponds, and various best management practices for stormwater volume and quality control. Approval by the instructor (e.g., undergraduate hydraulics).

CIVL 6170 NUMERICAL SOLUTIONS FOR HYDRO-ENVIRONMENTAL APPLICATIONS (3) LEC. 3. Pr. CIVL 3110 and CIVL 3230. Theoretical and numerical solutions of various problems in water resources and environmental engineering using computational tools. Development of simple codes and spreadsheet-based tools for the description and prediction of flows, contaminant spreading, and other relevant processes in natural and built systems. May count either CIVL 5170 or CIVL 6170/6176.

CIVL 6210 CHEMICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3) LEC. 3. Pr. CIVL 3230. Fundamentals of aquatic chemistry as applied to environmental engineering: chemical thermodynamics, acid/ base equibrium, solution/dissolution chemistry, redox equilibrium, and chemical kinetics. Departmental approval. Credit will not be given for both CIVL 5210 and CIVL 6210/CIVL 6216.

CIVL 6230 ENVIRONMENTAL HEALTH ENGINEERING (3) LEC. 3. Application of engineering methodology in environmental health; communicable disease control, insect and rodent control, solid and hazardous wastes, noise, radiological health, legal and administrative considerations, etc. Departmental approval. Credit will not be given for both CIVL 5230 and CIVL 6230/CIVL 6236.

CIVL 6240 AIR POLLUTION (3) LEC. 3. Nature, sources and effects of air pollutants; effects of atmospheric conditions on dispersion; dispersion modeling theory and design of control devices; legal/administrative control. Departmental approval. Credit will not be given for both CIVL 5240 and CIVL 6240/CIVL 6246.

CIVL 6250 BIOLOGICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3) LEC. 3. Pr. CIVL 3230. Fundamentals of aquatic biology and microbiology as applied to environmental engineering: microbial growth, microbial metabolism, microbial population dynamics, wastewater treatment microbiology, environmental impacts, toxicity testing, and biomonitoring. Departmental approval. Credit will not be given for both CIVL 5250 and CIVL 6250/CIVL 6256.

CIVL 6260 SURFACE WATER QUALITY MODELING (3) LEC. 3. Water uses and water quality goals, objectives, and criteria of natural aquatic systems. Principles of surface water quality modeling and waste load allocation. Physical, chemical, biological, and hydrological considerations relating to the fate and transport of pollutants in water environment

CIVL 6330 LANDFILLS (3) LEC. 3. Pr. CIVL 3310. Landfill siting design, construction and operational practices; regulations, terminology, closure regulations and procedures. Credit will not be given for both CIVL 5330 and CIVL 6330/CIVL 6336.

CIVL 6340 GEOSYNTHETICS AND SOIL IMPROVEMENT (3) LEC. 3. Pr. CIVL 3310. Use of geosynthetics in civil engineering design: reinforcement, retaining walls, filtration, slopes, roads and erosion control. Evaluation and testing of geosynthetics. Improvement of soil properties for civil engineering design: principles and practice of densification, grouting, reinforcement, stone columns, soil nailing. Credit will not be given for both CIVL 5340 and CIVL 6340/CIVL 6346.

CIVL 6350 EARTH RETAINING STRUCTURES (3) LEC. 3. Pr. CIVL 3310. Analysis and design of earth retaining strictures. Shear strength; earth pressure theory; gravity, mechanically stabilized, flexible sheet, and anchored structures. May count either CIVL 5350 or CIVL 6350/CIVL 6356.

CIVL 6410 GEOGRAPHIC INFORMATION SYSTEMS IN CIVIL ENGINEERING (3) LEC. 3. Pr. CIVL 2010. Departmental approval. Basic principles and the development of geographic information systems and practical experiences in the field of civil engineering. Credit will not be given for both CIVL 5410 and CIVL 6410.

CIVL 6420 CONSTRUCTION PROJECT SCHEDULING AND CONTROL (3) LEC. 3. Pr. CIVL 3410 and CIVL 4420. Principles related to planning, scheduling and control of civil engineering projects. Deterministic and probabilistic methods of scheduling, resource usage optimization. May count either CIVL 5420 or CIVL 6420.

CIVL 6430 CONSTRUCTION SAFETY (3) LEC. 3. Pr. CIVL 3410. Departmental approval. Various causes of construction accidents and adopted strategies preventing worksite injuries and illnesses are investigated. Emphasis on OSHA standards, insurance, and health and safety hazards. Credit will not be given for both CIVL 5430 and CIVL 6430/CIVL 6436.

CIVL 6440 CONSTRUCTION EQUIPMENT AND METHODS (3) LEC. 3. Pr. CIVL 3410. Selection of equipment for heavy construction operations, production rates, owning and operating costs, fleet management. May count either CIVL 5440 or CIVL 6440/CIVL 6446.

CIVL 6450 EROSION AND SEDIMENT CONTROL TECHNOLOGIES IN CONSTRUCTION (3) LEC. 3. Pr. CIVL 3410. Process of erosion, sediment transport, and sedimentation along with strategies adopted to prevent and manage erosion on construction sites. May count either CIVL 5450 or CIVL 6450.

CIVL 6460 PROJECT ESTIMATING (3) LEC. 3. Pr. CIVL 3410. Conceptual and definitive estimates, overhead and profit determination; claim change order pricing. May count either CIVL 5460 or CIVL 6460.

CIVL 6480 LEGAL ASPECTS OF CIVIL ENGINEERING PRACTICE (3) LEC. 3. Pr. CIVL 3410. Covered is the law of contracts, agency, association, property, and labor law, studied generally and in the context that the practicing civil engineer encounters them. Departmental approval. May count either CIVL 5480 or CIVL 6480/CIVL 6486.

CIVL 6500 TRAFFIC ENGINEERING ANALYSIS (3) LEC. 3. Pr. CIVL 3510. Capacity analysis of rural and suburban highways, 2-lane highways, freeways, weaving sections, ramps and intersections. May count either CIVL 5500 or CIVL 6500/CIVL 6506.

CIVL 6510 TRAFFIC CONTROL SYSTEMS DESIGN (3) LEC. 3. Pr. CIVL 3510 and STAT 3010. Fundamental design concepts for highway traffic control systems. Control requirements and warrants: hardware operation and equipment selection; development and implementation of timing plans for isolated intersections and intersection networks. May count either CIVL 5510 or CIVL 6510/CIVL 6516.

CIVL 6560 PLANNING FOR MULTIMODAL TRANSPORTATION SYSTEMS (3) LEC. 3. Pr. CIVL 3510 and STAT 3010. The planning process for urban and regional transportation development. Topics include planning objectives and data requirements; planning inventories; modeling of trip-making behavior, development and evaluation of alternate plans; multimodal applications, including railway operations. Departmental approval. May count either CIVL 5560.

CIVL 6580 INTELLIGENT TRANSPORTATION SYSTEMS (3) LEC. 3. Pr. CIVL 3510. Introduction to intelligent transportation systems, covering applications of information and communications technologies to transportation, with emphasis on operations of traffic management and traveler information systems. Departmental approval. May count either CIVL 5580 or CIVL 6580/CIVL 6586.

CIVL 6600 ADVANCED REINFORCED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 4600. Analysis and design of continuous beams and one-way slabs, bond and development length, torsion, slenderness effects in columns, two-way slabs, footings, and retaining walls. May count either CIVL 5600 or CIVL 6600/CIVL 6606.

CIVL 6620 PRESTRESSED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 4600. Properties and behavior of pre-stressed concrete, pre-stressing systems and end anchorages, analysis and design of beams for flexure and shear, camber and deflection, cable layout, pre-stressed concrete slabs. May count either CIVL 5620 or CIVL 6620/CIVL 6626.

CIVL 6630 ADVANCED CONCRETE MATERIALS (3) LEC. 3. Pr. CIVL 3820. Comprehensive coverage of concrete materials. Topics include cement and aggregate properties; concrete microstructure; mechanical properties; supplementary cementing materials, chemical admixtures; durability issues; special concretes. May count either CIVL 5630 or CIVL 6630/CIVL 6636.

CIVL 6640 STRUCTURAL MASONRY DESIGN (3) LEC. 3. Pr. CIVL 4600. Properties of masonry component materials; behavior and design of unreinforced and reinforced masonry assemblages and structures. May count either CIVL 5640 or CIVL 6640/CIVL 6646.

CIVL 6650 ADVANCED STEEL DESIGN (3) LEC. 3. Pr. CIVL 4650. Composite construction, open web joists, torsion, plate girders, plastic analysis and design, highway bridges, computer applications. May count either CIVL 5650 or CIVL 6650/CIVL 6656.

CIVL 6660 BRIDGE ENGINEERING (3) LEC. 3. Pr. CIVL 4600 and CIVL 4650. The modern approach to design, evaluation, and rehabilitation of bridges, including design of abutments, piers, concrete deck slabs, non-composite and composite steel girders, and prestressed concrete girders. May count either CIVL 5660 or CIVL 6660/6666

CIVL 6670 ADVANCED STRUCTURAL ANALYSIS (3) LEC. 3. Pr. CIVL 3610. Analysis of continuous beams and frames by slope-deflection method. Analysis of beams, trusses, grids, and frames by direct stiffness method. Buckling of planar frames. Use of structural analysis software. May count either CIVL 5650 or CIVL 6650/CIVL 6656.

CIVL 6690 TIMBER DESIGN (3) LEC. 3. Pr. CIVL 3610. Properties and behavior of timber and plywood; design of timber beams, columns, floor and wall assemblies and wood formwork; timber trusses and laminated arches. May count either CIVL 5690 or CIVL 6690/CIVL 6696.

CIVL 6700 DESIGN FOR LATERAL LOADS (3) LEC. 3. Pr. CIVL 3610 and (CIVL 4600 or CIVL 4650). Wind meteorology and loadings, effects of wind loadings, building code wind pressures and load provisions, fundamentals of structural vibrations, earthquake characteristics and loadings, building code earthquake provisions, building lateral load resisting systems. May count either CIVL 5700 or CIVL 6700/CIVL 6706.

CIVL 6710 STRUCTURAL REPAIR (3) LEC. 3. Pr. CIVL 4600. Evaluation of causes of distress; condition; repair materials; methods of repair; protection methods; and structural strengthening in structural concrete applications. May count either CIVL 5710 or CIVL 6710/ CIVL 6716.

CIVL 6720 RELIABILITY OF STRUCTURES (3) LEC. 3. Pr. CIVL 4600 or CIVL 4650. Reliability-based methods of structural analysis including review of probability and statistics, reliability analysis methods, development of design codes, load and resistance models, system reliability, and practical applications. May count either CIVL 5720 or CIVL 6720/6726.

CIVL 6810 PAVEMENT DESIGN AND CONSTRUCTION (3) LEC. 3. Pr. CIVL 3820 and CIVL 3310 and CIVL 3510. General concepts, traffic factors, material characterization, layer thickness selection, earthwork, base and sub-base construction, surface course construction quality control/assurance. May count either CIVL 5810 or CIVL 6810/CIVL 6816.

CIVL 6820 DESIGN AND PRODUCTION OF ASPHALT PAVING MIXTURES (3) LEC. 2. LAB. 3. Pr. CIVL 3820. Selection and optimization of component materials based on physical properties, specification criteria, performance expectations, and costs. Production and quality assurance. May count either CIVL 5820, CIVL 6820 or CIVL 6826.

CIVL 6970 CIVIL ENGINEERING SPECIAL TOPICS (3) LEC. 3. Departmental approval. Special topics of an advanced undergraduate nature pertinent to civil engineering. Specific prerequisites will be announced for each course offering. Credit will not be given for both CIVL 5970 and CIVL 6970. Course may be repeated for a maximum of 6 credit hours.

CIVL 7120 HYDROLOGIC MODELING (3) LEC. 3. Pr. (CIVL 6110 or CIVL 6116). Principles and practice of hydrologic modeling, introduction to hydrologic information systems, computer modeling of storm run-off, floodplain hydraulics and bridge hydraulics. Computer applications.

CIVL 7130 SOCIAL-ECOLOGICAL-ENGINEERED SYSTEMS (3) LEC. 3. This course explores foundational scholarship on the Social-Ecological Systems (SES) approach to understanding complex environmental problems with emphasis on the role of engineering in human interactions with natural systems. Students are expected to apply SES concepts and theories to analyses in their own areas of research. Note: This class is intended to be cross-listed with ESSI 7300.

CIVL 7140 ECOHYDROLOGY (3) LEC. 3. Pr. P/C CIVL 6120 or P/C CIVL 6126 or P/C GEOL 6100 or P/C FORY 7550. This course covers current theory, methods, and issues in ecohydrology. Topics include the soil-plant-atmosphere continuum; stochastic modeling of soil moisture; vadose zone hydrology; theory, measurement, and modeling of evapotranspiration; ecological competition in water-limited systems; and current issues and research topics.

CIVL 7170 NUMERICAL METHODS IN HYDRAULICS AND HYDROLOGY (3) LEC. 3. Pr. CIVL 3230. Numerical approximations of ordinary and partial differential equations representing problems common to civil engineering including groundwater flow, soil consolidation, and mass transport. The formulation and computational solution of diffusion and equilibrium problems are emphasized. Computer programming is required.

CIVL 7220 WATER AND WASTEWATER OPERATIONS AND PROCESSES I (3) LEC. 3. Pr. CIVL 3230. Departmental approval. Coreq. CIVL 6210. Physical and chemical principles applied to water and wastewater treatment. Advanced mathematical and modeling concepts.

CIVL 7230 WATER AND WASTEWATER OPERATIONS AND PROCESSES II (3) LEC. 3. Pr. CIVL 7220 or CIVL 7226. Departmental approval. Rigorous analysis of unit operations and processes used in modern water and wastewater treatment systems. Mixing, coagulation, sedimentation, filtration, and chemical precipitation.

CIVL 7250 BIOLOGICAL WASTEWATER TREATMENT (3) LEC. 3. Pr. CIVL 6250 or CIVL 6256. Departmental approval. Development and application of the theories of biological waste treatment.

CIVL 7270 ADVANCED NUMERICAL METHODS FOR SOLVING ENVIRONMENTAL ENGINEERING PROBLEMS (3) LEC. 3. Pr. CIVL 3010. Departmental approval. Basic concepts of finite element (FE) analysis. Development of FE computer codes for solving environmental engineering problems. FE grid generation and visualization methods.

CIVL 7280 SURFACE WATER QUALITY MODELING (3) LEC. 3. Pr. CIVL 3230. Departmental approval. Physical, chemical, biological and hydrological considerations relating to the degradation and self-purification of streams, lakes, and estuaries. Water uses and water quality goals, objectives and criteria. Principles of water quality modeling and waste load allocation.

CIVL 7310 FOUNDATION ENGINEERING (3) LEC. 3. Pr. CIVL 3310 and CIVL 4600. Analysis, design and construction of shallow and deep foundation systems.

CIVL 7330 SOIL PROPERTIES (3) LEC. 3. Pr. CIVL 3310. Soil behavior, shear strength, compressibility, hydraulic conductivity, and measurement of soil properties.

CIVL 7340 SOIL DYNAMICS (3) LEC. 3. Pr. CIVL 3310. Soil behavior during dynamic loads, wave propagation, dynamically loaded foundations, geotechnical earthquake engineering.

CIVL 7360 EARTH SLOPES AND DAMS (3) LEC. 3. Pr. CIVL 3310. Departmental approval. Engineering design of earth slopes, slope stability, cut slopes, embankments, settlement. Dam siting, stability, flownets, seepage analysis.

CIVL 7390 IN SITU TESTING OF SOILS (3) LEC. 3. Pr. CIVL 4310. In situ tests used in geotechnical engineering: test procedures, interpretation of results, and designing from in situ geotechnical data.

CIVL 7420 CONSTRUCTION ENGINEERING PROJECT PLANNING AND CONTROL (3) LEC. 3. Pr. CIVL 4420. Departmental approval. This course covers the processes needed to develop and use project plans and budgets for construction projects. These tools will be used to create different schedules needed for construction planning and monitoring and be able to adjust a project's projection to maximize performance throughout the project lifecycle. This will include the scheduling methods to predict desired outcomes and performance measures to actively gauge project performance.

CIVL 7440 CONSTRUCTION EQUIPMENT PRODUCTIVITY AND ENGINEERING ECONOMICS (3) LEC. 3. Pr. CIVL 4420. Departmental approval. This course will encompass the methods needed to select, use, and manage the proper construction equipment to accomplish different project tasks. This will include using engineering fundamentals to understand the production and efficiency capabilities of equipment and the economic and scheduling impact this will have on the construction project.

CIVL 7460 PRECONSTRUCTION ENGINEERING PROJECT PLANNING (3) LEC. 3. Pr. CIVL 4420. Departmental approval. Construction success starts with the planning process known commonly as Preconstruction. During this phase potential construction projects are considered, studied, planned, designed, scheduled, and budgeted. Project owners often rely on consultants such as construction managers to help evaluated a project idea, the factors associated with the idea becoming a reality, and overseeing the steps from project idea to project construction. The proposed course provides students with the tools needed to be able to oversee project planning and owner assistance to usher the project to completion.

CIVL 7470 ADVANCED ENGINEERING PROJECT MANAGEMENT (3) LEC. 3. Pr. CIVL 4420. Departmental approval. Construction management requires cutting edge methods to coordinate project activities from project inception through project closeout to meet project needs and maintain competitive balance. Project oversight from pre-construction planning, scheduling, and estimating management require constant management and control while sound decision methods are used for best management methods. The proposed course provides students with the tools needed to be able to meet project requirements and result in successful project completion.

CIVL 7540 TRANSPORTATION SAFETY (3) LEC. 3. Pr. CIVL 6500 or CIVL 6506. Departmental approval. Transportation safety problems and the engineer's role in developing and administering safety programs. Topics include hazardous location identification; analysis of accident data; development and evaluation of accident countermeasures and safety programs.

CIVL 7610 STRUCTURAL DYNAMICS I (3) LEC. 3. Pr. CIVL 6670 or CIVL 6676. Single-degree-of-freedom systems, numerical solution techniques, response spectrum, multi-degree-of-freedom systems, eigenproblem solution, mode superposition analysis.

CIVL 7630 ADVANCED STRESS ANALYSIS (3) LEC. 3. Pr. CIVL 3610. Hooke's 1-D, 2-D, 3-D stress-strain relations and applications, stress and strain transformations and Mohr's circle, material properties and failure theories, biaxial bending, unsymmetrical bending, composite material members, shear center, torsional stress, stress concentrations, beams on elastic foundations.

CIVL 7640 STABILITY OF STRUCTURES (3) LEC. 3. Coreq. CIVL 6670. Introduction to stability and failure of compression members, rigid bar buckling, elastic and inelastic buckling of columns, approximate methods of buckling analysis, beam-columns, buckling of frames, torsional buckling, lateral torsional buckling of beams.

CIVL 7660 FINITE ELEMENT METHODS IN STRUCTURAL MECHANICS (3) LEC. 3. Pr. CIVL 6670 or CIVL 6676. Departmental approval. Introduction to finite element analysis; variational principles. 1D, 2D and 3D element formulation; nonlinear (geometric and constitutive) formulations and solutions; eigenvalue problems.

CIVL 7670 NUMERICAL TECHNIQUES IN STRUCTURAL ANALYSIS (3) LEC. 3. Basic concepts of non-linear analyses, formulation of the continuum mechanics incremental equations, total and updated Lagrangian formulations, finite elements for non-linear analyses, non-linear solution strategies.

CIVL 7680 FATIGUE AND FRACTURE MECHANICS (3) LEC. 3. Pr. CIVL 4650. Departmental approval. Linear-elastic and elastic-plastic fracture mechanics, fatigue, yield criteria, applications to highway structures.

CIVL 7720 EARTHQUAKE ENGINEERING (3) LEC. 3. Pr. (CIVL 7610 or CIVL 7616) and (CIVL 5670 or CIVL 6670 or CIVL 6676). Principles of earthquakes and earthquake engineering; Analysis and design of steel and reinforced concrete buildings for earthquakes. May count either CIVL 7720 or CIVL 7726.

CIVL 7820 ADVANCED PAVEMENT DESIGN AND REHABILITATION (3) LEC. 3. Pr. CIVL 7810 or CIVL 7816. Pavement management concepts, life cycle costs analysis, design and rehabilitation alternatives, serviceability concepts, empirical thickness selection models, reliability.

CIVL 7840 PAVEMENT MANAGEMENT AND REHABILITATION (3) LEC. 3. Pr. CIVL 3820. Departmental approval. Topics include: network and project level management, pavement distress surveys, non-destructive testing for condition measurements, flexible and rigid pavement maintenance and rehabilitation practices.

CIVL 7860 PAVEMENT CONSTRUCTION (3) LEC. 3. Pr. CIVL 3820. Operation, quality control and specifications of component construction processes for asphalt and concrete paving; and overview of major rehabilitation strategies.

CIVL 7870 ADVANCED CHARACTERIZATION OF PAVEMENT MATERIALS (3) LEC. 2. LAB. 3. Pr. CIVL 3820. This course introduces theories and procedures for determining fundamental properties of asphalt materials for advanced material evaluation and pavement design.

CIVL 7950 GRADUATE SEMINAR (1) SEM. 1. SU. Course may be repeated for a maximum of 6 credit hours.

CIVL 7970 SPECIAL TOPICS IN CIVIL ENGINEERING (1-3) DSL. Individual student or group endeavor under direct faculty supervision involving special topics of an advanced nature in civil engineering. Course may be repeated for a maximum of 9 credit hours.

CIVL 7980 ENGINEERING PROJECT (1-10) LEC. 1-10. Directed study on an engineering project or research supervised by an individual graduate faculty member. Course may be repeated for a maximum of 10 credit hours.

CIVL 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Credit to be arranged. Course may be repeated for a maximum of 10 credit hours.

CIVL 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Departmental approval. Credit to be arranged. Course may be repeated with change in topics.

Communication - COMM

Courses

COMM 1000 PUBLIC SPEAKING (3) LEC. 3. Oral communication theory and practice in a public speaking setting, with emphasis on content, organization, delivery, and adaptation to the audience.

COMM 1007 HONORS PUBLIC SPEAKING (3) LEC. 3. Pr. Honors College. This course will focus on numerous elements of oral communication - public speaking, group communication and interpersonal communication. This is different from a typical speech class that focuses solely on public speaking. An emphasis will also be placed on debate (forensics).

COMM 2010 COMMUNICATION IN SOCIETY (3) LEC. 3. Learn the foundations of critical thinking and audience analysis for message construction and consumption. Provides groundwork for intermediate and advanced courses. May count either COMM 2010 or COMM 2013.

COMM 2400 INTRODUCTION TO WORKPLACE COMMUNICATION (3) LEC. 3. Learn the introductory principles of workplace communication, such as cultural awareness, collaboration, and professional interaction. May count either COMM 2400 or COMM 2403.

COMM 2407 HONORS INTRODUCTION TO WORKPLACE COMMUNICATION (3) LEC. 3. Learn the introductory principles of workplace communication, such as cultural awareness, collaboration, and professional interaction. May count either COMM 2400 or COMM 2403.

COMM 2410 SMALL GROUP COMMUNICATION (3) LEC. 3. Learn the key principles of small group communication, including leadership, active listening, and conflict management. May count either COMM 2410 or COMM 2413.

COMM 3100 PROFESSIONAL PRESENTATIONS (3) LEC. 3. Pr. COMM 1000 or COMM 1003. Learn advanced public speaking skills for effective presentations, such as analyzing audiences, stylistic adaptation, and delivery techniques.

COMM 3110 PERSUASION (3) LEC. 3. Learn to make messages more persuasive in a variety of communication contexts. Considers theories and practical applications of persuasive messages as students learn and practice effective communication. May count either COMM 3110 or COMM 3113.

COMM 3300 COMMUNICATION AND CONFLICT (3) LEC. 3. Learn and increase mindfulness of important components of conflict in interpersonal relationships. Develop skills in managing conflict in personal and professional relationships. May count either COMM 3300 or COMM 3303.

COMM 3400 ORGANIZATIONAL COMMUNICATION (3) LEC. 3. Learn how communication practices shape organizations by studying topics related to leadership, conflict management, in a variety of contexts including work, non-profits, and religious organizations. May count either COMM 3400 or COMM 3403.

COMM 3450 INTERCULTURAL COMMUNICATION (3) LEC. 3. Learn skills that will prepare you to communicate across a variety of intercultural settings, both personal and professional. Develop an awareness of potential challenges and opportunities when communicating interculturally. May count either COMM 3450 or COMM 3453.

COMM 3500 FOUNDATIONS OF HUMAN COMMUNICATION (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Learn foundational communication theories and how they are applied in various contexts including friendships, romantic relationships, workplaces, and more. May count either COMM 3500 or COMM 3503.

COMM 3510 RESEARCH IN HUMAN COMMUNICATION (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Learn the ins and outs of research to better understand communication processes. Develop an understanding of qualitative methods such as in-depth interviews and quantitative methods such as surveys. May count either COMM 3510 or COMM 3513.

COMM 3600 FOUNDATIONS OF RHETORIC AND SOCIAL INFLUENCE (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Learn rhetorical theory and analysis to understand the creation and consumption of persuasive discourse in our society. Theories covered equip students to be more conscientious of public messages. May count either COMM 3600 or COMM 3603.

COMM 3610 RESEARCH IN RHETORIC AND SOCIAL INFLUENCE (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103). Learn how to apply rhetorical theories of persuasion to better understand how to create and analyze messages in public forums. May count either COMM 3610 or COMM 3613.

COMM 3700 ARGUMENTATION (3) LEC. 3. Learn the foundations of how argument works with a focus on how to create and evaluate persuasive arguments in a variety of contexts and for varied audiences. May count either COMM 3700 or COMM 3703.

COMM 3800 FAMILY COMMUNICATION (3) LEC. 3. Learn the role communication plays in family relationships, including how to evaluate and manage healthy interactions among members. May count either COMM 3800 or COMM 3803.

COMM 3970 SPECIAL TOPICS IN COMMUNICATION (3-6) LEC. Topics that range beyond what is covered in other courses within the COMM curriculum. Specific subject matter is left up to the individual instructor. Course may be repeated for a maximum of 6 credit hours.

COMM 4100 COMMUNICATION STRATEGIES OF SOCIAL MOVEMENTS (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3500 or COMM 3503) and (COMM 3600 or COMM 3603) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. Learn the persuasive strategies used in a variety of social movements to attract members, solidify support, and advocate for social change.

COMM 4410 THEORIES OF LEADERSHIP (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3500 or COMM 3503) and (COMM 3600 or COMM 3603) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Learn and apply communication theories and research to improve leadership skills and processes in organizations.

COMM 4420 COMMUNICATION AND CREATIVITY (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Learn to apply creativity research and communication principles to collaborative environments to generate unique solutions to problems facing organizations. Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV, or Departmental approval. May count either COMM 4420 or COMM 4423.

COMM 4430 COMMUNICATION TRAINING AND CONSULTING (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3500 or COMM 3503) and (COMM 3600 or COMM 3603) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV, or Departmental approval. Learn to apply advanced communication theories to identify and address problems in a variety of organizations to improve workplace environments.

COMM 4480 HEALTH COMMUNICATION CAMPAIGNS (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV, PAOH, or Departmental approval. Learn the theories and skills needed to create compelling health communication campaigns.

COMM 4490 HEALTH MEDIA & COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Must have a declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV, or Departmental approval. Learn the communication principles common to health media, including how media influence how we think, talk, and behave in relation to our health.

COMM 4500 COMMUNICATION AND COGNITION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. Explores theory and research related to cognitive and affective influences on communication in interpersonal and social interactions. May count either COMM 4500 or COMM 4503.

COMM 4700 LEGAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Learn how to identify and apply critical principles of communication to the legal system. Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV, or Departmental approval. May count either COMM 4700 or COMM 4703.

COMM 4800 INTERPERSONAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3500 or COMM 3503) and (COMM 3600 or COMM 3603) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Learn to apply communication practices, goals, and perceptions in the creation and development of friendships, romantic partnerships, and work relationships. Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV, or Departmental approval. May count as either COMM 4800 or COMM 4803.

COMM 4810 NONVERBAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3500 or COMM 3503) and (COMM 3600 or COMM 3613) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. Learn the forms and functions of non-linguistic communication practices in personal and professional contexts.

COMM 4920 INTERNSHIP (3) INT. 200. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3500 or COMM 3503) and (COMM 3600 or COMM 3603) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Opportunity to apply classroom experience to career setting. Internship must be a supervised, closely monitored work experience, appropriate to the major, that takes place in a professional setting. Declared major in COMM. Requires admission to internship program.

COMM 4930 DIRECTED STUDIES IN COMMUNICATION (3) IND. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3500 or COMM 3503) and (COMM 3600 or COMM 3603) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV, or Departmental approval. Independent study on a specific topic of interest not already addressed in any regular COMM course.

COMM 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. COMM 3613. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. Honors level independent study on a specific topic of interest not already addressed in any regular COMM course. Course may be repeated for a maximum of 3 credit hours.

COMM 4997 HONORS THESIS (1-3) IND. Pr. Honors College. COMM 3500 or COMM 3503 and COMM 3600 or COMM 3603. and CMJN 2100 or CMJN 2103. and COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or or COMM 3513 or COMM 3610 or COMM 3613). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. 2.3 GPA. Departmental approval. Course may be repeated for a maximum of 3 credit hours.

COMM 5430 GENDER, WORK, AND COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Learn the history, theory, and concepts central to the study of gender, work, and communication. Builds on organizational communication theories.

COMM 5440 CURRENT PROBLEMS IN ORGANIZATIONAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3500 or COMM 3503) and (COMM 3610 or COMM 3613 or COMM 3510 or COMM 3513). Declared major in AGCO, COMM, JRNL, PRCM, MDIA or MDIV. This course examines current issues in organizations through the lens of cutting edge organizational communication theories.

COMM 5450 COMMUNICATION & IMMIGRATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). History, theory, and concepts central to the study of immigration from a communication perspective. May count either COMM 5450 or COMM 5453.

COMM 5470 HEALTH COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Learn the basics of the health communication field. Students learn and discuss how communication affects health in diverse settings.

COMM 5600 POLITICAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (COMM 3600 or COMM 3603) and (COMM 3500 or COMM 3503) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. Learn the communication strategies involved in the varied contexts of politics. Students will be exposed to relevant theories and ideas and asked to apply this knowledge to current political activity.

COMM 5700 DISCOURSE IN SOCIAL LIFE (3) LEC. 3. Pr. (COMM 3500 or COMM 3503) and (COMM 3600 or COMM 3603) and (COMM 3510 or COMM 3513 or COMM 3610 or COMM 3613). Learn the forms and functions of language in social interaction as they reflect and influence our identity.

COMM 5970 SPECIAL TOPICS IN COMMUNICATION (3) LEC. 3. Pr. COMM 3500 and COMM 3600 and (COMM 3510 or COMM 3610). Topics in Communication. Course may be repeated with a change in topic. Course may be repeated for a maximum of 6 credit hours.

COMM 6300 SEX, GENDER, AND SPORT (3) LEC. 3. Focuses on sport, as a gendered institution. The course examines intersections of gender with age, sexual orientation, social class, gender identity, race and ethnicity and politics.

COMM 6430 GENDER, WORK, AND COMMUNICATION (3) LEC. 3. History, theory, and concepts central to the study of gender, work, and communication.

COMM 6470 HEALTH COMMUNICATION (3) LEC. 3. History, theory, and concepts central to the study and practice of health communication.

COMM 6500 GLOBAL MEDIA (3) LEC. 3. Global media is focused on the complex global dimensions of media production, distribution and reception.

COMM 6600 POLITICAL COMMUNICATION (3) LEC. 3. This course will examine the communication strategies involved in the varied contexts of politics. Students will be exposed to relevant theories and ideas and asked to apply this knowledge to current political activity.

COMM 6700 DISCOURSE IN SOCIAL LIFE (3) LEC. 3. Advanced approaches to examining the challenges, problems, and ideal situations of social interaction in interpersonal, group, and institutional contexts. Graduate students only.

COMM 6800 EVERYDAY TALK AND IDENTITY (3) LEC. 3. Examines the building blocks of interpersonal and small group conversation as they combine to reflect and shape identities of self and others.

COMM 6970 SPECIAL TOPICS IN COMMUNICATION (3) AAB/LEC. 3. Advanced treatment of contemporary topics, trends, current research findings, and opportunities not currently offered in the program. Course may be repeated for credit with change in topic. Course may be repeated for a maximum of 6 credit hours.

COMM 7000 COMMUNICATION THEORY (3) LEC. 3. Critical examination of contemporary theories in communication.

COMM 7010 QUALITATIVE METHODS OF COMMUNICATION RESEARCH (3) LEC. 3. Qualitative research in communication; emphasis on understanding and engaging in a variety of qualitative methods.

COMM 7020 QUANTITATIVE METHODS OF COMMUNICATION RESEARCH (3) LEC. 3. Quantitative research in communication; emphasis on understanding and doing empirical research.

COMM 7100 INSTRUCTIONAL COMMUNICATION THEORY & PRACTICE (3) SEM. 3. History, theory, and concepts central to the study and practice of instructional communication.

COMM 7230 RHETORICAL CRITICISM (3) LEC. 3. Advanced methods in rhetorical criticism, including tools for the analysis of persuasive messages.

COMM 7300 APPROACHES TO STUDYING LANGUAGE AND SOCIAL INTERACTION (3) LEC. 3. Major approaches to studying language and social interaction that collectively make up discourse analysis.

COMM 7410 DEVELOPMENT OF RHETORICAL THEORY (3) LEC. 3. Historical survey of rhetorical theory from ancient to contemporary era; special attention to the role of rhetoric in shaping attitudes towards persuasion.

COMM 7420 SEMINAR IN PERSUASION AND ATTITUDE CHANGE (3) LEC. 3. Critical examination of current theory and research in the persuasive act and its effects.

COMM 7430 SEMINAR IN AMERICAN PUBLIC ADDRESS (3) LEC. 3. Investigation of key issues and debates that have emerged in post-World War II America.

COMM 7440 SEMINAR IN ARGUMENTATION AND DEBATE (3) SEM. 3. Analysis of the fundamental theories of argumentation.

COMM 7450 SEMINAR IN INTRAPERSONAL PROCESSES IN COMMUNICATION (3) SEM. 3. Theories of cognitive and affective processing of information during speaking and listening.

COMM 7460 SEMINAR IN INTERPERSONAL COMMUNICATION (3) SEM. 3. Theories of the structure and function of interpersonal (dyadic) communication focusing on conversational behavior, traits, relationships, and persuasion.

COMM 7470 SEMINAR IN SMALL GROUP COMMUNICATION (3) SEM. 3. Advanced study of the principles of communication as they apply to the small group setting.

COMM 7480 SEMINAR IN ORGANIZATIONAL COMMUNICATION (3) SEM. 3. In-depth approach to the study of communication processes within the setting of modern organizations.

COMM 7490 HEALTH COMMUNICATION (3) LEC. 3. Examination and application of social science research approaches to the study of health communication.

COMM 7500 GENDER COMMUNICATION (3) LEC. 3. Exploration of current theories and research on the relationship between communication and gender.

COMM 7600 MASS COMMUNICATION THEORY (3) LEC. 3. Exploration of major areas of concern to the theoretical study of mass communication and the social impact of mediated messages.

COMM 7610 STUDIES IN POPULAR CULTURE AND MASS COMMUNICATION (3) LEC. 3. Critical approaches to identifying, interpreting and experiencing popular culture texts within historical, cultural and communication contexts.

COMM 7620 BROADCAST PROGRAMMING AND CRITICISM (3) LEC. 3. Exploration of critical, theoretical, and organizational issues relevant to programming and the production of culture within mass media environments.

COMM 7630 MEDIA MANAGEMENT (3) LEC. 3. In-depth analysis of current management issues specific to media managers in a multi-cultural world.

COMM 7640 SEMINAR IN FILM THEORY AND CRITICISM (3) SEM. 3. Exploration of classical and contemporary film theories and criticism.

COMM 7660 CULTURAL STUDIES IN MASS MEDIA (3) LEC. 3. Examination of communication research approaches to the study of culture and media.

COMM 7670 CONTEMPORARY ISSUES IN FIRST AMENDMENT LAW (3) LEC. 3. Exploration of controversial issues and cases in First Amendment Law that have been recently decided, are currently before courts, and have shaped the constitutional landscape in the United States.

COMM 7680 SPORTS, MEDIA, AND CULTURE (3) LEC. 3. Cultural implications of the relationship between sports and media.

COMM 7810 PUBLIC RELATIONS THEORY (3) LEC. 3. Current areas of concern in the theoretical study of public relations.

COMM 7820 PUBLIC RELATIONS CAMPAIGNS (3) LEC. 3. Application of public relations and communication concepts to campaign challenges.

COMM 7830 PUBLIC RELATIONS CASE STUDIES (3) LEC. 3. Examination of research on public relations case studies to provide a theoretical basis for analyzing similar situations in on the job.

COMM 7840 COMMUNICATION TRAINING AND CONSULTING (3) LEC. 3. Theory, concepts, and skills needed to be an effective communication trainer or consultant.

COMM 7850 PUBLIC RELATIONS ETHICS (3) LEC. 3. This course provides a framework for understanding ethics in public relations. We will discuss ethical behavior and thinking within the context of practicing public relations. Topics discussed will include relationships, accountability, responsibility, advocacy, truth, and transparency.

COMM 7930 DIRECTED STUDIES (1-3) IND. Conferences, readings, research, and reports in general communication, mass communication, or public relations. Course may be repeated for a maximum of 3 credit hours.

COMM 7970 SPECIAL TOPICS IN COMMUNICATION (3) SEM. 3. Advanced treatment of contemporary topics, trends, current research findings, and opportunities. Course may be repeated for credit with change in topic.

COMM 7980 NON-THESIS PROJECT IN COMMUNICATION (3-6) LEC. SU. Pr. COMM 7000 and COMM 7010 and COMM 7020. and Minimum 27 graduate hours. Professional experience in communication area of interest. Must include managerial experience. Only 3 hours will apply to the degree. Course may be repeated for a maximum of 6 credit hours.

COMM 7990 RESEARCH AND THESIS (1-6) MST. Course may be repeated with change in topics.

Communication and Journalism - CMJN

Courses

CMJN 2100 CONCEPTS IN COMMUNICATIONS AND JOURNALISM (3) LEC. 2. LAB. 1. Introduction to the basic principles of various communication forms, the dominant communication theories, and communication industries. May count either CMJN 2100 or CMJN 2103.

CMJN 2910 COMMUNICATION AND JOURNALISM PRACTICUM (1-3) PRA. SU. Departmental Approval. Practical experiences in potential career fields gained while working in professional settings. One to three hours variable credit. Course may be repeated for a maximum of 3 credit hours.

CMJN 3350 VISUAL COMMUNICATION (3) LEC. 3. Visual literacy, cognition, aesthetics, critical evaluation, and technology in human communication, with emphasis on impact of visual media in informative, interpretive, and persuasive message.

CMJN 3550 SPORTS INTERVIEWING (3) LEC. 3. Pr. CMJN 2100. This course examines interviewing techniques in various sport media and technological contexts.

CMJN 3650 RHETORIC OF SPORTS (3) LEC. 3. Learn the role that persuasive messages and social expectations play in sports environments through communication and critical thinking research. May count either CMJN 3650 or COMM 3650.

CMJN 4000 MASS MEDIA LAW AND REGULATION (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. and junior or senior standing. Laws and regulations that govern journalists, media content and industries.

CMJN 4340 MASS COMMUNICATION AND FAMILY (3) LEC. 3. Examination of the relationship between the American family and the mass communication industry.

CMJN 4370 MASS COMMUNICATION AND RELIGION (3) LEC. 3. Examines the relationship between mass communication and religion. Portrayals and influences will be analyzed.

CMJN 4400 GENDER COMMUNICATION (3) LEC. 3. Learn the critical role gender plays in communication processes as well as skills for navigating difficult issues in organizations and other settings.

CMJN 4430 SPORTS, MEDIA AND SOCIETY (3) LEC. 3. Cultural and professional implications of the relationship between sports and media. May count either CMJN 4430 or JRNL 4430.

CMJN 4970 SPECIAL TOPICS IN COMMUNICATION AND JOURNALISM (3) LEC. 3. Specialized topics related to the study and practice of Communication, Journalism, Media Studies and/or Public Relations. Course may be repeated for a maximum of 6 credit hours.

CMJN 5100 CMJN ABROAD (3) AAB. 3. Explores theory, research, and practice in the fields of communication, media, and public relations in an international context. May count either CMJN 5100 or CMJN 6100.

CMJN 6100 CMJN ABROAD (3) AAB. 3. Explores theory, research, and practice in the fields of communication, media, and public relations in an international context. May count either CMJN 5100 or CMJN 6100.

Community and Civic Engagement - CCEN

Courses

CCEN 3000 CAPSTONE IN COMMUNITY AND CIVIC ENGAGEMENT (1) PRA. 1. SU. Completion of 15 credits toward Minor in Community and Civic Engagement. This course is required for minors in CEE. The capstone requires students to draw upon the knowledge obtained throughout their coursework and to perform relevant service projects.

CCEN 7900 COMMUNITY LEADERSHIP PRACTICUM (3) LEC. 3. This course provides graduates in CCL an opportunity to integrate course content, personal commitments, and real world experience. Completion of 9 credits toward Graduate Certificate in Collaborative Community Leadership.

Community Planning - CPLN

Courses

CPLN 5000 HISTORY AND THEORY OF URBAN FORM (3) LEC. 3. The vocabulary and historical development of urban design, focusing on the environmental and cultural forces that design, shape, build, and redevelop the urban fabric.

CPLN 5010 INTRODUCTION TO COMMUNITY PLANNING (3) LEC. 3. Examines the basic principles of community design and planning, and introduces areas of specialization with the professional of planning.

CPLN 5020 CITIES, PLANNING, AND CLIMATE CHANGE (3) SEM. 3. This course teaches about connections that climate has with urban processes; how cities are affected by climate change, impact of local land use and transportation decisions, and Climate Action Planning at local level including GHG inventory, adaptation and mitigation strategies.

CPLN 5040 LAND USE PLANNING (3) SEM. 3. Students will develop the critical and analytical skills, as well as analyze relevant literature, that will arm them with the necessary tools in order to implement, administer, and analyze a wide range of plans.

CPLN 5050 LAND AND URBAN ECONOMICS (3) LEC. 3. Examines the historical development and contemporary functioning of cities from an economic perspective, with focus on land use and transportation.

CPLN 5060 SUSTAINABLE TRANSPORTATION PLANNING AND POLICY (3) SEM. 3. Program approval for non-majors and ABM students. This topical seminar addresses issues related to transportation and mobility within the context of sustainable, healthy cities. Specific course content may vary from semester to semester.

CPLN 5070 ENVIRONMENTAL PLANNING (3) SEM. 3. Program approval for ABM students and non-majors. Addresses issues related to land use, environmental impact and policy, and sustainability. Specific course content may vary from semester to semester. May count either CPLN 5070 or CPLN 6070.

CPLN 5080 AFFORDABLE HOUSING PLANNING AND POLICY (3) SEM. 3. Program approval for ABM students and non-majors. This topical seminar addresses planning issues related to housing and neighborhood conservation. Specific course content may vary from semester to semester. May count either CPLN 5080/6080.

CPLN 5090 COMMUNITY DEVELOPMENT (3) SEM. 3. Program approval for ABM students and non-majors. Planning issues related to community and economic development content may vary from semester to semester. May count either CPLN 5090 or CPLN 6090.

CPLN 5100 URBAN DESIGN METHODS (3) LEC. 3. Departmental approval. Techniques and methodologies in urban design problem-solving and strategies for implementation.

CPLN 5110 SUSTAINABLE URBANISM AND GROWTH MANAGEMENT (3) SEM. 3. This course covers growth management in the United States. It covers growth management programs, the causes of sprawl, the costs and benefits of sprawl and growth management, and solutions to managing growth.

CPLN 5400 HISTORIC PRESERVATION PLANNING (3) LEC. 3. Planning for the preservation, restoration, conservation, adaptive reuse of historic buildings, sites and districts within the comprehensive planning process.

CPLN 5460 GEOGRAPHIC INFORMATION SYSTEMS FOR PLANNING AND POLICY (3) LEC. 3. Program approval for non-majors and ABM students. Basic concepts of geographic information systems and digital planning applications. Emphasis on spatial decision-making and visualization of planning scenarios. May count with CPLN 5460 or CPLN 6460.

CPLN 5970 SPECIAL TOPICS: CURRENT ISSUES IN PLANNING (3) LEC. 3. Elective seminar addresses current issues in planning. May count either CPLN 5970 or CPLN 6970.

CPLN 6000 HISTORY AND THEORY OF URBAN FORM (3) LEC. 3. The vocabulary and historical development of urban design, focusing on the environmental and cultural forces that design, shape, build, and redevelop the urban fabric.

CPLN 6010 INTRODUCTION TO COMMUNITY PLANNING (3) LEC. 3. Examines the basic principles of community design and planning, and introduces areas of specialization with the professional of planning.

CPLN 6020 CITIES, PLANNING, AND CLIMATE CHANGE (3) SEM. 3. This course focuses on connections that climate has with urban processes, climate action planning at local level, compiling greenhouse gas inventory, climate adaptation and mitigation strategies, and building sustainable and resilient cities.

CPLN 6040 LAND USE PLANNING (3) SEM. 3. Students will develop the critical and analytical skills, as well as analyze relevant literature, that will arm them with the necessary tools in order to implement, administer, and analyze a wide range of plans.

CPLN 6050 LAND AND URBAN ECONOMICS (3) LEC. 3. Examines the historical development and contemporary functioning of cities from an economic perspective, with focus on land use and transportation.

CPLN 6060 SUSTAINABLE TRANSPORTATION PLANNING AND POLICY (3) SEM. 3. Program approval for non-majors and ABM students. Addresses issues related to transportation and mobility within the context of sustainable, healthy cities. Specific course content may vary from semester to semester. May count either CPLN 5060 or CPLN 6060.

CPLN 6070 ENVIRONMENTAL PLANNING (3) SEM. 3. Program approval for ABM students and non-majors. Addresses issues related to land use, environmental impact and policy, and sustainability. Specific course content may vary from semester to semester. May count either CPLN 5070 or CPLN 6070.

CPLN 6080 AFFORDABLE HOUSING PLANNING AND POLICY (3) SEM. 3. Program approval for ABM students and non-majors. Addresses planning issues related to housing and neighborhood conservation. Specific course content may vary from semester to semester. May count either CPLN 5080 or CPLN 6080.

CPLN 6090 COMMUNITY DEVELOPMENT (3) SEM. 3. Program approval for ABM students and non-majors. Planning issues related to community and economic development. Content may vary from semester to semester. May count either CPLN 5090 or CPLN 6090.

CPLN 6100 URBAN DESIGN METHODS (3) LEC. 3. Techniques and methodologies in urban design problem- solving and strategies for implementation.

CPLN 6110 SUSTAINABLE URBANISM AND GROWTH MANAGEMENT (3) SEM. 3. This course covers growth management in the United States. It covers growth management programs, the causes of sprawl, the costs and benefits of sprawl and growth management, and solutions to managing growth.

CPLN 6400 HISTORIC PRESERVATION PLANNING (3) LEC. 3. Planning for the preservation, restoration, conservation and adaptive reuse of historic buildings, sites and districts within the comprehensive planning process.

CPLN 6460 GEOGRAPHIC INFORMATION SYSTEMS FOR PLANNING AND POLICY (3) LEC. 3. Program approval for non-majors and ABM students. Basic concepts of geographic information systems and digital planning applications. Emphasis on spatial decision-making and visualization of planning scenarios. May count with CPLN 5460 or CPLN 6460.

CPLN 6930 DIRECTED STUDIES IN COMMUNITY PLANNING (3) IND. Departmental approval. Through this directed studies course, students explore a community planning related topic or issue of interest in greater detail through independent work. Students work with an MCP faculty member, who will supervise their studies. Course topics and assignments will vary, but the course will result in enhancing the student’s knowledge and skills within the community planning discipline. Course may be repeated for a maximum of 6 credit hours.

CPLN 6970 SPECIAL TOPICS: CURRENT ISSUES IN PLANNING (3) LEC. 3. Elective seminar addresses current issues in planning. May count either CPLN 5970 or CPLN 6970.

CPLN 6AA0 MCP COMPREHENSIVE EXAMINATION (0) PR1. SU. A comprehensive examination is required of all students who have successfully completed 24 credit hours of the MCP program and/or before registration for the Synthesis Studio courses. Students are notified of their eligibility for the comprehensive exam by the MCP program director. Course may be repeated for a maximum of 10 credit hours.

CPLN 7200 URBAN DESIGN STUDIO (3) STU. 3. Basic principles of urban design are explored, with an emphasis on the planner's role in shaping the built environment. Exercises and projects provide hands-on experience in making good urban places.

CPLN 7240 QUANTITATIVE METHODS FOR PLANNING (3) LEC. 3. Development of working knowledge of planning techniques such as data collection, basic statistics, demographic analysis, economic analysis, social research, transportation, and evaluation.

CPLN 7300 COMMUNITY-BASED QUALITATIVE METHODS (3) LEC. 3. Introduces graduate students to the foundational principles of qualitative inquiry and community-based/community-engaged research.

CPLN 7350 PLANNING HISTORY AND THEORY (3) LEC. 3. This course provides future practitioners with the theoretical and historical tools and knowledge to be effective in the planning field.

CPLN 7430 LAND USE LAW (3) LEC. 3. This course covers three key elements of the planning profession: ethics, law and plan implementation.

CPLN 7600 SYNTHESIS STUDIO I (3) STU. 3. Pr. CPLN 7400. Serves as the primary opportunity for the student to demonstrate their competency in community design and planning by translating knowledge into action through the development of a practical plan.

CPLN 7610 SYNTHESIS STUDIO 2 (3) STU. 3. This class is the second required plan-making studio in the Master of Community Planning Program. Synthesis Studio 2 is the second in a two-semester series of classes that will critically consider a real-world planning project involving a city. Course may be repeated for a maximum of 6 credit hours.

CPLN 7920 PLANNING INTERNSHIP (1-6) AAB/INT. Departmental approval. Professional experience in public, private or non-profit planning or planning-related agency. Course may be repeated for a maximum of 6 credit hours.

Computer Science & Software Engineering - COMP

Courses

COMP 1000 PERSONAL COMPUTER APPLICATIONS (2) LEC. 2. Introduction to personal computers and software applications, including word processing, spreadsheets, databases, and presentation graphics; generation and retrieval of information with the Internet; integration of data among applications.

COMP 1100 THE POWER OF AI: FUNDAMENTALS TO APPLICATIONS (3) LEC. 3. A comprehensive introduction to artificial intelligence accessible to students across all disciplines. Addresses fundamental principles of AI, key concepts like knowledge representation, reasoning, machine learning, natural language processing, and neural networks. Topics such as AI's impact across various fields, critical analyses of the benefits and limitations of the state of the art, ethical considerations, and hands-on experience in leveraging AI technologies will be covered.

COMP 1200 INTRODUCTION TO COMPUTING FOR ENGINEERS AND SCIENTISTS (2) LEC. 2. Computer programming in a high-level language, with emphasis on use of the computer as a tool for engineering or science.

COMP 1201 INTRODUCTION TO COMPUTING LABORATORY (1) LAB. 1. SU. Coreq. COMP 1200. Laboratory activities focused on computer programming in a high-level language.

COMP 1210 FUNDAMENTALS OF COMPUTING I (3) LEC. 2. LAB. 3. Introduction to the fundamental concepts of programming from an object-oriented perspective. Emphasis on good software engineering principles and development of the fundamental programming skills in the context of a language that supports the object-oriented paradigm.

COMP 1220 INTRODUCTION TO COMPUTING WITH PYTHON (2) LEC. 1. LAB. 3. Computational problem-solving using Python, with emphasis on developing programs from specifications, verification and testing, and engineering applications.

COMP 1230 INTRODUCTION TO COMPUTING WITH MATLAB (2) LEC. 1. LAB. 3. Computational problem-solving using MATLAB, with emphasis on developing programs from specifications, verification and testing, and engineering applications.

COMP 1AA0 COMPUTER COMPETENCY TEST (0) TST. SU. A comprehensive test of all material covered in COMP 1000 and COMP 1003. Course may be repeated with change in topics.

COMP 2000 NETWORK PROGRAMMING WITH HTML AND JAVA (3) LEC. 3. Pr. COMP 1000 or COMP 1003 or ENGR 1110 or ENGR 1113. Introduction to network programming using HTML and Java to build web pages and web-based applications; presentation graphics; retrieval of information from the Internet; integration of data among applications. Pr., COMP 1000 or higher, or ENGR 1110.

COMP 2210 FUNDAMENTALS OF COMPUTING II (4) LEC. 3. LAB. 3. Pr. COMP 1210 or COMP 1213. Software development in the context of collections (e.g., lists, trees, graphs, hashtables). Communication, teamwork, and a design experience are integral course experience. Pr. COMP 1210 with a grade of C or higher.

COMP 2240 DISCRETE STRUCTURES (3) LEC. 3. Pr. (COMP 1210 or COMP 1213 or COMP 1217) and (MATH 1610 or MATH 1617). Characterization of computer science data structures and algorithms in terms of sets and relations, functions, recurrence relations. Use of propositional and predicate calculus to describe algorithms. Proving correctness and running time bounds for algorithms by induction and structural induction. Pr. COMP 1210 & MATH 1610, both with a grade of C or higher.

COMP 2710 SOFTWARE CONSTRUCTION (3) LEC. 3. Pr. COMP 2210 or COMP 2213. Intensive experience in software construction, to include topics such as testing, debugging, and associated tools; configuration management; low-level file and device I/O; systems and event-driven programming. Pr. COMP 2210 with a grade of C or higher.

COMP 2800 PROFESSIONAL DEVELOPMENT I (1) LEC. Introduction to career opportunities and student development options for majors in computer science and software engineering. Students will explore course, research, and extracurricular options within the department; create resumes and digital professional profiles; investigate post-graduation opportunities; and explore other professional development opportunities.

COMP 3000 OBJECT-ORIENTED PROGRAMMING FOR ENGINEERS AND SCIENTISTS (3) LEC. 3. Pr., Departmental approval. Fundamentals of object-oriented design and programming principles; data abstraction, identifying objects, problem decomposition, design and implementation of classes. Credit for the major will not be given to CSCI and SWEN, and WIRS majors.

COMP 3220 PRINCIPLES OF PROGRAMMING LANGUAGES (3) LEC. 3. Pr. COMP 2210 or COMP 2213. Study of programming language principles supporting procedural abstraction, data abstraction, storage allocation, and parallel execution; language types and examples; language translations. Pr. COMP 2210 with a grade of C or higher.

COMP 3270 INTRODUCTION TO ALGORITHMS (3) LEC. 3. Pr. COMP 2240 and (COMP 2210 or COMP 2213). Algorithms for standard computational problems and techniques for analyzing their efficiency; designing efficient algorithms and experimentally evaluating their performance. Pr. COMP 2210 & 2240, both with a grade of C or higher.

COMP 3350 COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE PROGRAMMING (3) LEC. 3. Pr. ELEC 2200 or ELEC 2210. Stored Program Computers, hardware and software components; data representation, instruction sets, addressing modes; assembly language programming; linkers, loader, and operating systems.

COMP 3500 INTRODUCTION TO OPERATING SYSTEMS (3) LEC. 3. Pr. (COMP 2710 or COMP 2713) and (COMP 3350 or COMP 3353 or ELEC 2220). Structure and functions of operating systems; processes and process scheduling; synchronization and mutual exclusion; memory management; auxiliary storage management; resource allocation and deadlock; security, privacy, and ethical concerns; design tradeoffs.

COMP 3510 EMBEDDED SYSTEMS DEVELOPMENT (3) LEC. 3. Pr. COMP 2710 and (COMP 3350 or ELEC 2220). Operating system design and analysis for embedded systems: Real-time issues, resource management, scheduling, exception handling, device driver development, kernel development, synchronization, network support.

COMP 3700 SOFTWARE MODELING AND DESIGN (3) LEC. 3. Pr. COMP 2710. Current processes, methods, and tools related to modeling and designing software systems. Communication, teamwork, and a design experience are integral course experiences.

COMP 3710 WIRELESS SOFTWARE ENGINEERING (3) LEC. 3. Pr. COMP 2710. Software engineering for wireless applications: specification, process, testing, and performance evaluation. Design and development of wireless application layer software, including current protocols.

COMP 4200 FORMAL LANGUAGES (3) LEC. 3. Pr. COMP 3240 or COMP 2240. Fundamentals of formal languages including mathematical models of regular sets, context-free languages and Turing machines; deterministic and non-deterministic models. Pr. COMP 2240 with a grade of C or higher.

COMP 4300 COMPUTER ARCHITECTURE (3) LEC. 3. Pr. COMP 3350 or COMP 3353. Comparison of computer architectures, emphasizing the relationships between system software and hardware. Includes processor control and datapath organization, memory subsystem design, instruction set design, processor simulation, and quantitative analysis of computer performance.

COMP 4320 INTRODUCTION TO COMPUTER NETWORKS (3) LEC. 3. Pr. COMP 2710 and (COMP 3350 or ELEC 2220) or Departmental approval. Fundamentals of computer networks, OSI model, LAN, WAN, packet transmission, interworking, Internet Protocol, WWW and Java technology.

COMP 4710 SENIOR DESIGN PROJECT (3) LEC. 3. Pr. COMP 3700 or COMP 3710 or COMP 3703. Development of requirement definitions, architectural design specification, detailed design specification, testing plan and documentation for the software and/or hardware components of a comprehensive project.

COMP 4730 COMPUTER ETHICS (2) LEC. 2. Pr. PHIL 1020 or PHIL 1023 or PHIL 1027 or PHIL 1110 or PHIL 1113. Application of ethical principles to computing-related topics, including privacy, property rights, autonomy, access, and diversity. Communication and teamwork are integral course experiences.

COMP 4800 PROFESSIONAL DEVELOPMENT II (1) LEC. 1. Pr. COMP 2800. Discussion and activities in effective communication, ethical solutions, and career development in preparation for students to transition into professional practice and lifelong learning in Computer Science and Software Engineering.

COMP 4810 PROGRAM ASSESSMENT (0) LEC. SU. Pr. COMP 4800. Coreq. UNIV 4AA0. Academic program assessment to include curriculum, course offerings and content, student services, and career exploration and first destination outcomes. Course may be repeated for a maximum of 10 credit hours.

COMP 4960 SPECIAL PROBLEMS (1-4) IND. Course may be repeated for a maximum of 6 credit hours.

COMP 4970 SPECIAL TOPICS (1-3) LEC. 1-3. Departmental approval. Investigation of current topics in computer science and software engineering. Course may be repeated for a maximum of 12 credit hours.

COMP 5000 WEB APPLICATION DEVELOPMENT (3) LEC. 3. Departmental approval. Design and implementation of web sites and associated applications. Emphasis on user interface design and information organization and presentation. Fall, Spring.

COMP 5020 ADVANCED WEB APPLICATION DEVELOPMENT (3) LEC. 3. Pr. COMP 5000. Departmental approval. Design and implementation of interactive web applications in Java as applets and servlets. Use of concepts like security, internationalization, multi-threading and server/client architectures.

COMP 5120 DATABASE SYSTEMS I (3) LEC. 3. Pr. COMP 3270 or COMP 3273. Theoretical and applied issues related to the analysis, design, and implementation of relational database systems.

COMP 5130 DATA MINING (3) LEC. 3. Pr. COMP 3270 or COMP 3273. Advanced concepts, techniques, and applications of data mining with an algorithmic and computational focus, including data visualization, data warehousing, data cube computation, pattern and rule mining, classification, belief networks, clustering, outlier detection, graph matching, and parallel and distributed computation.

COMP 5210 COMPILER CONSTRUCTION (3) LEC. 3. Pr. COMP 4200 and COMP 3220. Compiler organization; lexical analysis; parsing; syntax- direction translation; symbol tables; basic dependence analysis; intermediate forms; interpreters vs. compilers; run-time storage management; code generation; error detection and recovery.

COMP 5320 DESIGN AND ANALYSIS OF COMPUTER NETWORKS (3) LEC. 3. Pr. COMP 4320 or COMP 4323. Departmental approval. Computer networks design, including multiplexing, switching, routing, internetworking, transport protocols, congestion control, and performance evaluation.

COMP 5350 DIGITAL FORENSICS (3) LEC. 3. Pr. COMP 2710 or ISMN 3080 or MNGT 3080 or MNGT 3087 or COMP 2713. Departmental approval. Computer compromise and forensics, with focus on computer crime and ways to uncover, protect, and exploit digital evidence.

COMP 5360 WIRELESS AND MOBILE NETWORKS (3) LEC. 3. Pr. COMP 4320. Departmental approval. Mobile IP, wireless routing, location management, ad-hoc wireless networks, wireless TCP personal communication systems, and GSM. A

COMP 5370 COMPUTER AND NETWORK SECURITY (3) LEC. 3. Pr. COMP 4320. Fundamentals of computer security. Access Control. Authentication. Digital signatures and watermarks. Modeling and performance assessment. Viruses and worms. Identification of avenues for compromising systems.

COMP 5520 NETWORK AND OPERATING SYSTEM ADMINISTRATION (3) LEC. 3. Pr. COMP 4320. Studies of the installation, configuration and management of traditional, distributed and networked system software. Network integration of different systems. Performance monitoring, safety and security issues together with policies, politics and the laws regarding system software management.

COMP 5530 SECURE CLOUD COMPUTING: PRINCIPLES, PRACTICE, AND APPLICATIONS (3) LEC. 3. Pr. COMP 3220 and COMP 3500. Cloud concepts and issues including architecture, service models, security, and implementation. Hands-on experience in both using, managing, and deploying clouds.

COMP 5600 ARTIFICIAL INTELLIGENCE (3) LEC. 3. Pr. COMP 3270 or COMP 3273. Departmental approval. Introduction to intelligent agents, search knowledge representation and reasoning, machine learning.

COMP 5610 ARTIFICIAL INTELLIGENCE PROGRAMMING (3) LEC. 3. Pr. COMP 5600. Design and implementation of advanced artificial intelligence techniques including expert systems, planning, logic, and constraint programming, knowledge representation and heuristic search methods.

COMP 5620 USER INTERFACE DESIGN AND EVALUATION (3) LEC. 3. Pr. COMP 3270 or COMP 3273. Departmental approval. Theory and practice of designing interfaces for interactive systems, usability engineering techniques; implementing and evaluating interfaces.

COMP 5630 MACHINE LEARNING (3) LEC. 3. Pr. COMP 5600. An exploration of current concepts, techniques, and applications in machine learning including abductive learning, case-based learning, deep learning, and reinforcement learning. Pr. COMP 5600.

COMP 5650 DEEP LEARNING (3) LEC. 3. Pr. COMP 5630. Convolutional neural networks (CNNs); visualizing CNNs; detection CNNs; segmentation CNNs; recurrent neural networks; machine translation; unsupervised learning; and generative adversarial networks.

COMP 5660 EVOLUTIONARY COMPUTING (3) LEC. 3. Pr. COMP 3270 and (STAT 3010 or STAT 3600). This course covers in depth the fundamentals of evolutionary computing and surveys the most popular types of evolutionary algorithms (e.g., genetic programming), a class of stochastic, population-based algorithms inspired by natural evolution theory, genetics, and population dynamics, capable of solving complex optimization and modeling problems. It applies them to solve a series of challenging assignments involving intensive programming, experimentation, statistical analysis, and technical writing.

COMP 5700 SECURE SOFTWARE PROCESS (3) LEC. 3. Pr. COMP 3700 or COMP 3710. Process models of the software life cycle as well as methods and tools for software development with a special emphasis on secure software engineering.

COMP 5710 SOFTWARE QUALITY ASSURANCE (3) LEC. 3. Pr. COMP 3700 or COMP 3710. Departmental approval. Processes, methods, and tools associated with the production of robust, high-quality software.

COMP 5720 REAL TIME AND EMBEDDED SYSTEMS (3) LEC. 3. Pr. COMP 3500 or COMP 3510. Concepts of real-time and embedded computer systems. Studies of real-time algorithm issues such as timeliness, time-constrained scheduling and communication. Embedded system issues such as limited memory, low power, and high latency communication. Fall, Spring.

COMP 5830 CYBERSECURITY THREATS AND COUNTERMEASURES (3) LEC. 3. LAB. 0, DSL/LEC. 0. Pr. COMP 4320. Analysis of methods used by ethical hackers to identify security threats against networks, systems, and personnel. Examination of tactics, techniques, and procedures employed by threat actors and defensive countermeasures.

COMP 5870 SECURITY INTEGRATION AND APPLICATION (1) LEC/LST. Coreq. COMP 4710. Departmental approval. Exploration of the integration and application of state-of-the-practice cybersecurity topics.

COMP 5970 SPECIAL TOPICS (1-3) LEC. 1-3. Departmental approval. Investigation of current topics in computer science and software engineering. Course may be repeated for a maximum of 9 credit hours.

COMP 6000 WEB APPLICATION DEVELOPMENT (3) LEC. 3. Departmental approval. Design and implementation of web sites and associated applications. Emphasis on user interface design and information organization and presentation. Fall, Spring.

COMP 6120 DATABASE SYSTEMS I (3) LEC. 3. Departmental approval. Theoretical and applied issues related to the analysis, design, and implementation of relational database systems.

COMP 6130 DATA MINING (3) LEC. 3. Advanced concepts, techniques, and applications of data mining with an algorithmic and computational focus, including data visualization, data warehousing, data cube computation, pattern and rule mining, classification, belief networks, clustering, outlier detection, graph matching, and parallel and distributed computation.

COMP 6210 COMPILER CONSTRUCTION (3) LEC. 3. Departmental approval. Compiler organization; lexical analysis; parsing; syntax- direction translation; symbol tables; basic dependence analysis; intermediate forms; interpreters vs. compilers; run-time storage management; code generation; error detection and recovery.

COMP 6320 DESIGN AND ANALYSIS OF COMPUTER NETWORKS (3) LEC. 3. Departmental approval. Computer networks design, including multiplexing, switching, routing, internetworking, transport protocols, congestion control, and performance evaluation.

COMP 6350 DIGITAL FORENSICS (3) LEC. 3. Departmental approval. Computer compromise and forensics, with focus on computer crime and ways to uncover, protect, and exploit digital evidence.

COMP 6360 WIRELESS AND MOBILE NETWORKS (3) LEC. 3. Departmental approval. Mobile IP, wireless routing, location management, ad-hoc wireless networks, wireless TCP personal communication systems, and GSM.

COMP 6370 COMPUTER AND NETWORK SECURITY (3) LEC. 3. Departmental approval. Fundamentals of computer security. Access Control. Authentication. Digital signatures and watermarks. Modeling and performance assessment. Viruses and worms. Identification of avenues for compromising systems.

COMP 6520 NETWORK AND OPERATING SYSTEM ADMINISTRATION (3) LEC. 3. Departmental approval. Studies of the installation, configuration and management of traditional, distributed and networked system software. Network integration of different systems. Performance monitoring, safety and security issues together with policies, politics and the laws regarding system software management.

COMP 6530 SECURE CLOUD COMPUTING: PRINCIPLES, PRACTICE, AND APPLICATIONS (3) LEC. 3. Cloud concepts and issues including architecture, service models, security, and implementation. Hands-on experience in both using, managing, and deploying clouds.

COMP 6600 ARTIFICIAL INTELLIGENCE (3) LEC. 3. Departmental approval. Introduction to intelligent agents, search knowledge representation and reasoning, machine learning.

COMP 6610 ARTIFICIAL INTELLIGENCE PROGRAMMING (3) LEC. 3. Pr. COMP 6600 or COMP 6606. Design and implementation of advanced artificial intelligence techniques including expert systems, planning, logic and constraint programming, knowledge representation and heuristic search methods.

COMP 6620 USER INTERFACE DESIGN AND EVALUATION (3) LEC. 3. Departmental approval. Theory and practice of designing interfaces for interactive systems, usability engineering techniques; implementing and evaluating interfaces.

COMP 6630 MACHINE LEARNING (3) LEC. 3. An exploration of current concepts, techniques, and applications in machine learning including abductive learning, case-based learning, deep learning, and reinforcement learning.

COMP 6650 DEEP LEARNING (3) LEC. 3. Pr. COMP 6630. Convolutional neural networks (CNNs); visualizing CNNs; detection CNNs; segmentation CNNs; recurrent neural networks; machine translation; unsupervised learning; and generative adversarial networks.

COMP 6660 EVOLUTIONARY COMPUTING (3) LEC. 3. Departmental approval. This course covers in depth the fundamentals of evolutionary computing and surveys the most popular types of evolutionary algorithms (e.g., genetic programming), a class of stochastic, population-based algorithms inspired by natural evolution theory, genetics, and population dynamics, capable of solving complex optimization and modeling problems. It applies them to solve a series of challenging assignments involving intensive programming, experimentation, statistical analysis, and technical writing.

COMP 6700 SECURE SOFTWARE PROCESS (3) LEC. 3. Pr. COMP 3700. Process models of the software life cycle as well as methods and tools for software development with a special emphasis on secure software engineering.

COMP 6710 SOFTWARE QUALITY ASSURANCE (3) LEC. 3. Departmental approval. Processes, methods, and tools associated with the production of robust, high-quality software.

COMP 6720 REAL TIME AND EMBEDDED SYSTEMS (3) LEC. 3. Departmental approval. Concepts of real-time and embedded computer systems. Studies of real-time algorithm issues such as timeliness, time-constrained scheduling and communication. Embedded system issues such as limited memory, low power, and high latency communication. Fall, Spring.

COMP 6830 CYBERSECURITY THREATS AND COUNTERMEASURES (3) LEC. 3. Pr. COMP 4320. Analysis of methods used by ethical hackers to identify security threats against networks, systems, and personnel. Examination of tactics, techniques, and procedures employed by threat actors and defensive countermeasures.

COMP 6970 SPECIAL TOPICS (1-3) LEC. 1-3. Investigation of current topics in computer science and software engineering. Course may be repeated for a maximum of 9 credit hours.

COMP 7120 DATABASE SYSTEMS II (3) LEC. 3. Pr. COMP 6120 or COMP 6126. Departmental approval. Theoretical and applied issues related to the analysis, design, and implementation of object-oriented database systems.

COMP 7270 ADVANCED TOPICS IN ALGORITHMS (3) LEC. 3. Departmental approval. In-depth study of advanced topics in algorithms.

COMP 7300 ADVANCED COMPUTER ARCHITECTURE (3) LEC. 3. Departmental approval. Modern instruction level parallel computer design, including superscalar and very-long instruction word processor design.

COMP 7370 ADVANCED COMPUTER AND NETWORK SECURITY (3) LEC. 3. Pr. COMP 6370 or COMP 6376. Departmental approval. Advanced, research-based examination of computer network attack and defense techniques, viruses and other malware; operating system vulnerabilities and safeguards.

COMP 7500 ADVANCED TOPICS IN OPERATING SYSTEMS (3) LEC. 3. Departmental approval. Advanced topics in operating system concepts, design and implementation.

COMP 7620 HUMAN-COMPUTER INTERACTION (3) LEC. 3. Pr. COMP 6620. Theoretical principles and practical aspects of interaction between humans and computers, design and evaluation of interactive systems.

COMP 7660 RESEARCH METHODS IN EVOLUTIONARY COMPUTING (3) LEC. 3. Pr. COMP 6660 or COMP 5660. This course prepares students to perform independent research in general, and in the field of evolutionary computing (EC) in specific. This course covers in the context of EC: ideation, literature review, proposal writing and evaluation, research software design and implementation, experiment design and analysis, scientific writing and evaluation, and scientific oral presentation.

COMP 7700 SOFTWARE ARCHITECTURE (3) LEC. 3. Pr. (COMP 6700 or COMP 6706) and (COMP 6710 or COMP 6716). Departmental approval. Methods and tools related to the analysis, specification and design of software architecture.

COMP 7720 SOFTWARE REVERSE ENGINEERING (3) LEC. 3. Pr. P/C COMP 6370 or COMP 6376. Process, methods and tools associated with software reverse engineering. Course covers static and dynamic analysis techniques applied to analyze malware (i.e., malicious software).

COMP 7800 ARTIFICIAL INTELLIGENCE FOR SECURITY (3) LEC. 3. Exposes students in mixed-discipline teams to applying concepts and techniques in the AI domain to real-world problems of the security domain. In addition to practical experience with both domains, it will also provide students the opportunity to apply a multidisciplinary perspective conveying the “conventional wisdom” and mindsets of both AI and security through project-based learning. This course mimics R&D environments where teams extract requirements from customers, identify the state-of-the-art, design and propose solutions, implement and evaluate those solutions, and culminates in both customer and technical communication of project artifacts.

COMP 7810 PROGRAM ASSESSMENT (0) LEC. SU. Coreq. UNIV 4AA0. Academic program assessment to include curriculum, course offerings and content, student services, and career exploration and first destination outcomes. Course may be repeated for a maximum of 10 credit hours.

COMP 7930 DIRECTED STUDY (1-3) IND/RES. Course may be repeated with change in topics.

COMP 7970 SPECIAL TOPICS (1-3) DSL. Course may be repeated with change in topics.

COMP 7980 CAPSTONE ENGINEERING PROJECT (3) LEC. 3. Planning, implementation, and completion of a design project. Project culminates in both a written report and an oral presentation.

COMP 7990 RESEARCH AND THESIS (1-15) DSL. May count either COMP 7990 or COMP 7996. Course may be repeated with change in topics.

COMP 8930 DIRECTED STUDY (1-3) IND. Course may be repeated for a maximum of 6 credit hours.

COMP 8970 SPECIAL TOPICS (1-3) IND. Course may be repeated with change in topics.

COMP 8990 RESEARCH AND DISSERTATION (1-20) DSL/DSR. Course may be repeated with change in topics.

Computer Science - CPSC

Courses

CPSC 1210 INTRODUCTION TO COMPUTER SCIENCE I (3) LEC. 45. Admission into Bachelor of Computer Science Program. Introduces the fundamental concepts of object-oriented programming.

CPSC 1220 INTRODUCTION TO COMPUTER SCIENCE II (3) LEC. 45. Pr. CPSC 1213 or CPSC 1210. Admission into Bachelor of Computer Science Program. Continues the development of programming from an object-oriented perspective. Emphasizes sound software engineering principles and best practices.

CPSC 1230 DATA STRUCTURES (3) LEC. 45. Pr. CPSC 1223 or CPSC 1220. Admission into Bachelor of Computer Science Program. Developing programs that use data structures and collections to efficiently store data. Emphasis will be placed on the interplay between effective data structures and efficient algorithms.

CPSC 2010 INTRODUCTION TO COMPUTER SCIENCE I (3) DSL. 45. Admission into Bachelor of Computer Science Program. Introduces the fundamental concepts of object-oriented programming.

CPSC 2710 SOFTWARE CONSTRUCTION FUNDAMENTALS (3) LEC. 45. Pr. CPSC 1233 or CPSC 1230. Admission into Bachelor of Computer Science Program. Development of graphical user interface-based, event-driven desktop/laptop computer application using a modern object-oriented language. Systematic testing, debugging, documentation, and maintenance programming.

CPSC 3220 PROGRAMMING LANGUAGES AND TRANSLATION (3) DSL. Pr. (CPSC 1230 or CPSC 1233) and (CPSC 3300 or CPSC 3303). Admission into Bachelor of Computer Science Program. Fundamental concepts of programming language design, interpretation, and compilation.

CPSC 3240 DISCRETE STRUCTURES (3) LEC. 45. Admission into Bachelor of Computer Science Program. Basics of set theory, propositional and predicate logic as used to describe algorithms, recurrence relations. Proving correctness and estimating running time for algorithms. Mathematical and structural induction.

CPSC 3270 ALGORITHMS I (3) LEC. 45. Pr. CPSC 1233 or CPSC 1230. Admission into Bachelor of Computer Science Program. Introduction to algorithms as tools for computational l problem solving, language of algorithms, understanding algorithms, approximately analyzing correctness and efficiency of algorithms, algorithms that solve fundamental computational problems, basic algorithm design techniques, steps of computational problem solving.

CPSC 3280 ALGORITHMS II (3) LEC. 45. Pr. CPSC 3270 or CPSC 3273. Admission into Bachelor of Computer Science Program. Advanced complexity analysis techniques, notions of computational complexity, polynomial time hierarchy, computability, algorithms that solve advanced computational problems, advanced algorithm design techniques, computational problem solving.

CPSC 3300 COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE PROGRAMMING (3) LEC. 45. Pr. (CPSC 3243 or CPSC 3240) and (CPSC 1213 or CPSC 1210). Admission into Bachelor of Computer Science Program. Stored program computers, hardware and software components, data representations, instruction sets, addressing modes, assembly language programming, loaders, linkers and operating systems.

CPSC 3320 COMPUTER ARCHITECTURE (3) LEC. 45. Pr. CPSC 3333 or CPSC 3330. Admission into Bachelor of Computer Science Program. Design of Computer Systems, emphasizing the relationship between computer hardware and software. Includes processor control and data path organization, memory subsystem design, instruction set design, processor simulation, and quantitative analysis of computer performance.

CPSC 3330 OPERATING SYSTEMS (3) LEC. 45. Pr. (CPSC 1230 or CPSC 1233) and (CPSC 3300 or CPSC 3303). Admission into Bachelor of Computer Science Program. Structure and functions of operating systems; processes and process scheduling; synchronization and mutual exclusion; memory management; auxiliary storage management; resource allocation and deadlock; security, privacy, and ethical concerns; design tradeoffs.

CPSC 3340 PARALLEL SYSTEMS (3) LEC. 45. Pr. CPSC 3333 or CPSC 3330. Admission into Bachelor of Computer Science Program. Overview of hardware and software issues in parallel systems: fundamental parallel architectures, programming languages, tools and algorithms, and parallel applications.

CPSC 3350 COMPUTER NETWORKS I (3) LEC. 45. Pr. CPSC 3330 or CPSC 3333. Admission into Bachelor of Computer Science Program. Fundamentals of computer networks, TCP/IP layered model: application layer, transport layer, network layer, link layer, with examples of each layer, and explanation of design issues. IPv6.

CPSC 3360 COMPUTER NETWORKS II (3) LEC. 45. Pr. CPSC 3353 or CPSC 3350. Admission into Bachelor of Computer Science Program. Computer network design, including multiplexing, switching, routing, internetworking, transport protocols, congestion control, and performance evaluation.

CPSC 3370 WIRELESS AND MOBILE NETWORKS (3) DSL. Pr. CPSC 3353 or CPSC 3350. Admission into Bachelor of Computer Science Program. Mobile IP, wireless routing, location management, ad-hoc wireless networks, wireless, wireless TCP personal communication systems, and current mobile phone OTA protocols.

CPSC 3700 SOFTWARE ENGINEERING I (3) LEC. 45. Pr. CPSC 2713 or CPSC 2710. Admission into Bachelor of Computer Science Program. Current processes, methods, and tools related to modeling and designing software systems.

CPSC 3710 SOFTWARE ENGINEERING II (3) DSL. Pr. CPSC 3703 or CPSC 3700. Admission into Computer Science Online Program. Current processes, methods, and tools related to modeling and designing software systems.

CPSC 4000 SYSTEM ADMINISTRATION (3) LEC. 45. Pr. CPSC 3330 or CPSC 3333. Admission into Bachelor of Computer Science. Basics of system administration for Windows and Unix machines, including configuration of Performance measurement and enhancement.

CPSC 4200 FORMAL LANGUAGES (3) DSL/LEC. 45. Pr. (CPSC 3273 or CPSC 3270) and (CPSC 3243 or CPSC 3240). Admission into Bachelor of Computer Science Program. Fundamentals of formal languages including mathematical models of regular sets, context-free languages and Turing machines; deterministic and non-deterministic models. Basics of interpretation and compilation.

CPSC 4730 COMPUTER ETHICS (3) LEC. 45. Admission into Bachelor of Computer Science Program. Application of ethical principles to computing-related topics, including privacy, property rights, autonomy, access, and diversity.

CPSC 4800 PROFESSIONAL DEVELOPMENT I (1) DSL. Discussion and activities in effective communication, ethical solutions, and career development in preparation for students to transition into professional practice and lifelong learning in Computer Science.

CPSC 4810 PROFESSIONAL DEVELOPMENT II (1) DSL. Pr. CPSC 4800. Discussion and activities in effective communication, ethical solutions, and career development in preparation for students to transition into professional practice and lifelong learning in Computer Science.

CPSC 4820 PROGRAM ASSESSMENT (0) DSL. SU. Coreq. UNIV 4AA0. Academic program assessment to include curriculum, course offerings and content, student services, and career exploration and first destination outcomes. Course may be repeated for a maximum of 10 credit hours.

CPSC 4970 SPECIAL TOPICS (3) LEC. 3. Investigation of current topics in computer science. Course may be repeated for a maximum of fifteen credit hours.

CPSC 5120 DATABASE I (3) LEC. 45. Pr. CPSC 1230 or CPSC 1233. Admission into Bachelor of Computer Science Program. The design and implementation of database applications, with a focus on relational database management systems.

CPSC 5130 DATABASE II (3) LEC. 45. Pr. CPSC 5123 or CPSC 5120. Admission into Bachelor of Computer Science Program. Theory, design, and implementation of database systems.

CPSC 5200 DEVELOPING WEB APPLICATIONS WITH XML (3) LEC. 45. Pr. CPSC 1230 or CPSC 1233. Admission into Bachelor of Computer Science Program. Comprehensive introduction to XML, working with XML and Databases, event-driven programming with XML, implementing Communication and Web Services with XML, working with XML, JQuery, XHTML and HML5.

CPSC 5210 WEB APPLICATION DEVELOPMENT WITH JSP (3) LEC. 40. Pr. CPSC 5203 or CPSC 5200. Admission into Bachelor of Computer Science Program. Advanced course in web development using JSP, includes JCP fundamentals, JAP and web server software development, and applying JSP in the real world.

CPSC 5330 MOBILE APPLICATIONS I (3) LEC. 45. Pr. CPSC 2710 or CPSC 2713. Admission into Computer Science Online Program. Software development for wireless applications: specification, process, testing, and performance evaluation. Design and development of wireless application layer software, including current protocols.

CPSC 5340 MOBILE APPLICATION DEVELOPMENT II (3) LEC. 3. Pr. CPSC 5330 or CPSC 5333. Admission into Bachelor of Computer Science Program. Builds mastery of mobile application development and the skills necessary to stay current in this fast-moving field throughout one’s career by introducing a new programming language and application programmer interface and interface and requiring the student to master them.

Consumer and Design Sciences - CADS

Courses

CADS 1000 INTRODUCTION TO INTERIOR DESIGN (3) LEC. 3. Introduces theories of human behavior, physiology, and psychology; elements and principles of design; architectural form, space, and order; codes and regulations; profession of interior design.

CADS 1100 INTERIOR DESIGN STUDIO: DESIGN PRINCIPLES (3) LST/STU. 3. Pr. P/C CADS 1000. INDS (interior design) or INDX (pre-interior design) majors only. Fundamental principles of allied art and design disciplines. Two-dimensional and three-dimensional design projects, critical and creative thinking, application of color theory, composition, perspective, and craftsmanship.

CADS 1600 TEXTILE INDUSTRIAL COMPLEX (3) LEC. 3. Introduction to the composition, characteristics, and products of the network of fiber producers, textile manufacturers, dyers, finishers, apparel manufacturers, and retailers.

CADS 1700 GIVING AND SHARING (3) LEC. 3. Exploration of traditions of American philanthropy including a service-learning component. Students reflect on their giving experiences and apply philanthropic traditions to their own lives, service experiences, educational and professional goals, and visions for a better world.

CADS 1740 AESTHETICS FOR FASHION (3) LEC. 3. Elements and principles of design and their application in industries such as textiles, apparel, and retail.

CADS 2000 GLOBAL CONSUMER CULTURE (3) LEC. 3. Sustainability and social responsibility provide a framework for the study of cultural, commercial, and aesthetic factors influencing the selection and usage of consumer products and services that create and express social identity. Credit will only be given for CADS 2000 or CADS 2007.

CADS 2007 HONORS GLOBAL CONSUMER CULTURE (3) LEC. 3. Pr. Honors College. Sustainability and social responsibility provide a framework for the study of cultural, commercial, and aesthetic factors influencing the selection and usage of consumer products and services that create and express social identity. Credit will only be given for CADS 2000 or CADS 2007.

CADS 2040 CONSUMER FINANCIAL PLANNING (3) LEC. 2.5. Use of budgeting, credit, savings, investments, and retirement and estate planning to secure individual and family financial success using. Promote understanding and application of fundamentals of insurance, taxation, and personal finance tools.

CADS 2100 INTERIOR DESIGN STUDIO: SPACE PLANNING AND PROCESS (4) LEC/STU. 6. Pr. (CADS 1100). Coreq. CADS 2150. INDS (interior design) majors only, or with departmental approval. Introduction to the formal design process from concept through design development.

CADS 2150 PROJECT MANAGEMENT FOR INTERIOR DESIGNERS (1) LEC. 1. Coreq. CADS 2100. INDS (interior design) majors only, or with departmental approval. Principles of project management, disciplinary collaboration, and professional conduct within the context of the interior design studio workplace.

CADS 2200 INTERIOR DESIGN STUDIO: COMPUTER-AIDED DESIGN (3) LST. 6. Pr. (CADS 2100). Coreq. CADS 3200. INDS (interior design) majors only, or with departmental approval. Application of computer-aided design software, with a focus on developing construction drawings and documentation for interior spaces.

CADS 2300 HISTORY OF INTERIOR DESIGN I (3) LEC. 3. INDS (interior design) or INDX (pre-interior design) majors only, or with departmental approval. Historical survey of interior design and the decorative arts from antiquity through the mid-1800s.

CADS 2350 HISTORY OF INTERIOR DESIGN II (3) LEC. 3. Pr. CADS 2300. INDS (interior design) majors only, or with departmental approval. Historical survey of interior design and the decorative arts from the Industrial Revolution through present day.

CADS 2400 INTERIOR MATERIALS AND COMPONENTS (3) LEC. 3. Pr. CADS 1000 and CADS 1100. INDS (interior design) majors only, or with departmental approval. Introduction to interior surface finishes, textiles, materials, and components.

CADS 2500 INTERIOR DESIGN STUDIO: DESIGN COMMUNICATION (3) STU. 6. INDS (interior design) majors only, or with departmental approval. Development of design communication media and techniques.

CADS 2550 LIGHTING, MECHANICAL, AND ENVIRONMENTAL SYSTEMS (3) LST. Departmental approval. Introduction to the fundamentals of lighting, mechanical, electrical, and plumbing systems within the interior environment. INDS (interior design) majors only, or with

CADS 2600 TEXTILES (3) LEC. 3. Pr. CADS 1600. Natural and man-made fibers, yarns, fabrics, dyes and finishes for textiles for apparel and related products. AMDP major.

CADS 2700 INTRODUCTION TO NONPROFIT ORGANIZATIONS (3) LEC. 3. Introduction to mission, structure, and impact of nonprofit organizations at the local, state, national and international levels.

CADS 2740 ILLUSTRATION TECHNIQUES FOR APPAREL (3) LEC. 1. LAB. 4. Pr. CADS 1740 and CADS 1600. Creative approach to illustrating apparel through the use of varied media and development of illustrative style appropriate for portfolio presentations. APDP Major.

CADS 2750 PRODUCT DEVELOPMENT: TECHNICAL DESIGN (4) LEC. 2, LST. 4. Pr. CADS 2740 and CADS 2800. Apparel pattern development through drafting, flat pattern manipulation and draping; custom apparel production. APDP Major.

CADS 2760 VISUAL MERCHANDISING (4) LST. 6. Pr. CADS 1600 or CAHS 1600. History, equipment, application, and theory of display techniques in store and non-store settings.

CADS 2770 COMPUTER-AIDED DESIGN FOR APPAREL (4) LEC. 2, LST. 4. Pr. CADS 1600 and CADS 2740. Principles of aesthetics applied to apparel product development including computer aided design and other presentation techniques.

CADS 2800 APPAREL PRODUCTION MANAGEMENT (4) LEC. 3. LAB. 3. Pr. CADS 1600. Introduction to apparel industry terminology, technology, production methods, and engineering quality into apparel products.

CADS 2900 INNOVATION IN RETAIL AND CONSUMER EXPERIENCES (1) SEM. 1. A seminar on technology and innovations in the retail industry and their impact on consumer experiences and retail business processes.

CADS 3100 LIGHTING DESIGN/ENVIRONMENTAL SYSTEMS (4) LEC. 4. Pr. CADS 2200 and CADS 2400 and CADS 2500. Application of principles and processes of lighting, mechanical, and environmental systems to interior design.

CADS 3150 PROFESSIONAL DEVELOPMENT FOR APPAREL MERCHANDISING CAREER (1) LEC. 1. Pr. CADS 1600 and CADS 2800. Investigation of apparel merchandising careers and professional skill development.

CADS 3200 INTERIOR DESIGN STUDIO: RESIDENTIAL (4) LEC. 1, LST. 6. Pr. CADS 2100. Coreq. CADS 2200. Departmental approval. Development of residential interior design solutions with emphasis on programming and space planning. INDS (interior design) majors only.

CADS 3500 INTERIOR DESIGN PROFESSIONAL PRACTICE (3) LEC. 3. Pr. CADS 3100 and CADS 3200. Exploration of the interior design profession and standard practices.

CADS 3700 GENDER, WEALTH & PHILANTHROPY (3) LEC. 3. Study of wealth and philanthropic theories, principles, and applications as it applies in gender. May count CADS 3700 or CADS 3707.

CADS 3707 HONORS GENDER, WEALTH AND PHILANTHROPY (3) LEC. 3. Pr. Honors College. Study of wealth and philanthropic theories, principles, and applications as it applies in gender. May count CADS 3700 or CADS 3707.

CADS 3750 PRODUCT DEVELOPMENT: APPAREL DESIGN (4) LEC. 2, LST. 4. Pr. CADS 2750 and CADS 2800 and CADS 2770. Advanced design techniques, including couture production; portfolio and internship planning. ADMP major.

CADS 3800 CONSUMER DECISION MAKING FOR APPAREL AND FASHION PRODUCTS (3) LEC. 3. Pr. CADS 2000 or CADS 2003 or CADS 2007. Analysis of consumer decision making for apparel and fashion products and the factors that impact consumer decisions. AMDP major.

CADS 3810 SOCIAL MEDIA MANAGEMENT FOR APPAREL (3) LEC. 3. Topics in social media management and application of merchandising strategies for apparel businesses. Juniors & Seniors Only; APME and APDP only, ENFB Minor by departmental approval

CADS 3850 MERCHANDISE PLANNING AND CONTROL (3) LEC. 2. LAB. 2. Pr. (COMP 1000 or COMP 1003) and CADS 1600 and (ACCT 2810 or ACCT 2813) or Departmental approval. Application of principles of merchandise management and retail buying to the retailing of consumer goods and services.

CADS 3900 DIRECTED STUDIES (1-3) AAB/IND. SU. Departmental approval. Directed readings and/or individualized research project. Course may be repeated for a maximum of 6 credit hours.

CADS 3920 INDUSTRY EXPERIENCE (3) INT. 3. Pr. CADS 1600. Departmental approval. Supervised industry experience requiring students to spend time working in the industry under supervision. Course may be repeated for a maximum of 6 credit hours.

CADS 3940 STUDY TRAVEL IN CONSUMER AND DESIGN SCIENCES (1-3) AAB/FLD. Departmental approval. Concentrated study in the U.S. or abroad. Course may be repeated for a maximum of 6 credit hours.

CADS 3970 SPECIAL TOPICS (1-4) LEC. Courses may be repeated for 9 hours. Departmental approval. Standing grade. Course may be repeated for a maximum of 9 credit hours.

CADS 4040 ESTATE PLANNING & PHILANTHROPY (3) LEC. 3. Pr. CADS 2040. CADS 4040 Estate Planning & Philanthropy (3). LEC. 3. Introduction to estate planning concepts and philanthropy strategies for preservation and transfer of family wealth and reflecting family financial and philanthropic goals. Includes legal, tax, financial, and non-financial factors and components.

CADS 4050 CONSUMER TAX PLANNING (3) LEC. 3. Pr. CADS 2040. Study of the impacts of taxation, including the federal income tax, on decisions made by individuals and families throughout the life cycle. Apply economic, legal, and management principles to the family tax planning process.

CADS 4060 RETIREMENT & BENEFITS PLANNING (3) LEC. 3. Pr. CADS 2040. CADS 4060 Retirement & Benefits Planning (3) LEC. 3. Introduction to retirement planning concepts, processes and issues, with attention to designing retirement strategies to meet diverse client needs.

CADS 4100 PHILANTHROPY & NONPROFIT STUDIES LECTURE SERIES (1) LEC. 1. Pr. CADS 2700 and (CADS 3700 or CADS 3707). Lecture series showcasing philanthropic and nonprofit leaders. Course may be repeated for a maximum of 2 credit hours.

CADS 4200 INTERIOR DESIGN SENIOR SEMINAR (1) LEC. 1. Pr. CADS 3200. INDS (interior design) majors only, or with departmental approval. Preparation for professional NCDIQ exam, with emphasis on IDFX fundamentals knowledge. Overview of content, test structure, and progress toward licensure. Review of requirements for practice across a variety of jurisdictions. Examination of the current job market and strategic planning for the first two years of professional practice.

CADS 4700 PORTFOLIO DEVELOPMENT FOR PHILANTHROPY AND NONPROFIT STUDIES (3) LEC. 3. Pr. CADS 2700 and CADS 2040 and CADS 3780. Portfolio development in print, digital, and web formats for students in Philanthropy and Nonprofit Studies.

CADS 4740 CONSUMER FINANCIAL MANAGEMENT APPLICATIONS (3) LEC. 3. Pr. CADS 4040 and CADS 4050 and CADS 4060 and FINC 3200 and FINC 3640. CADS 4740 Consumer Financial Management Applications (3) LEC. 3. Capstone consumer financial planning applying comprehensive planning concepts, processes and issues to development of a complete family financial plan.

CADS 4750 PRODUCT DEVELOPMENT: SPECIALIZED DESIGN (3) STU. 6. Pr. CADS 3750. Specialized design development concepts, techniques, and applications for target markets including children's wear, performance wear, and bridal markets.

CADS 4800 APPAREL ENGINEERING (4) LEC. 3. LAB. 3. Pr. CADS 2800. Coreq. CADS 3750. Planning and problem solving throughout the apparel production process, including methods engineering, time study, costing, CAD. AMDP major.

CADS 4850 ADVANCED EXCEL FOR MERCHANDISING DATA ANALYTICS (3) LEC. 3. LAB. 0. Pr. P/C CADS 3850 or P/C CADS 3853. Advanced techniques of Microsoft Excel for data analytics in merchandising and retail decision making.

CADS 4900 UNDERGRADUATE TEACHING ASSISTANT EXPERIENCE (1-3) LEC/LST. Student must have previously earned an "A" in the course s/he is assisting with. Departmental approval. Student participation as an undergraduate teaching assistant (UTA) for the Consumer and Design Sciences course under the supervision of a faculty member. Course may be repeated for a maximum of 6 credit hours.

CADS 4910 PRACTICUM IN PHILANTHROPY AND NONPROFIT ORGANIZATIONS (3) PRA. 3. Pr. (CADS 2700 or CADS 2703) and (CADS 3700 or CADS 3703 or CADS 3707). Departmental approval. Supervised practicum experience with a philanthropic or nonprofit organization.

CADS 4920 PHILANTHROPY AND NONPROFIT STUDIES INTERNSHIP (9) INT. Pr. CADS 3780 or CADS 4040. Departmental approval. Supervised 10 week professional internship. 2.0 GPA. Junior standing.

CADS 4930 APPAREL MERCHANDISING, DESIGN AND PRODUCTION MANAGEMENT INTERNSHIP (9) INT. Pr. CADS 3850 or CADS 3750 or CADS 3853. Departmental approval. Supervised 10 week professional internship. 2.0 GPA. Junior standing.

CADS 4950 INTERIOR DESIGN INTERNSHIP (9) INT. Pr. CADS 5100. Departmental approval. Supervised 10 week professional internship. 2.0 GPA. Junior standing.

CADS 4960 SPECIAL PROBLEMS IN DESIGN (1-4) LEC. Departmental approval. A) Apparel, B) Interior Design, C) Visual Merchandising, D) Textile Design. Creative solution of design problems. Course may be repeated for a maximum of 9 credit hours.

CADS 4967 HONORS SPECIAL PROBLEMS (1-3) IND. SU. Pr. Honors College. Departmental approval. Readings in specialized topics. Course may be repeated for a maximum of 6 credit hours.

CADS 4980 UNDERGRADUATE RESEARCH IN CONSUMER AND DESIGN SCIENCES (1-3) IND/LEC. SU. Pr. 3.50 GPA. Departmental approval. Participation as an undergraduate research assistant (URA) for a Consumer and Design Sciences research project under the supervision of a CADS faculty member. Course may be repeated for a maximum of 6 credit hours.

CADS 4997 HONORS THESIS (3) IND. 3. SU. Pr. Honors College. CADS 4967. Departmental approval. Research in specialized topics.

CADS 5100 INTERIOR DESIGN STUDIO: COMMERCIAL (4) LEC/STU. 6. Pr. CADS 3200 and CADS 2550 and CADS 2400. INDS (interior design) majors only, or with departmental approval. Development of commercial interior design solutions with emphasis on contemporary issues in workplace design.

CADS 5150 GLOBAL ISSUES IN INTERIOR DESIGN (3) LEC. 6. Coreq. CADS 5350. INDS (interior design) majors only or with Departmental approval. Explores the impact of designed products, places, and processes within the interior environment on global health and quality of life.

CADS 5200 INTERIOR DESIGN PORTFOLIO (3) LEC. 3. Pr. CADS 2100 and CADS 2200. INDS (interior design) majors only, Development of a professional interior design portfolio and collateral documentation.

CADS 5300 INTERIOR DESIGN STUDIO: HOSPITALITY (4) LEC/STU. 6. Pr. CADS 5100. INDS (interior design) majors only, or with departmental approval. Development of hospitality design solutions with emphasis on industry trends and practice-based approaches. May count either CADS 5300 or CADS 6300.

CADS 5310 SUSTAINABLE DESIGN AND LEED ACCREDITATION (3) LEC. 3. Sustainable certification standards and professional accreditation requirements related to sustainability. May count either CADS 5310 or CADS 6310.

CADS 5350 INTERIOR DESIGN STUDIO: ADVANCED DESIGN PROJECT (4) LEC. 1, LST/STU. 6. Pr. CADS 5400. INDS (interior design) majors only, or with departmental approval. Response to a complex interior design challenge through application of design process, resulting in an advanced solution informed by pre-design research. May count for either CADS 5350 or 6350.

CADS 5400 INTERIOR DESIGN STUDIO: DESIGN FOR HEALTH AND WELLNESS (4) LEC/STU. 6. Pr. CADS 5100 and P/C CADS 5150. INDS (interior design) majors only or with departmental approval. Development of interior design solutions for health, wellness, and quality of life. May count either CADS 5400 or 6400.

CADS 5450 HISTORY OF COSTUME (3) LEC. 3. Pr., Core History or departmental approval. AMDP major. Historical roles of dress in western civilization. Cultural, social, and physical evolution. Credit will not be given for both CADS 5450 and CADS 6450.

CADS 5460 FASHION INDUSTRY SINCE 1910 (3) LEC. 3. P/C; Core History, Core Literature or departmental approval. Fashion history, designers and businesses from 1910 to the present. May count either CADS 5460 or CADS 6460.

CADS 5500 APPAREL MERCHANDISING PORTFOLIO (2) LEC. 2. Pr. (CADS 3850 or CADS 3853) and P/C CADS 3150. Portfolio Development in print and digital formats for merchandising students. Departmental approval may be needed.

CADS 5510 DIGITAL RETAILING FOR APPAREL (3) LEC. 3. Pr. CADS 3850 or CADS 3853. Application of various digital retailing and merchandising concepts and strategies for apparel businesses. CADS 3850 or 3853; Juniors & Seniors Only; APME and APDP Only; ENFB Minor by departmental approval

CADS 5600 GLOBAL SOURCING IN TEXTILES AND APPAREL (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (AFRI 2000 or ANTH 1000 or ANTH 1003 or ANTH 1007 or COUN 2000 or ECON 2030 or ECON 2033 or ECON 2037 or GEOG 1010 or GEOG 1013 or GEOG 1017 or GSHS 2000 or NATR 2050 or POLI 1050 or POLI 1057 or POLI 1090 or POLI 1093 or POLI 1097 or PSYC 2010 or PSYC 2013 or PSYC 2017 or SOCY 1000 or SOCY 1003 or SOCY 1007 or SOCY 1100 or SUST 2000 or UNIV 2720 or UNIV 2727) or Departmental approval. The role of fiber, textile, and apparel industries in the international economy. AMDP major.

CADS 5610 GLOBAL RETAILING STRATEGIES FOR TEXTILE AND APPAREL PRODUCTS (3) LEC. 3. Pr. (CADS 2000 or CADS 2003 or CADS 2007) and (CADS 3850 or CADS 3853). Strategies for successful global business expansion for textile and apparel retailers. Credit granted for only one of: CADS 5610, CADS 6610, MKTG 4330.

CADS 5700 ENTREPRENEURSHIP IN APPAREL AND INTERIORS (3) LEC. 3. Departmental approval. Analyzing business opportunities in textiles, apparel, and interiors; developing marketing concepts and entrance strategies. Credit will not be given for both CADS 5700 and CADS 6700.

CADS 5730 HISTORY OF TEXTILES (3) LEC. 3. Pr., Core History or departmental approval. Cultural, economic, material, technological, and aesthetic perspectives on the evolution of textiles. Credit will not be given for both CADS 5730 and CADS 6730.

CADS 5750 APPAREL LINE DEVELOPMENT (4) LEC. 2. LAB. 6. Pr. CADS 3750 and CADS 4800. Team driven design, production, and market research. Development of apparel lines. Credit will not be given for both CADS 5750 and CADS 6750.

CADS 5760 FASHION ANALYSIS AND FORECASTING (3) LEC. 3. Pr. CADS 1600 and (CADS 1740 or CADS 2760). Theories explaining fashion dynamics and techniques for forecasting change, with case applications in textiles, apparel, and retailing. Credit will not be given for both CADS 5760 and CADS 6760. AMDP major.

CADS 5770 PORTFOLIO DEVELOPMENT FOR APPAREL DESIGN (4) LST. 4. Pr. P/C CADS 3750 and P/C CADS 4800. Survey of advanced techniques in design presentation including computer-aided design and graphics software. Portfolio development in print, digital, and web formats for apparel design students.

CADS 5780 INTERNATIONAL PHILANTHROPY (3) LEC. 3. Introduction to the role of international philanthropy in addressing global poverty and how philanthropic practices and behaviors are embedded in cultural contexts. Explores best practices in cross-border philanthropy and volunteering, supporting the development of cross-cultural competencies.

CADS 5790 GRANTMAKING FOR PHILANTHROPISTS (3) LEC. 3. Introduction to philanthropic grantmaking institutions including mission development, needs assessment, proposal analysis, and site visits. Incorporates student philanthropy via development of grant-making strategies and best practices in individual giving.

CADS 5850 APPAREL MERCHANDISING AND RETAIL MANAGEMENT (4) LEC. 3. LAB. 2. Pr. CADS 3850 or CADS 3853. Problem-solving and decision making strategies for retailing apparel, textiles, and other consumer products. Credit will not be given for both CADS 5850 and CADS 6850. AMDP major.

CADS 5860 ADVANCED RETAIL BUYING (3) LEC. 2. LAB. 1. Pr. CADS 5850. Departmental approval. Planning, executing and evaluating retail buying to maximize ROI. Credit will not be given for both CADS 5860 and CADS 6860.

CADS 6100 INTERIOR DESIGN STUDIO: COMMERCIAL (4) LEC/STU. 6. INDS (interior design) majors only, or with departmental approval. Development of commercial interior design solutions with an emphasis on contemporary issues in workplace design. May count for either CADS 5100 or 6100.

CADS 6150 GLOBAL ISSUES IN INTERIOR DESIGN (3) LEC. 3. CADS graduate students only, or with departmental approval. Explores the impact of designed products, places, and processes within the interior environment on global health and quality of life.

CADS 6200 INTERIOR DESIGN PORTFOLIO (3) LEC. 3. CADS graduate students only, or with departmental approval. Development of a professional interior design portfolio and collateral documentation.

CADS 6300 INTERIOR DESIGN STUDIO: HOSPITALITY (4) LEC/STU. 6. CADS graduate students only, or with departmental approval. Development of hospitality design solution with emphasis on industry trends and practice-based approaches.

CADS 6310 SUSTAINABLE DESIGN AND LEED ACCREDITATION (3) LEC. 3. Sustainable certification standards and professional accreditation requirements related to sustainability. May count either CADS 5310 or CADS 6310.

CADS 6350 INTERIOR DESIGN STUDIO: ADVANCED DESIGN PROJECT (4) LEC/STU. 6. CADS graduate students only, or with departmental approval. Response to a complex interior design challenge through application of design process, resulting in an advanced solution informed by pre-design research. May count for either CADS 5350 or 6350.

CADS 6400 INTERIOR DESIGN STUDIO: DESIGN FOR HEALTH AND WELLNESS (4) LEC/STU. 6. Departmental approval. Development of interior design solutions for health, wellness, and quality of life. Graduate standing.

CADS 6450 HISTORY OF COSTUME (3) LEC. 3. Historical roles of dress in western civilization. Cultural, social, and physical evolution. Credit will not be given for both CADS 6450 and CADS 5450. Departmental approval. Graduate standing.

CADS 6460 FASHION INDUSTRY SINCE 1910 (3) LEC. 3. Departmental approval. Fashion history, designers and businesses from 1910 to the present. May count either CADS 5460 or CADS 6460. Graduate standing.

CADS 6500 APPAREL MERCHANDISING PORTFOLIO (2) LEC. 2. Pr. CADS 5850 or CADS 5860. Portfolio development in print and digital formats for merchandising students.

CADS 6510 DIGITAL RETAILING FOR APPAREL (3) LEC. 3. Application of various digital retailing and merchandising concepts and strategies for apparel businesses. Graduate standing or departmental approval needed.

CADS 6600 GLOBAL SOURCING IN TEXTILES AND APPAREL (3) LEC. 3. Departmental approval. The role of fiber, textile, and apparel industries in the international economy. Credit will not be given for both CADS 5600 and CADS 6600. Graduate standing.

CADS 6610 GLOBAL RETAILING STRATEGIES FOR TEXTILE AND APPAREL PRODUCTS (3) LEC. 3. Strategies for successful global business expansion for textile and apparel retailers. Credit given for only one of: CADS 5610, CADS 6610, MKTG 4330. Departmental approval.

CADS 6700 ENTREPRENEURSHIP IN APPAREL AND INTERIORS (3) LEC. 3. Departmental approval. Analyzing business opportunities in textiles, apparel, and interiors; developing marketing concepts and entrance strategies. Credit will not be given for both CADS 5700 and CADS 6700.

CADS 6730 HISTORY OF TEXTILES (3) LEC. 3. Departmental approval. Cultural, economic, material, technological, and aesthetic perspectives on the evolution of textiles. Credit will not be given for both CADS 5730 and CADS 6730.

CADS 6750 APPAREL LINE DEVELOPMENT (4) LEC. 2. LAB. 6. Team-driven design, production, and market research. Development of apparel lines. Credit will not be given for both CADS 5750 and CADS 6750. Departmental approval. Graduate standing.

CADS 6760 FASHION ANALYSIS AND FORECASTING (3) LEC. 3. Departmental approval. Theories explaining fashion dynamics and techniques for forecasting change with case applications in textiles, apparel, and retailing. Credit will not be given for both CADS 6760 and CADS 5760.

CADS 6770 PORTFOLIO DEVELOPMENT FOR APPAREL DESIGN (4) LST. 4. Survey of advanced techniques in design presentation including computer-aided design and graphics software. Portfolio development in print, digital and web formats for an apparel design focus. Departmental approval needed. May count either CADS 5770 or CADS 6770.

CADS 6780 INTERNATIONAL PHILANTHROPY (3) LEC. 2.5. Introduction to the role of international philanthropy in addressing global poverty and how philanthropic practices and behaviors are embedded in cultural contexts. Explores best practices in cross-border philanthropy and volunteering, supporting the development of cross-cultural competencies.

CADS 6790 GRANTMAKING FOR PHILANTHROPISTS (3) LEC. 3. Introduction to philanthropic grantmaking institutions including mission development, needs assessment, proposal analysis, and site visits. Incorporates student philanthropy via development of grant-making strategies and best practices in individual giving.

CADS 6850 APPAREL MERCHANDISING AND RETAIL MANAGEMENT (4) LEC. 3. LAB. 2. Departmental approval. Problem-solving and decision making strategies for retailing, apparel, textiles, and other consumer products. Credit will not be given for both CADS 6850 and CADS 5850.

CADS 6860 ADVANCED RETAIL BUYING (3) LEC. 2. LAB. 1. Departmental approval. Planning, executing and evaluating retail buying to maximize ROI. Credit will not be given for both CADS 5860 and CADS 6860.

CADS 7040 PROTOCOL FOR GRADUATE STUDY (1) LEC. 1. SU. Departmental approval. Introduction to policies, practices, and expectations for successful completion of the graduate degree.

CADS 7050 RESEARCH METHODS IN CONSUMER AND DESIGN SCIENCES (3) LEC. 3. Pr. CADS 7060. Research and investigation methods appropriate to the study of consumer and design sciences.

CADS 7060 SURVEY OF CONSUMER AND DESIGN SCIENCES RESEARCH (3) LEC. 3. Presentation and discussion of a broad array of research topics to support literature review development.

CADS 7100 ENVIRONMENTAL DESIGN THEORIES AND APPLICATIONS (3) LEC. 3. Theories, methodologies, and current issues relevant to interior design; sociological, psychological, ecological, and post-modern perspectives. Departmental approval for Pre-requisites.

CADS 7200 AESTHETICS THEORY IN CONSUMER AND DESIGN SCIENCES (3) LEC. 3. Pr. P/C CADS 7050. Review of theories of aesthetics focusing on aesthetic experience and response as a function of object, perceiver, and situational properties. Graduate standing.

CADS 7530 SUSTAINABILITY THEORY AND APPLICATIONS (3) LEC. 3. Pr. P/C CADS 7050. Departmental approval. Overview of current sustainability theories, research, and methodologies from the perspectives of different fields of study. Evaluation of literature and practices in the apparel and textile industrial complex, interior design practice, and related products and services through people, processes, and the environment. Development and presentation of original scholarly or creative design work within sustainability frameworks.

CADS 7670 SOCIAL PSYCHOLOGICAL THEORIES IN CONSUMER AND DESIGN SCIENCES (3) LEC. 3. Pr. P/C CADS 7050. Examination of theories that explain the social-psychological aspects of consumer behavior related to apparel and design sciences.

CADS 7690 CONSUMER THEORY IN APPAREL AND INTERIORS (3) LEC. 3. Pr. CADS 7050. Departmental approval. Overview of various theories used in consumer research with an emphasis on their application in apparel, merchandising, design, and interiors.

CADS 7900 DIRECTED STUDIES (1-3) IND. SU. Course may be repeated for a maximum of 6 credit hours.

CADS 7910 SUPERVISED TEACHING IN CONSUMER AND DESIGN SCIENCES (1) AAB/IND. 1. SU. Departmental approval. Practical experience teaching in the classroom. Course may be repeated for a maximum of 3 credit hours.

CADS 7920 GRADUATE INTERNSHIP (3) INT. 3. Departmental approval. Supervised professional experience in the United States or internationally.

CADS 7930 ADVANCED DESIGN PROJECTS (1-6) IND. SU. Departmental approval. Independent execution of advanced design work. (A) Apparel; (B) Interiors; (C) Visual Merchandising; (D) Textile Design. Course may be repeated for a maximum of 6 credit hours.

CADS 7940 STUDY/TRAVEL IN CONSUMER AND DESIGN SCIENCES (1-3) FLD. SU. Departmental approval. Concentrated study/travel in the U.S. or internationally. Course may be repeated for a maximum of 6 credit hours.

CADS 7950 SEMINAR (1) SEM. 1. SU. Departmental approval. Research presentations and discussion. Course may be repeated for a maximum of 3 credit hours.

CADS 7960 SPECIAL PROBLEMS (1-3) IND. SU. Departmental approval. Directed readings in textiles, apparel, interiors and retailing. Course may be repeated for a maximum of 6 credit hours.

CADS 7970 SPECIAL TOPICS IN DESIGN (1-6) RES. Departmental approval. (A) Apparel; (B) Interiors; (C) Visual Merchandising; (D) Textile Design. Independent execution of advanced design work. Course may be repeated for a maximum of 6 credit hours.

CADS 7980 GRADUATE PROJECT (1-3) RES. Departmental approval. In-depth, integrative research in a particular project related to apparel, textiles, interiors or consumer behavior. Course may be repeated for a maximum of 6 credit hours.

CADS 7990 RESEARCH AND THESIS (1-10) AAB/MST. Course may be repeated with change in topics.

CADS 8100 BRANDING RESEARCH AND THEORIES IN CONSUMER AND DESIGN SCIENCES (3) LEC. 3. Pr. CADS 7050. Critical examination of theories and methodological issues in branding research and application in the fields of consumer and design sciences.

CADS 8950 INDUSTRY ISSUES SEMINAR (1) LEC. 1. SU. Research presentations and discussions on issues facing consumer and design sciences. Course may be repeated for a maximum of 6 credit hours.

CADS 8960 CURRENT ISSUES IN CONSUMER AND DESIGN SCIENCES (1-3) LEC. 1-3. Departmental approval. Examination of current issues in consumer and design sciences. Course may be repeated for a maximum of 6 credit hours.

CADS 8970 SPECIAL TOPICS (1-3) LEC. Departmental approval. Topics related to various aspects of consumer and design sciences. Course may be repeated for a maximum of 9 credit hours.

CADS 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Cooperative Education - COOP

Courses

COOP 4910 COOPERATIVE WORK EXPERIENCE I (0) PRA. SU. Departmental approval. A practical, professional, full-time, curriculum-related work experience in industry, business, or government. Under joint supervision of employer and university. Students participating in Cooperative Education are expected to work in a fulltime, 40 hour/week, job related to their major field of study. Co-op provides up to one year of work experience before graduation when students work a fall, spring and summer term, alternating with academic courses. For students starting a co-op job for the first time.

COOP 4920 COOPERATIVE WORK EXPERIENCE II (0) PRA. SU. Pr. COOP 4910 or COOP 4910 or COOP 4910 or COOP 4910. Departmental approval. A practical, professional, full-time, curriculum-related work experience in industry, business, or government. Under joint supervision of employer and university. Students participating in Cooperative Education are expected to work in a fulltime, 40 hour/week, job related to their major field of study. Co-op provides up to one year of work experience prior to graduation when students work a fall, spring and summer term, alternating with academic courses. COOP 4920 is for students working with their employer for a second work term, following COOP 4910. Course may be repeated for a maximum of 1 credit hours.

COOP 4930 COOPERATIVE WORK EXPERIENCE III (0) PRA. SU. Pr. COOP 4920 or COOP 4920 or COOP 4920 or COOP 4920. Departmental approval. A practical, professional, full-time, curriculum-related work experience in industry, business, or government. Under joint supervision of employer and university. Students participating in Cooperative Education are expected to work in a fulltime, 40 hour/week, job related to their major field of study. Co-op provides up to one year of work experience prior to graduation when students work a fall, spring and summer term, alternating with academic courses. Course may be repeated for a maximum of 1 credit hours.

Counselor Education, Counseling Psychology - COUN

Courses

COUN 1000 CAREER ORIENTATION EXPLORATION (2) LEC. 1. LAB. 2. The process of career decision-making through hands- on activities, in-class exercises, and job shadowing.

COUN 2000 LIVING AND COMMUNICATING IN A DIVERSE SOCIETY (3) LEC. 3. The class developing cultural competence in context of relationships, issues, and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, and mental and physical abilities/disabilities.

COUN 2007 HONORS LIVING AND COMMUNICATING IN A DIVERSE SOCIETY (3) LEC. Pr. Honors College. The class developing cultural competence in context of relationships, issues, and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, and mental and physical abilities/disabilities.

COUN 2020 INTRODUCTION TO LGBTQ STUDIES (3) LEC. 3. The class focuses on content addressing and introduces lesbian, gay, bisexual, and transgender studies. The course will examine the historical, scientific, psychological, and cultural contexts of relationships, issues and trends in a diverse society related to sexual orientation.

COUN 2300 MENTAL HEALTH DISPARITIES (3) LEC. 3. This course will introduce students to mental health disparities and strategies for addressing the social factors of mental health.

COUN 2900 DIRECTED STUDIES (1-3) IND. SU. Reading, research, or other work undertaken by a student focused on an area of special interest. Directed by faculty member. Course may be repeated for a maximum of 9 credit hours.

COUN 2940 DIRECTED FIELD EXPERIENCE (1-3) DSL/FLD. Course may be repeated for a maximum of 9 credit hours.

COUN 2950 THRIVING THROUGH TRANSITIONS (1) SEM. 1. This course requires participation in activities that support healthy living and assignments that facilitate understanding of mechanisms that promote well-being. Course content reviews the process of recovery from addiction and mechanisms used to support long-term recovery. Course may be repeated for a maximum of 12 credit hours.

COUN 2970 SPECIAL TOPICS IN COLLEGE STUDENT DEVELOPMENT (1-3) DSL. Selected topics in college student development. Fall, Spring. Course may be repeated for a maximum of 12 credit hours.

COUN 3000 CAREER SUCCESS (2) LEC. 2. Developing a career plan via instruction on researching careers, writing resumes, developing portfolios, interviewing, net working and other career development practices. May count either COUN 3000 or COUN 3003.

COUN 3100 COUNSELING AND HUMAN SERVICES (3) LEC. 3. Counseling concepts and skills appropriate in the helping professions. Not open to graduate students in counseling education.

COUN 3980 SUPERVISED RESEARCH EXPERIENCE IN COUNSELING (3) LAB. 3. SU. This course provides students with the opportunity to gain supervised research experience in counselor education, counseling psychology, and special education programs. Students will work with the faculty instructor to gain experience in a range of research activities. Course may be repeated for a maximum of 12 credit hours.

COUN 4000 INTRODUCTION TO COUNSELING AND PSYCHOTHERAPY (3) LEC. 3. Pr. COUN 2000 or COUN 2007. Current theory, research, and practice regarding counseling and psychotherapy. We will cover several current issues related relevant to counseling and psychotherapy, including the process of change, theoretical perspectives, ethical issues.

COUN 4010 INTRODUCTION TO PREVENTION AND MENTAL HEALTH PROMOTION (3) LEC. 3. Pr. COUN 2000 or COUN 2007. Addressing the ideas of prevention and health promotion in counseling psychology. We will address such concepts as positive psychology, mindfulness, stress, health promotion, body image, social justice theory, social advocacy, and prevention theory.

COUN 4910 PRACTICUM (1-3) PRA. SU. This course provides students with the opportunity to be actively involved in social justice efforts that affect the region and nation through gaining hands-on experience in a social justice agency. Course may be repeated for a maximum of 6 credit hours.

COUN 4970 SPECIAL TOPICS IN COUNSELING (3) DSL/ST1. Introduction to selected topic in counseling. Course will provide a semester-long introduction and introduction into research in the topic of interest using a seminar style of instruction. Course may be repeated for a maximum of 9 credit hours.

COUN 7010 MEDICAL VOC & PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. An introduction to medical terminology, body systems, common physical and cognitive conditions therapeutic/restorative services, and psychosocial & vocational considerations of various disabilities. May count COUN 7010 or RSED 6010.

COUN 7110 OCCUPATIONAL, CAREER AND PLACEMENT SERVICES (3) DSL/LEC. The course is designed to familiarize students with career theory and methods used by rehabilitation practitioners to analyze and apply vocational techniques to place individuals with disabilities. May count COUN 7110 or RSED 6220.

COUN 7130 VOCATIONAL EVALUATION (3) LEC. 3. Principles, process and techniques used to diagnose vocationally-related assets and liabilities of the individual with disabilities. May count either RSED 7130, COUN 7130.

COUN 7200 INTRODUCTION TO MEASUREMENT AND ASSESSMENT (3) LEC. 3. Pr. COUN 7100 or COUN 7400. Introduction to the history and theory of measurement and assessment as it applies to counselors and psychologists.

COUN 7220 INTELLECTUAL ASSESSMENT OF CHILDREN AND ADOLESCENTS (3) LEC. 3. Pr. COUN 7200. Theory and measurement of children's intelligence. Administration and interpretation of selected tests.

COUN 7230 CAREER DEVELOPMENT AND VOCATIONAL APPRAISAL (3) LEC. 3. Career development theories appraising vocationally related interests, aptitudes, and personal characteristics. Laboratory practice in test procedures.

COUN 7240 COUNSELING CHILDREN AND ADOLESCENTS (3) LEC. 3. Course provides awareness, knowledge, and skills for counseling children and adolescents using effective theoretical approaches, counseling modalities, and specific techniques.

COUN 7250 ADVANCED ASSESSMENT AND DIAGNOSIS IN COUNSELING (3) LEC. 3. Assessment/diagnostic skills related to counseling: intake, assessment, diagnostic criteria, treatment planning, counseling interventions.

COUN 7310 COUNSELING APPLICATIONS OF LIFESPAN DEVELOPMENT (3) LEC. 3. Theories and current research in development across the lifespan with emphasis on applications to counseling.

COUN 7320 COUNSELING THEORIES (3) LEC. 3. Study of major counseling theories.

COUN 7330 COUNSELING DIVERSE POPULATIONS (3) LEC. 3. Departmental approval. Special counseling and advocacy issues. Needs of diverse populations are considered.

COUN 7340 GROUP COUNSELING (3) LEC. 3. Leading, developing, evaluating a counseling group; including group proposal, session development, group dynamics, group leadership and evaluation, treatment planning; group intervention, counseling skills.

COUN 7350 INTRODUCTION TO COUNSELING PRACTICE (3) LEC. 3. Pr. COUN 7320 or COUN 7400 or COUN 8530. Methods, interventions, and skills essential to counseling.

COUN 7360 ADVANCED COUNSELING PRACTICE: FAMILY SYSTEMS (3) LEC. 3. This course will introduce students to Marriage/ Couple and Family Counseling theories. Using a learning-centered educational approach, students will be introduced to systemic, cognitive-behavioral, and postmodern family therapy theories using clinical case documentation. Diversity, evidence-based therapies, and the research foundations will also be covered.

COUN 7370 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count as COUN 7370 or RSED 6340.

COUN 7400 ORIENTATION TO PROFESSIONAL COUNSELING (3) LEC. 3. Orientation to the counseling field with emphasis on philosophical, historical, psychological, and organizational foundations of professional practice.

COUN 7410 ORIENTATION TO CLINICAL MENTAL HEALTH COUNSELING (3) LEC. 3. Orientation to clinical mental health counseling to include roles, responsibilities, systems, theories, professional issues, and history.

COUN 7420 ORIENTATION TO SCHOOL COUNSEL (3) LEC. 3. Orientation to the role and activities of the K-12 school counselor. Emphasis on the components of a developmentally-oriented school counseling program.

COUN 7450 FOUNDATIONS OF SCHOOL COUNSELING (3) LEC. 3. This course is designed to extend beyond the orientation to counseling course and expand the practical knowledge of school counselors-in-training to prepare students to work as effective school counselors based on current research and practical experiences. Restricted to students in Master's Program in School Counseling.

COUN 7460 LEADERSHIP AND ADVOCACY FOR SCHOOL COUNSELORS (3) LEC. 3. This course is designed to provide an overview of school counseling leadership and advocacy. School counselors in training will develop a deeper knowledge of their role of educational leaders while serving as school counselors. Restricted to students in Counselor Education.

COUN 7500 CRISIS INTERVENTION IN COUNSELING (3) LEC. 3. Development of skills and knowledge for crisis intervention and management in counseling, including prevention planning, intervention strategies and evaluation.

COUN 7510 ADVANCED CLINICAL MENTAL HEALTH COUNSELING INTERVENTIONS (3) LEC. 3. Pr. COUN 7320. Advanced counseling interventions, practices, techniques and methods for mental health counselors, including treatment planning, counseling processes, and evaluation.

COUN 7520 INTRODUCTION TO REHABILITATION AND CASE MANAGEMENT IN REHABILITATION COUNSELING (3) LEC. 3. Program organization and development of materials for curriculum improvement and teaching practices in a disability specialization area. COUN 7520 may be repeated for a maximum combined total of 9 credits with a change in disability specialization.

COUN 7900 DIRECTED STUDIES (1-3) IND. SU. Independent learning effort directed at desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

COUN 7910 PRACTICUM (3) LEC. 3. SU. Supervised experiences appropriate to student's program emphasis area. Course may be repeated for a maximum of 9 credit hours.

COUN 7920 INTERNSHIP (1-9) INT. SU. Pr. COUN 7910 or COUN 7916. Supervised on-the-job experiences. Course may be repeated for a maximum of 9 credit hours.

COUN 7930 ADVANCED THEORIES IN COUNSELING PRACTICE (3) LEC. 3. Intensive study of advanced theories within rehabilitation counseling, as well as an examination of outcome research relating to the use and application of these theories and techniques. May count COUN 7930 or RSED 7940.

COUN 7950 EMERGING ADULTHOOD AND TRANSITION IN REHABILITATION (3) LEC. Introduction to the transition process of youth with disabilities from school to adulthood and employment with emphasis on the developmental stage emerging adulthood. May count COUN 7950 or RSED 7950.

COUN 7960 SPECIAL PROBLEMS (1-10) IND. SU. May be repeated. Course may be repeated for a maximum of 10 credit hours.

COUN 7970 SPECIAL TOPICS (1-3) AAB. An in-depth study of a current topic(s) impacting the professions related to departmental programs. Course may be repeated for a maximum of 9 credit hours.

COUN 8110 COUNSELING ASSESSMENT ACROSS THE LIFESPAN (3) LEC. 3. Development, administration, scoring and interpretation of personality, interest, aptitude, achievement, and attitude tests across the lifespan.

COUN 8120 APPRAISAL IN COUNSELING AND PSYCHOLOGY (3) LEC. 3. Development, administration, scoring and interpretation of personality, interest, aptitude, achievement, attitude tests. Includes assessment interview, behavioral observation.

COUN 8200 INTELLECTUAL ASSESSMENT OF ADULTS (3) LEC. 2. LAB. 3. Pr. COUN 8120. Theory and measurement of adult intelligence. Administration and interpretation of selected tests.

COUN 8210 TEST ADMINISTRATION AND PROFESSIONAL PRACTICE (3) LEC. 3. Pr. COUN 8530. Administration and scoring of selected tests, primarily WAIS-IV, to familiarize students with measurements for assessment of adult intelligence.

COUN 8220 PSYCHOLOGICAL SCIENCE AND HEALTH (3) LEC. 3. Pr. PSYC 7150 and PSYC 7180 and COUN 7330 and COUN 7310. In this course, fundamental science relating to health and psychology will be reviewed, focusing on major theoretical foundations, research findings, and empirically supported interventions. Students will be expected to integrate foundational knowledge in psychological science with particular emphasis on biological.

COUN 8230 COLLOQUIUM IN COUNSELING PSYCHOLOGY I (1) SEM. 1. SU. This course provides pre-practicum students with training in the conduct of counseling psychology research to provide foundational skills in research design and implementation.

COUN 8240 COLLOQUIUM IN COUNSELING PSYCHOLOGY II (2) LAB. 1, LAB/SEM. 1. SU. This course provides continued education and training in counseling psychology research and provides opportunities to demonstrate an ability to evaluate psychotherapy research in order to achieve readiness for practicum in research skills.

COUN 8250 COLLOQUIUM IN COUNSELING PSYCHOLOGY III (3) LAB. 1, LAB/SEM. 2. Pr. COUN 8240. This course provides advanced education and training in the development, conduct, and dissemination of counseling psychology research and provides opportunities to demonstrate an ability to contribute to meaningful scholarship in Counseling Psychology.

COUN 8260 COLLOQUIUM IN COUNSELING PSYCHOLOGY IV (3) LAB. 1, SEM. 2. Pr. COUN 8250. This course provides advanced education and training in the development, conduct, and dissemination of counseling psychology research and provides opportunities to demonstrate an ability to integrate concepts of equity and justice in the contribution to meaningful scholarship in Counseling Psychology.

COUN 8300 RESEARCH DESIGN IN COUNSELING AND EVALUATION (3) LEC. 3. Departmental approval. Methods for counseling research design . Studies, experimental, quasi-experimental, non-experimental, survey, between subjects and within subjects.

COUN 8310 COGNITION AND EMOTION (3) LEC. 3. Theory and empirical evidence on the cognitive and affective bases of human behavior. Integration of scientific knowledge regarding cognition and emotion.

COUN 8320 GREAT IDEAS IN PSYCHOLOGY (3) LEC. 3. Orientation to the individuals and ideas that shaped psychology using a history and systems perspective.

COUN 8400 PROFESSIONAL SEMINAR COUNSELING PSYCHOLOGY (1-3) LEC. Scientific foundations of the counseling psychology profession and application of that foundational knowledge in counseling interventions. Course may be repeated for a maximum of 9 credit hours.

COUN 8510 CONTEMPORARY ISSUES IN COUNSELOR EDUCATION (3) LEC. 3. Departmental approval. History, development, current issues. Philosophical assumptions, legal and ethical considerations, new research service initiatives.

COUN 8530 CONTEMPORARY ISSUES IN COUNSELING PSYCHOLOGY (3) LEC. 3. History, development, and current professional issues. Philosophical and cultural assumptions, legal and ethical considerations, and current research topics.

COUN 8540 COUN SUPERVISION-THEORY & PRAC (3) LEC. 3. Advanced theories, skills, models and methods used in counseling supervision including counselor development, supervisory processes and evaluation.

COUN 8550 COUNSELOR EDUCATION PEDAGOGY (3) LEC. 3. Counselor Education pedagogical skills and knowledge including; theories, course and curriculum development methods, and professional responsibilities.

COUN 8610 ADVANCED THEORIES: EXISTENTIAL/HUMANISTIC (3) LEC. 3. Theory and practice of humanistic/existential approaches to individual and group therapy.

COUN 8620 ADVANCED COUNSELING THEORIES AND PRACTICE (3) LEC. 3. Advanced study of counseling theories. Includes research relating to application of theories and techniques. Course will emphasize integration, evidence-based approaches, case conceptualization and models for evaluation.

COUN 8630 ADVANCED THEORIES: PSYCHODYNAMIC THEORIES (3) LEC. 3. Departmental approval. The origins, current status, and emerging applications of psychodynamic approaches to counseling.

COUN 8700 DIVERSITY AND SOCIAL JUSTICE IN COUNSELOR EDUCATION (3) LEC. 3. Must be admitted to the Counselor Education Doctoral Program. This advanced course provides students with information about issues of diversity and social justice. Students apply this information to their roles in the counseling profession, specifically as future counselor educators, leaders of the profession, and advocates.

COUN 8800 PROFESSIONAL DEVELOPMENT INTERNSHIP SKILLS (3) LEC. 3. This three-hour required course is designed to help students solidify their professional identity and effectively apply for their one-year Counseling Psychology internship.

COUN 8910 PRACTICUM (1-3) LEC. 1-3. SU. Advanced supervised experiences appropriate to student's program emphasis. Course may be repeated for a maximum of 15 credit hours.

COUN 8920 INTERNSHIP (1-9) INT. SU. Advanced supervised on-the-job experiences appropriate to doctoral-level study. Course may be repeated for a maximum of 9 credit hours.

COUN 8930 INTERNSHIP IN COUNSELING PSYCHOLOGY (0) INT. SU. Departmental approval. Supervised, full-time experience in Counseling Psychology at the doctoral level. May be repeated to satisfy 2000 clock hour accreditation requirement.

COUN 8970 SPECIAL TOPICS (1-3) SEM. An in-depth study of the current educational, sociological, psychological, economic, health, legal, technological, and professional issues impacting the professions related to departmental programs. Course may be repeated for a maximum of 9 credit hours.

COUN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated. Course may be repeated with change in topics.

Crop, Soil, and Environmental Sciences - CSES

Courses

CSES 1010 SOILS AND LIFE (4) LEC. 3. LAB. 2. Science Core. Practical applications of important soil properties and their function in everyday life. Connections between soils and human life will be made. topics include food security, sustainable agricultural production, soil and water quality, and waste disposal.

CSES 1020 CROPS AND LIFE (4) LEC. 3. LAB. 2. Science Core. Essential role of crop plants to human life. Topics will include historical development of crop science, impact of crop science on human development, and major issues and problems facing modern crop science and technology.

CSES 2000 BASIC CROP SCIENCE (4) LEC. 3. LAB. 2. Agronomic principles of classification, growth, structure, and soil-plant relationship of field crops, with emphasis on influence of man and environment, and importance of crop production.

CSES 2040 BASIC SOIL SCIENCE (4) LEC. 3. LAB. 2. Pr. (CHEM 1010 and CHEM 1011) or (CHEM 1030 and CHEM 1031) or (CHEM 1110 and CHEM 1111) or (CHEM 1117 and CHEM 1118) or (CHEM 1033 and CHEM 1031). Formation, classification, properties, management, fertility and conservation of soils in relation to the growth of plants. Fall, Spring.

CSES 2910 TURFGRASSES: USES AND CARE FOR SPORTS AND LEISURE (2) LEC. 2. Introduction to the commonly used turfgrasses of the southeastern United States including of these turfgrasses for gold courses, athletic fields and home lawns will be included. This course may not be substituted for CSES 3150.

CSES 3120 PRINCIPLES OF WEED SCIENCE (4) LEC. 3. Pr. CSES 2040 or AGRN 2040 and (BIOL 1020 or BIOL 1027). Weed identification and biology, methods of weed management and classification of herbicides and how they are used in weed control. Laboratory subjects are weed identification and sprayer calibration. Fall.

CSES 3150 TURFGRASS MANAGEMENT (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or AGRN 2040) and (BIOL 1020 or BIOL 1027). The management of recreational and home area turfgrass will be studied including establishment and maintenance of turf and the effect of light, traffic, soil fertility and water on its growth. Fall, Spring.

CSES 3200 APPLIED TURF MANAGEMENT (3) LEC. 1. LAB. 4. Pr. P/C CSES 3150 or AGRN 3150. Familiarize students with the operation and maintenance of the equipment used for turfgrass maintenance. Effects on turfgrass performance will also be covered.

CSES 3300 PLANT GENETICS AND CROP IMPROVEMENT (3) LEC. 3. Pr. (P/C CSES 2000) or (BIOL 1020). Principles related to mendelian, population, and molecular genetics of plants including inheritance of qualitative and quantitative traits, and plant transformation. Improvement of crop plants including heritability, role of environment, pedigree selection, recurrent selection, the backcross method, and marker-assisted selection. Fall

CSES 3400 SUSTAINABLE MANAGEMENT OF TROPICAL SOILS (3) LEC. 3. LAB. 0, AAB/LEC. 0. This course explores the unique characteristics of tropical soils, focusing on their genesis, and physical, chemical, and biological properties. Students will learn to apply sustainable management practices that enhance soil health and productivity in tropical environments. The course integrates scientific principles with practical approaches to address challenges in soil conservation and agricultural sustainability in tropical regions.

CSES 3920 INTERNSHIP (3) INT. 3. Practical experience under the the supervision of an approved employer and the department. Internship may be in the areas of production, business, turf or science. Course may be repeated for a maximum of 6 credit hours.

CSES 3960 SPECIAL PROBLEMS (2) LAB. 2. Departmental approval. Individual and group problems investigations in crop, soil or weed science. Course may be repeated for a maximum of 4 credit hours.

CSES 3970 SPECIAL TOPICS (3) AAB/ST1. 3. New topics in agronomy and soils. Course may be repeated for a maximum of 6 credit hours.

CSES 4100 CROPS JUDGING (2) LEC. 1. LAB. 2. Departmental approval. Crops Judging is a course designed to prepare students for the national Crops Judging contest held at the Students of Agronomy, Soils and Environmental Sciences annual meeting. Students will learn practical knowledge to diagnose in-field agronomic problems such as crop nutrient deficiencies, disease damage, insect damage, weed pressure, herbicide injury, and soil management issues. Students must participate in the Crops Judging Contest at the SASES meeting in the semester the class is taken. Course may be repeated for a maximum of 6 credit hours.

CSES 4200 SOIL JUDGING (2) LEC. 1. LAB. 4. Description, evaluation and interpretation of soil-profile characteristics. Fall. Course may be repeated for a maximum of 8 credit hours.

CSES 4210 ADVANCED SOIL JUDGING (2) LEC. 1. LAB. 2. Pr. CSES 4200 or AGRN 4200. Advanced description, evaluation, and interpretations of soil-profile characteristics. Spring. Course may be repeated for a maximum of 8 credit hours.

CSES 4300 TURFGRASS COMPETITIONS (2) LEC. 1. LAB. 2. Departmental approval. The class is a comprehensive overview of practical turfgrass management in preparation for student competitions organized by the Sports Field Managers Association 9SFMA Student Challenge)and the Golf Course Superintendents Association of America (Turf Bowl). Students will compete in one or both of these contests during the semester following successful completion of the course. Course may be repeated for a maximum of 6 credit hours.

CSES 4950 SENIOR SEMINAR (2) LEC. 2. This course will cover professional presentations, both oral and written, in the area of Agronomy and Soils.

CSES 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Course may be repeated for a maximum of 3 credit hours.

CSES 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

CSES 5000 ENVIRONMENTAL QUALITY (3) LEC. 3. Role of global land use in biogeochemical cycling of major elements and compounds of environmental concern; interactions of pollutants with soils and aquatic and atmospheric environments; methods to minimize or correct pollution; risk assessment.

CSES 5010 ANALYSIS OF PLANT, SOIL, AND ANIMAL DATA (3) LEC. 3. Pr. MATH 1130 or STAT 2510. Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc.

CSES 5020 NUTRIENT MANAGEMENT (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Lectures and problems illustrate principles of nutrient management as related to soil or growth media, plant, fertilizer practices, management systems and environment. Required for all students majoring in Agronomy and Soils. Spring.

CSES 5030 ADVANCED CROP SCIENCE (3) LEC. 3. Pr. (CSES 1000 or CSES 1003 or CSES 2000) or (AGRN 1000 or AGRN 1003 or AGRN 1007) or (AGRN 2040 or AGRN 2043) and (CSES 2040 or CSES 2043) and (BIOL 1030 or BIOL 1037). Application and integration of principles from undergraduate agricultural, biological and physical sciences courses in management of crop production systems. May count either CSES 5030.

CSES 5060 SOIL MICROBIOLOGY LECTURE (3) LEC. 3. Pr. BIOL 3200. Ecology, physiology, and biochemistry of soil microorganisms with emphasis on soil microbial processes that are important to environmental quality and soil productivity. Spring.

CSES 5061 SOIL MICROBIOLOGY LAB (1) LAB. 2. Pr. (P/C CSES 5060 or P/C CSES 5063) or (P/C AGRN 5060 or P/C AGRN 5063). Laboratory exercises illustrating ecology, physiology, and biochemistry of soil microorganisms. Credit will not be given for both CSES 5061 and CSES 6061. Spring.

CSES 5080 SOIL RESOURCES AND CONSERVATION (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soils as a natural resource for land-use planning; their use and management for sustainable crop production, urban and industrial development and ecosystem protection. CSES 5080 Summer. CSES 5083 Fall.

CSES 5100 PLANT GENETICS AND CROP IMPROVEMENT (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Principles related to mendelian, population, and molecular genetics of plants including inheritance of qualitative and quantitative traits, and plant transformation. Improvement of crop plants including heritability, role of environment, pedigree selection, recurrent selection, the backcross method, and marker-assisted selection. Fall

CSES 5110 PLANT BREEDING I (3) LEC. 3. Pr. CSES 3300 or BIOL 3000 or BIOL 3003 or AGRI 3000. Fundamental principles and theories utilized in the science of plant breeding and cultivar development and the role breeding plays in crop improvement.

CSES 5120 PLANT BREEDING II (3) LEC. 3. Pr. CSES 5110. Review and contrast how major crop species breeding strategies are determined. Emphasis on integration of traditional methodologies with modern genetic and genomic technologies.

CSES 5150 SOIL MORPHOLOGY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Physical, chemical and mineralogical properties of soils are studied in relation to their distribution and classification for environmental, engineering and agricultural use and interpretations. Spring.

CSES 5160 ADVANCED TURFGRASS MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) or (AGRN 3150 or AGRN 3153). Factors affecting the turfgrass plant as a component of a dynamic community. Influence of soil chemical and physical conditions, management practices and climate are discussed. Theoretical and practical aspects of turfgrass management practices are discussed along with design and construction of golf courses and other athletic purpose turf areas.

CSES 5200 APPLIED WEED SCIENCE TECHNOLOGY (3) LEC. 2. LAB. 2. Pr. CSES 3120 or AGRN 3120. Advanced weed identification, pesticide application technology, identification of herbicide injury symptomology, and develop of interaction techniques and problem solving skills for dealing with potential herbicide efficacy problems. Course may be repeated for a maximum of 6 credit hours.

CSES 5230 DRONES FOR CROP PRODUCTION (3) LEC. 2. LAB. 2. Pr. (CSES 2000) and (CSES 2040). Use of drone technology for crop production including applications of pesticides and fertilizers, planting cover crops, and capturing remote imagery to monitor plant health and make crop management decisions. Department approval.

CSES 5240 CROP PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3100 or HORT 3000. Integrates principles of plant physiology, biochemistry, ecology, and genetics as they relate to plant growth and development and crop yield. The effect of management practices and abiotic stress on plant growth and development will be discussed. Credit will only be given for one of the following: CSES 5240 or CSES 6240.

CSES 5250 AQUATIC SEDIMENTS (4) LEC. 3. LAB. 1. An overview of sediments in aquatic environments with a focus on the biogeochemistry, storage capacity, and use in paleoenvironmental reconstruction.

CSES 5300 SOIL CHEMISTRY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). An introduction to the basic soil chemical properties of mineral composition, weathering, absorption, cation exchange, acidity, alkalinity, salinity and soil reactions with fertilizers, pesticides and heavy metals. Spring.

CSES 5400 BIOENERGY AND THE ENVIRONMENT (3) LEC. 3. The role of bioenergy in reducing environmental problems related to use of fossil fuels and certain agricultural practices, and in addressing declining rural economies.

CSES 5500 FORAGE PRODUCTION AND UTILIZATION (3) LEC. 3. Grass and legume forage crops. The crops are considered from the standpoint of (a) pasture crops, (b) hay and silage crops, (c) soil-improving crops. Spring. May count either CSES 5500 or CSES 5503.

CSES 5590 ENVIRONMENTAL SOIL PHYSICS AND VADOSE ZONE HYDROLOGY (4) LEC. 3. LAB. 2. Pr. CSES 2040. Explore the dynamic interplay of soil physical properties and vadose zone hydrology in this comprehensive environmental soil physics course. Delve into the intricate mechanisms governing the movement of water, chemicals, heat, and gases through soils within diverse ecosystems, including agricultural, urban, and natural landscapes. Uncover the complexities of the soil-plant-atmosphere continuum and gain hands-on experience with field instrumentation for precise measurement and assessment of soil physical properties.

CSES 5800 CLIMATE, WATER, AND LIFE (3) LEC. 3. LAB. 0. The course will introduce essential hydroclimate processes and phenomena, and their impacts on water resources, food and agriculture, and ecosystems. Major topics include climate variability and change, radiation, temperature, humidity, precipitation, land surface energy and water fluxes, their linkages with plants and humans, and climate hazards and resiliency.

CSES 5960 SPECIAL PROBLEMS (1-3) IND. Work under the direction of a staff member on special problems in crop, soil or weed science. Course may be repeated for a maximum of 6 credit hours.

CSES 6000 ENVIRONMENTAL QUALITY (3) LEC. 3. Role of global land use in bio-geochemical cycling of major elements and compounds of environmental concern; interactions of pollutants with soils and aquatic and atmospheric environments; methods to minimize or correct pollution; risk assessment.

CSES 6010 ANALY PLANT, SOIL & ANI DATA (3) LEC. 3. Pr. (MATH 1130 or MATH 1133) or (STAT 2510 or STAT 2513). Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc.

CSES 6020 NUTRIENT MANAGEMENT (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Lectures and problems illustrate principles of nutrient management as related to soil or growth media, plant, fertilizer practices, management systems and environment. Required for all students majoring in Agronomy and Soils. Spring.

CSES 6030 ADVANCED CROP SCIENCE (3) LEC. 3. Application and integration of principles from undergraduate agricultural, biological and physical sciences courses in management of crop production systems. May count either CSES 5030/CSES 6030 or CSES 5033/CSES 6036.

CSES 6060 SOIL MICROBIOLOGY LECTURE (3) LEC. 3. Ecology, physiology, and biochemistry of soil microorganisms with emphasis on soil microbial processes that are important to environmental quality and soil productivity. Spring.

CSES 6061 SOIL MICROBIOLOGY LAB (1) LAB. 2. Pr. (P/C CSES 6060 or P/C CSES 6066) or (P/C AGRN 6060 or P/C AGRN 6066). Laboratory exercises illustrating ecology, physiology, and biochemistry of soil microorganisms. Credit will not be given for both CSES 5061 and CSES 6061. Spring.

CSES 6080 SOIL RESOURCES AND CONSERVATION (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soils as a natural resource for land-use planning; their use and management for sustainable crop production, urban and industrial development and ecosystem protection. CSES 6080 Summer. CSES 6086 Fall.

CSES 6110 PLANT BREEDING I (3) LEC. 3. Fundamental principles and theories utilized in the science of plant breeding and cultivar development and the role breeding plays in crop improvement.

CSES 6120 PLANT BREEDING II (3) LEC. 3. Pr. CSES 6110. Review and contrast how major crop species breeding strategies are determined. Emphasis on integration of traditional methodologies with modern genetic and genomic technologies.

CSES 6150 SOIL MORPHOLOGY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Physical, chemical and mineralogical properties of soils are studied in relation to their distribution and classification for environmental, engineering and agricultural use and interpretations. Spring.

CSES 6160 ADVANCED TURFGRASS MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) and (BIOL 3100 or BIOL 6130) or (AGRN 3150 or AGRN 3153). Factors affecting the turfgrass plant as a component of a dynamic community. Influence of soil chemical and physical conditions, management practices and climate are discussed. Theoretical and practical aspects of turfgrass management practices are discussed along with design and construction of golf courses and other athletic purpose turf areas.

CSES 6200 APPLIED WEED SCIENCE TECH (3) LEC. 2. LAB. 2. Advanced weed identification, pesticide application technology, identification of herbicide injury symptomology, and develop of interaction techniques and problem solving skills for dealing with potential herbicide efficacy problems. Course may be repeated for a maximum of 6 credit hours.

CSES 6230 DRONES FOR CROP PRODUCTION (3) LEC. 2. LAB. 2. Use of drone technology for crop production including applications of pesticides and fertilizers, planting cover crops, and capturing remote imagery to monitor plant health and make crop management decisions. Department approval for undergraduate version.

CSES 6240 CROP PHYSIOLOGY (3) LEC. 3. Integrates principles of plant physiology, biochemistry, ecology, and genetics as they relate to plant growth and development and crop yield. The effect of management practices and abiotic stress on plant growth and development will be discussed. Credit will only be given for one of the following: CSES 5240 or CSES 6240.

CSES 6250 AQUATIC SEDIMENTS (4) LEC. 3. LAB. 1. An overview of sediments in aquatic environments with a focus on the biogeochemistry, storage capacity, and use in paleoenviromental reconstruction.

CSES 6300 SOIL CHEMISTRY (4) LEC. 2. LAB. 4. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). An introduction to the basic soil chemical properties of mineral composition, weathering, absorption, cation exchange, acidity, alkalinity, salinity and soil reactions with fertilizers, pesticides and heavy metals. Spring.

CSES 6400 BIOENERGY AND THE ENVIRONMENT (3) LEC. 3. The role of bioenergy in reducing environmental problems related to use of fossil fuels and certain agricultural practices, and in addressing declining rural economies.

CSES 6500 FORAGE PRODUCTION AND UTILIZATION (3) LEC. 3. Pr., In major or departmental approval. Grass and legume forage crops. The crops are considered from the standpoint of (a) pasture crops, (b) hay and silage crops, (c) soil-improving crops and (d) energy crops. May count either CSES 6500 or CSES 6506.

CSES 6590 ENVIRONMENTAL SOIL PHYSICS AND VADOSE ZONE HYDROLOGY (4) LEC. 3. LAB. 2. Pr. CSES 2040. Explore the dynamic interplay of soil physical properties and vadose zone hydrology in this comprehensive environmental soil physics course. Delve into the intricate mechanisms governing the movement of water, chemicals, heat, and gases through soils within diverse ecosystems, including agricultural, urban, and natural landscapes. Uncover the complexities of the soil-plant-atmosphere continuum and gain hands-on experience with field instrumentation for precise measurement and assessment of soil physical properties.

CSES 6800 CLIMATE, WATER, AND LIFE (3) LEC. 3. The course will introduce essential hydroclimate processes and phenomena, and their impacts on water resources, food and agriculture, and ecosystems. Major topics include climate variability and change, radiation, temperature, humidity, precipitation, land surface energy and water fluxes, their linkages with plants and humans, and climate hazards and resiliency.

CSES 6900 DIRECTED STUDIES (1-3) DSL/LEC. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 6930 ADVANCED DIRECTED STUDIES (1-3) DSL/LEC. SU. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 6960 SPECIAL PROBLEMS (1-3) DSL/IND. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 7080 EXPERIMENTAL METHODS (3) LEC. 3. Pr. STAT 7000. Experimentation in the agricultural sciences including experimental techniques, interpretation of research data, use of library references, and preparation of publications. Problems, assigned readings and lectures. Summer.

CSES 7100 AGINFORMATICS: COMPUTATIONAL THINKING FOR AGRICULTURE (3) LEC. 2. LAB. 2. Computer programming for applied sciences. Focus on the Python programming language and utilization of the Unix command line. Python programming from basics of control structures to object-oriented programming. Course will cover script development using integrated development environments and accessing data via APIs. Course will cover the command line interface and introduction to Bash scripting.

CSES 7120 PLANT GENOMICS (3) LLB. Hands-on bioinformatics of complex plant genomes, including assembly and annotation. Writing- and bioinformatics-intensive course that culminates in a plant genome manuscript. Fall.

CSES 7140 CHEMISTRY AND USE OF HERBICIDES IN CROP PRODUCTION (4) LEC. 3. LAB. 2. Pr. CHEM 1040. Principles and use of herbicides in agronomic crops. Methods of herbicide application, including time, incorporation and formulation, the fate of herbicides in soil and the ecological impact on succeeding plant species. Fall.

CSES 7160 GENETIC DATA ANALYSIS (3) LEC. 3. Pr. (CSES 5100 or CSES 5103) or (CSES 6100 or CSES 6106) and STAT 4020 or (AGRN 5100 or AGRN 5103) or (AGRN 6100 or AGRN 6106). Introduces procedures to study the genetic characteristics of individuals and populations. Computer models will be used to simulate genomes and traits. Application of quantitative methods to experimental populations used to plan breeding programs. Fall.

CSES 7170 ADVANCED PLANT BREEDING (3) LEC. 3. Pr. CSES 7160 or (AGRN 7160 or AGRN 7166). Estimation and interpretation of genetic variance components, heritability, selection response, yield stability indices and their effect on choice of breeding method. Recurrent selection theory and breeding for resistance to plant stresses.

CSES 7180 SUSTAINABLE AGROECOLOGY (3) LEC. 3. Pr. (BIOL 6130 or CSES 7250) or (AGRN 7250 or AGRN 7256) and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). The study of interactions between crops and abiotic and biotic environments. Emphasis is placed on quantitatively examining theory and principles for production, stability and sustainability of agricultural ecosystems. Graduate standing in CSES or departmental approval

CSES 7200 WEED BIOLOGY AND ECOLOGY (4) LEC. 3. LAB. 2. Students will learn a broader understanding of and appreciation for the biology and bionomics of agricultural weeds and invasive species, relevant analytical tools, and the application of ecological concepts for sustainable weed management in agricultural and natural systems.

CSES 7270 QUANTITATIVE GENETICS IN PLANT BREEDING (3) LEC. 3. Quantitative and population plant genetics and their interrelationship with plant breeding. Genetic and environmental variation and how they relate to selection procedures and choice of type of variety. Predictive plant breeding. QTL discovery, molecular breeding, and genomic selection in an applied breeding program.

CSES 7540 PRINCIPLES OF PLANT NUTRITION (3) LEC. 3. Pr. CSES 6020 or CSES 6026 or (AGRN 6020 or AGRN 6026). Processes of nutrient flux to plant roots growing in soil. Chemistry and properties of soil in relation to the nutrition and growth of plants. Summer.

CSES 7600 AGROCLIMATOLOGY (3) LEC. 3. The relationships between climatological processes and agriculture, including precipitation, evapotranspiration, meteorological hazards, irrigation and drainage, crop development, climate data acquisition and analysis, crop-weather models, and impacts of global climate change. May count either CSES 7600 pr CSES 7606.

CSES 7670 SPECIAL TOPICS (1-4) DSL/LEC. Advanced topics related to Crop, Soil and Environmental Sciences. Course may be repeated for a maximum of 8 credit hours.

CSES 7800 DEEP LEARNING FOR ENVIRONMENTAL SCIENCES (3) LEC. 2. LAB. 2. The course will cover concepts and applications of deep learning for environmental sciences. The goal is to understand the concepts and applications of deep learning methods in environmental sciences, formulate relevant environmental, climate, and earth system science problems, and how to use these methods for understanding and developing creative solutions to these problems.

CSES 7950 SEMINAR (1) DSL/SEM. 1. SU. Required of all graduate students in Agronomy and Soils. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

CSES 7970 SPECIAL TOPICS (1-4) LEC. 1-4, LAB. 1-4. Advanced topics related to Crop, Soil and Environmental Sciences. Course may be repeated for a maximum of 8 credit hours.

CSES 7990 RESEARCH AND THESIS (1-10) DSL/MST. Research and thesis on problems in the soil and crop sciences. Course may be repeated with change in topics.

CSES 8570 PHYSICAL SOIL CHEMISTRY (3) LEC. 3. Pr. (CSES 6300 or CSES 6306) and CHEM 6070 or (AGRN 6300 or AGRN 6306). Interpretation of soil properties and chemical reactions in terms of ion exchange, solubility diagrams, solutions equilibria, electrochemistry and electrokinetics of charged particles. Fall.

CSES 8580 FATE AND TRANSPORT OF CHEMICALS IN SOILS (3) LEC. 3. Pr. MATH 1720 and (PHYS 1600 or PHYS 1607) and CSES 7590. Transport phenomena in soils. Physical principles and analysis of the storage and movement of water, solutes, heat, and gases in soils. Spring.

CSES 8990 RESEARCH AND DISSERTATION (1-10) DSR. Research and dissertation on problems in the soil and crop sciences. Course may be repeated with change in topics.

Drug and Biopharmaceutical Sciences - DBPS

Courses

DBPS 1010 INTRODUCTION TO DRUG AND BIOPHARMACEUTICAL SCIENCES I (1) LEC. 1. Departmental approval. This course explores the development of the field of drug and biopharmaceutical sciences and its' relationship to disease treatment from ancient to medieval to current day. This historical prospective provides the foundation for appreciation of human creativity in the advancement of health care and the treatment of human diseases.

DBPS 1020 INTRODUCTION TO DRUG AND BIOPHARMACEUTICAL SCIENCES II (1) LEC. 1. Pr. DBPS 1010. Departmental approval. This course introduces the field of drug and biopharmaceutical sciences to first-year students and provides exposure to a variety of major sub-disciplines and associated opportunities. The course will operate as a series of seminars presented by recognized authorities on subjects such as drug toxicity, drug dosages and routes, drug metabolism, drug distribution, drugs for cancer, drugs for Alzheimer's disease, monoclonal antibody-based drugs, antibiotics, forensic chemistry, drug synthesis, etc. These seminars and lectures will allow the student to recognize the breath of the field and future career opportunities. The exact set of seminars and subject matter will vary from year-to-year.

DBPS 2010 FUNDAMENTALS OF BIOMEDICINAL CHEMISTRY I (4) LEC. 4. Pr. CHEM 1030 and CHEM 1031 and CHEM 1040 and CHEM 1041 and (BIOL 1020 or BIOL 1027) and BIOL 1021 and DBPS 1010 and DBPS 1020. Departmental approval. This course explores the relationships between the structural features of drugs and biomolecules and their physicochemical properties including solubility, ionization, intermolecular interactions and reactivity. These concepts are the foundation principles for understanding the actions of drugs at their biologic targets and how the biologic environment processes drugs.

DBPS 2020 FUNDAMENTALS OF BIOMEDICINAL CHEMISTRY II (4) LEC. 4. Pr. CHEM 1030 and CHEM 1031 and CHEM 1040 and CHEM 1041 and (BIOL 1020 or BIOL 1027) and BIOL 1021 and DBPS 1010 and DBPS 1020 and DBPS 2010 and DBPS 2030. Departmental approval. This course explores the relationships between the structural features of biomolecules and their physicochemical properties including solubility, ionization, intermolecular interactions and reactivity. These concepts are the foundation principles for understanding the properties of biologic targets and how drugs interact with targets to produce their therapeutic effects.

DBPS 2030 DRUG TARGETS I (4) LEC. 4. Pr. (BIOL 1020 or BIOL 1027) and BIOL 1021 and DBPS 1010 and DBPS 1020. Departmental approval. This is the first of a two-course survey sequence designed to explore various biological targets (cells, tissues, organs, micro-biomolecules, and macro-biomolecules) present in the central nervous system (brain and spinal cord), eye, ears, respiratory tract, and gastrointestinal tract for a drug to interact and to impose/enforce its effect in the body. This course will further explain the natural substances (ligands) that interacts with the above targets. These basic concepts are the fundamental principles for understanding the actions of drugs in the body (centrally or peripherally).

DBPS 2040 DRUG TARGETS II (4) LEC. 4. Pr. (BIOL 1020 or BIOL 1027) and BIOL 1021 and DBPS 1010 and DBPS 1020 and DBPS 2030. Departmental approval. This course explores various biological targets (cells, tissues, organs, micro-biomolecules, and macro-biomolecules) present in the cardiovascular, renal system, skin, endocrine system, sexual organs, and bones for a drug to interact and to impose/enforce its effect in the body. This course will further explain the natural substances (ligands) that interacts with the above targets. The above basic concepts are the fundamental principles for understanding the actions of drugs in the body (centrally or peripherally).

DBPS 2050 BIOPHARMACEUTICAL DATA ANALYSIS I (1) LEC. 1. Pr. DBPS 1010 and DBPS 1020. Departmental approval. This course introduces the methods and mathematical concepts of analysis and sampling, as specifically applied to drug and biopharmaceutical sciences. Topics include descriptive measures, probability and distributions, estimation, tests of hypotheses, types of error, significance, confidence levels, sample size and power.

DBPS 2060 BIOPHARMACEUTICAL DATA ANALYSIS II (1) LEC. 1. Pr. DBPS 1010 and DBPS 1020 and DBPS 2050. Departmental approval. This course is a continuation of Biopharmaceutical Calculations & Statistics I and focuses on mathematical concepts of analysis and sampling in biopharmaceutical sciences research and production. Topics include estimation, tests of hypotheses, types of error, significance, confidence levels, sample size and power.

DBPS 3010 MEDICINAL CHEMISTRY I (4) LEC. 4. Pr. DBPS 2020 and DBPS 2040 and DBPS 2060. Departmental approval. This course will combine a discussion of the nature and function of drug targets (including enzymes, receptors, ion channels, pumps, RNA and DNA) with study of molecular mechanisms by which drugs interact with these targets and the basic principles of drug design. The course will use currently relevant examples for each target class and is not intended to provide a comprehensive review of all drug classes at all targets. Course materials will include class lecture notes and assigned readings from the current literature. With this knowledge, the student will be better equipped to understand the molecular basis of drug action and the challenges of drug design in a wide variety of therapeutic situations.

DBPS 3020 MEDICINAL CHEMISTRY II (3) LEC. 3. Pr. DBPS 3010 and DBPS 3050. Departmental approval. This course will provide a comprehensive description and analysis of the relationships between drug/dosage form properties and biodisposition, including absorption, distribution, metabolism and elimination. Methods of drug design to optimize drug biodisposition and pharmacokinetics also will be summarized in overview. This course will serve as a foundational instructional unit for all students interested in pursuing advanced study in the areas of drug discovery and development.

DBPS 3030 DRUG ACTION I (4) LEC. 4. Pr. DBPS 2020 and DBPS 2040 and DBPS 2060. Departmental approval. This is the first of a two-course sequence focused on the mechanism of drug action, adverse drug reactions, and drug-interactions as a drug interacts with its' biological target sites. This course will identify the etiology, understand the disease state effects on target sites, and symptoms of major diseases related to the central nervous system (brain and spinal cord), eye, ears, respiratory tract, and gastrointestinal tract.

DBPS 3040 DRUG ACTION II (4) LEC. 4. Pr. DBPS 3030. Departmental approval. This course will identify the etiology, understand the various pathophysiology, and symptoms of major disease states related to the renal system, endocrine system, cardiovascular system, infection, tumor/cancer, bones, integumentary system, sexual organs, for a drug to exert its prophylactic and therapeutic actions. This course will further explain the mechanism of drug action, adverse drug reactions, and drug-interactions.

DBPS 3050 DRUG FORMULATIONS (3) LEC. 3. Pr. DBPS 2020 and DBPS 2060. Departmental approval. Physical-chemical principles and technologies used in the formulation, manufacture and compounding of solid and oral liquid (solution) pharmaceutical dosage forms and novel drug delivery systems.

DBPS 3060 DRUG PHARMACOKINETICS (4) LEC. 4. Pr. DBPS 3010 and DBPS 3030 and DBPS 3050. Departmental approval. The course deals with absorption, plasma protein binding, tissue distribution and elimination of drugs by liver and kidneys and how these processes determine the overall disposition of the drug in the organism. In addition, the relationships between dose and plasma concentration and of plasma concentration and effect are described, both for a given drug and its metabolites. A brief introduction to the use of pharmacokinetic methods for drug development is given. The course also deals with calculation and evaluation of mathematical parameters that describe pharmacokinetic and pharmacodynamic processes, both regarding single dose and repeated dose administration. Finally, it describes the theoretical basis for clinical drug dosing, reasons for and rational handling of inter-individual variation (genomics) in drug disposition as well as drug-drug interactions.

DBPS 3070 DRUG RESEARCH SEMINAR I (1) LEC. 1. SU. Pr. DBPS 2020 and DBPS 2040. Departmental approval. This research seminar course will feature weekly presentations by graduate students, postdoctoral fellows, faculty and visiting scholars. The presentations will introduce DBPS students to current drug discovery and development research advancements in the fields of medicinal chemistry, pharmacology and pharmaceutics.

DBPS 3080 DRUG RESEARCH SEMINAR II (1) LEC. 1. SU. Pr. DBPS 2020 and DBPS 2040. Departmental approval. This research seminar course will feature weekly presentations by graduate students, postdoctoral fellows, faculty and visiting scholars. The presentations will introduce DBPS students to current drug discovery and development research advancements in the fields of medicinal chemistry, pharmacology and pharmaceutics.

DBPS 4980 RESEARCH (5) LAB. 15. Pr. DBPS 3020 and DBPS 3040 and DBPS 3060 and DBPS 3080. Departmental approval. Course Description for each discipline of DBPS Program: Pharmacological/Biomedical Sciences research areas include molecular and cellular disease mechanisms, physiological and pathological processes of disease development, identification of new therapeutic targets, therapeutic and toxicological mechanisms of drug action, and novel approaches to therapeutics, including tissue engineering, genomics, and immunotherapy. Pharmaceutics and Drug Delivery research areas include formulation science, biomaterials, biopharmaceutics, pharmaceutical compounding, nanotechnology, and pharmacokinetics. Medicinal Chemistry and Drug Development research areas include the synthesis of new drug molecules, structure-activity relationship of drug classes, the use of modern methods of drug design and analysis and the development of assays to test drug candidates. Course may be repeated for a maximum of 10 credit hours.

Drug Discovery and Development - DRDD

Courses

DRDD 5800 SURVEY OF MULTI-MODALITY MOLECULAR IMAGING (2) LEC. 2. Departmental approval. State-of-the-art survey of molecular imaging techniques that are available and their use to monitor the progression of various human diseases.

DRDD 6800 SURVEY OF MULTI-MODALITY MOLECULAR IMAGING (2) LEC. 2. Departmental approval. State-of-the-art survey of molecular imaging techniques that are available and their use to monitor the progression of various human diseases.

DRDD 7000 INTRODUCTION TO GRANT WRITING (3) LEC. 3. Course will train students to prepare NIH RO1 grant applications. Students will prepare mock applications on topics of their choosing.

DRDD 7010 PHARMACOKINETICS (4) LEC. 4. Departmental approval. Pharmacokinetic and pharmacodynamic principles and methods used to study the absorption, distribution, metabolism and excretion of drugs.

DRDD 7020 SCIENCE AND TECHNOLOGY OF TABLETING (2) LEC. 2. Pr. (PYPS 7030 or DRDD 7030) or Departmental approval. Formulation, compression, coating and evaluation of tablets.

DRDD 7021 SCIENCE AND TECHNOLOGY OF TABLETING LAB (2) LAB. 6. Pr. (PYPS 7020 or DRDD 7020). Actual formulation, compression, coating and evaluation of tablets.

DRDD 7030 DRUG PRODUCTS AND BIOPHARM (4) LEC. 4. Departmental approval. Formulation, evaluation, and use of various pharmaceutical dosage forms including biopharmaceutical aspects.

DRDD 7040 PHYSICAL PHARMACY (4) LEC. 4. Departmental approval. Application of physical chemical principles to dosage form design and evaluation.

DRDD 7050 NOVEL DOSAGE FORMS (3) LEC. 3. Pr. PYPS 7030 or DRDD 7030 or Departmental approval. Theoretical basis and design of controlled release and site specific drug delivery systems.

DRDD 7060 FORMULATION AND DELIVERY OF PEPTIDE/PROTEIN DRUGS (3) LEC. 3. Pr. PYPS 7030 or DRDD 7030 or Departmental approval. Formulation and delivery problems unique to peptide/protein pharmaceuticals and strategies to overcome such problems.

DRDD 7070 TRANSPORT PHENOMENA IN PHARMACEUTICAL SYSTEMS (3) LEC. 3. Departmental approval. Mechanisms of drug transport in various pharmaceutical dosage forms and biological systems. Elucidation of methods to characterize drug transport phenomena. Correlation of transport phenomena with drug disposition in the body. Emphasis on peptide, protein, and oligonucleotide drugs.

DRDD 7080 ADVANCED BIOPHARMACEUTICS (3) LEC. 3. Pr. PYPS 7010 or DRDD 7010. The mathematical and pharmacokinetic relationships between physical and chemical properties of a drug and its dosage form and biological effects.

DRDD 7090 PHARMACEUTICAL SCIENCE I: TARGETS (4) LEC. 4. Departmental Approval. Study of nature and function of drug targets, advanced molecular mechanisms by which drugs interact with these targets and the basic principles of drug design.

DRDD 7100 PHARMACEUTICAL SCIENCE II: ADME (4) LEC. 4. Departmental Approval. Study of the mechanisms of drug absorption, distribution, metabolism and elimination with an advanced study of drug design strategies and methods to optimize these processes.

DRDD 7110 STABILITY KINETICS OF PHARMACUTICALS (3) LEC. 3. Pr. PYPS 7030 or DRDD 7030 or Departmental approval. Principles of chemical kinetics as applied to the unique stability problems of the various pharmaceutical dosage forms.

DRDD 7200 NATURAL PRODUCTS CHEMISTRY (3) LEC. 3. This course is designed as an introduction to the chemistry of natural products of plant origin with medicinal importance. Traditional and modern approaches to plant natural product drug discovery will be discussed. Major biosynthetic pathways of plant secondary metabolites will be covered and used to classify natural products into distinct groups (alkaloids, sesquiterpenoids, diterpenes, triterpenes, saponins, flavonoids, anthraquinones, coumarins, lignans, amino acids, and peptides) and to display the relationships between diverse structures encountered in nature.

DRDD 7230 ADVANCED MEDICINAL CHEMISTRY I (3) LEC. 3. Departmental approval. Explanation of the principles of Medicinal Chemistry progressing to qualitative and quantitative descriptions of the synthesis, influence of physical and chemical properties of chemical substances on biological activity and biodisposition.

DRDD 7240 ADVANCED MEDICINAL CHEMISTRY II (3) LEC. 3. Pr. PYPS 7230. Departmental approval. Advanced study of organic medicinal agents featuring organic synthesis, chemical and pharmacological properties and current literature topics.

DRDD 7250 DRUG ACTION AND DESIGN (3) LEC. 3. Pr. (PYPS 7230 or DRDD 7230) and (PYPS 7240 or DRDD 7240). Modern molecular modeling methods with emphasis on computer-aided drug design, quantitative structure activity relationships and combinatorial chemistry.

DRDD 7260 SEPARATION SCIENCE (4) LEC. 4. Departmental approval. A survey of modern separation science with emphasis on analytical scale techniques including gas chromatography, liquid chromatography and electrokinetic separations.

DRDD 7270 MASS SPECTROMETRY OF ORGANIC COMPOUNDS (4) LEC. 4. Departmental approval. A survey of modern techniques in mass spectrometry with emphasis on fragmentation chemistry and structure education.

DRDD 7280 NEUROSCIENCE METHODS (3) LEC. 3. This course is designed to provide a conceptual and practical understanding of several of the most common techniques in neuroscience. The interactive lectures will serve to illustrate the ways in which various experimental approaches have been used to advance specific areas of neuroscience, particularly in the context of neuropsychological diseases or processes.

DRDD 7290 NEUROPHARMACOLOGY OF DRUG ABUSE (2) LEC. 2. Departmental approval. An in-depth study of drugs of abuse, including mechanisms of action, pharmacokinetics, addiction, physical dependence and the effects of drug use during pregnancy. Substance abuse treatment strategies will also be discussed.

DRDD 7300 NEUROPHARMACOLOGY (3) LEC. 3. Neurochemical mechanisms related to the pharmacological actions of medicinal agents affecting the central nervous system.

DRDD 7310 PSYCHOPHARMACOLOGY I (3) LEC. 3. Discussions on anxiety, depression and related disorders.

DRDD 7320 PSYCHOPHARMACOLOGY II (3) LEC. 3. Discussions on schizophrenia, Alzheimer's disease, experimental methods and animal models of disorders.

DRDD 7330 PHARMACOLOGY RESEARCH METHODS (3) LEC. 1. LAB. 9. Experimental design, research methods and data analysis in pharmacology.

DRDD 7340 ORGAN SYSTEMS PHARMACOLOGY I (3) LEC. 3. The course will evaluate the basic principles and rationale for current and novel pharmacological therapeutics for various disease states.

DRDD 7350 ORGAN SYSTEMS PHARMACOLOGY II (3) LEC. 3. The course will evaluate the mechanism of action and rationale for current and novel pharmacological therapeutics for various disease states.

DRDD 7360 CELLULAR & MOLECULAR PHARMACOLOGY & TOXICOLOGY I (3) LEC. 3. Cellular biology course integrated with pharmaceutical sciences for the study of pharmacologically related mechanisms at the molecular and cellular levels.

DRDD 7370 CELLULAR & MOLECULAR PHARMACOLOGY & TOXICOLOGY II (3) LEC. 3. Pr. PYPS 7360 or DRDD 7360. Cellular biology course integrated with pharmaceutical sciences for the study of pharmacologically related mechanisms at the molecular and cellular levels. This is a continuation of PYPS 7360/DRDD 7360.

DRDD 7380 DRUG DISCOVERY (3) LEC. 3. This course is a survey of modern approaches to drug discovery. It is designed to familiarize students with different steps of drug discovery from target identification to the development of clinical candidates. (Clinical trials, and approval process will be covered in Drug Development class, which will be offered in spring 2020.) We will discuss the techniques used at the different stages of drug discovery process in the course are also widely used in basic biomedical research laboratories.

DRDD 7390 CANCER PHARMACOLOGY AND DRUG DISCOVERY (3) LEC. 3. Pr. VBMS 7970. This course is designed as an introduction to anti-cancer drugs and anti-cancer drug discovery. The course will build on the principles of cancer biology that are introduced in VBMS 7970 Cancer Biology. This course will begin with a survey of anticancer drugs. Classic cytotoxic agents will be discussed, followed by targeted chemotherapeutic agents. A discussion of strategies used to discover classic cytotoxic agents will be followed by strategies used to discover targeted chemotherapeutic agents. The discussion of targeted drug discovery will focus on target identification and validation, hit generation and optimization, and preclinical lead evaluation. Course meetings will feature the primary literature so as to enable students to translate lecture topics to application.

DRDD 7400 PHARMACOGENOMICS AND TRANSLATIONAL RESEARCH METHODS ORIENTATION (3) LLB. Departmental approval. This course consists of lectures and laboratory orientation sessions designed to introduce the basic concepts of pharmacogenomics and translational research in precision medicine.

DRDD 7500 METABOLISM AND DISPOSITION XENOBIOTICS (2) LEC. 2. Portals of entry, absorption, distribution and elimination of drugs and xenobiotics. Metabolic mechanisms relevant to chemical structure and principles of pharmacokinetics will be emphasized.

DRDD 7510 ENVIRONMENTAL TOXICOLOGY (3) LEC. 3. Mechanisms of action of agricultural and industrial chemicals, drugs, radiation, metals, gases, air particulates, food additives, plant and food poisons in the environment.

DRDD 7600 HETEROCYCLIC MEDICINAL CHEMISTRY (3) LEC. 3. Pr. CHEM 7220. Departmental approval. A survey of chemical nature of heterocyclic moieties of medicinal substances with emphasis on methods of synthesis of medicinally important compounds containing a heterocyclic ring.

DRDD 7930 DIRECTED STUDIES IN PHARMACAL SCIENCES (1-3) LEC. Departmental approval. Selected laboratory research topics in the pharmaceutical sciences. Course may be repeated for a maximum of 98 credit hours.

DRDD 7950 SEMINAR (1) SEM. 1. SU. 1 CR; may be repeated multiple times for credit. Course may be repeated for a maximum of 6 credit hours.

DRDD 7960 SPEC PROB IN PHARM SCIE (1-3) IND. At least 6 credits each with a minimum grade of B in DRDD 7000-7999 Selected study topics in the pharmaceutical sciences. Departmental approval and 6 hours of 7000-level courses. Course may be repeated for a maximum of 6 credit hours.

DRDD 7980 NON-THESIS RESEARCH (1-3) RES. Non-thesis research project, to be determined by faculty advisor and student's graduate advisory committee. Course may be repeated for a maximum of 14 credit hours.

DRDD 7990 RESEARCH AND THESIS (1-10) MST. Research And Thesis. Course may be repeated with change in topics.

DRDD 8930 DIRECTED STUDIES IN PHARMACAL SCIENCES (1-3) LEC. Departmental approval. Selected laboratory research topics in the pharmaceutical sciences. Course may be repeated for a maximum of 6 credit hours.

DRDD 8950 SEMINAR (1) SEM. 1. SU. 1 CR; may be repeated multiple times for credit. Course may be repeated for a maximum of 10 credit hours.

DRDD 8960 DIRECTED READINGS IN PHARMACAL SCIENCES (1-3) IND. Pr. At least 6 credits each with a minimum grade of B in DRDD 7000-7999. Selected study topics in the pharmaceutical sciences. Course may be repeated for a maximum of 6 credit hours.

DRDD 8990 RESEARCH AND DISSERTATION (1-10) DSR. Research for doctoral students. Course may be repeated with change in topics.

EAGLES Program - EAGL

Courses

EAGL 0100 POSITIVE CHOICES (0) SEM. 3. Departmental approval. In this course, students explore positive choices on healthy relationships, sexuality, and safe boundaries. The course is designed to increase critical thinking about relationships.

EAGL 0110 TRANSITION TO POSTSECONDARY EDUCATION (0) SEM. 3. Departmental approval. This course introduces life as a student on a college campus. It includes an overview of skills needed to manage daily life, support health, and wellness goals, and engage in social interactions on a college campus.

EAGL 0130 TRANSITION TO INDEPENDENT LIVING: ON-CAMPUS LIVING (0) SEM. 3. Departmental approval. This course prepares students for living independently in that of maintaining a clean-living space. This includes but is not limited to, educating on the proper cleaning tools for different tasks, following a chore list and or chart, and the aspect of courtesy of keeping shared spaces clean, especially when living with others.

EAGL 0140 FINANCIAL LITERACY (0) DSL/SEM. 3. Departmental approval. In this course, students build their knowledge of financial literacy as it relates to all settings (school, work, community, and home). Students demonstrate an understanding of counting money, managing their finances, budgeting, and relating their financial security to their chosen career area.

EAGL 0150 EMPLOYMENT EXPLORATION (0) SEM. 3. Departmental approval. In this course, EAGLES students explore career paths related to their personal interests and goals. Students identify occupational areas of interest using assessment results that they might prepare for and pursue while in the program and beyond.

EAGL 0200 EMPLOYMENT PREPARATION (0) SEM. 3. Departmental approval. This course focuses on strengthening skills learned and acquired as a first-year college student. This course also focuses on developing healthy habits for employment through the creation of a detailed habit plan and incorporates application-based activities, and real-world practice in the students' everyday lives. Students identify healthy habits and how they will personally incorporate them into all domains of their lives: Academics, Employment, Independent Living, Personal/Social, and Health and Wellness.

EAGL 0210 TRANSITION TO INDEPENDENT LIVING - MEAL PREP GROCERY SHOPPING (0) SEM. Departmental approval. The purpose of this course is to provide the EAGLES students with independent skills involving meal preparation and grocery shopping. These skills help the students transition to an independent lifestyle by learning how to prepare, shop, and cook meals while developing healthy eating habits.

EAGL 0220 LIVING IN THE MODERN WORLD (0) SEM. Departmental approval. This course prepares students to live independently and in the modern world by learning about challenges and pressures, self-determination, and resilience. Students will learn different strategies for self-care and develop an individualized plan for their personal self-care needs. Students will learn about community resources and community safety through outdoor exploration and guest speakers.

EAGL 0230 LIVING ARRANGEMENTS 101 (0) SEM. 3. Department approval required. Students have access to almost all their basic needs on a college campus; however, to successfully transition, students need to learn how to access these supports in their community and how to access them independently. The goal of this course is to teach second-year EAGLES students how to create a Housing Plan according to their independent living goals, financial means, and supports required to be successful at living on their own. This course is meant to introduce students to the real world of living independently through application-based lessons in the community.

EAGL 0310 EMPLOYMENT IMPLEMENTATION (0) LEC. 0. The goal of this course is to teach third year EAGLES students how to generalize skills they have learned into a community setting. Students are taught how to access all supports, like going to the post office, the eye doctor, and taking their animal to the vet, in their community independently. This course is meant to introduce students to the Auburn community so they can be engaged citizens through application-based lessons. Departmental Approval.

EAGL 0320 TRANSITION TO INDEPENDENT LIVING- OFF-CAMPUS LIVING (0) SEM. Departmental approval. The goal of this course is to teach third and fourth year EAGLES students how to generalize skills they have learned into a community setting. Students have access to almost all their basic needs on a college campus, however, to successfully transition, students need to learn how to access these supports in their community and how to access them independently.

EAGL 0330 HOT TOPICS IN TRANSITION (0) SEM. 3. Departmental approval required. In this course, students build upon their knowledge from the first financial literacy class and create a personal budget and finance portfolio to plan their future expenses across all domains for living based on their income, family support, SSI benefits, and a nest egg to support the student while living on their own. Additionally, this course reviews how to protect oneself from fraud.

EAGL 0340 MEDICAL ASPECTS (0) SEM. 3. Assist students in developing working knowledge of medical aspects of their disability and the routine medical needed to live a healthy life. This course helps students develop a medical binder to help them be autonomous when answering questions at routine medical appointments. Additionally, this course explains the process of how insurance works, medical services needed, like routine physicals, dental health, and women's health and how to address acute issues like the common cold, headaches, etc. Departmental approval required.

EAGL 0410 EAGLES CAPSTONE PREPARATION (0) SEM. Departmental approval. Students will create an online portfolio including sections reflecting the five pillars of the EAGLES Program: academic enrichment, personal and social skills, independent living skills, health and wellness, and integrated work experiences. Students will explore areas of interest and set goals when it comes to career-making decisions and obtaining meaningful employment. Students will identify and learn to navigate resources available to them both while they are in the program and once they are alumni of the program, such as Auburn Career Services, LinkedIn, Indeed, and more. Students will hear from guest speakers focused on presenting valuable information regarding each area of the EAGLES Program's five pillars and how students can sustain their focus on these areas after completion of the advanced program.

EAGL 0420 WORK READY, WORLD READY (0) SEM. Departmental approval. In this course, students identify, explore, and interact with agencies that will benefit them post-program. Students learn resources available to individuals with intellectual disabilities and how to access and utilize the agencies. Students learn the benefits of each agency related to employment, independent living, and community living upon completion of the program.

EAGL 0430 BECOMING AN EAGLES ALUMNI (0) SEM. 3. The purpose of this course is to assist students in developing S.O.A.R. Planning documents in preparation for life after the EAGLES Program. The course helps students work through the 5 domains of the EAGLES Program to identify accommodations needed, personal goals, supports to achieve goals and action steps. Additionally, this course will assist EAGLES students in developing and updating important documents needed post-program. Departmental approval required.

Early Childhood Education - CTEC

Courses

CTEC 3020 PRIMARY MATH AND SCIENCE (3) LEC. 3. Exploration of learning and pedagogy for the development of math and science concepts appropriate for children in Kindergarten through Grade 3.

CTEC 3030 INTEGRATED CURRICULUM IN PRESCHOOL: EARLY LITERACY (3) LEC. 3. Coreq. CTEC 4911. This course focuses on the foundations of literacy learning including play, developmentally appropriate practices, and integration within and across disciplines through multisensory, multimodal means, connecting to the Alabama Developmental Standards. Admission to Teacher Education.

CTEC 3200 A WORKING THEORY FOR THE CONSTRUCTIVIST EDUCATOR (3) LEC. 3. Constructivist theory for pre-service teachers preparing to teach at the early childhood level.

CTEC 4200 THE CONSTRUCTIVIST TEACHER: STRATEGIES AND TECHNIQUES (3) LEC. 3. Construction of an operational knowledge of established constructive curriculum strategies and techniques.

CTEC 4210 THE CONSTRUCTIVIST TEACHER: GROWING PROFESSIONALLY (1) AAB/DSL. 1. Pr. P/C CTEC 4920 or P/C CTEC 4923. Admission to Clinical Residency. The roles and responsibilities of being an early childhood professional. May count either CTEC 4210 or CTEC 4213.

CTEC 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Reading, research or other work undertaken independently by a student focused on a content area of special interest. Course may be repeated for a maximum of 6 credit hours.

CTEC 4910 PRACTICUM (1-6) PRA. SU. Departmental approval. Students and faculty cooperatively select and execute an appropriate field experience. Course may be repeated for a maximum of 6 credit hours.

CTEC 4911 PRACTICUM IN THE PRESCHOOL (1-2) LEC. 1-2. SU. Laboratory experiences with children from birth to five years of age designed to help students relate theory to practice. Course may be repeated for a maximum of 2 credit hours.

CTEC 4912 PRACTICUM IN PRIMARY GRADES (3) LEC. 0. LAB. 3, AAB/PRA. 0. SU. Laboratory experiences with children 5 through 9 years of age help students relate theory to practice.

CTEC 4920 CLINICAL RESIDENCY (1-12) AAB/DSL. 1-12. SU. Pr. P/C CTEC 4210 or P/C CTEC 4213. Admission to Clinical Residency. Experience in a setting serving pre-primary or primary-school children with varying abilities. Admission to internship. May count either CTEC 4920 or CTEC 4923. Course may be repeated for a maximum of 12 credit hours.

CTEC 7200 EARLY CHILDHOOD EDUCATION PERSPECTIVE (3) LEC. 3. Historical overview of current issues, trends, and programs in early childhood education. May count either CTEC 7200 or CTEC 7206.

CTEC 7210 ORIGINS OF THOUGHT (3) LEC. 3. Piaget's theories of how thought develops in young children. Comparison of the social and biological roots of thought. May not count either CTEC 7210 or CTEC 7216.

CTEC 7260 PLAY AND EARLY CHILDHOOD EDUCATION (3) LEC. 3. Examination of children's play from a constructivist theoretical perspective and translation of theory into early childhood educational practice. May count either CTEC 7260 or CTEC 7266.

CTEC 7270 THEORY-BASED PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. In-depth exploration of a problem related to the thought, writing and research that form the theoretical foundations of constructivist approaches in early childhood education. May count either CTEC 7270 or CTEC 7276. Course may be repeated for a maximum of 9 credit hours.

CTEC 7510 RESEARCH STUDIES IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. How to read, review, analyze and interpret significant research studies in early childhood education. May count either CTEC 7510 or CTEC 7516.

CTEC 7520 CURRICULUM AND TEACHING IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Reappraisal of experiences and content for children by focusing on the nature of the learner and the nature of the knowledge to be learned. May count either CTEC 7520 or CTEC 7526.

CTEC 7530 ORGANIZATION OF PROGRAM IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Organization, administration, and supervision of early childhood programs. May count either CTEC 7530 or CTEC 7536.

CTEC 7540 EVALUATION OF PROGRAMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Assessment and evaluation of all program components from a constructivist perspective. May count either CTEC 7540 or CTEC 7546.

CTEC 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent learning objectives related to the student's area of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTEC 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Experience relating theory and practice, usually in a school setting. Departmental approval. May count either CTEC 7910 or CTEC 7916. Course may be repeated for a maximum of 6 credit hours.

CTEC 7970 SPECIAL TOPICS (3-9) AAB. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. Course may be repeated for a maximum of 9 credit hours.

CTEC 7990 RESEARCH AND THESIS (1-10) DSL/MST. Course may be repeated with change in topics.

CTEC 8240 RESEARCH IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Review, analysis and interpretation of available research with emphasis on designing new research to meet the needs of young children. May count either CTEC 8240 or CTEC 8246.

CTEC 8270 THEORY-BASED PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. In-depth exploration of problems related to the thought, writings, and research that form the theoretical foundations of constructivist approaches to early childhood education. Master's Degree. May count either CTEC 8270 or CTEC 8276. Course may be repeated for a maximum of 6 credit hours.

CTEC 8720 DESIGNING EARLY CHILDHOOD CURRICULUM (3) LEC. 3. Application of early childhood history, philosophy, program analysis and constructivist theory to the design of early childhood curriculum. Master's Degree. May count either CTEC 8720 or CTEC 8726.

CTEC 8850 CONSTRUCTIVIST INVESTIGATIONS IN EARLY CHILDHOOD SETTINGS (3) LEC. 3. Analysis and interpretation of the design of constructivist investigation. Master's Degree.

CTEC 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTEC 8970 SPECIAL TOPICS (3-9) DSL. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. Course may be repeated for a maximum of 9 credit hours.

CTEC 8980 FIELD PROJECT (1-3) DSL/FLD. SU. Students conduct research on an educational problem and defend a field project report. Departmental approval. May not count either CTEC 8980 or CTEC 8986. Course may be repeated for a maximum of 3 credit hours.

CTEC 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with a change in topic. Course may be repeated with change in topics.

Earth System Science - ESSI

Courses

ESSI 7150 SCIENCE COMMUNICATION (3) LEC. 3. This course will provide opportunities for STEM graduate students to practice communicating science to multiple audiences. Students will gain skills by communicating with both stakeholders and the public and presenting information, exploring public opinion on socio-political topics such as climate change, resilience, and adaptation planning, and learning about appropriate framing and messaging techniques for target audiences. Guest speakers, reading discussions, practical tips, communication rubrics, and presentations to refine communication skills will be emphasized.

ESSI 7200 STEM STUDIO (2) LEC. 2. This course will provide opportunities for interdisciplinary STEM graduate students to learn about structured decision-making and the coproduction of science, which aims to undertake science that is actionable and useful to targeted stakeholder groups. Students will gain skills by communicating with stakeholders and develop a proposal to conduct research with a stakeholder group of their choice. Ideally, students would then implement their research in the follow-on Internship course (ESSI 7920) offered by the ESSI Program/NRT project. Guest speakers, reading discussions, written communication, workshops, and meetings with stakeholders will be included in the course. This course aims to: (i) expose students working on climate adaptation (from natural, social, or humanities sciences) to ideas of interdisciplinary climate knowledge, co-production, and structured decision-making; (ii) help students reflect on and relate these ideas to their own research - how their own climate research could connect with other disciplines and meet the decision needs of stakeholders; (iii) support participants in designing a climate adaptation research project for review by their peers and future implementation with their chosen stakeholder group.

ESSI 7300 SOCIAL-ECOLOGICAL-ENGINEERED SYSTEMS (3) LEC. 3. This course explores foundational scholarship on the Social-Ecological Systems (SES) approach to understanding complex environmental problems with emphasis on the role of engineering in human interactions with natural systems. Students are expected to apply SES concepts and theories to analyses in their own areas of research.

ESSI 7420 NATURAL HAZARDS RISK AND DISASTER RESILIENCE (3) LEC. 3. The purpose of this course is to present students with an approach to understanding adverse natural hazard impacts and disasters grounded in the analysis of disaster risk, vulnerability, and resilience. The course will use a multidisciplinary perspective to examine factors and conditions that put people differentially at risk before, during, and following a disaster event. The course will also introduce students to the metrics, methodologies, and tools necessary for both quantitative and qualitative resilience assessments and benchmarking methods. Specific topics that are an integral part of the resilience concept will include: climate-related hazard risk assessment; disaster resilience assessment covering ecological, social, economic, infrastructural, and institutional components; community capital; hazard mitigation and planning for fostering resilient communities; social vulnerability, and recovery. The course materials, lectures, and assignments will reflect the emerging emphasis on resilience to climate-induced natural hazards and disasters.

ESSI 7920 CLIMATE INTERNSHIP (1) INT. 1. This course will provide graduate Trainees with an opportunity to gain knowledge and skills from a planned work experience in the area of resilience to climate-related natural hazards and disasters. In addition to meeting core learning objectives, jointly developed learning outcomes that are specific to each Trainee will be selected and evaluated by a faculty internship advisor, a stakeholder sponsor, and the Trainee. It is expected that the internship will afford Trainees the opportunity to: 1) explore career paths related to climate resilience outside of academia, 2) conduct research to solve real-world problems, and 3) to understand the research needs of stakeholders. The experience will also give students the opportunity to build professional networks.

ESSI 8000 EARTH SYSTEM SCIENCE AND GLOBAL CHANGE (3) LEC. 3. The course explores the Earth system as a whole, with an emphasis on the interrelationships between geological, biological, climatological, and human systems on regional and global scales.

ESSI 8040 URBAN CLIMATOLOGY (3) SEM. 3. This seminar will explore past, current, and emerging textbooks and literature to introduce (1) the fundamental concepts of the urban-climate system, (2) observational and modeling strategies for studying the urban-climate system, and (3) the context for how the urban-climate system feedbacks fit into the climate change discussion. Students will be graded based on class participation, examinations, a small group project, and an individual project.

ESSI 8100 EARTH SYSTEM OBSERVATIONS AND ANALYSIS (3) LEC. 2. LAB. 2. Pr. GSEI 1200 and GSEI 2070. Course reviews recent advances in earth system observations and provides students opportunity to develop holistic understanding of key parameters and processes of the earth system including biosphere, atmosphere, and oceans processes using observations.

ESSI 8200 EARTH SYSTEM SCIENCE SEMINAR (1) SEM. 1. SU. Students deliver oral presentations based upon their research and provide constructive criticism of their peers' presentations. Topics of presentations may include student’s dissertation research areas or critical examination of current research problems in Earth system science.

ESSI 8990 RESEARCH AND DISSERTATION (1-6) DSR. Theoretical and practical aspects of designing dissertation research in the interdisciplinary Earth System Science program. The course is designed to assist students through the proposal and dissertation writing and presentation processes and to prepare for the dissertation defense. Course may be repeated for a maximum of 15 credit hours.

Economics - ECON

Courses

ECON 2020 PRINCIPLES OF MICROECONOMICS (3) LEC. 3. Economic principles emphasizing scarcity and choice, consumer behavior, supply and demand, markets, production and cost, globalization of markets, role of government, and market and government failure.

ECON 2027 HONORS PRINCIPLES OF MICROECONOMICS (3) LEC. 3. Pr. Honors College. Economic principles emphasizing scarcity and choice, consumer behavior, supply and demand, markets, production and cost, globalization of markets, role of government, and market and government failure.

ECON 2030 PRINCIPLES OF MACROECONOMICS (3) LEC. 3. Economic principles emphasizing economic aggregates, including measuring economic performance, macroeconomic theory, inflation and unemployment, money and banking, and fiscal and monetary policy. May count either ECON 2030 or ECON 2033.

ECON 2037 HONORS PRINCIPLES OF MACROECONOMICS (3) LEC. 3. Pr. Honors College. Economic principles emphasizing economic aggregates, including measuring economic performance, macroeconomic theory, inflation and unemployment, money and banking, and fiscal and monetary policy.

ECON 3020 INTERMEDIATE MICROECONOMICS (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Theory of pricing under varying market conditions and distribution of income among the factors of production.

ECON 3030 INTERMEDIATE MACROECONOMICS (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. A study of national economic aggregates and the market determination of output, employment, and inflation. Introduction to economic monetary and fiscal policy on the economy.

ECON 3040 CONSUMER ECONOMICS (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) or (ECON 2030 or ECON 2033 or ECON 2037). A broad study of consumer economics at both the household level and the national consumption aggregates.

ECON 3100 LAW AND ECONOMICS (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Description of the many substantive areas in which law has an economics foundation and an analysis of how law affects economic relations.

ECON 3200 MONEY AND BANKING (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Theoretical and institutional analyses of monetary systems, foreign exchange, and commercial banking.

ECON 3300 ECONOMICS OF SPORTS (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Economic analysis of professional and collegiate sports, including the structure of competition and performance in individual and team sports.

ECON 3400 AMERICAN ECONOMIC HISTORY I (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ECON 2030 or ECON 2033 or ECON 2037). Examines development of the American economy from colonial history to present. Topics include changes in institutions, the standard of living, income distributions, social mobility, labor markets, demographic structure, technological development, and the financial system.

ECON 3420 AMERICAN ECONOMIC HISTORY II (3) LEC. 3. Pr. ECON 2020. This class will study the history of American business cycle fluctuations with extended discussions of the Great Depression and the Great Recession. A point of emphasis in this class will be on the importance of data construction in interpreting historical economic events.

ECON 3500 COMPARATIVE ECONOMIC SYSTEMS (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Analysis of alternative government approaches to solving basic economic problems.

ECON 3600 MATHEMATICAL METHODS FOR ECONOMISTS (3) LEC. 3. Pr. ECON 3020 and (MATH 1690 or MATH 2630 or MATH 2637). Fundamental mathematical and quantitative methods employed by economists. Application of calculus, probability, statistics, and linear algebra to economics.

ECON 3700 HISTORY OF ECONOMIC THOUGHT (3) LEC. 3. Pr. ECON 2030 or ECON 2037. Development of economic ideas, principles and systems of analysis from early times to the present.

ECON 3800 PUBLIC CHOICE (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Economic analysis of public sector decision making. Emphasis on actions taken by voters, bureaucrats, and lobbyists elected to influence public sector outcomes.

ECON 4000 ECONOMICS OF WORK AND PAY (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Theoretical and institutional examination of the labor market, including wage theories, unionism, occupational choice, and public policy.

ECON 4100 INDUSTRIAL ORGANIZATION (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Relationship of market structure to the pricing behavior and economic performance of firms. Topics include regulation, research and development, and technical change.

ECON 4200 GOVERNMENT, BUSINESS AND SOCIETY (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037 or ECON 2020 or ECON 2023 or ECON 2027. Economic role of government in a free enterprise economy. Application of microeconomic theory to policy issues, particularly antitrust and regulation.

ECON 4300 INTERNATIONAL ECONOMICS (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Economic consequences of free trade, including identification and measurement of gains and losses. Analysis of trade restrictions, such as quotes, tariffs, VERs. Examination of labor and capital movements between nations.

ECON 4600 ECONOMETRICS I (4) LEC. 3. LAB. 1. Pr. ECON 3600 and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3600 or PSYC 2130 or PSYC 2133 or BUAL 2600 or BUAL 2603). Basic statistical toolbox to analyze economic data and evaluate economic models. Topics include simple and multivariate linear regressions, maximum likelihood estimation, serial correlation and heteroscedasticity, simultaneous equations, qualitative response models, and basic time series.

ECON 4920 INTERNSHIP (1-3) AAB/INT. SU. Pr. (ECON 2030 or ECON 2033 or ECON 2037) or departmental approval. Course may be repeated for a maximum of 3 credit hours.

ECON 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. ECON 3020 or Departmental approval. Directed readings on a topic of special interest. Course may be repeated for a maximum of 3 credit hours.

ECON 4970 SPECIAL TOPICS (1-3) AAB/IND. SU. Pr., Departmental approval. Investigation and research into economic problems of special interest to the student and instructor. Course may be repeated for a maximum of 6 credit hours.

ECON 4997 HONORS THESIS (1-3) IND. Pr. Honors College. ECON 3020 or Departmental approval. Directed honors thesis research. Course may be repeated for a maximum of 3 credit hours.

ECON 5020 ADVANCED MICROECONOMICS (3) LEC. 3. Pr. ECON 3020 and (MATH 1610 or MATH 1613 or MATH 1617) or Departmental approval. Mathematical analysis of market-based pricing and production. Includes the economics of information and uncertainty, and strategic behavior.

ECON 5030 MACROECONOMIC THEORY AND POLICY (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037 or Departmental approval. Analysis of the national economy and impact of government policies on aggregate economic variables.

ECON 5100 ECONOMICS OF GROWTH AND DEVELOPMENT (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Cause and effects of economic growth and development, for example, ways of measuring growth, role of government policy, effects of growth and trade, and effects of investment.

ECON 5400 ECONOMIC HISTORY OF THE UNITED STATES (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037 or Departmental approval. Survey of the economic advancement of the United States from European origins to the present.

ECON 5600 BUSINESS AND ECONOMIC FORECASTING (3) LEC. 3. Pr. (ECON 2030 or ECON 2033 or ECON 2037) and (STAT 2610 or STAT 2010 or STAT 2017) or Departmental approval. Interpretation of macroeconomic forecasting methods and development of competency in forecasting at the firm level.

ECON 5700 HEALTH ECONOMICS (3) LEC. 3. Pr., Departmental approval. Analysis of the economics of health care, including demand for and supply of health care and health care policy.

ECON 5800 GOVERNMENT SPENDING AND TAXATION (3) LEC. 3. Pr., Departmental approval. The economic rationale for government expenditures, economic consequences of public spending, and methods of taxation and funding of government programs.

ECON 6020 ADVANCED MICROECONOMICS (3) LEC. 3. Pr. ECON 3020 and (MATH 1610 or MATH 1613 or MATH 1617). Mathematical analysis of market-based pricing and production. Includes the economics of information and uncertainty and strategic behavior.

ECON 6030 MACROECONOMIC THEORY AND POLICY (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037 or Departmental approval. Analysis of the national economy and impact of government policies on aggregate economic variables.

ECON 6100 ECONOMICS OF GROWTH AND DEVELOPMENT (3) LEC. 3. Causes and effects of economic growth and development, for example ways of measuring growth, role of government policy, effects of growth and trade, and effects of investment.

ECON 6400 ECONOMIC HISTORY OF THE UNITED STATES (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. or Departmental approval.Survey of the economic advancement of the United States from European origins to the present.

ECON 6600 BUSINESS AND ECONOMIC FORECASTING (3) LEC. 3. Pr. (ECON 2030 or ECON 2033 or ECON 2037) and (STAT 2610 or STAT 2010 or STAT 2017) or Departmental approval. Interpretation of macroeconomic forecasting methods and development of competency in forecasting at the firm level

ECON 6700 HEALTH ECONOMICS (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Analysis of the economics of health care, including demand for and supply of health care and health care policy.

ECON 6800 GOVERNMENT SPENDING AND TAXATION (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Economic rationale for government expenditures, economic consequences of public spending, and methods of taxation and funding of government programs.

ECON 7110 MICROECONOMICS I (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Consumer behavior and market models of competition and monopoly. Traditional and contemporary theories of consumer and household behavior under constraint; models of competitive behavior.

ECON 7120 MICROECONOMICS II (3) LEC. 3. Pr. ECON 7110 or Departmental approval. Analysis of producer behavior, including production theory, cost theory, profit maximization, theories of various market structures, and derived demand for inputs.

ECON 7130 MATHEMATICAL ECONOMICS (3) LEC. 3. Pr. ECON 3020 and ECON 6030 or Departmental approval. Fundamental mathematical methods in economics and econometrics, including linear and matrix algebra, calculus, comparative statistics, optimization, concavity, constrained optimization dynamics difference equations, and differential equations.

ECON 7210 MACROECONOMICS I (3) LEC. 3. Pr. ECON 6030 or Departmental approval. Evaluation of fundamental theoretical and policy-oriented issues in macroeconomics, emphasizing post-Keynesian developments.

ECON 7220 MACROECONOMICS II (3) LEC. 3. Pr. ECON 6030 or Departmental approval. Foundations of macroeconomics, neoclassical production and growth theory, overlapping generations models, optimal saving, open economy macroeconomics, applied time series macrodynamics.

ECON 7310 ECONOMETRICS I (3) LEC. 3. Pr., Departmental approval. Advanced treatment of the standard linear model of least square theory, including assumptions and properties of the SLM and the statistical testing of behavioral hypotheses.

ECON 7320 ECONOMETRICS II (3) LEC. 3. Pr. ECON 7310. Econometric techniques employed in advanced empirical research. Topics include estimation and inference in simultaneous equation systems, limited dependent variables, non-nested testing, time-series analysis.

ECON 7330 MICROECONOMETRICS (3) LEC. 3. Pr. ECON 7310. Econometric techniques for applied microeconomics. Limited dependent variable models, survival and count data analysis, and selection bias.

ECON 7340 MACROECONOMETRICS (3) LEC. 3. Pr. ECON 7310. Analysis of economic time series and identification and estimation of parameters in multi-equation models.

ECON 7990 RESEARCH AND THESIS (1-6) MST. Course may be repeated with change in topics.

ECON 8110 ADVANCED MICROECONOMICS I (3) LEC. 3. Pr. ECON 7120 or Departmental approval. Advanced analysis, integrating the economics of time and uncertainty into mainline price theory.

ECON 8120 ADVANCED MICROECONOMICS II (3) LEC. 3. Pr. ECON 7120. or Departmental approval. Advanced analysis, integrating imperfect information and strategic behavior into economic models of trade and investment.

ECON 8210 TOPICS IN MACROECONOMICS (3) LEC. 3. Pr. ECON 7220 or Departmental approval. Goals, procedures and achievements in attaining monetary objectives domestically and abroad. Emphasis on macro-money models and effects of monetary policy on economic activity.

ECON 8540 SEMINAR IN ENVIRONMENTAL ECONOMICS (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Advanced analysis of pricing and allocation of renewable and non-renewable resources.

ECON 8610 INDUSTRIAL ORGANIZATION I (3) LEC. 3. Pr. ECON 7120. or Departmental approval.. Determinants of market structure, effects of market structure on industry performance, theory of the firm, research and development, advertising, and vertical integration.

ECON 8620 INDUSTRIAL ORGANIZATION II (3) LEC. 3. Pr. ECON 7120 or Departmental approval. Case studies in the history and current practice of regulation in the United States at all levels.

ECON 8710 INTERNATIONAL TRADE (3) LEC. 3. Pr., Departmental approval. Trade theory, including classical, neoclassical, factor proportions, and industrial organization. Applied trade theory and empirical applications.

ECON 8720 INTERNATIONAL MACROECONOMICS (3) LEC. 3. Pr., Departmental approval.Theoretical and applied time series analysis at open economy macroeconomic models, international monetary and financial theory, balance of payments theory, and exchange rates.

ECON 8810 LABOR MARKET ANALYSIS (3) LEC. 3. Pr. ECON 7110 or Departmental approval. Analysis of labor markets, and determination of wages and other terms of employment. Emphasis on academic studies of labor market issues.

ECON 8820 TOPICS IN LABOR ECONOMICS (3) LEC. 3. Pr. ECON 7110 or Departmental approval. Selected topics, including education and on-the-job training. Labor mobility and immigration, employment discrimination, and the impact of labor unions.

ECON 8970 SPECIAL TOPICS (1-3) IND. Pr., Departmental approval. Advanced topics related to economics. Course may be repeated for a maximum of 12 credit hours.

ECON 8980 ECONOMICS WORKSHOP (1) LEC. 1. Pr., Departmental approval. Individual research projects, presentations, and discussions of the economics profession.

ECON 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Educational Research Methods & Analysis - ERMA

Courses

ERMA 2400 APPLIED QUANTITATIVE DATA ANALYSIS IN EDUCATION AND HEALTH PROFESSIONS (3) LEC. 3. This course provides undergraduate students who are interested in education, counseling, school psychology, or health professions with data management, data analysis reasoning, and data-based decision-making skills.

ERMA 4330 INTRODUCTION TO SPORTS ANALYTICS (3) LEC. 3. Pr. MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617 or MATH 1680 or MATH 1683. This course provides an introduction to the field of sports analytics, which is the use of scientific techniques to model sports performance. This course will introduce students to individual and team performance measures, their interpretation and basic analyses using those measures.

ERMA 7100 ADVANCED STUDY OF EDUCATIONAL MEASUREMENT AND EVALUATION (3) LEC. 3. Educational measurement and evaluation with special emphasis on uses of measurement data such as standardized testing and emerging evaluation models such as alternative and authentic assessment.

ERMA 7110 EDUCATIONAL PSYCHOLOGY AND ASSESSMENT (3) LEC. 3. Study of educational psychology as it applies to understanding the teaching-learning process. Measurement and evaluation skills will also be covered.

ERMA 7200 BASIC METHODS IN EDUCATION RESEARCH (3) LEC. 3. Major modes of inquiry in contemporary educational research including experimental, casual comparative, descriptive, qualitative inquiry, and action research models.

ERMA 7210 THEORY AND METHODOLOGY OF QUALITATIVE RESEARCH (3) LEC. 3. Major modes of qualitative research, their underlying philosophical assumptions about knowledge, and the major strategies for collecting and analyzing relevant data.

ERMA 7220 APPLIED QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216 or FOUN 7210. Study of detailed strategies of data collection, principles of observation, interviewing, focus groups, recording and coding data, triangulation, strategies for analyzing coded data, and writing up of one's findings.

ERMA 7230 WRITING AS INQUIRY IN QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216. This course is based on the assumption that qualitative researchers learn their trade through both scholarship (i.e., deskwork) and firsthand experience (i.e., fieldwork). We take away lessons from doing our own research and from the research experiences of others. For this reason, the course has three aims: to hone your skills reading methodological and empirical literature; to experiment with analysis via writing, including crafting reports of findings and other pieces of writing; and to reflect meaningfully on these processes, including their theoretical, methodological, and ethical dimensions.

ERMA 7240 THINKING WITH THEORY IN QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216. This course is designed to give an overview and introduction to a variety of theorists and theoretical approaches that are often used in qualitative inquiry. We will compare and contrast the assumptions, design, and methods of different philosophies and theories in qualitative research.

ERMA 7300 DESIGN AND ANALYSIS IN EDUCATION I (3) LEC. 3. Departmental approval. Basic methods of inferential analysis including t-tests, between and within subjects ANOVA, mixed ANOVAs and hierarchical designs as they are utilized in educational research.

ERMA 7310 DESIGN AND ANALYSIS IN EDUCATION II (3) LEC. 3. Pr. (FOUN 7300 or ERMA 7300) or (FOUN 7306 or ERMA 7306). Bivariate and multiple correlation and regression analysis, trend analysis, analysis of covariance, and logistic regression, as they are utilized in educational research. Departmental approval. May count either ERMA 7310 or ERMA 7316.

ERMA 7320 APPLIED QUANTITATIVE RESEARCH (3) LEC. 3. Pr. (ERMA 7200 or ERMA 7206 or FOUN 7200 or FOUN 7206) and (ERMA 7300 or ERMA 7306 or FOUN 7300 or FOUN 7306). The study and application of detailed strategies of research study designs, data collection, analysis, and reporting of quantitative data. Course may be repeated for a maximum of 6 credit hours.

ERMA 7400 MIXED METHODS RESEARCH (3) LEC. 3. Pr. ERMA 7200 or ERMA 7206 or ERMA 7210 or ERMA 7216 or ERMA 7300 or ERMA 7306. Overview and introduction to the use of mixed methods research in the social and behavioral sciences.

ERMA 7410 RESEARCH METHODS FOR SOCIAL JUSTICE AND EQUITY (3) LEC. 3. Pr. ERMA 7300 or ERMA 7306 or ERMA 7210 or ERMA 7216 or ERMA 7400. This course focuses on critical educational research in the scholar-activist model. Through engaging with critical theoretical frameworks, critical empirical research, and research methods, this course prepares students to produce research and scholarship for social justice and equity in education.

ERMA 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

ERMA 7910 PRACTICUM IN EDUCATIONAL RESEARCH, MEASUREMENT, AND EVALUATION (1-3) LEC. 1-3. SU. Pr. (ERMA 7210 or ERMA 7216) and (ERMA 7300 or ERMA 7306). Supervised experience related to area of specialization within educational research, measurement, and evaluation. Course may be repeated for a maximum of 6 credit hours.

ERMA 7970 SPECIAL TOPICS IN EDUCATION RESEARCH METHODS & ASSESSMENT (1-6) DSL/LEC. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be with a change in topic. Course may be repeated with change in topics.

ERMA 8100 PROGRAM EVALUATION (3) LEC. 3. Study of various theories and models of curriculum evaluation, methodological issues regarding planning and conducting evaluation studies, reporting and using information from evaluation.

ERMA 8120 TEACHER EVALUATION (3) LEC. 3. Analysis of research on teaching, classroom observation methods, teaching portfolios, supervision of teachers, license and certification assessment, ethical and legal consideration, and using information to improve teaching.

ERMA 8200 SURVEY RESEARCH METHODS (3) LEC. 3. Overview of survey research, sampling issues, selection and construction of survey instruments, response effects, issues influencing response rate, reliability and validity of survey data, and analysis of survey data.

ERMA 8210 PREP RESEARCH FOR PUBLICATION (3) LEC. 3. SU. Pr. (ERMA 7300 or ERMA 7306) and (ERMA 7310 or ERMA 7316) and (ERMA 7210 or FOUN 7210 or FOUN 7300 or FOUN 7306 or FOUN 7310 or FOUN 7316). Preparation of graduate student research for publication or presentation at professional conference through practice, group discussions, peer review and feedback from experienced editorial board members. May count either ERMA 8210 or ERMA 8216.

ERMA 8320 DESIGN AND ANALYSIS IN EDUCATION III (3) LEC. 3. Pr. (FOUN 7310 or ERMA 7310) or (ERMA 7316 or FOUN 7316). Departmental approval. Discriminate analysis, MANOVA, canonical correlation, path analysis, exploratory and confirmatory factor analysis, and hierarchical linear modeling as they are utilized in educational research.

ERMA 8330 NON-PARAMETRIC DATA ANALYSIS IN EDUCATION RESEARCH (3) LEC. 3. Pr. FOUN 7300 or FOUN 7306 or ERMA 7300 or ERMA 7306. Departmental approval. Common non-parametric statistical tests appropriate for use with nominal and ordinal data in educational applications. These include rank-order correlation, sign tests, median tests, analysis of variance of ranks and log-linear analysis.

ERMA 8340 A PRACTICAL INTRODUCTION TO STRUCTURAL EQUATION MODELING (3) LEC. 3. Pr. (FOUN 8320 or ERMA 8320 or ERMA 8326). Departmental approval. Theory and practice of structural equation modeling techniques as they are utilized in educational research will be developed by expanding concepts of multiple linear regression and exploratory factor analysis to allow for correlation and causally related latent constructs.

ERMA 8350 ADVANCED MEASUREMENT THEORY (3) LEC. 3. Pr. (FOUN 7300 or ERMA 7300 or ERMA 7306 or FOUN 7306) and (FOUN 7310 or ERMA 7310 or FOUN 7316 or ERMA 7316). Introduction to classical and modern (IRT) test theory, measurement properties, differential item functioning, standard and adaptive testing.

ERMA 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertations. Course may be repeated with change in topics.

Educational Psychology - EPSY

Courses

EPSY 4100 LEARNING & WELLNESS IN LATER LIFE (3) LEC. 3. Relevant settings, processes, and purposes of learning for older adults. Learner characteristics will also be examined including motivations and needs. Examples of curricula and programs will be explored in-depth such as learning for family harmony, life transitions and adjustment, community involvement, recreation, reciprocity, wellness, and health.

EPSY 7100 LEARNING & WELLNESS IN LATER LIFE (3) LEC. 3. Relevant settings, processes, and purposes of learning for older adults. Learner characteristics will also be examined including motivations and needs. Examples of curricula and programs will be explored in-depth such as learning for family harmony, life transitions and adjustment, community involvement, recreation, reciprocity, wellness, and health.

EPSY 7400 ED PSYCH & EDUCATIONAL IMPLICA (3) LEC. 3. Educational psychology theory and research addressing critical problems, challenges, and opportunities in education or other growth-oriented settings. Content ranges from the study of learning to educational evaluation and authentic assessment.

EPSY 7410 THE INDIVIDUAL IN THE TEACHING-LEARNING PROCESS (3) LEC. 3. The study of human growth, development, and motivation theory and research, including culture, socio-economic status, language, gender and race as a base for understanding individual differences and their sources.

EPSY 7420 LEARNING THEORY AND EDUCATIONAL PRACTICE (3) LEC. 3. Advanced study of learning theory and research with an emphasis on application to effective design, implementation, and evaluation of instruction.

EPSY 7430 MOTIVATION AND ACHIEVEMENT (3) LEC. 3. Social, cultural, and psychological antecedents of achievement motivation are examined. This process requires reviewing theories and research, and emphasis is placed on discerning implications for practice and policy.

EPSY 7440 CLASSROOM MANAGEMENT: SKILLS AND REFLECTION (3) LEC. 3. Advanced study and analysis of existing classroom management discipline models including observation research activity.

EPSY 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

EPSY 7970 SPECIAL TOPICS IN FOUNDATION OF EDUCATION (3-6) LEC. 3-6. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be repeated for a maximum of 6 credit hours.

EPSY 8410 LEARNING IN THE SOCIAL CONTEXT (3) LEC. 3. Examination of the complex nature of learning as a socially-shared and individualized process. Topics may include the social construction of knowledge, scaffolded instruction, cognitive apprenticeships, and problem based learning.

EPSY 8430 TOPICAL SEMINAR IN LEARNING, COGNITION, AND INSTRUCTION (3) LEC. 3. An intensive and advanced study of research and theory on selected topics. Examples include folk theories of mind and alternative methods of studying thinking.

EPSY 8440 ED PSYCH APPRENT SEMINAR (3) LEC. 3. Focuses on the historical foundations of educational psychology as well as possibilities for future disciplinary development.

EPSY 8540 EDUCATIONAL PSYCHOLOGY RESEARCH APPRENTICESHIP SEMINAR (3) LEC. 3. A structured context for students to begin applying what they have learned from their research methods and statistic courses. Students will design and conduct research that contributes to the educational psychological knowledge base.

EPSY 8640 EDUCATIONAL PSYCHOLOGY LEARNING AND INSTRUCTION APPRENTICESHIP SEMINAR (3) LEC. 3. A structured opportunity for students to begin applying educational psychological concepts and theories in the classroom. Students will study theories of learning and instruction and begin to translate and implement these theories into practice.

EPSY 8990 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertations. Course may be repeated with changes in topic.

Educational Leadership - EDLD

Courses

EDLD 7200 SUPERVISION AND PERSONNEL MANAGEMENT (3) LEC. 3. Supervision theory and practice with responsibility for leadership in the recruitment, evaluation and staff development of employees. May count either EDLD 7200 or EDLD 7206.

EDLD 7210 MULTIPROFESSIONAL LEADERSHIP FOR EQUITY (3) LEC. 3. National, state, and local evidence will inform students' understanding of diversity issues in schools. Theories, concepts and principles of leadership from a multidisciplinary, multiprofessional perspective, will be applied to addressing issues of equity in schools. May count either EDLD 7210 or EDLD 7216.

EDLD 7220 ORGANIZATIONAL AND SCHOOL MANAGEMENT (3) LEC. 3. This course will prepare students in understanding legal and ethical responsibilities of school leaders, fiscal revenues and expenditures of Alabama public schools, using action research and components of a comprehensive, ongoing, planning and budgeting program. May count either EDLD 7220 or EDLD 7226.

EDLD 7330 INTRODUCTION TO CURRICULUM AND INSTRUCTIONAL LEADERSHIP (3) LEC. 3. Principles of curriculum development and the leadership skills required to enact it with emphasis on school settings.

EDLD 7340 OVERVIEW OF CURRICULUM PROCESSES (3) LEC. 3. Curriculum as a field of study; the first course required for the ASC concentration in curriculum; an overview of curriculum history, processes, models, and designs.

EDLD 7500 PRINCIPAL LEADERSHIP (3) LEC. 3. Designed to serve instructional leaders in K-12 settings concerning leadership dispositions and leadership theory important to promoting student success and achievement. May count either EDLD 7500 or EDLD 7506.

EDLD 7510 ACTION RESEARCH AND DATA ANALYSIS (3) LEC. 3. Research methodologies to improve instructional and school-based decision-making action, qualitative, and case study techniques applied to school, classroom, or school-community observation. May count either EDLD 7510 or EDLD 7516.

EDLD 7520 LEADERSHIP AND THE LEARNING ORGANIZATION (3) LEC. 3. Management of schools as learning organizations; issues related to student learning and achievement through attention to organizational components. May count either EDLD 7520 or EDLD 7526.

EDLD 7530 PLANNING AND CONTINUOUS IMPROVEMENT (3) LEC. 3. Development of frameworks for collection, analysis, and use of school data for the improvement of instruction, the learning environment, and student achievement. May count either EDLD 7530 or EDLD 7536.

EDLD 7540 INSTRUCTIONAL AND CURRICULAR LEADERSHIP (3) LEC. 3. Curriculum design and development; areas of study include student needs, organizational mission and goals, data driven improvement, change process, diverse faculty, curriculum alignment tools. May count either EDLD 7540 or EDLD 7546.

EDLD 7550 EDUCATIONAL FINANCE AND RESOURCE MANAGEMENT (3) LEC. 3. Preparation of pro-active leaders in school business affairs; use of action research and components of a comprehensive, ongoing, planning and budgeting program; facilities management. May count either EDLD 7550 or EDLD 7556.

EDLD 7560 EDUCATIONAL SYSTEMS AND COMMUNITIES (3) LEC. 3. Change theory, forecasting, trend analysis and application of these concepts to student achievement and school improvement efforts.

EDLD 7570 LEGAL AND ETHICAL ISSUES (3) LEC. 3. Ethical and legal provisions for education communities: emphasis on the support of and belief in the cultural value of a diverse and educated democratic society. May count either EDLD 7570 or EDLD 7576.

EDLD 7580 SUPERVISION AND PERSONNEL ISSUES IN EDUCATION (3) LEC. 3. Policies and practices related to teacher recruitment, selection, evaluation, and professional development; faculty/staff developmental processes that impact student achievement and school improvement efforts. May count either EDLD 7580 or EDLD 7586.

EDLD 7900 DIRECTED STUDIES (1-9) IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

EDLD 7910 PRACTICUM (1-6) PRA. Experience closely relating theory and practice, usually conducted in realistic settings. May count either EDLD 7910 or EDLD 7916. Course may be repeated for a maximum of 6 credit hours.

EDLD 7920 ADMINISTRATIVE INTERNSHIP (1-6) AAB/INT. Departmental approval. Opportunities for interns to internalize and employ administrative skills learned during graduate coursework. Course may be repeated for a maximum of 6 credit hours.

EDLD 7930 ADMINISTRATIVE INTERNSHIP/RESIDENCY (1-3) INT. Ongoing field-based experiences in educational administration; observation, participation, and leading with practicing administrators in school systems. Course may be repeated for a maximum of 3 credit hours.

EDLD 7970 SPECIAL TOPICS (1-9) LEC. Variable content for advanced studies in the area of educational leadership. Course may be repeated for a maximum of 9 credit hours.

EDLD 8200 ASSESSMENT AND EVALUATION IN LEARNING ORGANIZATIONS (3) LEC. 3. Study of assessment and evaluation practices that enable learning organizations to use data for decision-making purposes. May count either EDLD 8200 or EDLD 8206.

EDLD 8210 EDUCATIONAL LEADERSHIP: THEORY AND PRACTICE (3) LEC. 3. Educational leadership theory and applications for K-12 settings. May count either EDLD 8210 or EDLD 8216.

EDLD 8220 PERSONAL AND PROFESSIONAL DEVELOPMENT (3) LEC. 3. Includes theoretical frameworks and applications for successful and systematic mentoring of professionals in organizations. May count either EDLD 8220 or EDLD 8226.

EDLD 8230 SYSTEMIC PLANNING AND BUDGETING (3) LEC. 3. Covers the components and implementation of a comprehensive ongoing planning and budgeting program for learning organizations.

EDLD 8240 TRENDS AND ISSUES IN EDUCATIONAL ADMINISTRATION (3) LEC. 3. Trends and issues affecting educational institutions with particular attention to development of administrative procedures to cope with educational changes. May count either EDLD 8240 or EDLD 8246.

EDLD 8250 ORGANIZATIONAL POWER, POLITICS AND POLICY FORMATION (3) LEC. 3. Analysis of social forces, antecedent movements, and political actions affecting organizations. The study of policy development and practice. May count either EDLD 8250 or EDLD 8256.

EDLD 8260 THEORY AND DEVELOPMENT OF ORGANIZATIONS (3) LEC. 3. Theoretical frameworks of educational organizations. May count either EDLD 8260 or EDLD 8266.

EDLD 8270 LEADERSHIP IN FINANCE AND MANAGEMENT (3) LEC. 3. Theory and practice of instructional leadership related to personnel and fiscal management of a school or school district. May count either EDLD 8270 or EDLD 8276.

EDLD 8280 THE SUPERINTENDENCY IN EDUCATION (3) LEC. 3. Theoretical frameworks of educational organizations.

EDLD 8300 CURRICULUM THEORY AND PRACTICE (3) LEC. 3. Advanced course dealing with application of curriculum theories with an emphasis on the impact of philosophical and theoretical beliefs on practice.

EDLD 8310 LEADERSHIP IN THE DEVELOPMENT AND APPLICATION OF CURRICULUM AND THEORY DESIGN (3) LEC. 3. Application of transformative leadership in the design, delivery, and evaluation of curriculum in a wide variety of organizational settings. May count either EDLD 8310 or EDLD 8316.

EDLD 8320 CURRICULUM LEADERSHIP FOR ORGANIZATIONS (3) LEC. 3. Pr. EDLD 7340 and EDLD 8300 and EDLD 8310 or EDLD 8316. Departmental approval. For those considering a career in upper level management. Focuses on context, societal, and political influences related to curriculum processes and organizational change. May count either EDLD 8320 or EDLD 8326.

EDLD 8340 TRANSFORMATIONAL PROCESSES AND ORGANIZATIONAL CHANGE (3) LEC. 3. Organizational and transformational change at personal, interpersonal, and institutional levels. May count either EDLD 8340 or EDLD 8346.

EDLD 8400 ETHICS FOR LEADERS (3) LEC. 3. Theory and practice of ethics and the role of ethical and personal integrity for leaders in the context of educational organizations and the communities they serve. May count either EDLD 8400 or EDLD 8406.

EDLD 8480 INSTITUTIONAL RESEARCH AND DECISION SUPPORT (3) LEC. 3. Components of institutional research and assessment programs that can support the comprehensive planning, decision support, and management needs of the institution.

EDLD 8600 MENTORING FOR CAREER DEVELOPMENT (3) LEC. 3. Assist graduate students in discovering how mentioning can enhance their career/professional development and benefit their organizations. May count either EDLD 8600 or EDLD 8606.

EDLD 8940 DIRECTED FIELD EXPERIENCE IN EDUCATIONAL LEADERSHIP (1-6) FLD. Field-based experience in diverse settings to develop knowledge, skills, and abilities in an area of special interest. Course may be repeated for a maximum of 6 credit hours.

EDLD 8950 SEMINAR (3) DSL/SEM. 3. Professional and social integration into doctoral program; enhancement of professional knowledge through structured inquiry, professional dialogue, and reflective thinking. May count either EDLD 8950 or EDLD 8956. Course may be repeated for a maximum of 6 credit hours.

EDLD 8980 PROJECT ANALYSIS (3) LEC. 3. Problem solving, reflective practice and action research and used for continuous school improvement. Provides opportunities to engage in diverse field based research projects. May count either EDLD 8980 or EDLD 8986.

EDLD 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 hours. Course may be repeated with change in topics.

Educational Media - EDMD

Courses

EDMD 2000 DIGITAL LITERACY AND COMPUTER SCIENCE IN EDUCATION (4) LEC. 3. LAB. 1. Introduction of foundational computer science concepts and practices relevant to K-6 teachers. Emphasis on the application of computational thinking skills to the development of a block-based programing as well as digital literacy skill development. Limited to majors requiring teaching certification.

EDMD 2100 CONTEMPORARY LITERATURE FOR CHILDREN, YOUTH, & ADOLESCENTS (3) LEC. 3. Reading, discussion, analysis, and reflection on contemporary literature in print and other formats for an audience of ages birth-18 yrs. Applying critical skills in the evaluation and selection of titles from a range of genres & formats, including picture books, chapter books, graphic novels, e-books, audio-books, audio-visual formats, fiction, and non-fiction in its various forms. Particular emphasis on American Library Association award-winning titles.

EDMD 3300 UTILIZATION OF INSTRUCTIONAL TECHNOLOGY FOR EDUCATORS (2) LEC. 1. LAB. 2. Basics of current and emerging instructional & communication technologies with primary emphasis on curricular integration. Location, selection, and application of technology resources (WWW, commercially authored software, etc.) for curricular needs with emphasis on developmental stages, learning styles and learning technologies. Limited to majors requiring teaching certification.

EDMD 5000 INSTRUCTIONAL TECHNOLOGY FOR TEACHING AND LEARNING (3) LEC. 3. Introduction to the systematic application of instructional technologies in teaching and learning environments.

EDMD 6000 INSTRUCTIONAL TECHNOLOGY FOR TEACHING AND LEARNING (3) LEC. 3. Introduction to the systematic application of instructional technologies in teaching and learning environments. May count either EDMD 6000 or EDMD 6006.

EDMD 6100 MEDIA FOR CHILDREN (3) LEC. 3. Examination and evaluation of current literature in print and other formats, including oral literature. Focuses on literary and instructional criteria for selecting and utilizing media.

EDMD 7000 INSTRUCTIONAL DESIGN AND DEVELOPMENT (3) LEC. 3. Theory, problems, procedures, and standards in the utilization of technology in instructional design and development. May count either EDMD 7000 or EDMD 7006.

EDMD 7010 INSTRUCTIONAL AND INFORMATION TECHNOLOGIES (3) LEC. 3. Evaluation, selection, and use of traditional and current technologies for instruction, information, and administration in learning environments. May count either EDMD 7010 and EDMD 7016.

EDMD 7020 PRINCIPLES OF GRAPHIC DESIGN FOR INSTRUCTION (3) LEC. 3. Principles of graphic design and visual literacy to facilitate the presentation of information. Criteria for graphics utilization examined. May count either EDMD 7020 or EDMD 7026.

EDMD 7030 DIVERSE CHILDREN'S AND YOUNG ADULT LITERATURE: ISSUES, TRENDS, & CONTROVERSIES (3) LEC. 3. Examination of current issues, trends, and controversies in diverse children's and young adult literature. Particular focus is given to literature by and about people from population groups traditionally defined by race, class, ethnicity, religion, ability, gender and sexuality. Course participants will investigate theoretical perspectives, scholarly discussions, and methodological implications for these texts.

EDMD 7100 SELECTION AND USE OF MEDIA FOR YOUTH (3) LEC. 3. Pr. EDMD 7030 or EDMD 7036. Evaluation, selection, and use of print and non-print media for youth, including materials for multi-cultural, special and gifted education. May count either EDMD 7100 or EDMD 7106.

EDMD 7110 BIBLIOGRAPHIC DESCRIPTION, ORGANIZATION AND CONTROL (3) LEC. 3. Principles and procedures of describing, classifying and organizing resources with applications using new technologies. May count either EDMD 7110 or EDMD 7116.

EDMD 7120 INFORMATION SOURCES, SERVICES AND INSTRUCTION (3) LEC. 3. An overview of information needs, services, and print and electronic resources; ways to teach information literacy skills. May count either EDMD 7120 or EDMD 7126.

EDMD 7130 ADMINISTRATION OF MEDIA AND TECHNOLOGY SERVICES (3) LEC. 3. Functions of and planning for media and technology services. Budget, evaluation, facilities, guidelines, legal issues, personnel and policies. May count either EDMD 7130 or EDMD 7136.

EDMD 7200 APPLIED INSTRUCTIONAL DESIGN (3) LEC. 3. Pr. EDMD 7000 or EDMD 7006. Applying instructional design skills, students will plan, develop, implement and assess instructional products using appropriate technologies. May count either EDMD 7200 or EDMD 7206.

EDMD 7210 INTEGRATION OF TECHNOLOGY INTO CURRICULUM (3) LEC. 3. Learner competence in integration of technology into curriculum, including designing and writing software and plans for using computers in instruction. May count either EDMD 7210 or EDMD 7216.

EDMD 7230 THEORY AND PRACTICE OF DISTANCE EDUCATION (3) LEC. 3. Theories, concepts, and tools that support distance education, with emphasis on application in design, development, and implementation of distance education instruction. May count either EDMD 7230 or EDMD 7236.

EDMD 7300 RESEARCH IN INSTRUCTIONAL TECHNOLOGY (3) LEC. 3. Pr. ERMA 7200 or FOUN 7200 or ERMA 7206 or FOUN 7206. A forum for sharing research perspectives, exploring processes involved in defining research problems and analyzing research theories, problems, and methods in instructional technology. May count either EDMD 7300 or EDMD 7306.

EDMD 7310 EVALUATION OF MEDIA AND TECHNOLOGY PROGRAMS (3) LEC. 3. Factors contributing to effective media and technology programs. Understanding of research process and experience with media and technology services assumed. May count either EDMD 7310 or EDMD 7316.

EDMD 7320 ADVANCED INFORMATION SOURCES AND SERVICES (3) LEC. 3. Electronic databases, advanced searching techniques, information representation, and the role of the media specialist in networking and creating electronic information sources. May count either EDMD 7320 or EDMD 7326.

EDMD 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor of student's work accomplished at regular intervals.

EDMD 7910 PRACTICUM (1-6) PRA. SU. Experiences closely relating theory and practice, usually conducted in realistic settings. Course may be repeated for a maximum of 6 credit hours.

EDMD 7920 CLINICAL RESIDENCY (1-6) DSL/INT. SU. Pr. (P/C EDMD 7120 or P/C EDMD 7126) and (P/C EDMD 7130 or P/C EDMD 7136). Supervised experience in a school media center or other appropriate setting. These experiences, accompanied by regularly scheduled meetings with the university supervisor, provide evaluation and analysis of the intern experience. May count either EDMD 7920 or EDMD 7926. Course may be repeated for a maximum of 6 credit hours.

EDMD 7930 TEACHING APPRENTICESHIP (3) SEM. 3. Departmental approval. A structured opportunity for students to apply educational media concepts and theories in the college classroom. Course may be repeated for a maximum of 6 credit hours.

EDMD 7940 DIRECTED FIELD EXPERIENCE (3-6) FLD. SU. Pr. FOUN 7200 or ERMA 7200 or ERMA 7206 or FOUN 7206. Field-based study in the area of media and technology. Addresses a scholarly concern of the student and is conducted using valid research techniques. Course may be repeated for a maximum of 6 credit hours.

EDMD 7970 SPECIAL TOPICS IN INSTRUCTIONAL TECHNOLOGY (3-9) LEC. 3. Opportunity for study of current topics related to the field of instructional technology. Course may be repeated for a maximum of 9 credit hours.

EDMD 7980 FIELD PROJECT (3-6) INT. SU. Pr. ERMA 7200 or ERMA 7206 or FOUN 7200 or FOUN 7206. Field-based study in the area of media and technology. Addresses a scholarly concern of the student and is conducted using valid research techniques.

Electrical and Computer Engineering - ELEC

Courses

ELEC 2110 ELECTRIC CIRCUIT ANALYSIS (4) LEC. 3. LAB. 3. Pr. (PHYS 1610 or PHYS 1617) and (COMP 1200 or COMP 1220 or COMP 1230 or COMP 1210 or COMP 1217) and (P/C ENGR 1110 or P/C ENGR 1113) and P/C MATH 2650. Basic laws and concepts; resistive circuits; first-order transient circuits; phasors and frequency response of circuits; RMS values and complex power.

ELEC 2120 SIGNALS AND SYSTEMS (4) LEC. 3. LAB. 3. Pr. ELEC 2110 and MATH 2650 and (MATH 2630 or MATH 2633 or MATH 2637). Time-domain and frequency-domain methods for modeling and analyzing continuous and discrete-data signals and systems. Generating and observing signals in the time and frequency domains. MATLAB instruction and programming for signal analysis.

ELEC 2200 DIGITAL LOGIC CIRCUITS (3) LEC. 3. Pr. COMP 1200 or COMP 1220 or COMP 1230 or COMP 1210 or COMP 1217. Electronic devices and digital circuits; binary numbers; Boolean algebra and switching functions; gates and flip-flops; combinational and sequential logic circuits; hierarchical design of digital systems; computer-aided design tools for digital design, simulation, and testing.

ELEC 2210 DIGITAL ELECTRONICS (4) LEC. 3. LAB. 3. Pr. ELEC 2110 and ELEC 2200 and (MATH 2630 or MATH 2633 or MATH 2637) and MATH 2650. History of electronics; semiconductors; biasing and operation of PN junction diodes; field-effect transistors and bipolar junction transistors; logic families and logic technologies; flip-flops and memory circuitry.

ELEC 2220 COMPUTER SYSTEMS (3) LEC. 3. Pr. ELEC 2200. Computer hardware/software organization, processor programming models, assembly language programming, design of memory systems, I/O device interfacing, programming and multiprocessing.

ELEC 3030 RF SYSTEMS LAB (1) LAB. 3. Pr. ELEC 2210. Assembly, testing and analysis of a radio. Integration of basic concepts of electronics, electromagnetics, and signals and systems.

ELEC 3040 ELECTRICAL SYSTEM DESIGN LAB (1) LAB. 3. Pr. ELEC 2220 and (P/C ELEC 3030 and P/C ELEC 3500). Exploration and integration of electrical engineering concepts and professional practice issues through the design of a contemporary engineering system.

ELEC 3050 EMBEDDED SYSTEM DESIGN LAB (1) LAB. 3. Pr. ELEC 2210 and ELEC 2220 and P/C ELEC 2120. Integration of hardware and software in the design of an embedded computing system; development of professional skills.

ELEC 3060 WIRELESS DESIGN LAB (1) LAB. 3. Pr. P/C ELEC 3400. Laboratory experiments geared towards understanding the implementation and testing of components used in wireless communication systems.

ELEC 3310 FUNDAMENTALS OF APPLIED ELECTROMAGNETICS (3) LEC. 3. Pr. (MATH 2660 or MATH 2667) and ELEC 2110 and (MATH 2630 or MATH 2633 or MATH 2637) and MATH 2650. Transmission lines are studied as a bridge to understanding electromagnetic theory. Then, electric and magnetic fields are studied using vector algebra, culminating in Maxwell's equations.

ELEC 3320 ELECTROMAGNETICS FOR WIRELESS COMMUNICATION (3) LEC. 3. Pr. ELEC 3310. Maxwell's equations are used in the study of plane waves, guided waves, fiberoptics, electromagnetic compatibility and interference, antennas and radiation, and satellite communication systems.

ELEC 3400 COMMUNICATION SYSTEMS (3) LEC. 3. Pr. ELEC 3800. Pulse code modulation, line coding, information rate, equalization, amplitude modulation, angle modulation, noise in communication systems.

ELEC 3500 CONTROL SYSTEMS (3) LEC. 3. Pr. ELEC 2120. Analog and discrete transfer function models, system response specifications, control system characteristics, root locus analysis and design, frequency response analysis and design.

ELEC 3600 ELECTRIC POWER ENGINEERING (3) LEC. 3. Pr. ELEC 2110 and (MATH 2630 or MATH 2633 or MATH 2637) and MATH 2650. Introduction to the basic concepts in electric power engineering.

ELEC 3700 ANALOG ELECTRONICS (3) LEC. 3. Pr. ELEC 2210 and ELEC 2120. Amplifier modeling. Design and analysis of single-stage and multistage transistor amplifiers. Biasing for integrated circuit design. Operational amplifier circuits.

ELEC 3800 RANDOM SIGNALS AND SYSTEMS (3) LEC. 3. Pr. ELEC 2120. Introduction to probability, random variables, random processes and basic statistics, analysis of random signals and noise.

ELEC 3810 FUNDAMENTALS OF ELECTRICAL ENGINEERING (3) LEC. 3. Pr. (PHYS 1610 or PHYS 1617) and P/C MATH 2650. Electrical circuit analysis; electronic devices, digital systems, amplifier concepts, power devices and systems. Not open to ECE majors.

ELEC 4010 CAPSTONE DESIGN I (1) LEC. 1. Pr. (ELEC 3800 and P/C ELEC 3030 and P/C ELEC 3040) or (ELEC 3800 and P/C ELEC 3050 and P/C ELEC 4200) or (ELEC 3800 and P/C ELEC 3030 and P/C ELEC 3060). The engineering design process, project management and teamwork, ethical and social impacts of design projects, project documentation and presentation, business considerations, and intellectual property.

ELEC 4020 CAPSTONE DESIGN II (3) LEC. 3. Pr. (ELEC 4010 and ELEC 3030 and ELEC 3040 and ELEC 3320 and ELEC 3600 and ELEC 3700 and P/C ELEC 3400) or (ELEC 4010 and ELEC 3050 and ELEC 3800 and ELEC 4200 and COMP 3270 and P/C ELEC 5200 and P/C ELEC 5220) or (ELEC 4010 and ELEC 3030 and ELEC 3060 and P/C ELEC 4100 and P/C ELEC 5130 and P/C ELEC 5410). A capstone design project which draws on the accumulated curricular experience. Particular project sections may have additional prerequisites. Departmental approval needed.

ELEC 4100 WIRELESS COMMUNICATION SYSTEMS (3) LEC. 3. Pr. ELEC 3400. Introduction to mobile cellular radio and wireless personal communications, mobile radio propagation, modulation techniques, multiple access techniques, wireless systems and standards.

ELEC 4200 DIGITAL SYSTEM DESIGN (3) LEC. 2. LAB. 3. Pr. ELEC 2210 and ELEC 2220. Hierarchical, modular design of digital systems, computer-aided digital system modeling, simulation, analysis, and synthesis; design implementation with programmable logic devices and FPGAs.

ELEC 4980 SPECIAL PROJECTS (1-3) IND. Departmental approval. Supervised study of a specialized area of electrical and computer engineering not covered by regularly offered courses. Course may be repeated with change in topics.

ELEC 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval. Directed research and writing of honors thesis. Course may be repeated for a maximum of 6 credit hours.

ELEC 5120 TELECOMMUNICATION NETWORKS (3) LEC. 3. Pr. ELEC 3400. Principles and building blocks of telecommunication systems, including switched telephone networks, voice and data networks, transmission technologies, and switching architectures

ELEC 5130 RF DEVICES AND CIRCUITS (3) LEC. 3. Pr. ELEC 3700. Introduction to RF semiconductor devices and circuits targeted for wireless applications.

ELEC 5150 INFORMATION SECURITY (3) LEC. 3. Departmental approval. Emerging protocols, standards and technologies of information security; design of information network security using firewalls, virtual private networks and secured applications.

ELEC 5190 INTRODUCTION TO DIGITAL AND ANALOG IC DESIGN (3) LEC. 3. Pr. ELEC 3700. Digital IC design using Verilog, analog and mixed signal IC design using industry standard tools; emphasis on front-end design skills.

ELEC 5200 COMPUTER ARCHITECTURE AND DESIGN (3) LEC. 3. Pr. ELEC 4200. Structural organization and hardware design of digital computers; register transfers; micro-operations, control units and timing; instruction set design; input/output devices, multiprocessors, automated hardware design aids.

ELEC 5210 HARDWARE SECURITY I (3) LEC. 3. Pr. ELEC 2200. Hardware design of symmetric and asymmetric ciphers, digital signature generation and verification, key management, detection and avoidance of counterfeit ICs, cryptographic primitives, and automated hardware design aids.

ELEC 5220 INFORMATION NETWORKS AND TECHNOLOGY (3) LEC. 3. Pr. ELEC 2220 or COMP 3350. Architectures, protocols, standards and technologies of information networks; design and implementation of information networks; applications of information networks for data, audio and video communications.

ELEC 5230 PARALLEL PROCESSING (3) LEC. 3. Pr. ELEC 2220 or COMP 3350. Hardware components of multiprocessor systems including processor, inter-connection, memory and control architectures; software elements of parallel processing.

ELEC 5240 NEURAL NETWORKS (3) LEC. 3. Pr. ELEC 2120. Principles, architectures, and technologies of neural networks; design and implementation of neural networks using electronics and optics; applications of neural networks.

ELEC 5250 COMPUTER AIDED DESIGN OF DIGITAL INTEGRATED CIRCUITS (3) LEC. 3. Pr. ELEC 2220 or COMP 3350. Computer-automated design of digital logic circuits using discrete gates, programmable logic devices, and standard cells; hardware description languages, circuit simulation, verification, fault diagnosis and testing, RTL-to-GDSII ASIC flow.

ELEC 5260 EMBEDDED COMPUTING SYSTEMS (3) LEC. 3. Pr. ELEC 2220 or COMP 3350. The design of systems containing embedded computers. Microcontroller technology, assembly language and C programming, input/output interfacing, data acquisition hardware, interrupts, and timing. Real-time operating systems and application programming. Embedded system application examples.

ELEC 5290 HARDWARE SECURITY II (3) LEC. 3. Pr. ELEC 5210. This course will provide an in-depth analysis of various topics, which includes advanced cryptography, hardware Trojans, PUFs, RFID security, side-channel attacks and solutions, and blockchain.

ELEC 5310 DESIGN OF ANTENNAS AND ANTENNA SYSTEMS (3) LEC. 3. Pr. P/C ELEC 3320. Application of electromagnetic and circuit concepts to the design of practical antennas and antenna systems.

ELEC 5320 ELECTROMAGNETIC COMPATIBILITY (3) LEC. 3. Pr. ELEC 3320 and ELEC 3700. Electromagnetic noise coupling, designing for electromagnetic compatibility (EMC), EMC regulation, noise sources, standard techniques for eliminating noise, circuit layout for reduced electromagnetic interference (EMI).

ELEC 5340 MICROWAVE AND RF ENGINEERING (3) LEC. 3. Pr. ELEC 3320 and ELEC 3700. Application of electromagnetic and electronic concepts to the design of practical microwave devices and circuits typically used in wireless communications.

ELEC 5350 RADAR PRINCIPLES (3) LEC. 3. Pr. ELEC 3320 and ELEC 3800. Study of the fundamentals of RADAR and related systems such as SONAR and LIDAR.

ELEC 5410 DIGITAL SIGNAL PROCESSING (3) LEC. 3. Pr. ELEC 3800. Digital processing of signals, sampling difference equations, discrete-time Fourier transforms, discrete and fast Fourier transforms, digital filter design.

ELEC 5470 FUNDAMENTALS OF VLSI TEST (3) LEC. 3. Test economics, automatic test equipment, fault models, automatic test pattern generation, test generation for sequential circuits, fault simulation, testability measures, fault coverage, yield and defect levels, design-for-testability, scan and boundary scan, IDDQ testing.

ELEC 5530 ROBOT CONTROL (3) LEC. 3. Pr. ELEC 3500. Design, analysis, and simulation of robotic manipulator control. An exploration of kinematics, inverse kinematics, equation of motion, various control strategies, including classic computed-torque feedback control, modern optimal control and AI-based methods such as reinforcement learning and neural network control.

ELEC 5600 ELECTRIC VEHICLES (3) LEC. 3. Pr. ELEC 3600 or ELEC 3810. Electric vehicles, technical aspects, mathematical relationships, and basic design guidelines on electric powertrain, traction inverters, electric machines, motor drives, power converter components, Wide Band Gap power electronics, permanent magnets, battery charging infrastructures, grid interactions, the roles in microgrids and smart grids, and computer simulations.

ELEC 5610 POWER ELECTRONICS (3) LEC. 3. Pr. ELEC 3700 and ELEC 3600. Power electronic circuits, components, and devices.

ELEC 5620 POWER SYSTEM ANALYSIS (3) LEC. 3. Pr. ELEC 3600. Departmental approval. Power system modeling, power flow analysis, analysis of faulted power systems.

ELEC 5630 ELECTRIC MACHINES (3) LEC. 3. Pr. ELEC 3600. Departmental approval. Fundamentals of the electromagnetic-mechanical energy conversion process. Principles of operation, application, and control of ac and dc motors and generators.

ELEC 5640 RENEWABLE ENERGY IN ELECTRICAL POWER SYSTEMS (3) LEC. 3. Pr. ELEC 3600 or ELEC 3810. Conventional power plants, global renewables, energy efficiency, marine hydrokinetic (ocean currents and waves), wind power (aerodynamic, generator, plants, grid integration, finance), photovoltaic (device, inverter, plant levels, finance), hydropower (generator, plant level, pumped storage hydro, advances in hydro),power systems grid integration, system impact studies, control and operation of inverter-based resources, ancillary services provisions, and other important aspects of renewables for bulk power (transmission levels) and for distribution power systems.

ELEC 5650 POWER SYSTEM PROTECTION (3) LEC. 3. Pr. ELEC 3600. Fault analysis using symmetrical components. Power switchgear, including switches, disconnects, fuses, relays and circuit breakers. Fundamentals of electric power system protection, including bus, transformer and line protection.

ELEC 5660 SMART GRIDS (3) LEC. 3. Pr. ELEC 3600 or ELEC 3810. Conventional power systems, renewable energy, inverter base resources, smart grid challenges and opportunities, real-time management, grid edge sensors, communications, advanced system protection, restoration, reactive/voltage control, real power/frequency regulation, monitoring and diagnostics, microgrids concept.

ELEC 5670 ELECTRIC POWER ENGINEERING TOPICS (1-3) LEC. 3. Pr. ELEC 3600. Various topics representing state-of-the-art power technology. Course may be repeated for a maximum of 12 credit hours.

ELEC 5690 MICROGRIDS (3) LEC. 3. Pr. ELEC 3600 or ELEC 3810. Distribution power system modeling, inverter-based resources, control, protection, resilience, and security technologies within distributed energy resources (generation, distribution, energy storage, reactive compensation, renewable energy resources) covering microgrid design, analysis, and operation.

ELEC 5700 SEMICONDUCTOR FUNDAMENTALS (3) LEC. 3. Pr. ELEC 2210. Introduction to semiconductors: crystal structure, energy band theory, equilibrium electron and hole statistics, doping, generation and recombination processes, carrier drift and diffusion, transport equations.

ELEC 5710 SEMICONDUCTOR DEVICES (3) LEC. 3. Pr. ELEC 2210. Introduction to semiconductor devices: pn junctions, junction diode based devices, optoelectronic devices, bipolar transistors, field effect transistors.

ELEC 5720 LASER-MATERIAL INTERACTIONS (3) LEC. 3. Pr. MATH 1620 or Departmental approval. Fundamental principles of lasers, optics, and laser-matter interaction mechanisms in various laser-based manufacturing, materials processing, and diagnostic techniques.

ELEC 5730 MICROELECTRONIC FABRICATION (3) LEC. 2. LAB. 3. Pr. ELEC 2210. Departmental approval. Introduction to monolithic integrated circuit technology. Bipolar and MOS processes and structures. Elements of layout, design, fabrication, and applications. Experiments in microelectronic technologies.

ELEC 5760 SOLID STATE SENSORS (3) LEC. 3. Pr. ELEC 3700. or consent of instructor. Theory, technology and design micro-machined sensors and related sensor technologies; and the application of micro-machined sensors.

ELEC 5770 VLSI DESIGN (3) LEC. 3. Pr. ELEC 2210 and ELEC 2220. Review of MOS transistor fundamentals, CMOS logic circuits; VLSI fabrication and design rules; clocking strategies and sequential design; performance estimation; memories and programmable arrays; standard cell design methodologies; computer aided design (CAD) tools.

ELEC 5780 ANALOG CIRCUIT DESIGN (3) LEC. 3. Pr. ELEC 3700. Departmental approval. Circuit design techniques used for implementing analog integrated circuits in both CMOS and bipolar technologies.

ELEC 5810 COMPUTED IMAGING SYSTEMS (3) LEC. 3. Pr. ELEC 2120. Introduction to computed imaging systems such as magnetic resonance imaging (MRI) and computed tomography (CT).

ELEC 5820 MEMS TECHNOLOGY (3) LEC. 3. Departmental approval. Introduction to Micro-Electro-Mechanical Systems (MEMS), the study of the materials and microfabrication processes used to fabricate MEMS devices, the principles of operation of MEMS devices, and an introduction to the different application areas of MEMS devices.

ELEC 5970 SPECIAL TOPICS (1-5) AAB. Departmental approval. Study of a specialized area of electrical and computer engineering not covered by regularly offered courses. Course may be repeated with change in topics.

ELEC 6120 TELECOMMUNICATION NETWORKS (3) LEC. 3. Principles and building blocks of telecommunication systems, including switched telephone networks, voice and data networks, transmission technologies, and switching architectures.

ELEC 6130 RF DEVICES AND CIRCUITS (3) LEC. 3. Introduction to RF semiconductor devices and circuits targeted for wireless applications.

ELEC 6150 INFORMATION SECURITY (3) LEC. 3. Departmental approval. Emerging protocols, standards and technologies of information security; design of information network security using firewalls, virtual private networks and secured applications.

ELEC 6190 INTRODUCTION TO DIGITAL AND ANALOG IC DESIGN (3) LEC. 3. Digital IC design using Verilog, analog and mixed signal IC design using industry standard tools; emphasis on on front-end design skills.

ELEC 6200 COMPUTER ARCHITECTURE AND DESIGN (3) LEC. 3. Structural organization and hardware design of digital computers; register transfers; micro-operations, control units and timing; instruction set design; input/output devices, multiprocessors, automated hardware design aids.

ELEC 6210 HARDWARE SECURITY I (3) LEC. 3. This course will provide an in-depth analysis of various topics, which include (i) introduction to cryptography - symmetric and asymmetric ciphers, message authentication codes, and digital signatures, (ii) detection & avoidance of counterfeit ICs, and (iii) security primitives - physically unclonable functions (PUFs) and true random number generators (TRNGs).

ELEC 6220 INFORMATION NETWORKS AND TECHNOLOGY (3) LEC. 3. Architectures, protocols, standards and technologies of information networks; design and implementation of information networks; applications of information networks for data, audio and video communications.

ELEC 6230 PARALLEL PROCESSING (3) LEC. 3. Hardware components of multiprocessor systems including processor, inter-connection, memory and control architectures; software elements of parallel processing.

ELEC 6240 NEURAL NETWORKS (3) LEC. 3. Principles, architectures, and technologies of neural networks; design and implementation of neural networks using electronics and optics; applications of neural networks.

ELEC 6250 COMPUTER AIDED DESIGN OF DIGITAL INTEGRATED CIRCUITS (3) DSL/LEC. Computer-automated design of digital logic circuits using discrete gates, programmable logic devices, and standard cells; hardware description languages, circuit simulation, verification, fault diagnosis and testing, RTL-to-GDSII ASIC flow.

ELEC 6260 EMBEDDED COMPUTING SYSTEMS (3) LEC. 3. The design of systems containing embedded computers. Microcontroller technology, assembly language and C programming, input/output interfacing, data acquisition hardware, interrupts, and timing. Real-time operating systems and application programming. Embedded system application examples.

ELEC 6290 HARDWARE SECURITY II (3) LEC. 3. Pr. ELEC 5210 or ELEC 6210. This course will provide an in-depth analysis of various topics, which includes advanced cryptography, hardware Trojans, PUFs, RFID security, side-channel attacks and solutions, and blockchain.

ELEC 6310 DESIGN OF ANTENNAS AND ANTENNA SYSTEMS (3) LEC. 3. Application of electromagnetic and circuit concepts to the design of practical antennas and antenna systems.

ELEC 6320 ELECTROMAGNETIC COMPATIBILITY (3) LEC. 3. Electromagnetic noise coupling, designing for electromagnetic compatibility (EMC), EMC regulation, noise sources, standard techniques for eliminating noise, circuit layout for reduced electromagnetic interference (EMI).

ELEC 6340 MICROWAVE AND RF ENGINEERING (3) LEC. 3. Application of electromagnetic and electronic concepts to the design of practical microwave devices and circuits typically used in wireless communications.

ELEC 6350 RADAR PRINCIPLES (3) LEC. 3. Study of the fundamentals of RADAR and related systems such as SONAR and LIDAR.

ELEC 6410 DIGITAL SIGNAL PROCESSING (3) LEC. 3. Digital processing of signals, sampling difference equations, discrete-time Fourier transforms, discrete and fast Fourier transforms, digital filter design.

ELEC 6470 FUNDAMENTALS OF VLSI TEST (3) LEC. 3. Test economics, automatic test equipment, fault models, automatic test pattern generation, test generation for sequential circuits, fault simulation, testability measures, fault coverage, yield and defect levels, design-for-testability, scan and boundary scan, IDDQ testing

ELEC 6530 ROBOT CONTROL (3) LEC. 3. Design, analysis, and simulation of robotic manipulator control. An exploration of kinematics, inverse kinematics, equation of motion, various control strategies, including classic computed-torque feedback control, modern optimal control and AI-based methods such as reinforcement learning and neural network control.

ELEC 6600 ELECTRIC VEHICLES (3) LEC. 3. Electric vehicles, technical aspects, mathematical relationships, and basic design guidelines on electric powertrain, traction inverters, electric machines, motor drives, power converter components, Wide Band Gap power electronics, permanent magnets, battery charging infrastructures, grid interactions, the roles in microgrids and smart grids, and computer simulations.

ELEC 6610 POWER ELECTRONICS (3) LEC. 3. Power electronic circuits, components, and devices. Departmental Approval.

ELEC 6620 POWER SYSTEM ANALYSIS (3) LEC. 3. Departmental approval. Power system modeling, power flow analysis, analysis of faulted power systems.

ELEC 6630 ELECTRIC MACHINES (3) LEC. 3. Departmental approval. Fundamentals of the electromagnetic-mechanical energy conversion process. Principles of operation, application, and control of ac and dc motors and generators.

ELEC 6640 RENEWABLE ENERGY IN ELECTRICAL POWER SYSTEMS (3) LEC. 3. Conventional power plants, global renewables, energy efficiency, marine hydrokinetic (ocean currents and waves), wind power (aerodynamic, generator, plants, grid integration, finance), photovoltaic (device, inverter, plant levels, finance), hydropower (generator, plant level, pumped storage hydro, advances in hydro), power systems grid integration, system impact studies, control and operation of inverter-based resources, ancillary services provisions, and other important aspects of renewables for bulk power (transmission levels) and for distribution power systems.

ELEC 6650 POWER SYSTEM PROTECTION (3) LEC. 3. Fault analysis using symmetrical components. Power switchgear, including switches, disconnects, fuses, relays and circuit breakers. Fundamentals of electric power system protection, including bus, transformer and line protection.

ELEC 6660 SMART GRIDS (3) LEC. 3. Conventional power systems, renewable energy, inverter base resources, smart grid challenges and opportunities, real-time management, grid edge sensors, communications, advanced system protection, restoration, reactive/voltage control, real power/frequency regulation, monitoring and diagnostics, microgrids concept.

ELEC 6670 ELECTRIC POWER ENGINEERING TOPICS (1-3) LEC. 3. Various topics representing state-of-the-art power technology. Course may be repeated for a maximum of 12 credit hours.

ELEC 6690 MICROGRIDS (3) LEC. 3. Distribution power system modeling, inverter-based resources, control, protection, resilience, and security technologies within distributed energy resources (generation, distribution, energy storage, reactive compensation, renewable energy resources) covering microgrid design, analysis, and operation.

ELEC 6700 SEMICONDUCTOR FUNDAMENTALS (3) LEC. 3. Introduction to semiconductors: crystal structure, energy band theory, equilibrium electron and hole statistics, doping, generation and recombination processes, carrier drift and diffusion, transport equations.

ELEC 6710 SEMICONDUCTOR DEVICES (3) LEC. 3. Introduction to semiconductor devices: pn junctions, junction diode based devices, optoelectronic devices, bipolar transistors, field effect transistors.

ELEC 6720 LASER-MATERIAL INTERACTIONS (3) LEC. 3. Departmental approval. Fundamental principles of lasers, optics, and laser-matter interaction mechanisms in various laser-based manufacturing, materials processing, and diagnostic techniques.

ELEC 6730 MICROELECTRONIC FABRICATION (3) LEC. 2. LAB. 3. Departmental approval. Introduction to monolithic integrated circuit technology. Bipolar and MOS processes and structures. Elements of layout, design, fabrication, and applications. Experiments in microelectronic technologies.

ELEC 6750 INTRODUCTION TO PLASMA ENGINEERING (3) LEC. 3. Departmental approval. Electrical breakdown and discharges in gases, basic plasma theories, applications of plasmas, plasma processing for microelectronic fabrication.

ELEC 6760 SOLID STATE SENSORS (3) LEC. 3. Theory, technology and design of micro-machined sensors and related sensor technologies; and the application of micro-machined sensors.

ELEC 6770 VLSI DESIGN (3) LEC. 3. Review of MOS transistor fundamentals, CMOS logic circuits; VLSI fabrication and design rules; clocking strategies and sequential design; performance estimation; memories and programmable arrays; standard cell design methodologies; computer aided design (CAD) tools.

ELEC 6780 ANALOG CIRCUIT DESIGN (3) LEC. 3. Circuit design techniques used for implementing analog integrated circuits in both CMOS and bipolar technologies.

ELEC 6810 COMPUTED IMAGING SYSTEMS (3) LEC. 3. Introduction to computed imaging systems such as magnetic resonance imaging (MRI) and computed tomography (CT).

ELEC 6820 MEMS TECHNOLOGY (3) LEC. 3. Departmental approval. Introduction to Micro-Electro-Mechanical Systems (MEMS), the study of the materials and microfabrication processes used to fabricate MEMS devices, the principles of operation of MEMS devices, and an introduction to the different application areas of MEMS devices.

ELEC 6970 SPECIAL TOPICS (1-5) DSL. Departmental approval. Study of a specialized area of electrical and computer engineering not covered by regularly offered courses. Course may be repeated with change in topics. Course may be repeated for a maximum of 24 credit hours.

ELEC 7190 ADVANCED RFIC DESIGN FOR WIRELESS COMMUNICATIONS (3) LEC. Pr. ELEC 5190 or ELEC 6190 or ELEC 6196. Wireless standards and multi-standard transceiver architectures, SiGe and CMOS RFIC designs for wireless transceiver building blocks, software defined radios, phase array radars, ultra-high speed data converters, and MIMO wireless transceivers.

ELEC 7250 VLSI TESTING (3) LEC. 3. Pr. ELEC 5770 or ELEC 6770 or ELEC 6776. Exponential nature of the test problem, fault models, test generation algorithms, test generation for sequential circuits, fault simulation, testability measures, fault coverage, yield and defect levels, design-for-testability approaches.

ELEC 7310 ADVANCED ELECTRODYNAMICS I (3) LEC. 3. Departmental approval. Review of basic electromagnetics. Electromagnetic wave propagation in infinite and bounded media. Equivalence Principle, Uniqueness Theorem, Reciprocity, Green's functions and Plane wave functions.

ELEC 7320 ADVANCED ELECTRODYNAMICS II (3) LEC. 3. Pr. ELEC 7310 or ELEC 7316. Cylindrical wave functions. Spherical wave functions. Scattering by cylinders and spheres. Perturbational and variational techniques.

ELEC 7410 STOCHASTIC SIGNAL AND SYSTEM ANALYSIS (3) LEC. 3. Departmental approval. Applications of probability, random variables and stochastic processes in electrical engineering.

ELEC 7440 WIRELESS COMMUNICATION THEORY (3) LEC. 3. Pr. ELEC 3400 or ELEC 7410 or ELEC 7416. The basic of design, analysis and performance limits of wireless communication systems.

ELEC 7450 DIGITAL IMAGE PROCESSING (3) LEC. 3. Departmental approval. Digital image processing principles and applications such as enhancement, restoration and compression.

ELEC 7470 ADVANCED VLSI TEST (3) LEC. 3. Pr. ELEC 5470 or ELEC 6470. Memory/PLA/FPGA testing, delay fault testing, test compression, in-field testing, cell-aware test, adaptive test, system-level test.

ELEC 7500 STATE-VARIABLE ANALYSIS OF SYSTEMS (3) LEC. 3. Departmental approval. Matrices and linear spaces; state variable for linear continuous and discrete systems; applications in analysis and design of control systems.

ELEC 7520 ADVANCED DISCRETE CONTROL (3) LEC. 3. Departmental approval. Discrete state modeling. Pole assignment and estimation. Multi-rate sampled systems. Non-synchronous sampled systems. MIMO.

ELEC 7560 NONLINEAR SYSTEMS AND CONTROL (3) LEC. 3. Pr. ELEC 7500 or ELEC 7506. Departmental approval. Principles of nonlinear system modeling and analysis; nonlinear control systems design; nonlinear system state estimation.

ELEC 7610 POWER SYSTEM DYNAMICS AND STABILITY (3) LEC. 3. Pr. (ELEC 5620 or ELEC 6620 or ELEC 6626) and (ELEC 5650 or ELEC 6650 or ELEC 6656). Departmental approval. Dynamic models of power systems and analysis of power system stability.

ELEC 7620 POWER SYSTEM OPERATION (3) LEC. 3. Pr. ELEC 5620 or ELEC 6620 or ELEC 6626. Departmental approval. Unit commitment, power system security, state estimation, power system control centers and real-time applications.

ELEC 7630 ADVANCED ELECTRIC MACHINES (3) LEC. 3. Pr. ELEC 5630 or ELEC 6630 or ELEC 6636. Departmental approval. Advanced machine modeling, including Kron's generalized machine theory, Park's transformation, and generalized coordinate transformations. Derivation of traditional machine models. Machine non-linearities, including finite element analysis.

ELEC 7640 POWER SYSTEM TRANSIENTS (3) LEC. 3. Pr. ELEC 5620 or ELEC 6620 or ELEC 6626. Departmental approval. Transients in electric power systems, including lightning and switching phenomena. Traveling waves on power transmission lines, BIL, BSL, line insulation. System modeling.

ELEC 7710 THE FIELD-EFFECT TRANSISTOR (3) LEC. 3. Pr. ELEC 5710 or ELEC 6710 or ELEC 6716. Advanced treatment of the modern field-effect transistor: the state-of-the art, the MOS capacitor, the 4-terminal MOSFET, short and narrow-channel effects, reliability, scaling theory, modeling, silicon-on-insulator technology, heterostructure devices.

ELEC 7720 THE BIPOLAR TRANSISTOR (3) LEC. 3. Pr. ELEC 5710 or ELEC 6710 or ELEC 6716. Advanced treatment of the modern bipolar junction transistor; the state-of-the-art, terminal currents, solutions for arbitrary doping profiles, the polysilicon emitter contact, high-injector effects, dynamic operation, device models, heterojunction bipolar transistors.

ELEC 7750 LOW TEMPERATURE ELECTRONICS (3) LEC. 3. Pr. ELEC 5710 or ELEC 6710 or ELEC 6716. Advanced treatment of electronic devices operating at reduced temperatures: the case for cryogenic computers, semiconductor physics at low temperatures, carrier freeze-out, cooled CMOS technology, cooled bipolar technology, superconductors, packaging.

ELEC 7760 SILICON-BASED HETEROSTRUCTURE DEVICES AND CIRCUITS (3) LEC. 3. Pr. ELEC 5700 or ELEC 6700 or ELEC 6706. Departmental approval. Bandgap engineering, strained SiGe and Si, SiGe BiCMOS technology, noise, linearity, circuits applications.

ELEC 7770 ADVANCED VLSI DESIGN (3) LEC. 3. Pr. ELEC 5770 or ELEC 6770 or ELEC 6776. Departmental approval. Review of CMOS logic circuits; impact of fabrication issues on design; high speed switching circuits; high performance memory structures; advanced clocking strategies and clock distribution; performance optimization; deep submicron design issues; ASIC design flow: logic synthesis, placement and routing; design verification; low power design.

ELEC 7780 RF MICROELECTRONICS (3) LEC. 3. Pr. ELEC 5780 or ELEC 6780 or ELEC 6786. Departmental approval. Techniques used in the design of monolithic integrated circuits for RF applications.

ELEC 7830 PHOTOVOLTAICS (3) LEC. 3. Departmental Approval. Theory, technology, design and application of photovoltaic devices and systems.

ELEC 7900 INDEPENDENT STUDY (1-3) IND. Departmental approval. Supervised study in specialized areas of electrical and computer engineering.

ELEC 7950 ELECTRICAL ENGINEERING SEMINAR (1-10) SEM. SU. Course may be repeated for a maximum of 10 credit hours.

ELEC 7970 SPECIAL TOPICS (1-5) DSL. Departmental approval. Study of a specialized area of electrical and computer engineering not covered by regularly offered courses. Course may be repeated with change of topic. Course may be repeated for a maximum of 24 credit hours.

ELEC 7990 RESEARCH AND THESIS (1-6) MST. Course may be repeated for a maximum of 6 credit hours.

ELEC 8120 PRINCIPLES OF NETWORK PERFORMANCE ANALYSIS (3) LEC. 3. Pr. (ELEC 5120 or ELEC 6120 or ELEC 6126) and (ELEC 7410 or ELEC 7416). Data network performance analysis, queueing systems, admission control, network traffic modeling, network calculus, flow and congestion control, wireless network analysis, and network simulation.

ELEC 8420 DETECTION AND ESTIMATION THEORY (3) LEC. 3. Pr. ELEC 7410 or ELEC 7416. Decision theory concepts. Detection of deterministic and random signals in noise; parameter estimation. Bayesian and maximum likelihood approaches, non-random and random parameter estimation; signal estimation.

ELEC 8560 ADAPTIVE CONTROL (3) LEC. 3. Pr. ELEC 7500 or ELEC 7506. Departmental approval. Theory and application of adaptive control systems. Real-time parameter estimation, self-tuning regulators, model-reference adaptive systems, stability, auto-tuning and gain scheduling controllers.

ELEC 8710 ADVANCED TOPICS IN SEMICONDUCTOR DEVICES (3) LEC. 3. Pr. ELEC 5710 or ELEC 6710 or ELEC 6716. Advanced treatment of selected topics in semiconductor devices. Course may be repeated for a maximum of 6 credit hours.

ELEC 8900 ADVANCED INDEPENDENT STUDY (1-3) IND. Departmental approval. Supervised study in specialized areas of electrical and computer engineering.

ELEC 8970 ADVANCED SPECIAL TOPICS (1-5) LEC. Departmental approval. Study of a specialized area of electrical and computer engineering not covered by regularly offered courses. Course may be repeated with change in topics. Course may be repeated for a maximum of 9 credit hours.

ELEC 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individual doctoral dissertation research. Course may be repeated with change in topics.

Elementary Education - CTEE

Courses

CTEE 3040 PRIMARY CURRICULUM IN MATHEMATICS (3) LEC. 3, LEC. 0. Admission to Teacher Education. This course introduces primary mathematics content, pedagogy, and pedagogical content knowledge for prospective elementary school teachers. Students are provided the opportunity to explore the content and pedagogical content knowledge in the areas of: a) Foundations of Counting, b) Operations with Numbers: Base 10, and c) Operations and Algebraic Thinking. Participants will have the opportunity to delve into state and national standards, Mathematics Teaching Practices, learning trajectories, assessment and student thinking from a teaching perspective.

CTEE 3041 PRACTICUM IN ELEMENTARY EDUCATION: PRIMARY MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTEE 3040. Admission to Teacher Education. Practicum in Elementary Education: Primary Mathematics 1 credit course. This course is designed to provide 15 clock hours of teaching and experience in Primary Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTEE 3100 INTRODUCTION TO ELEMENTARY EDUCATION (3) LEC. 3. Knowledge, skills, and dispositions necessary for elementary education, with emphasis on professional expectations and school structure.

CTEE 4000 FORMATIVE ASSESSMENT AND INSTRUCTION IN INTERMEDIATE MATHEMATICS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. This course examines mathematics content, pedagogy, and pedagogical content knowledge for prospective elementary school teachers within the intermediate grades. Students explore the areas of: a) Operations with Numbers: Base 10, c) Operations with Numbers: Fractions and c) Operations and Algebraic Thinking. Participants will have the opportunity to delve into state and national standards, Mathematics Teaching Practices, learning trajectories, assessment and student thinking from a teaching perspective.

CTEE 4010 CURRICULUM: SOCIAL SCIENCE (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Pedagogical content knowledge in the major concepts and modes of inquiry for integrated study of social sciences for elementary learners.

CTEE 4011 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE SOCIAL SCIENCE (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4010. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Social Science Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4020 CURRICULUM: LANGUAGE ARTS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. CTEE 4020, the final course in reading and writing instruction, deepens students' understanding of English language arts through current research in the science of reading and writing. Emphasizing expressive and receptive language in K–6 classrooms, the course highlights high-leverage teaching practices, assessment strategies, and effective feedback. Students apply learning through practicum experiences, supporting diverse learners including those with dyslexia, dysgraphia, and multilingual backgrounds, while refining their instructional approaches through lectures, readings, and guided practice.

CTEE 4021 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE LANGUAGE ARTS (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4020. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Language Arts Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4030 CURRICULUM: NATURAL SCIENCE (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Pedagogical content knowledge, principles, and standards in the major concepts and modes of inquiry for integrated study of science for elementary learners.

CTEE 4031 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE NATURAL SCIENCE (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4030. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Natural Science Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4040 CURRICULUM: MATHEMATICS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. This course examines the principles, current research, and approaches to the teaching and learning of elementary school mathematics with specific focus on geometry, measurement and data analysis. It also investigates the relationship between pedagogy and mathematical understanding appropriate for the instruction of children in kindergarten through sixth grade. Through this course, candidates explore and use major concepts and procedures in relation to geometry, measurement, probability, and data analysis.

CTEE 4041 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE MATHEMATICS (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4040. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Mathematics Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4190 EFFECTIVE CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Through exploration, discussion, reflection, and analysis students will study issues pertaining to inclusive/ multicultural K-6 classrooms. Issues related to classroom management (e.g. behavior and time management), students with special needs, parent/community relations, legal mandates, technology, planning, and professionalism.

CTEE 4191 PRACTICUM IN EFFECTIVE CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4190. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Effective Classroom Management in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Reading, research, or other work undertaken by a student focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTEE 4910 PRACTICUM (1-6) AAB/PRA. SU. Departmental approval. Students and faculty cooperatively select an appropriate field experience. Course may be repeated for a maximum of 6 credit hours.

CTEE 4920 CLINICAL RESIDENCY (11) AAB. 11. SU. Pr. P/C CTEE 4950 or P/C CTEE 4953. Admission to Teacher Education. Supervised teaching in a public elementary school accompanied by scheduled discussions to analyze and evaluate the intern's experience. Admission to internship. May count either CTEE 4920 or CTEE 4923.

CTEE 4950 PROFESSIONAL DEVELOPMENT SEMINAR (1-4) AAB. 1. SU. Pr. P/C CTEE 4920 or P/C CTEE 4923. Admission to Teacher Education. Reflection, exploration, and study of elementary education practices in kindergarten through grade six. May count either CTEE 4950 or CTEE 4953. Course may be repeated for a maximum of 4 credit hours.

CTEE 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Individual readings program. Course may be repeated for a maximum of 3 credit hours.

CTEE 4970 SPECIAL TOPICS (1-6) AAB/LEC. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 6 credit hours.

CTEE 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. The student thesis is finalized in this course. Course may be repeated for a maximum of 3 credit hours.

CTEE 7010 APPROACHES TO TEACHING (3) LEC. 3. Organizational patterns, planning and approaches to instruction in the elementary school.

CTEE 7410 CURRICULUM AND TEACHING IN SOCIAL SCIENCE (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) social science education. May count either CTEE 7410 or CTEE 7416.

CTEE 7420 CURRICULUM AND TEACHING IN LANGUAGE ARTS (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) language arts education. May count either CTEE 7420 or CTEE 7426.

CTEE 7430 CURRICULUM AND TEACHING IN NATURAL SCIENCE (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) natural science education. May count either CTEE 7430 or CTEE 7436.

CTEE 7440 CURRICULUM AND TEACHING IN MATHEMATICS (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) mathematics education. May count either CTEE 7440 or CTEE 7446.

CTEE 7490 THE ELEMENTARY SCHOOL PROGRAM (3) LEC. 3. Major curriculum areas and teaching practices in the modern elementary school. Implications of research and theory for the total elementary school program.

CTEE 7510 RESEARCH STUDIES IN EDUCATION IN AREAS OF SPECIALIZATION (3) LEC. 3. Pr. CTEE 7420 or CTEE 7426. A review, analysis and interpretation of data with emphasis on designing research to meet the changing needs of the school. May count either CTEE 7510 or CTEE 7516.

CTEE 7530 ORGANIZATION OF PROGRAMS IN ELEMENTARY EDUCATION (3) LEC. 3. Organization and development of basic and supplementary materials for guiding teachers and school systems in improvement of curriculum and teaching practices. May count either CTEE 7530 or CTEE 7536.

CTEE 7540 EVALUATION OF PROGRAMS IN AREAS OF SPECIALIZATION (3) LEC. 3. Evaluation methods and exploration of evaluation literature in areas of specialization. May count either CTEE 7540 or CTEE 7546.

CTEE 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study related to student's respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTEE 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) AAB. SU. Departmental approval. Provides individual students with experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTEE 7970 SPECIAL TOPICS (1-6) AAB. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. May count either CTEE 7970 or CTEE 7979. Course may be repeated for a maximum of 6 credit hours.

CTEE 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated for a maximum of 10 credit hours.

CTEE 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTEE 8970 SPECIAL TOPICS (1-6) LEC. Course may be repeated for a maximum of 6 credit hours.

CTEE 8980 FIELD PROJECT (1-10) DSL/FLD. SU. Students conduct research on an educational problem and defend a field project report. Departmental approval. May count either CTEE 8980 or CTEE 8986. Course may be repeated for a maximum of 10 credit hours.

CTEE 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated for a maximum of 20 credit hours.

Engineering - ENGR

Courses

ENGR 1100 ENGINEERING ORIENTATION (0) LEC. 1. SU. Introduction to the College of Engineering and its resources, exploration of engineering careers, orientation to campus resources and facilities, and assistance with academics and transition to college. Course may be repeated with change in topics.

ENGR 1110 INTRODUCTION TO ENGINEERING (2) LEC. 1. LAB. 3. Introduction to engineering design, engineering teams, graphical presentation, technical writing, oral presentation. May count either ENGR 1110 or ENGR 1113.

ENGR 1410 ENGINEERING SUCCESS STRATEGIES (1) LEC. 1. Topics and engagement with engineering academic support strategies, academic integrity and ethics, professional development skills, engineering learning strategies, inclusive engineering teaming, inclusion and diversity, effective technical communication techniques, career exploration strategies, and exploration of engineering challenges. Explores a variety of academic, personal development, and career exploration activities intended to build a sense of community with underrepresented engineering and computer science students.

ENGR 2010 THERMODYNAMICS (3) LEC. 3. Pr. (CHEM 1030 or CHEM 1033 or CHEM 1110 or CHEM 1117) and (MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720) and (P/C PHYS 1600 or P/C PHYS 1607). Principles and applications of thermodynamics to engineering problems.

ENGR 2030 FUNDAMENTALS OF 3D PRINTING (2) LEC. 1. LAB. 3. Introductory level practical aspects of 3D printing, including: model file generation, computer aided design (CAD), slicing, and hands-on printing. Overview of 3D printing technologies and practical troubleshooting.

ENGR 2050 STATICS (3) LEC. 3. Pr. (PHYS 1600 or PHYS 1607) and (P/C MATH 2630 or P/C MATH 2633 or P/C MATH 2637). Principles of vectors, forces, moments, free body diagrams, force systems, 2-D and 3-D equilibrium, friction, geometric properties of plane areas.

ENGR 2070 MECHANICS OF MATERIALS (3) LEC. 3. Pr. (ENGR 2050 or ENGR 2053) and P/C MATH 2650. Minimum grade of C or better in ENGR 2050. Principles of stress and strain; stress-strain relationships; uniaxially loaded members; torsion; bending; beam shear; shear, moment and thrust diagrams; transformed sections; column buckling.

ENGR 2077 HONORS MECHANICS OF MATERIALS (3) LEC. 3. Pr. Honors College. MATH 2650 and ENGR 2050 or ENGR 2053. Minimum grade of C or better in ENGR 2050. Principles of stress and strain; stress-strain relationships; uniaxially loaded members; torsion; bending; beam shear; shear, moment and thrust diagrams; transformed sections; column buckling.

ENGR 2100 FUNDAMENTALS OF ENGINEERING MECHANICS (3) LEC. 3. Pr. P/C PHYS 1600 or P/C PHYS 1607. Basic principles of two-dimensional force systems, free body diagrams, concepts of stress and strain, centroids of composite areas, kinematics and kinetics of particles and rigid bodies.

ENGR 2200 INTRODUCTION TO THERMODYNAMICS, FLUIDS AND HEAT TRANSFER (3) LEC. 3. Pr. (CHEM 1030 or CHEM 1033) and (PHYS 1610 or PHYS 1617). Principles and applications of thermodynamics, fluids and heat transfer.

ENGR 2350 DYNAMICS (3) LEC. 3. Pr. ENGR 2050 or ENGR 2053. Fundamental principles of dynamics including kinematics and kinetics of particles, kinematics and kinetics of rigid bodies, mass moments of inertia, three-dimensional dynamics of rigid bodies, and simple harmonic motion.

ENGR 2700 NUCLEAR POWER OPERATIONS, SYSTEM AND CAREERS (1) LEC. 1. SU. Pr. P/C MATH 1610 or P/C MATH 1613 or P/C MATH 1617. Overview of nuclear power generation systems including civilian and government career options.

ENGR 3500 LEADERSHIP IN ENGINEERING & BUSINESS THEORY (4) LEC. 3. LAB. 3. This class investigates the challenges of integrating engineering design with business requirements as they related to product innovation. Specific focus is placed on strategic planning and leadership needs to successfully steer product ideas into business reality. Case study problems from business and engineering practice.

ENGR 3510 PRODUCT INNOVATION: FROM SKETCH TO SHELF (4) LEC. 3. LAB. 2.33. Pr. ENGR 3500 or ENGR 3520 and ENGR 3560. This course takes students on a journey from conceptualization (sketch) to production to market (shelf). Students are introduced to the basics of modern computer-aided design (CAD), classic manufacturing processes, and design tools. They will learn how to use Fusion 360 to create 2D and 3D models, as well as how to use CAD to generate concepts, conduct market research, benchmark designs, and create prototypes. Students will also learn about classic manufacturing processes such as casting. Department approval.

ENGR 3560 LEADERSHIP FOR BUSINESS AND ENGINEERS (1) LEC. 1. Overview of leadership concepts and skills.

ENGR 3710 BASIC NUCLEAR I: NUCLEAR AND MECHANICAL SYSTEMS (4) LEC. 3. LAB. 1. Pr. P/C ENGR 2700 and (P/C PHYS 1500 or P/C PHYS 1600 or P/C PHYS 1607). Multidisciplinary course teaching fundamental nuclear and mechanical principles as they are utilized in the nuclear power generation industry.

ENGR 3720 BASIC NUCLEAR II: MATERIALS, ELECTRIC, ELECTRONICS (4) LEC. 3. LAB. 2.5. Pr. ENGR 2700 and (PHYS 1500 or P/C PHYS 1600 or P/C PHYS 1607). Multidisciplinary course teaching fundamental electronic and electrical theory and materials theory as practiced in nuclear power generation industry.

ENGR 3920 INTERNSHIP IN ENGINEERING (0) INT. SU. Professional work experience in an engineering position. Students participating in ENGR 3920 are expected to work in a fulltime, 40 hour/week, engineering job. Course may be repeated for a maximum of 10 credit hours.

ENGR 3970 SPECIAL TOPICS: ENGINEERING, TECHNOLOGY AND SOCIETY (1-4) AAB/LLB. Special topics of interest within a global engineering context. Course may be repeated for a maximum of 9 credit hours.

ENGR 4710 ADVANCED REACTOR OPERATIONS I: HEALTH AND SAFETY (3) LEC. 3. Pr. P/C ENGR 2700. Advanced safety topics within regulatory and training structure of nuclear power industry.

ENGR 4720 ADVANCED REACTOR OPERATIONS II: SAFE OPERATIONS (4) LEC. 3. LAB. 1. Pr. ENGR 3710 or ENGR 3720. Nuclear power plant operations are discussed in detail, with a strong emphasis on safety compliance and industry's safety culture. Topics include the NRC's regulatory processes, operator licensing, reactor design certifications, reactor licensing, reactor oversight, enforcement, reactor modes of operation, plant refueling, spent fuel storage, and plant decommissioning. There is a heavy emphasis on integrated plant systems and operations. Industry leaders discuss current topics.

ENGR 4721 ADVANCED REACTOR PLANT OPERATIONS II: LAB (1) LAB. 2.5. Pr. P/C ENGR 4710. Nuclear power plant operations are discussed with a strong emphasis on safety compliance and industry's safety culture. Focus is hands-on practical factors.

ENGR 5500 ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. (ENGR 3500 or ENGR 3520) and ENGR 3560 and ENGR 3510. Acceptance into the BET minor program. The course focuses on the entrepreneurial aspects in the strategic management of technology and innovation in new ventures, new products and processes that influence the competitiveness of the firm. Department approval.

ENGR 5510 BUSINESS ENGINEERING TECHNOLOGY MINOR-CAPSTONE (4) LEC. 1. LAB. 4. Pr. (ENGR 3500 or (ENGR 3520 and ENGR 3560)) and ENGR 3510 and (ENGR 5500 or ENGR 6500). This course is the culminating design course for the BET minor. This is a required course for undergraduate students who are admitted to the Business Engineering Technology (BET) program and are pursuing the BET minor. Students must have completed the required pre-requisites. Department approval.

ENGR 5550 PRODUCT/PROCESS DESIGN AND DEVELOPMENT I (2) LEC. 2. Must be in BET minor program. Processes to develop and present design proposal for cooperating industry. Credit will not be given for both BUSI 5970 and ENGR 5970.

ENGR 5600 INTERNATIONAL ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. ENGR 3500 or ENGR 3520 and ENGR 3560 and ENGR 3510. The course focuses on the entrepreneurial aspects in the strategic management of technology and innovation in new ventures, new products, and processes that influence the firm's competitiveness. The main emphasis of this course will be on the process of commercializing an innovation – bringing the innovation to market via the creation of a company. Must be enrolled in the Business-Engineering-Technology minor and participating in the International BET. Department approval.

ENGR 5610 INTERNATIONAL BUSINESS ENGINEERING TECHNOLOGY MINOR-CAPSTONE (4) LEC. 1. LAB. 4. Pr. (ENGR 3500 or (ENGR 3520 and ENGR 3560)) and ENGR 3510 and (ENGR 5600 or ENGR 6600). Must be admitted to International BET minor. This course is intended to immerse the student in the new product design and development experience. Students will work directly with international companies and fellow international students to generate working prototypes that offer solutions. Students are expected to develop a successful new product development plan and execute all necessary activities to bring a functional prototype to life by semester's end. Specific focus is placed on creative product ideas. Departmental approval required.

ENGR 6000 ADVANCED ENGINEERING ANALYSIS (3) LEC. 3. Pr. MATH 2660. Analytical solutions of linear and nonlinear problems involving transcendental equations, ODEs/PDEs, Taylor/Fourier/asymptotic series, functional expansions, power series, and approximation methods. May count either ENGR 6000 or ENGR 6006.

ENGR 6500 ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. BUSI 3500 or ENGR 3500 or BUSI 3520 or ENGR 3520 and BUSI 3560 or ENGR 3560 and BUSI 3510 or ENGR 3510. This is an optional graduate-level course for undergraduate students admitted to the Business Engineering Technology (BET) program who are pursuing a BET minor. Students must have completed the required pre-requisites and have ABM approval. The course focuses on the entrepreneurial aspects in the strategic management of technology and innovation in new ventures, new products and processes that influence the competitiveness of the firm. Department approval.

ENGR 6510 BUSINESS ENGINEERING TECHNOLOGY MINOR-CAPSTONE (4) LEC. 1. LAB. 4. Pr. (BUSI 3500 or ENGR 3500) and (BUSI 3510 or ENGR 3510) and BUSI 5500 or ENGR 5500 or ENGR 6500. Acceptance into the BET minor with completion of all required pre-requisites and approved ABM. You will be required to apply everything you've learned in the Business Engineering Technology minor to deliver a "fully realized" working product along with supporting documentation. Department approval.

ENGR 6540 ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Develop student skills for starting a new business and making strategic decisions concerning technology.

ENGR 6550 PRODUCT/PROCESS DESIGN AND DEVELOPMENT I (2) LEC. 2. Develop student skills for starting a new business and making strategic decisions concerning technology.

ENGR 6600 INTERNATIONAL ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. BUSI 3500 or BUSI 3520 and BUSI 3560 and BUSI 3510. The course focuses on the entrepreneurial aspects in the strategic management of technology and innovation in new ventures, new products, and processes that influence the firm's competitiveness. The main emphasis of this course will be on the process of commercializing an innovation – bringing the innovation to market via the creation of a company. Must be enrolled in the Business-Engineering-Technology minor and participating in the International BET minor and have ABM approval. Department Approval.

ENGR 6610 INTERNATIONAL BET CAPSTONE (4) LEC. 1. LAB. 4. Pr. BUSI 3500 or ENGR 3500 and BUSI 3510 or ENGR 3510 and BUSI 5500 or ENGR 5500 or ENGR 6500. Acceptance into the BET minor, completing all required prerequisites and approved ABM and participating in the International BET Study Abroad minor. You will be required to apply everything you've learned in the Business Engineering Technology minor to deliver a "fully realized" working product along with supporting documentation. Department approval.

ENGR 7920 INTERNSHIP IN ENGINEERING (0) INT. SU. Professional work experience in an engineering position. Course may be repeated for a maximum of 10 credit hours.

ENGR 7940 MASTER OF ENGINEERING PROGRAM ASSESSMENT (0) IND. SU. The course will require that students describe how well the program helped them to attain the outcomes that they articulated in their application to the program. In addition to a reflective description, students will provide examples of work that demonstrate the skills or knowledge that they gained as part of the degree program. These work examples will then be evaluated using a standardized rubric for program assessment purposes, only.

ENGR TECH ENGINEERING TECH ELECTIVE (3) LEC. 3. Transfer Only Equivalency for Engineering Courses. Course may be repeated with change in topics.

English - ENGL

Courses

ENGL 1100 ENGLISH COMPOSITION I (3) LEC. 3. English Composition Core. Intensive study of and practice in effective expository and argumentative writing. May not be taken concurrently with ENGL 1120 or ENGL 1127.

ENGL 1107 HONORS WRITING SEMINAR I (3) LEC. 3. Pr. Honors College. English Composition Core. Topics in writing for students in the Honors College.

ENGL 1120 ENGLISH COMPOSITION II (3) LEC. 3. Pr. ENGL 1100 or ENGL 1103 or ENGL 1107. English Composition Core. Emphasis on research.

ENGL 1127 HONORS WRITING SEMINAR II (3) LEC. 3. Pr. Honors College. ENGL 1100 or ENGL 1107. English Composition Core. Emphasis on research.

ENGL 2000 INTRODUCTION TO CREATIVE WRITING (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127. Introduction to the genres of creative writing.

ENGL 2010 INTRODUCTION TO PROFESSIONAL WRITING (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127. Introduction to the disciplines of professional writing.

ENGL 2020 INTRODUCTION TO LITERARY STUDIES (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127. Departmental approval. Introduces students to the academic study of literary texts in English with an emphasis on formulating an argument about a text, developing goals and strategies for research, and managing the different stages of the writing process.

ENGL 2200 WORLD LITERATURE BEFORE 1600 (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Culturally diverse readings in world literature from the ancient period to c. 1600.

ENGL 2207 HONORS WORLD LITERATURE BEFORE 1600 (3) LEC. 3. Pr. Honors College. ENGL 1120 or ENGL 1127. Culturally diverse readings in world literature from the ancient period to c. 1600.

ENGL 2210 WORLD LITERATURE AFTER 1600 (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Culturally diverse readings in world literature from c. 1600 to the present.

ENGL 2217 HONORS WORLD LITERATURE AFTER 1600 (3) LEC. 3. Pr. Honors College. ENGL 1120 or ENGL 1127. Culturally diverse readings in world literature from c. 1600 to the present.

ENGL 2230 BRITISH LITERATURE BEFORE 1789 (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Survey of British literature from its beginnings to the end of the 18th century.

ENGL 2240 BRITISH LITERATURE AFTER 1789 (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Survey of British literature from the end of the 18th century to the present.

ENGL 2250 AMERICAN LITERATURE BEFORE 1865 (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Survey of American literature from its beginnings to 1865.

ENGL 2260 AMERICAN LITERATURE AFTER 1865 (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Survey of American literature from 1865 to the present.

ENGL 2270 AFRICAN AMERICAN LITERATURE BEFORE 1900 (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. African American literature from its beginnings to 1900.

ENGL 2280 AFRICAN AMERICAN LITERATURE AFTER 1900 (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. African American literature from 1900 to the present.

ENGL 3000 WRITING ACADEMIC RESEARCH (3) LEC. 3. Pr. ENGL 1100 and ENGL 1120. Writing Academic Research teaches advanced instruction in writing and research beyond ENGL 1100 and 1120.

ENGL 3020 WRITING IN LAW AND JUSTICE (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. This course introduces students to the writing situations they may encounter in legal professions.

ENGL 3040 TECHNICAL WRITING (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Writing in engineering, scientific, and technical fields.

ENGL 3060 WRITING IN THE HEALTH PROFESSIONS (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. Writing in medical and health-related fields. This course is designed to introduce students to rhetorical principles and textual and critical practices in medical and health-related fields.

ENGL 3080 BUSINESS WRITING (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Writing in business, management, or governmental service fields.

ENGL 3110 SURVEY OF LINGUISTICS (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Structure of language, especially American English sounds, words, and syntax, along with study in such areas as dialects and language change.

ENGL 3120 SURVEY OF RHETORIC (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2207 or ENGL 2203 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Survey of rhetoric from Ancient Greece to the present.

ENGL 3130 SURVEY OF CRITICAL THEORY (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Introduction to critical methods and theoretical approaches to the study of literature.

ENGL 3200 TOPICS IN CREATIVE WRITING (3) LEC. 3. Pr. (ENGL 1120 or ENGL 1123 or ENGL 1127) and ENGL 2000. A concentrated investigation of varying topics in Creative Writing.

ENGL 3210 FICTION WRITING I (3) LEC. 3. Pr. ENGL 2000. Introduction to the craft of fiction writing; reading, studying, and writing short stories.

ENGL 3230 POETRY WRITING I (3) LEC. 3. Pr. ENGL 2000. Introduction to the craft of poetry writing; reading, studying, and writing poetry.

ENGL 3250 CREATIVE NONFICTION WRITING I (3) LEC. 3. Pr. ENGL 2000. Creative Nonfiction Writing I aims to familiarize students with the intricacies of the genre, with a primary focus on work that falls under the broad label of Narrative Nonfiction.

ENGL 3360 THE BIBLE FOR STUDENTS OF LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280. Biblical backgrounds to English and American literature; the Bible as literature.

ENGL 3700 TOPICS IN CREATIVE WRITING (3) SEM. 3. Pr. (ENGL 1120 or ENGL 1123 or ENGL 1127) and ENGL 2000. A concentrated investigation of varying topics in Creative Writing.

ENGL 3710 SURVEY OF AFRICAN AMERICAN LITERATURE BEFORE 1900 (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. African American literature from its beginnings to 1900.

ENGL 3720 SURVEY OF AFRICAN AMERICAN LITERATURE AFTER 1900 (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. African American literature from 1900 to the present.

ENGL 3730 REPRESENTATIONS (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. This topics course in literature aims to explore how writers of texts represent things, ideas, or individuals. Course may be repeated for a maximum of 6 credit hours.

ENGL 3740 IDENTITIES (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. This topics course in literature examines how identity is constructed in texts. Course may be repeated for a maximum of 6 credit hours.

ENGL 3750 CULTURAL STUDIES (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. A topics course in Cultural Studies. Course may be repeated for a maximum of 6 credit hours.

ENGL 3760 POPULAR LITERATURE & CULTURE (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. ENGL 3760 is a topics course in literature that addresses a genre of popular fiction with texts in "high" and popular culture, such as sci-fi, detective fiction, fantasy, romance, etc. Course may be repeated for a maximum of 6 credit hours.

ENGL 3850 STUDY IN LONDON (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Study Abroad in London providing an introduction to London's and England's literature and culture.

ENGL 3870 WORLD ENGLISH LITERATURES (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Non-British and non-American literature written in English.

ENGL 3890 WRITING CENTER THEORY AND PRACTICE (3) SEM. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280. Introduction to writing center theory, pedagogy, and history.

ENGL 4000 ADVANCED COMPOSITION (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Theory and practice of expository and argumentative writing.

ENGL 4010 TOPICS IN WRITING (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. An in-depth study of a specific topic of writing. Course may be repeated for a maximum of 6 credit hours.

ENGL 4020 TECHNICAL AND PROFESSIONAL EDITING (3) LEC. 3. Pr. ENGL 2010 or Departmental approval. Introduction to technical and professional editing.

ENGL 4030 DOCUMENT DESIGN IN TECHNICAL AND PROFESSIONAL COMMUNICATION (3) LAB. 3. Pr. ENGL 2010 or Departmental approval. Document design in technical and professional communication.

ENGL 4040 PUBLIC WRITING (3) LAB. 3. Pr. ENGL 2010 or Departmental approval. Writing in the public sphere.

ENGL 4140 LANGUAGE VARIATION (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Social, regional, and contextual forces that contribute to dialect diversity.

ENGL 4150 TOPICS IN LANGUAGE STUDY (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127 or ENGL 1123. Concentrated investigation of varying topics in linguistics or rhetoric. Course may be repeated for a maximum of 6 credit hours.

ENGL 4160 TECHNOLOGY, LITERACY, AND CULTURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280 or Departmental approval. Connections between technology, literacy, and culture, including instruction in advanced computer applications.

ENGL 4170 HISTORY OF THE ENGLISH LANGUAGE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2200 or ENGL 2207 or ENGL 2210 or ENGL 2217 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Chronological development of the English language. May count ENGL 5410 or ENGL 4170.

ENGL 4180 RHETORICAL THEORY AND PRACTICE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Advanced study of topics in rhetorical theory and practice.

ENGL 4210 FICTION WRITING II (3) LEC. 3. Pr. ENGL 3210 or ENGL 4200. Advanced fiction writing.

ENGL 4230 POETRY WRITING II (3) LEC. 3. Pr. ENGL 3230 or ENGL 4220. Advanced poetry writing.

ENGL 4250 CREATIVE NONFICTION WRITING II (3) LEC. 3. Pr. ENGL 3250. Creative Nonfiction Writing II explores writing lyric nonfiction.

ENGL 4300 MEDIEVAL LITERATURE IN TRANSLATION (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. British and continental medieval literature.

ENGL 4310 RENAISSANCE ENGLISH LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. English literature 1485-1660. Course may be repeated for a maximum of 6 credit hours.

ENGL 4320 RESTORATION AND 18TH-CENTURY LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. British literature, 1660-1800. Course may be repeated for a maximum of 6 credit hours.

ENGL 4330 AGE OF REVOLUTION IN BRITISH LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. British literature, 1770-1830.

ENGL 4340 19TH-CENTURY BRITISH LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. British literature, 1830-1910. Course may be repeated for a maximum of 6 credit hours.

ENGL 4350 20TH-CENTURY BRITISH LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. British literature, 1910-2000. Course may be repeated for a maximum of 6 credit hours.

ENGL 4360 TWENTY-FIRST CENTURY BRITISH LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. British literature since 2000. Course may be repeated for a maximum of 6 credit hours.

ENGL 4370 IRISH LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Periods, movements, or major figures of the literature of Ireland.

ENGL 4400 EARLY AMERICAN LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. American literature from its beginnings to 1800.

ENGL 4410 19TH-CENTURY AMERICAN LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. American literature 1800-1910. Course may be repeated for a maximum of 6 credit hours.

ENGL 4420 20TH-CENTURY AMERICAN LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. American literature 1910-2000. Course may be repeated for a maximum of 6 credit hours.

ENGL 4430 TWENTY-FIRST CENTURY AMERICAN LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. American literature since 2000. Course may be repeated for a maximum of 6 credit hours.

ENGL 4440 SOUTHERN LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Literature of the American South.

ENGL 4450 TOPICS IN AFRICAN AMERICAN LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Concentrated investigation of varying topics in African American literature and culture.

ENGL 4500 STUDIES IN POETRY (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Study in one or more kinds of poetry.

ENGL 4510 18TH-CENTURY NOVEL (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Study of novels produced in the 18th century.

ENGL 4520 19TH-CENTURY NOVEL (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Study of novels produced in the 19th century.

ENGL 4530 20TH-CENTURY FICTION (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Study of fiction produced in the 20th century.

ENGL 4540 STUDIES IN DRAMA (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Study of one or more periods or kinds of drama.

ENGL 4550 STUDIES IN FILM AND LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Examining the interconnections between film and literature.

ENGL 4600 CHAUCER (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Major works of Chaucer in Middle English.

ENGL 4610 SHAKESPEARE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Shakespeare's works, career, and culture. Course may be repeated for a maximum of 6 credit hours.

ENGL 4620 MILTON (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Milton's principal poems, especially Paradise Lost, with some attention to his prose.

ENGL 4630 BRITISH AUTHOR(S) (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Study of one or more British authors. Course may be repeated for a maximum of 6 credit hours.

ENGL 4640 AMERICAN AUTHOR(S) (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Study of one or more American authors. Course may be repeated for a maximum of 6 credit hours.

ENGL 4700 TOPICS IN LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Concentrated investigation of varying topics in literature. Course may be repeated for a maximum of 6 credit hours.

ENGL 4710 TOPICS IN GENDER AND LITERATURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Examination of varying topics related to the intersection between literature and gender. Course may be repeated for a maximum of 6 credit hours.

ENGL 4720 TOPICS IN ETHNIC STUDIES (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2233 or ENGL 2243 or ENGL 2253 or ENGL 2263 or ENGL 2270 or ENGL 2280. Literature of one or more ethnic groups. Course may be repeated for a maximum of 6 credit hours.

ENGL 4730 TOPICS IN POPULAR CULTURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. One or more topics in popular culture. Course may be repeated for a maximum of 6 credit hours.

ENGL 4740 ENVIRONMENT, LITERATURE, AND CULTURE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2210 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Topics related to the intersections between the environment, literature, and culture.

ENGL 4750 TOPICS IN MYTHOLOGY AND FOLKLORE (3) LEC. 3. Pr. ENGL 2000 or ENGL 2010 or ENGL 2230 or ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2200 or ENGL 2203 or ENGL 2207 or ENGL 2210 or ENGL 2213 or ENGL 2217 or ENGL 2270 or ENGL 2280. Study of one or more topics in mythology or folklore. Course may be repeated for a maximum of 6 credit hours.

ENGL 4760 TOPICS IN DIASPORA LITERATURE (3) LEC. 3. Pr. ENGL 1120 or ENGL 1123 or ENGL 1127. Topics class in the literature and culture of displaced groups. Course may be repeated for a maximum of 6 credit hours.

ENGL 4800 SEMINAR IN LITERATURE (3) LEC. 3. Pr. ENGL 3130. Research seminar in literature. Senior standing.

ENGL 4810 CAPSTONE IN PROFESSIONAL WRITING (3) LEC. 3. Pr. ENGL 2010. Advanced course in developing complex professional writing projects.

ENGL 4820 CAPSTONE IN CREATIVE WRITING (3) LEC. 3. Pr. ENGL 4210 or ENGL 4230 or ENGL 4250. Capstone course in creative writing. Course may be repeated for a maximum of 6 credit hours.

ENGL 4830 EARLY AFRICAN AMERICAN LITERATURE (3) LEC. Pr. P/C ENGL 2000 or P/C ENGL 2010 or P/C ENGL 2230 or P/C ENGL 2240 or P/C ENGL 2250 or P/C ENGL 2260 or P/C ENGL 2200 or P/C ENGL 2270 or P/C ENGL 2280 or P/C ENGL 2207 or P/C ENGL 2217 or P/C ENGL 2213 or P/C ENGL 2203. The study of African American literature from beginnings to 1900 Course may be repeated for a maximum of 6 credit hours.

ENGL 4840 20TH-CENTURY AFRICAN AMERICAN LITERATURE (3) LEC. Pr. P/C ENGL 2000 or P/C ENGL 2010 or P/C ENGL 2230 or P/C ENGL 2240 or P/C ENGL 2250 or P/C ENGL 2260 or P/C ENGL 2200 or P/C ENGL 2270 or P/C ENGL 2280 or P/C ENGL 2207 or P/C ENGL 2217 or P/C ENGL 2213 or P/C ENGL 2203. The study of African American literature from 1900 to 2000 Course may be repeated for a maximum of 6 credit hours.

ENGL 4850 CONTEMPORARY AFRICAN AMERICAN LITERATURE (3) LEC. Pr. P/C ENGL 2000 or P/C ENGL 2010 or P/C ENGL 2230 or P/C ENGL 2240 or P/C ENGL 2250 or P/C ENGL 2260 or P/C ENGL 2200 or P/C ENGL 2270 or P/C ENGL 2280 or P/C ENGL 2207 or P/C ENGL 2217 or P/C ENGL 2213 or P/C ENGL 2203. The study of African American literature from 1945 to the present Course may be repeated for a maximum of 6 credit hours.

ENGL 4860 BLACK/AFRICAN AMERICAN LITERARY THEORY AND CRITICISM (3) LEC. Pr. P/C ENGL 2000 or P/C ENGL 2010 or P/C ENGL 2230 or P/C ENGL 2240 or P/C ENGL 2250 or P/C ENGL 2260 or P/C ENGL 2200 or P/C ENGL 2270 or P/C ENGL 2280 or P/C ENGL 2207 or P/C ENGL 2217 or P/C ENGL 2213 or P/C ENGL 2203. The study of Black/African American literary theory and criticism. Course may be repeated for a maximum of 6 credit hours.

ENGL 4920 INTERNSHIP IN ENGLISH STUDIES (3) AAB/IND. 3. SU. Pr. ENGL 1120 or ENGL 1127. Departmental approval. Supervised experience in applying reading, writing, and research skills to the workplace.

ENGL 4960 SPECIAL PROBLEMS IN ENGLISH (3) IND. 3. Pr. 3.00 GPA. At least 5 courses in ENGL 4000-4999. Junior standing and Departmental approval. Individual reading programs determined by the instructor and student. Course may be repeated for a maximum of 6 credit hours.

ENGL 7000 TECHNICAL AND PROFESSIONAL EDITING (3) LEC. 3. Research-based best practices in technical and professional editing.

ENGL 7010 TECHNICAL AND PROFESSIONAL COMMUNICATION: ISSUES AND APPROACHES (3) LEC. 3. Introduction to the history, practice, and profession of technical and professional communication.

ENGL 7020 PEDAGOGY IN WRITING STUDIES (3) LEC. 3. Methods, practices, and theories of technical and professional communication for prospective teachers.

ENGL 7030 STUDIES IN TECHNICAL AND PROFESSIONAL COMMUNICATION (3) LEC. 3. Extensive study of selected types of research and writing for special purposes and novel situations. Course may be repeated for a maximum of 6 credit hours.

ENGL 7040 ENGLISH COMPOSITION: ISSUES AND APPROACHES (3) LEC. 3. Theory, research, and practice in English composition.

ENGL 7050 STUDIES IN COMPOSITION (3) LEC. 3. Advanced study of an approach or an issue in composition studies. Course may be repeated for a maximum of 9 credit hours.

ENGL 7060 WEB DEVELOPMENT (3) LEC. 3. Research-based best practices in web development.

ENGL 7070 GRANT AND PROPOSAL WRITING (3) LEC. 3. Research-based best practices in grant and proposal writing.

ENGL 7080 DOCUMENT DESIGN (3) LEC. 3. Research-based best practices in document design.

ENGL 7090 RESEARCH METHODS IN WRITING STUDIES (3) LEC. 3. An introduction to some of the most widely-used research methods and methodologies across the field (and varied subfields) of Writing Studies.

ENGL 7120 CREATIVE NONFICTION WRITING (3) LEC. 3. Workshop in the craft of writing creative nonfiction. Departmental approval required. Course may be repeated for a maximum of 9 credit hours.

ENGL 7130 FICTION WRITING (3) LEC. 3. Workshop in the craft and writing of fiction. Departmental approval required. Course may be repeated for a maximum of 9 credit hours.

ENGL 7140 POETRY WRITING (3) LEC. 3. Workshop in the craft and writing of poetry. Departmental approval required. Course may be repeated for a maximum of 9 credit hours.

ENGL 7150 STUDIES IN MEDIEVAL LITERATURE (3) LEC. 3. Major works and genres in Middle English and related literary traditions. Course may be repeated for a maximum of 9 credit hours.

ENGL 7160 EARLY MODERN STUDIES (3) LEC. 3. Major literary movements, authors, and/or genres. Course may be repeated for a maximum of 9 credit hours.

ENGL 7170 18TH-CENTURY STUDIES (3) LEC. 3. Major literary movements, authors, and/or genres. Course may be repeated for a maximum of 9 credit hours.

ENGL 7180 19TH-CENTURY STUDIES (3) LEC. 3. Major literary movements, authors, and/or genres. Course may be repeated for a maximum of 9 credit hours.

ENGL 7190 AMERICAN STUDIES (3) LEC. 3. Major literary movements, authors, and/or genres. Course may be repeated for a maximum of 9 credit hours.

ENGL 7200 LITERARY MODERNISMS (3) LEC. 3. Major literary movements, authors, and/or genres. Course may be repeated for a maximum of 9 credit hours.

ENGL 7210 CONTEMPORARY LITERATURE AND CULTURE (3) LEC. 3. Major literary movements, authors, and /or genres. Course may be repeated for a maximum of 9 credit hours.

ENGL 7280 STUDIES IN LINGUISTICS (3) LEC. 3. Selected topic in English linguistics, including historical syntax, dialectology, phonology. Course may be repeated for a maximum of 9 credit hours.

ENGL 7300 RHETORIC THEORY AND PRACTICE (3) LEC. 3. Issues and developments in rhetorical theory and analysis, with special attention to the rhetoric of written texts. Course may be repeated for a maximum of 9 credit hours.

ENGL 7770 AFRICAN AMERICAN LITERATURE (3) LEC. 3. Study of African American literature and literary theories of ethnicity and race. Course may be repeated for a maximum of 9 credit hours.

ENGL 7780 STUDIES IN RACE, GENDER, AND SEXUALITY (3) LEC. 3. Focused topics in literature and theory of ethnicity, sexuality, gender, race, class, or disability. Course may be repeated for a maximum of 9 credit hours.

ENGL 7790 LITERARY THEORY: ISSUES AND APPROACHES (3) LEC. 3. Overview of significant theoretical issues, approaches, and conversations in literary and cultural theory, historical and/or contemporary.

ENGL 7800 STUDIES IN LITERARY THEORY (3) LEC. 3. Close study of particular theoretical approaches to literary study, including cultural studies, postmodernism, textual criticism, anthropological approaches. Course may be repeated for a maximum of 6 credit hours.

ENGL 7810 STUDIES IN COMPARATIVE LITERATURE (3) LEC. 3. Comparative study of authors, genres, or issues from two or more cultures or critical perspectives. Course may be repeated for a maximum of 9 credit hours.

ENGL 7830 MAJORS AUTHOR(S) (3) LEC. 3. One or more major authors or a single work by a major author. Course may be repeated for a maximum of 9 credit hours.

ENGL 7850 STUDIES IN GENRE (3) LEC. 3. Study of one or more genres across literary periods. Course may be repeated for a maximum of 9 credit hours.

ENGL 7870 SPECIAL TOPICS IN ENGLISH STUDIES (3) LEC. 3. Special problems, topics, and materials in English studies not covered in other existing courses. Course may be repeated for a maximum of 9 credit hours.

ENGL 7910 PRACTICUM IN TECHNICAL AND PROFESSIONAL COMMUNICATION (3) PRA. 3. Pr., Departmental approval. Supervised client-based experience in tasks commonly performed by technical communicators analyzed through current research in technical communication.

ENGL 7920 INTERNSHIP IN ENGLISH STUDIES (3) INT. 3. SU. Departmental approval. Supervised professional experience in workplace or university outreach settings.

ENGL 7930 DIRECTED INDIVIDUAL STUDY (1-3) IND. Available on a limited basis for qualified students; requires advance permission of the department graduate committee. Credits are to be arranged. Course may be repeated for a maximum of 6 credit hours.

ENGL 7940 PRACTICUM IN TEACHING COLLEGE ENGLISH (1) LEC. 1. SU. An introduction to the teaching of English at Auburn University. Course may be repeated for a maximum of 2 credit hours.

ENGL 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated for a maximum of 20 credit hours.

ENGL 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated for a maximum of 20 credit hours.

English for Speakers of Other Languages - CTES

Courses

CTES 5410 FOUNDATIONS OF MULTILINGUAL LEARNER INSTRUCTION (3) LEC. 3. Non-major course to introduce students to the essential components of effective instruction of multilingual students in a variety of contexts. Topics include instructional models for teaching multilingual students, linguistically and culturally responsive pedagogy, second language acquisition, formative and summative assessment.

CTES 7400 TECHNOLOGY AND MEDIA IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES EDUCATION (ESOL) (3) LEC. 3. Application of instructional technology in second language instruction, authentic materials in the ESL classroom. May count either CTES 7400 or CTES 7406.

CTES 7410 CURRICULUM DEVELOPMENT IN ESOL EDUCATION (3) LEC. 3. LAB. 0, DSL/LEC. 0. This class will explore how to teach English for specific purposes by explaining how to create a curriculum in English for a particular context. The course will describe how to conduct a needs analysis and then create a curriculum based on the needs of the students.

CTES 7420 APPLIED LINGUISTICS IN SECOND LANGUAGE ACQUISITION (3) LEC. 3. Provides basic knowledge of phonetics, morphology, syntax, semantics, pragmatics, psycholinguistics, sociolinguistics and language variation to teach English language learners. May count either CTES 7420 or CTES 7426.

CTES 7430 TEACHING ESL LISTENING AND SPEAKING (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will prepare ESL/EFL teachers to develop engaging and effective listening and speaking lessons in a variety of contexts. Students will design and implement effective listening and speaking lessons for a variety of proficiency levels.

CTES 7440 TEACHING ESL READING AND WRITING (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will increase understanding of the theory and practices of reading and writing skills that actively engage English learners.

CTES 7460 TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES IN P-12 (3) LEC. 3. Teaching practices and curriculum selection in P-12 ESOL. May count either CTES 7460 or CTES 7466.

CTES 7470 ISSUES IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES EDUCATION (ESOL) (3) LEC. 3. Examination of central issues in the teaching and learning of ESOL including language policy, language diversity and multiculturalism. May count either CTES 7470 or CTES 7476.

CTES 7480 ASSESSMENT IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL) (3) LEC. 3. Theoretical perspectives on assessment of English Language Learners. Developing, administering and analyzing assessment instruments. May count either CTES 7480 or CTES 7486.

CTES 7490 METHODS IN ESL GRAMMAR (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will explore the English language beyond the prescriptive rules commonly taught and to develop an in-depth understanding of the challenges English language learners have with grammar. It will explore ways grammar impacts writing and speaking, best practices for grammar instruction, and considerations in error correction. Key grammar lessons will be developed and practiced.

CTES 7920 CLINICAL RESIDENCY (1-9) AAB. SU. Supervised teaching in a K-12 public school accompanied by scheduled discussions to analyze and evaluate the intern's experience. Course may be repeated for a maximum of 9 credit hours.

Entomology - ENTM

Courses

ENTM 2000 PESTS, PATHOGENS, PARASITES, AND PEOPLE (3) LEC. 3. Past and present problems of pests and disease involving humans and the food chain.

ENTM 2040 INSECTS: AN INTRODUCTION TO ENTOMOLOGY (3) LEC. 3. Life processes, importance, and occurrence of insects.

ENTM 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ENTM 3040 GENERAL ENTOMOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Introduction to the biology and diversity of insects. An insect collection is required.

ENTM 4020 ECONOMIC ENTOMOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Consideration of the biological aspects, life histories and control of insects.

ENTM 4920 ENTOMOLOGY INTERNSHIP (5) INT. 5. SU. Practical professional experience under the supervision of internship faculty and/or representatives of state, federal or private agency.

ENTM 4960 SPECIAL PROBLEMS IN ENTOMOLOGY (1-3) IND. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 3 credit hours.

ENTM 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ENTM 5120 MEDICAL-VETERINARY ENTOMOLOGY (4) LEC. 3. LAB. 1. Pr. (BIOL 1030 or BIOL 1037) and (ENTM 3040 or ENTM 4020). Survey of insects, ticks, and mites of medical or veterinary importance, emphasizing role as vectors of disease agents and the biology of pathogen-transmission cycles. Labs focus on methods of vector sampling and surveillance, identification, and case studies of special topics. May count either ENTM 5120 or ENTM 6120.

ENTM 5220 INSECT ECOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3060. Ecological interactions of insects and their environment, with emphasis on is herbivory, predation, parasitism and mutualism, as well as population and community dynamics.

ENTM 5300 INSECT DIVERSITY (4) LEC. 3. LAB. 1. Pr. ENTM 3040 or ENTM 4020. Survey of the biodiversity of insects, stressing taxon diagnostics.

ENTM 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

ENTM 5360 LANDSCAPE ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1020 or BIOL 1027) or (BIOL 1030 or BIOL 1037). Identification and management of arthropod pests in the landscape. Recognition of pests and damage to trees, turf and ornamental plants.

ENTM 5370 URBAN ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 or ENTM 4020. Identification, biology and control of insect and other household arthropod pests.

ENTM 5500 BEE BIOLOGY AND MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Biology and management of bees, with an emphasis on honey bees and beekeeping. May count either ENTM 5500 or ENTM 6500.

ENTM 5660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC/STU. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May count either ENTM 5660, APBT 5660, or ENTM 6660.

ENTM 5700 VECTOR ENTOMOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

ENTM 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

ENTM 5920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

ENTM 6120 MEDICAL-VETERINARY ENTOMOLOGY (4) LEC. 3. LAB. 3. Survey of insects, ticks, and mites of veterinary importance, emphasizing role as vectors of disease agents and the biology of pathogen-transmission cycles. Labs focus on methods of vector sampling and surveillance, identification, and case studies of special topics. May count either ENTM 5120 or ENTM 6120.

ENTM 6220 INSECT ECOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3060. Departmental approval. Ecological interactions of insects and their environment, with emphasis on herbivory, predation, parasitism and mutualism, as well as population and community dynamics.

ENTM 6300 INSECT DIVERSITY (4) LEC. 3. LAB. 1. Pr. ENTM 3040 or ENTM 4020. Survey of the biodiversity of insects, stressing taxon diagnostics.

ENTM 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

ENTM 6360 LANDSCAPE ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1020 or BIOL 1027) or (BIOL 1030 or BIOL 1037). Identification and management of arthropod pests in the landscape. Recognition of pests and damage to trees, turf and ornamental plants.

ENTM 6370 URBAN ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 or ENTM 4020. Identification, biology and control of insect and other household arthropod pests.

ENTM 6440 INSECT MORPHOLOGY (5) LEC. 3. LAB. 6. Pr. ENTM 3040 or ENTM 4020. Departmental approval. Comparative external anatomy and generalized internal structures of insects. Characteristics used in taxonomy will be emphasized. Credit will not be given for both ENTM 5440 and ENTM 6440.

ENTM 6500 BEE BIOLOGY AND MANAGEMENT (3) LEC. 2. LAB. 2. Biology and management of bees, with an emphasis on honey bees and beekeeping. May count either ENTM 5500 or ENTM 6500.

ENTM 6660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC. 2, LST. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May take either ENTM 5660, APBT 5660, or ENTM 6660.

ENTM 6700 VECTOR ENTOMOLOGY (3) LEC. 3. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

ENTM 6820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

ENTM 6920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

ENTM 7100 GENERAL TOXICOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 and CHEM 2030. Departmental approval. History, mechanism of action, metabolism, and structure activity relationship of natural and synthetic insecticides. Contemporary laboratory techniques in toxicology will be featured.

ENTM 7200 INSECT PHYSIOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040. Departmental approval. Introduction to insect physiology stressing structure and function of each organ system. Methods used in physiological research will be emphasized.

ENTM 7230 PRACTICAL EVOLUTION (3) LEC. 3. Pr. BIOL 5800 or BIOL 6800. Students will learn evolutionary biology by making it happen, that is, by building and running simulation models. They will also learn of opportunities to apply evolutionary theory to practical problems in agriculture, public health and conservation.

ENTM 7900 DIRECTED STUDIES IN ENTOMOLOGY I (1-5) LEC. SU. Discussion groups on specific topics, assigned readings, on laboratory problems or field research. Course may be repeated for a maximum of 5 credit hours.

ENTM 7950 SEMINAR (1) SEM. 1. SU. Presentation and discussion of scientific literature of thesis research findings. Required of all M.S. candidates.

ENTM 7960 SPECIAL PROBLEMS IN ENTOMOLOGY (1-4) LAB. 2-8. Departmental approval. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

ENTM 7990 RESEARCH AND THESIS (1-10) MST. Topics may focus on technical laboratory problems or field research related to arthropod biology. Admission to the M.S. Program. Course may be repeated with change in topics.

ENTM 8900 DIRECTED STUDIES IN ENTOMOLOGY II (5) LEC. 5. Discussion groups on specific topics, assigned reading on laboratory problems or field research.

ENTM 8910 TEACHING PRACTICUM (1) LAB. 2. SU. Departmental approval. Practical and theoretical issues of laboratory learning, and pedagogical facilitation. Required of all PhD students. Course may be repeated for a maximum of 3 credit hours.

ENTM 8930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Pr. ENTM 3040 and ENTM 4020 or (PLPA 3000 or PLPA 3003). Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 3 credit hours.

ENTM 8950 SEMINAR (1) LEC. 1. SU. Presentation and discussion of scientific literature or dissertation research findings. Required of all Ph.D. students.

ENTM 8960 ADVANCED SPECIAL PROBLEMS IN ENTOMOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

ENTM 8990 RESEARCH AND DISSERTATION (1-10) DSR. Admission to the Ph.D. Program. Course may be repeated with change in topics.

Entrepreneurship and Family Business - ENFB

Courses

ENFB 3140 ESSENTIALS OF ENTREPRENEURSHIP (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2030 or ECON 2033 or ECON 2037. The application of basic business principles to the entrepreneurial environment.

ENFB 4160 FAMILY BUSINESS MANAGEMENT (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of aspects of managing an established family business, on a day-to-day basis, and of planning for succession to the next generation.

ENFB 4170 MANAGING ENTREPRENEURIAL START-UPS (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of aspects of managing and marketing concepts and processes that can be utilized to launch new ventures or a new division within an existing business.

ENFB 4180 GROWTH STRATEGIES FOR EMERGING COMPANIES (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of the important aspects of starting and managing a franchise business.

ENFB 4190 NEW VENTURE CREATION (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Analysis of industrial, competitive, market and financial aspects of starting a business.

ENFB 4200 BUSINESS PLAN FOR THE NEW VENTURE (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Application of business principles to a practical, hands-on project.

ENFB 4210 CORPORATE VENTURING-ENTREPRENEURS IN ORGANIZATIONS (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of the entrepreneurial process as it applies to the operations of a department or functional area within an established organization.

ENFB 4220 DIGITAL ENTREPRENEURSHIP AND EMERGING TECHNOLOGIES (3) LEC. 3. Pr. ENFB 3140. Examines how digitalization and emerging technologies impact entrepreneurship and innovation by changing the functional areas of business including marketing, management, finance, and supply chain management.

ENFB 4920 INTERNSHIP (1-6) INT. Pr. 2.50 GPA. Departmental approval. Approval by departmental internship program committee. Course may be repeated for a maximum of 6 credit hours.

ENFB 4950 SEMINAR IN ENTREPRENEURSHIP AND FAMILY BUSINESS (3) LEC. 3. This seminar covers emerging issues in entrepreneurship. Prequisite: ENFB 3140 or Departmental Approval. Course may be repeated for a maximum of 6 credit hours.

ENFB 4970 SPECIAL TOPICS IN ENTREPRENEURSHIP & FAMILY BUSINESS (3) LEC. 3. Pr. ENFB 3140 or Departmental approval. This course covers current topics in entrepreneurship and family business. Course may be repeated for a maximum of 6 credit hours.

ENFB 5900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

ENFB 5960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

ENFB 6900 DIRECTED STUDIES (1-3) IND. SU. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

ENFB 6960 SPECIAL PROBLEMS (3) DSL/IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

Environmental Design - ENVD

Courses

ENVD 2000 ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES I (3) LEC. 3. Core knowledge of design and construction disciplines and business practices related to human-designed environments. Includes national and global perspectives and focus on interdisciplinary studies.

ENVD 2007 HONORS ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES I (3) LEC. 3. Core knowledge of design and construction disciplines and business practices related to human-designed environments. Includes national and global perspectives and focus on interdisciplinary studies.

ENVD 2010 INTRODUCTION TO DESIGN AND DESIGN METHODS (3) LEC. 3. Introduces students to the importance of design and basic design methods.

ENVD 2040 DESIGN, INVENTION AND SOCIETY (3) LEC. 3. Role of design and invention in society from the ancient to the contemporary world.

ENVD 2047 HONORS DESIGN, INVENTION, AND SOCIETY (3) LEC. 3. Role of design and invention in society from the ancient to the contemporary world.

ENVD 2100 ENVIRONMENTAL DESIGN WORKSHOP I (6) LAB. 6. Pr. ENVD 2000. Departmental approval. Focus on general technical skill set for environmental design foundations. Digital media introduction, structure and fabrication techniques, design communication development.

ENVD 2200 READINGS IN LANDSCAPE ARCHITECTURE (3) SEM. 3. Investigates the idea of landscape through a range of texts, images, and built works that have helped form, and continue to shape, our understanding of the landscape. First year of B.ENVD.

ENVD 3000 ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES II (3) LEC. 3. Pr. ENVD 2100. Departmental approval. Advanced knowledge of design, construction and planning disciplines and practice. National/global environmental design issues, focus on interdisciplinary concepts, hybrid practices, & sustainability.

ENVD 3100 CIVIC ENGAGEMENT AND RESEARCH METHODS (3) LEC. 3. Pr. ENVD 3000. Departmental approval. Civic engagement and research methods for environmental design. This is a research prep course to develop research methods, projects, and community partnerships for summer ENVD 4100 workshop capstone.

ENVD 3200 SYSTEMS IN BUILT ENVIRONMENT I (3) SEM. 2.5. Pr. ENVD 2100. Focus on research of different systems in built environments, and different research methods that can be used in design in order to understand and represent them.

ENVD 3300 SYSTEMS IN BUILT ENVIRONMENT II (3) SEM. 2.5. Pr. ENVD 2100. Focuses on application of research from design and construction disciplines in built environment through testing and prototyping, thus exploring potential for application in a larger context.

ENVD 4000 ELEMENTS OF URBAN DESIGN (3) LEC. 3. Pr. ENVD 2100 or ARCH 2010 or LAND 2110. ENVD 4000 provides environmental design students with an introduction to urban design theories, methods and processes through combination of lectures and on-site instruction.

ENVD 4010 ELEMENTS OF DESIGN THINKING AND COMMUNICATION (3) LEC. 3. This is a 3-credit hour class that builds design communication skills through a series of projects that utilize both hand-rendering and digital media.

ENVD 4017 HONORS ELEMENTS OF DESIGN THINKING AND COMMUNICATION (3) LEC. 3. This is a 3-credit hour class that builds design communication skills through a series of projects that utilize both hand-rendering and digital media.

ENVD 4100 ENVIRONMENTAL DESIGN WORKSHOP II - CAPSTONE (6) LEC. 6. Pr. ENVD 3100. Environmental design knowledge & technical skill set using principles of collaboration, leadership & effectiveness training, hands-on experience, civic engagement & design communication skills.

ENVD 4500 PROFESSIONAL PRACTICE (3) SEM. 3. Pr. ENVD 3000. Enable students to learn elements of professional communication; create persuasive portfolio of their work; and to seek, and prepare for, internship and job opportunities.

ENVD 4900 DIRECTED STUDIES (3) IND. 3. Pr. ENVD 2100. Highly focused study (design research, design research application) in an area of interest to student that is approved by, and supervised by, a faculty member with such expertise. Must be in Junior or Senior status. Course may be repeated for a maximum of 6 credit hours.

ENVD 4920 INTERNSHIP IN ENVIRONMENTAL DESIGN (1) INT. 1. SU. Faculty Approval. Internship in the areas of environmental design, as approved by faculty supervisor.

ENVD 4970 SPECIAL TOPICS IN ENVIRONMENTAL DESIGN (3) LEC. 3. Topics include: digital production, portfolio making and design thinking. Course may be repeated for a maximum of 9 credit hours.

ENVD 4977 HONORS SPECIAL TOPICS IN ENVIRONMENTAL DESIGN (3) LEC. 3. Topics include: digital production, portfolio making and design thinking. Course may be repeated for a maximum of 9 credit hours.

ENVD 5030 STUDIES IN DESIGN THINKING AND ENTREPRENEURSHIP (3) SEM. 3. Study and application of design and innovation thinking in entrepreneurship, with a special emphasis on social entrepreneurship. May count either ENVD 5030 or ENVD 6030.

ENVD 5037 HONORS STUDIES IN DESIGN THINKING AND ENTREPRENEURSHIP (3) LEC. 3. Study and application of design and innovation thinking in entrepreneurship, with a special emphasis on social entrepreneurship. May count either ENVD 5030 or ENVD 6030.

Environmental Science - ENVI

Courses

ENVI 1010 INTRODUCTION TO ENVIRONMENTAL SCIENCE (1) LEC. 1. Introduction to the environmental science field and the ENVI major. Course may be repeated for a maximum of 3 credit hours.

ENVI 1020 FUNDAMENTALS OF ENVIRONMENTAL SCIENCE (3) LEC. 3. Preference given to students for whom the course is required. Survey of fundamental concepts, issues, and concerns related to environmental science.

ENVI 1030 ENVIRONMENT AND LIFE (4) LEC. 3. LAB. 3. This course is a lecture/lab course integrating principals of basic science with the impacts of humans on the environment. Topics will include population dynamics, land use change, energy, pollution, water availability, climate, human-environment interactions, biodiversity environmental policy, and sustainability. The laboratory component of the class will challenge students to observe phenomena in the world around them, construct and test hypotheses, and draw conclusions on the management and solutions to environmental problems in the world today.

ENVI 3000 INTRODUCTION TO STREAM RESTORATION (4) LEC. 2. LAB. 4. Introduction to concepts necessary for stream restoration design, construction, and maintenance and how they relate to the physical, chemical and biological processes of streams. Students will participate in research associated with stream restoration by assessing steam stability and classifying streams.

ENVI 4000 ENVIRONMENTAL REGULATION AND MANAGEMENT APPLICATIONS (3) LEC. 3. Pr. ENVI 1010 and ENVI 1020. This course provides an introduction to and overview of how municipal, state and federal regulations and programs are used in environmental management. The spectrum and development of environmental requirements, responsibilities, and direct applications as to the release of pollutants to air, soil and water are explored.

ENVI 4950 ENVIRONMENTAL SCIENCE SENIOR SEMINAR (2) LEC. 2. Pr. (ENGL 1120 or ENGL 1127) and ENVI 1010 and ENVI 1020. Departmental approval. This course will cover oral and written professional presentations, assessment of students in the ENVI major via standardized testing, and student assessment via exit surveys.

ENVI 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ENVI 5100 CLIMATE CHANGE IMPACTS (3) LEC. 3. An overview of climate change for the non-climate scientist, how climate change affects global environments (forests, oceans, lakes, coasts, agriculture) in recent time periods and how historic records are used to study past climate change impacts.

ENVI 5200 ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING IN ENVIRONMENTAL SCIENCE (4) LEC. 3. LAB. 2, LLB. 0. Pr. (STAT 2510 or STAT 2513) and (MATH 1610 or MATH 1613 or MATH 1617). This course introduces environmental science students to the basics of artificial intelligence (AI) and machine learning (ML) and their applications in environmental science. Students will learn how to use AI/ML tools to analyze large and complex environmental data sets, make predictions, and identify patterns that are not visible to the naked eye. Students will become familiar with the potential and limitations of AI/ML in environmental science and what ethical considerations should be made.

ENVI 6100 CLIMATE CHANGE IMPACTS (3) LEC. 3. An overview of climate change for the non-climate scientist, how climate change affects global environments (forests, oceans, lakes, coasts, agriculture) in recent time periods and how historic records are used to study past climate change impacts.

ENVI 6200 ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING IN ENVIRONMENTAL SCIENCE (4) LEC. 3. LAB. 2. This course introduces environmental science students to the basics of artificial intelligence (AI) and machine learning (ML) and their applications in environmental science. Students will learn how to use AI/ML tools to analyze large and complex environmental data sets, make predictions, and identify patterns that are not visible to the naked eye. Students will become familiar with the potential and limitations of AI/ML in environmental science and what ethical considerations should be made.

Exploratory - EXPL

Courses

EXPL 1010 EXPLORATORY MAJOR INVESTIGATIONS I (2) LEC. 2. For students in the Exploratory Major. This course introduces students to the majors offered at Auburn, and through a program of readings, research, professional outreach, analysis, and reflection helps them decide on a degree-granting major.

EXPL 1020 EXPLORATORY MAJOR INVESTIGATIONS II (1) LEC. 1. Pr. EXPL 1010. For students in their second and final semester as an Exploratory Major. This course continues and deepens the exploration through readings, research, professional outreach, analysis, and reflection to help students select a degree-granting major.

Finance - FINC

Courses

FINC 2400 PERSONAL FINANCE (3) LEC. 3. Plans for managing personal financing problems involving insurance, housing, household budgeting, investments, personal and bank loans, personal credit and time value of money.

FINC 3010 PROFESSIONAL DEVELOPMENT IN FINANCE (1) LEC. 1. SU. Pr. (P/C FINC 3610 or FINC 3613 or FINC 3617) and P/C BUSI 2010. Career planning and preparation for employment in the finance industry.

FINC 3100 FUNDAMENTALS OF GLOBAL TRADE (3) LEC. 3. COB academic standards. Export management skills, including basic global supply chain management and trade finance. Junior standing.

FINC 3200 RISK AND INSURANCE (3) LEC. 3. Essentials of risk management, with emphasis on the use of insurance, including the characteristics of property, liability, life and health insurance. Junior standing.

FINC 3250 PRINCIPLES OF REAL ESTATE (3) LEC. 3. Fundamental principles and practices as applied to the purchase, sale and lease and management of real estate. Junior standing.

FINC 3270 SUSTAINABLE REAL ESTATE (3) LEC. 3. Pr. FINC 3250. Everyone’s story is rooted in real estate: the ways we fund, plan, build, use, and exchange real property have informed our past and will dictate our future. This course surveys the wide variety of topics that intersect to maximize sustainable development projects, including investment analysis, green building, and project certifications. Through lectures, case studies and simulations, you will learn how people, property and capital interact to help shape the evolving real estate industry.

FINC 3610 PRINCIPLES OF BUSINESS FINANCE (3) LEC. 3. Pr. ACCT 2110 or ACCT 2117 or ACCT 2810 or ACCT 3110 or ACCT 3113 or ACCT 2813. Corporate finance from the perspective of a financial manager. Topics include time value of money, valuation, and capital budgeting. May count either FINC 3610 or FINC 3810.

FINC 3617 HONORS PRINCIPLES OF BUSINESS FINANCE (3) LEC. 3. Pr. Honors College. ACCT 2117. Corporate finance from the perspective of a financial manager. Topics include financial planning and forecasting cash budgeting, capital budgeting, basic valuation, dividends. Fall, Spring. Junior standing.

FINC 3620 SMALL BUSINESS FINANCE (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Financial control, financial forecasting, working capital and sources of financing in a small and closely-held business environment.

FINC 3630 ADVANCED BUSINESS FINANCE (3) LEC. 3. Pr. (FINC 3610 or FINC 3613 or FINC 3617) and (BUAL 2600 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3610). C or better in FINC 3610. In-depth analysis of financial concepts including valuation capital budgeting, cost of capital, leasing, financial analysis, and capital structure.

FINC 3640 INVESTMENTS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Types of investment security markets, investment instruments, concepts and strategies for institutional and individual investors.

FINC 3700 FINANCIAL MARKETS INSTITUTIONS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Overview of the financial system, organization and regulation of financial markets and institutions, the behavior and structure of interest rates.

FINC 3750 FINANCIAL MODELING (3) LEC. 3. Pr. P/C FINC 3630 and P/C FINC 3640. Application of financial management and investments concepts through Excel modeling. Topics include capital budgeting, capital asset pricing, cost of capital, stock and bond valuation. Advanced topics include DCF modeling, portfolio optimization and VBA.

FINC 3810 FOUNDATIONS OF BUSINESS FINANCE (3) LEC. 3. Pr. ACCT 2810 or ACCT 2813 or ACCT 2110 or ACCT 2117. Foundations of Business Finance is a broad based introductory course that will focus on finance functions and applications of finance principles. This course is not open to undergraduates majoring in business. Junior standing. May count either FINC 3610 or FINC 3810.

FINC 4210 PROPERTY AND LIABILITY INSURANCE (3) LEC. 3. Pr. FINC 3200. Commercial risks and the insurance contracts used to address these risks.

FINC 4410 FIXED INCOME (3) LEC. 3. Pr. FINC 3640. Overview of fixed income characteristics, markets, and trading. Topics include Treasuries, yield curves, corporate bond analysis, asset-backed securities, municipal bonds, preferred stock, money market instruments, measuring interest rate risk with duration and convexity, and bond portfolio management.

FINC 4630 FINANCIAL STRATEGY (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110) and (FINC 3630 or FINC 3633). The advanced application of corporate finance through case analysis, company analysis, and current topics.

FINC 4650 FINANCIAL STATEMENT ANALYSIS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Evaluation and assessment of financial condition, performance, and reporting strategies of firms using relevant financial and market information.

FINC 4660 SECURITY ANALYSIS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110) and (FINC 3630 or FINC 3633) and FINC 3640. Analysis, techniques and selection of securities to meet specific investment objectives. Focus on individual security analysis and portfolio management.

FINC 4700 MANAGEMENT OF FINANCIAL INSTITUTIONS (3) LEC. 3. Pr. FINC 3700. Management strategies for firms including management of credit, liquidity, capital and interest rate risks in a regulated environment.

FINC 4720 FINANCIAL SECTOR REGULATION AND SUPERVISION (3) LEC. 3. Pr. FINC 3700. The course will facilitate understanding of regulatory and supervisory oversight tools used by financial sector regulators to control new and emerging issues/ risks facing financial institutions and markets, and how financial institutions and markets manage and operate to in light of these regulatory and supervisory requirements.

FINC 4750 ADVANCED FINANCIAL MODELING (3) LEC. 3. Pr. FINC 3750 and (FINC 4650 or FINC 4653). Departmental approval. The course teaches advanced financial modeling and valuation, including public and acquisition comparables, discounted cash flows, merger consequences and leveraged buyout analysis.

FINC 4760 ADVANCED SECURITY ANALYSIS (3) LEC. 3. Pr. FINC 4750 or Departmental approval. The course focuses on the comprehensive analysis of individual securities for potential inclusion in an actively managed investment portfolio. The course will cover the basics of traditional financial statement and valuation analysis in addition to macro-economic analysis, political analysis, technical analysis, derivatives, history of financial markets, commodities, competitive analysis, fixed income analysis, and trading.

FINC 4780 ADVANCED PORTFOLIO MANAGEMENT (3) LEC. 3. Pr. FINC 4760. Departmental approval. The course teaches students to analyze financial problems and develop sophisticated financial models for modern portfolio management.

FINC 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Advanced individual research and study in finance under the direction of a faculty member. Course may be repeated for a maximum of 6 credit hours.

FINC 4920 INTERNSHIP (1-6) AAB/INT. SU. Departmental approval. The internship program offers the opportunity to gain relevant and meaningful work experience. Course may be repeated for a maximum of 9 credit hours.

FINC 4970 SPECIAL TOPICS (1-3) AAB. Departmental approval. Specialized topics and current developments and innovations in finance. Course may be repeated for a maximum of 6 credit hours.

FINC 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

FINC 5250 REAL ESTATE FINANCE (3) LEC. 3. Pr. FINC 3250 and (FINC 3610 or FINC 3613 or FINC 3617 or FINC 3810). This class presents the fundamental concepts of real estate finance. Students will study the institutions and instruments of real estate finance, factors affecting the flow of funds into various real estate markets, and how lenders assess risks and price their loans. The ultimate investment outlets for many of the financing products studied in the course are also covered in some detail.

FINC 5260 REAL ESTATE INVESTMENT (3) LEC. 3. Pr. (FINC 3610 or FINC 3613 or FINC 3617 or FINC 3810) and FINC 3250. This class presents the fundamental concepts of real estate investment analysis. Students will study lease analysis to allow for cash flow projection based on those leases. Students will use those cash flow projections in property valuation to enable a discussion of deal structuring, ownership structures, and funding sources. Real estate as an asset class will be discussed in a broader portfolio context.

FINC 5510 MULTINATIONAL FINANCIAL MANAGEMENT (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Advantages and problems associated with the modern multinational corporation, including analysis of currency risk, hedging, and political risk.

FINC 5670 MERGERS, ACQUISITIONS, AND RESTRUCTURING (3) LEC. 3. Pr. FINC 3630 or FINC 3633. Strategic analysis of corporate restructuring including valuation methods, control issues, takeover defense measures, and diversification issues. May count either FINC 5670 or FINC 6670/FINC 6676.

FINC 5680 FINANCIAL ENGINEERING (3) LEC. 3. Pr. FINC 3630 or FINC 3633 or FINC 3640 or FINC 3700. Examination of derivative securities with emphasis on applying derivative securities to the management of corporate financial risk.

FINC 6250 REAL ESTATE FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or BUSI 7110 or BUSI 7116. Departmental approval. This class presents the fundamental concepts of real estate finance. Students will study the institutions and instruments of real estate finance, factors affecting the flow of funds into various real estate markets, and how lenders assess risks and price their loans. The ultimate investment outlets for many of the financing products studied in the course are also covered in some detail.

FINC 6260 REAL ESTATE INVESTMENT (3) LEC. 3. Pr. BUSI 7110 or BUSI 7116. This class presents the fundamental concepts of real estate investment analysis. Students will study lease analysis to allow for cash flow projection based on those leases. Students will use those cash flow projections in property valuation to enable a discussion of deal structuring, ownership structures, and funding sources. Real estate as an asset class will be discussed in a broader portfolio context.

FINC 6510 MULTINATIONAL FINANCIAL MANAGEMENT (3) LEC. 3. Advantages and problems associated with the modern multinational corporation, including analysis of currency risk, hedging, and political risk.

FINC 6670 MERGERS, ACQUISITIONS AND RESTRUCTURING (3) LEC. 3. Pr. BUSI 7110 or BUSI 7116. Strategic analysis of corporate restructuring including valuation methods, control issues, takeover defense measures, and diversification issues. Departmental approval. May count either FINC 6670 or FINC 6676.

FINC 6680 FINANCIAL ENGINEERING (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or BUSI 7110 or BUSI 7116. Departmental approval. Theory and pricing of derivative securities with emphasis on applying derivative securities in corporate financial risk management.

FINC 7630 HEALTH CARE FINANCE (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or BUSI 7110 or BUSI 7116. Departmental approval. Techniques and analysis of financial management in a health care setting. Emphasis on financial planning and forecasting, budgeting, capital investment analysis in the regulated healthcare marketplace.

FINC 7640 ADVANCED INVESTMENTS (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or (BUSI 7110 or BUSI 7116). Departmental approval. Types of investment securities, regulation and operation of securities markets and the theory and practice of investments.

FINC 7650 APPLIED FINANCIAL MANAGEMENT (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or BUSI 7110. Departmental approval. The integration of financial theory with practice through spreadsheets, case analysis, company analysis, and current topics in finance.

FINC 7660 SECURITY ANALYSIS AND MANAGEMENT (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or (BUSI 7110 or BUSI 7116). Departmental approval. Advanced analytical methods for security valuation, managing investment portfolios, and developing appropriate investment strategies.

FINC 7690 GLOBAL FINANCIAL MARKETS (3) LEC. 3. Analysis and examination of financial institutions and markets in an evolving regulatory and global marketplace for financial services and products.

FINC 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth research and study under the direction of a faculty member. Topics are variable within finance and finance-related areas. Course may be repeated for a maximum of 6 credit hours.

FINC 7970 SPECIAL TOPICS (1-3) DSL. Departmental approval. Specialized topics in finance and finance-related areas not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

FINC 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

FINC 8620 THEORY OF FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or FINC 7640 or FINC 7646. Choice under certainty and uncertainty, time-state preference models, stochastic dominance, the mean-variance criterion, and asset pricing models Miller-Modigliani propositions would be developed.

FINC 8640 INVESTMENTS (3) SEM. 3. Pr. FINC 8620. This course focuses on current literature in Investments. Students should develop the insights necessary to identify problems and conduct research in Investments.

FINC 8650 SEMINAR IN CORPORATE FINANCE (3) SEM. 3. Pr. FINC 86250. This course focuses on current literature in Corporate Finance. Students should develop the insights necessary to identify problems and conduct research in Corporate Finance.

FINC 8690 FINANCIAL MARKETS AND INTERMEDIATION (3) LEC. 3. Pr. FINC 8620. This course focuses on current literature in financial markets and intermediation. Students should develop the insights necessary to identify problems and conduct research in this area.

FINC 8700 SPECIAL TOPICS IN FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or FINC 7640 or FINC 7646. Varies according to faculty and students interests. This could be a course like Options, Futures and Derivatives, or a course with several participating faculty members discussing their own research.

FINC 8800 SEMINAR ON FACULTY RESEARCH AND EXTENSIONS (1-3) LEC. 3. SU. Departmental approval. Rotating faculty members will present their current published and unpublished research. Readings will be assigned. Student/faculty discussions are expected to follow the usual seminar format.

FINC 8880 SEMINAR (1) SEM. SU. Admission to the Ph.D. in Business with a Concentration in Finance. Seminar presentations by visiting scholars, Finance Faculty and Ph.D. students.

FINC 8990 RESEARCH AND DISSERTATION (1-12) DSR. Course may be repeated for a maximum of 60 credit hours.

Fisheries, Aquaculture, and Aquatic Sciences - FISH

Courses

FISH 1100 FISHERIES ORIENTATION (1) LEC. 1. SU. An introduction to the departmental programs and personnel and how to make the most of a future in fisheries.

FISH 1110 DIMENSIONS OF FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1) LEC. 1. Consideration of various aspects of fisheries, aquaculture, and aquatic sciences work, career options as related to individual interests, and career planning. Overview of the different research and extension areas of the School.

FISH 2000 GENERAL BIOLOGY OF FISHES AND AQUATIC ORGANISMS (1) LEC. 1. To introduce students to the anatomy and physiology of fishes, crustaceans, and mollusks to better prepare them to take advanced courses in the School of Fisheries, Aquaculture & Aquatic Sciences.

FISH 2020 GLOBAL AND REGIONAL PERSPECTIVES IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (2) LEC. 2. Overview of historical, biological, ecological, and social aspects of fisheries, aquaculture, and aquatic sciences, including the importance of water, biodiversity, fisheries management, and aquaculture, as well as how to determine reliability of sources, impacts of aquaculture, aquatic organism life cycles, and threatened and endangered species.

FISH 3950 CAREERS IN FISHERIES (1) LEC. 1. SU. Pr. FISH 2100. Consideration of various aspects of fisheries work, career options as related to individual interests, and career planning or departmental approval. Fall.

FISH 4100 INTRODUCTION TO FISHERIES SCIENCES (3) LEC. 2. LAB. 3. Departmental approval. Hands-on field activities and site visits related to aquatic ecology, fisheries biology, and aquaculture.

FISH 4900 DIRECTED STUDIES IN FISHERIES (1-4) IND. SU. Individualized in depth study on a particular subject under the guidance of a professor. May include directed reading and research. Course may be repeated for a maximum of 4 credit hours.

FISH 4920 INTERNSHIP (1-5) INT. SU. Departmental approval. Discipline-related learning while employed with cooperating private industry or public agency. Course may be repeated for a maximum of 5 credit hours.

FISH 4960 SPECIAL PROBLEMS (1-4) LEC. Departmental approval. Individual and group problems investigations in fisheries and allied aquacultures. Course may be repeated for a maximum of 4 credit hours.

FISH 4967 HONORS SPECIAL PROBLEMS (1-4) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 4 credit hours.

FISH 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

FISH 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

FISH 5210 PRINCIPLES OF AQUACULTURE (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Principles underlying aquatic productivity and levels of management as demonstrated by present practices of aquaculture around the world.

FISH 5215 MARINE AQUACULTURE (2) LEC. 1. LAB. 2. Departmental approval. Introduction to culture of marine species with emphasis in nutrition and feeding, reproductive biology, production techniques, processing, marketing and economics. Taught at the Dauphin Island Sea Lab.

FISH 5220 WATER SCIENCE (3) LEC. 3. Pr. CHEM 1040. Properties of water, the water cycle, basic water chemistry and water quality with emphasis on water in managed ecosystems.

FISH 5230 CONSERVATION ECOLOGY OF FRESHWATER INVERTEBRATES (4) LEC. 3. LAB. 1. Foundational knowledge, ecological theory, and illustrative case-studies on conservation issues and solutions for freshwater invertebrates.

FISH 5240 HATCHERY MANAGEMENT (4) LEC. 2. LAB. 8. Pr. FISH 5210 or FISH 6210. Study of warm-water hatchery techniques and application of those techniques in the field.

FISH 5245 SHELLFISH AQUACULTURE IN THE GULF OF MEXICO (2) FLD. 40. One year of college-level Biology or departmental consent. Overview of the various types of shellfish aquaculture practiced in the Gulf of Mexico, and an understanding of the implications for both for public stock enhancement and private production. Taught at Dauphin Island Sea Lab. May count either FISH 5245 or FISH 6245.

FISH 5250 AQUACULTURE PRODUCTION (4) LEC. 3. LAB. 4. Pr. FISH 5210. Factors affecting growth and yield of aquacultural species, with implications toward farming commonly cultured species. Production techniques for commercially important finfish are discussed.

FISH 5320 LIMNOLOGY (3) LEC. 3. Pr. CHEM 1040 and (BIOL 1030 or BIOL 1037). Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of freshwater communities.

FISH 5321 LIMNOLOGY LABORATORY (1) LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1040 and (P/C FISH 5320 or P/C FISH 6320). Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of aquatic communities. May count either FISH 5321 or FISH 6321.

FISH 5380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 6. Pr. BIOL 1030 or BIOL 1037. Survey of the biodiversity of world and local fishes, with an overview of ecology, behavior, biology and conservation of fishes.

FISH 5410 INTRODUCTION TO FISH HEALTH (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Introduction to parasitic, bacterial and viral pathogens of wild and cultured finfish and shellfish.

FISH 5440 FISH ANATOMY AND PHYSIOLOGY (4) LEC. 3. LAB. 4. Gross and microscopic fish anatomy.

FISH 5510 FISHERIES BIOLOGY AND MANAGEMENT (4) LEC. 3. LAB. 4. Pr. BIOL 1030 or BIOL 1037. This course provides a general overview and introduction to fisheries management with emphasis on freshwater examples. The laboratory will provide hands-on field experience. Credit will not be given for both FISH 5510 and FISH 6510.

FISH 5520 SMALL IMPOUNDMENT MANAGEMENT (3) LEC. 5. LAB. 10. Pr. BIOL 1030 or BIOL 1037. Major aspects of primarily recreational fishing pond management, including construction, stocking, water quality management, harvest strategy, diagnosis of problems and communication of analyses.

FISH 5630 FACILITIES FOR AQUACULTURE (3) LEC. 2. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1040. Principles and practice of site selection, design and construction of aquacultural facilities, with emphasis on impoundments and ponds.

FISH 5670 FISHERIES AND AQUACULTURES EXTENSION METHODS (2) LEC. 2. Pr. BIOL 1030 or BIOL 1037 and CHEM 1040. Concepts and practices pertaining to aquacultural extension organization, administration, program development and implementation.

FISH 5710 AQUATIC MICROBIOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Departmental approval. Overview of the diversity, genetics, physiology, and ecology of aquatic microorganisms, with an emphasis on bacteria, archaea and viruses.

FISH 5725 MARINE ICHTHYOLOGY (6) LEC. 6. Pr. BIOL 3060. Departmental approval. General background in the biology of marine fishes and their taxonomy. Offered only at the Gulf Coast Research Laboratory, Ocean Springs, MS. Summer. Admission to the Gulf Coast Research Laboratory.

FISH 5970 TOPICS IN FISHERIES AND ALLIED AQUACULTURES (1-4) LEC. Instruction and discussion in a selected current topic in Fisheries, Aquaculture or Aquatic Sciences. Course may be repeated for a maximum of 4 credit hours.

FISH 6210 PRINCIPLES OF AQUACULTURE (3) LEC. 3. Graduate level standing in FISH or departmental approval. Principles underlying aquatic productivity and levels of management as demonstrated by present practices of aquaculture around the world.

FISH 6215 MARINE AQUACULTURE (2) LEC. 1. LAB. 2. Departmental approval. Introduction to culture of marine species with emphasis in nutrition and feeding, reproductive biology, production techniques, processing, marketing and economics. Taught at the Dauphin Island Sea Lab.

FISH 6220 WATER SCIENCE (3) LEC. 3. Properties of water, the water cycle, basic water chemistry and water quality with emphasis on water in managed ecosystems.

FISH 6230 CONSERVATION ECOLOGY OF FRESHWATER INVERTEBRATES (4) LEC. 3. LAB. 1. Foundational knowledge, ecological theory, and illustrative case-studies on conservation issues and solutions for freshwater invertebrates.

FISH 6240 HATCHERY MANAGEMENT (4) LEC. 4. Study of warm-water hatchery techniques and application of those techniques in the field.

FISH 6245 SHELLFISH AQUACULTURE IN THE GULF OF MEXICO (2) FLD. 40. This course will provide students with an overview of the various types of shellfish aquaculture practiced in the Gulf of Mexico, and an understanding of the implications for both for public stock enhancement and private production. Taught at Dauphin Island Sea Lab. May count either FISH 5245 or FISH 6245.

FISH 6250 AQUACULTURE PRODUCTION (4) LEC. 4. Factors affecting growth and yield of aquacultural species, with implications toward farming commonly cultured species. Production techniques for commercially important finfish are discussed.

FISH 6320 LIMNOLOGY (3) LEC. 3. Graduate level standing in FISH or departmental approval. Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of freshwater communities.

FISH 6321 LIMNOLOGY LABORATORY (1) LAB. 4. Pr. (P/C FISH 5320 or P/C FISH 6320). Graduate level standing in FISH or departmental approval. Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of aquatic communities. May count either FISH 5321 or FISH 6321.

FISH 6380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 6. Graduate level standing in FISH or departmental approval. Survey of the biodiversity of world and local fishes, with an overview of ecology, behavior, biology and conservation of fishes.

FISH 6410 INTRODUCTION TO FISH HEALTH (3) LEC. 3. Introduction to parasitic, bacterial and viral pathogens of wild and cultured finfish and shellfish.

FISH 6425 MARINE FISH DISEASES (4) LEC. 4. Introduction to diseases of marine finfish and shellfish and practical techniques used to isolate and identify diseases.

FISH 6440 FISH ANATOMY AND PHYSIOLOGY (4) LEC. 4. Gross and microscopic fish anatomy.

FISH 6510 FISHERIES BIOLOGY AND MANAGEMENT (4) LEC. 4. This course provides a general overview and introduction to fisheries management with emphasis on freshwater examples. The laboratory will provide hands-on field experience. Credit will not be given for both FISH 5510 and FISH 6510.

FISH 6520 SMALL IMPOUNDMENT MANAGEMENT (3) LEC. 3. Major aspects of primarily recreational fishing pond management, including construction, stocking, water quality management, harvest strategy, diagnosis of problems and communication of analyses.

FISH 6630 FACILITIES FOR AQUACULTURE (3) LEC. 2. LAB. 4. Principles and practice of site selection, design and construction of aquacultural facilities, with emphasis on impoundments and ponds. Odd years.

FISH 6650 FISH AND SEAFOOD PROCESSING TECHNOLOGY (3) LEC. 3. Graduate level standing in FISH or departmental approval. Emphasis on important species, market forms, preservation techniques, and rules and regulations of the seafood industry.

FISH 6670 FISHERIES AND AQUACULTURE EXTENSION METHODS (2) LEC. 2. Concepts and practices pertaining to aquacultural extension organization, administration, program development and implementation.

FISH 6710 AQUATIC MICROBIOLOGY (3) LEC. 3. Overview of the diversity, genetics, physiology, and ecology of aquatic microorganisms, with an emphasis on bacteria, archaea and viruses.

FISH 6725 MARINE ICHTHYOLOGY (6) LEC. 6. General background in the biology of marine fishes and their taxonomy.

FISH 6970 TOPICS IN FISHERIES AND ALLIED AQUACULTURES (1-4) LEC. Instruction and discussion in a selected current topic in Fisheries, Aquaculture or Aquatic Sciences.

FISH 7100 ADVANCED PARASITE TAXONOMY (6) LEC. 2. LAB. 16. Departmental approval. This is a lab-based course for practicing parasitologists. The course instructs students on how to describe a metazoan parasite species.

FISH 7200 MARINE PARASITOLOGY (6) LEC. 2. LAB. 16. Departmental approval. This is an intensive lab-based course for marine parasitologists. Students will collect and identify marine/estuarine parasites of aquatic animals.

FISH 7230 WATER AND SEDIMENT QUALITY MANAGEMENT IN AQUACULTURE (4) LEC. 3. LAB. 3. Pr. FISH 6220. Departmental approval. Advanced treatment of water and sediment quality management in aquaculture. Analytical methods for soil and water quality.

FISH 7240 RESOURCE USE AND ENVIRONMENTAL ISSUES IN AQUACULTURE (2) LEC. 2. Resource use, environmental effects, and sustainability of aquaculture with emphasis on approaches to improving efficiency and reducing negative environmental effects.

FISH 7270 CRUSTACEAN AND MOLLUSCAN AQUACULTURE (4) LEC. 3. LAB. 3. Departmental approval. General biology and culture techniques of the major shrimp, crawfish and shellfish species cultured throughout the world.

FISH 7300 PATHOLOGY OF AQUATIC ORGANISMS (6) LEC. 2. LAB. 16. Departmental approval. Students gain appreciation for histopathological techniques and recognize basic pathological changes to tissues in aquatic organisms.

FISH 7330 RESERVOIR LIMNOLOGY (3) LEC. 2. LAB. 5. Departmental approval. Consideration of the ecological characteristics of reservoirs as they relate to modern concepts of ecosystem management. Even years.

FISH 7340 FISH ECOLOGY (3) LEC. 2. LAB. 3. Graduate level standing in FISH or departmental approval. Study of interactions among fish and their environment. Laboratory will emphasize critical literature reading and experimental approaches.

FISH 7350 META-ANALYSIS (3) LEC. 3. Meta-analysis is a quantitative approach for synthesizing results from diverse research studies (ecology, psychology, medicine, and education) that address a similar hypothesis. Effect sizes calculated from individual studies are combined to elucidate general patterns across studies.

FISH 7360 MANAGEMENT OF AQUATIC FLORA IN FISHERIES AND AQUACULTURE (4) LEC. 3. LAB. 6. Graduate level standing in FISH or departmental approval. Role of aquatic vegetation in fish production, its utilization and control.

FISH 7380 ECOLOGY AND MANAGEMENT OF RIVERINE SYSTEMS (4) LEC. 3. LAB. 3. River systems within a landscape ecology and ecosystem management context. Laboratory sessions stress techniques for assessment and management. Even years.

FISH 7410 MOLECULAR DIAGNOSIS: PRINCIPLES AND APPLICATIONS (3) LEC. 3. Introduction to molecular biology techniques currently used in disease diagnosis.

FISH 7420 FISH DISEASES (3) LEC. 3. Pr. BIOL 3200. Viral, bacterial, fungal and parasitic diseases of fishes, including etiologic agents, geographical ranges, species susceptibility, clinical signs, clinical pathology, epidemiology and management.

FISH 7450 FISH PATHOLOGY (3) LEC. 2. LAB. 3. Departmental approval. Morphological and physiological changes in fish with infectious or non-infectious diseases. Even years.

FISH 7460 CLINICAL FISH DISEASE DIAGNOSIS (1-3) DSL/LEC. Pr. FISH 6410 or FISH 7420. Practical experience in necropsy of diseased fish. Identification of causative agents and prescription of appropriate disease control.

FISH 7530 FISH POPULATION DYNAMICS (3) LEC. 2. LAB. 4. Departmental approval. Derivation of fish population estimates, growth, recruitment and mortality; use of modeling techniques to assess exploited fish populations. Even years.

FISH 7540 QUANTITATIVE TECHNIQUES IN FISHERY ASSESSMENT (3) LEC. 2. LAB. 4. Departmental approval. Quantitative techniques to assess and manage fish populations in freshwater. The laboratory will analyze actual fisheries data using SAS on personal computers. Odd years.

FISH 7640 FISH NUTRITION (3) LEC. 3. Fundamental and applied aspects of fish nutrition, including nutrient requirements, physiology of food assimilation, feed preparation, and practical feeding.

FISH 7650 TRADITIONAL APPROACHES TO FISH GENETIC ENHANCEMENT (2) LEC. 2. Graduate level standing in FISH or departmental approval. This course is intended to teach the philosophy of fish, shellfish and crustacean genetics, selective breeding, genetic management and inheritance.

FISH 7660 MOLECULAR GENETICS AND BIOTECHNOLOGY (4) LEC. 3. LAB. 3. Graduate level standing in FISH or departmental approval. Principles and application of DNA fingerprinting technologies, gene mapping, genetic information and analysis using internet tools, transgenic technologies.

FISH 7715 ADVANCED MARINE ECOLOGY (2) LEC. 2. Departmental approval. Mechanisms that control distribution of plants and animals at scales ranging from individual organism to ecosystem

FISH 7725 MARINE BIOGEOCHEMICAL PROCESSES (2) LEC. 2. Departmental approval. Marine biogeochemical cycling of carbon, nitrogen, sulfur, phosphorus and metals, with emphasis on estuarine systems.

FISH 7750 BIOTECHNOLOGICAL APPROACHES TO FISH GENETICS (2) LEC. 2. Pr. FISH 7650. Departmental approval. This course is intended to teach the philosophy of fish, shellfish and crustacean genetics, genetic management genetic engineering, genomic manipulation and genetic biotechnology.

FISH 7785 PHYSICAL OCEANOGRAPHY (4) LEC. 4. Departmental approval. Describes observed physical setting of the marine environment, and qualitatively explains how and why observed physical phenomena occur.

FISH 7800 PRINCIPLES OF ECOTOXICOLOGY (3) LEC. 3. Ecotoxicology-an interdisciplinary science studies the impacts of pollutants upon the structure and function of ecological systems. The broad scope of ecotoxicology requires a multidisciplinary approach of a variety of specialties, such as ecology, environmental chemistry, and applied biology.

FISH 7900 DIRECTED STUDIES IN FISHERIES I (1-4) IND. SU. Individualized in-depth study on a particular subject under the guidance of a professor. May include directed readings and research. Course may be repeated for a maximum of 4 credit hours.

FISH 7920 INTERNSHIP IN FISHERIES AND AQUACULTURE (1-10) INT. SU. Departmental approval. Field experience in aquaculture, fisheries or aquatic resource management on farm or with research, extension or aquatic management agency. Course may be repeated for a maximum of 10 credit hours.

FISH 7930 GRADUATE SEMINAR SERIES (1) LEC. 1. SU. Acquaint students with current research and related activities.

FISH 7950 GRADUATE RESEARCH SEMINAR (1) SEM. 1. SU. Departmental approval. Oral presentation and discussion of research in the field of specialization.

FISH 7960 SPECIAL PROBLEMS IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1-4) IND. Individual or group project and research in consultation with faculty member on problem in fisheries, aquaculture, and/or aquatic sciences. Course may be repeated for a maximum of 9 credit hours.

FISH 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

FISH 8900 DIRECTED STUDIES IN FISHERIES II (1-4) IND. SU. Individualized in-depth study on a particular subject under the guidance of a professor. May include directed readings and research. Course may be repeated for a maximum of 4 credit hours.

FISH 8930 GRADUATE SEMINAR SERIES (1) LEC. 1. SU. Acquaint students with current research and related activities.

FISH 8950 GRADUATE RESEARCH SEMINAR (1) SEM. 1. SU. Departmental approval. Acquaint students with current research and related activities.

FISH 8960 SPECIAL PROBLEMS IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1-4) IND. Individualized work and research in consultation with faculty member on problem in fisheries, aquaculture, and/or aquatic sciences. Course may be repeated for a maximum of 9 credit hours.

FISH 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Flight Education - AVMF

Courses

AVMF 2141 FLIGHT ORIENTATION (1) LAB. 1. Basic flight experience for non-pilots to familiarize aviation majors, engineers, teachers, and other students desiring a limited exposure to flight. Includes ground discussion and aircraft time. Special fee.

AVMF 2150 PRINCIPLES OF PRIVATE FLIGHT (3) LEC. 3. General introduction and preparation for the FAA Private Pilot Knowledge Test. Theory of flight, aircraft and engine performance, regulations, meteorology, navigation, airspace utilization, and aviation physiology. Special Fee.

AVMF 2171 PRIVATE PILOT FLIGHT TRAINING I (2) LAB. 2. Pr. AVMF 2150. Dual and solo flight instruction and discussion to prepare for FAA Private Pilot Certificate. Special fees. Requires a valid FAA 1st Class Medical Certificate. Departmental approval required.

AVMF 2181 PRIVATE PILOT FLIGHT TRAINING II (2) LAB. 2. Pr. AVMF 2171. Departmental approval. Continuation of AVMF 2171 to prepare for FAA Private Pilot Certification. Special fees. Requires a valid FAA 1st Class Medical certificate and Student Pilot certificate.

AVMF 2230 PRINCIPLES OF INSTRUMENT FLIGHT (3) LEC. 3. Pr. AVMF 2181. Flight instruments, FAA regulations, air traffic procedures, radio navigation, and aircraft operation and performance as applied to instrument flying. Preparation for the FAA Instrument Rating Airplane Aeronautical Knowledge Test (IRA). Special Fee.

AVMF 2241 INSTRUMENT FLIGHT TRAINING I (2) LAB. 2. Pr. AVMF 2230. Instruments, FAA regulations, air traffic control procedures, radio navigation, and aircraft operation and performance as applied to instrument flying. Preparation for the FAA Instrument Rating Practical Test. Special fees. Requires a valid FAA 1st Class Medical Certificate. Departmental approval required.

AVMF 2251 INSTRUMENT FLIGHT TRAINING II (2) LAB. 2. Pr. AVMF 2241. Departmental approval. Continuation of AVMF 2241 in preparation for the FAA Instrument Rating - Airplane Practical Test. Special fees. Requires a valid FAA 1st Class Medical certificate.

AVMF 2260 PRINCIPLES OF COMMERCIAL FLIGHT (3) LEC. 3. Pr. AVMF 2251. FAA regulations, high altitude operations, aerodynamics, commercial flight maneuvers, environmental, ice control, retractable landing gear, and aircraft performance as applied to commercial flying. Preparation for the FAA Commercial Pilot Aeronautical Knowledge Test (CAX). Special Fee.

AVMF 2261 COMMERCIAL PILOT FLIGHT TRAINING I (2) LAB. 2. Pr. AVMF 2251. Flight training toward FAA Commercial Pilot Certification. Special fees. Requires a valid FAA 1st Class Medical certificate. Departmental approval required.

AVMF 2271 COMMERCIAL PILOT FLIGHT TRAINING II (2) LAB. 2. Pr. AVMF 2261. Continuation of AVMF 2261 towards FAA Commercial Pilot Certification. Emphasis on advanced commercial maneuvers, and cross country flying. Special fees. Requires a valid FAA 1st Class Medical certificate. Departmental approval required.

AVMF 4271 MULTI-ENGINE FLIGHT TRAINING (2) LAB. 2. Pr. AVMF 2271. Specialized instruction in methods and techniques of multi-engine airplane operations. Sufficient ground and flight instruction is given towards an FAA Multi-Engine Airplane Rating. Special fees. Requires a valid FAA 1st Class Medical certificate. Departmental approval required.

AVMF 4280 PRINCIPLES OF FLIGHT INSTRUCTION (3) LEC. 3. Pr. AVMF 4271. Principles of teaching as applied to instructing, analyzing, and evaluating flight students. Emphasis is on preparation for the FAA Fundamentals of Instructing (FOI) and the Flight Instructor-Airplane (FIA) Aeronautical Knowledge Tests. Special Fee.

AVMF 4281 FLIGHT INSTRUCTION TRAINING (3) LAB. 3. Discussion, instruction and arranged practice in flight instruction in preparation for the FAA Flight Instructor Certification with an Airplane Single-Engine rating. Special fees. Requires a valid FAA 1st Class Medical certificate. Departmental approval required.

AVMF 4310 TRANSPORT CATEGORY AIRCRAFT SYSTEMS (3) LEC. 3. Pr. P/C AVMF 2260. Study of design and operation of the major systems in transport category aircraft, using the Boeing 737 as a model. Systems include turbine engine, fuel, lubrication, electrical, hydraulic, pneumatic, pressurization, environmental control, and flight management. Also examines the use of normal checklists, the Quick Reference Handbook (QRH), Minimum Equipment List (MEL), and Configuration Deviation List (CDL). School of Aviation, Junior or Senior, or Departmental approval required.

AVMF 4320 AIRLINE TRANSPORT CATEGORY SYSTEMS AND PROCEDURES (4) LEC. 3. LAB. 1. Pr. AVMF 2250 or AVMF 2260. Airbus A320 systems and operational procedures (normal, abnormal, and emergency). Part 121 carrier flight and crew management. Special fee.

AVMF 4331 TRANSPORT AIRCRAFT FLIGHT TRAINING (2) LAB. 2. Departmental approval. Includes instrument and night instruction, emergency procedures and actual air transportation operations. Preparation for the Airline Transport Pilot Certification, if otherwise qualified. Special fees. Requires a valid FAA 1st Class Medical Certificate.

AVMF 4351 INSTRUMENT FLIGHT INSTRUCTOR TRAINING (2) LAB. 2. Discussion, instruction, and arranged practice in instrument flight instruction in preparation for FAA Instrument-Airplane Flight Instructor Certification. Special fees. Requires a valid FAA 1st Class Medical certificate. Departmental approval required.

AVMF 4371 MULTI-ENGINE FLIGHT INSTRUCTOR TRAINING (2) LAB. 2. Departmental approval. Discussion, instruction and arranged practice in multi-engine flight instruction in preparation for FAA Multi-Engine Airplane Flight Instructor Certification. Special fees. Requires a valid FAA 1st Class Medical certificate and Flight Instructor Certificate (ASE).

AVMF 4400 APPLIED AERODYNAMICS AND PROPULSION SYSTEMS (3) LEC. 3. Pr. PHYS 1400 or PHYS 1000. Private Pilot Certificate or departmental approval. The principles of aerodynamics and propulsion and how aerodynamic factors affect lift, thrust, drag, in-air performance, stability, and flight control.

Food Science - FDSC

Courses

FDSC 1000 INTRODUCTORY FOOD SCIENCE (3) LEC. 3. Overview of food science discipline including food selection, food composition, food safety and sanitation, food processing, packaging, commodity types, and food laws.

FDSC 4290 PROFESSIONAL DEVELOPMENT IN FOOD SCIENCE (1) LEC. 1. Preparing for careers; enhancing computer and communication skills; planning for professional advancement.

FDSC 4920 FOOD SCIENCE INTERNSHIP (3) INT. 3. Departmental approval. Practical on-the-job training in the food industry. Course may be repeated for a maximum of 9 credit hours.

FDSC 4960 SPECIAL PROBLEMS IN FOOD SCIENCE (1-3) IND. 2.50 GPA or departmental approval. Individual or group projects with a faculty member in food science. May include literary research, data analysis or a combination of these. Course may be repeated for a maximum of 6 credit hours.

FDSC 4970 SPECIAL TOPICS (1-4) LEC. Departmental approval. Instruction and discussion of current topics associated with food science. Course may be repeated for 8 hours. Course may be repeated for a maximum of 8 credit hours.

FDSC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

FDSC 5660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 1. Pr. BIOL 3200. Introduction to basic and applied microbiology in food; including how bacteria, viruses, parasites, yeasts and molds affect and are in turn affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6660 or BIOL 6660.

FDSC 6660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 1. Pr. BIOL 3200. Introduction to basic and applied microbiology in food; including how bacteria, viruses, parasites, yeasts and molds affect and are in turn affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6660 or BIOL 6660.

FDSC 7430 FLAVOR CHEMISTRY (3) LEC. 3. Chemistry of flavor compounds; Analytical approaches and sensory evaluation to characterize flavor.

FDSC 7600 MOLECULAR PATHOGENESIS OF FOODBORNE PATHOGENS (3) LEC. 3. Pr. BIOL 6260 or VBMS 7460. This course covers a detailed description of major foodborne pathogens that affect human health and their pathogenesis. Lectures will detail how the pathogen's adherence and invasion, host dissemination, and host cell damage lead to pathogenesis.

FDSC 7730 SENSORY EVALUATION (3) LEC. 2. LAB. 2. History and methods of sensory testing of food products, factors affecting results.

FDSC 7950 GRADUATE SEMINAR (1) SEM. 1. Literature in poultry science, food science or related field. Emphasis given to preparation, organization, and presentation of research materials and to reporting current literature in the field. May count either POUL 7950 or FDSC 7950. Course may be repeated for a maximum of 3 credit hours.

FDSC 7960 SPECIAL PROBLEMS (1-4) IND/ST1. Departmental approval. Critical analysis of classic and current research. Course may be repeated for a maximum of 8 credit hours.

FDSC 7970 SPECIAL TOPICS IN FOOD SCIENCE (1-4) LEC. Instruction and discussion of current advanced topics associated with food science. Course may be repeated for a maximum of 8 credit hours.

FDSC 7980 NONTHESIS RESEARCH (1-4) RES. Departmental approval. enrolled as FDSG MAg student. Research conducted as part of the Master of Agriculture degree.

FDSC 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Research in an area of specialization. Course may be repeated with change in topic.

FDSC 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Research in an area of specialization. Course may be repeated with change in topic.

Forest Engineering - FOEN

Courses

FOEN 3040 FOREST SURVEYING (2) PRA. 2. Basic land surveying concepts and procedures as applied to Forestry. Use of basic surveying instruments and calculations for land areas, boundaries, and topographic features. Summer.

FOEN 4970 SPECIAL TOPICS (1-4) LEC. Departmental approval. Individual or small group study of a specialized area in forest engineering. Fall, Spring, and Summer. Course may be repeated for a maximum of 8 credit hours.

FOEN 5700 HARVESTING (3) LEC. 2. LAB. 3. Pr. FORY 3180. Analysis of the administration of timber harvest, equipment choice, planning methods, movement of timber products, machine and system costs, balancing of harvesting systems, logging safety, and environmental impact.

FOEN 5710 SYSTEMS ANALYSIS FOR FORESTRY AND BIOLOGICAL OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 2210 and (STAT 3010 or STAT 2510). Junior standing or greater. Analysis methods for timber harvesting productivity and costs including gathering of time and production data, preparation of data for analysis and statistical modeling.

FOEN 6230 ENGINEERED WOOD STRUCTURE DESIGN (3) LEC. 2. LAB. 3. Pr. ENGR 2070. Load, deflection criteria; engineering characteristics of wood; designing wood components and mechanical connections; shear walls and diaphragms; trusses; bridges; post-frame construction.

FOEN 6700 HARVESTING (3) LEC. 2. LAB. 3. Pr. FORY 3180. Analysis of the administration of timber harvest, equipment choice, planning methods, movement of timber products, machine and system costs, balancing of harvesting systems, logging safety, and environmental impact.

FOEN 6710 OPERATIONS ANALYSIS IN BIOSYSTEMS AND FORESTRY (3) LEC. 2. LAB. 3. Analysis methods for timber harvesting productivity and costs including gathering of time and production data, preparation of data for analysis and statistical modeling.

FOEN 7970 SPECIAL TOPICS (1-4) LEC. Departmental approval. Individual or small group study of an advanced specialized area in forest engineering. Fall, Spring, and Summer. Course may be repeated for a maximum of 12 credit hours.

Forest Products - FOPR

Courses

FOPR 7970 SPECIAL TOPICS (1-4) IND. Departmental approval. Analysis of a problem in forest products or wood science involving library research, laboratory or field work and a report on the findings. Fall, Spring, and Summer. Course may be repeated for a maximum of 12 credit hours.

FOPR 7990 RESEARCH AND THESIS (1-15) MST. Credit to be arranged. Course may be repeated with change in topics.

FOPR 8970 SPECIAL TOPICS (1-4) IND. Departmental approval. Analysis of a problem in forest products or wood science involving library research, laboratory or field work and a report on the findings. Course may be repeated for a maximum of 12 credit hours.

Forestry & Wildlife Sciences - FOWS

Courses

FOWS 1010 INTRODUCTION TO RENEWABLE NATURAL RESOURCES (1) LEC. 1. Introduction to the wealth and breadth of renewable natural resources in the state, region, nation, and world. Speakers cover topics in forestry, wildlife, water, and soil.

FOWS 1020 SCIENCE OF NATURE I (3) LEC. 3. Coreq. FOWS 1021. Introduction to how the natural world is relevant to society. Lectures will focus on connections using the scientific method to assess ecosystems and the effects human use has on them. The course will develop engaged citizens for our planet by helping students to see how science helps identify and solve real natural resources problems.

FOWS 1021 SCIENCE OF NATURE I LABORATORY (1) LAB. 1. Coreq. FOWS 1020. Hands on learning using both laboratory and field exercises to introduce students to how the natural world is relevant to society and its success.

FOWS 1030 SCIENCE OF NATURE II (3) LEC. 3. Pr. FOWS 1020. Coreq. FOWS 1031. In depth exposure for students to think critically about the issues in the natural world, including the history of natural resource use in North America. Students will delve deeper into specific natural resource topics with a focus on the habitats and ecosystems of Alabama including issues on how the natural world is relevant to society.

FOWS 1031 SCIENCE OF NATURE II LABORATORY (1) LAB. 1. Coreq. FOWS 1030. In depth exposure using both laboratory and field exercises to introduce students to how the natural world is relevant to society. As part of the course students will collect real-world data, analyze it, summarize it, and disseminate it for use by the public.

FOWS 1040 CLIMATE SCIENCE I (3) LEC. 3. LAB. 0. Coreq. FOWS 1041. Basics of the Earth’s climate system including atmospheric environment, the energy budget, and biogeochemical cycles. Knowledge of the greenhouse effect, major greenhouse gases (GHG), and their sources and the consequences on Climate Change.

FOWS 1041 CLIMATE SCIENCE I - LABORATORY (1) LEC. 0. LAB. 3. Coreq. FOWS 1040. A field and laboratory course with student exercises designed to introduce students to the basics of Climate Science.

FOWS 1050 CLIMATE SCIENCE II (3) LEC. 3. LAB. 0. Pr. FOWS 1040 and FOWS 1041. Coreq. FOWS 1051. Enhanced examination of the Climate Science and causes of climate change and its impacts on natural and managed ecosystems, natural resources, wildlife, and human health, locally, regionally and internationally.

FOWS 1051 CLIMATE SCIENCE II - LABORATORY (1) LAB. 3. Pr. FOWS 1040 and FOWS 1041. Coreq. FOWS 1050. A field and laboratory course with student exercises designed to bring together concepts discussed and examined in lecture (FOWS 1050) for students to analyze and summarize for decision making.

FOWS 2030 INTRO TO ENVIRON EDUCATION (3) LEC. 3. Students will learn about the historical and theoretical foundations of environmental education while participating in experiential learning exercises.

FOWS 2060 INTRODUCTION TO FORESTED LANDSCAPES (2) LEC. 2. Pr. BIOL 1020 or BIOL 1027. This course will serve as an introduction to forest tree biology, forest types of North America, forest ecology and tree identification. The overall course objective is to introduce students to important concepts in forest ecosystem science and management.

FOWS 3500 FORESTRY, ENVIRONMENT & WILDLIFE LEADERSHIP ACADEMY I (1) LEC. 1. SU. Departmental approval. FEWL Academy I is designed to introduce students to the basic leadership styles that are necessary for critical problem solving in issues related to the management, utilization, and stewardship of natural resources.

FOWS 3510 FORESTRY, ENVIRONMENT & WILDLIFE LEADERSHIP ACADEMY II (1) LEC. 1. SU. Pr. FOWS 3500. Departmental approval. FEWL Academy II is designed to allow students to apply the leadership styles introduced in FOWS 3500 necessary for critical problem solving in issues related to the management, utilization, and stewardship of natural resources.

FOWS 3800 INTRODUCTION TO THE ROLE OF FORESTS ON HUMAN HEALTH AND LIVELIHOODS IN SOUTH AFRICA AND MA (1) LEC. 1. This course is intended to prepare students for the study abroad trip to South Africa and Madagascar (FOWS 3810). Students will gain knowledge as to cultural practices of South Africa and Madagascar, issues faced by communities and the role forests play in livelihoods and human health. Knowledge and theoretical approaches to various issues to ensure the well-being of people, animals and environment through collaborative multidisciplinary problem solving will be introduced and discussed.

FOWS 3810 ROLE OF FORESTS ON HUMAN HEALTH AND LIVELIHOODS IN SOUTH AFRICA AND MADAGASCAR (4) AAB. 4. Pr. FOWS 3800. This is a study abroad course, students will travel to South Africa and Madagascar to learn about the importance of trees for rural community livelihood and human health. Using the knowledge obtained in the pre-requisite theoretical course (FOWS 3800) students will interact with communities and researchers in South Africa and Madagascar to witness and learn about putting theory into action. Students will witness how issues, discussed in FOWS 3800, are addressed through collaborative, multi-disciplinary problem solving that results in unique approaches to ensure the well-being of people, animals and the environment.

FOWS 3850 PROFESSIONAL PREPARATION IN FORESTRY, WILDLIFE, AND THE ENVIRONMENT (1) LEC. 1. Assessment of career opportunities. Prepares students for their CFWE internship and post-graduation employment and career development.

FOWS 3950 UNDERGRADUATE SEMINAR (1) LEC. 1. Students will practice speaking in front of a scientific audience, learn to research topics, and organize presentations for professional audiences, faculty, and other students.

FOWS 4970 SPECIAL TOPICS (1-4) LEC. 1-4. Overview of forest soil composition, formation, biota, classification, chemistry, ecology, and sustainable management. Course may be repeated for a maximum of 8 credit hours.

FOWS 4980 UNDERGRADUATE RESEARCH (1-4) IND. Departmental approval. Directed research in the area of specialty under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

FOWS 5210 RESTORATION ECOLOGY (3) LEC. 3. Pr. BIOL 1030. Overview of the history, science, ethics, and current practice of restoration ecology to recognize and understand the need for restoration.

FOWS 5220 LANDSCAPE ECOLOGY (3) LEC. 3. Pr. BIOL 3060 or FORY 4230. Ecological effects and management of heterogeneous spatial pattern on ecosystems over large areas. May count either FOWS 5220 or FOWS 6220.

FOWS 5230 FOREST STAND DYNAMICS (3) LEC. 3. Pr. BIOL 1030. Forest stand dynamics studies the changes in stand structure over time. Examines phases of stand development and how we can help and aid forest, wildlife, and restoration management decisions.

FOWS 5240 FIRE ECOLOGY (3) LEC. 3. Pr. BIOL 1030. Examines the history of fire management, fire behavior, fuel management and models, ignition techniques, fire suppression techniques, urban interface, smoke management, fire weather, elements of a prescribed burn plan, fire and wildlife, and outreach.

FOWS 5250 LONGLEAF PINE ECOLOGY, MANAGEMENT, AND RESTORATION (3) LEC. 3. Pr. BIOL 1030. Covers the ecology of the once-dominant species, the role fire played in maintaining these ecosystems, management possibilities, conversion to longleaf pine, and an overview of the current restoration efforts.

FOWS 5260 FOREST WETLANDS RESTORATION ECOLOGY (3) LEC. 3. Pr. BIOL 3060 or FORY 4230. History and policy of wetlands destruction and restoration, wetland classification and inventory, techniques for assessing wetland functions, and techniques for forest wetlands restoration.

FOWS 5270 NATURAL RESOURCE POLICY (3) LEC. 3. Departmental approval. Examination of attitudes, philosophies and policies that govern management of the natural resource.

FOWS 5340 INVASION ECOLOGY (3) LEC. 3. The history, ecology, and management issues pertaining to non-native invasive species will be examined and discussed.

FOWS 5450 CONFLICT AND COLLABORATION IN NATURAL RESOURCES MANAGEMENT (3) DSL. Overview of issues, theories, and approaches to conflict management and collaboration in natural resources. Topics include conflict management, collaborative processes, and negotiation; tools and frameworks for analyzing conflict; and evolving management approaches to natural resource conflict.

FOWS 5620 NATURAL RESOURCE FINANCE AND INVESTMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Principles of corporate and real estate finance as applied to natural resources and the place of natural resources in individual and institutional portfolios. May count one of: FORY 6620, FOWS 5620, FOWS 6620.

FOWS 6210 RESTORATION ECOLOGY (3) LEC. 3. Overview of the history, science, ethics, and current practice of restoration ecology to recognize and understand the need for restoration.

FOWS 6220 LANDSCAPE ECOLOGY (3) LEC. 3. Ecological effects and management of heterogeneous spatial pattern on ecosystems over large areas. May count either FOWS 5220 or FOWS 6220.

FOWS 6230 FOREST STAND DYNAMICS (3) LEC. 3. Forest stand dynamics studies the changes in stand structure over time. Examines phases of stand development and how we can help and aid forest, wildlife, and restoration management decisions.

FOWS 6240 FIRE ECOLOGY (3) LEC. 3. Examines history of fire management, fire behavior, fuel management and models, ignition techniques, fire suppression techniques, urban interface, smoke management, fire weather, elements of a prescribed burn plan, fire and wildlife, and outreach.

FOWS 6250 LONGLEAF PINE ECOLOGY, MANAGEMENT, AND RESTORATION (3) LEC. 3. Covers the ecology of the once-dominant species, the role fire played in maintaining these ecosystems, management possibilities, conversion to longleaf pine, and an overview of the current restoration efforts.

FOWS 6260 FOREST WETLANDS RESTORATION ECOLOGY (3) LEC. 3. This course will cover the history and policy of wetlands destruction and restoration, wetland classification and inventory, techniques for assessing wetland functions, and techniques for forest wetlands restoration.

FOWS 6270 NATURAL RESOURCE POLICY (3) LEC. 3. Departmental approval. Examination of attitudes, philosophies and policies that govern management of the natural resource.

FOWS 6340 INVASION ECOLOGY (3) LEC. 3. The history, ecology, and management issues pertaining to non-native invasive species will be examined and discussed.

FOWS 6450 CONFLICT AND COLLABORATION IN NATURAL RESOURCE MANAGEMENT (3) DSL. 45. Overview of issues, theories, and approaches to conflict management and collaboration in natural resources. Topics include conflict management, collaborative processes, and negotiation; tools and frameworks for analyzing conflict; and evolving management approaches to natural resource conflict.

FOWS 6620 NATURAL RESOURCE FINANCE AND INVESTMENT (3) LEC. 3. Principles of corporate and real estate finance as applied to natural resources and the place of natural resources in individual and institutional portfolios. May count either FORY 5620 or FORY 6620.

FOWS 7150 SPATIAL STATISTICS FOR NATURAL RESOURCES (3) LEC. 3. LAB. 1. Applications of spatial statistics in the natural resources. Three types of spatial data including point pattern data, geostatistical data and lattice (areal) data will be covered to introduce basic concepts, theories and methodology of spatial (spatial-tempo) data analyses and modeling.

FOWS 7200 DISEASE ECOLOGY (3) LEC. 3. Discusses the critical importance of relationships between human and animal diseases and the ecology of vectors, pathogens and the environment.

FOWS 7220 FOREST HISTORY OF ALABAMA AND THE SOUTHEASTERN UNITED STATES (3) LEC. 3. This course will focus on the natural, human and societal factors that influenced forests and land management in the southeastern United States from the 1700s to present. FOWS 7220 or FOWS 7226.

FOWS 7260 FOREST WETLANDS RESTORATION ECOLOGY (3) DSL. This course will cover the history and policy of wetlands destruction and restoration, wetland classification and inventory, techniques for assessing wetland functions, and techniques for forest wetlands restoration.

FOWS 7270 WETLANDS POLICY (3) LEC. 3. This course will cover historical development of wetland protection and will discuss current U.S. and international wetland policies.

FOWS 7300 CURRENT TOPICS IN ONE HEALTH (1) LEC. 1. The One Health concept refers to connections among health of people, animals and ecosystems and is used as a framework for addressing health related problems. Course explores the concept from the perspective of current and relevant health issues. Course may be repeated for a maximum of 2 credit hours.

FOWS 7400 INTRODUCTION TO PUBLIC HEALTH (3) DSL. 3. This is a survey course intended to provide an introduction to and overview of the wide-ranging field of Public Health.

FOWS 7480 ADVANCED NATURAL RESOURCE POLICY (3) LEC. 3. Pr. FORY 5400 or FORY 6400. Policy process and players, theory and evolution of property rights, public choice theory, land ethics, policy analysis, programs and statutory laws, forest policy in an international context.

FOWS 7500 OUTBREAKS TO PANDEMICS: EMERGING INFECTIOUS DISEASES IN A MODERN WORLD (2) DSL. This course explores modern and historical disease outbreaks, particularly zoonotic emerging infectious diseases. Students will understand key approaches necessary to contain and halt infectious diseases. Students will learn about multisectoral emergency responses to outbreaks and about the strengths and weaknesses of health systems during epidemics.

FOWS 7950 GRADUATE SEMINAR (1) SEM. 1. Students develop ability and confidence in making oral presentations based upon research and provide constructive criticism of their peers' presentations.

FOWS 7970 SPECIAL TOPICS (1-4) IND. Analysis of a problem in the natural resources, forestry, wildlife arena involving lectures, discussions, laboratory for field work. Department approval and agreement with faculty and students. Course may be repeated for a maximum of 12 credit hours.

Forestry - FORY

Courses

FORY 3010 FOREST SOILS (3) LEC. 2. LAB. 3. Pr. CHEM 1010 or CHEM 1030. Overview of forest soil composition, formation, biota, classification, chemistry, ecology, and management.

FORY 3020 FOREST BIOLOGY (3) LEC. 1. LAB. 3. Field exposure to important principles of forest biology and some examples of their applications to forest resources; identification of major tree species and critical analysis of forest stand structure. Summer.

FORY 3050 FIELD MENSURATION (4) LEC. 1. LAB. 3. Basic concepts and procedures for measuring trees, stands and other forest resources; units of measure, log rules, volume tables, condition class mapping and timber estimation. Summer.

FORY 3060 INTRODUCTION TO FOREST MANAGEMENT STRATEGIES (1) LEC. 1. LAB. 3. Biological, social, and economic principles underlying forest management strategies, the diversity of forestry enterprises, and the complexities facing forest managers. Summer.

FORY 3100 DENDROLOGY (3) LEC. 2. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) or FORY 3020. Taxonomy and identification of important forest trees of the U.S., including cover types of forest regions.

FORY 3180 FOREST RESOURCE SAMPLING (3) LEC. 2. LAB. 3. Pr. FORY 3050. Theoretical and empirical estimates of tree and log volumes, tree taper, and yield tables. Sampling design and analysis to estimate current conditions of timber stands.

FORY 3200 FOREST TREE PHYSIOLOGY (3) LEC. 3. Pr. FORY 3020. Relationship between cultural, environmental and genetic factors that affect metabolism and growth of individual trees.

FORY 3500 FORESTRY FOR SMALL WOODLAND OWNERS (3) LEC. 3. An appreciation of forest trees and the environment, the environmental functions of trees, and the economic potential of a balanced land-use plan.

FORY 4190 FOREST BIOMETRICS (3) LEC. 2. LAB. 3. Pr. FORY 3180. Factors affecting and mathematical principles of tree-volume and stand growth.

FORY 4230 FOREST ECOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Forests as functional systems, the biotic and abiotic environment, temporal changes in ecosystem structure and function, application of ecological information.

FORY 4260 LONGLEAF PINE: HISTORY, ECOLOGY, MANAGEMENT, AND RESTORATION (2) LEC. 2. History of forestry in the south, focusing on the longleaf pine ecosystem. Also, information on species that are part of the longleaf ecosystem, comparisons with other southern pines, and management and restoration techniques.

FORY 4450 FOREST SECTOR ECONOMICS (3) LEC. 3. Pr. FORY 5400. Status, trend, employment and other fundamentals of forest industry. Timber supply and demand, forest products supply and demand, technological change, international trade.

FORY 4830 INDUSTRIAL WOOD PROCUREMENT PRACTICUM (1) PRA. 2. SU. Pr. FORY 3050. Strategies, field and office procedures involved in purchasing wood for an industrial forestry firm. Taught as a weekend field exercise at Solon Dixon Forest Education Center. Course may be repeated for a maximum of 2 credit hours.

FORY 4930 DIRECTED STUDY (1-3) AAB/IND. Departmental approval. Fall, Spring, and Summer. Course may be repeated for a maximum of 6 credit hours.

FORY 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Topics of an undergraduate nature pertinent to Forestry. Course may be repeated for a maximum of 3 credit hours.

FORY 4970 SPECIAL TOPICS (1-4) AAB/LEC. Course may be repeated for a maximum of 8 credit hours.

FORY 4980 SENIOR CAPSTONE PROJECT (1-4) LAB. 1-4. Pr. FORY 5230 and FORY 5410. Integrated study of Forest Resource Management using a case-study approach through development of a comprehensive plan related to the declared emphasis. Spring. Course may be repeated for a maximum of 4 credit hours.

FORY 5140 FOREST REGENERATION AND SEEDLING PRODUCTION (3) LEC. 3. Pr. P/C FORY 4230 or P/C HORT 3220. Principles of forest nursery seedling culture. Evaluation of activities to improve out planting performance. Plantation establishment problems and practices in Southern US.

FORY 5150 FOREST HEALTH (3) LEC. 3. Pr. FORY 3020 or BIOL 3060. Importance, taxonomy, identification and integrated pest management strategies of principle disease, insect and abiotic disorders of forest and shade trees from seedlings to maturity and forest products.

FORY 5151 FOREST HEALTH LABORATORY (1) LAB. 1. Coreq. FORY 5150. Identification of basic diseases and insects that affect forest health along with identification of their damage; the processes of pathogen infection and symptomology; and the process of wood decay studied in a laboratory and field environment. Credit will not be given for both FORY 5151 and FORY 6151.

FORY 5230 SILVICULTURE (4) LEC. 3. LAB. 3. Pr. FORY 4230 or BIOL 5140 or BIOL 3060 or BSEN 3230. Principles and methods of controlling establishment, growth and quality of forest stands. Application of ecological principles to manipulation of forest ecosystems to meet specific objectives.

FORY 5360 CONSULTING FORESTRY (2) LEC. Business and professional requirements of forest resource management consulting. Presentations will be provided by consulting foresters, and analyses of the services they provide will be covered.

FORY 5400 FOREST ECONOMICS (3) LEC. 2. LAB. 3. Pr. FORY 3180. Marginal analysis, investment theory, resource supply, economics of conservation, and taxation principles applied to forestry. Structure and performance of forest products markets.

FORY 5410 FOREST MANAGEMENT AND ADMINISTRATION (3) LEC. 2. LAB. 3. Pr. FORY 5400 and FORY 4190. Quantitative approaches to decision making in Forestry with an emphasis on the interests of large scale firms and agencies.

FORY 5440 INTERNATIONAL FORESTRY (3) LEC. 3. Survey global forest location, characteristics, management systems, international forest products trade, current issues, and international forest governance.

FORY 5460 FOREST FIRE MANAGEMENT (3) LLB. Pr. FORY 4230 or BIOL 3060. The management of fire, both as a tool and wildfire suppression in the management of forested ecosystems. Emphasis placed on experience, technique and administration.

FORY 5470 GIS APPLICATIONS IN NATURAL RESOURCES (2) LEC. 1. LAB. 3. Basic understanding of GIS through discussion of the basic components of a GIS and how GIS are used in forestry applications.

FORY 5480 GIS DATABASE DESIGN AND ANALYSIS (3) LEC. 3. Pr. GSEI 5800 or COMP 1220 or GEOG 5890. Departmental approval. Geographic information system database planning, design, creation, management and analysis using a project oriented approach.

FORY 5540 ENVIRONMENTAL LAW (3) LEC. 3. A review of environmental law including common and administrative law, land use, and Federal statues on water, air, toxins and waste. May count either FORY 5540 or FORY 6540.

FORY 5550 PROPERTY LAW (3) LEC. 3. Land ownership, transfer and management including trespass, nuisance, adverse possession, easements, concurrent ownership, land use regulations and regulatory takings. May count either FORY 4550 or FORY 5550/6550.

FORY 5620 FOREST FINANCE AND INVESTMENT (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Principles of corporate and real estate finance as applied to commercial timberland and its place in individual and institutional portfolios. May count either FORY 5620 or FORY 6620.

FORY 5650 URBAN FORESTRY (3) LEC. 2. LAB. 3. Pr. FORY 3100 or HORT 3200. Principles and concepts of tree establishment, management and health in an urban environment. Case studies of urban forestry programs are presented.

FORY 5820 FORESTRY IN THE PRIVATE SECTOR (3) SEM. 3. Pr. FORY 3050. Management systems and practices used in wood purchasing, timber harvesting and timberland management including public relations, forest sustainability, certification and personal business skills.

FORY 6140 FOREST REGENERATION AND SEEDLING PRODUCTION (3) LEC. 3. Pr. P/C FORY 4230 or P/C HORT 3220. Principles of forest nursery seedling culture. Evaluation of activities to improve out planting performance. Plantation establishment problems and practices in Southern US.

FORY 6150 FOREST HEALTH (3) LEC. 3. Importance, taxonomy, identification and integrated pest management strategies of principle disease, insect and abiotic disorders of forest and shade trees from seedlings to maturity and forest products.

FORY 6151 FOREST HEALTH LABORATORY (1) LAB. 1. Coreq. FORY 6150. Identification of basic diseases and insects that affect forest health along with identification of their damage; the processes of pathogen infection and symptomology; and the process of wood decay studied in a laboratory and field environment. Credit will not be given for both FORY 5151 and FORY 6151.

FORY 6230 SILVICULTURE (4) LEC. 3. LAB. 3. Pr. FORY 4230 or BIOL 3060 or BIOL 5140 or BIOL 6140 or BSEN 3230. Principles and methods of controlling establishment, growth and quality of forest stands. Application of ecological principles to manipulation of forest ecosystems to meet specific objectives.

FORY 6360 CONSULTING FORESTRY (2) LEC. Business and professional requirements of forest resource management consulting. Presentations will be provided by consulting foresters, and analyses of the services they provide will be covered.

FORY 6400 FOREST ECONOMICS (3) LEC. 2. LAB. 3. Pr. FORY 3180. Marginal analysis, investment theory, resource supply, economics of conservation, and taxation principles applied to forestry. Structure and performance of forest products markets.

FORY 6410 FOREST MANAGEMENT AND ADMINISTRATION (3) LEC. 2. LAB. 3. Pr. (FORY 5400 or FORY 6400) and (FORY 4190). Quantitative approaches to decision making in Forestry with an emphasis on the interests of large scale firms and agencies.

FORY 6440 INTERNATIONAL FORESTRY (3) LEC. 30. Survey global forest location, characteristics, management systems, international forest products trade, current issues, and international forest governance.

FORY 6460 FOREST FIRE MANAGEMENT (3) LLB. The management of fire, both as a tool and wildfire suppression in the management of forested ecosystems. Emphasis placed on experience, technique and administration.

FORY 6470 GIS APPLICATIONS IN NATURAL RESOURCES (2) LEC. 1. LAB. 3. Basic understanding of GIS through discussions of the components of a GIS and how GIS are used in natural resource applications.

FORY 6480 GIS DATABASE DESIGN AND ANALYSIS (3) LEC. 3. Departmental approval. Geographic information system database planning, design, creation, management and analysis using a project oriented approach.

FORY 6540 ENVIRONMENTAL LAW (3) LEC. 3. A review of environmental law including common and administrative law, land use, and Federal statues on water, air, toxins and wastes. May count either FORY 5540 or FORY 6540.

FORY 6550 PROPERTY LAW (3) LEC. 3. Land ownership, transfer and management including trespass, nuisance, adverse possession, easements, concurrent ownership, land use regulations and regulatory takings. May count either FORY 4550 or FORY 5550/6550.

FORY 6650 URBAN FORESTRY (3) LEC. 2. LAB. 3. Pr. FORY 3100 or HORT 3200. Principles and concepts of tree establishment, management and health in an urban environment. Case studies of urban forestry programs are presented.

FORY 6820 FORESTRY IN THE PRIVATE SECTOR (3) SEM. 3. Management systems and practices used in wood purchasing, timber harvesting and timberland management including public relations, forest sustainability, certification and personal business skills.

FORY 7110 FOREST BIOGEOCHEMISTRY (3) LEC. 2. LAB. 3. Pr. FORY 6230. Fundamental and applied aspects of forest biogeochemical processes at scales of the individual tree, forest community, and forest ecosystem.

FORY 7160 ECOSYSTEM RESPONSES TO CHEMICAL CLIMATE CHANGE (3) LEC. 2. LAB. 3. Plant responses to changes in the chemical climate. Emphasis on sources, effects, methodologies used and ecosystem and global effects.

FORY 7170 ECOPHYSIOLOGY OF FOREST TREES (3) LEC. 3. Pr. BIOL 3100 or FORY 3200. Interactions among the environment, silvicultural practices, physiological mechanisms and tree growth. Integration of root, shoot and foliar functions and leaf, tree and stand level processes.

FORY 7210 ECOSYSTEM ECOLOGY (3) LEC. 3. Pr. BIOL 3060 or FORY 4230 or BIOL 5140 or BIOL 6140. To create a conceptual model of the terrestrial ecosystem including spatial distributions over time; and the impact of human activity and natural disturbance.

FORY 7250 ADVANCED ECOSYSTEM MODELING (3) LEC. 3. Pr. FORY 4230 or BIOL 3060. Exploration of the theory and rationale in modeling the structure and functions of ecological ecosystems.

FORY 7300 FOREST BUSINESS AND INVESTMENTS SEMINAR (1) LAB. 1. This course is designed to prepare Forest Business and Investments students with the processes, practices, values, actions, and visions associated with finance and investment in commercial timberland.

FORY 7320 FOREST GROWTH, SILVICULTURE, AND MANAGEMENT (3) LEC. 3. Understanding of forest growth and yield, measurements, management practices and methods, and optimization techniques necessary to make management decisions that maximize objectives.

FORY 7330 ECOLOGY AND SILVICULTURE OF EASTERN HARDWOOD FORESTS (3) LEC. 2. LAB. 3. Pr. FORY 4230. Silvical characteristics of major hardwood species and community composition, dynamics, site relationships, and silviculture of Southern and Eastern deciduous forests, emphasizing oaks.

FORY 7350 APPLIED STATISTICS FOR FOREST BUSINESS (3) LEC. 3. Gain an understanding of applied statistics related to forest business and statistical software to make informed and accurate business and investment decisions.

FORY 7400 FOREST VALUATION AND ECONOMICS (3) DSL. Forest valuation and the economic theory of forest resource allocation. Topics covered include forest valuation and appraisal, analysis of consumer behavior, production, market structure and the role of government, economics of forest management and policy, international trade, and financial analysis.

FORY 7450 FOREST SECTOR ECONOMICS (4) LEC. 4. Pr. FORY 5400 or FORY 6400. Fundamentals of forest industry, timber supply and demand, forest products supply and demand, technological change, international trade and development, sophisticated forest sector modeling.

FORY 7460 LAND ECONOMICS (3) LEC. 3. Evolution of the role of economics in forestry, policy and production analysis methods, non-market valuation, and regional analysis.

FORY 7510 RESEARCH METHODS (2) LEC. 1. LAB. 3. Overview of the scientific method and its application in forestry/natural resources research. Evaluation and preparation of project proposals with emphasis on research quality and written communication skills.

FORY 7620 FOREST FINANCE, ACCOUNTING AND TAXATION (3) LEC. 3. Course will provide students with an overview of core concepts in finance, accounting and taxation and how these concepts can be specifically applied to various types of forest operations.

FORY 7650 FOREST OPERATIONS AND WOOD SUPPLY CHAIN MANAGEMENT (3) DSL. 3. This course will review all the intricacies of the wood supply chain, from the diverse landowner base (private landowners, TIMO's and REIT's and government) to the independent logger to the wood supplier and then the consuming mill.

FORY 7850 URBAN FORESTRY SEMINAR (1) SEM. 1. Presentation and discussion of research, scientific papers and issues related to urban forest establishment, care and planning. Credit will not be given for both FORY 7850 and HORT 7850. Fall.

FORY 7910 PRACTICUM IN COLLEGE TEACHING (1) PRA. 1. SU. Techniques and practice of collegiate teaching at the level of Graduate Assistant. Students work under direct supervision and tutelage of the instructor. Fall, Spring, and Summer.

FORY 7930 DIRECTED STUDIES (1-3) AAB/IND. Course may be repeated for a maximum of 9 credit hours.

FORY 7950 CFWE SEMINAR (1) SEM. SU. Participation in the College of Forestry, Wildlife and Environment Seminar Series. Students will learn about research being conducted in various field and by various individuals internal and external to the university. Course may be repeated for a maximum of 3 credit hours.

FORY 7970 SPECIAL TOPICS (1-4) IND. Departmental approval. Analysis of a problem in Forestry or wood utilization involving library research, laboratory or field work and a report on the findings. Course may be repeated for a maximum of 12 credit hours.

FORY 7980 MASTER OF NATURAL RESOURCES PAPER (2) IND. In-depth study involving library review, data collection and/or data analysis. Departmental Program.

FORY 7990 RESEARCH AND THESIS (1-15) MST. Credit to be arranged.

FORY 8930 DIRECTED STUDIES (1-3) IND. Course may be repeated for a maximum of 9 credit hours.

FORY 8970 SPECIAL TOPICS (1-4) IND. Departmental approval. Analysis of a problem in Forestry or wood utilization involving library research, laboratory or field work and report on the findings. Course may be repeated for a maximum of 12 credit hours.

FORY 8990 RESEARCH AND DISSERTATION (1-15) DSR. Credit to be arranged.

Foundations of Education - FOUN

Courses

FOUN 3000 DIVERSITY OF LEARNERS AND SETTINGS (3) LEC. 2. LAB. 3. Pr. EDUC 1010 or EDUC 1013. Exploration of how sociopolitical factors and students' diverse identities shape their experiences and opportunities in educational settings and society, with a focus on the interaction between schooling and inequity. Includes a service-learning requirement.

FOUN 3100 CHILD DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT (6) LEC. 5. LAB. 3. Pr. EDUC 3000 or (FOUN 3000 and RSED 3000) or (FOUN 3000 and RSED 3003). With grades of "C" or better. Cognitive, psychosocial, and moral aspects of child development; integration of development, learning, motivation, assessment, and evaluation in context of instructional planning. May count either FOUN 3100 or FOUN 3103.

FOUN 3110 ADOLESCENT DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT I (3) LEC. 2. LAB. 3. Pr. EDUC 3000 or (FOUN 3000 and RSED 3000) or (FOUN 3000 and RSED 3003). An integrated approach to the effective instruction of the adolescent learner in context.

FOUN 3120 ADOLESCENT DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT II (3) LEC. 3. Pr. (FOUN 3110-3113 or CTSE 4070-4073 or CTSE 4090) and (EDUC 3000 or (FOUN 3000 and RSED 3000-3003)). Study of the adolescent development, learning, motivation, evaluation, and assessment concepts central to effective instruction. May count either FOUN 3120 or FOUN 3123.

FOUN 3500 DEVELOPMENT, LEARNING AND MOTIVATION (3) LEC. 3. LAB. 0, LEC. 0. The course will cover physical, cognitive, psychosocial and moral aspects of development. Next, the course will cover behavioral, cognitive, learner-centered constructivist and more contemporary theories of learning with emphasis on applications to classroom instruction. Finally, the course will cover various theories of motivation with educational applications.

FOUN 7000 CULTURAL FOUNDATIONS OF EDUCATION (3) LEC. 3. Advanced study of culture and its impact on the development and structure of education and schooling. Utilizing historical, philosophical, anthropological, and sociological perspectives, contemporary issues regarding the nature and practice of schooling will be examined. May count either FOUN 7000 or FOUN 7006.

FOUN 7010 HISTORY OF AMERICAN EDUCATION (3) LEC. 3. Examination of ideas, actors, and events which influenced the emergence of the formal school system, beginning with early American forms of education. May count either FOUN 7010 or FOUN 7016.

FOUN 7020 SOCIAL AND CULTURAL DIVERSITY IN AMERICAN EDUCATION (3) LEC. 3. Advanced study of education's response to cultural pluralism. The impact of religious, ethnic, social, and racial diversity on the structure of the American public school will be examined. May count either FOUN 7020 or FOUN 7026.

FOUN 7030 PHILOSOPHY AND EDUCATION (3) LEC. 3. Advanced study of philosophical questions and concepts as well as their application in education. May count either FOUN 7030 or FOUN 7036.

FOUN 7040 PHILOSOPHY AND EDUCATIONAL RESEARCH (3) LEC. 3. Advanced philosophical study of educational research within the context of education's professional culture.

FOUN 7050 GLOBAL PERSPECTIVES ON EDUCATION (3) LEC. 3. Exploration of global transformations in education and their implications for equity, diversity, and justice through the lens of comparative and international research.

FOUN 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

FOUN 7930 TEACHING APPRENTICESHIP (3) IND. 3. Departmental approval. A structured opportunity for students to explore social foundations of education concepts and pedagogies in the college classroom. Course may be repeated for a maximum of 6 credit hours.

FOUN 7970 SPECIAL TOPICS IN FOUNDATIONS OF EDUCATION (3-6) LEC. 3-6. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be repeated for a maximum of 6 credit hours.

FOUN 8010 MODERN EDUCATION AND COMPARATIVE PERSPECTIVES (3) LEC. 3. Advanced comparative study of selected contemporary educational issues within the American and international urban context.

FOUN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertations. Courses may be repeated for a maximum for 10 hours. Course may be repeated with change in topics.

Geography - GEOG

Courses

GEOG 1000 INTRODUCTION TO GEOGRAPHY (1) LEC. 1. LAB. 0, LEC. 0. Introduction to fundamental concepts and major fields of study in geography

GEOG 1010 GLOBAL GEOGRAPHY (3) LEC. 3. Social Science I Core. Spatial and locational context for analyzing change in the contemporary world, including elements of both physical and cultural environments.

GEOG 1017 HONORS GLOBAL GEOGRAPHY (3) LEC. 3. Pr. Honors College. Spatial and locational context for analyzing change in the contemporary world, including elements of both physical and cultural environments.

GEOG 1020 GLOBAL SYSTEMS WEATHER/CLIMATE (4) DSL/LLB. The ‘Weather and Climate’ GS course will teach students the difference between weather and climate. They will evaluate the effect of weather on the food we eat, where we live, what we wear and the science behind climate change. This course will identify and describe Earth’s physical systems and make connections between them.

GEOG 1030 GLOBAL SYSTEMS LAND/WATER (4) DSL/LLB. The ‘Land and Water’ Global Systems course will compare the modification of land and water resources due to human interventions and weather anomalies over time. It will highlight the connection between temperature and precipitation, weathering of rocks, soil type and the river system, human nature interactions and ecosystems of the Earth.

GEOG 2000 PROFESSIONAL DEVELOPMENT (1) LEC. 1. Introduction to career opportunities in the Geosciences; goal selection and charting a pathway to success as a professional. Includes writing skills, research and funding opportunities, internships, creation of resumes and ePortfolios, and job applications.

GEOG 2010 HUMAN GEOGRAPHY (3) LEC. 3. Spatial perspectives on modern society such as population change, economics, politics, urban development, and local culture, and geography's approach to solving problems using case studies and issues.

GEOG 2017 HONORS HUMAN GEOGRAPHY (3) LEC. 3. Spatial perspectives on modern society such as population change, economics, politics, urban development, and local culture, and geography's approach to solving problems using case studies and issues.

GEOG 2020 PHYSICAL GEOGRAPHY (3) LEC. 3. Selected elements of the earth's physical system to include such items as landforms, basic weather elements, soils and vegetation.

GEOG 3000 SPORTS GEOGRAPHY (3) LEC. 3. Geographical basis of sports at different spatial scales, including locational strategies, sportive nationalism, and the urban political economy of sports.

GEOG 3110 UNITED STATES AND CANADA (3) LEC. 3. Survey of the region incorporating physical and cultural elements, providing a synthesis of the economic and political processes of the U.S. and Canada.

GEOG 3120 ALABAMA AND THE SOUTHEAST (3) LEC. 3. Study of the physical and cultural environments of the state.

GEOG 3130 LATIN AMERICA (3) LEC. 3. Survey of physical and human landscape of the region including historical geography, natural resources, economic development and problems and prospects affecting major countries.

GEOG 3140 AFRICA (3) LEC. 3. Analysis of the relationships among diverse population groups and the physical environments of sub-Saharan Africa.

GEOG 3150 EUROPE (3) LEC. 3. Survey of physical and human landscape of the region including historical geography, natural resources, economic development, and problems and prospects affecting several of the major countries.

GEOG 3300 INTERNATIONAL TRAVEL AND TOURISM (3) LEC. 3. Environmental and cultural patterns that characterize places attractive to tourists. Provides realistic situations for developing travel plans and programs.

GEOG 3720 STUDY ABROAD-CLIMATE CHANGE AND ENVIRONMENT (3) LEC. 10. LAB. 5. Coreq. PARK 3630 and NATR 3320 and NATR 4250. Three-week course intended to give students a general understanding of the potential impacts of climate change on the environment in the tropics via a mix of lectures, hands-on activities and field trips. Departmental approval required.

GEOG 3810 CARTOGRAPHY AND GRAPHICS (4) LEC. 2. LAB. 2. Techniques of map production including relevant computer graphics applications and related laboratory exercises.

GEOG 4740 SENIOR SEMINAR (2) SEM. 2. Individual research by geoscience undergraduates is coupled with improved written and oral communication skills along with resume and ePortfolio development. May count GEOG 4740 or GEOL 4740.

GEOG 4920 INTERNSHIP (3) LEC. 3. Opportunity to apply classroom experience to real job setting. Course may be repeated for a maximum of 6 credit hours.

GEOG 4930 DIRECTED STUDIES (1-4) AAB/IND. Departmental approval. Conferences, reading, research and/or reports may fulfill course requirement. Course may be repeated for a maximum of 4 credit hours.

GEOG 5010 URBAN GEOGRAPHY AND SUSTAINABILITY (3) LEC. 3. Senior standing or Departmental approval. An introduction to the field of urban geography and urban sustainability. Basic principles and processes that constitute the growth of urban areas, history, impact of urbanization, adaptation and mitigation towards a sustainable future.

GEOG 5210 CLIMATOLOGY (3) LEC. 3. Pr., Senior standing or departmental approval. An introduction to the field of climatology. Basic principles and process that constitute the earth's climate system (e.g. surface-atmosphere energy budge, the hydrologic cycle, and atmospheric motion) as well as climate change and sea level rise.

GEOG 5220 GEOMORPHOLOGY (3) LEC. 2. LAB. 2. Basic concepts, terms, and techniques used to identify landforms and their evolutionary processes. Study of the origin of landforms with emphasis on the eologic processes and structures that generate the landforms and applications of landform analysis. Two all-day weekend trips are required. Two one-hour classes and one two-hour laboratory per week.

GEOG 5350 ECONOMIC GEOGRAPHY (3) LEC. 3. Departmental approval. Economic Geography in a global context. Spatial aspects of resource use, agricultural development, manufacturing production and services.

GEOG 5380 POLITICAL GEOGRAPHY (3) LEC. 3. Examination of political processes over space, from local to the global levels. The course examines the development of political space, geographies of voting, the role of identity in shaping nationalism, and the geopolitical relationship between power and place.

GEOG 5400 GEOGRAPHY OF NATURAL HAZARDS (3) LEC. 3. Geography of natural hazards and their impacts on society. Credit will not be given for both GEOG 5400 and GEOG 6400.

GEOG 5510 HUMAN-ENVIRONMENT INTERACTION (3) LEC. 3. Departmental approval. Investigation of the inter-relationships between humans and their natural or physical environments.

GEOG 5550 GEOGRAPHY OF WATER RESOURCES (3) LEC. 3. Study of water use, management, law, and conflicts at local and international scales. May count either GEOG 5550 or GEOG 6550.

GEOG 5600 GLOBAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. Departmental approval. Global environmental problems such as climate change, ozone and deforestation and international public agencies and private volunteer movements protecting our global commons.

GEOG 5700 QUANTITATIVE METHODS AND SPATIAL ANALYSIS (3) LEC. 3. Pr. STAT 2510 or STAT 2513. Pr., STAT 2510 or similar statistics course. Applications of quantitative methods and spatial statistics to environmental, urban and economic systems and implementations of these techniques in GIS and statistical software. Credit will not be given for both GEOG 5710 and GEOG 6710.

GEOG 5710 GEOGRAPHIC FIELD METHODS (3) LEC. 1. LAB. 4. Geographic methods and techniques used to conduct field research investigations of human and physical characteristics of the landscape. Credit will not be given for both GEOG 5710 and GEOG 6710.

GEOG 5800 GEOGRAPHIC THOUGHT (3) LEC. 3. Departmental approval. Develops effective thinking skills, evaluates written materials in geography, reviews geographical research and produces written reports and papers related to geographic issues.

GEOG 5820 AERIAL PHOTOGRAPHY AND REMOTE SENSING (4) LEC. 3. LAB. 2. Departmental approval. Aerial photo and satellite digital interpretation, photogrammetry, remote sensing technology and photogrammetry and related laboratory exercises.

GEOG 5830 GEOGRAPHIC INFORMATION SYSTEMS (4) LEC. 3. LAB. 2. Introduction to concepts and techniques used in developing a geographic information system (GIS) for evaluating spatial distribution patterns and spatial relationships.

GEOG 5850 DRONES AND GEOSPATIAL APPLICATIONS (3) LEC. 3. LAB. 3. Pr. GEOG 5830 or GEOG 6830. This course will introduce the concepts of drone data collection, processing, and analysis and focus on how these high-resolution datasets can be used in a multitude of geospatial (including GIS and remote sensing) applications. This class will have both in-class and field components. Prerequisite: An Intro to GIS class is preferred, please contact the instructor if you have questions.

GEOG 5880 ADVANCED GEOGRAPHIC INFORMATION SYSTEMS (3) LEC. 2. LAB. 2. Pr. GEOG 5830. Advanced concepts and techniques used in the collection and analysis of data for evaluating spatial patterns and process. Credit will not be given for both GEOG 5880 and GEOG 6880.

GEOG 5890 GIS PROGRAMMING (3) LEC. 2. LAB. 2. Pr. P/C GEOG 5830. This course is an introduction to programming and scripting for intermediate Geographic Information Systems (GIS) users. Students will learn how to design and write clearly structured scripts in Python using a standalone development environment. Students will develop programs to manage geospatial data, perform geoprocessing analysis, and design custom tools that can be integrated into common GIS software packages. Intro to GIS is a prerequisite which can be met if taken during the same semester (co-requisite). Credit will not be given for both GEOG 5890 and GEOG 6890

GEOG 5970 SEMINAR IN GEOGRAPHY (3) LEC. 3. Development of modern geographic thinking with attention to applied research topics. Course may be repeated for a maximum of 6 credit hours.

GEOG 6010 URBAN GEOGRAPHY AND SUSTAINABILITY (3) LEC. 3. An introduction to the field of urban geography and urban sustainability. Basic principles and processes that constitute the growth of urban areas, history, impact of urbanization, adaptation and mitigation towards a sustainable future.

GEOG 6210 CLIMATOLOGY (3) LEC. 3. Pr., Senior standing or departmental approval. An introduction to the field of climatology. Basic principles and process that constitute the earth's climate system (e.g surface-atmosphere energy budge, the hydrologic cycle, and atmospheric motion, as well as climate change and sea level rise.

GEOG 6220 GEOMORPHOLOGY (3) LEC. 3. Basic concepts, terms, and techniques used to identify landforms and their evolutionary processes. Credit will not be given for both GEOG 5220 and GEOG 6220.

GEOG 6350 ECONOMIC GEOGRAPHY (3) LEC. 3. Departmental approval. Economic Geography in a global context. Spatial aspects of resource use, agricultural development, manufacturing production and services.

GEOG 6380 POLITICAL GEOGRAPHY (3) LEC. 3. Examination of political processes over space, from local to the global levels. The course examines the development of political space, geographies of voting, the role of identity in shaping nationalism, and the geopolitical relationship between power and place.

GEOG 6400 GEOGRAPHY OF NATURAL HAZARDS (3) LEC. 3. Geography of natural hazards and their impacts on society. Credit will not be given for both GEOG 5400 and GEOG 6400.

GEOG 6510 HUMAN-ENVIRONMENT INTERACTION (3) LEC. 3. Departmental approval. Investigation the inter-relationships between humans and their natural or physical environments.

GEOG 6550 GEOGRAPHY OF WATER RESOURCES (3) LEC. 3. Study of water use, management, law, and conflicts at local and international scales. May count either GEOG 5550 or GEOG 6550.

GEOG 6700 QUANT METH & SPATIAL ANALYSIS (3) LEC. 3. Pr. STAT 2510 or STAT 2513. or similar statistics course. Applications of quantitative methods and spatial statistics to environmental, urban and economic systems and implementations of these techniques in GIS and statistical software. Credit will not be given for both GEOG 5700 and GEOG 6700.

GEOG 6710 GEOGRAPHIC FIELD METHODS (3) LEC. 1. LAB. 4. Geographic methods and techniques used to conduct field research investigations of human and physical characteristics of the landscape. Credit will not be given for both GEOG 5710 and GEOG 6710.

GEOG 6800 GEOGRAPHIC THOUGHT (3) LEC. 3. Departmental approval. Develops effective thinking skills; evaluates written materials in geography; Reviews geographical research and produces written reports and papers related to geographic issues.

GEOG 6820 AERIAL PHOTOGRAPHY AND REMOTE SENSING (4) LEC. 3. LAB. 2. Departmental approval. Aerial photo and satellite digital interpretation, photogrammetry, remote sensing technology and photogrammetry and related laboratory exercises.

GEOG 6830 GEOGRAPHIC INFORMATION SYSTEMS (4) LEC. 3. LAB. 2. Departmental approval. Introduction to concepts and techniques used in developing a geographic information system (GIS) for evaluating spatial distribution patterns and spatial relationships.

GEOG 6850 DRONES AND GEOSPATIAL APPLICATIONS (3) LEC. 3. LAB. 3. Pr. GEOG 5830 or GEOG 6830. This course will introduce the concepts of drone data collection, processing, and analysis and focus on how these high-resolution datasets can be used in a multitude of geospatial (including GIS and remote sensing) applications. This class will have both in-class and field components. Prerequisite: An Intro to GIS class is preferred, please contact the instructor if you have questions.

GEOG 6880 ADVANCED GEOGRAPHIC INFORMATION SYSTEMS (3) LEC. 2. LAB. 2. Pr. GEOG 6830. Advanced concepts and techniques used in the collection and analysis of data for evaluating spatial patterns and processes. Credit will not be given for both GEOG 5880 and GEOG 6880.

GEOG 6890 GIS PROGRAMMING (3) LEC. 2. LAB. 2. Pr. P/C GEOG 6830. This course is an introduction to programming and scripting for intermediate Geographic Information Systems (GIS) users. This course teaches students to design and write clearly structured scripts in Python using a standalone development environment. Students will develop programs to manage geospatial data, perform geoprocessing analysis, and design custom tools that can be integrated into common GIS software packages. Intro to GIS is a prerequisite which can be met if taken during the same semester (co-requisite). Credit will not be given for both GEOG 5890 and GEOG 6890

GEOG 6970 SEMINAR IN GEOGRAPHY (3) LEC. 3. Departmental approval. Development of modern geographic thinking with attention to applied research topics. Course may be repeated for a maximum of 6 credit hours.

GEOG 7000 ESSENTIAL TEACHING SKILLS FOR GEOSCIENCE GTAS (3) LEC. 3. LAB. 0, LEC. 0. This course is designed to equip graduate teaching assistants (GTAs) in the geosciences with the foundational skills and knowledge necessary to succeed as effective educators in higher education. Participants will explore essential topics such as backwards design, active learning strategies, classroom management, effective communication, assessment design, the integration of technology in teaching, and navigating power dynamics. The course emphasizes practical application through hands-on activities, peer collaboration, and reflective teaching practices. Department approval.

GEOG 7930 DIRECTED STUDIES (1-3) AAB. Departmental approval. Individualized literature, field and/or laboratory research not available through regularly offered coursework. Subject matter and credit hours shall be determined by student and directing faculty. Course may be repeated for a maximum of 3 credit hours.

GEOG 7980 CAPSTONE RESEARCH (1-3) RES. SU. Departmental approval. enrolled as GEOG MS non-thesis student. Literature, field and/or laboratory research directed toward the completion of capstone project for non-thesis option. Course may be repeated for a maximum of 3 credit hours.

GEOG 7990 M.S. RESEARCH AND THESIS (1-10) RES. Research and Thesis. Course may be repeated with change in topics.

GEOG 8900 DIRECTED STUDIES (1-6) IND. Provides exposure to discipline-specific research procedures in Earth System Science. Students will work closely with their mentors to explore an Earth-System problem through directed readings, literature searches, field work, laboratory experimentation, and quantitative analysis. Course may be repeated for a maximum of 6 credit hours.

Geology - GEOL

Courses

GEOL 1100 DYNAMIC EARTH (4) LEC. 3. LAB. 2. Science Core. General physical geology. Survey of the important minerals and rocks. Origin and classification of geologic structures, earthquakes, and landforms. Study of geologic maps. Credit will not be given for both GEOL 1100 and GEOL 3150.

GEOL 1107 HONORS DYNAMIC EARTH (4) LEC. 3. LAB. 2. Pr. Honors College. General physical geology for Honors students and for Geology majors. Topics similar to GEOL 1110 but covered in greater depth. Science Core.

GEOL 1110 EARTH AND LIFE THROUGH TIME (4) LEC. 3. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Science Core. Physical and biological history of the Earth, with emphasis on the interaction between life, the atmosphere, rocks, and oceans.

GEOL 1117 HONORS EARTH AND LIFE THROUGH TIME (4) LEC. 3. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Physical and biological history of the Earth, with emphasis on the interaction between life, the atmosphere, rocks, and oceans. For Honors students and Geology majors. Science Core.

GEOL 2000 PROFESSIONAL DEVELOPMENT (1) LEC. 1. Introduction to career opportunities in the Geosciences; goal selection and charting a pathway to success as a professional. Includes writing skills, research and funding opportunities, internships, creation of resumes and ePortfolios, and job applications.

GEOL 2010 MINERALOGY AND OPTICAL CRYSTALLOGRAPHY (5) LEC. 4. LAB. 2. Physical and chemical properties of minerals, classification and roles with emphasis on natural systems, materials science, health, and environment. Credit will not be given for both GEOL 2010 and GEOL 2013.

GEOL 2050 IGNEOUS AND METAMORPHIC PETROLOGY (4) LEC. 3. LAB. 2. Pr. GEOL 2010 or GEOL 2013. Principles and processes of igneous and metamorphic activity in a plate tectonic and petrologic context. Description, classification and interpretation of igneous and metamorphic rocks.

GEOL 2100 ENVIRONMENTAL GEOLOGY (4) LEC. 3. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Emphasis on geology as an environmental science; applied geology, geological hazards and environmental regulations as applied to geologic environmental remediation.

GEOL 3060 LUNAR AND PLANETARY GEOLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Departmental approval. Geology of the planets, moons, asteroids and comets. Origin of the solar system. Space exploration. Impact cratering.

GEOL 3200 INTRODUCTION TO PALEOBIOLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 1110 or GEOL 1113 or GEOL 1117. The nature of the fossil record, applications of that data to geological and biological questions with emphasis on the concepts using examples from all biotic groups.

GEOL 3300 EVOLUTION AND EXTINCTION OF THE DINOSAURIA (3) LEC. 2. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Departmental approval. Survey of the dinosaurs, their evolution and extinction. Southeastern U.S. dinosaurs.

GEOL 3400 STRUCTURAL GEOLOGY (4) LEC. 3. LAB. 2. Pr. GEOL 2050. Fundamentals of rock deformation. The mechanics of rock flow, fracture, and folding. Geometric techniques of structural analysis.

GEOL 3550 FIELD GEOLOGY: METHODS AND APPLICATION (3) LEC. 2. LAB. 2, AAB/LLB. 2. Pr. GEOL 1100 and GEOL 1110. Departmental approval. Through a combination of classroom, laboratory, and field-based activities, this course develops skills of geologic data collection, observation, interpretation, and communication.

GEOL 3650 ADVANCED FIELD GEOLOGY (3) LEC. 1. LAB. 10. Pr. GEOL 3400 and GEOL 3550. Instruments and methods used in geological field mapping, interpretation of sedimentary, igneous and metamorphic rocks and deformational analysis. Summer only.

GEOL 4110 STRATIGRAPHY (3) LEC. 2. LAB. 2. Pr. GEOL 4010. Departmental approval. Description and correlation of layered earth materials. Synthesis and interpretation of stratigraphic correlations. North American Stratigraphic Code. History and theory of stratigraphy.

GEOL 4200 SEDIMENTARY PETROLOGY AND STRATIGRAPHY (4) LEC. 3. LAB. 2, LLB. 0. Pr. GEOL 2050. Description, classification, and interpretation of sediments and sedimentary rocks. Description and correlation of layered Earth materials. Stratigraphic correlation methods, and sequence stratigraphy. Department approval.

GEOL 4210 ECONOMIC GEOLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 3400. The origin, distribution and classification of mineral deposits formed by igneous, metamorphic and sedimentary processes. Introduction of methods of exploration and development.

GEOL 4260 INTRODUCTION TO GEOCHEMISTRY (3) LEC. 3. Pr. CHEM 1040 and GEOL 2050. Principles governing the distribution of major, minor and trace elements within the earth; differentiation of elements due to geologic processes and the hydrosphere.

GEOL 4300 GEODYNAMICS (3) LEC. 3. Pr. GEOL 3400 and (MATH 1620 or MATH 1623 or MATH 1627) and PHYS 1510. Structure and dynamics of the earth deduced from seismology, gravity, heat flow and magnetism.

GEOL 4740 SENIOR SEMINAR (2) SEM. 2. Geology majors with upperclass standing. Individual research by geoscience undergraduates is coupled with improved written and oral communication skills along with resume and ePortfolio development. May count either GEOL 4740 or GEOG 4740.

GEOL 4920 INTERNSHIP (1-3) INT. SU. Geology majors with upper-class standing (juniors or seniors). An opportunity to apply classroom experience to a real job setting. Course may be repeated for a maximum of 6 credit hours.

GEOL 4930 DIRECTED STUDIES IN UNDERGRADUATE RESEARCH (1-3) AAB. Departmental approval. Directed studies in areas of geology not covered by an existing course or to supplement knowledge gained from an existing course. Course may be repeated for a maximum of 3 credit hours.

GEOL 4970 SPECIAL TOPICS IN GEOLOGY (1-4) ST1. Instruction and discussion of selected topics in geosciences. Course may be repeated for a maximum of 8 credit hours.

GEOL 4980 UNDERGRADUATE RESEARCH METHODS (1-3) IND. Departmental approval. Active participation in original research under supervision of a senior investigator. Course may be repeated for a maximum of 3 credit hours.

GEOL 5060 INTRODUCTION TO MICROPALEONTOLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 3200 and (BIOL 1030 or BIOL 1037). A survey of major groups of fossils small enough to require a microscope for their study. Foraminifera, radiolaria, and ostracodes are emphasized; minor groups of interest include conodonts, diatoms, dinoflagellates, acritarchs, and chitinozoans. Includes laboratory, discussion sessions, and field work.

GEOL 5100 HYDROGEOLOGY (3) LEC. 2. LAB. 2. Pr. (GEOL 1100 or GEOL 1103 or GEOL 1107) and CHEM 1030 and (MATH 1610 or MATH 1613 or MATH 1617) and PHYS 1500. Departmental approval. Fundamentals of groundwater flow in porous media, hydrodynamic dispersion, determination of aquifer properties and geological aspects of groundwater occurrences.

GEOL 5220 GEOMORPHOLOGY (3) LEC. 2. LAB. 1. Study of the origin of landforms with emphasis on the geologic processes and structures that generate the landforms and applications of landform analysis. Two all-day weekend trips are required. Two one-hour classes and one two-hour laboratory per week.

GEOL 5300 BASIN ANALYSIS (3) LEC. 2. LAB. 2. Pr. P/C GEOL 4010. Study of analytical techniques of sedimentary basin fills, including thermal history, litho and biofacies analyses, depositional systems, subsurface logs, seismic reflection, provenance history, evolution, sedimentation and subsidence history.

GEOL 5440 ELECTRON MICROPROBE ANALYSIS (3) LEC. 2. LAB. 1. Pr. CHEM 1040 and PHYS 1510. Instruction in the theory and application of EMPA (electron microprobe analysis) and SEM (scanning electron microscopy). The course provides an understanding the EMPA as a research tool for evaluating the composition and structure of a wide range of materials.

GEOL 5500 PETROLEUM GEOLOGY (3) LEC. 3. Pr. GEOL 4010. Coverage of petroleum source rocks, migration, reservoir rock characters, and trapping mechanics. Overview of exploration methods including well-log analysis and seismic interpretation.

GEOL 5600 APPLIED GEOPHYSICS (4) LEC. 3. LAB. 2. Pr. (GEOL 1100 or GEOL 1103 or GEOL 1107 or GEOL 3150) and (MATH 1620 or MATH 1623 or MATH 1627) and PHYS 1510. Departmental approval. Overview of geophysical methods with applications to resource, tectonic and environmental analyses. Seismic refraction and reflection, gravity, magnetics, electrical and electromagnetic methods will be included.

GEOL 5700 GEOHEALTH (3) LEC. 3. Pr. GEOL 1100 and CHEM 1030. The effects of the composition of Earth materials and the local geological phenomena on human, plant, and animal health. The application of principles of geology and chemistry to predict and prevent diseases.

GEOL 5840 CLIMATE CHANGE AND SOCIETY (3) LEC. 3. The science of Earth’s changing climate, the societal influences on climate change, as well as the expected impacts based on the collected scientific evidence. Analyzes key aspects of climate science, the drivers of climate change, Earth’s climate trends, the evidence of climate change, the predicted future climate scenarios, the expected impacts, and the array of possible response options.

GEOL 6060 INTRODUCTION TO MICROPALEONTOLOGY (3) LEC. 3. LAB. 1. A survey of major groups of fossils small enough to require a microscope for their study. Foraminifera, radiolaria, and ostracodes are emphasized; minor groups of interest include conodonts, diatoms, dinoflagellates, acritarchs, and chitinozoans. Includes laboratory, discussion sessions, and field work.

GEOL 6100 HYDROGEOLOGY (3) LEC. 2. LAB. 2. Pr. (GEOL 1100 or GEOL 1103 or GEOL 1107) and CHEM 1030 and (MATH 1610 or MATH 1613 or MATH 1617) and PHYS 1500. Departmental approval. Fundamentals of groundwater flow in porous media, hydrodynamic dispersion, determination of aquifer properties and geological aspects of groundwater occurrences.

GEOL 6220 GEOMORPHOLOGY (3) LEC. 2. LAB. 1. Study of origin of landforms with emphasis on geologic processes and structures that generate landforms; includes the applications of landform analysis. May count either GEOL 6220 or GEOG 6220.

GEOL 6300 BASIN ANALYSIS (3) LEC. 2. LAB. 2. Pr. GEOL 4010. Departmental approval. Study of analytical techniques of sedimentary basin fills, including thermal history, litho and biofacies analyses, depositional systems, subsurface logs, seismic reflection, provenance history, evolution, sedimentation and subsidence history.

GEOL 6400 PRINCIPLES OF EARTH SCIENCE (3) LEC. 2. LAB. 2. Departmental approval. A special course for in-service and future teachers only. Internal and surficial geologic processes, meteorology and oceanography.

GEOL 6440 ELECTRON MICROPROBE ANALYSIS (3) LEC. 2. LAB. 1. Pr. CHEM 1040 and PHYS 1510. Instruction to theory and application of EMPA (electron microprobe analysis) and SEM (scanning electron microscopy). Provides an understanding of EMPA as a research tool for evaluating composition and structure of wide range of materials. GEOL 5440 or GEOL 6440.

GEOL 6500 PETROLEUM GEOLOGY (3) LEC. 3. Pr. P/C GEOL 4010. Geology/Geography graduate students who took GEOL 4010 ("P/C"). Coverage of petroleum source rocks, migration, reservoir rock characters, and trapping mechanics. Overview of exploration methods including well-log analysis and seismic interpretation.

GEOL 6600 APPLIED GEOPHYSICS (4) LEC. 3. LAB. 2. Pr. (GEOL 1100 or GEOL 1103 or GEOL 1107 or GEOL 3150) and (MATH 1620 or MATH 1623 or MATH 1627) and PHYS 1510. Departmental approval. Overview of geophysical methods with applications to resource, tectonic and environmental analyses. Seismic refraction and reflection, gravity, magnetics, electrical and electromagnetic methods will be included.

GEOL 6700 GEOHEALTH (3) LEC. 3. The effects of the composition of Earth materials and the local geological phenomena on human, plant, and animal health. The application of principles of geology and chemistry to predict and prevent diseases.

GEOL 6840 CLIMATE CHANGE AND SOCIETY (3) LEC. 3. The course will investigate the science of Earth’s changing climate, the societal influences on climate change, as well as the expected impacts based on the collected scientific evidence. Analysis of peer-reviewed literature on the key aspects of climate science, the drivers of climate change, Earth’s climate trends, the evidence of climate change, predicted future climate scenarios, expected impacts, and the array of possible societal response options to prevent/mitigate the consequences of anthropogenic climate change. The class will have a strong component of discussion of literature and foundational knowledge as well as reflection on what students have learned and the implications of this knowledge for their areas of interest and generally for their lives.

GEOL 7100 GEOCOMMUNICATION (3) LEC. 3. Departmental approval. Instruction and practice in written and oral communication skills necessary for a successful career in the geosciences; emphasis on preparation of scientific articles, technical reports, abstracts, and thesis; preparation and delivery of oral presentations.

GEOL 7170 IMPACT AND PLANETARY GEOLOGY (3) LEC. 3. Pr. GEOL 1100 and GEOL 1110. Study of impact craters and their formation. Identification of impact crates. Role of impacts in planetary evolution and in evolution and extinction of life on Earth. Study of rocky and icy geologic surface terrains and their geologic processes.

GEOL 7200 TECTONICS (3) LEC. 2. LAB. 2. Pr. GEOL 2050 and GEOL 4010. Departmental approval. Emphasis will be placed on plate tectonics and driving forces, evolution of collisional, transform and extensional systems, and dynamic indicators of past and current tectonic processes.

GEOL 7250 GROUNDWATER HYDROGEOLOGIC MODELING (3) LEC. 2. LAB. 2. Pr. GEOL 6100. Departmental approval. Overview of groundwater modeling techniques with environmental and geologic applications. Interaction of geology and subsurface groundwater flow. Basin hydrology modeling. Practical experience in computer simulations of subsurface hydrogeologic processes.

GEOL 7260 AQUEOUS AND ENVIRONMENTAL GEOCHEMISTRY (3) LEC. 2. LAB. 2. Pr. CHEM 1040 and GEOL 2050. Departmental approval. Study of water-rock reactions that control the chemical composition of groundwater; aqueous geochemistry of trace elements; groundwater pollution, remediation and geomic robiology.

GEOL 7300 CYCLES THROUGH EARTH HISTORY (3) LEC. 2. LAB. 2. Pr. GEOL 4100 and GEOL 4260. Discussion of the fundamental processes controlling sedimentary cycles at different physical, biotic, and temporal scales.

GEOL 7400 ADVANCED ECONOMIC GEOLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 4210. Departmental approval. The practical and theoretical aspects of economic geology as applied to exploration and development of natural resources.

GEOL 7410 GEOLOGY OF ORGANIC MATTER (3) LEC. 2. LAB. 2. Pr. GEOL 4010 and GEOL 4110. Departmental approval. The origins, classifications, taphonomy of organic matter, modern and ancient processes and environments of deposition of organic-rich strata, including hydrocarbon- source rocks and coals. Laboratory and field trips required.

GEOL 7450 MINERAL RESOURCES AND THE ENVIRONMENT (3) LEC. 2. LAB. 2. Pr. CHEM 1040 and GEOL 2050. Overview of geology and geographic distribution of mineral resources; economic aspects affecting their extraction; environmental impacts and cost of mineral resource extraction.

GEOL 7500 PALEOCLIMATOLOGY (3) LEC. 3. Explores how Earth's climate has evolved dynamically over time, varying within restricted boundaries that allowed life to exist and evolve. Explores interactions among Earth's surface abiotic and biotic components, and includes plate tectonics, atmospheric chemistry and physics, and ocean productivity.

GEOL 7550 ADVANCED GEOPHYSICAL METHODS (3) LEC. 2. LAB. 2. Pr. GEOL 6600. Departmental approval. Advanced treatment of geophysical methods, data interpretation and modeling. Applications to resource development and environmental assessments will be explored, with emphasis on seismic methods.

GEOL 7600 PETROLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 2050 and GEOL 4010. Departmental approval. The description, classification, formative processes, and petrologic interpretation of igneous, metamorphic and sedimentary rocks.

GEOL 7610 STRUCTURAL AND METAMORPHIC ANALYSIS (3) LEC. 2. LAB. 2. Pr. GEOL 2050 and GEOL 3400 and GEOL 3650. Quantitative analysis of dynamic, kinematic and chemical responses of rocks and minerals to crustal movements and dynamo thermal metamorphism.

GEOL 7650 FACIES ANALYSIS AND SEQUENCE STRATIGRAPHY (3) LEC. 2. LAB. 2. Pr. GEOL 4010 and GEOL 4110. Departmental approval. Systematic analysis of modern and ancient deposition facies, and their interpretation in a sequence stratigrahic context. Laboratory and field trips required.

GEOL 7700 ANALYTICAL ISOTOPE GEOCHEMISTRY (3) LEC. 2. LAB. 1. Pr. CHEM 1040 or PHYS 1510 or MATH 1620. Biweekly lectures will teach the theory and principles of isotope geochemistry and mass spectrometry, leading to applications in geoscience research. Lab sessions and problem sets will support lectures and emphasize work with various mass spectrometers in the Department of Geosciences.

GEOL 7930 DIRECTED STUDIES (1-3) LEC. 3. Departmental approval. Directed studies. May incorporate literature, field and/or laboratory research in any proportion. Subject matter and credit hours shall be determined by student and directing faculty. Course may be repeated for a maximum of 3 credit hours.

GEOL 7980 CAPSTONE PROJECT (1-3) LEC. SU. Literature, field and/or laboratory research directed towards completion of capstone project required for non-thesis option. Course may be repeated for a maximum of 3 credit hours.

GEOL 7990 RESEARCH AND THESIS (1-10) MST. Departmental Approval. Course may be repeated with change in topics.

GEOL 8900 DIRECTED STUDY (1-6) IND. 3. Provides exposure to discipline-specific research procedures in Earth System Science. Students will work closely with their mentors to explore an Earth-system problem through directed readings, literature searches, field work, laboratory experimentation, and quantitative analysis. Course may be repeated for a maximum of 6 credit hours.

Geosciences - GEOS

Geospatial and Environmental Informatics - GSEI

Courses

GSEI 1200 INTRODUCTION TO GEOSPATIAL TECHNOLOGY (3) LEC. 2. LAB. 2. Introduction to geospatial technologies, spatial thinking, and job markets in these areas. Exploration of location-based services, global positioning systems, geographic information systems, remote sensing, virtual globes, and web based mapping. Skills and techniques for spatial thinking and environmental analysis.

GSEI 2070 INTRODUCTION TO ENVIRONMENTAL INFORMATICS (3) LEC. 2. LAB. 2. Pr. GSEI 1200. Introduction to the environment as a system of linked, interactive components. Application of information science to environmental management. Skills and techniques required for collecting, collating, archiving, modeling, analyzing, visualizing, and communicating information in support of natural resource management.

GSEI 5150 SPATIAL STATISTICS FOR NATURAL RESOURCES (3) LEC. 3. Pr. (GSEI 1200 or GSEI 2070) and (WILD 5750). Applications of spatial statistics in natural resources. Introduction of basic concepts, theories, and methodologies of spatial and spatio-temporal data analyses and modeling. Topics include spatial correlation, spatial interpolation, detection of clusters/hotspots/patterns of interest, and spatial prediction.

GSEI 5360 ENVIRONMENTAL MODELING (3) LEC. 2. LAB. 1. Pr. FORY 5470 and FORY 5480 and GSEI 1200. Students will build models of environmental systems such as ecological, climatic, hydrologic, geochemical, and human systems, explore the basic concepts of systems modeling, and use models to test hypotheses and assumptions, evaluate system behavior, and predict changes in system behavior under different climate scenarios.

GSEI 5430 APPLICATIONS IN ENVIRONMENTAL INFORMATICS (3) LEC. 2. LAB. 1. Pr. GSEI 1200 and FORY 5470. This course emphasizes applications of earth observations to forestry, wildlife, environment and natural resources and covers both the technology and application of observing earth from space as well data acquired from airborne platforms.

GSEI 5800 PYTHON PROGRAMMING FOR THE ENVIRONMENT (4) LEC. 3. LAB. 2. Fundamental conceptual, methodological, and operational issues in Python programming with respect to environmental applications. Topics include Python programming concepts, scripting, and skills; data processing and management; data manipulation, visualization, and analysis; and connection to spatial data analysis.

GSEI 6150 SPATIAL STATISTICS FOR NATURAL RESOURCES (3) LAB. 3. Applications of spatial statistics in natural resources. Introduction of basic concepts, theories, and methodologies of spatial and spatio-temporal data analyses and modeling. Topics include spatial correlation, spatial interpolation, detection of clusters/hotspots/patterns of interest, and and spatial prediction.

GSEI 6360 ENVIRONMENTAL MODELING (3) LEC. 2. LAB. 1. Students will build models of environmental systems such as ecological, climatic, hydrologic, geochemical, and human systems, explore the basic concepts of systems modeling, and use models to test hypotheses and assumptions, evaluate system behavior, and predict changes in system behavior under different climate scenarios.

GSEI 6430 APPLICATIONS ENVIRONMENTAL INFORMATICS (3) LEC. 2. LAB. 1. This course emphasizes applications of earth observations to forestry, wildlife, environment and natural resources and covers both the technology and application of observing earth from space as well data acquired from airborne platforms.

GSEI 6800 PYTHON PROGRAMMING FOR THE ENVIRONMENT (4) LEC. 3. LAB. 2. Fundamental conceptual, methodological, and operational issues in Python programming with respect to environmental applications. Topics include Python programming concepts, scripting, and skills; data processing and management; data manipulation, visualization, and analysis; and connection to spatial data analysis.

GSEI 7200 LAND PROCESSES AND CLIMATE INTERACTIONS (3) LEC. 2. LAB. 2. This is an advanced graduate level course designed to teach the modeling of land surface processes and study its impact on local, regional and global climate. Students will also perform global/regional climate model simulations using supercomputers.

GSEI 7500 DIGITAL EARTH AND BIG DATA (3) LEC. 2. LAB. 2. This is an advanced graduate-level course designed to teach the modeling of digital earth and study its impact on local, regional and global climate. Students will also perform global/regional geographic model simulations using supercomputers.

GSEI 7600 CLIMATE MODELING (3) LEC. 2. LAB. 2. Teaches modeling of the Earth's climate system. Students will also perform global climate model simulations using supercomputers, and analyze climate model outputs using NCAR Command Language.

Global Studies/Human Sciences - GSHS

Courses

GSHS 2000 GLOBAL STUDIES HUMAN SCIENCES (3) LEC. 3. An introduction to global studies with emphasis on topics relevant to Human Sciences majors.

GSHS 2007 HONORS GLOBAL STUDIES HUMAN SCIENCES (3) LEC. 3. Pr. Honors College. An introduction to global studies with emphasis on topics relevant to Human Sciences majors.

GSHS 3000 GLOBAL STUDIES IN HUMAN SCIENCES LECTURE SERIES (1) LEC. 1. Pr. GSHS 2000. Coreq. GSHS 3010. Invited speakers and lectures will explore global studies topics from a human sciences perspective.

GSHS 3010 PROFESSIONAL DEVELOPMENT IN GLOBAL STUDIES (2) LEC. 2. Pr. GSHS 2000. Coreq. GSHS 3000. Job-seeking and career development skills for Global Studies Professionals, based upon individual needs.

GSHS 3970 SPECIAL TOPICS GLOBAL STUDIES IN HUMAN SCIENCES (1-3) LEC. 1-3. Departmental approval. Study of topics of special interest beyond the current GSHS course offerings. Course may be repeated for a maximum of 9 credit hours.

GSHS 4920 GLOBAL STUDIES INTERNSHIP (12) INT. Pr. GSHS 2000 and GSHS 3000 and GSHS 3010. Supervised professional internship. Senior standing and 2.25 GPA.

GSHS 4980 RESEARCH GLOBAL STUDIES IN HUMAN SCIENCES (1-6) RES. 1-6. Pr. GSHS 2000 and GSHS 3000. Research in Global Studies in Human Sciences Course may be repeated for a maximum of 6 credit hours.

GSHS 4997 HONORS THESIS (1-6) LEC. 1-6. SU. Pr. GSHS 2000 and GSHS 3000 and GSHS 3010 and GSHS 4920. Honors thesis course for Global Studies in Human Sciences majors. Course may be repeated for a maximum of 6 credit hours.

GSHS 5000 GLOBAL STUDIES IN HUMAN SCIENCES CAPSTONE (3) LEC. 3. Pr. GSHS 2000 and GSHS 3000 and GSHS 4920 and GSHS 3010. A capstone course designed to bring global studies issues that are relevant to the human sciences field into focus through problem-based learning.

GSHS 5050 DESIGN THINKING IN GLOBAL STUDIES IN HUMAN SCIENCES (3) LEC. 3. Pr. (GSHS 2000 or GSHS 2007) and GSHS 3000 and GSHS 3010. Application of design thinking methodology to understand global issues in the Human Sciences.

GSHS 6050 DESIGN THINKING IN GLOBAL STUDIES IN HUMAN SCIENCES (3) LEC. 3. Application of design thinking methodology to understand global issues in the Human Sciences.

GSHS 6920 GRADUATE INTERNSHIP IN DEVELOPMENT PRACTICE (1-3) INT. Departmental Approval. Supervised professional internship. Course may be repeated for a maximum of 3 credit hours.

GSHS 7040 PROTOCOL FOR MDP GRADUATE STUDY (1) LEC. 1. SU. Departmental approval. Introduction to policies, practices, and expectations for successful completion of the graduate degree.

GSHS 7850 RESEARCH SEMINAR FOR MDP PROGRAM (1) LEC. 1. SU. Departmental approval. Current topics in development research.

GSHS 7950 APPLIED RESEARCH IN DEVELOPMENT (1) RES. 1. Departmental approval. Applied research in development.

GSHS 7980 INTEGRATED DEVELOPMENT PROJECT (3) LEC. 3. Departmental approval. Integrates knowledge gained from MDP courses and applies that knowledge to address an issue in development.

Graduate Studies - GRAD

Courses

GRAD 5AA0 AUTHORIZED DROP BELOW FULL-TIME (0) IND.

GRAD 6AA0 AUTHORIZED FOR FULL-COURSE OF STUDY (0) IND. Departmental approval. Course should not be printed in bulletin or in the schedule of classes booklet.

GRAD 7000 CLEARING REGISTRATION (0) LEC. May be used to register graduate students to graduate who have finished all graduation requirements by the last day of the previous semester, to remove incomplete grades, or to complete comprehensive examination for non-thesis students.

GRAD 7010 GRADUATE LEARNING COMMUNITY (0) DSL. Guided discussion of current topics in graduate education. May count either GRAD 7010 or GRAD 7016. Course may be repeated for a maximum of 6 credit hours.

GRAD 7100 FOUNDATIONS OF LEADERSHIP (3) LEC. 3. Introductory course about leadership principles that focus on personal and professional development, building teams, thinking critically, and communicating effectively.

GRAD 7200 INTRODUCTION TO RESPONSIBLE AND ETHICAL CONDUCT OF RESEARCH (1) LEC. 1. This course prepares graduate students to navigate ethical challenges likely to emerge when conducting research, including matters related to human and animal subjects, data management, peer review, and authorship. The course also examines fundamentals of the broader research environment, including collaboration, mentorship, regulations, and responding to suspected wrongdoing.

GRAD 7300 EMOTIONAL INTELLIGENCE IN LEADERSHIP (3) LEC. This course provides opportunities to explore relationships among emotional intelligence, leadership, and professional development.

GRAD 7AA0 THESIS OR PROJECT COMPLETION (0) IND. Coreq., Minimum of one (1) hour of 7910/6, 7920/6, 7950/6 or 7980 or 7990 or enrollment in GRAD 7000. Open to thesis option graduate students, non-thesis students engaged in research for special projects, or students completing practica or internships. No grade.

GRAD 8100 PROFESSIONAL DEVELOPMENT (3) LEC. This course introduces graduate students to a variety of non-academic professional environments. Course participants engage in active learning and peer review exercises to develop their personal portfolios and learn about scientific integrity, research skills, and other areas of professional development.

GRAD 8200 PRINCIPLES OF RESPONSIBLE CONDUCT OF RESEARCH AND SCIENTIFIC INTEGRITY (3) LEC. 3. Responsible conduct of research (RCR) is foundational in the scientific enterprise, offering a framework for progress and appropriate designation of credit. This course is designed to offer an introduction to the policy and ethical basis for research integrity. Students will learn about past failures that have shaped the current regulatory environment, understand the current expectations for researchers, and explore ethical dilemmas in the research space.

GRAD 8940 PREPARING FUTURE FACULTY SEMINAR I (1) LEC. 1. SU. Departmental approval. This course introduces graduate students to a variety of faculty roles and work environments. Seminar participants prepare teaching philosophy and research statements, engage in micro-teaching and peer review, discuss evolving definitions of scholarship, and engage in other professional activities. Students participate in seminars and workshops to discuss faculty teaching and research roles and responsibilities, campus life and faculty governance at differing types of academic

GRAD 8950 PREPARING FUTURE FACULTY SEMINAR II (1) PRA/SEM. 1. SU. Pr. GRAD 8940. This course is a continuation of PFF Seminar 1. It It introduces graduate students to a variety of faculty roles and work environments. Seminar participants prepare online professional portfolios, present present instruction and critique job talks and learn about the role of technology in teaching. Students participate in seminars and workshops to discuss faculty faculty teaching, research, service and outreach roles and responsibilities, campus life and faculty governance at differing types of academic institutions.

GRAD 8970 EVIDENCE-BASED TEACHING IN STEM SEMINAR (1) SEM. 1.5. SU. Permission from instructor. This 1-hour seminar will help students apply core principles and learning outcomes related to evidence-based teaching including teaching as research, learning communities, and learning through diversity. Course may be repeated for a maximum of 3 credit hours.

GRAD 8AA0 DISSERTATION COMPLETION (0) IND. Restricted to doctoral students. No grade. Additional prerequisite: minimum of 1 hour of 8910, 8920, 8950, 8980, or 8990.

GRAD 8XX0 AU/AUM JOINT PROGRAM IN PUBLIC ADMINISTRATION (0) IND. Joint Program in Public Administration. AU registration for PUB doctoral students who are registered concurrently at AUM. Enrollment at AUM.

Graphic Design - GDES

Courses

GDES 1110 FOUNDATION DRAWING (4) STU. 8. Coreq. GDES 1210. PGDE majors only; school approval. Representational drawing with various media. Emphasis on accurate observation, pictorial organization, depiction of space as well as on concept development and creativity.

GDES 1210 FOUNDATION DESIGN I (4) LEC. 1, STU. 6. Coreq. GDES 1110. PGDE majors only; school approval. Elements and principles of basic two-dimensional design. Emphasis on composition, color theory, and craftsmanship.

GDES 1220 FOUNDATION DESIGN II (4) LEC. 1, STU. 6. Pr. GDES 1210. Elements and principles of design with emphasis on basic three dimensional design. Emphasis on spatial organization, color, and media exploration, planning and craft.

GDES 2210 GRAPHIC PROCESSES (4) LEC. 1, STU. 6. Pr. GDES 1110 and GDES 1220 and (ARTS 2100 and ARTS 2150). Coreq. GDES 2220. Design and production processes, preparation of design for printing, paper, copyright, electronic techniques, and related subjects. School approval.

GDES 2220 TYPOGRAPHICS I (4) LEC. 1, STU. 6. Pr. GDES 1110 and GDES 1220 and (ARTS 2100 and ARTS 2150). Coreq. GDES 2210. Historical development and practical applications of typography for design, layout, and other contemporary formats. School approval.

GDES 2230 INTRODUCTION TO GRAPHIC DESIGN (4) STU. 8. Pr. GDES 2210 and GDES 2220. Design, layout, and image-making procedures for creative problem-solving in graphic design, with emphasis on presentation, creativity, and visualization. School approval. Portfolio review required.

GDES 3110 ELEMENTS & PRINCIPLES OF DESIGN I: FORM AND COMPOSITION (3) LEC. 3. Pr. INDD 1120. This course will expose students to a variety of design methods, and their applicability to non-design disciplines, highlighting the parallel between critical thinking and design thinking.

GDES 3120 ELEMENTS & PRINCIPLES OF DESIGN II: TYPOGRAPHY AND IMAGE (3) LEC. 3. Pr. INDD 1120. This course will teach the basic concepts and vocabulary of typography with an emphasis on the expressive potential of typography when combined with imagery in layout form.

GDES 3130 GRAPHIC DESIGN LITERACY: MESSAGE, CONTEXT, MEANING (3) LEC. 3. Pr. INDD 1120. This course is a seminar that prepares students to participate actively and confidently in conversations about visual communications. Students investigate the historical bases of graphic design as well as examine contemporary issues informing the practice of graphic design. Seminar members read and discuss case studies and design criticism, and apply analytical approaches to examples of contemporary design through oral presentations and written arguments.

GDES 3140 DESIGN THINKING: INTRODUCTION TO DIGITAL SCREEN MEDIA (3) LEC. 3. Application of design thinking (focus on experience of the user) in the context of screen-based (computers, web applications, phones) design. Projects may include the redesign of an existing website, design concept for a new mobile application, and a new video game concept.

GDES 3147 HONORS DESIGN THINKING: INTRODUCTION TO DIGITAL SCREEN MEDIA (3) LEC. 3. Application of design thinking (focus on experience of the user) in the context of screen-based (computers, web applications, phones) design. Projects may include the redesign of an existing website, design concept for a new mobile application, and a new video game concept.

GDES 3210 PHOTO DESIGN (4) STU. 8. Pr. GDES 2210 and GDES 2220. Traditional black and white film photography that covers covers technical aspects of the 35mm camera and film and basic darkroom procedures for black and white film and and basic darkroom procedures for black and white film and an awareness of the aesthetics and semantics associated with photographic imagery.

GDES 3220 PHOTO COMMUNICATIONS (4) STU. 8. Photography as applied communication such as advertising, editorial photography, and annual report photography. Emphasis on advanced technological and studio techniques.

GDES 3240 INTERACTIVE MEDIA (4) STU. 8. Pr. GDES 2230. Exploration of the technical and conceptual aspects of Web site design and motion graphics through a series of problem-solving processes. Emphasis on the research and development of effective graphic interfaces and information architecture.

GDES 3250 TYPOGRAPHICS II (4) STU. 8. Pr. GDES 2230. Experimental application of typography for design and layout, exploring contemporary techniques. Historical understanding expected. Emphasis on presentation and visualization of concepts.

GDES 3260 KINETIC TYPOGRAPHY (4) LEC. 4. Pr. GDES 2230. Focuses on how motion affects meaning and how new meaning can be developed through time, space, and sound.

GDES 3710 GRAPHIC DESIGN HISTORY (4) LEC. 4. Pr. GDES 2210 and GDES 2220. History of graphic design, with emphasis on social and cultural contexts, symbolic application, formal characteristics, and significant movements.

GDES 3910 GRAPHIC DESIGN INTERNSHIP PRACTICUM (2) LEC. 2. Pr. GDES 2210 and GDES 2220. Acceptance into the GDES program. Focuses on the professional practices of Graphic Design through portfolio creation and presentation, resume and cover letter writing and the tactics of searching for an internship.

GDES 3920 GRAPHIC DESIGN INTERNSHIP (4) INT. 4. Pr. GDES 2230. a fifteen-week period working full time as a staff member with an approved internship sponsor under the direction of a supervising art director.

GDES 4240 GRAPHIC DESIGN I (4) STU. 8. Pr. GDES 3240. Application of communicative procedures and skills necessary to convey messages by means of graphic presentation: problem solving in corporate identity, advertising design, self promotion, etc. Development of student's individual style.

GDES 4250 GRAPHIC DESIGN II (4) STU. 8. Pr. GDES 4240. Development of individual style in communication via graphic graphic presentation, with emphasis on problem-solving in publication design, self-promotion, large-format design, and layout.

GDES 4270 ADVANCED INTERACTIVE MEDIA (4) STU. 8. Pr. GDES 3240. Focuses on the principles and methodologies used throughout the interactive design industry for creating screen-based dynamic media. Students develop a conceptual framework for real world applications, exploring industrial, social and cultural issues.

GDES 4640 IMAGE I (4) STU. 8. Pr. GDES 2230. Application of illustration techniques and concepts to various graphic formats. Development of personal skills and individual style.

GDES 4650 IMAGE II (4) STU. 8. Pr. GDES 2230. Exploration of two dimensional and three dimensional imaging techniques and concepts. Development of personal skills and an individual style.

GDES 4900 DIRECTED STUDIES FOR GRAPHIC DESIGN (2-3) AAB. Pr. GDES 2210 and GDES 2220. Directed Studies in Graphic Design focuses on individualized study in Graphic Design. Student must have a 3.0 average in GDES course curriculum and departmental approval. Topics may include Graphic Design, Imaging, Web Design. Course may be repeated for a maximum of 9 credit hours.

GDES 4970 SPECIAL TOPICS FOR GRAPHIC DESIGN (4) LEC. 1. Pr. GDES 2230 and GDES 3710. Special Topics in Graphic Design focuses on topics in graphic design that are additional to the regular curriculum. Specific course topics are developed by the instructor. Student must have a 3.0 average in GDES GDES course curriculum. Course may be repeated for a maximum of 12 credit hours.

GDES 4990 SENIOR PROJECT FOR GRAPHIC DES (5) STU. 10. Pr. GDES 4250. Coreq. GDES 4991. A directed terminal studio project with choice of subject and medium. Project will be exhibited and a faculty committee will award a letter grade. Must be taken in student's final semester.

GDES 4991 RESEARCH, WRITING AND PRESENTATION (1) LEC. 1. Pr. GDES 4250. Coreq. GDES 4990. Addresses research, writing and presentation requirement associated with the student's terminal studio project. Must be taken in student's final semester.

Health Administration - HADM

Courses

HADM 2100 MEDICAL TERMINOLOGY (3) LEC. 3. Prefixes, suffixes, and word roots used in the language of medicine; medical vocabulary and terms related to the health care field.

HADM 3000 GATEWAY TO HEALTH CARE ADMINISTRATION (3) LEC. 3. Basic concepts and principles of health care administration.

HADM 3300 HEALTH CARE POLICY (3) LEC. 3. Pr. HADM 3000 and (ACCT 2110 or ACCT 2117) and (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613 or MATH 1617) and (P/C HADM 2100 or P/C HADM 2103). Political policies that affect health care services.

HADM 3700 HEALTH LAW (3) LEC. 3. Legal issues that arise between patients and health care providers.

HADM 3800 HEALTH CARE ANALYTICS (3) LEC. 3. Pr. (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610) and (MATH 1610 or MATH 1613 or MATH 1617 or MATH 1680 or MATH 1683) and (ACCT 2110 or ACCT 2117). Majors only. This course focuses on using big data to drive decision making and improve health care quality through data aggregation and validation, strategic management data manipulation and technical reporting implementation.

HADM 4000 HEALTHCARE MANAGEMENT & LEADERSHIP (3) LEC. 3. Pr. HADM 3300 and HADM 3800. Health Services Administration major only. Organizational strategies for effective interfacing of medical, nursing, allied health and administrative staff with patient needs.

HADM 4200 HEALTH CARE INSURANCE AND REIMBURSEMENT (3) LEC. 3. Pr. HADM 3000 and HADM 3700 and HADM 3800. Health Services Administration major only. Health insurance operations, principles, payment methods and contracts.

HADM 4810 CHANGE IN HEALTH ADMINISTRATION (3) LEC. 3. Pr. HADM 4000. Health Services Administration major only. Changes in modern technology, cultural diversity, and governmental policies on the administration of health services organizations.

HADM 4820 LONG-TERM CARE ADMINISTRATION (3) LEC. 3. Pr. P/C HADM 4000. Health Services Administration major only. Analysis of the components (e.g. nursing homes, home health care) of the long-term care system for the elderly.

HADM 4830 COMPARATIVE HEALTH CARE SYSTEMS (3) LEC. 3. Pr. HADM 4000. Health Services Administration major only. Comparative Study and analysis of health care systems around the world.

HADM 4840 DATA-DRIVEN DECISION MAKING IN HEALTH CARE (3) LEC. 3. LAB. 0. Pr. P/C HADM 4200 and HADM 3800. An evaluation of current healthcare quality reporting requirements and how quality reporting relates to improving patient outcomes across all healthcare venues.

HADM 4850 LONG-TERM CARE POLICY (3) LEC. 3. Pr. HADM 4000. Health Services Administration major only. Policy issues surrounding the provision of long-term care to the elderly.

HADM 4880 HEALTH INFORMATION TECHNOLOGY (3) LEC. 3. Pr. HADM 4000 and HADM 4200. Health Services Admiistration major only. Overview and utilization of health care information technology in health care administration.

HADM 4890 ELECTRONIC HEALTH RECORD APPLICATIONS (3) LEC. 3. Pr. HADM 4000 and HADM 3300 and HADM 3000 and (ACCT 2110 or ACCT 2117) and (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613 or MATH 1617). Health Services Administration major only. This course covers the definition, benefits, regulations, standards, functionality, and impact of Electronic Health Records (EHR) in the healthcare environment. The course provides the student with a thorough understanding of the terminology of EHR systems as well as practical experience with the clinical and administrative use of EHRs in a medical settings.

HADM 4920 INTERNSHIP (6) AAB/INT. 6. SU. Pr. HADM 4000 and HADM 4200 and FINC 3810 or (FINC 3610 or FINC 3613 or FINC 3617) and (HRMN 3420 or HRMN 3423) or (MNGT 3423 or MNGT 3420). Health Services Administration major only. Internship in selected areas of Health Administration.

HADM 4930 DIRECTED STUDIES (1-3) AAB/IND. Pr. HADM 3000 and ACCT 2100 and (MATH 1680 or MATH 1683) and (MATH 1610 or MATH 1613 or MATH 1617) and (STAT 2010 or STAT 2017) or (STAT 2510 or STAT 2513) or STAT 2610. Health Services Administration major only. This course is designed to facilitate an independent study in an area of special interest of the student and a sponsoring faculty member. Course may be repeated for a maximum of 3 credit hours.

HADM 4950 CAPSTONE SEMINAR (3) LEC. 3. Pr. HADM 4000 and HADM 4200 and (FINC 3810 or FINC 3610 or FINC 3613 or FINC 3617). Health Services Administratrion major only. Integrates knowledge from courses and internship; applies managerial and research skills to the completion of a research project and the organization of a research symposium.

HADM 4960 SPECIAL PROBLEMS IN HEALTH ADMINISTRATION (1-6) IND. Pr. HADM 3300. Directed readings in Health Administration. Course may be repeated for a maximum of 6 credit hours.

HADM 4970 SPECIAL TOPICS (3) ST1. 3. Pr. HADM 3000 and (ACCT 2110 or ACCT 2117) and (MATH 1680 or MATH 1683) or (MATH 1610 or MATH 1613 or MATH 1617). Health Services Administration major only. Special Topics courses are used to inform and educate students about new and emerging changes within the health care field. The Topics addressed change to coincide with changes in the health care environment. Course may be repeated for a maximum of 6 credit hours.

Health Outcomes Research & Policy - HORP

Courses

HORP 7510 HEALTH SERVICES DELIVERY AND EVALUATION (3) LEC. 3. Enrollment in the MS or PhD Program in Pharmaceutical Science with Health Outcomes Research and Policy Option or Departmental approval. Introduction to basic methods and frameworks for undertaking research and program evaluation within health services organizations and systems.

HORP 7520 SOCIAL AND BEHAVIORAL THEORY IN HEALTH (3) LEC. 3. Enrollment in the MS or PhD Program in Pharmaceutical Science with Health Outcomes Research and Policy Option Introduction to the basic theories of behavior and intervention used in practice and research to evaluate changes in health, humanistic, and economic outcomes among patients.

HORP 7530 PHARMACEUTICAL ECONOMICS, OUTCOMES, AND POLICY (3) LEC. 3. Enrollment in the MS or PhD Program in Pharmaceutical Science with Health Outcomes Research and Policy Option or Departmental approval. The graduate-level course is intended to introduce students to concepts relevant to pharmaceutical outcomes, economics, and policy. The course provides foundational knowledge surrounding healthcare.

HORP 7540 PHARMACOEPIDEMIOLOGY: METHODS AND APPLICATIONS (3) LEC. 3. Enrollment in the MS or PhD Program in Pharmaceutical Science with Health Outcomes Research and Policy Option or Departmental approval. STAT 6110 or equivalent SAS training. The course covers topics in pharmacoepidemiology focusing on the methods and applications of analyzing large healthcare claims databases and electronic medical records.

HORP 7720 MOTIVATIONAL INTERVIEWING FOR HEALTH BEHAVIORS (3) LEC. 2, IND/LEC. 1. Enrollment in the MS or PhD Program in Pharmaceutical Science with Health Outcomes Research and Policy Option or Departmental approval. Concepts, current research applications, and intervention development training in motivational interviewing for health behavior change interventions.

HORP 7820 RESEARCH METHODS AND DESIGN HEALTH SCIENCE I (2) LEC. 2. Departmental approval. Application of scientific methods in health care.

HORP 7830 RESEARCH METHODS IN THE HEALTH SCIENCES (3) LEC. 3. Pr. PYPC 7820 or HORP 7820. Application of the principles and concepts obtained in PYPC 7820/HORP 7820.

HORP 7840 MEDICATION INFORMATION SYSTEMS (3) LEC. 3. Health system informatics theories and methodologies. Demonstration of how information reduces uncertainty in health-care decision-making.

HORP 7860 THE PHARMACIST'S ROLE IN IMPROVING PATIENT ADHERENCE (3) LEC. 3. Pr. PYPC 7820. Theories and methodologies involved in adherence to medication regimens.

HORP 7870 SOCIAL, BEHAVIORAL, AND ADMINISTRATIVE ASPECTS OF PHARMACY PRACTICE (3) LEC. 3. Theories and applications in social, behavioral, and administrative aspects of pharmacy practice and medication use systems.

HORP 7950 SEMINAR (1) SEM. 1. SU. 1 CR; may be repeated multiple times for credit. Required of all Pharmaceutical Science MS students with Health Outcomes Research and Policy Option. Course may be repeated for a maximum of 6 credit hours.

HORP 7960 SPECIAL PROBLEMS IN HEALTH OUTCOMES RESEARCH (2-3) LEC. Departmental approval. Special problems. Course may be repeated for a maximum of 6 credit hours.

HORP 7980 NON-THESIS RESEARCH (1-3) RES. SU. Pharmaceutical Sciences Non-Thesis MS Graduate Student and approval from the Graduate Program Coordinator. The specific research topic and its credit hour(s) will be decided by the student's research advisor, in collaboration with the student and the student's research advisory committee. Course may be repeated for a maximum of 4 credit hours.

HORP 7990 RESEARCH AND THESIS (1-10) MST. Credit hours to be arranged. Course may be repeated with change in topics.

HORP 8950 SEMINAR (1) SEM. 1. SU. 1 CR; may be repeated multiple times for credit. Required of all Pharmaceutical Science PhD students with Health Outcomes Research and Policy Option. Course may be repeated for a maximum of 10 credit hours.

HORP 8960 SPECIAL PROBLEMS IN HEALTH OUTCOMES RESEARCH (1-3) LEC. Departmental approval. Credit hours to be arranged. Course may be repeated for a maximum of 6 credit hours.

HORP 8990 RESEARCH AND DISSERTATION (1-10) DSR. Credit hours to be arranged. Course may be repeated with change in topics.

Higher Education Administration - HIED

Courses

HIED 7200 ORGANIZATIONAL ISSUES IN HIGHER EDUCATION (3) LEC. 3. Theory and practice of higher education organizations with emphasis on supervision and management of personnel.

HIED 7210 LEADERSHIP IN HIGHER EDUCATION (3) LEC. 3. Exploration, discussion and application of theories, concepts and principles of leadership applied to higher education organizations. May count either EDLD 7210 or HIED 7210.

HIED 7220 HIGHER EDUCATION MANAGEMENT (3) LEC. 3. Procedures and practices in school educational management.

HIED 7230 STUDENT SERVICES ADMINISTRATION POSTSECONDARY EDUCATION (3) LEC. 3. Organization, administration and evaluation of student personnel services in postsecondary education.

HIED 7240 LEGAL ISSUES IN HIGHER EDUCATION (3) LEC. 3. Constitutional and statutory provisions for education and an analysis of judicial decisions affecting higher education.

HIED 7250 COLLEGE STUDENT DEVELOPMENT (3) LEC. 3. Overview of major developmental theories affecting college students.

HIED 7260 COUNSELING AND ADVISING IN HIGHER EDUCATION (3) LEC. 3. Introduces counseling and advising theory and application for student services professionals in higher education.

HIED 7270 OVERVIEW OF POSTSECONDARY EDUCATION (3) LEC. 3. Overview of the history and evolution of postsecondary education in North America. May count either HIED 7270 or HIED 7276.

HIED 7400 SPORT MARKETING AND PUBLIC RELATIONS (3) LEC. 3. Marketing and public relations of sport organizations as associated with higher education institutions.

HIED 7410 SPORT ETHICS (3) LEC. 3. Covers ethical issues in sport organizations as associated with higher education institutions.

HIED 7900 DIRECTED STUDIES (1-6) IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

HIED 7910 PRACTICUM (3) PRA. 3. Departmental approval. Experience in the management of specific administrative offices. Course may be repeated for a maximum of 6 credit hours.

HIED 7920 INTERNSHIP (1-6) INT. SU. Departmental approval. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 6 credit hours.

HIED 7970 SPECIAL TOPICS (1-6) LEC. 1-6. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

HIED 8200 ASSESSMENT AND EVALUATION IN HIGHER EDUCATION (3) LEC. 3. Study of assessment and evaluation practices that enable learning organizations to use data for decision-making.

HIED 8230 PLANNING AND BUDGETING IN HIGHER EDUCATION (3) LEC. 3. Components and implementation of a comprehensive, ongoing planning and budgeting program in higher education.

HIED 8270 FINANCIAL MANAGEMENT IN HIGHER EDUCATION (3) LEC. 3. Educational finance including revenues, expenditures, cost, budgeting and accounting, and the local, state and federal role in supporting education.

HIED 8480 INSTITUTIONAL RESEARCH IN HIGHER EDUCATION (3) LEC. 3. Components of institutional research and assessment that support comprehensive planning, analysis, decision support and management needs of the higher educational institution May count either EDLD 8480 or HIED 8480.

HIED 8500 THE PROFESSORIATE (3) LEC. 3. Study of differences and similarities in faculty roles, work, and career paths using various disciplinary and institutional lenses.

HIED 8510 SEMINAR IN COLLEGE TEACHING (3) LEC/SEM. 3. Overview of major issues in higher education and methods of instruction in college teaching. Involves use of experiential learning, group and collaborative activities.

HIED 8950 SEMINAR (3) LEC. 3. Presentation by graduate students of research projects and/or analysis of procedures and finding. Course may be repeated for a maximum of 6 credit hours.

HIED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 credit hours.

History - HIST

Courses

HIST 1000 AUBURN IN THE WORLD: INDUSTRY AND SOCIETY (4) LEC. 3. LAB. 1. Part of the Auburn Global International Accelerator Program, HIST1000 exposes first-year students to Auburn, Alabama, and regional history from a wide range of perspectives, among them social, cultural, and environmental changes, economics, technology, and politics.

HIST 1010 WORLD HISTORY I (3) LEC. 3. History Core. Survey of world history from early humanity to the 1500s. Examines the record of human political, social, cultural, religious, and economic activities across time, regions, civilizations, and cultures. May count either HIST 1010 or HIST 1013.

HIST 1017 HONORS WORLD HISTORY I (3) LEC. 3. Pr. Honors College. History Core. Survey of world history from early humanity to the 1500s. Examines the record of human political, social, cultural, religious, and economic activities across time, regions, civilizations, and cultures.

HIST 1020 WORLD HISTORY II (3) LEC. 3. History Core. Survey of world history from the 1500s to the present. Examines the record of human political, social, cultural, religious, and economic activities across time, regions, civilizations, and cultures.

HIST 1027 HONORS WORLD HISTORY II (3) LEC. 3. Pr. Honors College. History Core. Survey of world history from the 1500s to the present. Examines the record of human political, social, cultural, religious, and economic activities across time, regions, civilizations, and cultures.

HIST 1210 TECHNOLOGY AND CIVILIZATION I (3) LEC. 3. History Core. Survey of the role of technology in history from prehistoric times to the beginning of the Industrial Revolution.

HIST 1217 HONORS TECHNOLOGY AND CIVILIZATION I (3) LEC. 3. Pr. Honors College. History Core. Survey of the role of technology in history from prehistoric times to the beginning of the Industrial Revolution.

HIST 1220 TECHNOLOGY AND CIVILIZATION II (3) LEC. 3. History Core. Survey of the role of technology from the Industrial Revolution to the present day.

HIST 1227 HONORS TECHNOLOGY AND CIVILIZATION II (3) LEC. 3. Pr. Honors College. History Core. Survey of the role of technology from the Industrial Revolution to the present day.

HIST 2010 SURVEY OF UNITED STATES HISTORY TO 1877 (3) LEC. 3. Social, political, and economic development of the United States from earliest occupation through Reconstruction. May count either HIST 2010 or HIST 2013.

HIST 2020 SURVEY OF UNITED STATES HISTORY SINCE 1877 (3) LEC. 3. Social, political, and economic development of the United States from the end of Reconstruction to the present.

HIST 2070 SURVEY OF EUROPEAN HISTORY FROM THE RENAISSANCE TO 1789 (3) LEC. 3. Survey of European history from the first outbreak of the bubonic plague to the eve of the French Revolution.

HIST 2080 SURVEY OF EUROPEAN HISTORY FROM 1789 PRESENT (3) LEC. 3. European history from the French Revolution to the present.

HIST 2100 SURVEY OF LATIN AMERICAN HISTORY (3) LEC. 3. Latin American history from its Amerindian beginnings to the present.

HIST 2110 SURVEY OF ASIAN HISTORY (3) LEC. 3. Asian history from prehistoric times to the present.

HIST 2120 SURVEY OF MODERN AFRICAN HISTORY (3) LEC. 3. Modern African history, from the end of the slave trade to the rise of nationalism and independence.

HIST 2130 SURVEY OF MIDDLE EASTERN HISTORY I (3) LEC. 3. The course examines the history of the Middle East from late antiquity to the Ottoman era.

HIST 2140 SURVEY OF MIDDLE EASTERN HISTORY II (3) LEC. This course is a survey of Middle Eastern history from the Ottoman era to the present.

HIST 3000 HISTORY OF SOUTHEASTERN INDIANS (3) LEC. 3. History of the southeastern Indians from pre-contact to removal, including native culture, cultural change, trade, imperial rivalries, and wars.

HIST 3010 HISTORY OF ALABAMA (3) LEC. 3. Broad study of Alabama history since its European settlement.

HIST 3020 HISTORY OF WOMEN IN THE UNITED STATES (3) LEC. 3. History of women in America from colonial period to the present; explores differences of region, race, and class.

HIST 3030 AFRICAN-AMERICAN HISTORY (3) LEC. 3. History of African Americans from African origins to the modern era, focusing on enslavement, emancipation and the struggle for equal rights.

HIST 3040 AMERICAN RELIGIOUS HISTORY (3) LEC. 3. Religious ideas and institutions from the colonial period to the present, including how religion has intersected with political and social history.

HIST 3060 ISSUES IN AFRICAN-AMERICAN HISTORY (3) LEC. 3. Issues and personalities in African-American history. Course may be repeated for a maximum of 6 credit hours.

HIST 3080 THE CIVIL RIGHTS MOVEMENT (3) LEC. 3. History of the civil rights movement and its place in the broader African-American struggle for freedom. Social, political, and cultural history, with geographic and chronological focus on the United States South in the post-World War II period.

HIST 3090 HISTORY OF APPALACHIA (3) LEC. 3. Survey of the history of the Appalachian region from before European contact to the present.

HIST 3100 THE CIVIL WAR IN AMERICAN MEMORY (3) LEC. 3. A survey of the ways that Americans have remembered their civil war from 1865 to the present.

HIST 3300 GRECO-ROMAN CIVILIZATION (3) LEC. 3. Classical civilizations of the Greeks and Romans as well as the Egyptian and Persian civilizations that influenced them.

HIST 3310 EUROPE IN THE MIDDLE AGES (3) LEC. 3. Survey of the thousand years that has been called the birth of Europe.

HIST 3330 ISSUES IN THE HISTORY OF GERMANY AND CENTRAL EUROPE (3) LEC. 3. Variable topics in the history of Germans, Slavs, and other Central Europeans from the Era of Enlightened Absolutism through the fall of the Berlin Wall. Course may be repeated for a maximum of 6 credit hours.

HIST 3340 ISSUES IN THE HISTORY OF MODERN FRANCE (3) LEC. 3. Focus on specific issues, themes, or topics within the political, social, or cultural history of France between the 18th and 20th centuries. Themes will vary.

HIST 3350 SURVEY OF RUSSIAN HISTORY (3) LEC. 3. Russian history from the earliest development of a state in the area of Kiev down to the present Russian Federation.

HIST 3370 EUROPE AND THE WORLD (3) LEC. 3. Variable topics in the history of European interactions with non-European peoples, cultures, politics, and societies.

HIST 3500 HISTORY OF AVIATION (3) LEC. 3. History of aviation from the beginnings of human flight to the present.

HIST 3510 HISTORY OF SPACE EXPLORATION (3) LEC. 3. Origins, motivations, and culture of space exploration in a global context.

HIST 3520 SCIENTIFIC REVOLUTIONS (3) LEC. 3. History of science, focusing on the concept of scientific revolutions in their social and intellectual context.

HIST 3530 SCIENCE FICTION AS INTELLECTUAL HISTORY (3) LEC. 3. Interaction between science, technology, and other aspects of modern culture as dramatized in classic and contemporary works of science fiction.

HIST 3540 ISSUES IN TECHNOLOGY AND CULTURE (3) LEC. 3. Issues such as the automobile, environment, industrialization, and popular culture relating to the role technology plays in society and culture. Course may be repeated for a maximum of 6 credit hours.

HIST 3550 AMERICAN ENVIRONMENTAL HISTORY (3) LEC. 3. Environmental history of the United States from colonial era to present.

HIST 3560 TECHNOLOGY AND GENDER HISTORY (3) LEC. 3. Exploration of the relationship between gender and technology in comparative cultural, social, and historical perspectives from 18th century to present.

HIST 3570 THE AUTOMOBILE IN HISTORY (3) LEC. 3. Global history of the automobile, including technological developments as well as role of the automobile in culture.

HIST 3580 ISSUES IN THE HISTORY OF MEDICINE (3) LEC. 3. In this course students will explore the changing relationship between medicine, health, and society in different historical and geographic contexts. Themes will vary. Course may be repeated for a maximum of 6 credit hours.

HIST 3590 ISSUES IN FOOD AND AGRICULTURE (3) DSL/LEC. This course looks at the history of agricultural systems, foodways, and food politics. It explores debates and trends in food and agriculture and the social and cultural forces driving them.

HIST 3600 ISSUES IN WOMEN'S AND GENDER HISTORY (3) LEC. 3. Topics in the history of women and gender. Course may be repeated for a maximum of 6 credit hours.

HIST 3610 PRIVATE LIVES AND PUBLIC PLACES (3) LEC. 3. Examination of the shifting boundaries between the public and private in history including topics such as work, family, sexuality, and the state. Course may be repeated for a maximum of 6 credit hours.

HIST 3640 WORLD MILITARY HISTORY (3) LEC. 3. Economic, social, political, and technological roots of the ways of war employed by different civilizations throughout the ages.

HIST 3650 20TH-CENTURY WORLD WARS (3) LEC. 3. Causes, conduct, and consequences of World Wars I and II.

HIST 3660 WORLD NAVAL HISTORY (3) LEC. 3. Naval history from its origins in ancient times to the present, including the evolution of strategy and tactics, and the influences of, foreign policy and technological change.

HIST 3670 CONTEMPORARY HISTORY (3) LEC. 3. Examination of developments in the contemporary world to provide historical background on developments in selected areas or nations across the globe.

HIST 3800 HISTORIAN'S CRAFT (3) LEC. 3. Historical research methods and an introduction to historiography. For history majors only.

HIST 3920 HISTORY INTERNSHIP (3) LEC. 3. Pr., Departmental approval. Supervised on-the-job experience at archives, historical museums, historic preservation authorities, historical editing projects, and similar historical agencies.

HIST 3930 DIRECTED STUDIES (1-3) IND. Pr., Departmental approval and; 3.0 overall GPA. Individual reading or research projects in a specific area of history. Course may be repeated for a maximum of 3 credit hours.

HIST 3970 SPECIAL TOPICS (3) LEC. 3. Topics vary. Course may be repeated for a maximum of 6 credit hours.

HIST 4950 SENIOR THESIS: HISTORICAL RESEARCH AND WRITING (3) LEC. 3. Pr. HIST 3800. with minimum grade of "C." Writing an original paper based on research in primary source materials.

HIST 4970 SENIOR SEMINAR (3) LEC. Pr. HIST 3800. Senior Seminar is a capstone course for upper-level undergraduate students. It may be research-based or historiography-based. Topics vary widely. HIST 4970 may be repeated once for credit. Course may be repeated for a maximum of 6 credit hours.

HIST 4997 HONORS THESIS (3) LEC. 3. Pr. Honors College. Writing an original paper based on research in primary materials.

HIST 5000 AMERICAN COLONIAL HISTORY (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Development of the North American colonies from European settlement to 1763.

HIST 5010 AMERICAN REVOLUTION AND EARLY NATION: 1763-1800 (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Revolutionary era and the foundations of the United States, including the struggle with England, Declaration of Independence, Revolutionary War, Confederation, Constitution, and Federalist-Republican conflicts.

HIST 5020 EARLY AMERICAN REPUBLIC: 1800-1850 (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Development of the early nation, including the influences of Thomas War of 1812, Jacksonian democracy, Indian removal, Old South and slavery, westward movement, and political party conflicts.

HIST 5030 SOUTH TO 1877 (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Development of the Old South, from southeastern Indians and European contact through Reconstruction, including slavery, white social classes, women, and politics.

HIST 5040 CIVIL WAR ERA: 1850-1877 (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Sectional conflict, Civil War, and Reconstruction including sectional differences, political crises, secession, Civil War campaigns, emancipation, and presidential and congressional Reconstruction.

HIST 5050 THE SOUTH SINCE 1877 (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Examination of the South since 1877, with emphasis on social, economic, cultural, political, and ideological developments.

HIST 5060 MAKING MODERN AMERICA: 1877-1929 (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Development of the American economy, rise of big business, agrarian and labor protests, immigration, race relations, role of women, and role of government.

HIST 5070 MODERN UNITED STATES HISTORY: 1929 TO THE PRESENT (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. United States history since 1929 with particular emphasis on the economy, changing role of government, America's role in world affairs and social changes.

HIST 5090 AMERICAN LEGAL HISTORY (3) LEC. 3. Pr. HIST 3800 or departmental approval. Survey of American legal history from the Constitution to the World Wars. Topics include citizenship, criminal justice, and economic regulation. C or better in HIST 3800

HIST 5300 EARLY MODERN EUROPE: 1348-1715 (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Major topics in European history 1348-1715, including religious and cultural change and the relationship between state and society.

HIST 5310 ENLIGHTENMENT AND REVOLUTIONARY EUROPE: 1715-1815 (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Culture, society, and politics of the 18th century; origins and consequences of the French Revolution; examination of the Napoleonic period.

HIST 5320 19TH CENTURY EUROPE: 1815-1918 (3) LEC. 3. Pr. HIST 3800. Departmental approval. Students not majoring in history must obtain a waiver from the department. Cultural, economic, and social developments as well as the politics and international relations of the major European states.

HIST 5330 20TH CENTURY EUROPE (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. History of Europe from the outbreak of World War I to the end of the Cold War.

HIST 5360 MEDIEVAL BRITISH HISTORY (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. British history from the Roman period to the Tudor dynasty.

HIST 5370 EARLY MODERN BRITISH HISTORY (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. British history from 1485 to the early 18th century.

HIST 5380 MODERN BRITISH HISTORY (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. British history from the political unification of England and Scotland to the present.

HIST 5500 THE GREAT TRANSFORMATION: THE INDUSTRIAL REVOLUTION (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. The Industrial Revolution of 18th, 19th and 20th centuries, with a major focus on England and the United States and some discussion of Europe and Asia.

HIST 5580 THE HISTORY OF FLIGHT (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. History of flight in political, economic, social, and cultural perspective.

HIST 5620 MODERN LATIN AMERICA (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. History of Latin America in the 19th and 20th centuries, using a thematic approach arranged chronologically.

HIST 5640 HISTORY OF ISLAM (3) LEC. 3. Pr. HIST 3800. HIST 3800 with grade of "C" or better. This course examines the history of Islam and Islamic Islamic civilization from the seventh century to the present. Topics include theology, politics, society, and culture.

HIST 5650 HISTORY OF MODERN SOUTH ASIA (3) LEC. 3. Pr. HIST 3800. Development of the Indo-Islamic culture, the British rule of India, and the creation of Muslim Pakistan and secular India. Attention to role of individuals and events in history of nation-building.

HIST 5660 HISTORY OF MODERN CHINA: 1800-PRESENT (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Examination and analysis of the political, social, economic, and intellectual changes in China from 1800-2000.

HIST 5680 AFRICA FROM 1800 TO PRESENT (3) LEC. 3. Pr. HIST 3800. Students not majoring in history must obtain a waiver from the department. Topics include state formation, ending of Atlantic slave trade and African slave trade and slavery, rise and fall of colonial rule, and current problems facing independent countries.

HIST 5710 FUNDAMENTALS OF ARCHIVAL THEORY AND PRACTICE (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Fundamentals of archival theory and practice; the relationship between archives and records management; and the role of records and archives in society.

HIST 5810 FUNDAMENTALS OF PUBLIC HISTORY (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Overview of the public history field in its diverse venues and manifestations; ways in which historians engage various publics. Projects assigned to help students understand and experience how public historians carry out their work and responsibilities.

HIST 5820 HISTORIC PRESERVATION AND CULTURAL RESOURCE MANAGEMENT (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in history must obtain a waiver from the department. Overview of historic preservation and cultural resource management in the United States and beyond. Considers modern preservation in terms of individuals, societies, and cultures and their relationships to the built environment and cultural landscape.

HIST 5970 SPECIAL TOPICS IN HISTORY (3) LEC. 3. Pr. HIST 3800 or Departmental approval. Students not majoring in the history must obtain a waiver from the department. Topics vary. Course may be repeated for a maximum of 6 credit hours.

HIST 6000 AMERICAN COLONIAL HISTORY (3) LEC. 3. Development of the North American colonies from European settlement to 1763.

HIST 6010 AMERICAN REVOLUTION AND EARLY NATION: 1763-1800 (3) LEC. 3. Revolutionary era and the foundations of the United States, including struggle with England, Declaration of Independence, Revolutionary War, Confederation, Constitution, and Federalist-Republican conflicts.

HIST 6020 EARLY AMERICAN REPUBLIC: 1800-1850 (3) LEC. 3. Development of the early nation, including the influences of Thomas Jefferson, War of 1812, Jacksonian democracy, Indian removal, Old South and slavery, westward movement, and political party conflict.

HIST 6030 SOUTH TO 1877 (3) LEC. 3. Development of the Old South, from southeastern Indians and European contact through Reconstruction, including slavery, white social classes, women, and politics.

HIST 6040 CIVIL WAR ERA: 1850-1877 (3) LEC. 3. Sectional conflict, Civil War, and Reconstruction, including sectional differences, political crises, secession, Civil War campaigns, emancipation, and presidential and congressional Reconstruction.

HIST 6050 THE SOUTH SINCE 1877 (3) LEC. 3. Examination of the South since 1877, with emphasis on social, economic, cultural, political, and ideological developments.

HIST 6060 MAKING MODERN AMERICA: 1877-1929 (3) LEC. 3. Development of the American economy, rise of big business, agrarian and labor protest, immigration, race relations, role of women, and role of government.

HIST 6070 MODERN UNITED STATES HISTORY: 1929 PRESENT (3) LEC. 3. United States history since 1929, with particular emphasis on the economy, changing role of government, America's role in world affairs, and social changes.

HIST 6090 AMERICAN LEGAL HISTORY (3) LEC. 3. This course provides an upper-level chronological survey of American Legal History from the Constitution to the Civil Rights Era through broad themes that include: race and law, economic development, citizenship and belonging, marriage and family law, and criminal justice. The course will examine how major events and processes like Emancipation, Industrialization, and the World Wars brought changes in the workings of American law. At its heart, legal history investigates how law actually worked, how it affected the lives of individuals, and how that shifted over time. This course helps students refine universally-applicable skills, such as conducting original legal-historical research, writing, oral communication, and teaching, all while focusing on those areas of American Legal History that most interest them. The class requires regular reading quizzes, two exams, and a research project that is broken up into smaller assignments throughout the semester. This course also requires a teaching demonstration for graduate students.

HIST 6300 EARLY MODERN EUROPE: 1348-1715 (3) LEC. 3. Major topics in European history 1348-1715, including religious and cultural change and the relationship between state and society.

HIST 6310 ENLIGHTENMENT AND REVOLUTIONARY EUROPE: 1715-1815 (3) LEC. 3. Culture, society, and politics of the 18th century; origins and consequences of the French Revolution; examination of the Napoleonic period.

HIST 6320 19TH CENTURY EUROPE: 1815-1918 (3) LEC. 3. Cultural, economic, and social developments as well as the politics and international relations of the major European states between 1815-1918.

HIST 6330 20TH CENTURY EUROPE (3) LEC. 3. History of Europe from the outbreak of World War I to the end of the Cold War.

HIST 6360 MEDIEVAL BRITISH HISTORY (3) LEC. 3. British history from the Roman period to the Tudor dynasty.

HIST 6370 EARLY MODERN BRITISH HISTORY (3) LEC. 3. British history from 1485 to the early 18th century.

HIST 6500 THE GREAT TRANSFORMATION: THE INDUSTRIAL REVOLUTION (3) LEC. 3. The Industrial Revolution of 18th, 19th, and 20th centuries with a major focus on England and the United States and some discussion of Europe and Asia.

HIST 6580 TOPICS IN THE HISTORY OF FLIGHT (3) LEC. 3. The history of flight in political, economic, social, and cultural perspective.

HIST 6620 MODERN LATIN AMERICA (3) LEC. 3. History of Latin America in 19th and 20th centuries using a thematic approach arranged chronologically.

HIST 6640 HISTORY OF ISLAM (3) LEC. 3. This course examines the history of Islam and Islamic civilization from the seventh century to the present. Topics include theology, politics, society, and culture.

HIST 6660 HISTORY OF MODERN CHINA: 1800-PRESENT (3) LEC. 3. Examination and analysis of the political, social, economic and intellectual changes in China from 1800-2000.

HIST 6680 AFRICA FROM 1800 TO PRESENT (3) LEC. 3. Topics include state formation, ending of Atlantic slave trade and African slave trade and slavery, rise and fall of colonial rule, and current problems facing independent countries.

HIST 6710 FUNDAMENTALS OF ARCHIVAL THEORY AND PRACTICE (3) LEC. 3. Fundamentals of archival theory and practice; the relationship between archives and records management; and the role of records and archives in society.

HIST 6810 FUNDAMENTALS OF PUBLIC HISTORY (3) LEC. 3. Overview of the public history field in its diverse venues and manifestations; ways in which historians engage various publics. Projects assigned to help students understand and experience how public historians carry out their work and responsibilities.

HIST 6820 HISTORIC PRESERVATION AND CULTURAL RESOURCE MANAGEMENT (3) LEC. 3. Overview of historic preservation and cultural resource management in the United States and beyond. Considers modern preservation in terms of individuals, societies, and cultures and their relationships to the built environment and cultural landscape.

HIST 6970 SPECIAL TOPICS IN HISTORY (3) LEC. 3. Topics vary. Course may be repeated for a maximum of 6 credit hours.

HIST 7110 SEMINAR IN AMERICAN COLONIAL HISTORY (3) SEM. 3. Development of the British North American colonies, including discussions concerning Indians, English background, exploration, settlement, rebellions, religion, slavery, imperial rivalries, and women.

HIST 7120 SEMINAR IN AMERICAN REVOLUTION AND EARLY NATION (3) SEM. 3. Birth of the American nation and its re-birth under the Constitution.

HIST 7130 SEMINAR IN EARLY AMERICAN REPUBLIC (3) SEM. 3. Issues in the Early Republic, including political transformations, sectional conflict, women and gender roles, industrialization, and reform movements.

HIST 7140 SEMINAR IN OLD SOUTH (3) SEM. 3. History of the Old South, including discussions of colonial settlement, slavery, political transformations, sectional conflict, women and gender roles, and religion.

HIST 7150 SEMINAR IN CIVIL WAR ERA (3) SEM. 3. Sectional conflict, Civil War, and Reconstruction, including political, military and social development.

HIST 7160 SEMINAR IN NEW SOUTH (3) SEM. 3. The South in United States history since 1877.

HIST 7180 SEMINAR IN MODERN UNITED STATES HISTORY (3) LEC. 3. Broad introduction to United States history since 1929.

HIST 7190 SEMINAR IN AFRICAN-AMERICAN HISTORY (3) SEM. 3. Analysis of the major historiographical works on the social, political, and economic history of African Americans.

HIST 7200 SEMINAR IN UNITED STATES WOMEN'S HISTORY (3) SEM. 3. Change and continuity in the lives of American women.

HIST 7210 SEMINAR IN AMERICAN RELIGIOUS HISTORY (3) SEM. 3. Role of religion in American history; recent writing on religion; and sociological and anthropological theories of religion.

HIST 7220 DEVELOPMENT IN CIVIL RIGHTS MOVEMENT (3) LEC. 3. In-depth study of the civil rights movement, with emphasis on the United States South in the post-World War II period. Major topics, basic literature, and historiographical debates examined.

HIST 7230 SEMINAR IN AMERICAN SLAVERY (3) SEM. 3. This course will explore the history of the institution of chattel slavery in the Americas. Focusing primarily on North American slavery, the course will begin with an overview of the development and continuation of the slave systems of the Americas. The course explores the many ways that slavery differed based on the particular time, place, and colonial power or government structure in place at that time. This seminar investigates slaves' lives and experiences from the perspectives of legal history, medical history, gender history, and social history, encompassing such themes as resistance, culture, work lives, and politics. The course will conclude with a look at the Mississippi Valley, its slave system, and its commitment to slavery's economy and politics in the late antebellum years. The course will require weekly book review assignments and students will give one short lecture each semester.

HIST 7240 DEBATES IN EARLY AMERICAN HISTORY (3) SEM. A reading intensive course that introduces students to some of the major debates, methods, and controversies in Early American historiography. Course may be repeated for a maximum of 6 credit hours.

HIST 7250 DEBATES IN MODERN AMERICAN HISTORY (3) SEM. A reading intensive course that introduces students to some of the major debates, methods, and controversies in Modern American historiography. Course may be repeated for a maximum of 6 credit hours.

HIST 7380 THE GLOBAL COLD WAR (3) SEM. This course uses a global approach to explore the post-World War Two rivalry between the United States and the Soviet Union over ideologies, governments, and economic systems.

HIST 7420 SEMINAR IN POPULAR CULTURE IN EARLY MODERN EUROPE (3) SEM. 3. Major themes in the popular culture of Early Modern Europe, 1450-1800.

HIST 7440 SEMINAR IN MODERN EUROPEAN CULTURAL POLITICS (3) SEM. 3. Traditional and revisionist approaches to the study of the political uses of culture in 19th and 20th century Europe.

HIST 7450 SEMINAR IN THE FRENCH REVOLUTION (3) SEM. 3. Historiography in the French Revolution's origins and legacy.

HIST 7460 SEMINAR IN EARLY MODERN BRITAIN (3) SEM. 3. Main themes and events of British history between 1603 and the 1760s.

HIST 7470 SEMINAR IN FASCISM (3) SEM. 3. Seminar on the history of fascism in interwar Europe and the debates over the definition of fascism as an ideology.

HIST 7480 DEBATES IN EUROPEAN HISTORY (3) SEM. A reading intensive course that introduces students to some of the major debates, methods, and controversies in European historiography. Course may be repeated for a maximum of 6 credit hours.

HIST 7510 INTRODUCTORY SEMINAR IN HISTORIOGRAPHY OF TECHNOLOGY (3) SEM. 3. Problems and issues in the history of technology; reviews important, literature.

HIST 7520 SEMINAR IN POLITICS AND TECHNOLOGY IN THE SPACE AGE (3) SEM. 3. Political and technological context of the space age.

HIST 7540 SEMINAR IN AEROSPACE HISTORY (3) SEM. 3. Central problems, issues, and literature in aerospace history.

HIST 7590 AMERICAN LABOR AND WORKING CLASS HISTORY (3) SEM. This course surveys the historiographical themes and issues of the history and lives of the working class in the modern United States from the late 19th through the early 21st centuries.

HIST 7690 SEMINAR IN MODERN WORLD HISTORY (3) SEM. 3. Examination of world historiography and theory, with topical readings on comparative themes such as imperialism and colonialism, catch-up industrialization, decolonization, the Atlantic world, gender systems, religious diasporas, trade, and exploration.

HIST 7700 SEMINAR IN HISTORICAL METHODS (3) SEM. 3. Methodology and theory of historical research. Preparation of a significant original research paper.

HIST 7710 GRADUATE RESEARCH AND WRITING SEMINAR (3) SEM. 3. Pr. HIST 7700. A writing-intensive course designed to sharpen graduate students' research and writing skills.

HIST 7720 SEMINAR IN ARCHIVAL THEORY AND PRACTICE (3) SEM. 3. Pr. HIST 5710 or HIST 6710. Development of archival theory in the major functional areas of archival practice, including appraisal, acquisition, description, preservation, reference and access, outreach, and advocacy.

HIST 7730 SEMINAR IN THE HISTORY OF RECORDS AND ARCHIVES (3) SEM. 3. Pr. HIST 5710 or HIST 6710. Origins, organization, and development of records, record keeping systems, and archival institutions in Europe and North America.

HIST 7760 PRACTICUM IN PUBLIC DIGITAL HUMANITIES (3) PRA/SEM. 3. Only graduate students in History or Public History Certificate program. An interdisciplinary course on the theory, method, and practice of public facing digital humanities.

HIST 7770 PRACTICUM IN MUSEUM STUDIES (3) SEM. 3. This course acquaints students with issues relating to the history and contemporary practice of museums. With a focus on both theoretical concepts and current professions within the field, the class balances practical applications with methodological training.

HIST 7810 RESEARCH SEMINAR IN UNITED STATES HISTORY SINCE 1865 (3) SEM. 3. Research and writing of an original paper based on primary sources. Paper should be of publishable or near publishable quality. Course may be repeated for a maximum of 6 credit hours.

HIST 7820 RESEARCH SEMINAR IN EARLY MODERN EUROPEAN HISTORY (3) SEM. 3. Research and writing of an original paper based on primary sources. Paper should be of publishable or near-publishable quality. Course may be repeated for a maximum of 6 credit hours.

HIST 7830 RESEARCH SEMINAR IN MODERN EUROPEAN HISTORY (3) SEM. 3. Research and writing of an original paper based on primary sources. Paper should be of publishable or near-publishable quality. Course may be repeated for a maximum of 6 credit hours.

HIST 7840 RESEARCH SEMINAR IN HISTORY OF TECHNOLOGY (3) SEM. 3. Research and writing of an original paper based on primary sources. Paper that should be of publishable or near-publishable quality. Course may be repeated for a maximum of 6 credit hours.

HIST 7860 RESEARCH PROJECT DESIGN (3) SEM. SU. This course introduces students to the task of formalizing a research project proposal, typically referred to as a thesis or dissertation prospectus. Students will produce a draft project proposal that includes 1) a review of the relevant historiography that justifies the topic as a meaningful contribution to the literature; 2) an historical context that situates the topic within a chronological timeline, a geography, and an overall theme; 3) a reasonable plan for accomplishing the research.

HIST 7910 PUBLIC HISTORY INTERNSHIP (3) PRA. 3. Pr. HIST 6810 and P/C HIST 7700. Application of principles of public history practice within a functioning venue or site under supervision of public historian; final written report required. Course may be repeated for a maximum of 6 credit hours.

HIST 7920 ARCHIVAL INTERNSHIP (1-6) INT. Pr. HIST 6710 or Departmental approval. Application of the principles of archival practice within the context of a functioning archival repository under the supervision of professional archivists. Course may be repeated for a maximum of 6 credit hours.

HIST 7970 SPECIAL TOPICS IN HISTORY (3) LEC. 3. Topics vary. Course may be repeated for a maximum of 9 credit hours.

HIST 7990 RESEARCH AND THESIS (1-10) MST. Research and writing of the MA thesis. Course may be repeated with change in topic.

HIST 8000 READING COURSE IN AMERICAN HISTORY TO 1877 (3) PRL. 3. Pr., Departmental approval. Selected topics in American history to 1877. Course may be repeated for a maximum of 6 credit hours.

HIST 8010 READING COURSE IN AMERICAN HISTORY SINCE 1877 (3) PRL. 3. Pr., Departmental approval. Selected topics in American history since 1877 Course may be repeated for a maximum of 6 credit hours.

HIST 8300 READING COURSE IN EUROPEAN HISTORY TO 1815 (3) PRL. 3. Pr., Departmental approval. Selected topics in European history to 1815. Course may be repeated for a maximum of 6 credit hours.

HIST 8310 READING COURSE IN EUROPEAN HISTORY SINCE 1815 (3) PRL. 3. Pr., Departmental approval. Selected topics in European history since 1815. Course may be repeated for a maximum of 6 credit hours.

HIST 8500 READING COURSE IN THE HISTORY OF TECHNOLOGY (3) PRL. 3. Pr., Departmental approval. Selected topics in the history of technology. Course may be repeated for a maximum of 6 credit hours.

HIST 8600 READING COURSE IN LATIN AMERICAN HISTORY (3) PRL. 3. Pr., Departmental approval. Selected topics in Latin American history. Course may be repeated for a maximum of 6 credit hours.

HIST 8610 READING COURSE IN WORLD HISTORY (3) LEC. 3. Pr., Departmental approval. Directed readings in modern world history, focusing on one or two geographic areas or themes.

HIST 8700 HISTORIOGRAPHY AND THEORY OF HISTORY (3) SEM. 3. Exploration of the nature of history by tracing changing conceptions of historical thought and practice from their origins to the present.

HIST 8710 INTRODUCTION TO THE TEACHING OF HISTORY (3) SEM. SU. Introduction to some of the challenges involved in teaching history at the college level.

HIST 8720 INTRODUCTION TO GRADUATE STUDIES (1) SEM. SU. This course is required for all graduate students in their first semester to prepare them for the history department’s graduate program and to introduce them to the fundamentals of the history profession. Students are introduced to various aspects of graduate level study in history.

HIST 8730 INTRODUCTION TO THE HISTORICAL PROFESSION (1) SEM. SU. This course is a required pass/fail course that students take in the second semester of their second year (for M.A. students) or in the second semester of their third year (for PhD students) to further prepare them for the history profession. Students are introduced to various aspects of “professional life after graduate school.”

HIST 8990 RESEARCH AND DISSERTATION (1-10) DSR. Research and writing of the PhD dissertation. Course may be repeated with change in topics.

Honor - HONR

Courses

HONR 1007 HONORS TECHNOLOGY AND CULTURE I (3) LEC. 3. Pr. Honors Interdisciplinary Track or Honor's College Participant. From an interdisciplinary perspective, this course examines the intersections of technology & technology & culture in a variety of social, historical, professional, and global setting.

HONR 1017 HONORS TECHNOLOGY AND CULTURE II (3) LEC. 3. Pr. Honors Interdisciplinary Track or Honor's College Participant. From an interdisciplinary perspective, this course examines the intersections of technology & technology & culture in a variety of social, historical, professional, and global settings.

HONR 1077 HONORS FRESHMAN EXPLORATION (1) LEC. 1. SU. Pr. Honors College. Honors Interdisciplinary Track or Honor's College Participant. Colloquium that introduces new Honors College students to the College and helps students become better informed about its resources and services.

HONR 1087 HONORS LYCEUM (1) LEC. 1. SU. Pr. Honors Interdisciplinary Track or Honor's College Participant. Weekly academic lectures followed by discussion and interaction. Course may be repeated for a maximum of 4 credit hours.

HONR 2077 HONORS FORUM (1) LEC. 1. SU. Pr. Honors College. Attendance at co-curricular events held in and around the Auburn campus and community. Course may be repeated for a maximum of 6 credit hours.

HONR 2087 HONORS BOOK CLUB (1) LEC. 1. SU. Pr. Honors College. Honors Interdisciplinary Track or Honor's College Participant. Moderated discussions of significant ideas found in recent reowned books. Each discussion group is led by an experienced teacher or university leader. Course may be repeated for a maximum of 4 credit hours.

HONR 2097 HONORS RESEARCH METHODS (3) LEC. 3. Pr. Honors Interdisciplinary Track or Honor's College Participant. This team-taught course fills a need for our Honors students to receive a broad introduction to both STEM and Humanities research methodologies to prepare them for future research endeavors. Course may be repeated for a maximum of 6 credit hours.

HONR 2717 HONORS HUMAN ODYSSEY 1 (3) LEC. 3. Pr. Honors Interdisciplinary Track or Honor's College Participant. Examines the human endeavor from pre-history through the 18th century by exploring connections between the sciences, the social sciences, and humanities.

HONR 2727 HONORS HUMAN ODYSSEY LL (3) LEC. 3. Pr. Honors Interdisciplinary Track or Honor's College Participant. Examines the human endeavor from pre-history from the 18th century to the present by exploring connections between the sciences and humanities.

HONR 3007 HONORS SEMINAR (3) LEC. 3, AAB/SEM. 3. Pr. Honors College. Honors Interdisciplinary Track or Honor's College Participant or departmental approval. This seminar involves critical reading and research in advanced topics having both intra- and interdisciplinary implications and applications. Course may be repeated for a maximum of 15 credit hours.

HONR 3087 HONORS COLLEGE STUDY & TRAVEL (3) LEC. 3. Pr. Honors College. Concentrated study in US or abroad. Course may be repeated for a maximum of 12 credit hours.

HONR 3987 HONORS RESEARCH SEMINAR (3) LEC. 3, IND. 3. Pr. Honors College. Directed research in an area of speciality within a specified area. Course may be repeated for a maximum of 9 credit hours.

HONR 4007 HONORS APOGEE PROJECT (3) IND. 3. Pr. Honors Interdisciplinary Track or Honor's College Participant. Advanced directed study, usually based in a student's undergraduate research, leading to the completion of an Honors Apogee Experience, the capstone of the Honors College. Course may be repeated for a maximum of 6 credit hours.

Horticulture - HORT

Courses

HORT 1010 INTRODUCTION TO HORTICULTURE (1) LEC. 1. Introduces scientific and practical aspects of pomology, olericulture, floriculture and landscape horticulture. Also presents the broad scope of career opportunities in the field of horticultural science. Fall.

HORT 2010 FRUIT AND NUT PRODUCTION (4) LEC. 2. LAB. 4. Introductory course in cultural practices and economics associated with commercial fruit and nut production. Fall.

HORT 2020 HORTICULTURE CROP PRODUCTION (3) LEC. 2. LAB. 3. Techniques of plant propagation and cultural methods for successful fruit, vegetable, and ornamental plant production. Fall.

HORT 2030 VEGETABLE PRODUCTION (3) LEC. 3. Principles, practices, establishment, production, maintenance, harvesting, storage and marketing of commercial vegetable crops. Fall and Spring.

HORT 2040 ORGANIC GARDENING (3) LEC. 3. Principles, production practices, maintenance, harvesting and marketing of organically and traditionally home-grown vegetables.

HORT 2060 HYDROPONICS: PRINCIPLES AND TECHNIQUES OF SOILLESS PLANT PRODUCTION (3) LEC. 3. This course is a survey of the science of hydroponic plant production and is focused on commercial and home vegetable crop production. Specific topics include plant growth and nutrition in hydroponic growing systems, challenges and opportunities, and system design. Fall.

HORT 2210 LANDSCAPE GARDENING (4) LEC. 2. LAB. 4. Principles of landscape gardening applied to residential and small-scale commercial grounds. Involves plant identification and use, basic landscape design, and landscape installation and management concepts.

HORT 2240 PLANT PROPAGATION (3) LEC. 2. LAB. 2. Pr. P/C BIOL 1030 or BIOL 1037. Basic principles and practices involved in the propagation of horticulture plants. Departmental approval. Spring.

HORT 2250 ART OF FLORAL DESIGN (3) LEC. 2. LAB. 2. Basic art principles and design elements and their use with flowers and foliage; history and utilization of flowers within society.

HORT 3000 GROWTH AND DEVELOPMENT OF HORTICULTURAL PLANTS (3) LEC. 3. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1030. Growth and development of plants with concepts applied to the practice of Horticultural Science. Summer and Fall.

HORT 3110 A HISTORY OF GARDENS IN CULTURAL CONTEXT (3) LEC. 3. Heritage and traditions influencing the development of public and private garden styles, context, and function including cultural expressions, plant use, and impact of noted designers and horticulturists throughout history. Only taught in Study Abroad programs.

HORT 3200 WOODY LANDSCAPE PLANT IDENTIFICATION I (4) LEC. 2. LAB. 4. This course introduces students to the language of botany and the Southeastern palate of landscape plants with distinguished fall characteristics. Specific topics include taxonomy, morphology, plants with global popularity, cultivation practices, structural plantings, and use in the landscape. Fall.

HORT 3210 WOODY LANDSCAPE PLANT IDENTIFICATION II (4) LEC. 2. LAB. 4. This course introduces students to the language of botany and the Southeastern palate of landscape plants with distinguished spring characteristics. Specific topics include taxonomy, morphology, plants with global popularity, cultivation practices, structural plantings, and use in the landscape. Spring.

HORT 3220 ARBORICULTURE (4) LEC. 2. LAB. 4. Pr. BIOL 1030 or BIOL 1037. Identification, culture and use of ornamental trees in landscape plantings. Fall.

HORT 3280 LANDSCAPE CONSTRUCTION (4) LEC. 2. LAB. 4. Principles and practices used in the interpretation and implementation of landscape construction and planting plans. Fall.

HORT 3840 STUDY/TRAVEL IN HORTICULTURE (1-10) AAB/FLD. Study of horticultural or fruit and vegetable science, landscape design, nursery and greenhouse management in U.S. or international location. Course may be repeated for a maximum of 10 credit hours.

HORT 3910 PROFESSIONAL LANDSCAPE (3) LEC. 3. Departmental approval. Field-based course designed for learning to prepare and compete in the NALP National Collegiate Landscape Competition. Spring.

HORT 3920 HORTICULTURE INTERNSHIP (1-4) INT. 1-4. Practical on-the-job training for selected commercial horticultural companies. Course may be repeated for a maximum of 8 credit hours.

HORT 3950 CAREERS IN HORTICULTURE (2) LEC. 2. Current developments and career opportunities in horticulture. Fall and Spring.

HORT 4000 PESTICIDE MANAGEMENT IN HORTICULTURE (3) LEC. 3. Pr. (ENTM 4020 or ENTM 3040) and PLPA 3000. Proper management of pesticides in horticulture; decision making skills in relation to control strategies; environmental issues relevant to horticulture; safety considerations; scouting and application techniques. Fall.

HORT 4100 HERBACEOUS ORNAMENTALS (4) LEC. 2. LAB. 4. Pr. (BIOL 1020 or BIOL 1027) and (BIOL 1030 or BIOL 1037). Identification, culture, and use of herbaceous annuals and perennials, bulbs, herbs, and ornamental grasses. Consideration of flower bed and border preparation, care and maintenance. Spring and Summer.

HORT 4250 INTERMEDIATE FRUIT & VEG PROD (3) LEC. 3. Pr. (HORT 2040 or HORT 2043) or HORT 2030. Intermediate horticulture course in which students apply knowledge gained in the classroom to hands-on fruit and vegetable gardening practices.

HORT 4270 INTERMEDIATE LANDSCAPE DESIGN (4) LEC. 2. LAB. 4. Pr. HORT 3210 or HORT 3220 or HORT 4100. A study of the design principles and elements and technical skills used to create a functional and aesthetically pleasing residential landscape design. Fall.

HORT 4300 COMPUTER AIDED PLANTING DESIGN (3) LEC. 3. Pr. HORT 4270. Graphic concepts relating to spatial visualization and communication and project cost estimation using computer aided drafting and project management software developed for landscape professionals. Spring.

HORT 4930 DIRECTED STUDIES (1-3) AAB/IND. Departmental approval. Directed Studies related to research, teaching or outreach educational programs in Horticulture. Course may be repeated for a maximum of 6 credit hours.

HORT 4970 SPECIAL TOPICS (1-3) IND. Principles, methods and techniques for understanding various horticultural disciplines. Course may be repeated for a maximum of 6 credit hours.

HORT 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

HORT 5100 HORTICULTURAL PLANT BREEDING (3) LEC. 3. Pr. (BIOL 3000 or CSES 3300 or AGRI 3000). This class will introduce students to traditional and modern technologies for breeding horticultural crops such as fruits, vegetables, and ornamental crops. Students will learn about the importance of plant breeding for horticultural crop improvement, mechanisms of traditional and modern breeding technologies, and biotechnologies with an emphasis on specific applications for horticultural crops. Credit will only be given for one of the following: HORT 5100 or HORT 6100.

HORT 5110 TREE FRUIT CULTURE (3) LEC. 3. Pr. HORT 3000. Manipulation of growth and development of tree fruit crops by cultural methods. Credit will only be given for one of the following courses: HORT 5110 or HORT 6110. Summer.

HORT 5120 SMALL FRUIT AND PECAN CULTURE (4) LEC. 2. LAB. 4. Pr. HORT 3000. Principles and practices involved in the production and marketing of small fruits and pecans. Credit will only be given for one of the following courses: HORT 5120 or HORT 6120. Spring.

HORT 5130 SUSTAINABLE VEGETABLE CROP PRODUCTION (3) LEC. 2. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) and HORT 3000. Best management practices and quality of vegetable crops. Credit will only be given for one of the following: HORT 5130 or HORT 6130. Spring.

HORT 5140 POST-HARVEST BIOLOGY AND TECHNOLOGY (3) LEC. 2. LAB. 3. Pr. (PLPA 3000 or PLPA 3003) and HORT 3000. Physiological changes occurring in fruits, vegetables and other horticultural products after harvest. Spring.

HORT 5150 RETAIL GARDEN CENTER MANAGEMENT (3) LEC. 2. LAB. 3. Pr. HORT 3210 or HORT 3220 or Departmental approval. The following topics will be covered: financing, location, design, stocking, selling, personnel management, advertising and maintaining plants. May count either HORT 5150 or HORT 6150. Summer.

HORT 5200 CONTROLLED ENVIRONMENT AGRICULTURE (4) LEC. 3. LAB. 2. Pr. HORT 2060. This course will provide a thorough overview of the aerial factors that influence crop production in controlled environments. Credit will only be given for one of the following courses: HORT 5200 or HORT 6200.

HORT 5210 LANDSCAPE BIDDING, INSTALLATION AND MAINTENANCE (4) LEC. 3. LAB. 3. Pr. CSES 2040 and PLPA 3000. Principles and practices of the bidding, installation and maintenance of commercial and residential landscapes. Spring.

HORT 5220 GREENHOUSE MANAGEMENT SCIENCE (4) LEC. 3. LAB. 2. Pr. HORT 3000 and HORT 2240 and CSES 2040. Management, culture and economics of commercial greenhouse production. Fall.

HORT 5230 NURSERY MANAGEMENT (4) LEC. 2. LAB. 4. Pr. HORT 2240 and HORT 3000. Factors affecting plant production. Environmental issues related to facilities design and pesticide and nutrient management. Departmental approval. Spring.

HORT 5240 PUBLIC GARDEN MANAGEMENT (3) LEC. 1. LAB. 4. Understanding personnel structure and responsibilities; plant care and management; and the educational, entertainment, and conservation missions of public gardens. Spring.

HORT 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/5333/6330/6336.

HORT 5910 HORTICULTURE PRACTICUM (4) LEC. 1. LAB. 6. Practical application of a broad range of horticultural subject-matter knowledge and skills. May count either HORT 5910 or HORT 6910. Spring. Course may be repeated for a maximum of 8 credit hours.

HORT 6100 HORTICULTURAL PLANT BREEDING (3) LEC. 3. This class will introduce students to traditional and modern technologies for breeding horticultural crops such as fruits, vegetables, and ornamental crops. Students will learn about the importance of plant breeding for horticultural crop improvement, mechanisms of traditional and modern breeding technologies, and biotechnologies with an emphasis on specific applications for horticultural crops. Credit will only be given for one of the following: HORT 5100 or HORT 6100.

HORT 6110 TREE FRUIT CULTURE (3) LEC. 3. Manipulation of growth and development of tree fruit crops by cultural methods. Credit will only be given for one of the following courses: HORT 5110 or HORT 6110. Summer.

HORT 6120 SMALL FRUIT AND PECAN CULTURE (4) LEC. 2. LAB. 4. Principles and practices involved in the production and marketing of small fruits and pecans. Credit will only be given for one of the following courses: HORT 5120 or HORT 6120. Spring.

HORT 6130 SUSTAINABLE VEGETABLE CROP PRODUCTION (3) LEC. 2. LAB. 2. Advanced course in best management practices and quality of vegetable crops. Credit will only be given for one of the following courses: HORT 5130 or HORT 6130. Spring.

HORT 6140 POST-HARVEST BIOLOGY AND TECHNOLOGY (3) LEC. 2. LAB. 2. Physiological changes occurring in fruits, vegetables and other horticultural products after harvest. Spring.

HORT 6150 RETAIL GARDEN CENTER MANAGEMENT (3) LEC. 2. LAB. 3. Topics included: financing, location, design, stocking, selling, personnel management, advertising, and maintaining plants. Graduate students will evaluate garden centers and provide feedback for improvement. Summer.

HORT 6200 CONTROLLED ENVIRONMENT AGRICULTURE (4) LEC. 3. LAB. 2. This course will provide a thorough overview of the aerial factors that influence crop production in controlled environments. Credit will only be given for one of the following courses: HORT 5200 or HORT 6200.

HORT 6210 LANDSCAPE BIDDING, INSTALLATION AND MAINTENANCE (4) LEC. 3. LAB. 3. Principles and practices of the bidding, installation and maintenance of commercial and residential landscapes. Spring.

HORT 6220 GREENHOUSE MANAGEMENT SCIENCE (4) LEC. 3. LAB. 2. Management, culture and economics of commercial greenhouse production. Fall.

HORT 6230 NURSERY MANAGEMENT (4) LEC. 2. LAB. 4. Factors affecting plant production. Environmental issues related to facilities design and pesticide and nutrient management. Departmental approval. Spring.

HORT 6240 PUBLIC GARDEN MANAGEMENT (3) LEC. 1. LAB. 4. Understanding personnel structure and responsibilities; plant care and management; and the educational, entertainment, and conservation missions of public gardens. Spring.

HORT 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/5333/6330/6336.

HORT 6910 HORTICULTURE PRACTICUM (4) LEC. 1. LAB. 6. Practical application of a broad range of horticultural subject-matter knowledge and skills. May count either HORT 5910 or HORT 6910. Spring. Course may be repeated for a maximum of 8 credit hours.

HORT 7010 EXPERIMENTAL METHODS IN HORTICULTURE (3) LEC. 2. LAB. 2. Principles and methodologies of horticultural research, experimental design, preparation of project and grant proposals, and development of publication skills. Summer

HORT 7040 ADVANCED GROWTH AND DEVELOPMENT OF HORTICULTURAL PLANTS (3) LEC. 3. Plant growth and development from seed germination, through maturity and senescence. Spring.

HORT 7050 NUTRITIONAL REQUIREMENTS OF HORTICULTURAL PLANTS (3) LEC. 3. LAB. 2. Pr. HORT 3000. Nutritional requirements of horticulture crops and factors affecting these requirements. Departmental approval. Summer, odd years.

HORT 7070 PLANT BIOTECHNOLOGY (3) LEC. 3. Plant biotechnology, including plant tissue culture technologies, genetic transformation and applications for horticultural crop improvement.

HORT 7840 GRADUATE STUDY/TRAVEL IN HORTICULTURE (1-4) LEC. Departmental approval. Programmed activities to enhance national/international awareness and enable students to understand horticultural practices in diverse areas. Course may be repeated for a maximum of 8 credit hours.

HORT 7920 GRADUATE INTERNSHIP (1-4) INT. Departmental approval. Supervised professional experience in horticulture

HORT 7950 SEMINAR (1) SEM. SU. Graduate students are required to attend all seminars. Course may be repeated with change in topics.

HORT 7960 SPECIAL PROBLEMS (1-3) IND. 3. Conferences, problems and assigned readings in horticulture. Course may be repeated for a maximum of 6 credit hours.

HORT 7970 SPECIAL TOPICS IN HORTICULTURE (1-3) LEC. Principles, methods and techniques involved in gaining an understanding of different horticultural disciplines. Course may be repeated for a maximum of 3 credit hours.

HORT 7980 NON-THESIS RESEARCH (1-4) RES. 1-4. Research conducted as part of the Master of Agriculture degree. Course may be repeated for a maximum of 4 credit hours.

HORT 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

HORT 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Hospitality Management - HOSP

Courses

HOSP 1010 INTRODUCTION TO HOSPITALITY MANAGEMENT (3) LEC. 3. Overview of the hotel, restaurant, club, and travel industries and their interaction.

HOSP 1050 FOOD SAFETY AND SANITATION (1) LEC. 1. HOSP Major, or Departmental approval. Introduction to food sanitation and safety practices in foodservice operations.

HOSP 2000 PRINCIPLES OF SERVICE MANAGEMENT (3) LEC. 3. This course will address the key performance indicators service professionals and their front line personnel in the broad services sector and the hospitality industry in particular, must address in an effort to set themselves apart competitively as well as grow and sustain market share.

HOSP 2300 HOSPITALITY LAW (3) LEC. 3. Pr. (HRMT 1010 or HOSP 1010). or Departmental Approval. Legal systems and laws relevant to the management of restaurants, hotels, private clubs and other hospitality operations.

HOSP 2350 CULINARY FUNDAMENTALS (3) LEC. 2. LAB. 4. HOSP Major, WLEM, or Departmental approval. Introduction to fundamental culinary skills, methods and techniques used in the production of a variety of culinary dishes.

HOSP 2400 FOOD PRODUCTION AND SERVICE (2) LEC. 2. Pr. HOSP 1010 and (HOSP 1050) and (HOSP 2350). Coreq. HOSP 2401. Food Production and Service - Lecture Component will introduce students to the theoretical concepts surrounding front- and back-of-the-house across different foodservice establishments. Students will be guided to understand the current challenges and trends in the foodservice industry.

HOSP 2401 FOOD PRODUCTION AND SERVICE LAB (1) LAB. 5.5. Pr. (HOSP 1010) and (HOSP 1050) and (HOSP 2350). Coreq. HOSP 2400. Food Production and Service (Lab Component) will introduce students to the operational experience and skillsets surrounding front- and back-of-the-house across different foodservice establishments. This variety of hands-on learning experiences aims to provide a comprehensive understanding of food production and service in diverse settings.

HOSP 2500 LODGING OPERATIONS (2) LEC. 2. LAB. 0. Coreq. HOSP 2501. Lodging operations management, with emphasis on guest cycle.

HOSP 2501 LODGING OPERATIONS LAB (1) LEC. 0. LAB. 3, LAB. 0. Pr. P/C HOSP 2500. Coreq. HOSP 2500. This course offers students hands-on, practical experience in a real hotel environment. Participants will actively engage in various shifts across key departments, including front office operations, housekeeping, and laundry services.

HOSP 2600 EVENT OPERATIONS (3) LEC. 3. An analysis of each component pertinent to the planning and operations of a hospitality event. Topics such as strategic planning, event design, logistics, staging, marketing, and event evaluation will be discussed.

HOSP 2910 HOSPITALITY PRACTICUM (1) PRA. Pr. HRMT 1010 or HOSP 1010. Hospitality Major Only. Rotational perspective on the management and operation of the Auburn University Hotel and Conference Center.

HOSP 2940 PROFESSIONAL DEVELOPMENT IN HOSPITALITY (2) LEC. 2. Introduces the concepts of career planning and preparation for the hospitality industry. Hospitality Management Major.

HOSP 3200 HOSPITALITY FINANCIAL MANAGEMENT (3) LEC. 3. Pr. (ACCT 2810 or ACCT 2813 or ACCT 2817 or ACCT 2110 or ACCT 2113 or ACCT 2117). Hospitality Management Major only. Financial systems and statements in the hospitality industry.

HOSP 3400 HOSPITALITY MARKETING (3) LEC. 3. Pr. (P/C MKTG 3310 or P/C MKTG 3313 or P/C MKTG 3317). Junior standing and Hospitality Major Only or Departmental approval. Service marketing concepts and issues as applied to the global hospitality industry.

HOSP 3450 ADVANCED CULINARY ARTS (3) LEC. 2. LAB. 5. Pr. HOSP 1010 and HOSP 2350. HOSP Major or Departmental Approval. This course is an in-depth study of intermediate and advanced level processes in contemporary culinary arts and food production.

HOSP 3460 MANAGING EVENTS IN THE LIVE ENTERTAINMENT INDUSTRY (3) LEC. Pr. HOSP 2600. Departmental approval. This course is designed to expose students to live entertainment sub-sector of the events industry by focusing on the management, marketing and venue operations of three major business segments, specifically, spectator sports, live concerts, and performing arts. Through a series of lectures, invited speaker seminars, group discussions, and real-world case studies, students will learn a variety of concepts including stakeholder management, financing, logistics, sponsorship, marketing, contract negotiations and rider management among other related topics.

HOSP 3750 BAKING AND PATISSERIE (3) LEC. 2. LAB. 6. Pr. HOSP 2350. HOSP Major or Departmental Approval. This course includes the study of bakery and patisserie methods and principles, emphasizing classical and contemporary plated desserts and baked goods.

HOSP 3800 HOSPITALITY INFORMATION TECHNOLOGY (3) LEC. 3. Pr. HRMT 1010 or HOSP 1010. Hospitality Major only or Departmental Approval. Strategic and operational issues surrounding introduction of technology in hospitality. Must be minimum of Junior standing.

HOSP 4200 HOSPITALITY FACILITIES MANAGEMENT (2) LEC. 2. LAB. 0. Pr. (HOSP 2500 and HOSP 2501). Design and operation of hospitality facilities.

HOSP 4201 HOSPITALITY FACILITIES MANAGEMENT LAB (1) LEC. 0. LAB. 3, LAB. 0. Pr. (HOSP 2500) and HOSP 2501. Laboratory course for HOSP 4200.

HOSP 4300 FOOD AND BEVERAGE MANAGEMENT (2) LEC. 2. Pr. (HOSP 2400 and HOSP 2401). Coreq. HOSP 4301. Food and Beverage Management (Lecture Component) will introduce students to the theoretical concepts surrounding front-and-back-of-the-house in a commercial restaurant operation.

HOSP 4301 FOOD AND BEVERAGE MANAGEMENT LAB (1) LAB. 5.5. Pr. HOSP 2400 and (HOSP 2401). Coreq. HOSP 4300. •Food and Beverage Management (Lab Component) will introduce students to the operational (hands-on experience) concepts surrounding front- and back-of-the-house in a commercial restaurant operation. This course consists of two components: weekly-basis lectures and weekly-basis labs

HOSP 4350 ADVANCED RESTAURANT MANAGEMENT (3) LEC. 3. Pr. (HRMT 2400 or HOSP 2400) and (HRMT 4300 or HOSP 4300). Advanced concepts and managerial issues of restaurant management.

HOSP 4480 GLOBAL GASTRONOMY (3) LEC. 2. LAB. 5. Pr. (HRMT 2400 or HOSP 2400) and HOSP 3450 and HOSP 3750. HOSP Major or Departmental Approval. The study of classical cooking skills associated with the preparation and service of international and ethnic cuisines. Additionally, food will be explored from a historical, cultural, economic and geopolitical perspective in each of the regions/countries studied.

HOSP 4500 STRATEGIC HOSPITALITY MANAGEMENT (3) LEC. 3. Pr. (HRMT 1010 or HOSP 1010) and (MNGT 3100 or MNGT 3103 or MNGT 3107 or MNGT 3810). Hospitality Major only or Departmental Approval. Development and implementation of strategic management in hospitality.

HOSP 4510 SPECIAL EVENTS (3) LEC. 3. Pr. HRMT 2600 or HOSP 2600. This course teaches students all the intricacies of special events. Students learn about the different types of special events and how different they are from each other. Students should be able to plan, organize and manage. Hospitality Major Only. Junior and Senior Standing.

HOSP 4570 GLOBAL HOSPITALITY (3) LEC. 3. Contemporary issues confronting the global hospitality industry. Management and marketing operations emphasized. Seniors only, HOSP and GSHS majors only.

HOSP 4600 BEVERAGE APPRECIATION (3) LEC. 3. 21 Years Old. Junior standing. Hospitality Major Only or Departmental Approval. Production, selection, service, and sensory evaluation of alcoholic and non-alcoholic beverages.

HOSP 4700 HOSPITALITY PROPERTY DEVELOPMENT & MANAGEMENT (3) LEC. 3. Pr. HOSP 2500 or HRMT 2500. This course introduces students to the complex world of resort management while also providing an understanding of the hotel/resort product development cycle from development to opening and management. It explores management responsibilities for project development, construction, supervision, pre-opening requirements, and operations. Senior only.

HOSP 4920 INTERNSHIP IN HOSPITALITY (4) INT. 4. Pr. 2.20 GPA. Departmental approval. HOSP major, 2.2 cumulative GPA, senior Standing, and 600 hours (during the collegiate experience) of work experience in hospitality. Application of principles and theories of hospitality in a professional hospitality setting.

HOSP 4930 DIRECTED STUDIES IN HOSPITALITY MANAGEMENT (1-3) LEC. Departmental approval. Directed Studies in Hospitality Management Pr., School Approval. Advanced individual research and study in Hospitality Management under the direction of a faculty member. Course may be repeated for a maximum of 3 credit hours.

HOSP 4970 SPECIAL TOPICS IN HOSPITALITY MANAGEMENT (3) LEC. 3. Departmental approval. Special Topics in Hospitality Management Pr., School Approval. A course addressing unique and/or current issues not covered in a regularly scheduled course.

HOSP 4980 UNDERGRADUATE RESEARCH AND STUDY (1-3) IND. Departmental approval. Undergraduate Research and Study Course may be repeated for a maximum of 3 credit hours.

HOSP 5380 STUDY TRAVEL IN HOSPITALITY (1-12) AAB/LLB. Departmental approval. Concentrated study in hospitality management in the US or international locations. Course may be repeated for a maximum of 12 credit hours.

HOSP 5460 THE EVENT EXPERIENCE - STRATEGIC DESIGN AND TECHNICAL PRODUCTION (3) LEC. 2. LAB. 4. Pr. HOSP 4510. This course familiarizes students with key points involved in the process of event design and technical production for a real-world event fundraiser. Students will evaluate a venue's challenges and assets to execute the most fitting, and feasible, event design concept based on client needs and budgetary considerations. Additionally, students will consider the right audiovisual needs from a technical production vantage point to elevate the event attendee experience, award ceremony, and auction. Must be Senior Standing.

HOSP 5461 CATERING AND EVENT MANAGEMENT LABORATORY (2) LAB. 2. Pr. HOSP 5460 or HRMT 5460. Departmental approval. Provides students with a leadership practical experience in the planning, coordinating and execution of The Hospitality GALA and to provide a forum whereby they work alongside industry professionals.

HOSP 5530 SCIENCE OF QUALITY SERVICE IN HOSPITALITY (3) LEC. 3. Junior standing. Hospitality Major only or departmental approval. Role of quality service in attaining and retaining customers with emphasis on organizational strategic mission. May count HOSP 5530 or 6530.

HOSP 5540 CONFERENCE COORDINATION (3) LEC. 3. Pr. HOSP 1010 or HRMT 1010. Junior standing. Systems for managing conference coordination. May count HOSP 5540 or 6540.

HOSP 5550 CLUB MANAGEMENT (3) LEC. 3. Pr. HOSP 1010 or HRMT 1010. Junior standing. Examination of unique features, opportunities and problems associated with club management. Credit will not be given for HOSP 5550 and HOSP 6550.

HOSP 5590 RECREATIONAL FOOD SERVICE MANAGEMENT (3) LEC. 3. Pr. HRMT 2400 or HOSP 2400 or Departmental approval. Methods and systems of managing foodservice operations recreational facilities. Credit is not allowed for both HOSP 5590 and HOSP 6590.

HOSP 6380 STUDY TRAVEL IN HOSPITALITY (1-6) AAB/LLB. Departmental approval. Concentrated study in hospitality management in the US or international locations. Course may be repeated for a maximum of 6 credit hours.

HOSP 6460 CATERING AND EVENT MANAGEMENT (1) LEC. 1. Departmental approval. Exploring advanced management topics in catering and event planning including risk, liability, crisis and other challenges faced by the industry.

HOSP 6461 CATERING AND EVENT MANAGEMENT (2) LAB. 4. Pr. HRMT 6460 or HOSP 6460. Departmental approval. Provides students with a leadership practical experience in the planing, coordinating and execution of The Hospitality GALA and to provide a forum whereby they work alongside industry professionals.

HOSP 6530 SCIENCE OF QUALITY SERVICE IN HOSPITALITY (3) LEC. 3. Departmental approval. This course introduces students to the important role that quality service plays in attaining and retaining customers in the pursuit of an organizations strategic mission. Credit will not be given for HOSP 6530 and HOSP 5530.

HOSP 6540 CONFERENCE COORDINATION (3) LEC. 3. Departmental approval. Systems for the management of the conference coordination segment of the hospitality industry. Credit will not be given for HOSP 6540 and HOSP 5540.

HOSP 6550 CLUB MANAGEMENT (3) LEC. 3. Departmental approval. Unique features, opportunities, and problems associated with resort and club management. Credit will not be given for HOSP 6550 and HOSP 5550.

HOSP 6590 RECREATIONAL FOODSERVICE MANAGEMENT (3) LEC. 3. Departmental approval. Methods and systems of managing foodservice operations in recreational facilities. Credit will not be given for both HOSP 6590 and HOSP 5590.

HOSP 7000 HOSPITALITY ENTERPRISE (3) LEC. 3. Emphasizes aspects of hospitality enterprise including developmental, motivational, financial and human resource issues through contemporary academic literature.

HOSP 7010 ADVANCED TOURISM ANALYSIS (3) LEC. 3. This course acquaints students with selected theories, methods, techniques, current issues, practices, and principles that govern tourism behavior.

HOSP 7050 ADVANCED HOSPITALITY OPERATIONS (3) LEC. 3. This course familiarizes students with theory, research and methodological issues, current issues, practices, and principles in hospitality operations. Students will be exposed to a broad range of academic research and practice-oriented readings such as case studies and book chapters in the area of customer relations management, service quality, sustainable operations and corporate social responsibility, strategic management, human resource management, financial management, etc. Must be in Graduate Standing.

HOSP 7060 HUMAN RESOURCE MANAGEMENT IN HOSPITALITY ORGANIZATIONS (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course is designed to provide students with a deep understanding of HR practices within the hospitality industry. It covers key topics such as recruitment, training, performance management, employee relations, compensation, HR theories, and contemporary HR issues specific to hospitality organizations.

HOSP 7070 FINANCE AND REVENUE MANAGEMENT IN HOSPITALITY INDUSTRY (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course offers a comprehensive understanding of finance and revenue management in the hospitality industry. Key topics include revenue management, financial statement analysis, sustainability in financial performance, risk management, fraud and ethics, and cross-cultural challenges. Students will learn to interpret financial data, address hospitality industry-specific challenges, and make strategic decisions to improve efficiency and profitability in hospitality operations.

HOSP 7090 CONSUMER BEHAVIOR IN HOSPITALITY AND TOURISM (3) LEC. 3. This course aims to explore and critically examine current debates, critical reflections of contemporary ideas, controversies and pertinent queries relating to the rapidly expanding discipline of consumer behavior in hospitality and tourism. Must be a student enrolled in the HOSP graduate program.

HOSP 7100 THE BUSINESS OF BREWING (3) DSL/LEC. 3.

HOSP 7110 BREWING MATERIALS (3) DSL/LEC. 3. This course provides students with an introduction to all types of brewing ingredients including grain, hops, and adjuncts. Baccalaureate degree and 21 years of age.

HOSP 7120 SCIENCE OF BREWING I (3) DSL/LEC. 3. Theoretical and applied brewing science, recipe formulation yeast biology and genetics part I. Baccalaureate degree and 21 years of age.

HOSP 7130 SCIENCE OF BREWING II (3) DSL/LEC. 3. Theoretical and applied brewing science, recipe, formulation, yeast biology and genetics part 2. Baccalaureate Degree, 21 years of age.

HOSP 7140 FACILITIES AND OPERATIONS (3) LEC. 3. This course will focus on the facilities required to produce a high quality, safe and sanitary product. Baccalaureate Degree, 21 years of age.

HOSP 7150 BREWING MICROBIOLOGY (3) LEC. 3. Pr. (HOSP 7116 or HOSP 7110) and (HOSP 7126 or HOSP 7120) and (HOSP 7136 or HOSP 7130). Brewing Microbiology discusses the microbes that are essential to successful beer production and processing, and the ways they can pose hazards in terms of spoilage and sensory quality. The course examines the properties and management of these microorganisms in brewing, along with tactics for reducing spoilage and optimizing beer quality.

HOSP 7160 APPLIED ENGINEERING IN BREWING (3) LEC. 3. This course will be an introduction of basic engineering principles and how they can be applied to the brewing process. These principles will then be applied in the practice of basic engineering scale-up with emphasis on larger scale brewing equipment and processes.

HOSP 7170 BEER DISTRIBUTION SYSTEMS (3) LEC. 3. Brewery supply chain management in the context of suppliers, distributors, retailers, and customers. Focus on components of production/packaging, impact of supply chain disruption, distribution pathways, and the three-tier system.

HOSP 7180 QUALITY MANAGEMENT AND BREWING ANALYTICS (3) LEC. 3. Quality Management and Brewing Analytics examines the establishment of quality management programs in the brewery and the various sensory and analytical approaches to assessing overall beer quality.

HOSP 7500 GLOBAL HOSPITALITY STRATEGY (3) LEC. 3. Departmental approval. The course addresses the strategic issues and unique challenges encountered by international hospitality endeavors.

HOSP 7750 ADVANCED LODGING MANAGEMENT (3) LEC. 3. LAB. 0, LEC. 0. A high-level examination of the main elements involved in the successful management of a lodging business including rooms division, food and beverage, sales and marketing, revenue management, accounting, housekeeping, and engineering maintenance. The course provides students with relevant research addressing the latest trends affecting the operations of the lodging business.

HOSP 7910 PRACTICUM IN BREWING SCIENCE (3) DSL/PRA. SU. Application of principles and theories of brewing in an industry setting.

HOSP 7920 PROFESSIONAL INTERNSHIP IN HOSPITALITY MANAGEMENT (1-3) INT. SU. Departmental approval. Application and analysis of principles and theories of hospitality in a professional hospitality setting. No more than three hours may count toward a graduate degree. Course may be repeated for a maximum of 3 credit hours.

HOSP 7960 SPECIAL PROBLEMS (1-3) DSL/IND. An independent research experience under the supervision of a faculty member from the Hospitality Management Program to allow pursuit of specific interests in hospitality and tourism usually not covered in other course offerings. Graduate standing. Course may be repeated for a maximum of 6 credit hours.

HOSP 7980 NON-THESIS RESEARCH (1-4) RES. 1-4. Individual masters research. May be repeated for credit. Course may be repeated with change in topics. No more than six hours may be counted toward meeting degree requirements. Must be a HOSP major. Course may be repeated for a maximum of 6 credit hours.

HOSP 7990 RESEARCH AND THESIS (1-4) RES. 1-4. Individual masters research. May be repeated for credit. Course may be repeated with change in topics. No more than four hours may be counted toward meeting degree requirements. Must be a HOSP major.

HOSP 8020 NEW FACULTY DEVELOPMENT IN HOSPITALITY (2) SEM. 2. SU. The course aims to engage graduate students in a discussion about the normative graduate education experience, faculty expectations on productivity around this experience, career preparation and placement, and navigating the promotion and tenure process. Must be a HOSP Graduate student or have Departmental Approval.

HOSP 8860 CURRENT ISSUES IN HOSPITALITY MANAGEMENT (3) LEC. 3. Analysis of current issues in the hospitality industry with emphasis on management.

HOSP 8870 ADVANCED HOSPITALITY MANAGEMENT RESEARCH AND APPLICATIONS (3) LEC. 3. Comprehensive review of the academic research process in the context of hospitality management.

HOSP 8880 THEORETICAL DEVELOPMENTS FOR HOSPITALITY (3) LEC. 3. The nature of hospitality theory and its development.

HOSP 8910 SUPERVISED TEACHING (1) IND. 1. Individual teaching experience under the supervision of a faculty member in hospitality management. Exploration of a variety of instructional methods and active learning strategies as well as related educational issues, such as grading, classroom management, and student motivation.

HOSP 8970 GRANTSMANSHIP FOR HOSPITALITY AND TOURISM RESEARCH (3) LEC. 3. This course will provide students with the necessary skills to develop a competitive grant proposal. It will also cover information about grants development, including identifying various funding resources, writing a request for funding letter, planning a budget, evaluating the quality of a proposal, developing collaborations, and implementing strategies for research. NDHM graduate students or Departmental Approval.

HOSP 8990 RESEARCH AND DISSERTATION (1-10) DSR. 1-10. Individual doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics. Must be HOSP major.

Human Development & Family Science - HDFS

Courses

HDFS 1800 FUNDAMENTALS IN HDFS: BUILDING PROFESSIONAL SKILLS FOR CAREER GROWTH AND EXPLORATION (2) LEC. 2. Introduction to HDFS as a profession, career pathways, ePortfolio development, and foundational professional writing skills.

HDFS 1810 INTRODUCTION TO THE FIELD OF CHILD LIFE (1) LEC. 1. Students will be introduced to the field of child life, including but not limited to the realities of child life, clinical requirements for certification, document preparation, alternative contexts for child life, and general child life skills.

HDFS 2000 MARRIAGE AND FAMILY IN A GLOBAL CONTEXT (3) LEC. 3. Examination of marriage and family systems, including their interface with the broader socio-cultural context.

HDFS 2010 LIFESPAN HUMAN DEVELOPMENT IN FAMILY CONTEXT (3) LEC. 3. This course examines human development from prenatal life through late adulthood, emphasizing biological, cognitive, and psychosocial processes, theory, and research methods.

HDFS 2020 RESEARCH METHODS FOR DEVELOPMENTAL AND FAMILY SCIENCE (3) LEC. 3. The focus of this course is on the methods used to conduct research in human developmental and family sciences.

HDFS 2030 APPLIED PROFESSIONAL SKILLS IN HDFS (2) LEC. 2. Pr. P/C HDFS 1800. Development and application of professional skills essential for careers in Human Development and Family Science (HDFS). Emphasis on communication, ethical decision-making, leadership, teamwork, and professional development. Includes practical experiences, career planning, and strategies for success in various professional settings.

HDFS 2040 ANALYTICS FOR THE SOCIAL AND BEHAVIORAL SCIENCES (3) LEC. 3. Pr. (MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617). Introduction to basic data analysis (by Excel) used in social and behavioral science research, including descriptive and inferential techniques and elements of research design.

HDFS 2050 ISSUES AND TRENDS IN EARLY CHILD DEVELOPMENT (3) LEC. 3. This course will examine the history of the field of early care and education, specifically in regard to young children. Theorists such as Montessori, Dewey, Piaget and Vygotsky will be discussed. Modern approaches such as Reggio Emilia, High Scope, Forest Schools and Open Schools will be examined. Students will learn about laws pertaining to young children as well as avenues for advocacy. Emphasis will be placed on the importance of building family and community relationships as well as becoming a professional in the early childhood field.

HDFS 2100 THE SCIENCE OF HUMAN CONNECTIONS (3) LEC. 3. From childhood bonds to lifelong partnerships, this course delves into the science of relationships and family dynamics through a developmental and theoretical lens.

HDFS 2200 MENTAL HEALTH AWARENESS (3) LEC. This course will improve students' mental health literacy, help students be able to better and more quickly respond to their own and their social networks' mental health concerns, and identify resources across local, regional, and national domains. It is designed to provide introductory knowledge of mental health issues and their effects on systems (e.g. family, educational, judicial), learn about the sociocultural history of mental health.

HDFS 3010 CHILD DEVELOPMENT IN THE FAMILY (3) LEC. 3. Pr. 2.25 GPA. Social, emotional, cognitive, language, and physical development from conception to adolescence, with a special focus on development within the family and other sociocultural contexts.

HDFS 3030 ADOLESCENT DEVELOPMENT IN THE FAMILY (3) LEC. 3. Pr. 2.25 GPA. HDFS 2010 or HDFS 2013. Analysis of adolescent development with emphasis on family context and developmental outcomes employing an ecological framework. Prerequisites: 2.25 GPA. HDFS 2010

HDFS 3040 HUMAN SEXUALITY (3) LEC. 3. Pr. HDFS 2000 or (SOCY 1000 or SOCY 1007) or (PSYC 2010 or PSYC 2017). This course examines the multifaceted dimensions of human sexual development, familial dynamics, and societal influences that shape our understanding of sexuality from infancy to late adulthood.

HDFS 3050 ADULT DEVELOPMENT AND AGING (3) LEC. 3. Exploration of the transformations in physical, cognitive, social and emotional functioning in adulthood, with an emphasis on the second half of this period of life.

HDFS 3060 PATTERNS OF FAMILY INTERACTION (3) LEC. 3. Pr. 2.25 GPA. HDFS 2000 or HDFS 2003. Examination of family process and interaction, emphasizing major conceptual frameworks of family development.

HDFS 3080 DEVELOPMENT OF INTERPERSONAL RELATIONSHIPS (3) LEC. 3. Pr. 2.25 GPA. HDFS 2000 or HDFS 2003. This course will focus on the development of social competence and interpersonal relationships. We will cover models of socialization in the family, peer experiences and relationships from childhood through early adulthood, behaviors associated with social acceptance and rejection, emotional and social-cognitive underpinnings of social competence, and supportive communication through the lifespan.

HDFS 3110 INFANT AND TODDLER DEVELOPMENT (3) LEC. 3. Pr. P/C HDFS 2010 or P/C HDFS 2013. Infant and toddler development from pre-birth through 36 months, with a focus on theory, research, and practice.

HDFS 3130 PEER RELATIONSHIPS IN CHILDHOOD AND SOCIAL SKILLS TRAINING (3) LEC. 2. LAB. 3. Departmental approval. This class will focus on theory and research on peer relationships. Students will be able to use the theory and research to work directly with children to improve their conduct and social skills. Students will discuss assigned, primary source readings and work in teams with a small group of elementary school children to improve the children's social understanding and behavior. This course includes field experience.

HDFS 3460 EFFECTIVE GUIDANCE AND INTERACTION WITH YOUNG CHILDREN (3) LEC. 3. Pr. P/C HDFS 3010. Coreq. HDFS 3461. This course uses previously gained child development knowledge and applies it to teacher-child relationships and interactions with young children. Students will learn to take their knowledge of child development and apply it in a preschool classroom at the Auburn University Early Learning Center.

HDFS 3461 EFFECTIVE GUIDANCE AND INTERACTION WITH YOUNG CHILDREN LAB (1) LAB. 3. Pr. P/C HDFS 3010. Coreq. HDFS 3460. Laboratory Class for HDFS 3460

HDFS 3470 LEARNING EXPERIENCES FOR YOUNG CHILDREN (3) LEC. 3, FLD/LEC. 1. Pr. HDFS 3460. Coreq. HDFS 3471. Child development knowledge applied to preschool curriculum planning.

HDFS 3471 LEARNING EXPERIENCES FOR YOUNG CHILDREN LAB (1) LAB. 3. Pr. HDFS 3010 and HDFS 3460 and HDFS 3461. Coreq. HDFS 3470. Laboratory Class for HDFS 3470

HDFS 3500 HOSPITALIZED CHILDREN AND THEIR FAMILIES (3) LEC. 3. Pr. P/C HDFS 3010. Sophomore standing in HDFS major or a major in a related field. Theories and research about children and their families in hospital settings. Course is taught by Certified Child Life Specialist through a child life lens.

HDFS 3510 THERAPEUTIC PLAY (3) LEC. 3. Pr. P/C HDFS 3010. Theories and research on play, play's use in many contexts, and the many therapeutic qualities of play will be discussed. Course is taught by Certified Child Life Specialist through a child life lens.

HDFS 3520 CLINICAL INTRODUCTION FOR CHILD LIFE (3) LEC. 3. LAB. 0, SEM. 0. Application of child life clinical skills and preparation for Association of Child Life Professionals (ACLP) internship. Course is taught by Certified Child Life Specialist through a child life lens. Junior standing in HDFS - Child Life major.

HDFS 3700 FAMILY LIFE EDUCATION (3) LEC. 3. Learning how to help families build knowledge and skills, focusing on their strengths to function at their optimal levels. Exploring how to help create strong, healthy families.

HDFS 3910 PRACTICUM (1-6) PRA. SU. Pr., Departmental approval. Directed experience in a professional setting. A) Human Development; B) Family Studies; C) Marriage and Family Therapy. Course may be repeated for a maximum of 6 credit hours.

HDFS 3930 SERVICE LEARNING IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (1-6) AAB/LEC. Application of HDFS-relevant knowledge to real-life situations through active participation in a directed community service experience. A.) Auburn University Early Learning Center; B.) Harris Early Learning Center of Birmingham; C.) Other Community Placements. Course may be repeated for a maximum of 6 credit hours.

HDFS 3940 CHILD LIFE PRACTICUM (3) PRA. Pr. P/C HDFS 4500. Directed experience in a healthcare setting under the supervision of a certified child life specialist. Application and Interview process required. Departmental approval required.

HDFS 3980 UNDERGRADUATE RESEARCH AND STUDY (1-5) AAB/LEC. SU. Directed research under faculty supervision. Course may be repeated for a maximum of 5 credit hours.

HDFS 4380 STUDY AND TRAVEL IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (2-12) AAB/FLD. Pr. CADS 2000 or NTRI 2000 or HDFS 2100 or HOSP 2000. Departmental approval. Provide students with opportunities to reach beyond the classroom to study topics relevant to human development and family science abroad. Course may be repeated for a maximum of 12 credit hours.

HDFS 4470 ADVANCED LEARNING EXPERIENCES FOR YOUNG CHILDREN (3) LEC. 3, FLD/LEC. 1. Pr. HDFS 3010 and HDFS 3460 and HDFS 3470 and HDFS 3461 and HDFS 3471. Coreq. HDFS 4471. This course uses previously gained knowledge about child development and teacher-child relationships and interactions with young children to create playful learning environments and activities for young children and their families in a preschool classroom at the Auburn University Early Learning Center and Early Head Start.

HDFS 4471 ADVANCED LEARNING EXPERIENCES FOR YOUNG CHILDREN LAB (1) LAB. 4. Pr. HDFS 3010 and HDFS 3460 and HDFS 3470 and HDFS 3461 and HDFS 3471. Coreq. HDFS 4470. Laboratory course for HDFS 4470. Child development knowledge applied to preschool curriculum planning with 6 hours a week of supervised participation at Auburn University Early Learning Center.

HDFS 4520 DYING, DEATH AND BEREAVEMENT (3) LEC. 3. In this course students will explore the multidimensional aspects of dying, death, and bereavement from various perspectives, encompassing psychological, sociological, cultural, and ethical dimensions. This course is based on the premise that death education helps one to live more fully and serve others in a more meaningful way.

HDFS 4640 SYSTEMS OF CARE FOR INDIVIDUALS WITH DISABILITIES ACROSS THE LIFESPAN (3) LEC. 3. Pr. HDFS 2010 or PSYC 3120. This course examines disability and systems of care across the lifespan, with a focus on the impact of disability and services on individuals and families.

HDFS 4660 RESOURCE MANAGEMENT FOR INDIVIDUALS, COUPLES, AND FAMILIES (3) LEC. 3. An understanding of the decisions individuals and families make about developing and allocating resources.

HDFS 4670 PARENT EDUCATION (3) LEC. 3. Pr. HDFS 3010 or HDFS 3030 or HDFS 3050. The purpose of this course is to prepare you to work with parents and caregivers using theory and research-based knowledge of parent-child relationships. This will be accomplished through a variety of lectures, presentations, individual research papers, and group projects. Although completing this course will not make you a "Parent educator", this course will provide you with a basis for further development of parent education knowledge and skills.

HDFS 4680 FAMILY IN CROSS-CULTURAL PERSPECTIVE (3) LEC. 3. Pr. 2.25 GPA. HDFS 2000 or HDFS 2003. Examination of family function and family systems across diverse cultural groups.

HDFS 4700 GENDER ROLES AND CLOSE RELATIONSHIPS (3) LEC. 3. Pr. HDFS 2000 or SOCY 1000 or SOCY 1007 or PSYC 2010 or PSYC 2017 or COUN 2000. This course explores gender, gender roles, gender identity and the intersections of gender, gender roles, and gender identity with race, ethnicity, privilege, culture, and class.

HDFS 4910 PROFESSIONAL DEVELOPMENT II AND CAPSTONE (2) LEC. 2. Pr. HDFS 1800 and HDFS 2030 and P/C HDFS 2040. Professional Development aimed at student preparation for graduate school and career. The cumulation of the professional development courses requires an in-depth examination and advanced design of the professional, outward-facing ePortfolio.

HDFS 4920 INTERNSHIP IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (12) AAB/INT. Pr. HDFS 4910. HDFS major with current background check, all required coursework for the major complete, a grade of C or better in all HDFS major core classes at the 3000-level or higher, and an overall minimum GPA of 2.25. Internship applications must be submitted 2 semesters in advance. A computer and internet access is required.

HDFS 4930 INTERNSHIP IN CHILD LIFE (12) INT. Pr. HDFS 4910. Departmental approval. HDFS major with current background check, all required coursework for the major complete, a grade of C or better in all child life option core classes at the 3000-level or higher, and an overall minimum GPA of 3.0. Students who enroll in this course must complete their internship under the supervision of a certified child life specialist. Internship applications must be submitted 2 semesters in advance. A computer and internet access are required.

HDFS 4940 INTERNSHIP IN EARLY CHILD DEVELOPMENT TOWARD CERTIFICATION (12) INT. Departmental approval. Pr. HDFS 3460 and HDFS 3470 and HDFS 4470 and HDFS 4910. Intensive capstone teaching experience of at least 450 hours. HDFS major with all required coursework for the major complete, a grade of C or better in all Early Child Development option core classes at the 3000-level or higher, ALSDE background check, and an overall minimum GPA of 2.75. Students who enroll in this course will complete requirements for Ed TPA. Internship applications must be submitted 2 semesters in advance. A computer and internet access are required.

HDFS 4950 ADVANCED SEMINAR (3) LEC. 3. Pr., Departmental approval. Topical seminar in HDFS. A) Advanced Research B) Child Development; C) Family Studies; D) Marriage and Family Therapy. Course may be repeated for a maximum of 9 credit hours.

HDFS 4960 SPECIAL PROBLEMS IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (1-3) IND. SU. Supervised readings in one or more topical areas. Course may be repeated for a maximum of 3 credit hours.

HDFS 4980 ADVANCED UNDERGRADUATE RESEARCH IN HUMAN DEVELOPMENT AND FAMILY STUDIES (1-5) IND. Pr., Departmental approval. Junior standing. Conduct research under the direction of a human development and family studies faculty member on a topic of mutual interest. Course may be repeated for a maximum of 5 credit hours.

HDFS 4997 HONORS THESIS (2-6) IND. SU. Pr. Honors College. Research in specialized topics. Course may be repeated for a maximum of 6 credit hours.

HDFS 5200 APPLIED RESEARCH AND EVALUATION METHODS (3) LEC. 3. Junior standing. Application of research to the development and evaluation of programming for children and families.

HDFS 5300 HDFS AND SOCIAL POLICY (3) LEC. 3. Junior standing. Examination and critique of social policies from a family perspective.

HDFS 5400 PROGRAM DESIGN FOR COMMUNITIES, SCHOOLS, AND FAMILIES (3) SEM. 3. Program design for schools, communities, and families is a course designed to help students learn about program design approaches used to improve the lives of people. Students will learn the basics of the program planning process, the complexity of assessing need, evaluation, and program implementation to targeted populations of people.

HDFS 5930 SOCIETY AND HEALTH (3) LEC. 3. This course provides an overview of population-level theories of health and introduces students to concepts in society and health, with a focus on major themes related to social determinants of health and health inequities. May count either HDFS 5930 or HUSC 5930.

HDFS 5950 SEMINAR ON HEALTH ECOLOGY AND EQUITY (3) SEM. 3. This is a seminar course that features distinguished lecturers. This course provides knowledge on special topics in health ecology and equity, delving into specific research programs.

HDFS 5970 SPECIAL TOPICS IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (3) LEC. 3. Pr., Junior standing. Study of topics of special interest beyond the current departmental offerings. Course may be repeated for a maximum of 9 credit hours.

HDFS 6200 APPLIED RESEARCH AND EVALUATION METHODS (3) LEC. 3. Graduate standing. Application of research to the development and evaluation of programming for children and families.

HDFS 6300 HDFS AND SOCIAL POLICY (3) LEC. 3. Graduate standing. Examination and critique of social from a family perspective.

HDFS 6400 PROGRAM DESIGN FOR COMMUNITIES, SCHOOLS, AND FAMILIES (3) SEM. 3. Program design for communities, schools, and families is a course designed to teach the basics of the program planning process, the complexity of assessing need, program evaluation, and program delivery to targeted populations of people.

HDFS 6930 SOCIETY AND HEALTH (3) LEC. 3. This course provide an overview of population-level theories of health and introduces students to concepts in society and health, with a focus on major themes related to social determinants of health and health inequities. May count either HDFS 6930 or HUSC 6930.

HDFS 6950 SEMINAR ON HEALTH ECOLOGY AND EQUITY (3) LEC. 3. This is a seminar course that features distinguished lecturers. This course provides knowledge on special topics in health ecology and equity, delving into specific research programs.

HDFS 6970 SPECIAL TOPICS IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (3) LEC. 3. Pr., Graduate standing. Study of topics of special interest beyond the current departmental offerings. Course may be repeated for a maximum of 9 credit hours.

HDFS 7010 CHILD AND ADOLESCENT DEVELOPMENT IN CONTEXT (3) LEC. 3. Survey and critical examination of research on development from birth through adolescence.

HDFS 7020 ADULT DEVELOPMENT IN CONTEXT (3) LEC. 3. Survey and critical evaluation of research on development in the adult and aging periods of the life cycle.

HDFS 7030 LIFESPAN DEVELOPMENT IN CONTEXT (3) LEC. 3. Survey and critical examination of research on human development from infancy through adulthood.

HDFS 7040 FAMILY PROCESSES (3) LEC. 3. An orientation to family theories and their role in contemporary studies of family processes.

HDFS 7050 RESEARCH METHODS FOR HUMAN DEVELOPMENT AND FAMILY SCIENCE (3) LEC. 3. Pr., Departmental approval. Survey of principles and methods for studying individuals, dyadic relationships and families.

HDFS 7060 RESEARCH METHODS FOR HUMAN DEVELOPMENT AND FAMILY SCIENCE II (3) LEC. 3. Pr. HDFS 7050. Pr., Departmental approval. Survey of principles and advanced methods for studying individuals, dyadic relationships, and families.

HDFS 7070 RESEARCH LITERACY IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (3) LEC. 3. Research literacy course informs students' as research consumers to identify, understand, discuss, and evaluate different types of research methods and statistical analyses, to communicate the findings of such research to others, and to use findings of quality research to impact future academic research and professional policy and practice.

HDFS 7100 PSYCHOSOCIAL CARE OF MEDICALLY AND EMOTIONALLY VULNERABLE CHILDREN (3) LEC. 3. Departmental approval. Child development theories, the impact of hospitalization on children and families, the impacts of trauma on development and coping, and common child life interventions are explored.

HDFS 7110 PLAY AND THERAPEUTIC INTERVENTIONS IN CHILD LIFE (3) LEC. 3. Child development theory, play theory, adaptive play, and therapeutic interventions are explored in the context of helping children cope with stressors such as hospitalization, bereavement, and trauma. Undergraduate degree in child life, child development, human development and family studies, or another related field.

HDFS 7120 INTRODUCTION TO CAPSTONE FOR ADVANCED STANDING CHILD LIFE STUDENTS (3) LEC. This course will prepare students to complete their capstone project, which will be completed during their last semester of graduate school. This course will focus on peer-to-peer learning, supervision of undergraduate and graduate learners, and community applications for child life programming. Specifically, clinical conversation among peers will be a core focus of the course.

HDFS 7130 CHILD LIFE PROGRAM DEVELOPMENT AND EVALUATION (3) LEC. 3. Methods of creating and implementing Child Life programs; documenting and assessing program activities; and supervising child life students and professionals will be discussed. Department Approval.

HDFS 7140 DEATH, DYING AND BEREAVEMENT FOR CHILD LIFE SPECIALISTS (3) LEC. 3. LAB. 0. Pr. HDFS 7100. Exploring children's understanding of death, and the child life specialist's role in caring for the bereaved family.

HDFS 7600 MARRIAGE AND FAMILY THERAPY THEORY I (3) LEC. 3. Pr., Departmental approval. Overview of theoretical and historical foundations, classic and contemporary therapy models, and integrative frameworks for marriage and family therapy.

HDFS 7601 MARRIAGE AND FAMILY THERAPY THEORY LABORATORY I (1) LAB. 3. Pr., Departmental approval. Basic clinical skills and self-of-the-therapist issues.

HDFS 7610 MARRIAGE AND FAMILY THERAPY THEORY II (3) LEC. 3. Pr., Departmental approval. Current theory and conceptual issues in the practice of marriage and family therapy.

HDFS 7620 MARRIAGE AND FAMILY THERAPY CLINICAL ISSUES I: FAMILY SYSTEMS (3) LEC. 3. Pr., Departmental approval. Advanced study of conceptual models and clinical approaches utilized in treating family systems.

HDFS 7621 MARRIAGE AND FAMILY THERAPY LABORATORY II (1) LAB. 1. Coreq. HDFS 7620. Pr., Departmental approval. Application of clinical models in a supervised setting.

HDFS 7630 MARRIAGE AND FAMILY THERAPY CLINICAL ISSUES II: INDIVIDUALS (3) LEC. 3. Pr., Departmental approval. Assessment and treatment of children, adolescents, adults, and sexuality issues from a systemic perspective.

HDFS 7631 MARRIAGE AND FAMILY THERAPY LABORATORY III (1) LAB. 3. Coreq. HDFS 7630. Departmental approval. Application of clinical skills with families, couples and individuals.

HDFS 7640 MARRIAGE AND FAMILY THERAPY CLINICAL ISSUES III: COUPLES (3) LEC. 3. Pr., Departmental approval. Conceptual, assessment and clinical approaches utilized in treating couples.

HDFS 7650 MARRIAGE AND FAMILY THERAPY PROFESSIONAL ISSUES (3) LEC. 3. Pr., Departmental approval. Professional, ethical, and legal issues associated with the practice of marriage and family therapy.

HDFS 7660 SYSTEMIC IMPACT OF ILLNESS, MEDFT, & PSYCHOPHARMACOLOGY (3) LEC. 3. Three components related to the practice of marriage and family therapy in healthcare settings: 1.) Systemic Impact and Treatment of Illness, (2) Treatment in Collaborative Health Care teams, and (3) Psychopharmacology.

HDFS 7670 INDIVIDUAL, COUPLE, AND FAMILY DYNAMICS OF ADDICTION, RECOVERY, AND TREATMENT (3) LEC. 3. An overview of the scope of the dynamics of addiction treatment and recovery in individuals, couples, and families. This course focuses on both substance use disorders and process addictions and will deal directly with preferred treatments of these issues in individual and systemic therapy.

HDFS 7680 SYSTEMIC ASSESSMENT, DIAGNOSIS, & TREATMENT OF PSYCHOPATHOLOGY (3) LEC. 3. This course will examine current research, theory, and clinical best practices for assessing and diagnosing psychopathology in the context of individual, couple, and family therapy.

HDFS 7850 GRADUATE CHILD LIFE PRACTICUM (3) PR1. 9. Pr. P/C HDFS 7100. Supervised clinical experience under the supervision of a Certified Child Life Specialist.

HDFS 7900 DIRECTED STUDIES (1-3) AAB/IND. SU. Pr., Departmental approval. A) Child Care and Programs for Young Children; B) Family Relations; C) Human Development; D) Marriage & Family Therapy; E) Parent Education; F) Social Policy. Course may be repeated for a maximum of 9 credit hours.

HDFS 7910 PRACTICUM (1-9) AAB/PRA. SU. A) Child Care and Programs for Young Children; B) Family Relations; C) Human Development; D) Marriage and Family Therapy; E) Parent Education; F) Social Policy; G) Teaching. Course may be repeated for a maximum of 9 credit hours.

HDFS 7920 MARRIAGE AND FAMILY THERAPY INTERNSHIP (3) INT. Pr., Departmental approval. Clinical practice of marriage and family therapy. Course may be repeated for a maximum of 9 credit hours.

HDFS 7930 SEMINAR IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (1-3) SEM. Pr., Departmental approval. A) Infancy/Childhood; B) Adolescence/Young Adulthood; C) Adulthood/Aging; D) Family as a Microsystem; E) Family and Mesosystem; F) Family in the Macrosystem; G) Child and Family Program Planning and Evaluation. Course may be repeated for a maximum of 16 credit hours.

HDFS 7940 DIRECTED FIELD EXPERIENCE (1-9) AAB/FLD. SU. Pr., Departmental approval. A) Child Care and Programs for Young Children; B) Family Relations; C) Human Development; D) Marriage and Family Therapy; E) Parent Education; F) Social Policy. Course may be repeated for a maximum of 9 credit hours.

HDFS 7950 INTERNSHIP IN CHILD LIFE (12) INT. 3. Pr. HDFS 7010 and HDFS 7040 and HDFS 7070 and HDFS 7100 and HDFS 7110 and HDFS 7130 and HDFS 7140 and HDFS 7850. Supervised on-the-job experiences, along with rigorous evaluations of student's work.

HDFS 7970 SPECIAL TOPICS IN HDFS (1-4) LEC. 1-4. Students will learn about key issues in sleep research, especially with those related to family functioning and social/emotional, behavioral, and physical health. Students will have assigned readings to prepare them for discussions during the lectures. Course may be repeated for a maximum of 18 credit hours.

HDFS 7990 RESEARCH AND THESIS (1-10) AAB/MST.

HDFS 8010 RELATIONSHIP DEVELOPMENT AND PROCESS IN CHILDHOOD AND ADOLESCENCE (3) LEC. 3. Theoretical and empirical themes focused on processes and dynamics of relationships in childhood adolescence.

HDFS 8020 RELATIONSHIP DEVELOPMENT AND PROCESS IN ADULTHOOD (3) LEC. 3. Theoretical and empirical themes focused on processes and dynamics of relationships in adulthood and aging.

HDFS 8040 LONGITUDINAL DATA ANALYSIS (3) LEC. 3. Pr. HDFS 7060. This class addresses many of the ways longitudinal data can be modeled statistically from both multilevel and structural equation modeling frameworks. This class will cover the theoretical and mathematical concepts underlying longitudinal data analysis with a primary focus on application.

HDFS 8050 ADVANCED RESEARCH METHODS: COVARIANCE STRUCTURE ANALYSIS (3) LEC. 3. Pr. HDFS 7060. In-depth examination of research methods, designs, and data analytic strategies commonly used in child and family research.

HDFS 8060 MULTILEVEL MODELING (3) LEC. 3. Pr. HDFS 7060. In depth examination of multilevel modeling as an analytic strategy for research in nested data structures.

HDFS 8070 MEDIATION AND MODERATION ANALYSIS (3) LEC. 3. Pr. HDFS 7060. Methods for evaluating mediation and moderation hypotheses by addressing both study designs and statistical analyses.

HDFS 8080 MIXTURE MODELING (3) SEM. Pr. HDFS 7060. Methodological advances in latent variable analysis have provided promising avenues for researchers interested in answering questions about latent (unobserved) classes and profiles. These two analytic techniques will be the focus of this course.

HDFS 8090 QUALITATIVE METHODS IN THE SOCIAL SCIENCES (3) LEC. 3. This course prepares graduate students to conduct and evaluate qualitative research in social science disciplines.

HDFS 8970 ADVANCED SPECIAL TOPICS IN HUMAN DEVELOPMENT AND FAMILY SCIENCE (1-3) LEC. Departmental approval. Study of advanced topics of special interest beyond the current departmental offerings. Course may be repeated for a maximum of 9 credit hours.

HDFS 8990 RESEARCH AND DISSERTATION (1-10) DSR.

Human Resource Management - HRMN

Courses

HRMN 3420 HUMAN RESOURCE MANAGEMENT (3) LEC. 3. Pr. P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107 or P/C MNGT 3810. Management of human resources dealing with selection, training, placement, appraisal, compensation, and employee representation.

HRMN 4920 INTERNSHIP (1-6) AAB/INT. SU. Pr. 2.50 GPA. Departmental approval. Approval by departmental intern program committee and minimum 2.50 GPA. Course may be repeated for a maximum of 6 credit hours.

HRMN 4970 SPECIAL TOPICS IN HUMAN RESOURCE MANAGEMENT (3) LEC. 3. Pr. MNGT 3100. This course covers current and emerging topics related to human resource management. Course may be repeated for a maximum of 6 credit hours.

HRMN 5430 LABOR RELATIONS (3) LEC. 3. General survey of the development of collective bargaining, major provisions of labor law, and bargaining issues of craft and industrial unions.

HRMN 5460 HUMAN RESOURCE LEGISLATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Legislation that impacts the management of human resources within the organization.

HRMN 5470 EMPLOYEE COMPENSATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Modern compensation systems, strategic planning, wage and salary management, benefits administration and pay incentive development.

HRMN 5510 HUMAN RESOURCE PLANNING, DEVELOPMENT, AND APPRAISAL (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Theory, practice and design of managerial systems in these functions.

HRMN 5540 HUMAN RESOURCES SELECTION AND PLACEMENT (3) LEC. 3. Pr. (HRMN 3420 or HRMN 3423) and (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600 or STAT 3610). A review of contemporary issues involved in administering a program for selecting employees.

HRMN 5900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

HRMN 5960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

HRMN 6460 HUMAN RESOURCE LEGISLATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Legislation that impacts the management of human resources within the organization.

HRMN 6470 EMPLOYEE COMPENSATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Study of the theory, procedures, techniques, and practices used to administer modern organization compensation systems.

HRMN 6510 HR PLANNING DEV & APPRAISAL (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Theory, practice, and design of managerial systems and these functions.

HRMN 6540 HUMAN RESOURCES SELECTION AND PLACEMENT (3) LEC. 3. Pr. (HRMN 3420 or HRMN 3423) and (BUAL 2600 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010). A review of contemporary issues involved in administering a program for selecting employees.

HRMN 6900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

HRMN 6960 SPECIAL PROBLEMS (3) IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

Human Sciences, General - HUSC

Courses

HUSC 1010 INTRODUCTION TO HUMAN SCIENCES (2) LEC. 2. An introduction course to provide an understanding of the discipline of Human Sciences, history, and career opportunities.

HUSC 1940 STUDY AND TRAVEL IN HUMAN SCIENCES: PRE-DEPARTURE (0) LEC. .5. Department approval. Pre-departure training for College of Human Sciences Study Abroad programs. Course may be repeated for a maximum of 1 credit hours.

HUSC 2000 HUNGER: CAUSES, CONSEQUENCES, AND RESPONSES (3) LEC. 3. Examine hunger as a complex issue of sustainable human development. Topics include causes and consequences of domestic and global hunger and potential solutions. Credit will not be given for both HUSC 2000 and HUSC 2007.

HUSC 2007 HONORS HUNGER: CAUSES, CONSEQUENCES, AND RESPONSES (3) LEC. 3. Pr. Honors College. Examine hunger as a complex issue of sustainable human development. Topics include causes and consequences of domestic and global hunger and potential solutions. Credit will not be given for both HUSC 2000 and HUSC 2007.

HUSC 2500 LIFE DESIGN & DEVELOPMENT (3) LEC. 3. LAB. 0, LEC. 0. Examine how design thinking can help create a life that is both meaningful and fulfilling, regardless of who or where you are. Students will be able to apply design thinking mindsets to themselves, their community, and the world around them.

HUSC 2940 STUDY ABROAD IN HUMAN SCIENCES (1-6) AAB. Departmental approval. This course introduces incoming students with opportunities to reach beyond the classroom to study topics that are relevant to human sciences and quality of life issues. Application required.

HUSC 3380 CHS AT AU IN ITALY (2) LEC. 2. Pr. HUSC 1940. Orientation, team building and post-program reflection for students participating in the Joseph S. Bruno Auburn Abroad program in Ariccia, Italy. 2.25 GPA, 19 or older and admission to the JSBAII program required. Department approval.

HUSC 3970 SPECIAL TOPICS IN HUMAN SCIENCES (1-3) LEC. 1-3. Special Topics in Human Sciences Course may be repeated for a maximum of 6 credit hours.

HUSC 4000 HUNGER STUDIES CAPSTONE (3) LEC. 3. Pr. HUSC 2000 or HUSC 2003 or HUSC 2007. Examination of global and domestic hunger issues from multidisciplinary perspectives.

HUSC 4010 CHS AT AU IN ITALY: INTEGRATED GLOBAL STUDIES (6) LEC. 6. Pr. HUSC 3380. Departmental approval. Coreq. HUSC 3380 and HUSC 4380 and HUSC 4940. Multi-faceted cultural experience focused on individuals/families in the context of history and Italian culture. 2.25 GPA, 19 or older and admission to the JSBAII program.

HUSC 4017 HONORS CHS AT AU IN ITALY: INTEGRATED GLOBAL STUDIES (6) LEC. 6. Pr. Honors College. HUSC 3380. Departmental approval. Coreq. HUSC 3380 and HUSC 4380 and HUSC 4940. Multi-faceted cultural experience focused on individuals/families in the context of history and Italian culture. 2.25 GPA, 19 or older and admission to the JSBAII program.

HUSC 4380 CHS AT AU IN ITALY: STUDY AND TRAVEL (2) AAB/FLD. 2. Pr. HUSC 3380. Coreq. HUSC 4940 and HUSC 4010 and HUSC 3380. Broaden world views, increase cultural awareness, and demonstrate an ability to function globally or in a global environment through the Auburn Abroad in Italy program. 2.25 GPA required. Students must be 19 or older and accepted into the JSBAII program.

HUSC 4387 HONORS CHS AT AU IN ITALY: STUDY AND TRAVEL (2) AAB/FLD. 2. Pr. Honors College. HUSC 3380. Coreq. HUSC 4010 and HUSC 3380 and HUSC 4940. Broaden world views, increase cultural awareness, and demonstrate an ability to function globally or in a global environment through the Auburn Abroad in Italy program. 2.25 GPA required. Students must be 19 or older and accepted into the JSBAII program.

HUSC 4480 GLOBAL STUDY TRAVEL IN HUMAN SCIENCES (1-12) AAB. Sophomore/Junior/Senior Standing or Departmental approval application required. Student international study travel to study topics relevant to human sciences and quality of life issues. Course may be repeated for a maximum of 12 credit hours.

HUSC 4940 CHS AT AU IN ITALY: DIRECTED FIELD EXPERIENCES (6) AAB/FLD. 6. Pr. HUSC 3380. Coreq. HUSC 4380 and HUSC 3380 and HUSC 4010. Supplemental lectures for HUSC 4010 provided through field trips and participation in Italian culture experiences. 2.25 GPA required. Student must be 19 years old or older and admitted to the JSBAII program.

HUSC 4947 HONORS CHS AT AU IN ITALY: DIRECTED FIELD EXPERIENCES (6) AAB/FLD. 6. Pr. Honors College. HUSC 3380. Coreq. HUSC 4010 and HUSC 3380 and HUSC 4380. Supplemental lectures for HUSC 4010 provided through field trips and participation in Italian culture experiences. 2.25 GPA required. Student must be 19 years old or older and admitted to the JSBAII program.

HUSC 4980 UNDERGRADUATE RESEARCH IN HUMAN SCIENCES (1-3) LAB. 1-3, RES. 1-3. Undergraduate research in the human sciences Course may be repeated for a maximum of 6 credit hours.

HUSC 5930 SOCIETY AND HEALTH (3) LEC. 45. This course provide an overview of population-level theories of health and introduces students to concepts in society and health, with a focus on major themes related to social determinants of health and health inequities. May count either HUSC 5930 or HDFS 5930.

HUSC 5940 STUDY AND TRAVEL IN HUMAN SCIENCES (1-12) AAB/LEC. Pr. 2.25 GPA. Provide students with opportunities to reach beyond the classroom to study topics that are relevant to human sciences and quality of life issues. Application required; additional requirements may apply. Course may be repeated for a maximum of 12 credit hours.

HUSC 5950 SEMINAR ON HEALTH ECOLOGY AND EQUITY (3) LEC. 3. This is a seminar course that features distinguished lecturers. This course provides knowledge on special topics in health ecology and equity, delving into specific research programs. May count either HUSC 5950 or HDFS 5950.

HUSC 6930 SOCIETY AND HEALTH (3) LEC. 45. This course provides an overview of population-level theories of health and introduces students to concepts in society and health, with a focus on major themes related to social determinants of health and health inequities. May count either HUSC 6930 or HDFS 6930.

HUSC 6940 STUDY AND TRAVEL IN HUMAN SCIENCES (1-6) AAB/LEC. Provide students with opportunities to reach beyond the classroom to study topics that are relevant to human sciences and quality of life issues. Application required; additional requirements may apply. Course may be repeated for a maximum of 6 credit hours.

HUSC 6950 SEMINAR ON HEALTH ECOLOGY AND EQUITY (3) SEM. 3. This is a seminar course that features distinguished lecturers. This course provides knowledge on special topics in health ecology and equity, delving into specific research programs. May count either HUSC 6950 or HDFS 6950.

HUSC 7910 CHS STUDY ABROAD PROGRAM ADMINISTRATION PRACTICUM (1-6) AAB/PRA. 1-6. SU. Departmental approval. Graduate status and acceptance as a GTA for a CHS Study Abroad Program. Directed practical experience administering an undergraduate study abroad program. 2.25 GPA required. Students must be 19 or older.

Industrial & Systems Engineering - INSY

Courses

INSY 3010 PROGRAMMING AND DATABASE APPLICATIONS FOR ISE (3) LEC. 3. Pr. COMP 1200 or COMP 1220 or COMP 1230. Programming and database applications for ISE students. Focus is on algorithm development as related to optimization, probability, statistics, and data analysis.

INSY 3017 HONORS PROGRAMMING AND DATABASE APPLICATIONS FOR ISE (3) LEC. 3. Pr. COMP 1200 or COMP 1220 or COMP 1230. Programming and database applications for ISE students. Focus is on algorithm development as related to optimization, probability, statistics, and data analysis.

INSY 3020 OCCUPATIONAL SAFETY ERGONOMICS (3) LEC. 3. Basic principles of occupational safety engineering and ergonomics in the evaluation and design of occupation work areas and processes that include human operators.

INSY 3021 METHODS ENGINEERING AND WORK MEASUREMENT (3) LEC. 2. LAB. 2.5. Develops the student's ability to design workplaces and methods while providing an understanding of the work measurements process. Enables students to generate much of the basic methods data utilized in most industrial engineering projects.

INSY 3030 MANUFACTURING PROCESSES AND CAD (3) LEC. 2. LAB. 2.5. Pr. (COMP 1200 or COMP 1210 or COMP 1217 or COMP 1220 or COMP 3000) and (ENGR 1110 or ENGR 1113). Use of computer technology to aid engineering design in industrial applications, e.g. represent and modify mechanical parts, diagrams, schematics, tools, equipment, office and plant layouts, etc. This course aims to provide students with all the necessary understanding of typical part design and fabrication processes.

INSY 3400 STOCHASTIC OPERATIONS RESEARCH (3) LEC. 3. Pr. (ENGR 1110 or ENGR 1113) and (MATH 2660 or MATH 2667) and STAT 3600. with a grade of C or better in STAT 3600. Modeling and analysis of decision-making and operations subject to randomness including decision analysis, stochastic dynamic programming, Markov chains, and queuing theory.

INSY 3410 DETERMINISTIC OPERATIONS RESEARCH (3) LEC. 3. Pr. (ENGR 1110 or ENGR 1113) and MATH 2660 and P/C INSY 3010. Formulation, solution, interpretation, and implementation of mathematical models in operations research including linear programming, integer programming and network flows.

INSY 3420 SIMULATION (3) LEC. 2. LAB. 3. Pr. INSY 3400 and (COMP 3010 or COMP 3013 or INSY 3010) and STAT 3610. with a grade of C or better in INSY 3400. Simulation procedures for solving complex systems analysis problems. Emphasis on random processes, model building and construction of computer simulation models.

INSY 3600 ENGINEERING ECONOMY (3) LEC. 3. Pr. ENGR 1110 or ENGR 1113. Principles required in engineering economic studies. Junior or Senior standing.

INSY 3607 HONORS ENGINEERING ECONOMY (3) LEC. 3. Pr. Honors College. ENGR 1110 or ENGR 1113. Principles required in engineering economic studies.

INSY 3700 OPERATIONS PLANNING AND CONTROL (3) LEC. 3. Pr. INSY 3400 and INSY 3410 and STAT 3610. with a grade of C or better in both INSY 3400 and INSY 3410. Analytical methods for operations planning and control, including forecasting systems, production planning, inventory control systems, scheduling systems, and project management.

INSY 3800 MANUFACTURING SYSTEMS I (3) LEC. 2. LAB. 3. Introduction to the design, analysis, and operation of manufacturing systems, the first course in a required two-course sequence including Manufacturing Systems II. Departmental approval required for non-INSY majors.

INSY 4330 STATISTICAL QUALITY DESIGN AND CONTROL (3) LEC. 3. Pr. STAT 3610. Statistical process control and methods for quality improvement. Acceptance sampling for attributes and for variables.

INSY 4500 PROFESSIONAL PRACTICE (1) LEC. 1. Pr. P/C INSY 3700. Discussion and activities in current problems, the global context of, professional practice, professional opportunities and lifelong learning in Industrial and Systems Engineering. Senior standing in INSY.

INSY 4610 INTERNATIONAL ENGINEERING PROJECT (3) LEC. 3. This course provides students with a real-life work experience in solving engineering-business problems through teamwork in an international setting. At the course end, students present their project to faculty and industry sponsors. The course is Auburn University Faculty led in which students work in groups mentored by faculty from Auburn and foreign universities and company sponsors. Students will be involved in projects that expose them to theory and practice of problem solving techniques involving data collection, statistical analysis, computational modeling, and experimental design of problems related to the service and manufacturing industries.

INSY 4700 MANUFACTURING SYSTEMS II (3) LEC. 3. Pr. INSY 3010 and INSY 3400 and INSY 3410 and INSY 3420 and (INSY 3600 or INSY 3607) and INSY 3700 and INSY 3800. Continuation of the design, analysis, and operation of manufacturing systems, the second course in a required two-course sequence including Manufacturing Systems I.

INSY 4800 SENIOR DESIGN (3) LEC. 0. LAB. 3. Pr. INSY 3021 and (INSY 4500 or INSY 4503) and P/C INSY 4700. Capstone course in which undergraduate course-work principles are brought to bear upon a design problem in a cooperating industry or institution.

INSY 4960 SPECIAL PROBLEMS (1-5) IND. Departmental approval. Individual student endeavor under faculty supervision involving special problems in Industrial and Systems Engineering. Interested student must submit written proposal to department head. Course may be repeated for a maximum of 5 credit hours.

INSY 4970 INDUSTRIAL AND SYSTEMS ENGINEERING SPECIAL TOPICS (1-10) AAB. Departmental approval. Special topics in Industrial and Systems Engineering. Specific prerequisites will be determined and announced for each offering. Course may be repeated for a maximum of 10 credit hours.

INSY 5010 OCCUPATIONAL SAFETY ENGINEERING (3) LEC. 3. Pr. INSY 3020. Departmental approval. Occupational safety engineering and management with emphasis on control of hazardous materials, fire prevention, safety considerations in production facility design, and maintenance, and operation of effective safety programs. Credit will not be given for both INSY 5010 and INSY 6010/6016.

INSY 5050 INDUSTRIAL HYGIENE AND ENVIRONMENTAL HAZARDS (3) LEC. 3. Introduction to the basic concepts of industrial hygiene with emphasis on the industrial hygiene/safety interface and on the evaluation and control of chemical exposures, biological hazards, noise and heat stress for undergraduate engineers.

INSY 5080 HUMAN FACTORS ENGINEERING (3) LEC. 3. Human Factors Engineering is the science of designing products and systems for optimal human well-being and system performance. This course will focus on information processing and the cognitive aspects of ergonomics design. Students will gain insight into the effects of various environments (hot, cold, noise, information overload, etc.) on humans and human performance. Physical ergonomics will be addressed somewhat as well. Emphasis is on human information input, output, and control processes with the objective of optimizing the integration of the human into simple and complex systems.

INSY 5100 SYSTEMS ENGINEERING I (3) LEC. Processes and tools for engineering large-scale, complex systems: architecture, requirements, risk management, evaluation, concept exploration, decision-making, tradeoff studies, life cycle models, decomposition, system coupling, test, verification, validation, system modeling, business process re-engineering, sensitivity analysis, teamwork, process maturity, and documentation.

INSY 5110 SYSTEMS ENGINEERING 2: SYSTEM LIFECYCLE REQUIREMENTS (3) LEC. 3. Pr. INSY 5100. The System Lifecycle Requirements course focuses on developing, properly writing, and decomposing requirements for complex systems across the entire system life cycle. Well written requirements are a solid foundation for system design development and this course will identify design considerations at early concept identification, design maturation, implementation, production, operations & sustainment, and disposal phases. Students will exercise stakeholder needs elicitation, requirements writing and decomposition, and will apply life cycle considerations during requirements development and evolution.

INSY 5120 DIGITAL SYSTEMS ENGINEERING DESIGN (3) LEC. 3. The study and practice of digital system engineering design methods include both object-oriented and structured analysis-based techniques. Design description languages, such as SysML, are introduced and used to carry out complete system designs. This process encompasses stakeholder analysis, requirement definition, logical architecture, physical architecture, as well as system evaluation, validation, and verification.

INSY 5130 MODEL-BASED SYSTEMS ENGINEERING (3) LEC. 3. Pr. INSY 5120. Model-Based Systems Engineering (MBSE) offers a structured framework for applying modeling to facilitate the engineering of complex systems. This course is designed to explore and apply prominent methodologies in MBSE, elucidating its approaches in systems engineering and management. Emphasis is placed on advanced object-oriented systems engineering methodologies and model transformation techniques. Throughout the course, students will be introduced to software tools that play a pivotal role in supporting the design phase of systems engineering.

INSY 5240 PRODUCTION AND INVENTORY CONTROL SYSTEMS (3) LEC. 3. Pr. INSY 3700. Analysis and design of production and inventory control systems with emphasis on quantitative methods, algorithms, and information technology. Credit will not be given for both INSY 5240 and INSY 6240/6246.

INSY 5250 PROJECT MANAGEMENT (3) LEC. 3. Introduction to project management for engineering, business and technology including; project management concepts, project life cycle, planning techniques, scheduling and network analysis, cost estimating and budgeting, risk management, execution and control, and evaluation and closeout.

INSY 5330 SIX SIGMA (3) LEC. 3. This course covers the six sigma engineering techniques. The content emphasizes the DMAIC (Define, Measure, Analyze, Improve, and Control) methodology combined with Lean management practices through analytical and quantitative tools.

INSY 5400 MULTI-PARADIGM MODELING AND SIMULATION (3) LEC. 2. LAB. 1. Pr. INSY 3420. Multi-paradigm simulation modeling procedures for analyzing real-world complex systems. Emphasis on model building, and construction of multi-paradigm computer simulation models using Agent Based Modeling, System Dynamics, and Discrete Event Simulation approaches.

INSY 5450 SIMULATION-BASED PLANNING AND SCHEDULING (3) LEC. 3. Pr. INSY 3420. A graduate/undergraduate course in simulation-based planning and scheduling. Topics include intermediate simulation modeling, dispatching and scheduling methods, and implementation of scheduling systems and supply chain planning systems using a commercial simulation software package.

INSY 5500 MODERN TOOLS FOR DATA ANALYTICS AND MODELING (3) LEC. 3. Pr. INSY 3010. Introduction to modern data science tools with applications in manufacturing and service industries and operations. Focus on the manipulation and use of small and large datasets. Tools include Jupyter, Python, R, and MySQL along with the related packages that support data modeling, visualization, and analysis.

INSY 5550 DECISION SUPPORT SYSTEMS FOR OPERATIONS (3) LEC. 3. Pr. INSY 3010. Fundamentals for modeling, designing, and implementing decision support systems for the operation of manufacturing and service industries. Credit will not be given for both INSY 5550 and INSY 6550/6556.

INSY 5600 ENGINEERING ECONOMIC SYSTEMS (3) LEC. 3. Pr. INSY 3600. Continuation of INSY 3600. Emphasis on design economics and cost estimating techniques and applications to various manufacturing and service operations. Credit will not be given for both INSY 5600 and INSY 6600/6606.

INSY 5650 HEALTHCARE SYSTEMS, CULTURE, AND POLICY (3) LEC. 3. This course aims to introduce the basic structures and operations of the U.S. Healthcare (HC) delivery system and the resources that comprise it. The course introduces and describes the U.S. healthcare system, the major service components and complexities, and the history and basis of HC. Topics to be covered include professional roles and accreditation, data and data reporting in HC, including performance, quality, and outcome measures.

INSY 5660 HEALTHCARE OPERATIONS (3) LEC. 3. LAB. 0, LEC. 0. Strategies to apply traditional Industrial Engineering skills in a variety of healthcare contexts such as doctors offices, hospitals and pharmacies.

INSY 5670 HUMAN FACTORS IN HEALTHCARE (3) LEC. 3. LAB. 0, LEC. 0. The application of human factors engineering and ergonomics in healthcare.

INSY 5700 DIGITAL DRAWINGS, GEOMETRIC TOLERANCES, AND METROLOGY FOR INDUSTRY 4.0 (4) LEC. 3. LAB. 2.33. Digital manufacturing begins with accurate electronic drawings designed with precision measurement in mind. This course covers the design, dimensioning, tolerancing, and inspection for part and assembly manufacturing from the ASME Y14.5 (2018) Standard. Students will model parts in a CAD program, create manufacturing inspection drawings with applied GD&T concepts, and work with an industry grade Coordinate Measurement Machine (CMM) software to develop inspection plans. Basic Computer Aided Design (CAD) concepts are taught in Fusion 360. Department approval.

INSY 5710 BASIC CONCEPTS OF 21ST CENTURY MANUFACTURING PROCESSES (3) LEC. 3. LAB. 0, LEC. 0. This is the first of a two-semester program detailing all the manufacturing processes available in the 21st Century. There is an emphasis on the interaction of shapes, materials and process in design and economic decision making. Students will review basic fundamentals of acceptance testing, material properties and characteristics as a foundation for all process decisions. Processes introduced in this course will include metal casting, rolling and forging. Departmental approval required.

INSY 5720 ADVANCED CONCEPTS OF 21ST CENTURY MANUFACTURING PROCESSES (3) LEC. 3. LAB. 0, LEC. 0. This is the second of a two-semester program detailing all the manufacturing processes available in the 21st Century. There is emphasis on the interaction of shapes, materials and process in design and economic decision making. This course covers all the classic subtractive machining, modern subtractive methods and all the joining methods. The course concludes with automation of manufacturing processes, computer aided and integrated manufacturing along with the standards of Industry 4.0. Departmental approval required.

INSY 5730 CONCEPTS OF COMPUTER NUMERICAL CONTROLS (4) LEC. 3. LAB. 2.33, LEC/LLB. 0. Pr. INSY 5700. Departmental approval. This course will introduce key concepts involved in the use of Computer Aided Machining. Concepts include the construction of tools within CAM software, determining feeds and speeds from tool manufacturer specifications, basics of G-Code and M-Code, and various tool pathing operations. The course covers model-based CAM, conversational CAM, and basic 3D printing concepts. The model-based CAM portion will cover 3 axis and 5 axis mill work, lathe operations, and mill turn operations.

INSY 5740 CONCEPTS OF INDUSTRY 4.0 (3) LEC. 2. LAB. 2.33, LEC/LLB. 0. Pr. INSY 5700. Departmental approval. Students develop a firm understanding of the fundamentals of Mechatronics and learn how to utilize these new tools in conjunction with the Industrial Internet of Things (IIOT) via the MTConnect Standard. Topics include circuits, sensors, actuators, controls, communication protocols, Industry 4.0, and the MTConnect Standard. Labs will be held at the Interdisciplinary Center for Advanced Manufacturing Systems (ICAMS).

INSY 5800 LEAN SYSTEMS (3) LEC. 2. LAB. 2. Manufacturing system design based on a strategy of linked cells providing a continuous flow of materials. Evaluation strategies and analysis tools are studied. Credit will not be given for both INSY 5800 and INSY 6800/6806.

INSY 5830 VEHICLE TECHNOLOGY AND TRENDS (3) LEC. 3. Investigation of the advances in automotive technology and the impact of future technologies on the design and manufacture of the automobile. Credit will not be given for both INSY 5830 and INSY 6830/6836.

INSY 5840 CONTROL OF THE MANUFACTURING FLOOR AND PROCESSES (3) LEC. 2. LAB. 3. Students work within multi-disciplinary teams to apply the principles of Computer Aided Manufacturing and the Toyota Production System (TPS) on the modern automated floor. Laboratory features CNC Controls, Robots, Programmable Logic Controllers (PLC) and Kanban system. DELMIA Catia, and MasterCAM. Credit will not be given for both INSY 5840 and INSY 6840/6846.

INSY 5850 ELECTRONICS MANUFACTURING SYSTEMS (3) LEC. 3. Introduction to electronics packaging and electronics manufacturing technologies including current and future trends, design and quality, and manufacturing for high volume. Credit will not be given for both INSY 5850 and INSY 6850/6856.

INSY 5860 INNOVATIONS IN MANUFACTURING SYSTEMS (3) LEC. 3. This course reviews the history of manufacturing and discusses the contributions of the automotive manufacturing industry in developing most of the major manufacturing systems improvements over the decades. Issues associated with suppliers are presented related to processes, supply chain, product and process improvement, quality control, and costs. In addition, the issue of globalization and the digitalization of manufacturing is investigated. Finally, a discussion of future manufacturing technologies and impacts will be discussed. Credit will not be given for both INSY 5860 and INSY 6860/6866.

INSY 5870 INTERACTIVE SENSING SYSTEMS (3) LEC. 3. Pr. (INSY 3010). Interactive Sensing Systems is an advanced course designed to provide students with in-depth knowledge and hands-on experience in developing intelligent systems that integrate microcontrollers and sensors. The course emphasizes the practical application of sensor technologies and microcontroller programming to solve real-world problems.

INSY 6010 OCCUPATIONAL SAFETY ENGINEERING (3) LEC. 3. Occupational safety engineering and management with emphasis on control of hazardous materials, fire prevention, safety considerations in production facility design and maintenance, and operation of effective safety programs. Credit will not be given for both INSY 5010 and INSY 6010.

INSY 6050 INDUSTRIAL HYGIENE AND ENVIRONMENTAL HAZARDS (3) LEC. 3. Introduction to the basic concepts of industrial hygiene with emphasis on the industrial hygiene/safety interface and on the evaluation and control of chemical exposures, biological hazards, noise and heat stress for graduate engineers.

INSY 6080 HUMAN FACTORS ENGINEERING (3) LEC. 3. Human Factors Engineering is the science of designing products and systems for optimal human well-being and system performance. This course will focus on information processing and the cognitive aspects of ergonomics design. Students will gain insight into the effects of various environments (hot, cold, noise, information overload, etc.) on humans and human performance. Emphasis is on human information input, output, and control processes with the objective of optimizing the integration of the human into simple and complex systems.

INSY 6100 SYSTEMS ENGINEERING I (3) LEC. 3. Processes and tools for engineering large-scale, complex systems: architecture, requirements, risk management, evaluation, concept exploration, decision-making, tradeoff studies, life cycle models, decomposition, system coupling, test, verification, validation, system modeling, business process re-engineering, sensitivity analysis, teamwork, process maturity and documentation. Credit will not be given for both INSY 5100 and INSY 6100.

INSY 6110 SYSTEMS ENGINEERING 2: SYSTEM LIFECYCLE REQUIREMENTS (3) LEC. 3. All man-made systems have a life cycle. A life cycle is the series of stages (or phases) that a system passes through over time. This course is concerned with understanding the life cycle of systems and the development, definition, and management of requirements for systems or products with consideration to the life cycle.

INSY 6120 DIGITAL SYSTEMS ENGINEERING DESIGN (3) LEC. 3. The study and practice of digital system engineering design methods include both object-oriented and structured analysis-based techniques. Design description languages, such as SysML, are introduced and used to carry out complete system designs. This process encompasses stakeholder analysis, requirement definition, logical architecture, physical architecture, as well as system evaluation, validation, and verification.

INSY 6130 MODEL-BASED SYSTEMS ENGINEERING (3) LEC. 3. Model-Based Systems Engineering (MBSE) offers a structured framework for applying modeling to facilitate the engineering of complex systems. This course is designed to explore and apply prominent methodologies in MBSE, elucidating its approaches in systems engineering and management. Emphasis is placed on advanced object-oriented systems engineering methodologies and model transformation techniques. Throughout the course, students will be introduced to software tools that play a pivotal role in supporting the design phase of systems engineering.

INSY 6240 PRODUCTION AND INVENTORY CONTROL SYSTEMS (3) LEC. 3. Analysis and design of production and inventory control systems with emphasis on quantitative methods, algorithms, and information technology. Credit will not be given for both INSY 5240 and INSY 6240.

INSY 6250 PROJECT MANAGEMENT (3) LEC. 3. Introduction to project management for engineering, business and technology including; project management concepts, project life cycle, planning techniques, scheduling and network analysis, cost estimating and budgeting, risk management, execution and control, and evaluation and closeout.

INSY 6330 SIX SIGMA (3) LEC. 3. This course covers the six sigma engineering techniques. The content emphasizes the DMAIC (Define, Measure, Analyze, Improve, and Control) methodology combined with Lean management practices through analytical and quantitative tools.

INSY 6400 MULTI-PARADIGM MODELING AND SIMULATION (3) LLB. Pr. INSY 7400. Multi-paradigm simulation modeling procedures for analyzing real-world complex systems. Emphasis on model building, and construction of multi-paradigm computer simulation models using Agent Based Modeling, System Dynamics, and Discrete Event Simulation approaches. Students must have successfully passed a graduate level course in Probability and Statistics or an equivalent course, INSY 7400, or request instructor approval.

INSY 6450 SIMULATION-BASED PLANNING AND SCHEDULING (3) DSL/LEC. A graduate/undergraduate course in simulation-based planning and scheduling. Topics include intermediate simulation modeling, dispatching and scheduling methods, and implementation of scheduling systems and supply chain planning systems using a commercial simulation software package. Knowledge of simulation and basic understanding of Simio is required to enroll in course.

INSY 6500 MODERN TOOLS FOR DATA ANALYTICS AND MODELING (3) LEC. 3. Introduction to modern data science tools with applications in manufacturing and service industries and operations. Focus on the manipulation and use of small and large datasets. Tools include Jupyter, Python, R, and MySQL along with the related packages that support data modeling, visualization, and analysis.

INSY 6550 DECISION SUPPORT SYSTEMS FOR OPERATIONS (3) LEC. 3. Fundamentals for modeling, designing, and implementing decision support systems for the operation of manufacturing and service industries. Credit will not be given for both INSY 5550 and INSY 6550.

INSY 6600 ENGINEERING ECONOMIC SYSTEMS (3) LEC. 3. Continuation of INSY 3600. Emphasis on design economics and cost estimating techniques and applications to various manufacturing and service operations. Credit will not be given for both INSY 5600 and INSY 6600.

INSY 6650 HEALTHCARE SYSTEMS, CULTURE, AND POLICY (3) LEC. 3. LAB. 0, LEC. 0. This course aims to introduce the basic structures and operations of the U.S. Healthcare (HC) delivery system and the resources that comprise it. The course introduces and describes the U.S. healthcare system, the major service components and complexities, and the history and basis of HC. Topics to be covered include professional roles and accreditation, data and data reporting in HC, including performance, quality, and outcome measures.

INSY 6660 HEALTHCARE OPERATIONS (3) LEC. 3. LAB. 0, LEC. 0. Strategies to apply traditional Industrial Engineering skills in a variety of healthcare contexts such as doctors offices, hospitals and pharmacies.

INSY 6670 HUMAN FACTORS IN HEALTHCARE (3) LEC. 3. LAB. 0, LEC. 0. The application of human factors engineering and ergonomics in healthcare.

INSY 6700 DIGITAL DRAWINGS, GEOMETRIC TOLERANCES, AND METROLOGY FOR INDUSTRY 4.0 (4) LEC. 3. LAB. 2.33. Departmental approval. Digital manufacturing begins with accurate electronic drawings designed with precision measurement in mind. This course covers the design, dimensioning, tolerancing, and inspection for part and assembly manufacturing from the ASME Y14.5 (2018) Standard. Students will model parts in a CAD program, create manufacturing inspection drawings with applied GD&T concepts, and work with an industry grade Coordinate Measurement Machine (CMM) software to develop inspection plans. Basic Computer Aided Design (CAD) concepts are taught in Fusion 360.

INSY 6710 BASIC CONCEPTS OF 21ST CENTURY MANUFACTURING PROCESSES (3) LEC. 3. Departmental approval. This is the first of a two-semester program detailing all the manufacturing concepts and processes available in the 21st Century. There is a heavy emphasis on the interaction of shapes, materials and process in design and economic decision making. Students will review basic fundamentals of acceptance testing, material properties and characteristics as a foundation for all process decisions. Processes introduced in this course will include metal casting, rolling, and extrusion.

INSY 6720 ADVANCED CONCEPTS OF 21ST CENTURY MANUFACTURING PROCESSES (3) LEC. 3. Departmental approval. This is the second of a two-semester program detailing all the manufacturing concepts and processes available in the 21st Century. There is a heavy emphasis on the interaction of shapes, materials and process in design and economic decision making. This course covers all the classic and modern subtractive methods as well as the joining methods. Automation of manufacturing processes, computer aided and computer integrated manufacturing along with industry 4.0 are covered.

INSY 6730 CONCEPTS OF COMPUTER NUMERICAL CONTROLS (4) LEC. 3. LAB. 2.33. Pr. INSY 5700 or INSY 6700. Departmental approval. This course will introduce key concepts involved in the use of Computer Aided Machining. Concepts include the construction of tools within CAM software, determining feeds and speeds from tool manufacturer specifications, basics of G-Code and M-Code, and various tool pathing operations. The course covers model-based CAM, conversational CAM, and basic 3D printing concepts. The model-based CAM portion will cover 3 axis and 5 axis mill work, lathe operations, and mill turn operations.

INSY 6740 CONCEPTS OF INDUSTRY 4.0 (3) LEC. 2. LAB. 2.33. Pr. INSY 5700 or INSY 6700. Departmental approval. Students develop a firm understanding of the fundamentals of Mechatronics and learn how to utilize these new tools in conjunction with the Industrial Internet of Things (IIOT) via the MTConnect Standard. Topics include circuits, sensors, actuators, controls, communication protocols, Industry 4.0, and the MTConnect Standard. Labs will be held at the Interdisciplinary Center for Advanced Manufacturing Systems (ICAMS).

INSY 6800 LEAN SYSTEMS (3) LEC. 3. Manufacturing system design based on a strategy of linked cells providing a continuous flow of materials. Evaluation strategies and analysis tools are studied. Credit will not be given for both INSY 5800 and INSY 6800.

INSY 6830 VEHICLE TECHNOLOGY AND TRENDS (3) LEC. 3. Investigation of the advances in automotive technology and the impact of future technologies on the design and manufacture of the automobile. Credit will not be given for both INSY 5830 and INSY 6830.

INSY 6840 CONTROL OF THE MANUFACTURING FLOOR AND PROCESSES (3) LEC. 2. LAB. 3. Students work within multi-disciplinary teams to apply the principles of Computer Aided Manufacturing and the Toyota Production System (TPS) on the modern automated floor. Laboratory features CNC Controls, Robots, Programmable Logic Controllers (PLC) and Kanban system. DELMIA Catia and MasterCAM. Credit will not be given for both INSY 5840 and INSY 6840.

INSY 6850 ELECTRONICS MANUFACTURING SYSTEMS (3) LEC. 3. Introduction to electronics packaging and electronics manufacturing technologies including current and future trends, design and quality, and manufacturing for high volume. Credit will not be given for both INSY 5850 and INSY 6850.

INSY 6860 INNOVATIONS IN MANUFACTURING SYSTEMS (3) LEC. 3. This course reviews the history of manufacturing and discusses the contributions of the automotive manufacturing industry in developing most of the major manufacturing systems improvements over the decades. Issues associated with suppliers are presented related to processes, supply chain, product and process improvement, quality control, and costs. In addition, the issue of globalization and the digitalization of manufacturing is investigated. Finally, a discussion of future manufacturing technologies and impacts will be discussed. Credit will not be given for both INSY 5860 and INSY 6860.

INSY 6870 INTERACTIVE SENSING SYSTEMS (3) LEC/LLB. Interactive Sensing Systems is an advanced course designed to provide students with in-depth knowledge and hands-on experience in developing intelligent systems that integrate microcontrollers and sensors. The course emphasizes the practical application of sensor technologies and microcontroller programming to solve real-world problems.

INSY 7020 SYSTEM SAFETY ENGINEERING (3) LEC. 3. Systems safety analysis techniques including human error and reliability, fault trees, and cost benefit analysis.

INSY 7040 COGNITIVE ENGINEERING AND SYSTEM DESIGN (3) LEC. 3. Cognitive Engineering and System Design is an introduction into human capabilities and limitations in human-machine interaction, with a focus on human cognition, memory, attention, and error. The course emphasis is on cognitive engineering theory and its application to automated system design.

INSY 7060 FUNDAMENTALS OF ERGONOMICS (3) LEC. 3. Overview of the human body systems and evaluation of the physiological response of the human body to occupational activities with emphasis on task design.

INSY 7070 OCCUPATIONAL BIOMECHANICS (3) LEC. 3. Pr. INSY 7060 or INSY 7066. Use of biomechanics in the evaluation and design of work activities. Emphasis is placed on biomechanical modeling, manual materials handling, tool design, and repetitive motion trauma.

INSY 7081 HUMAN FACTORS LABORATORY (1) LAB. 3. Coreq. INSY 7080. Laboratory experience in testing human factors principles and concepts covered in INSY 7080. Experience in proper writing of laboratory reports.

INSY 7100 ADAPTIVE OPTIMIZATION (3) LEC. 3. Departmental approval. Adaptive search methods inspired by nature for continuous and combinatorial optimization. Methods include simulated annealing, genetic algorithms, evolutionary strategies, tabu search and ant colony systems.

INSY 7120 DATA ANALYTICS FOR OPERATIONS (3) LEC. 3. or equivalent. This course covers the broad topics of predictive analytics, data visualization, and big data in the context of operations analysis. Focus will be on the application of modern computer tools with previously learned statistical and mathematical modeling tools, culminating in a semester project.

INSY 7130 DATA MINING TECHNIQUES AND APPLICATIONS FOR OPERATIONS (3) LEC. 3. or equivalent. This introductory course will cover the most common techniques for extracting useful information and models from numerical or categorical data. Techniques include clustering and classification, regression and spline models, kriging, and artificial neural networks. Also considered are data pre-processing, model building and model validation. Modeling and validation under conditions of sparse data will be addressed as well. Applications include those in finance, manufacturing, health care, and more.

INSY 7190 OCCUPATIONAL SAFETY AND HEALTH FORUM I (1) LEC. 1.

INSY 7290 OCCUPATIONAL SAFETY AND HEALTH PRACTICUM I (1) LEC. 1. Study of contemporary interdisciplinary issues in occupational safety and health. Investigation of real-world interdisciplinary OSH problems. Analysis and presentation of OSH concerns and solutions.

INSY 7300 ADVANCED ENGINEERING STATISTICS I (3) LEC. 3. Advanced concepts of experimental design including blocked designs, analysis of variance regression approach, and fractional factorials in base-2 designs. Emphasis throughout is on developing and improving industrial products and processes. Credit will not be given for both INSY 7300 and STAT 7300.

INSY 7380 RELIABILITY ENGINEERING (3) LEC. 3. Departmental approval. Reliability Engineering is a sub-discipline of systems engineering that emphasizes the ability of a system or component to function without failure. This course covers concepts and methods to evaluate the reliability of engineering systems. The primary focus is on statistical reliability distributions, analysis of reliability data, prediction of failure and reliability modeling, accelerated life testing, reliability of complex systems, and design for reliability.

INSY 7390 OCCUPATIONAL SAFETY AND HEALTH FORUM II (1) LEC. 1. Pr. INSY 7190. Continuation of OSH Forum I (contemporary interdisciplinary issues in occupational safety and health). Emphasis is placed on leadership and mentoring of other OSH students (INSY 7190).

INSY 7400 APPLIED DISCRETE-EVENT SIMULATION MODELING (3) LEC. 3. Introductory graduate course in discrete event modeling and simulation. Course focus is on the application of modern simulation tools and techniques for solving design and analysis problems in manufacturing, service systems, and general operations.

INSY 7420 LINEAR PROGRAMMING AND NETWORK FLOWS (3) LEC. 3. Linear programming and network flows emphasizing algorithms and theory.

INSY 7430 INTEGER AND NONLINEAR PROGRAMMING (3) LEC. 3. Pr. INSY 7420 or INSY 7426. Departmental approval. Integer and non linear programming, emphasizing algorithms and theory.

INSY 7440 DYNAMIC PROGRAMMING (3) LEC. 3. Departmental approval. Aspects of sequential decision making with emphasis on formulation and solution using the dynamic programming algorithm. Approximation methods for problems involving large state spaces. Solution techniques for problems under uncertainty.

INSY 7450 STOCHASTIC OPTIMIZATION AND RISK (3) LEC. 3. Pr. INSY 7420. Stochastic Optimization and Risk is a course for graduate students in engineering, operations research, management science, etc. The objective of the course is to familiarize students with the challenges that uncertain or randomized data bring into the decision making/design process and introduce the general methods and approaches for dealing with such challenges. We will discuss various approaches to modeling of uncertainties and risk in optimization problems, properties of the resulting stochastic programming formulations, and several common techniques for solving stochastic programs.

INSY 7470 SEARCH METHODS FOR OPTIMIZATION (3) LEC. 3. Single and multivariate search techniques and strategies that are used in finding the optimum of discrete and continuous functions.

INSY 7490 OCCUPATIONAL SAFETY AND HEALTH PRACTICUM II (1) LEC. 1. Pr. INSY 7290. Investigation of real-world interdisciplinary OSH problems. Analysis and presentation of OSH concerns and solutions. Emphasis is placed on leadership and mentoring of other OSH students (INSY 7290).

INSY 7550 STOCHASTIC OPERATIONS RESEARCH (3) LEC. 3. Stochastic operations research models with emphasis on model formation, solution and interpretation of results. Emphasis on stochastic processes, queuing theory and their applications.

INSY 7710 SYSTEM LIFECYCLE REQUIREMENTS (3) LEC. 3. The System Lifecycle Requirements course focuses on developing and writing proper requirements for systems across the entire life cycle. Well written requirements are a solid foundation for system design development and this course will identify design considerations at early concept identification, design maturation, implementation, production, operations & sustainment, and disposal phases. Students will exercise stakeholder needs elicitation, requirements writing, requirements decomposition, and applying life cycle considerations during requirements development process during a semester long project.

INSY 7730 PRODUCT DESIGN, DEVELOPMENT, AND TEST (3) LEC. 3. This class teaches modern tools and methods for product design, development,and test of highly complex and large systems including technical specification, reliability, maintainability, manufacturability, testability, marketing, costs, etc. May count either INSY 7730 or INSY 7736.

INSY 7740 PRODUCT LAUNCH, MANUFACTURING, AND DELIVERY (3) LEC. 3. This course teaches students the issues, strategies, and approaches related to launching, manufacturing, and delivering new products or services including customer focus, marketing, manufacturing and launch strategies, delivery and related tools and techniques.

INSY 7750 INTELLECTUAL PROPERTY, LEGAL, AND VENTURE CAPITAL (3) LEC. 3. This course teaches students the US law of intellectual property with major emphasis on patents. Students also learn venture capital including stages of funding, funding presentations, various requirements of funding, types of partnership, exit plans, etc. May count either INSY 7750 or INSY 7756.

INSY 7760 ENGINEERING & TECHNOLOGY MANAGEMENT (3) LEC. 3. Engineering Management is the branch of management that focuses on leading technical personnel in the management of engineering driven enterprises. This course emphasizes the application of management principles to the engineering of large-scale systems and research efforts. It focuses on the planning, individual & team motivation, strategic /tactical management, change and risk management and decision-making necessary to manage a company's technical portfolio.

INSY 7940 INDUSTRIAL AND SYSTEMS ENGINEERING PROBLEMS (1-5) DSL/IND. Departmental approval. Individual student endeavor under staff supervision involving special problems of an advanced undergraduate or graduate nature in Industrial and Systems Engineering. Interested student must submit written proposal to department head. Course may be repeated for a maximum of 5 credit hours.

INSY 7950 SEMINAR (1) LEC. 1. SU. Presentation and discussion of ISE research by graduate students, faculty and guests. Must be taken at least one term and cannot be used in the plan of study to apply towards the minimum number of hours for a degree.

INSY 7970 INDUSTRIAL AND SYSTEMS ENGINEERING SPECIAL TOPICS (1-5) LEC. 1. LAB. 1. Departmental approval. Special topics of a graduate nature pertinent to Industrial and Systems Engineering. Specific prerequisites will be determined and announced for each offering. Course may be repeated for a maximum of 5 credit hours.

INSY 7980 MASTER'S IN INDUSTRIAL AND SYSTEMS ENGINEERING PROJECT (1-5) DSL/IND. SU. Non-thesis master's project. Course may be repeated for a maximum of 5 credit hours.

INSY 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Individual masters research. May be repeated for credit. Course may be repeated with change in topics. No more than six hours may be counted toward meeting degree requirements. Must be an INSY major.

INSY 8010 ADVANCED SAFETY ENGINEERING (3) LEC. 3. Pr. INSY 7020 or INSY 7026. Topics of current interest in occupational safety research. Occupational safety research methodology and research priorities.

INSY 8020 RESEARCH METHODS IN OCCUPATIONAL SAFETY, ERGONOMICS, AND INJURY PREVENTION (3) LEC. 3. Pr. INSY 7300 or INSY 7306 or INSY 7060 or INSY 7066 or INSY 6010 or INSY 6016. To introduce students to contemporary and developmental research methods in occupational safety, ergonomics, and injury prevention with emphasis on the public health model as applied to occupational injury prevention and epidemiology. Instructor approval may be required.

INSY 8060 CONTEMPORARY ERGONOMICS (3) LEC. 3. Pr. INSY 7060 or INSY 7066. Topics of current interest in occupational ergonomics and human factors research. Occupational ergonomics and human factors research methodology and research priorities.

INSY 8970 INDUSTRIAL AND SYSTEMS ENGINEERING SPECIAL TOPICS (1-5) LEC. Departmental approval. Special topics of an advanced graduate nature pertinent to industrial and systems engineering. Specific prerequisites will be determined and announced for each offering. Course may be repeated for a maximum of 5 credit hours.

INSY 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Departmental approval. Individual doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics. Must be INSY major.

Industrial Design - INDD

Courses

INDD 1120 INDUSTRIAL DESIGN IN MODERN SOCIETY (3) LEC. 3. Survey of design and its impact upon modern society. Review of methods, products, marketing, patents, education, and career opportunities.

INDD 1127 HONORS INDUSTRIAL DESIGN IN MODERN SOCIETY (3) LEC. 3. Survey of design and its impact upon modern society. Review of methods, products, marketing, patents, education, and career opportunities.

INDD 1310 SYNTHESIS OF DRAWING (10) LEC. 3, LST. 12. Developing mechanical and production design drawings, with in-depth study of perspective systems. Product design communication with emphasis on drawing, development, and presentation.

INDD 1320 PROTOTYPE FABRICATION (3) LEC. 2. LAB. 2. Coreq. INDD 1310. Fabrication of three-dimensional models utilizing various materials and machineries. Includes model making, creative modeling, study models, presentation models, mock-ups and prototypes.

INDD 1400 CAREERS IN INDUSTRIAL DESIGN (2) LEC. 2. Survey of careers in the field of industrial design demonstrated through case studies, product examples and biographies.

INDD 2110 TWO DIMENSIONAL INDUSTRIAL DESIGN PRINCIPLES (6) LEC. 2, LST. 10. Transference of abstract principles of design to fabrication of simple tools. Emphasis on expression of functional objects.

INDD 2120 COMPUTER AND DESIGN COMMUNICATIONS (3) LEC. 2. LAB. 2. Alternative modes of communicating design ideas via computer. Executing design ideas for two-dimensional design fundamentals and mechanical design drawings.

INDD 2130 PRESENTATION RENDERING (3) LEC. 2. LAB. 2. Concept development using drawing and rendering skills with different media for ideas communication and presentation.

INDD 2210 THREE DIMENSIONAL INDUSTRIAL DESIGN PRINCIPLES (6) LEC. 2, AAB/LST. 10. Pr. INDD 2110. Analysis of design fundamentals through three dimensional form. Analyzing function, utility, convenience, safety, maintenance and sustainable design.

INDD 2220 ANTHROPOMETRY (3) LEC. 3. Pr. INDD 2110. Body measurements, movements and human capacity in relation to design with introduction to ergonomy and human physiology as it relates to design. School approval.

INDD 2230 HISTORY OF INDUSTRIAL DESIGN (3) LEC. 3. Pr. INDD 2110. Survey humankind's production of artifacts, from prehistory to present. Emphasis on ideas that mass produced artifacts mirror history and everyday culture.

INDD 3110 EXHIBIT AND PACKAGING (6) LEC. 1, LST. 8. Pr. INDD 2210. Display systems using models, concepts development, rendering, packaging, identity programs and professional presentations.

INDD 3120 INDUSTRIAL DESIGN METHODS (3) LEC. 3. Pr. INDD 2210. Introduction to design management. Design methods and organizational procedures in analysis and solutions of design problems. Surveying philosophies and theories of design.

INDD 3130 BASIC PHOTOGRAPHY FOR INDUSTRIAL DESIGN (3) LEC. 2. LAB. 2. Pr. INDD 2210. Photography in design and art environments. Techniques of developing, printing and enlarging. Lighting techniques for portfolio photography, including lighting, studio photography, composition.

INDD 3150 DESIGN THINKING: INTRODUCTION TO PRODUCT SOLUTIONS (3) LEC. 2. LAB. 1. Application of design thinking (focus on experience of the user) in the context of product design. Students will deconstruct a design of an existing product and create a design concept for a new product. Introduces innovation in physical products and services through collaborative and creative approaches to critical and strategic thinking with focus on the user. Course may be repeated for a maximum of 6 credit hours.

INDD 3157 HONORS DESIGN THINKING: INTRODUCTION TO PRODUCT SOLUTIONS (3) LST. Application of design thinking (focus on experience of the user) in the context of product design. Students will deconstruct a design of an existing product and create a design concept for a new product. Introduces innovation in physical products and services through collaborative and creative approaches to critical and strategic thinking with focus on the user. Course may be repeated for a maximum of 6 credit hours.

INDD 3210 PRODUCT DESIGN (6) LEC. 2, AAB/LST. 10. Pr. INDD 3110. Product design utilizing design methodology from proposal to working pre-prototype, including planning, research, development, model-making, manufacturing and documentation.

INDD 3220 MATERIALS AND TECHNOLOGY (3) LEC. 3. Pr. INDD 3120. Characteristics and utility of materials such as plastic, metal, and ceramics in manufacture and the study of machine/tool processes used by industry.

INDD 3230 ADVANCED COMPUTER AIDED DESIGN (3) LEC. 2. LAB. 2. Pr. INDD 2120. Introduction to CAD software emphasizing three-dimensional modeling. Students will learn drawing functions. Concepts of three-dimensional relationship of objects discussed.

INDD 4110 ADVANCED PRODUCT DESIGN (6) LEC. 2, AAB/LST. 10. Pr. INDD 3120 and INDD 3210. Design or redesign of products and systems of advanced complexity.

INDD 4210 INDUSTRIAL DESIGN THESIS (6) LEC. 2, AAB/LST. 10. Pr. INDD 4110. Product design projects involving all design phases; including planning, research, development, finalization, specification, and documentation.

INDD 4220 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. INDD 3110 and INDD 3210. Business aspects of industrial design, including property, design contract, letters of agreement, business planning and design marketing.

INDD 4907 HONORS READING (1-3) LEC. Course may be repeated for a maximum of 3 credit hours.

INDD 4997 HONORS THESIS (1-3) LEC. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

INDD 5120 PROFESSIONAL PORTFOLIO (3) LEC. 3. Pr. INDD 3110 and INDD 3210. Design and development of a portfolio and promotional material presenting the student's work to entry-level professional standards.

INDD 5960 SPECIAL PROBLEMS (1-5) AAB. Development of individual projects. Research, design and reports on approved topics. Course may be repeated for a maximum of 15 credit hours.

INDD 6010 HISTORY OF INDUSTRIAL DESIGN II (3) LEC. 3. A survey of humankind's production of artifacts, from prehistory to contemporary times, with an emphasis on the idea that mass produced artifacts mirror the meanings of historical events and everyday culture.

INDD 6030 CASE STUDIES IN DESIGN (3) LEC. 3. Design projects undertaken by industry studied by examination of artifacts and records, and by class discussions. Focus on the socio-cultural relevancy of the artifacts.

INDD 6120 PORTFOLIO (3) LEC. 3. Preparation of professional portfolio for graduation and employment.

INDD 6960 SPECIAL PROBLEMS (1-5) AAB. Development of individual projects. Research, design and reports on approved topics. Course may be repeated for a maximum of 15 credit hours.

INDD 7010 DESIGN ORIENTATION (3) LEC. 3. Introduction to the Industrial Design graduate program: degree options, study directions, research methods, and areas. Students are required to develop a research/project proposal.

INDD 7020 COMPUTER/INDUSTRIAL DESIGN (3) LEC. 3. Synthesizing studies in research, analysis, and application based on interdisciplinary concept. Emphasis on the relation of products and systems to those who use them.

INDD 7610 PRINCIPLES OF INDUSTRIAL DESIGN (3) LEC. 3. Detailed study of the communication principles of form qualities with emphasis of these aesthetic principles to the technical and human factors of artifacts.

INDD 7620 DESIGN MANAGEMENT (3) LEC. 3. Detailed study of the industrial design project management and development with emphasis on the interrelational management concepts of research, product planning, production and marketing.

INDD 7630 HUMAN FACTORS IN DESIGN (3) LEC. 3. Theoretical and empirical examination of human factors (Anthropometrics, Biotechnology, Engineering Psychology, Behavioral Cybermetics, Ergonomics) as applied to man-machine environmental systems.

INDD 7640 AESTHETICS IN DESIGN (3) LEC. 3. Aesthetics in the context of the designed environment encompassing: non-verbal communication; object language semiotics; gestalt and perception systems; information aesthetics, and consumer product safety.

INDD 7650 DESIGN THEORIES (3) LEC. 3. Examination of design theories and philosophies related to technical artifacts in man-machine systems. Comparative studies of unifying theories in art, science, design, technology and the humanities.

INDD 7660 INDUSTRIAL DESIGN METHODOLOGY (3) LEC. 3. Industrial design methodologies and specific methods employed in research, analysis, synthesis, and evaluation in comprehensive design problems.

INDD 7670 SYSTEMS DESIGN (3) LEC. 3. Systems approach and interdisciplinary team work to design problems inquires into details of sub-systems, components and parts, with emphasis on the relation of the performance of technical systems to optional human factor effects.

INDD 7910 INDUSTRY PRACTICUM (5) AAB/STU. 5. This course will demand the application of acquired skill to the resolution of product design based issues within an industry collaboration studio over the period of one semester.

INDD 7980 NON-THESIS DESIGN (3) STU. 3. Synthesizing studies in research, analysis and application based on interdisciplinary concept. Emphasis on the relation of products and systems to those who use them.

INDD 7990 DESIGN THESIS (1-5) AAB/RES. Credit to be arranged. Course may be repeated with a change in topic.

Information Systems Management - ISMN

Courses

ISMN 2140 INTRODUCTION TO MANAGEMENT INFORMATION SYSTEMS (2) LEC. 2. The fundamental principles of the structure and management of information systems. Credit will not be given for both ISMN 2140/2143 and ISMN 3140/3143.

ISMN 3010 PROFESSIONAL DEVELOPMENT IN INFORMATION SYSTEMS (1) LEC. 1. SU. Pr. P/C ISMN 2140. Career planning and preparation for employment as an information systems management professional.

ISMN 3040 BUSINESS TELECOM MANAGEMENT (3) LEC. 3. Pr. ISMN 3140 or ISMN 3143. Voice communications and technology and data communications (LAN, WAN, internet broadband), networks, protocols, standards, legislation and project development and management.

ISMN 3070 BUSINESS SYSTEM LOGIC AND MODELING (3) LEC. 3. Concepts, techniques, and tools for discovering, specifying, and modeling business logic are introduced, explored, and applied.

ISMN 3080 PROGRAMMING AND COMPUTER APPLICATIONS (3) LEC. 3. Visual and object-oriented business programming languages are introduced and explored.

ISMN 3140 INTRODUCTION TO MANAGEMENT INFORMATION SYSTEMS (2) LEC. 2. The fundamental principles of the structure and management of information systems. Credit will not be given for both ISMN 2140/2143 and ISMN 3140/3143.

ISMN 3830 DATABASE MANAGEMENT SYSTEMS (3) LEC. 3. Business applications software in a database environment, complex data, and file structures, systems design consideration of global and distributed databases.

ISMN 3840 ANALYSIS OF BUSINESS SYSTEMS (3) LEC. 3. The study and application of tools, techniques, and methodologies to analyze, understand, and model business systems.

ISMN 4090 DIGITAL BUSINESS DESIGN (3) LEC. 3. Pr. ISMN 3830 or MNGT 3830 or MNGT 3833. Students bring together knowledge of digital technologies and their skills in business design and development to create innovative, leading-edge processes, products, and services for today's modern organizations.

ISMN 4850 COMPETITIVE STRATEGIES THROUGH INFORMATION (3) LEC. 3. Emphasizes how competitive strategies for companies are formulated and implemented using a combination of information technologies.

ISMN 4920 INTERNSHIP (1-3) AAB/INT. SU. Pr. ISMN 3010. Approval by departmental internship program committee. Course may be repeated for a maximum of 3 credit hours.

ISMN 5040 TELECOMMUNICATIONS MANAGEMENT (3) LEC. 3. Pr. (ISMN 3140 or ISMN 3143) or ISMN 2140. Discussion of the importance of telecommunications to an organization, including technology required, use strategy, and management.

ISMN 5290 BUSINESS PROGRAMMING FOR ANALYTICS (3) LEC. 3. Programming languages and skills, with emphasis on designing and implementing computer-based business solutions. Credit will not be given for both ISMN 5290/5293 and ISMN 6290/6296.

ISMN 5360 APPLICATION OF GEOSPATIAL INFORMATION SYSTEMS FOR BUSINESS (3) LEC. 3. GIS involves the use of GIS and desktop mapping technology to aid in processes such as disaster recovery, facility planning and management, market segmentation, and community growth. The student will learn how to strategically use GIS to facilitate organizational performance. Credit will not be given for both ISMN 5360/5363 and ISMN 6360/6366.

ISMN 5370 PROJECT MANAGEMENT (3) LEC. 3. Tools and techniques of information technology project management including leading project management software. Credit will not be given for both ISMN 5370/5373 and ISMN 6370/6373.

ISMN 5620 BUSINESS APPLICATIONS WITH OPEN SOURCE SOFTWARE (3) LEC. 3. Overview of business solutions with open source software. Students will have a hands-on opportunity to learn to administer and manage open source software and to become comfortable deploying/employing popular OSS applications as business solutions.

ISMN 5630 CLOUD SERVICES (3) LEC. 3. This course is a comprehensive introduction to the world of cloud computing, covering its fundamental concepts, various service models, and practical applications. This course delves into key cloud services such as computing, storage, networking, databases, and security while also addressing topics like cloud architecture, management, and cost optimization. Credit will not be given for both ISMN 5630 and ISMN 6630/6636.

ISMN 5640 SERVERSIDE INTERNET PGM (3) DSL/LEC. Fundamentals of server-side Internet programming using technologies such as PHP, MySQL, and XML.

ISMN 5650 ADVANCED BUSINESS APPLICATION DEVELOPMENT (3) LEC. 3. Pr. ISMN 3080 and P/C ISMN 3830. Fundamentals of developing comprehensive, component-based local and Internet business applications. Grade of C or better in prerequisite course. Credit will not be given for both ISMN 5650 and ISMN 6650/6656.

ISMN 5680 ADVANCED DATA BASE ADMINISTRATION AND DEVELOPMENT (3) LEC. 3. Pr. ISMN 3830. Key tasks and functions required of a database administrator in a business environment. Credit will not be given for both ISMN 5680 and ISMN 6680/6686.

ISMN 5730 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality, and ethics. Credit will not be given for both ISMN 5730/5733 and ISMN 6730/6736.

ISMN 5740 INFORMATION RISK ANALYSIS (3) LEC. 3. Indepth instruction on the range of skills required of persons engaged in the performance of risk analysis functions. Credit will not be given for both ISMN 5740/5743 and ISMN 6740/6746.

ISMN 5750 INFORMATION TECHNOLOGY AUDITING (3) LEC. 3. Pr. (ISMN 5730 or ISMN 5670). This course presents in-depth instruction on the range of skills required of persons engaged in the performance of IT audit. The skills include those required by but not limited to a technology analyst, data scientist, or CIO. Credit will not be given for both ISMN 5750/5753 and ISMN 6750/6756.

ISMN 5880 ADVANCED PRACTICAL EXPERIENCE (3) LEC. 3. Pr. ISMN 4090 and ISMN 5650. This course synthesizes theory and principles of management information systems (MIS) using real-life, hands-on projects through experiential learning. It's the capstone course for the major.

ISMN 5900 DIRECTED STUDIES (1-3) AAB/IND. SU. Independent study on current topics in information systems management. Course may be repeated for a maximum of 6 credit hours.

ISMN 5960 SPECIAL PROBLEMS (3) AAB/IND. 3. Independent study investigating current literature in information systems management. Course may be repeated for a maximum of 6 credit hours.

ISMN 6040 TELECOMMUNICATIONS MANAGEMENT (3) LEC. 3. Discussion of the importance of telecommunications to an organization, including technology required, use strategy, and management. Credit will not be given for both ISMN 5040 and ISMN 6040/6046.

ISMN 6270 CURRENT ISSUES IN INFORMATION SYSTEMS FOR ORGANIZATIONS (3) LEC. 3. This course covers current issues in Information Systems Management and Technology. As such, topics may differ from semester to semester. The objective of the course is to allow students to become familiar with issues such as emerging technologies, information systems and their role in vertical portals, and the role of information systems in industry. Course is designed to enable students to take it twice with subject change. Course may be repeated for a maximum of 6 credit hours.

ISMN 6290 BUSINESS PROGRAMMING FOR ANALYTICS (3) LEC. 3. Programming languages and skills, with emphasis on designing and implementing computer-based business solutions. Credit will not be given for both ISMN 5290 and ISMN 6290.

ISMN 6370 PROJECT MANAGEMENT (3) LEC. 3. Tools and techniques of information technology project management including leading project management software. Credit will not be given for both ISMN 5370/5373 and ISMN 6370/6376.

ISMN 6380 SOCIAL MEDIA AS A TOOL FOR BUSINESS STRATEGY (3) LEC. 3. Learn how to use social media as a tool to integrate business processes and enhance business performance. Credit will not be given for both ISMN 5380/5383 and ISMN 6380/6386.

ISMN 6620 BUSINESS APPLICATIONS WITH OPEN SOURCE SOFTWARE (3) LEC. 3. Evaluates business solutions with open source software. Students will have a hands-on opportunity to learn to administer and manage open source software and to become comfortable deploying/employing popular OSS applications as business solutions.

ISMN 6630 CLOUD SERVICES (3) LEC. 3. This course is a comprehensive introduction to the world of cloud computing, covering its fundamental concepts, various service models, and practical applications. This course delves into key cloud services such as computing, storage, networking, databases, and security while also addressing topics like cloud architecture, management, and cost optimization. Credit will not be given for both ISMN 5630 and ISMN 6630/6636.

ISMN 6640 SERVERSIDE INTERNET PGM (3) LEC. 3. Fundamentals of server-side Internet programming using technologies such as PHP, MySQL, and XML. Credit will not be given for both ISMN 5640 and ISMN 6640/6646.

ISMN 6650 ADVANCED BUSINESS APPLICATION DEVELOPMENT (3) LEC. 3. Fundamentals of developing comprehensive, component-based local and Internet business applications. Credit will not be given for both ISMN 5650 and ISMN 6650/6656.

ISMN 6670 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality and ethics. Organizational issues of security and methodologies for information assurance will be discussed from a managerial perspective.

ISMN 6680 ADVANCED DATA BASE ADMINISTRATION AND DEVELOPMENT (3) LEC. 3. Pr. ISMN 3830 or ISMN 7830 or ISMN 7836. Key tasks and functions required of a database administrator in a business environment. Credit will not be given for both ISMN 5680 and ISMN 6680/6686.

ISMN 6690 KNOWLEDGE MANAGEMENT AND ORGANIZATIONAL LEARNING (3) LEC. 3. Introduction to knowledge management and its role in organizational decision-making and learning. Studies of issues related to management, creation, and use of knowledge as well as issues related to system design and implementation. Credit will not be given for both ISMN 5690 and ISMN 6690/6696.

ISMN 6710 INFORMATION RISK ANALYSIS (3) LEC. 3. Departmental approval. In-depth instruction on the range of skills required of persons engaged in the performance of risk analysis functions.

ISMN 6730 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality and ethics. Credit will not be given for both ISMN 5730/5733 and ISMN 6730/6736.

ISMN 6740 INFORMATION RISK ANALYSIS (3) LEC. 3. In-depth instruction on the range of skills required of persons engaged in the performance of risk analysis functions. Credit will not be given for both ISMN 5740/5743 and ISMN 6740/6746.

ISMN 6750 INFORMATION TECHNOLOGY AUDITING (3) LEC. 3. This course presents in-depth instruction on the range of skills required of persons engaged in the performance of IT audit. The skills include those required by but not limited to a technology analyst, data scientist, or CIO. May count either ISMN 5750 or ISMN 6750.

ISMN 6870 BUSINESS INTELLIGENCE APPLICATIONS (3) LEC. 3. Pr. ISMN 3830 or BUAL 5650. Key tasks, tools, techniques and methodologies supporting the application of Business Intelligence Systems in organizations, and related management issues. Credit will not be given for both ISMN 5870 and ISMN 6870/6876.

ISMN 6880 MANAGEMENT INFORMATION SYSTEMS PROJECTS (3) DSL/LEC. Synthesizes theory and principles of management information systems (MIS) using real-life, hands-on-projects.

ISMN 6900 DIRECTED STUDIES (3) DSL/IND. 3. SU. Independent study on current topics in information systems management. Course may be repeated for a maximum of 9 credit hours.

ISMN 6960 SPECIAL PROBLEMS (3) DSL/IND. 3. General information systems management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 9 credit hours.

ISMN 7020 BUSINESS TELECOMMUNICATIONS AND NETWORKS (3) LEC. 3. Provides an understanding of voice and data communications, e.g., networks (LAN, internet), protocols standards, legislation and project development, so that managers, might utilize telecommunications effectively.

ISMN 7140 MANAGING END USER COMPUTING (3) LEC. 3. Studies MIS from user's perspective, and compares it with the roles of the professional department. Course covers support of desktop applications, data usage, and communications.

ISMN 7360 INTEGRATING THEORY AND PRACTICE FOR TECHNOLOGY MANAGERS (3) LEC. 3. A study of the technical and non-technical forces that influence the decision-making process in companies by the use of innovative instructional material.

ISMN 7380 INTEGRATING INFORMATION TECHNOLOGIES TO PROVIDE COMPETITIVE ADVANTAGE (3) LEC. 3. How to integrate effectively information technologies in formulating and implementing competitive strategies for companies.

ISMN 7660 INFORMATION SYSTEMS ANALYSIS AND DESIGN (3) LEC. 3. General systems theory, information systems logical and physical analysis, structured and object-oriented methodologies and prototyping, system documentation, general design and use of CASE tools.

ISMN 7730 MANAGEMENT OF INNOVATION (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. The process of product and service innovation on two levels: managing product design and general strategies for managing multiple innovation streams.

ISMN 7760 QUANT METHODS IN OPS MNGT (3) LEC. 3.

ISMN 7830 DATABASE DEVELOPMENT AND DESIGN (3) LEC. 3. Database management systems using database methodologies to support business applications, including requirements for distributed databases.

ISMN 7870 EXPERT SYSTEMS IN BUSINESS (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. Study of expert systems and other knowledge-based systems in the organization, including relevant concepts, methodologies, architectures, strategies, and issues.

ISMN 7880 ADV MNGT OF INFO SYS (3) LEC. 3. In-depth inquiry and analysis of advanced information technologies in organizations.

ISMN 7890 INFORMATION RESOURCE MANAGEMENT (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. Management of information systems resources, unique management problems in a computer information systems environment. Strategic and competitive analysis of information technology.

ISMN 7970 SPECIAL TOPICS IN INFORMATION SYSTEMS MANAGEMENT (1-3) LEC. 1-3. Specialized topics in information systems management not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

ISMN 7980 MSIS PROJECT (1-10) DSL/IND. 1-10. SU. Departmental approval. Independent exploration of an approved topic/problem that allows the student to demonstrate the application of knowledge and capabilities gained during the program. Approval of the project and assessment of its deliverables by the student's advisory committee is required. Course may be repeated for a maximum of 10 credit hours.

ISMN 8010 IS MANAGEMENT RESEARCH SEM. I (3) SEM. 3. Departmental approval. Preparation in conceptualization, conduct, and presentation MIS research.

ISMN 8020 IS MANAGEMENT RESEARCH SEMINAR II (3) SEM. 3. Departmental approval. Preparation in conceptualization, conduct, and presentation of applied and case studies research in MIS.

ISMN 8030 DOCTORAL SEMINAR IN INFORMATION SYSTEMS RESEARCH I (3) SEM. 3. Research methodologies used in conducting research with emphasis on empirical research methods.

ISMN 8040 DOCTORAL SEMINAR IN INFORMATION SYSTEMS RESEARCH II (3) SEM. 3. Research methodologies used in conducting research with emphasis on conceptual and empirical research methods.

ISMN 8500 ADVANCED IS MANAGEMENT RESEARCH SEMINAR I (3) SEM. 3. Departmental approval. Theoretical foundations and research directions in the management of technology and technological innovation, with the primary focus on information technology and research.

ISMN 8660 ADVANCED IS MANAGEMENT RESEARCH SEMINAR II (3) SEM. 3. Departmental approval. Theoretical foundations and research directions in the alignment of information technology strategy to business objectives and goals.

ISMN 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Must be degree seeking PhD student in the Business with concentration in IS program.

Interdepartmental Education - EDUC

Courses

EDUC 1010 ORIENTATION TO TEACHER EDUCATION (0) LEC. 0. SU. Orientation to the teaching profession.

EDUC 5970 SPECIAL TOPICS (1-9) LEC. Opportunity for study of current topics related to the field of education in general. Course may be repeated for a maximum of 9 credit hours.

EDUC 6970 SPECIAL TOPICS (1-9) LEC. Opportunity for study of current topics related to the field of education in general. Course may be repeated for a maximum of 9 credit hours.

Interdepartmental Pharmacy - PYDI

Courses

PYDI 4980 INTRODUCTION TO UNDERGRADUATE RESEARCH IN PHARMACY (1-3) IND. SU. Departmental approval. Individual problems course. Students will work under the direction of a faculty member on some problem of mutual interest. Course may be repeated for a maximum of 6 credit hours.

PYDI 9030 MENTAL ILLNESS I: SERIOUS MENTAL ILLNESS (1) LEC. 2. To expose pharmacy students to psychiatry and to develop a working knowledge of both basic and advanced issues related to psychiatric illnesses. Must be enrolled in Doctor of Pharmacy program.

PYDI 9040 MENTAL ILLNESS II: ANXIETY, ALZHEIMERS AND AUTISM (1) LEC. 2. To expose pharmacy students to psychiatry and to develop a working knowledge of both basic and advanced issues related to psychiatric illnesses. Continuation of PYDI 9030. Must be enrolled in Doctor of Pharmacy program.

PYDI 9050 AMBULATORY CARE PHARMACY PRACTICE (1) LEC. 2. The Ambulatory Care Pharmacy elective will expose the students to this practice setting and the unique patient and practice issues associated with developing an ambulatory care practice. Must be enrolled in Doctor of Pharmacy program.

PYDI 9060 CURRENT ISSUES IN PHARMACY (1) LAB. 4. The Current Issues in Pharmacy elective will expose the students to current topics affecting pharmacy in multiple practice settings and provide students the chance to explore the issues and consider the opportunities presented to the profession by these topics. Students will engage in discussion and application with each other. Must be enrolled in Doctor of Pharmacy program.

PYDI 9070 THE ART OF WELLBEING (1) LEC. 2. This course will explore the following aspects of wellbeing: career, social, financial, physical and community. Additionally, students will gain insight into their own well-being through identifying areas they are thriving in, and areas they can improve. Ultimately, strategies to improve wellbeing in a particular area will be created and implemented. Must be enrolled in Doctor of Pharmacy program.

PYDI 9150 PROVIDING PHARMACY CARE FOR THE LGBTQ COMMUNITY (1) LEC. 2. This course focuses on addressing the health disparities and discrimination members of the LGBTQ community face. The course will discuss healthcare policy, societal barriers to care, and health conditions and disease states which affect the LGBTQ community, including HIV/AIDS, STIs, mental health, and hormone therapy for transgendered patients. Must be enrolled in the Doctor of Pharmacy Program.

PYDI 9160 DEVELOPMENT AND IMPLEMENTATION OF MTM SERVICES (1) LEC. 2. The course focuses on the development and implementation of Medication Therapy Management (MTM) services. Topics discussed include a review of the MTM process, development of MTM services, billing opportunities, case-based approaches to performing MTM, and different technology platforms to assist with the delivery and documentation of MTM services. Must be enrolled in Doctor of Pharmacy Program.

PYDI 9170 MENTAL HEALTH FIRST AID (1) LEC. 1. Pr. PYPD 9230. This course will provide health professional students the skills they need to reach out and provide the initial help and support to someone who may be developing a mental health or substance use problem, or experiencing a crisis.

PYDI 9180 IMMERSIVE TECHNOLOGIES IN HEALTHCARE (1) LEC. 1. Pr. PYPD 9230. Immersive technologies are defined as those that blur the lines between the real world and a virtual world, creating a sense of immersion. This course will introduce HCOP students to these technologies and review examples of both patient-facing and learner-facing applications. HCOP students will also learn the basics of health behavior theories that inform the use of these technologies and the process of development of immersive applications, in very basic, accessible terms.

PYDI 9800 SURVEY OF MULTI-MODALITY MOLECULAR IMAGING FOR PHARM.D. (2) LEC. 2. State-of-the-art survey of molecular imaging techniques and clinical imaging modalities that are available and their use to monitor the progression of various human diseases.

PYDI 9960 SPECIAL PROBLEMS IN PHARMACY (1-3) IND. Independent study of problems related to pharmacy under the direction of a faculty member. Departmental approval. Fall. Spring. Course may be repeated for a maximum of 6 credit hours.

PYDI 9970 SPECIAL TOPICS IN PHARMACY (1-3) LEC. 1-3. Instruction and discussion in a selected current topic in Pharmacy. Fall, Spring. Course may be repeated for a maximum of 3 credit hours.

Interdisciplinary Studies - IDSC

Courses

IDSC 1010 LIFE, CAREER, AND EVERYTHING (3) LEC. 3. This course provides an in-depth exploration of each student's strengths and interests, and includes a series of exercises and experiences designed to guide the student in the selection of a degree path.

IDSC 2000 CONTEMPORARY KOREA (3) LEC. 3. Overview of the human, physical, and technological context of the Republic of South Korea through a combination of lectures, readings, presentations, and discussions, utilizing the expertise of Auburn colleagues across the disciplines.

IDSC 2190 FOUNDATIONS OF INTERDISCIPLINARY UNIVERSITY STUDIES (3) LEC. 3. Provides students with an introduction to (1) the major approaches and applications of interdisciplinary studies, (2) an examination of disciplinary and interdisciplinary thinking; and (3) an introduction to concepts and methods of interdisciplinary study.

IDSC 3210 ADVANCED INTERDISCIPLINARY PROBLEM SOLVING (3) LEC. 2. LAB. 2. Pr. IDSC 1010 and (IDSC 2190 or IDSC 2193). This is a synthesis course designed to provide students with practice in applying interdisciplinary methods to the solution of real-world problems and to prepare them to communicate those solutions to a diverse audience.

IDSC 4920 INTERDISCIPLINARY CAPSTONE EXPERIENCE (3) INT. 3. Pr. IDSC 1010 and (IDSC 2190 or IDSC 2193) and (IDSC 3210 or IDSC 3213). Capstone course designed to apply Interdisciplinary Degree Coursework to an internship project. Course may be repeated for a maximum of 6 credit hours.

IDSC 4930 INTERDISCIPLINARY CAPSTONE EXPERIENCE (3) LEC. 2. LAB. 2. Pr. IDSC 1010 and (IDSC 2190 or IDSC 2193) and (IDSC 3210 or IDSC 3213). Capstone course designed to apply Interdisciplinary Degree Coursework to a senior thesis project. Course may be repeated for a maximum of 6 credit hours.

IDSC 5950 GRADUATE FOOD SYSTEMS SEMINAR (1) SEM. 1. This is a required course for graduate students in the Food Systems Graduate Certificate Program. Discussion and presentation of integrated and interdisciplinary food system topics. Course may be repeated for a maximum of 2 credit hours.

IDSC 6950 GRADUATE FOOD SYSTEMS SEMINAR (1) SEM. 1. This is a required course for graduate students in the Food Systems Graduate Certificate Program. Discussion and presentation of integrated and interdisciplinary food system topics. Course may be repeated for a maximum of 2 credit hours.

Interior Architecture - ARIA

Courses

ARIA 2150 ELEMENTS OF INTERIOR ARCH I (3) LEC. 3. The theory of design principles, aesthetics and concepts. Graphic drawings and models of interior spaces explored. Projects outside of class.

ARIA 2160 ELEMENTS OF INTERIOR ARCHITECTURE II (3) LEC. 3. The theory of design principles, aesthetics and concepts. Graphic drawings and models of interior spaces explored. Projects outside of class.

ARIA 3020 STUDIO 4A INTERIOR ARCHITECTURE (6) LEC. 2, LST. 10. Pr. ARCH 2020. Parallels Architecture Studio 4, but with an emphasis on interior architecture with exploration of detail and accommodation.

ARIA 4020 STUDIO 6A INTERIOR ARCHITECTURE (6) LEC. 2, LST. 10. Pr. ARCH 3020 and ARCH 3320 and (ARCH 2110 or ARCH 2117) and BSCI 3440. Parallels Architecture Studio 6, with emphasis on the development of interior architecture and spaces within an urban context. Consideration will be given to adaptive reuse.

ARIA 4030 INTERIOR ARCHITECTURE THESIS (6) LEC. 3, LST. 10. Pr. ARIA 4020. Coreq. ARIA 4080. Interior design project of the student's choice, under the direction of a faculty member.

ARIA 4080 INTERIOR ARCHITECTURE THESIS RESEARCH (2) LEC. 2. Pr. ARIA 4020. Research and writing of thesis documents, to include programming, site, and case studies.

ARIA 4450 INTERIOR ARCHITECTURE PROFESSIONAL PRACTICE (2) LEC. 2. Pr. ARIA 4020. Prepares student to enter professional office with an understanding of the skills, concepts and technical knowledge expected.

ARIA 4680 HISTORY AND THEORY OF INTERIOR ARCHITECTURE (3) LEC. 3. Pr. ARIA 4020. The theory and history of interior spaces, their social, material, and aesthetic development and their artifacts.

International Programs-Special Topics - INTL

Courses

INTL 1500 DEVELOPING A GLOBAL MINDSET IN AN INTERCONNECTED WORLD (1) LEC/SEM. This interdisciplinary course introduces students to the knowledge and skills needed to become globally competent in the 21st century. It also provides an orientation to the university's international resources, offices, majors, minors, curricula, and co-curricular opportunities. An assessment is also made of the students' initial intercultural intelligence.

INTL 1800 ORAL PROFICIENCY IN ENGLISH FOR INTERNATIONAL STUDENTS (3) LEC. 3. SU. Departmental approval. International students develop lecture note-taking skills, classroom oral presentation skills on general and specific subjects, and debating skills. None for degree-enrolled students; for transient students.

INTL 1820 CLASSROOM COMMUNICATION SKILLS FOR INTERNATIONAL TEACHING ASSISTANTS (3) LEC. 3. SU. Oral language skills required for effective classroom communication.

INTL 1830 WRITING PROFICIENCY IN ENGLISH FOR INTERNATIONAL STUDENTS (3) LEC. 3. SU. Skills that international students need to undertake successful research writing in English.

INTL 1840 READING SKILLS FOR ESL (3) LEC. 3. SU. Comprehend extensive university-level readings, identify author's audience, purpose, viewpoint and tone, read 250 words per minute. None for degree-enrolled student; for transient students, one of the following: pBT TOEFL of 500, iBT TOEFL of 61, IELTS of 6.

INTL 3930 DIRECTED INTERNATIONAL STUDY (2-8) AAB. Directed study-abroad or 'internationalization at home' experiences for upper-division or non-degree students to provide students with field learningand campus or distance experiences that build upon allied coursework and co-curricular activities. Course can be offered on-campus or with one or more weeks abroad. Course may also be used for internationalization instruction on campus or by distance for off-campus students. Course may be repeated for a maximum of 8 credit hours.

INTL 3937 HONORS DIRECTED INTERNATIONAL STUDY (2-8) AAB. Pr. Honors College. Directed study-abroad or 'internationalization at home' experiences for upper-division or non-degreestudents to provide students with field learning and campus or distance experiences that build upon allied coursework and co-curricular activities. Course can be offered on-campus or with one or more weeks abroad. Course may also be used for internationalization instruction on campus or by distance for off-campus students. Course may be repeated for a maximum of 8 credit hours.

INTL 3980 GLOBAL MINDSET CAPSTONE COURSE (2) LEC/SEM. Departmental approval. This course assists students in internationalizing their careers by expanding their capacities to work collaboratively within a multi-disciplinary group setting in an international and intercultural context. Through course content, assignments and reflections, students will learn to effectively communicate their global experiences and how these academic and life experiences enhance their ability to succeed in a globally connected world.

INTL 4400 INTERNATIONAL INTERNSHIP (0-12) AAB/INT. SU. Internship abroad or in the US for 0-12 hours, as approved by faculty supervisor per the plan for internship. Can be used for major, minor or certificate as designated in descriptions of these programs. Can be used for internships abroad as well as for international students on CPT/AT that are undertaking an internship in the US. Prerequisites will depend on the faculty supervisor overseeing individual student's internship. Course may be repeated for a maximum of 12 credit hours.

INTL 4407 HONORS INTERNATIONAL INTERNSHIP (1-12) AAB/INT. 20-40. SU. Pr. Honors College. Internship abroad or in the US for 1-12 hours, as approved by faculty supervisor per the plan for internship. Can be used for major, minor or certificate as designated in descriptions of these programs. Can be used for internships abroad as well as for international students on CPT/AT that are undertaking an internship in the US. Prerequisites will depend on the faculty supervisor overseeing individual student's internship. Course may be repeated for a maximum of 12 credit hours.

INTL 4420 INTERNATIONAL INTERNSHIP - FULL TIME ENROLLMENT (0) INT. 20-40. SU. Mirrors INTL 4400 but offered for zero (0) credit hours. This course is meant to track international students participating in internships for 0 credit hours. This course ensures designation as full-time students for immigration needs when approved by a faculty supervisor per the plan for internship. Can be used for major, minor or certificate as designated in descriptions of these programs. Prerequisites will depend on the faculty supervisor overseeing individual student's internship. Course may be repeated for a maximum of 1 credit hours.

INTL 4427 HONORS INTERNATIONAL INTERNSHIP - FULL TIME ENROLLMENT (0) INT. 20-40. SU. Mirrors INTL 4407 but offered for zero (0) credit hours to reflect full-time enrollment for international Honors students. Internship abroad or in the US for 0 credit hours, approved by faculty supervisor per the plan for internship. Can be used for major, minor or certificate as designated in descriptions of these programs. Can be used for internships abroad as well as for international students on CPT/AT that are undertaking an internship in the US. Course may be repeated for a maximum of 1 credit hours.

INTL 6400 INTERNATIONAL INTERNSHIP (1-9) AAB/INT. SU. Internship abroad for graduate level for 1-9 hours, as approved by faculty supervisor per the plan for internship. The plan will need to specify work required by faculty supervisor, hours of work, credits to be earned upon successful completion of course. Faculty supervisor will be responsible for oversight and grading. This course will assist students where an international internship will aid in their studies and career prospects. Can be used for major, minor or certificate as designated in descriptions of these programs. It will be the responsibility of the supervising faculty to supply accessible syllabus, textbook, videos, and other materials. It is the student's responsibility to their internship with the aid of their faculty supervisor. Prerequisite courses will depend on the faculty supervisor overseeing individual student's internship. Course may be repeated for a maximum of 9 credit hours.

INTL 6620 INTERNATIONAL GRADUATE INTERNSHIP IN THE USA - FT ENROLLMENT (0) INT. 20-40. SU. Mirrors INTL 6670 but offered for zero (0) credit hours to reflect full-time enrollment for international students. Domestic internship for international graduate students and for domestic graduate students wishing to work with international companies in the USA. This course can be utilized by students where no such course exists in their college. International graduate students must meet immigration internship requirements; students must check in with International Students and Scholars Services. Course may be repeated for a maximum of 1 credit hours.

INTL 6670 INTERNATIONAL GRADUATE INTERNSHIP IN THE USA (1-9) INT. 20-40. SU. Domestic internship for international graduate students and for domestic graduate students wishing to work with international companies in the USA. This course can be utilized by students where no such course exists in their college. International graduate students must meet immigration internship requirements; students must check in with International Students and Scholars Services within the Office of International Programs. Domestic graduate students must get approval from faculty internship supervisor. Course may be repeated for a maximum of 9 credit hours.

Journalism - JRNL

Courses

JRNL 1000 FOUNDATIONS OF JOURNALISM (3) LEC. 3. An introduction to the field of journalism; including its role in democracy and society, history, and ethics, with an emphasis on media literacy and professional writing skills. This course replaces JRNL 1100. Credit will not be given for both (JRNL 1AA0/1100/1103) and JRNL 1000.

JRNL 1100 JOURNALISM FUNDAMENTALS (3) LEC. 3. Emphasis on Associated Press Stylebook, word usage, and punctuation for students interested in print, broadcast, public relations, and web-based writing.

JRNL 1AA0 JOURNALISM FUNDAMENTALS ENTRANCE EXAM (0) LAB. 1.5. SU. JRNL 1AA0 is an exam option for students who are required to take JRNL 1100. The course will test students on punctuation, grammar, Associated Press Style and word usage to mirror content covered in the in-person course.

JRNL 2210 NEWSWRITING (3) LEC. 3. Pr. JRNL 1100 or JRNL 1AA0 or JRNL 1000 or PRCM 1000. Introduction to newswriting techniques, with emphasis on learning news values, recognizing parts of a story, and writing stories that meet standards of accuracy, grammar, style, spelling, law, and ethics.

JRNL 2310 REPORTING (3) LEC. 3. Pr. JRNL 2210 or JRNL 2213. Preparation for careers in gathering and telling the news. Course emphasizes the writing of accurate, clear, and meaningful news stories for print and digital formats.

JRNL 3010 BROADCAST & DIGITAL NEWS PRODUCTION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (JRNL 1100 or JRNL 1103 or JRNL 1AA0 or JRNL 1000 or PRCM 1000). Introduction to the basics of digital video production. Emphasis on techniques used in producing newscasts for broadcast, web and mobile devices.

JRNL 3020 BROADCAST & DIGITAL NEWS REPORTING (3) LEC. 3. Pr. JRNL 2210 and JRNL 3010. Writing and reporting digital news stories on deadline for broadcast, online, social media, and mobile outlets.

JRNL 3100 GLOBAL JOURNALISM AND MEDIA SYSTEMS (3) LEC. 3. The Internet and social media have created a world more connected than ever. Examines the economic, political, technological, and cultural changes that impact media and journalism globally.

JRNL 3110 INTRODUCTION TO APPLIED JOURNALISM (3) LEC. 3. Pr. (JRNL 2310 or JRNL 2313) and (CMJN 2100 or CMJN 2103). Introduction to how a media organization operates; provides an opportunity for students to gain practical, hands-on journalism experience.

JRNL 3220 MAGAZINE AND FEATURE WRITING (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (JRNL 2210 or JRNL 2213). Introduction to writing colorful, human-interest non-fiction pieces that illustrate drama and impact. Students will learn how to pitch their ideas to editors in print and digital markets.

JRNL 3410 PHOTOJOURNALISM (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (JRNL 2210 or JRNL 2213). Uses, techniques, and processes of digital photography for the newspaper, magazine, and web-based industries. Operations of digital SLRs and Photoshop and techniques for variety of assignments are addressed.

JRNL 3470 EDITING AND DESIGN (3) LEC. 3. Pr. (JRNL 2210 or JRNL 2213) and (CMJN 2100 or CMJN 2103). Introduction to the basics of design, layout, headline writing, typography, use of color, and selection of images for visual impact. Students will learn how to design news, sports, and magazine layouts, using Adobe InDesign and Photoshop.

JRNL 3510 MULTIMEDIA JOURNALISM (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (JRNL 2210 or JRNL 2213). Introduction to multimedia journalistic storytelling. Reporting and production course where students use various technologies to produce journalism stories for digital platforms.

JRNL 3530 SPORTS REPORTING (3) LEC. 3. Pr. (JRNL 2210 or JRNL 2213) and (CMJN 2100 or CMJN 2103). Sports reporting for print, broadcast, and online media, with emphasis on interviewing athletes, covering sporting events, and learning about issues surrounding sports.

JRNL 4230 ADVANCED REPORTING (3) LEC. 3. Pr. (JRNL 2313 or JRNL 2310) and (JRNL 3220 or JRNL 3510 or JRNL 3530 or JRNL 3020). Developing and writing news stories under deadline pressure; investigative and interpretative reporting.

JRNL 4320 ENTREPRENEURIAL JOURNALISM (3) LEC. 3. Pr. (JRNL 1100 or JRNL 1103 or JRNL 1AA0 or PRCM 1000 or JRNL 1000) and (CMJN 2100 or CMJN 2103). Emphasis on content, advertising, audience, and marketing in news organizations and applying entrepreneurial principles to journalism start-ups.

JRNL 4410 JOURNALISM HISTORY (3) LEC. 3. Issues facing the American press, from colonial times to the present, with emphasis on regional and state issues.

JRNL 4470 ADVANCED MAGAZINE AND FEATURE WRITING (3) LEC. 3. Pr. (JRNL 2310 or JRNL 2313) and (JRNL 3220 or JRNL 3223) and (JRNL 3020 or JRNL 3023 or JRNL 3530 or JRNL 3533 or JRNL 3510 or JRNL 3513). Emphasis on creating long-form, non-fiction articles for print and digital publications through graceful and innovative writing techniques and skillful reporting.

JRNL 4490 LITERARY JOURNALISM (3) LEC. 3. Survey course on the best non-fiction produced by journalists.

JRNL 4530 ADVANCED SPORTS REPORTING (3) LEC. 3. Pr. (JRNL 3530 or JRNL 3533). JRNL 4530 provides the capstone course experience for students in the sports journalism emphasis. Students will build skills in areas such as writing long form articles, personality features, enterprise reporting, oral history projects, and comprehensive game coverage, and working with tight deadlines.

JRNL 4850 REPORTING ISSUES OF SOCIAL CHANGE (3) LEC. 3. Pr. (JRNL 1100 or JRNL 1103 or JRNL 1AA0 or PRCM 1000 or JRNL 1000). Engagement with solutions-based journalism wherein story narratives about people, communities, and societal issues give voice and weight to problems and solutions.

JRNL 4870 COMMUNITY JOURNALISM (3) LEC. 3. Pr. (JRNL 2210 or JRNL 2213) and (CMJN 2100 or CMJN 2103). Civic role of community journalists.

JRNL 4920 JOURNALISM INTERNSHIP (3) INT. Pr. JRNL 2310 and (JRNL 3020 or JRNL 3220 or JRNL 3510 or JRNL 3530) and (JRNL 3010 or JRNL 3110 or JRNL 3410 or JRNL 3470). Opportunity to apply classroom experience to career setting. Internship must be a supervised, closely monitored work experience, appropriate to the major, that takes place in a professional setting. Declared major in JRNL. Requires admission to internship program.

JRNL 4930 DIRECTED STUDIES (1-4) IND. Research and analysis of specific areas of journalism. Course may be repeated for a maximum of 6 credit hours.

JRNL 4970 SPECIAL TOPICS IN JOURNALISM (3) AAB. 3. Pr. JRNL 2210. Study of narrowly defined journalism topics not already covered in the current JRNL curriculum. Course may be repeated for a maximum of 6 credit hours.

Journalism - Sports Production - JRSP

Courses

JRSP 3110 SPORTS MEDIA RELATIONS (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Focuses on the major concepts and theories of the management of sports media relations. Will include discussion of issues, philosophies and cases. May count CMJN 3110 or CMJN 3113 or JRSP 3110.

JRSP 3210 NEWS AND SPORTS ANNOUNCING (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. This class focuses on the theory and practical technique of studio and field announcing. Primary emphasis will be placed on announcing for news and sports. Additional attention will be given to voice over announcing. May count either CMJN 3210 or JRSP 3210.

JRSP 3410 INTRODUCTION TO SPORTS VIDEO PRODUCTION (3) LEC. 2, DSL/LST. 1. Introduction to multi-camera live sports production, video and audio editing techniques, how to operate equipment, create basic animated graphics, learn work crew positions and understand a script. Students will complete work for the SEC Network and War Eagle Productions. May count CMJN 3410 or JRSP 3410.

JRSP 3510 CONTROL ROOM OPERATIONS (3) LEC. 3. Pr. JRSP 3410 or CMJN 3410 or CMJN 3413. Introduction to various control room positions and equipment associated with a live broadcast. Students will learn the skills needed to set up, adjust and operate production equipment before and during broadcasts. May count CMJN 3510 or JRSP 3510.

JRSP 4320 SPORTS MEDIA MANAGEMENT (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Addresses principles and practices of managing sports media properties across multiple platforms. May count JRSP 4320 or CMJN 4320.

JRSP 4410 ADVANCED SPORTS VIDEO PRODUCTION (3) LEC. 2, LST. 1. Pr. (CMJN 2100 or CMJN 2103) and (CMJN 3410 or CMJN 3413 or JRSP 3410). This course is designed to give students in-depth training that covers advanced video editing techniques and effects. In addition, students will gain experience with advanced camera operation and techniques, focusing on high-quality production throughout the process. May count CMJN 4410 or JRSP 4410.

JRSP 4510 SPORTS STORYTELLING & VIDEO PROFILES (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (CMJN 3410 or JRSP 3410 or CMJN 3413) and (JRNL 2210 or JRNL 2213). Technology has changed the landscape of how sports stories are seen and ingested today. Students will explore the art of sports storytelling and learn the foundational skills needed to effectively use cameras, lighting, editing equipment and other industry-standard tools to tell a visual story. May count CMJN 4510 or JRSP 4510.

JRSP 4610 LIVE SPORTS PRODUCING (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (JRNL 2210 or JRNL 2213) and (CMJN 3510 or JRSP 3510). Students will learn how to produce live events for broadcast and in-venue video boards. Students will gain the necessary knowledge and skills for producing a high-quality live event. This includes preparation, decision making skills and industry-standard terminology. May count CMJN 4610 or JRSP 4610.

JRSP 4920 JOURNALISM SPORTS PRODUCTION INTERNSHIP (3) INT. Pr. JRSP 3410 and JRSP 3510. Opportunity to apply classroom experience to career setting. Internship must be a supervised, closely monitored work experience, appropriate to the major, that takes place in a professional setting. Declared major in JRSP. Requires admission to internship program.

JRSP 4970 SPECIAL TOPICS IN JOURNALISM: SPORTS PRODUCTION (3) LEC. 3. Specialized topics related to the study and practice of sports media production. Course may be repeated for a maximum of 6 credit hours.

Kinesiology - KINE

Courses

KINE 1100 WELLNESS & PUBLIC HEALTH (3) LEC. 3. Review content and theory associated with basic health information, critical health issues, economic, political, and cultural influences on health and wellness; concepts related to improving and maintaining optimal health and wellness, and basic concepts and principles of wellness for the self-appraisal of health-related physical fitness. May count either KINE 1100 or KINE 1103.

KINE 2000 PILLARS OF HEALTH: A JOURNEY TO OPTIMAL HEALTH & WELLBEING (3) LAB. 4. Students will learn and apply Mindfulness-Based Stress Reduction (MBSR) techniques and practices that have been shown, scientifically, to reduce stress and act as an aid to many health conditions that arise or are exacerbated by stress. On-campus labs are required.

KINE 2250 MOTOR DEVELOPMENT ACROSS THE LIFESPAN (2) LEC. 2. Develops understanding and skills concerning the broad concept of motor development across the lifespan. May count either KINE 2250 or KINE 2253.

KINE 2251 MOTOR DEVELOPMENT ACROSS THE LIFESPAN LABORATORY (1) LAB. 1. SU. Pr. (P/C KINE 2250 or P/C KINE 2257 or P/C KINE 2253). Develops understanding and skills concerning the broad concept of motor development across the lifespan.

KINE 2257 HONORS MOTOR DEVELOPMENT ACROSS THE LIFESPAN (2) LEC. 2. Pr. Honors College. Develops understanding and skills concerning the broad concept of motor development across the lifespan. May count either KINE 2250 or KINE 2253.

KINE 2500 SPORT OPTIMIZATION I (3) LEC. 2. LAB. 2. Basic concepts associated with the assessment of sport performance for the purpose of optimization.

KINE 2510 SPORT OPTIMIZATION II (3) LEC. 2. LAB. 2. Pr. KINE 2500 or KINE 2503 or HLHP 2500 or HLHP 2503. Concepts associated with the assessment and interpretation of sport performance for the purpose of optimization.

KINE 2800 INTRODUCTION TO KINESIOLOGY (3) LEC. 3. People, history and programs that have led to the current status of physical education, exercise science and health promotion.

KINE 3000 MEDICAL TERMINOLOGY FOR ALLIED HEALTH PROFESSIONS (3) LEC. 3. Focus on medical terminology/ abbreviations used in allied health care and application to health care documentation. Web-based delivery.

KINE 3010 INSTRUCTION AND TECHNOLOGY IN KINESIOLOGY (2) LEC. 1. LAB. 2. Communication skills, instructional strategies and technological competencies related to conveying information in the Kinesiology disciplines. May count either KINE 3010 or KINE 3013.

KINE 3030 INTRODUCTION TO PERSONAL TRAINING (3) LEC. 3. Theoretical knowledge and skills in preparation of national certification in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.

KINE 3031 INTRODUCTION TO PERSONAL TRAINING LABORATORY (3) LAB. 3. Pr. P/C KINE 3030. Theoretical knowledge and skills in preparation of national certification in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.

KINE 3040 HISTORY OF AMERICAN PHYSICAL CULTURE (3) LEC. 3. Appreciation of the historical and cultural aspects of health, exercise, fitness and sports activities in modern American society.

KINE 3050 CARE AND PREVENTION OF INJURIES (3) LEC. 3. Students will understand how to implement proper procedures in sports medicine care, create/lead emergency action plans, prevent injury/illness occurrence, care for basic injuries/illnesses, and analyze environmental conditions for safety, and provide important information to sports medicine health professionals. May count either KINE 3050 or KINE 3053.

KINE 3100 ADAPTIVE SPORTS (3) LEC. 3. An introduction to various competitive and recreational activities for persons with disabilities. May count either KINE 3100 or KINE 3103.

KINE 3110 PARALYMPIC SPORT (3) LEC. 3. An introduction to the Paralympic Games including the Games development, rules, and current issues related to media, marketing, and social rights.

KINE 3200 SKILLS AND CONCEPTS OF RHYTHMIC ACTIVITIES (3) LEC. 2. LAB. 2. Skillful performance in gymnastics and other rhythmic activities and an understanding of the basic movement concepts in those activities.

KINE 3210 SKILLS AND CONCEPTS OF SPORT (3) LEC. 2. LAB. 2. Skillful performance in games and sports and an understanding of the tactics in those activities. Admission to Teacher Education.

KINE 3230 TEACHING MOTOR SKILLS (3) LEC. 2. LAB. 2. Introduction to motor skills that students learn during their elementary school years in physical education.

KINE 3260 PHYSICAL EDUCATION FOR INDIVIDUALS WITH DISABILITIES (3) LEC. 2. LAB. 2. Pr. (KINE 2250 and KINE 2251 or KINE 2253) or (HLHP 2250 or HLHP 2251 or HLHP 2253). Program needs of individuals with disabilities in physical education and physical activity settings.

KINE 3300 INSTRUCTIONAL STRATEGIES IN PHYSICAL EDUCATION (3) LEC. 2. LAB. 2. Instructional and class management strategies appropriate to teach quality elementary and secondary physical education Admission to Teacher Education.

KINE 3400 HEALTH PROMOTION IN THE WORKPLACE (3) LEC. 3. Planning, implementation, evaluation and marketing of health promotion programs.

KINE 3410 REGISTERED YOGA TEACHER LEVEL I (3) LEC. 2. LAB. 2. Basic principles of teaching yoga. Concepts include the poses, breathing, relaxation, meditation and other yoga techniques. Completion of KINE 3410 & KINE 3420 completes a Yoga Teacher Certification.

KINE 3420 REGISTERED YOGA TEACHER LEVEL II (3) LEC. 2. LAB. 2. Pr. KINE 3413 or KINE 3410 or HLHP 3410 or HLHP 3413. Advanced principles of teaching yoga. Focus on poses, breathing, relaxation, meditation and other yoga techniques. Completion of KINE 3410 and KINE 3420 completes a Yoga Teacher Certification.

KINE 3620 BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Coreq. KINE 3621. Understanding of anatomical, neuromuscular, and biomechanical principles of human movement. Application of these concepts, as well as methods of motion analysis, will enable the student to evaluate human movement in greater detail. Departmental approval is needed for non-majors to enroll.

KINE 3621 BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT LABORATORY (1) LAB. 1. Pr. P/C KINE 3620 or P/C KINE 3623 or P/C KINE 3627. Laboratory experience focuses on application of knowledge of anatomical, neuromuscular, and biomechanical principles of human movement. Content emphasizes understanding the science of exercise, how to apply and interpret common mechanical measures, and writing about findings using basic scientific writing techniques.

KINE 3627 HONORS BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Pr. Honors College. Coreq. KINE 3621. Understanding of anatomical, neuromuscular, and biomechanical principles of human movement. Application of these concepts, as well as methods of motion analysis, will enable the student to evaluate human movement in greater detail. Departmental approval is needed for non-majors to enroll.

KINE 3650 MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Understanding of the basic psychological and physiological involved in the learning and control of skillful human movement.

KINE 3651 MOTOR LEARNING AND PERFORMANCE LABORATORY (1) LAB. 2. Pr. P/C KINE 3650 or P/C KINE 3653 or P/C KINE 3657. Lab experience will allow students to gain first-hand experience with modern experimental methods, data collection, and basic analysis tools in motor learning research and develop an understanding of the experience of human research participants in kinesiology research.

KINE 3657 HONORS MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Pr. Honors College. Understanding of the basic psychological and physiological involved in the learning and control of skillful human movement.

KINE 3680 PHYSIOLOGY OF EXERCISE (3) LEC. 3. Energetics of exercise and physiological responses and adaptions of various organ systems (muscular, circulatory, respiratory, etc.) to acute and chronic exercise in different environments.

KINE 3681 PHYSIOLOGY OF EXERCISE LAB (1) LAB. 2. Coreq. KINE 3680. Applying knowledge of basic energy, musculoskeletal, nervous, and cardiovascular systems using various testing procedures. Focus on understanding the science of exercise, interpreting common physiological fitness tests, and how to write about findings using basic scientific writing techniques.

KINE 3687 HONORS PHYSIOLOGY OF EXERCISE (3) LEC. 3. Pr. Honors College. Energetics of exercise and physiological responses and adaptions of various organ systems (muscular, circulatory, respiratory, etc.) to acute and chronic exercise in different environments.

KINE 3820 PRINCIPLES OF SPORT COACHING (3) LEC. 3. Basic principles of sport pedagogy and the conduct of sport training programs. Departmental approval. May count either KINE 3820 or KINE 3823.

KINE 3830 THEORY AND PRACTICE OF SPORTS OFFICIATING (3) LEC. 3. Instruction and practice of officiating a variety of sport activities.

KINE 3840 COACHING THE MENTAL SIDE OF SPORTS (3) LEC. 3. Understand athletes' psychology and how to provide them wit mental skills to enhance their performance in athletics, academics, and life.

KINE 3870 LEGAL AND ILLEGAL SPORTS SUPPLEMENTS (3) LEC. 3. Introductory approach to the safety, efficacy, and legality of popular legal and illegal sports supplements.

KINE 4130 THE NEUROBIOLOGY OF PLAY (3) LEC. 3. This course is an introduction to psychological and neuroscientific research on play and games. We will focus on play behavior in human beings, but will incorporate comparative evidence from play in other animals. Using an interdisciplinary approach, we will draw.

KINE 4200 PHYSICAL EDUCATION IN ELEMENTARY SCHOOLS (4) LEC. 2. LAB. 4. Pr. HLHP 3300. Understanding of the skill theme approach based on skill themes, movement concepts and levels of skill proficiency. Credit will not be given for both KINE 4200 and KINE 4360. Admission to Teacher Education.

KINE 4300 PHYSICAL EDUCATION IN SECONDARY SCHOOLS (4) LEC. 2. LAB. 4. Pr. (KINE 3300 or HLHP 3300). Constructing and implementing appropriate lifetime sports and fitness programs for middle and secondary school students. Admission to Teacher Education.

KINE 4360 HEALTH EDUCATION AND PHYSICAL EDUCATION IN ELEMENTARY SCHOOLS (2) LEC. 1. LAB. 2. Critical topics in health education and physical education for prospective elementary education teachers. Credit will not be given for both KINE 4360 and KINE 4200.

KINE 4400 APPLIED ANATOMY FOR THE ALLIED HEALTH PROFESSIONAL (3) LEC. 3. Study of skeletal anatomy with an applied approach. May count either KINE 4400 or KINE 4403.

KINE 4450 PHYSICAL ACTIVITY AND PUBLIC HEALTH (3) LEC. 3. Departmental approval. Basic principles of epidemiology; health benefits of physical activity; strategies to promote physical activity at the individual and community levels.

KINE 4500 INDIVIDUAL AND GROUP FITNESS INSTRUCTION (3) LEC. 3. Principles of exercise prescription and field assessment techniques to develop, implement and evaluate individual and group exercise programs.

KINE 4560 SPORT TECHNIQUE AND MOVEMENT ANALYSIS (3) LEC. 3. Skills and knowledge for observing, evaluating, and correcting movement patterns. May count either KINE 4560 or KINE 4563.

KINE 4600 STRENGTH AND CONDITIONING DEVELOPMENT (3) LEC. 3. Basic concepts and principles of strength, endurance and speed development.

KINE 4620 EXERCISE AND SPORT PSYCHOLOGY (3) LEC. 3. Role of psychological factors in sport, exercise and physical activity.

KINE 4627 HONORS EXERCISE AND SPORT PSYCHOLOGY (3) LEC. 3. Pr. Honors College. Role of psychological factors in sport, exercise and physical activity.

KINE 4630 STRENGTH AND CONDITIONING PREPARATION (3) LEC. 3. Pr. (KINE 4600 or KINE 4603) and (KINE 3680 or KINE 3683 or KINE 3687). Preparation as a Certified Strength and Conditioning Specialist.

KINE 4640 PHYSICAL CONDITIONING AND SPEED (3) LEC. 3. Basic concepts and principles of physical conditioning and speed.

KINE 4690 CORRECTIVE EXERCISE SPECIALIST PREPARATION (3) LEC. 3. Pr. KINE 3620 and P/C KINE 3621 or P/C KINE 3627. Preparation for the National Academy of Sports Medicine corrective exercise specialist examination. May count either KINE 4690 or KINE 4693.

KINE 4760 INTRODUCTION TO EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. (KINE 3620 or KINE 3627) and (KINE 3650 or KINE 3657) and (KINE 3680 or KINE 3687). Research literature, experimental design and research interpretation in exercise science.

KINE 4767 HONORS INTRO TO EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. Honors College. Research literature, experimental design and research interpretation in exercise science.

KINE 4780 EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. (KINE 4760 or KINE 4763 or KINE 4767) and (KINE 3620 or KINE 3623 or KINE 3627) and (KINE 3650 or KINE 3653 or KINE 3657) and (KINE 3680 or KINE 3683 or KINE 3687). Development of a research proposal including the introduction, review of literature, methods, experimental design and statistics.

KINE 4787 HONORS EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. Honors College. KINE 3620 or KINE 3623 and KINE 3650 or KINE 3653. and KINE 4760 or KINE 4763. and KINE 3680 or KINE 3683. Development of a research proposal including the introduction, review of literature, methods, experimental design and statistics.

KINE 4860 EXERCISE PROGRAMMING FOR SPECIAL POPULATIONS (3) LEC. 3. Principles of exercise prescription, programming and field assessment techniques to develop, implement and evaluate exercise programs for special populations. May count either KINE 4860 or KINE 4863.

KINE 4880 TRAINING AND CONDITIONING PROGRAMMING (3) LEC. 3. Pr. (KINE 4600 or HLHP 4600 or HLHP 4640) and KINE 4640. Skills and knowledge related to sport specific annual training regimens.

KINE 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 6 credit hours.

KINE 4910 PRACTICUM (1-6) AAB/PRA. SU. Departmental approval. Application of basic concepts to specific work environment. Course may be repeated for a maximum of 6 credit hours.

KINE 4920 CLINICAL RESIDENCY (12) LEC. 12. SU. Pr. KINE 4200 and KINE 4300. Culminating supervised work experience in school settings for K-12 Physical Education. Students must be cleared and approved for Clinical Residency by College of Education criteria.

KINE 4930 PHYSICAL ACTIVITY AND HEALTH INTERNSHIP (1-12) LEC. 1-12. SU. Pr. KINE 5400 or KINE 5403. Opportunity to explore a particular job or career path within the field, allowing students to apply theory and methodology learned in their undergraduate studies in a work environment under qualified supervision. May count either KINE 4930 or KINE 4933. Course may be repeated for a maximum of 12 credit hours.

KINE 4940 FITNESS, CONDITIONING AND PERFORMANCE INTERNSHIP (1-12) DSL/INT. SU. Pr. (KINE 4690 or KINE 4693) and (KINE 4880 or KINE 4883). Opportunity to explore a particular job or career path within the field, allowing students to apply theory and methodology learned in their undergraduate studies in a work environment under qualified supervision. Site must be approved by internship coordinator. May count either KINE 4940 or KINE 4943. Course may be repeated for a maximum of 12 credit hours.

KINE 4970 SPECIAL TOPICS (1-3) AAB. Advanced presentation of critical issues in physical education, health promotion or exercise science. Course may be repeated with change in topic. Course may be repeated for a maximum of 12 credit hours.

KINE 4980 UNDERGRADUATE RESEARCH (1-3) IND. Departmental Approval. Directed research within the area of specialty within the School. Course may be repeated for a maximum of 6 credit hours.

KINE 4997 HONORS THESIS (1-3) LEC. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

KINE 5400 EXERCISE ASSESSMENT, PRESCRIPTION, & PROGRAMMING (3) LEC. 3. Pr. (KINE 3620 or KINE 3623 or KINE 3627) and (KINE 3680 or KINE 3683 or KINE 3687). This course is designed to develop the knowledge, skills, and abilities necessary to work with clients, performing exercise testing for health and fitness and developing exercise programs following American College of Sports Medicine (ACSM) and National Strength and Conditioning Association (NSCA) guidelines. The course will focus on the principles and guidelines for exercise testing and programming.

KINE 5500 EXERCISE ASSESSMENT AND TESTING (3) LEC. 1. LAB. 4. Pr. (KINE 3620 or KINE 3627) and (KINE 3680 or KINE 3687) and KINE 3681. Familiarization with exercise testing, exercise testing instrumentation, and application of concepts in physiological testing, test selection, and interpretation of assessments in normal populations. May count KINE 6500.

KINE 5501 CLINICAL EXERCISE TESTING LABORATORY (2) LAB. 2. Pr. KINE 3680 and (KINE 3681 or KINE 3687) and (KINE 5500 or KINE 5503). Application of concepts in physiological testing, test selection and interpretation of assessments in normal and special populations for the purpose of exercise prescription and chronic disease risk reduction.

KINE 5820 SPORT MANAGEMENT (3) LEC. 3. This course is designed to give students critical skills in understanding and analyzing a number of social issues as they relate to sport. May count either KINE 5820 or KINE 6820.

KINE 5920 INTERNSHIP (1-12) INT. SU. Pr. (KINE 4630 or KINE 4633) and (KINE 5400 or KINE 5403). Supervised work experiences in schools, fitness or rehabilitation settings. Two hours of work experience per week for each hour course credit. Course may be repeated for a maximum of 12 credit hours.

KINE 6200 RESEARCH PROJECT IN PHYSICAL EDUCATION (3) LEC. 3. Focus on action research in teaching and learning in physical education in schools. May count either KINE 5200 or KINE 6200.

KINE 6250 INSTRUCTIONAL SUPERVISION FOR PHYSICAL EDUCATION (2) LEC. 2. Development of systematic observation systems for providing feedback to teachers and strategies for monitoring progress. May count either KINE 5250 or KINE 6250.

KINE 6300 ADVOCACY IN PHYSICAL EDUCATION (2) LEC. 2. Strategies for development of advocacy programs in physical education. May count either KINE 5300 or KINE 6300.

KINE 6350 ASSESSMENT IN PHYSICAL EDUCATION (3) LEC. 3. Pr. P/C KINE 7920 or P/C HLHP 7920 or P/C HLHP 7926.

KINE 6400 EXERCISE ASSESSMENT, PRESCRIPTION, & PROGRAMMING (3) LEC. 3. Pr. KINE 3680 or KINE 3687. This course is designed to develop the knowledge, skills, and abilities necessary to work with clients, performing exercise testing for health and fitness and developing exercise programs following American College of Sports Medicine (ACSM) and National Strength and Conditioning Association (NSCA) guidelines. The course will focus on the principles and guidelines for exercise testing and programming.

KINE 6500 EXERCISE ASSESSMENT AND TESTING (3) LEC. 1. LAB. 4. Pr. KINE 3680 or KINE 3687. Familiarization with concepts in exercise testing, testing instrumentation, test selection & application, and interpretation of assessments in normal populations for the purpose of exercise prescription. May count either KINE 5500 or KINE 6500.

KINE 6501 CLINICAL EXERCISE TESTING LABORATORY (2) LAB. 2. Pr. KINE 3680 or KINE 3687. Coreq. KINE 6500. Learn and practice the skills to perform clinical exercise testing for health and fitness in accordance with American College of Sports Medicine (ACSM).

KINE 6600 PHYSIOLOGICAL BASIS OF TRAINING AND CONDITIONING (3) LEC. 2. LAB. 2. Pr. KINE 3680 or KINE 3687. Physiological adaptations to training and conditioning for sport performance. May count either KINE 5600 or KINE 6600.

KINE 6820 SPORT MANAGEMENT (3) LEC. 3. This course is designed to give students critical skills in understanding and analyzing a number of social issues as they relate to sport. May count either KINE 5820 or KINE 6820.

KINE 6920 INTERNSHIP (1-12) INT. SU. Pr. (KINE 7630 and KINE 6400) or KINE 6406. Departmental approval. Supervised work experiences in schools, fitness or rehabilitation settings. Course may be repeated for a maximum of 12 credit hours.

KINE 7010 RESEARCH METHODS IN PHYSICAL ACTIVITY (3) LEC. 3. Study of research methods and analysis of current research in physical education, health promotion, and exercise science.

KINE 7180 APPLIED SOCIOLOGICAL ASPECTS OF SPORT AND EXERCISE (3) LEC. 3. Critical examination and application of sociological aspects of sport and exercise in a variety of settings. May count either KINE 7180 or KINE 7186.

KINE 7200 CURRICULUM AND TEACHING IN PHYSICAL EDUCATION (3) LEC. 3. Issues in developing and critiquing curricula in physical education.

KINE 7250 EVALUATION OF PROGRAMS IN PHYSICAL EDUCATION (3) LEC. 3. Development of tools for assessment of student learning and evaluation of physical education programs.

KINE 7260 INDIVIDUALS WITH DISABILITIES IN PHYSICAL EDUCATION (3) LEC. 3. Developing inclusive physical activity programs for children and adolescents with disabilities in physical education.

KINE 7280 NATURALISTIC INQUIRY IN PHYSICAL ACTIVITY SETTINGS (3) LEC. 3. Exploration of naturalistic inquiry in physical activity and educational settings.

KINE 7300 CONTENT AND PEDAGOGY IN PHYSICAL EDUCATION (3) LEC. 3. Instructional strategies and content for elementary and secondary physical education.

KINE 7350 ORGANIZATION AND ANALYSIS OF INSTRUCTION IN PHYSICAL EDUCATION (3) LEC. 3. Focus on the teaching-learning process in physical education.

KINE 7380 INTEGRATING CLASSROOM CONCEPTS (3) LEC. 3. Relationship of developmental foundations of young children and programming of physical activities.

KINE 7400 ADVANCED ANATOMICAL PRINCIPLES (3) LEC. 3. Clinically oriented human anatomy experience, designed to provide the student with an applied methodology to interact and utilize anatomical knowledge. May count either KINE 7400 or KINE 7406.

KINE 7420 BIOMECHANICS OF SKILL ANALYSIS: DARTFISH I (3) LEC. 3. Introductory approach to skill analysis as well as the use of the software program Dartifish. May count either KINE 7420 or KINE 7426.

KINE 7430 BIOMECHANICS OF SKILL ANALYSIS: DARTFISH II (3) LEC. 3. Pr. KINE 7420 or HLHP 7420 or HLHP 7426 or KINE 7426. Advanced approach to skill analysis as well as the use of the software program Dartifish. May count either KINE 7430 or KINE 7436.

KINE 7550 EFFICIENT MOVEMENT STRATEGIES (3) DSL. 3. A review of the material and tools necessary to become a National Academy of Sports Medicine Corrective Exercise Specialist.

KINE 7570 EXERCISE ELECTROCARDIOGRAPHY (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Electrocardiography from a exercise scientist's perspective; recognition of normal and abnormal electrocardiographic patterns at rest and during exercise.

KINE 7620 PRINCIPLES OF BIOMECHANICS IN HUMAN MOVEMENT (3) LEC. 3. Pr. KINE 3620 or KINE 3627. Biomechanical principles and laws with applications to human movement in sport, exercise and daily activities. Departmental approval. May count either KINE 7620 or KINE 7626.

KINE 7630 STRENGTH & CONDITIONING PREPARATION (3) LEC. Preparation as a Certified Strength and Conditioning Specialist.

KINE 7650 ADVANCED MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Pr. KINE 3650 or KINE 3657. Departmental approval. Theories, experimental studies, and current issues in the acquisition, performance, and retention of motor skills.

KINE 7660 BIOMECHANICS OF SPORT INJURY AND REHABILITATION (3) LEC. 3. Pr. (HLHP 7620 or HLHP 7626 or KINE 7620 or HLHP 7626). Biomechanical properties of the human body as related to injuries and rehabilitation in sport and daily activities.

KINE 7670 LAB TECHNIQUES IN BIOMECHANICS (3) LEC. 1. LAB. 2. Pr. (HLHP 7620 or HLHP 7626 or KINE 7620 or KINE 7626). Study of equipment and standing practices utilized by a biomechanist in measuring and analyzing motion.

KINE 7680 ADVANCED PHYSIOLOGY OF EXERCISE I (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Departmental approval. Physiological responses to exercise and control of metabolism, the cardiovascular system, and the respiratory system during acute exercise and training.

KINE 7700 ADVANCED PHYSIOLOGY OF EXERCISE II (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Temperature regulation and endocrine response to exercise; physiological responses and adaptations to aerobic training, strength training, and environmental extremes; limiting factors and fatigue in exercise.

KINE 7710 LAB TECHNIQUES IN EXERCISE PHYSIOLOGY (3) LEC. 1. LAB. 4. Pr. (HLHP 7680 or HLHP 7686 or KINE 7680). Techniques for measuring and evaluating physical performance.

KINE 7730 NEUROMOTOR CONTROL (3) LEC. 3. Pr. KINE 3650 or KINE 3657. Departmental approval. Structure and function of the central and peripheral systems underlying human motor control.

KINE 7740 ADVANCED MOTOR DEVELOPMENT (3) LEC. 3. Departmental approval. Examination of theoretical and empirical issues in motor development across the life span.

KINE 7750 ADVANCED SPORT PSYCHOLOGY (3) LEC. 3. Pr. KINE 4620 or KINE 4627 or departmental approval. Examination of psychological factors that influence althletic performance. Or equivalent,

KINE 7780 EXERCISE MOTIVATION AND ADHERENCE (3) LEC. 3. Pr. KINE 4620 or KINE 4627. Theoretical foundations and recent research in exercise motivation and adherence. Or equivalent.

KINE 7790 MOTOR BEHAVIOR OF INDIVIDUALS WITH DISABILITIES (3) LEC. 3. Pr. (HLHP 7650 or HLHP 7656 or KINE 7650). Examination of motor behavior characteristics of individuals with disabilities.

KINE 7820 CLINICAL/NON-CLINICAL INTERNSHIP IN KINESIOLOGY (1-10) DSL/INT. SU. Supervised work experience in physical activity, health, fitness, conditioning, performance and rehabilitation settings. This course is for non-teacher education students. May count either KINE 7820 or KINE 7826. Course may be repeated for a maximum of 10 credit hours.

KINE 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 9 credit hours.

KINE 7910 PRACTICUM (1-3) PRA. Departmental approval. Application of concepts to specific work environment. Course may be repeated for a maximum of 6 credit hours.

KINE 7920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised work experiences in schools, fitness or rehabilitation settings. Course may be repeated for a maximum of 10 credit hours.

KINE 7930 NON-THESIS RESEARCH PROJECT (1-6) IND. SU. Pr. KINE 7010 or HLHP 7010 or HLHP 7016. Departmental approval. Continuation/completion of a scientific research project that culminates into a written and oral presentation. Course may be repeated for a maximum of 6 credit hours.

KINE 7950 SEMINAR (1-3) SEM. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 7960 SPECIAL PROBLEMS (1-3) IND. SU. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 3 credit hours.

KINE 7970 SPECIAL TOPICS (1-3) LEC. Advanced presentation of critical issues in physical education, health promotion, or exercise science. Course may be repeated with change in topic.

KINE 7980 RESEARCH PROJECT IN KINESIOLOGY (1-6) IND. SU. Pr. KINE 7010 or HLHP 7010 or HLHP 7016. Departmental approval. Completion of a scientific research project in Kinesiology that culminates into a written and oral presentation. Course may be repeated for a maximum of 6 credit hours.

KINE 7990 RESEARCH AND THESIS (1-10) IND. Course may be repeated with change in topics.

KINE 8270 EXERCISE GENETICS (3) LEC. 3. This course will describe advanced concepts related to exercise genetics. Examples include how skeletal muscle responds to exercise at the epigenetic, transcriptomic, and proteomic level. Additionally, cutting-edge research topics (e.g., miRNA and retrotransposons) will be discussed in the context of exercise science.

KINE 8300 RESEARCH IN KINESIOLOGY (3) LEC. 3. Examination and evaluation of current research trends within the field of kinesiology.

KINE 8310 SUPERVISION/ADMINISTRATION OF LABS IN KINESIOLOGY (3) LEC. 3. Skills and techniques of the daily management of kinesiology labs. Topics include budgeting, outreach, entrepreneurship, grants, and personnel management.

KINE 8320 RESEARCH MENTORSHIP (3) LEC. 3. Skills and experience in the mentorship of novice researches in the field of Kinesiology.

KINE 8710 SCIENTIFIC COMMUNICATION IN EXERCISE SCIENCE (3) LEC. 3. In-depth analysis of the major formats for scientific communication and the peer-review process in exercise science. Or equivalent.

KINE 8730 NUTRIENT TIMING FOR PERFORMANCE OPTIMIZATION (3) LEC. 3. This course will discuss how Nutrient Timing is important for optimizing endurance- or resistance training adaptations in athletes.

KINE 8750 THREE-DIMENSIONAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Pr. (HLHP 7620 or HLHP 7620) or KINE 7620 or KINE 7620. Three-dimensional nature of body segments in human movement, with emphasis on data processing and modeling techniques.

KINE 8770 NEUROMUSCULAR ASPECTS OF EXERCISE AND TRAINING (3) LEC. 3. Pr. KINE 7680 or HLHP 7680 or HLHP 7686 or departmental approval. Examination of neuromuscular mechanisms that allow humans to perform work, including energy output, neural integration, energy metabolism and adaptations to training.

KINE 8780 BIOCHEMISTRY OF EXERCISE (3) LEC. 3. Pr. (HLHP 7680 or KINE 7680) or HLHP 7686 or departmental approval. Regulation of the metabolic pathways of energy metabolism with emphasis on the energetic response to acute exercise and exercise training.

KINE 8900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 9 credit hours.

KINE 8910 PRACTICUM (1-3) PRA. SU. Departmental approval. Application of basic concepts to specific work environments. Course may be repeated for a maximum of 9 credit hours.

KINE 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised work experiences in schools, fitness and rehabilitation settings. Course may be repeated for a maximum of 10 credit hours.

KINE 8930 DIRECTED FIELD EXPERIENCES (1-10) FLD. SU. Departmental approval. Field studies away from campus. Course may be repeated for a maximum of 10 credit hours.

KINE 8950 SEMINAR (1-3) SEM. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 8960 SPECIAL PROBLEMS (1-3) IND. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 8970 SPECIAL TOPICS (1-3) LEC. Advanced presentation of critical issues in physical education. health promotion, or exercise science. Course be repeated with change in topic. Course may be repeated with change in topics.

KINE 8980 FIELD PROJECT (1-6) FLD.

KINE 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Field project away from campus. Course may be repeated for a maximum of 9 credit hours. Course may be repeated with change in topics.

Laboratory Science - LBSC

Courses

LBSC 2010 BASICS IN LABORATORY SCIENCE (2) LEC. 1. LAB. 1. Basic laboratory skills, quality control and assurance, standard precautions for biohazard testing; requirements for careers in medical and laboratory science.

LBSC 4010 HEMATOLOGY (3) LEC. 3. Pr. CHEM 2070 or CHEM 2077. Origin, maturation, morphology, and function of normal blood cells and abnormalities in diseased blood with clinical correlation to disease processes.

LBSC 4011 HEMATOLOGY LAB (2) LAB. 6. Pr. (CHEM 2070 or CHEM 2077) and P/C LBSC 4010 and P/C LBSC 2010. Lab portion of course covering origin, maturation, morphology, and function of normal blood cells and abnormalities in disease blood with clinical correlation to disease processes.

LBSC 4050 CLINICAL IMMUNOHEMATOLOGY/PARASITOLOGY (5) LEC. 3. LAB. 6. Pr. (CHEM 2070 or CHEM 2077) and (BIOL 1020 or BIOL 1027). Immunogenetics, clinical significance of blood group antigens and antibodies, theory and techniques of serological study of human blood groups. Human parasites, life cycles and disease processes.

LBSC 4250 CLINICAL BIOCHEMISTRY/INSTRUMENTATION (4) LEC. 3. LAB. 3. Pr. P/C BCHE 5180 or P/C BCHE 3200. Biochemistry/physiology of systems in the body of elements in body fluids during the normal and abnormal processes. Theoretical and practical application of Lab techniques, atomic absorption, gaschromatograph-FID, HPLC, spectroscopy, spectrophotometry, ion selective electrodes and RIA used in analysis of body fluids.

LBSC 4910 CLINICAL PRACTICUM (0) PRA.

LBSC 4920 CLINICAL INTERNSHIP (0) INT/PRA.

Landscape Architecture - LAND

Courses

LAND 1110 STUDIO I (4) LEC. 3. LAB. 1. Foundation course introduces studio culture, principles and processes of visual design, and the tools and techniques of landscape architectural design.

LAND 1160 GRAPHIC STUDIES I (2) LEC. 1. LAB. 1. Coreq. LAND 1110. Focuses on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage.

LAND 1210 STUDIO II (4) LEC. 3. LAB. 1. Pr. LAND 1110. Foundation course builds fundamental design process skills by exploring terrain and ecology through design exercises on small sites.

LAND 1260 GRAPHIC STUDIES II (2) LEC. 1. LAB. 1. Pr. LAND 1160. Introduces integrated analog-digital workflows. Focus on digital methods and tools: photomontage, diagramming, and presentation assembly; digital modeling, analysis, and rendering.

LAND 2110 PLANTS AND CONSTRUCTION WORKSHOP I (5) LEC. 4. LAB. 1. Pr. LAND 1210. Uses a field- and project- based approach to engage the medium of landscape architecture (plants, land, soils, and materials).

LAND 2120 FIELDWORK I (1) FLD. 1. Pr. LAND 1210. Coreq. LAND 2110. Advances program focus on landscape experience. Introduces techniques and tools for site reconnaissance: direct measurement, observation, evaluation, and synthesis.

LAND 2140 HISTORY, THEORY, AND PRACTICE I (3) LEC. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 2210 PLANTS AND CONSTRUCTION WORKSHOP II (5) LEC. 4. LAB. 1. Pr. LAND 2110. Focuses on landscape expression, experience, and cycles, including plant ephemerality, material assemblies, maintenance, performance, and choreography of landscape experience.

LAND 2220 FIELDWORK II (1) FLD. 1. Coreq. LAND 2210. Considers phenological and environmental cycles, expression of plants, materials, and atmospheres to strengthen relationships between design intention and physical expression.

LAND 2240 HISTORY, THEORY, AND PRACTICE II (3) LEC. 3. Pr. LAND 2140. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 3110 STUDIO III (5) LEC. 4. LAB. 1. Pr. LAND 2210. Advanced studio introduces design research processes to investigate eco-cultural relationships between regional and urban scales with emphasis on landscape networks.

LAND 3120 FIELDWORK III (1) FLD. 1. Pr. LAND 2220. Coreq. LAND 3110. Expand techniques and tools for site reconnaissance: multiple site visits to develop skills, deepen inventories, and contextualize design projects.

LAND 3160 DYNAMIC SYSTEMS I (3) LEC. 3. Pr. LAND 2240. Establishes ecological theories as a framework for analysis of urban conditions and as a tool for decision-making and design.

LAND 3210 STUDIO IV (5) LEC. 4. LAB. 1. Pr. LAND 3110. Junior studio focused on processes to support design at multiple scales for resilient landscapes that integrate aesthetics, program, and performance.

LAND 3220 FIELDWORK IV (1) FLD. 1. Pr. LAND 3120. Coreq. LAND 3210. Expand techniques and tools for mapping large scale landscape systems. Develop documentation skills using aerial photogrammetry and advanced site visualization.

LAND 4110 STUDIO V (5) LEC. 4, LST. 1. Pr. LAND 3210. Comprehensive studio synthesizes skills toward landscape activism and engagement in cultural contexts of urban, ex-urban, or rural sites and systems.

LAND 4120 FIELDWORK V (1) FLD. 1. Pr. LAND 3220. Coreq. LAND 4110. Apply comprehensive site reconnaissance skills to gather landscape intelligence. Engage community representatives to contextualize studio work.

LAND 4210 STUDIO VI (5) LEC. 4, LST. 1. Pr. LAND 4110. Comprehensive studio helps students develop sophisticated design research. Students create new work and critically evaluate its theoretical context.

LAND 4220 FIELDWORK VI (1) FLD. 1. Coreq. LAND 4210. Use broad skills, techniques, and thinking about site reconnaissance to frame design projects. Gather and synthesize comprehensive landscape intelligence.

LAND 4240 PROFESSIONAL PRACTICE (3) SEM. 3. Surveys development and ethics of the landscape architecture profession, businesses, and practices, to help students plot their futures.

LAND 4410 SEMINAR ON LANDSCAPE MATTER (3) SEM. Departmental approval. Seminar which explores material considerations in landscape, such as material selection and performance, material assemblies, landform and grading, or designing with plants and ecological communities, as they relate to the discipline of landscape architecture and are not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4420 SEMINAR ON LANDSCAPE ADVOCACY (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of landscape advocacy, such as public interest design, community outreach, and public engagement, as they relate to the discipline of landscape architecture and are not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4430 SEMINAR ON LANDSCAPE THOUGHT (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of landscape history, landscape theory, critique, or associated discourse as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4440 SEMINAR ON LANDSCAPE REPRESENTATION (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of Landscape Representation, Graphic Communication, and/or Drawing as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4450 SEMINAR ON LANDSCAPE RESEARCH (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of Landscape Research as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4900 DIRECTED STUDIES (1-3) IND. Departmental approval. Opportunity for students to work with a specific faculty on a special topic in an area of interest. Course may be repeated for a maximum of 9 credit hours.

LAND 4920 PROFESSIONAL INTERNSHIP (1-3) INT. SU. Departmental approval. Opportunity for students to develop expertise in professional practice under the guidance of professionals. This includes but is not limited to site design, construction documentation, client/community presentations, and project management. Course may be repeated for a maximum of 3 credit hours.

LAND 4970 SPECIAL TOPICS IN LANDSCAPE ARCHITECTURE (3) LEC/SEM. Departmental approval. Study of a topic of special interest in landscape architecture beyond current program course offerings. Course may be repeated for a maximum of 9 credit hours.

LAND 5030 LANDSCAPE DESIGN METHODS (3) LEC. 9. Introduces students to skills, techniques, and ways of thinking fundamental to landscape architectural design, preparing students for future studio courses by emphasizing making, precision, experimentation, iteration, and judgment.

LAND 5040 LANDSCAPE ISSUES & PRACTICES (3) LEC. 9. Introduces students to both a selection of key issues relevant to contemporary landscape architecture and practices employed by landscape architects engaging in those issues.

LAND 5130 STUDIO I: FOUNDATION STUDIO (5) STU. 5. Teaches foundational skills (drawing, modeling, and multiple representational skills) that are necessary to progress into future design studios.

LAND 5131 FIELDWORK I (1) FLD. 1. Field studies and travel related to studio. May count either LAND 5131 or LAND 6131.

LAND 5140 HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) SEM. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 5147 HONORS HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) SEM. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 5150 CONSTRUCTION I: LANDFORM & HYDROLOGY (3) LEC. 3. Departmental approval. Fundamental skills needed to analyze, understand, and manipulate landform with respect to form, grading, drainage, and stormwater management.

LAND 5160 GRAPHIC STUDIES I (2-3) LEC. Focus on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage. Introduction to vector and raster-based software and integrated analog-digital workflows. Course may be repeated for a maximum of 3 credit hours.

LAND 5230 STUDIO II (5) STU. 5. Iterative design processes that project and test design scenarios, refining propositions based on multiple performance criteria in relation to site specificity and community context. Departmental approval. May count either LAND 5230 or 6230.

LAND 5231 FIELDWORK II (1) FLD. 1. Field studies and travel related to studio. Departmental approval. May count either LAND 5231 or LAND 6231.

LAND 5240 HISTORY, THEORY, AND PRACTICE II: LANDSCAPE ARCHITECTURE AND CONTEMPORARY CULTURE (3) LEC. 3. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 5250 CONSTRUCTION II: MATERIALS & DETAILING (3) LEC. 3. Departmental approval. Fundamentals of design detailing of site assemblies, with emphasis on material research and construction methods.

LAND 5260 GRAPHIC STUDIES III (3) SEM. 3. Pr. LAND 5150. Departmental approval. Fundamental concepts of Geographic Information Systems are used to create visual frameworks for gathering, interpreting, and sharing spatial data in landscape architecture practice.

LAND 5270 PLANT SPATIALITY (2) LEC. 2. Studies of innovative design with plants, exploring issues plant association, strata, and spatiality. Departmental approval. May count either LAND 5270 or 6270.

LAND 5290 GRAPHIC STUDIES II (3) LEC. 3. Focus on advanced digital methods and tools: mapping with GIS software; modeling, analysis, and rendering with Rhino and associated plugins; and photomontage, diagramming, and presentation assembly with Adobe software.

LAND 5330 STUDIO III (5) LEC. 5. Pr. (LAND 5230 or LAND 6230) or (P/C LAND 5331 or P/C LAND 6331). Departmental approval. Investigates eco-cultural relationships between regional, metropolitan and urban scales with emphasis on physical and social flows.

LAND 5331 FIELDWORK III (1) FLD. 1. SU. Pr. (LAND 6230 or LAND 5230) or (P/C LAND 5330 or P/C LAND 6330). Departmental approval. Field studies and travel related to studio.

LAND 5340 HISTORY, THEORY, AND PRACTICE III: PRE-MODERN LANDSCAPES (3) LEC. 3. Pr. LAND 5240. Departmental approval. Global history of landscape-making, particularly in relationship to urbanization and culture, from prehistory to the inception of modern landscape architecture.

LAND 5350 CONSTRUCTION III: HYDROLOGIES (2) LEC. 1. LAB. 2. Pr. LAND 5230. Departmental approval. This course emphasizes stormwater research, planning and design. Students learn technical skills and design techniques needed to construct projects with environmental integrity and aesthetic appeal.

LAND 5360 DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 5367 HONORS DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 5370 PLANT EPHEMERALITY (2) LEC. 2. Pr. LAND 5230. Departmental approval. Studies of innovative design with plants, exploring issues of plant phenology and dynamic lifecycle conditions.

LAND 5380 PLANTS I (2-3) LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant association, starts, form, and function. Course may be repeated for a maximum of 3 credit hours.

LAND 5410 SEMINAR ON REAL ESTATE DEVELOPMENT (3) SEM. 3. Opportunity for students to further develop expertise through supervised, independent course study related to real estate development or pursue an area of interest that may not be covered in the current curriculum.

LAND 5940 FIELDWORK ABROAD (3-6) AAB. Landscape architectural fieldwork conducted in locations outside the United States. Course may be repeated for a maximum of 9 credit hours.

LAND 6030 LANDSCAPE DESIGN METHODS (3) LEC. 3. Introduces students to skills, techniques, and ways of thinking fundamental to landscape architectural design, preparing students for future studio courses by emphasizing making, precision, experimentation, iteration, and judgment.

LAND 6040 LANDSCAPE ISSUES & PRACTICES (3) LEC. 3. Introduces students to both a selection of key issues relevant to contemporary landscape architecture and practices employed by landscape architects engaging in those issues.

LAND 6130 STUDIO I: FOUNDATION STUDIO (5) AAB/STU. 5. Teaches foundational skills (drawing, modeling, and multiple representational skills) that are necessary to progress into future design studios.

LAND 6131 FIELDWORK I (1) AAB/FLD. 1. Departmental approval. Field studies and travel related to studio.

LAND 6140 HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) AAB/SEM. 3. Pr. LAND 5230 or LAND 6230. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 6150 CONSTRUCTION I: LANDFORM & HYDROLOGY (3) LEC. 3. Departmental approval. Fundamental skills needed to analyze, understand, and manipulate landform with respect to form, grading, drainage, and stormwater management.

LAND 6160 GRAPHIC STUDIES I (2-3) AAB/LEC. Focus on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage. Introduction to vector and raster-based software and integrated analog-digital workflows. Course may be repeated for a maximum of 3 credit hours.

LAND 6170 GRAPHIC STUDIES II (3) LEC. 3. Departmental approval. Graphic and communication theories and skills in a variety of media. Photoshop, Illustrator, Indesign and AutoCAD.

LAND 6230 STUDIO II (5) STU. 5. Iterative design processes that project and test design scenarios, refining propositions based on multiple performance criteria in relation to site specificity and community context. Departmental approval. May either LAND 5230 or 6230.

LAND 6231 FIELDWORK II (1) FLD. 1. Departmental approval. Field studies and travel related to studio.

LAND 6240 HISTORY, THEORY, AND PRACTICE II: LANDSCAPE ARCHITECTURE AND CONTEMPORARY CULTURE (3) LEC. 3. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 6250 CONSTRUCTION II: MATERIALS & DETAILING (3) LEC. 3. Departmental approval. Fundamentals of design detailing of site assemblies, with emphasis on material research and construction methods.

LAND 6270 PLANT SPATIALITY (2) LEC. 2. Studies of innovative design with plants, exploring issues plant association, strata, and spatiality. Departmental approval. May count either LAND 5270 or 6270.

LAND 6290 GRAPHIC STUDIES II (3) LEC. 3. Focus on advanced digital methods and tools: mapping with GIS software; modeling, analysis, and rendering with Rhino and associated plugins; and photomontage, diagramming, and presentation assembly with Adobe software.

LAND 6330 STUDIO III (5) LEC. 5. Pr. LAND 5230 or LAND 6230. Departmental approval. Coreq. LAND 5331 and LAND 6331. Investigates eco-cultural relationships between regional, metropolitan and urban scales with emphasis on physical and social flows.

LAND 6331 FIELD STUDIES III (1) FLD. 1. Pr. LAND 5230 or LAND 6230. Departmental approval. Coreq. LAND 5330 and LAND 6330. Field studies and travel related to studio.

LAND 6340 HISTORY, THEORY, AND PRACTICE III: PRE-MODERN LANDSCAPES (3) LEC. 3. Pr. LAND 6240. Global history of landscape-making, particularly in relationship to urbanization and culture, from prehistory to the inception of modern landscape architecture. Departmental approval

LAND 6350 CONSTRUCTION III: HYDROLOGIES (2) LEC. 1. LAB. 2. Pr. LAND 5230 or LAND 6230. Departmental approval. This course emphasizes stormwater research, planning and design. Students learn technical skills and design techniques needed to construct projects with environmental integrity and aesthetic appeal.

LAND 6360 DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230 or LAND 6230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 6370 PLANT EPHEMERALITY (2) LEC. 2. Pr. LAND 5230 or LAND 6230. Departmental approval. Studies of innovative design with plants, exploring issues of plant phenology and dynamic lifecycle conditions.

LAND 6380 PLANTS I (2-3) LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant association, strata, form, and function. Course may be repeated for a maximum of 3 credit hours.

LAND 6410 SEMINAR ON REAL ESTATE DEVELOPMENT (3) SEM. 3. Opportunity for students to further develop expertise through supervised, independent course study related to real estate development or pursue an area of interest that may not be covered in the current curriculum.

LAND 6940 FIELDWORK ABROAD (3-6) AAB. Landscape architectural fieldwork conducted in locations outside the United States. Course may be repeated for a maximum of 9 credit hours.

LAND 7130 STUDIO IV (5) AAB/STU. 5. Departmental approval. Investigates design strategies and techniques for generating new resilient cultural and environmental practices within complex dynamic conditions.

LAND 7131 FIELDWORK IV (1) AAB/FLD. 1. Pr. P/C LAND 5230. Departmental approval. Coreq. LAND 7130. Field studies and travel related to studio.

LAND 7140 URBAN STUDIES II: GLOBAL URBANISM (3) LEC. 3. Departmental approval. Examines the major global drivers of urban change, contemporary theories of international urban design, geography and cultural theory.

LAND 7170 PLANTS II (2-3) AAB/LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant ephemerality, functionality, and phenology. Course may be repeated for a maximum of 3 credit hours.

LAND 7190 RESEARCH BY DESIGN: FRAMEWORKS, METHODS, AND STRATEGIES (3) SEM. 3. Design is not just about solving problems, but figuring out which questions to ask in the first place. This course guides students through the iterative process of situating, identifying, framing, and testing a student-chosen trend, topic, or question.

LAND 7230 STUDIO V: COMPREHENSIVE STUDIO (5) STU. 5. Pr. LAND 5230. The first part of a two-semester research studio which involves creating a new body of work within a theoretical context and then critically appraising this work and its theoretical framework.

LAND 7231 FIELDWORK V (1) FLD. 1. Coreq. LAND 7230. Course is directly linked to the Landscape Design Studio and offers students opportunity to travel to relevant locations to advance, contextualize, and frame the design studio. Emphasizes first-hand experiences of the landscape where careful observation and analysis occur; and introduces students to skills, techniques, and ways of thinking about site reconnaissance and gathering landscape intelligence.

LAND 7240 THEORIES AND PRACTICES (3) SEM. 3. Departmental approval. This is a reading, writing, and discussion seminar that examines the idea that the development of a democratic, civic, diverse social ecology can create more resilient and sustainable communities.

LAND 7250 CONTEMPORARY ISSUES IN LANDSCAPE ARCHITECTURE (2) LEC. 2. Pr. LAND 5230. Departmental approval. Investigation of landscape architectural issues and topics that can be undertaken by means of design, and the development of methodologies and techniques appropriate to such investigation.

LAND 7270 CONSTRUCTION III: REGENERATIVE TECHNOLOGIES (2-3) LEC. Introduces issues of land contamination and explores remediative and regenerative technologies as design strategies towards new productive futures. Course may be repeated for a maximum of 3 credit hours.

LAND 7280 DYNAMIC SYSTEMS II: REGIONAL ECOLOGIES (3) LEC. 3. This lecture/field laboratory course examines conditions of regional ecologies at multiple scales and explores possible public and private responses to these issues.

LAND 7290 GRAPHIC STUDIES III (3) SEM. 3. Fundamental concepts of Geographic Information Systems are used to create visual frameworks for gathering, interpreting, and sharing spatial data in landscape architecture practice.

LAND 7330 STUDIO VI: COMPREHENSIVE STUDIO (5) STU. 12. Pr. LAND 5230 or LAND 6230. A culmination of a design research project that ends in a public review and exhibition.

LAND 7331 FIELDWORK VI (1) FLD. 15. Coreq. LAND 7330. Directly linked to the Landscape Design Studio and offers students opportunity to travel to relevant locations to advance, contextualize, and frame the design studio. Gets students out of the classroom and emphasizes first-hand experiences of the landscape where careful observation and analysis occur. Introduces students to skills, techniques, and ways of thinking about site reconnaissance and gathering landscape intelligence.

LAND 7340 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. LAND 5230 or LAND 6230. Departmental approval. This course surveys the development and ethics of the profession of landscape architecture and presents an overview of the business and practice of the profession.

LAND 7410 SEMINAR ON HISTORY AND THEORY (3) LEC. 3. Departmental approval. Opportunity for students to further develop expertise expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7420 SEMINAR ON COMMUNITY OUTREACH (3) SEM. 3. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7430 SEMINAR ON HYDROLOGY (2-3) SEM. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum. Course may be repeated for a maximum of 3 credit hours.

LAND 7440 SEMINAR ON LANDSCAPE COMMUNICATION (3) SEM. 3. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7450 SEMINAR ON LANDSCAPE RESEARCH (2-3) SEM. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum. Course may be repeated for a maximum of 3 credit hours.

LAND 7470 LANDSCAPE ARCHITECTURE INTERNSHIP (3) PRA. 3. By approval of Chair of Landscape Architecture. A practical, professional, full-time, curriculum-related work experience in the industry of landscape architecture. Under joint supervision of employer and university. Course may be repeated for a maximum of 9 credit hours.

LAND 7900 DIRECTED STUDIES (1-3) AAB. An individual student can pursue an area of research beyond the required curriculum. Departmental approval; MLA II standing. Course may be repeated for a maximum of 9 credit hours.

LAND 7960 SPECIAL PROBLEMS IN LANDSCAPE ARCHITECTURE (2) LEC. 2. Departmental approval. Investigation of landscape architectural issues and topics that can be undertaken by means of design, and the development of methodologies and techniques appropriate to such investigation.

LAND 7970 SPECIAL TOPICS (1-6) AAB. Groups of student work with a specific faculty on a special topic in an area of interest. Course may be repeated for a maximum of 9 credit hours. ADDITIONAL PREREQUISITES: Departmental approval; MLA I standing.

LAND 7992 RESEARCH SUMMARY (1) LEC. 1.

Leadership - LEAD

Courses

LEAD 2000 FOUNDATIONS OF LEADERSHIP (3) LEC. 2. LAB. 1. Introductory course for students pursing the Leadership Minor.

LEAD 2100 WOMEN AND LEADERSHIP (3) LEC. 3. An interactive exploration of the social, political, economic, and cultural implications of women's current and historic leadership roles.

LEAD 2200 INTRODUCTION TO COMMUNITY AND CIVIC ENGAGEMENT (3) LEC. 3. Introduction to Community and Civic Engagement introduces students to the context, issues, skills, and experience of citizenship and civic leadership in a democratic society.

LEAD 3200 LEADERSHIP FOR A GLOBAL SOCIETY (3) LEC. 3. This heavily discussion- and project-based seminar, coupled with reading list and plethora of guests, activities, and online resources, offers participants the tools required or effective leadership in an increasingly global society.

LEAD 4000 LEADERSHIP IN PRACTICE (3) LEC. 3. Pr. LEAD 2000. Capstone course in interdisciplinary leadership minor.

Liberal Arts, General - LBAR

Courses

LBAR 1210 THINKING THROUGH THE ARTS (3) LEC. 3. In this course, students will attend and critically engage with a broad range of the semester’s local art exhibitions and performances. Students will reflect on their experiences as arts participants and put those responses into dialogue with secondary readings, guest lectures, and workshops with visiting artists.

LBAR 2010 LIBERAL ARTS CAREERS PREPARATION (2) LEC. 2. This course helps Liberal Arts majors to identify their strengths and talents as liberal arts students, to seek appropriate educational and extracurricular experiences, and to plan for a successful transition from college to career. May cont either LBAR 2010 or LBAR 2013.

LBAR 2020 LIBERAL ARTS ORIENTATION AND CAREERS PREPARATION (2) LEC. 2. Designed for transfer students. An introduction to the College of Liberal Arts, campus resources and involvement, and career preparation strategies to facilitate a successful transition to the college, university, and beyond.

LBAR 3910 PRACTICUM IN LIBERAL ARTS (1-3) AAB. Focused civic engagement or study abroad experiences designed to develop leadership, social responsibility, and cross-cultural awareness. Course may be repeated for a maximum of 6 credit hours.

LBAR 4010 LIBERAL ARTS CAREER PLANNING (1) DSL/PR1. 1. SU. Pr. LBAR 2010. This course aids Liberal Arts students in obtaining positions consistent with their career goals. It is a hybrid course with class meetings, career coach meetings, online lessons, career-related assignments, and experiential learning events. Must be a junior or senior student in CLA.

LBAR 4800 INTERNATIONAL STUDIES SENIOR CAPSTONE (3) LEC. 3. Pr. (LBAR 2010 or LBAR 2020) and POLI 1050 and POLI 3090 and COMM 3450 and FLGC 1150. Capstone research project involving multidisciplinary research, writing, and presentation by a student completing the International Studies major.

LBAR 4920 INTERNATIONAL STUDIES INTERNSHIP (3) LEC. 3. The International Studies internship is an opportunity for students to gain practical experience in an international organization, to expand their professional networks, identify personal learning goals that will enhance their career prospects. The applied experience will enable students to integrate academic coursework with work experience, career development goals, and personal values. They will see the practical way in which cross cultural issues and second language usage are manifested in a work environment.

Management - MNGT

Courses

MNGT 3010 PROFESSIONAL DEVELOPMENT IN MANAGEMENT (1) LEC. 1. SU. Pr. (P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107) and P/C BUSI 2010. Career planning and preparation for employment in a management position.

MNGT 3100 PRINCIPLES OF MANAGEMENT (3) LEC. 3. Management functions and the applications of management principles in organization. Junior standing. May count either MNGT 3100 or MNGT 3810.

MNGT 3107 HONORS PRINCIPLES OF MANAGEMENT (3) LEC. 3. Pr. Honors College. Management functions and the applications of management principles in organization. Fall, Spring. Junior standing.

MNGT 3460 ORGANIZATIONAL BEHAVIOR (3) LEC. 3. Pr. P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107 or P/C MNGT 3810. Study, analysis and application of theories and techniques for understanding, predicting and managing human behavior in the organizational context.

MNGT 3810 MANAGEMENT FOUNDATIONS (3) LEC. 3. Management Foundations is a broad based introductory course that will focus on management functions and applications of management principles. This course is not open to undergraduates majoring in business. Junior standing. May count either MNGT 3100 or MNGT 3810.

MNGT 3970 GLOBAL PERSPECTIVES IN BUSINESS IN SPAIN (6) LEC. 6. The objective of the course is to learn about business in Spain by immersing the student totally into the Spain language and culture. Course may be repeated for a maximum of 12 credit hours.

MNGT 4100 MANAGEMENT IN GLOBAL BUSINESS ENVIRONMENT (3) LEC. 3. Pr. MNGT 3100 or MNGT 3103 or MNGT 3107. Issues unique to managing operations in the global business environment.

MNGT 4400 ORGANIZATIONAL CHANGE (3) LEC. 3. Pr. MNGT 3100 or MNGT 3103 or MNGT 3107. The complexities involved in implementing change in organizations.

MNGT 4610 INTERNATIONAL FIELD ANALYSIS PROJECT COURSE (3) LEC. 3. Field analysis team projects with local or multinational organizations in a foreign county. Course will be taught in conjunction with COB International Studies Programs.

MNGT 4690 ETHICAL ISSUES IN MANAGEMENT (3) LEC. 3. Pr. (MNGT 3100 or MNGT 3103 or MNGT 3107) and (FINC 3610 or FINC 3613 or FINC 3617). The course is designed to help students gain a better understanding of how ethical dilemmas can impact managerial decisions.

MNGT 4800 STRATEGIC MANAGEMENT (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317) and (MNGT 3100 or MNGT 3103 or MNGT 3107) and (FINC 3610 or FINC 3613 or FINC 3617). Objectives, strategy, and policies pertaining to a total organization. Problem-solving and the relationship between the functional areas of an organization. College of Business Information Technology requirement.

MNGT 4920 INTERNSHIP (1-6) AAB/INT. SU. Pr. 2.50 GPA. MNGT 3100 or MNGT 3103 or MNGT 3107. Departmental approval. Approval by departmental intern program committee. Course may be repeated for a maximum of 6 credit hours.

MNGT 4950 SEMINAR IN MANAGEMENT (1-10) AAB/SEM. Departmental approval. Course may be repeated for a maximum of 10 credit hours.

MNGT 4970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. Pr. MNGT 3100. This course covers current topics related to managing people and organizations. or Departmental Approval. Course may be repeated for a maximum of 6 credit hours.

MNGT 5560 LEADERSHIP (3) LEC. 3. Facilitates the understanding of leadership and allows student to examine their own leadership behaviors.

MNGT 5900 DIRECTED STUDIES (1-3) AAB/IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

MNGT 5960 SPECIAL PROBLEMS IN MANAGEMENT (1-3) AAB/IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

MNGT 6560 LEADERSHIP (3) LEC. 3. Facilitates the understanding of leadership and allows student to examine their own leadership behaviors.

MNGT 6900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

MNGT 6960 SPECIAL PROBLEMS (1-3) AAB/IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

MNGT 6970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. This course covers emerging and current topics related to managing people and organizations that are not otherwise covered in existing courses.

MNGT 7970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. Departmental approval. Current topics in management.

MNGT 8030 RESEARCH METHODS IN MANAGEMENT I (3) LEC. 3. Pr. MNGT 8400. Research methodologies used in conducting research with emphasis on empirical organizational behavior research methods. A graduate-level course taken in major field, and working knowledge of SPSS or SAS.

MNGT 8310 SEMINAR IN ADVANCED ORGANIZATIONAL BEHAVIOR (3) LEC. 3. Departmental approval. Advanced study of theories and research in organizational behavior. Overarching organizational behavior paradigms and theoretical perspectives and research findings at the individual and group levels of analysis.

MNGT 8320 SEMINAR IN STRATEGY IMPLEMENTATION (3) LEC. 3. Departmental approval. Review of the major theoretical perspectives and the empirical literature supporting the research field of strategic management with an emphasis on strategy implementation.

MNGT 8330 SEMINAR IN STRATEGY FORMULATION (3) LEC. 3. Departmental approval. Review of the major theoretical perspectives and the empirical literature supporting the research field of strategic management with an emphasis on strategy formulation.

MNGT 8400 ADVANCED QUANTITATIVE METHODS FOR MANAGEMENT I (4) LEC. 3. LAB. 1. Pr. STAT 7000. Study of the application of linear regression analysis to business research. First advanced course in applied linear statistics models. STAT 7000 or approved equivalent.

MNGT 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Marketing - MKTG

Courses

MKTG 3010 PROFESSIONAL DEVELOPMENT IN MARKETING (1) LEC. 1. SU. Pr. (P/C MKTG 3310 or P/C MKTG 3313 or P/C MKTG 3317) and P/C BUSI 2010. Career planning and preparation for employment in the marketing industry.

MKTG 3310 PRINCIPLES OF MARKETING (3) LEC. 3. Study of functions, institutions, and basic problems in marketing of goods and services in a global economy. Credit will not be given for both MKTG 3310 and MKTG 3810. Junior standing.

MKTG 3317 HONORS PRINCIPLES OF MARKETING (3) LEC. 3. Pr. Honors College. Study of functions, institutions, and basic problems of marketing goods and services in a global economy. Junior standing.

MKTG 3810 FOUNDATIONS OF BUSINESS MARKETING (3) LEC. 3. Broad-based course for non-business majors that focuses on marketing functions and applications of marketing principles. Students enrolled in a business major or the Marketing minor may not enroll in this course. May count either MKTG 3310 or MKTG 3810; credit will not be awarded for both MKTG 3310 and MKTG 3810. Junior standing.

MKTG 4310 SPORTS AND ENTERTAINMENT MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Application of marketing theory and practice to the sports and entertainment business.

MKTG 4330 RETAIL MANAGEMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Principles of retail operation: facility location, layout, purchasing, pricing and merchandise control.

MKTG 4340 MARKETING AND NEW PRODUCT DEVELOPMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Marketing-based analysis of profitable new products and brand extensions involving the invention, development, and product launch plus sustaining market success.

MKTG 4390 PERSONAL SELLING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Selling strategy as an interdisciplinary business activity.

MKTG 4400 INTERNATIONAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Strategy, policy, and the variables affecting international marketing decisions.

MKTG 4410 CONSUMER BEHAVIOR (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Critical review and analysis of possible pragmatic applications of consumer behavior theories used for marketing decision making.

MKTG 4420 ADVANCED PERSONAL SELLING (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (MKTG 4390 or MKTG 4393). Grade of C or better in prerequisite courses. Advanced personal selling skills, practices and programs are covered. Emphasis is placed on sales presentations, demonstrations, negotiations and relationship building skills.

MKTG 4430 BUSINESS TO BUSINESS MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Marketing strategy and applications for business-to-business companies and markets.

MKTG 4440 MARKETING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Explores marketing ethics and social responsibility from an organizational perspective.

MKTG 4450 CUSTOMER RELATIONSHIP MANAGEMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3810 or MKTG 3317. This course is designed to compare and contrast the basic concepts of customer relationship management (CRM) as related to sales strategy. Grade of C or better in prerequisite course.

MKTG 4460 ADVERTISING STRATEGY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. The course applies research in psychology and the behavioral sciences to advertising strategy, including the methodology for planning, execution, and evaluation of advertising campaigns.

MKTG 4470 PHARMACEUTICAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. This course will examine the current pharmaceutical marketing environment from a practical perspective. Grade of C or better in prerequisite course.

MKTG 4480 PRICING STRATEGY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. The examination of pricing objectives, strategy, and tactics in marketing. Grade of C or better in prerequisite course.

MKTG 4490 NEGOTIATING AND CONFLICT RESOLUTION (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. The course integrates conceptual understanding with practical application of negotiation, with a particular emphasis on sales negotiations.

MKTG 4800 MARKETING STRATEGY (3) LEC. 3. Pr. MKTG 4360 or MKTG 5360 and Completed courses from MKTG 4050-5500 or BUSI 3250 or MKTG 4050-5500. and MKTG 3310 or MKTG 3313 or MKTG 3317. Strategic perspectives of market dynamics in different competitive environments across organizational levels. Pr MKTG 3310/3317 and Pr/Cr MKTG 4360/5360 and Pr 9 hours of Marketing electives between MKTG 4050 - 5500 or BUSI 3250. All Pr and Cr courses require a C or better. Credit will not be given for both MKTG 4800 and MKTG 4980.

MKTG 4900 DIRECTED STUDIES (1-3) AAB/IND. 3. SU. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Grade of C or better. Advanced research, reading and study in marketing. Department approval. Course may be repeated for a maximum of 6 credit hours.

MKTG 4920 MARKETING STUDENT INTERNSHIP PROGRAM (3) AAB/INT. 3. SU. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Departmental approval. Grade of C or better. Provides a relevant and meaningful work experience in a marketing or marketing-related business, industry or organization.

MKTG 4970 SPECIAL TOPICS IN MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Grade of C or better. Examination of current marketing topics. Course may be repeated for a maximum of 9 credit hours.

MKTG 5350 SERVICES MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Examination of marketing in service industries and implementation of service marketing strategies. Credit will not be given for both MKTG 4350 and MKTG 5350.

MKTG 5360 MARKETING RESEARCH AND ANALYTICS (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (BUAL 2650 or BUAL 2653). Grade of C or better in prerequisite courses. Research methods in marketing and their application to marketing problems. Credit will not be given for both MKTG 4360 and MKTG 5360.

MKTG 5370 SALES MANAGEMENT (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (P/C MKTG 4390 or P/C MKTG 4393). Grade of C or better in prerequisite courses. Principles and practices of organization and administration of sales organizations. Credit will not be given for both MKTG 4370 and MKTG 5370.

MKTG 5500 DIGITAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy. Credit will not be given for both MKTG 4500 and MKTG 5500.

MKTG 5507 HONORS DIGITAL MARKETING (3) LEC. 3. Pr. Honors College. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy. Credit will not be given for both MKTG 4500 and MKTG 5500 (5507).

MKTG 6350 SERVICES MARKETING (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Examination of marketing in service industries and implementation of service marketing strategies.

MKTG 6360 MARKETING RESEARCH AND ANALYTICS (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Research methods in marketing and their application to marketing problems.

MKTG 6370 SALES MANAGEMENT (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Principles and practices of organization and administration of sales organizations.

MKTG 6380 CUSTOMER INSIGHTS AND MARKETING SOLUTIONS (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Study of tools and strategies that businesses use to gather deep understanding about their customers' needs, behaviors, and preferences, then leverage that information to create targeted and effective marketing campaigns, ultimately leading to improved customer engagement and sales.

MKTG 6500 DIGITAL MARKETING (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy.

MKTG 7970 SPECIAL STUDIES IN MARKETING (3) LEC. 3. Pr. BUSI 7210. Departmental approval. Grade of C or better in prerequisite course. Variable content in the marketing area. Course may be repeated for a maximum of 6 credit hours.

Materials Engineering - MATL

Courses

MATL 2100 INTRODUCTION TO MATERIALS SCIENCE (3) LEC. 3. The science of solid materials and the relationship between this science and material properties.

MATL 2150 MATERIALS STRUCTURE, PROPERTIES, PROCESSING, AND PERFORMANCE (3) LEC. 2. LAB. 2, LLB. 0. Pr. (MATL 2100). Fundamental principles governing materials are explored, including how atomic structure, crystallography, and phase transformations impact material properties and performance. The structural origins of mechanical, electrical, thermal, and magnetic properties are reviewed. Material characterization and analysis techniques are explored.

MATL 2210 MATERIALS FOR SUSTAINABLE ENERGY PRODUCTION AND STORAGE (1) LEC. 1. Technologies for sustainable energy production and storage, renewable energy conversion, associated materials challenges.

MATL 2220 MATERIALS AND THE ENVIRONMENT (1) LEC. 1. Environmental impact of the production, use and disposal of materials.

MATL 2230 MINERAL RESOURCES: PROCESSING AND AVAILABILITY (1) LEC. 1. Mineral resources for engineering materials; processing and availability of mineral resources.

MATL 3100 ENGINEERING MATERIALS - METALS (3) LEC. 3. Pr. MATL 2100. The relationship among processing, microstructure, properties and engineering applications of metallic materials.

MATL 3101 METALLOGRAPHY LABORATORY (1) LAB. 3. Coreq. MATL 3100. The use of microstructural characterization to understand the relationship between microstructure and properties of metallic materials.

MATL 3200 ENGINEERING MATERIALS POLYMERS (3) LEC. 3. Pr. CHEM 1040. The synthesis, processing, structure and properties of polymers and polymer matrix composites.

MATL 3201 POLYMER AND COMPOSITES LABORATORY (1) LAB. 3. Coreq. MATL 3200. A hands-on lab course on the synthesis, processing, structure and properties of polymers and polymer matrix composites.

MATL 3300 ENGINEERING MATERIALS - CERAMICS (3) LEC. 3. Pr. MATL 2100. The engineering of ceramic materials. Structural property relationships of crystalline and glassy ceramics will be included.

MATL 4100 THERMODYNAMICS AND KINETICS OF MATERIALS (3) LEC. 3. Pr. CHEM 1040 and ENGR 2200. Laws of thermodynamics to describe phase equilibria and phase transformations in one-component and multi-component systems, mechanisms of diffusion, the interplay of thermodynamic driving forces and kinetics of mass transfer in materials systems

MATL 4500 MATERIALS PROPERTIES AND SELECTION (4) LEC. 3. LAB. 3. Pr. ENGR 2070 and MATL 3100 and MATL 3200. Methods for microstructure control. Design of processing sequences, statistical and economical analysis.

MATL 4930 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Areas of interest within Materials Engineering. Course may be repeated for a maximum of 6 credit hours.

MATL 4980 SENIOR DESIGN PROJECT (3) LEC. 1. LAB. 6. Students select, design, schedule, fabricate and perform an engineering design project related to Materials Engineering.

MATL 5100 THERMODYNAMICS OF MATERIALS SYSTEMS (3) LEC. 3. Pr. CHEM 1040 and ENGR 2200. Departmental approval. Application of thermodynamics to describe phase stability, crystal imperfections, solubility, oxidation, surface, and interface energy and transformations.

MATL 5200 MATERIALS CHARACTERIZATION (2) LEC. 2. Pr. PHYS 1610 or PHYS 1617. Principles of materials characterization including x-ray diffraction, optical and electron microscopy, and other advanced analytical methods for materials design.

MATL 5201 MATERIALS CHARACTERIZATION LABORATORY (1) LAB. 3. Coreq. MATL 5200. Laboratory on the use of x-ray diffraction, metallography, and optical/electron microscopy for materials characterization.

MATL 5300 PHASE TRANSFORMATIONS IN MATERIAL PROCESSING (3) LEC. 3. Pr. MATH 2650 and ENGR 2200. Departmental approval. Principles that govern phase transformations in materials systems and control of nucleation and growth, microstructure and morphology.

MATL 5400 PHYSICS OF SOLIDS (3) LEC. 3. Pr. PHYS 1610 or PHYS 1617. Departmental approval. The physics of solid-state materials, including the electronic, optical and magnetic properties of materials.

MATL 5420 PLASMONICS AND NANOPHOTONICS (3) LEC. 3. Pr. PHYS 1600 or PHYS 1610. This course will cover both fundamental and application aspects, with an emphasis on basic principles in nanophotonics, nanophotonic devices for light manipulation, plasmonic energy transfer, biomedical treatment, plasmonics in emerging materials, etc.

MATL 5500 NUMERICAL SIMULATION OF MATERIALS PROCESSING (3) LEC. 3. Pr. MATL 5100 and P/C MATL 5300. Departmental approval. Fundamental principles and applications of computer-aided simulation of transport phenomena in materials processing systems.

MATL 5600 CORROSION (3) LEC. 3. Pr. CHEM 1040. Fundamentals of chemical degradation of materials. Types and methods for prevention and minimization of corrosion.

MATL 5700 BIOMATERIALS (3) LEC. 3. Departmental approval. Interactions between materials and proteins, cells, and tissue as related to medicine and biotechnology including tissue culture, cardiovascular, drug delivery, tissue engineering and other applications. Thermodynamics of protein adsorption. Cell biology of adhesion. Analytical methods, sterilization, and regulations.

MATL 5720 BIOMEDICAL APPLICATIONS OF POLYMERIC MATERIALS (3) LEC. 3. LAB. 13. Pr. P/C BIOL 1030 or P/C CHEM 2070. Study of polymers used in the body for the purposes of aiding healing, correcting abnormalities, and restoring lost function.

MATL 5750 MICROSTRUCTURE AND MECHANICS OF SKELETAL TISSUES (3) LEC. 3. Pr. MATL 2100 and (ENGR 2070 or MECH 3130). Molecular and cellular microstructural influence over the viscoelastic deformation of the skeletal tissues of bone muscle, ligament, tendon and cartilage; mechanics of failure and biomechanical injury mechanisms; consideration of the physiological processes of adaptive remodeling and healing of tissues; recent developments in orthopedic implant materials.

MATL 5970 INTERMEDIATE SPECIAL TOPICS (1-3) LEC. 1-3. Departmental approval. Regular course addressing an advanced specialized area of Materials Engineering not covered by regularly offered courses. Course may be repeated with change in topics.

MATL 6100 THERMODYNAMICS OF MATERIALS SYSTEMS (3) LEC. 3. Departmental approval. Application of thermodynamics to describe phase stability, crystal imperfections, solubility, oxidation, surface and interface energy and transformations.

MATL 6200 MATERIALS CHARACTERIZATION (2) LEC. 2. Principles of materials characterization including x-ray diffraction, optical and electron microscopy, and other advanced analytical methods for materials design.

MATL 6201 MATERIALS CHARACTERIZATION LABORATORY (1) LAB. 3. Coreq. MATL 6200. Laboratory on the use of x-ray diffraction, metallography, and optical/electron microscopy for materials characterization.

MATL 6300 PHASE TRANSFORMATIONS IN MATERIAL PROCESSING (3) LEC. 3. Departmental approval. Principles that govern phase transformations in materials systems and control of nucleation and growth, microstructure, and morphology.

MATL 6400 PHYSICS OF SOLIDS (3) LEC. 3. Departmental approval. The physics of solid-state materials, including the electronic, optical, and magnetic properties of materials.

MATL 6420 PLASMONICS AND NANOPHOTONICS (3) LEC. 3. This course will cover both fundamental and application aspects, with an emphasis on basic principles in nanophotonics, nanophotonic devices for light manipulation, plasmonic energy transfer, biomedical treatment, plasmonics in emerging materials, etc.

MATL 6500 NUMERICAL SIMULATION OF MATERIALS PROCESSING (3) LEC. 3. Departmental approval. Fundamental principles and applications of computer-aided simulation of transport phenomena in materials processing systems.

MATL 6600 CORROSION (3) LEC. 3. Pr. CHEM 1040. Fundamentals of chemical degradation of materials. Types and methods for prevention and minimization of corrosion.

MATL 6700 BIOMATERIALS (3) LEC. 3. Departmental approval. Interactions between materials and proteins, cells, and tissue as related to medicine and biotechnology including tissue culture, cardiovascular, drug delivery, tissue engineering and other applications. Thermodynamics of protein adsorption. Cell biology of adhesion. Analytical methods, sterilization and regulations.

MATL 6720 BIOMEDICAL APPLICATIONS OF POLYMERIC MATERIALS (3) LEC. 3. LAB. 13. Study of polymers used in the body for the purposes of aiding healing, correcting abnormalities, and restoring lost function.

MATL 6970 INTERMEDIATE SPECIAL TOPICS IN MATERIALS ENGINEERING (1-3) LEC. 3. Departmental approval. Regular course addressing an advanced specialized area of Materials Engineering not covered by regularly offered courses. Course may be repeated with change in topics.

MATL 7050 DEFORMATION AND FAILURE OF ENGINEERING MATERIALS (3) LEC. 3. Departmental approval. Theoretical presentation of the fundamental principles of deformation and failure in materials systems.

MATL 7120 ADVANCED CERAMIC MATERIALS (3) LEC. 3. Departmental approval. Processing, structure-property relationships and applications of advanced ceramics. Structural and functional applications of ceramics.

MATL 7130 ADVANCED POLYMER SCIENCE AND TECHNOLOGY (3) LEC. 3. Departmental approval. Recent developments in both functional and structural polymers including approaches to synthesis, processing techniques, high-strength materials, electronic polymers, optic polymers, and medical polymers.

MATL 7320 THIN FILM SCIENCE AND TECHNOLOGY (3) LEC. 3. Departmental approval. Structure, properties, characterization, processing and application of thin films.

MATL 7330 MATERIALS FOR ENERGY STORAGE (3) LEC. 3. Introduction of various electrochemical energy storage devices (Batteries, Supercapacitor, etc) and discussion of advancement in development of materials for these devices. Instructor's consent required for prerequisites.

MATL 7420 SMART MATERIALS AND STRUCTURES (3) LEC. 3. Departmental approval. An introduction to the principles and applications of various sensor, actuator and functionality smart material systems and structures.

MATL 7430 DIELECTRIC MATERIALS AND DEVICES (3) LEC. 3. Pr. (MATL 6100 or MATL 6106) and (MATL 6400 or MATL 6406). Departmental approval. Processing, structure, properties, and application of dielectrics, including physics of dielectrics, material/ device design/fabrication processes, and application of dielectric materials in high-technological industry.

MATL 7610 ENGINEERING ASPECTS OF BIOLOGICAL AND CHEMICAL DETECTION (3) LEC. 3. Departmental approval. Biological and chemical scientific concepts related to biological and chemical threat agents. Existing and developing detection technologies, trends and needs for the future detection systems. Physical principles behind the detection technologies. Evaluation of detection device or system performance.

MATL 7630 NANOMATERIALS FOR BIOTECHNOLOGY (3) LEC. 3. Departmental approval. Basic understanding of nanobiotechnology and practical applications in the interdisciplinary fields of Materials Science and Engineering and biotechnology/ medicine including nanostructured biomolecules and bioarrays as well as biomolecular nanoelectronics.

MATL 7950 MATERIALS ENGINEERING SEMINAR (0) SEM. SU. Required during each semester of residency, but cannot be used toward minimum requirements for graduate degree in Materials Engineering. Content changes each semester and consists of off-campus speakers and presentations by graduate students and faculty.

MATL 7960 DIRECTED READINGS IN MATERIALS ENGINEERING (1-6) DSL/IND. SU. Departmental approval. May be taken more than one semester. Up to 6 hours may count toward the minimum degree requirements. Course may be repeated with change in topics.

MATL 7970 SPECIAL TOPICS IN MATERIALS ENGINEERING (1-3) DSL. Departmental approval. Regular course addressing an advanced specialized area of Materials Engineering not covered by regularly offered courses. Course may be repeated with change in topics.

MATL 7980 MASTER MATERIALS ENGINEERING PROJECT (1-3) LEC. 3. SU. Special design project report directed by major faculty. Topics to be determined by the student's graduate committee. Course may be repeated for a maximum of 3 credit hours.

MATL 7990 RESEARCH AND THESIS (1-15) MST. Individual mater's thesis research. Course may be repeated with change in topics.

MATL 8990 RESEARCH AND DISSERTATION (1-15) DSL/DSR. Individual doctoral dissertation research. Course may be repeated with change in topics.

Mathematics - MATH

Courses

MATH 1000 COLLEGE ALGEBRA (3) LEC. 3. Pr. ALEK score of 1. Fundamental concepts of algebra, equations and inequalities, functions and graphs, polynomial and rational functions. Does not satisfy the core requirement in mathematics. Students who have previous credit in any higher-numbered math course may not also receive credit for this course.

MATH 1100 FINITE MATH AND APPLICATIONS (3) LEC. 3. Pr. ALEK score of 50 or MATH 1000 or MATH 1003. ALEKS Math Placement Assessment score of at least a 50 or MATH 1000. Mathematics Core. Overview of finite mathematics and its applications. Graph theory, matrices, finite and conditional probability; descriptive and inferential statistics, voting methods, game theory.

MATH 1120 PRE-CALCULUS ALGEBRA (3) LEC. 3. Pr. ALEK score of 50 or MATH 1000 or MATH 1003. ALEKS Math Placement Assessment score of at least a 50 or MATH 1000. Mathematics Core. Preparatory course for calculus. This course emphasizes the algebra of functions – including polynomial, rational, exponential, and logarithmic functions. In addition, the course covers non-linear inequalities as well as systems of linear and non-linear equations and inequalities. The course also includes an introduction to sequences and series. No credit is given to students with higher-numbered math course.

MATH 1121 PRE-CALCULUS ALGEBRA WORKSHOP (1) LAB. 2. SU. Pr. P/C MATH 1000 or P/C MATH 1003 or P/C MATH 1120 or P/C MATH 1123. Workshop for College Algebra and Pre-Calculus Algebra.

MATH 1130 PRE-CALCULUS TRIGONOMETRY (3) LEC. 3. Pr. ALEK score of 64 or MATH 1120 or MATH 1123. ALEKS Math Placement Assessment score of at least a 64 or MATH 1120. Mathematics Core. Preparatory course for the calculus sequence. Basic analytic and geometric properties of the trigonometric functions. Complex numbers, De Moivre' Theorem, polar coordinates. Students who have previous credit in any higher-numbered math course may not also receive credit for this course.

MATH 1150 PRE-CALCULUS ALGEBRA AND TRIGONOMETRY (4) LEC. 4. Pr. ALEK score of 64 or MATH 1000 or MATH 1003. ALEKS Math Placement Assessment score of at least a 64 or "C" or better in MATH 1000. Mathematics Core. Algebraic functions, Exponential Logarithmic functions. Analytic and geometric properties of trigonometric functions.

MATH 1151 MATHEXCEL PRECALCULUS WORKSHOP (2) LEC. 2. SU. Coreq. MATH 1150. Appropriate score on the mathematics placement exam or grade of "C" or better in MATH 1000. Workshop for MATH 1150. Two 2-hour sessions per week.

MATH 1610 CALCULUS I (4) LEC. 4. Pr. MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or ALEK score of 78. ALEKS Math Placement Assessment score of at least a 78 or "C" or better in MATH 1130 or in MATH 1150. Mathematics Core. Limits, the derivative of algebraic, trigonometric, exponential, logarithmic functions. Applications of the derivative, antiderivatives, the definite integral and applications to area problems, the fundamental theorem of calculus. Students may receive credit for only one of MATH 1610/1617.

MATH 1617 HONORS CALCULUS I (4) LEC. 4. Pr. Honors College. MATH 1130 or MATH 1150 or ALEK minimum score of 78 or MATH 1133 or MATH 1153. ALEKS Math Placement Assessment score of at least a 78 or "C" or better in MATH 1130 or in MATH 1150. Mathematics Core. Honors version of MATH 1610. Membership in the Honors College or Departmental approval required. Recommended for all Mathematics majors: Applied Math-Actuarial Sci (ACTU), Applied Math-Discrete (APDM), Applied Mathematics (AMTH), and Mathematics (MATH). This course covers the same material as MATH 1610 but in a greater depth appropriate for Honors students and Mathematics majors. Students may receive credit for only one of MATH 1610, MATH 1617 or MATH 1680.

MATH 1620 CALCULUS II (4) LEC. 4. Pr. MATH 1610 or MATH 1613 or MATH 1617. "C" or better in MATH 1610 or in MATH 1617. Techniques of integration, applications of the integral, parametric equations, polar coordinates. Vectors, lines and planes in space. Infinite sequences and series. Students may receive credit for only one of MATH 1620 or MATH 1627.

MATH 1627 HONORS CALCULUS II (4) LEC. 4. Pr. Honors College. MATH 1610 or MATH 1613 or MATH 1617. "C" or better in MATH 1610 or in MATH 1617. Honors version of MATH 1620. Membership in the Honors College or Departmental approval required. Recommended for all Mathematics majors: Applied Math-Actuarial Sci (ACTU), Applied Math-Discrete (APDM), Applied Mathematics (AMTH), and Mathematics (MATH). The same material as MATH 1620, but in greater depth appropriate for honors students and Mathematics majors. Students may receive credit for only one of MATH 1620 or MATH 1627.

MATH 1680 CALCULUS WITH BUSINESS APPLICATIONS I (4) LEC. 4. Pr. MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or ALEK score of 68. ALEKS Math Placement Assessment score of at least a 68 or MATH 1120 or MATH 1130 or MATH 1150. Students in College of Business. Mathematics Core. Differentiation and integration of exponential and logarithmic functions, applications to business. Functions of several variables, partial derivatives, multiple integrals.

MATH 1690 CALCULUS WITH BUSINESS APPS II (3) LEC. 3. Pr. MATH 1680 or MATH 1683 or MATH 1610 or MATH 1617 or MATH 1613. Probability, random variables, probability distributions. Further topics in calculus: integration, functions of several variables, applications to probability. Applications to business and related areas. Credit will not be given to majors in Engineering or Math or Physics.

MATH 1950 FIRST YEAR MATHEMATICS SEMINAR (1) SEM. 1. This seminar will provide a shared intellectual experience for incoming freshmen mathematics majors. It will serve as a focused and interactive forum to provide a glimpse into the world of mathematics that lies beyond elementary calculus. Each semester's symposium will be devoted to a specific mathematical topic. Writing about mathematics and explaining mathematical ideas to both “math people” and “non-math people” will be emphasized. Only offered to incoming first-year students (though transfer students and higher rank students may be allowed to enroll on an approval basis). May not be repeated for credit. High School Math will be required.

MATH 2630 CALCULUS III (4) LEC. 4. Pr. MATH 1620 or MATH 1623 or MATH 1627. "C" or better in MATH 1620, MATH 1623 or MATH 1627. Multivariate calculus: vector-valued functions, partial derivatives, multiple integration, vector calculus. Credit will be given for only MATH 2630 or MATH 2637.

MATH 2637 HONORS CALCULUS III (4) LEC. 4. Pr. MATH 1620 or MATH 1623 or MATH 1627. Must have earned a "C" or better in MATH 1620, MATH 1623 or MATH 1627. Honors version of MATH 2630. Membership in the Honors College or Departmental approval required. Recommended for all Mathematics majors: Applied Math-Actuarial Sci(ACTU), Applied Math-Discrete(DISC), Applied Mathematics(AMTH), and Mathematics(MATH). The same material as MATH 2630, but in greater depth appropriate for honors students and Mathematics majors. Credit will be given for only one of MATH 2630 or MATH 2633 or MATH 2637.

MATH 2650 LINEAR DIFFERENTIAL EQUATIONS (3) LEC. 3. Pr. P/C MATH 2630 or P/C MATH 2633 or P/C MATH 2637. Introduction to ordinary differential equations, specifically linear equations of first and second order, and applications.

MATH 2660 TOPICS IN LINEAR ALGEBRA (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627. Matrices, row-reduction, systems of linear equations, (finite-dimensional) vector spaces, subspaces, bases, dimension, change of basis, linear transformations, kernels, orthogonality, Gram-Schmidt.

MATH 2667 HONORS TOPICS IN LINEAR ALGEBRA (3) LEC. 3. Pr. Honors College. MATH 1620 or MATH 1623 or MATH 1627. Must have earned a "C" or better in MATH 1620 or MATH 1623 or MATH 1627. Honors version of MATH 2660. Membership in the Honors College or Departmental approval required. Recommended for all Mathematics majors: (Applied Math-Actuarial Sci(ACTU), Applied Math-Discrete(DISC), Applied Mathematics(AMTH), and Mathematics(MATH). Topics include: matrices, row-reduction, systems of linear equations, (finite-dimensional) vector spaces, subspaces, bases, dimension, change of basis, linear transformations, kernels, orthogonality, Gram-Schmidt. The same material as MATH 2660, but in greater depth appropriate for honors students and Mathematics majors, with possible additional topics as determined by the instructor. Credit will be given for only one of MATH 2660 or MATH 2667.

MATH 2670 INTRODUCTION TO DIFFERENTIAL EQUATIONS (3) LEC. 3. Pr. MATH 1620. Rigorous introduction to ordinary differential equations with emphasis on mathematical justification of solution methods and qualitative analysis of equations and low dimensional systems. The existence and uniqueness theorems. Separable equations, exact equations and integrating factors. Second order linear equations, the Wronskian, method of undetermined coefficients, variation of parameters. Laplace transform. Higher order equations. Systems of first order equations, fundamental matrix.

MATH 2790 MATHEMATICS OF INTEREST THEORY (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627. Mathematical foundations of the theory of interest necessary as preparation for the Society of Actuaries examination on the theory of interest.

MATH 2850 MATHEMATICS FOR ELEMENTARY EDUCATION I (3) LEC. 3. For Elementary Education major or departmental approval. Mathematical insights for elementary school teachers. Sets, the structure of the number system (integers, fraction, decimals).

MATH 2860 MATHEMATICS FOR ELEMENTARY EDUCATION II (3) LEC. 3. Pr. MATH 2850. For Elementary Education majors or departmental approval. Mathematical insights into measurement and geometry for elementary school teachers. Shapes in two and three dimensions. Similarities, congruences and transformations.

MATH 2870 MATHEMATICS FOR ELEMENTARY EDUCATION III (3) LEC. 3. For Elementary Education majors or departmental approval. Mathematical insights into probability, data analysis and functions for elementary school teachers. Uncertainty, probability spaces and an introduction to statistics. Relationships, functions and change.

MATH 3010 HISTORY OF MATHEMATICS (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627. The evolution of modern mathematics from its motivational roots in the physical sciences; the lives and contributions of outstanding mathematicians; the parallel development of mathematics and western culture.

MATH 3100 INTRODUCTION TO ADVANCED MATHEMATICS (3) LEC. 3. Pr. MATH 2630 or MATH 2637. Teaching of the fundamental abilities necessary for the pursuance of mathematical studies. Logic and set theory, mathematical induction, basic number theory, basic analysis. Credit will not be given for both MATH 3100 and Math 3710.

MATH 3710 DISCRETE MATHEMATICS (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Methods of proof, induction, counting, inclusion-exclusion, discrete probability, relations, partial orders, graphs, trees, languages, grammars, finite state machines, automata. Credit will not be given for both MATH 3710 and Math 3100.

MATH 4110 ADVANCED LOGIC (3) LEC. 3. Pr. MATH 3100 or PHIL 3110. Advanced topics in logic. For example: soundness, completeness, incompleteness, set theory, proof theory, model theory, non-standard logics. May count either MATH 4110 or PHIL 4110.

MATH 4790 ACTUARIAL SEMINAR IN THE MATHEMATICS OF FINANCE (3) LEC. 3. Pr. MATH 2790. Intensive seminar in the mathematical aspects of finance, and the theory of interest primarily intended as preparation for the Society of Actuaries Course 2 examination.

MATH 4800 INTRODUCTION TO ACTUARIAL MATHEMATICS (3) LEC. 3. Pr. STAT 3600 and MATH 2790. An introduction to important actuarial methods in modeling and foundational principles of ratemaking and reserving for short-term coverages primarily intended as preparation for part of the Society of Actuaries Exam FAM.

MATH 4820 ACTUARIAL SEMINAR IN PROBABILITY (3) LEC. 3. Pr. STAT 3600. or equivalent. Intensive seminar in calculus, probability, and risk theory primarily intended as preparation for the Society of Actuaries Course 1 examination.

MATH 4930 DIRECTED STUDIES (1-3) IND. Study of individual problems or topics of interest to students. Course may be repeated for a maximum of 3 credit hours.

MATH 4970 SPECIAL TOPICS (1-4) IND. Departmental approval. An individual problems course. Each student will work under the direction of a staff member on a problem of mutual interest. Course may be repeated for a maximum of 4 credit hours.

MATH 4980 UNDERGRADUATE RESEARCH (1-3) IND. Departmental approval. Directed research in the area of specialty under faculty supervison. Course may be repeated for a maximum of 3 credit hours.

MATH 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Course may be repeated for a maximum of 6 credit hours. Membership in Honors College.

MATH 5000 MATH MODELING (3) LEC. 3. Pr. (MATH 2650 or MATH 2670) and (MATH 2660 or MATH 2667). Introduction to mathematical models and related techniques. Includes general principles involving continuous deterministic problems and a detailed, specific term project. Programming ability.

MATH 5010 VECTOR CALCULUS (3) LEC. 3. Pr. (MATH 2630 or MATH 2637 or MATH 2730) and (MATH 2660 or MATH 2667). Departmental approval. Vector-valued functions, vector fields. Gradient, divergence, curl. Integral theorems: Green's Theorem, Stoke's Theorem, Gauss' Theorem. Tensors and differential forms. Applications.

MATH 5030 COMPLEX VARIABLES WITH APPLICATIONS I (3) LEC. 3. Pr. MATH 2650 or MATH 2670. Complex functions and their elementary mapping properties; contour integration and residues; Laurent series; applications to real integrals. MATH 5030-5040 are appropriate for students of engineering or science.

MATH 5040 COMPLEX VARIABLES WITH APPLICATIONS II (3) LEC. 3. Pr. MATH 5030. Linear fractional transformations; conformal mappings; harmonic functions; applications to boundary value problems; analytic continuation; entire functions. MATH 5030-5040 are appropriate for students of engineering or science.

MATH 5050 MATRIX THEORY AND APPLICATIONS (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Canonical forms, determinants, linear equations, eigenvalue problems.

MATH 5060 ELEMENTARY PARTIAL DIFFERENTIAL EQUATIONS (3) LEC. 3. Pr. MATH 2650 or MATH 2670. First and second order linear partial differential equations with emphasis on the method of eigenfunction expansions.

MATH 5110 NUMBER THEORY (3) LEC. 3. Pr. MATH 3100. Greatest common divisor, unique factorization, linear Diophantine equations. Modular arithmetic, Chinese remainder theorem, polynomial congruences. Quadratic residues, Legendre/Jacoby symbols, quadratic reciprocity. Primes. Moebius inversion. Sums of squares. Units and the integers mod n.

MATH 5120 INFORMATION THEORY (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Information and entropy, information rate optimization and channel capacity, variable-length codes, data compression (Kraft-McMillan inequality, Huffman's algorithm), maximum likelihood decoding, Shannon's Noisy Channel Theorem.

MATH 5130 CALCULUS OF VARIATION (3) LEC. 3. Pr. MATH 2650 or MATH 2670. Fundamental concepts of extrema of functions and functionals; first and second variations; generalizations; sufficient conditions; constrained functionals; the general Lagrange Problem; optimal control.

MATH 5140 DATA COMPRESSION (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Lossless compression methods, including static, dynamic, and higher order Huffman and arithmetic encoding, interval and recency rank encoding, and dictionary methods; lossy transform methods (JPEG).

MATH 5150 ALGEBRAIC CODING THEORY (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Linear codes, Hamming and Golay codes, BCH codes, cyclic codes. Random error detection and correction. Burst-error correction. Decoding algorithms. Credit will not be given for both MATH 5150 and MATH 6150/6156.

MATH 5170 FINITE EXTREMAL SET THEORY (3) LEC. 3. Pr. (MATH 2660 or MATH 2667) and (MATH 3100 or MATH 3710). Finite posets and their Hasse diagrams. Sequences and the Erdos-Szekeres Theorem. Chains and antichains, Dilworth's Theorem. Set systems in the hypercube, Sperner's Lemma and the LYM inequality. Intersecting families, the Erdos-Ko-Rado Theorem. Isoperimetric inequalities in the hypercube. Additional topics related to recent research. Includes paper reading and presentation component.

MATH 5180 CRYPTOGRAPHY (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Classical cryptosystems, the Data Encryption Standard, one-way functions and relevant number theoretic problems (factoring, primality testing, discrete logarithm problem), RSA and other public key cryptosystems.

MATH 5200 ANALYSIS I (3) LEC. 3. Pr. MATH 3100. "C" or better in MATH 3100. Real numbers, infima and suprema; sequences and series of real numbers, convergence and limits, Cauchy sequences and completeness; topology of the real line, Bolzano-Weierstrass and Heine-Borel theorems; real-valued functions of a real variable, continuity and uniform continuity. Emphasis on proofs.

MATH 5210 ANALYSIS II (3) LEC. 3. Pr. MATH 5200. Sequences and series of functions, modes of convergence, power series, elementary functions; derivatives and antiderivatives, the mean-value theorem; Riemann integration and the Fundamental Theorem of Calculus; R^n and abstract spaces, functions of several variables. Emphasis on proofs.

MATH 5280 SYSTEMS OF DIFFERENTIAL EQUATIONS AND APPLICATIONS (3) LEC. 3. Pr. (MATH 2650 or MATH 2670) and (MATH 2660 or MATH 2667). Linear systems of differential equations, stability, phase portraits; non-linear systems, linearization, qualitative properties of orbits, Poincare-Bendixson Theorem; numerical methods; applications.

MATH 5300 THEORY OF DIFFERENCE EQUATIONS (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Linear difference equations, initial value problems, Green's functions, boundary value problems, systems, periodic solutions, nonlinear difference equations, models.

MATH 5310 INTRODUCTION TO ABSTRACT ALGEBRA I (3) LEC. 3. Pr. MATH 3100. "C" or better in MATH 3100. Groups, Groups of Permutations, isomorphisms and homomorphisms; Cyclic Groups, Quotient Groups, The Fundamental Homomorphism Theorem.

MATH 5320 INTRODUCTION TO ABSTRACT ALGEBRA II (3) LEC. 3. Pr. MATH 5310. Theory of rings and fields, Ideals and Homomorphisms, Quotient Rings, Rings of Polynomials, Extensions of Fields, Galois Theory.

MATH 5330 COMPUTATIONAL ALGEBRA (3) LEC. 3. Pr. MATH 5310. Introduction to computation in multivariate polynomial rings and finite fields. Topics include Groebner bases, Buchberger's Algorithm, kinematic/robotics problems, symbolic manipulation software.

MATH 5350 INTRODUCTION TO ALGEBRAIC GEOMETRY (3) LEC. 3. Pr. MATH 5320. LEC. 3. Pr. "C" or better in Math 5320. Affine varieties, Hilbert's Nullstellensatz, the Ideal-Variety Correspondence, irreducibility, polynomial and rational functions, projective varieties, Bezout's Theorem, dimension theory.

MATH 5370 LINEAR ALGEBRA (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Introduction to the theoretical foundations of Linear Algebra including vector spaces, basis, dimension, linear transformations, fundamental subspaces, matrix representations, eigenvalues, eigenspaces.

MATH 5380 INTERMEDIATE EUCLIDEAN GEOMETRY I (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Fundamental concepts and theorems of Euclidean geometry, introduction to higher dimensions. Regular polygons and polyhedra, symmetry groups, convexity, geometric extremum problems. Geometric transformations and their invariants.

MATH 5390 INTERMEDIATE EUCLIDEAN GEOMETRY II (3) LEC. 3. Pr. MATH 5380. Planar graphs and Euler's theorem. The symmetry group of a set, homotheties and similitudes, path, arcs and length of curves, advanced theorems on the circle.

MATH 5460 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2650 or MATH 2670. Analytical solutions of nonlinear problems, ODEs, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods.

MATH 5500 INTRODUCTION TO TOPOLOGY (3) LEC. 3. Pr. MATH 3100. C or better in MATH 3100. Metric spaces, topological spaces, continuity, compactness, connectedness, product and quotient spaces and local properties.

MATH 5630 INTRODUCTION TO NUMERICAL ANALYSIS I (3) LEC. 3. Pr. MATH 2650 or MATH 2670. Programming ability. Numerical solution of equations, polynomial approximation, numerical differentiation and integration, numerical solutions of ordinary differential equations, error analysis. Written programs using algorithms. Programming ability.

MATH 5640 INTRODUCTION TO NUMERICAL ANALYSIS II (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Programming ability. Numerical solutions of systems of linear equations, numerical computation of eigenvalues and eigen vectors, error analysis. Written programs using the algorithms.

MATH 5650 THEORY OF NONLINEAR OPTIMIZATION (3) LEC. 3. Pr. (MATH 2650 or MATH 2670) and (MATH 2660 or MATH 2667). Kuhn-Tucker conditions, quadratic programming, search methods and gradient methods, Lagrangean and penalty function methods.

MATH 5670 PROBABILITY AND STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Random variables, discrete and absolutely continuous distributions. Poisson process, expectation and conditional expectation. Moment generating functions, limit distributions. Emphasis on probabilistic reasoning and problem solving. Credit will not be given for both MATH 5670 and STAT 5670.

MATH 5680 PROBABILITY AND STOCHASTIC PROCESSES II (3) LEC. 3. Pr. MATH 5670 or STAT 5670. Multivariate distributions. Central Limit Theorem, Laplace transforms, convolutions, simulation, renewal processes, Continuous-time Markov Chains, Markov renewal and semi-regenerative processes, Brownian motion and diffusion. Credit will not be given for both MATH 5680 and STAT 5680.

MATH 5710 LINEAR OPTIMIZATION (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Theory and algorithms for standard linear optimization problems. Simplex algorithm and duality, shortest paths, network flows, min-cost flows and circulations, out-of-kilter method, assignments and matchings.

MATH 5730 ENUMERATION (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Using generating functions and Polya theory to do sophisticated counting. Permutations and combinations, inclusion-exclusion, partitions, recurrence relations, group actions, Polya theory with applications.

MATH 5740 SOCIAL NETWORK ANALYSIS (3) LEC. 3. Pr. (MATH 3100 or COMP 2240) and (P/C COMP 1220 or P/C COMP 1230). Introduction to Social Network Analysis and Python, graph properties and network visualization, Network Metrics, Cascading Behavior in Networks, 2-Mode network, Large-scale structure of networks and corresponding Algorithms, Clustering, Ego analysis and Bipartite networks, Exponential random graph modeling, and Network evolution.

MATH 5750 INTRODUCTION TO GRAPH THEORY (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Algorithmic and theoretical aspects of graph theory: matchings, colorings, scheduling problems, Hamilton cycles. Euler tours, spanning trees, network reliability, connectivity, extremal graphs, planar graphs, disjoint paths.

MATH 5770 COMBINATORIAL DESIGNS (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Latin squares, mutually orthogonal latin squares, orthogonal and perpendicular arrays, Steiner triple systems, block designs, difference sets and finite geometries.

MATH 5800 ACTUARIAL MATHEMATICS I (3) LEC. 3. Pr. MATH 2790 and STAT 3600. A development of theoretical basis of survival models, life table, life insurance benefits, annuities, premium calculation and policy values primarily intended as preparation for part of the Society of Actuaries Exam FAM.

MATH 5810 ACTUARIAL MATHEMATICS II (4) LEC. 4. Pr. MATH 5800. This course develops the knowledge of theoretical basis to traditional and modern contingent payment models and the application of those models to insurance and other financial risks. It is primarily intended as preparation for the Society of Actuaries Exam ALTAM.

MATH 5840 FOUNDATIONS OF NUMBER THEORY FOR SECONDARY SCHOOL TEACHERS (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Divisibility, Diophantine equations, congruencies.

MATH 5850 NUMERICAL ANALYSIS FOR SECONDARY TEACHERS (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. The numerical solutions of selected problems arising in calculus and algebra along with the programming techniques. Computer familiarity.

MATH 5860 FOUNDATIONS OF NON-EUCLIDEAN GEOMETRY FOR SECONDARY SCHOOL TEACHERS (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. B.L. geometry, hyperbolic geometry, absolute geometry, parallel postulates.

MATH 5870 FINANCIAL MATHEMATICS (3) LEC. 3. Pr. (MATH 1610 or MATH 1617) and (MATH 1620 or MATH 1627) and (MATH 2650 or MATH 2670) and STAT 3600. Options and spreads, pricing of such options in accordance with the Black-Scholes Equation, and the binomial pricing model.

MATH 5970 SPECIAL TOPICS (1-3) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 3 credit hours.

MATH 6000 MATHEMATICAL MODELING: CONTINUOUS (3) LEC. 3. Introduction to mathematical models and related techniques. Includes general principles involving continuous deterministic problems and a detailed, specific term-project. Programming ability.

MATH 6010 VECTOR CALCULUS (3) LEC. 3. Pr. (MATH 2630 or MATH 2637) and (MATH 2660 or MATH 2667). Departmental approval. Vector-valued functions, vector fields. Gradient, divergence, curl. Integral theorems: Green's Theorem, Stoke's Theorem, Gauss' Theorem. Tensors and differential forms. Applications.

MATH 6030 COMPLEX VARIABLES WITH APPLICATIONS I (3) LEC. 3. Complex functions and their elementary mapping properties; contour integration and residues; Laurent series; applications to real integrals. MATH 6030-6040 are appropriate for students of engineering or science.

MATH 6050 MATRIX THEORY AND APPLICATIONS (3) LEC. 3. Canonical forms, determinants, linear equations, eigenvalue problems.

MATH 6060 ELEMENTARY PARTIAL DIFFERENTIAL EQUATIONS (3) LEC. 3. First and second order linear partial differential equations with emphasis on the method of eigenfunction expansions.

MATH 6110 NUMBER THEORY (3) LEC. 3. Greatest common divisor, unique factorization, linear Diophantine equations. Modular arithmetic, Chinese remainder theorem, polynomial congruences. Quadratic residues, Legendre/Jacoby symbols, quadratic reciprocity. Primes. Moebius inversion. Sums of squares. Units and the integers mod n.

MATH 6120 INFORMATION THEORY (3) LEC. 3. Information and entropy, information rate optimization and channel capacity, variable-length codes, data compression (Kraft-McMillan inequality, Huffman's algorithm), maximum likelihood decoding, Shannon's Noisy Channel Theorem.

MATH 6140 DATA COMPRESSION (3) LEC. 3. Lossless compression methods, including static, dynamic, and higher order Huffman and arithmetic encoding, interval and recency rank encoding, and dictionary methods; lossy transform methods (JPEG).

MATH 6150 ALGEBRAIC CODING THEORY (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Linear codes, Hamming and Golay codes, BCH codes, cyclic codes. Random error detection and correction. Burst-error correction. Decoding algorithms. Credit will not be given for both MATH 5150 and MATH 6150/6156.

MATH 6170 FINITE EXTREMAL SET THEORY (3) LEC. 3. Pr. (MATH 2660 or MATH 2667) and (MATH 3100 or MATH 3710). Finite posets and their Hasse diagrams. Sequences and the Erdos-Szekeres Theorem. Chains and antichains, Dilworth's Theorem. Set systems in the hypercube, Sperner's Lemma and the LYM inequality. Intersecting families, the Erdos-Ko-Rado Theorem. Isoperimetric inequalities in the hypercube. Additional topics related to recent research. Includes paper reading and presentation component. Graduate version of MATH 5170.

MATH 6180 CRYPTOGRAPHY (3) LEC. 3. Classical cryptosystems, the Data Encryption Standard, one-way functions and relevant number theoretic problems (factoring, primality testing, discrete logarithm problem), RSA and other public key cryptosystems.

MATH 6200 ANALYSIS I (3) LEC. 3. or equivalent course, subject to departmental approval. Real numbers, infima and suprema; sequences and series of real numbers, convergence and limits, Cauchy sequences and completeness; topology of the real line, Bolzano-Weierstrass and Heine-Borel theorems; real-valued functions of a real variable, continuity and uniform continuity; intermediate#value and extreme-value theorems. Emphasis on proofs.

MATH 6210 ANALYSIS II (3) LEC. 3. Pr. MATH 6200. Sequences and series of functions, modes of convergence, power series, elementary functions; derivatives and power series, elementary functions; derivatives and antiderivatives, the mean-value theorem; Riemann integration and the Fundamental Theorem of Calculus; R^n and abstract spaces, functions of several variables. Emphasis on proofs.

MATH 6310 INTRODUCTION TO ABSTRACT ALGEBRA I (3) LEC. 3. Departmental approval. Groups, Groups of Permutations, isomorphisms and homomorphisms; Cyclic Groups, Quotient Groups, The Fundamental Homomorphism Theorem.

MATH 6320 INTRODUCTION TO ABSTRACT ALGEBRA II (3) LEC. 3. Pr. MATH 6310. Theory of rings and fields, Ideals and Homomorphisms, Quotient Rings, Rings of Polynomials, Extensions of Fields, and Galois Theory.

MATH 6330 COMPUTATIONAL ALGEBRA (3) LEC. 3. Pr. MATH 6310. Introduction to computation in multivariate polynomial rings and finite fields. Topics include Groebner bases, Buchberger's Algorithm, kinematic/robotics problems, and symbolic manipulation software.

MATH 6350 INTRODUCTION TO ALGEBRAIC GEOMETRY (3) LEC. 3. Pr. MATH 5320. LEC. 3. Pr. "C" or better in Math 5320. Affine varieties, Hilbert's Nullstellensatz, the Ideal-Variety Correspondence, irreducibility, polynomial and rational functions, projective varieties, Bezout's Theorem, dimension theory.

MATH 6370 LINEAR ALGEBRA (3) LEC. 3. Introduction to the theoretical foundations of Linear Algebra Algebra including vector spaces, basis, dimension, linear transformations, fundamental subspaces matrix representations, eigenvalues, eigenspaces.

MATH 6380 INTERMEDIATE EUCLIDEAN GEOMETRY I (3) LEC. 3. Fundamental concepts and theorems of Euclidean geometry, introduction to higher dimensions. Regular polygons and polyhedra, symmetry groups, convexity, geometric extremum problems. Geometric transformations and their invariants.

MATH 6390 INTERMEDIATE EUCLIDEAN GEOMETRY II (3) LEC. 3. Pr. MATH 6380. Planar graphs and Euler's theorem. The symmetry group of a set, homotheties and similitudes, path, arcs and length of curves, and advanced theorems on the circle.

MATH 6460 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2660 or MATH 2667. Departmental approval. Analytical solutions of nonlinear problems, ODES, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods. May count either AERO/MATH 5460 or AERO/MATH 6460.

MATH 6500 INTRODUCTION TO TOPOLOGY (3) LEC. 3. Departmental approval. Metric spaces, topological spaces, continuity, compactness, connectedness, product and quotient spaces and local properties.

MATH 6630 INTRODUCTION TO NUMERICAL ANALYSIS I (3) LEC. 3. Numerical solution of equations, polynomial approximation, numerical differentiation and integration, numerical solutions of ordinary differential equations, error analysis. Written programs using algorithms. Programming ability.

MATH 6640 INTRODUCTION TO NUMERICAL ANALYSIS II (3) LEC. 3. Numerical solutions of systems of linear equations, numerical computation of eigenvalues and eigenvectors, error analysis. Written programs using the algorithms. Programming ability.

MATH 6650 THEORY OF NONLINEAR OPTIMIZATION (3) LEC. 3. Kuhn-Tucker conditions, quadratic programming, search methods and gradient methods, Lagrangean and penalty function methods.

MATH 6670 PROBABILITY AND STOCHASTIC PROCESSES I (3) LEC. 3. Random variables, discrete and absolutely continuous distributions. Poisson process, expectation and conditional expectation. Moment generating functions, limit distributions. Emphasis on probabilistic reasoning and problem solving. Credit will not be given for both MATH 6670 and STAT 6670.

MATH 6680 PROBABILITY AND STOCHASTIC PROCESSES II (3) LEC. 3. Pr. MATH 6670 or MATH 6676 or STAT 6670 or STAT 6676. Multivariate distributions. Central Limit Theorem, Laplace transforms, convolutions, simulation, renewal processes, Continuous-time Markov Chains, Markov renewal and semi- regenerative processes, Brownian motion and diffusion. Credit will not be given for both MATH 6680 and STAT 6680.

MATH 6710 LINEAR OPTIMIZATION (3) LEC. 3. Theory and algorithms for standard linear optimization problems. Simplex algorithm and duality, shortest paths, network flows, min-cost flows and circulations, out-of-kilter method, assignments and matchings.

MATH 6730 ENUMERATION (3) LEC. 3. Using generating functions and Polya theory to do sophisticated counting. Permutations and combinations, inclusion-exclusion, partitions, recurrence relations, group actions, Polya theory with applications.

MATH 6740 SOCIAL NETWORK ANALYSIS (3) LEC. 3. Introduction to Social Network Analysis and Python, graph properties and network visualization, Network Metrics, Cascading Behavior in Networks, 2-Mode network, Large-scale structure of networks and corresponding Algorithms, Clustering, Ego analysis and Bipartite networks, Exponential random graph modeling, and Network evolution.

MATH 6750 INTRODUCTION TO GRAPH THEORY (3) LEC. 3. Algorithmic and theoretical aspects of graph theory: matchings, colorings, scheduling problems, Hamilton cycles. Euler tours, spanning trees, network reliability, connectivity, extremal graphs, planar graphs, disjoint paths.

MATH 6770 COMBINATORIAL DESIGNS (3) LEC. 3. Latin squares, mutually orthogonal latin squares, orthogonal and perpendicular arrays, Steiner triple systems, block designs, difference sets and finite geometries.

MATH 6800 ACTUARIAL MATHEMATICS I (3) LEC. 3. Departmental approval. A development of theoretical basis of survival models, life table, life insurance benefits, annuities, premium calculation and policy values primarily intended as preparation for part of the Society of Actuaries Exam FAM.

MATH 6810 ACTUARIAL MATHEMATICS II (4) LEC. 4. Pr. MATH 6800. This course develops the knowledge of theoretical basis to traditional and modern contingent payment models and the application of those models to insurance and other financial risks. It is primarily intended as preparation for the Society of Actuaries Exam ALTAM.

MATH 6840 NUMBER SYSTEMS AND ALGEBRA FOR TEACHERS (3) LEC. 3. Pr. MATH 3100. Connections of advanced college-level mathematics with the secondary mathematics curriculum, focusing on number systems, algebra, and functions, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving. Admission to a program in Secondary Mathematics Education or department approval required.

MATH 6850 FUNCTIONS AND MATHEMATICAL MODELING FOR TEACHERS (3) LEC. 3. Pr. (MATH 2650 or MATH 2670) or MATH 2660 or MATH 2667. Connections of advanced college-level mathematics with the secondary mathematics curriculum, focusing on functions and mathematical modeling, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving. Admission to a program in Secondary Mathematics Education or department approval required.

MATH 6860 GEOMETRY FOR TEACHERS (3) LEC. 3. Pr. MATH 2660 or MATH 2667 or MATH 3100. Connect advanced college-level mathematics with the secondary mathematics curriculum, focusing on geometry, to develop mathematical knowledge relevant to teaching. The contents include axiomatic systems of geometry, transformational geometry, and similarity. Appropriate technology and mathematics problem solving skills will be introduced. Admission to a program in Secondary Mathematics Education or department approval required.

MATH 6870 FINANCIAL MATHEMATICS (3) LEC. 3. Pr. (MATH 1610 or MATH 1617) and (MATH 1620 or MATH 1627) and (MATH 2650 or MATH 2670) and STAT 3600. Options and spreads, pricing of such options in accordance with the Black-Scholes Equation, and the binomial pricing model.

MATH 6970 SPECIAL TOPICS (1-3) DSL. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 3 credit hours.

MATH 7000 APPLIED MATHEMATICS I (3) LEC. 3. Departmental approval. Linear spaces, matrices, eigenvalues, least squares solutions to linear systems, Hilbert spaces, orthogonal expansions, integral equations, compact operators, Green's functions for boundary value problems, eigenfunction expansions.

MATH 7010 APPLIED MATHEMATICS II (3) LEC. 3. Pr. MATH 7000 or MATH 7006. Calculus of variations, asymptotic expansions, Spectral theory, Fourier transform, Partial differential equations, transform methods and eigenfunction expansions, vibrations, diffusion processes, equilibrium states, Green's functions, boundary layer problems.

MATH 7110 DISCRETE GEOMETRY AND CONVEXITY I (3) LEC. 3. Departmental approval. Geometric objects and configurations with discrete symmetry groups. Regular polygons and polyhedra. Regular arrangements. Plane tilings and patterns.

MATH 7120 DISCRETE GEOMETRY AND CONVEXITY II (3) LEC. 3. Pr. MATH 7110. Convexity and related geometric extremum problems. Packing and covering. Arrangements of extreme density.

MATH 7140 INTRODUCTION TO MODEL THEORY (3) LEC. 3. Departmental approval. First-order languages, Satisfaction. Consequences. The completeness and compactness theorems, models constructed from constants. Elementary substructures and embeddings, Lowenheim-Skolem-Tarskj theorems. Ultraproducts and ultrapowers.

MATH 7150 AXIOMATIC SET THEORY I (3) LEC. 3. Departmental approval. Introduction to modern set theory. The axioms of ZFC, ordinals and cardinals, closed unbounded sets, the constructible universe L, Martin's Axiom.

MATH 7160 AXIOMATIC SET THEORY II (3) LEC. 3. Pr. MATH 7150. Introduction to forcing, independence results, iterated forcing, consistency of Martin's Axiom.

MATH 7180 ALGORITHMIC ALGEBRA I (3) LEC. 3. Departmental approval. Fundamental aspects of algorithmic algebra. Noetherian rings. Theory of Groebner bases. Hilbert Nullstellensatz. Elimination theory. Applications to graph theory and algebraic geometry.

MATH 7190 ALGORITHMIC ALGEBRA II (3) LEC. 3. Pr. MATH 7180. Modules. Groebner bases for modules and syzygy computations. Improved Buchberger's algorithm. Computation of Ext. Groebner bases over rings. Primary decomposition of ideals. Dimension theory.

MATH 7200 REAL ANALYSIS I (3) LEC. 3. Departmental approval. Sigma algebras, measures, measurable functions, integratability, properties of Lebesgue measure, density, Lusin's theorem, Egeroff's theorem, product measures, Fubini's theorem. Limit theorems involving pointwise convergence and integration.

MATH 7210 REAL ANALYSIS II (3) LEC. 3. Pr. MATH 7200. L-p spaces, completeness, duals. Weak convergence, norm convergence, pointwise convergence, convergence in measure. Signed and complex measures. Absolute continuity, Lebesgue decomposition. Measure theory, Lebesgue integration, introductory functional analysis.

MATH 7230 FUNCTIONS OF A COMPLEX VARIABLE I (3) LEC. 3. Departmental approval. Complex numbers, analytic functions, derivatives, Cauchy integral theorem and formulae, Taylor and Laurent series, analytic continuation, residues, maximum principles, Riemann surfaces.

MATH 7240 FUNCTIONS OF A COMPLEX VARIABLE II (3) LEC. 3. Pr. MATH 7230. Conformal mappings, families of analytic functions and harmonic analysis.

MATH 7280 ADVANCED THEORY OF ORDINARY DIFFERENTIAL EQUATIONS I (3) LEC. 3. Departmental approval. Existence and continuation theorems for ordinary differential equations, continuity and differentiability with respect to initial conditions, linear systems, differential inequalities, Sturm theory.

MATH 7290 ADVANCED THEORY OF ORDINARY DIFFERENTIAL EQUATIONS II (3) LEC. 3. Pr. MATH 7280. Stability theory, periodic solutions, boundary value problems, disconjugacy of linear equations, Green's functions, upper and lower solutions, a priori bounds methods, current research.

MATH 7310 ALGEBRA I (3) LEC. 3. Departmental approval. Groups, Lagrange's Theorem, normal subgroups, factor groups, Isomorphism and Correspondence Theorems. Symmetric groups, alternating groups, free groups, torsion groups. Introduction to rings, correspondence theorems.

MATH 7320 ALGEBRA II (3) LEC. 3. Pr. MATH 7310. Rings, modules, vector spaces, and semi-simple modules. Commutative rings; prime and primary ideals, PIDs are UFD, factorizations in integral domains, field extensions, the Galois Correspondence Theorem.

MATH 7340 RING THEORY (3) LEC. 3. Pr. MATH 7320. Topics on: commutative rings (Cohen-Seidenberg theorems, Krull Intersection Theorem, Dedekind domains), or noncommutative rings (projective modules over Artinian algebras, representation type, Noether-Skolem Theorem, division algebras).

MATH 7350 ALGEBRAIC GEOMETRY (3) LEC. 3. Pr. MATH 7320 and P/C MATH 7500. Pr. ``C" or better in Math 7320 and Math 7500. Affine and projective varieties, the Ideal-Variety Correspondence, morphisms and rational maps of varieties, Bezout's Theorem, sheaves, schemes, divisors, sheaf cohomology.

MATH 7360 LIE ALGEBRA (3) LEC. 3. General introduction of Lie algebras including their structures and classifications of semisimple Lie algebras.

MATH 7370 MATRICES I (3) LEC. 3. Departmental approval. Jordan form, functions of a matrix, spectral theorem, singular values, norms, quadratic forms, field of values, inertia; topics of current interest.

MATH 7380 MATRICES II (3) LEC. 3. Pr. MATH 7370. Matrix stability and inertia, inequalities for matrix eigenvalues and singular values, The Kronecker and Hadamard matrix products, the exponential and logarithm matrix map; topics of current interest.

MATH 7390 MULTILINEAR ALGEBRA (3) LEC. 3. Pr. MATH 5370 or MATH 6370. Multilinear algebra, symmetry class of tensors, induced operators, generalized matrix functions, and current research topics.

MATH 7400 FUNCTIONAL ANALYSIS I (3) LEC. 3. Pr. MATH 7210. Departmental approval. Bounded linear transformations and functionals on Banach and Hilbert spaces, weak topologies, linear operators, adjoints, compact operators. Banach algebras, spectral theory, Gelfand transform.

MATH 7410 FUNCTIONAL ANALYSIS II (3) LEC. 3. Pr. MATH 7400. C*-algebras, Hermitian, self adjoint elements, functional calculus for commutative algebras. Normal operators on Hilbert space, spectral theorem, applications, symmetric and self-adjoint operators, normal operators, the spectral theorem.

MATH 7440 PARTIAL DIFFERENTIAL EQUATIONS I (3) LEC. 3. Departmental approval. Second order linear elliptic and hyperbolic equations stressing non-linear and numerical problems, characteristic domains of dependence, energy integrals, finite difference schemes, Sobolev spaces, maximum principle.

MATH 7450 PARTIAL DIFFERENTIAL EQUATIONS II (3) LEC. 3. Pr. MATH 7440. Parabolic and hyperbolic equations, stressing numerical problems, characteristics, domains of dependence, energy integrals, reaction-diffusion problems, Navier-Stokes equations, fixed-point and Galerkin methods.

MATH 7460 ADVANCED PERTURBATION METHODS (3) LEC. 3. Departmental approval. Solutions of nonlinear problems and integrals using WKB, Rayleigh-Janzen, Generalized Scales, Latta, van der Pol, Watson, Laplace, Adomian, homotopy, Pade, Liouville-Green and Burmann transformations. May count either AERO 7460/7466 or MATH 7460/7466.

MATH 7500 TOPOLOGY I (3) LEC. 3. Departmental approval. Separation and countability axioms, covering properties, completeness, connectedness, metric spaces and metrizability, product and quotient spaces, function spaces.

MATH 7510 TOPOLOGY II (3) LEC. 3. Pr. MATH 7500. Homotopy, elementary properties of retracts, fundamental groups, covering spaces, computations of fundamental groups.

MATH 7530 CONTINUUM THEORY I (3) LEC. 3. Pr. MATH 7510. Departmental approval. Topics such as inverse limits, decompositions, hyperspaces, special mappings, topological structures from the pathological (indecomposable continua), to the straightforward (Peano continua).

MATH 7540 CONTINUUM THEORY II (3) LEC. 3. Pr. MATH 7530. Topics in continuum theory such as confluent mappings, epsilon mappings, chains, to-the-boundary theorems, relationship to inverse limits, advanced topics.

MATH 7550 SET THEORETIC TOPOLOGY I (3) LEC. 3. Pr. MATH 7510. Departmental approval. Compactifications, covering properties, metrization theorems and generalized metrizable spaces, topological groups.

MATH 7560 SET THEORETIC TOPOLOGY II (3) LEC. 3. Pr. MATH 7550. Topological Groups, Cardinal invariants, use of set-theoretic axioms such as Martin's Axiom, independence results, advanced topics.

MATH 7600 ADVANCED NUMERICAL MATRIX ANALYSIS (3) LEC. 3. Departmental approval. Topics selected from: discretization matrices, sparse matrices, QR-algorithm, symmetric eigenvalue problems, singular value decomposition, pseudo-inverses, simplex method, matrix algorithms for vector computers.

MATH 7610 NUMERICAL SOLUTION OF PARTIAL DIFFERENTIAL EQUATIONS I (3) LEC. 3. Pr. (MATH 2650 or MATH 2670) and (MATH 2660 or MATH 2667) and (MATH 5630 or MATH 6630) and (MATH 5640 or MATH 6640). Finite difference methods for ordinary and partial differential equations.

MATH 7630 NUMERICAL SOLUTION OF PARTIAL DIFFERENTIAL EQUATIONS II (3) LEC. 3. Pr. MATH 7610. Finite element methods for partial differential equations.

MATH 7700 GRAPH THEORY (3) LEC. 3. Algorithmic, enumerative and theoretical aspects of graph theory: matchings and factors, colorings, Hamiltonicity, connectivity, trees, extremal graphs, planarity. May count either MATH 6750 or MATH 7700.

MATH 7710 COMPUTATIONAL GEOMETRY (3) LEC. 3. Departmental approval. Design and time-complexity of computer algorithms for geometry problems studying the geometric ideas needed for computer-aided design, computer graphics and robotics.

MATH 7720 INTRODUCTION TO CODING THEORY (3) LEC. 3. Introduction to methods and algorithms for reliable communications through error control coding. BCH, Reed- Solomon, Reed-muller codes, convolutional codes, Berlekamp-Massey, Viterbi, and iterated decoding algorithms.

MATH 7730 ADVANCED TOPICS IN CODING THEORY (3) LEC. 3. Pr. MATH 7720. Departmental approval. Structure and theoretical properties of codes and related algorithms. Relations to other combinatorial and algebraic objects stressed.

MATH 7740 ADVANCED COMBINATORIAL DESIGNS (3) LEC. 3. Topics of current interest and research in combinatorial design theory. Areas included: latin squares, embeddings, Wilson's constructions, quadruple systems, Hadamard designs, graph designs, orthogonal arrays.

MATH 7750 ADVANCED TOPICS IN GRAPH THEORY (3) LEC. 3. Pr. MATH 6750 or MATH 7700. Topics of current interest and recent research in graph theory. May include edge colorings, algebraic graph theory, network flows, factor theory.

MATH 7760 INTRODUCTION TO ALGEBRAIC TOPOLOGY I (3) LEC. 3. Pr. MATH 7510. Departmental approval. Homology of chain complexes, the axioms of homology and their verification, computations of homology groups.

MATH 7770 INTRODUCTION TO ALGEBRAIC TOPOLOGY II (3) LEC. 3. Pr. MATH 7760. Homology with coefficients and universal coefficient theorem theorems, Cohomology and universal coefficient theorems, homology of products of spaces, cup and cap products, duality in manifolds.

MATH 7780 ADVANCED ALGEBRAIC TOPOLOGY I (3) LEC. 3. Departmental approval. Advanced topics in homology, cohomology, and duality with relations to and further study of homotopy theory. Applications to and further study of manifolds and geometric topology.

MATH 7790 ADVANCED ALGEBRAIC TOPOLOGY II (3) LEC. 3. Pr. MATH 7780. Continuation of MATH 7780; advanced topics in homology, cohomology, and duality with relations to and further study of homotopy theory. Applications to and further study of manifolds and geometric topology.

MATH 7800 PROBABILITY I (3) LEC. 3. Pr., a full year of undergraduate mathematical analysis at a level commensurate with MATH 5200/5210. Measure-theoretic foundations, independence, conditioning, martingales, Markov property, stationarity, random walks, Markov chains, Poisson processes.

MATH 7810 PROBABILITY II (3) LEC. 3. Pr. MATH 7800. Classical and modern topics in stochastic processes (Markov chains, Poisson process, Brownian motion). Applications and stochastic models (queues, stationary processes, population dynamics, finances). Credit will not be given for both MATH 7810 and STAT 7810.

MATH 7820 APPLIED STOCHASTIC PROCESSES I (3) LEC. 3. Classical and modern topics in stochastic processes (Markov processes, Random Walks, Martingales, Brownian motion). Introduction to stochastic integrals and differential equations. Applications (queues, population dynamics, chaos, finances). Credit will not be given for both MATH 7820 and STAT 7820.

MATH 7830 APPLIED STOCHASTIC PROCESSES II (3) LEC. 3. Classical and modern topics in stochastic processes (Markov processes, Random Walks, Martingales, Brownian motion). Introduction to stochastic integrals and differential equations. Applications (queues, population dynamics, chaos finances).

MATH 7870 REAL FUNCTIONS AND DESCRIPTIVE SET THEORY I (3) LEC. 3. Pr. MATH 7210 or MATH 7500. Borel classification of sets, the Baire classification of real functions. Derivatives and approximately continuous functions. The Lebesegue density topology.

MATH 7880 REAL FUNCTIONS AND DESCRIPTIVE SET THEORY II (3) LEC. 3. Pr. MATH 7870. Analytic and coanalytic sets. Lebesegue measurable, universally measurable and Marczewski measurable sets and functions. Baire properties. Singular sets. Category analogs to real analysis.

MATH 7950 SEMINAR (1-3) AAB. SU. Course may be repeated for a maximum of 6 credit hours.

MATH 7960 SPECIAL PROBLEMS (1-10) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 10 credit hours.

MATH 7970 SPECIAL TOPICS (1-10) IND. Departmental approval. Topics may vary as needed. Course may be repeated with change in topics.

MATH 7980 RESEARCH AND SPECIAL PROJECT IN APPLIED MATHEMATICS (1-10) RES. SU. Departmental approval. For students working on the Master of Applied Mathematics degree with concentration in numerical analysis. Course may be repeated for a maximum of 10 credit hours.

MATH 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

MATH 8310 HOMOLOGICAL ALGEBRA I (3) LEC. 3. Pr. MATH 7320. Departmental approval. Homology and cohomology. Hom and Tensor functors; the adjoint isomorphisms, injective/projective modules, flat modules, the classification of certain rings using homological tools.

MATH 8330 INTRODUCTION TO LIE GROUPS (3) LEC. 3. Pr. MATH 7310 or MATH 7370. Introduce Lie groups via matrix groups. Topics include exponential map, Lie algebras, classical groups, structures and classifications, manifolds, representations.

MATH 8960 SPECIAL PROBLEMS (1-10) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 15 credit hours.

MATH 8970 SPECIAL TOPICS (1-10) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 15 credit hours.

MATH 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Mechanical Engineering - MECH

Courses

MECH 2020 MANUFACTURING TECHNOLOGY LAB (2) LEC. 3. LAB. 1. Pr. PHYS 1600. Manufacturing technology lab for introduction of processes such as cutting, forming, machining, and joining of metals and other materials. Basic and applied machine shop and manufacturing floor safety.

MECH 2130 MECHANICAL ENGINEERING STATICS (3) LEC. 2.5. Pr. (MATH 1620 or MATH 1627) and (PHYS 1600 or PHYS 1607). Forces, vectors, moments and free body diagrams. Systems in mechanical equilibrium.

MECH 2140 KINEMATICS AND DYNAMICS (3) LEC. 3. Pr. (MATH 2630 or MATH 2637) and MECH 2130. Kinematics and kinetics of particles and rigid bodies with an emphasis on mechanical engineering applications such as machines, mechanisms, cams, gears and vibrations. MECH 2130 with a grade of C or higher.

MECH 2220 COMPUTER-AIDED ENGINEERING (3) LEC. 2. LAB. 3. Pr. (ENGR 1110 or ENGR 1113) and (COMP 1200 or COMP 1220 or COMP 1230) and P/C MATH 2650. The computer as a tool in mechanical engineering.

MECH 2AA0 MECHANICAL ENGINEERING PROGRESS ASSESSMENT I (0) LAB. SU. Pr. MECH 2130 and MATH 2650 and PHYS 1610. Progress Assessment Examination in: multivariate calculus, differential equations, chemistry, physics, statics, dynamics. Course may be repeated with change in topics.

MECH 3020 THERMODYNAMICS II (3) LEC. 3. Pr. ENGR 2010. Gas and Vapor power cycles, Refrigeration cycles, Gas and gas-vapor mixtures, Chemical reactions, Chemical and phase equilibrium, Thermodynamic property relations. Pr. ENGR 2010 with a grade of C or higher.

MECH 3030 FLUID MECHANICS (3) LEC. Pr. MECH 2130 and ENGR 2010 and MATH 2650 and P/C MECH 3120. Fluid properties; fluid statics; mass conservation; momentum equation; external and internal flows; Euler and Bernoulli equations; dimensional analysis; viscous flows; boundary layers; compressible flow. Pr. MECH 2130 with a grade of C or higher, and ENGR 2010 with a grade of C or higher.

MECH 3040 HEAT TRANSFER (3) LEC. 3. Pr. MECH 3020 and MECH 3030. Fundamentals of heat transfer by conduction, convection, and radiation. Introduction to heat exchangers.

MECH 3050 MEASUREMENT AND INSTRUMENTATION (3) LEC. 2. LAB. 3. Pr. MECH 3030 and P/C ELEC 3810. Theory and practice of modern sensors and computer-based data acquisition techniques, uncertainty analysis, results reporting, filtering and signal processing.

MECH 3120 MECHANICS OF MATERIALS (3) LEC. 3. Pr. MECH 2130 and MATL 2100 and MATH 2650 and MATH 2660. Stress and strain concepts, stress-strain relationships, applications, uniaxially loaded members, torsion, normal and shear stresses in beams, beam deflections, buckling, stress concentration, combined loading, failure theories (Grade of C or higher required in MECH 2130.)

MECH 3140 SYSTEM DYNAMICS AND CONTROLS (3) LEC. 3. Pr. MECH 2140 and MATH 2650. System dynamics and automatic control theory.

MECH 3150 DYNAMICS LAB (1) LAB. 2.5. Pr. MECH 2140. Laboratory experiences designed to enhance student understanding of engineering mechanics, including statics, dynamics, and kinematics.

MECH 3160 MECHANICS LAB (1) LAB. 2.5. Pr. MECH 3120 and MECH 2220. Laboratory experiences designed to enhance student understanding of engineering mechanics including statics, stresses, & strains.

MECH 3200 CONCEPTS IN MECHANICAL DESIGN (2) LEC. 1. LAB. 1. Pr. MECH 2130 and (P/C MECH 2220 or P/C MECH 3220). Introduction to the mechanical design process including identification of needs and engineering requirements, concept generation and selection, and design development. Students will work in teams to perform a design project, and will also be exposed to project management and communication skills. MECH 2130 with a grade of C or higher.

MECH 3230 MACHINE DESIGN (3) LEC. 3. Pr. MECH 3120 and MECH 2020 and MECH 3200. Design of systems containing a variety of mechanical elements.

MECH 3AA0 MECHANICAL ENGINEERING PROGRESS ASSESSMENT II (0) LAB. SU. Pr. MECH 2AA0 and MECH 2140 and MECH 3020 and MECH 3120. Progress Assessment Examination in: Statistics, linear algebra, mechanical design, thermo-fluid design, social impact, contemporary issues. Course may be repeated with change in topics.

MECH 4240 COMPREHENSIVE DESIGN I (2) LEC. 1. LAB. 3. Pr. (MECH 3AA0 and MECH 3150 and MECH 3160 and MECH 3230 and P/C MECH 3040 and P/C MECH 3050 and MECH 3140) or (MECH 3AA0 and MECH 3150 and MECH 3160 and MECH 3230 and MECH 3040 and P/C MECH 3050 and P/C MECH 3140). Capstone engineering design course based on a design project similar to those encountered by the engineer in industry involving thermal and mechanical design.

MECH 4250 COMPREHENSIVE DESIGN II (2) LEC. 1. LAB. 3. Pr. (MECH 4240 and MECH 3040 and MECH 3050 and P/C MECH 3140 and P/C INSY 3600) or (MECH 4240 and MECH 3050 and MECH 3140 and P/C MECH 3040 and P/C INSY 3600) or (MECH 4240 and MECH 3140 and MECH 3040 and P/C MECH 3050 and P/C INSY 3600). Continuation of MECH 4240. Detailed design, fabrication, communication, and presentation of a prototype machine for an industrial sponsor.

MECH 4300 MECHANICAL EQUIPMENT ENGINEERING (3) LEC. 3. Pr. MECH 3020 and MECH 3030. Operation, performance, maintenance, selection, design and optimization of mechanical equipment commonly found in industrial operations.

MECH 4310 HEATING, VENTILATING, AIR CONDITIONING AND REFRIGERATION (3) LEC. 3. Pr. MECH 3040. Theory and practice of modern heating, ventilation, air conditioning and refrigeration systems; concepts, equipment, and systems design.

MECH 4320 APPLIED CFD AND HEAT TRANSFER (3) LEC. 3. Pr. MECH 3040 and MATH 2660. Introduction to computational fluid dynamics and heat transfer techniques used to analyze thermal performance of devices and systems. Commercial software will be used.

MECH 4420 VEHICLE DYNAMICS (3) LEC. 3. Pr. MECH 3140. Ground vehicle resistance, propulsion, maneuvering, and control tires, suspensions, braking, aerodynamics, case studies.

MECH 4430 GROUND VEHICLE FUNDAMENTALS (3) LEC. 3. Pr. ENGR 2100 or ENGR 2350 or MECH 3120. Engineering fundamentals of ground vehicles and typical subsystems, including: power (engine and electrical); drivetrain; braking; steering; suspension; ergonomics; and structure.

MECH 4440 AUTOMOTIVE DESIGN EXPERIENCE I (2) LEC. 1. LAB. 3. Pr. MECH 3AA0 and MECH 3230 and P/C MECH 3040 and P/C MECH 3050 and P/C MECH 3140. Departmental Approval. Team-based design of a ground vehicle, both whole-vehicle and subsystem; design evaluation and modification; oral and written communication.

MECH 4450 AUTOMOTIVE DESIGN EXPERIENCE II (2) LEC. 1. LAB. 3. Pr. MECH 4440. Departmental approval. Team-based fabrication, testing, modification and operation of a ground vehicle; oral and written communication; project management.

MECH 4700 INTEGRATED ENGINEERING THEORY AND PRACTICE (3) LEC. 3. Pr. MECH 3200 and MECH 2020. Real world engineering management decision making, case studies from industry.

MECH 4930 DIRECTED STUDIES IN MECHANICAL ENGINEERING (1-3) IND/INT. Departmental approval. Individual or small group study of a specialized area of Mechanical Engineering under faculty direction. Course may be repeated for a maximum of 3 credit hours.

MECH 4970 SPECIAL TOPICS IN MECHANICAL ENGINEERING (3) LEC. Departmental approval. Regular course addressing a specialized area of Mechanical Engineering not covered by a regularly offered course. Topics may vary. Course may be repeated for a maximum of 9 credit hours.

MECH 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval. Individual student directed research and writing of an honors thesis. Course may be repeated for a maximum of 6 credit hours.

MECH 5010 COMPRESSIBLE FLUID FLOW (3) LEC. 3. Pr. MECH 3020 and MECH 3030. Properties of ideal gases; General one-dimensional wave motion; Isentropic flow with area change; Normal shock waves; Flow with friction (Fanno Flow) and heat transfer (Rayleigh Flow); Method of characteristics.

MECH 5050 RENEWABLE ENERGY RESOURCES AND APPLICATIONS (3) LEC. 3. Pr. ENGR 2010 or ENGR 2200. or permission of instructor. Overview of renewable energy options with an emphasis on available resources, advantages & disadvantages, and design principles.

MECH 5120 COMBUSTION (3) LEC. 3. Pr. MECH 3040. Thermodynamics and chemical kinetics of combustion processes, premixed and diffusion flames, ignition, characterization and combustion of gaseous, liquid, and solid fuels, environmental aspects of combustion.

MECH 5210 ELECTRONICS THERMAL MANAGEMENT (3) LEC. 3. Pr. MECH 3040 and ELEC 3810. Thermal issues in electronics, review of heat transfer thermal resistance networks, design of finned heat sinks, numerical analysis of electronics cooling, advanced thermal management strategies.

MECH 5220 VIRTUAL PROTOTYPING (3) LEC. 3. Pr. MECH 2220 and MECH 3120. Departmental approval. Computer simulation of mechanical systems integrating computer-aided design, dynamic simulation and finite element software; application to two-dimensional and three dimensional simple and complex mechanical systems.

MECH 5230 FRICTION, WEAR AND LUBRICATION (3) LEC. 3. Pr. MECH 3030 and MECH 3120. Theory and techniques for considering friction, wear and lubrication, in the design of machine components, and other surface interactions.

MECH 5240 BOUNDARY AND FULL-FILM LUBRICATION (3) LEC. 3. Pr. MECH 3030. Theory and techniques for design and modeling of the different regimes of lubrication between surfaces and machine comments in order to control friction and wear.

MECH 5250 MULTISCALE CONTACT MECHANICS (3) LEC. 3. Pr. MECH 3120. Theory and techniques for considering contact between solid bodies and the effect on friction, wear, the design of machine components, and other surface interactions.

MECH 5270 METALWORKING AND MANUFACTURING TRIBOLOGY (3) LEC. 3. Pr. MECH 2020. Theory and optimization techniques for tool life and surface finish considering friction, wear and lubrication in manufacturing processes including both metalworking fluids and hard/dry machining.

MECH 5300 ADVANCED MECHANICS OF MATERIALS (3) LEC. 3. Pr. MECH 3120. Stress and strain analysis, plane stress and plane strain concepts, generalized Hooke's law, stress function approach applications to 2-D problems, axisymmetric problems bending of curved members, torsion of prismatic members, stress concentration problems.

MECH 5310 MECHANICS OF ELECTRONIC PACKAGING (3) LEC. 3. Pr. MECH 3120 and ELEC 3810. Stress and strain analysis of microelectronic packages and electronic assemblies using analytical, experimental and numerical methods.

MECH 5320 ENGINEERED FLEXIBLE STRUCTURES (3) LEC. 3. LAB. 0, LEC. 0. Pr. (MECH 3120 or AERO 3610 or CHEN 3090 or CIVL 3310 or MATL 3200). Fiber to fabric design, engineering, manufacturing, testing and applications. Principles of modern machinery and techniques for flexible material manufacturing.

MECH 5330 INTRODUCTION TO BIOMECHANICAL ENGINEERING (3) LEC. 3. Pr. MECH 2140 and MECH 3120 and MECH 2130. Introduction to the multidisciplinary field of study called Biomechanical Engineering – a mechanics and calculus-based examination of energy and forces within living systems and the physical effects produced by such energy and forces. Topics covered include 1) human musculoskeletal physiology and anatomy, 2) mechanics of biological materials, 3) biomechanically relevant rigid body dynamics, 4) engineering of technology and applications to biomechanical systems, 5) medical imaging technology, and 6) applications of biomechanical engineering study.

MECH 5390 FUNDAMENTALS OF THE FINITE ELEMENT METHOD (3) LEC. 3. LAB. 0. Pr. MECH 3040 and MATH 2660 and MECH 3120. Introduction to the fundamentals of the finite element method.

MECH 5420 DYNAMICS OF MULTIBODY SYSTEMS (3) LEC. 3. Pr. MECH 3140. Concepts in dynamics of multibody systems such as kinematics analysis, Newton Euler, Lagrange and Kane equations of motion, collisions, and vibrations of flexible links.

MECH 5430 BASICS SENSOR APPLICATIONS (3) LEC. 3. Pr. MECH 3120. Basic concepts, fabrication and operation of micromachined semiconductor, piezoelectric, piezoresistive, capacitive and fiber-optic sensors.

MECH 5450 NON-DESTRUCTIVE EVALUATION OF MATERIALS AND STRUCTURES (3) LEC. 3. Pr. MECH 3120. Non-destructive testing fundamentals. Ultrasonic, acoustic, vibration strain analysis of microelectronic packages and electronic assemblies using analytical, experimental and numerical methods.

MECH 5500 ENGINEERING IN THE ARTS (3) LEC. 3. This course will educate students on the engineering associated with multiple forms of art such as the playing of musical instruments, painting, Renaissance architecture, and dance. Students will also learn about key historical figures of the Renaissance that held major influence on the origins of Western engineering, architecture, and art.

MECH 5510 ENGINEERING ACOUSTICS (3) LEC. 3. Pr. MATH 2650. The fundamentals of acoustics. Vibration of strings, bars, plates. Acoustic plane waves, architectural acoustics and noise control will be emphasized.

MECH 5520 MANUFACTURING OF POLYMERIC STRUCTURES (3) LEC. 3. LAB. 0, LEC. 0. Pr. MECH 3120 or AERO 3610 or CHEN 3090 or CIVL 3310 or MATL 3200. Characteristics and flow properties of polymers; film and fiber extrusion, compression and injection molding technology, polymer material selection and processing.

MECH 5530 ADVANCED REFRIGERATION SYSTEMS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MECH 3020 and MECH 3040. Overview of thermodynamics, fluid mechanics, and heat transfer in advanced vapor compression systems. Methodology for the analysis of refrigeration systems and their components. Applications include advanced refrigeration systems, heat pump systems, buildings HVAC, industrial refrigeration systems, agricultural facilities climate control, energy storage, transport refrigeration, and cold food chain.

MECH 5610 MECHANICAL VIBRATION (3) LEC. 3. Pr. MECH 2140 and MATH 2650 and MATH 2660. Modeling of lumped dynamic systems, free and forced vibration of single degree freedom systems, response to arbitrary excitation, analysis of two and multiple degrees of freedom systems.

MECH 5630 FEEDBACK CONTROL OF DYNAMIC SYSTEMS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MECH 3140. Concepts in feedback control of dynamical systems including time and frequency domain, digital control, and modern state space control techniques.

MECH 5640 PRINCIPLES OF NAVIGATION AND GUIDANCE SYSTEMS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MECH 3140. Develop understanding of the principles associated with coordinate frames, pose estimation, and navigation with a focus on inertial navigation.

MECH 5650 FUNDAMENTALS OF THE GLOBAL POSITIONING SYSTEM (3) LEC. 3. LAB. 0, LEC. 0. Pr. MECH 3140. Detailed analysis of the GPS system and receiver including signal acquisition, tracking, decoding, and Position, Velocity, and Timing (PVT) determination

MECH 5710 KINEMATICS AND DYNAMICS OF ROBOTS (3) LEC. 3. Pr. MECH 3140. Basic concepts in robotics such as kinematic analysis, coordinate transformation, Lagrange and Newton Euler equations of motion.

MECH 5720 CONTROL OF ROBOTIC MOTION (3) LEC. 3. Pr. MECH 3140. Application of various algorithms for robot manipulators.

MECH 5810 MECHATRONICS (3) LEC. 3. Pr. MECH 2140 and ELEC 3810. Introduction to the integration of mechanisms, sensors, controllers and actuators for machines, and design of automatic machinery.

MECH 5830 ENGINES (3) LEC. 3. Pr. (ENGR 2010 and MECH 3030) or ENGR 2200. or (ENGR 2010 plus any one of (AERO 3110, CHEN 2610, CIVL 3110, MECH 3030)), Analysis, design, and application issues in internal combustion engines. Characteristics, thermodynamics, thermochemistry, unsteady multi-phase fluid dynamics, stresses, vibration, noise, mechanisms.

MECH 5840 APPLIED MECHATRONICS (3) LEC. 3. LAB. 0, LEC. 0. Pr. (P/C MECH 3140). Implementation basic circuits, power electronics, analog (continuous) and digital (discrete) control topics in multiple design projects.

MECH 5850 SOFTWARE FOR SENSORS AND SYSTEMS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MECH 2220. Course Description: Develop C++ programs, use Linux terminal, manage source code using Git, implement robotics applications using the robot operating system (ROS).

MECH 5970 INTERMEDIATE SPECIAL TOPICS IN MECHANICAL ENGINEERING (1-3) LEC. 1-3. Departmental approval. Regular course addressing an advanced specialized area of Mechanical Engineering not covered by a regularly offered course. Topics may vary. Course may be repeated for a maximum of 9 credit hours.

MECH 6010 COMPRESSIBLE FLUID FLOW (3) LEC. 3. Properties of ideal gases; General one-dimensional wave motion; Isentropic flow with area change; Normal shock waves; Flow with friction (Fanno Flow) and heat transfer (Rayleigh Flow); Method of characteristics.

MECH 6050 RENEWABLE ENERGY RESOURCES AND APPLICATIONS (3) LEC. 3. An overview of renewable energy options with an emphasis on available resources, advantages & disadvantages, and design principles.

MECH 6120 COMBUSTION (3) LEC. 3. Thermodynamics and chemical kinetics of combustion processes, premixed and diffusion flames, ignition, characterization and combustion of gaseous, liquid, and solid fuels, environmental aspects of combustion.

MECH 6210 ELECTRONICS THERMAL MANAGEMENT (3) LEC. 3. Thermal issues in electronics, review of heat transfer hermal resistance networks, design of finned heat sinks, numerical analysis of electronics cooling, advanced thermal management strategies.

MECH 6220 VIRTUAL PROTOTYPING (3) LEC. 3. Departmental approval. Computer simulation of mechanical systems integrating computer-aided design, dynamic simulation and finite element software; application to two-dimensional and three dimensional simple and complex mechanical systems.

MECH 6230 FRICTION, WEAR AND LUBRICATION (3) LEC. 3. Friction, wear, and lubrication in design of machine components and other surface interactions, with emphasis on optimizing tribological performance.

MECH 6240 BOUNDARY AND FULL-FILM LUBRICATION (3) LEC. 3. Theory and techniques for design and modeling of the different regimes of lubrication between surfaces and machine comments in order to control friction and wear.

MECH 6250 MULTISCALE CONTACT MECHANICS (3) LEC. 3. Theory and techniques for considering contact between solid bodies and the effect on friction, wear, the design of machine components, and other surface interactions.

MECH 6300 ADVANCED MECHANICS OF MATERIALS (3) LEC. 3. Stress and strain analysis, plane stress and plane strain concepts, generalized Hooke's law, stress function approach applications to 2-D problem, axisymmetric problems, bending of curved members, torsion of prismatic members, stress concentration problems.

MECH 6310 MECHANICS OF ELECTRONIC PACKAGING (3) LEC. 3. Stress and strain analysis of Microelectronic packages and electronic assemblies using analytical, experimental and numerical methods.

MECH 6320 ENGINEERED FLEXIBLE STRUCTURES (3) LEC. 3. LAB. 0, DSL/LEC. 0. Fiber to fabric design, engineering, manufacturing, testing and applications. Principles of modern machinery and techniques for flexible material manufacturing.

MECH 6330 INTRODUCTION TO BIOMECHANICAL ENGINEERING (3) LEC. 3. Introduction to the multidisciplinary field of study called Biomechanics – the examination of energy and forces within living systems and the physical effects produced by such energy and forces. Topics covered include 1) human musculoskeletal physiology and anatomy, 2) properties of biological materials, 3) biomechanically relevant mechanics, 4) methods and practice of measuring biomechanical systems, and 5) applications of biomechanical study.

MECH 6390 FUNDAMENTALS OF THE FINITE ELEMENT METHOD (3) LEC. 3. LAB. 0. Introduction to the fundamentals of the finite element method.

MECH 6420 DYNAMICS OF MULTIBODY SYSTEMS (3) LEC. 3. Concepts in dynamics of multibody systems such as kinematics analysis, Newton Euler, Lagrange and Kane equations of motion, collisions, and vibrations of flexible links.

MECH 6430 BASICS OF SENSOR APPLICATIONS (3) LEC. 3. Basic concepts, fabrication and operation of micro machined semiconductor, piezoelectric, piezoresistive, capacitive and fiber-optic sensors.

MECH 6450 NON-DESTRUCTIVE EVALUATION OF MATERIALS AND STRUCTURES (3) LEC. 3. Non-destructive testing fundamentals. Ultrasonic, acoustic, vibration, and eddy current techniques. Case studies.

MECH 6500 ENGINEERING IN THE ARTS (3) LEC. 3. This course will educate students on the engineering associated with multiple forms of art such as the playing of musical instruments, painting, Renaissance architecture, and dance. Students will also learn about key historical figures of the Renaissance that held major influence on the origins of Western engineering, architecture, and art. Sample lecture topics include 1) Science and Engineering in The Renaissance, 2) Leonardo da Vinci, 3) Musical Vibrations and Acoustics, and 4) Architecture and Biomimicry.

MECH 6520 MANUFACTURING OF POLYMERIC STRUCTURES (3) LEC. 3. LAB. 0, DSL/LEC. 0. Characteristics and flow properties of polymers; film and fiber extrusion, compression and injection molding technology, polymer material selection and processing.

MECH 6530 ADVANCED REFRIGERATION SYSTEMS (3) LEC. 2.5. LAB. 0, LEC. 0. Overview of thermodynamics, fluid mechanics, and heat transfer in advanced vapor compression systems. Methodology for the analysis of refrigeration systems and their components. Applications include advanced refrigeration systems, heat pump systems, buildings HVAC, industrial refrigeration systems, agricultural facilities climate control, energy storage, transport refrigeration, and cold food chain.

MECH 6610 MECHANICAL VIBRATION (3) LEC. 3. Modeling of lumped dynamic systems, free and forced vibration of single degree of freedom systems, response to arbitrary excitation, analysis of two and multiple degrees of freedom systems.

MECH 6630 FEEDBACK CONTROL OF DYNAMIC SYSTEMS (3) LEC. 2.5. LAB. 0, LEC. 0. Concepts in feedback control of dynamical systems including time and frequency domain, digital control, and modern state space control techniques.

MECH 6640 PRINCIPLES OF NAVIGATION AND GUIDANCE SYSTEMS (3) LEC. 2.5. LAB. 0, LEC. 0. Develop understanding of the principles associated with coordinate frames, pose estimation, and navigation with a focus on inertial navigation.

MECH 6650 FUNDAMENTALS OF THE GLOBAL POSITIONING SYSTEM (3) LEC. 2.5. LAB. 0, LEC. 0. Detailed analysis of the GPS system and receiver including signal acquisition, tracking, decoding, and Position, Velocity, and Timing (PVT) determination

MECH 6710 KINEMATICS AND DYNAMICS OF ROBOTS (3) LEC. 3. Basic concepts in robotics such as kinematics analysis, coordinate, Lagrange and Newton Euler equations of motion.

MECH 6720 CONTROL OF ROBOTIC MOTION (3) LEC. 3. Application of various algorithms for robot manipulators.

MECH 6810 MECHATRONICS (3) LEC. 3. Introduction to the integration of mechanisms, sensors, controllers and actuators for machines and design of automatic machinery.

MECH 6830 ENGINES (3) LEC. 3. Analysis, design, and application issues in internal combustion engines. Characteristics, thermodynamics thermochemistry, unsteady multi-phase fluid dynamics, stresses, vibration, noise, mechanisms.

MECH 6840 APPLIED MECHATRONICS (3) LEC. 3. Implementation basic circuits, power electronics, analog (continuous) and digital (discrete) control topics in multiple design projects.

MECH 6850 SOFTWARE FOR SENSORS AND SYSTEMS (3) LEC. 2.5. Develop C++ programs, use Linux terminal, manage source code using Git, implement robotics applications using the robot operating system (ROS).

MECH 6930 INTERMEDIATE DIRECTED STUDIES IN MECHANICAL ENGINEERING (1-3) IND. Departmental approval. Individual or small group study of an advanced, specialized area of Mechanical Engineering under faculty direction. Course may be repeated for a maximum of 3 credit hours.

MECH 6970 INTERMEDIATE SPECIAL TOPICS IN MECHANICAL ENGINEERING (1-3) AAB. Departmental approval. Regular course addressing an advanced specialized area of Mechanical Engineering not covered by a regularly offered course. Topics may vary. Course may be repeated for a maximum of 3 credit hours.

MECH 7010 ADVANCED THERMODYNAMICS (3) LEC. 3. Classical and statistical treatment of the laws and properties of thermodynamic systems; applications.

MECH 7110 ADVANCED FLUID MECHANICS I (3) LEC. 3. Mass Conservation, Linear and Angular Momentum Equations; Energy Equation for Fluid Systems; Foundations of Inviscid Flows.

MECH 7120 ADVANCED FLUID MECHANICS II (3) LEC. 3. Pr. MECH 7110 or MECH 7116. Schwarz-Christoffel Transformation; Hodograph Method; Three-Dimensional Potential Flows; Interface Waves; Low Reynolds Number Solutions; Oseen Approximation; Stability of Laminar Flows.

MECH 7130 BOUNDARY LAYER THEORY (3) LEC. 3. Pr. MECH 7110 or MECH 7116. Mass Conservation; Momentum Equation; Energy Equation; Dimensional Analysis; Fully-Developed Laminar Flows; Similarity Solutions; Boundary layer Approximation; Stability of Laminar Flows.

MECH 7140 TURBULENCE (3) LEC. 3. Pr. MECH 7130 or MECH 7136. Properties of Turbulence; Governing Conservation, Momentum and Energy Equations; Time-averaging, Vorticity Equatiion; Turbulence Models; Shear Flows; Jets, Wakes and Boundary Layers; Experimental Techniques.

MECH 7210 DIFFUSIVE TRANSPORT (3) LEC. 3. Formulations and analytical solutions of steady, periodic, and unsteady heat and mass diffusion problems in one, two, and three dimensions.

MECH 7220 CONVECTION HEAT TRANSFER (3) LEC. 3. Advanced topics in free and forced convection transport within the laminar, transitional and turbulent regimes; confined and external flows.

MECH 7230 THERMAL RADIATION (3) LEC. 3. Fundamentals of thermal radiation heat transfer including: absorption, emission, and reflection from solids; absorption, emission, and scattering by gases; combined mode and conjugate heat transfer; exact and approximate solution methodologies.

MECH 7240 NUMERICAL METHODS IN HEAT TRANSFER (3) LEC. 3. Advanced topics in finite element and finite difference methods; solution techniques, stability and convergence.

MECH 7250 BOILING AND CONDENSATION (3) LEC. 3. Hydrodynamics of vapor-liquid flow, pool boiling, forced convective boiling, condensation, instabilities in two-phase systems, augmentation of boiling and condensation.

MECH 7300 FRACTURE MECHANICS (3) LEC. 3. Stress and strain analysis of cracked bodies, energy release rate, Griffith problem, modes of fracture, crack tip fields, stress intensity factors, small scale crack tip yielding, the J-integral, HRR equations, experimental and numerical methods for fracture parameter estimation.

MECH 7310 SOLID MECHANICS (3) LEC. 3. Stress and strain analysis in 3-D, constitutive behavior of elastic solids, orthotropy and isotropy, stress compatibility equations, Navier's equation, stress functions, applications.

MECH 7320 CONTINUUM MECHANICS AND TENSOR ANALYSIS (3) LEC. 3. Pr. MECH 6300 or MECH 6306. Cartesian and curvilinear tensor analysis with applications to the mechanics of continuous media. Constitutive equations for solids and fluids.

MECH 7330 EXPERIMENTAL MECHANICS (3) LEC. 3. Experimental methods for measurement of stress, strain and displacement. Strain gauges, transducers and brittle coatings. Transmission photoelasticity and photoelastic coatings. Introduction to moire' and coherent optical techniques.

MECH 7340 INELASTIC STRESS ANALYSIS (3) LEC. 3. Pr. MECH 6300 or MECH 6306. Introduction to modeling material behavior of non-elastic materials. Theories of plasticity, linear and non-linear viscoelasticity, and viscoplasticity. Applications to modern engineering materials and simple structural members.

MECH 7360 MECHANICS OF COMPOSITE MATERIALS (3) LEC. 3. Properties and mechanical behavior of fiber-reinforced composite materials. Anisotropic stress-strain relations, orthotropic elasticity and laminated plate theories, failure criteria, applications.

MECH 7370 ANALYSIS OF PLATES AND SHELLS (3) LEC. 3. Theories for the bending and stretching of plate and shell structures. Transverse loading, buckling, vibration, and thermal stress problems. Introduction to energy methods, numerical techniques, and large deflection theories.

MECH 7390 VARIATIONAL MECHANICS (3) LEC. 3. Energy methods in solid mechanics. Virtual work, stationary potential energy, and variational calculus. Elastic strain energy. Applications to bars, trusses, beams, frames, and plates. Castigliano's Theorem and the Ritz Method.

MECH 7410 OPTICAL METHODS IN MECHANICS (3) LEC. 3. Measurement of stresses, strains, and deformations using optical methods; optical interference; Fourier optics; optical spatial filtering, white light methods; coherent optical methods.

MECH 7430 OPTICAL PROPERTIES OF ADVANCED MATERIALS (3) LEC. 3. Pr. MECH 6430 or MECH 6436 or PHYS 7200. Linear and nonlinear optical properties, correlation with material-structure, electro-optic effects, lasers, frequency conversion, fiber-optics, technological applications.

MECH 7500 STATE VARIABLE ANALYSIS OF SYSTEMS (3) LEC. 2.5. LAB. 0, LEC. 0. Matrices and linear spaces; state variable for linear continuous and discrete systems; applications in analysis and design of control systems.

MECH 7520 PRINCIPLES AND APPLICATION OF OPTIMAL ESTIMATION (3) LEC. 2.5. LAB. 0, LEC. 0. Pr. (MECH 7500 or ELEC 7500 or MECH 5720 or MECH 6720 or MECH 4420). Statistical processes, Bayesian estimation including linear and non-linear batch and sequential filters such as least squares and Kalman filtering.

MECH 7610 ADVANCED DYNAMICS (3) LEC. 3. Dynamics of particles and systems of particles applied to engineering problems. Work-energy and impulse-momentum principles. Lagrange's equations and Hamilton's Principle.

MECH 7620 NONLINEAR SYSTEMS (3) LEC. 3. Introduction, geometrical concepts, analytical methods, Poincare' maps, strange attractors, bifurcation, normal forms, center manifold theory, Liapunov stability, Liapunov exponents, linearization about periodic orbits, Floquet theory, bifurcation analysis.

MECH 7630 MECHANICAL IMPACT (3) LEC. 3. Departmental approval. Investigation of the fundamental concepts used to solve collision problems with friction.

MECH 7710 CONTROL SYSTEMS ANALYSIS AND DESIGN (3) LEC. 3. Topics from control theory are introduced in the context of control systems analysis and design, including state variable feedback, modal control, optimal control and adaptive control for both continuous and discrete systems.

MECH 7930 ADVANCED DIRECTED STUDIES IN MECHANICAL ENGINEERING (1-3) IND. Departmental approval. Individual or small group study of an advanced, specialized area of Mechanical Engineering under faculty direction. Course may be repeated for a maximum of 3 credit hours.

MECH 7950 GRADUATE SEMINAR (1) SEM. 1. SU. Topics may vary. Will not fulfill degree requirements. Course may be repeated with change in topics.

MECH 7970 ADVANCED SPECIAL TOPICS IN MECHANICAL ENGINEERING (1-3) DSL. Departmental approval. Regular course addressing an advanced specialized area of Mechanical Engineering not covered by regularly offered course. Topics may vary. Course may be repeated for a maximum of 3 credit hours.

MECH 7990 RESEARCH & THESIS (1-12) MST. Individual Master's thesis research. May be repeated for credit. Course may be repeated with change in topics.

MECH 8990 RESEARCH & DISSERTATION (1-12) DSR. Individual Doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics.

MECH TECH MECHANICAL TECHNICAL ELECTIVE (3) LEC. 3.

Film and Media Studies - MDIA

Courses

MDIA 2350 INTRODUCTION TO FILM STUDIES (3) LEC. 2. LAB. 2. Introduction to film analysis, modes of film practice and critical approaches to the study of cinema. May count either MDIA 2350/MDIA 2353.

MDIA 3210 SOUNDTRACKS, MUSIC AND MEDIA (3) LEC. 3. Historical, artistic, sociocultural and economic contexts of music and media.

MDIA 3300 FOUNDATION OF MEDIA STUDIES (3) LEC. 2. LAB. 2. Pr. MDIA 2350 or MDIA 2353. This is a foundational course that provides students with a survey of the key theoretical approaches to studying the cultural, social, political and economic dimensions of entertainment media.

MDIA 3310 HISTORY OF NEW AND EMERGING MEDIA (3) LEC. 3. This course examines the origins and development of the Internet and related platforms including USENET, the World Wide Web, and social media. In the process, the course addresses many of the social, political, economic, and industrial implications that have accompanied the use of the Internet as a communication technology.

MDIA 3320 GENDER AND SEXUALITY IN MEDIA (3) LEC. 2. LAB. 2. Examines the relationship between gender, sexuality, identity and the media, from the perspective of key theories, representation, audience engagement and industry.

MDIA 3360 AUDIO STORYTELLING AND PODCASTING (3) STU. 3. Students will gain hands-on experience in producing audio stories and in designing and producing podcasts.

MDIA 3370 GLOBAL MEDIA (3) LEC. 2. LAB. 2. Global media is focused on the complex global dimensions of media production, distribution and reception, with a primary focus on entertainment media.

MDIA 3580 REPRODUCING POPULAR CULTURE (3) LEC. 3. Postmodern study on the widespread recycling of media artifacts. May count either MDIA 3580 or MDIA 3583 or RTVF 3580.

MDIA 3600 FILM GENRES (3) LEC. 2. LAB. 2. A critical examination of popular film genres and how they have been used historically within the film industry, film studies, media criticism and popular culture.

MDIA 3650 MEDIA INDUSTRIES (3) LEC. 2. LAB. 2. The course provides students a comprehensive overview of how the media industries work, why they work as they do, and the broader theoretical and practical implications of the media industries.

MDIA 3700 AUDIENCES AND FAN CULTURE (3) LEC. 2. LAB. 2. This course explores theories of the audience in media and cultural studies, the history of studying media audiences, while also considering contemporary scholarship, technology, identity and fan communities.

MDIA 3750 RACE AND AMERICAN FILM HISTORY (3) LEC. 2. LAB. 2. A critical examination of the historical and social constructions of race and ethnicity in popular U.S. films.

MDIA 3970 SPECIAL TOPICS (3) AAB. 3. Topics in Media Studies at the intermediate level. Course may be repeated for a maximum of 6 credit hours.

MDIA 4200 TV HISTORY (3) LEC. 2. LAB. 2. An examination of the development and evolution of U.S. television broadcasting as an art form, industry and social institution from the early twentieth century to the present day.

MDIA 4210 POPULAR CULTURE STUDIES (3) LEC. 3. Examines myths, icons, rituals, heroes, celebrities, genres, narratives, stereotypes as experienced and presented within communication processes. Declared major in AGCO, COMM, JRNL, JRSP, MDIA or PRCM.

MDIA 4250 SCREEN CULTURE (3) LEC. 2. LAB. 2. A critical study of the historical development and the cultural meanings of dominant screen technologies (film screens, TVs, computer screens, mobile devices).

MDIA 4300 MEDIA PROGRAMMING (3) LEC. 3. Introduces organizational concepts, strategies, processes, and frameworks for programming in various media systems, including broadcast, cable and streaming sources.

MDIA 4310 MEDIA AND SOCIETY (3) LEC. 3. Pr. (MDIA 3300 or MDIA 3303 or RTVF 3300 or RTVF 3303) and (CMJN 2100 or CMJN 2103). Examination of the relationship between the mass communication industry and a mass society. Declared major in AGCO, COMM, JRNL, MDIA, MDIV or PRCM.

MDIA 4350 TELEVISION CRITICISM (3) LEC. 3. LAB. 1. This course prepares students to critically analyze television with a deep study of the aesthetics of television coupled with an overview of critical approaches to television research.

MDIA 4390 FILM AUTHORS (3) LEC. 2. LAB. 2. In-depth study of one or more filmmakers important to the development of film as a popular art form. Declared major in AGCO, COMM, JRNL, JRSP, MDIA or PRCM.

MDIA 4400 ADVERTISING AND CONSUMER CULTURE (3) LEC. 2. LAB. 2. This course is a critical examination of the relationship between the advertising industries and the media industries and how they have influenced each other as well as mainstream US culture.

MDIA 4420 HISTORY OF MEDIA TECHNOLOGY (3) LEC. 3. History of media technology from 18th-21st centuries.

MDIA 4500 CULTURE AND TECHNOLOGY (3) LEC. 3. This course explores the complex interrelations, issues and impacts between culture and technology through a range of interdisciplinary academic, professional and global settings, contexts and texts.

MDIA 4580 FAME, CELEBRITY, AND MEDIA CULTURE (3) LEC. 3. Examination of celebrity and fame as distinguishing cultural phenomena.

MDIA 4920 INTERNSHIP (3) INT. 200. Pr. (CMJN 2100 or CMJN 2103) and (MDIA 3300 or MDIA 3303). Opportunity to apply classroom experience to career setting. Internship must be a supervised, closely monitored work experience, appropriate to the major, that takes place in a professional setting. Declared major in MDIA or MDIV/MFLM. Requires admission to internship program.

MDIA 4930 DIRECTED STUDIES (3) IND. 3. Pr. MDIA 3300 or MDIA 3303. Study of narrowly-defined MDIA topic not already covered in the MDIA curriculum and under the direction of an MDIA faculty. May be repeated with a change in topic. Declared major in AGCO, COMM, JRNL, MDIA, MDIV/MFLM or PRCM. May count either MDIA 4930 or MDIA 4933 or MDIA 4970 or RTVF 4970. Course may be repeated for a maximum of 6 credit hours.

MDIA 4970 SPECIAL TOPICS (3) LEC. 3. Topics in Media Studies at the advanced level. Course may be repeated for a maximum of 6 credit hours.

MDIA 5500 GLOBAL MEDIA (3) LEC. 3. LAB. 0, SEM. 0. Pr. MDIA 2350 and MDIA 3300. Global media is focused on the complex global dimensions of media production, distribution and reception, situated within the study of critical theory.

Film and Media Studies - Film - FILM

Courses

FILM 2420 INTRODUCTION TO FILMMAKING (3) DSL/STU. 3. A studio course introducing students to the theory and practice of cinematography and editing for the short film.

FILM 2700 INTRODUCTION TO VISUAL MEDIA (3) DSL/STU. A studio course introducing students to concepts and techniques of digital image-making for the short film.

FILM 3100 INTERMEDIATE FILMMAKING (3) DSL/STU. 3. Pr. (MDIA 2420 or FILM 2420) and (MDIA 2700 or MDIA 2703 or FILM 2700). An intermediate studio course in which students develop sound design skills for the short film.

FILM 3110 CINEMATOGRAPHY (3) STU. 3. Pr. (MDIA 2420 or FILM 2420) and (MDIA 2700 or FILM 2700). An intermediate studio course in which students explore the art of filmmaking through methods and techniques of cinematography for the short film. The course structure will emphasize short scene studies which focus on visual outcomes including cameras technology, motion, lighting, composition and post-production.

FILM 3120 FILM EDITING (3) STU. 3. Pr. (MDIA 2700 or FILM 2700) and (MDIA 2420 or FILM 2420). An intermediate studio course in which students explore the theory and practice of editing for the short film.

FILM 3350 SCREENWRITING (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (MDIA 2350 or MDIA 2353). A writing course introducing students to the basic concepts of screen storytelling and the craft of turning story ideas into screenplays.

FILM 3820 SEQUENCE DESIGN (3) STU. 3. A studio course in which students develop animation skills for title design.

FILM 4600 ADAPTATION FOR THE SHORT FILM (3) LEC. 3. Pr. MDIA 3100 or MDIA 3103 or FILM 3100. A survey of ways in which film can be adapted from pre-existing sources to create new works that stand on their own. Declared major in AGCO, COMM, JRNL, MDIA, MDIV/MFLM or PRCM. May count either MDIA 4600 or MDIA 4603 or RTVF 4600.

FILM 4940 FILM PROJECTS (3) DSL/STU. 3. Pr. MDIA 3100 or MDIA 3103 or FILM 3100. Capstone course in which students work as a team on an advanced film project.

Middle School Education - CTMD

Courses

CTMD 4190 CURRICULUM AND TEACHING IN THE MIDDLE SCHOOL (3) LEC. 2. LAB. 2. Admission to Teacher Education. To introduce and prepare undergraduate education students for the middle school student, middle school teaching, and middle level philosophy while incorporating reflective decision making.

CTMD 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed at desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMD 4910 PRACTICUM IN MIDDLE SCHOOL EDUCATION (1-6) PRA. SU. Departmental approval. Provides experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

CTMD 4920 CLINICAL RESIDENCY (11) AAB. 40. SU. Pr. P/C CTSE 4200 or P/C CTSE 4203. Admission to Clinical Residency. Supervised teaching in a public middle or secondary school, abroad, accompanied by scheduled discussions to analyze and evaluate the intern's experience. May count either CTMD 4920 or CTMD 4923.

CTMD 4970 SPECIAL TOPICS (1-4) LEC. Course may be repeated for a maximum of 4 credit hours.

CTMD 5010 TEACHING MATHEMATICS: MIDDLE SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. The prospective middle school or junior high school mathematics teacher must examine the characteristics of students this age. Teaching strategies must be developed which lead not only to the learning of correct mathematics but also address the needs of a wide variety of learners. May count either CTMD 5010 or CTMD 6010.

CTMD 5011 PRACTICUM IN MIDDLE SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTMD 5010. Admission to Teacher Education. This course is designed to provide 21 clock hours of teaching and experience in Middle School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTMD 6010 TEACHING MATHEMATICS: MIDDLE SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. The prospective middle school or junior high school mathematics teacher must examine the characteristics of students this age. Teaching strategies must be developed which lead not only to the learning of correct mathematics but also address the needs of a wide variety of learners. May count either CTMD 5010 or CTMD 6010.

CTMD 6011 PRACTICUM IN MIDDLE SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTMD 6010. This course is designed to provide 21 clock hours of teaching and experience in Middle School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTMD 7900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed toward desired objectives related to the respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMD 7970 SPECIAL TOPICS (1-6) LEC. Course may be repeated for a maximum of 6 credit hours.

Military Science (AROTC) - MILS

Courses

MILS 1010 INTRODUCTION TO ARMY (1) LEC. 1. Coreq. MILS 1011. Introduction to the Reserve Officer Training Corps and the US Army.

MILS 1011 INTRODUCTION TO ARMY LAB (1) LAB. 3. Coreq. MILS 1010. Introduction to the Reserve Officer Training Corps and the US Army.

MILS 1020 FOUNDATIONS OF LEADERSHIP (1) LEC. 1. Coreq. MILS 1021. Introduction to the Reserve Officer Training Corps and the U.S. Army.

MILS 1021 FOUNDATIONS OF LEADERSHIP LAB (1) LAB. 2.5. Coreq. MILS 1020. Introduction to the Reserve Officer Training Corps and the U.S. Army.

MILS 2010 LEADERSHIP AND ETHICS (1) LEC. 1. Coreq. MILS 2011. Learn and apply ethics-based leadership skills that develop individual attributes and contribute to effective team building.

MILS 2011 LEADERSHIP AND ETHICS LAB (1) LAB. 2. Coreq. MILS 2010. Learn and apply ethics-based leadership skills that develop individual attributes and contribute to effective team building.

MILS 2020 ARMY DOCTRINE & DECISION MAKING (1) LEC. 1. Coreq. MILS 2021. Introduction to individual and team aspects of military training in small unit operations.

MILS 2021 ARMY DOCTRINE & DECISION MAKING (1) LAB. 2.5. Coreq. MILS 2020. Introduction to individual and team aspects of military training in small unit operations.

MILS 3010 TRAINING MANAGEMENT & WARFIGHTING FUNCTIONS (2) LEC. 2. Coreq. MILS 3011. Departmental approval. Introduction to squad level planning and operations. Admittance into the Advanced Course of Army ROTC.

MILS 3011 TRAINING MANAGEMENT & WARFIGHTING FUNCTIONS LAB (1) LAB. 4. Coreq. MILS 3010. Departmental approval. Practical application of the foundational skills of small unit leadership. Admittance into Advanced Course Army ROTC.

MILS 3020 APPLIED LEADERSHIP IN SMALL UNIT OPERATIONS (2) LEC. 2. Pr. MILS 3010 and MILS 3011. Coreq. MILS 3021. Departmental approval. Introduction to platoon-level planning and operations and the U.S. Army Training Management System.

MILS 3021 APPLIED LEADERSHIP IN SMALL UNIT OPERATIONS LAB (1) LAB. 2.5. Pr. MILS 3010 and MILS 3011. Coreq. MILS 3020. Departmental approval. Series of practical opportunities to lead small groups, receive performance assessments and coaching, and lead again in situations of increasing complexity.

MILS 3030 HISTORY OF THE UNITED STATES ARMY (3) LEC. 3. Survey of the history of the United States Army from the colonial era to present.

MILS 4010 THE ARMY OFFICER (2) LEC. 2. Pr. MILS 3020 and MILS 3021. Coreq. MILS 4011. Plan, conduct and evaluate training and organizational cohesion.

MILS 4011 THE ARMY OFFICER LAB (1) LAB. 4. Pr. MILS 3020 and MILS 3021. Coreq. MILS 4010. Plan, conduct and evaluate training and activities of the ROTC cadet organization.

MILS 4020 COMPANY GRADE LEADERSHIP (2) LEC. 2. Pr. MILS 4010 and MILS 4011. Coreq. MILS 4021. Identify and resolve ethical dilemmas. Refine counseling and motivating techniques.

MILS 4021 COMPANY GRADE LEADERSHIP LAB (1) LAB. 2.5. Pr. MILS 4010 and MILS 4011. Coreq. MILS 4020. Practical application of the principles taught in MILS 4020.

MILS 4040 THE ARMY PROFESSION (0) LEC. 1. SU. U.S. Army current trends and affairs. Army policies and programs. Completion of Army ROTC Advanced Course or Early Commissioning Program.

Music - Applied - MUAP

Courses

MUAP 1110 PERFORMANCE I (1) PRL. 1. Pr., Departmental approval and Successful audition. Instruction in major performance medium for the first-year Music Education major. One-hour private lesson per week.

MUAP 1210 PERFORMANCE II (1) PRL. 1. Pr. MUAP 1110. and Departmental approval and Successful audition. Instruction in major performance medium for the first-year Music Education major. One-hour private lesson per week.

MUAP 1310 PERFORMANCE I (1) PRL. 1. Pr., Departmental approval and Successful audition. Instruction in major performance medium for the Music minor or secondary performance medium for the Music or Music Education major. One half-hour private lesson per week.

MUAP 1410 PERFORMANCE II (1) PRL. 1. Pr. MUAP 1310. and Departmental approval and Successful audition. Instruction in major performance medium for the Music minor or secondary performance medium for the Music or Music Education major. One half-hour private lesson per week.

MUAP 1520 PERFORMANCE I (2) PRL. 1. Pr., Successful audition and Departmental approval. Instruction in major performance medium for the first-year BM or BA in Music major. One-hour private lesson per week.

MUAP 1620 PERFORMANCE II (2) PRL. 1. Pr. MUAP 1520. and Departmental approval and Successful audition. Instruction in major performance medium for the first-year BM or BA in Music major. One hour private lesson per week.

MUAP 2110 PERFORMANCE III (1) PRL. 1. Pr. MUAP 1210. and Departmental approval and Successful audition. Instruction in major performance medium for the second-year Music Education major. One-hour private lesson per week

MUAP 2210 PERFORMANCE IV (1) PRL. 1. Pr. MUAP 2110. and Departmental approval and Successful audition. Instruction in major performance medium for the second-year Music Education major. One-hour private lesson per week.

MUAP 2520 PERFORMANCE III (2) PRL. 1. Pr. MUAP 1620. and Departmental approval and Successful audition. Instruction in major performance medium for the second-year BM or BA in Music major. One-hour private lesson per week.

MUAP 2620 PERFORMANCE IV (2) PRL. 1. Pr. MUAP 2520. and Departmental approval and Successful audition. Instruction in major performance medium for the second-year BM or BA in Music major. One-hour private lesson per week.

MUAP 3120 PERFORMANCE V (1) PRL. 1. Pr. MUAP 2210. and Departmental approval and Successful audition. Instruction in major performance medium for the third-year Music Education major. One-hour private lesson per week.

MUAP 3220 PERFORMANCE VI (1) PRL. 1. Pr. MUAP 3120. and Departmental approval and Successful audition. Instruction in major performance medium for the third-year Music Education major. One-hour private lesson per week.

MUAP 3520 PERFORMANCE V (2) PRL. 1. Pr. MUAP 2620. and Departmental approval and Successful audition. Instruction in major performance medium for the third-year BM or BA in Music major. One-hour private lesson per week.

MUAP 3620 PERFORMANCE VI (2) PRL. 1. Pr. MUAP 3520. and Departmental approval and Successful audition. Instruction in major performance medium for the third-year BM or BA in Music major. One-hour private lesson per week.

MUAP 4520 PERFORMANCE VII (2) PRL. 1. Pr. MUAP 3620. and Departmental approval and Successful audition. Instruction in major performance medium for the fourth-year BM or BA in Music major. One-hour private lesson per week.

MUAP 4620 PERFORMANCE VIII (2) STU. 1. Pr. MUAP 4520. and Departmental approval and Successful audition. Instruction in major performance medium for the fourth-year BM or BA in Music major. One-hour private lesson per week. Course may be repeated for a maximum of 4 credit hours.

MUAP 4630 PERFORMANCE (1) PRL. 1. Pr. MUAP 4530. Departmental approval. Instruction in major performance medium for the fourth-yearmusic theatre major. Two half-hour private lessons perweek. Successful audition and

Music - MUSI

Courses

MUSI 1000 PERFORMANCE ATTENDANCE (0) LEC. 1. SU. Pr., Enrollment in MUAP. Required during each semester of MUAP enrollment. Monitored attendance at studio and departmental convocations, as well as approved concerts, lectures, and special presentations within the Department of Music and the community. Course may be repeated with change in topics.

MUSI 1020 PIANO SKILLS I - RUDIMENTS (1) LEC. 2. Group instruction and practice in the rudiments of music performance as applied to the piano. Credit for this course may be earned when a student passes a placement exam and achieves a grade of "C" or better in MUSI 1030, MUSI 2040, or MUSI 2050.

MUSI 1030 PIANO SKILLS II (1) LEC. 2. Pr. MUSI 1020 or Departmental approval. Group Instruction and practice in the rudiments of music performance as applied to the piano. Credit for this course may be earned when a student passes a placement exam and achieves a grade of "C" or better in MUSI 2040 or MUSI 2050.

MUSI 1050 SINGER'S DICTION (1) LEC. 2. Coreq., Enrolled in MUAP (Applied Voice) class. Introduction to the rules of singing in English, Italian, German, and French as applied to art songs and arias through use of the IPA.

MUSI 1310 MUSIC THEORY I (2) LEC. 2. Coreq. MUSI 1320. Systematic study of music composition procedures, form, and style during the Period of Common Practice. Credit for this course may be earned when a student passes a placement exam and achieves a grade of "C" or better in MUSI 1410 or MUSI 2310.

MUSI 1320 MUSIC SKILLS I (1) LEC. 3. Coreq. MUSI 1310. Development of aural, keyboard and sight singing skills with an understanding of basic harmonic practices. Credit for this course may be earned when a student passes a placement exam and achieves a grade of "C" or better in MUSI 1420 or MUSI 2320.

MUSI 1330 MUSIC THEORY AND SKILLS I (3) LEC. 3. LAB. 2. Pr. P/C MUAP 1110 or P/C MUAP 1520 or P/C MUAP 1530. The purpose of the course is to help students acquire an appreciation for, and understanding of, the compositional procedures, form, and style found during the Period of Common Practice through the systematic study of the fundamentals of music, chords, voice-leading, harmonic progressions, and analysis of musical scores.

MUSI 1410 MUSIC THEORY II (2) LEC. 2. Pr. MUSI 1310 or Departmental approval. Systematic study of music composition procedures, form, and style during the Period of Common Practice. For Music majors and minors. Normally taken with MUSI 1420. Credit for this course may be earned when a student passes a placement exam and achieves a grade of "C" or better in MUSI 2310. BA in Music, BM, and BME majors must receive a grade of "C" or better in MUSI 1310 to enroll in this course.

MUSI 1420 MUSIC SKILLS II (1) LEC. 3. Pr. MUSI 1320 or Departmental approval. Development of aural, keyboard, and sight-singing skills with an understanding of basic harmonic practices. For Music majors and minors. Normally taken concurrently with MUSI 1410. Credit for this course may be earned when a student passes a placement exam and achieves a grade of "C" or better in MUSI 2320. BA in Music, BM, and BME majors must receive a grade of "C" or better in MUSI 1320 to enroll in this course.

MUSI 1430 MUSIC THEORY AND SKILLS II (3) LEC. 3. LAB. 2. Pr. (MUSI 1330) and (P/C MUAP 1210 or P/C MUAP 1620 or P/C MUAP 1630). The second in the series of Music Theory and Skills courses. Designed to create an increased ability to understand and apply compositional procedures, forms, and styles found during the Period of Common Practice. This course is also designed to develop aural and sight-singing skills with melodic, harmonic, and rhythmic dictation and performance.

MUSI 2040 FUNCTIONAL PIANO I (1) LEC. 2. Pr. MUSI 1030 or Departmental approval. Development of functional piano skills for use in classroom, rehearsal or studio. Credit for this course may be earned when a student passes a placement exam and achieves a grade of "C" or better in MUSI 2050. BA in Music, BM, and BME majors must receive a grade of "C" or better in MUSI 1030 to enroll in this course.

MUSI 2050 FUNCTIONAL PIANO II (1) LEC. 2. Pr. MUSI 2040 or Departmental approval. Development of functional piano skills for use in classroom, rehearsal or studio. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 2040 to enroll in this course.

MUSI 2150 ADVANCED DICTION (1) LAB. 2. Pr. MUSI 1050. Coreq., Enrolled in a MUAP (Applied Voice) class. Advanced study of the rules of singing in Italian, Spanish, German, and French through the use of the IPA. BA in Music and BM majors must receive a grade of "C" or better in MUSI 1050 to enroll in this course.

MUSI 2200 FUNDAMENTALS OF ARRANGING FOR COMMERCIAL MUSIC (2) LEC. 2. Pr. (MUSI 1430). A systematic study of the fundamentals of notation using Finale and/or Sibelius and the principles and techniques of writing and arranging for rhythm section and lead-line in a solo instrument or voice.

MUSI 2310 MUSIC THEORY III (2) LEC. 2. Pr. MUSI 1410 and MUSI 1320 or Departmental approval. Systematic study of music composition procedures, form and style from the advent of chromaticism through the music of late 19th century. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 1320 and MUSI 1410 to enroll in this course.

MUSI 2320 MUSIC SKILLS III (1) LEC. 3. Pr. MUSI 1410 and MUSI 1420 or Departmental approval. Development of advanced aural, keyboard, and sight-singing skills with understanding of advanced harmonic practices. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 1410 and MUSI 1420 to enroll in this course.

MUSI 2330 MUSIC THEORY AND SKILLS III (3) LEC. 3. LAB. 2. Pr. (MUSI 1430) and (P/C MUAP 2110 or P/C MUAP 2520 or P/C MUAP 2530). The third course of a four-course sequence, Theory and Skills III is a systematic study of harmony, compositional procedures, form, and style of tonal music from the late 17th Century through the music of the early 20th Century. Because this course will also continue the development of aural dictation and sight-singing, mastery of material from the first two courses is assumed.

MUSI 2410 MUSIC THEORY IV (2) LEC. 2. Pr. MUSI 1420 and MUSI 2310 or Departmental approval. Systematic study of music composition procedures, form, and style from the late 19th century through the music of the 20th century. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 1420 and MUSI 2310 to enroll in this course.

MUSI 2420 MUSIC SKILLS IV (1) LEC. 3. Pr. MUSI 1410 and MUSI 2320 or Departmental approval. Development of advanced aural, keyboard, and sight-singing skills with the understanding of advanced harmonic practices. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 1410 and MUSI 2320 to enroll in this course.

MUSI 2430 MUSIC THEORY AND SKILLS IV (3) LEC. 3. LAB. 2. Pr. (MUSI 2330) and (P/C MUAP 2210 or P/C MUAP 2620 or P/C MUAP 2630). A systematic study of compositional procedures, form, and style from the late 19th Century through the music of the 20th Century. As the final course in a four semester sequence, mastery of material from the first three courses is assumed.

MUSI 2440 MUSIC THEORY AND SKILLS IV: COMMERCIAL MUSIC (3) LEC. 2. LAB. 2. Pr. MUSI 2330. A systematic study of compositional procedures, form and style from the late 19th century through the music of the 20th century with special focus on American popular music styles. As the final course in a four semester sequence, mastery of material from the first three courses is assumed.

MUSI 2450 ELECTRONIC MUSIC HISTORY (2) LEC. 2. Overview of the development and rise of electronic musical instruments, digital instruments, and circuitry-based music technologies.

MUSI 2480 FOUNDATIONS OF MUSIC TECHNOLOGY (3) LEC. 3. A foundational study of essential academic, creative, and professional music technology tools and techniques used in MIDI sequencing, digital recording, digital audio workstations, and digital music notation.

MUSI 2730 APPRECIATION OF MUSIC (3) LEC. 3. Fine Arts Core. Orientation in the art of listening. Outstanding composers and musical composition. No previous music training required.

MUSI 2737 HONORS APPRECIATION OF MUSIC (3) LEC. 3. Pr. Honors College. Fine Arts Core. Orientation in the art of listening. Outstanding composers and musical composition. No previous music training required.

MUSI 2740 SURVEY OF POPULAR MUSIC (3) LEC. 3. Fine Arts Core. Survey of popular music styles from the late 19th century to the present day. No previous music training required. May count either MUSI 2740, MUSI 2743, or MUSI 2747.

MUSI 2747 HONORS SURVEY OF POPULAR MUSIC (3) LEC. 3. Pr. Honors College. Fine Arts Core. Survey of popular music styles from the late 19th century to the present day. No previous music training required. May count either MUSI 2740 or MUSI 2743.

MUSI 2750 MUSIC AND SCIENCE (3) LEC. 3. Fine Arts Core. Music and its connection to science throughout history. No previous music training required.

MUSI 3040 BRASS INSTRUMENT SKILLS (1) LAB. 2. Music Education major or Departmental approval. Instruction and practice in the techniques of playing and teaching brass musical instruments.

MUSI 3060 WOODWIND INSTRUMENT SKILLS (1) LAB. 2. Music Education major or Departmental approval. Class instruction and practice in the techniques of playing and teaching woodwind musical instruments.

MUSI 3080 PERCUSSION INSTRUMENT SKILLS (1) LAB. 2. Music Education major or Departmental approval. Instruction and practice in the techniques of playing and teaching various percussion instruments.

MUSI 3090 STRING INSTRUMENT SKILLS (1) LAB. 2. Music Education major or Departmental approval. Instruction and practice in the techniques of playing and teaching upper and lower string musical instruments.

MUSI 3110 PIANO LITERATURE I (2) LEC. 2. Pr. MUAP 2520 or Departmental approval. Study of the literature for solo piano from the Renaissance to the Classical era, with emphasis on musical styles.

MUSI 3120 PIANO LITERATURE II (2) LEC. 2. Pr. MUAP 2520 or Departmental approval. Study of the literature for solo piano from the Romantic era to the present, with emphasis on musical styles.

MUSI 3130 VOCAL LITERATURE I (2) LEC. 2. Pr. MUAP 2520 or Departmental approval. Survey of representative art song repertoire, including techniques and application of song study, musicianship, interpretation, and performance practice.

MUSI 3140 VOCAL LITERATURE II (2) LEC. 2. Pr. MUAP 2520 or Departmental approval. Study of the development of opera and oratorio literature from 1600 to the present time.

MUSI 3150 BRASS LITERATURE (2) LEC. 2. Pr. MUAP 2520 or Departmental approval. Intensive study of the literature and materials for teaching and performing on brass instruments.

MUSI 3160 PERCUSSION LITERATURE (2) LEC. 2. Pr. MUAP 2520 or Departmental approval. Intensive study of the literature and materials for teaching and performing on percussion instruments.

MUSI 3170 WOODWIND LITERATURE (2) LEC. 2. Pr. MUAP 2520 or Departmental approval. Intensive study of the literature and materials for teaching and performing on woodwind instruments.

MUSI 3180 STRING LITERATURE (2) LEC. 2. Pr. MUAP 2520 or Departmental approval. Intensive study of the literature and materials for teaching and performing on string instruments.

MUSI 3200 FORM AND ANALYSIS (3) LEC. 3. Pr. MUSI 2410. Study of the formal structure of music from 1700-1950 with an emphasis on standard forms and analytical techniques.

MUSI 3290 JAZZ THEORY AND IMPROVISATION (3) LEC. 3. Pr. MUSI 1410. Major practical and theoretical areas informing jazz performance.

MUSI 3300 SONGWRITING (3) LEC. 3. Pr. MUSI 1430. A systematic study of basic songwriting techniques covering a variety of styles, with an introduction to lyric considerations and an emphasis on compositional decisions and choices available to the lyricist. Prior musical training and performance experience required.

MUSI 3440 AUDIO ENGINEERING I (2) LEC. 1, LST. 1. An overview of digital recording studio equipment, recording techniques and procedures, signal flow and audio processing, microphone design and application, as well as digital audio editing and mixing.

MUSI 3450 AUDIO ENGINEERING II (3) LEC. 1.5. LAB. 1.5. Pr. (MUSI 3440). An in-depth study of advanced, professional level audio recording, editing, mixing, mastering, and live sound techniques through hands-on experiences in a recording studio setting.

MUSI 3510 MUSIC HISTORY I (3) LEC. 3. Pr. MUSI 1430. Study of the development of music from the earliest times through early 18th-century styles through lectures, recorded examples, and readings. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 1430 to enroll in this course.

MUSI 3520 MUSIC HISTORY II (3) LEC. 3. Pr. MUSI 3510. Study of the development of music from the early 18th century to the present day through lectures, recorded examples, and readings. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 3510 to enroll in this course.

MUSI 3610 CHORAL CONDUCTING I (2) LEC. 2. Pr. MUSI 2430. Basic conducting technique and introduction to score reading and interpretation.

MUSI 3620 CHORAL CONDUCTING II (2) LEC. 2. Pr. MUSI 3610. Advanced conducting technique with practical experience in preparing choral groups for performance. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 3610 to enroll in this course.

MUSI 3630 INSTRUMENTAL CONDUCTING I (2) LEC. 2. Pr. MUSI 2430. Basic conducting technique and introduction to score reading and interpretation.

MUSI 3640 INSTRUMENTAL CONDUCTING II (2) LEC. 2. Pr. MUSI 3630. Advanced conducting technique with practical experience in preparing instrumental groups for performance. BA in Music, BM, and BME majors must receive a "C" or better in MUSI 3630 to enroll in this course.

MUSI 3700 ADVANCED DIGITAL AUDIO WORKSTATION OPERATIONS (2) LEC. 2, LST. 1. Pr. (P/C MUSI 2430 or P/C MUSI 2440). Advanced study of digital audio workstation operations focusing on Logic Pro.

MUSI 3800 JUNIOR PERFORMANCE RECITAL (1) PRL. 1. SU. Pr. MUAP 3520. Coreq., Enrollment in a MUAP (Applied Lessons) class. Demonstration of a professional level of achievement in the student's major performance medium by the successful presentation of a junior recital.

MUSI 3810 PORTFOLIO AND PROFESSIONAL DEVELOPMENT (2) LEC. 2. Analysis, evaluation and creation of portfolio materials needed for successful entry into the music business. Development of communication and interview skills.

MUSI 3830 MUSIC BUSINESS I: SURVEY OF THE MUSIC INDUSTRY (3) LEC. 3. An overview of the commercial music industry, including a focus on the professionals who comprise the artist's team, how music is distributed and the value of music in the marketplace.

MUSI 3840 MUSIC BUSINESS II: BRANDING AND PROMOTION (3) LEC. 3. Pr. MUSI 3830. An entrepreneurial approach to branding and promotion in the commercial music industry.

MUSI 3850 PROMOTION IN THE MUSIC INDUSTRY: HOW TO PROMOTE AN ARTIST (3) LEC. 3. A focused study of the essential elements of artist self-promotion or promotion of other artists, from traditional and non-traditional media to imaging, marketing and branding.

MUSI 3860 LEGAL ASPECTS OF THE MUSIC INDUSTRY (3) LEC. 3. Legal Aspects of the Music Industry examines the legal issues business leaders, artists, musicians, engineers, and producers encounter when building their companies and careers, focusing on important legal changes that have evolved as a result of the continuing shifts in the music business landscape.

MUSI 3970 SPECIAL TOPICS IN MUSIC (3) LEC. 3. Study of substantive topics and issues in music. Course may be repeated for a maximum of 6 credit hours.

MUSI 4000 MUSIC EDUCATION SENIOR RECITAL PROJECT (1) PRL. SU. Pr., Music Education major and MUAP 3120. Coreq., MUAP 3220. Demonstration of a professional level of achievement in the student's major performance medium by the successful presentation of a senior recital project.

MUSI 4010 VOCAL PEDAGOGY (2) LEC. 2. Pr. MUAP 2210 or MUAP 2620. For prospective voice teachers. Intensive study of the materials and methods of voice training.

MUSI 4020 INSTRUMENTAL PEDAGOGY (2) LEC. 2. Pr. MUAP 2210 or MUAP 2620. and BA in Music or BM major. For prospective instrumental teachers. Intensive study of the materials and methods of teaching various brass, woodwind and percussion instruments.

MUSI 4030 PIANO PEDAGOGY (2) LEC. 2. Music majors and minors specializing in piano or Departmental approval. Study of techniques, methods and experiences of former and current teachers to equip the student for future piano teaching.

MUSI 4280 AMERICAN ART MUSIC (3) LEC. 3. Pr. MUSI 2410 and MUSI 2420. and BA in Music major or BM major or departmental approval. Survey of American art music from colonial times until the present.

MUSI 4290 FILM MUSIC (3) LEC. 3. Pr. MUSI 2410 and MUSI 2420. History and analysis of film music. Basic scoring techniques will be applied to short scoring projects.

MUSI 4620 ORCHESTRATION FOR VIRTUAL ENSEMBLES (2) LEC. 2, LST. 1. Pr. MUSI 2430 or MUSI 2440. Techniques and sample technologies used in virtual orchestration and hybrid-music production with emphasis placed on the production values of the student work. Issues and techniques related to expression, musicality, idiomatic performance, and sonic quality will be addressed throughout the course.

MUSI 4660 COMMERCIAL MUSIC: RECORDING AND PRODUCTION (3) LEC. 3. Create, produce, and bring to market a product of recorded music. Develop and implement marketing materials and campaigns, and deliver that product across all media outlets.

MUSI 4670 COMMERCIAL MUSIC: CONCERT PROMOTION (3) LEC. 3. Create, produce, and promote two live concert events. Develop and implement marketing materials and campaigns and deliver that product across all media outlets.

MUSI 4700 BA CAPSTONE PROJECT (3) LEC. 1. SU. Pr. MUAP 2620. Capstone course requiring a culminating thesis or project bringing together prior music coursework.

MUSI 4800 SENIOR PERFORMANCE RECITAL (2) PRL. 2. SU. Pr. MUAP 4520. Coreq., Enrollment in MUAP (Applied Lessons) class. Demonstration of a professional level of achievement in the student's major performance medium by the successful presentation of a senior recital.

MUSI 4920 INTERNSHIP (3) INT. Pr. MUSI 3810 and MUSI 3830 and MUSI 3840 and MUSI 4660 and MUSI 4670. Supervised work experience in the student's preferred discipline of the commercial music industry, applying classroom concepts in a real-world setting. Departmental approval required.

MUSI 4930 DIRECTED STUDY (1-3) IND. Pr., Departmental approval. Independent study directed toward desired objectives related to student's areas of interest and specialization. Course may be repeated with change in topic. Course may be repeated for a maximum of 3 credit hours.

MUSI 5110 WOMEN IN MUSIC (3) LEC. 3. This course will explore numerous issues related to the various roles women have played in the history of music, including composers, performers, and patrons. Western art traditions will be explored in addition to popular and world music traditions.

MUSI 6110 WOMEN IN MUSIC (3) LEC. 3. This course will explore numerous issues related to the various roles women have played in the history of music, including composers, performers, and patrons. Western art traditions will be explored in addition to popular and world music traditions.

MUSI 7000 GRADUATE CHORAL CONDUCTING I (3) LEC. 3. Coreq., Approved MUSE course. Laboratory for the development of skills relating to conducting performances of traditional and modern choral works.

MUSI 7010 GRADUATE CHORAL CONDUCTING II (3) LEC. 3. Pr. MUSI 7000 or MUSI 7006. Coreq., Approved MUSE course. Laboratory for the development of skills relating to conducting performances of traditional and modern choral works.

MUSI 7040 GRADUATE INSTRUMENTAL CONDUCTING I (3) LEC. 3. Coreq., Approved MUSE course. Laboratory for the development of skills relating to conducting performances of traditional and modern instrumental works for large ensembles.

MUSI 7050 GRADUATE INSTRUMENTAL CONDUCTING II (3) LEC. 3. Pr. MUSI 7040 or MUSI 7046. Coreq., Approved MUSE course. Laboratory for the development of skills relating to conducting performances of traditional and modern instrumental works for large ensembles.

MUSI 7100 CHORAL ARRANGING I (3) LEC. 3. Coreq., Approved MUSE course. Advanced arranging for various choral combinations.

MUSI 7110 CHORAL ARRANGING II (3) LEC. 3. Pr. MUSI 7100 or MUSI 7106. Coreq., Approved MUSE course. Advanced arranging for various choral combinations.

MUSI 7140 ORCHESTRAL ARRANGING I (3) LEC. 3. Coreq., Approved MUSE course. Advanced arranging for the orchestra.

MUSI 7230 ADVANCED FORMAL ANALYSIS (3) LEC. 3. Advanced formal analysis of standard music literature.

MUSI 7240 WIND BAND LITERATURE I (3) LEC. 3. Coreq., Approved MUSE course. History of the development of the wind band to 1950. Advanced analysis of Grades 1-3 wind band literature.

MUSI 7250 WIND BAND LITERATURE II (3) LEC. 3. Coreq., Approved MUSE course. History of the development of the wind band from 1950 to present.

MUSI 7310 WOMEN IN MUSIC (3) LEC. 3. This course will explore numerous issues related to the various roles women have played in the history of music, including composers, performers, and patrons. Western art traditions will be explored in addition to popular and world music traditions.

MUSI 7320 AFRICAN-AMERICAN CHORAL MUSIC (3) LEC. 3. A study of the choral music of African-American composers and its interaction with western musical styles.

MUSI 7970 SPECIAL TOPICS IN MUSIC (1-6) DMU. Provides an opportunity for graduate students to pursue cooperatively selected topics. Course may be repeated for a maximum of 12 credit hours.

Music Education - CTMU

Courses

CTMU 1010 INTRODUCTION TO MUSIC EDUCATION (0) LAB. 1. Introduction to teaching music.

CTMU 1020 MUSIC EDUCATION LAB I (1) LAB. 3. Development and documentation of general music instructional abilities and dispositions for school and community music educators. Clear background check required.

CTMU 2010 MUSIC EDUCATION LAB II (1) LAB. 3. Development and documentation of vocal or instrumental music instructional abilities and dispositions for school and community music educators. Clear background check required.

CTMU 3040 MUSIC AND RELATED ARTS (3) LEC. 2. LAB. 1, LLB. 0. Interdisciplinary instruction appropriate for students' developmental characteristics which synthesize the content, professional resources, curriculum goals and instructional strategies of music.

CTMU 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent reading, research or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTMU 4910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. Admission to Teacher Education. Cooperatively selected field experience. May count either CTMU 4910 or CTMU 4913. Course may be repeated for a maximum of 6 credit hours.

CTMU 4920 CLINICAL RESIDENCY (12) AAB/DSL. 40. SU. Admission to Clinical Residency. Supervised on-the-job experience in a school or other appropriate setting abroad with regularly scheduled discussions with supervising faculty provide evaluation and analysis of the intern. May count either CTMU 4920 or CTMU 4923.

CTMU 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Individual readings program. Course may be repeated for a maximum of 3 credit hours.

CTMU 4970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) LEC. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 6 credit hours.

CTMU 4997 HONORS THESIS (1-3) IND. Pr. Honors College. The student's thesis is finalized in this course. Course may be repeated for a maximum of 3 credit hours.

CTMU 5110 CHILDREN'S MUSIC LEARNING (4) LEC. 3. LAB. 3. Musical development and learning, birth-childhood. Curriculum, methods, and assessment for community and school children's music. Clear background check required. May count either CTMU 5110 or CTMU 6110.

CTMU 5120 SCHOOL AND COMMUNITY GENERAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, adolescence-adulthood. Curriculum, methods, and assessment for community and school general music. Clear background check required. May count either CTMU 5120 or CTMU 6120.

CTMU 5130 SCHOOL AND COMMUNITY INSTRUMENTAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, instrumentalists. Curriculum, methods, and assessment for community and school instrumental music. Clear background check required. May count either CTMU 5130 or CTMU 6130.

CTMU 5140 SCHOOL AND COMMUNITY VOCAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Admission to Teacher Education. Musical development and learning of vocalists. Curriculum, methods, and assessment for community and school vocal music. Clear background check required. May count either CTMU 5140 or CTMU 6140.

CTMU 6110 CHILDREN'S MUSIC LEARNING (4) LEC. 3. LAB. 3. Musical development and learning, birth-childhood. Curriculum, methods, and assessment for community and school children's music. Clear background check required. May count either CTMU 5110, CTMU 6110 or CTMU 6116.

CTMU 6120 SCHOOL AND COMMUNITY GENERAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, adolescence-adulthood. Curriculum, methods, and assessment for community and school general music. Clear background check required. May count either CTMU 5120 or CTMU 6120/CTMU 6126.

CTMU 6130 SCHOOL AND COMMUNITY INSTRUMENTAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, instrumentalists. Curriculum, methods, and assessment for community and school instrumental music. Clear background check required. May count either CTMU 5130, CTMU 6130 or CTMU 6136.

CTMU 6140 SCHOOL AND COMMUNITY VOCAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning of vocalists. Curriculum, methods, and assessment for community and school vocal music. Clear background check required. May count either CTMU 5140, CTMU 6140 or CTMU 6146.

CTMU 6940 ELEMENTARY/MIDDLE SCHOOL MUSIC METHODS (3) LEC. 3. Methodology, materials, organization and activities for elementary and middle school music programs. Includes professional field experiences in public school music programs. Admission to Alternative Master's Certification Program.

CTMU 6960 SECONDARY MUSIC METHODS (3) LEC. 3. Methodology, materials, organization and activities for secondary music programs. Includes professional field experiences in public school music programs. Admission to Alternative Master's Certification Program

CTMU 7000 SCHOOL AND COMMUNITY MUSIC (1) LEC. 1. Developing skills, disposition, community, and research planning for graduate students in school and community music. May count either CTMU 7000 or CTMU 7006. Course may be repeated for a maximum of 2 credit hours.

CTMU 7510 RESEARCH STUDIES IN MUSIC EDUCATION (3) RES. 3. Review, analysis and interpretation of available research with emphasis on designing new research to meet the changing needs of school musicians. May count either CTMU 7510 or CTMU 7516.

CTMU 7520 CURRICULUM AND TEACHING IN MUSIC EDUCATION (3) LEC. 3. Teaching practices and evaluation of experiences and content for curriculum improvements. Students develop recommendations for music curriculum. May count either CTMU 7520 or CTMU 7526.

CTMU 7530 ORGANIZATION OF PROGRAM IN MUSIC EDUCATION (3) LEC. 3. Program, organization and development of basic and supplementary materials for guiding teachers, facilities and school systems in continuous improvement of curriculum and teaching practices in music education. May count either CTMU 7530 or CTMU 7536.

CTMU 7540 EVALUATION OF PROGRAM IN MUSIC EDUCATION (3) LEC. 3. Evaluation and investigation of teaching effectiveness including the utilization of human and material resources and the coordination of areas of specialization and issues in evaluation which are unique to music education settings. May count either CTMU 7540 or CTMU 7546.

CTMU 7550 APPLICATIONS OF TECHNOLOGY IN MUSIC EDUCATION (3) LEC. 3. An overview of applications of current technology in music classroom, studios, and offices. May count either CTMU 7550 or CTMU 7556.

CTMU 7560 DIGITAL MEDIA PRODUCTION FOR MUSIC EDUCATION (3) LEC. 3. Current tools, skills, and concepts for creating aural and visual interactive applications. May count either CTMU 7560 or CTMU 7566.

CTMU 7570 MUSIC INSTRUCTION MULTIMEDIA RESEARCH AND DEVELOPMENT (3) LEC. 3. Pr. CTMU 7550 or CTMU 7556. Departmental approval. Current research music instructional technology, design of interactive applications.

CTMU 7580 PSYCHOLOGY OF MUSIC (3) LEC. 3. This course will focus on exploring the musical experience psychological, psycho-acoustic, emotional, anthropological, sociological, and assistance perspectives to better understand how philosophical and practical approaches work in music teaching, learning, and in community settings. May count either CTMU 7580 or CTMU 7586.

CTMU 7590 WEB DESIGN AND MEDIA FOR MUSIC EDUCATORS (3) LEC. 3. Exploration and creation of media for music-focused curriculum and curriulcum support focused on competent implementation and delivery via web sites and web-based platforms.

CTMU 7900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed toward desired objectives related to student's respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMU 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DMU/PRA. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTMU 7970 SPECIAL TOPICS (1-9) DMU. Departmental approval. Provides an opportunity for graduate students and professors to pursue cooperatively selected topics. Course may be repeated for a maximum of 9 credit hours.

CTMU 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CTMU 8950 SEMINAR (1-3) DMU. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTMU 8980 FIELD PROJECT (1-6) DMU. SU. Course may be repeated for a maximum of 6 credit hours.

CTMU 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

Music Ensemble - MUSE

Courses

MUSE 1100 MARCHING BAND (1) LAB. 6. Pr., Successful audition. Provides music for athletic contests and halftime shows at football games, parades, pep rallies, and other campus and off-campus events. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1110 CONCERT BAND (1) LAB. 3. Pr., Successful audition. Large performance group that rehearses and performs the literature of the concert band. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1120 SYMPHONIC BAND (1) LAB. 3. Pr., Successful audition. Large performance group that rehearses and performs the literature of the concert band. Open to students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1130 JAZZ BAND (1) LAB. 3. Pr., Successful audition. Performance group that rehearses and performs jazz band literature. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1140 CAMPUS BAND (1) LAB. 3. Large concert band that gives performing experience to all students with prior band experience. No audition required. Course may be repeated for a maximum of 2 credit hours.

MUSE 1150 ORCHESTRA (1) LAB. 3. Pr., Successful audition. Orchestra ensemble, open to all students based on the instrumental needs of the group as well as successful audition. Course may be repeated for a maximum of 2 credit hours.

MUSE 1160 UNIVERSITY SINGERS (1) LAB. 3. Pr., Successful audition. Select choral ensemble for study and performance of madrigals, pop music, show tunes, and choral music of the jazz idiom. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1170 GOSPEL CHOIR (1) LAB. 3. Pr., Successful audition. Performance of choral works in the African American gospel tradition. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1180 WOMEN'S CHORUS (1) LAB. 3. Pr., Successful audition. Performance of choral works for treble voices. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1190 MEN'S CHORUS (1) LAB. 3. Pr., Successful audition. Performance of choral works for men's voices. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1200 OPERA WORKSHOP (1) LAB. 3. Pr., Successful audition. Opera performance, stage craft, makeup, conducting and coaching. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1220 MUSIC ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for small instrumental groups. Course may be repeated for a maximum of 2 credit hours.

MUSE 1240 CHAMBER CHOIR (1) LAB. 3. Pr., Successful audition. Select mixed ensemble that rehearses and performs a variety of advanced choral literature. Course may be repeated for a maximum of 2 credit hours.

MUSE 1260 COMMERCIAL MUSIC ENSEMBLE - SONIC NATION (1) LAB. 3. Departmental approval. Study and performance of popular commercial music, encompassing all genres and styles from the early 1900s to the present. Audition required for enrollment. Course may be repeated for a maximum of 2 credit hours.

MUSE 1300 PERCUSSION ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for percussion ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1310 CONDUCTOR'S CHORUS (1) LAB. 3. Pr., Departmental approval. Small laboratory chorus for choral conducting students. Course may be repeated for a maximum of 2 credit hours.

MUSE 1320 LOW BRASS ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for low brass ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1330 STEEL BAND (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for steel band. Course may be repeated for a maximum of 2 credit hours.

MUSE 1340 WOODWIND ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for woodwind ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1350 WOODWIND QUINTET (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for woodwind quintet. Course may be repeated for a maximum of 2 credit hours.

MUSE 1360 TRUMPET ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for trumpet ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1370 BASSOON ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for bassoon ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1380 SAXOPHONE ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for saxophone ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1390 HORN ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for horn ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1400 CLARINET ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for clarinet ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1410 FLUTE ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for flute ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1420 COLLABORATIVE PIANO (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for voice or instrument with keyboard accompaniment. Course may be repeated for a maximum of 2 credit hours.

MUSE 1440 BRASS QUINTET (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for brass quintet. Course may be repeated for a maximum of 2 credit hours.

MUSE 1470 STRING CHAMBER MUSIC (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for string chamber music ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1480 JAZZ COMBO (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for jazz combo. Course may be repeated for a maximum of 2 credit hours.

MUSE 1600 INDIAN MUSIC ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for Indian music ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 1610 MARCHING PERCUSSION SECTIONALS (1) LAB. 3. Pr., Departmental approval. Sectional rehearsals for Auburn University marching band drumline. Course may be repeated for a maximum of 2 credit hours.

MUSE 1620 AUXILIARY SECTIONALS (1) LAB. 3. Pr., Successful audition. Sectional rehearsals for Tiger Eyes visual ensemble of the Auburn University marching band. Course may be repeated for a maximum of 2 credit hours.

MUSE 1630 PEP BAND (1) LAB. 3. Pr., Successful audition. Provides music for athletic contests, including basketball games, pep rallies, and other campus and off-campus events. Course may be repeated for a maximum of 2 credit hours.

MUSE 2100 MARCHING BAND (1) LAB. 6. Pr., Successful audition. Provides music for athletic contests and halftime shows at football games, parades, pep rallies and other campus and off-campus events. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2110 CONCERT BAND (1) LAB. 3. Pr., Successful audition. Large performance group that rehearses and performs the literature of the concert band. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2120 SYMPHONIC BAND (1) LAB. 3. Successful audition. Large performance group that rehearses and performs the literature of the concert band. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2130 JAZZ BAND (1) LAB. 3. Pr., Successful audition. Performance group that rehearses and performs the jazz band literature. Open to students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2140 CAMPUS BAND (1) LAB. 3. Large concert band that gives performing experience to all students with prior band experience. No audition required. Course may be repeated for a maximum of 2 credit hours.

MUSE 2150 ORCHESTRA (1) LAB. 3. Pr., Successful audition. Orchestra ensemble, open to all students based on the instrumental needs of the group as well as successful audition. Course may be repeated for a maximum of 2 credit hours.

MUSE 2160 UNIVERSITY SINGERS (1) LAB. 3. Pr., Successful audition. Select choral ensemble for study and performance of madrigals, pop music, show tunes, and choral music of the jazz idiom. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2170 GOSPEL CHOIR (1) LAB. 3. Pr., Successful audition. Performance of choral works in the African American gospel tradition. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2180 WOMEN'S CHORUS (1) LAB. 3. Pr., Successful audition. Performance of choral works for treble voices. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2190 MEN'S CHORUS (1) LAB. 3. Pr., Successful audition. Performance of choral works for men's voices. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2200 OPERA WORKSHOP (1) LAB. 3. Pr., Successful audition. Opera performance, stage craft, makeup, conducting, and coaching. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2220 MUSIC ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for small instrumental groups. Course may be repeated for a maximum of 2 credit hours.

MUSE 2240 CHAMBER CHOIR (1) LAB. 3. Pr., Successful audition. Select mixed ensemble that rehearses and performs a variety of advanced choral literature. Course may be repeated for a maximum of 2 credit hours.

MUSE 2260 COMMERCIAL MUSIC ENSEMBLE - SONIC NATION (1) LAB. 3. Departmental approval. Study and performance of popular commercial music, encompassing all genres and styles from the early 1900s to the present. Audition required for enrollment. Course may be repeated for a maximum of 2 credit hours.

MUSE 2300 PERCUSSION ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for percussion ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2310 CONDUCTOR'S CHORUS (1) LAB. 3. . Pr., Departmental approval. Small laboratory chorus for choral conducting students. Course may be repeated for a maximum of 2 credit hours.

MUSE 2320 LOW BRASS ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for low brass ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2330 STEEL BAND (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for steel band. Course may be repeated for a maximum of 2 credit hours.

MUSE 2350 WOODWIND QUINTET (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for woodwind quintet. Course may be repeated for a maximum of 2 credit hours.

MUSE 2360 TRUMPET ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for trumpet ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2370 BASSOON ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for bassoon ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2380 SAXOPHONE ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for saxophone ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2390 HORN ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for horn ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2400 CLARINET ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for clarinet ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2410 FLUTE ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for flute ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2420 COLLABORATIVE PIANO (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for voice or instrument with keyboard accompaniment. Course may be repeated for a maximum of 2 credit hours.

MUSE 2440 BRASS QUINTET (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for brass quintet. Course may be repeated for a maximum of 2 credit hours.

MUSE 2480 JAZZ COMBO (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for jazz combo. Course may be repeated for a maximum of 2 credit hours.

MUSE 2600 INDIAN MUSIC ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for Indian music ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 2610 MARCHING PERCUSSION SECTIONALS (1) LAB. 3. Pr., Departmental approval. Sectional rehearsals for Auburn University marching band drumline. Course may be repeated for a maximum of 2 credit hours.

MUSE 2620 AUXILIARY SECTIONALS (1) LAB. 3. Pr., Successful audition. Sectional rehearsals for Tiger Eyes visual ensemble of the Auburn University marching band. Course may be repeated for a maximum of 2 credit hours.

MUSE 2630 PEP BAND (1) LAB. 3. Pr., Successful audition. Provides music for athletic contests including basketball games, pep rallies, and other campus and off-campus events. Course may be repeated for a maximum of 2 credit hours.

MUSE 3100 MARCHING BAND (1) LAB. 6. Pr., Successful audition. Provides music for athletic contests and halftime shows at football games, parades, pep rallies, and other campus and off-campus events. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3110 CONCERT BAND (1) LAB. 3. Pr., Successful audition. Large performance group that rehearses and performs the literature of the concert band. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3120 SYMPHONIC BAND (1) LAB. 3. Pr., Successful audition. Large performance group that rehearses and performs the literature of the concert band. Open to students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3130 JAZZ BAND (1) LAB. 3. Pr., Successful audition. Performance group that rehearses and performs the jazz band literature. Open to students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3140 CAMPUS BAND (1) LAB. 3. Large concert band that gives performing experience to all students with prior band experience. No audition required. Course may be repeated for a maximum of 2 credit hours.

MUSE 3150 ORCHESTRA (1) LAB. 3. Pr., Successful audition. Orchestra ensemble, open to all students based on the instrumental needs of the group as well as successful audition. Course may be repeated for a maximum of 2 credit hours.

MUSE 3160 UNIVERSITY SINGERS (1) LAB. 3. Pr., Successful audition. Select choral ensemble for study and performance of madrigals, pop music, show tunes, and choral music of the jazz idiom. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3170 GOSPEL CHOIR (1) LAB. 3. Pr., Successful audition. Performance of choral works in the African American gospel tradition. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3180 WOMEN'S CHORUS (1) LAB. 3. Pr., Successful audition. Performance of choral works for treble voices. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3190 MEN'S CHORUS (1) LAB. 3. Pr., Successful audition. Performance of choral works for men's voices. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3200 OPERA WORKSHOP (1) LAB. 3. Pr., Successful audition. Opera performance, stage craft, makeup, conducting and coaching. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3220 MUSIC ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for small instrumental groups. Course may be repeated for a maximum of 2 credit hours.

MUSE 3240 CHAMBER CHOIR (1) LAB. 3. Pr., Successful audition. Select mixed ensemble that rehearses and performs a variety of advanced choral literature. Course may be repeated for a maximum of 2 credit hours.

MUSE 3260 COMMERCIAL MUSIC ENSEMBLE - SONIC NATION (1) LAB. 3. Departmental approval. Study and performance of popular commercial music, encompassing all genres and styles from the early 1900s to the present. Audition required for enrollment. Course may be repeated for a maximum of 2 credit hours.

MUSE 3310 CONDUCTOR'S CHORUS (1) LAB. 3. Pr., Departmental approval. Small laboratory chorus for choral conducting students. Course may be repeated for a maximum of 2 credit hours.

MUSE 3320 LOW BRASS ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for low brass ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 3330 STEEL BAND (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for steel band. Course may be repeated for a maximum of 2 credit hours.

MUSE 3350 WOODWIND QUINTET (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for woodwind quintet. Course may be repeated for a maximum of 2 credit hours.

MUSE 3360 TRUMPET ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for trumpet ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 3370 BASSOON ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for bassoon ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 3380 SAXOPHONE ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for saxophone ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 3390 HORN ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for horn ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 3400 CLARINET ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for clarinet ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 3410 FLUTE ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for flute ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 3420 COLLABORATIVE PIANO (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for voice or instrument with keyboard accompaniment. Course may be repeated for a maximum of 2 credit hours.

MUSE 3440 BRASS QUINTET (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for brass quintet. Course may be repeated for a maximum of 2 credit hours.

MUSE 3480 JAZZ COMBO (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for jazz combo. Course may be repeated for a maximum of 2 credit hours.

MUSE 3600 INDIAN MUSIC ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for Indian music ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 3610 MARCHING PERCUSSION SECTIONALS (1) LAB. 3. Pr., Departmental approval. Sectional rehearsals for Auburn University marching band drumline. Course may be repeated for a maximum of 2 credit hours.

MUSE 3620 AUXILIARY SECTIONALS (1) LAB. 3. Pr., Successful audition. Sectional rehearsals for Tiger Eyes visual ensemble of the Auburn University marching band. Course may be repeated for a maximum of 2 credit hours.

MUSE 3630 PEP BAND (1) LAB. 3. Pr., Successful audition. Provides music for athletic contests including basketball games, pep rallies, and other campus and off-campus events. Course may be repeated for a maximum of 2 credit hours.

MUSE 4100 MARCHING BAND (1) LAB. 6. Pr., Successful audition. Provides music for athletic contests and halftime shows at football games, parades, pep rallies, and other campus and off-campus events. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4110 CONCERT BAND (1) LAB. 3. Pr., Successful audition. Large performance group that rehearses and performs the literature of the concert band. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4120 SYMPHONIC BAND (1) LAB. 3. Pr., Successful audition. Large performance group that rehearses and performs the literature of the concert band. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4130 JAZZ BAND (1) LAB. 3. Pr., Successful audition. Performance group that rehearses and performs the jazz band literature. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4140 CAMPUS BAND (1) LAB. 3. Large concert band that gives performing experience to all students with prior band experience. No audition required. Course may be repeated for a maximum of 2 credit hours.

MUSE 4150 ORCHESTRA (1) LAB. 3. Pr., Successful audition. Orchestra ensemble, open to all students based on the instrumental needs of the group as well as successful audition. Course may be repeated for a maximum of 2 credit hours.

MUSE 4160 UNIVERSITY SINGERS (1) LAB. 3. Pr., Successful audition. Select choral ensemble for study and performance of madrigals, pop music, show tunes, and choral music of the jazz idiom. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4170 GOSPEL CHOIR (1) LAB. 3. Pr., Successful audition. Performance of choral works in the African American gospel tradition. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4180 WOMEN'S CHORUS (1) LAB. 3. Pr., Successful audition. Performance of choral works for treble voices. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4190 MEN'S CHORUS (1) LAB. 3. Pr., Successful audition. Performance of choral works for men's voices. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4200 OPERA WORKSHOP (1) LAB. 3. Pr., Successful audition. Opera performance, stage craft, makeup, conducting, and coaching. Open to all students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4220 MUSIC ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for small instrumental groups. Course may be repeated for a maximum of 2 credit hours.

MUSE 4240 CHAMBER CHOIR (1) LAB. 3. Pr., Successful audition. Select mixed ensemble that rehearses and performs a variety of advanced choral literature. Course may be repeated for a maximum of 2 credit hours.

MUSE 4260 COMMERCIAL MUSIC ENSEMBLE - SONIC NATION (1) LAB. 3. Departmental approval. Study and performance of popular commercial music, encompassing all genres and styles from the early 1900s to the present. Audition required for enrollment. Course may be repeated for a maximum of 2 credit hours.

MUSE 4300 PERCUSSION ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for percussion ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4310 CONDUCTOR'S CHORUS (1) LAB. 3. Pr., Departmental approval. Small laboratory chorus for choral conducting students. Course may be repeated for a maximum of 2 credit hours.

MUSE 4320 LOW BRASS ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for low brass ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4330 STEEL BAND (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for steel band. Course may be repeated for a maximum of 2 credit hours.

MUSE 4340 WOODWIND ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for woodwind ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4350 WOODWIND QUINTET (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for woodwind quintet. Course may be repeated for a maximum of 2 credit hours.

MUSE 4360 TRUMPET ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for trumpet ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4370 BASSOON ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for bassoon ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4380 SAXOPHONE ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for saxophone ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4390 HORN ENSEMBLE (1) LAB. 3. Pr., Study and performance of musical compositions for horn ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4400 CLARINET ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for clarinet ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4410 FLUTE ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for flute ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4420 COLLABORATIVE PIANO (1) LAB. 3. Pr., Department approval. Study and performance of musical compositions for voice or instrument with keyboard accompaniment. Course may be repeated for a maximum of 2 credit hours.

MUSE 4440 BRASS QUINTET (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for brass quintet. Course may be repeated for a maximum of 2 credit hours.

MUSE 4470 STRING CHAMBER MUSIC (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for string chamber music ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4480 JAZZ COMBO (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for jazz combo. Course may be repeated for a maximum of 2 credit hours.

MUSE 4600 INDIAN MUSIC ENSEMBLE (1) LAB. 3. Pr., Departmental approval. Study and performance of musical compositions for Indian music ensemble. Course may be repeated for a maximum of 2 credit hours.

MUSE 4610 MARCHING PERCUSSION SECTIONALS (1) LAB. 3. Pr., Departmental approval. Sectional rehearsals for Auburn University marching band drumline. Course may be repeated for a maximum of 2 credit hours.

MUSE 4620 AUXILIARY SECTIONALS (1) LAB. 3. Pr., Successful audition. Sectional rehearsals for Tiger Eyes visual ensemble of the Auburn University marching band. Course may be repeated for a maximum of 2 credit hours.

MUSE 4630 PEP BAND (1) LAB. 3. Pr., Successful audition. Provides music for athletic contests, including basketball games, pep rallies, and other campus and off-campus events. Course may be repeated for a maximum of 2 credit hours.

MUSE 7400 GRADUATE CHORAL ENSEMBLE (1) LAB. 3. Pr., Successful audition. Graduate-level choral ensemble for the study and performance of standard literature. Course may be repeated for a maximum of 2 credit hours.

MUSE 7410 GRADUATE INSTRUMENTAL ENSEMBLE (1) LAB. 3. Pr., Successful audition. Graduate-level instrumental ensemble for the study and performance of standard literature. Course may be repeated for a maximum of 2 credit hours.

MUSE 7510 GRADUATE INSTRUMENTAL ENSEMBLE (1) LAB. 3. Pr., Successful audition. Graduate-level instrumental ensemble for the study and performance of standard literature. Course may be repeated for a maximum of 2 credit hours.

MUSE 7610 GRADUATE INSTRUMENTAL ENSEMBLE (1) LAB. 3. Pr., Successful audition. Graduate-level instrumental ensemble for the study and performance of standard literature. Course may be repeated for a maximum of 2 credit hours.

Natural Resources Management - NATR

Courses

NATR 2020 NATURAL RESOURCES FIELD METHODS (3) LEC. 2. LAB. 4. Sampling methods relevant to the evaluation of the environment. Topics include sampling methods, quality assurance procedures, and data management.

NATR 2050 PEOPLE AND THE ENVIRONMENT: AN INTRODUCTION TO CONSERVATION SOCIAL SCIENCES (3) LEC. 3. Introduction to the variety of social sciences used to understand the relationships of people and their environment. Students will develop a deeper and broader understanding of the challenges and potential solutions to natural resource issues facing society today.

NATR 2100 INTRO TO LANDSCAPE ECOLOGY (4) LEC. 3. LAB. 2. An introduction to the study of spatial patterns and interactions between ecosystems within a landscape, focusing on how these patterns influence ecological processes, biodiversity, and environmental change.

NATR 2200 CURRENT TOPICS IN ENVIRONMENTAL CONSERVATION AND MANAGEMENT (2) LEC. 2. Comprehensive examination of the scientific challenges associated with environmental conservation and management. Through an exploration of contemporary environmental issues, students will gain foundational knowledge of the ecological and biological factors contributing to these challenges. The course emphasizes the development of a robust scientific vocabulary pertinent to environmental conservation, enabling students to engage effectively in advanced studies and professional dialogues.

NATR 3320 ECOSYSTEM SERVICES IN COSTA RICA (3) AAB. Coreq. NATR 4250 and PARK 3630 and GEOG 3720. The environment provides many services critical to our survival and well-being, such as food and fuel, climate regulation, water purification, and recreational and aesthetic opportunities. In this class, students examine the environmental services that ecosystems provide, their connection to human well-being and livelihoods, and the market mechanism and payment programs designed to provide incentives for their maintenance. Costa Rica was one of the first countries to establish a payment program for Ecosystem Services.

NATR 4240 WATERSHED MANAGEMENT (3) LEC. 3. Introduction to watersheds, effects of land management on erosion and water quality, and mitigation techniques to reduce adverse effects.

NATR 4250 WATERSHED MANAGEMENT IN TROPICAL REGIONS (3) AAB. Coreq. GEOG 3720 and NATR 3320 and PARK 3630. This intensive 3-week course focuses on the principles and practices of watershed management in tropical regions, with a specific emphasis on Costa Rica's unique ecosystems. Students will gain a comprehensive understanding of the hydrological, ecological, and socio-economic factors that influence watershed dynamics in tropical environments. The course combines classroom lectures, field studies, and hands-on projects to provide a holistic learning experience.

NATR 4535 COASTAL ZONE MANAGEMENT (2) LEC. 2. Pr. BIOL 1030 or BIOL 1037. Management of shorelines and flood plains, and current legislation. Water quality and ecosystem quality management. Taught at Dauphin Island Sea Laboratory.

NATR 4930 DIRECTED STUDIES (1-3) IND. Departmental approval. Independent Study. Course may be repeated for a maximum of 6 credit hours.

NATR 4970 SPECIAL TOPICS (1-4) LEC. Overview of natural resources, classification, chemistry, ecology and sustainable management. Department approval and agreement with faculty and student. Course may be repeated for a maximum of 8 credit hours.

NATR 5050 URBAN ECOLOGY (3) LEC. 3. Examination of urban ecosystems and the influence of urbanization on rural and forested lands. Junior standing. May count either NATR 5050 or NATR 6050.

NATR 5250 WETLAND ECOLOGY AND MANAGEMENT (3) LEC. 3. Pr. BIOL 3060 or FORY 4230. Wetland ecology in the southeastern U.S. with emphasis on soils, hydrology, biology, and policies and practices related to agriculture, forestry, wildlife.

NATR 5310 ENVIRONMENTAL ETHICS (3) LEC. 3. Critical examination of environmental ethics: historical development and various ethical perspectives. Examination of current environmental issues using perspectives covered in course.

NATR 5320 ECOSYSTEM SERVICES (3) LEC. 3. Ecosystem services are the benefits that people obtain from ecosystems. Human well-being, livelihoods, and markets are covered with emphasis on watershed, biodiversity, carbon, and tourism services.

NATR 5350 WATER RESOURCE MANAGEMENT AND POLICY (3) DSL. This course examines social contexts, ecological contexts, human behaviors, institutions, laws, and policies that guide water management practices. Impacts of critical issues, including climate change, demand, conflict, and pollution, on water resources and water management behaviors are discussed.

NATR 5430 HUMAN DIMENSIONS OF WILDLIFE AND NATURAL RESOURCES (3) LEC. 3. Forests, wildlife, wetlands, and wilderness - sustaining and managing our natural resources ultimately depends on understanding people. Students will investigate the paradigms and theoretical foundations regarding our values, beliefs, attitudes and behaviors concerning human-environment interactions.

NATR 5450 COASTAL LAW (3) DSL. Course will provide students with a firm understanding of the principles of coastal and ocean law and policy and the legal and regulatory structures that are in place to protect people and the environment.

NATR 5550 WATERSHED HYDROLOGY (3) LEC. 3. Departmental approval. In depth focus on components of the hydrologic cycle in forested landscapes and how changes in the landscape and management practices impact the hydrologic regime in the watershed.

NATR 5560 ENERGY LAW (3) LEC. 3. Core principles of energy law, including various legal and regulatory structures that protect people and the environment, particularly as applied to the production, distribution, and consumption of different forms of energy within the US and other regions of the world.

NATR 5630 CONSERVATION PLANNING (3) LEC. 3. Trains students in how to build plans for conservation and management of natural resources. Covers established processes associated with developing conservation plans while addressing human concerns. Includes how to establish measurable objectives, utilize data, frame problems, and determine uncertainty/risk.

NATR 5880 ECOLOGICAL ECONOMICS (3) LEC. 3. Foundations, principles and empirical application of ecological economics to address current social and economic issues.

NATR 6050 URBAN ECOLOGY (3) LEC. 3. Examination of urban ecosystems and the influence of urbanization on rural and forested lands. May count either FOWS 5050 or FOWS 6050.

NATR 6250 WETLAND ECOLOGY AND MANAGEMENT (3) LEC. 3. Pr. BIOL 3060. Wetland ecology in the southeastern U.S. with emphasis on soils, hydrology, biology, and policies and practices related to agriculture, forestry, wildlife.

NATR 6310 ENVIRONMENTAL ETHICS (3) LEC. 3. Critical examination of environmental ethics. Historical development and various ethical perspectives. Examination of current environmental issues using perspectives covered in course.

NATR 6320 ECOSYSTEM SERVICES (3) LEC. 3. Ecosystem services are the benefits that people obtain from ecosystems. Human well-being, livelihoods, and markets are covered with emphasis on watershed, biodiversity, carbon, and tourism services.

NATR 6350 WATER RESOURCE MANAGEMENT AND POLICY (3) DSL. This course examines social contexts, ecological contexts, human behaviors, institutions, laws, and policies that guide water management practices. Impacts of critical issues, including climate change, demand, conflict, and pollution, on water resources and water management behaviors are discussed.

NATR 6430 HUMAN DIMENSIONS OF WILDLIFE AND NATURAL RESOURCES (3) LEC. 3. Forests, wildlife, wetlands, and wilderness - sustaining and managing our natural resources ultimately depends on understanding people. Students will investigate the paradigms and theoretical foundations regarding our values, beliefs, attitudes and behaviors concerning human-environment interactions.

NATR 6450 COASTAL LAW (3) DSL. Course will provide students with a firm understanding of the principles of coastal and ocean law and policy and the legal and regulatory structures that are in place to protect people and the environment.

NATR 6550 WATERSHED HYDROLOGY (3) LEC. 3. In depth focus on components of the hydrologic cycle in forested landscapes and how changes in the landscape and management practices impact the hydrologic regime in the watershed.

NATR 6560 ENERGY LAW (3) LEC. 3. Core principles of energy law, including various legal and regulatory structures that protect people and the environment, particularly as applied to the production, distribution, and consumption of different forms of energy within the US and other regions of the world.

NATR 6630 CONSERVATION PLANNING (3) LEC. Trains students in how to build plans for conservation and management of natural resources. Covers established processes associated with developing conservation plans while addressing human concerns. Includes how to establish measurable objectives, utilize data, frame problems, and determine uncertainty/risk.

NATR 6880 ECOLOGICAL ECONOMICS (3) LEC. 3. Foundations, principles and empirical application of ecological economics to address current social and economic issues.

NATR 7250 SURVEYING AND INTERVIEWING FOR SCIENTISTS (3) LEC. 3. A research design and methods course aimed at interdisciplinary students working on research with one foot in the biological or ecological sciences, and one foot in the social sciences.

NATR 7300 NATURAL RESOURCE MANAGEMENT FUNDAMENTALS (3) DSL. This course is a foundational overview of natural resource management systems. Topics include history, trends, innovations, administration, law, policy, and social-ecological connections. Focus is on exploring core concepts that guide contemporary natural resource management practices.

NATR 7560 MODELING ENVIRONMENTAL CHANGE AT MULTIPLE SCALES (3) LEC. 3. LAB. 1. Pr. FORY 7550 and FORY 6480. Modeling fundamentals to solve environmental change problems at multiples scales driven by (i) climate variability/change and (ii) land use/cover change. Problems will be tackled at both temporal (event-based and continuous) and spatial (small and large watersheds) scales to predict streamflow and water quality and develop abatement strategies. Spring, odd years. Department Approval Required or Instructor Permission.

NATR 7930 DIRECTED STUDIES (1-3) IND. Departmental approval. Directed studies in subject matter not covered by an existing course or to supplement knowledge gained from existing course offerings. Course may be repeated for a maximum of 9 credit hours.

NATR 7970 SPECIAL TOPICS (1-4) IND. Analysis of a problem in the natural resources management area involving lectures, discussions, laboratory for field work. Department approval and agreement with faculty and students. Course may be repeated for a maximum of 12 credit hours.

NATR 7990 RESEARCH AND THESIS (1-15) RES. 0. Credit to be arranged. Course may be repeated for a maximum of 15 credit hours.

Naval Science (NROTC) - NAVS

Courses

NAVS 1010 INTRODUCTION TO NAVAL SCIENCE (3) LEC. 3. Basic areas of Naval Science including uniforms and insignia, military courtesy, discipline, warfare components, organizational structure, and supporting elements of the U.S. Navy and U.S. Marine Corps.

NAVS 1011 INTRO TO NAVAL SCIENCE LAB I (1) LAB. 3. An introduction to the Reserve Officer Training Corps and the US Navy and USMC.

NAVS 1020 SEAPOWER AND MARITIME AFFAIRS (3) LEC. 3. Introduction to broad principles, concepts and elements of naval history, seapower, and maritime affairs from past to present.

NAVS 1021 INTRO TO NAVAL SCIENCE LAB II (1) LAB. 3. An introduction to the Reserve Officer Training Corps and the US Navy and USMC.

NAVS 2010 LEADERSHIP AND MANAGEMENT (3) LEC. 3. Fundamentals of leadership and management theory vital to the effectiveness of Navy/Marine Corps officers.

NAVS 2011 LEADERSHIP DEVELOPMENT LAB I (1) LAB. 3. To learn ethics-based leadership skills that develop individual attributes and contribute to effective team building. Includes naval drill, physical fitness and general military leadership instruction.

NAVS 2021 LEADERSHIP DEVELOPMENT LAB II (1) LAB. 3. To learn ethics-based leadership skills that develop individual attributes and contribute to effective team building.

NAVS 2060 NAVIGATION (3) LEC. 3. Theory and principles of piloting involving the use of visual and electronic aids.

NAVS 3011 SMALL UNIT LEADERSHIP LAB I (1) LAB. 3. Introduction to individual and team aspects of military training in small unit operations.

NAVS 3021 SMALL UNIT LEADERSHIP LAB II (1) LAB. 3. Series of practical opportunities to lead small groups, receive performance assessments and coaching, and lead again in situations of increasing complexity.

NAVS 3030 EVOLUTION OF WARFARE (3) LEC. 3. Pr. P/C NAVS 3011 or P/C NAVS 3021. Forms of warfare practices to identify historical continuity and change in the evolution of warfare. Explores the impact of historical precedent, economic factors and technological change on politico-military thought and action.

NAVS 3050 NAVAL SHIP SYSTEMS I (ENGINEERING) (3) LEC. 3. Principles of ship design, construction, and stability. Introduction to thermodynamics and the steam cycle as applied to naval propulsion systems.

NAVS 3060 NAVAL SHIP SYSTEMS II WEAPONS (3) LEC. 3. Theory and employment of systems through a study of fundamental principles of sensor, tracking, computational, and weapons delivery subsystems.

NAVS 4011 ENS AND SECOND LT LAB I (1) LAB. 3. Plan, conduct, and evaluate training and organizational cohesion. Identify and resolve ethical dilemmas. Refine counseling and motivating techniques.

NAVS 4020 LEADERSHIP AND ETHICS (3) LEC. 3. Pr. NAVS 2010. Departmental approval. Integrates an intellectual exploration of Western moral traditions and ethical philosophy with a variety of topics, such as military leadership, core values, and professional ethics.

NAVS 4021 ENS AND SECOND LT LAB II (1) LAB. 3. Discuss current events, affairs, policies and programs that affect the United States Navy and Marine Corps.

NAVS 4030 FUNDAMENTALS OF MANEUVER WARFARE (3) LEC. 3. Historical survey of the development of maneuver warfare in the context of military engagements and developments. Emphasis on the evolution of maneuver warfare in the United States Marine Corps in the 20th century.

NAVS 4050 NAVAL OPERATION AND SEAMANSHIP (3) LEC. 3. Inland and International law governing maritime operations, communication procedures, and other naval/maritime operational procedures.

Nursing - NURS

Courses

NURS 1010 NURSING SUCCESS (1) LEC. 1. SU. This elective course is designed to help students explore the nursing profession and the skills necessary to provide a pathway to academic success.

NURS 2020 DOSAGE CALCULATION AND MEDICAL TERMINOLOGY FOR HEALTHCARE PROFESSIONALS (1) DSL/LEC. Provides fundamental dosage calculation and medical terminology concepts essential for professional nursing and/or healthcare practice. Course may be repeated for a maximum of 2 credit hours.

NURS 2030 FOUNDATIONS OF PROFESSIONAL NURSING (3) LEC. Coreq. NURS 2040. Examines the principles of professional nursing and theoretical underpinnings of nursing care.

NURS 2040 PROFESSIONAL NURSING ACROSS THE LIFESPAN (3) LEC. Coreq. NURS 2030. Explores professional nursing care of clients across all stages of human development employing a holistic approach.

NURS 2120 CONTEMPORARY TOPICS IN WOMEN'S HEALTH (3) LEC. 3. This course will provide an overview of health issues affecting women. Topics will include sexually transmitted infections, contraception, childbearing, mental health, domestic violence, human trafficking, and menopause.

NURS 3010 PATHOPHARMACOLOGY FOR SIMPLE AND STABLE CONDITIONS (2) LEC. Pr. NURS 2020 and NURS 2030 and NURS 2040. Coreq. NURS 3510 and NURS 3410. Explores pathophysiological and pharmacological concepts that guide nursing professionals in providing person-centered care. Course content will focus on foundational pathophysiological and pharmacological concepts and their application for managing clients with simple and stable conditions.

NURS 3020 PATHOPHARMACOLOGY FOR ACUTE AND MENTAL HEALTH CONDITIONS (2) LEC. Pr. NURS 3010 and NURS 3410 and NURS 3510. Coreq. NURS 3530 and NURS 3520. Explores pathophysiological and pharmacological concepts that guide nursing professionals in providing person-centered care. Course content will focus on pathophysiological and pharmacological concepts and their application for managing clients with health exacerbations, complications, urgent and critical medical conditions, and mental health conditions.

NURS 3110 THEORETICAL CONCEPTS OF PROFESSIONAL NURSING PRACTICE (3) LEC. 3. Coreq. NURS 3141 and NURS 3130. Exploration of essential professional nursing concepts.

NURS 3120 NURSING PATHOPHYSIOLOGY (3) LEC. 3. Coreq. NURS 3141 and NURS 3130. Admission to the School of Nursing Upper Division. Pathophysiological concepts that guide nursing professionals in the assessment, planning, implementation and evaluation of care for patients across the lifespan.

NURS 3130 EVIDENCE BASED SKILLS, ASSESSMENT, AND HEALTH PROMOTION (4) LEC. 4. Coreq. NURS 3110 and NURS 3141. Integration of current evidence to guide nursing skills, assessment, and health promotion.

NURS 3140 INTERDISCIPLINARY APPROACHES TO CARING FOR CHILDREN IN THE COMMUNITY (2) LEC. 2. The course introduces students to community-dwelling children (birth through teens) who have special needs and/or chronic health conditions. Students will develop skills in communication and practical skills for relating to and interacting with this population. Students will explore community resources and participate in providing outreach projects serving children and their families, and health information to the public.

NURS 3141 CONCEPTS AND EVIDENCE BASED SKILLS FOR PROFESSIONAL CLINICAL PRACTICE (3) LAB. 9. SU. Coreq. NURS 3110 and NURS 3130. Application of foundational nursing concepts, skills, and assessment across the lifespan in diverse settings with emphasis on health promotion.

NURS 3210 CLINICAL PHARMACOLOGY (3) LEC. 3. Pr. (NURS 3120 or NURS 3123) and NURS 3130. Nurse's role in therapeutic pharmacology.

NURS 3230 PROFESSIONAL NURSING CONCEPTS: ACUTE CARE ACROSS THE LIFESPAN (6) LEC. 6. Pr. (NURS 3120 or NURS 3123) and NURS 3110 and NURS 3130 and NURS 3141. Coreq. NURS 3231 and NURS 3210. Concepts inherent in the delivery of nursing care for acutely ill individuals and their families.

NURS 3231 PROFESSIONAL NURSING CONCEPTS: ACUTE CARE ACROSS THE LIFESPAN - CLINICAL (4) LAB. 12. SU. Pr. NURS 3123 or NURS 3120. Coreq. NURS 3210 and NURS 3230. Application of concepts inherent in the delivery of nursing care for acutely ill individuals and their families.

NURS 3330 PROFESSIONAL NURSING CONCEPTS IN THE CHILDBEARING FAMILY AND REPRODUCTIVE HEALTH (4) LEC. 4. Pr. NURS 3120. Coreq. NURS 3331. Concepts inherent in reproductive health and nursing care for childbearing families.

NURS 3331 PROFESSIONAL NURSING CONCEPTS IN THE CHILDBEARING FAMILY AND REPRODUCTIVE HEALTH - CLINICAL (2) LAB. 6. SU. Pr. NURS 3120. Coreq. NURS 3330. Concepts inherent in reproductive health and nursing care for childbearing families applied in clinical settings.

NURS 3410 HEALTH ASSESSMENT (2) LEC. 1. LAB. 1. Pr. NURS 2020 and NURS 2030 and NURS 2040. Coreq. NURS 3510 and NURS 3010. Focuses on holistic assessment across the lifespan.

NURS 3420 PROFESSIONAL COMMUNITY AND PUBLIC HEALTH NURSING (3) LEC. 2. LAB. 3. Pr. NURS 2020 and NURS 2030 and NURS 2040. Coreq. NURS 3410. Explores concepts inherent in the delivery of equitable, just, safe, and person-centered care for individuals, families, and communities in diverse settings.

NURS 3510 CLINICAL JUDGMENT IN NURSING FOR SIMPLE AND STABLE CONDITIONS (5) LEC. 3. LAB. 6. Pr. NURS 2020 and NURS 2030 and NURS 2040. Coreq. NURS 3010 and NURS 3410 and NURS 3420. Prepares students to provide professional nursing care for adult clients experiencing simple and/or stable conditions through didactic, lab, and clinical experiences. Course content will focus on health promotion, wellness, and management of medical conditions.

NURS 3520 CLINICAL JUDGMENT IN NURSING FOR ACUTE CONDITIONS (8) LEC. 4. LAB. 12. Pr. NURS 3010 and NURS 3410 and NURS 3510. Coreq. NURS 3020. Prepares students to provide professional nursing care for adult clients experiencing acute and/or unstable conditions through didactic, lab, and clinical experiences. Course content will focus on health exacerbations, complications, and management of urgent and unstable medical conditions.

NURS 3530 CLINICAL JUDGMENT IN NURSING FOR MENTAL HEALTH (5) LEC. 3. LAB. 6. Pr. NURS 3010 and NURS 3410 and NURS 3510. Coreq. NURS 3020. Prepares students to provide professional nursing care for clients experiencing developmental, behavioral, and mental health disorders through didactic, lab, and clinical experiences. Course content will focus on addressing mental health and well-being across the lifespan.

NURS 3630 PROFESSIONAL NURSING LEADERSHIP IN MICROSYSTEMS (2) LEC. 2. Pr. NURS 3230 and NURS 3231. The study of leadership and management concepts for direct patient care. Nursing Science only

NURS 3700 COMPETENCY RETENTION COURSE FOR NON-CLINICAL CONCEPTS (3) LEC. 3. This course is designed for students who are out of sequence in the professional nursing curriculum. Topics and activities will assist the student in retaining competencies in completed non-clinical courses.

NURS 3701 COMPETENCY RETENTION COURSE FOR CLINICAL CONCEPTS (3) LEC. 2. LAB. 1. This course is designed for students who are out of sequence in the professional nursing curriculum. Topics and activities will assist the student in retaining competencies in completed clinical courses.

NURS 3730 PROFESSIONAL NURSING CONCEPTS: MENTAL HEALTH ACROSS THE LIFESPAN (2) LEC. 2. Pr. NURS 3110 and NURS 3130 and NURS 3141. Coreq. NURS 3330 and NURS 3731. Concepts inherent in the delivery of nursing care for mentally ill individuals, families, and communities across the lifespan.

NURS 3731 PROFESSIONAL NURSING CONCEPTS: MENTAL HEALTH ACROSS THE LIFESPAN CLINICAL (2) LAB. 2. SU. Pr. NURS 3110 and NURS 3130 and NURS 3141. Coreq. NURS 3730. Clinical application of concepts inherent in the delivery of nursing care for mentally ill individuals, families, and communities across the lifespan.

NURS 3810 HOLISTIC NURSING PATHOPHYSIOLOGY & HEALTH ASSESSMENT (5) LEC. 5. Pathophysiological concepts that guide professional nurses in assessment, planning, implementation and evaluation of holistic care for patients across the lifespan.

NURS 3830 EVIDENCE BASED PRACTICE (5) LEC. 5. Pr. (NURS 3813 or NURS 3810) and (NURS 3843 or NURS 3840). Admission into Online RN-to-BSN Program. Utilization of evidence-based practice to promote delivery of quality patient care.

NURS 3840 FORMATION OF PROFESSIONAL NURSING PRACTICE (5) DSL/LEC. 5. Admission to the School of Nursing RN to BSN Program. Examines concepts, theories, and competencies fundamental to the formation of professional nursing practice.

NURS 3940 HEALTHCARE IN THE GLOBAL ARENA (2-3) LEC. 45. LAB. 0. Pr. NURS 3520 and NURS 3530. Study abroad learning opportunity to explore healthcare delivery and cost, licensure and certification, and culture in the global arena. Course may be repeated for a maximum of 6 credit hours.

NURS 3970 SPECIAL TOPICS IN NURSING (3) LEC. 3. Focused study plan designed for students who are out of sequence in the professional nursing curriculum. Course may be repeated for a maximum of 6 credit hours.

NURS 4030 PATHOPHARMACOLOGY FOR PRECONCEPTION THROUGH ADOLESCENCE (2) LEC. Pr. NURS 3020 and NURS 3520 and NURS 3530. Coreq. NURS 4540. Explores pathophysiological and pharmacological concepts that guide nursing professionals in providing person-centered care. Course content will focus on caring for women, childbearing families, and pediatric clients from birth through adolescence.

NURS 4040 PATHOPHARMACOLOGY FOR COMPLEX CONDITIONS (1) LEC. Pr. NURS 4030 and NURS 4410 and NURS 4420 and NURS 4540. Coreq. NURS 4940 and NURS 4550. Explores pathophysiological and pharmacological concepts that guide nursing professionals in providing person-centered care. Course content will focus on pathophysiological and pharmacological concepts and their application for managing clients with critical and multisystem conditions.

NURS 4110 ADVANCED CONCEPTS OF PEDIATRIC NURSING (2) LEC. 2. Pr. NURS 3520 and NURS 3530. Departmental approval. Prepares students to provide professional nursing care for pediatric clients experiencing critical conditions through didactic, lab, and simulation experiences. Course content will focus on concepts of the critical pediatric client's airway, breathing, and circulation.

NURS 4120 HEALTH SCIENCE CAMP EXPERIENCE (2) LAB. 0. Clinical experience in the care of children with chronic conditions in a camp setting.

NURS 4130 WELLNESS IN AGING (2) LEC. 2. Pr. NURS 3520 and NURS 3530. Provides undergraduate nursing students with a specialized focus on geriatric care, equipping them with knowledge, skills, and hands-on simulation experiences to improve the quality of care for older adults in various clinical settings.

NURS 4140 VULNERABLE POPULATIONS (2) LEC. 2. Pr. NURS 3520 and NURS 3530. Explores healthcare challenges faced by vulnerable populations, emphasizing unique healthcare needs, barriers to care, and the importance of culturally competent and compassionate approaches.

NURS 4180 TRAUMA NURSING (2) LEC. 2. Pr. NURS 3520 and NURS 3530. A broad overview of the specialty of trauma nursing and the multiple factors that affect patient care in an emergency or trauma situation.

NURS 4230 PROFESSIONAL NURSING CONCEPTS: CHRONIC AND COMPLEX CONDITIONS (5) LEC. 5. Pr. (NURS 3330 and NURS 3331 and NURS 3730 and NURS 3731 and NURS 3231) and P/C NURS 4231. Concepts inherent in the delivery of nursing care for individuals, families, and populations with chronic and/or complex conditions.

NURS 4231 PROFESSIONAL NURSING CONCEPTS: CHRONIC AND COMPLEX CONDITIONS - CLINICAL (5) LAB. 15. SU. Pr. (NURS 3230 and NURS 3330 and NURS 3331 and NURS 3730 and NURS 3731) and P/C NURS 4230. Applications of concepts inherent in the delivery of nursing care for individuals, families, and populations with chronic and/or complex conditions.

NURS 4240 CULTURAL EXPEDITIONS IN HEALTH CARE (2) LEC. 2. Pr., Senior-level student in Nursing. Hands-on experience with different aspects of culture including an overnight stay in a replica of a third world global village.

NURS 4270 PERIOPERATIVE NURSING (2) LEC. 1. LAB. 1. Pr. NURS 3520 and NURS 3530. This course is designed to give the student a broad knowledge base for the specialty of perioperative nursing and the multiple factors that will impact patient care from the preoperative phase through the recovery phase. The course will cover concepts of care that span all ages and types of surgical procedures.

NURS 4280 ANIMAL-ASSISTED THERAPY (2) LEC. 2. Theoretical foundations and guidelines for practice of animal-assisted therapy.

NURS 4290 EVIDENCE BASED PRACTICE (2) LEC. 2. Pr. NURS 3230. Application of appropriate research findings and other evidence to influence nursing practice.

NURS 4410 PROFESSIONAL NURSING LEADERSHIP (3) LEC. Pr. NURS 3010 and NURS 3410 and NURS 3510 and NURS 3420. Coreq. NURS 4420. Explores knowledge, skills, and attitudes necessary to enhance leadership in nursing practice.

NURS 4420 EVIDENCE BASED PRACTICE (2) LEC. Pr. NURS 3010 and NURS 3410 and NURS 3510 and NURS 3420. Coreq. NURS 4410. Develops students' knowledge and skills to address clinical questions through appraisal of evidence and recommendations for nursing practice.

NURS 4540 CLINICAL JUDGMENT IN NURSING FOR PRECONCEPTION THROUGH ADOLESCENCE (6) LEC. 3. LAB. 9. Pr. NURS 3020 and NURS 3520 and NURS 3530. Coreq. NURS 4030. Prepares students to provide professional nursing care for women, childbearing families, and children experiencing a variety of acute and chronic health conditions through didactic, lab, and clinical experiences. Course content will focus on developmentally appropriate nursing care for women, childbearing families, and children from conception through adolescence.

NURS 4550 CLINICAL JUDGMENT IN NURSING FOR COMPLEX CONDITIONS (5) LEC. 3. LAB. 6. Pr. NURS 4030 and NURS 4410 and NURS 4420 and NURS 4540. Coreq. NURS 4940 and NURS 4040. Prepares students to provide professional nursing care for clients experiencing complex health conditions through didactic, lab, and clinical experiences. Course content will focus on the management of critical and multisystem medical conditions.

NURS 4830 LEADERSHIP AND MANAGEMENT IN PROFESSIONAL NURSING (3) LEC. 3. Pr. (NURS 3813 or NURS 3810) and (NURS 3843 or NURS 3840). Admission into Online RN-to-BSN Program. Addresses evidence-based leadership/management competencies for the professional nurse working with interprofessional team.

NURS 4840 TRANSITION TO PROFESSIONAL NURSING PRACTICE (5) LEC. 5. Pr. (NURS 4833 or NURS 4830) and (NURS 3830 or NURS 3833). Admission into Online RN-to-BSN Program. Integrate past nursing practice and acquired knowledge, skills, and attitudes for transition to the professional nursing role.

NURS 4850 CLINICAL PREVENTION AND POPULATION HEALTH (4) LEC. 4. Pr. (NURS 3833 or NURS 3830) and (NURS 4833 or NURS 4830). Admission into Online RN-to-BSN Program. Concepts inherent in the delivery of nursing care for individuals, families and populations in the global community.

NURS 4900 INDEPENDENT STUDY IN NURSING (1-6) IND. Directed readings and/or clinical study in student-selected areas related to nursing. Course may be repeated for a maximum of 6 credit hours.

NURS 4920 TRANSITION TO PROFESSIONAL NURSING PRACTICE (4) LEC. 4. Pr. NURS 4230 and NURS 4231. Coreq. NURS 4921. Provides the content and learning experiences designed to help students synthesize the essential concepts for successful transition into professional nursing. Course may be repeated for a maximum of 8 credit hours.

NURS 4921 TRANSITION TO NURSING PRACTICE (7) LAB. 7. SU. Pr. NURS 4230 and NURS 4231. Coreq. NURS 4920. Application of essential concepts for transition into professional nursing practice.

NURS 4930 COMMUNITY ASSESSMENT PROJECT (1) LEC. 1. LAB. 14. Pr. (NURS 4230 and NURS 4231) and NURS 4290. Capstone course for a community assessment project completed throughout the nursing program.

NURS 4940 PROFESSIONAL NURSING LICENSURE (1) LEC. Pr. NURS 4030 and NURS 4410 and NURS 4420 and NURS 4540. Coreq. NURS 4941. Facilitates synthesis of essential concepts for success on the NCLEX-RN examination.

NURS 4941 PROFESSIONAL NURSING PRECEPTORSHIP (5) LAB. 15. SU. Pr. NURS 4030 and NURS 4410 and NURS 4420 and NURS 4540. Coreq. NURS 4940. Synthesizes the knowledge, skills, attitudes, and values developed throughout the BSN curriculum with patients and families in an acute care setting.

NURS 4970 SPECIAL TOPICS IN NURSING (1-4) STU. SU. Focused study plan designed for students who have not met an identified curricular benchmark. Course may be repeated for a maximum of 4 credit hours.

NURS 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Course may be repeated for a maximum of 3 credit hours.

NURS 5420 POPULATION HEALTH OUTCOMES (3) DSL. This course provides the student with knowledge and skills to examine population health issues across the lifespan, globally, and regionally. Students will learn and connect with populations while identifying how to measure the health within populations. The course includes a focus on improving health equity and reducing health disparities.

NURS 6420 POPULATION HEALTH OUTCOMES (3) DSL. This course provides the student with knowledge and skills to examine population health issues across the lifespan, globally, and regionally. Students will learn and connect with populations while identifying how to measure the health within populations. The course includes a focus on improving health equity and reducing health disparities.

NURS 7000 FOUNDATIONAL CONCEPTS IN HEALTHCARE SIMULATION (3) DSL/LEC. This course is the first in the Healthcare Simulation Certificate program series of courses. The course provides the learner with a foundation for use of simulation as a teaching methodology in professional healthcare education. Evidence-based standards and theoretical frameworks will be discussed and applied.

NURS 7010 EVIDENCE-BASED APPLICATION OF TECHNOLOGY AND IPE IN HEALTHCARE SIMULATION (3) DSL. Pr. NURS 7000. This is the second course in the Healthcare Simulation Certificate program. The course builds upon foundational knowledge to provide a basic understanding of simulation technology and attributes of effective simulation-enhanced interprofessional learning experiences and provide a review of basic research methods and their application to ensuring evidence-based simulation design. Learners will apply knowledge of simulation best practices, technology, and interprofessional considerations to design a simulation-based activity.

NURS 7020 HEALTHCARE SIMULATION CAPSTONE (4) DSL. Pr. NURS 7000 and NURS 7010. This is the final course in the Healthcare Simulation Certificate program. Students will integrate prior coursework to develop a capstone simulation-based experience utilizing best practices of adult experiential learning, curriculum design, evidence- based practice, research, evaluation, and project management.

NURS 7100 FOUNDATIONS OF RURAL AND UNDERSERVED HEALTH (3) LEC. 3. This course explores the unique challenges and opportunities associated with healthcare delivery in rural and underserved communities. Learners will examine foundational concepts such as social determinants of health, health disparities, health policy, and cultural norms, and their collective impact on community health. The course also emphasizes evidence-based strategies and innovative approaches to address the barriers to healthcare access and improve health outcomes in these settings. Must be currently enrolled in a health or health related.

NURS 7110 ADVANCED HEALTH AND PHYSICAL ASSESSMENT (3-4) DSL/LLB. Focus is on assessment, knowledge and techniques required for master's level prepared nurses in a clinical setting. Course may be repeated for a maximum of 4 credit hours.

NURS 7120 LEARNER DEVELOPMENT & SOCIALIZATION (1) DSL/LEC. Coreq. NURS 7210. Provides an overview of theoretical formulations and instructional technologies that support learner development and socialization.

NURS 7200 POPULATION HEALTH IN RURAL COMMUNITIES (3) DSL. This course will examine challenges with special populations in rural communities. Learners will apply knowledge through a team-based approach to address a specific rural health challenge in special populations. NURS 7200 may be taken as an elective course by any student enrolled in health or health related graduate program of study (Nursing, Psychology, Physical Therapy, Medical Doctors, Veterinarians etc.)

NURS 7210 EVIDENCE-BASED TEACHING STRATEGIES (2) LEC. 2. Coreq. NURS 7120. Provides an overview of evidence-based teaching strategies and instructional technology.

NURS 7220 ROLES AND ISSUES OF THE PRIMARY CARE PRACTITIONER (3) LEC. 3. Pr. (NURS 7340 or NURS 7346) and (NURS 7350 or NURS 7356) and (NURS 7310 or NURS 7316) and (NURS 7230 or NURS 7236) and (NURS 7250 or NURS 7256) and (NURS 7430 or NURS 7436) and (NURS 7240 or NURS 7246) and (NURS 7110 or NURS 7116) and (NURS 7540 or NURS 7546). This course explores the complex process of role development for the advanced practice nurse within current health care systems. Competencies and role development issues of advanced nursing practice are included. Role transition and strategies for facilitating role acquisition and implementation including social, legal and ethical issues governing advanced practice in primary health care are addressed. Admission to the MSN Program.

NURS 7230 ADVANCED PATHOPHYSIOLOGY (3) LEC. 3. This course incorporates the application of advanced pathophysiology concepts across the lifespan. It broadens the concepts of assessment findings and diagnostic testing for specific health issues, utilizing clinical judgment for expected variations in disease presentations.

NURS 7240 ADVANCED PHARMACOLOGY (3) LEC. 3. Pr. (NURS 7230). This course provides an in-depth understanding of pharmacology and pharmacotherapeutics, emphasizing their application in patient-centered care. The primary goal is to deepen comprehension of these principles, focusing on how to safely and effectively integrate these principles into advanced practice nursing.

NURS 7250 HEALTHCARE POLICY AND ETHICS FOR THE NURSE LEADER (3) LEC. 3. Departmental approval. This course addresses the U.S. health care delivery system at micro and macro levels, problems, principles and the alternatives for managing problems in a systematic manner. Health policy, economic, and ethical principles and the relationship of these concepts to advocacy and leadership roles are explored. Admission to the MSN Program

NURS 7260 TRANSITION FROM CLINICIAN TO NURSE EDUCATOR (2) LEC. 2. This course provides the nurse educator student with a basic understanding regarding the nature of the nurse educator role. The student will explore dynamics influencing the development of the students' role and attaining success in higher education, different career paths, and issues shaping their perception of higher education.

NURS 7280 PROFESSIONALISM AND LEADERSHIP (3) LEC. 3. This course is designed to prepare graduate nursing students for advanced practice leadership roles and to foster professionalism in diverse healthcare environments.

NURS 7300 RURAL HEALTH COMMUNITY IMMERSION AND PROJECT (3) DSL. Pr. (NURS 7100 and NURS 7200). This course includes an immersive educational experience in the rural setting to develop a community-based health initiative project to improve health outcomes.

NURS 7310 TRANSITION TO ADVANCED PRACTICE NURSING (2) LEC. 2. This course is designed to introduce the Masters student to scholarly writing and inquiry for evidence-based practice. The principles of synthesis in writing and understanding of research are addressed. Admission to AU MSN Program.

NURS 7320 CURRICULUM DEVELOPMENT AND EVALUATION (3-4) DSL/LEC. Pr. (NURS 7340 or NURS 7346) and (NURS 7210 or NURS 7216). Analysis and evaluation of curriculum construction, selection of teaching strategies for diverse groups and individuals, and evaluation of learning outcomes in education of patients, health providers, and nursing students. Admission to the MSN Program. Course may be repeated for a maximum of 4 credit hours.

NURS 7330 DIAGNOSTIC REASONING AND CLINICAL MANAGEMENT (3-7) DSL/LLB. Pr. NURS 7230 and NURS 7430 and NURS 7340 and NURS 7240 and NURS 7350 and NURS 7110. Focus is on the process of collecting data and arriving at diagnostic and therapeutic conclusions to guide clinical management for patients. Course may be repeated for a maximum of 7 credit hours.

NURS 7340 ADVANCED THEORETICAL FOUNDATIONS OF NURSING (3) LEC. 3. Students will analyze and apply theoretical principles to guide practice in healthcare delivery for individuals, families, and populations. Admission to the MSN or DNP Program.

NURS 7350 QUALITY AND SAFETY IN HEALTHCARE (3) LEC. 3. Students examine and analyze approaches to promote quality and safety in healthcare.

NURS 7420 ASSESSMENT & EVALUATION (3) DSL/LEC. Pr. (NURS 7320). Develop methods to assess learning outcomes and evaluate programs for compliance with accreditation standards.

NURS 7430 ADVANCED EVIDENCE-BASED PRACTICE (3) LEC. 3. Students will explore approaches for identifying and applying relevant evidence to improve practice and health outcomes.

NURS 7440 PRIMARY CARE PRACTICUM OF WOMEN AND CHILDREN (3-7) DSL/LLB. Pr. NURS 7230 and NURS 7430 and NURS 7340 and NURS 7240 and NURS 7350 and NURS 7110 and NURS 7330. Focus is on the primary care nurse practitioner's role in managing common acute and chronic healthcare problems in women and pediatric patients in a variety of primary care settings. Course may be repeated for a maximum of 7 credit hours.

NURS 7540 IMPLEMENTATION AND EVALUATION OF EVIDENCE-BASED NURSING PRACTICE (2) LEC. 2. Pr. NURS 7430 or NURS 7436. This course focuses on the concepts necessary for implementation and evaluation of an evidence-based practice project. Data collection tools, data analyses, and interpretation of data analysis will be explored. Students will discuss change strategies, development of measurable outcomes and dissemination of any results. Admission to MSN Program. Course may be repeated for a maximum of 4 credit hours.

NURS 7550 PRIMARY CARE II: ADULTS AND ELDERLY (3) LEC. 1. Pr. (NURS 7220 or NURS 7226) and (NURS 7330 or NURS 7336). Admission to the MSN Program and completion of pre-requisites. Focus is on the primary care nurse practitioner's role in managing common acute and chronic health problems in the adult and geriatric population in a variety of primary care settings.

NURS 7800 NURSE EDUCATOR PRACTICUM I (2) DSL/PRA. 2. Pr. (NURS 7420). Synthesis and application of theories, research, and strategies in healthcare delivery settings. (120 direct patient care hours)

NURS 7810 NURSING EDUCATION PRACTICUM (3) DSL/PRA. 3. Pr. (NURS 7340 or NURS 7346) and (NURS 7350 or NURS 7356) and (NURS 7310 or NURS 7316) and (NURS 7260 or NURS 7266) and (NURS 7210 or NURS 7216) and (NURS 7230 or NURS 7236) and (NURS 7250 or NURS 7256) and (NURS 7430 or NURS 7436) and (NURS 7320 or NURS 7326) and (P/C NURS 7240 or P/C NURS 7246) and (P/C NURS 7110 or P/C NURS 7116) and (P/C NURS 7540 or P/C NURS 7546). Synthesis of educational theories, research, and strategies in applying the roles of the educator in teaching clients, students, or healthcare providers. Selected educational settings provide opportunities to practice the roles of educator under guidance of a qualified preceptor. The practicum includes 120 academic clinical and 60 healthcare facility clinical based direct care hours. Admission to MSN Program and completion of all pre-requisites.

NURS 7820 CERTIFIED NURSE EDUCATOR PREP (1) DSL/LEC. Pr. (NURS 7800). Coreq. NURS 7810. Provides a comprehensive review of the competency areas for the Certified Nurse Educator and Academic Clinical Certified Nurse Educator exams.

NURS 7920 PRIMARY CARE PRACTICUM (7-8) LEC/PRA. Pr. NURS 7230 and NURS 7430 and NURS 7340 and NURS 7240 and NURS 7350 and NURS 7110 and NURS 7330 and NURS 7440. Focus is on the application of knowledge and skills in the transition to the role of the primary care nurse practitioner. Course may be repeated for a maximum of 8 credit hours.

NURS 8010 DOCTORAL SEMINAR I (1) SEM. This course is designed to foster scientific communication skills of new doctoral students, and to advance dissertation work through development of dissertation research ideas.

NURS 8020 DOCTORAL SEMINAR II (1) SEM. Pr. (NURS 8010). This course is designed to advance dissertation work by fostering data analytics skills and the use of secondary datasets to provide meaningful insights that support decision-making, formation of hypotheses, and making the case for the proposed research.

NURS 8030 DOCTORAL SEMINAR III (1) SEM. Pr. (NURS 8020). This course is designed to advance dissertation work by focusing on the creation of a complete draft of the first manuscript, presenting the scholarly work to peers and faculty, and providing critical reviews of peers' scholarship.

NURS 8040 DOCTORAL SEMINAR IV (1) SEM. Pr. (NURS 8030). This course is designed to advance dissertation work by focusing on approvals needed for the protection of human subjects and permissions for access to research data and/or subjects, and to promote successful career planning and transition.

NURS 8210 RESEARCH PRACTICUM (1-3) RES. Pr. (NURS 8340 and NURS 8350). This course provides the PhD student with practical experiences in conducting research prior to undertaking the dissertation. Course may be repeated for a maximum of 3 credit hours.

NURS 8320 INFORMATICS AND TECHNOLOGY IN HEALTHCARE (3) LEC. 3. Students gain competency to leverage information and technology to improve health outcomes.

NURS 8330 QUANTITATIVE METHODS FOR EVIDENCE-BASED PRACTICE (3) LEC. 3. Admission to DNP Program. Provides the DNP student with clinical data management and outcome skills with an essential component of any EBP.

NURS 8340 DEVELOPMENT OF THE ROLE OF SCIENTIST (2) DSL/LLB. The course is designed to socialize the student into the roles, activities, and responsibilities of a PhD prepared nurse scientist, and is foundational to preparation for a career in research in academia or other research-intensive environments. The content addresses the responsibilities and activities of a scientist in the health professions, including ethical issues, scientific freedom and social responsibility, collaboration and negotiation, interdisciplinary research peer review, development of a research plan, program of research and research career, research funding, presentations, and publications.

NURS 8350 NURSING PHILOSOPHY, SCIENCE, AND THEORY (3) DSL/LEC. This course is a foundational theory course that explores the philosophy of science, development of nursing knowledge, and evaluation and application of theory to nursing research, practice, and education.

NURS 8410 THEORY APPLICATION FOR ADVANCED PRACTICE (3) LEC. 3. Admission to DNP Program. The course is the basis for the Doctor of Nursing Practice (DNP) project by identifying and investigating the various phenomena of interest in student's practice area.

NURS 8420 POPULATION HEALTH OUTCOMES (3) LEC. 3. Provides the student with knowledge and skills to examine population health issues across the lifespan, globally and regionally.

NURS 8430 FINANCIAL MANAGEMENT FOR ADVANCED PRACTICE (3) LEC. 3. This course provides the DNP student with the knowledge and skills necessary to identify, evaluate, and consider costs associated with implementing and sustaining change.

NURS 8440 LEADERSHIP FOR ADVANCED HEALTH POLICY (3) LEC. 3. Admission to DNP Program. Provides the DNP student with the knowledge and skills to be a leader in health care and to influence health policies at multiple levels.

NURS 8450 QUALITATIVE RESEARCH METHODS IN NURSING (3) DSL/LLB. Pr. (NURS 8770). Explores the qualitative research method, including the philosophical, historical, and theoretical foundations of this approach. Learners will examine the ethical issues related to qualitative research and gain understanding of data collection, management, analysis and interpretation.

NURS 8460 QUANTITATIVE RESEARCH DESIGN AND METHODS (3) DSL/LLB. Pr. (STAT 7000 or STAT 7006). Coreq. STAT 7010. The focus of this course is on quantitative research methods and study designs appropriate for investigating health care phenomena and problems of importance to nursing and health care. The interrelationship among clinical problems, literature reviews, research questions, study designs, and methods of inquiry and analysis is emphasized. Through a combination of theoretical discussion and applied practical experience, students develop skills and knowledge that is foundational to the dissertation process. Students will apply knowledge by participating in class discussions, critiquing published research, and exploring possible designs for their research focus.

NURS 8510 FOUNDATION FOR EVIDENCE-BASED PRACTICE (3) LEC. 3. Admission to DNP Program. Provides the DNP student with the methodological basis for translating evidence into practice systems in a variety of health care environments.

NURS 8540 ADVANCED PRACTICE PRACTICUM (2) LEC. 2. Provides the DNP student with opportunity to synthesize advanced practice knowledge and role behaviors in an advanced practice role. Course may be repeated for a maximum of 6 credit hours.

NURS 8550 GRANT WRITING AND MANAGEMENT (3) DSL/LLB. Pr. (NURS 8770 and NURS 8750 and STAT 7010). This course is designed to prepare the student for the fundamental processes and essential skills in developing and writing a grant proposal, seeking and securing project funding, and managing a grant.

NURS 8560 SYSTEMATIC REVIEWS FOR MEDICAL AND BEHAVIORAL INTERVENTIONS (2) DSL/LEC. This course will enable students to conduct systematic and scoping reviews in biomedical and behavioral sciences, and introduce meta-analysis. Students will collaboratively use the PRISMA framework, PROSPERO registry, and Covidence tool to conduct a systematic review relevant to their research.

NURS 8710 TRANSITIONAL SKILLS FOR DNP PRACTICE (2) DSL/LEC. 2. Admission to DNP Program. Provides the DNP student with the knowledge and skills to develop their DNP role as a leader in health care improvement efforts.

NURS 8720 HEALTH INNOVATIONS AND CLINICAL OUTCOMES IMPROVEMENTS (3) LEC. 3. Pr. (NURS 8510 and NURS 8710). Admission to DNP Program. Provides the DNP student with knowledge and skills to develop, implement, and evaluate programs that improve health.

NURS 8740 DISSERTATION DEVELOPMENT SEMINAR (2) DSL/LLB. Pr. (NURS 8460 and NURS 8750 and NURS 8450 and NURS 8560). This seminar will provide students with in-depth exposure to the steps and process of developing, completing, and writing a dissertation.

NURS 8750 MEASUREMENT IN HEALTHCARE RESEARCH AND USE OF DATA (3) DSL/LLB. This course provides the foundation and information for designing sampling plans, measurement and instrumentation, measurement procedures or scoring, and appropriate data analysis for measurement.

NURS 8760 HEALTH POLICY (3) DSL/LLB. Pr. NURS 8460 and STAT 7000 and STAT 7010. This course immerses the student in analysis of health policy and the social determinants of health from ethical and political contexts. The focus of this course is on the research methods and other processes of identifying, evaluating, comparing, and selecting policy options to address problems and issues in health care, as well as evaluating the performance of implemented policy. Students develop a policy research and modeling skillset in considering complex, real-world social and healthcare issues.

NURS 8770 CONCEPTUAL DESIGN & CRITICAL REVIEW OF THE LITERATURE (3) DSL/LLB. This course provides the student with the conceptual foundation for research and development of questions. The course delivers an in-depth analysis of the literature related to concept analysis to support development and critique of conceptual models. Students will apply writing, research, and critical thinking skills in concept analysis. Students will also develop and integrate knowledge within a literature review. Admission to the PhD in Nursing Program required.

NURS 8920 DOCTOR OF NURSING PRACTICE SEMINAR (1) DSL. Pr. (NURS 7280 and NURS 7100 and NURS 7430 and NURS 7340 and P/C NURS 7350 and P/C NURS 8320). This course provides the foundational knowledge and skills necessary to develop and implement a DNP project.

NURS 8930 DNP PROJECT PRACTICUM I: DEVELOPMENT (3) DSL/LEC. Pr. (NURS 8330 and NURS 8920 and P/C NURS 8420). First in a three-course sequence which provides the DNP student with the tools and direction needed to develop a comprehensive project proposal. Student must be admitted to DNP Program.

NURS 8940 DNP PROJECT PRACTICUM II : IMPLEMENTATION (4) LEC. 4. Pr. (NURS 8930 or NURS 8936). Second in a three-course sequence for the DNP student to execute the project plan in collaboration with the agency site.

NURS 8950 DNP PROJECT PRACTICUM III : EVALUATION AND PRESENTATIONS (4) LEC. 4. Pr. NURS 8940 or NURS 8946. Third in a three-course sequence for the DNP student finalize, evaluate, and disseminate their DNP project.

NURS 8990 RESEARCH AND DISSERTATION (1-10) DSR. Pr. (NURS 8350 and NURS 8340) and (STAT 7000 or STAT 7006) and (NURS 8460 and STAT 7010 and NURS 8770 and NURS 8450 and NURS 8750 and NURS 8760 and NURS 8550). Individualized support and direction for students writing their dissertations. Course may be repeated with change in topics. Course may be repeated for a maximum of 10 credit hours.

Nutrition - NTRI

Courses

NTRI 1010 INTRODUCTION TO THE PRE-HEALTH PROFESSIONS (1) LEC. 1. This course is designed to expose College of Human Sciences Pre-Health students to the different components of the pre-professional application process. This course will uncover the opportunities offered to students to enhance his/her ability to gain experiences that demonstrate core competencies of health professions. This course provides opportunities to explore and develop these competencies required for professional programs through discussion, activities, reading, writing, and collaboration.

NTRI 2000 NUTRITION AND HEALTH (3) LEC. 3. Principles of human nutrition and food choices related to the health of individuals. Credit will not be given for both NTRI 2000 and NTRI 2007.

NTRI 2007 HONORS NUTRITION AND HEALTH (3) LEC. 3. Pr. Honors College. Principles of human nutrition and food choices related to the health of individuals. Topics similar to NTRI 2000 but covered in greater depth with classroom discussion of controversial topics. Credit will not be given for both NTRI 2000 and NTRI 2007.

NTRI 2010 BASIC SPORTS NUTRITION (3) LEC. 3. Pr. (BIOL 1020 or BIOL 1027) or (NTRI 2000 or NTRI 2007). An introductory course on the relationship between nutrition and sports performance. Topic areas to be covered include energy, carbohydrates, protein/amino acids, fluids, vitamins, minerals, body weight and supplement use as they directly relate to sports performance. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 2070 CAREERS IN NUTRITION, DIETETICS AND WELLNESS (1) LEC. 1. Pr. (NTRI 2000 or NTRI 2007). Professional roles and responsibilities in nutrition, dietetics, and wellness with emphasis on careers professional development and conduct. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 3560 EXPERIMENTAL STUDY OF FOODS (4) LEC. 3. LAB. 3. Pr. (NTRI 2000 or NTRI 2007) and (BIOL 1020 or BIOL 1027) and CHEM 1030 or departmental approval. Experimental approach to the chemistry to food including composition, preparation, recipe modification, food quality, sanitation, processing, and food laws. A C or better is required in all pre-requisite courses to enroll in the course .

NTRI 3750 NUTRITION EDUCATION (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2017) and (NTRI 2000 or NTRI 2007). How to design, deliver, and evaluate the types of educational interventions and programs conducted by most of nutrition educators in a variety of settings such as work, community programs, clinic, food banks, family programs, and/or schools. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 3940 COMMUNITY SERVICE (3-9) LEC. 1. LAB. 6. Departmental approval. Application of NTRI-related knowledge to real-life situations through participation in directed community service experiences. A) nutrition; B) hospitality; C) general NTRI. Course may be repeated for a maximum of 9 credit hours.

NTRI 4090 PROFESSIONAL ISSUES IN DIETETICS AND NUTRITION (1) LEC. 1. SU. Pr. NTRI 2070. NTDI or departmental approval. Senior standing. Professional issues and trends affecting dietetics and nutrition practice; planning for professional advancement; includes externship. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 4560 FOOD SYSTEMS OPERATIONS (2) LEC. 2. Pr. NTRI 2000 or Departmental approval. Principles for managing resources required in planning, purchasing, preparing and serving high quality food in food service operations. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 4561 FOOD SYSTEMS OPERATIONS LAB (2) LAB. 4. Pr. NTRI 2000 or departmental approval. Coreq. NTRI 4560. Laboratory experience in food service operations. Food safety certification is included. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 4580 FOOD AND CULTURE (2) LEC. 2. Departmental approval. Cultural and social factors affecting food habits and nutritional status of populations throughout the world.

NTRI 4620 PUBLIC HEALTH NUTRITION (3) LEC. 3. Pr. NTRI 4820 and NTRI 4830. Population-focused approaches that facilitate healthy diets through policy development and environmental changes. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 4820 MACRONUTRIENT METABOLISM (3) LEC. 3. Pr. (NTRI 2000 or NTRI 2007) and BCHE 3180 and P/C BIOL 2510 or departmental approval. Physiological and biochemical basis for energy-yielding nutrients; structure, function, dietary requirements, digestion, absorption, transport and metabolism of macronutrients. A C or better is required in all pre-requisite courses to enroll in the course

NTRI 4830 MICRONUTRIENT METABOLISM (3) LEC. 3. Pr. (NTRI 2000 or NTRI 2007) and BCHE 3180 and P/C BIOL 2510. Metabolism, dietary needs, deficiency symptoms and food sources of vitamins and minerals in humans. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 4930 DIRECTED STUDIES (1-8) AAB/IND. Departmental approval. Independent reading or research in a content area of special interest; supervised by a faculty member. Course may be repeated for a maximum of 8 credit hours.

NTRI 4970 SPECIAL TOPICS (1-3) LEC. Departmental approval. A) Nutrition, B) Hotel and Restaurant Management. A course offering unique or current issues not covered in a regularly scheduled course. Course may be repeated for a maximum of 6 credit hours.

NTRI 4980 UNDERGRADUATE RESEARCH AND STUDY (1-9) IND. Departmental approval. Directed research under faculty supervision. Course may be repeated for a maximum of 9 credit hours.

NTRI 4997 HONORS THESIS (1-3) IND. SU. Pr. Honors College. Departmental approval. Research in specialized topics. Course may be repeated for a maximum of 3 credit hours.

NTRI 5020 MEDICAL NUTRITION I (4) LEC. 3. LAB. 2. Pr. NTRI 4820 and NTRI 4830. NTDI or departmental approval Applications of nutrition assessment and medical nutrition therapy to the pathophysiological changes associated with endocrine and gastrointestinal disorders. May count either NTRI 5020 or NTRI 6020. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 5030 MEDICAL NUTRITION II (4) LEC. 3. LAB. 2. Pr. NTRI 5020 or NTRI 6020. NTDI or departmental approval. Medical nutrition therapy for diseases of the cardiovascular, renal, and respiratory systems; oncology; critical care; and conditions of infancy/childhood. May count either NTRI 5030 or NTRI 6030. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 5040 GLOBAL NUTRITION AND HUNGER (3) LEC. 3. Pr. (NTRI 2000). This course explores the complex and interconnected issues of global nutrition and hunger. Students will examine the causes, consequences, and potential solutions to malnutrition and food insecurity around the world. Departmental approval required.

NTRI 5047 GLOBAL NUTRITION AND HUNGER (3) LEC. 3. Pr. (NTRI 2000). This course explores the complex and interconnected issues of global nutrition and hunger. Students will examine the causes, consequences, and potential solutions to malnutrition and food insecurity around the world. Department approval.

NTRI 5100 NUTRITION IN DISEASE PREVENTION (3) LEC. 3. Pr. P/C NTRI 4820 and P/C NTRI 4830. The functions, safety, and efficacy of selected nutrients and herbs in the prevention and/or treatment of selected diseases/conditions. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 5380 STUDY/TRAVEL IN NUTRITIONAL SCIENCES (1-6) AAB/FLD. Pr. BIOL 1030. Departmental approval. Concentrated study in nutritional sciences in international locations. Course may be repeated for a maximum of 6 credit hours.

NTRI 5560 NUTRITION AND FOOD SERVICE MANAGEMENT (3) LEC. 3. Pr. P/C NTRI 4560 and P/C NTRI 4561. Organization, management and marketing of food and nutrition service systems in health care facilities. Credit will not be given for both NTRI 5560 and NTRI 6560. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 5760 NUTRITION COUNSELING (2) LEC. 2. Pr. P/C NTRI 3750 and (P/C NTRI 5030 or P/C NTRI 6030) or departmental approval. Application of counseling techniques, with an emphasis on Motivational Interviewing, to facilitate behavior change. May count either NTRI 5760 or NTRI 6760. A C or better is required in all pre-requisite courses to enroll in the course NTDI

NTRI 5820 NUTRITION IN THE LIFE CYCLE (3) LEC. 3. Pr. NTRI 4830 and NTRI 4820. Departmental approval. Metabolic and clinical aspects of nutrition during key periods of the life cycle emphasizing pregnancy, infancy, adolescence and late adulthood. Credit will not be given for both NTRI 5820 and NTRI 6820. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 5830 NUTRITIONAL GENOMICS (3) LEC. 3. Pr. NTRI 4820 and NTRI 4830. Principles of nutrient-gene interactions and how these interactions influence human health and disease. May count either NTRI 5830 or NTRI 6830. A C or better is required in all pre-requisite courses to enroll in the course.

NTRI 5910 CLINICAL PRACTICUM IN DIETETICS (1) PRA. 3. SU. NTDI or department approval. Application of the practice of dietetics in a clinical or community setting.

NTRI 6020 MEDICAL NUTRITION I (4) LEC. 3. LAB. 2. Pr. NTRI 4820. Applications of nutrition assessment and medical nutrition therapy to the pathophysiological changes associated with endocrine and gastrointestinal disorders. May count either NTRI 5020 or NTRI 6020. A "C" or better is required in all pre-requisite courses to enroll in the course.

NTRI 6030 MEDICAL NUTRITION II (4) LEC. 3. LAB. 2. Pr. NTRI 5020 or NTRI 6020 or departmental approval. Medical nutrition therapy for diseases of the cardiovascular, renal, and respiratory systems; oncology; critical care; and conditions of infancy/childhood. May count either NTRI 5030 or NTRI 6030. A "C" or better is required in all pre-requisite courses to enroll in the course. NTDI

NTRI 6040 GLOBAL NUTRITION AND HUNGER (3) LEC. 3. This course explores the complex and interconnected issues of global nutrition and hunger. Students will examine the causes, consequences, and potential solutions to malnutrition and food insecurity around the world. Department approval.

NTRI 6100 NUTRITION IN DISEASE PREVENTION (3) LEC. 3. Pr. (NTRI 5820 or NTRI 6820) and (NTRI 5830 or NTRI 6830). The functions, safety, and efficacy of selected nutrients herbs in the prevention and/or treatment of selected diseases/conditions. A "C" or better is required in all pre-requisite courses to enroll in the course.

NTRI 6380 STUDY/TRAVEL IN NUTRITION, DIETETICS AND HOSPITALITY MANAGEMENT (1-6) AAB/FLD. Departmental approval. Concentrated study in nutrition, food science, or hotel and restaurant management in the US or international locations. Course may be repeated for a maximum of 6 credit hours.

NTRI 6560 NUTRITION AND FOOD SERVICE MANAGEMENT (3) LEC. 3. Pr. NTRI 4560 and NTRI 4561. Organization, management and marketing of food and nutrition service systems in health care facilities. Credit will not be given for both NTRI 6560 and NTRI 5560. A "C" or better is required in all pre-requisite courses to enroll in the course.

NTRI 6760 NUTRITION COUNSELING (2) LEC. 2. Pr. P/C NTRI 3750 and (P/C NTRI 5030 or P/C NTRI 6030). Coreq. NTRI 6030 and NTRI 5030. Application of counseling techniques, with an emphasis on Motivational Interviewing, to facilitate behavior change. May count either NTRI 5760 or NTRI 6760. A "C" or better is required in all pre-requisite courses to enroll in the course.

NTRI 6820 NUTRITION IN THE LIFE CYCLE (3) LEC. 3. Pr. NTRI 4820 and NTRI 4830. Departmental approval. Metabolic and clinical aspects of nutrition during key periods of the life cycle emphasizing pregnancy, infancy, adolescence and late adulthood. Credit will not be given for both NTRI 6820 and NTRI 5820. A "C" or better is required in all pre-requisite courses to enroll in the course.

NTRI 6830 NUTRITIONAL GENOMICS (3) LEC. 3. Pr. NTRI 4820. Principles of nutrient-gene interactions and how these interactions influence human health and disease. A "C" or better is required in all pre-requisite courses to enroll in the course.

NTRI 7010 ADVANCED PRACTICUM IN DIETETICS (1-9) DSL/LEC. SU. DPD verification statement. Enrollment in Masters in Nutrition Program or department approval. Supervised practical experience in clinical, food service, and community settings for development of entry-level skills for the registered dietitian. Course may be repeated for a maximum of 9 credit hours.

NTRI 7020 ADVANCED NUTRITION AND DIET THERAPY (3) DSL/LEC. Explores complex medical nutrition therapies and the role of diet in disease prevention and management. Emphasizing evidence-based approaches, students will develop skills in nutrition assessment, intervention design, and evaluating outcomes, preparing them for advanced practice and research in clinical settings. Department approval.

NTRI 7030 LEADERSHIP AND MANAGEMENT IN NUTRITIONAL SCIENCES (3) LEC. 3. This course provides an in-depth examination of leadership and management principles specific to the the various areas within nutritional sciences. Students will develop the skills necessary to lead teams, manage resources, and navigate complex organizational systems. Topics include financial management, leadership styles, communication, team building, decision-making, and strategic planning within various nutrition-related settings. Department approval.

NTRI 7050 METHODS OF RESEARCH (3) LEC. 3. Departmental approval. Research methods and designs applicable to disciplines represented in nutrition.

NTRI 7280 LABORATORY METHODS IN FOOD SCIENCE AND NUTRITION (3) LEC. 2. LAB. 3. Departmental approval. Modern laboratory techniques and instruments used in human nutrition and food science research.

NTRI 7500 MINERALS (3) LEC. 3. Departmental approval. Sources, digestion, absorption, transport, function and metabolism of major and trace minerals in the human body.

NTRI 7510 VITAMINS (3) LEC. 3. Departmental approval. Advanced study of metabolism, requirements, interactions and deficiencies of the fat and water soluble vitamins as related to humans.

NTRI 7520 MACRONUTRIENTS: INTEGRATION AND METABOLISM (4) LEC. 4. Advanced study of energy metabolism, digestion, absorption, transport and integrative metabolism of macronutrients.

NTRI 7530 HUMAN NUTRIENT METABOLISM (4) LEC. 4. Advanced study of nutrition and metabolism, as related to humans. Department approval. Credit will not be given for both NTRI 7530 or NTRI 7536 once developed, or BCHE 6180 and BCHE 6190, and/or BCHE 7200.

NTRI 7620 SPORTS AND PERFORMANCE NUTRITION (3) LEC. 3. In-depth exploration of the principles and practices of sports and performance nutrition, including the role of macronutrients and micronutrients, supplements, and ergogenic aids in energy production, muscle recovery, and injury prevention. Strategies to meet the nutritional needs for different types of athletes and ways to maintain movement, performance, muscle mass, bone health, and mobility throughout the lifespan will also be discussed.

NTRI 7850 RESEARCH SEMINAR FOR MASTER'S PROGRAM (1) DSL/SEM. 1. Departmental approval. Current topics in nutrition, dietetics and hospitality management presented by M.S. graduate students.

NTRI 7910 PRACTICUM IN NUTRITION AND DIETETICS (1-12) PRA. SU. Departmental approval. Application of principles and theories of nutrition in a professional setting. No more than three hours may count toward a graduate degree. Course may be repeated for a maximum of 12 credit hours.

NTRI 7930 ADVANCED INDEPENDENT STUDY (1-6) DSL/IND. Departmental approval. Advanced reading or research approved and supervised by a faculty member. Course may be repeated for a maximum of 6 credit hours.

NTRI 7960 SPECIAL PROBLEMS (1-5) DSL/IND. Departmental approval. Critical analysis of classic and current research. Course may be repeated for a maximum of 10 credit hours.

NTRI 7980 NONTHESIS RESEARCH (1-6) AAB. SU. Departmental approval. In-depth work in a particular project related to hotel and restaurant management. Course may be repeated for a maximum of 6 credit hours.

NTRI 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Research in an area of specialization. Course may be repeated with change in topics.

NTRI 8850 RESEARCH SEMINAR FOR DOCTORAL PROGRAM (1-2) SEM. Departmental approval. Required for doctoral students in nutrition and hospitality management. Advanced topics in nutrition and food science presented by doctoral students. Course may be repeated for a maximum of 2 credit hours.

NTRI 8910 SUPERVISED TEACHING (1) AAB/IND. 1. Departmental approval. Practical experience teaching in the classroom. Course may be repeated for a maximum of 3 credit hours.

NTRI 8970 ADVANCED TOPICS IN NUTRITION, DIETETICS AND HOSPITALITY MANAGEMENT (1-6) DSL/LEC. Departmental approval. A) Nutrition, B) Hotel and Restaurant Management. Course may be repeated for a maximum of 6 credit hours.

NTRI 8990 RESEARCH AND DISSERTATION (1-10) AAB/DSR. Departmental approval. Research in an area of specialization. Course may be repeated with change in topics.

Parks and Recreation - PARK

Courses

PARK 1050 AMERICA'S NATIONAL PARKS (3) LEC. 3. Introduces America’s National Parks and the National Park Service from their origins to current day. Students will understand the places, politics, people, controversies, and conservation ethics embodied in the National Park system.

PARK 2010 INTRODUCTION TO NATURE-BASED RECREATION AND MANAGEMENT (3) LEC. 3. Introduction to fundamentals of nature-based recreation; recreationists' motivations, society benefits, and management of the outdoor recreational environment.

PARK 2020 INTRODUCTION TO COMMUNITY PARKS AND RECREATION (3) LEC. 3. This course is an introduction to all the elements for successful community parks, recreation, and sport-facility management, administration, and programming by public agencies.

PARK 3010 ENVIRONMENTAL INTERPRETATION (3) LEC. 3. Communication theory as management and public relations tool for natural resource management.

PARK 3050 SAFETY, RISK AND LEGAL ASPECTS OF PARKS, RECREATION, AND SPORT FACILITY MANAGEMENT (3) LEC. The delivery of safe services, facilities, and activities in areas designated as parks, recreation areas, and community sporting facilities is presented from a legal, risk management, and liability perspective.

PARK 3100 LEADERSHIP IN PARKS AND RECREATION (3) LEC. 3. Introduces leadership theories and practices as applied to parks and recreation. Students examine leadership and communication skills and tools to help develop positive relationships, attitudes, motivations, and group dynamics. Leadership in outdoor recreation and adventure is highlighted.

PARK 3350 PROGRAMMING IN PARKS AND RECREATION (3) LEC. 3. The parks and recreation programmer is responsible for the development and delivery of recreation, leisure, and sport programs and activities that provide opportunities and promote healthy lifestyles for all constituents. Students will be introduced to and learn how to develop a range of park and recreation programming, including activities such as ropes courses and backcountry travel, arts and crafts such as jewelry making and photography classes, health and wellness classes, dance, drama, art, and music summer camps, sports leagues, service learning, environmental education, and birdwatching trips.

PARK 3630 COSTA RICA PROTECTED AREA CONSERVATION MANAGEMENT (3) AAB. Coreq. NATR 4250 and NATR 3320 and GEOG 3720. This class will introduce the different protected area (PA) management categories (IUCN and other co-management approaches), focusing on examples of Costa Rican PAs to showcase these different approaches. Guest lectures and tours will allow students to experience firsthand how PA management schemes work in practice, and the challenges they may face, based on the diversity of social and ecological conditions unique to each PA.

PARK 3850 PROFESSIONAL PREPARATION IN PARKS AND RECREATION (1) LEC. 1. Assessment of career opportunities. Prepares students for their parks and recreation internship and post-graduation employment and career development.

PARK 3910 FIELD SKILLS PRACTICUM (3) PRA. SU. Departmental approval. Micro-credentials for leading outdoor adventure recreation. Hands-on training in tools and applications for Parks and Recreation Management. Sophomore standing or higher. PARK majors ONLY. Course instruction will extend into semester break.

PARK 4200 NATURE, RECREATION, AND HEALTH (3) LEC. 3. Nature is a prescription for better mental and physical health. This class explores the many ways that healthy parks and recreation areas can contribute to a healthier society.

PARK 4300 PARKS AND RECREATION ADMINISTRATION, FINANCE, AND MANAGEMENT (3) LEC. 3. Pr. (PARK 2010 or PARK 2020) and PARK 3050. Provides an advanced understanding of the administration and management critical to operating park, recreation, and community sports facilities. Topics include organizational structure, personnel management and supervision, working with community partners, interaction with customers, and managing personnel, finances, evaluation, and decision-making.

PARK 4310 SUSTAINABLE NATURE TOURISM (3) LEC. 3. Ecotourism, responsible tourism, wildlife tourism are all forms of nature tourism that can contribute positively to environmental conservation, community development, and cultural awareness, while maintaining viable businesses. A systems approach for sustainable nature tourism analysis is applied.

PARK 4400 PARK AND RECREATION FACILITIES AND INFRASTRUCTURE PLANNING AND MANAGEMENT (3) LEC. 3. Pr. (PARK 2010 or PARK 2020) and PARK 3050. This course introduces students to the management of park and recreation facilities (i.e., national or community parks, trails, interpretative centers, campgrounds, restrooms, and community sports facilities), emphasizing planning, support, and maintenance.

PARK 4500 SUSTAINABLE PLANNING AND DESIGN OF COMMUNITY PARKS AND RECREATION (3) LEC. 3. A planning approach for viewing parks, recreation, and community sports facilities and programs as an organizing system to promote community connections, health, sustainability, and resilience. Students develop practical grant writing skills for recreation project funding.

PARK 4920 INTERNSHIP IN PARKS AND RECREATION (2-12) INT. Departmental approval. Supervised work experience in a Parks and Recreation (PARK) setting for a minimum of 50 hours/credit hour. PARK major, 2.2 cumulative GPA, and senior standing required. Course may be repeated for a maximum of 12 credit hours.

PARK 5250 ACCESS AND PARTICIPATION IN PARKS AND RECREATION (3) LEC. 3. This course examines access-to and participation-in outdoor recreation based on differences in location, gender, age, income, race, ethnicity, and physical abilities. Supply and demand analysis and the recreation constraints model to participation are used to frame class analysis.

PARK 6250 ACCESS AND PARTICIPATION IN PARKS AND RECREATION (3) LEC. 3. This course examines access-to and participation-in outdoor recreation based on differences in location, gender, age, income, race, ethnicity, and physical abilities. Supply and demand analysis and the recreation constraints model to participation are used to frame class analysis.

Pharmacy (PharmD) - PYPD

Courses

PYPD 9000 ORIENTATION (1) WSP. 12.5. This one week course introduces the expectations for a student in the Harrison School of Pharmacy's Practice Ready Curriculum. The course introduces aspects of the role of the pharmacist in healthcare including team member, interprofessional practice, and continual professional development.

PYPD 9010 DRUGS IN PREGNANCY AND LACTATION (1) LEC. 1. The purpose of this course is to introduce pharmacy students to the concepts of teratogenicity, pregnancy and lactation. Non-pharmacological and pharmacological therapy is focused to common pregnancy disease states and lactation issues.

PYPD 9020 FOUNDATIONS OF LEADERSHIP WITHIN THE PHARMACY PROFESSION (1) LEC. 1. This course will allow students to identify leadership skills, traits and values. Leadership tools and resources will be discussed. Students will be exposed to leadership within the practice of pharmacy as well as pharmacy organizations.

PYPD 9030 INTRODUCTION TO PEDIATRICS (1) LEC. 1. The purpose of this course is to introduce students to the basic concepts regarding pediatric development and care including but not limited to normal growth and development, pediatric calculations, community based care, counseling skills, and common disease states.

PYPD 9040 KIDNEYS, DRUGS AND ELIMINATION: WHAT PHARMACISTS NEED TO KNOW (1) LEC. 1. Students will gain in-depth knowledge of how declining kidney function and renal replacement modalities affect biopharmaceutics and develop experience in evaluating drug information related to renal dosing.

PYPD 9050 ONCOLOGY CARE (1) LEC. 1. This course will provide student pharmacists with a working knowledge of cancer as a disease state, as well as the pharmacotherapeutics of chemotherapy, targeted therapy, and biologic therapy. Additionally, students will explore aspects of supportive care, ADR and drug interaction management, chemotherapy administration, and drug monitoring. The structure of the course is highly collaborative and interactive. Students are expected to participate in group activities with a professional and collegial spirit.

PYPD 9060 SELF-CARE AND NONPRESCRIPTION PHARMACOTHERAPY (1) LEC. 1. This course will introduce students to nonprescription pharmacotherapy and other self-care measures used in the outpatient setting to treat minor medical problems. As the most accessible health care professionals, pharmacists are often approached by members of the community to recommend treatments for common ailments. It is important for pharmacists to quickly and accurately assess patients to determine if they are an appropriate self-care candidate or if referral to another health care provider is warranted. This course will expand upon self-care and nonprescription pharmacotherapy topics introduced in the required curriculum, introduce students to self-care issues specific to various special populations, and allow students to learn from one another through group presentations and case discussions.

PYPD 9080 POPULATION HEALTH IPPE (2) CLN. 2. SU. This course is a longitudinal introductory pharmacy practice experience (IPPE) that students will complete during the P2 year. During this course, practical concepts related to pharmaceutical care and the pharmacists' patient care process are re-enforced through the provision of basic care to community based patients. Students will earn 10 IPPE hours from the successful completion of the course. Earning of IPPE hours will be done through multiple formats including traditional in-home patient encounters, patient care simulations, as well as other practical experiences in collaboration with community partners.

PYPD 9160 COMMUNITY PHARMACY IPPE (2) LEC. 2. SU. Students will be exposed to a community pharmacy setting in which they will gain experience in the drug distribution process, patient counseling, and interprofessional collaboration. Students will have opportunities to apply concepts and clinical knowledge learned during their P1 year. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic Programs.

PYPD 9170 HEALTH SYSTEM PHARMACY IPPE (2) CLN. SU. Students will have opportunities to apply concepts and clinical knowledge previously learned to patient care in the setting of a functioning institutional pharmacy. They will participate in patient care through the drug distribution process, prospective drug review, drug monitoring, and interprofessional interactions. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic Programs.

PYPD 9180 CLINICAL PHARMACY IPPE (1) LEC. 1. SU. This is an introductory pharmacy practice experience (IPPE) course focused on providing pharmaceutical care to patients in a primary/ambulatory care or acute care setting. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic Programs.

PYPD 9190 HEALTH AND WELLNESS INTRODUCTORY PHARMACY PRACTICE EXPERIENCE (1) CLN. 1. SU. This is an Introductory Pharmacy Practice Experience (IPPE) that students will complete during a one-week block in their P2 year. Students will receive 40 IPPE hours upon completing the course. Students will build upon their initial exposure to the community pharmacy setting that occurred during their three-week Community Pharmacy IPPE in the Summer after their P1 year and focused on the medication distribution process. The focus of the Health and Wellness rotation experience is providing clinical services to patients within in the community pharmacy setting. Students have opportunities to apply concepts and clinical knowledge learned during their P1 and P2 years to the community pharmacy setting. Students will be engaged in determining patients' immunization status and making appropriate recommendations. Students will educate patients on immunizations and administer immunizations under the supervision of their licensed pharmacist preceptor. Another area of emphasis during this experience will be screening patients for hypertension and diabetes by performing blood pressure and blood glucose measurements. Students will interpret and explain results of health screenings to patients and educate them on the importance of self-monitoring. Admission into the Doctor of Pharmacy Program or approval of the Associate Dean for Academic Affairs.

PYPD 9200 INTEGRATED LEARNING EXPERIENCE I (6) LEC. 6. Students will acquire foundational knowledge of Hypertension, Diabetes Mellitus, Obesity Management, Diarrhea and Constipation, Fluid and Electrolytes, and Hypersensitivity. These disease states will provide context for students to develop knowledge and skills of various aspects of the Patient Care Process.

PYPD 9210 INTEGRATED LEARNING EXPERIENCE II (6) LEC. 6. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic and Student Affairs. Students will acquire foundational knowledge of Lipids, Depression, Alzheimer's/Dementia, Hypothyroid, Asthma, Chronic obstructive pulmonary disease (COPD), and Smoking Cessation. These disease states will provide context for students to develop knowledge and skills of various aspects of the PPCP.

PYPD 9220 INTEGRATED LEARNING EXPERIENCE III (6) LEC. 6. Pr. (PYPD 9200 or PYPD 9206) and (PYPD 9210 or PYPD 9216). Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic and Student Affairs. This six-week course integrates biomedical sciences, pharmaceutical sciences, social/behavioral/administrative sciences, and clinical sciences. Students will acquire foundational knowledge related to Pain, Osteoarthritis (OA), Seizures, Gastroesophageal reflux disease (GERD), Stable ischemic heart disease (SIHD), Stroke, Thromboembolism, and Heart Failure.

PYPD 9230 INTEGRATED LEARNING EXPERIENCE IV (6) LEC. 6. Pr. (PYPD 9200 or PYPD 9206) and (PYPD 9210 or PYPD 9216). This six-week course will focus on knowledge and skills related to various aspects of the Pharmacists' Patient Care Process such as collecting information, conducting assessments, developing and implementing a plan including patient counseling, and documenting patient information. The course includes an introduction to pharmaceutical compounding and foundational knowledge related to over-the-counter treatment of cough, cold, and various dermatologic conditions.

PYPD 9240 INTEGRATED LEARNING EXPERIENCE V (6) LEC. 6. Pr. (PYPD 9220 or PYPD 9226) and (PYPD 9230 or PYPD 9236). This six-week course integrates biomedical sciences, pharmaceutical sciences, social/behavioral/administrative sciences, and clinical sciences to provide students with the knowledge, skills, behaviors, and attitudes necessary for developing into a practice ready pharmacist. During this ILE, students will acquire foundational knowledge related to generalized anxiety disorder; bipolar disorder/ schizophrenia; dementia; Parkinson's disease, attention-deficit/hyperactivity disorder (ADHD); sleep disorders; hepatitis and cirrhosis; pancreatitis; and hyperthyroidism.

PYPD 9250 INTEGRATED LEARNING EXPERIENCE VI (6) LEC. 6. Pr. (PYPD 9220 or PYPD 9226) and (PYPD 9230 or PYPD 9236). This six-week course integrates biomedical sciences, pharmaceutical sciences, social/behavioral/administrative sciences, and clinical sciences to provide students with the knowledge, skills, behaviors, and attitudes necessary for developing into a practice ready pharmacist. During this ILE, students will acquire foundational knowledge related to diabetic ketoacidosis (DKA)/ hyperosmolar hyperglycemic state (HHS); acid-base disturbances; nausea and vomiting; dehydration; chronic kidney disease (CKD) and secondary complications; acute kidney injury (AKI); nutrients/nutrition; and iron deficiency.

PYPD 9260 INTEGRATED LEARNING EXPERIENCE VII (6) LEC. 6. Pr. (PYPD 9240 or PYPD 9246) and (PYPD 9250 or PYPD 9256). Students will acquire foundational knowledge related to HIV/AIDS, fungal and opportunistic infections, upper respiratory tract infections, allergic rhinitis, viral infections, meningitis, and sepsis. Students will increase the depth of disease states and medications encountered in ILE 4 including: skin and soft-tissue infections, pneumonia, urinary tract infections, sexually transmitted diseases, cough and cold, and dermatologic conditions. The disease states will be integrated to allow student understanding of the relationship between the disease states and medications used to treat these disorders. These disease states will provide context for students to apply knowledge and skills of various aspects of the Pharmacists' Patient Care Process such as collecting information, conducting assessments, developing and implementing a plan including patient counseling, and documenting patient care plans in the SOAP format and/or in the electronic health record (EHR). Students will explore the relationship between medicinal chemistry and the physical and chemical properties which affect ADME, as well as how these relate to differences within and between drugs and drug classes. ILE 7 will reinforce previous competencies introduced in ILEs 1-6, allowing students to apply what was learned in a different context (varying disease states and/or more complex situations).

PYPD 9270 INTEGRATED LEARNING EXPERIENCE VIII (6) LEC. 6. Pr. (PYPD 9240 or PYPD 9246) and (PYPD 9250 or PYPD 9256). During this learning experience, students will acquire foundational knowledge related to cardiology, rheumatology, men's and women's health, and neurology. Students will increase the depth of disease states and medications encountered earlier in the program including: stable ischemic heart disease, venous thromboembolism, stroke, heart failure, osteoarthritis, pain, and epilepsy. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic and Student Affairs

PYPD 9280 INTEGRATED LEARNING EXPERIENCE IX (6) LEC. 6. Pr. (PYPD 9260 or PYPD 9266) and (PYPD 9270 or PYPD 9276). In this course, students will acquire and/or reinforce knowledge related to inflammatory bowel disease, fluids and electrolytes, nutrition support services, hematology, oncology, sepsis, endocarditis, fungal infections, sedation, delirium of critical illness, glomerulonephritis, diabetic ketoacidosis, acid-base disturbances, and type 1 diabetes. This course reinforces competencies related to using subjective and objective information to determine patient-specific healthcare needs and the formulation of an assessment. The content will reinforce organizing and prioritizing information gathered, assessing the appropriateness of therapy based on efficacy and safety, determining the relevance of medication allergies and interactions, and preventing hospital admissions. The development and implementation of an evidence-based, patientcentered care plan that incorporates the assessment of patient-specific factors and medications will be emphasized throughout. Professional communication, focusing on communicating with patients or healthcare providers when there is an educational need, will be reinforced. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic and Student Affairs.

PYPD 9290 INTEGRATED LEARNING EXPERIENCE X (6) LEC. 6. Pr. (PYPD 9260 or PYPD 9266) and (PYPD 9270 or PYPD 9276). This course reinforces competencies related to collecting and using subjective and objective information to determine patient specific healthcare needs and the formulation of an assessment and plan. The content will reinforce organizing and prioritizing information gathered, assessing appropriateness of therapy based on efficacy and safety, determining the relevance of medication allergies and interactions, preventing hospital admissions, and knowing when self-treatment is appropriate versus conditions that need a referral. The development and implementation of an evidence-based, patient-centered care plan that incorporates the assessment of patient-specific factors and medications will be emphasized throughout. Professional communication, focusing on communicating with patients or healthcare providers will be reinforced with emphasis on cultural awareness and barriers in education.

PYPD 9300 INTEGRATED LEARNING EXPERIENCE XI (6) LEC. 6. Pr. (PYPD 9280 or PYPD 9286) and (PYPD 9290 or PYPD 9296). This course reinforces competencies related to collecting and using subjective and objective information to determine patient specific healthcare needs and the formulation of an assessment and plan. The content will reinforce organizing and prioritizing information gathered, conducting medication reconciliation, assessing appropriateness of therapy based on efficacy and safety, determining the relevance of medication allergies, and knowing when self-treatment is appropriate versus conditions that need a referral. The development and implementation of an evidence-based, patient-centered care plan that incorporates the assessment of patient-specific factors and medications will be emphasized throughout. The legal requirements for medication distribution will be emphasized for processing medication orders as well as medication safety reporting and documentation.

PYPD 9310 INTEGRATED LEARNING EXPERIENCE XII (6) LEC. 6. Pr. (PYPD 9280 or PYPD 9286) and (PYPD 9290 or PYPD 9296). This course reinforces competencies related to collecting and using subjective and objective information to determine patient specific healthcare needs and the formulation of an assessment and plan. The content will reinforce the interpretation, verification, processing, and labeling of medications orders in different healthcare settings with increasing complexity, complying with all federal, state, and local laws; collecting, reviewing, and assessing subjective and objective information; identifying and correcting drug-related problems; utilizing appropriate medical and medication informational resources and applying the knowledge of study design and literature analysis; performing calculations; communicating with and educating patients, caregivers and stakeholders; and identifying resources for patient's healthcare needs. The students will further develop an understanding of the relationship between patient-specific factors, including pharmacogenomics, on drug selection and monitoring. Drug interactions will be explored more in-depth as students understand how to predict and resolve drug-drug and drug-disease interactions based on drug-specific and patient-specific factors. Cases will emphasize various patient populations, such as adolescent, pregnancy, and older adult. Immunization assessment and plan will be incorporated in each patient case. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic Programs.

PYPD 9320 LONGITUDINAL EXPERIENCE I (3) LEC. 3. This semester-long course focuses on navigating the health care system. Learners will explore key issues related to patient education/public health, communication, assessment, advocacy, and management.

PYPD 9330 LONGITUDINAL EXPERIENCE II (3) LEC. 3. Pr. (PYPD 9320 or PYPD 9326). Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic and Student Affairs. This semester long course integrates multiple disciplines, including social/behavioral/administrative sciences and clinical sciences to introduce students to issues related to public health, population health, and individual health and wellness.

PYPD 9340 LONGITUDINAL EXPERIENCE III (3) LEC. 2.5. Pr. (PYPD 9330 or PYPD 9336). This longitudinal experience will introduce students to topics related to strategic marketing strategies for pharmacists' services and will expose students to different types of innovative pharmacy services in different practice settings. The overall goal of this longitudinal experience is to teach students the pertinent skills and decision-making tools needed to establish a new non-dispensing pharmacy service and justify its existence through both financial and intangible values, as well as to design systems and processes that will foster effective and appropriate communication between the pharmacist and patients, other healthcare providers, and stakeholders.

PYPD 9350 LONGITUDINAL EXPERIENCE IV (3) LEC. 2.5. Pr. PYPD 9340 or PYPD 9346. This Longitudinal experience will build on prior courses with a focus on incorporating and improving a given service within a pharmacy, within the context of services and products. Thus, the Longitudinal will have a Pharmacy Operations Management and Continuous Quality Improvement (CQI) emphasis. Students will be introduced to the CQI process and principles to enable them to 'improve' existing operations and clinical services. The use of a variety of examples will provide opportunities to apply principles to support recommendations regarding pharmacy operations. This will involve data collection and creation of an improvement plan. To complete the exploration of operations and CQI topics, financial considerations will be incorporated, focusing on the entire pharmacy program, including the role of payers. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic and Student Affairs

PYPD 9360 LONGITUDINAL EXPERIENCE V (3) LEC. 2.5. Pr. PYPD 9350 or PYPD 9356. This course will focus on the planning and sustainability of pharmacy services through billing, contract, and inventory management along with personnel and formulary management. The emphasis on formulary management will be to assist the Pharmacy and Therapeutics (P&T) committee's decision making regarding which drugs to put on the formulary. The medication use process will also be discussed and applied. The Longitudinal will also prepare students to meet future needs of the pharmacy profession by engaging students in thinking about non-traditional services and ideas.

PYPD 9370 LONGITUDINAL EXPERIENCE VI (3) LEC. 2.5. Pr. PYPD 9360 or PYPD 9366. This semester-long course focuses on providing learners with learning opportunities related to their personal and professional goals. Learners will explore key issues related to drug information / evidence-based medicine, leadership, professionalism, and professional development.

PYPD 9380 GERIATRIC CARE I (1) LEC. 1. This study of geriatric health focuses on geriatric patient assessment and interprofessional care of the older adult patient. Students will be required to evaluate how pharmacists can impact these sequelae through interprofessional care teams while optimizing patient's health-related quality of life. This course focuses on those environmental, psychological, and physiological characteristics that are unique to, or more prevalent among, geriatric patients. Admission into the Doctor of Pharmacy program or permission of the Associate Dean for Academic Programs.

PYPD 9390 GERIATRIC CARE II (1) LEC. 1. This study of geriatric health focuses on geriatric patient assessment and management of common pharmacotherapy issues in the older adult patient. Students will be required to evaluate how pharmacists can impact these sequelae through pharmacotherapy management while optimizing patient's health-related quality of life. This course focuses on those pharmacodynamic and pharmacokinetic characteristics that are unique to, or more prevalent among, geriatric patients. Admission into the Doctor of Pharmacy program or permission of the Associate Dean for Academic Programs.

PYPD 9400 WORKSHOP I (1) LEC. 1. In this workshop, will explore the use of drug information resources and related to the use of drug information resources and population levels.

PYPD 9410 WORKSHOP II (1) LEC. 12.5. Pr. PYPD 9400 or PYPD 9406. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic and Student Affairs. This is a focused, intensive, one week workshop where students will acquire theoretical and practical knowledge related to the Pharmacists' Patient Care Process.

PYPD 9420 WORKSHOP III (1) LEC. 12.5. Pr. PYPD 9410 or PYPD 9416. This is a focused, intensive, one-week workshop where students will acquire theoretical and practical knowledge related to a contemporary issue in the field of pharmacy. In this workshop, students will explore the provision of pharmacy-based immunization services utilizing the APhA Pharmacy-Based Immunization Delivery course materials and additional supplemental instructional materials. At the end of this workshop students will have the knowledge and skills related to the development and provision of pharmacy-based immunization services, will know how to serve as a vaccine advocate, and will receive a certificate of completion for the APhA Pharmacy-Based Immunization Delivery course.

PYPD 9430 WORKSHOP IV (1) LEC. 1. Pr. PYPD 9420 or PYPD 9426. This workshop builds upon concepts taught across the first two years in the ILE's and will utilize information the students have developed from a series of self paced videos designed to teach the basic science concepts of pharmacokinetics. The students will also be expected to incorporate knowledge related to previously covered diseases and medications. The focus of the workshop will be to show the students the application of pharmacokinetic knowledge related to A, D, M, and E in multiple settings (retail, hospital, long term care) of pharmacy practice in a case based setting. Admission into the Doctor of Pharmacy Program or Permission of the Associate Dean for Academic and Student Affairs.

PYPD 9440 WORKSHOP V (1) LEC. 12.5. Pr. PYPD 9430 or PYPD 9436. This is a focused, intensive, one week workshop where students will acquire theoretical and practical knowledge related to pharmacoeconomics and its application to the economic evaluation of pharmaceuticals and the overall healthcare system.

PYPD 9450 WORKSHOP VI (1) DSL/LEC. 12.5. Pr. PYPD 9440 or PYPD 9446. In this focused, intensive, one week workshop students will review and update their patient care skills, determine their own long term career goals, and develop a plan for achieving those goals.

PYPD 9460 FINANCES FOR THE PHARMACIST (1) LEC. 1. Pharmacy students need specific advice to prepare for life after pharmacy school in relation to financial planning including managing debt, credit, budgeting, and banking. After graduation from pharmacy school, the majority of students have high amounts of debt and enter the workforce with a higher income that they are likely unaware of how to manage. Equipping students with skills and knowledge to manage their finances will help them be more productive and avoid pitfalls and anxiety related to finances. Admission into the Doctor of Pharmacy Program or permission of the Associate Dean for Academic Programs.

PYPD 9470 PRINCIPLES OF FUNCTIONAL MEDICINE – A PATIENT CENTERED APPROACH (1) LEC. 1. Students will be introduced to the concept of Functional Medicine and the pharmacist's role in chronic disease state management using Functional Medicine principles. Students will also examine the impact of holistic healing as a path to overall health and wellness through investigation of their own health and wellness. Students will utilize evidence-based medicine as a framework for these principles and will apply the information learned in this course to patient care. Admission into the Doctor of Pharmacy Program or permission of the Associate Dean for Academic Programs.

PYPD 9480 ADVANCED PHARMACOKINETICS I (1) LEC. 1. SU. Pr. PYPD 9430 or PYPD 9436. The purpose of this course is to build upon basic pharmacokinetic concepts introduced earlier in the curriculum to develop the skills and expertise necessary to create an individualized plan for dosing and monitoring vancomycin and aminoglycoside antibiotics.

PYPD 9490 INTRODUCTION TO PHARMACOGENOMICS (1) LEC. 1. Pr. (PYPD 9230). This College of Pharmacy elective course will introduce pharmacy students to genetic variation and how this impacts efficacy and adverse effects associated with pharmacotherapy within a variety of disease states.

PYPD 9500 AMBULATORY CARE ANTICOAGULATION (1) LEC. 1. Currently enrolled in the Doctor of Pharmacy program or permission of the Associate Dean for Academic and Student Affairs. This course will provide students with a working knowledge of pharmacotherapeutic issues related to anticoagulation therapy in the out-patient setting including an introduction to the various roles of pharmacists in the management of anticoagulation therapy.

PYPD 9510 EXPLORING DIABETES CARE FROM THE PATIENT PERSPECTIVE (1) LEC. 2.1. Pr. (PYPD 9200 or PYPD 9206 and PYPD 9210 or PYPD 9216) and (PYPD 9220 or PYPD 9226 and PYPD 9230 or PYPD 9236). or permission of the Associate Dean for Academic and Student Affairs. Currently enrolled in the Doctor of Pharmacy program or permission of the Associate Dean for Academic and Student Affairs. Students will learn from pharmacists who specialize in diabetes to discuss pivotal literature sources and their impact on patient care. Students will gain appreciation of Standards of Care through active participation in a weekly deconstructed "diabetes experience" documented with reflective individual writings and/or group video recordings.

PYPD 9520 DRUGS OF ABUSE AND MISUSE (1) LEC. 1. Currently enrolled in the Doctor of Pharmacy program or permission of the Associate Dean for Academic and Student Affairs. This course will provide students with a working knowledge of the current trends in drugs of abuse, the public health implications from abuse of these drugs, and the role of different community stakeholders in the fight against this epidemic.

PYPD 9530 RESEARCH METHODS IN HEALTH SERVICES I (1) LEC. 12.5. Currently enrolled in the Doctor of Pharmacy program or permission of the Associate Dean for Academic and Student Affairs. The course is designed to provide a comprehensive introduction to the primary research methods used in clinical and health services research. It will focus on an introduction to various research designs including experimental and non-experimental, as well as quantitative and qualitative research methods. This course is ideal for student pharmacists and graduate students who want to acquire research knowledge and skills enabling them to participate in clinical and translational research teams and to evaluate programs/services at their clinical/pharmacy sites. It will serve as a research resource for their future research projects.

PYPD 9540 RESEARCH METHODS IN HEALTH SERVICES II (1) LEC. 12.5. PYPD 9530 or enrolled in PYPD 9530 during the same semester. Currently enrolled in the Doctor of Pharmacy program or permission of the Associate Dean for Academic and Student Affairs. This course is ideal for student pharmacists and graduate students who want to acquire research knowledge and skills enabling them to participate in clinical and translational research teams and to evaluate programs/services at their clinical/pharmacy sites. It will serve as a research resource for their future research projects.

PYPD 9550 ACUTE CARE PHARMACOTHERAPY I (1) LEC. 1. Currently enrolled in the Doctor of Pharmacy program or permission of the Associate Dean for Academic and Student Affairs. This course is designed to orient the pharmacy student to the acute care environment and familiarize the student with patient disease states and pharmacotherapy issues associated with the acutely ill patient in an inpatient setting.

PYPD 9560 ACUTE CARE PHARMACOTHERAPY II (1) LEC. 2. This course is a continuation of PYPD 9550. The course will cover more disease states and pharmacotherapy issues related to patients in an inpatient setting. Additionally, there will be more focus on special populations along with dosing medications in organ dysfunction.

PYPD 9570 HISTORY OF PHARMACY (1) LEC. 1. Currently enrolled in the Doctor of Pharmacy program or permission of the Associate Dean for Academic and Student Affairs. History influences nearly everything we do and that is certainly the case for the profession of pharmacy. Every course taught can provide historical contexts for the information and application. A general course in pharmacy history can give a firm foundation for any student and graduate to fully embrace their chosen profession, understand its beginnings and development, and be a competent practitioner. The intent of this course is to provide that background so that the student has an appreciation for what has come before and an understanding of the many symbols and advances of the profession that surround any pharmacy practitioner. This ranges from the Rx to the patient counseling booth to the pharmacokinetic consult.

PYPD 9580 PALLIATIVE CARE AND END OF LIFE (1) LEC. 1. Students will be introduced to the pharmacist's role in hospice/palliative care and symptoms experienced by the dying with an emphasis on interdisciplinary care. Students will also examine the impact of multicultural aspects of providing care in palliative and hospice care.

PYPD 9590 ADVANCED TRAINING IN DIABETES CARE FROM THE PROVIDER'S PERSPECTIVE (1) LEC. 1. Pr. (PYPD 9200 or PYPD 9206) and (PYPD 9210 or PYPD 9216) and (PYPD 9220 or PYPD 9226) and (PYPD 9230 or PYPD 9236) and (PYPD 9240 or PYPD 9246) and (PYPD 9250 or PYPD 9256) and (PYPD 9260 or PYPD 9266) and (PYPD 9270 or PYPD 9276). Course will emphasize completion of necessary steps for achieving The Pharmacist and Patient-Centered Diabetes Care certificate by the American Pharmacists Association, which will include but is not limited to: small group exercises, class discussions, simulated patient counseling (medication, lifestyle and devices). Permission of the Associate Dean for Academic Programs may be needed.

PYPD 9600 ADVANCED PHARMACY PRACTICE EXPERIENCE (5) PRA. Pr. (PYPD 9310 or PYPD 9316). Advanced pharmacy practice experiences in Acute Care/General Medicine, Ambulatory Care/Primary Care, Community Pharmacy, Drug Information, and various other pharmacy practice settings. Course may be repeated for a maximum of 45 credit hours.

PYPD 9610 COMMUNITY PHARMACEUTICAL CARE (5) PRA. 62.5. Advanced Practice Experience in a community pharmacy practice setting that provides pharmaceutical care services such as disease management and other advanced patient care activities. Fall, Spring, Summer.

PYPD 9620 MEDICINE I (5) PRA. 62.5. Advanced practice experience in providing Inpatient Pharmaceutical Care. Fall, Spring, Summer.

PYPD 9630 MEDICINE II - SELECTIVE (5) PRA. 62.5. Advanced practice experience in providing Inpatient Pharmaceutical Care. Additional experience beyond PYDI 9620. Fall, Spring, Summer.

PYPD 9640 PRIMARY/AMBULATORY CARE I (5) PRA. 62.5. Advanced practice experience in providing care to patients as they initially access the health care system. Fall, Spring, Summer.

PYPD 9650 PRIMARY/AMBULATORY CARE II (5) IND/PR1. 62.5. This culminating course will require a comprehensive review and application of knowledge gained throughout the first 3 years of the PharmD Curriculum. Through case, problem and project based learning, learners will apply didactic and clinical knowledge/skills in a self-directed manner.

PYPD 9660 HEALTH SYSTEM PRACTICE (5) PRA. 62.5. Advanced practice experience in a health system setting that prepares the student to adapt and function within systems of integrated pharmaceutical care services. Fall, Spring, Summer.

PYPD 9670 PRACTICE ELECTIVE I (5) PRA. 62.5. Elective experience in an advanced practice experience setting in which the student establishes personal learning goals and responsibilities. Fall, Spring, Summer.

PYPD 9680 PRACTICE ELECTIVE II (5) PRA. 62.5. Elective experience in an advanced practice experience setting in which the student establishes personal learning goals and responsibilities. Fall, Spring, Summer.

PYPD 9690 DRUG INFORMATION-SELECTIVE (5) PRA. 62.5. Status of a 4th Year Doctor of Pharmacy Student (P4) or Permission of the Associate Dean for Academic and Student Affairs. Advanced practice experience in providing drug information services to health care providers. Fall, Spring, Summer.

PYPD 9700 SUMMATIVE EXPERIENCE I (3) IND. 37.5. SU. The P4 Summative Experience I is an independent study course focusing on the North American Pharmacist Licensure Examination (NAPLEX) preparation utilizing the RxPrep package. Students will work longitudinally to complete study modules based on an assigned schedule with each module culminating in a cumulative assessment. Course requirements are to be completed outside of Advanced Pharmacy Practice (APPE) rotation requirements.

PYPD 9710 COMMUNITY PHARMACY PRACTICE I (1) LEC. 12.5. Currently enrolled in the Doctor of Pharmacy program or permission of the Associate Dean for Academic and Student Affairs. This course will focus on legal and business aspects of community pharmacy practice. Students will be paired with a mentor for this course who will provide real world examples of these aspects of community pharmacy.

PYPD 9720 COMMUNITY PHARMACY PRACTICE II (1) LEC. 1. This course will focus on the development and implementation of clinical services within the community pharmacy setting. Students will receive training on concept development through implementation of medication therapy management services in this setting.

PYPD 9730 INFECTIOUS DISEASES I (1) LEC. 1. This course will provide the student with an in depth exposure to the treatment of bacterial infectious diseases, with a particular focus on antimicrobial stewardship and the treatment of multidrug-resistant organisms.

PYPD 9740 INFECTIOUS DISEASES II (1) LEC. 1. This course will provide the student with an in depth exposure to the treatment of different viral, fungal, and bacterial infectious diseases not covered in depth in other portions of the curriculum. Admission into the Doctor of Pharmacy program or permission of the Associate Dean for Academic Programs

PYPD 9750 ADVANCED MOTIVATIONAL INTERVIEWING (1) LEC. 1. Motivational interviewing (MI) is an evidence-based method for facilitating voluntary health behavior change with patients and with providers. Target behaviors for patients engaged in comprehensive disease management may include outcome enhancing behaviors like medication taking, healthy eating, monitoring, physical activity, sleep management, smoking cessation, among others. This course will 1) explore the conceptual basis for why motivational interviewing is effective in facilitating health behavior change, and 2) provide basic and advanced training and practice for using motivational interviewing to help patients with self-management of their health conditions. This course is intended and designed to support and build student self-efficacy for using MI in patient encounters within a health/disease management context. MI principles and micro skills will be applied by the instructor in the process of helping facilitate student learning. It is hoped that the student will come away from the course encouraged, not discouraged, about using MI for improved patient outcomes in future practice/research.

PYPD 9760 POST-GRADUATE TRAINING PREPARATION (1) LEC. 1. This course will review post-graduate education opportunities for pharmacists with a focus on pharmacy residency training. Students will learn about post-graduate opportunities within pharmacy and develop skills and tools necessary in securing a position after graduation.

PYPD 9770 ACUTE CARE ANTITHROMBOTIC (1) LEC. 1. This course will provide students with a working knowledge of pharmacotherapeutic issues related to antithrombotic therapy in the inpatient setting including an introduction to roles and responsibilities of pharmacists in the management of antithrombotic therapy in this setting. Admission into the Doctor of Pharmacy program or permission of the Associate Dean for Academic Programs.

PYPD 9780 TOXICOLOGY AND POISONS (1) LEC. 1. Toxicology is the science of poisons and their antidotes. Almost any substance has the ability to cause noxious effects on living beings. The Toxicology and Poisons course is designed to introduce the Doctor of Pharmacy student to the role of the pharmacist in the management of poisonous substances and intentional and unintentional drug overdoses. Admission into the Doctor of Pharmacy program or permission of the Associate Dean for Academic Program.

PYPD 9790 THERAPEUTIC USE OF OPIOIDS (1) LEC. 1. Opioids as a class of medications are a high risk class of medications. As such, it is important that pharmacists learn to be systematic in their approach to dosing these medications and to recognize common mistakes made in their dosing. This course will provide an in-depth approach to dosing these medications. Each week will focus on a different area of dosing using patient cases to allow students to practice calculations and making recommendations. Status as a 3rd year student in the Doctor of Pharmacy program or permission of the Associate Dean of Academic Programs.

PYPD 9800 SUMMATIVE EXPERIENCE II (3) IND. 3. SU. Pr. PYPD 9700. The P4 Summative Experience II contains both an independent study component focusing on North American Pharmacist Licensure Examination (NAPLEX) board exam and Multistate Pharmacy Jurisprudence Examination (MPJE) preparation utilizing the RxPrep package and supplemental materials as well as the completion of various assignments during the course of Advanced Pharmacy Practice Experiences (APPE) rotations. Course requirements are adjunctive to APPE rotation requirements. Status of a 4th Year Doctor of Pharmacy Student (P4) or permission of the Associate Dean for Academic Programs.

PYPD 9810 ADVANCED PEDIATRICS (1) LEC. 1. The purpose of this course is to expose students to advanced pediatric topics regarding disease states, therapeutics (acute and chronic therapy) and pharmacogenomics. Concepts from the Introduction to Pediatrics course will be incorporated. Admission into the Doctor of Pharmacy program or permission of the Associate Dean for Academic Programs.

PYPD 9820 INTERPROFESSIONAL PEDIATRICS (1) LEC. 1. Course will expose students to advanced pediatric topics regarding disease states, pharmacokinetics, and therapeutics. Admission into the Doctor of Pharmacy program or permission of the Associate Dean for Academic Programs.

PYPD 9830 ACUTE CARE SELECTIVE II (5) LEC. 5. Advanced practice experience in providing pharmaceutical care to patients in an additional acute care setting. General medicine (acute care) experiences provide comprehensive, evidence-based, individualized, patient-centered care to adult inpatients typically located on a general medicine floor. Pharmacists are expected to be accountable for the patient's drug therapy outcomes and practice as an integrated member of the inter-professional health care team. Typical patients present with the following medical problems: cardiac, pulmonary, renal, hepatic, neurologic, gastrointestinal, endocrine and infectious diseases. The experience incorporates all elements of care from medication reconciliation, medication therapy recommendations and monitoring, discharge counseling, and transitions of care. Doctor or Pharmacy program or permission of the Associate Dean for Academic Programs

PYPD 9840 CLINICAL ISSUES IN UNDERSERVED POPULATIONS (1) LEC. 1. This course focuses on addressing barriers patients vulnerable to health disparities face in our healthcare system. Students will expand knowledge of social determinants of health, available medication resources, and clinical strategies to reduce health disparities in the primary care setting. Enrollment in the Doctor of Pharmacy Program or approval of the Associate Dean for Academic Programs.

PYPD 9850 PRIMARY CARE SELECTIVE II (5) LEC. 5. Advanced practice experience in providing pharmaceutical care to patients as they initially access the health care system. This is an additional opportunity for students to train in a primary care care setting. Primary care experiences provide evidence-based, patient-centered collaborative care in the outpatient setting to meet the medication management needs of patients in the treatment of chronic disease. These pharmacists promote health and wellness, disease prevention and education, and medication management of chronic illnesses such as diabetes, hypertension, coronary artery disease / dyslipidemia, asthma / chronic obstructive pulmonary disease, and heart failure. Other chronic diseases encountered by the ambulatory care pharmacist may include chronic kidney disease, chronic infectious diseases, and other chronic diseases responsive to infusion therapy that do not require hospitalization. Pharmacist delivered ambulatory care occurs in institutional health system-based clinics, community-based clinics, government-funded clinics, and managed care organizations as well as the community pharmacy setting where comparable care is provided. 4th year Doctor of Pharmacy Students or the permission of the Associate Dean for Academic Programs

PYPD 9860 METABOLIC SYNDROME 1 (1) LEC. 1. Metabolic Syndrome 1 will focus on the assessment and treatment (nonpharmacologic and pharmacologic) of disease states related to metabolic syndrome, including prevention of these comorbidities. Special attention will be given to patient considerations in the management of these diseases. Enrollment in the Doctor of Pharmacy Program or Approval of the Associate Dean for Academic Programs.

PYPD 9870 METABOLIC SYNDROME 2 (1) LEC. 1. Metabolic Syndrome 2 will focus on the assessment and treatment (nonpharmacologic and pharmacologic) of disease states related to metabolic syndrome with special attention given to its management of unique patient populations. In addition, considerations for communication with other healthcare providers will be addressed. Enrollment in the Doctor of Pharmacy Program or approval of the Associate Dean for Academic Programs.

PYPD 9880 CARDIOLOGY (1) LEC. 1. Pr. PYPD 9230. This course will introduce and expand upon core cardiovascular disease states essential for the practice ready pharmacist. HCOP students will utilize evidence-based medicine to guide all pharmacotherapy discussions and gain experience in applying these principles to make patient care decisions.

PYPD 9890 CONSULTANT PHARMACY: AN EXPANDING AREA OF PRACTICE (1) LEC. 1. Pr. PYPD 9230. Consultant pharmacy is an expanding area of practice. Consultant pharmacists collaborate with the healthcare team to provide expert clinical guidance to promote safe and effective drug therapy for older adult patients and to ensure compliance with state and federal regulations. This course will introduce HCOP students to the field of consultant pharmacy.

PYPD 9900 THE NUTRITION KITCHEN, AN INTERDISCIPLINARY CULINARY MEDICINE ELECTIVE (PHARMACY) (1) LEC. 1. SU. Pr. (PYPD 9230). The Nutrition Kitchen is an interdisciplinary culinary medicine elective to prepare future healthcare professionals utilizing a food-forward approach in the care of patients with nutrition-related chronic diseases. This specific course is for Doctor of Pharmacy students in the Harrison College of Pharmacy.

PYPD 9910 ANTIMICROBIAL STEWARDSHIP (1) LEC. 1. Pr. PYPD 9230. This HCOP elective course will explore the principles of antimicrobial stewardship and avenues for pharmacists to engage in antimicrobial stewardship efforts in a variety of patient care settings. Through simulated activities, pharmacy students will gain experience learning, recommending, and communicating antimicrobial stewardship interventions.

PYPD 9920 PHARMACY-BASED POINT-OF-CARE TEST AND TREAT (1) LEC. 1. SU. Pr. PYPD 9230. This course provides pharmacy students with knowledge and skills to develop and implement collaborative point-of-care testing programs. This HCOP elective will discuss the point-of-care test and treat process, including specimen collection, legal and management issues associated with point-of-care testing and follow-up care, and assessment of patients to determine if point-of-care testing is appropriate.

PYPD 9930 PRINCIPLES OF FUNCTIONAL MEDICINE 2 – A PATIENT CENTERED APPROACH (1) LEC. 1. Pr. (PYPD 9470). HCOP students will use the principles from the Functional Medicine course and the pharmacist's role in chronic disease state management to approach patient care using nutritional and lifestyle interventions to help prevent, heal, and potentially reverse disease. Students will continue to examine the impact of holistic healing as a path to overall health and wellness through investigation of their own health and wellness.

PYPD 9940 VETERINARY PHARMACY I (1) LEC. 1. Pr. (PYPD 9230). The purpose of this course is to introduce HCOP students to the practice of veterinary pharmacy. Veterinary-specific laws and regulations will be discussed, including special requirements for veterinary prescriptions. Species differences in pharmacokinetics, pharmacodynamics, and pharmacogenomics will be discussed, along with common disease states and pharmacologic treatments.

PYPD 9950 VETERINARY PHARMACY II (1) LEC. 1. Pr. (PYPD 9940). The purpose of this course is to expand HCOP students' knowledge of the practice of veterinary pharmacy. Large and exotic animal pharmacy will be discussed, along with pharmacological treatments.

PYPD 9980 PHARMACY RESEARCH (1-3) LEC. 1-3. The student will be expected to learn to conduct independent research activity. The specific research topic will lie within the scope of the School of Pharmacy writ large and will be decided by the student's faculty research advisor. Course may be repeated for a maximum of 6 credit hours.

Philosophy - PHIL

Courses

PHIL 1010 INTRODUCTION TO LOGIC (3) LEC. 3. Humanities Core. Basic logical principles and applications: definition, informal fallacies, categorical logic, elementary propositional logic, analogy, and selected inductive inferences.

PHIL 1017 HONORS LOGIC (3) LEC. 3. Pr. Honors College. Humanities Core. Basic logical principles and applications: definition, informal fallacies, categorical logic, elementary propositional logic, analogy, and selected inductive inferences.

PHIL 1020 INTRODUCTION TO ETHICS (3) LEC. 3. Humanities Core. Major ethical theories from the history of philosophy, their foundations in epistemology and metaphysics, and their extension into social thought. May count either PHIL 1020 or PHIL 1023.

PHIL 1027 HONORS ETHICS (3) LEC. 3. Pr. Honors College. Humanities Core. Major ethical theories from the history of philosophy, their foundations in epistemology and metaphysics, and their extension into social thought.

PHIL 1030 ETHICS AND THE HEALTH SCIENCES (3) LEC. 3. Humanities Core. Ethical inquiry into such major issues as abortion, eugenics, physician-assisted suicide, euthanasia, health-care delivery methods, and informed consent.

PHIL 1037 HONORS ETHICS AND THE HEALTH SCIENCES (3) LEC. 3. Pr. Honors College. Humanities Core. Ethical inquiry into such major issues as abortion, eugenics, physician-assisted suicide, euthanasia, health-care delivery methods, and informed consent.

PHIL 1040 BUSINESS ETHICS (3) LEC. 3. Humanities Core. Types of ethical theory; application to such normative issues in commerce as advertising, management, and business abroad.

PHIL 1050 INTRODUCTION TO POLITICAL PHILOSOPHY (3) LEC. 3. Humanities Core. Principal theories and thinkers in political philosophy from antiquity to the present.

PHIL 1060 PHILOSOPHY EAST AND WEST (3) LEC. 3. Humanities Core. Principal thinkers and theories in four philosophical traditions: Indian, Chinese, European, and Arabic.

PHIL 1070 ART, VALUE, AND SOCIETY (3) LEC. 3. Humanities Core. Introduction to philosophical aesthetics, focusing on the relationship of artistic values and the extra-artistic values of societies that house them.

PHIL 1080 INTRODUCTION TO PHILOSOPHY OF RELIGION (3) LEC. 3. Humanities Core. Philosophy of religion, including questions about God's existence, relationship of reason and faith, religious epistemology, and language.

PHIL 1090 PHILOSOPHY OF RACE AND GENDER (3) LEC. 3. Humanities Core. Philosophical issues associated with race and gender, including role of biology and social construction, nature of prejudice, questions about justice and redress.

PHIL 1100 INTRODUCTION TO PHILOSOPHY (3) LEC. 3. Humanities Core. Methods of philosophical inquiry and examination of selected philosophical topics. May count either PHIL 1100 or PHIL 1103.

PHIL 1110 ETHICAL AND CONCEPTUAL FOUNDATIONS OF SCIENCE (3) LEC. 3. Introduction to the moral and conceptual foundations of science, concentrating on ethical facets of scientific research, theorizing, and knowledge production, as well as conceptual issues regarding the nature of causation, induction, scientific explanation and confirmation. May count either PHIL 1110 or PHIL 1113.

PHIL 1120 INTRODUCTION TO ENVIRONMENTAL ETHICS (3) LEC. 3. Ethical inquiry into environmental issues such as non-human animal welfare, environmental justice, global climate change, resource use, and conservationism versus preservationism.

PHIL 1130 MINDS AND MACHINES: THE PHILOSOPHY OF ARTIFICIAL INTELLIGENCE (3) LEC. 3. LAB. 0, LEC. 0. The course explores the foundations and ethical implications of Artificial Intelligences, including the nature of mind and consciousness, the moral ramifications of AI, and the relationship between AI and human creativity.

PHIL 2110 LOGIC AND REASONING (3) LEC. 3. Students will refine their ability to wield the tools of logical analysis in situations which call for precise reasoning, learning to apply these tools in a variety of contexts.

PHIL 2970 GATEWAY SEMINAR (3) LEC. 3. An introduction to philosophy through special topics. The course is designed to provide students with the basic skills required for more advanced work in philosophy. Topics vary. Course may be repeated for a maximum of 6 credit hours.

PHIL 3050 AESTHETICS (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. Modern and contemporary theories of the nature of art.

PHIL 3060 PHILOSOPHY OF FILM (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area I) Consideration of philosophical issues raised within particular films and by the nature of cinematic representation in general.

PHIL 3100 ETHICAL THEORY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area I) Overview of contemporary questions and positions in ethics, including moral realism, the rationality of moral action, subjectivism and non-cognitivism, naturalism, and various theories of practical reason.

PHIL 3110 SYMBOLIC LOGIC (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area IV) Propositional logic and predicate logic through relations; natural language and logic; some philosophical problems in logic.

PHIL 3200 RACE AND JUSTICE (3) LEC/SEM. Pr. A grade of D or higher in PHIL 1000-2999. This course is an intermediate introductory course that examines themes of race and justice from a philosophical perspective in both historical and contemporary contexts.

PHIL 3300 PHILOSOPHY OF RELIGION (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area II) Nature of religion, religious experience, religious knowledge, religious theories of humanity and evil, arguments for the existence of God and immortality of the soul.

PHIL 3330 HISTORY OF ANCIENT PHILOSOPHY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area III) Philosophical thought from the Pre-Socratics through the Hellenistic philosophers, emphasizing Plato and Aristotle.

PHIL 3340 HISTORY OF EARLY MODERN PHILOSOPHY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area III) Philosophical thought from Descartes to Kant, emphasizing major figures in the rationalist and empiricist traditions.

PHIL 3350 HISTORY OF LATE MODERN AND PRE-ANALYTIC PHILOSOPHY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area III) Philosophical thought from Kant to the Pre-Analytic philosophers, possibly including Schopenhauer, Hegel, Nietzsche, Kierkegaard, James, Brentano, Frege, Meinong, Cook-Wilson, Bradley, and Moore.

PHIL 3360 HISTORY OF EARLY ANALYTIC PHILOSOPHY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area III) Philosophical thought in the early Analytic period, including the works of Russell, Moore, Wittgenstein, and members of the Vienna Circle.

PHIL 3400 MEDIEVAL PHILOSOPHY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area III) Philosophical thought from late antiquity through the Middle Ages, with emphasis on the ideas of Plotinus, Islamic thinkers, Augustine, Abelard, Anselm, and Thomas Aquinas.

PHIL 3500 EPISTEMOLOGY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area II) Origin, nature, kinds, and validity of knowledge, with considerations of faith, institution, belief, opinion, certainty, and probability.

PHIL 3510 PHILOSOPHY OF SCIENCE (3) LEC. 3. Student must have taken at least one philosophy course prior to taking PHIL 3510. Empirical meaning, verifiability, measurement, probability, causality and determinism.

PHIL 3530 PHILOSOPHY OF PHYSICS (3) LEC. 3. An overview of the philosophy of physics, with attention to topics such as the nature of matter, motion, change, space, time, space-time, time travel, Einstein's theories of special and general relativity, and non-relativistic quantum mechanics.

PHIL 3540 PHILOSOPHY OF MIND (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area II) Classical and modern texts on the phenomenology of consciousness and mind-body problems.

PHIL 3550 PHILOSOPHY OF LANGUAGE (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area II) Survey of contemporary philosophical discussions of the nature of language.

PHIL 3600 CLASSICAL POLITICAL PHILOSOPHY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. At least one course in philosophy at the 1000 level. Political thought of classical thinkers, including Plato, Aristotle, Machiavelli, Hobbes, Locke, Mill, Spencer, and Marx. (Area I for PHIL major)

PHIL 3620 CONTEMPORARY POLITICAL PHILOSOPHY (3) LEC. 3. Pr. POLI 3020. or at least one PHIL course at the 1000 or 2000 level. A survey of major schools of 20th- and 21st-century political thought, including liberalism, communitarianism, libertarianism, feminism, and anarchism. May count either PHIL 3620 or POLI 4340.

PHIL 3640 PHILOSOPHY OF LAW (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area I) Functions of law, including judicial reasoning, ground of authority, natural law, legal responsibility, punishment, civil disobedience, and the relation of law to ethics.

PHIL 3660 APPLIED ETHICS (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. Advanced philosophical study of the ethical issues that arise in intellectual endeavors, such as law, business, military science, and engineering.

PHIL 3700 METAPHYSICS (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area II) Critical analysis of such topics as monism and pluralism, freedom and determinism, realism and nominalism, and the mind-body problem.

PHIL 3740 EXISTENTIALISM (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. (Area II) Selected works of such authors as Kierkegaard, Neitzsche, Sartre, Jaspers, and Heidegger.

PHIL 3800 FEMINISM AND PHILOSOPHY (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. This is an intermediate level philosophy course introducing students to feminist philosophers' attempts to grapple with traditional philosophical problems that either directly or indirectly bear on issues of gender and oppression. Texts may include historical and contemporary discussions of topics of concern to feminists, in any of the following areas: metaphysics, epistemology, ethics, philosophy of science, language, law and social political philosophy.

PHIL 3970 SPECIAL TOPICS (3) LEC. 3. Pr. At least 3 credits in PHIL 1000-1999. Topics vary. Course may be repeated for a maximum of 6hours.

PHIL 4110 ADVANCED LOGIC (3) LEC. 3. Pr. (P/C PHIL 3110 or P/C MATH 3100). Advanced topics in logic. For example: soundness, completeness, incompleteness, set theory, proof theory, model theory, non-standard logics. May count either PHIL 4110 or MATH 4110.

PHIL 4920 INTERNSHIP (3) INT. 200. SU. Opportunity to apply skills acquired in classroom in career setting. Internship must be supervised and appropriate to major.

PHIL 4960 SPECIAL PROBLEMS IN PHILOSOPHY (1-6) IND. Pr., Departmental approval. Reading program on a particular philosopher, period, or problem. Course may be repeated for a maximum of 6 credit hours.

PHIL 4967 HONORS SPECIAL PROBLEMS IN PHILOSOPHY (1-3) IND. Pr. Honors College or Departmental approval. Reading program on a philosopher, period, or problem. Course may be repeated for a maximum of 3 credit hours.

PHIL 4970 SPECIAL TOPICS (3) LEC. 3. Pr. At least 6 credits in PHIL 3000-3999. Advanced topics in ethics and value theory, metaphysics and epistemology, or history of philosophy. Emphasis on readings drawn from the contemporary, professional literature. Course may be repeated for a maximum of 9 credit hours. Area distribution requirement fulfilled depends on class content.

PHIL 4980 UNDERGRADUATE RESEARCH (3) PRA. Pr. A grade of D or higher in PHIL 4000-4999. Pr. One 3-hour philosophy class at the 4000 level or instructor permission. Capstone course in which students develop previously written paper into presentation to be delivered at end-of-semester conference.

PHIL 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Senior thesis. Course may be repeated for a maximum of 3 credit hours.

PHIL 6950 SEMINAR (1-3) SEM. Pr., Departmental approval. Content varying from movements of thought to an extensive study of one of the great thinkers. Course may be repeated for a maximum of 3 credit hours.

Physical Education - PHED

Courses

PHED 1000 ACTIVE AUBURN (2) LEC. 2. Basic concepts associated with physical activity and the opportunities on campus to engage in health-promoting and wellness activities. Course may be repeated for a maximum of 4 credit hours.

PHED 1200 CARDIO RESPIRATORY: FITNESS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning. Activities may include, but are not limited to running (jogging) swimming, cycling and aerobic dance. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1210 CARDIO RESPIRATORY: AEROBIC DANCE (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in aerobic dance.

PHED 1220 CARDIO RESPIRATORY: CIRCUIT TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in circuit training.

PHED 1230 CARDIO RESPIRATORY: JOGGING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in jogging.

PHED 1240 CARDIO RESPIRATORY: SWIM FOR FITNESS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in swim for fitness.

PHED 1250 CARDIO RESPIRATORY: WATER AEROBICS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in water aerobics.

PHED 1260 MILITARY FITNESS FOR EVERYONE (2) LEC. 2. Basics of military-type physical activity training, goal-setting, and fitness principles.

PHED 1300 FITNESS AND CONDITIONING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness. Activities may include, but are not limited to calisthenics and weight training. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1310 FITNESS: BODYBUILDING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in bodybuilding.

PHED 1320 FITNESS: LIFETIME ACTIVITY (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in lifetime activity.

PHED 1330 FITNESS: WEIGHT CONTROL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight control.

PHED 1340 FITNESS: WEIGHT TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight training.

PHED 1350 FITNESS WEIGHT TRAINING WOMEN (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness for weight training for women.

PHED 1360 FITNESS: WEIGHT TRAINING II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight training II.

PHED 1380 KETTLEBELL TRAINING (2) LEC. 1. LAB. 1. Introductory approach to kettlebell techniques and kettlebell program development.

PHED 1390 WEIGHT MANAGEMENT (2) LAB. 2. Nutrition and exercise concepts associated with maintaining healthy weight.

PHED 1400 TEAM SPORTS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport. Team sports may include, but are not limited to, volleyball, basketball and softball. Course may be repeated with change in topic.

PHED 1410 TEAM SPORTS: BASKETBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1420 TEAM SPORTS: FLAG FOOTBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1430 TEAM SPORTS: SOCCER (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1440 TEAM SPORTS: SOFTBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1450 TEAM SPORTS: VOLLEYBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1500 INDIVIDUAL SPORTS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport. Sports may include, but are not limited to tennis, golf and racquetball. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1510 INDIVIDUAL SPORTS: BOWLING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1520 INDIVIDUAL SPORTS: GOLF (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1530 INDIVIDUAL SPORTS: GOLF II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1550 INDIVIDUAL SPORTS: TENNIS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1600 PERFORMANCE ACTIVITIES (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity. Activities may include, but are not limited to, dance and gymnastics. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1610 PERFORM ACTIVITY - PILATES (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1620 PERFORMANCE ACTIVITY: KARATE (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity. Course may be repeated for a maximum of 6 credit hours.

PHED 1630 PERFORMANCE ACTIVITY: TAE KWON DO (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1640 PERFORMANCE ACTIVITY: YOGA (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1700 AQUATICS: OTHER (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills. Activities may include, but are not limited to, swimming skills instruction, lifeguard training, and scuba diving. When appropriate, successful completion of the course will lead to Red Cross certification or certification by other agencies. Course may be repeated for a maximum of 4 credit hours.

PHED 1710 AQUATICS: WHITEWATER KAYAKING I (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1720 AQUATICS: WHITEWATER KAYAKING II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1740 AQUATICS: LIFEGUARD TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1750 AQUATICS: BEGINNING SWIMMING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1760 AQUATICS: SCUBA (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1800 VARSITY SPORTS: STRENGTH AND CONDITION (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topic.

PHED 1810 VARSITY MEN'S SPORTS: FOOTBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1820 VARSITY MEN'S SPORTS: BASKETBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1830 VARSITY MEN'S SPORTS: TRACK (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1840 VARSITY MEN'S SPORTS: CROSS COUNTRY (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1850 VARSITY MEN'S SPORTS: SWIMMING AND DIVING (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1860 VARSITY MEN'S SPORTS: GOLF (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1870 VARSITY MEN'S SPORTS: TENNIS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1880 VARSITY MEN'S SPORTS: BASEBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1900 VARSITY WOMEN'S SPORTS: SOCCER (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1910 VARSITY WOMEN'S SPORTS: GYMNASTICS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1920 VARSITY WOMEN'S SPORTS: BASKETBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1930 VARSITY WOMEN'S SPORTS: TRACK (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1940 VARSITY WOMEN'S SPORTS: CROSS COUNTRY (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1950 VARSITY WOMEN'S SPORTS: SWIMMING AND DIVING (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1960 VARSITY WOMEN'S SPORTS: GOLF (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1970 VARSITY WOMEN'S SPORTS: TENNIS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1980 VARSITY WOMEN'S SPORTS: SOFTBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1990 VARSITY WOMEN'S SPORTS: VOLLEYBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 2100 WHEELCHAIR SPORTS FOR EVERYONE (2) LEC. 2. LAB. 1. A physical education class which introduces students to various wheelchair sports.

PHED 2200 SELF DEFENSE FOR WOMEN (1) LEC. 1. The Rape Aggression Defense (RAD) System is a comprehensive program of realistic self-defense tactics and techniques for women that promotes awareness, prevention, risk reduction and risk avoidance with a progression to hands-on training and simulation exercises.

Physics - PHYS

Courses

PHYS 1000 FOUNDATIONS OF PHYSICS (4) LEC. 3. LAB. 2. Science Core. Newton's Laws, momentum and energy, solids, liquids, gases, plasma, thermodynamics, electricity, magnetism, light, atomic and nuclear physics. Students who have previous credit in any higher-numbered physics course may not receive credit.

PHYS 1001 FOUNDATIONS OF PHYSICS LABORATORY (1) LAB. 2. Coreq. PHYS 1003. Core-curriculum laboratory course in physics focusing on practical applications and hands-on experience. Topics include: Newton's Laws, momentum and energy, solids, liquids, gases, plasma, thermodynamics, electricity, magnetism, light, atomic and nuclear physics.

PHYS 1100 PHYSICS ORIENTATION (1) LEC/SEM. SU. The course will provide incoming Physics majors with an orientation to the Physics program and will develop critical thinking and professional skills that complement academic and research training. Students will be exposed to aspects of physics research through a broad range of topical discussions with the instructor, other faculty and/or outside speakers.

PHYS 1150 ASTRONOMY (4) LEC. 3. LAB. 3. Science Core. Open to non-science majors. Earth, the solar system, stars, neutron stars, black holes, supernova, galaxies, the expanding universe, and modern cosmological theories.

PHYS 1400 PHYSICS FOR AVIATORS (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1150 or MATH 1610 or MATH 1617) and SCMH 1010. Departmental approval. The course provides students with an overview of introductory physics topics such as kinematics, laws of motion, conservation laws, thermodynamics, waves, basic electrical circuits, magnetic fields, and optics essential as a foundation of aviation. The course will specifically utilize examples and problems related to aviation.

PHYS 1500 GENERAL PHYSICS I (4) LEC. 3. LAB. 3. Pr. MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or P/C MATH 1610 or P/C MATH 1613 or P/C MATH 1617 or P/C MATH 1620 or P/C MATH 1623 or P/C MATH 1627 or P/C MATH 1710 or P/C MATH 1720 or P/C MATH 2630 or P/C MATH 2637. Science Core. Introduction to Newton's Laws, gravitation and cosmology, concept of conservation laws, solids and fluids, thermodynamics. Math at level of MATH 1130 or higher is expected. Credit will not be given for both PHYS 1500 and PHYS 1600 or PHYS 1607.

PHYS 1510 GENERAL PHYSICS II (4) LEC. 3. LAB. 3. Pr. PHYS 1500 or PHYS 1600 or PHYS 1607. Science Core. Electricity and magnetism, AC circuits, waves, nuclear physics, radioactivity and particle physics. Physics at the level of PHYS 1500 or higher is expected. Credit will not be given for both PHYS 1510 and PHYS 1610 or PHYS 1617.

PHYS 1600 ENGINEERING PHYSICS I (4) LEC. 3. LAB. 3. Pr. MATH 1610 or MATH 1613 or MATH 1617 or P/C MATH 1620 or P/C MATH 1623 or P/C MATH 1627 or P/C MATH 2630 or P/C MATH 2637. Science Core. Introduction to Newton's Laws, gravitation, cosmology, conservation of energy, momentum and angular momentum, special relativity, and fluids using introductory calculus. Math at the level of MATH 1610 or higher is required as a prerequisite. Credit will not be given for both PHYS 1500 and PHYS 1600 or PHYS 1607.

PHYS 1607 HONORS PHYSICS I (4) LEC. 3. LAB. 3. Pr. Honors College. Science Core. Honors version of PHYS 1600. Membership in the Honors College or Departmental approval required. Recommended for Physics majors. Math at the level of MATH 1610 or higher is required as a prerequisite. Credit will not be given for both PHYS 1500 and PHYS 1600 or PHYS 1607.

PHYS 1610 ENGINEERING PHYSICS II (4) LEC. 3. LAB. 3. Pr. (PHYS 1600 or PHYS 1607) and (MATH 1620 or MATH 1623 or MATH 1627). Science Core. Thermodynamics, electricity and magnetism, simple AC circuits, waves, and geometric optics. Physics at the level of PHYS 1600 or higher is expected. Math at the level of MATH 1620 or higher is required as a prerequisite. Credit will not be given for both PHYS 1510 and PHYS 1610 or PHYS 1617.

PHYS 1617 HONORS PHYSICS II (4) LEC. 3. LAB. 3. Pr. Honors College. MATH 1620 and PHYS 1600 or PHYS 1607. Science Core. Honors version of PHYS 1610. Membership in the Honors College or Departmental approval required. Recommended for Physics majors. Math at the level of MATH 1620 or higher is required as a prerequisite. Physics at the level of PHYS 1600 or higher is expected. Credit will not be given for both PHYS 1510 and PHYS 1610 or PHYS 1617.

PHYS 2100 INTERMEDIATE MECHANICS (3) LEC. 3. Pr. (PHYS 1610 or PHYS 1617) and (P/C MATH 2630 or P/C MATH 2637 or P/C MATH 2633). Principles and applications of Newtonian mechanics, noninertial reference frames, harmonic motion, central forces, rigid bodies, introduction to Lagrangian and Hamiltonian mechanics.

PHYS 2200 INTRODUCTORY QUANTUM PHYSICS AND RELATIVITY (3) LEC. 3. Pr. PHYS 1617 or PHYS 1610. Observational foundations of quantum physics, relativity and developments of several branches of physics up to their present frontiers.

PHYS 2300 PHYSICS LABORATORY SKILLS (3) LEC. 1. LAB. 5. Pr. PHYS 1617 or PHYS 1610. The measurement process and its unavoidable uncertainties; standard laboratory instruments; data analysis techniques and tools.

PHYS 2400 MATHEMATICAL AND COMPUTATIONAL METHODS OF PHYSICS (3) LEC. 3. Pr. (MATH 2630 or MATH 2637) and (PHYS 1610 or PHYS 1617). This course introduces students of physics and related fields to mathematical tools and techniques that are needed later in the physics curriculum. Topics include complex numbers, linear algebra, linear and partial differential equations, Fourier series and integrals, and vector calculus with physical application. Students will be introduced to the Python-based computational toolkits to aid in their problem solving.

PHYS 3100 INTERMEDIATE ELECTRICITY AND MAGNETISM (3) LEC. 3. Pr. (PHYS 1617 or PHYS 1610) and (MATH 2630 or MATH 2637 or MATH 2730). Electrostatics, Magnetostatics, Laplace's equation, boundary-value problems, multipole expansions, dielectric and magnetic materials. Faraday's law, AC circuits, and Maxwell's equations.

PHYS 3200 STATISTICAL THERMODYNAMICS (3) LEC. 3. Pr. PHYS 2200. The basic laws of thermodynamics, kinetic theory, and statistical mechanics including entropy, the partition function, free energy, and the quantum statistics of Fermions and Bosons.

PHYS 3500 PHYSICS OF THE WORLD AROUND US (3) LEC. 3. Interdisciplinary topic e.g. Biophysics, Astrophysics, Physics of Weather, Physics of Music, or Environmental Physics. Course may be repeated for a maximum of 12 credit hours.

PHYS 3610 APPLICATIONS OF MODERN PHYSICS (3) LEC. 3. Pr. PHYS 2200. Survey of contemporary subdisciplines in physics and technology that are based on the principles of quantum mechanics such as atomic/molecular physics, statistical mechanics, condensed matter/material science, astrophysics, nuclear physics, and elementary particle physics.

PHYS 3620 OBSERVATIONAL ASTRONOMY (3) LEC. 3. Pr. PHYS 1600 and (MATH 1620 or MATH 1627). This course will introduce students to astronomy from an observational perspective. Students will first learn about astronomical images and data analysis and discuss the physics of the solar system, stars, galaxies, and the universe. As part of the course, students will collect and analyze astronomical data using departmental telescopes and access publicly available data from facilities to demonstrate astrophysical principles.

PHYS 4100 FUNDAMENTALS OF QUANTUM MECHANICS (3) LEC. 3. Pr. PHYS 2200 and MATH 2650. Schrodinger equation, stationary and time-dependent solutions, spin and the exclusion principle, perturbation theory, scattering and resonances, the interpretation of quantum mechanics.

PHYS 4200 FUNDAMENTAL EXPERIMENTS IN PHYSICS (3) LEC. 1. LAB. 5. Pr. PHYS 2300. Experiments that demonstrate the fundamental ideas and facts of physics. Data will be collected, analyzed, interpreted and reported in comprehensive lab reports.

PHYS 4930 DIRECTED STUDIES IN PHYSICS (1-5) IND. Departmental approval. Student will study a topic of interest under the direction of a faculty member. Course may be repeated for a maximum of 10 credit hours.

PHYS 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

PHYS 4980 UNDERGRADUATE RESEARCH IN PHYSICS (1-5) IND. Departmental approval. Student will work under the direction of a faculty member on a problem of mutual interest. Course may be repeated for a maximum of 10 credit hours.

PHYS 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

PHYS 5100 APPLICATIONS OF QUANTUM MECHANICS (3) LEC. 3. Pr. PHYS 4100. Quantum mechanics applied to atomic physics, solid state physics, nuclear physics, particle physics, electrodynamics, and cosmology.

PHYS 5200 TEACHING AND LEARNING OF STEM (3) LEC. 3. This course will provide students with a basic knowledge of the relevant research in cognitive psychology and learning science and the ability to apply that knowledge to enhance their ability to learn and teach science, particularly at the undergraduate level. This course will involve readings, discussion, and application of the ideas through the creation of learning activities. It is suitable for advanced undergraduates and graduate students with some science background.

PHYS 5300 OPTICS (3) LEC. 2. LAB. 2. Pr. PHYS 1617 or PHYS 1610. An overview of optics to include geometrical optics, electromagnetic waves, interference of light, diffraction of light, optical detectors, instrumentation and displays.

PHYS 5500 FUNDAMENTALS OF PHYSICS (3) LEC. 3. A subject such as Wave Mechanics, Mathematical Physics, Nonlinear Dynamics, Optics, Nuclear Physics, Elementary Particles, Relativity, or Electrodynamics. Course may be repeated for a maximum of 9 credit hours.

PHYS 5600 FRONTIERS OF PHYSICS (3) LEC. 3. A subject from the research areas in the Department such as Solid State, Atomic, Plasma, Space, or Computational Physics will be selected by the lecturer. Course may be repeated for a maximum of 9 credit hours.

PHYS 5610 INTRODUCTION TO SOLID STATE PHYSICS (3) LEC. 3. Lattice vibrations, band description of electronic states in metals, semiconductors and insulators, and magnetic, superconducting and defect properties of solids.

PHYS 5620 SURVEY OF PLASMA PHYSICS (3) LEC. 3. Pr. PHYS 3100. Single particle motions: fluid description of a plasma; plasma waves and oscillations; kinetic description, diffusion, and resistivity; non-linear effects.

PHYS 5900 PHYSICS TEACHING SEMINAR (1) LEC. 1. LAB. 0. SU. Introduction to issues, resources and best practices related to the teaching of physics. Physics undergraduate student or instructor approval required.

PHYS 6100 APPLICATIONS OF QUANTUM MECHANICS (3) LEC. 3. Quantum mechanics applied to atomic physics, solid state physics, nuclear physics, particle physics, electrodynamics, and cosmology.

PHYS 6200 TEACHING AND LEARNING OF STEM (3) LEC. 3. This course will provide students with a basic knowledge of the relevant research in cognitive psychology and science education and the ability to apply that knowledge to enhance their ability to learn and teach science, particularly at the undergraduate level. The course will involve readings, discussion, and application of the ideas through the creation of learning activities. It is suitable for advanced undergraduates and graduate students with some science background. Prerequisite: B.S. in a STEM discipline or 20+ credit hours of STEM coursework.

PHYS 6300 OPTICS (3) LEC. 2. LAB. 2. An overview of optics to include geometrical optics, electromagnetic waves, interference of light, diffraction of light, optical detectors, instrumentation and displays.

PHYS 6500 FUNDAMENTALS OF PHYSICS (3) LEC. 3. A subject such as Wave Mechanics, Mathematical Physics, Nonlinear Dynamics, Optics, Nuclear Physics, Elementary Particles, Relativity, or Electrodynamics. Course may be repeated for a maximum of 9 credit hours.

PHYS 6600 FRONTIERS OF PHYSICS (3) LEC. 3. A subject from the research areas in the Department such as Solid State, Atomic, Plasma, Space, or Computational Physics will be selected by the lecturer. Course may be repeated for a maximum of 9 credit hours.

PHYS 6610 INTRODUCTION TO SOLID STATE PHYSICS (3) LEC. 3. Lattice vibrations, band description of electronic states in metals, semiconductors and insulators, and magnetic, superconducting and defect properties of solids.

PHYS 6620 SURVEY OF PLASMA PHYSICS (3) LEC. 3. Single particle motions: fluid description of a plasma; plasma waves and oscillations; kinetic description, diffusion, and resistivity; non-linear effects.

PHYS 6900 PHYSICS TEACHING SEMINAR (1) LEC. 1. LAB. 0. SU. Graduate Students in Physics or Departmental Approval. Introduction to issues, resources and best practices related to the teaching of physics.

PHYS 7100 CLASSICAL MECHANICS (3) LEC. 3. Lagrangian and Hamiltonian formulations of mechanics, canonical transforms. Hamilton-Jacobi theories, action angle variables, rigid rotators, normal modes, and mechanics of continuous media.

PHYS 7200 ELECTRICITY AND MAGNETISM I (3) LEC. 3. Electrostatics, special function expansions, magnetostatics, linear media and Maxwell's equations.

PHYS 7250 ELECTRICITY AND MAGNETISM II (3) LEC. 3. Time dependent Maxwell theory, wave propagation and dispersion, diffraction, scattering, radiation, relativistic covariance and applications.

PHYS 7300 QUANTUM MECHANICS I (3) LEC. 3. Schrodinger wave equation, discrete and continuous spectra, matrix formulation, perturbation theory.

PHYS 7350 QUANTUM MECHANICS II (3) LEC. 3. Time-dependent approximation methods, relativistic wave equations, and second quantization.

PHYS 7400 STATISTICAL PHYSICS (3) LEC. 3. Thermodynamic quantities, equilibrium ensembles for classical and quantum systems, fluctuations, phase transitions and critical phenomena.

PHYS 7850 GRADUATE PHYSICS RESEARCH SEMINAR (1) LEC. 1. LAB. 0. SU. This course is designed to develop and expand incoming graduate student's knowledge and experience with state-of-the-art research as it is done in the Auburn University Department of Physics.

PHYS 7900 DIRECTED STUDIES (1-5) IND. SU. Student will work with a faculty member to study a topic of interest. Course may be repeated for a maximum of 6 credit hours.

PHYS 7930 DIRECTED STUDIES (1-5) IND. Student will work with a faculty member to study a topic of interest. Course may be repeated for a maximum of 6 credit hours.

PHYS 7950 PHYSICS COLLOQUIUM (1) SEM. SU. Offers a series of talks presented by invited speakers on broad fields of physics. Check with graduate advisor for credit allowed. Course may be repeated for a maximum of 6 credit hours.

PHYS 7970 SPECIAL TOPICS IN PHYSICS (1-5) SEM. Seminar or lecture series in a rapidly advancing specialty of physics. Course may be repeated for a maximum of 6 credit hours.

PHYS 7990 RESEARCH AND THESIS (1-10) MST. May be repeated as often as is appropriate. Course may be repeated with change in topics.

PHYS 8100 RELATIVISTIC QUANTUM MECHANICS (3) LEC. 3. Dirac equation, 1D barrier scattering, 3D central potentials, S-matrix theory, Feynman diagrams, quantum electrodynamics, renormalization, tree and loop level problems.

PHYS 8200 INTRODUCTION TO ATOMIC PHYSICS (3) LEC. 3. Hydrogen atom, Hartree-Fock theory, radiative transitions, photoionization, autoionization, electron-atom scattering.

PHYS 8600 PLASMA PHYSICS (3) LEC. 3. A detailed study of plasma physics including particle orbit theory, magnetohydrodynamics, plasma waves and transport phenomena.

PHYS 8700 SOLID STATE PHYSICS (3) LEC. 3. Atomic and electronic structures of solids and the associated electical, optical and transport properties.

PHYS 8900 DIRECTED STUDIES (1-5) IND. SU. Students will work with a faculty member to study a topic of interest. Course may be repeated for a maximum of 10 credit hours.

PHYS 8930 DIRECTED STUDIES IN ADVANCED PHYSICS (1-5) IND. Student will work with a faculty member to study a topic of interest. Course may be repeated for a maximum of 10 credit hours.

PHYS 8970 SPECIAL TOPICS IN ADVANCED PHYSICS (1-5) LEC. Departmental approval. Topic at the forefront of physics research will be chosen by the lecturer. Course may be repeated for a maximum of 10 credit hours.

PHYS 8990 RESEARCH AND DISSERTATION (1-10) DSR. May be repeated as often as is appropriate. Course may be repeated with change in topics.

Plant Pathology - PLPA

Courses

PLPA 2000 PESTS, PATHOGENS, PARASITES, AND PEOPLE (3) LEC. 3. Past and present problems of pests and disease involving humans and the food chain.

PLPA 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

PLPA 3000 GENERAL PLANT PATHOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Survey of plant diseases common in Alabama, including symptom recognition, pathogen biology and management of plant diseases. Course credit will not be given for both PLPA 3000 and PLPA 3003/3004.

PLPA 4960 SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-3) IND. Departmental approval. Supervised work on a project in plant pathology. Areas of study are: A. Mycology; B. Nematology; C. Virology; D. Bacteriology; E. Extension and Clinic Experience; F. Physiological and Molecular Approaches. Course may be repeated for a maximum of 3 credit hours.

PLPA 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

PLPA 5050 PLANT DISEASE DIAGNOSIS (3) LEC. 1. LAB. 3. Pr. PLPA 3000 or PLPA 3003. Approaches, techniques, and practical experience in diagnosis of plant diseases. Credit will not be given for both PLPA 5050 and PLPA 6050. Summer.

PLPA 5200 MYCOLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Biology of fungi with emphasis on taxonomy, morphology, physiology, genetics, reproduction, and how fungi interact with their ecosystems with an emphasis on plant pathogens. Credit will only be given to one of the following: PLPA 5200 or 6200.

PLPA 5250 MEDICAL AND VETERINARY MYCOLOGY (2) LEC. 2. A systematic survey of fungi and the diseases they cause on humans and animals.

PLPA 5300 PLANT-BACTERIAL INTERACTIONS (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Comprehensive review of plant-bacterial interactions, including colonization, pathogenesis, symbiotic and associative nitrogen fixation, and transformation. Credit will only be given to one of the following: PLPA 5300 or PLPA 6300.

PLPA 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

PLPA 5400 PLANT VIROLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Plant viruses are one of the major pathogens causing problems in plants. This course will cover the fundamentals of plant viruses such as infectious cycle, genome, structure, and evolution. The course will also introduce applied biotechnology based on virus-plant interaction. Credit will only be given to one of the following: PLPA 5400 or PLPA 6400.

PLPA 5500 PLANT NEMATOLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Presentation of nematodes in relation to plant diseases, identification of plant nematodes; nature of pathogenicity; principles and practices of management; recent advances in phytonematology. Credit will only be given to one of the following: PLPA 5500 or PLPA 6500.

PLPA 5600 MOLECULAR PLANT-MICROBE INTERACTIONS (3) LEC. 3. Pr. BIOL 3000. Comprehensive coverage of present advances in plant defense-related metabolic pathways: how to recognize pathogen infections, and activate/potentiate disease resistances. Introduces biochemical, molecular and cellular mechanisms by which plants defend/assimilate themselves towards diverse a/biotic stress stimuli. Credit will only be given for one of the following courses: PLPA 5600 or PLPA 6600.

PLPA 5700 VECTOR ENTOMOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

PLPA 5800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 3000 or AGRI 3000. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

PLPA 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

PLPA 5920 INTERNSHIP (3) IND. 3. SU. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

PLPA 6050 PLANT DISEASE DIAGNOSIS (3) LEC. 1. LAB. 3. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Experience with plant disease diagnosis procedures and the diagnosis of many common plant diseases. Summer.

PLPA 6200 MYCOLOGY (2) LEC. 1. LAB. 2. Biology of fungi with emphasis on taxonomy, morphology, physiology, genetics, reproduction, and how fungi interact with their ecosystems with an emphasis on plant pathogens. Graduate level standing or Departmental approval. Credit will only be given to one of the following: PLPA 5200 or PLPA 6200.

PLPA 6250 MEDICAL AND VETERINARY MYCOLOGY (2) LEC. 2. Pr. BIOL 3200. or prior approval of the instructor. A systematic survey of fungi and the diseases they cause on humans and animals.

PLPA 6300 PLANT-BACTERIAL INTERACTIONS (2) LEC. 1. LAB. 2. Comprehensive review of plant-bacterial interactions, including colonization, pathogenesis, symbiotic and associative nitrogen fixation, and transformation. Credit will only be given to one of the following: PLPA 5300 or PLPA 6300.

PLPA 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

PLPA 6400 PLANT VIROLOGY (2) LEC. 1. LAB. 2. Plant viruses are one of the major pathogens causing problems in plants. This course will cover the fundamentals of plant viruses such as infectious cycle, genome, structure, and evolution. The course will also introduce applied biotechnology based on virus-plant interaction. Credit will only be given to one of the following: PLPA 5400 or PLPA 6400.

PLPA 6500 PLANT NEMATOLOGY (2) LEC. 1. LAB. 2. Presentation of nematodes in relation to plant diseases, identification of plant nematodes; nature of pathogenicity; principles and practices of management; recent advances in phytonematology. Credit will only be given to one of the following: PLPA 5500 or PLPA 6500.

PLPA 6600 MOLECULAR PLANT-MICROBE INTERACTIONS (3) LEC. 3. Comprehensive coverage of present advances in plant defense-related metabolic pathways: how to recognize pathogen infections, and activate/potentiate disease resistances, biochemical, molecular and cellular mechanism by which plants defend/assimilate themselves towards diverse a/biotic stress stimuli. Credit will only be given for one of the following courses: PLPA 5600 or PLPA 6600.

PLPA 6700 VECTOR ENTOMOLOGY (3) LEC. 3. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

PLPA 6800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

PLPA 6820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

PLPA 6920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

PLPA 7080 FIELD SURVEY OF PLANT PATHOLOGY (3) LEC. 1. LAB. 6. Practical aspects of plant diseases under field conditions, on-site visits via field trips; discussion of experimental design for field research. Summer.

PLPA 7860 PLANT DISEASE EPIDEMIOLOGY (2) LEC. 2. Pr. PLPA 3000. Aspects of plant disease epidemiology including disease assessment and temporal progress, pathogen spread, and yield loss determination.

PLPA 7861 PLANT DISEASE EPIDEMIOLOGY LABORATORY (2) LAB. 4. Coreq. PLPA 7860. Quantitative aspects of plant disease epidemiology including spatial and temporal modeling, and disease system simulation.

PLPA 7880 PLANT MICROBIAL ECOLOGY (3) LEC. 3. LAB. 0. Concepts in ecology of plant-associated microbes and their interactions with plants using molecular approaches.

PLPA 7881 PLANT MICROBIAL ECOLOGY LABORATORY (2) LAB. 4. This course will involve hands-on experience with genomic, metagenomic, transcriptomic datasets. Graduate standing in the College of Agriculture/COSAM.

PLPA 7900 DIRECTED STUDIES IN PLANT PATHOLOGY (1-5) LEC. SU. Discussion groups on specific topics, assigned reading on laboratory problems or field research.

PLPA 7910 TEACHING PRACTICUM (1) LAB. 2. SU. Graduate level standing in PLPA or ENTM or Departmental approval. The teaching practicum will address the practical and heretical issues of laboratory learning and facilitating the skills of pedagogy. Course may be repeated for a maximum of 3 credit hours.

PLPA 7930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 2 credit hours.

PLPA 7950 SEMINAR IN PLANT PATHOLOGY (1) SEM. 1. SU. Departmental approval. Seminar presentations on current departmental research and current issues in plant pathology and related disciplines. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

PLPA 7960 SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in plant pathology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

PLPA 7970 SPECIAL TOPICS IN PLANT PATHOLOGY (1-5) ST1. Advanced topics related to plant pathology. Course may be repeated for a maximum of 5 credit hours.

PLPA 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Research and thesis on problems in plant pathology. Course may be repeated with change in topics.

PLPA 8880 MOLECULAR PLANT PATHOLOGY (3) LEC. 2. LAB. 2. Open discussion and article review on current topics and cutting-edge discoveries in the field of molecular plant pathology, covering the cellular mechanisms of plant interactions with, and immune responses against pathogens.

PLPA 8900 DIRECTED STUDIES IN PLANT PATHOLOGY (1-5) LEC. SU. Discussion groups on specific topics, assigned reading on laboratory problems or field research. Course may be repeated for a maximum of 5 credit hours.

PLPA 8910 TEACHING PRACTICUM (1) LAB. 2. SU. Departmental approval. Practical and theoretical issues of laboratory learning, and pedagogical facilitation. Required of all PhD students. Course may be repeated for a maximum of 3 credit hours.

PLPA 8930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 3 credit hours.

PLPA 8950 SEMINAR (1) SEM. 1. SU. Departmental approval. Presentations and discussion of scientific literature or dissertation research findings. Required for al Ph.D. candidates. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

PLPA 8960 ADVANCED SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in plant pathology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

PLPA 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Research and dissertation on problems in plant pathology. Course may be repeated with change in topics.

Political Science - POLI

Courses

POLI 1050 GLOBAL POLITICS AND ISSUES (3) LEC. 3. Examination of current trends toward globalization in institutional development to address world problems.

POLI 1057 HONORS GLOBAL POLITICS AND ISSUES (3) LEC. 3. Pr. Honors College. Examination of current trends toward globalization in institutional development to address world problems.

POLI 1090 AMERICAN GOVERNMENT IN MULTICULTURAL WORLD (3) LEC. 3. Social Science II Core. American political institutions, processes and behavior in comparative context, with special attention to the ways in which cultural and social diversity in the the United States has impacted its politics.

POLI 1097 HONORS AMERICAN GOVERNMENT IN MULTICULTURAL WORLD (3) LEC. 3. Pr. Honors College. Social Science II Core. American political institutions, processes and behavior in comparative context, with special attention to the ways in which cultural and social diversity in the United States has impacted its politics.

POLI 2100 STATE GOVERNMENT AND POLICY (3) LEC. 3. Organization and operation of American state governments, including their relationship to the United States federal system and their role in public policy issues.

POLI 2120 URBANIZATION AND THE CITY (3) LEC. 3. This course introduces students to main themes and problems in the interdisciplinary field of urban studies.

POLI 2300 INTRODUCTION TO THE LEGAL PROFESSION (3) LEC. 3. This course introduces students to various aspects of the legal profession, including its procedural elements, practice areas, and practitioners.

POLI 2310 INTRODUCTION TO LEGAL RESEARCH AND WRITING (3) LEC. 3. Introduction to legal research and writing, including legal databases, legal citation, and basic components of effective legal writing.

POLI 3000 POLITICAL SCIENCE RESEARCH METHODS I (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Introduction to the basic concepts and methodology used in contemporary political analysis.

POLI 3020 INTRODUCTION TO POLITICAL THEORY (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097 or PHIL 1020 or PHIL 1023 or PHIL 1027. Selected major themes in political thought from ancient to modern times.

POLI 3080 MODEL UNITED NATIONS (3) LEC. 3. This course offers an in-depth analysis of the workings of the United Nations. It involves thorough studies of countries, the veto-power of the Security Council, and prepares students to participate in a Model United Nations exercise.

POLI 3090 INTRODUCTION TO INTERNATIONAL RELATIONS (3) LEC. 3. International relations, including a consideration of the bases of national power and the rudiments of international politics.

POLI 3100 INTRODUCTION TO WORLD AFFAIRS (3) LEC. 3. Contemporary international politics and an evaluation of foreign policy objectives and strategies of seven major countries and how their stability as sovereign states are affected.

POLI 3110 NATIONAL SECURITY LAW (3) LEC. 3. This course provides an overview of the law and historic use of U.S. national security power, with emphasis on constitutional issues, federal statutes, regulations, executive orders, and court decisions.

POLI 3120 INTRODUCTION TO COMPARATIVE POLITICS (3) LEC. 3. Methods of classifying governments by institutional and developmental characteristics.

POLI 3130 INTERNATIONAL AND COMPARATIVE LAW (3) LEC. 3. Examination of international law and different legal systems from around the world.

POLI 3140 AMERICAN FOREIGN POLICY (3) LEC. 3. Analysis of the decision-making process of American foreign policy and/or of selected current issues of American foreign policy.

POLI 3160 NATIONAL SECURITY POLICY (3) LEC. 3. Introduction to national security aspects of United States foreign policy.

POLI 3170 RUSSIAN FOREIGN POLICY (3) LEC. 3. Analysis of the decision-making process of Russian foreign policy and/or of selected current issues of Russian foreign policy.

POLI 3180 LATIN AMERICA AND THE UNITED STATES (3) LEC. 3. Analysis of the political, social, and economics aspects of Latin American-United States relations.

POLI 3190 INTERNATIONAL RELATIONS OF THE MIDDLE EAST (3) LEC. 3. Survey of contemporary issues in international relations, focusing on the Middle East.

POLI 3240 ADMINISTRATION OF JUSTICE (3) LEC. 3. Components of the American legal system responsible for administration of public justice.

POLI 3250 INTRODUCTION TO PUBLIC ADMINISTRATION (3) LEC. 3. Pr. P/C POLI 1090 or P/C POLI 1093 or P/C POLI 1097. Administration in the public sector with particular emphasis on public administration as it exists in modern American government. May count either POLI 3250 or POLI 3253.

POLI 3260 ORGANIZATION THEORY (3) LEC. 3. Pr. POLI 3250. Structure and function of governmental organizations with an emphasis on theories of administrative hierarchies and evaluation of bureaucracy.

POLI 3270 POLICY PROCESS (3) LEC. 3. Formulation and implementation of public policy; the roles of the major governmental institutions in policy-making.

POLI 3290 AMERICAN EXECUTIVE POLITICS (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Examination of institutions and processes that impact the elections, decisions, and other outcomes of political actors within state and federal executive offices.

POLI 3300 LAW AND SOCIETY (3) LEC. 3. Introduction to how law and legal actors influence and mediate some of the basic conflicts in society.

POLI 3310 THE LEGISLATIVE PROCESS (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Principles, procedures, and problems of lawmaking in the United States; special attention to Congress and state legislatures.

POLI 3320 JUDICIAL PROCESS (3) LEC. 3. Basic information about the structure and function of courts and the role of judges in all societies, with a special focus on American.

POLI 3330 MOCK TRIAL COMPETITION COURSE (2) LLB. Departmental approval. Preparation for and competition in national mock trial program, including practical study of rules of evidence and trial procedure used in the American judicial system. The course is restricted to students selected for the Auburn University Mock Trial Team. Students should consult with their academic advisors regarding how course credit is applied toward curriculum requirements in their major. Course may be repeated for a maximum of 12 credit hours.

POLI 3340 INTRODUCTION TO CONFLICT RESOLUTION (3) LEC. 3. Methods of conflict resolution at various levels, from the interpersonal to international.

POLI 3350 CONTROVERSIES IN CONSTITUTIONAL LAW (3) LEC. 3. Origins and influence of controversial Supreme Court decisions, in such areas as religion, free speech, privacy, abortion, and criminal justice.

POLI 3360 FEDERAL JURISDICTION (3) LEC. 3. Introduction to the federal court system and Federal Jurisdiction under Article III.

POLI 3370 FEDERAL INDIAN LAW (3) LEC. 3. Introduction to the federal laws governing and regulating the relationship between tribal nations, on the one hand, and the states and federal governments, on the other.

POLI 3380 EVIDENCE AND LEGAL REASONING (3) LEC. 3. Introduction to the rules governing the presentation of evidence at trial.

POLI 3390 RELIGION AND POLITICS (3) LEC. 3. Interaction of religion with governmental institutions, elections, and public policies.

POLI 3400 POLITICAL PARTIES AND INTEREST GROUPS (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Nature, organization and operation of political parties in the United States; suffrage; nominating and electoral processes; importance and nature of interest groups.

POLI 3410 POLITICAL PARTICIPATION (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Political participation in the traditional and unconventional forms and the developing trends in citizen participation in recent years.

POLI 3430 JUSTICE AND SOCIETY (3) LEC. 3. Historical overview of issues affecting legal policy.

POLI 3450 INTERNATIONAL SECURITY (3) LEC. 2.5. Pr. POLI 1050 or POLI 1053 or POLI 1090 or POLI 1093. An overview of the most pressing international security problems today through a lens of how states and other international actors respond to and manage such problems.

POLI 3460 INTERNATIONAL CONFLICT RESOLUTION (3) LEC. 2.5. Pr. POLI 1050 or POLI 1053 or POLI 1090 or POLI 1093. Theories and practice on the management and resolution of international and civil conflict.

POLI 3470 INTERNATIONAL ORGANIZATIONS (3) LEC. 2.5. Pr. POLI 1050 or POLI 1053 or POLI 1090 or POLI 1093. Exploration of various theories of international cooperation and of a wide-range of specific international organizations at the global level (the United Nations system, the World Trade Organization) and at the regional level (like the European Union), with an eye toward insight into the benefits and limitations of international organizations in global politics.

POLI 3510 THE EUROPEAN UNION (3) LEC. 3. Analysis of the complex mixture of historical, economic, and cultural phenomena that comprise the European Union.

POLI 3520 COMPARATIVE POLITICS OF THE MIDDLE EAST (3) LEC. 3. Domestic politics in the states of the Middle East.

POLI 3540 EAST EUROPEAN POLITICS (3) LEC. 3. Survey and analysis of evolving political institutions and policies in eastern and central Europe under Communism and in the post-Communism period.

POLI 3550 GOVERNMENT AND POLITICS OF LATIN AMERICA (3) LEC. 3. Political environment, institutions and processes of Latin America, emphasizing factors that influence the degree of democracy and authoritarianism, stability and instability, and political development.

POLI 3560 THE ARAB SPRING (3) LEC. 3. Examination of the Arab Uprising that began in Tunisia in 2010 and spread to the rest of the region.

POLI 3570 WOMEN AND GLOBAL POLITICS (3) LEC. 2.5. Pr. POLI 1050 or POLI 1053 or POLI 1090 or POLI 1093. Exploration of women and political representation, including why political representation matters, theories of substantive and descriptive representation, political institutions that facilitate or hinder the electoral success of women and other marginalized groups, and the unique strengths and obstacles to women participating in the political process as candidates, constituents, and office holders.

POLI 3580 POLITICS AND CULTURE (3) LEC. 3. Pr. POLI 1050 or POLI 1053 or POLI 1090 or POLI 1093. Analyzes the relationship between politics and culture, both historically and contemporarily. Specific attention is paid to how culture is defined, the politicization of culture, how political activity and behavior are shaped by culturally-specific symbols and meaning, and how culture shapes our understanding of concepts such as the economy, states, class, political participation and social movements.

POLI 3590 THE POLITICS OF NATO (3) AAB. This course is designed to familiarize students with the basic theoretical and practical approaches to understanding the national security and foreign policy components of the relationship between the United States and its allies along the Atlantic Ocean.

POLI 3610 ASIAN POLITICS (3) LEC. 3. Politics of the leading nations in East Asia with major attention being devoted to China, Japan, North and South Korea, and Taiwan.

POLI 3670 POLITICAL ECONOMY (3) LEC. 3. Pr. POLI 1090. Examination of normative issues in political-economic systems. Fulfills political theory requirement.

POLI 3680 ENVIRONMENTAL POLICY (3) SEM. 3. This course covers federal, state, and local environmental policy-making and governance. It discusses how planners, policy-makers, and government officials implement existing environmental policies, how environmental policies are created, theories of environmental policy, and new and emerging methods of environmental policy.

POLI 3710 ISSUES IN AMERICAN POLITICS (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Topics in American politics. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours.

POLI 3720 ISSUES IN COMPARATIVE POLITICS (3) LEC. 3. Topics in comparative politics. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours.

POLI 3730 ISSUES IN INTERNATIONAL RELATIONS (3) LEC. 3. Topics in international relations. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours.

POLI 3750 ISSUES IN PUBLIC ADMINISTRATION (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Topics in public administration. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours.

POLI 3760 ISSUES IN PUBLIC POLICY (3) LEC. 3. Topics in public policy. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours.

POLI 3770 ISSUES IN PUBLIC LAW AND CONFLICT RESOLUTION (3) LEC. 3. Topics in public law and conflict resolution. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours

POLI 3800 PROFESSIONAL LEGAL ETHICS (3) LEC. 3. This course focuses on legal ethics as prescribed within the American professional legal community.

POLI 3810 INTRODUCTION TO TORTS (3) LEC. 3. This course surveys legal doctrines governing responsibility and compensation for civil wrongs that people do to each other (car accidents, medical malpractice, etc.).

POLI 3980 UNDERGRADUATE RESEARCH (1-3) LAB. Pr. POLI 3000. Supplementary learning concurrent with experience political science research. May be repeated twice, with change of topic. Course may be repeated for a maximum of 6 credit hours.

POLI 4000 TRIAL ADVOCACY (3) LEC. 3. This course focuses on trial advocacy in the United States and the constitutional, statutory, and procedural rules that govern it. The course also helps students develop the oral, written, and organizational skills needed to conduct a trial.

POLI 4010 CONSTITUTIONAL LAW: GOVERNMENT POWERS (3) LEC. 3. Constitutional law cases dealing with separation of powers, federalism, and elections.

POLI 4020 CONSTITUTIONAL LAW: CIVIL LIBERTIES (3) LEC. 3. Constitutional law cases dealing with First Amendment freedoms of religion, speech, press, assembly, and association.

POLI 4030 CONSTITUTIONAL LAW: CIVIL RIGHTS (3) LEC. 3. Supreme Court opinions defining gender discrimination, race discrimination, age discrimination, affirmative action, and such right to privacy issues as abortion, marriage, and physician-assisted suicide.

POLI 4040 CONSTITUTIONAL LAW: CRIMINAL JUSTICE (3) LEC. 3. Supreme Court rulings of Fourth, Fifth, Sixth, and Eighth Amendments to the United States Constitution.

POLI 4050 AMERICAN LOCAL GOVERNMENT (3) LEC. 3. Pr. POLI 2100. Structure of local government, the roles and incentives of key elected and appointed officials, and the policy issues faced by those officials.

POLI 4060 ADVANCED LEGAL RESEARCH AND WRITING (3) LEC. 3. Pr. POLI 2310. An advanced approach to case law and statutes, legal research and bibliography, legal analysis, writing legal memoranda, and writing for readability.

POLI 4140 PUBLIC FINANCE (3) LEC. 3. Pr. POLI 3250. Theory and practice of public finance, with an emphasis on applications in state and local government.

POLI 4160 PUBLIC PERSONNEL ADMINISTRATION (3) LEC. 3. Pr. POLI 3250. Responsibilities, challenges, and opportunities that confront modern public administration in the management of human resources.

POLI 4200 CAMPAIGNS AND ELECTIONS (3) LEC. 3. Pr. POLI 1090 or POLI 1093. Examination of the theory and methods of studying elections and general election campaigns, as well as corresponding structural rules, in the United States.

POLI 4340 CONTEMPORARY POLITICAL THEORY (3) LEC. 3. Pr. POLI 3020 or PHIL 1050 or PHIL 1053. Survey of late 20th- and early 21st- century political philosophies, including neo-classicist, post-modernist, communitarian, and critical theories.

POLI 4710 NATIONALISM AND ETHNIC CONFLICT (3) LEC. 2.5. Pr. POLI 1050 or POLI 1053 or POLI 1090 or POLI 1093. This course surveys the politics of ethnicity and nationalism and their effect on conflicts around the globe.

POLI 4720 STRATEGIC INTELLIGENCE (3) LEC. 2.5. Pr. POLI 1050 or POLI 1053 or POLI 1090 or POLI 1093. Examination of the US Intelligence Community and its role in the collection and analysis of intelligence, how this intelligence is used by policymakers in pursuit of national security, and oversight of these powers to prevent abuses.

POLI 4730 ADVANCED POLITICAL SIMULATIONS (3) LEC. 2.5. Pr. POLI 1050 or POLI 1053 or POLI 1057 or POLI 1090 or POLI 1093 or POLI 1097. Exploration of core international relations concepts and processes through the team-based design and execution of a variety of advanced political simulations, games, and/or role-playing activities.

POLI 4740 COMPARATIVE CIVIL-MILITARY RELATIONS (3) LEC. Pr. POLI 1050 or POLI 1057. In-depth examination of the role of the military in different political systems and how governments control and manage relations with their militaries. Topics include the military in democracy, comparative military effectiveness, the military and regime transitions, and in-depth examinations of militaries and their roles in politics in historical great powers.

POLI 4890 LAWJ INTERNSHIP PREPARATION (1) LEC. 1. Pr. POLI 2300. This course prepares students for their Law and Justice internship. Students will learn how to bring the skills they have developed in the classroom into their internship. Pre-requisite for all LAWJ students taking POLI 4920.

POLI 4920 INTERNSHIP (1-6) AAB/INT. SU. Internship in selected areas of political science. Course may be repeated for a maximum of 6 credit hours.

POLI 4930 DIRECTED STUDIES (1-3) AAB/IND. Pr. POLI 1090 or POLI 1093 or POLI 1097. Directed study course in political science that allows students to explore concepts not covered in other courses. Course may be repeated with a change in topic. Course may be repeated with change in topics.

POLI 4940 LAW & JUSTICE INTERNSHIP (3-6) INT. SU. Pr. POLI 2300 and POLI 2310. Departmental approval. Law & Justice (LAWJ-BA) major only. Internship in a law-related setting. 3.0 major GPA required. Course may be repeated for a maximum of 6 credit hours.

POLI 4960 SPECIAL PROBLEMS (1-3) IND. Examination of a specific problem in political science, including topics such as American policies, comparative politics, international relations, political theory, public administration, public policy, public law, and methodology. Course may be repeated with change in topic.

POLI 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. POLI 1090 or POLI 1093 or POLI 1097. Directed readings in political science, including topics such as American politics, comparative politics, international relations, political theory, public administration, public policy, public law, and methodology. Course may be repeated with change in topics.

POLI 4997 HONORS THESIS (1-3) IND. Pr. Honors College. POLI 1090 or POLI 1093 or POLI 1097. Course may be repeated for a maximum of 6 credit hours.

POLI 5150 INTERGOVERNMENTAL RELATIONS AND FEDERALISM (3) LEC. 3. Mid-level introduction to American federalism and the intergovernmental system, including theory, historical developments, major themes and emerging issues. Credit will not be given for both POLI 5150 and POLI 6150.

POLI 5160 RESILIENCY FOR PUBLIC AND NONPROFIT INSTITUTIONS: CONCEPTS AND METHODS (3) LEC. 3. This course is an introduction to theories, concepts, and methods of improving resiliency in nonprofit and public institutions. The course first covers the underlying vulnerabilities to which we apply resiliency and the broad theories and frameworks of resiliency from multiple perspectives. Next, the class covers methods of analyzing the resiliency of nonprofit and public institutions. Finally, the course covers how to apply the outcomes of resiliency analysis in public and nonprofit settings.

POLI 5170 ELECTION LAW (3) LEC. 3. Legal issues surrounding the election process within a democratic political system. Credit will not given for both POLI 5170 and POLI 6170.

POLI 5180 ADMINISTRATIVE LAW (3) LEC. 3. General nature of administrative law; types of administrative action and enforcement; analysis of rule-making and adjudication; administrative due process; judicial review. Credit will not be given for both POLI 5180 and POLI 6180.

POLI 5210 VOTING BEHAVIOR AND REPRESENTATION (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097 or PHIL 1090 or PHIL 1093 or PHIL 1097. Causes of voting and vote choice and their consequences for the behavior of representatives. Credit will not be given for both POLI 5210 and POLI 6210.

POLI 5270 ELECTION ADMINISTRATION (3) LEC. 3. Elections and the shifting relationships among local, state, and federal governments. Credit will not be given for both POLI 5270 and POLI 6270.

POLI 5280 ELECTION ADMINISTRATION REFORM POLICY (3) LEC. 3. Pr. POLI 1090 or POLI 1093. This course provides an advanced undergraduate-level introduction to current election administration reforms through policy and regulation at the national, state and local levels. Credit will not be given for both POLI 5280 and POLI 6280.

POLI 5340 THEORY AND PRACTICE OF MEDIATION (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Theoretical and comparative perspectives on conflict resolution, with emphasis on the role of mediation in various societies. Credit will not be given for both POLI 5340 and POLI 6340.

POLI 5350 NONPROFIT LAW AND GOVERNANCE (3) LEC. 3. Introduction to the legal principles that apply to the governance, and operation of the organizations that constitute the American nonprofit and voluntary sector. Also focuses on nonprofit governance relative to board leadership, development, diversity, effectiveness, and accountability.

POLI 5360 NONPROFIT RESOURCE DEVELOPMENT (3) LEC. 3. Examination of important aspects of the fundraising process as carried out by nonprofit organizations.

POLI 5370 NONPROFIT MANAGEMENT (3) LEC. 3. Comprehensive overview of the complex and diverse nonprofit sector in the United States, including theory and practice of governance and key management functions. Credit will not be given for both POLI 5370, POLI 5373, and POLI 6370.

POLI 5380 INGOS AND INTERNATIONAL ORGANIZATIONS (3) LEC. 3. Examines the size, scope, and role of global civil society, emphasizing organizations active in international development: grassroots NGOs, international nonprofits, and transnational aid agencies. Covers innovations in global philanthropy, and opportunities and challenges faced by global civil society.

POLI 5390 NGOS AND INTERNATIONAL DEVELOPMENT (3) LEC. 3. Examination of theories of development and practical strategies and approaches that NGO development practitioners take to improve the likelihood of development in the future.

POLI 5410 SOUTHERN POLITICS (3) LEC. 3. Introduction to the politics and government of the southern region of the United States. Credit will not be given for both POLI 5410 and POLI 6410.

POLI 5470 COMPARATIVE ELECTION ADMINISTRATION (3) LEC. 3. Pr. POLI 1090 or POLI 1093. This course focuses on comparative election administration systems and electoral structures in western democracies and other countries that use elections in the selection of leaders and policy determinations. Credit will not be given for both POLI 5470 and POLI 6470.

POLI 5480 INFORMATION SECURITY AND RISK MANAGEMENT (3) LEC. 3. Pr. POLI 1090 or POLI 1093. Exploration of the concepts of information in public administration including the idea of public information, risk management and security. Credit will not be given for both POLI 5480 and POLI 6480.

POLI 5490 SURVEY RESEARCH METHODS (3) LEC. 3. Pr. POLI 3000. Examination of theoretical models of survey responses, as well as common approaches and best practices to survey design, recruitment, and analysis.

POLI 5510 ISSUES IN AMERICAN POLITICS (1-3) DSL/LEC. Pr. POLI 1090 or POLI 1093 or POLI 1097. Topics in American politics. Focus will vary according to the instructor. Credit will not be given for both POLI 5510 and POLI 6510. Course may be repeated for a maximum of 6 credit hours.

POLI 5530 ISSUES IN INTERNATIONAL RELATIONS (1-3) AAB/LEC. Topics in international relations. Focus will vary according to the instructor. Credit will not be given for both POLI 5530 and POLI 6530. Course may be repeated for a maximum of 6 credit hours.

POLI 5540 ISSUES IN POLITICAL THEORY (1-3) DSL/LEC. Topics in political theory. Focus will vary according to the instructor. Credit will not be given for both POLI 5540 and POLI 6540. Course may be repeated for a maximum of 6 credit hours.

POLI 5550 ISSUES IN PUBLIC ADMINISTRATION (1-3) DSL/LEC. Topics in public administration. Focus will vary according to the instructor. Credit will not be given for both POLI 5550 and POLI 6550. Course may be repeated for a maximum of 6 credit hours.

POLI 5560 ISSUES IN PUBLIC POLICY (1-3) DSL/LEC. Topics in public policy. Focus will vary according to the instructor. Credit will not be given for both POLI 5560 and POLI 6560. Course may be repeated for a maximum of 6 credit hours.

POLI 5570 ISSUES IN PUBLIC LAW AND CONFLICT RESOLUTION (1-3) DSL/LEC. Topics in public law and conflict resolution. Focus will vary according to the instructor. Credit will not be given for both POLI 5570 and POLI 6570. Course may be repeated for a maximum of 6 credit hours.

POLI 5580 ISSUES IN POLITICAL METHODOLOGY (3) LEC. 3. Pr. POLI 3000. Topics in political methodology. Focus will vary according to the instructor. Credit will not be given for both POLI 5580 and POLI 6580. Course may be repeated for a maximum of 6 credit hours.

POLI 5610 WOMEN IN POLITICS (3) LEC. 3. Examination of the political role of women in American society. Credit will not be given for both POLI 5610 and POLI 6610.

POLI 5710 PERSIAN GULF POLITICS (3) LEC. 3. Pr. POLI 1090 or POLI 1093 or POLI 1097. Examination of the politics of the Persian Gulf. Credit will not be given for both POLI 5710 and POLI 6710.

POLI 6150 INTERGOVERNMENTAL RELATIONS AND FEDERALISM (3) LEC. 3. Graduate level introduction to American federalism and the intergovernmental system, including theory, historical developments, major themes, and emerging issues.

POLI 6160 RESILIENCY FOR PUBLIC AND NONPROFIT INSTITUTIONS: CONCEPTS AND METHODS (3) LEC. 3. This course is an introduction to theories, concepts, and methods of improving resiliency in nonprofit and public institutions.

POLI 6170 ELECTION LAW (3) LEC. 3. Legal issues surrounding the election process within a democratic political system. Credit will not be given for both POLI 5170 and POLI 6170.

POLI 6180 ADMINISTRATIVE LAW (3) LEC. 3. General nature of administrative law; types of administrative action and enforcement; analysis of rule making and adjudication; administrative due process; judicial review. Credit will not be given for both POLI 5180 and POLI 6180.

POLI 6210 VOTING BEHAVIOR AND REPRESENTATION (3) LEC. 3. Causes of voting and vote choice and their consequences for the behavior of representatives. Credit will not be given for both POLI 6210 and POLI 5210.

POLI 6270 SEMINAR IN ELECTION ADMINISTRATION (3) LEC. 3. This course provides a graduate-level introduction to election administration and the roles of, and relationships between American local, state, and federal governments.

POLI 6280 ELECTION ADMINISTRATION REFORM POLICY (3) LEC. 3. This course provides a graduate-level introduction to current election administration reforms through policy and regulation at the national, state and local levels.

POLI 6340 THEORY AND PRACTICE OF MEDIATION (3) LEC. 3. Theoretical and comparative perspective on conflict resolution, with emphasis on the role of mediation in various societies. Credit will not be given for both POLI 6340 and POLI 5340.

POLI 6350 NONPROFIT LAW AND GOVERNANCE (3) LEC. 3. Introduction to the legal principles that apply to the formation, governance, and operation of the organizations that constitute the American nonprofit and voluntary sector. Also focuses on nonprofit governance relative to board leadership, development, diversity, effectiveness, and accountability.

POLI 6360 NONPROFIT RESOURCE DEVELOPMENT (3) LEC. 3. This course examines the important aspects of the fundraising process as carried out by nonprofit organizations—its value base, preparation of the case, implementation of relevant strategies and techniques, assessment of potential sources of support, utilization of human resources, and overall process management. The course will include theory to undergird practice, examination and analysis of current practice, proposal of practice standards, and discussion of ethical problems.

POLI 6370 NONPROFIT MANAGEMENT (3) LEC. 3. Comprehensive overview of the complex and diverse nonprofit sector in the United States, including theory and practice of governance and key management functions. Credit will not be given for both POLI 5370 and POLI 6370.

POLI 6380 INGOS AND INTERNATIONAL ORGANIZATIONS (3) LEC. 3. Examines the size, scope, and role of global civil society outside of the US, with an emphasis on organizations active in international development, including international nonprofits, transnational aid agencies, and unilateral aid.

POLI 6390 NGOS AND INTERNATIONAL DEVELOPMENT (3) LEC. 3. This course combines theories of development, and academic and practitioner research on development, with practical strategies and approaches that NGO development practitioners have, can or should take to improve the likelihood of development in the future. It is intended to provide an overview of past and current approaches to development, which will help students develop knowledge and skills needed for a career in international development. The following questions form the basis of inquiry for this course: When we say “development” in the international context, what do we mean? How can we measure development? How have countries developed in the past, and what strategies can under-developed countries take to increase their level of political and economic development? How have our collective views on “how development happens” changed over time, and where do they stand currently? What role do donors, aid, and NGOs play in development? What do NGO development practitioners need to know in order to do their jobs well? Graduate students only, unless student is enrolled in the MPA's ABM program.

POLI 6410 SOUTHERN POLITICS (3) LEC. 3. Introduction to the politics and to a lesser extent government of the southern region of the United States. Credit will not be given for POLI 5410 and POLI 6410.

POLI 6470 COMPARATIVE ELECTION ADMINISTRATION (3) LEC. 3. This course focuses on comparative election administration systems and electoral structures in western democracies and other countries that use elections in the selection of leaders and policy determinations.

POLI 6480 INFORMATION SECURITY AND RISK MANAGEMENT (3) LEC. 3. Exploration of the concepts of information in public administration including the idea of public information, risk management and security. Credit will not be given for both POLI 5480 and POLI 6480.

POLI 6490 SURVEY RESEARCH METHODS (3) LEC. 3. Pr. POLI 7000. Examination of theoretical models of survey responses, as well as common approaches and best practices to survey design, recruitment, and analysis.

POLI 6510 ISSUES IN AMERICAN POLITICS (1-3) DSL/LEC. Topics in American politics. Focus will vary according to the instructor. Credit will not be given for both POLI 5510 and POLI 6510. Course may be repeated for a maximum of 6 credit hours.

POLI 6520 ISSUES IN COMPARATIVE POLITICS (1-3) DSL/LEC. Topics in comparative politics. Focus will vary according to the instructor. Credit will not be given for both POLI 5520 and POLI 6520. Course may be repeated for a maximum of 6 credit hours.

POLI 6550 ISSUES IN PUBLIC ADMINISTRATION (1-3) DSL/LEC. Topics in public administration. Focus will vary according to the instructor. Credit will not be given for both POLI 5550 and POLI 6550. Course may be repeated for a maximum of 6 credit hours.

POLI 6560 ISSUES IN PUBLIC POLICY (1-3) DSL/LEC. Topics in public policy. Focus will vary according to the instructor. Credit will not be given for both POLI 5560 and POLI 6560. Course may be repeated for a maximum of 6 credit hours.

POLI 6580 ISSUES IN POLITICAL METHODOLOGY (3) LEC. 3. Pr. POLI 7000. Topics in political methodology. Focus will vary according to the instructor. Credit will not be given for both POLI 5580 and POLI 6580. Course may be repeated for a maximum of 6 credit hours.

POLI 6610 WOMEN IN POLITICS (3) LEC. 3. A theoretical, historical, social, and political examination of the role of women in American society. Credit will not be given for both POLI 6610 and POLI 5610.

POLI 7000 RESEARCH METHODS FOR PUBLIC AND NONPROFIT ORGANIZATIONS (3) LEC. 3. Statistics and other quantitative techniques for the analysis of policy and for administrative decision making.

POLI 7050 STATE POLITICS (3) LEC. 3. Current and classical research on state government, politics, and policy. Students critique others' research and design their own for submission to a professional journal.

POLI 7140 FINANCIAL MANAGEMENT FOR PUBLIC AND NONPROFIT ORGANIZATIONS (3) LEC. 3. This course is designed to introduce both practical and theoretical principles utilized in public financial management.

POLI 7150 PUBLIC PERSONNEL ADMINISTRATION (3) LEC. 3. Personnel policies, processes, and politics in American governments, including history, theory, and practice.

POLI 7160 FINANCIAL ADMINISTRATION (3) LEC. 3. Application of macroeconomic theory to public finance, with emphasis on capital budgeting, taxation, user charges, debt administration, cash management, and investment for small governments.

POLI 7260 ORGANIZATIONAL THEORY AND ADMINISTRATIVE BEHAVIOR (3) LEC. 3. Structure and functioning of government organizations, with an emphasis on applied management and on leadership techniques.

POLI 7330 SEMINAR IN ADMINISTRATIVE LEADERSHIP, RESPONSIBILITY, AND DEMOCRATIC GOVERNMENT (3) SEM. 3. Problems and ethics, democratic theory and leadership as they relate to public administration.

POLI 7350 FOUNDATIONS OF PUBLIC ADMINISTRATION AND PUBLIC SERVICE (3) SEM. 3. Introduction to public administration as practiced in the United States.

POLI 7360 FOUNDATIONS OF PUBLIC POLICY (3) DSL/SEM. 3. Formation, execution, and evaluation of public policy and an in-depth analysis of selected policy areas.

POLI 7520 PROGRAM EVALUATION (3) LEC. 3. This course provides a graduate-level focus on the theory and practice of program evaluation in the public sector with attention to program planning, process assessment, and impact assessment.

POLI 7630 DIVERSITY IN PUBLIC LIFE (3) LEC. 3. Developing and institutionalizing diversity in complex public organizations as a major part of organizational culture.

POLI 7700 ECONOMIC DEVELOPMENT AND COMPETITION (3) LEC. 3. Politics of economic development at the local, state, and national levels, especially the infrastructure offered by communities and the types of plans that might attract outside investment.

POLI 7920 MPA INTERNSHIP (3-6) DSL/INT. SU. Administrative experience in a governmental agency or nonprofit organization or participation in an approved public sector research or applied project. Course may be repeated for a maximum of 6 credit hours.

POLI 7930 MPA RESEARCH PROJECT (3-6) DSL/IND. SU. Completion and approval of a paper related to a policy or administrative issue or problem. Course may be repeated for a maximum of 6 credit hours.

POLI 7960 SPECIAL PROBLEMS (1-3) DSL/IND. Directed readings in political science, including topics such as American politics, comparative politics, international relations, political theory, public administration, public policy, public law, and methodology. Course may be repeated with change in topics.

POLI 7970 SPECIAL TOPICS (1-3) LEC. Selected topics in Political Science: 1) American Politics;2) Comparative Politics; 3) International Relations; 4)Political Theory; 5)Public Administration; 6) Public Policy; 7) Public Law; 8) Methodology. Credit will not be given for both POLI 7970 and POLI 4970. Course may be repeated with change in topics.

POLI 7AA0 MPA EPORTFOLIO (0) PR1. SU. The completion of an ePortfolio is required for all students in the Master of Public Administration (MPA) program. The ePortfolio is completed during the final semester of the MPA program. Course may be repeated for a maximum of 10 credit hours.

POLI 7AA1 INTENSIVE ECONOMIC DEVELOPMENT TRAINING COURSE (0) PR1. SU. The completion of week one of the Government and Economic Development Institute (GEDI) Intensive Economic Development Training Course is required for the completion of the Graduate Certificate in Economic Development. The intensive introduces students to all phases of economic development and provides an overview of economic development tools and principles. Course may be repeated with change in topics.

POLI 8000 DOCTORAL SEMINAR IN PUBLIC ADMINISTRATION (3) LEC. 3. Nature of public administration as a field of study and different theoretical perspectives as reflected in current research.

POLI 8010 RESEARCH DESIGN AND ANALYSIS (3) LEC. 3. Development and testing of causal models in political and social science. Students will develop a complex research design under the close supervision of the instructor.

POLI 8020 DOCTORAL SEMINAR IN PUBLIC POLICY (3) SEM. 3. Advanced study of the nature of public policy development and implementation.

POLI 8120 QUALITATIVE RESEARCH METHODS (3) SEM. 3. In-depth analysis of the use of qualitative methods in political science research.

POLI 8130 QUANTITATIVE METHODS (3) LEC. 3. Pr. POLI 8110. In-depth analysis of the use of quantitative methods in political science research.

POLI 8210 SEMINAR IN PROFESSIONAL DEVELOPMENT PART 1 (1) LEC. 1. Departmental approval. This course is the first of a two-part series of classes designed to introduce doctoral students to the academic profession and to provide them with experiences that reflect the types of tasks they will be required to carry out in a research position.

POLI 8220 SEMINAR IN PROFESSIONAL DEVELOPMENT PART 2 (2) LEC. 2. Pr. POLI 8210. Departmental approval. This course is the second in a two-part series of classes designed to introduce doctoral students to the academic profession and to provide them with experiences that reflect the types of tasks they will be required to carry out in a research position.

POLI 8450 COMPARATIVE POLITICS AND PUBLIC POLICY (3) LEC. 3. Theoretical approaches and important sub-field literatures. Applies insights and approaches to solving practical contemporary problems in public policy.

POLI 8650 POLITICAL THEORY AND PUBLIC POLICY (3) LEC. 3. Study of political theory in relation to issues of public policy.

POLI 8970 SPECIAL TOPICS (3) LEC. 3. Directed study of topics of interest. Course may be repeated for a maximum of 9 credit hours.

POLI 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Research related to writing the dissertation. Course may be repeated with change in topics.

Polymer & Fiber Engineering - PFEN

Courses

PFEN 2270 INTRODUCTION TO ENGINEERED FIBROUS MATERIALS (4) LEC. 4. Pr. ENGR 1110 or ENGR 1113. The fundamentals of chemistry and engineering applied to fibrous assemblies illustrated using the properties required by end-use. Topics will include biomedical materials, architectural applications cables, ropes, and tethers, composite materials, filtration fabrics, ballistic protection, and health-care products.

PFEN 3100 FUNDAMENTALS OF POLYMERS (3) LEC. 3. Pr. CHEM 2030 or CHEM 2070 or CHEM 2077. Fundamentals of polymers: terminology, synthesis, structure, molecular weight, transitions of state, structure and uses.

PFEN 3400 FUNDAMENTALS OF COLORATION (4) LEC. 3. LAB. 3. Pr. PFEN 3100. Fundamentals of aqueous chemistry, interfacial processes, interactions of chemicals and fibrous/polymeric materials, color perception and coloration of fiber/polymers.

PFEN 3500 STRUCTURE AND PROPERTIES OF POLYMERS AND FIBERS (3) LEC. 3. Pr. PFEN 3100. Exploration of the relationships between the chemical structure, properties and uses of polymers and fibers. Emphasis on the importance of judicious material selection for particular end use applications. Spring.

PFEN 4100 POLYMER CHARACTERIZATION (4) LEC. 3. LAB. 3. Pr. (PHYS 1610 or PHYS 1617) and (CHEM 2080 or CHEM 2087) and PFEN 3500. Study of the major techniques for the physical characterization of polymers. Topics to be covered include molecular weight determination, spectroscopy (light, vibrational, nuclear magnetic resonance, electron spin resonance), X-ray diffraction, microscopy (light, electron), optical methods, and thermal analysis.

PFEN 4300 ENGINEERED FIBROUS STRUCTURES (4) LEC. 3. LAB. 3. Pr. PFEN 2270. Design and applications of high performance industrial fibrous structures for civil engineering, architecture and construction, filtration, medical, military and defense, pulp and paper industry, safety and protection, sports and recreation, transportation, agriculture and other industries. Fall.

PFEN 4400 MECHANICS OF FLEXIBLE STRUCTURES (3) LEC. 3. Pr. ENGR 2070 and ENGR 2200 and PFEN 2270. Analysis of mechanical behavior and physical properties of flexible structures such as fibers, yarns and fabrics.

PFEN 4500 FIBER REINFORCED MATERIALS (3) LEC. 3. Pr. ENGR 2070 and ENGR 2200 and MATH 2660 and PFEN 2270. Material properties and manufacture of fiber reinforced materials; perform structures such as weaves and braids, analysis, design methodology and applications. Spring.

PFEN 4810 POLYMER AND FIBER ENGINEERING DESIGN I (3) LEC. 3, IND/LEC. 2. Pr. PFEN 3500. Departmental approval. Tools and skills needed to conduct an engineering design project.

PFEN 4820 POLYMER AND FIBER ENGINEERING DESIGN II (3) IND. 3. Undergraduate senior design project, second semester.

PFEN 4970 SPECIAL TOPICS (1-3) AAB. Departmental approval. Reading course with varying emphasis to give opportunity for overview in specific areas of engineering and technology. Course may be repeated for a maximum of 12 credit hours.

PFEN 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. Honors Thesis is a project-based course and may be presented in form of a written report or a conference-style presentation. Course may be repeated for a maximum of 6 credit hours.

PFEN 5200 POLYMER PROCESSING (4) LEC. 3. LAB. 3. Pr. PFEN 2270. Characteristics and flow properties of polymers; film and fiber extrusion, molding technology, polymer material selection and processing. Credit will not be given for both PFEN 5200 and PFEN 6200.

PFEN 5300 RHEOLOGY (3) LEC. 3. Pr. (MATH 2630 or MATH 2637) and ENGR 2200 or MECH 3030. Departmental approval. Covers the most important aspects of elementary modern rheology, including elastic solids, viscoelastic behavior of polymeric systems, composite systems, concentrated solutions and suspension rheology.

PFEN 5510 POLYMER CHEMISTRY (3) LEC. 3. Pr. CHEM 2030 and (ENGR 2050 or ENGR 2053) and (PHYS 1610 or PHYS 1617). Polymer chemistry including polymer synthesis, polymer characterizations, polymer classes, solubility and swelling, and structure/property relationships.

PFEN 6200 POLYMER PROCESSING (4) LEC. 3. LAB. 3. Departmental approval. Characteristics and flow properties of polymers; film and fiber extrusion, molding technology, polymer material selection and processing. Credit will not be given for both PFEN 5200 and FPFEN 6200.

PFEN 6250 ADVANCED ENGINEERING FIBROUS STRUCTURES (3) LEC. 3. Pr. PFEN 4300. Departmental approval. Application of advanced technology to the design, development and analysis of high performance industrial textiles.

PFEN 6510 POLYMER CHEMISTRY (3) LEC. 3. Pr. CHEM 2030 and (ENGR 2050 or ENGR 2053) and (PHYS 1610 or PHYS 1617). Polymer chemistry including polymer synthesis, characterizations, classes, solubility and swelling, and structure/property relationships.

PFEN 7310 STRUCTURE AND PROPERTIES OF POLYMERS (4) LEC. 3. LAB. 3. Pr. CHEM 2080 or CHEM 2087. Departmental approval. The inter-relationships between chemical structure of a polymer, polymer properties and uses. Plastics, elastomers and fibers-synthesis and property requirements.

PFEN 7620 ADVANCED MECHANICS OF FLEXIBLE STRUCTURES (3) LEC. 3. Pr. PFEN 4400. Recent advances in modeling and analysis of mechanical behavior of flexible structures. Spring.

PFEN 7700 ADVANCED METHODS IN POLYMER CHARACTERIZATION (4) LEC. 4. LAB. 3. Pr. PFEN 6510. Departmental approval. Important aspects and methods in polymer characterization.

PFEN 7770 INTRODUCTION TO CONDUCTING POLYMERS (3) LEC. 3. Pr. PFEN 6510. This "Introduction of Conducting Polymers" course covers the most up to date research and applications in the areas of conducting polymers. This course provides extensive background on: mechanism of electrical conductivity of conducting polymers, classification of conducting polymers, potential applications of conducting polymers, and recent advance of the researches in the fields of conducting polymers. For example, organic solar cells, and organic light emitting diodes.

PFEN 7950 GRADUATE SEMINAR (1) SEM. 1. SU. Presentation of departmental research; practicing written and oral communication skills. Course may be repeated with change in topic. Fall.

PFEN 7960 SPECIAL PROBLEMS AND FIBER ENGINEERING (1-3) IND. Specialized project research with varying emphasis in particular areas of polymers and fibers. Course may be repeated for a maximum of 12 credit hours.

PFEN 7970 SPECIAL TOPICS (3) LEC. 3. Analysis of current issues in the area of polymers and fibers. Course may be repeated for a maximum of 12 credit hours.

PFEN 7980 GRADUATE PROJECT (1-3) IND. In-depth work in a particular project in polymers and fibers. Course may be repeated for a maximum of 12 credit hours.

PFEN 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Required of all students seeking an advanced degree in the department. Course may be repeated with change in topics.

PFEN 8990 RESEARCH AND DISSERTATION (1-10) DSR. PhD Research and Dissertation. Course may be repeated with change in topics.

Poultry Science - POUL

Courses

POUL 1000 INTRODUCTORY POULTRY SCIENCE (3) LEC. 3. Introduction to the poultry species and their commercial production, physiology, nutrition, and management.

POUL 2000 POULTRY AND EGG EVALUATION AND SELECTION (1) LAB. 1. A hands-on approach to poultry and egg evaluation based on the U.S. poultry and Egg guidelines and how to properly care for and handle the birds. Spring and Fall. Course may be repeated for a maximum of 4 credit hours.

POUL 2100 PROFESSIONAL DEVELOPMENT FOR ANIMAL AGRICULTURE, PRODUCTION, PROCESSING & FEED INDUSTRIES (1) LEC. 1. Development of professional skills and career preparation for students in animal agriculture.

POUL 3030 COMMERCIAL POULTRY PRODUCTION (4) LEC. 3. LAB. 3. The organization and management principles of the commercial poultry meat and egg production industries. Fall.

POUL 3060 POULTRY REPRODUCTION (3) LEC. 2. LAB. 2. Pr. POUL 3030. This course explores the reproductive physiology and endocrinology of poultry species, emphasizing genetics and management strategies impacting production, fertility, and hatchability in the industry. Students will also learn hatchery management and embryonic development of the chick.

POUL 3150 POULTRY PHYSIOLOGY (4) LEC. 3. LAB. 3. The physiological principles and anatomical characteristics of poultry species which directly interact with commercial management systems. Spring.

POUL 4920 POULTRY SCIENCE INTERNSHIP (3) INT. 3. Departmental approval. Practical on-the-job training in the poultry industry. Course may be repeated for a maximum of 9 credit hours.

POUL 4960 SPECIAL PROBLEMS IN POULTRY SCIENCE (1-3) IND. 2.5 GPA or departmental approval. Individual or group projects with a faculty member in poultry science. May include literary research, data analysis or a combination of these. Course may be repeated for a maximum of 6 credit hours.

POUL 4970 SPECIAL TOPICS IN POULTRY SCIENCE (1-4) LEC. Departmental approval. Instruction and discussion of selected current topics in poultry science. Course may be repeated for 8 hours. Course may be repeated for a maximum of 8 credit hours.

POUL 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

POUL 5020 PRINCIPLES OF ANIMAL FEED MANUFACTURING (3) LEC. 2. LAB. 2. Principles of animal food manufacturing for cattle, swine, poultry, horses, aquaculture, and pet foods with emphasis on current animal food manufacturing practices, current animal food ingredient manufacturing, and current animal food regulatory landscapes. May count either POUL 6020 or POUL 5020.

POUL 5030 ADVANCED COMMERCIAL POULTRY PRODUCTION (3) LEC. 3. Pr. POUL 3030 and POUL 3150 and POUL 5050 and POUL 5110. The course covers the major principles of the integrated poultry industry, including the interactions and interrelationships between business segments in the poultry industry.

POUL 5050 POULTRY FEEDING (3) LEC. 3. Pr. ANSC 3410. The application of the principles of nutrition to poultry; the functions of individual nutrients, their deficiency symptoms and their supply in terms of feedstuffs and practical poultry diets. May count either POUL 5050 and POUL 6050.

POUL 5070 ANIMAL WELFARE (3) LEC. 3. Pr. (POUL 1000 or ANSC 1000) and (POUL 3150 or ANSC 3600). This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, wildlife, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

POUL 5080 POULTRY HEALTH (3) LEC. 3. Pr. BIOL 3200 and POUL 3150. Study of the prevention, diagnosis, control and treatment of economically important diseases of poultry. May count either POUL 5080 or POUL 6080.

POUL 5110 POULTRY PROCESSING (3) LEC. 2. LAB. 3. Pr. POUL 3030 and (CHEM 1110 or CHEM 1030). The course focuses on poultry processing and related aspects. Students will learn the effects of live production, feed withdrawal and haul on poultry processing and quality as well as pre- and post-harvest food safety, USDA regulations, Halal and Kosher standards. May count either POUL 5110 or POUL 6110.

POUL 5140 POULTRY FURTHER PROCESSING AND PRODUCTS (3) LEC. 2. LAB. 3. Pr. CHEM 1110 or CHEM 1030. The course will provide an in-depth understanding of poultry product development, principles and practices, biochemistry, modern technologies used to assess product quality, sensory analysis, food safety as well as USDA regulations associated with poultry products. May count either POUL 5140 or POUL 6140.

POUL 5160 PRINCIPLES OF FOOD SAFETY (3) LEC. 3. Pr. BIOL 3200. Study of the identification and control of physical, chemical, and microbiological hazards in the food industry. Introduction to Hazard Analysis and Critical Control Points (HACCP). May count either POUL 5160 or POUL 6160.

POUL 6020 PRINCIPLES OF ANIMAL FEED MANUFACTURING (3) LEC. 2. LAB. 2. Principles of animal food manufacturing for cattle, swine, poultry, horses, aquaculture, and pet foods with emphasis on current animal food manufacturing practices, current animal food ingredient manufacturing, and current animal food regulatory landscapes. May count either POUL 5020 or POUL 6020.

POUL 6030 ADVANCED COMMERCIAL POULTRY PRODUCTION (3) LEC. 3. The course covers the major principles of the integrated poultry industry, including the interactions and interrelationships between business segments in the poultry industry. Graduate student standing.

POUL 6050 ADVANCED POULTRY FEEDING (3) LEC. 3. An advanced study and review of the literature on the application of the principles of nutrition to poultry; the functions of individual nutrients, their deficiency symptoms and their supply in terms of feedstuffs and practical poultry diets. May count either POUL 5050 or POUL 6050.

POUL 6070 ANIMAL WELFARE (3) LEC. 3. This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, wildlife, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

POUL 6080 ADVANCED POULTRY HEALTH (3) LEC. 3. Departmental approval. An advanced study of the prevention, diagnosis, control and treatment of economically important diseases of poultry. May count either POUL 5080 or POUL 6080.

POUL 6110 POULTRY PROCESSING (3) LEC. 2. LAB. 3. Students will acquire strong knowledge on each step of poultry processing from hanging to chilling and transportation. The course will cover topics on food safety (pre- and post-harvest), spoilage, antimicrobial interventions, USDA regulations as well as Halal and Kosher standards. May count either POUL 5110 or POUL 6110.

POUL 6140 POULTRY FURTHER PROCESSING AND PRODUCTS (3) LEC. 2. LAB. 3. The course will provide an in-depth understanding of poultry product development, principles and practices, biochemistry, modern technologies used to assess product quality, sensory analysis, food safety as well as USDA regulations associated with poultry products. May count either POUL 5140 or POUL 6140.

POUL 6160 ADVANCED PRINCIPLES OF FOOD SAFETY (3) LEC. 3. Advanced study of the identification and control of physical, chemical, and microbiological hazards in the food industry. Introduction to Hazard Analysis and Critical Control Points (HACCP). May count either POUL 5160 or POUL 6160.

POUL 7100 SUPERVISED INVESTIGATION (1-4) IND. Departmental approval. Advanced independent investigation in major field of poultry or avian science. Requirements include review of literature, successful and timely completion of research project, and presentation of results in written and/or oral report. Course may be repeated for a maximum of 8 credit hours.

POUL 7950 GRADUATE SEMINAR (1) SEM. 1. Literature in poultry science, food science or related field. Emphasis given to preparation, organization, and presentation of research materials and to reporting current literature in the field. May count either FDSC 7950 or POUL 7950. Course may be repeated for a maximum of 3 credit hours.

POUL 7960 SPECIAL PROBLEMS IN POULTRY SCIENCE (1-3) IND. Critical analysis of classic and current research in poultry science, including literary research and/or data analysis. Course may be repeated for a maximum of 6 credit hours.

POUL 7970 SPECIAL TOPICS IN POULTRY SCIENCE (1-4) LEC. Instruction and discussion of current advanced topics associated with poultry science. Course may be repeated for a maximum of 8 credit hours.

POUL 7980 NON-THESIS RESEARCH (1-4) RES. Departmental approval. enrolled as POUL MAg student. Research conducted as part of the Master of Agricultural degree.

POUL 7990 RESEARCH AND THESIS (1-10) MST. Technical laboratory problems related to poultry. Course may be repeated with change in topics.

POUL 8100 GI SYSTEMS AND NUTRIENT UTILIZATION (3) LEC. 3. Pr. POUL 5050. Structure of feedstuffs and strategy in nutrient recovery from the gastrointestinal systems of fowl, swine, and ruminants.

POUL 8960 SPECIAL PROBLEMS (1-4) IND. A) Nutrition, B) Physiology, C) Health, D) Microbiology, E) Processing, F) Product Safety and Quality, G) Teaching, H) Immunonutrition. Course may be repeated with change in topic. Departmental approval.

POUL 8990 RESEARCH AND DISSERTATION (1-10) DSR. Technical laboratory problems related to poultry. Course may be repeated with change in topics.

Psychology - PSYC

Courses

PSYC 1010 NEUROSCIENCE SUCCESS STRATEGIES (2) LEC. 2. Introduction to the neuroscience major for new majors. Required of all majors and must be taken in the first year as a neuroscience major. Topics covered will be an overview of the neuroscience curriculum, course selection, faculty introduction, faculty expectations, student assessment, research opportunities, career planning and professional development, critical thinking, diversity, and ethics.

PSYC 2010 INTRODUCTION TO PSYCHOLOGY (3) LEC. 3. Introduction to the various subfields of psychology such as developmental, biological, cognitive, clinical, and social psychology. May count either PSYC 2010 or PSYC 2013.

PSYC 2017 HONORS INTRODUCTION TO PSYCHOLOGY (3) LEC. 3. Pr. Honors College. Introduction to the various subfields of psychology such as developmental, biological, cognitive, clinical, and social psychology.

PSYC 2020 ORIENTATION TO PSYCHOLOGY MAJOR (1) LEC. 1. SU. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Orientation to the psychology major. Overview and design of psychology curriculum, faculty introduction, faculty expectations, student assessment, career development, study skills, diversity, and ethics.

PSYC 2130 ANALYTICS FOR SOCIAL AND BEHAVIORAL SCIENCES (3) LEC. 3. Pr. (MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617 or MATH 1680 or MATH CORE). Introduces students to the cycle of collecting (using surveys and experiments), analyzing (using Excel) and reporting conclusions about psychological and other social and behavioral sciences data. The course provides a critical thinking approach for quantitative argumentation with data.

PSYC 2140 RESEARCH METHODS IN PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2130 or PSYC 2133 or STAT 2510 or STAT 2513) and (PSYC 2017 or PSYC 2013 or PSYC 2010). Investigation of descriptive and experimental methods used in psychological research.

PSYC 2147 HONORS RESEARCH METHODS IN PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2130 or PSYC 2133 or STAT 2510 or STAT 2513) and (PSYC 2017 or PSYC 2013 or PSYC 2010). Investigation of descriptive and experimental methods used in psychological research.

PSYC 2510 PSYCHOLOGY OF SEXUAL BEHAVIOR (3) LEC. 3. Biological, social, and psychological dimensions of human sexuality.

PSYC 3120 DEVELOPMENTAL PSYCHOLOGY (3) LEC. 3. Pr. PSYC 2010 or PSYC 2013 or PSYC 2017. Introduction to physical, cognitive, social and emotional development across the lifespan.

PSYC 3500 APPLIED BEHAVIOR ANALYSIS (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Principles and procedures for management of human behavior. Fall, Spring.

PSYC 3510 BEHAVIORAL NEUROSCIENCE (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Exploration of the relationships between the brain and behavior.

PSYC 3520 PSYCHOLOGY OF LEARNING (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Phenomena involved in the acquisition of knowledge, skills, and patterns of action.

PSYC 3530 SENSATION AND PERCEPTION (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Study of perceptual phenomena and the structure and function of sensory systems.

PSYC 3540 COGNITIVE PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Phenomena involved with thinking and remembering.

PSYC 3550 PSYCHOLOGY AND CULTURE (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Survey of the ways culture shapes, modifies and adds distinctiveness to human behaviors.

PSYC 3560 INTRODUCTION TO PSYCHOPATHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Exploration of our attempts to understand, explain, and classify abnormal behavior patterns.

PSYC 3570 THEORIES OF PERSONALITY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Survey of selected classical and contemporary theories of personality.

PSYC 3580 SOCIAL PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Scientific study of how people think about, influence, and relate to one another.

PSYC 3590 PSYCHOLOGY IN THE WORKPLACE (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Application of basic psychological principles and theories in the workplace. May count either PSYC 3590 or PSYC 3593.

PSYC 3610 SPORTS PSYCHOLOGY (3) SEM. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Inquiry into how motivation, emotion, personality, and other mind-body variables influence physiology and athletic performance. Seminar class includes applied exercises in emotional expression, stress and pain management, hypnosis, and diet and exercise challenges.

PSYC 3620 COGNITIVE NEUROSCIENCE (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Exploration of how mental functions are linked to neural processes to enable the mind.

PSYC 3640 MOTIVATION AND EMOTION (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Overview of historical and contemporary perspectives on human motivation and emotion.

PSYC 3650 DRUGS AND BEHAVIOR (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Introduction to the behavioral effects of drugs, including drug abuse and its treatment.

PSYC 3660 PSYCHOLOGY OF GOOD AND EVIL (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). This class looks at the reasons why humans can act negatively against other people while maintaining a sense of their personal "normalcy".

PSYC 3670 PSYCHOLOGY OF SLEEP (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). This course will cover several topics pertaining to the psychology and physiology of sleep including circadian rhythms, the neuroscience of sleep, how sleep differs across the lifespan and across cultures, sleep quality, and sleep disorders. Students will also gain a deeper understanding of research methods in the field of sleep science and various theories that address why we sleep.

PSYC 3680 PSYCHOLOGY AND LAW (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). How psychological theories and research can inform civil and criminal legal practice, including psychological evaluations, jury selection, and predictions of violent behavior among other possible topics.

PSYC 3690 PSYCHOLOGICAL TRAUMA AND RESILIENCE (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). This course will provide an introduction to the field of trauma psychology, specifically focusing on definition, epidemiology, and consequences of psychological trauma, risk and protective factors for trauma exposure and outcomes, evidence-based trauma prevention and intervention strategies.

PSYC 3710 INTERGROUP PROCESSES: STEREOTYPING, PREJUDICE AND STIGMA (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). In this course, we will examine stereotyping, prejudice and stigma from a Social Psychological perspective. We will cover a wide variety of topics related to intergroup cognition and behavior (e.g., social cognitive approaches to stereotyping, stereotype threat, intergroup prejudice, and avenues to reduce intergroup biases).

PSYC 3910 SUPERVISED RESEARCH EXPERIENCE (3) LEC. 3. SU. Pr., Departmental approval. Supervised experience in research settings. Course may be repeated for a maximum of 6 credit hours.

PSYC 3940 EXPERIENTIAL LEARNING (3) PRA. 3. SU. Pr., Departmental approval. Supplementary instruction concurrent with job or volunteer experience involving the application of psychological perspectives to community life. Course may be repeated for a maximum of 6 credit hours.

PSYC 3970 SPECIAL TOPICS IN PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Theories, research and issues in contemporary psychology on selected topics. Course may be repeated for a maximum of 6 credit hours.

PSYC 4010 CLINICAL PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Introduction to clinical psychology focusing on techniques of assessment and intervention.

PSYC 4080 HEALTH PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Psychological principles in health maintenance and health problems.

PSYC 4220 CHILD PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Child psychology from a life-span developmental perspective, emphasizing social-emotional development in infancy.

PSYC 4260 PSYCHOLOGY OF ADDICTIVE BEHAVIORS (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Overview of various psychological features of addictive behaviors including alcohol and drug abuse, eating disorders, gambling and excessive sexual behavior.

PSYC 4910 HUMAN SERVICE PRACTICUM (3) PRA. 3. SU. Pr., Departmental approval. Supervised experience in service-delivery settings. Course may be repeated for a maximum of 6 credit hours.

PSYC 4930 DIRECTED STUDIES (1-3) IND. Pr., Departmental approval. In-depth study of a psychological topic under the direction of a faculty member. Only 6 credit hours may be applied to the psychology major. Course may be repeated for a maximum of 9 credit hours.

PSYC 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. 2.30 GPA. STAT 2010. Course may be repeated for a maximum of 3 credit hours.

PSYC 4997 HONORS RESEARCH AND THESIS (1-3) IND. Pr. Honors College. STAT 2010. Research in specialized topics. Course may be repeated for a maximum of 6 credit hours.

PSYC 5020 CHILD AND ADOLESCENT PSYCHOPATHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Description, etiology, and treatment of psychological disturbances in children and adolescents.

PSYC 5610 BEHAVIORAL EFFECTS OF ENVIRONMENTAL CONTAMINANTS (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Laboratory, occupational and epidemiological assessment of neurotoxic chemicals; risk analysis; developmental and policy considerations. Coverage includes heavy metals, pesticides, solvents, and abused drugs.

PSYC 5620 NEUROPHARMACOLOGY AND BEHAVIOR (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017) and PSYC 3510. Formerly Drugs, Brain, and Behavior. A review of drugs affecting nervous system function and behavioral or neural mechanisms that modify these effects. Topics include substance abuse, preclinical and clinical psychopharmacology, learning and memory, behavioral mitigation of drug effects. Course meets APA criteria for Level 1. May count either PSYC 5620 or PSYC 6620.

PSYC 5690 ADVANCED ANALYTICS FOR SOCIAL AND BEHAVIORAL SCIENCES (3) LEC. 3. Pr. PSYC 2130. Application and interpretation of quantitative approaches used in social and behavioral sciences. May count PSYC 5960 or PSYC 6960.

PSYC 5960 SEMINAR IN PSYCHOLOGY (3) LEC. 3. Pr. (PSYC 2010 or PSYC 2013 or PSYC 2017). Seminar in research and theory on psychological topics. Course may be repeated with changes in topic. Course may be repeated for a maximum of 6 credit hours.

PSYC 6610 BEHAVIORAL EFFECTS OF ENVIRONMENTAL CONTAMINANTS (3) LEC. 3. Laboratory, occupational, and epidemiological assessment of neurotoxic chemicals; risk analysis; developmental exposures; and policy considerations. Coverage includes heavy metals, pesticides, solvents, and abused drugs.

PSYC 6620 NEUROPHARMACOLOGY AND BEHAVIOR (3) LEC. 3. Formerly Drugs, Brain, and Behavior. Review of drugs affecting nervous system function and behavioral or neural mechanisms that modify these effects. Topics include substance abuse, preclinical and clinical psychopharmacology, learning and memory, behavioral mitigation of drug effects. Course meets APA criteria for Level 1 training in psychopharmacology.

PSYC 6690 ADVANCED ANALYTICS FOR SOCIAL AND BEHAVIORAL SCIENCES (3) LEC. 3. Application and interpretation of quantitative approaches used in social and behavioral sciences. May count either PSYC 5690, PSYC 6690 or PSYC 6696.

PSYC 6960 SPECIAL PROBLEMS (3) LEC. 3. Pr., Departmental approval. Seminar in research and theory on psychological topics. Course may be repeated for a maximum of 18 credit hours.

PSYC 7100 HISTORY OF IDEAS IN PSYCHOLOGY (3) LEC. 3. Historical developments in psychology with emphasis on the major theories and systems.

PSYC 7110 ETHICS AND PROBLEMS OF SCIENTIFIC AND PROFESSIONAL PSYCHOLOGY (1) LEC. 1. Survey of ethical issues and current problems in psychology.

PSYC 7120 TEACHING OF PSYCHOLOGY (3) LEC. 3. Problems and practices of teaching psychology at the college level. In addition to seminar meetings, students work with faculty in appropriate courses.

PSYC 7140 LEARNING AND CONDITIONING (3) LEC. 3. Respondent conditioning and operant behavior, including acquisition of language and other forms of individual and environmental interactions.

PSYC 7150 BIOLOGICAL PSYCHOLOGY (3) LEC. 3. Behavior from a biological perspective, including theory and research from the neurosciences and biopsychology.

PSYC 7160 HUMAN DEVELOPMENT (3) LEC. 3. Introduction to conceptual and substantive issues of developmental psychology from a life-span developmental perspective.

PSYC 7170 THEORIES OF PERSONALITY (3) LEC. 3. Analysis of current issues in personality theory.

PSYC 7180 SOCIAL PSYCHOLOGY (3) LEC. 3. Topics and literature on the social foundations of behavior.

PSYC 7190 COGNITIVE PSYCHOLOGY (3) LEC. 3. Survey of the nature of human intellectual functioning, including pattern recognition, memory, problem solving, reasoning, and language comprehension and generation.

PSYC 7200 ANIMAL COGNITION (3) SEM. 3. Experimental analysis of the mechanisms that underlie animal cognition, including attention, concept formation, counting, language, memory, perception, timing, and problem solving.

PSYC 7220 BEHAVIORAL PRINCIPLES (3) LEC. 3. Concepts and principles of operant and respondent conditioning and their relevance to changing and interpreting human behavior.

PSYC 7230 PSYCHOMETRIC THEORY (3) LEC. 3. Pr. P/C PSYC 7270 and P/C PSYC 7280. Introduction to basic quantitative theory behind the construction and interpretation of test scores and scales.

PSYC 7240 METHODS FOR STUDYING INDIVIDUAL BEHAVIOR (3) LEC. 3. Examination of strategies for measuring individual and environment interaction, using environmental interventions and identifying behavior change and its causes.

PSYC 7250 CLINICAL RESEARCH METHODS AND ETHICS (3) LEC. 3. Introduction to research methods and ethics in clinical psychology, with an emphasis on critical analysis of the scientific literature.

PSYC 7260 ETHICAL AND PROFESSIONAL ISSUES IN BEHAVIOR ANALYSIS (3) LEC. 3. Ethical and professional issues relevant to the practice of applied behavior analysis.

PSYC 7270 EXPERIMENTAL DESIGN IN PSYCHOLOGY (4) LEC. 4. Introduction to the analysis of data collected under various different experimental designs. Credit will not be given for both PSYC 7270 and STAT 7270.

PSYC 7280 EXPERIMENTAL DESIGN IN PSYCHOLOGY II (4) LEC. 3. LAB. 2. Pr. PSYC 7270. and Enrollment in Psychology PhD program. Correlational and regression models. Matrix based multiple and logistic regression, moderation and mediation, and introduction to path models.

PSYC 7310 AUTISM AND INTELLECTUAL DISABILITIES (3) LEC. 3. Survey of the definitions, terms, epidemiology, etiologies, and current issues in autism and intellectual disabilities.

PSYC 7320 CLINICAL PSYCHOPHARMACOLOGY (3) LEC. 3. The basic principles of psychopharmacology with special attention given to drugs used in applied or therapeutic settings, their effects, and their potential interactions with behavioral interventions.

PSYC 7400 COGNITIVE NEUROSCIENCE (3) LEC. 3. Exploring how mental functions are linked to neural processes to enable the mind.

PSYC 7700 FOUNDATIONS IN INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY (3) DSL/SEM. 3. This course is designed to be an advanced survey of the Industrial and Organizational Psychology field.

PSYC 7710 TRAINING AND DEVELOPMENT IN ORGANIZATIONS (3) DSL/SEM. 3. A graduate seminar that focuses on critical conceptual and empirical issues facing training and development in the workplace.

PSYC 7720 PERSONNEL SELECTION (3) DSL/SEM. 3. Analysis of classical, contemporary, theoretical, and practical issues related to personnel selection. May count either PSYC 7720, PSYC 7726, PSYC 8720 or PSYC 8726.

PSYC 7730 RESEARCH METHODS IN INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY (3) DSL/SEM. 3. An overview of basic research methodology applicable to the investigation of organizational phenomena.

PSYC 7740 ORGANIZATIONAL CULTURE (3) SEM. 3. Gain an understanding of organizational culture and provides the context in which organizational behavior may be understood.

PSYC 7750 ETHICS AND PROFESSIONAL ISSUES IN INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY (3) DSL/SEM. 3. An introduction to issues faced in professional practice and importance of ethical behavior in the practice of Industrial/Organizational Psychology.

PSYC 7760 OCCUPATIONAL HEALTH PSYCHOLOGY (3) DSL/SEM. 3. Occupational health psychology (OHP) is an emerging interdisciplinary field concerned with psychological factors in employee health, safety, and well-being.

PSYC 7780 WORK MOTIVATION (3) SEM. 3. Analysis of historical and contemporary theories of work motivation and related research.

PSYC 7790 WORKFORCE MANAGEMENT (3) SEM. 3. A comprehensive course that explores the principles and practices of human resource management within organizational settings, emphasizing the application of psychological theories to enhance employee well-being and organizational effectiveness. Students will learn about talent acquisition, development, compensation, and strategic HR planning through a psychological lens.

PSYC 7800 LEADERSHIP (3) SEM. 3. Analysis of historical and contemporary theories of leadership and related research.

PSYC 7910 PRACTICUM IN APPLIED PSYCHOLOGY (1-10) DSL/PRA. Supervised practicum in applied psychology. A maximum of 12 hours will apply toward degree. Department approval. Course may be repeated for a maximum of 30 credit hours.

PSYC 7930 DIRECTED STUDIES (1-3) DSL/IND. Pr., Departmental approval. Work under the direction of a faculty member on a psychological topic of mutual interest. No more than 3 hours count toward major. Course may be repeated for a maximum of 9 credit hours.

PSYC 7970 RESEARCH IN SPECIAL TOPICS (3) IND. 3. Pr., Departmental approval. Supervised scholarly activity related to student's field of study. Course may be repeated with change in topics.

PSYC 7980 APPLIED BEHAVIOR ANALYSIS CAPSTONE PROJECT (1-10) DSL/PRA. Pr., Departmental approval. Supervised practicum in applied psychology behavior analysis project involving delivery of services to a consumer. Maximum of 6 credit hours will count toward degree. Course may be repeated for a maximum of 30 credit hours.

PSYC 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Pr., Course may be repeated with change in topics.

PSYC 8180 ADVANCED SOCIAL PSYCHOLOGY (3) LEC. 3. Pr. PSYC 7180. Departmental approval. Theories, research and issues in contemporary social psychology.

PSYC 8240 STRUCTURAL EQUATION MODELING FOR APPLIED RESEARCHERS (3) LEC. 3. This course is to provide an overview and introduction to the use of structural equation modeling in applied research, utilizing Mplus software. This course will be taught from an applied and pragmatic perspective. There will be a particular focus on data analytic issues that are especially relevant to clinical researchers.

PSYC 8250 MULTIVARIATE METHODS (4) LEC. 3. LAB. 2. Pr. PSYC 7270 and PSYC 7280. Introduction to the theory behind multivariate analyses and the statistical programs that support them.

PSYC 8270 FACTOR ANALYSIS (3) SEM. 3. Theoretical and statistical applications of exploratory and confirmatory factor analysis.

PSYC 8280 META-ANALYSIS (3) DSL/SEM. 3. Meta-analysis is a quantitative analysis using techniques to analyze and integrate effect sizes that accrue from research studies.

PSYC 8300 DEVELOPMENTAL PSYCHOPATHOLOGY (3) LEC. 3. Introduction to contemporary concepts, constructs, and controversies in developmental psychopathology.

PSYC 8310 INTRODUCTION TO CLINICAL METHODS AND ETHICS (3) LEC. 3. Enrollment in Clinical Psychology Program. Interviewing introduction to interviewing skills, behavioral assessment, crisis intervention, professional and ethical issues in providing clinical services.

PSYC 8330 COGNITIVE BEHAVIOR THERAPY (3) LEC. 3. Conceptual and applied issues related to behavioral principles of assessment and treatment.

PSYC 8350 APPLIED PSYCHOMETRIC PRINCIPLES (3) LEC. 3. Analysis of classical and modern test theory, with an emphasis on applied psychometric principles.

PSYC 8360 ASSESSMENT OF COGNITIVE ABILITIES AND ACHIEVEMENT (3) LEC. 2. LAB. 2. Theories and techniques for the assessment of cognitive abilities and academic achievement.

PSYC 8370 FOUNDATIONS OF PSYCHOLOGICAL ASSESSMENT (3) LEC. 3. Enrollment in Clinical Psychology program. Measurement theory and introduction to widely used objective personality and behavioral checklists with attention to ethics and diversity.

PSYC 8460 ASSESSMENT AND TREATMENT OF ALCOHOL AND DRUG PROBLEMS (3) LEC. 3. Pr., Departmental approval. Conceptual and empirical bases of clinical assessment and intervention for alcohol and drug problems.

PSYC 8500 COGNITIVE AND BEHAVIORAL SCIENCES SEMINAR (1) SEM. 1. SU. Pr., Enrollment in Cognitive and Behavioral Sciences PhD program. Examination of professional preparation issues and recent scientific developments relevant to careers in the cognitive and behavioral sciences. Course may be repeated for a maximum of 3 credit hours.

PSYC 8510 CONTEXT AND CONSEQUENCES OF BEHAVIOR (3) LEC. 3. Pr. PSYC 7140. Advanced survey of the role that consequences play in acquisition, maintenance, and structure of behavior, and the methods by which this role is studied.

PSYC 8540 BEHAVIORISM (3) LEC. 3. Exploration of the philosophical and theoretical underpinnings of behavior analysis.

PSYC 8550 APPLIED BEHAVIOR ANALYSIS (3) LEC. 3. Pr. PSYC 7140. and Departmental approval. Scientific and conceptual foundations of applied behavior analysis and its strategies of intervention and evaluation.

PSYC 8570 APPLIED BEHAVIOR ANALYSIS 2 (3) LEC. 3. Applications of behavioral principles to the assessment and treatment of problem behavior.

PSYC 8700 ADVANCED INDUSTRIAL PSYCHOLOGY (3) LEC. 3. Analysis of methods and content of industrial psychology.

PSYC 8710 ADVANCED ORGANIZATIONAL PSYCHOLOGY (3) LEC. 3. Departmental approval. Analysis of major issues in organizational psychology.

PSYC 8730 PERFORMANCE APPRAISAL (3) LEC. 3. Analysis of classical, contemporary, theoretical, and practical issues related to the appraisal of employee work performance.

PSYC 8760 DECISION MAKING IN THE WORKPLACE AND ORGANIZATIONS (3) SEM. 3. The application of behavioral decision theory and research to problems in Industrial/Organizational Psychology.

PSYC 8770 ORGANIZATIONAL CHANGE (3) DSL/SEM. 3. A conceptual overview of organizational change and organizational transformation and related specific topics.

PSYC 8780 WORK AND FAMILY (3) SEM. 3. A survey of research and theory in work and family, a content area of organizational psychology.

PSYC 8790 SEMINAR IN INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY (1) SEM. 1. SU. Examination of professional preparation issues and recent scientific developments relevant to careers in Industrial and Organizational Psychology. Enrollment in the Industrial and Organizational Psychology PhD program. Course may be repeated for a maximum of 3 credit hours.

PSYC 8910 CLINICAL PRACTICUM (1-4) DSL/PRA. Supervised practicum experience in clinical assessment and intervention techniques. Course may be repeated for a maximum of 30 credit hours, with 24 counting toward the degree.

PSYC 8920 INTERNSHIP (0) INT. Pr., PhD candidacy. Enrollment in full-time APA-approved 1-year pre-doctoral internship required for the PhD in Clinical Psychology. Student may not enroll in other course work.

PSYC 8930 DIRECTED STUDIES IN PSYCHOLOGY (3) IND. Pr., Approved PhD plan of study. Review of literature leading to the writing and defense of the Major Area Paper (written portion of the general PhD examination). Course may be repeated for a maximum of 9 credit hours.

PSYC 8970 SPECIAL TOPICS (1-3) DSL. Departmental approval. In-depth study of issues related to selected specializations in psychology. Course may be repeated for a maximum of 18 credit hours.

PSYC 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Pr., Course may be repeated for a maximum of 98 credit hours.

Public and One Health - PAOH

Courses

PAOH 2100 INTRODUCTION TO PUBLIC HEALTH (3) LEC. 3. Public Health is the science of preventing disease and promoting health in populations through research, policy development, education, provision of health services, and response to disease outbreaks. This course provides an overview of foundational concepts in public health and One Health, featuring lectures by the primary instructor and guest experts on a variety of topics.

PAOH 2107 HONORS INTRODUCTION TO PUBLIC HEALTH (3) LEC. 3. Pr. Honors College. Public Health is the science of preventing disease and promoting health in populations through research, policy development, education, provision of health services, and response to disease outbreaks. This course provides an overview of foundational concepts in public health and One Health, featuring lectures by the primary instructor and guest experts on a variety of topics. Students will attend the same lectures as PAOH 2100 as well as a small number of additional honors meetings.

PAOH 3010 INTRODUCTION TO EPIDEMIOLOGY (3) LEC. 3. Epidemiology is the study of the distribution, determinants, and dynamics of disease or health events in a population. This course introduces the basic principles and methods of epidemiology with an emphasis on prevention and control of diseases of humans and other animals.

PAOH 3017 HONORS INTRODUCTION TO EPIDEMIOLOGY (3) LEC. 3. Pr. Honors College. Epidemiology is the study of the distribution, determinants, and dynamics of disease or health events in a population. This course introduces the basic principles and methods of epidemiology with an emphasis on prevention and control of diseases of humans and other animals. Students will attend the same lectures as PAOH 3010 as well as a small number of additional honors meetings.

PAOH 4830 GLOBAL AND COMPARATIVE HEALTH SYSTEMS (3) LEC. 3. Departmental approval. Different national approaches to providing health care for the population will be compared to the US system.

PAOH 4837 HONORS GLOBAL AND COMPARATIVE HEALTH SYSTEMS (3) LEC. 3. Pr. Honors College. Departmental approval. Different national approaches to providing health care for the population will be compared to the US system.

PAOH 4910 OBSERVING NEEDS IN PUBLIC HEALTH (3) LEC. 3. Through volunteer service to an agency or organization addressing public health needs, students will develop an understanding of the importance for volunteers to support community needs. Additionally, there will be lectures and class discussions on various topics addressing needs of underserved populations.

PAOH 4920 INTERNSHIP IN PUBLIC & ONE HEALTH (1-6) INT. Departmental approval. Application of concepts and skills in public health or One Health in a professional internship experience. Course may be repeated for a maximum of 6 credit hours.

PAOH 4970 SPECIAL TOPICS IN PUBLIC & ONE HEALTH (1-4) LEC. 1-4. Topics of special interest in Public and One Health. May be repeated with change of topic. Course may be repeated for a maximum of 8 credit hours.

PAOH 4980 UNDERGRADUATE RESEARCH IN PUBLIC & ONE HEALTH (1-3) RES. Departmental approval. Directed, supervised undergraduate research in public health, health, or One Health. Course may be repeated for a maximum of 9 credit hours.

PAOH 5100 ZOONOSES AND INFECTIOUS DISEASES (3) LEC. 3. Pr. BIOL 3200. This course presents a comparative approach to infectious disease in humans and animals, while specifically highlighting zoonoses (diseases shared between humans and animals). Students will learn infectious disease epidemiologic concepts, as well as delve into foodborne, vaccine-preventable, sexually transmitted, and vector-transmitted pathogens, as well as common systems-associated infections in both animals and humans.

PAOH 5200 PROGRAM PLANNING AND THEORIES OF HEALTH PROMOTION (3) LEC. 3. This course provides the fundamentals of health promotion and behavior, including theories of change in health behavior and program implementation (planning, marketing, assessment, evaluation). By the end of the course, students should be equipped to initiate a program implementation aimed at improving health.

PAOH 5400 ENVIRONMENTAL HEALTH (3) LEC. 3. Environmental Health serves as an introduction to the effects and regulation of chemical, physical and biological factors in the environment that affect the health of individuals, communities, and ecosystems.

PAOH 5950 ONE HEALTH SEMINAR (2) LEC. 2. This course will explore public health topics relevant to populations of humans, animals, and the environment through guest seminars, large and small group discussion, and student presentations.

PAOH 6100 ZOONOSES AND INFECTIOUS DISEASES (3) LEC. 3. Pr. BIOL 3200. This course presents a comparative approach to infectious disease in humans and animals, while specifically highlighting zoonoses (diseases shared between humans and animals). Students will learn infectious disease epidemiologic concepts, as well as delve into foodborne, vaccine-preventable, sexually transmitted, and vector-transmitted pathogens, as well as common systems-associated infections in both animals and humans.

PAOH 6200 PROGRAM PLANNING AND THEORIES OF HEALTH PROMOTION (3) LEC. 3. This course provides the fundamentals of health promotion and behavior, including theories of change in health behavior and program implementation (planning, marketing, assessment, evaluation). By the end of the course, students should be equipped to initiate a program implementation aimed at improving health.

PAOH 6400 ENVIRONMENTAL HEALTH (3) LEC. 3. Environmental Health serves as an introduction to the effects and regulation of chemical, physical and biological factors in the environment that affect the health of individuals, communities, and ecosystems.

PAOH 6950 ONE HEALTH SEMINAR (2) LEC. 2. This course will explore public health topics relevant to populations of humans, animals, and the environment through guest seminars, large and small group discussion, and student presentations.

Public Relations Communication - PRCM

Courses

PRCM 1000 PR AND MEDIA RELATIONS FUNDAMENTALS (3) DSL/LEC. Introduction to the public relations discipline, including its history, theory, ethics and its relationship to media relations, with an emphasis on developing fundamental public relations writing skills.

PRCM 2400 FOUNDATIONS OF PUBLIC RELATIONS (3) LEC. 3. This course is designed to be an overview of the functions, practices and growing application of public relations in both private industry and the public sector.

PRCM 2500 PUBLIC RELATIONS CASE STUDIES & ETHICS (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. This is a course designed to provide Public Relations students with an understanding of both effective and ineffective methods of PR through studying actual cases from the field itself with special attention given to the ethical aspect of decision making.

PRCM 3000 MULTIMEDIA WRITING FOR PUBLIC RELATIONS (3) LEC. 3. Pr. (JRNL 1100 or JRNL 1103 or PRCM 1000 or JRNL 1000 or JRNL 1AA0) and (PRCM 2500 or PRCM 2503) and (CMJN 2100 or CMJN 2103) and (PRCM 2400 or PRCM 2403). PRCM or AGCO major only. This course will have an emphasis on communication tactics; plan, write and produce public relations tools; audience and media selection; print and electronic media.

PRCM 3080 INTERNATIONAL PUBLIC RELATIONS (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Exploration of public relations theory, research, and practice in an international context.

PRCM 3090 PUBLIC RELATIONS IN POLITICAL PROCESSES (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Surveys of the intersection of politics and public relations, emphasizing theoretical and practical principles in political processes.

PRCM 3260 STRATEGIC COMMUNICATION IN PUBLIC RELATIONS (3) LEC. 3. Pr. (JRNL 1100 or PRCM 1000 or JRNL 1103 or JRNL 1000 or JRNL 1AA0) and (CMJN 2100 or CMJN 2103) and (PRCM 2400 or PRCM 2403). PRCM or AGCO majors only. Framework for the strategy and integration of messages within public relations.

PRCM 3270 PUBLIC RELATIONS IN THE NOT-FOR-PROFIT ARENA (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Nonprofit organizations and foundations and the role of public relations within those organizations.

PRCM 3280 SOCIAL MEDIA AND PUBLIC RELATIONS (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (JRNL 1100 or JRNL 1103 or PRCM 1000 or JRNL 1000 or JRNL 1AA0) and (PRCM 2400 or PRCM 2403 or PRCM 3040 or PRCM 3043) and (PRCM 2500 or PRCM 2503). Declared major in AGCO or PRCM. Examination of how new social media impact public relations strategies.

PRCM 3450 DIGITAL MEDIA ANALYTICS (3) LEC. 3. Pr. (PRCM 2400 or PRCM 2403). This course prepares students with essential skills and knowledge to understand the power of digital media analytics in today's digital landscape.

PRCM 4020 DIGITAL STYLE AND DESIGN IN PUBLIC RELATIONS MESSAGES (3) LEC. 3. Pr. (JRNL 1100 or JRNL 1103 or PRCM 1000 or JRNL 1000 or JRNL 1AA0) and (CMJN 2100 or CMJN 2103) and (PRCM 2400 or PRCM 2403) and (PRCM 2500 or PRCM 2503). PRCM or AGCO major only. Introduction to the use of style and design in public relations messages. Departmental approval or Declared major in AGCO or PRCM.

PRCM 4400 PUBLIC RELATIONS RESEARCH (3) LEC. 3. Pr. (JRNL 1100 or JRNL 1103 or PRCM 1000 or JRNL 1000 or JRNL 1AA0) and (CMJN 2100 or CMJN 2103) and (PRCM 2500 or PRCM 2503) and (PRCM 2400 or PRCM 2403). PRCM or AGCO major only. Identifying, characterizing and evaluating stakeholder groups and alternative channels of communication; formal research procedures including sampling, instrument design, information gathering, data processing, analysis and reporting.

PRCM 4500 PUBLIC RELATIONS CAMPAIGNS (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and (JRNL 1100 or JRNL 1103 or PRCM 1000 or JRNL 1000 or JRNL 1AA0) and (PRCM 2500 or PRCM 2503) and (PRCM 2400 or PRCM 2403) and PRCM 3000 and PRCM 4400. Application of theory, research data, and problem-solving techniques in the development of comprehensive public relations strategies.

PRCM 4920 INTERNSHIP (3) AAB/INT. 200. Pr. (CMJN 2100 or CMJN 2103) and (PRCM 2400 or PRCM 2403) and (PRCM 3000 or PRCM 3003). Opportunity to apply classroom experience in career setting. Internship must be a supervised, closely monitored work experience, appropriate to the major, that takes place in a professional setting.

PRCM 4930 DIRECTED STUDIES IN PUBLIC RELATIONS (3) LEC. 3. Pr. (JRNL 1100 or JRNL 1103 or PRCM 1000 or JRNL 1000 or JRNL 1AA0) and (CMJN 2100 or CMJN 2103) and (PRCM 3040 or PRCM 3043 or PRCM 2400 or PRCM 2403). Independent Study on a specific topic of interest not already addressed in any regular PRCM course.

PRCM 4970 SPECIAL TOPICS IN PUBLIC RELATIONS (3) LEC. 3. Pr. (PRCM 2500 or PRCM 2503). Focus on narrowly defined PRCM topics not already covered in the current PRCM curriculum. Course may be repeated with a change in topic. Course may be repeated for a maximum of 6 credit hours.

Reading Education - CTRD

Courses

CTRD 3000 FOUNDATIONS OF LANGUAGE AND LITERACY INSTRUCTION I (3) LEC. 3. LAB. 0, LEC. 0. Research-based theory and teaching strategies to meet the language and literacy needs of all children, especially those at risk of reading difficulties. Includes a practicum teaching experience.

CTRD 3001 PRACTICUM IN FOUND OF LANG LITERACY INSTRUCTION I (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTRD 3000. Admission to Teacher Education. This course is designed to provide 15 clock hours of teaching and experiences in Literacy Instruction in K-3 It is an intensive, interactive experience at a strategically selected school site.

CTRD 3010 FOUNDATIONS OF LANGUAGE AND LITERACY INSTRUCTION II (3) LEC. 3. LAB. 0, LEC. 0. Provides a scientifically based reading research foundation essential for understanding student reading development and informing explicit, systematic instruction in the core aspects of reading. Topics include understanding reading research, cognitive processes involved in reading, language development, and effective reading instruction and assessment for students in PK-6. Additionally, the course emphasizes the theoretical foundations of literacy development in children and its implications for teaching. Includes a practicum teaching experience.

CTRD 3011 PRACTICUM IN FOUND OF LANG LITERACY INSTRUCTION II (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTRD 3010. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Language and Literacy Instruction II in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTRD 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent reading, research, or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTRD 5000 LANGUAGE AND LITERACY IN THE CONTENT AREAS (3) LEC. 3. LAB. 0. Strategies to help fluent readers and English language learners learn content in the disciplines by strategic reading of texts. May count either CTRD 5000, CTRD 5003, CTRD 6000, or CTRD 6006.

CTRD 5030 THE READING OF ADOLESCENTS (3) LEC. 3. Admission to Teacher Education. Reading patterns of adolescents and uses of young adult literature in reading and English language arts programs, grades 6-12.

CTRD 5700 DEVELOPMENTAL READING K-12 (3) LEC. 3. Admission to Teacher Education. Theoretical and research foundations for a balanced approach to reading assessment and instruction, K-12. May count CTRD 5700, CTRD 6700, or CTRD 6706.

CTRD 6000 LANGUAGE AND LITERACY IN THE CONTENT AREAS (3) LEC. 3. Strategies to help fluent readers and English language learners learn content in the disciplines by strategic reading of texts. May count either CTRD 5000, CTRD 5003, CTRD 6000, or CTRD 6006.

CTRD 6030 THE READING OF ADOLESCENTS (3) LEC. 3. Reading patterns of adolescents and uses of young adult literature in reading and English language arts programs, grades 6-12.

CTRD 6700 DEVELOPMENTAL READING K-12 (3) LEC. 3. Theoretical and research foundations for a balanced approach to reading assessment and instruction, K-12. May count CTRD 5700, CTRD 6700, or CTRD 6706.

CTRD 6710 LITERACY AND INQUIRY IN THE CONTENT AREAS: GRADES 6-12 (3) LEC. 3. Strategies to enhance literacy and inquiry for students' content-area learning in the middle and secondary school. May count CTRD 5710, CTRD 6710, or CTRD 6716.

CTRD 7400 ASSESSMENT AND INSTRUCTION FOR READING INTERVENTION (3) LEC. 3. Research-based analysis of causal factors in reading difficulties, assessment strategies, and effective teaching with delayed readers. Includes practicum.

CTRD 7510 RESEARCH STUDIES IN READING EDUCATION (3) DSL/RES. 3. Review, analysis, and interpretation of available research with emphasis on designing new research to meet the changing needs of the school.

CTRD 7520 CURRICULUM AND TEACHING IN READING EDUCATION (3) LEC. 3. Teaching practices and reappraisal of selected experiences and content for curriculum improvement.

CTRD 7530 ORGANIZATION OF PROGRAM IN READING EDUCATION (3) LEC. 3. Program, organization, and development of basic and supplementary materials for guiding teachers, faculties, and school systems in the continuous improvement of curriculum and teaching practices.

CTRD 7540 EVALUATION OF PROGRAM IN READING EDUCATION (3) LEC. 3. Evaluation and investigation of teaching effectiveness with attention to the utilization of human and material resources and the coordination of areas of specialization.

CTRD 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives related to respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTRD 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTRD 7920 CLINICAL RESIDENCY (1-9) DRD. SU. Supervised on-the-job experiences in a school, college or other appropriate setting, accompanied by regularly scheduled, on-campus discussion periods. Departmental approval. May count either CTRD 7920 or CTRD 7926. Course may be repeated for a maximum of 9 credit hours.

CTRD 7970 SPECIAL TOPICS (1-6) LEC. Departmental approval. Provides an opportunity for graduate students and professors to pursue cooperatively selected topics. Course may be repeated for a maximum of 6 credit hours.

CTRD 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topic.

CTRD 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTRD 8980 FIELD PROJECT (1-10) FLD. SU. Course may be repeated for a maximum of 10 credit hours.

CTRD 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

Real Estate Development - RDEV

Courses

RDEV 7120 FIELD STUDIES (1-3) LEC. 1-3. This course provides students with the opportunity to visit real estate development firms and ongoing projects. Course may be repeated for a maximum of 6 credit hours.

RDEV 7130 PRINCIPLES OF REAL ESTATE DEVELOPMENT (3) LEC. 3. An introduction to theory and practice as applied to fundamental topics in real property law, real estate markets, valuation, investment analysis and property financing as they effect various topics in real estate development.

RDEV 7140 REAL PROPERTY ANALYSIS (3) LEC. 3. This is a case study course, providing an overview of key concepts in real estate development and real property analysis.

RDEV 7230 REAL ESTATE MARKET ANALYSIS (3) LEC. 3. This class will provide concentrated study in real estate markets. Critical components of the course will include the study of the link between the Property and Asset Markets.

RDEV 7240 BUILDING DESIGN AND CONSTRUCTION PRINCIPLES (3) LEC. 3. This course will illustrate some of the building design and construction principles that real estate development professions engage in their practice every day.

RDEV 7340 SITE PLANNING AND INFRASTRUCTURE DEVELOPMENT (3) LEC. 3. This course examines the role that site selection and infrastructure development play in the sustainable conceptualization, feasibiltiy, and implementation of a real estate development project.

RDEV 7350 REAL ESTATE INVESTMENT ANALYSIS (3) LEC. 3. This class will provide concentration study in real estate investment.

RDEV 7430 REAL ESTATE PROJECT MANAGEMENT (3) LEC. 3. This course examines the real estate development process from conceptualization to actualization.

RDEV 7440 REAL ESTATE CONTRACT NEGOTIATIONS (1) LEC. 1. This course will teach the basic skills necessary to become an effective negotiator. The course will include planning and preparing necessary elements for contract negotiation. Additionally, the communications skills necessary to forward the negotiation agenda will be addressed.

RDEV 7530 REAL ESTATE CAPITAL MARKETS (3) LEC. 3. This class will provide an in-depth look at the fundamental principles and practices as applied to the financing of residential and commercial real estate.

RDEV 7540 REAL ESTATE DEVELOPMENT LAW (3) LEC. 3. This course examines the legal issues related to acquisition, planning, design, entitlement, construction, development financing, property management, accounting, taxation, reversion, and estate planning.

RDEV 7630 REAL ESTATE DEVELOPMENT CAPSTONE PROJECT (5) DSL. 5. This Capstone Project seeks to develop an appreciation of real estate development process and the critical roles played by the design, planning, and construction industries

Rehabilitation & Special Education - RSED

Courses

RSED 2000 DISABILITY AWARENESS AND MENTORSHIP (3) LEC. 3. LAB. 3. Overview of disabilities and strategies to address disparities in society through awareness, advocacy, and international PEER certified educator/mentorship. EAGLES counselors and WINGS peer mentor requirement.

RSED 3000 DIVERSITY AND EXCEPTIONALITY OF LEARNERS (3) LEC. 3. Exploration of philosophical, social, cultural, and legal factors, and individual characteristics shaping education for individuals with disabilities; and roles/responsibilities of educators in inclusive settings. May count either RSED 3000 or RSED 3003.

RSED 3010 INTRODUCTION TO SPECIAL EDUCATION (3) LEC. 3. Orientation to special education profession including history, philosophy, federal legislation, contemporary issues and national organizations. Only CMDS Majors may take this course. Departmental approval for all other majors.

RSED 3020 INTRODUCTION TO REHABILITATION (3) LEC. 3. Orientation to the profession including history, philosophy, federal legislation, contemporary issues and national organizations.

RSED 3110 ASSESSMENT: ELIGIBILITY FOR SPECIAL EDUCATION (3) LEC. 3. Selection, administration, scoring and interpretation of standardized aptitude and educational tests used in the field of special education. May count either RSED 3110 or RSED 3113.

RSED 3120 ASSESSMENT IN REHABILITATION (3) LEC. 3. Selection, administration, scoring and interpretation of work sample systems and standardized tests of intelligence, aptitude, achievement, interest, and dexterity used in the field of rehabilitation.

RSED 4010 BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION (3) LEC. 3. Skills to manage the behavior of special education students including behavioral assessment, selection criteria for appropriate intervention strategies and evaluation of intervention effectiveness.

RSED 4100 PROFESSIONAL COMMUNICATION IN REHABILITATION (3) LEC. 3. Theoretical and practical aspects of written and oral communication with rehabilitation and other professionals, clients, and family members.

RSED 4120 INDEPENDENT LIVING SERVICES IN REHABILITATION (3) LEC. 3. The history, legislation and philosophy of the independent living movement and its impact on the quality of life for people with severe disabilities.

RSED 4130 ETHICAL PRACTICES IN REHABILITATION (3) LEC. 3. Departmental approval. Ethical dilemmas that are routinely faced by practitioners in human service occupations.

RSED 4140 ASSESSMENT: PROGRAM PLANNING IN SPECIAL EDUCATION (3) LEC. 3. Pr. P/C RSED 4920 or P/C RSED 4923. A framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on application assessment of students with disabilities, and how to use assessment data to inform instructional planning and IEP goal development.

RSED 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with student learning guided by the instructor. Emphasis on exceptional learners. Course may be repeated for a maximum of 3 credit hours.

RSED 4910 PRACTICUM (1-6) DSL. SU. Departmental approval. Practice in educational or community service setting aligned with degree program option. Course may be repeated for a maximum of 6 credit hours.

RSED 4911 PRACTICUM ELEMENTARY I LITERACY & NUMERACY (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4920 CLINICAL RESIDENCY (9) AAB. 9. SU. Comprehensive supervised on-the job experience in a school, college or community-based setting serving individuals with disabilities. Departmental approval or admission to internship.

RSED 4931 PRACTICUM ELEMENTARY II LITERACY & NUMERACY (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4941 PRACTICUM SECONDARY I (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4951 PRACTICUM PRE-K – SECONDARY II (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4970 SPECIAL TOPICS (1-3) DR4/ST1. Seminar in which upper-level students and professors engage in critical thinking regarding selected concepts, theories, research, and issues germane to the field of disabilities. Course may be repeated for a maximum of 9 credit hours.

RSED 5000 ADVANCED SURVEY OF EXCEPTIONALITY (3) LEC. 3. This course is an advanced study of exceptionality with emphasis upon the educational implications of disability and current issues in special education and rehabilitation. May count RSED 5000, RSED 6000, or RSED 6006.

RSED 5010 MEDICAL ASPECTS OF DISABILITY (3) LEC. 3. Medical terminology, basic body systems, common malfunctions, therapeutic services, restorative techniques, and disability evaluation for different disability groups and the vocational implications of each. May count RSED 5010, RSED 5013, RSED 6010, or RSED 6016.

RSED 5020 PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. Theoretical constructs and practical issues for various types of physical, mental, psychiatric, and social disabilities with implications for personal, vocational, social and community adjustment. May count RSED 5020, RSED 5023, RSED 6020, or RSED 6026.

RSED 5070 MILD DISABILITIES (3) LEC. 3. The purpose of this course is to present the major concepts and issues related to mild disabilities. A variety of topics, ranging from the historical developments in the field to proposed teaching procedures for students, will be discussed. In-depth analysis of selected topics will be accomplished with student presentations and assignments. May count either RSED 5070 or RSED 6070.

RSED 5100 INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Pr. RSED 3010. Historical, legislative, and philosophical basis of early intervention for young children, birth through age two, with special needs and their families. May count RSED 5100, RSED 6100, or RSED 6106.

RSED 5110 CURRICULUM IN EARLY CHILDHOOD SPECIAL EDUCATION: LITERACY AND DEVELOPMENTAL DOMAINS (3) LEC. 3. Procedures for developing, implementing, and monitoring individualized educational programs in natural settings. Admission to Teacher Education. May count RSED 5110, RSED 6110, or RSED 6116.

RSED 5120 CURRICULUM IN ELEMENTARY: LITERACY AND MATHEMATICS IN SPECIAL EDUCATION (3) LEC. 3. Pr. RSED 3010. Admission to Teacher Education. Functional/developmental approach to the selection, development, implementation, and evaluation of curriculum activities for the collaborative instruction of elementary children with disabilities. May count RSED 5120, RSED 6120, or RSED 6126.

RSED 5130 CURRICULUM IN LITERACY FOR STUDENTS WITH DISABILITIES (3) LEC. This course is designed to provide students with the understanding of language development, development of early literacy, and screening for early literacy deficits. This class will introduce language systems (orthography, phonetics, phonology, morphology, syntax, and semantics) and their role in the development of literacy. The course will provide opportunities for implementation of assessment and explicit system instruction in oral language, phonemic awareness, letter/sound correspondence, and basic reading. May count RSED 5130 or RSED 6130.

RSED 5140 CURRICULUM IN SEVERE DISABILITIES (3) LEC. 3. Pr. RSED 3010. Understanding a functional/developmental approach to selecting, developing, implementing, and evaluating appropriate curriculum activities for instructing students with severe disabilities. May count RSED 5140, RSED 6140, or RSED 6146.

RSED 5150 LITERACY METHODS IN SPECIAL EDUCATION (3) LEC. 3. Instructional strategies in reading for students with disabilities. May count RSED 5150 or RSED 6150.

RSED 5160 FRAMEWORK FOR COLLABORATION IN K-12 (3) LEC. 3. Admission to Teacher Education. Collaborative teaching, consultation, and teaming as a critical best practice in serving students with disabilities. May count RSED 5160, RSED 5163, RSED 6160, or RSED 6166.

RSED 5170 TRANSITION AND SECONDARY METHODS (3) LEC. 3. History, philosophy, models, and definitions of transition with emphasis on best practices, secondary methods, programs, and services. May count RSED 5170 or RSED 6170.

RSED 5180 LITERACY AND INSTRUCTIONAL CLASSROOM MANAGEMENT (3) LEC. 3. This course is designed to provide students with the understanding of literacy development and the practical application and management of interventions to support written language, vocabulary, and reading comprehension. The focus of this class will be to discuss proactive approaches to supporting students' literacy development. Students will be introduced to applied and research readings related to instructional management. These research findings will be integrated into discussions on the practical aspects of developing effective programs. After completing this class, students will be able to design and implement effective literacy and instructional strategies. May count RSED 5180 or RSED 6180.

RSED 5190 FUNCTIONAL CURRICULUM AND TRANSITION (3) LEC. 3. This course prepares teachers to support students who follow an alternative curriculum in elementary and secondary settings. This includes teaching functional skills, community-based instruction and supports for transition to post-secondary settings. May count either RSED 5190 or RSED 6190.

RSED 5200 VOCATIONAL EVALUATION IN REHABILITATION (3) LEC. 3. Vocational evaluation and work adjustment techniques and strategies used within the rehabilitation process. May count RSED 5200, RSED 5203, RSED 6200, or RSED 6206.

RSED 5210 OCCUPATIONAL INFORMATION (3) LEC. 3. Identification, location, and use of data resources for job accommodation and modification strategies, labor market surveys, and job placement of persons with disabilities. May count RSED 5210, RSED 6210, or RSED 6216.

RSED 5220 PLACEMENT SERVICES IN REHABILITATION (3) LEC. 3. Theories, strategies, and techniques for job development, accommodation, modification, and placement of people with disabilities with application skills needed to facilitate employment. May count RSED 5220, RSED 5223, RSED 6220, or RSED 6226.

RSED 5230 REHABILITATION ASSISTIVE TECHNOLOGY (3) LEC. 3. Basic computer literacy; use of commercially available software, and assistive technology for use by persons with disabilities. May count RSED 5230, RSED 6230, or RSED 6236.

RSED 5300 TRANSITION AND EMERGING ADULTHOOD IN REHABILITATION SERVICES (3) LEC. 3. This course is an introduction to the transition process of youth with disabilities from school to adulthood and employment with an emphasis on the developmental stages of emerging adulthood and the services surrounding this specialized area for rehabilitation professionals.

RSED 5330 ASSESSMENT FOR ELIGIBILITY (3) LEC. 3. This course provides students with a framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on standardized assessments for evaluating students with disabilities. This course will include assessment processes for eligibility for each category of special education eligibility. The course provides opportunities for application of concepts in assessment in special education as well as administration, review, and interpretation of standardized assessment data. The course covers historical, ethical, practical, and theoretical perspectives on identifying disabilities and planning individualized instructional programs for students with special needs. May receive credit for RSED 5330 or RSED 6330.

RSED 5340 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count RSED 5340, RSED 6340, or RSED 6346.

RSED 5420 SPECIALIZED CURRICULUM IN MATHEMATICS (3) LEC. 3. This course will provide learners with understanding of a functional/developmental approach to the selection, development, implementation, and evaluation of appropriate mathematics curriculum and activities for the instruction of students with high incidence disabilities in grades 3-5. Content includes extensive exploration of various curricular theories focusing on individual and group approaches in mathematics concepts. May count for RSED 5420 or RSED 6420.

RSED 6000 ADVANCED SURVEY OF EXCEPTIONALITY (3) LEC. 3. This course is an advanced study of exceptionality with emphasis upon the educational implications of disability and current issues in special education and rehabilitation. May count RSED 5000, RSED 6000, or RSED 6006.

RSED 6010 MEDICAL VOC & PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. An introduction to medical terminology, body systems, common physical and cognitive conditions therapeutic/restorative services, and psychosocial & vocational considerations of various disabilities. May count RSED 6010 or RSED 6016.

RSED 6040 LEARNING DISABILITIES (3) LEC. 3. Historical perspective, theoretical concepts, etiology, diagnosis, definition, and classification of individuals with learning disabilities. Educational and rehabilitative approaches and contemporary issues are emphasized. May count RSED 5040, RSED 6040, or RSED 6046.

RSED 6100 INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Historical, legislative, and philosophical basis of early intervention for young children, birth through age two, with special needs and their families. May count RSED 5100, RSED 6100, or RSED 6106.

RSED 6110 CURRICULUM IN EARLY CHILDHOOD SPECIAL EDUCATION: LITERACY AND DEVELOPMENTAL DOMAINS (3) LEC. 3. Procedures for developing, implementing, and monitoring individualized educational programs in natural settings. May count RSED 5110, RSED 6110, or RSED 6116.

RSED 6120 CURRICULUM IN ELEMENTARY: LITERACY AND MATHEMATICS IN SPECIAL EDUCATION (3) LEC. 3. Functional/developmental approach to the selection, development, implementation, and evaluation of curriculum for the collaborative instruction of elementary children with disabilities. May count RSED 5120, RSED 6120, or RSED 6126.

RSED 6130 CURRICULUM IN LITERACY FOR STUDENTS WITH DISABILITIES (3) LEC. 3. This course is designed to provide students with the understanding of language development, development of early literacy, and screening for early literacy deficits. This class will introduce language systems (orthography, phonetics, phonology, morphology, syntax, and semantics) and their role in the development of literacy. The course will provide opportunities for implementation of assessment and explicit system instruction in oral language, phonemic awareness, letter/sound correspondence, and basic reading. May count RSED 5130 or RSED 6130.

RSED 6140 CURRICULUM IN SEVERE DISABILITIES (3) LEC. 3. Understanding a functional/developmental approach to selecting, developing, implementing, and evaluating appropriate curriculum activities for instructing students with severe disabilities. May count RSED 5140, RSED 6140, or RSED 6146.

RSED 6150 LITERACY METHODS IN SPECIAL EDUCATION (3) LEC. 3. Instructional strategies in reading for students who have disabilities. May count RSED 5150 or RSED 6150.

RSED 6160 FRAMEWORK FOR COLLABORATION IN K-12 (3) LEC. 3. Collaborative teaching, consultation, and teaming as a critical best practice in serving students with disabilities. May count RSED 5160, RSED 5163, RSED 6160, or RSED 6166.

RSED 6170 TRANSITION AND SECONDARY METHODS (3) LEC. 3. History, philosophy, models, and definitions of transition with emphasis on best practices, secondary methods, programs, and services. May count RSED 5170 or RSED 6170.

RSED 6180 LITERACY AND INSTRUCTIONAL CLASSROOM MANAGEMENT (3) LEC. 3. This course is designed to provide students with the understanding of literacy development and the practical application and management of interventions to support written language, vocabulary, and reading comprehension. The focus of this class will be to discuss proactive approaches to supporting children’s literacy development. Students will be introduced to applied and research readings related to instructional management. These research findings will be integrated into discussions on the practical aspects of developing effective programs. After completing this class, students will be able to design and implement effective literacy and instructional strategies. May count RSED 5180, RSED 6180.

RSED 6190 FUNCTIONAL CURRICULUM AND TRANSITION (3) LEC. 3. This course prepares teachers to support students who follow an alternative curriculum in elementary and secondary settings. This includes teaching functional skills, community-based instruction and supports for transition to post-secondary settings. May count either as RSED 5190 or RSED 6190.

RSED 6220 PLACEMENT SERVICES IN REHABILITATION (3) LEC. 3. The course is designed to familiarize students with career theory and methods used by rehabilitation practitioners to analyze and apply vocational techniques to place individuals with disabilities. May count RSED 6220 or RSED 6226.

RSED 6230 REHABILITATION ASSISTIVE TECHNOLOGY (3) LEC. 3. Basic computer literacy; use of commercially available software, and assistive technology for use by persons with disabilities. May count RSED 5230, RSED 6230, or RSED 6236.

RSED 6330 ASSESSMENT FOR ELIGIBILITY (3) LEC. 3. This course provides students with a framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on standardized assessments for evaluating students with disabilities. This course will include assessment processes for eligibility for each category of special education eligibility. The course provides opportunities for application of concepts in assessment in special education as well as administration, review, and interpretation of standardized assessment data. The course covers historical, ethical, practical, and theoretical perspectives on identifying disabilities and planning individualized instructional programs for students with special needs. May receive credit for RSED 5330 or RSED 6330.

RSED 6340 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count RSED 5340, RSED 6340, or RSED 6346.

RSED 6420 SPECIALIZED CURRICULUM IN MATHEMATICS (3) LEC. 3. This course will provide learners with understanding of a functional/developmental approach to the selection, development, implementation, and evaluation of appropriate mathematics curriculum and activities for the instruction of students with high incidence disabilities in grades 3-5. Content includes extensive exploration of various curricular theories focusing on individual and group approaches in mathematics concepts. May count for RSED 5420 or RSED 6420.

RSED 7010 REHABILITATION PROFESSIONS, PROGRAMS AND ETHICS (3) LEC. 3. This course exposes students to the ethics, history and development of the rehabilitation counseling movement inclusive of its legal base, philosophies, concepts, and current socio-political trends. May count either RSED 7010 or RSED 7016.

RSED 7110 ADVANCED ASSESSMENT AND INTERVENTION EARLY CHILDHOOD SPECIAL EDUCATION (3) LEC. 3. Assessment and intervention strategies for special needs children, pre-k through 3rd grade. Departmental approval. May count either RSED 7110 or RSED 7116.

RSED 7120 ADVANCED ASSESSMENT IN SPECIAL EDUCATION (3) LEC. 3. Advanced study of educational tests and procedures for diagnosing special training problems. Departmental approval. May count either RSED 7120 or RSED 7126.

RSED 7130 ADVANCED ASSESSMENT I IN REHABILITATION (3) LEC. 3. Principles, process and techniques used to diagnose vocationally-related assets and liabilities of the individual with disabilities. May count either RSED 7130 or RSED 7136.

RSED 7150 MULTICULTURAL ASPECTS OF DISABILITIES (3) LEC. 3. Study of three main areas relevant to multicultural competencies and standards for rehabilitation professionals: (a) acquisition of communication skills; (b) attitudes towards ethnic minorities, and (c) knowledge about minority populations. May count either RSED 7150 or RSED 7156.

RSED 7200 ADVANCED INTERVENTION WITH INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Pr. RSED 7100 or RSED 7106. Administration and on-going management of early intervention programs and service coordination of individualized family service plans and family support. Departmental approval. May count either RSED 7200 or RSED 7206.

RSED 7210 ADVANCED INTERVENTION IN EARLY CHILDHOOD SPECIAL EDUCATION (3) LEC. 3. Pr. RSED 7110 or RSED 7116. Curriculum methods, intervention plans, intervention methods, physical and medical management, environmental and behavioral management, and evaluation of child and family outcomes. Departmental approval. May count either RSED 7210 or RSED 7216.

RSED 7220 ADVANCED TEACHING METHODS IN SPECIAL EDUCATION (3) LEC. 3. This course presents principles and procedures associated with content enhancement, strategy instruction and universal design for learning. This course will emphasize research-supported strategies for individuals with high incidence disabilities. Students will engage in hands-on experiences and practice implementing instructional interventions appropriate for students with disabilities who participate in the general education curriculum.

RSED 7230 ADVANCED BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION (3) LEC. 3. Provides skills necessary to direct academic and social performance and appropriately manage the behavior of students with special needs. Departmental approval. May count either RSED 7230 or RSED 7236.

RSED 7240 SENINAR IN REHABILITATION RESEARCH AND DESIGN (3) LEC. 3. Research in rehabilitation counseling, with focus on acquisition of knowledge about traditional and recent developments in research methods, and skill application. May count either RSED 7240 or RSED 7246.

RSED 7310 PROPRIETARY REHABILITATION (3) LEC. 3. Vocational rehabilitation in private sector including case management and expert witness for workers compensation, personal injury litigation, and social security.

RSED 7320 INDIVIDUAL COUNSELING APPROACHES IN REHABILITATION COUNSELING (3) LEC. 3. Survey of theoretical approaches involved in individual counseling with an emphasis on persons with disabilities using an eclectic point of view and psycho-educational approach. May count either RSED 7320 or RSED 7326.

RSED 7400 CURRICULUM AND TEACHING IN SPECIALIZATION (3) LEC. 3. Curriculum design, content, and materials selection related to teaching practices in areas of specialization (intellectual disability, learning disabilities, behavioral disorders, etc.). RSED 7400 and RSED 7406 may be repeated for a maximum combined total of 6 credit hours.

RSED 7410 PROGRAM IMPLEMENTATION IN SPECIALIZATION AUTISM (3) LEC. 3. This course presents principles and procedures for implementing educational programs for children and youth with autism spectrum disorders. Students will apply their knowledge of evidence-based practices for children and youth with ASD by planning and implementing accommodations, instructional methods, and behavioral supports.

RSED 7420 RESEARCH IN SPECIALIZATION (3) LEC. 3. Examination and interpretation of applied research in specialization area (intellectual disabilities, learning disabilities, behavioral disorders, etc.). Course may be repeated with a change in research area. May count either RSED 7420 or RSED 7426. Course may be repeated for a maximum of 6 credit hours.

RSED 7430 RESEARCH INTO PRACTICE (3) LEC. 3. Applied opportunities for translating instructional and behavioral research into practice. The course may be repeated with a change in research topic. Departmental approval. May count either RSED 7430 or RSED 7436. Course may be repeated for a maximum of 6 credit hours.

RSED 7440 SEMINAR IN SPECIALIZATION (3) DSL/SEM. 3. Departmental approval. Advanced students and professor(s) engage in critical thinking regarding selected concepts, theories, research and issues germane to the field of disabilities. Course may be repeated with change in topics.

RSED 7460 POSITIVE BEHAVIOR SUPPORTS (3) LEC. 3. Evaluating and implementing Positive Behavior Interventions and Supports (PBIS) for students grades PK through 12 in traditional and alternative educational settings. May count either RSED 7460 or RSED 7466.

RSED 7470 LEADERSHIP IN SPECIAL EDUCATION (3) LEC. 3. The goal of competent teacher leadership in special education is to provide the supports necessary to ensure effective instruction for all students in a variety of contexts. This course is designed to develop the knowledge, skills, understanding, and attitudes necessary to support special education leadership across an educational service delivery continuum.

RSED 7480 PROGRAM IMPLEMENTATION BIRTH TO AGE 5 (3) LEC. 3. This course provides advanced understanding of a family and child centered practices which include the development, implementation, and evaluation of appropriate routine based and curriculum activities for children ages birth to age 6 with mild learning/behavior disabilities and their families. Content also includes extensive exploration of various curricular and development theories, transition, assistive technology, assessment, and program planning.

RSED 7511 PRACTICUM PRE-K TRADITIONAL (1-3) LEC. 14. LAB. 2. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7531 PRACTICUM TRADITIONAL ELEMENTARY I (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7541 PRACTICUM ELEMENTARY II TRADITIONAL (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Departmental approval required. Course may be repeated for a maximum of 3 credit hours.

RSED 7551 PRACTICUM (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with advanced student learning guided by the instructor. The department's policy is to restrict independent study only for content not covered in RSED's course listing. Course may be repeated for a maximum of 3 credit hours.

RSED 7911 PRACTICUM ELEMENTARY I LITERACY & NUMERACY (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7920 CLINICAL RESIDENCY (1-9) DSL. SU. Comprehensive supervised on-the-job experience in a school, college or community-based setting serving individuals with disabilities. Course may be repeated for a maximum of 12 credit hours.

RSED 7931 PRACTICUM ELEMENTARY II LITERACY & NUMERACY (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7940 ADVANCED THEORIES IN REHABILITATION COUNSELING (3) LEC. 3. Intensive study of advanced theories within rehabilitation counseling, as well as an examination of outcome research relating to the use and application of these theories and techniques. May count either RSED 7940 or RSED 7946.

RSED 7941 PRACTICUM SECONDARY I LITERACY & MATH (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7950 EMERGING ADULTHOOD AND TRANSITION IN REHABILITATION (3) LEC. 3. Introduction to the transition process of youth with disabilities from school to adulthood and employment with emphasis on the developmental stage emerging adulthood. May count either RSED 7950 or RSED 7956.

RSED 7951 PRACTICUM PRE-K – SECONDARY II (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7980 NON-THESIS PROJECT (1-3) DSL. SU. Course may be repeated for a maximum of 10 credit hours.

RSED 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. The content focus of the study area will be translated into specific objectives with the student learning toward that end, guided by the instructor. In addition to regular meetings with the instructor, the student will be evaluated and graded according to learning performance. The department's policy is to restrict independent study only for content not covered in RSED's course listing. Course may be repeated for a maximum of 10 credit hours.

RSED 8010 DISABILITIES AND RESEARCH METHODS (3) LEC. 3. Departmental approval. History, principles, and methodology of single subject research with emphasis on the various types of research designs applied in rehabilitation and special education.

RSED 8020 DISABILITIES AND APPLIED RESEARCH IN MEASUREMENT (3) LEC. 3. Departmental approval. Classical measurement theory, individual differences determination, constructs related to diagnostic labels, measurement bias and fairness, nature-nurture controversy, and clinical versus statistical inference.

RSED 8030 DISABILITIES AND PROFESSIONAL ISSUES (3) LEC. 3. Critical and contemporary issues regarding disability and its relationship to the leadership roles of professionals in special education and rehabilitation. May count either RSED 8030 or RSED 8036.

RSED 8040 DISABILITIES AND ASSISTIVE TECHNOLOGY (3) LEC. 3. Departmental approval. Adaptive technology for use by persons with disabilities and proficiency in the use of computers and the World Wide Web as they relate to disabilities.

RSED 8050 DISABILITIES AND THE LAW (3) LEC. 3. Departmental approval. Development of rehabilitation and special education laws from a historical, policy, leadership, and advocacy. perspective.

RSED 8060 DISABILITIES AND LIFE SPAN TRANSITIONS (3) LEC. 3. Departmental approval. Advanced study of historical, legal, legislative, philosophical, and service delivery issues and trends with emphasis on research studies and programs.

RSED 8070 PROFESSIONAL SEMINAR (3) LEC. 3. SU. Departmental approval. A series of doctoral seminars devoted to professional technical writing, grant writing, management, and research. Course may be repeated with change in topics.

RSED 8230 EXAMINING DISABILITY DATABASES (3) LEC. 3. Conducting descriptive and correlational research by using existing publicly available databases in the field of disabilities.

RSED 8900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with student learning guided by the instructor. Course may be repeated with change in topics.

RSED 8950 SEMINAR (1-3) DSL/SEM. Departmental approval. Provides an opportunity for advanced graduate students and professors to pursue cooperatively selected concepts and theoretical formulations. Course may be repeated for a maximum of 9 credit hours.

RSED 8980 NON-THESIS PROJECT (1-10) DSL/IND. SU. Departmental approval. May be repeated with change in topic. Provides an opportunity for advanced graduate students to pursue a project of interest. Course may be repeated with change in topics.

RSED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated. Course may be repeated with change in topics.

Religion - RELG

Courses

RELG 1020 INTRODUCTION TO THE HEBREW SCRIPTURES (3) LEC. 3. Historical-critical study of the Hebrew scriptures in their cultural setting; emphasis on development of ancient Hebrew thought.

RELG 1030 INTRODUCTION TO THE NEW TESTAMENT (3) LEC. 3. Historical-critical study of the New Testament in its cultural setting; major issues in New Testament study.

RELG 1040 INTRODUCTION TO WESTERN RELIGIONS (3) LEC. 3. Introduction to Islam, Judaism, and Christianity, with attention to Druze religion and Bah'al. May count either RELG 1040 or RELG 3340.

RELG 1050 INTRODUCTION TO EASTERN RELIGIONS (3) LEC. 3. Introduction to Hinduism, Buddhism, and Confucianism, with secondary attention to other Asian religions. May count either RELG 1050 or RELG 3330.

RELG 4960 SPECIAL PROBLEMS IN RELIGIOUS STUDIES (3) LEC. 3. Independent study on a special topic. Course may be repeated for a maximum of 6 credit hours.

RELG 4970 SPECIAL TOPICS (3) LEC. 3. Course may be repeated with change in topics.

Rural Sociology - RSOC

Courses

RSOC 2090 FOOD SYSTEMS: POLICY, PRODUCTION, AND PRACTICE (3) LEC. 3. Post farm gate transformation of raw commodities into edible food. Supply chain, policy, and consumption issues as they relate to processing, safety, nutrition, and waste in the U.S.

RSOC 3560 ENVIRONMENT, SOCIETY, AND JUSTICE (3) LEC. 3. The course focuses on micro and macro structures influencing environmental problems, and possible pathways for their resolution. The course introduces Environmental Sociology through an action-oriented approach to environmental problems.

RSOC 3620 COMMUNITY ORGANIZATION (3) LEC. 3. Analysis of social organization at the community level. Conceptual framework developed to examine both internal and external forces affecting urban as well as rural communities in the U.S., and to identify strategies to strengthen local capacity to adapt to changing social and economic environments.

RSOC 4910 DIRECTED FIELD EXPERIENCE (3) LEC. 3. Departmental approval. Structured intensive involvement within an agency or organization serving people in communities or rural areas. Supervision is shared between agency personnel and department faculty who plan, consult, discuss, and evaluate student activities and reports.

RSOC 4930 DIRECTED STUDIES (1-3) IND. Departmental approval. Individualized study of topics in rural sociology and community development, natural resources and environmental issues conducted in consultation with a faculty member. Course may be repeated for a maximum of 3 credit hours.

RSOC 4960 SPECIAL PROBLEMS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (1-3) LEC. Departmental approval. Investigation of problems in rural sociology and community development, natural resources and environmental issues conducted in consultation with a faculty member. Course may be repeated for a maximum of 3 credit hours.

RSOC 5190 SOCIOLOGY OF SUSTAINABLE AGRIFOOD SYSTEMS (3) LEC. 3. Key trends in alternative production-consumption systems (e.g., rise of small/very-small production and processing, development and feasibility short and values-based supply chains; and food security, justice, equity, sovereignty, and democracy). May count either RSOC 5190 or RSOC 6190.

RSOC 5410 EXTENSION PROGRAMS AND METHODS (3) LEC. 3. An introduction to the Cooperative Extension System and other forms of educational outreach. Application of techniques used in extension and outreach planning and programming.

RSOC 5510 SOCIAL WELFARE, FAMILY AND POVERTY (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007 or ECON 2020 or ECON 2023 or ECON 2027. Description for Bulletin: Measuring and explaining poverty inequality and their effects on families and society, analysis of anti-poverty programs.

RSOC 5610 RURAL SOCIOLOGY (3) LEC. 3. Theories and conceptual approaches to rurality in international and domestic contexts. Rural-urban differences in demographic composition, occupational structure, attitudes, and values of rural people and regional cultures. Rural services and institutions as determinants of the quality of life.

RSOC 5640 SOCIOLOGY OF COMMUNITY DEVELOPMENT (3) LEC. 3. Principles of applied social change at the community level in both industrialized and non-industrialized settings; impacts of economic and technological changes on urban and rural communities; citizen participation in community affairs.

RSOC 5650 SOCIOLOGY OF NATURAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. The social origins of contemporary environmental problems, emergence of environmentalism as a social movement within industrialized nations, and other topical issues.

RSOC 6190 SOCIOLOGY OF SUSTAINABLE AGRIFOOD SYSTEMS (3) LEC. 3. This is an advanced course that will focus on key trends in alternative production-consumption systems (e.g., rise of small/very-small production and processing, development and feasibility short and values-based supply chains; and food security, justice, equity, sovereignty, and democracy).

RSOC 6410 EXTENSION PROGRAMS AND METHODS (3) LEC. 3. An introduction to the Cooperative Extension System and other forms of educational outreach. Application of techniques used in extension and outreach planning and programming.

RSOC 6510 SOCIAL WELFARE, FAMILY AND POVERTY (3) LEC. 3. Description for Bulletin: Measuring and explaining poverty and inequality and their effects on families and society; analysis of anti-poverty programs.

RSOC 6610 RURAL SOCIOLOGY (3) LEC. 3. Theories and conceptual approaches to rurality in international and domestic contexts. Rural-urban differences in demographic composition, occupational structure, attitudes and values of rural people and regional cultures. Rural services and institutions as determinants of the quality of life.

RSOC 6650 SOCIOLOGY OF NATURAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. The social origins of contemporary environmental problems, emergence of environmentalism as a social movement within industrialized nations, and other topical issues.

RSOC 7620 SOCIOLOGY OF COMMUNITY (3) LEC. 3. Emphasis on theories, conceptual approaches and methods for studying communities and assessing developmental needs with attention to organizational structure, power structure, decision-making and linkage networks to societal units.

RSOC 7630 POLITICAL ECONOMY OF DEVELOPMENT (3) LEC. 3. Theories of societal development applied to contemporary issues associated with change in non-industrialized nations. Exploration of institutional, class, and state interests that guide development processes, as well as alternative participatory development strategies.

RSOC 7700 METHODS OF SOCIAL RESEARCH (3) LEC. 3. Problem identification, hypothesis development and empirical analysis. Quantitative and qualitative procedures for obtaining social data using surveys, direct observation and secondary sources.

RSOC 7960 SPECIAL PROBLEMS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (1-3) LEC. Pr., departmental approval. Investigation of a problem in a particular area of interest involving an in-depth review of the literature, a research project, or an outreach education activity. Course may be repeated for a maximum of 6 credit hours.

RSOC 7970 SPECIAL TOPICS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (3) LEC. 3. Departmental approval. New topic in the area of rural sociology and community development.

RSOC 7990 RESEARCH AND THESIS (1-10) MST. In conjunction with the preparation of a thesis. Course may be repeated with change in topics.

Sciences & Math - SCMH

Courses

SCMH 1010 CONCEPTS OF SCIENCE (4) LEC. 3. LAB. 2. Interdisciplinary course which presents major scientific concepts in physical and biological sciences. After taking SCMH 1010, students can complete core science requirement series by taking BIOL 1010, CHEM 1010, GEOL 1100, PHYS 1000, or PHYS 1150. Science Core. May count either SCMH 1010 or SCHM 1013 or SCHM 1017.

SCMH 1017 HONORS CONCEPTS OF SCIENCE (4) LEC. 3. LAB. 2. Pr. Honors College. Interdisciplinary course for Honors students which presents major scientific concepts in physical and biological sciences. After taking SCMH 1017, students can complete core science requirement series by taking BIOL 1010, CHEM 1010, GEOL 1100, GEOL 1107, PHYS 1000, or PHYS 1150. Science core. Credit will not be given for both SCMH 1017 and SCMH 1010.

SCMH 1100 COSAM ORIENTATION (1) LEC. 1. Introduction to the College of Sciences and Mathematics and its resources, exploration of STEM careers, orientation to campus resources and facilities, and assistance with academics and transition to Auburn.

SCMH 1890 PRE-HEALTH PROFESSIONS ORIENTATION (1) LEC. 1. SU. Orientation and guidance tailored for non-freshmen and transfer students planning to seek admission into health professions schools and programs such as dentistry, medicine, optometry, pharmacy, physician assistant, and physical therapy.

SCMH 1897 HONORS PRE-HEALTH PROFESSIONS ORIENTATION (1) LEC. 1. SU. Pr. Honors College. Orientation and guidance tailored for non-freshmen and transfer students planning to seek admission into health professions schools and programs such as dentistry, medicine, optometry, pharmacy, physician assistant, and physical therapy.

SCMH 1950 COSAM MAJOR AND CAREER EXPLORATION (1) LEC. 1. Introduction to majors offered by the College of Sciences and Mathematics, motivation and skills for academic success, departmental resources and facilities, and exploration of careers in Sciences and Mathematics.

SCMH 3010 INQUIRY EXPERIENCES FOR SCIENCE TEACHERS (3) LEC. 2. LAB. 2, LLB. 0. This course introduces students to the nature and process of science through project-based instruction. It highlights experimental design, data analysis, and presenting scientific work both orally and in writing. This is a writing enriched course in the required AUTeach course sequence.

SCMH 3050 SERVICE-LEARNING EXPERIENCES IN UNDERSERVED POPULATIONS (3) LEC/PRA. 2. Service learning with a focus on underserved populations. Students engage in experiential learning to meet community needs, enhancing their cultural competence and civic responsibility. Ideal for those in helping professions, STEM, and Pre-Health, it strengthens community partnerships and understanding of complex social issues. Departmental approval required.

SCMH 3810 PRE-PHYSICAL THERAPY PRACTICUM (1) PRA. 2. SU. Departmental approval. Direct observation of physical therapists at an approved facility in the Auburn-Opelika area.

SCMH 3890 PRE-MEDICAL PRECEPTORSHIP (1) LAB. 2. SU. Departmental approval. Direct observation and interaction with physicians at East Medical Center and in individual medical offices.

SCMH 3950 SEMINAR ON MCAT AND DAT SCIENTIFIC FOUNDATIONS (2) LEC. 2. SU. Pr. SCMH 1890 and BIOL 1030 and CHEM 2070. A deep dive into the foundational scientific concepts required for the Medical College Admission Test (MCAT) and the Dental Admission Test (DAT). The course emphasizes interactive discussions and practice of the core science subjects pertinent to the tests, supplemented by problem-solving sessions and mock exams to ensure comprehensive preparation. Department approval.

SCMH 4700 PEDAGOGY OF PEER-LED INSTRUCTION (1) LEC. 1. Pedagogical training course on effective instructional strategies in the STEM disciplines integrating educational theory, pedagogy, content, and practice. Departmental approval required.

SCMH 4920 SCIENCES AND MATHEMATICS INTERNSHIP (1-4) DSL. 8-16. SU. Practical on-the-job training in some area related to Sciences and Mathematics. Course may be repeated for a maximum of 6 credit hours.

SCMH 4970 UNDERGRADUATE SPECIAL TOPICS IN SCIENCES AND MATHEMATICS (1-4) LEC. 1-4. Undergraduate study of specialized topics related to Sciences and Mathematics. Departmental approval required. Course may be repeated for a maximum of 8 credit hours.

SCMH 4980 SCIENCES AND MATHEMATICS UNDERGRADUATE RESEARCH (1-5) IND/RES. Departmental approval. Directed research in an area of specialty within Sciences and Mathematics and interdisciplinary fields. Course may be repeated for a maximum of 6 credit hours.

SCMH 5010 CLINICAL APPLICATIONS I (3) LEC. 2. A study of the clinical/personal issues facing primary care physicians in the rural community. Must be enrolled in the Rural Medicine Program.

SCMH 5020 CLINICAL APPLICATIONS II (3) LEC. 2, CLN/LEC. 1. Pr. SCMH 5010. A continuation of SCMH 5010.

SCMH 5050 PHYSICAL EXAMINATION TECHNIQUES FOR CLINICAL APPLICATIONS (1) LEC. 1. Undergraduate-level course focused on mastering physical examination techniques for medical clinic applications; enhances students' understanding of anatomy and physiology through hands-on patient interactions; develops critical professionalism and communication skills necessary for effective patient care. Departmental approval required.

SCMH 5940 GLOBAL STUDY/TRAVEL IN SCIENCES AND MATHEMATICS (1-12) AAB. Departmental approval. Application required. Students international study travel on topics relevant to Sciences and Mathematics. Course may be repeated for a maximum of 12 credit hours.

SCMH 5970 ADVANCED SPECIAL TOPICS IN SCIENCES AND MATHEMATICS (1-3) LEC. 1-3. Advanced study of specialized topics related to Sciences and Mathematics. Departmental approval required. Course may be repeated for a maximum of 6 credit hours.

SCMH 6010 CLINICAL APPLICATIONS I (3) LEC. 2, CLN/LEC. 2. Departmental approval. A study of the clinical/personal issues facing primary care physicians in the rural community. Must be enrolled in the Rural Medicine Program.

SCMH 6020 CLINICAL APPLICATIONS II (3) LEC. 2, CLN/LEC. 2. Pr. SCMH 6010. Departmental approval. A study of the clinical/societal issues facing primary care physicians in the rural community. Must be enrolled in the Rural Medicine Program.

SCMH 6050 PHYSICAL EXAMINATION TECHNIQUES FOR CLINICAL APPLICATIONS (1) LEC. 1. Graduate-level course focused on mastering physical examination techniques for medical clinic applications; enhances students' understanding of anatomy and physiology through hands-on patient interactions; develops critical professionalism and communication skills necessary for effective patient care. Departmental approval required.

SCMH 6970 ADVANCED SPECIAL TOPICS IN SCIENCES AND MATHEMATICS (1-3) LEC. 1-3. Departmental approval. Advanced study of specialized topics related to Sciences and Mathematics. Course may be repeated for a maximum of 6 credit hours.

SCMH 8150 DOCTORAL SEMINAR ON CURRENT TOPICS IN SCM RESEARCH (3) LEC. 3. The class is a rigorous, seminar style course on Current Topics in SCM Research. Each class will familiarize you with the key insights in a current research topic (i.e., the “hot topics”) in the SCM area. The instructor has chosen to cover a broad range of active research to give you an overview of topics that people are working on currently and are likely to work on in the future.

Secondary Education - CTSE

Courses

CTSE 1000 INQUIRY APPROACHES TO SCIENCE TEACHING: STEP 1 (1) LEC. 1. LAB. 2. This course allows students to explore teaching as a career. Following an introduction to the theory and practice behind excellent inquiry-based science instruction, candidates teach lessons in elementary classrooms to obtain firsthand experience in planning and implementation. An elementary school placement is chosen to help the AUTeach student connect with youth who are moving into the targeted grade band. Master teachers in AUTeach are instructors and are chosen for their experience and success in secondary classrooms. They provide candidates direct exposure to people who love teaching and view it as a rewarding career choice. Mentor teachers at the schools where candidates teach their prepared lessons demonstrate effective teaching techniques and classroom management skills, giving the future teachers a true taste of working in a supportive, diverse educational setting. The course emphasizes using the 5E Learning Cycle instructional model.

CTSE 2000 INQUIRY APPROACHES TO SCIENCE TEACHING: STEP 2 (1) LEC. 1. LAB. 2. This course allows students to continue developing the lesson planning and teaching skills explored in CTSE 1000 (Step 1). After observing a lesson being taught in a local school district classroom, students (in pairs) plan and teach two inquiry-based lessons to sixth, seventh, or eighth graders. Middle school science classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the Step 2 students assigned to them. For their final product, Step 2 students analyze and modify one of the lessons they taught, taking into account the results of the assessments, their reflection on how successful the lesson was, and feedback from observers (Mentor Teacher, Instructor, or Teaching Assistant). By the end of Step 2, students are usually able to make a decision about whether to pursue teacher certification through the AUTeach program. In addition to the unique Core Components and Course Objectives listed below, all AUTeach courses are designed in accordance with the AUTeach Course Design Principles. The course emphasizes using the 5E Learning Cycle instructional model.

CTSE 2500 INQUIRY APPROACHES TO SCIENCE TEACHING: COMBINED STEP 1 AND 2 (2) LEC. 2. LAB. 4. This course allows students to explore teaching as a career, learn the theory and practice behind excellent inquiry-based science instruction, and teach lessons in elementary and middle school classrooms in order to plan and implement lessons. This course replaces CTSE 1000 and CTSE 2000. It's a combined course. After observing lessons being taught in local school districts, students work in pairs to plan and teach two lessons in elementary classrooms, and two inquiry-based lessons to sixth, seventh, or eighth graders. Elementary and middle school science classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the students assigned to them. For their final product, Step 1/2 students analyze and modify one of the lessons they taught, taking into account the results of the assessments, their reflection on how successful the lesson was, and feedback from observers (Mentor Teacher, Instructor, or Teaching Assistant). By the end of this class, students are usually able to make a decision about whether to pursue teacher certification through the AUTeach program.

CTSE 4050 CURRICULUM AND TEACHING I: SOCIAL SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4210. Admission to Teacher Education. Application of current educational research and instructional strategies to the design of meaningful social studies instruction and assessment.

CTSE 4060 CURRICULUM AND TEACHING II: SOCIAL SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4050 and CTSE 4210. Admission to Teacher Education. Curriculum decision making and planning for instruction, evaluation, and classroom management.

CTSE 4070 CURRICULUM AND TEACHING I: FOREIGN LANGUAGE (4) LEC. 2. LAB. 4. Admission to Teacher Education. Strategies for teaching foreign language students with a special emphasis on developing good instruction for comprehensible input and emerging speech tasks. May count either CTSE 4070 or CTSE 4073.

CTSE 4080 CURRICULUM AND TEACHING II: FOREIGN LANGUAGE (4) LEC. 2. LAB. 4. Pr. CTSE 4070 or CTSE 4073. Admission to Teacher Education. Teaching strategies based on language acquisition theories that are appropriate for teaching foreign language students. May count either CTSE 4080 or CTSE 4083.

CTSE 4150 CURRICULUM AND TEACHING I: ENGLISH LANGUAGE ARTS (4) LEC. 2. LAB. 4. Pr. CTSE 5010 and CTSE 5020. Admission to Teacher Education. Teaching the expressive English language arts, writing and speaking, in middle and high school classrooms.

CTSE 4160 CURRICULUM AND TEACHING II: ENGLISH LANGUAGE ARTS (4) LEC. 2. LAB. 4. Pr. CTSE 4150. Admission to Teacher Education. Teaching the receptive English language arts; reading, listening, and viewing; in middle and high school classrooms. Admission to Teacher Education required.

CTSE 4210 SOCIAL SCIENCE CONCEPTS AND METHODS (3) LEC. 3. For pre-service teachers. Organizing social science disciplinary knowledge into an integrated framework that is meaningful, useful, and relevant to high school students. 15 hours in social sciences (2000 level or above).

CTSE 4900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent reading, research, or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTSE 4910 PRACTICUM (1-6) DSL/PRA. SU. Departmental approval. Admission to Teacher Education. Cooperatively selected field experience. Course may be repeated for a maximum of 6 credit hours.

CTSE 4920 CLINICAL RESIDENCY (11) AAB/DSL. 40. SU. Pr. P/C CTSE 5210 or P/C CTSE 5213 or P/C CTSE 5220 or P/C CTSE 5223 or P/C CTSE 5230 or P/C CTSE 5233 or P/C CTSE 5240 or P/C CTSE 5243 or P/C CTSE 5250 or P/C CTSE 5253 or P/C CTSE 5410. Admission to Clinical Residency. Supervised teaching in a public secondary school abroad accompanied by scheduled discussions to analyze and evaluate the intern's experience. May count either CTSE 4920 or CTSE 4923.

CTSE 4930 AUTEACH CLINICAL RESIDENCY (8) DSL/FLD. 30. SU. Pr. P/C CTSE 5240 or P/C CTSE 5243. Departmental approval. Supervised science teaching in a public secondary school accompanied by scheduled discussions to analyze and evaluate the clinical resident's experience.

CTSE 4970 SPECIAL TOPICS (1-4) DSL. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 4 credit hours.

CTSE 5000 TECHNOLOGY IN SCIENCE EDUCATION (2) LEC. 2. Introduction and application of current and emerging instructional and communication technologies for integration in the secondary science program. May count either CTSE 5000, CTSE 5003, CTSE 6000 or CTSE 6006.

CTSE 5010 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. Departmental approval. Junior standing. May count either CTSE 5010, CTSE 6010 or CTSE 6016.

CTSE 5020 RHETORIC AND COMPOSITION FOR TEACHERS (3) LEC. 3. Theories of rhetoric and composition applicable to middle and high school classrooms; implications for planning writing curricula, instruction, and assessment/evaluation. May count either CTSE 5020 or CTSE 6020.

CTSE 5030 TEACHING MATHEMATICS: HIGH SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Strategies for teaching and evaluating high school mathematics to promote the learning of all students.

CTSE 5031 PRACTICUM IN HIGH SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 5030. Admission to Teacher Education. This course is designed to provide 36 clock hours of teaching and experience in High School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTSE 5040 TECHNOLOGY AND APPLICATIONS IN SECONDARY MATHEMATICS EDUCATION (3) LEC. 3. LAB. 0, LEC/LLB. 0. Pr. MATH 2660. Admission to Teacher Education. Use of technological tools to enhance mathematics teaching and learning. May count either CTSE 5040 or CTSE 6040.

CTSE 5041 PRACTICUM IN SECONDARY MATHEMATICS TECHNOLOGY (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 5040. Admission to Teacher Education. This course is designed to provide 18 clock hours of teaching and experience in Secondary Mathematics Technology. It is an intensive, interactive experience at a strategically selected school site.

CTSE 5050 ANALYZING PERSISTENT ISSUES IN HISTORY AND GEOGRAPHY (3) LEC. 3. This course will engage students in inquiry-based and Persistent Issues in History units of content instruction with selected topics that integrate history and geography content and then deconstruct those units to examine the research-based learning and assessment principles that underlie their design.

CTSE 5060 ANALYZING PERSISTENT ISSUES IN POLITICAL ECONOMY (3) LEC. 3. This course integrates moral philosophy, political science, and economics into an exploration of persistent issues in political economy. Students will metacognitively analyze their own learning as they investigate and propose a policy solution to a political economy problem.

CTSE 5090 CURRICULUM AND TEACHING I: SCIENCE (4) LEC. 2. LAB. 4. Planning, teaching strategies, evaluation techniques and classroom management procedures needed to be a successful science teacher.

CTSE 5100 CURRICULUM AND TEACHING II: SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4090. Admission to Teacher Education. Higher-order reasoning and process skills using state and national standards as guides. Theoretical and applied approaches. May count either CTSE 5100 or CTSE 6100.

CTSE 5110 PERSPECTIVES IN SCIENCE (3) LEC. 3. Perspectives on Science is an overview and introduction to the scholarly field of science history with applications for embedding historical stories and discoveries into today’s secondary science classrooms.

CTSE 5210 TEACHER INQUIRY WORKSHOP: PROBLEMS AND POSSIBILITIES (1) LEC. 1. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Community of practice for English Language Arts clinical residents to support professional practice through teacher inquiry. May count either CTSE 5210, CTSE 5213, CTSE 6210, or CTSE 6216.

CTSE 5220 CLASS MANAGEMENT AND DISCIPLINE IN FOREIGN LANGUAGE CLASSROOM (1-2) AAB. Admission to Clinical Residency. Seminar for clinical residents on classroom management in Foreign Language Education. May count either CTSE 5220 or CTSE 6220. Course may be repeated for a maximum of 2 credit hours.

CTSE 5230 MANAGING MIDDLE AND HIGH SCHOOL CLASSROOM (MATH EDUCATION) (1) AAB/DSL. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. The role of the teacher in mathematics classroom management. Methods for developing a positive learning environment. May count either CTSE 5230, CTSE 5233, CTSE 6230 or CTSE 6236.

CTSE 5240 CLINICAL RESIDENCY SEMINAR IN SCIENCE TEACHING (1) AAB/DSL. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Seminar for Science Education clinical residents in classroom management, professional development, diversity and equity issues, theory and practice. May count either CTSE 5240, CTSE 5243, CTSE 6240 or CTSE 6246.

CTSE 5250 SEMINAR IN SOCIAL SCIENCE EDUCATION (1) AAB. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Best practices for managing secondary social science classrooms and ethically resolving students discipline issues for a positive learning climate for all students. May count either CTSE 5250, CTSE 5253, CTSE 6250 or CTSE 6256.

CTSE 5830 STATISTICS AND PROBABILITY FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. STAT 2010 or STAT 3010. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on statistics and probability, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5840 NUMBER SYSTEMS AND ALGEBRA FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 1620. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on number systems, algebra, and functions, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5850 FUNCTIONS AND MATHEMATICAL MODELING FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 2630. Admission to Teacher Education. Connections of advanced college-level mathematics with the secondary mathematics curriculum, focusing on functions and mathematical modeling, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5860 GEOMETRY FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 1610. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on geometry, to develop mathematical knowledge relevant to teaching. The contents include axiomatic development of geometry, transformational geometry, and similarity. Appropriate technology and mathematics problem solving skills will be introduced.

CTSE 6000 TECHNOLOGY IN SCIENCE EDUCATION (2) LEC. 2. Introduction and application of current and emerging instructional and communication technologies for integration in the secondary science program. May count either CTSE 5000, CTSE 5003, CTSE 6000 or CTSE 6006.

CTSE 6010 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. Departmental approval. May count either CTSE 5010, CTSE 6010 or CTSE 6016.

CTSE 6020 RHETORIC AND COMPOSITION FOR TEACHERS (3) LEC. 3. Theories of rhetoric and composition applicable to middle and high school classrooms; implications for planning writing curricula, instruction, and assessment/evaluation. May count either CTSE 5020, CTSE 6020 or CTSE 6026.

CTSE 6030 TEACHING MATHEMATICS: HIGH SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Strategies for teaching and evaluating high school mathematics to promote the learning of all students.

CTSE 6031 PRACTICUM IN HIGH SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 6030. This course is designed to provide 36 clock hours of teaching and experience in High School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTSE 6040 TECHNOLOGY AND APPLICATIONS IN SECONDARY MATHEMATICS EDUCATION (3) LEC. 3. LAB. 0, LEC. 0. Use of technological tools to enhance mathematics teaching and learning. May count either CTSE 5040 or CTSE 6040.

CTSE 6041 PRACTICUM IN SECONDARY MATHEMATICS TECHNOLOGY (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 6040. This course is designed to provide 18 clock hours of teaching and experience in Secondary Mathematics Technology. It is an intensive, interactive experience at a strategically selected school site.

CTSE 6050 ANALYZING PERSISTENT ISSUES IN HISTORY AND GEOGRAPHY (3) LEC. 3. This course will engage students in inquiry-based and Persistent Issues of History units of content instruction with selected topics that integrate history and geography content and then deconstruct those units to examine the research-based learning and assessment principles that underlie their design.

CTSE 6060 ANALYZING PERSISTENT ISSUES IN POLITICAL ECONOMY (3) LEC. 3. This course integrates moral philosophy, political science, and economics into an exploration of persistent issues in political economy. Students will metacognitively analyze their own learning as they investigate and propose a policy solution to a political economy problem.

CTSE 6090 CURRICULUM AND TEACHING I: SCIENCE (4) LEC. 2. LAB. 4. Planning, teaching strategies, evaluation techniques and classroom management procedures needed to be a successful science teacher.

CTSE 6100 CURRICULUM AND TEACHING II: SCIENCE (4) LEC/LLB. 6. Pr. CTSE 4090. Higher-order reasoning and process skills using state and national standards as guides. Theoretical and applied approches. May count either CTSE 5100 or CTSE 6100.

CTSE 6210 TEACHER INQUIRY WORKSHOP: PROBLEMS AND POSSIBILITIES (1) AAB. 1. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Community of practice for English Language Arts clinical residents to support professional practice through teacher inquiry. May count either CTSE 5210, CTSE 5213, CTSE 6210, or CTSE 6216.

CTSE 6220 CLASS MANAGEMENT AND DISCIPLINE IN FOREIGN LANGUAGE CLASSROOM (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Seminar for clinical residents on classroom management in Foreign Language Education. May count either CTSE 5220, CTSE 5223, CTSE 6220 or CTSE 6226.

CTSE 6230 MANAGING MIDDLE AND HIGH SCHOOL CLASSROOM (MATH EDUCATION) (1) AAB. 15. Pr. (P/C CTSE 7920 or P/C CTSE 7926). Admission to Clinical Residency. The role of the teacher in mathematics classroom management. Methods for developing a positive learning environment. May count either CTSE 5230, CTSE 5233, CTSE 6230 or CTSE 6236.

CTSE 6240 CLINICAL RESIDENCY SEMINAR IN SCIENCE TEACHING (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Seminar for Science Education clinical residents in classroom management, professional development, diversity and equity issues, theory and practice. May count either CTSE 5240, CTSE 5243, CTSE 6240 or CTSE 6246.

CTSE 6250 SEMINAR IN SOCIAL SCIENCE EDUCATION (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Best practices for managing secondary social science classrooms and ethically resolving students discipline issues for a positive learning climate for all students. May count either CTSE 5250, CTSE 5253, CTSE 6250 or CTSE 6256.

CTSE 6710 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. May count either CTSE 5710, CTSE 6710, or CTSE 6716.

CTSE 7000 ORIENTATION TO TEACHING AND LEARNING (1) LEC. 1. Skills, dispositions, community, and research planning for graduate students including preparation of a research proposal. May count either CTSE 7000 or CTSE 7006.

CTSE 7490 THE SECONDARY SCHOOL PROGRAM (3) LEC. 3. Departmental approval. Implications of research and theory for the total secondary school program.

CTSE 7510 RESEARCH STUDIES IN AREA OF SPECIALIZATION (3) LEC. 3. Research methodology, landmark studies, critique and application of research in the area of specialization.

CTSE 7520 CURRICULUM AND TEACHING IN AREA OF SPECIALIZATION (3) LEC. 3. Nature of learners and of knowledge and implications for for building curricula and planning instruction in the area of specialization. May count either CTSE 7520 or CTSE 7526.

CTSE 7530 ORGANIZATION OF PROGRAM IN AREA OF SPECIALIZATION (3) LEC. 3. Program models, components, and standards in the area of specialization. May count either CTSE 7530 or CTSE 7536.

CTSE 7540 EVALUATION OF PROGRAM IN AREA OF SPECIALIZATION (3) LEC. 3. Theoretical perspectives of evaluation and methods of evaluating learners, teachers, and curricula. May count either CTSE 7540 or CTSE 7546.

CTSE 7560 EQUITY ISSUES IN MATHEMATICS EDUCATION (3) LEC. 3. Theories, issues, and pedagogy related to achieving equity in mathematics education.

CTSE 7800 CAPSTONE IN TEACHING AND LEARNING (2) LEC. 2. Development of a unique portfolio based on professional interest and demonstration the ability to foster student achievement through the design, implementation, and assessment of learning activities. May count either CTSE 7800 or CTSE 7806.

CTSE 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives related to their respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTSE 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) AAB. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTSE 7920 CLINICAL RESIDENCY (8-11) AAB. 40. SU. Pr. P/C CTSE 6210 or P/C CTSE 6216 or P/C CTSE 6220 or P/C CTSE 6226 or P/C CTSE 6230 or P/C CTSE 6236 or P/C CTSE 6240 or P/C CTSE 6246 or P/C CTSE 6250 or P/C CTSE 6256. Admission to Clinical Residency. Supervised clinical residency experiences in a school, college or other appropriate setting. Evaluation and analysis of the clinical residency experinece. Departmental approval. May count either CTSE 7920 or CTSE 7926. Course may be repeated for a maximum of 11 credit hours.

CTSE 7970 SPECIAL TOPICS (1-6) DFL. Departmental approval. Provides an opportunity for the graduate student and professor to pursue selected topics in depth. Course may be repeated for a maximum of 6 credit hours.

CTSE 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CTSE 8950 SEMINAR (1-3) DSL/SEM. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTSE 8980 FIELD PROJECT (1-3) DSL/FLD. SU. Departmental approval. Students review literature pertaining to a problem they have identified in their own practice, form hypotheses, plan intervention, collect data, analyze and interpret results, write summary of the project following approved guidelines, and orally defend the results of their project. Course may be repeated for a maximum of 3 credit hours.

CTSE 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

Social Work - SOWO

Courses

SOWO 2000 INTRODUCTION TO SOCIAL WORK (3) LEC. 3. Introduction to social work practice, examining career opportunities, history of the profession, practice settings, values, ethics, and types of clientele.

SOWO 2650 HISTORY OF SOCIAL WELFARE (3) LEC. 3. Development of social welfare policies and programs in the United States, analysis of political, economic, and social factors involved.

SOWO 3500 CHILD WELFARE (3) LEC. 3. Pr. SOCY 1000 or SOCY 1003 or SOCY 1007 or SOWO 2000 or SOWO 2003. Social work practice in settings dealing with child abuse and neglect, foster care, child care, and adoption.

SOWO 3600 AGING ISSUES AND SERVICES (3) LEC. 3. Pr. SOCY 1000 or SOCY 1003 or SOCY 1007. Introduction to social services and social work with the elderly, considering socio-cultural issues and impact on the elderly.

SOWO 3700 ADDICTIONS (3) LEC. 3. Pr. PSYC 2010 or PSYC 2017 or PSYC 2013. Addictions, theories of causality, social impact, and treatment approaches in today's society. Experiential component included.

SOWO 3800 HUMAN BEHAVIOR IN SOCIAL ENVIRONMENT I (3) LEC. 3. Pr. SOWO 2000 or SOWO 2003. Lifespan developmental approach to biopsychosocial examination of human behavior and development, emphasizing the diversity of human experience related to gender, social class, race, ethnicity, sexual orientation, and disability. Experiential component included.

SOWO 3850 HUMAN BEHAVIOR IN THE SOCIAL ENVIRONMENT II (3) LEC. 3. Pr. SOWO 3800. Social systems approach to examination of human behavior and development as influenced by groups, organizations, and communities, emphasizing the forms and mechanisms of oppression and discrimination as well as strategies to advance social and economic justice. Experiential component included.

SOWO 3910 FIELD PRACTICUM SEMINAR (3) PRA. Pr. SOWO 2000 or SOWO 2003. Introduction to fields and settings of social work practice via placement in a selected social service agency. Includes a concurrent integrative seminar to analyze the experience.

SOWO 4060 SOCIAL WORK PRACTICE METHODS I (3) LEC. 3. Pr. (SOWO 2000 or SOWO 2003) and SOWO 3800 and SOWO 3910 and (SOCY 1000 or SOCY 1003 or SOCY 1007). Introduction to generalist practice methods and skills in engagement, assessment, and goal setting with individual clients. Experiential component included.

SOWO 4070 SOCIAL WORK PRACTICE METHODS II (3) LEC. 3. Pr. SOWO 4060. Practice skills and perspectives required for work with families and groups. Experiential component included.

SOWO 4080 SOCIAL WORK PRACTICE METHODS III (3) LEC. 3. Pr. SOWO 4060. Generalist practice theory and skills as applied to communities, organizations, and oppressed populations, emphasizing issues of social justice and social action. Experiential component included.

SOWO 4090 SOCIAL WELFARE POLICY (3) LEC. 3. Pr. SOWO 2650 or SOWO 2653. Critical analysis of policy issues and proposals in selected social welfare programs and their impact upon current social problems and social work values and ethics.

SOWO 4920 INTERNSHIP IN SOCIAL WORK (9) FLD. 9. SU. Pr. SOWO 4080. 480-hour field experience under joint supervision of agency and university. Application of generalist practice skills and research project required.

SOWO 4950 SENIOR INTEGRATIVE SEMINAR (3) SEM. 3. Pr. SOWO 4080. Coreq. SOWO 4920. and Enrollment in SOWO 4920. Integrating theory with practice through analysis of behavior and evaluation of practice skills.

SOWO 4970 SOCIAL WORK SPECIAL TOPICS (3) LEC. 3. Timely and/or controversial topics related to social work. Course content will depend upon the designated topic.

SOWO 7000 INTRODUCTION TO SOCIAL WORK AND SOCIAL WELFARE (3) LEC. 3. This course provides a review of the social work profession, history, and values and ethics. An overview of theory, practice, policy, and research are integrated in exploring the knowledge, values, and skills base of the social work profession.

SOWO 7010 ADVANCED CLINICAL PRACTICE (3) LEC. 3. Pr. SOWO 7020. This course provides intensive study on clinical interventions with individuals, families, and small groups across various fields of practice.

SOWO 7020 PSYCHOPATHOLOGY (3) LEC. 3. This advanced practice course teaches students to recognize selected major mental health disorders in adults, children, and youth and to become familiar with social work practice approaches used in the treatment of these disorders.

SOWO 7030 EVALUATION IN SOCIAL WORK PRACTICE (3) LEC. 3. This course examines quantitative and qualitative evaluation of agency programs and individual practice. Students will engage in hands-on individual and/or small-group research projects to experience all phases of the research process.

SOWO 7040 SOCIAL WORK PRACTICE IN THE HEALTH CARE FIELD (3) LEC. 3. This course will focus on the development of social work practice skills relevant to health care settings, including assessment of the impact of illness, disability, treatment, and hospitalization on patients and families.

SOWO 7050 MENTAL HEALTH (3) LEC. 3. Pr. SOWO 7020. This course focuses on mental health social work practice with children, adolescents and adults, covering assessment and several theoretically based interventions with an emphasis on gaining practice skills. Special attention is given to strengths-based, evidence-based, and recovery-oriented practice models.

SOWO 7060 SOCIAL WORK PRACTICE WITH INDIVIDUALS AND FAMILIES (3) LEC. 3. This foundation course prepares students to apply a generalist perspective and systems framework to social work practice with individuals and families. It emphasizes the basics of communication, interviewing, relationship building, and practice skills essential to effective assessment, intervention, and evaluation.

SOWO 7070 SOCIAL WORK WITH GROUPS AND COMMUNITIES (3) LEC. 3. Pr. SOWO 7060. This macro social work course provides an advanced examination of social work practice in groups and larger systems. Students will develop knowledge, values, and skills in areas of: group practice, community assessment, social planning, community organization, and political strategies.

SOWO 7080 POLICY PRACTICE AND SOCIAL JUSTICE (3) LEC. 3. This course will critically apply conceptual frameworks and empirical research in the examination of social issues, policies, and services, focusing on how policies affect marginalized, oppressed and disadvantaged populations.

SOWO 7090 ADVANCED SOCIAL WELFARE POLICY (3) LEC. 3. The course will review the historical development of social welfare and social policies in the United States and explore their context and underlying values. This course builds knowledge and skills to analyze and make changes in social welfare policy.

SOWO 7100 GERONTOLOGY (3) LEC. 3. The course provides a clinical foundation for clinical work practice with older adults and their families. Primary focus will be on understanding how diversity factors into the physiological, psychological, and social aspects of later life.

SOWO 7110 TRAUMA INFORMED PRACTICE (3) LEC. 3. This course examines social work practice theories and intervention approaches as they apply to practice with survivors of crisis and trauma. The course will focus on engagement, assessment, planning, intervention, evaluation and follow up on all social work practice levels.

SOWO 7120 PSYCHOSOCIAL CONTEXT OF DISABILITY (3) LEC. 3. Prepares the social worker to be an effective practitioner for persons with disabilities by exploring the psychosocial context of the lives and experiences of persons with disabilities and their families from various perspectives.

SOWO 7130 SOCIAL WORK PRACTICE WITH CHILDREN AND ADOLESCENTS (3) LEC. 3. This course develops advanced clinical social work practice knowledge and skills to engage and intervene with children and adolescents with health and mental health risk and provides knowledge for community social workers serving children who are exposed to stress.

SOWO 7140 DIVERSITY AND DIFFERENCE IN PRACTICE (3) LEC. 3. Students must be admitted to the Masters of SocialWork Program to enroll in this course.

SOWO 7600 VETERINARY SOCIAL WORK PRACTICE (3) DSL. This course reviews research, practice settings, and policy needs in the four areas of veterinary social work: the link between human and animal violence, animal assisted interventions, animal related grief and bereavement, and compassion fatigue. Students will be expected to become knowledgeable about research findings and apply them to social work practice skills and policy advocacy.

SOWO 7700 FOUNDATIONS OF SOCIAL WORK RESEARCH (3) LEC. 3. This course provides a study of quantitative and qualitative research methods in order to build knowledge for social work practice. Students will be prepared to develop, implement and communicate ethical, empirically-based scientific knowledge.

SOWO 7800 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT (3) LEC. 3. This graduate-level foundation course covers theories, themes, and issues that influence individual and group and development across the life span- in interaction with the environment- as it underlies social work practice and research.

SOWO 7920 GENERALIST FIELD (10) INT. 10. SU. This course prepares students for responsible, competent entry into the profession by providing opportunities to practice social work with a generalist perspective in agency settings under educational supervision. This course requires completion of 432 total hours in an agency setting.

SOWO 7930 ADVANCED FIELD (12) INT. 12. SU. Pr. SOWO 7920. Coreq. SOWO 7950. This course provides upper level graduate social work students with opportunities to develop advanced generalist and clinical practice skills under the supervision of an MSW Field Instructor. Students complete 512 hours in an approved agency during this field experience. Course may be repeated for a maximum of 18 credit hours.

SOWO 7940 ADVANCED FIELD PLACEMENT I (6) INT. SU. This is the first course in a sequence of two field placement courses that are taken successively. The course provides upper level graduate social work students with opportunities to develop advanced generalist and clinical practice skills under the supervision of an MSW Field Instructor. Students complete 256 hours in an approved agency in one semester during this field experience.

SOWO 7950 INTEGRATIVE SEMINAR (3) SEM. 3. Pr. SOWO 7020 and P/C SOWO 7930. This seminar course assists students in integrating and applying classroom learning with the advanced field placement. Opportunities are provided for case presentation, discussion and peer consultation.

SOWO 7960 ADVANCED FIELD PLACEMENT II (6) INT. SU. This is the second course in a sequence of two field placement courses that are taken successively. The course provides upper level graduate social work students with opportunities to develop advanced generalist and clinical practice skills under the supervision of an MSW Field Instructor. Students must successfully complete SOWO 7940 Advanced Field I to enter this course. Students complete 256 hours in an approved agency in one semester during this field experience.

SOWO 7970 SPECIAL TOPICS IN SOCIAL WORK (3) LEC. 3. Study of a topic of special interest in professional social work practice beyond current departmental course offerings. Course may be repeated for a maximum of 6 credit hours.

Sociology - SOCY

Courses

SOCY 1000 SOCIOLOGY: GLOBAL PERSPECTIVE (3) LEC. 3. Social Science I Core. Introduction to the study of social and cultural patterns of society.

SOCY 1007 HONORS SOCIOLOGY (3) LEC. 3. Pr. Honors College. Social Science I Core. Introduction to the study of social and cultural patterns in society.

SOCY 1050 AUBURN IN THE WORLD: SOCIETY AND CULTURE (4) LEC. 4. Auburn Global students. Part of the Auburn Global International Accelerator Program. The course will introduce students to American society and culture through core sociological concepts. May count either SOCY 1050 or HIST 1000.

SOCY 1100 CURRENT ISSUES IN RACE AND ETHNICITY (3) LEC. 3. An exploration of how race and ethnicity shape our daily lives and the world around us.

SOCY 2000 SOCIAL ISSUES (3) LEC. 3. Pr. SOCY 1000 or SOCY 1003 or SOCY 1007. Exploration of the claims and conflicts of public issues and moral apprehensions, including crime, the environment, gender and racial inequality, various syndromes.

SOCY 2050 CRIME AND JUSTICE IN AMERICA (3) LEC. 3. Distribution and measurement of crime, different variations in criminal behavior, and handling crime in the American criminal justice system.

SOCY 2100 POPULATION AND SOCIETY (3) LEC. 3. Survey of theories and research of demographic processes and their interaction with the economy, education, family, medicine, science, and technology.

SOCY 2200 SOCIAL PSYCHOLOGY: SOCIOLOGICAL PERSPECTIVES (3) LEC. 3. Examination of collective influences on the person and the role the person plays in sustaining collective conditions.

SOCY 3000 CRIMINOLOGY (3) LEC. 3. Examination of etiological issues related to crime; major theories of crime causation from a wide variety of perspectives.

SOCY 3100 POLICE AND SOCIETY (3) LEC. 3. Pr. SOCY 1000 or SOCY 1003 or SOCY 1007 or Departmental approval. Sociological overview of policing and current issues that relate to the police.

SOCY 3200 SPORTS IN AMERICA (3) LEC. 3. Sociological perspectives on sports in the social system; organization and culture of sports in relationship to social class, race, and gender; and the interconnections between sports and society.

SOCY 3250 SENTENCING AND CORRECTIONS (3) LEC. 3. Pr. SOCY 1000 or SOCY 1003 or SOCY 1007 or Departmental approval. In-depth analysis of sentencing policies and the correction system.

SOCY 3300 SOCIOLOGY OF THE FAMILY (3) LEC. 3. Family as a major social institution, with emphasis on the American family; cross-cultural comparisons for perspective.

SOCY 3500 SOCIAL INEQUALITIES (3) LEC. 3. Pr. SOCY 1000 or SOCY 1003 or SOCY 1007. Exploration of the sources and uses of minority representations in the United States addressing inequalities such as race, ethnicity, gender, and sexual orientation.

SOCY 3550 DELINQUENCY AND JUVENILE JUSTICE (3) LEC. 3. Pr. SOCY 1000 or SOCY 1003 or SOCY 1007. Nature and distribution of delinquency in the United States, as well as the various components of the juvenile justice system.

SOCY 3600 UNDERSTANDING NATURE, SELF, AND SOCIETY (3) LEC. 3. The course examines the intersection between nature, self, and society, and draws on sociological scholarship and nature writing. Through readings, class conversations, imaginative writing reflections, and short field trips, students will be able to critically interrogate our social relationship with nature and study the social dynamics that shape the meanings we attach to nature. Credit will not be given to both SOCY 3600 and SUST 3600.

SOCY 3700 METHODS OF SOCIAL RESEARCH (3) LEC. 3. Pr. SOCY 1000 or SOCY 1003 or SOCY 1007. Methodological approaches to data collection used by social scientists including logic of science, hypothesis formation, and research design.

SOCY 4000 SOCIALIZATION (3) LEC. 3. Examination of mind, self, society, and interaction as symbolic phenomena grounded in social process; covers major intellectual influences, concepts, and figures.

SOCY 4100 DEVIANCE (3) LEC. 3. Analysis of creation and reaction to deviance through theoretical approaches; examines several deviant groups.

SOCY 4200 HEALTH AND SOCIETY (3) LEC. 3. Nature and organization of medical practice and health delivery systems with special attention to the role of physicians, patients, and disease and to the relationship between culture, politics, and health.

SOCY 4300 FIELD INSTRUCTION (3) LEC. 3. Pr., Departmental approval. Supplementary instruction concurrent with experience in some field of work involving application of sociological perspectives to community life. Course may be repeated for a maximum of 6 credit hours.

SOCY 4400 CONTEMPORARY THEORY (3) LEC. 3. Survey of theorists from Comte to the present, emphasizing theory construction, theoretical analysis, and differences in theoretical approaches.

SOCY 4700 THEORIES OF CRIME AND CRIMINALITY (3) LEC. 3. Theories of crime causation with emphasis on theory construction, theory analysis, and differences in theoretical approaches.

SOCY 4920 APPLIED SOCIOLOGY: INTERNSHIP (3) INT/LEC. Pr. SOCY 3500 or SOCY 3700 or ANTH 2000. Departmental approval. Internship in an organization or agency with the goal of learning how to use sociological knowledge in an applied setting. Course may be repeated for a maximum of 6 credit hours.

SOCY 4960 SPECIAL PROBLEMS IN SOCIOLOGY (3) AAB/IND. 3. Pr., Departmental approval. Independent reading program under supervision, to allow pursuit of specific interests in sociology not covered in other course offerings. Course may be repeated for a maximum of 6 credit hours.

SOCY 4970 SPECIAL TOPICS IN SOCIOLOGY (3) LEC. 3. Junior standing. Advanced topics in population and ecology, social structure, social institutions, socialization, religion, or other timely topics related to sociology. Course may be repeated for a maximum of 6 credit hours.

SOCY 5120 CRITICAL THINKING AND STRUCTURED ANALYSIS (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007 or Departmental approval. Exploration of various methodological and analytical issues related to critical thinking and structured analysis.

SOCY 5200 SOCIOLOGY OF LAW (3) LEC. 3. Controversial and contemporary issues in criminal law from a sociological perspective.

SOCY 5300 INFORMATION METHODS AND CYBER ANALYSIS (3) LEC. 3. Pr. (SOCY 1000 or SOCY 1007) and SOCY 5120 or Departmental approval. Overview of various methods and techniques of open source information analysis in the private and public sectors.

SOCY 5310 ADVANCED METHODS OF INFORMATION AND CYBER ANALYSIS (3) LEC. 3. Pr. (SOCY 1000 or SOCY 1007) and SOCY 5120 or Departmental approval. Application of methods and techniques of information analysis and related report writing.

SOCY 5400 SOCIOLOGY OF MENTAL HEALTH (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007. Social analysis of the nature, development, identification, and treatment of mental illness. Credit with not be given for both SOCY 5400 and SOCY 6400.

SOCY 5500 VICTIMOLOGY (3) LEC. 3. Impact of victimization upon the crime victim, offender, and society, as well as the dynamics of the victim-offender relationship. Credit will not be given for both SOCY 5500 and SOCY 6500.

SOCY 5600 SEX CRIMES (3) LEC. 3. Criminal sexual behavior, the social influences on what is defined as sexually deviant, and the ways the criminal justice system handles sex offenders. Credit will not be given for both SOCY 5600 and SOCY 6600.

SOCY 5650 DRUGS AND SOCIETY (3) LEC. 3. Context and correlates of drug use, relationship with crime and delinquency, and societal reaction to drug abuse. Credit will not be given for both SOCY 5650 and SOCY 6650.

SOCY 5670 SOCIOLOGY OF GENDER (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007. Social definitions and implications of gender, with emphasis on work, media, law, and interpersonal relationships. Credit will not be given for both SOCY 5670 and SOCY 6670.

SOCY 5680 SOCIAL MOVEMENTS (3) LEC. Pr. P/C SOCY 1000 or P/C SOCY 1007. Exploration of social movements as collective action leading to different forms of social change. Topics covered include the origins, dynamics and consequences of major social movements, including movements for civil rights, women's rights, disability access, sustainability, etc.

SOCY 5690 SOCIOLOGY OF EMOTIONS (3) LEC. 3. Pr. P/C SOCY 1000 or P/C SOCY 1007. Examination of the social dimensions of emotions. The emotional phenomena covered include love, empathy, anger, sadness, shame, fear, joy, happiness, and gratitude.

SOCY 5970 SPECIAL TOPICS IN SOCIOLOGY (3) LEC. 3. Pr., Departmental approval. Study of substantive areas sociology. Credit will not be given for both SOCY 5970 and SOCY 6970. Course may be repeated for a maximum of 6 credit hours.

SOCY 6120 CRITICAL THINKING AND STRUCTURED ANALYSIS (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007 or Departmental approval. Exploration of various methodological and analytical issues related to critical thinking and structured analysis. Credit will not be given for both SOCY 5120 and SOCY 6120.

SOCY 6200 SOCIOLOGY OF LAW (3) LEC. 3. Controversial and contemporary issues in criminal law from a sociological perspective. Credit will not be given for both SOCY 5200 and SOCY 6200.

SOCY 6300 INFORMATION METHODS AND CYBER ANALYSIS (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007 and (SOCY 5120 or SOCY 6120) or Departmental approval. Overview of various methods and techniques of open source information analysis in the private and public sectors. Credit will not be given for both SOCY 5300 and SOCY 6300.

SOCY 6310 ADVANCED METHODS OF INFORMATION AND CYBER ANALYSIS (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007 and (SOCY 5120 or SOCY 6120) or Departmental approval. Application of methods and techniques of information analysis and related report writing. Credit will not be given for SOCY 5310 and SOCY 6310.

SOCY 6400 SOCIOLOGY OF MENTAL HEALTH (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007. Social analysis of the nature, development, identification, and treatment of mental illness. Credit will not be given credit for both SOCY 5400 and SOCY 6400.

SOCY 6500 VICTIMOLOGY (3) LEC. 3. Impact of victimization upon the crime victim, offender, and society, as well as the dynamics of the victim-offender relationship. Credit will not be given for both SOCY 5500 and SOCY 6500.

SOCY 6600 SEX CRIMES (3) LEC. 3. Criminal sexual behavior, the social influences on what is defined as sexually deviant, and the ways the criminal justice system handles sex offenders. Credit will not be given for both SOCY 5600 and SOCY 6600.

SOCY 6650 DRUGS AND SOCIETY (3) LEC. 3. Context and correlates of drug use, relationship with crime and delinquency, and societal reaction to drug abuse. Credit will not be given for both SOCY 5650 and SOCY 6650.

SOCY 6670 SOCIOLOGY OF GENDER (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007. Social definitions and implications of gender, with emphasis on work, media, law, and interpersonal relationships. Credit will not be given for both SOCY 5670 and SOCY 6670.

SOCY 6680 SOCIAL MOVEMENTS (3) LEC. Exploration of social movements as collective action leading to different forms of social change. Topics covered include the origins, dynamics and consequences of major social movements, including movements for civil rights, women's rights, disability access, sustainability, etc.

SOCY 6690 SOCIOLOGY OF EMOTIONS (3) LEC. Examination of the social dimensions of emotions. The emotional phenomena covered include love, empathy, anger, sadness, shame, fear, joy, happiness, and gratitude.

SOCY 6970 SOCIOLOGY SPECIAL TOPICS (3) LEC. 3. Study of substantive areas of sociology. Credit will not be given for both SOCY 5970 and SOCY 6970. Course may be repeated for a maximum of 6 credit hours.

SOCY 7000 ADVANCED SOCIOLOGICAL THEORY (3) LEC. 3. Pr. SOCY 4400 or Departmental approval. Review of major types of sociological theory within the context of theoretical paradigms and significant theoretical issues that face the discipline.

SOCY 7100 STATISTICAL ANALYSIS OF SURVEY, AGGREGATE, AND LARGE DATA SOURCES (3) LEC. 3. Pr. STAT 2010 or STAT 2017 or Departmental approval. Techniques commonly used in multivariate statistical analysis of data sources such as surveys, archival records, and other large data sets. Credit will not be given for both SOCY 7100 and STAT 7100.

SOCY 7200 SEMINAR IN SOCIAL BEHAVIOR (3) SEM. 3. Research and theory concerning social and group influences on behavior.

SOCY 7250 SOCIOLOGY OF VIOLENCE (3) LEC. 3. In-depth coverage of various forms of violence from the sociological perspective.

SOCY 7850 TECHNOLOGY AND TEACHING IN SOCIOLOGY (1) LEC. 1. SU. Pr., Departmental approval. Technology as a teaching tool sociology classes.

SOCY 7930 DIRECTED STUDIES (3) IND. 3. Pr., Departmental approval. Independent reading course under the supervision of a department faculty member. Course may be repeated for a maximum of 6 credit hours.

SOCY 7990 RESEARCH AND THESIS (1-10) MST. Preparation of a thesis. Course may be repeated with change in topics.

Space Systems - SPCE

Courses

SPCE 6000 INTRODUCTION TO SPACE STUDIES (3) LEC. 3. An introduction to the space environment, operating in space, satellite design, and applying satellite technology to provide services and capabilities to a variety of user groups.

SPCE 6100 SPACE SYSTEMS OPERATIONS (3) LEC. 3. Pr. (SPCE 6000). An overview of space systems operations, operational orbits, orbital maneuver, station keeping, different stakeholders' mission operations, avoiding on-orbit crisis, and satellite/constellation end of life.

SPCE 6200 SPACECRAFT AND SATELLITE ARCHITECTURE DESIGN AND INTEGRATION (3) LEC. 3. Pr. (SPCE 6100). An overview of spacecraft and satellite architecture design followed by a practicum to apply lessons learned to create a space mission design that provides services and capabilities to a specific user group.

Speech, Language, and Hearing Sciences - SLHS

Courses

SLHS 1110 EAGLES SOCIAL SKILLS INSTRUCTION I (1) LEC. 1. Departmental approval. This course offers social skills instruction and introduces topics including basic conversational requirements, electronic communication, non-verbal communication, and miscellaneous social skills.

SLHS 1120 EAGLES SOCIAL SKILLS INSTRUCTION II (1) LEC. 1. Pr. SLHS 1110. Departmental approval. This course offers social skills instruction to EAGLES students and introduces topics including basic conversational requirements, electronic communication, non-verbal communication, and good sportsmanship.

SLHS 1130 EAGLES SOCIAL SKILLS INSTRUCTION III (1) LEC. 1. Pr. SLHS 1120. Departmental approval. This course offers social skills instruction to EAGLES students and introduces topics including get-togethers, handling arguments, and miscellaneous social skills.

SLHS 1140 EAGLES SOCIAL SKILLS INSTRUCTION IV (1) LEC. 1. Pr. SLHS 1130. Departmental approval. This course offers social skills instruction to EAGLES students and introduces topics including basic conversational requirements, handling bullying, minimizing rumors and gossip, and miscellaneous social skills.

SLHS 2500 COMMUNICATION DISORDERS IN SOCIETY (2) LEC. 2. Information on stuttering, speech, language, voice disorders and hearing impairment and how to interact with individuals with communication disorders.

SLHS 3000 INTRODUCTION TO SPEECH, LANGUAGE, AND HEARING SCIENCES (3) LEC. 3. Survey of the field of speech pathology-audiology. Includes history of the profession, the inter-relatedness of the various pathologies, general principles of evaluation and therapy and the profession itself.

SLHS 3100 LINGUISTICS IN SLHS (2) LEC. 2. Pr. SLHS 4520. This course will use a basic linguistic framework of typical development of language from which to study developmental and acquired disorders of language.

SLHS 3400 ANATOMY AND PHYSIOLOGY OF SPEECH (3) LEC. 3. The study of anatomy and physiology of speech production including respiratory, laryngeal and articulatory-resonance systems and the process swallowing. Speech acoustics will be introduced.

SLHS 3410 ARTICULATORY PHONETICS AND PHONOLOGICAL DEVELOPMENT (3) LEC. 3. Pr. SLHS 3400 and P/C SLHS 4520. Principles of phonetics and their application to speech.

SLHS 3550 SPEECH AND HEARING SCIENCE (3) LEC. 3. Pr. SLHS 3400 and SLHS 4600 and SLHS 3410. The acoustic properties of speech, their relationship to perceptual and physiological phonetics, and instrumentation used in speech science.

SLHS 3560 NEUROANATOMY FOR COMMUNICATION DISORDERS (3) LEC. 3. Pr. SLHS 3400 and SLHS 4600. Anatomy and physiology of the central nervous system as it relates to speech, language, hearing and swallowing function and disorders.

SLHS 4100 LANGUAGE DISORDERS ACROSS THE LIFESPAN (3) LEC. 3. Pr. SLHS 4520. Introduction to developmental language impairment from infancy through adolescence as well as acquired language impairment in adulthood with focus on the nature of language impairment, assessment of language disorders, and treatment of language disorders.

SLHS 4200 SPEECH DISORDERS ACROSS THE LIFESPAN (3) LEC. 3. Pr. SLHS 3400 and SLHS 4600 and SLHS 3410. This is one of two courses offered in the area of speech and language disorders. This course reviews the typical acquisition of the speech sound system and reviews basic articulation, phonological, fluency, voice, and motor speech disorders.

SLHS 4300 CRITICAL THINKING AND EVIDENCE-BASED PRACTICE: AN INTRODUCTION (2) LEC. 2. Pr. SLHS 3000 and P/C SLHS 4520. Explores the decision making process in assessment and treatment of individuals with communication disorders. Emphasis on a scientific framework integrating research evidence and critical thinking.

SLHS 4500 SPECIAL OBSERVATION (1) DSL. Pr. (SLHS 4520 or CMDS 4520) and (SLHS 4100) and (SLHS 3410 or CMDS 3410). This course will provide foundational knowledge in treatment methods and guided observation of 25 hours in speech, language, and cognitive-communication evaluation and treatment.

SLHS 4520 LANGUAGE ACQUISITION (3) LEC. 3. First language acquisition in childhood and its change throughout the life span.

SLHS 4580 INTRODUCTION TO CLINICAL PROCEDURES IN SPEECH-LANGUAGE PATHOLOGY (3) LEC. 3, CLN/LEC. 30. Pr. SLHS 4520. Orientation to clinical activities, management methods and preparation of professional reports.

SLHS 4600 AUDIOLOGY AND HEARING SCIENCE (3) LEC. 3. Principles of auditory reception and the problems involved in measuring, evaluating and conserving hearing.

SLHS 4620 HEARING REHABILITATION (3) LEC. 3. Pr. SLHS 4600. Rehabilitation problems of children and adults in the area of auditory training, speech reading and speech conservation; includes clinical practice.

SLHS 4650 INTRODUCTION TO CLINICAL PROCEDURES IN AUDIOLOGY (3) LEC. 3. Pr. SLHS 4600. Audiological instrumentation and test procedures.

SLHS 4930 DIRECTED STUDY IN SPEECH, LANGUAGE & HEARING SCIENCES (1-3) IND. Pr. SLHS 3000 and SLHS 3400 and SLHS 4600. Departmental approval. Directed learning experience in speech, language, or hearing sciences involving literature review and writing related to a topic specific to the student. Course may be repeated for a maximum of 6 credit hours.

SLHS 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Credit hours that apply towards fulfilling Honors requirement. Course may be repeated for a maximum of 3 credit hours.

SLHS 4980 UNDERGRADUATE RESEARCH (1-3) LAB. 2-9. Pr. P/C SLHS 3000. Departmental approval. This course is designed for active research engagement within a mentor's laboratory or the research implementation phase of an undergraduate research fellowship. Course may be repeated for a maximum of 3 credit hours.

SLHS 4997 HONORS THESIS (1-3) RES. Pr. Honors College. Departmental approval. Credit hours that apply towards Honor thesis requirements, the topic of which determined by the Honor's thesis faculty advisor and the student advisee. Course may be repeated for a maximum of 6 credit hours.

SLHS 5000 STUDY ABROAD IN SPEECH-LANGUAGE PATHOLOGY (3) AAB. Pr. CMDS 3000 or SLHS 3000. Survey of current international research and educational/clinical practices in the field of speech-language pathology. Course may be repeated for a maximum of 6 credit hours.

SLHS 5100 MOTOR LEARNING, GENERALIZATION, AND ADHERENCE FOR SPEECH LANGUAGE PATHOLOGY (2) LEC. 2. Pr. SLHS 3400 and SLHS 4200. Motor learning, generalization, and adherence knowledge and skills required for speech-language therapist assistants and speech-language pathologists use in therapy.

SLHS 5200 CULTURAL ASPECTS IN APPLIED HEALTH SCIENCES (2) LEC. 2. Pr. SLHS 3000. This course is designed to provide undergraduate students in speech, language, and hearing sciences, and other applied health disciplines the opportunity to broaden their knowledge of and implementation of culturally responsive practices when working with patients/clients and team members.

SLHS 5300 COGNITIVE AND LINGUISTIC ASPECTS OF AGING (2) LEC. 2. Pr. SLHS 3560. Explores the age-related changes in cognitive-linguistic decline including the mechanisms of this decline; external factors such as physical exercise, pharmacology, and cognitive rehabilitation; and suggestions for prevention of cognitive decline and dementia.

SLHS 5400 ISSUES IN SPEECH (2) LEC. 2. Pr. SLHS 3400 and SLHS 4200. Current issues related to aspects of development, habilitation, and/or rehabilitation of articulation, voice, or fluency disorders will be explored. Course may be repeated for a maximum of 4 credit hours.

SLHS 5500 ISSUES IN AUDIOLOGY (2) LEC. 2. Pr. SLHS 3400 and SLHS 4600. Current issues related to research methodologies and clinical care of auditory and vestibular development, psychoacoustics, and pathologies of the auditory system will be explored.

SLHS 5960 SPECIAL PROBLEMS IN LANGUAGE (2) LEC. 2. Pr. SLHS 4520. This Special Problems Seminar is a two hour per week meeting for study of topics in language. Topics will include aspects of language acquisition , including autism spectrum disorder and literacy, that are clinically relevant for speech language pathologists. Course may be repeated for a maximum of 8 credit hours.

SLHS 7500 CLINICAL PRACTICUM IN SLP (1-2) PRA. 1-2. Clinical practicum in evaluation and treatment of individuals with speech-language disorders. Course may be repeated for a maximum of 7 credit hours.

SLHS 7510 ADVANCED SPEECH SOUND DISORDERS (3) LEC. 3. Empirical and theoretical bases for speech sound disorders.

SLHS 7520 LANGUAGE DISORDERS: BIRTH TO FIVE (3) LEC. 3. Empirical and theoretical bases for evaluation and treatment of language disorders for the birth to five population.

SLHS 7530 STUTTERING (3) LEC. 3. Empirical and theoretical bases for stuttering, including assessment and intervention.

SLHS 7540 VOICE & UPPER AIRWAY DISORDERS (3) DSL/LEC. Empirical and theoretical bases for voice pathologies, diagnoses and therapies.

SLHS 7550 ADULT APHASIA (3) LEC. 3. Empirical and theoretical bases for adult language disorders associated with CNS pathologies, diagnoses and therapies.

SLHS 7560 CRANIOFACIAL ANOMALIES (3) LEC. 3. A review of syndromic and non-syndromic craniofacial disorders including cleft lip/palate. Assessment and treatment of speech and language problems associated with these anomalies is emphasized.

SLHS 7570 RESEARCH METHODS IN SPEECH-LANGUAGE PATHOLOGY (2) LEC. 2. Survey of experimental designs and statistical procedures used in the speech-language pathology literature for consumers of research.

SLHS 7580 COGNITION ACROSS THE LIFESPAN (3) LEC. 3. Advanced review of concepts and trends associated with cognitive functions. The assessment and intervention of cognitive communication disorders will be discussed.

SLHS 7590 LANGUAGE DISORDERS: SCHOOL-AGE (3) LEC. Empirical and theoretical bases for evaluation and treatment of language disorders for school-age children through adolescence.

SLHS 7600 CLINICAL PROBLEMS IN HEARING (2) LEC. 2. Pr. (CMDS 4650 or SLHS 4650) and (CMDS 4600 or SLHS 4600) and (CMDS 4620 or SLHS 4620). Topics chosen to address topics and problems in hearing. Course may be repeated for a maximum of 12 credit hours.

SLHS 7700 CLINICAL PROBLEM SOLVING I (2) LEC. 2. This course will help students develop problem-solving skills that can be applied to clinical practice in Speech-Language Pathology.

SLHS 7720 CLINICAL PROBLEM SOLVING II (2) LEC. 2. This course will promoted advanced problem-solving skills that can be applied to clinical practice in Speech-Language Pathology.

SLHS 7740 CLINICAL PROBLEM SOLVING III (2) LEC. This course will promoted advanced problem-solving skills that can be applied to clinical practice in Speech-Language Pathology.

SLHS 7800 PROFESSIONAL PRACTICE IN SLP (1) LEC. 1, PRA. 1-3. This course provides specific opportunities and experiences to build and demonstrate clinical knowledge and skills outside the traditional clinical practicum experience. Experiences cross settings and modalities and may include interprofessional team members. Course may be repeated for a maximum of 3 credit hours.

SLHS 7810 MOTOR SPEECH DISORDERS (3) LEC. 3. Empirical and theoretical bases for motor speech disorders, diagnoses and therapies.

SLHS 7820 DYSPHAGIA (3) LEC. 3. The role of speech-language pathology in diagnosing and treating swallowing disorders in children and adults. Emphasis will be placed upon clinical and instrumental assessment and treatment strategies.

SLHS 7840 AUGMENTATIVE AND ALTERNATIVE COMMUNICATION (3) LEC. Process and specific equipment involved in assessment, prescription and intervention with adults and children who are unable to use traditional communication modes.

SLHS 7880 SPECIAL POPULATIONS IN SLHS (2) LEC. 2. This course is intended to engage students in developing practical and clinically applicable knowledge about special populations that are not directly addressed in other courses in the SLHS SLP master’s program.

SLHS 7890 COUNSELING IN SPEECH-LANGUAGE PATHOLOGY (2) LEC. 2. This course is designed to provide students with an overview of counseling skills that they can apply to clinical practice with people with communication disorders.

SLHS 7920 INTERNSHIP IN SPEECH-LANGUAGE PATHOLOGY (5) LEC. 5. SU. Completion of all academic course work. Successful completion of comprehensive exams or enrollment in graduate thesis. Course may be repeated for a maximum of 10 credit hours.

SLHS 7930 DIRECTED STUDIES (1-3) IND. Conferences, readings, research or reports in a specialized area of communication disorders. Course may be repeated for a maximum of 3 credit hours.

SLHS 7970 SPECIAL TOPICS SEMINAR (2) SEM. Advanced treatment of contemporary topics and trends, as well as current research aspects of audiology and speech-language pathology. Course may be repeated for a maximum of 4 credit hours.

SLHS 7990 RESEARCH AND THESIS (1-5) MST. Credit hours to fulfill thesis requirements. Course may be repeated with change in topics.

SLHS 8000 PROFESSIONAL DEVELOPMENT FOR RESEARCH CAREERS IN HEALTH SCIENCES (1-2) LEC. 1-2. SU. In-depth survey of professional aspects relevant to research careers in health sciences fields (e.g., ethical research practices, professional communication of scholarly work, employment readiness). Course may be repeated for a maximum of 5 credit hours.

SLHS 8100 HEARING SCIENCE (3) LEC. 3. Introduction to instrumentation and calibration of audiometric equipment. Auditory perception in normal-hearing and hearing impaired listeners.

SLHS 8110 AUDITORY PHYSIOLOGY (3) LEC. 3. Detailed study of the anatomy and physiology of the human auditory, and vestibular system over the lifespan.

SLHS 8120 AUDIOLOGY CLINICAL METHODS (3) LEC. 3. Use of audiometric equipment, administering audiological tests, recording test results, and interpreting test findings, including otoscopy, and cerumen management.

SLHS 8200 DIAGNOSTIC AUDIOLOGY (3) LEC. 3. Basic and advanced audiometric techniques to assess auditory system's site of lesion, including otoscopy, cerumen management, otoacoustic emissions and immittance.

SLHS 8210 MEDICAL ASPECTS OF HEARING DISORDERS (3) LEC. 3. Study of the disorders of hearing including their medical diagnosis, evaluation, and treatment.

SLHS 8220 AMPLIFICATION I (3) LEC. 3. Background and development of hearing aids and other amplification systems; performance standards and measurement techniques; selection, fitting and dispensing procedures

SLHS 8300 CENTRAL AUDITIORY PROCESSING (3) LEC. Selected clinical procedures in audiology, including electrophysiologic and behavioral tests of central auditory functioning.

SLHS 8310 AURAL REHABILITATION (3) LEC. Psychosocial aspects on hearing loss; clinical and therapeutic management of older persons with hearing disorders including counseling of the hearing-impaired and their families.

SLHS 8320 CLINICAL APPLICATIONS OF AMPLIFICATION (2) LEC. Didactic and practical training in use of instrumentation for testing, programming, fitting and verifying amplification.

SLHS 8400 PEDIATRIC AUDIOLOGY (3) LEC. 3. Normal development of speech, language and hearing losses' effect on communication, etiologic factors, screening, audiologic assessment, differential diagnosis and clinical management.

SLHS 8410 AURAL HABILITATION (3) LEC. 3. The parameters involved in the management of hearing-impaired school-aged children.

SLHS 8420 AMPLIFICATION II (3) LEC. 3. Pr. CMDS 8220 or SLHS 8220. Review of recent trends in hearing aid technology including digital and Programmable instruments.

SLHS 8430 CLINICAL APPLICATION OF DIAGNOSTIC AUDIOLOGY (2) LEC. Pr. CMDS 8320 or SLHS 8320. Didactic and practical training for selection, administration, and interpretation of behavioral and electrophysiologic tests, including auditory processing disorders.

SLHS 8500 ELECTROPHYSIOLOGICAL PROCEDURES IN AUDIOLOGY (3) LEC. 3. Selected neurophysiological clinical procedures in audiology, including electronystagmography and auditory evoked potentials.

SLHS 8510 CLINICAL APPLICATION OF BALANCE ASSESSMENT (2) LEC. Pr. (CMDS 8230 and CMDS 8320 and CMDS 8430) or (SLHS 8230 and SLHS 8320 and SLHS 8430). Didactic and practical training for selecting, conducting, and interpreting tests to identify disorders of balance and other auditory related systems.

SLHS 8520 HEARING CONSERVATION (3) LEC. Pr. CMDS 8310 or SLHS 8310. Studies the effects of noise on auditory system and implementation of hearing conservation programs in industry, schools and the military.

SLHS 8570 EVALUATION OF RESEARCH IN AUDIOLOGY (3) LEC. Survey of experimental designs and statistical procedures used in audiology research.

SLHS 8600 BALANCE DISORDERS (3) LEC. 3. Detailed coverage of the assessment and treatment of patients with balance disorders using nystagmography and other techniques.

SLHS 8610 IMPLANT TECHNOLOGY (3) LEC. Detailed study of the assessment and treatment of patients with cochlear implants.

SLHS 8620 OUTCOME MEASURES IN AUDIOLOGY (3) LEC. Application of research methodology to demonstrate efficacy in clinical service delivery in all areas of audiologic practice.

SLHS 8630 COUNSELING IN AUDIOLOGY (3) LEC. 3. Advanced course in the counseling component of rehabilitative audiology.

SLHS 8650 ADVANCED AUDIOMETRY (2) LEC. 2. Pr. (CMDS 8120 and CMDS 8320 and CMDS 8430 and CMDS 8510) or (SLHS 8120 and SLHS 8320 and SLHS 8430 and SLHS 8510). Didactic and practical training for selection, administration, scoring, and interpretation of behavioral audiometric tests and electrophysiologic procedures.

SLHS 8700 PROFESSIONAL ISSUES (3) LEC. 3. Legal and ethical issues in clinical audiology.

SLHS 8800 THE NEUROLOGICAL BASES OF COMMUNICATION DISORDERS (3) LEC. 3. Anatomy and physiology of the central nervous system as it relates to speech, language and hearing function and disorders.

SLHS 8810 PRIVATE PRACTICE (3) LEC. 3. Concepts and strategies for private practice in the areas of clinical and industrial audiology.

SLHS 8850 GRANT PROPOSAL PREPARATION IN HEALTH SCIENCES (3) LEC. 3. Overview of the grant proposal preparation process, from identifying an appropriate funding mechanism to developing the materials for a grant proposal (e.g., specific aims, research plan, budget).

SLHS 8910 CLINICAL PRACTICE IN AUDIOLOGY (2) DSL/LEC. Clinical practicum involving evaluation and management of patients of all ages with disorders of auditory, vestibular, and other auditory related systems.

SLHS 8920 CLINICAL INTERNSHIP (5) INT. SU. Pr. CMDS 8910 or CMDS 8916 or SLHS 8910 or SLHS 8916. Intensive clinical experience at off-campus setting up to 20 hours per week of supervised practicum. Course may be repeated for a maximum of 15 credit hours.

SLHS 8940 CLINICAL RESIDENCY (6) INT. SU. Pr. CMDS 8920 or SLHS 8920. A full time, supervised, nine month residency at an off-campus facility that provides audiological services. Fall, Spring.

SLHS 8950 AUDIOLOGY GRAND ROUNDS (3) LEC. Discussion/Seminar in timely clinical issues in audiology, clinical problem solving and case studies in contemporary audiologic service delivery.

SLHS 8980 CAPSTONE PROJECT (1) IND. A project involving applied clinical research or development of an innovative clinical procedure.

Statistics - STAT

Courses

STAT 1010 DATA EPISTEMOLOGY (3) LEC. 3. This course will provide the basic tools to understand, interpret and reason with data in order to critically think about data-driven knowledge. Acquiring notions of logical reasoning and data literacy, the students will know how to analyze and ask the correct questions regarding data collection, representation and interpretation.

STAT 2010 STATISTICS FOR SOCIAL AND BEHAVIOR SCIENCES (4) LEC. 3. LAB. 2. Pr. MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617. Introduction to basic principles of statistical reasoning and statistical procedures used in data analysis in the social and behavioral sciences.

STAT 2017 HONORS STATISTICS FOR SOCIAL AND BEHAVIORAL SCIENCES (4) LEC. 3. LAB. 2. Pr. Honors College. Introduction to statistical data analysis, statistical packages, and APA-style statistical reporting use in research in Psychology and other social and behavioral sciences.

STAT 2510 STATISTICS FOR BIOLOGICAL AND HEALTH SCIENCES (3) LEC. 3. Pr. MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617 or MATH 1680 or MATH 1683. Introduction to statistical concepts, reasoning and methods used in data analysis, descriptive statistics, sampling distributions, statistical inference, confidence intervals, regression or correlation, contingency tables. Students who have previous credit in any higher-numbered math course may not receive credit.

STAT 2600 BUSINESS ANALYTICS I (3) LEC. 3. Pr. MATH 1680 or MATH 1683 or P/C COMP 1000 or COMP 1003. Introduction to analytics in business including use of data to make business decisions, basic predictive business modeling, and communication of analytical results. Minimum 2.0 overall cumulative undergraduate GPA.

STAT 2610 STATISTICS FOR BUSINESS AND ECONOMICS (3) LEC. 3. Pr. MATH 1690. Introduction to statistical analysis, theory, and interpretation used in business and economics.

STAT 2710 STATISTICAL COMPUTING (1) LEC. 1. Pr. (P/C STAT 2010 or P/C STAT 2017) and (P/C STAT 2510 or STAT 2513) and P/C STAT 2610 and P/C STAT 3010. Introduction to basic statistical computing programs and methods..

STAT 3010 STATISTICS FOR ENGINEERS AND SCIENTISTS (3) LEC. 3. Pr. MATH 1610 or MATH 1613 or MATH 1617 or MATH 1710. Introduction to statistical methods and analysis used in engineering and science.

STAT 3600 PROBABILITY AND STATISTICS I (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Calculus-based introduction to probability and statistics with an emphasis on practical problem-solving.

STAT 3610 PROBABILITY AND STATISTICS II (3) LEC. 3. Pr. STAT 3600. Departmental approval. Continuation of STAT 3600.

STAT 3611 PROBABILITY AND STATISTICS II LABORATORY (1) LAB. 2. Departmental approval. Coreq. STAT 3610. The application of statistical techniques from STAT 3610.

STAT 4000 INTRODUCTION TO DATA SCIENCE (3) LEC. 3. Pr. STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2600 or STAT 3010 or STAT 3600 or STAT 3603. Departmental approval. This course will provide an entry level introduction to the field of data science. The course will cover the essential statistical and computational tools including programming and analytical models, as well as teamwork, communication, and critical thinking.

STAT 4610 APPLIED REGRESSION ANALYSIS (3) LEC. 3. Pr. STAT 3610 or STAT 3010. Least squares estimation, hypothesis testing and confidence interval estimation in regression; simple, polynomial and multiple linear regression; residual and lack-of-fit analysis; use of dummy variables; multiple and partial correlation analysis; model building algorithms and model comparisons; transformations.

STAT 4620 APPLIED NONPARAMETRIC STATISTICS (3) LEC. 3. Review of elementary probability; goodness-of-fit tests; for singles and several location parameters; tests for scale parameters; distribution tests; measures of association; bootstrap and permutation tests.

STAT 4630 APPLIED TIME-SERIES ANALYSIS (3) LEC. 3. ARIMA models: the autoregressive process, the moving average process, and the ARMA process; forecasting, errors and confidence intervals, updating forecast models; estimation; model building and assessment; applications in econometrics.

STAT 4650 INTRODUCTION TO BAYESIAN STATISTICS (3) LEC. 3. LAB. 0. Pr. STAT 3610. This course will develop an introduction to the Bayesian thinking and the Fundamental Concepts in Bayesian Statistics.

STAT 4970 SPECIAL TOPICS IN STATISTICS (1-3) LEC. Departmental approval. Special topics designed to meet the needs and interest of students. Course may be repeated for a maximum of 6 credit hours.

STAT 4980 UNDERGRADUATE RESEARCH IN STATISTICS AND DATA SCIENCE (1-3) IND/RES. Directed research in Statistics and Data Science. Departmental Approval. Course may be repeated for a maximum of 3 credit hours.

STAT 5000 INTERMEDIATE STATISTICAL METHODS FOR DATA SCIENCE (3) LEC. 3. Pr. STAT 3610 or STAT 3010. C Grade or better in STAT3610 or STAT3010 or equivalent. Principles of probability and statistics, multiple testing and bootstrapping, parametric and nonparametric regression, generalized linear models, time dependent data with a focus on Data Science.

STAT 5110 SAS PROGRAMMING AND APPLICATIONS (3) LEC. 3. Pr. STAT 3010 or STAT 3610. Emphasis is placed on using SAS routines to obtain statistical analyses for common statistical methods and interpreting output.

STAT 5210 R PROGRAMMING FOR DATA SCIENCE (3) LEC. 3, LEC. 3. Pr. STAT 2510 or STAT 3010 or STAT 3610. Fundamental concepts on R programming language and popular R packages. Topics include basic syntax, R objects, control flow, file input and output, building R packages, data manipulation, visualization, interface to C, parallel computing, building web apps.

STAT 5330 DATA BASED DECISION MAKING USING SIX SIGMA (3) LEC. 3. Pr. STAT 3610 and INSY 4330. Departmental approval. Covers statistical tools needed for implementation of "Six Sigma", "Learn Six Sigma" and "Design for Six Sigma". Credit will not be given for both STAT 5330 and STAT 6330/ 6336.

STAT 5600 PROBABILITY AND STATISTICS FOR DATA SCIENCE (3) LEC. 3. Pr. STAT 3610 or (STAT 3010 and MATH 1620) or (STAT 3010 and MATH 1627). Grade of C or better in STAT 3610 or STAT 3010 and Grade of C or better in MATH 1620 or equivalent. Basic probability theory, random variables, multivariate random variables, expectation, random processes, times series, convergence of random processes, Markov chains, maximum likelihood estimation, Bayesian statistics, hypothesis testing, prediction, sampling and resampling methods, multivariate statistics.

STAT 5610 FUNDAMENTALS OF STATISTICAL INFERENCE I (3) LEC. 3. Pr. STAT 3600 and STAT 3610. Probability and independence; discrete and continuous distributions, random variable, moments; joint, marginal, conditional distributions; exponential families; bivariate transformations, covariance and correlation; multivariate distributions, sums of random variables, sampling distributions for normal data, order statistics; convergence of random variables, principles of data reduction; the likelihood principle.

STAT 5620 FUNDAMENTALS OF STATISTICAL INFERENCE II (3) LEC. 3. Pr. STAT 5610. Properties of random samples; generating a random sample; point and interval estimation; hypothesis testing; Analysis of Variance: one-way ANOVA, multi-way ANOVA and ANCOVA; linear regression, multiple regression and GLM methods, logistic regression.

STAT 5630 SAMPLE SURVEY, DESIGN AND ANALYSIS (3) LEC. 3. Pr. STAT 3600. Departmental approval. Estimation of means, proportions, finite populations, stratified sampling, systematic sampling ratio estimations.

STAT 5650 STATISTICAL LEARNING (3) LEC. 3. Pr. STAT 5000. or equivalent. Introduction to modern methods and algorithms in Statistics. Topics include common supervised and unsupervised learning methods such as linear regression, logistic regression, regularization, non-parametric regression, model assessment and selection, neural network, support vector machines, principal components analysis.

STAT 5670 PROBABILITY AND STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 2630 or MATH 2637. Random variables, discrete and absolutely continuous distributions. Poisson process, expectation and conditional expectation. Moment generating functions, limit distributions. Emphasis on probabilistic reasoning and problem solving. Credit will not be given for both STAT 5670 and MATH 5670.

STAT 5680 PROBABILITY AND STOCHASTIC PROCESSES II (3) LEC. 3. Pr. STAT 5670 or MATH 5670. Multivariate distributions, Central Limit Theorem, Laplace transforms, convolutions, simulations, renewal processes Continuous-time Markov chains, Markov renewal and semi-regenerative processes, Brownian motion and diffusion. Credit will not be given for both STAT 5680 and MATH 5680.

STAT 5690 CHAOTIC AND RANDOM PHENOMENA (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627. Statistics and modeling of random phenomena in connection to computational complexity, data analysis, processes of chance and chaotic nonlinear systems. Credit will not be given for both STAT 5690 and MATH 5690.

STAT 6000 INTERMEDIATE STATISTICAL METHODS FOR DATA SCIENCE (3) LEC. 3. Pr. STAT 3610 or STAT 3010. C Grade or better in STAT 3610 or STAT 3010 or equivalent. Principles of probability and statistics, multiple testing and bootstrapping, parametric and nonparametric regression, generalized linear models, time-dependent data.

STAT 6110 SAS PROGRAMMING AND APPLICATIONS (3) LEC. 3. Pr. STAT 3010 or STAT 3610 or P/C STAT 7000. Emphasis is placed on using SAS routines to obtain statistical analyses for common statistical methods and interpreting output.

STAT 6210 R PROGRAMMING FOR DATA SCIENCE (3) LEC. 3. Pr. STAT 2510 or STAT 3010 or STAT 3610. Fundamental concepts on R programming language and popular R packages. Topics include basic syntax, R objects, control flow, file input and output, building R packages, data manipulation, visualization, interface to C, parallel computing, building web apps.

STAT 6330 DATA BASED DECISION MAKING USING SIX SIGMA (3) LEC. 3. Pr. STAT 3610 and INSY 4330. Departmental approval. Covers statistical tools needed for implementation of "Six Sigma", "Learn Six Sigma" and "Design for Six Sigma". Credit will not be given for both STAT 5330 and STAT 6330/ 6336.

STAT 6600 PROBABILITY AND STATISTICS FOR DATA SCIENCE (3) LEC. 3. Pr. STAT 3610 or (STAT 3010 and MATH 1620) or (STAT 3010 and MATH 1627). Grade of C or better in STAT 3610 or STAT 3010 and Grade of C or better in MATH 1620 or equivalent. Basic probability theory, random variables, multivariate random variables, expectation, random processes, times series, convergence of random processes, Markov chains, Maximum Likelihood Estimation, Bayesian statistics, hypothesis testing, prediction, Sampling and Resampling methods, multivariate statistics.

STAT 6610 FUNDAMENTALS OF STATISTICAL INFERENCE I (3) LEC. 3. Pr. STAT 3600 and STAT 3610. This class is first of a two-semester sequence in probability and statistics taught at a calculus-based level. Students should gain an understanding of probability and random variables in order to have the foundation to conduct statistical inference in STAT 5620/6620.

STAT 6620 FUNDAMENTALS OF STATISTICAL INFERENCE II (3) LEC. 3. Pr. STAT 6610. This class is second of a two-semester sequence in probability and statistics taught at a calculus-based level. Students should gain an understanding of inference for the practice of statistics.

STAT 6630 SAMPLE SURVEY, DESIGN AND ANALYSIS (3) LEC. 3. Pr. STAT 3600. Departmental approval. Estimation of means, proportions, finite populations, stratified sampling systematic sampling ratio estimations.

STAT 6650 STATISTICAL LEARNING (3) LEC. 3. Pr. STAT 6000. or equivalent. Introduction to modern methods and algorithms in Statistics. Topics include common supervised and unsupervised learning methods such as linear regression, logistic regression, regularization, non-parametric regression, model assessment and selection, neural network, support vector machines, principal components analysis.

STAT 6670 PROBABILITY AND STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 2630 or MATH 2637. Random variables, discrete and absolutely continuous distributions. Poisson process, expectation and conditional expectation. Moment generating functions, limit distributions. Emphasis on probabilistic reasoning and problem solving. Credit will not be given for both STAT and MATH 6670.

STAT 6680 PROBABILITY AND STOCHASTIC PROCESSES II (3) LEC. 3. Pr. MATH 6670 or MATH 6676 or STAT 6670 or STAT 6676. Multivariate distributions, Central Limit Theorem, Laplace transforms, convolutions, simulations, renewal processes Continuous-time Markov chains, Markov renewal and semi-regenerative processes, Brownian motion and diffusion. Credit will not be given for both STAT 6680 and MATH 6680.

STAT 6690 CHAOTIC AND RANDOM PHENOMENA (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627. Statistics and modeling of random phenomena in connection to computational complexity, data analysis, processes of chance and chaotic nonlinear systems. Credit will not be given for both STAT 6690 and MATH 6690.

STAT 6830 STATISTICS AND PROBABILITY FOR TEACHERS (3) LEC. 3. Pr. STAT 3010 or STAT 3600 or STAT 3603. Connections of advanced college-level mathematics with the secondary mathematics curriculum, focusing on statistics and probability, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving. Admission to a program in Secondary Mathematics Education or department approval required.

STAT 7000 EXPERIMENTAL STATISTICS I (4) LEC. 4. Departmental approval. Paired and independent sample t-tests, ANOVA, F-tests, contrasts, tests for trends, multiple comparisons, CR and RCB designs of experiments, regression.

STAT 7010 EXPERIMENTAL STATISTICS II (3) LEC. 3. Pr. STAT 7000. Advanced topics in experimental design: writing linear models for experiment-expected mean squares, variance components, nested designs, Latin Square Designs, split plot designs, ANOVA and multiple regression.

STAT 7020 REGRESSION ANALYSIS (3) LEC. 3. Pr. STAT 7000. Departmental approval. Introduction to the method of least squares as it applies to regression and analysis of variance. Simple linear regression, multiple regression, model selection and diagnostics.

STAT 7030 CATEGORICAL DATA ANALYSIS (3) LEC. 3. Pr. STAT 3600 or MATH 3600 or STAT 7000. Departmental approval. Methods for analysis or categorical response data. Topics include Chi-square tests, Likelihood Ratio tests, Logistic Regression, and Loglinear Modeling.

STAT 7040 BIOSTATISTICS (3) LEC. 3. Pr. STAT 7000. Departmental approval. Epidemiology, biometry, methods of survival analysis.

STAT 7100 STATISTICAL ANALYSIS OF SURVEY, AGGREGATE AND LARGE DATA SOURCES (3) LEC. 3. Pr. STAT 2010 or STAT 2017. Departmental approval. Techniques commonly used in multivariate statistical analysis of data sources such as surveys, archival records, and other large data sets. Credit will not be given for STAT 7100 and SOCY 7100.

STAT 7250 PRACTICAL DATA ANALYSIS AND COMPUTATION FOR THE LIFE SCIENCES (3) LEC. 2. LAB. 1. Pr. STAT 7020 or WILD 7150. Data from the life sciences and advanced statistical techniques for data analyses and computaMon are brought together through a cross-fertilization of graduate students in the life sciences, statistics, and mathematics. Focus on production of publication-quality research on student-identified projects.

STAT 7270 EXPERIMENTAL DESIGN IN PSYCHOLOGY (4) LEC. 4. Pr. STAT 7000 and STAT 7020. Introduction to the analysis of data collected under differential experimental designs. Credit will not be given for both STAT 7270 and PSYC 7270.

STAT 7300 ADVANCED ENGINEERING STATISTICS I (3) LEC. 3. Pr. STAT 3610. Departmental approval. Advanced concepts of experimental design including blocking, regression approach to analysis of variance, fractional factorials in base-2, and base-3 designs. Emphasis throughout is on improving industrial products and processes. Credit will not be given for both STAT 7300 and INSY 7300.

STAT 7310 ADVANCED ENGINEERING STATISTICS II (3) LEC. 3. Pr. STAT 7300 or STAT 7306 or INSY 7300 or INSY 7306. Fractional factorial experimentation applied for the purpose of process and quality improvement and optimization, introduction to analysis of covariance, multiple regression analysis, and response surface analysis. Credit will not be given for both STAT 7310 and INSY 7310.

STAT 7600 STATISTICAL THEORY AND METHODS I (3) LEC. 3. Pr. STAT 3600. Departmental approval. Random variables, probability theory, random variables, probability distributions, sampling distributions, convergence.

STAT 7610 STATISTICAL THEORY AND METHODS II (3) LEC. 3. Pr. STAT 7600. Likelihood ratio, regression, ANOVA, categorical data, non-parametric methods, decision theory.

STAT 7620 NONPARAMETRIC STATISTICS (3) LEC. 3. Pr. STAT 3600. Departmental approval. Distribution-free methods of statistical inference. Sign, Wilcoxon signed-rank, and Mann-Whitney tests for location, the Chi-Square and Kolmogorov-Smirnov tests for goodness-of-fit. Measures of association.

STAT 7630 BAYESIAN STATISTICS (3) LEC. 3. LAB. 0. Pr. STAT 6620 or STAT 7610. This course will develop an understanding of Bayesian principles and methodologies and cover the modeling and computation required to perform advanced data analysis from the Bayesian perspective.

STAT 7650 COMPUTATIONAL STATISTICS (3) LEC. 3. Pr. STAT 7020 and STAT 7610. This course covers the theory and practice of common algorithms used for simulation, computing, and optimization in Statistics.

STAT 7670 APPLIED LONGITUDINAL DATA ANALYSIS (3) LEC. 3. To introduce students to statistical models and methods for the analysis of longitudinal date, i.e. data collected repeatedly on individuals (humans, animals, etc) over time (or other conditions).

STAT 7700 GENERALIZED LINEAR MODELS (3) LEC. 3. Pr. STAT 7600. Departmental approval. Exponential families and links functions, model fitting, likelihood methods, residual diagnostics, count data, estimating equations.

STAT 7780 SURVIVAL ANALYSIS (3) LEC. 3. Pr. STAT 7000. Departmental approval. Kaplan-Meier estimator, log-rank tests, Cox proportional hazard model, fully parametric models.

STAT 7800 LINEAR MODELS (3) LEC. 3. Pr. STAT 7610 and MATH 2660. Departmental approval. A rigorous development of some of the important topics of applied statistics: the multivariate normal distribution analysis of variance, regression, aspects of experimental design.

STAT 7810 MODERN STOCHASTIC PROCESSES I (3) LEC. 3. Pr. (MATH 6670 or MATH 6676 or STAT 6670 or STAT 6676) and MATH 6210. Classical and Modern Topics in stochastic processes (Markov chains, Poisson process, Brownian motion). Applications and stochastic models (queues, stationary processes, population dynamics, finances). Credit will not be given for both STAT 7810 and MATH 7810.

STAT 7820 APPLIED STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 7810 or MATH 7816 or STAT 7810 or STAT 7816. Classical and modern topics in stochastic processes (Markov processes, Random Walks, Martingales, Brownian motion.) Introduction to stochastic integrals and differential equations. Applications (queues, population dynamics, chaos finances). Credit will not be given for both STAT 7820 and MATH 7820.

STAT 7830 APPLIED STOCHASTIC PROCESSES II (3) LEC. 3. Pr. STAT 7810 or STAT 7816.

STAT 7840 APPLIED MULTIVARIATE STATISTICAL ANALYSIS (3) LEC. 3. Pr. STAT 7000. Multivariate normal distribution, Hotelling's T2, MANOVA, discriminate analysis, principal components.

STAT 7850 THEORY OF STATISTICAL INFERENCE (3) LEC. 3. Pr. STAT 7610. Central limit theorem, Convergence, M-estimate, Statistical functional, U-statistics

STAT 7860 APPLIED TIME SERIES ANALYSIS (3) LEC. 3. Pr. STAT 3610. Departmental approval. Autoregressive and moving average models, differencing, estimation and forecasting, spectral theory.

STAT 7930 STATISTICAL CONSULTING PRACTICUM (3) PRA. 3. Pr. STAT 7000 and STAT 7010 and STAT 7020. This is a course in applied statistics, providing training in statistical consulting. Applications of commonly encountered statistical methods are explored in the consulting environment. Written and oral communication skills are emphasized, and ethical aspects of consulting are introduced. This course provides students with an opportunity to gain practical experience in consulting through various projects with clients, through the AU Statistical Consulting Center.

STAT 7940 CAPSTONE PROJECT (3) LEC. 3. Discuss various topics while working on an industry-level project. Students will complete a semester-long project under the supervision of instructors.

STAT 7950 SEMINAR (1) SEM. SU. Exploration of statistical concepts, fostering active learning through presentations, guest lectures, discussions, and student-led research presentations. Course may be repeated for a maximum of 2 credit hours.

STAT 7960 SPECIAL PROBLEMS IN STATISTICS (1-10) RES. Credit will not be given for both MATH 7960 and STAT 7960. Course may be repeated for a maximum of 10 credit hours.

STAT 7970 SPECIAL TOPICS (1-3) LEC. Departmental approval. Special topics designed to meet the needs and interests of students. Course may be repeated for a maximum of 6 credit hours.

STAT 7980 SPECIAL PROJECT (3) LEC. 3. SU. Departmental approval. Non-thesis project in Statistics for Master's degree in Statistics (non-thesis option).

STAT 7990 RESEARCH AND THESIS (1-10) DSR. Research for Master's thesis in Statistics. Course may be repeated with change in topic.

STAT 8400 ADVANCED QUANTITATIVE METHODS FOR MANAGEMENT I (3) LEC. 3. Pr. STAT 7000. or approved equivalent. Study of the application of linear regression analysis to business research. First advanced course in applied linear statistics models.

STAT 8410 ADVANCED QUANTITATIVE METHODS MANAGEMENT II (3) LEC. 3. or approved equivalent. Introduction to multivariate techniques in business research. Study of the theory and applications of ANOVA, ANCOVA, MANOVA, MANCOVE, Discriminate Analysis & Polytomous Logistic Regression.

STAT 8420 ADVANCED QUANTITATIVE METHODS FOR MANAGEMENT III (3) LEC. 3. Pr. STAT 7100 and STAT 8400 and STAT 8410. or approved equivalent. Third course in statistical modeling. Emphasis on applications of Principal Components Analysis, and Structural Equation Modeling to management research.

STAT 8990 RESEARCH AND DISSERTATION (1-10) LEC. 1-10. Individual doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics. Course may be repeated for a maximum of 30 credit hours.

Supply Chain Management - SCMN

Courses

SCMN 2150 PRINCIPLES OF SUPPLY CHAIN MANAGEMENT (2) LEC. 2. Fundamental concepts, activities, and tools of supply chain management.

SCMN 3100 FOUNDATIONS OF BUSINESS LOGISTICS (3) LEC. Pr. SCMN 2150. The course provides an introduction to logistics activities and processes from a supply chain perspective. Foundational concepts, current issues, and strategies used to obtain competitive advantage in a global business environment will be addressed. For Non-SCM Majors and Non-SCM Minors only. Credit will not be given for both SCMN 3710 and SCMN 3100.

SCMN 3710 LOGS: MNGT OF FULFILLMENT PROC (3) LEC. 3. Pr. SCMN 2150 or SCMN 2153 or SCMN 3150 or SCMN 3153. SCMN 2150/2153 requires a grade of 'C' or better. Management of logistics processes involved in meeting customer demand, including inventory, transportation, distribution, and related activities. Fall, Spring, Summer.

SCMN 3720 TRANSPORTATION AND ORDER FULFILLMENT (3) LEC. 3. Pr. SCMN 2150. Pre-requisite requires a grade of 'C' or better. Management of transportation and distribution activities involved in the order fulfillment process. Fall, Spring.

SCMN 3730 STRATEGIC SOURCING (3) LEC. 3. Pr. SCMN 2150. Pre-requisite requires a grade of 'C' or better. Addresses the scope of activities and various roles of the procurement function within the organization and between firms. Fall, Spring.

SCMN 3740 SUPPLY & DEMAND INTEGRATION (3) LEC. 3. Pr. SCMN 2150. Credit will not be given for both SCMN 3710 and SCMN 3740. SCMN 3740 is a foundational supply chain course that is focused on the key concepts and decisions needed to align supply with demand. This course is designed to provide an overview of supply chain planning to achieve integration in all time horizons-short, intermediate, and long term.

SCMN 3810 PROFESSIONAL DEVELOPMENT IN SUPPLY CHAIN MANAGEMENT (1) LEC. 1. SU. Pr. SCMN 2150 and P/C BUSI 2010. SCMN majors only. Career planning and preparation for supply chain internships and professional experience opportunities. Credit will not be given for both SCMN 3810 and BUSI 3010 or SCMN 4810. Fall, Spring.

SCMN 3910 PRACTICUM IN SUPPLY CHAIN MANAGEMENT (1-3) PRA. 1-3. SU. Pr. (SCMN 2150 or SCMN 2153 or SCMN 3150) and (CTCT 3250 or CTCT 3253). Departmental approval. CTCT 3250/3253 requires a grade of 'C' or better. SCMN majors only. Cooperatively selected field activity to gain practical SCM experience. Course may be repeated for a maximum of 6 credit hours.

SCMN 3920 INTERNSHIP IN SUPPLY CHAIN MANAGEMENT (0-6) INT. SU. Pr. (SCMN 3720 or SCMN 3730 or SCMN 3740) and (CTCT 3250 or CTCT 3253) and SCMN 3810. Departmental approval. Prerequisites require a grade of 'C' or better. SCMN majors only. Professional work experience in a supply chain focused position. Course may be repeated for a maximum of 6 credit hours.

SCMN 4620 SUSTAINABLE SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Pr. SCMN 3730. Pressure from customers, policy makers and non-governmental organizations compels companies to address the environmental footprint of their operations and the social impact they have on local communities. This course focuses on the “triple bottom line,” which addresses how a company must strategically incorporate environmental, social and economic dimensions.

SCMN 4700 SUPPLY CHAIN PERFORMANCE MANAGEMENT (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3740) and SCMN 3720 and SCMN 3730 and CTCT 3250. Pre-requisites require a grade of 'C' or better. Understanding and managing supply chain performance through the use of metrics, analysis, and improvement strategies. Fall, Spring.

SCMN 4730 SUPPLY CHAIN TOOLS AND TECH (3) LEC. 3. Pr. SCMN 3730 and SCMN 3720. Tools, techniques and technologies of various supply chain processes.

SCMN 4750 ENTERPRISE SYSTEMS IN SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Pr. SCMN 4700 and SCMN 4730. This course provides detailed hands –on training on ERP systems using SAP. The course will cover end to end ERP operation, including procurement, manufacturing, sales & distribution, human resources, cost and management accounting, etc. At the end of this class, students who complete it with a B or above will automatically be eligible for their SAP Recognition Certificate provided they have also passed SCMN 4730 and SCMN 4700 with B or above.

SCMN 4770 SUPPLY CHAIN OPERATIONS MANAGEMENT (3) LEC. 3. Pr. SCMN 3730 and SCMN 3720. Review and application of current supply chain strategies processes and information technologies required to compete in today's global marketplace. The course will focus on presenting key manufacturing management techniques used to balance supply with demand to ensure customer satisfaction.

SCMN 4800 SUPPLY CHAIN STRATEGY: A GLOBAL PERSPECTIVE (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3713 or SCMN 3740) and SCMN 3720 and SCMN 3730 and (CTCT 3250 or CTCT 3253). Pre-requisites require a grade of "C" or better. Capstone course providing an intensive study of strategies used to facilitate global flows of product, information, and payments. Fall, Spring, Summer

SCMN 4820 SUPPLY CHAIN CONSULTING (3) LEC. 3. Pr. (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600) and BUAL 2650 and SCMN 3920. This special topic course is intended to help develop essential skills in planning and executing a company-focused consulting project.

SCMN 4900 DIRECTED STUDIES IN SUPPLY CHAIN MANAGEMENT (1-3) LEC/SEM. Departmental approval. Advanced individual research of SCM topic under direction of a faculty member. Course may be repeated for a maximum of 3 credit hours.

SCMN 4970 SPEC TOPS IN SUPPLY CHAIN MGNT (3-6) LEC. 3-6. Pr. SCMN 3720 and SCMN 3730. Current topics and issues related to the field of supply chain management. Course may be repeated for a maximum of 6 credit hours.

SCMN 5390 INTEGRATING BUSINESS PROCESSES WITH ERP (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3713) and SCMN 3720. Examination of how integrating business processes in ERP environment promotes strategic alignment and performance gains for an organization. May count either SCMN 5390 or SCMN 6390.

SCMN 5500 INVENTORY AND WAREHOUSE MANAGEMENT (3) LEC. 3. Pr. SCMN 3710 and SCMN 3720. Departmental approval. Course focuses on issues related to managing inventories in a supply chain. Topics include: role of inventory in supply chains, inventory-related policies and decisions, and dealing with supply and demand uncertainty. Issues related to safety stock and replenishment planning, impact of lead times, and management of multi-echelon supply chains are covered. Additional issues related to warehousing inventory, such as storage and slotting policies, receiving and put away, order picking strategies and warehouse management are covered.

SCMN 5600 SUPPLY CHAIN PLANNING (3) LEC. 3. Pr. SCMN 3710 and SCMN 3720. Departmental approval. This course focuses on long-term and short-term planning of supply chains to provide a strategic fit with business objectives. Topics include: framework for supply chain planning and decision-making, distribution network designs and managing uncertainty, demand forecasting and aggregate planning. Issues related to supply chain coordination and planning for product availability under service levels are also covered. Additional issues related to sales and operations planning, managing economies of scale and revenue management are also covered.

SCMN 5720 QUALITY & PROCESS IMPROVEMENT (3) LEC. 3. Pr. SCMN 2150 and (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600) and P/C BUAL 2650. Fundamentals of process improvement; techniques for performing quality control functions; quality management systems.

SCMN 6390 INTEGRATING BUSINESS PROCESSES WITH ERP (3) LEC. 3. LAB. 0. Examination of how integrating business processes in ERP environment promotes strategic alignment and performance gains for an organization. Credit will not be given for both SCMN 5390 and SCMN 6390.

SCMN 6500 INVENTORY AND WAREHOUSE MANAGEMENT (3) LEC. 3. This course focuses on issues related to managing inventories in a supply chain. Topics include: role of inventory in supply chains, inventory-related policies and decisions, and dealing with supply and demand uncertainty. Issues related to safety stock and replenishment planning, impact of lead times, and management of multi-echelon supply chains are covered. Additional issues related to warehousing inventory, such as storage and slotting policies, receiving and put away, order picking strategies and warehouse management are covered.

SCMN 6600 SUPPLY CHAIN PLANNING (3) LEC. 3. This course focuses on long-term and short-term planning of supply chains to provide a strategic fit with business objectives. Topics include: framework for supply chain planning and decision-making, distribution network designs and managing uncertainty, demand forecasting and aggregate planning. Issues related to supply chain coordination and planning for product availability under service levels are also covered. Additional issues related to sales and operations planning, managing economies of scale and revenue management are also covered.

SCMN 6720 QUALITY & PROCESS IMPROVEMENT (3) LEC. 3. Fundamentals of process improvement; techniques for performing quality control functions; quality management systems. Fall, Spring. Student should have completed a basic statistics course prior to enrolling in SCMN 6720.

SCMN 6900 DIRECTED STUDIES (3) IND. SU. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 6960 SPECIAL PROBLEMS (3) IND. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 7600 SUPPLY MNGT AND MANUFACTURING (3) LEC. 3. Pr. P/C BUSI 7150. The management of purchasing, supply and materials management, manufacturing processes related to the fulfillment of supply chain requirements. Spring.

SCMN 7700 DEMAND MNGT & FULFILLMENT (3) LEC. 3. Pr. P/C BUSI 7150. The management of logistical processes related to the fulfillment of supply chain requirements. Primary topics include tin integrated planning, operations, and performance analysis of demand, inventory, transportation, distribution, and customer relationships. Summer.

SCMN 7770 SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Problems and analysis in the design and management of the retail, industrial and service supply chain.

SCMN 7800 SUPPLY CHAIN STRATEGY (3) LEC. 3. Pr. P/C BUSI 7150. Advanced study of integrated supply chain theory, strategy, and practice. Topics include network design, collaboration, inventory visibility, process synchronization, information management, and financial analysis. Fall.

SCMN 7900 DIRECTED STUDIES (3) IND. SU. Departmental approval. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 8150 DOCTORAL SEMINAR ON CURRENT TOPICS IN SCM RESEARCH (3) LEC. 3. LAB. 0, SEM. 0. The class is a rigorous, seminar style course on Current Topics in SCM Research. Each class will familiarize you with the key insights in a current research topic (i.e., the “hot topics”) in the SCM area. The instructor has chosen to cover a broad range of active research to give you an overview of topics that people are working on currently and are likely to work on in the future.

SCMN 8250 LSCM INTERORGANIZATIONAL THEORY SEMINAR (3) LEC. 3. LAB. 0, SEM. 0. This is an advanced theories seminar in logistics and supply chain management (LSCM). This seminar is designed to expose doctoral students to accepted research grounding in LSCM and train students to be successful researchers. Management history and ten core theories are covered. We will be discussing seminal articles in-depth with a connection to recent works. These articles are published in top journals in LSCM, Economics, International Business, Management, Marketing, and Sociology.

SCMN 8350 EMPIRICAL METHODS IN SUPPLY MANAGEMENT RESEARCH (3) LEC. 1.5. LAB. 1.5. This course provides students with an overview of quantitative empirical research in major supply chain journals. Students will read and synthesize articles in top SCM journals which employ a variety of quantitative, empirical strategies. They will be provided with instruction on the application of a variety of approaches in Stata to analyze data. Students will also perform their own quantitative analysis with data of their choice.

SCMN 8450 HISTORY OF SUPPLY CHAIN MANAGEMENT & OPERATIONS RESEARCH (3) LEC. 3. LAB. 0, SEM. 0. In this seminar, students should gain a broad understanding of SCM topics in which prior scholars have conducted academic research. A review of the key ideas and principles scholars have addressed is undertaken to critically assess how the primary research streams in SCM have developed. Understanding this development will require considerable reading and thoughtful analysis outside of class.

SCMN 8550 SEMINAR IN GLOBAL SUPPLY CHAIN MANAGEMENT (3) LEC. 3. LAB. 0, SEM. 0. In this seminar, students will gain a broad understanding of global topics connected with SCM. A review of the key ideas and principles in International Business, Cross Border Trade, and Customs Unions are discussed. The role of tariffs, import and export barriers, and free trade on local and global economies are discussed and debated in detail.

SCMN 8650 RESEARCH METHODS IN SUPPLY CHAIN MANAGEMENT - 2 (3) LEC. 0. LAB. 0, SEM. 0. In this seminar, students will gain a deep understanding of statistical and methodological issues in SCM scholarship (especially latent variables). A review of the advanced topics is offered including usage in STATA or SAS. Students may be expected to demonstrate hands on expertise in these topics including writing code, implementing the methods, interpreting results and understanding their implications.

SCMN 8750 EXPERIMENTAL METHODS IN SUPPLY CHAIN MANAGEMENT (3) LEC. 0. LAB. 0, SEM. 0. In this seminar, students will gain a deep understanding of statistical and methodological issues in SCM scholarship (with a focus on experiments). A review of the topics is offered including usage in STATA or SAS. Students may be expected to demonstrate hands on expertise in these topics including writing code, implementing the methods, interpreting results and understanding their implications.

SCMN 8900 DIRECTED STUDIES (3) IND. SU. Departmental approval. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Must be degree seeking PhD student in the Business with concentration in the Supply Chain Management program.

Sustainability Studies - SUST

Courses

SUST 2000 INTRODUCTION TO SUSTAINABILITY (3) LEC. 3. Introduction to the interdisciplinary study of sustainability. May count either SUST 2000 or HONR 1027/HONR 1037.

SUST 2007 HONORS INTRODUCTION TO SUSTAINABILITY (3) LEC. 3. Pr. Honors College. Introduction to the interdisciplinary study of sustainability. May count either SUST 2000 or HONR 1027/HONR 1037.

SUST 3600 UNDERSTANDING NATURE, SELF, AND SOCIETY (3) LEC. 3. The course examines the intersection between nature, self, and society, and draws on sociological scholarship and nature writing. Through readings, class conversations, imaginative writing reflections, and short field trips, students will be able to critically interrogate our social relationship with nature and study the social dynamics that shape the meanings we attach to nature. Credit will not be given to both SOCY 3600 and SUST 3600.

SUST 4900 DIRECTED STUDIES IN SUSTAINABILILITY (1-3) IND. Departmental approval. Advanced individual research and/or coursework in the field of sustainability studies. Course may be repeated for a maximum of 3 credit hours.

SUST 5000 SENIOR CAPSTONE IN SUSTAINABILITY (3) LEC. 3. Pr. SUST 2000. Capstone research seminar for students completing the Minor in Sustainability Studies.

Theatre - THEA

Courses

THEA 1010 INTRODUCTION TO THEATRE FOR MAJORS I (3) LEC. 2, LLB. 2. Overview of all areas of theatrical collaboration intended specifically for the incoming theatre majors. Introduces theatre majors to academic skills they will need to pursue the theatre major at Auburn University. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 1110 INTRODUCTION TO THEATRE FOR MAJORS II (3) LEC. 2, LLB. 2. Pr. THEA 1010. Introduction to a variety of perspectives regarding theatrical practices, theories, and texts. Focus on productive working relationships and collaborative skills necessary for a successful life in the theatre. Course culminates in the creation of a new performance piece. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 1190 INTRODUCTION TO READING MUSIC FOR THEATRE ARTISTS (1) LEC. 1. Departmental approval. Instruction in how to read music for theatre artists. Course covers reading vocal music, instrumental music, orchestral music, and lead sheets in a variety of musical styles. One 50-minute class per week.

THEA 1340 PERFORMANCE I (1) STU. 1. Pr., Departmental approval. Successful audition. Instruction in major performance medium for the first-year Music Theatre major. Two half-hour private lessons per week.

THEA 1440 PERFORMANCE II (1) STU. 1. Pr. THEA 1340 or MUAP 1530. Departmental approval. Successful audition. Instruction in major performance medium for the first-year Music Theatre major. Two half-hour private lessons per week.

THEA 1530 DANCE LAB 1 - TAP (1) LAB. 3. Introduction to traditional tap dance Exploration of technical concepts, rhythm combinations, and improvisations designed to test and develop tap dance skills. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 2 credit hours.

THEA 1570 DANCE LAB 1 - BALLET (1) LAB. 4.5. Beginning studio introduction to ballet technique Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 2 credit hours.

THEA 1670 DANCE LAB 1 - JAZZ (1) LAB. 3. Studio introduction to and exploration of jazz technique. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 2 credit hours.

THEA 1910 PRODUCTION PRACTICUM I (1) STU. 4. Experience in the design/technical and management areas of production. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 2 credit hours.

THEA 2010 INTRODUCTION TO THEATRE (3) LEC. 3. Fine Arts Core. Appreciation of theatre arts including stage, television, and film. Development of sensitive and critical sophistication as articulate, discriminating theatre-goers. Play and film viewing, play-reading, critiques, and term projects. May count either THEA 2010 or THEA 2013.

THEA 2017 HONORS INTRODUCTION TO THE THEATRE (3) LEC. 3. Pr. Honors College. Fine Arts Core. Appreciation of theatre arts. Development of sensitivity and critical skills as theatre-goers. Play attendance, reading, critiques, and term projects.

THEA 2020 AESTHETICS OF ACTING (3) LEC. 3. Fine Arts Core. An orientation to acting aesthetics as a means of understanding and engaging the arte of theatre.

THEA 2080 PERFORMANCE TECHNIQUES FOR THE CAMERA (3) LEC. 1, LST. 3. Theory and practice of specialized performance techniques for television and film. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2110 VOICE AND MOVEMENT FUNDAMENTALS (3) STU. 4. Exploration and study of fundamental issues in vocal production, articulation, and movement. Introduction to vocal anatomy, breathing/relaxation/alignment techniques, and integrated vocal and movement exercises applied in a variety of texts. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2120 ACTING I (3) LEC. 2, LST. 2. Introduction to basic acting techniques, literature, and performance through improvisation, contemporary scene study and attendance at theatre performances. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2210 MUSIC FUNDAMENTALS FOR MUSIC THEATRE (3) LEC. 3. Fundamental study of music structural procedures, form, and style designed for students in the music theatre major.

THEA 2220 MT PERFORMANCE LAB (1) LAB. Departmental approval. Demonstration and exploration of singing and acting techniques through performance of music theatre repertoire. Course may be repeated for a maximum of 6 credit hours.

THEA 2300 STAGE MANAGEMENT (3) LEC. 3. Examination of the theories and techniques of stage management in the producing organization, including management, organization, auditions, rehearsal, safety practices, and production procedures. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2310 THEATRE TECHNOLOGY I (3) LEC. 3. A comprehensive introduction to the study of technical theatre; theoretical and practical applications of equipment, materials, and techniques used in technical theatre. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2330 SCENE PAINTING (3) LEC. 2. LAB. 2. Departmental approval. Studio-oriented course introducing the principles, techniques, and media of the scenic artist. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2340 PERFORMANCE III (1) STU. 1. Pr. THEA 1440 or MUAP 1630. Departmental approval. Successful audition. Instruction in major performance medium for the second-year Music Theatre major. Two half-hour private lessons per week.

THEA 2400 DESIGN AESTHETICS (3) LEC. 3. An exploration of the fundamental elements and principles of design, pictorial composition, and design theory, and their relationships and potential for application in scenic, costume, and lighting design. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2440 PERFORMANCE IV (1) STU. 1. Pr. THEA 2340 or MUAP 2530. Departmental approval. Successful audition. Instruction in major performance medium for the second-year Music Theatre major. Two half-hour private lessons per week.

THEA 2450 DRAFTING FOR THE THEATRE I (3) LEC. 2, LST. 2. Pr. P/C THEA 2310. Departmental approval. A comprehensive study of the techniques and methods used in the graphic representation of stage scenery, equipment, and properties design. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2570 DANCE LAB 2 - BALLET (1) LAB. 4.5. Pr. THEA 1570. Intermediate studio training in ballet technique. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 2 credit hours.

THEA 2610 COSTUME CONSTRUCTION (3) LEC. 1, LST. 3. Fundamentals of machine sewing techniques, pattern drafting and draping, fabric dyes, and craftwork as they relate to theatrical costuming. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2650 STAGE MAKEUP (3) LEC. 1, LST. 3. Theories and techniques of stage makeup, practical design and execution of basic makeup techniques, special effects, and character makeups. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 2670 DANCE LAB 2 - JAZZ (1) LAB. 3. Pr. THEA 1670. Intermediate studio training in jazz technique. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 2 credit hours.

THEA 2700 TEXT ANALYSIS (3) LEC. 3. Script Analysis provides students with the tools to read and interpret scripts from a variety of perspectives with a focus upon implications for production. Students will analyze plays for character, plot, theme, action, given circumstances, and production requirements.

THEA 2840 BEGINNING DANCE TECHNIQUES (3) LEC. 1, LST. 3. Beginning level dance technique and theory, focusing on dance as an art form, including a survey of dance in different cultural and historical contexts. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 6 credit hours.

THEA 2910 PRODUCTION PRACTICUM II (1) STU. 4. Pr. THEA 1910. Experience in the design/technical and management areas of production. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 4 credit hours.

THEA 2940 APPLIED THEATRE I: ACTING (1) STU. 4. Pr., Cast in Auburn University Theatre production. Intensive applied work for students cast in Auburn University Theatre productions. Course may be repeated for a maximum of 4 credit hours.

THEA 3110 VOICE FOR THE ACTOR II (3) LEC. 2, LST. 2. Pr. THEA 2110. Continuing study of vocal production and articulation techniques in tests of increasing complexity. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3120 ACTING II (3) LEC. 2, LST. 2. Pr. THEA 2120. Exploration of internal and external acting theory and techniques in modern and classical scene study. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3140 MUSIC THEATRE ACTING (3) LEC. 3. LAB. 3. Pr. THEA 1190. Pr., Admission into the (THMU major) or Departmental approval. Students registering for this course should have experience with reading music. Exploration of acting techniques and performance through music theatre scene and song study, analysis, and history of music theatre repertoire culminating in public performance. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3150 BFA PERFORMANCE STUDIO I (4) LEC. 3, LST. 5. Pr., Admission into the THPR or THMU majors. Intensive study and practice integrating advanced contemporary scene study, audition technique, and the Fitzmaurice Voicework system. Students who do not earn a grade of "C" or better must re-audition for the BFA program and repeat the course.

THEA 3160 BFA PERFORMANCE STUDIO II (4) LEC. 3, LST. 5. Pr. THEA 3150. Intensive study and practice integrating Shakespeare and scene study of poetic texts with continuing work in Fitzmaurice Voicework system. Must earn a grade of "C" or higher or re-audition for the BFA program and repeat THEA 3150 and THEA 3160.

THEA 3190 SINGING PRACTICUM (1) STU. 1. Group instruction in musical theatre singing. Students will be introduced to the primary principles of posture, breathing, resonance, vocal health, direction, interpretation, and repertoire selection. Theatre majors who do not earn a grade of "C" or higher must repeat. Course may be repeated for a maximum of 2 credit hours.

THEA 3210 THE BUSINESS OF THEATRE (3) LEC. 3. Pr. THEA 1010 and THEA 1110 and THEA 1910 and THEA 2310 and THEA 2910. Discussion, research, and implementation of the practices necessary to be successful as a freelance artist in the current performing arts field.

THEA 3220 ARTS MANAGEMENT (3) LEC. 3. Departmental approval. Exploration of arts organizational structures, budgeting for non-profit and for-profit arts organizations, basic business and marketing practices, historical principles and practices of arts and cultural organizations.

THEA 3320 THEATRE TECHNOLOGY II (3) LEC. 2, LST. 2. Pr. THEA 2310. Theoretical and practical applications of equipment and techniques in technical theatre. Topics include light, sound mechanics, theatre rigging, equipment, special effects, and computer applications. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3340 PERFORMANCE V (1) STU. 1. Pr. THEA 2440 or MUAP 2630. Departmental approval. Successful audition. Instruction in major performance medium for the third-year Music Theatre major. Two half-hour private lessons per week.

THEA 3350 PRODUCTION MANAGEMENT (3) LEC. 3. Departmental approval required. Exploration of the role and responsibilities of the production manager in the coordination and execution of production elements for projects in theatre, dance, opera, music, etc. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3400 RENDERING FOR THE THEATRE (3) LEC. 2. LAB. 2. Pr. THEA 2400 or Departmental approval. Traditional drawing and rendering techniques and medias that help the designer to communicate scenic, costume, and lighting designs. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3410 SCENE DESIGN I (3) LEC. 2, LST. 2. Pr. THEA 2400 or Departmental approval. Discussion, research, and execution of theory and practices of designing scenery for the stage. Emphasis on traditional style and methods of design and presentation for the proscenium theatre. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3420 PROPERTY DESIGN AND TECHNOLOGY (3) LEC. 2, LST. 2. Pr. THEA 3320 or Departmental approval. History, design, organization, application of materials, and techniques used in the design and construction of properties for the theatre, film, and television. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3440 PERFORMANCE VI (1) STU. 1. Pr. THEA 3340 or MUAP 3530. Departmental approval. Successful audition. Instruction in major performance medium for the third-year Music Theatre major. Two half-hour private lessons per week.

THEA 3460 AUTOCAD FOR PERFORMANCE DESIGN (3) DSL/LEC. Pr. THEA 3450. This course provides students with a broad knowledge of creating 2D drawings and 3D modeling using Computer-Aided Design software (AutoCAD). Students will learn how to use AutoCAD to present their designs, visually and distribute basic, industry-standard drawings.

THEA 3510 LIGHTING DESIGN (3) LEC. 2, LST. 2. Pr. THEA 2310 or Departmental approval. Studio course that explores the theory, research, and practice of stage lighting, practical illumination, and effects lighting. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3520 SOUND DESIGN (3) LEC. 2, LST. 2. Departmental approval. Equipment and techniques used in sound design, as both a design and a technical medium. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3570 DANCE LAB 3 - BALLET (1) LAB. 4.5. Pr. THEA 2570. Intermediate advanced studio in ballet technique. Course may be repeated for a maximum of 2 credit hours.

THEA 3610 ADVANCED COSTUME CONSTRUCTION (3) LEC. 2, LST. 2. Pr. THEA 2610 or Departmental approval. Historical pattern making and draping, millinery skills, and craft techniques, and their practical applications in theatre costuming. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3640 COSTUME DESIGN (3) LEC. 2, LST. 2. Pr. THEA 2400 or Departmental approval. Costume design and rendering as it relates to historical and original design for the theatre. Exploration of design for television, commercials, and rock stars. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3670 DANCE LAB 3 - JAZZ (1) LAB. 3. Pr. THEA 2670. Intermediate advanced studio training in jazz technique. Course may be repeated for a maximum of 2 credit hours.

THEA 3710 THEATRE HISTORY, THEORY AND CRITICISM II - BODY (3) LEC. 2, LST. 2. Examination of the history, literature, and theory of the theatre from prehistory to the present with an emphasis on the human body as a broad category for understanding a variety of issues and topics relevant to contemporary theatre practice. Areas of exploration include such topics as historical and theoretical perceptions of the social status of the actor, the actor's body as a medium of representation, and theatrical representations of gender and ethnicity. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3720 THEATRE HISTORY, THEORY AND CRITICISM III - SPACE (3) LEC. 2, LST. 2. Examination of the history, literature, and theory of the theatre from prehistory to the present with an emphasis on theatrical space as a broad category for understanding a variety of issues and topics relevant to contemporary theatre practice. Areas of exploration include ritual landscapes as they pertain to the origin of drama, the development of the western playhouse, the avant-garde reconceptualization of theatre space, and the development of such spatially oriented American institutions as Broadway and regional theatre. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3730 MUSIC THEATRE HISTORY (3) LEC. 3. Exploration of music theatre literature, performances, historical, analytical and critical trends from the early 20th century to the present day. Areas of exploration include music theatre as a work of art with unique conversations about aesthetics and form, as an entertainment media shaped by its historical and cultural context, and as a viable performance form for the 21st century. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3740 COSTUME HISTORY (3) LEC. 3. History of Western costume and its uses in the theatre from ancient times to the present. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3800 THEATRE EVENTS MANAGEMENT (3) SEM. 3. Pr. THEA 2300. THEA 2300 with a grade of "C" or higher. This course is an introduction to the researching, planning, coordinating, marketing, facilitation/management and assessment of special events, specifically as they relate to the performing arts. Through practical application, each student will gain experience in the basic entrepreneurial skills necessary to plan a public arts event.

THEA 3840 INTERMEDIATE DANCE TECHNIQUES I (3) LEC. 1, LST. 3. Pr. THEA 2840. Intermediate level dance technique and theory, with an emphasis on performance qualities including work on alignment, strength, flexibility, rhythm, musicality, and dynamics, as well as the study of select contemporary choreographers. THEA 3840 and THEA 3850 need not be taken in sequence. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 6 credit hours.

THEA 3850 INTERMEDIATE DANCE TECHNIQUES II (3) LEC. 1, LST. 3. Pr. THEA 2840. Further exploration into intermediate level dance technique and theory, with emphasis on aesthetics and contemporary topics in dance. THEA 3840 and THEA 3850 need not be taken in sequence. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 6 credit hours.

THEA 3860 MOVEMENT FOR THE ACTOR (3) STU. 4. Introduction to the basic concepts of movement as it relates to the actor. Integrative ways of connecting the body to text and space. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3910 PRODUCTION PRACTICUM III (1) STU. 4. Experience in the design/technical and management areas of production. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 2 credit hours.

THEA 3940 APPLIED THEATRE II: ACTING (1) STU. 4. Pr., Cast in Auburn University Theatre production. Intensive applied work for students cast in Auburn University Theatre productions. Course may be repeated for a maximum of 4 credit hours.

THEA 3950 DIRECTING SEMINAR (3) LEC. 2, LST. 2. Pr. THEA 2120. Study of fundamental skills and collaborative processes needed to direct live theatre, including blocking, script analysis, research methods, approaches to casting, and rehearsal techniques. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 3960 DRAMATURGY SEMINAR (3) LEC. 3. Study of fundamental skills and collaborative processes needed to dramaturg a piece of live theatre including both production and new play dramaturgy, critical analysis, research, presentations, and performance. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 4150 BFA PERFORMANCE STUDIO III (4) LEC. 3, LST. 5. Pr. THEA 3160. Professional preparation with particular focus on individual rehearsal and performance techniques covering a broad spectrum of periods and styles geared toward graduate acting program placement and professional employment. Students who do not earn a grade of "C" or higher must re-audition for the BFA program and repeat THEA 3150, THEA 3160, and THEA 4150.

THEA 4160 BFA PERFORMANCE STUDIO IV (4) LEC. 3, LST. 5. Pr. THEA 4150. Special problems and topics in performance. Intensive work integrating and applying acting, voice, and movement techniques in an ensemble capstone recital of work in an adjudicated public performance. Students who do not earn a grade of "C" or higher must re-audition for the BFA program and repeat THEA 3150, THEA 3160, THEA 4150 and THEA 4160.

THEA 4340 PERFORMANCE VII (1) STU. 1. Pr. THEA 3440 or MUAP 3630. Departmental approval. Successful audition. Instruction in major performance medium for the fourth-year Music Theatre major. Two half-hour private lessons per week.

THEA 4420 SCENE DESIGN II (3) LEC. 2, LST. 2. Pr. THEA 3410 or Departmental approval. Advanced course in theory and practice of scenic and lighting design for theatre. Emphasis on experimental and non-traditional staging in a variety of space. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 4440 PERFORMANCE VIII (1) STU. 1. Pr. THEA 4340 or MUAP 4530. Departmental approval. Successful audition. Instruction in major performance medium for the fourth-year Music Theatre major. Two half-hour private lessons per week.

THEA 4450 DRAFTING FOR THE THEATRE II (3) LEC. 2, LST. 2. Pr. THEA 3450. Comprehensive study of computer and digital techniques used in the graphic representation of stage scenery, equipment, and properties design. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 4510 LIGHTING DESIGN II (3) LEC. 3. LAB. 1. Pr. THEA 2400 and THEA 3510. Lighting Design II provides students with in-depth study of advanced stage lighting techniques, including integration of computer graphics and projections with conventional lighting instruments.

THEA 4570 DANCE LAB 4 - BALLET (1) LAB. 4.5. Pr. THEA 3570. Advanced studio training in ballet technique. Course may be repeated for a maximum of 2 credit hours.

THEA 4650 ADVANCED STAGE MAKEUP (3) LEC. 1, LST. 3. Pr. THEA 2650 or Departmental approval. Comprehensive study of specialized makeup, including film and television makeup, mask making, prosthesis, facial hair design, and wig making. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 4670 DANCE LAB 4 - JAZZ (1) LAB. 3. Pr. THEA 3670. Advanced studio training in jazz technique. Course may be repeated for a maximum of 2 credit hours.

THEA 4690 ARTISTS AND COMMUNITIES (3) SEM. 3. An in-depth analysis and exploration of the role and responsibility of the artist and art within communities. We will explore this idea from multiple perspectives: marketing, general management, artistic direction, performance, urban planning/creative placemaking, fundraising, and nonprofit management.

THEA 4750 PLAYWRITING (3) LEC. 3. Discussion of the principles of play construction, playwriting exercises, and completion of a one-act play. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 4770 CAPSTONE SENIOR DANCE LAB (1) LAB. 1. Pr. THEA 1530 and THEA 2570 and THEA 2670. Students must be in good standing in BFA Performance Program. Culminating exploration of, and enrichment in musical theatre dance technique ranging from Ballet to Jazz to Hip-hop. Course culminates in a public capstone dance outcome performance.

THEA 4840 ADVANCED DANCE TECHNIQUES (3) LEC. 1, LST. 3. Pr. THEA 3850. Intensive study of advanced dance techniques in theory and practice. Course often serves as a training and preparation for public performance. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 12 credit hours.

THEA 4910 PRODUCTION PRACTICUM IV (1-4) STU. Pr. THEA 3910. Or Admission into the THDT or THMN program and two semesters of THEA 3910 or departmental approval. Leadership experience in the design/technical and management areas of production. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 4 credit hours.

THEA 4920 PROFESSIONAL INTERNSHIP (1-8) INT. Pr., Departmental approval. Internship with professional or community theatre in the student's field of specialization. Each 10-hour work week equals one hour of credit. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 8 credit hours.

THEA 4930 DIRECTED STUDIES (1-3) IND. Pr., Departmental approval. Directed readings, creative and tutorial projects of interest to the advanced student. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 6 credit hours.

THEA 4940 THEATRE SPECIAL PROJECTS (3) AAB/STU. 4. Pr., Departmental approval. Selected projects related to realizing a theatrical production in public performance. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 9 credit hours.

THEA 4950 THEATRE LITERATURE AND THEORY SEMINAR (3) LEC. 3. Thorough examination of dramatic literature and theory from a narrow perspective (such as genre, style, or era.) Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 6 credit hours.

THEA 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Subject areas to be determined between student and theatre instructor. Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 6 credit hours.

THEA 4970 SPECIAL TOPICS (3) LEC. 3. Special Topics in Theatre or Dance. Course may be repeated for a maximum of 9 credit hours.

THEA 4980 SENIOR CAPSTONE PROJECT (3) LEC. 3. Capstone course to aid senior theatre majors in their transition to the professional world and/or graduate studies. Theatre majors who do not earn a grade of "C" or higher must repeat this course.

THEA 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Final projects of varying natures in theatre Theatre majors who do not earn a grade of "C" or higher must repeat this course. Course may be repeated for a maximum of 6 credit hours.

Undergraduate Studies - UNDG

Courses

UNDG 4900 CLEARING FOR UNDERGRADUATE GRADUATION (0) LEC. 2.

University Courses - UNIV

Courses

UNIV 0110 IEP TERM I GRAMMAR/WRITING (0) LEC. 2. Administrative approval required.

UNIV 0120 IEP TERM I READING/VOCABULARY (0) LEC. 2. Administrative approval required.

UNIV 0130 IEP TERM I LISTENING/SPEAKING (0) LEC. 2. Administrative approval required.

UNIV 0210 IEP TERM II GRAMMAR/WRITING (0) LEC. 2. Administrative approval required.

UNIV 0220 IEP TERM II READING/VOCABULARY (0) LEC. 2. Administrative approval required.

UNIV 0230 IEP TERM II LISTENING/SPEAKING (0) LEC. 2. Administrative approval required.

UNIV 1000 THE AUBURN EXPERIENCE (1) LEC. 1. Surveys the history of the University, current student resources, and academic programs.

UNIV 1050 SUCCESS STRATEGIES (1) LEC. 1. An introduction to essential academic and personal skills for college success. Designed to familiarize students with university life and improve core academic skills.

UNIV 1060 SUCCESS STRATEGIES II (1-2) LEC. 1-2. Departmental approval required. Designed for those in academic jeopardy, this course assists students in identifying issues impacting academic success and developing strategies to affect positive change. Course may be repeated for a maximum of 4 credit hours.

UNIV 1067 HONORS SUCCESS STRATEGIES II (1-2) LEC. 1-2. Pr. Honors College. Honors College. Department approval required. Designed for those in academic jeopardy, this course assists students in identifying issues impacting academic success and developing strategies to affect positive change. Course may be repeated for a maximum of 2 credit hours.

UNIV 1100 FIRST YEAR SEMINAR (1-2) LEC/SEM. Introduce a topic of interest with contemporary importance to beginning college students. Course may be repeated for a maximum of 4 credit hours.

UNIV 1107 HONORS FIRST YEAR SEMINAR (1-2) LEC/SEM. Pr. Honors College. Introduce a topic of interest with contemporary importance to beginning college students. Course may be repeated for a maximum of 4 credit hours.

UNIV 1150 SPECIAL TOPICS WITH LEARNING STRATEGIES (1-2) LEC. 1-2. This course offers first-year students an opportunity to explore a topical area of interest while integrating related study skills. Course may be repeated for a maximum of 4 credit hours.

UNIV 1157 HONORS SPECIAL TOPICS WITH LEARNING STRATEGIES (1-2) LEC. 1-2. Pr. Honors College. This course offers first-year students an opportunity to explore a topical area of interest while integrating related study skills. Course may be repeated for a maximum of 4 credit hours.

UNIV 2100 PEER EDUCATION IN HIGHER ED (1) LEC. 1. This course provides both a theoretical and practical foundation for the role of peer educator. The course will focus on theories of student learning and development and the peer educational practices that enhance that development.

UNIV 2300 ABROAD TRANSFER-UG (0) AAB/IND. Completion of Office of International Programs-Auburn Abroad-Transfer application and Study Abroad Transfer Credit Form. Full time placeholder. Allows undergraduate students to obtain financial aid, some scholarships requires individual scholarship source approval).

UNIV 2710 THE HUMAN ODYSSEY I (3) LEC. 3. Examines the human endeavor from pre-history through the 17th century by exploring connections between the sciences and humanities.

UNIV 2720 THE HUMAN ODYSSEY II (3) LEC. 3. Examines the human endeavor from the l8th century through the present by exploring connections between the sciences and humanities.

UNIV 2940 AUBURN ABROAD (0) AAB. Pr. 2.25 GPA. Student must meet Auburn Abroad plus any individual program requirements for all study abroad programs (offered by AU or others); an Auburn Abroad application must submitted and approved by OIE prior to participation/departure.

UNIV 2945 AUBURN ABROAD (0) FLD. Pr. 2.25 GPA. Student must meet Auburn Abroad plus any individual program requirements for all study abroad programs (offered by AU or others); an Auburn Abroad application must submitted and approved by OIE prior to participation/departure.

UNIV 2960 SCHOOL OF RECORD TRANSIENT COURSE (0) AAB/FLD. Must be Auburn transient student. Auburn University is the "School of Record" for transient students seeking academic credit for international programs provided by independent vendors. Course content will vary by individual program.

UNIV 3000 AUBURN EXCHANGE_UNDERGRADUATE (1-12) IND. Office of International Programs - Auburn Abroad approval and approval of individual department sponsoring the exchange program. Full time 12 hour placeholder course for Undergraduate Exchange Students. Course may be repeated for a maximum of 12 credit hours.

UNIV 3510 EUROPEAN ODYSSEY (3) FLD. 2. Summer study-abroad program in Rome, Florence, Paris, London, Edinburgh; through visits to churches, historic sites, contemporary buildings, museums, galleries, parks, piazzas, rivers, trains, restaurants, theatres and stores, students will research selected aspects of Western mythology and religion, Roman Empire, society and culture, art and architecture, Renaissance, Enlightenment and Reformation, and industrial and scientific revolutions.

UNIV 3517 HONORS EUROPEAN ODYSSEY (3) FLD. 2. Summer study-abroad program in Rome, Florence, Paris, London, Edinburgh; through visits to churches, historic sites, contemporary buildings, museums, galleries, parks, piazzas, rivers, trains, restaurants, theatres and stores, students will research selected aspects of Western mythology and religion, Roman Empire, society and culture, art and architecture, Renaissance, Enlightenment and Reformation, and industrial and scientific revolutions.

UNIV 3900 AUBURN ABROAD (0) AAB. Study abroad office approval.Student must meet individual program requirements andcomplete a study abroad course approval form prior todeparture.

UNIV 4900 GENERIC EXTERNAL TRANSFER CREDIT (.67-13.34) LEC. 2. Course may be repeated for a maximum of 13.34 credit hours.

UNIV 4920 CURRICULAR PRACTICAL TRAINING (0) PRA. For international students and scholars on U.S. OS EV approved Academic Training. Office of International Education authorized enrollments only.

UNIV 4940 AUBURN ABROAD (0) AAB. Pr. 2.25 GPA. Student must meet Auburn Abroad plus any individual program requirements for all study abroad programs (offered by AU or others); an Auburn Abroad application must submitted and approved by OIE prior to participation/departure.

UNIV 4945 AUBURN ABROAD (0) AAB/FLD. Pr. 2.25 GPA. Student must meet Auburn Abroad plus any individual program requirements for all study abroad programs (offered by AU or others); an Auburn Abroad application must submitted and approved by OIE prior to participation/departure.

UNIV 4AA0 ACHIEVE THE CREED (0) LEC. n/a

UNIV 5940 AUBURN ABROAD (0) AAB. Pr. 3.00 GPA. Student must meet Auburn Abroad plus any individual program requirements for all study abroad programs (offered by AU or others); an Auburn Abroad application must submitted and approved by OIE prior to participation/departure.

UNIV 5945 AUBURN ABROAD (0) AAB/FLD. Pr. 3.00 GPA. Student must meet Auburn Abroad plus any individual program requirements for all study abroad programs (offered by AU or others); an Auburn Abroad application must submitted and approved by OIE prior to participation/departure.

UNIV 6000 AUBURN EXCHANGE_GRADUATE (1-9) IND. Office of International Programs - Auburn Abroad approval and approval of the individual department sponsoring the exchange program. Variable credit hour placeholder course (1-9 credit hours) based on courses taken by outging AU Exchange Students. This placeholder carries tuition cost based on outgoing AU student's residency.

UNIV 6300 ABROAD TRANSFER-GR (0) AAB/IND. Completion of Office of International Programs-Auburn Abroad-Transfer application and Study Abroad Transfer Credit Form. Full time placeholder, zero credit hours. Allows graduate students to obtain financial aid, some scholarships (requires individual scholarship source approval).

UNIV 6900 AUBURN ABROAD (0) AAB. Study abroad office approval.Student must meet individual program requirements andcomplete a study abroad course approval form prior todeparture.

UNIV 7000 INTERNATIONAL GRADUATE EXPERIENCE (0) LEC. 1. SU. This course is designed to provide new international graduate students with an orientation to academic and local culture in the United States.

UNIV 7010 RURAL STUDIO CERTIFICATE (0) LEC. 3.

UNIV 7020 RURAL STUDIO CERTIFICATE I (0) LEC. 3.

UNIV 7030 RURAL STUDIO CERTIFICATE II (0) LEC. 3.

UNIV 7940 AUBURN ABROAD (0) AAB. Pr. 3.00 GPA. Student must meet Auburn Abroad plus any individual program requirements for all study abroad programs (offered by AU or others); an Auburn Abroad application must submitted and approved by OIE prior to participation/departure.

UNIV 7945 AUBURN ABROAD (0) AAB/FLD. Pr. 3.00 GPA. Student must meet Auburn Abroad plus any individual program requirements for all study abroad programs (offered by AU or others); an Auburn Abroad application must submitted and approved by OIE prior to participation/departure.

UNIV 9AA0 ACHIEVE THE CREED (0) LEC.

Veterinary Medicine - VMED

Courses

VMED 9000 ORIENTATION TO VETERINARY MEDICINE (0) SEM. 1. SU. Overview of organized veterinary medicine, history of the profession, professional responsibilities and privileges, and career opportunities within the profession.

VMED 9009 PROFESSIONAL SELF CARE SKILLS (1) LEC. 1. SU. Departmental approval. This course will discuss the factors present within veterinary medicine that put us at risk for empathetic exhaustion, burnout, suicidal ideation and other issues, followed by sharing skills, thoughts and actions that will facilitate resiliency, well-being and fulfillment within the profession.

VMED 9010 VETERINARY JURISPRUDENCE (1) LEC. 1. Provide a foundation in veterinary medical ethics and legal issues associated with veterinary medicine.

VMED 9020 PROFESSIONAL COMMUNICATION SKILLS FOR VETERINARY MEDICINE (1) LEC. 1. LAB. 2. SU. Students will develop skills in communication with faculty, staff, colleagues, pet-owners, and the public sector through lecture and interactive laboratory sessions. These skills will be immediately implementable into everyday student/educational life, clinical practice, and team building settings. Topics include implementation of nonverbal and verbal communication skills during financial discussion, de-escalation, grief and empathy, creating safe spaces for collaborative decision making, and discussing medical errors.

VMED 9030 NATURAL HISTORY AND ANATOMY OF MARINE MAMMALS AND SEA TURTLES (1) LEC. 1, LAB. 0-2. SU. The course will be divided into nine hours of lectures and six hours of labs evenly divided between odontocetes (toothed whales), Pinnipeds (seals, sea lions and walruses) and sea turtles. Lecture topics will include natural history and anatomy of each group. Three fresh tissue wet labs will include dissections of one dolphin (Bottlenose or Spotted), one California Sea Lion and one sea turtle (one of several species found in the northern Gulf of Mexico).

VMED 9040 MARINE MAMMAL STRANDING RESPONSE AND NECROPSY TECHNIQUES (1) LEC. 1, LAB. 0-3. SU. Departmental approval. This course will provide an overview of the stranding response and necropsy techniques for small cetacean, manatees, and pinnipeds (manatee necropsy based on availability). The course will include lectures and necropsies at Dauphin Island Sea Lab.

VMED 9050 PROFESSIONAL DEVELOPMENT AND BUSINESS FUNDAMENTALS (1) LEC. 15. Auburn University CVM Professional Development and Business Fundamentals course is a 1 credit-hour course encompassing the study, understanding and application of pertinent business disciplines guiding the decision-making responsibilities of practice owners, veterinarians, veterinary students, veterinary technicians and practice managers that seek to improve profitability and efficiency allowing for a competitive advantage and long term success in their personal and professional careers.

VMED 9060 ELEVATING YOUR IMPACT: TOOLS FOR COMMUNITY-CENTERED MEDICINE (1) LEC. 12. LAB. 1. SU. This experience will provide students with an introduction to a wide range of animal welfare topics in a hands-on interactive environment. Subject matter experts will present, lead discussions, and facilitate student activities throughout this 2-day intensive weekend elective. Students will have the opportunity to practice spay/neuter techniques using easily buildable string models, become the crime scene investigator on animal cruelty cases, and learn countless other skills that will help them become better advocates for the animals and pet owners in their communities regardless of the specific veterinary field they choose to enter post-graduation.

VMED 9070 APPLIED CLINICAL PATHOLOGY (1) LEC. 1. SU. This course covers the use and interpretation of hematologic, clinical biochemical, coagulation, urinalysis and cytologic laboratory data in the diagnosis of diseases and pathophysiologic processes, building on the foundation established in the first two years of the professional DVM curriculum. The data discussed in this course are taken from clinical cases from the AU teaching hospitals.

VMED 9080 VETERINARY PAIN MANAGEMENT (1) LEC. 1. SU. The veterinary pain management course will serve to increase a student's knowledge base on many aspects of pain management of the veterinary patient. Subjects covered in this course will include in depth review of neuroanatomy and physiology of pain, pathophysiology of pain, pharmacology of medications used for pain management, non-pharmacologic treatments for pain, and specific pain management strategies for various domestic species, and exotic and zoo animals. Content in this class will be delivered through lecture or other formats depending on the presenting faculty. Departmental approval required.

VMED 9090 CANINE AND FELINE DENTISTRY (1) LEC. 1. SU. This elective is designed to build upon Small Animal Dentistry knowledge and teach entry level abilities to help 2nd and 3rd year veterinary students become clinic and practice ready. Departmental approval required.

VMED 9100 PROFESSIONAL PREPAREDNESS (1) LEC. 1. SU. Departmental approval. This course will introduce principles of preparedness for the major challenges students will face both now and after graduation from veterinary school (student loans, home mortgage, vehicle purchase, retirement plan, etc.).

VMED 9110 PHYSIOLOGY I (5) LEC. 5. LAB. 1. Cellular, Cardiovascular, Renal, and Respiratory Physiology.

VMED 9111 VETERINARY ANATOMY I (SMALL ANIMAL) (4) LEC. 2. LAB. 2. Basic concepts of body structure and small animal gross anatomy with veterinary medical applications. Credit will not be given for both VMED 5111 and VBMS 6111.

VMED 9120 PHYSIOLOGY II (4) LEC. 5. Gastrointestinal Physiology, Metabolism, Endocrinology, and Reproductive Physiology.

VMED 9121 VETERINARY ANATOMY II (3) LEC. 1. LAB. 2. In-depth study of the gross anatomy of the ox, horse, and minor species with inclusion of clinical relevance.

VMED 9130 GENETIC AND CELLULAR BASIS OF ANIMAL DISEASE (1) LEC. 3. One credit course focused on the relationship between genetics and animal diseases.

VMED 9131 BASIC MICROANATOMY/DOMESTICS ANIMALS (3) LEC. 1. LAB. 2. Functional comparative microstructure of cells, basic tissues, cardiovascular system, urinary system, skeleton and osteogenesis, respiratory system, and blood of domestic animals.

VMED 9140 ADVANCED ANESTHESIA AND PAIN MANAGEMENT (1) LEC. 1. SU. This course is intended to expand on the basic topics covered in the veterinary curriculum. The content will be selected by the participants on the first day and a syllabus generated based on a consensus of topics the group would like to discuss. All topics in the realm of anesthesia and pain management are within the scope of possibilities. This course is not designed to be a review of topics already covered in other classes, but to expand on those topics. Departmental approval required.

VMED 9141 ORGANOLOGY OF DOMESTIC ANIMALS (2) LEC. 1. LAB. 2. Comparative microstructure of the digestive system, lymphoid system, endocrine system, integumentary system, reproductive system, and placentation of domestic animals.

VMED 9150 DIAGNOSTIC IMAGING (2) LEC. 2. LAB. 1. Basic radiographic and ultrasonographic physics; introduction to computed tomography, magnetic resonance imaging, and nuclear imaging.

VMED 9151 VETERINARY NEUROSCIENCES (4) LEC. 3. LAB. 1. Gross and microscopic morphology and physiology of the peripheral and central nervous systems. Course may be repeated for a maximum of 12 credit hours.

VMED 9160 VETERINARY PUBLIC HEALTH (3) LEC. 3. This first half of this class will include instruction on the zoonoses, and the principles of epidemiology or population medicine. For the zoonoses primary mechanisms of transmission and inclusion in differential diagnosis lists will be emphasized. The role of the veterinarian in prevention of human disease from the zoonoses will be stressed. Epidemiologic methods for investigation of disease distribution and dynamics in populations also will be covered. The second half of the course will provide a broad One Health/ Public Health overview of food safety and food security issues, including pet food and animal feeds. Basic concepts and principles will be illustrated and reinforced through the study of food- and water-borne diseases. This part of the course will address food and water-borne pathogens, their public health impacts (historic and present-day), prevention and mitigation measures (sanitary production and processing, pasteurization, and preservation techniques). The history and importance of regulatory controls and oversight in order to assure food and feed safety, consumer confidence, sustainability, and stable markets for American agriculture will be discussed.

VMED 9170 PROFESSIONAL COMMUNICATION SKILLS (1) LEC. 1. SU. Departmental approval. Students will develop skills in communication with colleagues, clients and staff through lecture and interactive laboratory sessions. Students will also improve their ability to give and receive feedback from peers. Professional presentation skills will be developed during the course with a final presentation given in laboratory setting.

VMED 9180 VETERINARY ETHOLOGY (2) LEC. 2. Basic concepts of ethology and other approaches to animal behavior, introduce diagnostic and treatment methods, discuss relevant cases. Course may be repeated for a maximum of 6 credit hours.

VMED 9190 INTRODUCTION TO VETERINARY PHARMACOLOGY (1) LEC. 3. An organized foundation of information to develop clincial thinking skills in veterinary pharmacology. Course may be repeated for a maximum of 16 credit hours.

VMED 9200 VETERINARY PARASITOLOGY I (3) LEC. 3. LAB. 1. Platyhelminthes, trematodes, and nematodes of domestic animals.

VMED 9210 VETERINARY PARASITOLOGY II (2) LEC. 3. LAB. 1. Arthopods, protozoa, helminths, and acanthocephalans of domestic animals. Parasiticides.

VMED 9220 PRINCIPLES OF VETERINARY PATHOLOGY (3) LEC. 4. LAB. 1. General principles of pathology and mechanisms of disease processes affecting animals.

VMED 9230 VETERINARY CLINICAL PATHOLOGY (4) LEC. 47. LAB. 8. Laboratory test principles and results interpretations in evaluation of hematopoietic, coagulation, hepatic, renal, gastrointestinal, acid/base and fluid status of animals.

VMED 9240 PRINCIPLES OF VETERINARY IMMUNOLOGY (3) LEC. 2. LAB. 1. Principles underlying the immune system's ability to protect animals from disease and mechanisms by which immune responses contribute to disease.

VMED 9250 VIROLOGY & PRIONS (2) LEC. 2. LAB. 1. Principles of infectious agents and their pathogenic attributes, infectious diseases of animals, and mechanisms of antimicrobial agents. Course may be repeated for a maximum of 6 credit hours.

VMED 9260 VETERINARY PHARMACOLOGY (3) LEC. 5. LAB. 1. Overview of drugs relevant to veterinary practice; pharmacoynamics, pharmacokinetics, clinical application.

VMED 9280 BACTERIOLOGY & MYCOLOGY (3) LEC. 3. LAB. 1. Veterinary bacterial and fungal pathogens, diseases caused by each, prevention, treatement and presumptive laboratory diagnoses. Course may be repeated for a maximum of 9 credit hours.

VMED 9290 CLINICAL ANATOMY AND INTRO TO AQUATIC ANIMAL MEDICINE (1) DSL/LLB. SU. This course delves into the unique anatomic and physiologic features of aquatic animals and serves as an introduction into topics including aquaculture, aquatic toxicology, aquatic research models, diseases of fish, and aquatic medicine. In addition, basic fish anatomy and diagnostic techniques will be taught in laboratory sessions.

VMED 9300 REPTILE ANATOMY AND MEDICINE (1) LEC. 1. LAB. 1, LLB. 0. SU. This course will be divided evenly between anatomy and natural history of reptiles. There will be 15 one-hour lectures and 2 two-hour wet labs.

VMED 9301 PHYSICAL DIAGNOSES OF LARGE AND SMALL ANIMALS (2) LEC. 2. LAB. 1. Basic approach to physical examination of large and small animals.

VMED 9309 AVIAN ANATOMY AND MEDICINE (1) LLB. SU. This course will be divided between the anatomy and natural history of birds. There will be 15 one-hour lectures and 2 two-hour wet labs.

VMED 9310 INTRODUCTION TO SURGERY (2) LEC. 2. LAB. 2. Current standing in the DVM professional curriculum and completion of the first 3 semesters of the professional program. Introduction to the fundamental principles and techniques of veterinary surgery.

VMED 9311 SURGICAL PRACTICUM (0-1) LAB. 5. SU. Aseptic technique, instrument handling, suture patterns, surgical ties, anesthetic administration/monitoring, surgical incision/tissue handling, wound closure, postoperative patient management. Course may be repeated for a maximum of 1 credit hours.

VMED 9320 LARGE ANIMAL NUTRITION (2) LEC. 2. LAB. 0. Proper nutrition for health and disease prevention and treatment in large animals in different stages of life. May count either VMED 5320 or VMED 5420. Course may be repeated for a maximum of 6 credit hours.

VMED 9330 EXOTIC COMPANION ANIMAL MEDICINE (2) LEC. 4. Care, diagnosis, and treatment of exotic companion animals. May count either VMED 5330 or VMED 5430. Course may be repeated for a maximum of 6 credit hours.

VMED 9340 EMERGENCY MEDICINE AND CRITICAL CARE (2) LEC. 5. Emergency presentations, critical care management.

VMED 9350 VETERINARY TOXICOLOGY (2) LEC. 2. LAB. 1. Poisons and poisonous plants affecting large and small animals, chemical properties, signs, lesions, diagnosis, treatment.

VMED 9360 PRODUCTION AND PREVENTATIVE MEDICINE (3) LEC. 5. Principles of disease prevention and maximization of production application of food safety principles.

VMED 9370 ONCOLOGY (1) LEC. 3. Diagnostic and therapeutic measures used to manage animals with oncologic diseases.

VMED 9380 PHYSICAL DIAGNOSIS II (1) LEC. 1. LAB. 2. Continued experience in the performance of routine physical examination in small and large animal species. Satisfactory advancement into the second year of the professional (DVM) program.

VMED 9390 ADVANCED ANATOMY AND SURGICAL SKILLS (1) LEC. 1. SU. This elective is based on a flipped classroom model. Each enrollee will be required to prepare one PowerPoint presentation selected from the list of cases provided (or the presenter can elect to bring his or her own case based on past experience) and then discuss it with the group. The presenter will carry out research at home ahead of the class. He will get guidance from instructor who will provide additional notes, video and anatomical resources for each of the listed cases. Departmental approval required.

VMED 9400 EQUINE THERIOGENOLOGY CASE OF THE WEEK (1) LEC. 1. SU. Departmental approval. This course provides students an introduction to equine theriogenology using clinical cases received on the equine theriogenology service of the J.T. Vaughan Large Animal Teaching Hospital.

VMED 9410 APPLIED CLINICAL IMAGING (2) LEC. 3. Define and describe abnormalities of various systems detected through imaging. Course may be repeated for a maximum of 6 credit hours.

VMED 9420 SMALL ANIMAL NUTRITION (2) LEC. 2. Proper nutrition for health and disease prevention and treatment in large animals in different stages of life. May count either VMED 9320 or VMED 9420. Course may be repeated for a maximum of 6 credit hours.

VMED 9440 CLINICAL VETERINARY PARASITOLOGY (1) LEC. SU. Departmental approval. This course will provide students with a case-based lecture format for expansion of foundational parasite knowledge, focusing on further discussions of the diagnosis, treatment, and prevention of common parasitic problems faced by general practitioners (small animal, large animal, and mixed) in the US. Hosts will include, but not be limited to: dogs, cats, horses, cattle, small ruminants, camelids, poultry and swine.

VMED 9450 EQUINE VETERINARY HUSBANDRY (1) LEC. 1. SU. This course is designed to familiarize veterinary students with the basic principles of equine husbandry as related to veterinary medicine, including uses and medical conditions of certain breeds, biosecurity, infectious disease prevention, parasite control programs, dental and hoof care, transport, and nutrition.

VMED 9460 FELINE MEDICINE ELECTIVE (1) LEC/LLB. SU. Departmental approval. This course provides an opportunity to increase practical knowledge of a variety of topics in feline medicine. Topics are designed to supplement course work, or include areas that are not covered in depth in regular courses.

VMED 9470 PRACTICAL KNOWLEDGE FOR EQUINE PRACTITIONERS (1) LEC. 1. SU. Discussions of common equine practice topics by medicine and surgery clinicians and staff.

VMED 9480 SPECTRUM OF CARE SERIES: INFORMATION LITERACY (1) LEC. 1. LAB. 0, LLB. 0. SU. Pr. VMED 9780. As part of the Spectrum of Care Series, this course focuses on identifying, critically evaluating, and applying different types of veterinary literature in academia and different types of private practice models. Additionally, students will be exposed to clinical, novel experiences and research presentations where they will have the ability to think through clinical presentations, provide high-quality feedback, and reflect on applications to their future practice.

VMED 9490 SPECTRUM OF CARE SERIES: EMERGING TECHNOLOGY (1) LEC. 1, LAB. 0-2, LLB. 0. SU. Pr. VMED 9780. As part of the Spectrum of Care Series, this course focuses on emerging technologies in veterinary medicine with a heavy focus on the use of artificial intelligence. This course will focus on how research goes from the benchtop to clinical practice and explore how new technology is developed. Additionally, students will explore the risks, benefits, limitations, and use of artificial intelligence and emerging technologies in veterinary medicine.

VMED 9500 SPECTRUM OF CARE SERIES: PUBLIC SPEAKING AND SOCIAL MEDIA IN MEDICAL PRACTICE (1) LEC. 1, LAB. 0-2, LLB. 0. SU. Pr. VMED 9780. As part of the Spectrum of Care Series, this course focuses on public speaking and use of social media and its practical use in medical practice. This course will be aimed at discussing the various types of speaking that veterinarians and health care professionals are asked to do, how to prepare to give a talk/ continuing education event, and how to engage guest lecturers about best practices in public speaking.

VMED 9502 CURRENT TOPICS IN VETERINARY MEDICINE (1) LEC. 1. SU. Emerging topics in veterinary medicine, current literature. Course may be repeated for a maximum of 15 credit hours.

VMED 9510 HEMOLYMPHATIC SYSTEM (1) LEC. 3. LAB. 1. Diagnosis, treatment and prevention of diseases affecting the integumentary and hemolymphatic systems. Course may be repeated for a maximum of 3 credit hours.

VMED 9520 CARDIOVASCULAR SYSTEM (2) LEC. 3. LAB. 1. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment and prevention of diseases affecting the cardiovascular system.

VMED 9530 RESPIRATORY SYSTEM (3) LEC. 3. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment and prevention of diseases affecting the respiratory system.

VMED 9540 SMALL ANIMAL ALIMENTARY SYSTEM (2) LEC. 5. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment and prevention of diseases affecting the alimentary system. Course may be repeated for a maximum of 6 credit hours.

VMED 9550 URINARY SYSTEM (2) LEC. 3. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment, and prevention of disease affecting the urinary system.

VMED 9560 ENDOCRINE SYSTEM (2) LEC. 3. Pathophysiology, pathologic lesions, diagnosis, treatment and prevention of diseases of the endocrine system.

VMED 9570 THERIOGENOLOGY (4) LEC. 5. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment; and prevention of diseases of the reproductive system.

VMED 9580 NERVOUS SYSTEM (2) LEC. 5. LAB. 1. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment, and prevention of diseases affecting the nervous system.

VMED 9590 MUSCULOSKELETAL SYSTEM (3) LEC. 3. Pathophysiology; pathologic, radiographic and ultrasonographic lesions; diagnosis; treatment; and prevention of diseases affecting the musculoskeletal system.

VMED 9600 ADVANCED EQUINE PHYSICAL DIAGNOSIS I (1) LAB. 1. SU. Departmental approval. An introduction to basic physical examination techniques and clinical conditions commonly used when examining horses clinically. Part 1 of a 2 part series, this course introduces students to common clinical conditions that may be encountered in equine practice.

VMED 9601 VETERINARY CLINICAL ROTATIONS (0-3) CLN. 40. Clinical experiences through various specialty service in the Veterinary Medical Teaching Hospital. Course may be repeated with change in topics.

VMED 9602 RESEARCH PROBLEMS IN BIOMEDICAL SCIENCE (1-10) RES. SU. Research problems in a variety of specialized disciplines for veterinary students and advanced undergraduates.

VMED 9610 ADVANCED EQUINE PHYSICAL DIAGNOSIS II (1) LAB. 1. SU. Departmental approval. This course is a continuation of physical examination techniques and diagnostic procedures used when examining horses clinically. This is the second part of a two part elective to introduce students to common procedures that may be encountered in clinical practice of equine medicine.

VMED 9620 INTEGRATIVE & COMPLEMENTARY MEDICINE (1) LEC. 1. SU. Departmental approval. This course will cover concepts in acupuncture, chiropractic adjustment, massage, and physical therapy as applied to veterinary medicine. The laboratory session will allow for hands on experience through application of techniques.

VMED 9621 CLINICAL ROTATIONS IN VETERINARY MEDICINE (0-2) CLN. 40. Clinical practicum experiences in large and small animal teaching hospitals on the veterinary medical campus. Course may be repeated with change in topics.

VMED 9630 LEGAL PRINCIPLES OF VETERINARY FORENSICS (1) LEC. 1. SU. Fundamental concepts of animal crimes and the role and responsibilities of veterinarians in reporting animal abuse and identifying, documenting, and processing forensic evidence in a criminal case.

VMED 9631 ALTERNATIVE ROTATIONS IN VETERINARY MEDICINE (2) CLN. 40. SU. Clinical practicum experiences in alternative large and small animal disciplines. Course may be repeated with change in topics.

VMED 9640 LARGE ANIMAL ALIMENTARY SYSTEM (2) LEC. 5. Pathophysiology, pathologic lesions, diagnosis, treatment and prevention of diseases affecting the large animal alimentary system. Course may be repeated for a maximum of 6 credit hours.

VMED 9660 BASIC SPANISH FOR VETERINARIANS (1) LEC. 1. SU. Departmental approval. Learn basic words and terminology used in veterinary medicine, including species, household and farm items, basic body parts, etc.

VMED 9669 ADVANCED SPANISH FOR VETERINARIANS (1) LEC. 1. SU. Learn how to communicate in Spanish different diseases, treatments and recommendations for pet owners, including but not limited to dogs, cats, horses, cattle and farm animals. At the end of the course, students should be able to obtain a history, explanation of physical exam and diagnostic tests, description of clinical exam findings, treatments and recommendations.

VMED 9670 OPHTHALMOLOGY (1) LEC. 2. LAB. 1. Common procedures for evaluation, diagnoisis and treatment of eye disorders in domestic species are covered to provide basic veterinary ophthalmology knowledge to veterinary students.

VMED 9680 VACCINES (1) LEC. 1. SU. This course will cover animal and human vaccines, including their history, impact, and recent developments in vaccine technology through evaluation of current primary literature.

VMED 9690 REPTILE AND AMPHIBIAN MEDICINE (1) LEC. 1. SU. Diseases, treatment, husbandry, handling, restraint, examination, sample collection in reptiles and amphibians.

VMED 9700 INTRODUCTION TO ANESTHESIA (3) LEC. 3. LAB. 1. Principles and practices of veterinary anesthesia in large and small animals.

VMED 9720 DISASTER MEDICINE FOR VETERINARIANS (1) LEC. 1. SU. Pr. (VMED 9111 or VMED 5111). Explores the role of the veterinarian in preparing and responding to natural and man-made disasters, including animal health emergencies.

VMED 9730 SELECT TOPICS IN FOOD ANIMAL MEDICINE (1) LEC. 1. SU. This course covers a wide variety of topics involving food animals (bovine, swine, small ruminants, camelids and poultry) which are more in depth than in the standard DVM curriculum.

VMED 9750 DIAGNOSTIC VETERINARY ULTRASONOGRAPHY (1) LAB. 1. SU. Departmental approval. Basic physics, instrumentation, and scanning techniques of ultrasonography. Normal sonographic anatomy correlated with the cross-sectional anatomy of body structures and organs.

VMED 9760 INTRODUCTION TO AMERICAN SIGN LANGUAGE (1) LEC. 1, LAB. 0-1. SU. Introduction to American Sign Language using conversational methods. Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community.

VMED 9780 CLINICAL CONCEPTS & PROFESSIONAL DEVELOPMENT (1) LEC. 1. SU. A weekly case-based presentation that illustrates current concepts in the professional DVM curriculum, as well as concepts that are less commonly emphasized in the curriculum. Course may be repeated for a maximum of 6 credit hours.

VMED 9800 APPLIED SMALL ANIMAL NEUROLOGY (1) LEC. 1. SU. Clinical management of commonly occurring neurologic diseases of small domestic animals.

VMED 9801 PRECEPTORSHIP (3) LAB. 320. SU. Training in a practice situation under the direct supervision of a veterinarian or, under certain conditions, in specialized programs. Approval of Preceptorship Committee.

VMED 9802 DATA ANALYSIS OF EPIDEMIOLOGICAL STUDIES (1) LEC. 1. SU. Departmental approval. This course will cover basic data analysis of epidemiological studies that will be especially useful to students considering pursuit of an internship or residency. Epidemiologic techniques emphasized will be outbreak investigation, evaluation of diagnostic tests and disease surveillance.

VMED 9810 INTEGUMENTARY SYSTEM (2) LEC. 2. Diagnosis, treatment and prevention of diseases affecting the integumentary system.

VMED 9820 THERIOGENOLOGY: A CASE-BASED APPROACH (1) LEC. 1. LAB. 1. SU. Class discussions will surround those topics not covered elsewhere in the core reproductive curriculum (e.g., innate breeding behaviors, advanced techniques such as in-vitro production of embryos, in-depth penile injury management, and advanced dystocia management to name a few). There will be an emphasis placed on current research and literature discussion on a weekly basis.

VMED 9830 MARINE MAMMAL MEDICINE (1) LEC. 1. SU. Departmental approval. Students will receive basic, introductory, and cursory instruction on the clinical medicine involved in the management of some marine mammal species commonly found in oceanariums and marine parks. Provided laboratory session(s) will allow for minor hands-on experience to illustrate concepts. Course is off-site at Gulfworld Marine Park in Panama City Beach FL. Students are financially responsible for travel and lodging expenses.

VMED 9840 WILDLIFE DISEASES (1) LEC. 1. SU. Control and role of veterinarian in prevention of disease in wild animals, specifically wildlife indigenous to U.S.

VMED 9850 MARINE ANIMAL ANATOMY AND NECROPSY TECHNIQUES (2) LAB. SU. Departmental approval. This course will provide an overview of dolphin, pinniped and sea turtle anatomy, necropsy techniques and live and dead animal stranding response. This course will be spread over two weekend-long sessions.

VMED 9860 SURGERY THROUGH HISTORY AND APPLICATION (1) LEC/LLB. SU. Pr. P/C VMED 9310. This class will examine the history and development of surgery using many of the historical figures that shaped modern surgery. The overall goal is to obtain a deeper appreciation of the foundations of surgery and how this foundation impacts its current day practice. Classes will focus on the early contributors to both the performance of surgery and the required knowledge supporting its performance, such as aseptic technique and anesthesia.

VMED 9870 AQUATIC ANIMAL MEDICINE (1) LLB. SU. Departmental approval. Students will receive basic, introductory, and cursory instruction on the clinical medicine involved in the management of some aquatic animal species commonly found in oceanariums. Provided laboratory session(s) will allow for minor hands-on experience to illustrate concepts. Course is off-site at Gulfworld Marine Park in Panama City Beach FL. Students are financially responsible for travel and lodging expenses.

VMED 9890 GENOMICS AND PRECISION MEDICINE (1) LEC. 1. SU. With this course, the student is expected to have a thorough understanding of the historical and current status of the studies on genomics and personalized medicine, with a specific focus on veterinary species.

VMED 9900 DVM GRADUATION COURSE (0) LAB/LEC. SU. Successful completion of this course involves submission of all required competency and case logs, as well as all required graduation assessments.

VMED 9940 COMPANION ANIMAL THERIOGENOLOGY (1) LEC. 1. SU. This course gives students an overview of companion animal reproduction. It is clinically based and offers lectures and discussions to provide a better understanding and deeper knowledge of canine and feline reproduction in practice.

VMED 9950 SPECTRUM OF CARE SERIES: CAPSTONE PRESENTATION (1) SEM. 1. SU. Culminating the final course in the SOCS this course will allow students to apply the skills from their previous courses and implement them into a final Capstone Presentation. In this course students will work with a mentor to prepare an oral presentation and deliverable based on a clinical case, research project, or novel learning experience around the practice of veterinary medicine. Students will also be responsible for providing peer-to-peer feedback for fellow students.

VMED 9995 VETERINARY CLINICAL ROTATIONS - EXTERNSHIPS (0) CLN. Successful completion of didactic veterniary curriculum. Students will participate in clinical rotations including specialty rotations.

Veterinary Medicine - Biomedical Sciences - VBMS

Courses

VBMS 3050 STEWARDSHIP IN THE FACE OF CLIMATE CHANGE: LESSONS FROM THE GREAT BARRIER REEF AND BEYOND (2) AAB/FLD. 30. This 2.5 week course is intended to introduce students to the impact of global warming on the flora and fauna of a unique environment through familiarity with the challenges of maintaining health in domestic, wild and commercial land and marine animals of Australia's diverse ecological land and marine park environments. Activities will include implementation of research methods that assess health, service and outreach efforts that will maintain or improve health, and educational trips that will increase understanding of the fragility and strength of integrated yet every changing flora and fauna. A consistent focus will be the past, present and future impact of humans, and efforts intended to minimize or resolve that impact.

VBMS 3900 REPRODUCTIVE SCIENCE AND HEALTH (3) LEC. 3. P/C, One basic organismal biology, physiology or similar life science course. Sophomore level or higher. Foundational physiologic concepts in reproductive science linked to important animal and human reproductive health issues. May count either ANSC 3600 or VBMS 3600.

VBMS 4980 UNDERGRADUATE RESEARCH (1-3) RES. Directed, supervised undergraduate research in veterinary biomedical sciences (VBMS). Course may be repeated for a maximum of 9 credit hours.

VBMS 4987 HONORS RESEARCH (1-3) RES. Pr. Honors College. Supervised undergraduate research in veterinary biomedical science. May count either VBMS 4987 or VBMS 4997. Course may be repeated for a maximum of 9 credit hours.

VBMS 4997 HONORS THESIS (1-3) RES. Pr. Honors College. Undergraduate honors thesis development in veterinary biomedical science. May Count either VBMS 4987 or VBMS 4997. Course may be repeated for a maximum of 9 credit hours.

VBMS 5100 CANCER BIOLOGY & GENETICS (3) LEC. 3. Coreq. BIOL 5220. Biological and genetic mechanisms underlying the development of cancer with a focus on eukaryotic cell mechanisms regulating cell division and communication as well as genetic and phenotype instability. State-of-the-art genomic approaches to personalized medicine and immunotherapy will be discussed. Current literature will be used extensively. Undergraduate courses in genetics and molecular genetics are required or corequisite.

VBMS 6100 CANCER BIOLOGY & GENETICS (3) LEC. 3. Pr. BIOL 3003 and BIOL 5220. Biological and genetic mechanisms underlying the development of cancer with a focus on eukaryotic cell mechanisms regulating cell division and communication as well as genetic and phenotype instability. State-of-the-art genomic approaches to personalized medicine and immunotherapy will be discussed. Current literature will be used extensively. Undergraduate courses in genetics and molecular genetics are required. Additionally, completion of VBMS 7520 Eukaryotic Molecular Biology is encouraged.

VBMS 6111 VETERINARY ANATOMY I (4) LAB. 12. Departmental approval. Gross anatomy of the dog and cat including skeletal and muscular systems, neck, thorax, limbs, abdomen, pelvis, head, and nervous system. Credit will not be given for VMED 5111 and VBMS 6111.

VBMS 6121 VETERINARY ANATOMY II (3) LAB. 9. Pr. VBMS 6111 or VMED 9111. In-depth study of the gross anatomy of the ox, horse, and minor species (chicken) with inclusion of clinical relevance. In-depth presentation of a specific anatomy topics related to course material. May count either VMED 5121 or VBMS 6120.

VBMS 7000 NEUROANATOMY (5) LEC. 3. LAB. 4. Departmental approval. Functional morphology of nervous system from input/output through the long systems; limbic relations to endocrine and autonomic nervous system. Comparative among mammals.

VBMS 7010 PATHWAYS TO SUCCESSFUL RESEARCH (1) LEC. 1. An introduction to topics pertinent to performance of a successful graduate program and in the conduction of responsible research.

VBMS 7020 MICROSCOPIC ANATOMY I (3) LEC. 1. LAB. 4. Departmental approval. A detailed study of microscopic anatomy of basic tissues from multiple animal species. Light microscopy and electron micrograph preparations are used to describe and interpret morphology. Coursework will emphasize the dependence of morphological form on the functional demands of cells and tissue. The lectures characterize the structure and function of the four basic tissues (epithelium, connective tissue, muscle, and nerve) and organ systems. In the lab, students will examine the same structures and learn to identify tissues and organs.

VBMS 7030 MICROSCOPIC ANATOMY II (3) LEC. 1. LAB. 4. Departmental approval. Light microscopy and electron microscopy detailed study of the cardiovascular, hemopoietic, digestive, urinary and respiratory systems of domestic animals.

VBMS 7040 ADVANCED PHYSIOLOGY OF REPRODUCTION (3) LEC. 3. Pr. ANSC 3600 and BIOL 6240 or VBMS 7150. Departmental approval. Developmental, physiological, endocrinological, cellular and molecular mechanisms regulating reproduction, with emphasis on mammalian systems.

VBMS 7070 ENDOCRINOLOGY (4) LEC. 4. Pr. BCHE 7200 and BCHE 7260 and BIOL 6600. Molecular and cellular endocrinology and physiological regulation of hormone synthesis, secretion, and action in mammalian species. Emphasis will be placed on the methodology and key concepts used for endocrine research.

VBMS 7080 MOLECULAR ENDOCRINOLOGY (2) LEC. 2. Pr. VBMS 7070. Departmental approval. Examination of the literature of hormonal synthesis, secretion and mechanism of action with emphasis on receptors, second messenger systems, and gene regulation.

VBMS 7090 ADVANCED PHARMACOLOGY (3) LEC. 3. Departmental approval. The principles of pharmacology in animals are addressed with a clinical perspective. The determinants of drug movement, pharmacokinetics (modeling) and pharmacodynamics, with a focus on drug-receptor interactions and their detection will be followed by a discussion of adverse drug events and selected drug categories, including cannabinoids, nonsteroidal anti-inflammatory drugs and antimicrobials. Student contributions to discussions through the review of contemporary, relevant literature is emphasized.

VBMS 7120 PRACTICAL FLOW CYTOMETRY AND CELL SORTING IN RESEARCH APPLICATION (2-4) LEC. 2. LAB. 4, LLB. 3. Combined Lecture and lab covering the principle of flow cytometry, experiment design, and data analysis. Instructor approval is highly recommended. Course may be repeated for a maximum of 4 credit hours.

VBMS 7130 VETERINARY MEDICINE DIAGNOSTIC ULTRASONOGRAPHY (3) LEC. 3. Pr. (VMED 9120 or VMED 9121 or VMED 5120) and VMED 5121. The principles and practice of veterinary medical diagnostic ultrasonography as they are utilized in evaluating normal and abnormal anatomy. All animal species are used in this course. DVM degree required.

VBMS 7140 PHYSIOLOGY I (5) LEC. 5. Departmental approval. Cellular, Cardiovascular, Renal and Respiratory Physiology.

VBMS 7150 PHYSIOLOGY II (4) LEC. 4. Pr. VBMS 7140. Departmental approval. Gastrointestinal Physiology, Metabolism, Endocrinology, and Reproductive Physiology.

VBMS 7160 NEUROSCIENCE (4) LEC. 3. LAB. 2. Departmental approval. An overview of neuroscience on the subcellular, cellular and system levels.

VBMS 7170 SMALL ANIMAL SOFT TISSUE SURGERY ADVANCED TOPICS (1) LEC. Advanced topics in small animal soft tissue surgery and current literature are reviewed and discussed.

VBMS 7180 RECEPTOROLOGY (4) LEC. 4. Pr. VBMS 7070. Addresses structural and functional aspects of the four classes of receptors, including the mechanism of ligand binding, activation, inactivation, and their relevance to human and animal diseases. Methods used in addressing these questions will also be introduced.

VBMS 7200 VETERINARY ELECTRODIAGNOSTIC TESTING (3) LEC. 3. SU. Departmental approval. This course will cover principles of electrophysiology, electrodiagnostic testing, and pertinent electrodiagnostic literature. Modalities covered include: electromyography, nerve conduction velocity, late waves, repetitive nerve stimulation, evoked potentials, electroretinogram, electroencephalogram, and urethral pressure profile.

VBMS 7210 RADIATION BIOLOGY (4) LEC. 4. Exploration of biological, physical, and chemical basis of radiotherapy with emphasis on the biological effects of ionizing radiation at the cellular and molecular level. Effects of irradiation on the tumor, normal tissues, and the patient will be addressed. DVM degree; Residency in Radiation Oncology or Radiology or Small Animal Oncology and registered in the Graduate School.

VBMS 7220 STRUCTURE AND FUNCTION OF COMPANION ANIMAL SKIN (3) LEC. 3. The course will cover the comparative aspects of the structure and function of the skin of companion animals in healthy and diseases states.

VBMS 7230 CUTANEOUS DISORDERS OF LARGE AND EXOTIC ANIMALS (3) LEC. 3, IND/LEC. 9-12. In depth review of the common and uncommon dermatologic conditions affecting large animal and exotic animal species, including emphasis on those conditions considered zoonotic.

VBMS 7250 NORMAL RADIOLOGICAL ANATOMY (3) LEC. 3. A detailed study of the normal structure, size and position of the various organs of the cat, dog, horse, cow, and other veterinary species as they appear on plain and contrast radiographs. DVM Degree, acceptance in an established residency program.

VBMS 7260 ADVANCED RADIOLOGY (3-5) LEC. Detailed study of concepts and techniques of all imaging procedures. For graduate students and residents in DCS program or DVM or equivalent. Course may be repeated for a maximum of 5 credit hours.

VBMS 7270 RADIOLOGICAL INTERPRETATIONS (1-3) LEC. The interpretation of various diagnostic imaging modalities used in veterinary medicine and their applications in the diagnostic work-up of clinical cases presenting to the College of Veterinary Medicine. DVM Degree. Course may be repeated for a maximum of 3 credit hours.

VBMS 7280 PHYSICS OF DIAGNOSTIC IMAGING (3) LEC. 3. Principles of physics related to the imaging modalities of diagnostic radiology, ultrasonography, magnetic resonance imaging, scintigraphy, computed tomography, and radiation therapy. Students will study physics at the atomic level but must also develop an understanding of construction, function, and hazards of modern imaging equipment. DVM Degree.

VBMS 7290 GRADUATE SEMINAR (3) SEM. Departmental approval. This course offers hands-on experience on presenting cutting-edge research across a wide range of biological disciplines—including (but not limited to) genetics, comparative biology, quantitative biology. The course places emphasis on understanding hypotheses, experimental design, results, and interpretation from past studies. It applies a One Health concept. Course may be repeated for a maximum of 9 credit hours.

VBMS 7300 AVIAN DIAGNOSTIC PATHOLOGY (1-3) LAB. 1-3. SU. Residents enrolled in the Veterinary Biomedical Sciences Avian Pathology specialty program will interpret lesions for the diagnosis of avian diseases using necropsy procedures. Focus will be placed on an integrated comparative understanding of the pathophysiology of disease in commercial poultry. Course may be repeated for a maximum of 3 credit hours.

VBMS 7310 ADVANCED VETERINARY ANESTHESIOLOGY (1) LEC. 1. This course will be delivered in weekly one hour lecture format. The presenter for each lecture will rotate between course students and veterinary faculty. For each hour, the presenter will be required to deliver a lecture on a topic related to the overreaching subject for that semester course. The lecture will be delivered at an in-depth level utilizing currently scientific literature, text books, and other reference materials resulting in delivery of state of the art information. Graduate standing in Biomedical Sciences, College of Veterinary Medicine. Must have a DVM degree or equivalent. Course may be repeated for a maximum of 9 credit hours.

VBMS 7320 EVALUATION OF CURRENT AND EMERGING LITERATURE IN VETERINARY ANESTHESIA (1) LEC. 1. This course will be delivered in weekly one hour lecture format. The presenter for each lecture will rotate between course students and veterinary faculty. For each hour, the presenter will be required to deliver an in-depth evaluation and summary of two medial journal manuscripts related to veterinary anesthesiology. The presenter will be required to discuss the manuscript format, study design, data analysis, results, and conclusions including discussion on the pros and cons of the study. Manuscript selection for each class will be at the discretion of the presenter and copies of the manuscripts will be made available electronically to all faculty and students of the course one week prior to the class. Graduate standing in Biomedical Sciences, College of Veterinary Medicine. Must have a DVM degree or equivalent. Course may be repeated for a maximum of 9 credit hours.

VBMS 7340 LARGE ANIMAL SURGERY AND MEDICINE SEMINAR (1) SEM. 1. Departmental approval. Seminar required of all graduate students in large animal surgery and medicine. Meets at scheduled intervals each year.

VBMS 7350 ADVANCED LARGE ANIMAL UROGENITAL SURGERY (5) LEC. 3. LAB. 6. Departmental approval. Research in surgery. Advanced techniques for urogenital surgical procedures in large domestic animals.

VBMS 7360 ADVANCED LARGE ANIMAL SOFT TISSUE SURGERY (5) LEC. 4. LAB. 2. Departmental approval. Research in surgery. Advanced techniques for soft tissue surgical procedures in large domestic animals.

VBMS 7370 ADVANCED LARGE ANIMAL ORTHOPEDIC SURGERY (5) LEC. 3. LAB. 2. Research and advanced techniques for orthopedic surgical procedures in large domestic animals.

VBMS 7380 ADVANCED FOOD ANIMAL MEDICINE (2) LEC. 2. Departmental approval. In-depth study of food animal medical diseases of all body systems with emphasis on pathophysiologic mechanisms. DVM degree.

VBMS 7400 GYNECOLOGY OF LARGE DOMESTIC ANIMALS (3) LEC. 3. Departmental approval. Diseases and problems of the reproductive system in the female domestic animals. Normal and abnormal conditions of various species are covered. DVM degree.

VBMS 7410 ANDROLOGY OF LARGE DOMESTIC ANIMALS (3) LEC. 3. Departmental approval. Diseases and problems of the reproductive system in male domestic animals. DVM degree.

VBMS 7420 SCIENTIFIC COMMUNICATION (3) LEC. SU. Building skills towards effective and impactful communication of scientific evidence via writing, for thesis/dissertation and scientific journals, and via oral presentation.

VBMS 7440 ADVANCED EQUINE ARTHROSCOPIC SURGERY (5) LEC. 3. LAB. 6. Departmental approval. Research in surgery. Advanced techniques for arthroscopic surgical procedures in the horse. DVM degree.

VBMS 7450 SELECTED TOPICS IN GRADUATE EDUCATION RESEARCH (3) LEC. 3. Departmental approval. This course offers a deep dive into molecular or quantitative research. This course can be designed for students looking to build strong analytic and computational skills. The course emphasizes practical techniques for working with large and complex datasets across a range of research domains. Students will learn to write clear, efficient, and reproducible code while developing workflows that support rigorous, transparent analysis. Course may be repeated for a maximum of 9 credit hours.

VBMS 7460 MICROBIAL PATHOGENESIS (3) LEC. 3. Departmental approval. Mechanisms of infection and disease production by bacteria, viruses, and parasites in animals.

VBMS 7470 ADVANCED EPIDEMIOLOGY (3) LEC. 3. Departmental approval. Advanced epidemiological techniques and their application to disease research, clinical retrospective and prospective studies, and disease outbreak investigation. Introductory statistics course

VBMS 7480 METHODS IN IMMUNOLOGY (5) LEC. 1. LAB. 8. Pr. VBMS 7500. Departmental approval. Theoretical concepts underlying immunological methods combined with practical hands-on immunological experimentation focused on application to research in the biological sciences.

VBMS 7500 CELLULAR AND MOLECULAR IMMUNOLOGY (3) LEC. Departmental approval. Current literature in immunobiology, emphasis on cellular/ biochemical/genetic basis of immune response.

VBMS 7510 VETERINARY CLINICAL ROTATIONS (3) CLN/LEC. 40. Post-DVM (Doctor of Veterinary Medicine) clinical experiences through various specialty services in the Veterinary Medical Teaching Hospital. Departmental approval required. Course may be repeated for a maximum of 24 credit hours.

VBMS 7520 EUKARYOTIC MOLECULAR BIOLOGY (3) LEC. 3. Genetic mechanisms regulating genomes and gene expression by which eukaryotic cells replicate, communicate and differentiate. Current literature will be used extensively.

VBMS 7530 EXPERIMENTAL TECHNIQUES IN MOLECULAR AND CELL BIOLOGY (3) LEC. 2. LAB. 6. Nucleic acid detection/ amplification/sequencing, primer design, CRISPR, transfection, protein/ antibody chemistry, flow cytometry, immunofluorescence microscopy, fluorochromes, radioisotopes, centrifugation, and cell culture will be discussed.

VBMS 7540 CURRENT TOPICS IN MOLECULAR VIROLOGY (3) LEC. 3. Pr. (VBMS 7520 or BIOL 5230 or BIOL 6230). Departmental approval. Viral gene expression and evasion of host defense mechanisms.

VBMS 7550 ADVANCED GENERAL PATHOLOGY (1-3) LEC. SU. Departmental approval. Structured examination of current textbooks and literature related to the pathologic basis of veterinary diseases. Open to residents in anatomic and clinical pathology and other post-DVM students with special approval. Course may be repeated for a maximum of 3 credit hours.

VBMS 7570 DIAGNOSTIC PATHOLOGY (1-3) LEC. SU. Diagnosis of animal diseases using necropsy procedures and histopathology. Required every semester of all graduate students and residents in pathology. DVM degree. Course may be repeated for a maximum of 3 credit hours.

VBMS 7580 SURGICAL PATHOLOGY (1-3) LEC. SU. Histopathologic diagnosis of surgical biopsy or necropsy specimens. Available to residents in anatomic and clinical pathology. Course may be repeated for a maximum of 3 credit hours.

VBMS 7600 ADVANCED CLINICAL PATHOLOGY I (3) LEC. 3. Pr. VMED 5230 or VMED 9230. Departmental approval. The lymphohematopoietic system. Normal components and evaluation of disease states.

VBMS 7610 ADVANCED CLINICAL PATHOLOGY II (3) LEC. 3. Departmental approval. Laboratory evaluation of organ function; disease pattern recognition.

VBMS 7620 DIAGNOSTIC ONCOLOGY (3) LEC. 3. Pr. VMED 9220. Departmental approval. Principles of gross and microscopic interpretation of animal neoplasms using basic and specialized techniques.

VBMS 7630 BASIC AND CLINICAL ONCOLOGY (3) LEC. 3. Comparative aspects of the etiology, pathophysiology, diagnosis and treatment of cancer.

VBMS 7640 MECHANISMS OF DISEASE (3) LEC. 3. Pr. VMED 9220. Departmental approval. Understanding of disease through in-depth discussion of pathophysiology of various disease processes, disorders and diagnostic modalities. Focus will be placed on an integrated comparative understanding of the pathophysiology of disease in major veterinary species as it pertains to current and historically significant disease, as well as emerging diseases. Emphasis is placed on the morphologic, molecular and genetic aspects of disease processes.

VBMS 7650 VETERINARY DERMATOPATHOLOGY I (1-3) LEC. SU. This course aims to share theoretical and practical foundations on dermatopathology with residents in the Anatomic Pathology and/or Veterinary Dermatology program(s). The lectures will consist of 1-hour long Powerpoint presentations or case discussions on relevant integumentary diseases, with summarized clinical features and a particular focus on the histopathology perspective of cases that usually warrant biopsy. At the end of the course, it is expected that residents learn the fundamental terminologies used in dermatopathology, in addition to pattern recognition of major cutaneous diseases that afflict domestic animals. Course may be repeated for a maximum of 3 credit hours.

VBMS 7660 VETERINARY DERMATOPATHOLOGY II (1-3) LEC. SU. This course aims to share theoretical and practical foundations on dermatopathology with residents in the Anatomic Pathology and/or Veterinary Dermatology program(s). The lectures will consist of 1-hour long PowerPoint presentations or case discussions on relevant integumentary diseases, with summarized clinical features and a particular focus on the histopathology perspective of cases that usually warrant biopsy. At the end of the course, it is expected that residents learn the fundamental terminologies used in dermatopathology, in addition to pattern recognition of major cutaneous diseases that afflict domestic animals. Course may be repeated for a maximum of 3 credit hours.

VBMS 7680 PATHOLOGY SEMINAR (1) LEC. 1. Pr. VMED 9220. Departmental approval. Weekly conference to discuss gross and histologic pathology in animal tissues. Open to residents in anatomic and clinical pathology. Course may be repeated for a maximum of 3 credit hours.

VBMS 7690 READINGS IN IMMUNOLOGY AND INFECTIOUS DISEASE (1-3) LEC. 1-3. To familiarize students with current scientific literature in immunology and infectious diseases and the methods employed. Course may be repeated for a maximum of 6 credit hours.

VBMS 7710 ADVANCED EUKARYOTIC MOLECULAR BIOLOGY (3) LEC. 3. Pr. VBMS 7520. Current literature in molecular mechanisms of information transfer and regulation in eukaryotes.

VBMS 7720 DEVELOPMENTAL MOLECULAR BIOLOGY (3) LEC. 3. Genetic mechanisms by which eukaryotes differentiate from single cells to complex multicellular organisms will be covered. Important examples of biomedical dysfunction will be used to illustrate developmental pathways. Current literature will be used extensively.

VBMS 7750 GRADUATE COLLOQUIUM IN VETERINARY CLINICAL SCIENCE (1) CLN. 1. SU. Departmental approval. Forum to present topics relevant to the students clinical and research interests. This a mandatory seminar for graduate students in the Department of Clinical Science. DVM degree Course may be repeated for a maximum of 5 credit hours.

VBMS 7760 ADVANCED VETERINARY NEUROSURGERY (4) LEC. 1. LAB. 3. Enrolled in the CVM's MS or PHD program. Veterinary neurosurgery. All aspects of veterinary neurosurgery will be covered. Content delivery is via didactic lecture, small group discussion, and skills laboratories.

VBMS 7770 ADVANCED SMALL ANIMAL GENERAL SURGERY (3) LEC. 2. LAB. 3. Application of critical thinking skills to perioperative plans and tasks. DVM or VMD degree, or equivalent.

VBMS 7780 VETERINARY WOUND MANAGEMENT AND RECONSTRUCTIVE SURGERY (4) LEC. 2. LAB. 2. Techniques in veterinary wound management and reconstructive surgery in large and small animals. DVM degree or equivalent.

VBMS 7790 SMALL ANIMAL ORTHOPEDICS (2) LEC. 2. Review of orthopedic diseases in small animals, interactive review of recent literature and advanced laboratory sessions intended for residents in small animal surgery. DVM degree or equivalent.

VBMS 7800 ADVANCED SMALL ANIMAL NEUROLOGY (3) LEC. 3. Advanced study of neurodiagnostics and non-surgical therapy of neurological disorders in small domestic animals.

VBMS 7810 ADVANCED SMALL ANIMAL MEDICINE I (3) LEC. Departmental approval. Special study of the causes, methods of diagnosis, treatment and control of non-surgical urogenital diseases of small animals. DVM degree.

VBMS 7820 ADVANCED SMALL ANIMAL MEDICINE II (3) LEC. 3. Departmental approval. Special study of the causes, methods of diagnosis, treatment and control of non-surgical gastrointestinal diseases of small animals. DVM degree.

VBMS 7830 ADVANCED VETERINARY ONCOLOGY (3) LEC. 3. SU. Departmental approval. Special study of veterinary oncology and general tumor biology. DVM degree required. Course may be repeated for a maximum of 6 credit hours.

VBMS 7840 ADVANCED CRITICAL CARE MEDICINE I: PATHOPHYSIOLOGY (2) LEC. 2. Advanced topics in veterinary critical care are discussed. Topics include pathophysiology, pharmacology, and specific therapy of critical illness. Graduate standing in Biomedical Sciences, College of Veterinary Medicine. Course may be repeated for a maximum of 5 credit hours.

VBMS 7850 ADVANCED VETERINARY MEDICAL SPECIALTY TRAINING (1-4) LEC. 1. LAB. 2. SU. Advanced veterinary medical specialty training is provided to residents and board-eligible veterinary trainees with hands-on instruction in clinical activities commensurate with the board-certification expectation of various veterinary medical specialties. Up to 3 hours may be used toward BMS degree program, course may be repeated for a maximum of 6 credit hours.

VBMS 7860 SPECIAL TOPICS IN COMPARATIVE OPHTHALMOLOGY (1) LLB/ST1. SU. This weekly 1 hour course will consist of chapter reviews of veterinary ophthalmology and equine ophthalmology. House officers will develop and present power point slides outlining assigned chapters. Course assignments will also include reading and presenting journal articles from the required list for board preparation, as well as taking mock boards practice journal and image recognition questions. Course may be repeated for a maximum of 15 credit hours.

VBMS 7870 ADVANCED VETERINARY OPHTHALMOLOGY: OPHTHALMIC MEDICINE (3) LEC. 3. Advanced ophthalmology with emphasis on diagnosis, pathophysiology and treatment of ocular diseases of domestic animals. DVM degree or equivalent.

VBMS 7880 ADVANCED VETERINARY OPHTHALMOLOGY: OPHTHALMIC MEDICINE (3) LEC. 1. LAB. 6. Pr. VBMS 7870. Advanced ophthalmology with emphasis on ophthalmic surgery.

VBMS 7890 ADVANCED VETERINARY OPHTHALMOLOGY: OPHTHALMIC BASIC SCIENCES (3) LEC. 3. Advanced ophthalmology with emphasis on diagnosis, pathophysiology and treatment of ocular diseases of domestic animals. DVM degree or equivalent.

VBMS 7900 VETERINARY OPHTHALMIC PATHOLOGY (1) LLB. This course aims to share theoretical and practical foundations on ocular pathology with residents in the Anatomic Pathology and/or Veterinary Ophthalmology program(s). The lectures will consist of 1-hour long PowerPoint presentations on significant ocular/orbital abnormalities, with summarized clinical features and a particular focus on the histopathology perspective of cases that usually warrant biopsy, enucleation, evisceration, or orbital exenteration. At the end of the course, it is expected that residents build acquaintance with the fundamental terminologies used in ocular pathology, in addition to the recognition of major pathologic processes of the ocular/orbital structures.

VBMS 7910 THERIOGENOLOGY JOURNAL CLUB (1) LEC. 1. SU. This course is aimed at discussing current literature in the field of theriogenology, or animal reproduction. Any graduate student in the reproductive sciences is encouraged to participate. Course may be repeated for a maximum of 6 credit hours.

VBMS 7930 ADVANCED SMALL ANIMAL ORTHOPEDICS: AXIAL SKELETON (2) LEC. 2. Advanced topics in small animal orthopedics are discussed. Topics include anatomy, pathophysiology, pharmacology, and medical/surgical therapy of axial skeletal disease in small animals.

VBMS 7940 CURRENT TOPICS IN IMMUNOBIOLOGY (1) LEC. 1. The focus of this journal club is to discuss recently published advanced research topics in immunobiology research field pertaining to graduate student’s research work. Course may be repeated for a maximum of 12 credit hours.

VBMS 7950 NEUROLOGY & NEUROSURGERY JOURNAL CLUB (1) LEC. 1. LAB. 0, LEC/SEM. 0. This course is aimed at discussing current literature in the field of veterinary neurology & neurosurgery. Any graduate student in the neurology & neurosurgery residency/internship program is encouraged to participate. Course may be repeated for a maximum of 10 credit hours.

VBMS 7960 VETERINARY NEURORADIOLOGY (1) LEC. 1. SU. Departmental approval. This course will cover fundamental concepts and principles of imaging modalities commonly used in veterinary neurology, namely MRI, CT, & radiography. Course material includes imaging of common neurologic lesions including congenital, neoplasia, trauma, vascular, inflammatory, and infectious diseases.

VBMS 7970 RESEARCH PROBLEMS IN BIOMEDICAL SCIENCES (1-5) RES. Departmental approval. Research problems for graduate students, under supervision of faculty, in variety of specialized disciplines related to the biomedical sciences. Faculty approval. Course may be repeated for a maximum of 15 credit hours.

VBMS 7980 NON-THESIS PROJECT (1-3) LEC. SU. Departmental approval. Non-thesis project, to be determined by faculty advisor and student's graduate advisory committee. DVM degree

VBMS 7990 RESEARCH AND THESIS IN BIOMEDICAL SCIENCES (1-10) MST. Credit to be arranged. Course may be repeated with change in topics.

VBMS 8000 ADVANCED SMALL ANIMAL EMERGENCY AND CRITICAL CARE LITERATURE REVIEW (1) LEC. 1. SU. Review of current literature pertaining to Small Animal Emergency and Critical Care. Review includes group discussion of study design, procedural and physiologic concepts, statistical analysis, and relevance of outcomes.

VBMS 8010 EMERGING PEDAGOGIES IN ANATOMIC PATHOLOGY (1-3) LLB. SU. The overall objective of this course is to expose Graduate Teaching Assistants (GTA) to pedagogy strategies related to general pathology with specific emphasis on competency-based medical education for second-year veterinary students. Trainees will be introduced to diverse classroom dynamics, such as case- and problem-based laboratories, flipped classroom, and other collaborative learning techniques.

VBMS 8360 ADVANCED EQUINE MEDICINE I: GI DISEASE (2) LEC. 2. Advanced topics in equine gastrointestinal disease are discussed. Topics include pathophysiology, pharmacology, and specific therapy of GI disease in horses. Graduate standing in Biomedical Sciences, College of Veterinary Medicine. Must have DVM or equivalent.

VBMS 8370 ADVANCED EQUINE MEDICINE II: RENAL/ENDOCRINE (2) LEC. 2. Advanced topics in equine renal and endocrine disease are discussed. Topics include pathophysiology, pharmacology, and specific therapies. Graduate standing in Biomedical Sciences, College Veterinary Medicine. Must have DVM or equivalent.

VBMS 8380 ADVANCED EQUINE MEDICINE III: NEUROMUSCULAR (2) LEC. 2. Advanced topics in equine neuromuscular disease are discussed. Topics include pathophysiology, pharmacology, and specific therapies. Graduate standing in Biomedical Sciences, College Veterinary Medicine. Must have DVM or equivalent.

VBMS 8390 ADVANCED EQUINE MEDICINE IV: CARDIORESPIRATORY (2) LEC. 2. Advanced topics in equine cardiorespiratory disease are discussed. Topics include pathophysiology, pharmacology and specific therapies. Graduate standing in Biomedical Sciences, College Veterinary Medicine. Must have DVM or equivalent.

VBMS 8480 EXPERIMENTAL METHODS IN VETERINARY MEDICINE (3) LEC. 3. Departmental approval. This course is intended to provide the biomedical sciences graduate student with the necessary tools to design and analyze a straightforward Masters-level veterinary biomedical research study, and interpret common statistical methods in the veterinary biomedical literature. Students will review and discuss examples from the veterinary research literature and acquire experience performing analysis using commonly available software packages.

VBMS 8950 BIOMEDICAL SCIENCES SEMINAR (1) SEM. 1. SU. Recent advances in biochemistry, cell biology and molecular biology will be critically presented and discussed by graduate faculty and students. Course may be repeated for a maximum of 10 credit hours.

VBMS 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Wildlife Sciences - WILD

Courses

WILD 1050 INTRODUCTION TO FIREARMS, HUNTING, AND CONSERVATION (2) LEC. 2. Introduction to firearms, proper and safe use of firearms for hunting, how and why people hunt, the important social, economic, and biological role hunting plays in the conservation of wildlife. Course will provide students with basic technical knowledge of firearms and safe handling practices for completion of the Alabama Hunter Education program.

WILD 1100 WILDLIFE FOOD PLOT ESTABLISHMENT (2) LEC. 2. Fundamental concepts, issues, and concerns related to wildlife food plots and practical procedures for establishment of wildlife food plots.

WILD 1200 HUNTING AND FISHING THE WORLD (3) LEC. 3. Provides students with an introduction to the diversity of hunting and fishing opportunities available worldwide, the types of businesses that cater to these opportunities, and how these recreational activities contribute to game conservation and management.

WILD 1300 WILDLIFE: PEOPLE, ANIMALS, AND THEIR INTERACTIONS (3) LEC. 3. This course offers a general survey of wildlife, including basic ecology, characteristics of wildlife, their habitats, and methods of conserving species. Human interactions with wildlife, as well as the impacts of human activities on wildlife, will be explored.

WILD 1400 BIODIVERSITY IN A CHANGING WORLD (3) LEC. 3. The science of biodiversity focuses on understanding patterns and trends in the variability of life on Earth. This course explores how this diversity arose, the ecological forces that shape it, the consequences of its loss, and the steps we can take to conserve it.

WILD 2050 WILDLIFE CONSERVATION HISTORY AND LAW (3) LEC. 3. The history of wildlife conservation in North America, the conservation problems that have arisen since European settlement, and the laws and practices that have evolved to remedy them.

WILD 2310 BIOLOGY OF PLANTS IMPORTANT TO WILDLIFE (2) LEC. 1. LAB. 1. Introduction to taxonomy, structure, function, and distribution of plants that are important for wildlife species, with an emphasis on why those characteristics make them important.

WILD 2400 SPORTING FIREARMS AND ARCHERY (2) LEC. 2. Provides students with a thorough understanding of the role of sporting firearms and archery equipment in hunting and the wildlife enterprise management field, including the variety of equipment available and their effectiveness with different game species. WLEM students only.

WILD 2410 INTRODUCTION TO PISTOL (2) LLB. This course introduces the students to the basic knowledge, skills, and attitude necessary for owning and using a pistol safely. Through this course, the students will learn about pistol parts and operation, ammunition, gun safety, pistol shooting fundamentals, and pistol shooting activities. Instruction will primarily utilize air-powered pistols and move up to .22 rimfire pistols the last few weeks of class.

WILD 2420 INTRODUCTION TO ARCHERY (2) LEC/LLB. This course introduces the students to the basic knowledge, skills, and attitude necessary for owning and using archery equipment safely. Through this course, the students will learn about archery equipment and operation, archery safety, shooting fundamentals, and shooting activities. Instruction will primarily utilize Genesis (compound) and recurve bows.

WILD 3280 WILDLIFE ECOLOGY, CONSERVATION, AND MANAGEMENT (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Fundamentals of wildlife management theory, application, and administration.

WILD 3281 WILDLIFE MANAGEMENT LABORATORY (1) LAB. 3. Pr. P/C WILD 3280. Laboratory/Field experiences in wildlife management. Optional, hands-on course that explores the application of topics covered in WILD 3280.

WILD 3287 HONORS WILDLIFE ECOLOGY, CONSERVATION, AND MANAGEMENT (3) LEC. 3. Pr. Honors College. BIOL 1030 or BIOL 1037. Fundamentals of wildlife management theory, application, and administration.

WILD 3500 OUTDOOR SAFETY AND LIABILITY (1) LEC. 1. Exposes students to the safety and liability risks associated with outdoor activities that are common in the wildlife enterprise industry. Students will learn techniques to meet the needs of clientele, while maximizing revenue and minimizing risks.

WILD 3600 WILDLIFE ENTERPRISE FIELD TECHNIQUES (4) LEC. 3. LAB. 2. Pr. WILD 3280. Equip students majoring in wildlife enterprise management with the technical skills to complete a variety of tasks related to wildlife habitat and population management on private properties used in recreational or lodge enterprises.

WILD 3800 INTRODUCTION TO WILDLIFE MANAGEMENT IN SOUTHERN AFRICA (1) LEC. 1. Pr. WILD 2050 and WILD 3280. Provide students with knowledge of important wildlife management issues in southern Africa. Students will develop an understanding of pressing wildlife management issues in the region and learn how to apply that knowledge to future learning.

WILD 3810 STUDY ABROAD - WILDLIFE MANAGEMENT IN SOUTHERN AFRICA (3) AAB. 60. Pr. WILD 3800. Travel overseas to Swaziland and South Africa to engage in many of southern Africa's most pressing wildlife management issues.

WILD 3920 INTERNSHIP IN WILDLIFE ENTERPRISE MANAGEMENT (3) INT. This class is a supervised work experience in a Wildlife Enterprise Management (WLEM) setting for a minimum of 400 hours for at least 10 consecutive weeks and may be repeated for a maximum of 6 hours credit. The mission of WLEM is to prepare professionally competent individuals who will make a contribution to the Wildlife Enterprise Management industry.

WILD 4340 CONSERVATION GENETICS (3) LEC. 3. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027. The science of how populations genetics have been affected by habitat loss, over-exploitation, or environmental change, with a focus on inheritance and evolution, and with the goal of informing conservation and management.

WILD 4400 PROBLEM SOLVING IN WILDLIFE SCIENCES (2) LEC. 2. Pr. (WILD 3280 or WILD 3287) and P/C WILD 5750. Applied training and tools used to solve problems in wildlife science.

WILD 4500 ADVANCED WILDLIFE ENTERPRISE MANAGEMENT (3) LEC. 3. Pr. (WILD 3280 or WILD 3287) and HOSP 2350. Integration and synthesis of the skills learned throughout the Wildlife Enterprise Management curriculum. Because wildlife enterprises are unique in the business world, students will learn to apply various material from previous courses to managing a wildlife enterprise.

WILD 4750 CONSERVATION BIOLOGY OF THE HAWAIIAN ISLANDS (3) FLD. 1. Pr. BIOL 3060 or WILD 3280 or WILD 3287 or FORY 4230 or FOWS 5220. Hawaii is the endangered species and invasive species capital of the world. As a model system, the course will focus on the management of threatened and endangered species and invasive species. Direct interaction with practitioners and visiting active management locations will be a key component. May need instructor permission.

WILD 4890 WILDLIFE POPULATION SCIENCE (3) LEC. 2. LAB. 2. Pr. (WILD 3280 or WILD 3287) and P/C WILD 5750 and BIOL 3060. WILD 3280 or WILD 3287 & WILD 5750 with a C or better; BIOL 3060. Principles of wildlife population dynamics, estimation of population parameters, and application of these principles and techniques to wildlife conservation and management.

WILD 4910 WILDLIFE SCIENCES SUMMER PRACTICUM (8) PRA. 8. Pr. (WILD 5750 and WILD 4400 and BIOL 3060 and FORY 3100) or (BIOL 5120) and (BIOL 5740 or BIOL 5750 or BIOL 5760 or FISH 5380). Training and tools for wildlife ecology, conservation, and management, with emphasis on applied problem-solving. Summer.

WILD 4920 WILDLIFE MANAGEMENT INTERNSHIP (4) PRA. 4. SU. Departmental approval. Practical job experience under joint supervision of the Internship advisor and appropriate state, federal, or private agency. Training will prepare student for potential career employment.

WILD 4930 DIRECTED STUDIES (1-3) IND. Course may be repeated for a maximum of 6 credit hours.

WILD 4970 SPECIAL TOPICS (1-4) AAB. Course may be repeated for a maximum of 8 credit hours.

WILD 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval. Directed research and writing of honors thesis. Course may be repeated for a maximum of 6 credit hours.

WILD 5140 PLANT ECOLOGY (4) LEC. 3. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Exploration of ecological interactions between plants and their environment. Field trips emphasize Southeastern habitats/plant examples. Includes 3-day weekend field trip.

WILD 5200 DISEASE ECOLOGY (3) LEC. 3. Pr. BIOL 1030. An ecological approach to traditional microbiology and parasitology by applying principles of population biology to understand disease dynamics in wildlife. Topics include: classification of infectious disease-causing agents, their life cycles, and transmission patterns; dynamics at the individual and host levels; ecologically informed strategies to control diseases; and current topics.

WILD 5280 AVIAN ECOLOGY AND MANAGEMENT (2) LEC. 2. Pr. (WILD 3280 or WILD 3287 or WILD 3280 or WILD 3287) and BIOL 3060. Intensive study of the ecology and management of selected waterfowl, galliforms, gruiforms, raptors, shorebirds, doves and pigeons, woodpeckers and neotropical migrants.

WILD 5290 MAMMALIAN ECOLOGY AND MANAGEMENT (2) LEC. 2. Pr. (WILD 3280 or WILD 3287 or WILD 3280 or WILD 3287) and BIOL 3060. WILD 3280 or WILD 3287 (C or better) and BIOL 3060. Intensive study of the ecology and management of selected artiodactyls, rodents, lagomorphs, bats, carnivores, and herps.

WILD 5300 CONSERVATION BIOLOGY OF THE HAWAIIAN ISLANDS (3) FLD. 3. Pr. BIOL 3060 or WILD 3280 or WILD 3287 or FORY 4230 or FOWS 5220. Hawaii is the endangered species and invasive species capital of the world. As a model system, the course will focus on the management of threatened and endangered species and invasive species. Direct interaction with practitioners and visiting active management locations will be a key component. May need instructor permission.

WILD 5350 CONSERVATION GENETICS (3) LEC. 3. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027. The science of how populations genetics have been affected by habitat loss, over-exploitation, or environmental change, with a focus on inheritance and evolution, and with the goal of informing conservation and management.

WILD 5410 HUMAN-WILDLIFE CONFLICTS (3) LEC. 2. LAB. 1. Pr. WILD 3280. Familiarizes students with basic philosophy, biology, and techniques related to managing negative human wildlife interactions.

WILD 5430 ONE HEALTH PERSPECTIVES: EXPLORING THE HUMAN-WILDLIFE INTERFACE IN INDIA (3) AAB. 30. One Health is an interdisciplinary concept emphasizing the interconnectedness of human, animal, and environmental health. This course provides students with hands-on experience in exploring these connections through case studies, fieldwork, and discussions. Set in the biodiverse Western Ghats region of India, students will examine real-world scenarios to gain practical insights into how human activities, wildlife, and ecosystems interact, shaping health outcomes across species and environments.

WILD 5440 ONE HEALTH CONNECTIONS: HOW DO DISEASES SPREAD BETWEEN ANIMALS AND HUMANS? (2) LEC. 2. The linkages and connections between humans, animals, and the environment they share. Using real-world case studies, we discuss the myriad ways in which pathogens (disease-causing agents) are transmitted between humans and animals. The goal is to develop an understanding of the principles of One Health so that we are better equipped to deal with current and future disease risks and improve the health and security of our society.

WILD 5750 ANALYSIS FOR ENVIRONMENTAL AND HEALTH SCIENCES (4) LEC. 3. LAB. 2. Pr. STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010. Applied training in data analysis tools commonly used in environmental and health sciences.

WILD 5880 WILDLIFE HABITAT ASSESSMENT AND MANAGEMENT (4) LEC. 3. LAB. 4. Pr. (WILD 3280 or WILD 3287 or WILD 3280 or WILD 3287) and BIOL 3060. BIOL 3060 and C or better in WILD 3280 or WILD 3287. The wildlife value, management, and restoration of common southeastern habitats.

WILD 5950 SEMINAR (1) SEM. 1. Pr. BIOL 3060 or WILD 3280 or FORY 4230. Discussion of scientific publications from a selected area in wildlife sciences. Course may be repeated for a maximum of 6 credit hours.

WILD 6140 PLANT ECOLOGY (4) LEC. 3. LAB. 4. Exploration of ecological interactions between plants and their environment. Field trips emphasize Southeastern habitats/plant examples. Includes 3-day weekend field trip.

WILD 6200 DISEASE ECOLOGY (3) LEC. 3. An ecological approach to traditional microbiology and parasitology by applying principles of population biology to understand disease dynamics in wildlife. Topics include: classification of infectious disease-causing agents, their life cycles, and transmission patterns; dynamics at the individual and host levels; ecologically informed strategies to control diseases; and current topics.

WILD 6280 AVIAN ECOLOGY AND MANAGEMENT (2) LEC. 2. Pr. WILD 3280. Intensive study of the ecology and management of selected waterfowl, galliforms, gruiforms, raptors, shorebirds, doves and pigeons, woodpeckers and neotropical migrants.

WILD 6290 MAMMALIAN ECOLOGY AND MANAGEMENT (2) LEC. 2. Pr. WILD 3280. Intensive study of the ecology and management of selected artiodactyls, rodents, lagomorphs, bats, carnivores, and herps.

WILD 6300 CONSERVATION BIOLOGY OF THE HAWAIIAN ISLANDS (3) FLD. 3. Pr. FOWS 6220. Hawaii is the endangered species and invasive species capital of the world. Using it as a model system, the focus will be on the management of threatened and endangered species and invasive species. Direct interaction with practitioners and visiting active management locations will be a key component of the course. Instructor permission.

WILD 6410 HUMAN-WILDLIFE CONFLICTS (3) LEC. 2. LAB. 1. This course is designed to familiarize students with the basic philosophy, biology, and techniques related to managing negative human wildlife interactions.

WILD 6750 ANALYSIS FOR ENVIRONMENTAL AND HEALTH SCIENCES (4) LEC. 3. LAB. 1. Applied training in data analysis tools commonly used in environmental and health sciences.

WILD 6880 WILDLIFE HABITAT ASSESSMENT AND MANAGEMENT (4) LEC. 3. LAB. 1. Pr. WILD 3280. C or better in WILD 3280. The wildlife value, management, and restoration of common southeastern habitats.

WILD 6950 SEMINAR (1) SEM. Discussion of scientific publications from a selected area in wildlife sciences. Course may be repeated for a maximum of 6 credit hours.

WILD 7100 APPLIED ECOLOGICAL MODELING (2) LEC. 2. Principles and techniques for modeling ecological systems in applied, management decision oriented contexts.

WILD 7150 ADVANCED ANALYSIS FOR ECOLOGICAL SCIENCES (4) LEC. 3. LAB. 2. Pr. STAT 7000 or AGRI 5010 or AGRI 5013 or AGRI 6010 or AGRI 6013 or WILD 5750 or WILD 6750. Departmental approval. Applied training in advanced analytical procedures commonly used in ecological sciences including modeling of survival, reproduction, habitat selection, population growth, density-dependence, and morphometrics.

WILD 7200 WILDLIFE NUTRITIONAL ECOLOGY (3) LEC. 3. Exploration of the basic nutrient requirements of free-ranging wildlife and comparison of requirements to related domestic species.

WILD 7250 WILDLIFE POPULATION ANALYSIS (3) LEC. 2. LAB. 3. Pr. P/C WILD 7150. Estimation of survival and success rates for wildlife and fisheries populations. Theoretical approaches for model selection and population modeling.

WILD 7300 STRUCTURED DECISION MAKING IN NATURAL RESOURCES MANAGEMENT (1-3) LEC. 2. LAB. 1. Structured Decision Making (SDM) is a common-sense framework for addressing decision problems amenable to logical decomposition and analysis. Through this course, students will become familiar with principles and tools of SDM and begin applying skills and concepts to conservation and management decision problems. This course will build a foundation that increasingly is essential for most professional biologists working in resource management positions or conducting applied field research. The intended audience of this course includes graduate students in wildlife, forestry, natural resources, biology, fisheries, or any other field who work with applied natural resource management issues. Course may be repeated for a maximum of 5 credit hours.

WILD 7310 CURRENT TOPICS IN WILDLIFE HEALTH (1) DSL. This course focuses on free-ranging wildlife and wildlife health topics within the broader context of One Health and functional ecosystems. Course may be repeated for a maximum of 2 credit hours.

WILD 7340 CONSERVATION GENETICS (3) LEC. 3. The science of how populations genetics have been affected by habitat loss, over-exploitation, or environmental change, with a focus on inheritance and evolution, and with the goal of informing conservation and management.

WILD 7400 DEVELOPING AGENT-BASED MODELS FOR WILDLIFE (3) LEC. 2. LAB. 1. Departmental approval. Course will use lecture and hands-on coding exercises designed to introduce students to agent-based models in wildlife sciences. The course lectures will include coding best practices such as organization, archiving, and version control, as well as wildlife and evolution-specific factors to consider when creating a models.

WILD 7450 TOOLS AND CHALLENGES FOR THE MODERN SCIENTIST (2) LEC. 2. Contemporary tools used and challenges encountered by modern scientists and how these factors have altered the process of science. Specific topics will be crowdsourced and tailored to students' interests, but examples include: diversity in science, reproducibility crisis, open science practices, version control, online teaching, artificial intelligence, work expectations, ethics of internships and volunteer positions, citizen science, modern computing power, cloud computing, self promotion, and mental health in academia

WILD 7650 INTRODUCTION TO BAYESIAN MODELING IN NATURAL RESOURCES (2) LEC. 1. LAB. 1. Pr. WILD 7150. or instructor approval. Bayesian hierarchical modeling of ecological data. Advantages and criticisms of such models. Use of software for hierarchical modeling.

WILD 7870 SPATIAL ECOLOGY (4) LLB. Explicit consideration for how ecological processes play out over space, and how space feeds back to influence ecological processes. The course is a combination of lectures, discussions, and hands-on lab-based learning to explore the theory, tools, and challenges underlying the spatial aspects of ecology. The course covers a breadth of topics rather than focusing on any one in-depth, although students are provided resources to dig deeper into issues of particular interest.

WILD 7930 DIRECTED STUDIES (1-3) IND/LEC. Departmental approval. Directed studies in subject matter not covered by an existing course or to supplement knowledge gained from existing course offerings. Course may be repeated for a maximum of 9 credit hours.

WILD 7970 SPECIAL TOPICS (1-4) IND. Departmental approval. Provides graduate students seeking the master's degree opportunities to work with individual wildlife science professors to investigate timely research topics. Course may be repeated for a maximum of 12 credit hours.

WILD 7990 RESEARCH AND THESIS (1-12) MST. Credit to be arranged.

WILD 8930 DIRECTED STUDIES (1-3) IND. Course may be repeated for a maximum of 9 credit hours.

WILD 8970 SPECIAL TOPICS (1-4) RES. Departmental approval. Provides graduate students seeking the doctoral degree opportunities to work with individual wildlife science professors to investigate timely research topics. Course may be repeated for a maximum of 12 credit hours.

WILD 8990 RESEARCH AND DISSERTATION (1-12) DSR.

Women's Studies - WMST

Courses

WMST 2100 INTRODUCTION TO WOMEN'S AND GENDER STUDIES (3) LEC. 3. Interdisciplinary examination of the definitions of gender and impact of culture on the construction of gender. Diversity of representation, reflecting upon the histories of woman from a local and global perspective will be the keynote of the course.

WMST 3500 GENDER, BEAUTY, AND CULTURE (3) LEC. 3. An overview of how cultural perspectives on gender and beauty inform one another and shape ideals of femininity and masculinity and impact individual's lives and identities.

WMST 3900 DIRECTED READINGS IN WOMEN'S AND GENDER STUDIES (1-3) LEC. Directed study in an area of special interest. Course may be repeated for a maximum of 3 credit hours.

WMST 3970 SPECIAL TOPICS IN WOMEN'S AND GENDER STUDIES (3) LEC. 3. Special topics approached through the lens of women and gender studies. Topics vary. Course may be repeated for a maximum of 6 credit hours.

WMST 5980 FEMINIST THEORY (3) LEC. 3. Pr. WMST 2100. Perspectives on feminist theory, with emphasis on intersections of race, class, sexual orientation, and gender as they affect women's position in culture.

WMST 6980 FEMINIST THEORY (3) LEC. 3. Perspectives on feminist theory, with emphasis on intersections of race, class, sexual orientation, and gender as they affect women's position in culture.

WMST 7910 TEACHING PRACTICUM (1) LEC. 1. Pr. (WMST 5980 or WMST 6980). Intended women's studies minor. Feminist pedagogical theory and practice. Course may be repeated for a maximum of 2 credit hours.

World Languages - FLNG

Courses

FLNG 1000 ELEMENTARY WORLD LANGUAGE ABROAD (1-10) AAB/FLD. Pr., Departmental approval. For languages not currently taught in the Department of World Languages, Literatures, and Cultures but taken through approved distance learning or Study Abroad programs. Credit awarded in consultation with department chair. Course may be repeated for a maximum of 10 credit hours.

FLNG 1010 ELEMENTARY WORLD LANGUAGE (4) LEC. 4. Pr., Departmental approval. For languages not currently taught in the Department of World Languages, Literatures, and Cultures.

FLNG 1020 ELEMENTARY WORLD LANGUAGE (4) LEC. 4. Pr. FLNG 1010 or Departmental approval. For languages not currently taught in the Department of World Languages, Literatures, and Cultures.

FLNG 2000 INTERMEDIATE WORLD LANGUAGE (1-10) AAB/LEC. Pr., Departmental approval. For languages not currently taught in the Department of World Languages, Literatures, and Cultures but taken through approved distance learning or Study Abroad programs. Credit awarded in consultation with department chair. Course may be repeated for a maximum of 10 credit hours.

FLNG 2150 FOUNDATIONS OF TRANSLATION AND INTERPRETING (3) LEC. 3. LAB. 0. Pr. Completed courses from FLNG 1010-1017 or FLNG 1020-1027 or FLCN 1010-1017 or FLCN 1020-1027 or FLFR 1010-1017 or FLFR 1020-1027 or FLGR 1010-1017 or FLGR 1020-1027 or FLGK 1010-1017 or FLGK 1020-1027 or FLIT 1010-1017 or FLIT 1020-1027 or FLJP 1010-1017 or FLJP 1020-1027 or FLKN 1010-1017 or FLKN 1020-1027 or FLLN 1010-1017 or FLLN 1020-1027 or FLRU 1010-1017 or FLRU 1020-1027 or FLSP 1010-1017 or FLSP 1020-1027. Introduction to the theory and skills necessary for written translation and oral interpreting.

FLNG 3110 INTRODUCTION TO LINGUISTICS: A MULTILINGUAL APPROACH (3) LEC. 3. In this course, students will learn about language structure, language history, and language acquisition through a multilingual perspective.

FLNG 4997 HONORS THESIS (1-6) IND. Pr. Honors College or Departmental approval. Directed readings and research culminating in a thesis. Course may be repeated for a maximum of 6 credit hours.

World Language - Arabic - FLAR

Courses

FLAR 1010 ELEMENTARY ARABIC I (4) LEC. 4. Elementary Arabic I is a course for students who have no prior knowledge of Arabic. The course offers students the opportunity for authentic practice in speaking, listening, reading, writing, grammar, and culture.

FLAR 1020 ELEMENTARY ARABIC II (4) LEC. 4. This course Arabic 1020 is a continuation of Arabic 1010 taken in first semester of the first year of Modern Standard Arabic (MSA). The course aims to develop students' reading, writing, listening and speaking skills.

FLAR 2010 INTERMEDIATE ARABIC I (4) LEC. Pr. FLAR 1020. Intermediate Arabic I is for students who have completed Elementary Arabic II or acceptable score on language placement test. The course emphasizes the development of reading, writing, listening, and speaking skills in Modern Standard Arabic (MSA).

FLAR 2020 INTERMEDIATE ARABIC II (4) LEC. Pr. FLAR 2010. Intermediate Arabic II is for students who have completed Intermediate Arabic I or acceptable score on language placement test. Continued development of Arabic vocabulary and grammar. Increased emphasis on developing practical listening and speaking skills. Exposure to Arab culture through media and literature.

World Languages - Asian Culture - FLAS

Courses

FLAS 2050 ASIAN FILM (3) LEC. 3. Major works of Asian film from China, Japan, and Korea. No knowledge of world language required.

FLAS 2450 SURVEY OF MODERN ASIAN LITERATURE (3) LEC. 3. Major works of modern Asian literature from China, Japan, and Korea in translation.

FLAS 2550 GATEWAY TO ASIA (3) LEC. 3. Introduction to Asia from an interdisciplinary perspective, including scholarship on history, anthropology, political science, philosophy, literature, and film.

FLAS 3450 TOPICS IN ASIAN CULTURE (3) LEC. 3. Study of traditional and/or modern Asian culture with special emphasis on cross-cultural and transnational interactions with in Asia, as well as with the west. Course may be repeated for a maximum of 6 credit hours.

FLAS 3550 TOPICS IN ASIAN AMERICAN CULTURE (3) LEC. 3. Topics of interest in Asian American culture. No knowledge of world language required. Course may be repeated for a maximum of 6 credit hours.

World Languages - Chinese - FLCN

Courses

FLCN 1000 ELEMENTARY CHINESE ABROAD (1-10) AAB/IND. Pr., Departmental approval. Elementary coursework on approved Study-Abroad program. Course may be repeated for a maximum of 10 credit hours.

FLCN 1010 ELEMENTARY CHINESE I (4) LEC. 4. Exposure to Chinese language and culture for students with little or no knowledge of Chinese.

FLCN 1020 ELEMENTARY CHINESE II (4) LEC. 4. Pr. FLCN 1010 or Departmental approval. Continued exposure to Chinese language and culture. Departmental approval. Fulfills College of Liberal Arts world language core requirement.

FLCN 2000 INTERMEDIATE CHINESE ABROAD (1-10) AAB/IND. Pr., Departmental approval. Variable credit, determined by the department. Intermediate course work in approved Study-Abroad program. Course may be repeated for a maximum of 10 credit hours.

FLCN 2010 INTERMEDIATE CHINESE I (4) LEC. 4. Pr. FLCN 1020 or Departmental approval. Continued exposure to Chinese culture; introduction to intermediate language skills.

FLCN 2020 INTERMEDIATE CHINESE II (4) LEC. 4. Pr. FLCN 2010 or Departmental approval. Continued exposure to Chinese culture; intermediate language skills with emphasis on grammar.

FLCN 3000 ADVANCED CHINESE ABROAD (1-10) AAB/IND. Pr., Departmental approval. Variable credit, determined by department. Advanced course work in approved Study-Abroad program. Course may be repeated for a maximum of 10 credit hours.

FLCN 3010 CHINESE COMPOSITION AND CONVERSATION (3-6) AAB/LEC. Pr. FLCN 2010 or Departmental approval. Intense practice in spoken and written Chinese, both text-and situation-based. Course may be repeated for a maximum of 6 credit hours.

FLCN 3020 CHINESE COMPOSITION AND CONVERSATION II (3) LEC. 3. Pr. FLCN 3010. In this course, students will continue to develop integrated Chinese language skills of listening, speaking, reading, and writing. There will be increased focus on reading and writing skills in Chinese and on learning grammar patterns needed to write in Chinese.

FLCN 3050 CHINESE CINEMA (3) LEC. 3. Major works of Chinese cinema from 1920s to present with emphasis on cultural and literary aspects.

FLCN 3200 LANGUAGES ACROSS THE CURRICULUM SEMINAR IN CHINESE (1) IND. 1. Pr. FLCN 1020 or Departmental approval. Language component with reading and in-class discussion to complement a lecture course in English and in a discipline other than Chinese. Course may be repeated for a maximum of 3 credit hours.

FLCN 3450 TOPICS IN CHINESE LITERATURE AND CULTURE (3-6) AAB/LEC. Directed study of topics of interest. Course may be repeated for a maximum of 6 credit hours.

FLCN 3510 INTRODUCTION TO CHINESE CULTURE IN ENGLISH (3-6) LEC. Chinese culture as depicted in art, film, literature, history. Course may be repeated for a maximum of 6 credit hours.

FLCN 3650 SURVEY OF MODERN CHINESE LITERATURE (3) LEC. 3. Introduction to major works of modern Chinese literature translated into English.

FLCN 3750 SURVEY OF TRADITIONAL CHINESE LITERATURE (3) LEC. 3. Introduction to major works of traditional Chinese literature translated into English.

FLCN 3930 DIRECTED STUDY IN CHINESE (1-6) IND. Pr. FLCN 2010. Directed study in area of special interest for the superior student in Chinese. Course may be repeated for a maximum of 6 credit hours.

FLCN 5010 TEACHING CHINESE AS A WORLD LANGUAGE (3) LEC. 3. Teaching Chinese as a world language is an introduction course to world language teaching theories with an emphasis on their application to Chinese language teaching. Students who are fluent in speaking Chinese will acquire basic knowledge of teaching Chinese.

FLCN 5020 SYNTACTIC STRUCTURE OF THE CHINESE LANGUAGE (3) LEC. 3. Pr. FLCN 2010. Exploration of the fundamentals of Chinese syntax.

FLCN 6010 TEACHING CHINESE AS A WORLD LANGUAGE (3) LEC. 3. Teaching Chinese as a world language is an introduction course to world language teaching theories with an emphasis on their application to Chinese language teaching. Students who are fluent in speaking Chinese will acquire basic knowledge of teaching Chinese as a world language and practical teaching skills and strategies through the critical reading of course materials, classroom discussion, class observation, and research project.

FLCN 6020 SYNTACTIC STRUCTURE OF THE CHINESE LANGUAGE (3) LEC. 3. Exploration of the fundamentals of Chinese syntax.

World Languages - French - FLFR

Courses

FLFR 1000 ELEMENTARY FRENCH ABROAD (1-10) AAB/FLD. Pr., Departmental approval. Course work at the elementary level in an approved Study Abroad program. Credit may substitute for required 1000-level courses in French. Course may be repeated for a maximum of 10 credit hours.

FLFR 1010 ELEMENTARY FRENCH I (4) LEC. 3. LAB. 2. Basic language skills with emphasis on conversation. Exposure to culture.

FLFR 1020 ELEMENTARY FRENCH II (4) LEC. 3. LAB. 2. Pr. LFRE score of 0241 or FLFR 1010. Basic language skills with emphasis on conversation. Exposure to culture. Fulfills College of Liberal Arts core world language requirement.

FLFR 1030 READING PROFICIENCY IN FRENCH (3) LEC. 3. SU. Pr., Departmental approval. Instruction to enable graduate students to read and understand scholarly materials in French related to their field of study. May not be used to satisfy undergraduate language requirements.

FLFR 2000 INTERMEDIATE FRENCH ABROAD (1-10) AAB/FLD. Pr., Departmental approval. Course work at the intermediate level, taken on an approved Study Abroad program. Students should consult with the French undergraduate director for an estimation of credit prior to going abroad. Course may be repeated for a maximum of 10 credit hours.

FLFR 2010 INTERMEDIATE FRENCH I (4) LEC. 3. LAB. 2. Pr. LFRE score of 0325 or FLFR 1020. Language skills, grammar review, readings in French culture, literature, and history.

FLFR 2020 INTERMEDIATE FRENCH II (4) LEC. 3. LAB. 2. Pr. LFRE score of 0372 or FLFR 2010. Systematic review of problems in French grammar for speakers of English. Prepares students for conversation, composition and civilization in the third-year sequence.

FLFR 3000 JUNIOR/ADVANCED FRENCH ABROAD (1-9) AAB/FLD. Pr., Departmental approval. Course work at the junior or advanced level taken on an approved Study Abroad program. Students should consult with the French undergraduate director for an estimation of credit prior to going abroad. Course may be repeated for a maximum of 9 credit hours.

FLFR 3010 THE SOUNDS OF FRENCH (3) LEC. 3. Pr. LFRE score of 0428 or FLFR 2020. Basic principles of French phonetics through sound recognition discrimination and intensive practice.

FLFR 3030 FRENCH CONVERSATION AND CULTURE I (3) LEC. 3. Pr. LFRE score of 0428 or FLFR 2020. Intensive practice in spoken French, based on texts and everyday situations, especially in contemporary French society. Includes review of vocabulary.

FLFR 3040 READING & WRITING IN FRENCH I (3) LEC. 3. Pr. LFRE score of 0428 or FLFR 2020. Review of grammar and practice in writing on topics ranging from descriptions and personal opinions to current affairs and social problems.

FLFR 3050 GLOBAL FRENCH CINEMA (3) LEC. 3. Pr. LFRE score of 0428 or FLFR 2020. Sampling of important films from the beginnings of French cinema in 1895 to the present day, including the intellectual, historical, cultural, and literary matrix of each film.

FLFR 3100 INTRO TO LITERATURE, ARTS, & MEDIA (3) LEC. 3. Pr. LFRE score of 0428 or FLFR 3040 or FLFR 3030 or Departmental approval. Grounding in basic analytical approaches, language, and organizational skills needed to discuss French literature effectively and coherently, orally or in writing.

FLFR 3110 CONTEMPORARY CULTURE & POLITICS (3) LEC. 3. Pr. FLFR 2020 or Departmental approval. Cultural heritage of France as reflected in present-day life patterns, traditions, and institutions.

FLFR 3140 LITERATURE, ARTS, & MEDIA I (3) LEC. 3. Pr. FLFR 3030 or FLFR 3040 or Departmental approval. The Middle Ages to the 1800s, emphasizes coherent and effective writing in French.

FLFR 3150 LITERATURE, ARTS, & MEDIA II (3) LEC. 3. Pr. FLFR 3030 or FLFR 3040 or Departmental approval. Readings in French literature prose, drama, and poetry from the 19th century to the present, centered on a theme or topic.

FLFR 3200 LANGUAGES ACROSS THE CURRICULUM SEMINAR IN FRENCH (1) LEC. 1. Pr. FLFR 2010 or Departmental approval. Language component with readings and in-class discussions to complement a lecture course in English and in a discipline other than French. Parallel enrollment is recommended. Course may be repeated for a maximum of 9 credit hours.

FLFR 3310 FRENCH BUSINESS COMMUNICATION (3) LEC. 3. Pr. Completed 3 courses from FLFR 3000-3999 or LFRE minimum score of 428. Intensive practice in preparing commercial correspondence and reading contracts, agreements, and related documents in French. Emphasis will be placed on the acquisition of a business vocabulary.

FLFR 3510 TOPICS IN FRENCH LITERATURE AND CULTURE (3) LEC. 3. Pr. ENGL 1120 or ENGL 1127. Topics drawing from French literature, history, fine arts, or culture of general interest to students with little or no previous study of French.

FLFR 3930 DIRECTED STUDIES (1-3) AAB/IND. Pr., Departmental approval. Directed study in an area of special interest to the superior student in French. Course may be repeated for a maximum of 6 credit hours.

FLFR 4000 SENIOR/ADVANCED FRENCH ABROAD (1-9) AAB/FLD. Pr., Departmental approval. Course work at the senior or advanced level, taken on an approved Study Abroad program. Students should consult with the undergraduate director for an estimation of credit prior to going abroad. Course may be repeated for a maximum of 9 credit hours.

FLFR 4020 APPLIED FRENCH SKILLS (3) LEC. 3. Pr. FLFR 3030 or FLFR 3040 or Departmental approval. Practice in writing and analyzing French texts, with emphasis on advanced grammar topics and stylistics.

FLFR 4030 FRENCH CONVERSATION AND CULTURE II (3) LEC. 3. Pr. FLFR 3030 or FLFR 3040 or Departmental approval. Continuing practice in spoken French to maintain and upgrade proficiency. Major credit will not be given for FLFR or FLFT majors.

FLFR 4040 READING & WRITING IN FRENCH II (3) LEC. 3. Pr. FLFR 3030 or FLFR 3040 or Departmental approval. Continuing practice in written French to maintain and upgrade proficiency.

FLFR 4310 FRENCH FOR INTERNATIONAL TRADE (3) LEC. 3. Pr. A grade of D or higher in FLFR 3000-3999 or Departmental approval. Practical exercises in preparing and translating trade correspondence and documents in French as well as assigned group work and case studies under simulated on-the-job pressures.

FLFR 4410 ADVANCED TOPICS IN FRENCH LITERATURE, CULTURE, OR LANGUAGE (3) LEC. 3. Pr. Completed 3 courses from FLFR 3000-3999 or LFRE minimum score of 428 or Departmental approval. Study of a special aspect or theme of the French language, literature, or culture. Course may be repeated for a maximum of 9 credit hours.

FLFR 4740 TRANSLATION (3) LEC. 3. Basic techniques and problem areas in translating from French into English and from English into French.

FLFR 4930 ADVANCED DIRECTED STUDY (1-3) IND. Pr. A least 3 courses in FLFR 3000-3999. Directed study in area of special interest for the superior student in French. Course may be repeated for a maximum of 6 credit hours.

FLFR 4980 FRENCH SENIOR CAPSTONE (1) IND. 1. SU. Assessment of language skills through written and oral exams. Fall, Spring.

FLFR 5310 FRENCH FOR INTERNATIONAL TRADE (3) LEC. 3. Pr. At least 4 courses each with a minimum grade of D in FLFR 3000-3999 or Departmental approval. Practice in managing, preparing, and translating international trade correspondence documents and related legal procedures in French. Development of case studies and other international trade group work in French and in English under simulated real-life pressures.

FLFR 5970 SPECIAL TOPICS IN ADVANCED LANGUAGE SKILLS (3) LEC. 3. Pr. At least 4 courses each with a minimum grade of D in FLFR 3000-3999. Pr., Departmental approval. Review of principal grammatical structures, development of skills through appropriate exercises and class assignments, and improvement of stylistic sensitivity by exposure to a variety of language samples.

FLFR 5980 SEMINAR IN FRENCH LITERARY GENRES AND MOVEMENTS (3) LEC. 3. Pr. At least 4 courses each with a minimum grade of D in FLFR 3000-3999 or Departmental approval. Seminar in advanced languages skills or topics from French literary genres and movements.

FLFR 6310 FRENCH FOR INTERNATIONAL TRADE (3) LEC. 3. Departmental approval. Practice in handling, preparing, and translating international trade correspondence documents and related legal procedures in French.

FLFR 6970 SPECIAL TOPICS IN ADVANCED LANGUAGE SKILLS (3) LEC. 3. Departmental approval. Review of principal grammatical structures, development of skills through appropriate exercises and class assignments, and improvement of stylistic sensitivity by exposure to a variety of language samples.

FLFR 6980 SEMINAR IN FRENCH LITERARY GENRES AND MOVEMENTS (3) AAB/SEM. 3. Seminar in advanced languages skills or topics from French literary genres and movements. Course may be repeated for a maximum of 9 credit hours.

FLFR 7000 GRADUATE FRENCH ABROAD (1-9) AAB/FLD. Pr., Departmental approval. Course work at the graduate level taken in an approved Study Abroad program. Students should consult with the French graduate director for an estimation of credit prior to going abroad. Course may be repeated for a maximum of 9 credit hours.

FLFR 7010 ADVANCED CONTEMPORARY CULTURE & POLITICS (3) LEC. 3. Pr., Departmental approval. In-depth study of French civilization with emphasis on the relationship of history, arts, and literature from prehistoric times to the present.

FLFR 7020 ADVANCED APPLIED FRENCH SKILLS (3) LEC. 3. Pr., Departmental approval. Acquisition of advanced writing skills in French. Techniques and strategies of appropriate stylistic expression through analysis of various sources of texts, including literary, historical, commercial, and popular.

FLFR 7430 FRENCH PRESS (3) LEC. 3. Pr., Departmental approval. Political, intellectual, and cultural events in France, Europe, and the world as reflected in major French daily and weekly publications.

FLFR 7740 ADVANCED TRANSLATION (3) LEC. 3. Pr., Departmental approval Acquisition of skills for translation from French to English and from English to French using a wide variety of texts including historical, literary, commercial, and popular sources.

FLFR 7920 WORLD LANGUAGE CAREER INTERNSHIP (1-6) INT. Pr., Departmental approval. Experiential learning either in the business community or in university-sponsored programs outside the United States. Course may be repeated for a maximum of 6 credit hours.

FLFR 7930 DIRECTED STUDIES IN LANGUAGE SKILLS (3) IND. 3. Departmental approval. Pr., Course may be repeated for a maximum of 6 credit hours.

A general introduction to the analysis of Hispanic societies through their diverse cultural practices, local customs, and languages. This class explores how were Hispanic societies formed, the effects of globalization, and their diverse cultural and national identities. Spring.

FLSP 3090 SPANISH FOR HEALTH PROFESSIONS (3) LEC. 3. Pr. FLSP 3060 or FLSP 3063. Advanced Spanish for students interested in healthcare careers. Designed to improve spoken and written communicative skills in a Spanish-speaking environment.

FLSP 3097 HONORS SPANISH FOR HEALTH PROFESSIONS (3) LEC. 3. Pr. FLSP 3060 or FLSP 3063. Advanced Spanish for students interested in healthcare careers. Designed to improve spoken and written communicative skills in a Spanish-speaking environment.

FLSP 3100 INTRODUCTION TO HISPANIC LITERATURE (3) LEC. 3. Pr. FLSP 3060 or FLSP 3063. Study of literary genres, rhetorical figures, and other critical concepts. Literary analysis of Spanish and Spanish-American texts. Fall.

FLSP 3110 CULTURES OF SPAIN (3) LEC. 3. Pr. FLSP 3080 or FLSP 3083 or FLSP 3100. An introduction to the social and cultural diversity of Spain. This class explores the ethnic and linguistic diversity of the country, the historical events that forged contemporary Spain, and the cultural plurality of the country.

FLSP 3130 TOPICS IN HISPANIC FILM (3) LEC. 3. Pr. FLSP 3080 or FLSP 3083 or FLSP 3100. Study of film as a window into Hispanic cultures, both Spanish and Spanish American. Course may be repeated for a maximum of 6 credit hours.

FLSP 3140 TOPICS IN HISPANIC MUSIC (3) LEC. 3. Pr. FLSP 3080 or FLSP 3083 or FLSP 3100. Study of the interrelationship of Hispanic music and Spanish and Spanish-American cultures. Course may be repeated for a maximum of 6 credit hours.

FLSP 3150 TOPICS IN HISPANIC MEDIA (3) LEC. 3. Pr. FLSP 3080 or FLSP 3083 or FLSP 3100. Develops students' cultural awareness through a series of written assignments organized around major journalistic and academic genres. We will investigate contemporary issues as presented in the media of Spain, Latin America and U.S. Latino communities. Course may be repeated for a maximum of 6 credit hours.

FLSP 3200 LANGUAGES ACROSS THE CURRICULUM SEMINAR IN SPANISH (1) LEC. 1. Pr. FLSP 2010 or FLSP 2017 or Departmental approval. Language component with readings and in-class discussions to complement a lecture course in English and in a discipline other than Spanish. Parallel enrollment is recommended. Course may be repeated for a maximum of 9 credit hours.

FLSP 3210 CULTURES OF SPANISH AMERICA (3) LEC. 3. Pr. FLSP 3080 or FLSP 3083 or FLSP 3100. An introduction to the social and cultural diversity of Spanish America. This class explores the cultural, ethnic and linguistic diversity of the Spanish American countries, and the historical events that forged them.

FLSP 3220 HISPANIC CULTURES IN THE U. S. (3) LEC. 3. Pr. FLSP 3080 or FLSP 3083 or FLSP 3100. An introduction to the social and cultural diversity of Hispanic U.S. This class explores the diversity in ethnicity, traditions, and arts of Hispanics in the country, the historical events that forged such diversity, and their cultural plurality.

FLSP 3310 SPANISH TRANSLATION AND INTERPRETATION (3) LEC. 3. Pr. FLSP 3070. Introduction to the techniques of English/Spanish and Spanish/English translation in a commercial environment, including correspondence, technical documents, advertising and oral translation. Fall.

FLSP 3930 DIRECTED STUDY IN SPANISH (3) IND. 3. Pr. FLSP 3060. Departmental approval. Development of an advanced-level of Spanish proficiency in listening, speaking, reading, and writing. Course may be repeated for a maximum of 6 credit hours.

FLSP 4000 SENIOR ADVANCED SPANISH ABROAD (1-9) AAB/FLD. Pr., Departmental approval. Course work at the senior/advanced level taken on an approved Study Abroad program. Students should consult with the Spanish undergraduate director for an estimation of credit prior to going abroad. Course may be repeated for a maximum of 9 credit hours.

FLSP 4010 ORAL PROFICIENCY IN SPANISH (3) LEC. 3. Pr. FLSP 3060. Proficiency oriented course designed to further develop speaking and comprehension skills in Spanish in a variety of topics.

FLSP 4020 CONTINUING SPANISH SYNTAX (1-3) AAB/IND. Departmental approval. Continuing practice in Spanish syntax. Course may be repeated for a maximum of 3 credit hours.

FLSP 4030 SPANISH LINGUISTICS (3) LEC. 3. Pr. FLSP 3070. This course introduces students to Spanish linguistics and the basic concepts of some of its principal branches. The primary areas include phonetics and phonology, syntax, morphology, semantics, pragmatics, history of the Spanish language, and linguistics as a cognitive science.

FLSP 4110 MASTERPIECES OF SPANISH LITERATURE (3) LEC. 3. Pr. FLSP 3100 or FLSP 3080. Major works of Spanish literature from medieval times to the present.

FLSP 4120 TOPICS IN SPANISH LITERATURE (3) LEC. 3. Pr. FLSP 3100 or FLSP 3080. Readings in Spanish literature. Course may be repeated with change in topic.

FLSP 4210 MASTERPIECES OF SPANISH-AMER LITERATURE (3) LEC. 3, AAB/LEC. 0. Pr. FLSP 3100 or FLSP 3080. Major works of Spanish American literature from colonial times to the present.

FLSP 4220 TOPICS IN SPANISH-AMERICAN LITERATURE (3) LEC. 3, AAB/LEC. 0. Pr. FLSP 3100 or FLSP 3080. Readings in Spanish-American Literature. Course may be repeated with a change in topic.

FLSP 4310 BUSINESS SPANISH (3) LEC. 3. Pr. FLSP 3060. Business vocabulary and terminology, business practices, and cultural influences in the Hispanic world.

FLSP 4330 TOPICS IN HISPANIC COMMERCIAL WORLD (3) LEC. 3. Pr. FLSP 3070. Study of an aspect of Spanish business terminology or documentation. Course may be repeated with change in topic. Course may be repeated for a maximum of 6 credit hours.

FLSP 4420 TOPICS IN HISPANIC LITERATURE, CULTURE, AND LINGUISTICS (3) LEC. 3. Pr. FLSP 3080 or FLSP 3083 or FLSP 3100. Study of specialized periods or concepts in Hispanic literature, culture, or linguistics. Course may be repeated for a maximum of 6 credit hours.

FLSP 4910 PRACTICUM IN SPANISH (1-3) AAB/PRA. Pr., Departmental approval. Practical work experience related to the major field. Course may be repeated for a maximum of 3 credit hours.

FLSP 4980 SENIOR CAPSTONE (1) IND. 1. SU. Assessment of language skills through written and oral exams. Fall, Spring.

FLSP 5010 ADVANCED SPANISH PHONETICS (3) LEC. 3. Pr. FLSP 3070. Advanced training in Spanish phonetics with specific course materials determined by needs of students.

FLSP 5020 ADVANCED SPANISH SYNTAX (3) LEC. 3, AAB/LEC. 0. Pr. FLSP 3070. Advanced training in Spanish syntax and stylistics with specific course materials determined by needs of students.

FLSP 5030 ADVANCED CULTURE AND LITERATURE OF THE SPANISH SPEAKING WORLD (3) LEC. 3. Pr. FLSP 3070 and FLSP 3080. A grade of C or better in at least 4 courses FLSP 3000-3999 or departmental approval. Advanced training in Culture and literature of the Spanish speaking world with specific course materials determined by faculty. Course may be repeated for a maximum of 6 credit hours.

FLSP 6010 ADVANCED SPANISH PHONETICS (3) LEC. 3. Pr. At least 4 courses each with a minimum grade of D in FLSP 3000-3999. Four courses or Departmental approval. Advanced training in Spanish phonetics with specific course materials determined by needs of students.

FLSP 6020 ADVANCED SPANISH SYNTAX (3) LEC. 3. Pr. At least 4 courses each with a minimum grade of D in FLSP 3000-3999. Advanced training in Spanish syntax and morphology to carry out syntactic analysis for graduate students and undergraduate students who have previously completed FLSP 3050.

FLSP 6030 ADVANCED CULTURE AND LITERATURE OF SPANISH SPEAKING WORLD (3) LEC. 3. Advanced training in Culture and literature of the Spanish speaking world with specific course materials determined by faculty. Course may be repeated for a maximum of 6 credit hours.

FLSP 7000 GRADUATE SPANISH ABROAD (1-9) AAB/FLD. Pr., Departmental approval. Course work at the graduate level taken on an approved Study Abroad program. Students should consult with the Spanish graduate director for an estimation of credit prior to going abroad. Course may be repeated for a maximum of 9 credit hours.

FLSP 7010 HISTORY OF THE SPANISH LANGUAGE (3) LEC. 3. Diachronic study of the development of the Spanish language from its Latin origins to the present.

FLSP 7020 SPANISH LINGUISTICS (3) LEC. 3. Synchronic study of the Spanish language focusing on phonology, morphology, syntax, and lexicon, taking into consideration dialectal differences.

FLSP 7030 APPLIED SPANISH LINGUISTICS (3) LEC. 3. Critical study of current research in applied linguistics regarding the acquisition of Spanish by non-native speakers, with emphasis on the problems faced by adult English-speaking individuals.

FLSP 7050 LITERARY CRITICISM AND THEORY (3) LEC. 3. Contemporary literary criticism and theory as it relates to Spanish and Spanish-American literature.

FLSP 7060 RESEARCH METHODS (1) LEC. 1. SU. Methods of scholarly investigation in literary history and criticism. Credit may not be used to satisfy degree requirements.

FLSP 7090 INTRODUCTION TO COLLEGE LEVEL SPANISH INSTRUCTION (3) LEC. 3. Instruction for GTAs, including critical observation in performance and guidance by a designated supervisory professor. Required of all students who hold a graduate teaching assistantship.

FLSP 7100 SPANISH MEDIEVAL LITERATURE I (3) LEC. 3. Critical and historical study of medieval Spanish literature through representative texts from the various genres of the period beginning with the origins of Spanish literature until 1299.

FLSP 7110 SPANISH MEDIEVAL LITERATURE II (3) LEC. 3. Study of medieval Spanish literature through representative texts from the various genres of the period 1300-1500.

FLSP 7120 16TH-CENTURY SPANISH LITERATURE (3) LEC. 3. Critical and historical study of representative literary works in all genres from around 1492 to the end of the 16th century.

FLSP 7130 17TH-CENTURY SPANISH LITERATURE (3) LEC. 3. Critical and historical study of representative literary works in all genres in the 17th century with emphasis on Baroque literature.

FLSP 7140 SURVEY OF 18TH AND 19TH-CENTURY SPANISH LITERATURE (3) LEC. 3. Survey of the major literary, cultural, and historical trends in 18th and 19th century Spanish literature.

FLSP 7150 HISPANIC COLONIAL LITERATURE OF THE UNITED STATES (3) LEC. 3. Literature about the colonial Hispanic exploration and colonization of the United States from the 16th to 19th centuries.

FLSP 7160 20TH-CENTURY SPANISH LITERATURE (3) LEC. 3. Critical and historical study of 20th-century Peninsular literature from the Generation of 98 to Spanish post-war literature through representative works in all genres.

FLSP 7170 CONTEMPORARY SPANISH LITERATURE (3) LEC. 3. Critical and historical study of contemporary literature from the Spanish Civil War to the present through representative works in all genres.

FLSP 7210 COLONIAL SPANISH-AMERICAN LITERATURE (3) LEC. 3. Study of representative literary genres and authors of Vice Regal America from Spanish transcription of pre-Columbian works to those just prior to the Wars of Independence.

FLSP 7220 SPANISH-AMERICAN POETRY I (3) LEC. 3. Critical and historical study of Spanish-American poetry from 1824 to the first generation of modernism.

FLSP 7230 SPANISH-AMERICAN POETRY II (3) LEC. 3. Critical and historical study of Spanish-American poetry from post-modernism to the present.

FLSP 7240 SPANISH-AMERICAN POST-COLONIAL PROSE TEXTS TO THE NEW NARRATIVE (3) LEC. 3. Critical and historical study of representative essayists and fiction writers of the 19th and 20th centuries predating the New Narrative.

FLSP 7250 THE NEW NARRATIVE IN SPANISH-AMERICAN FICTION: MODERNIST AND POST-MODERNIST TEXTS (3) LEC. 3. Critical and historical study of major works of modernist and post-modernist fiction that achieved international acclaim during the second half of the 20th century.

FLSP 7270 SPANISH AMERICAN THEATER I (3) LEC. 3. Critical and historical study of the Spanish-American theater, with emphasis on the period prior to 1900.

FLSP 7280 SPANISH AMERICAN THEATER II (3) LEC. 3. Critical and historical study of the Spanish-American theater from 1900 to present.

FLSP 7300 DON QUIJOTE (3) LEC. 3. Critical study of Cervantes' masterpiece.

FLSP 7970 SPECIAL TOPICS IN LINGUISTICS, LITERATURE AND CULTURE (3) AAB. 3. Pr., BA in Spanish or BS in Foreign Language Education in Spanish. In-depth study of an author or authors and analysis of the cultural milieu influencing their creativity or investigation of a specific linguistic phenomenon in Spanish. Course may be repeated with a change in topic. Course may be repeated with change in topics.

FLSP 7990 RESEARCH AND THESIS (1-10) MST. Directed readings and research culminating in a thesis. Course may be repeated with change in topic.

Veterans Resource Center

The Auburn University Veterans Resource Center (VRC) assists veterans, guardsmen, reservists, active duty, military dependents and survivors with education resources in making a successful transition into the AU Community. The VRC devotes timely and comprehensive support and a range of services for military connected students, by collaborating with VA representatives, the AU Community, and civilian-advocate organizations.

Located at 020 Foy Hall, the VRC provides an array of resources for our military-affiliated students. One of our primary functions is to assist students navigating the VA Education system. We help students who are using Chapter 30: Montgomery GI Bill® (MGBI), Chapter 31: Veteran Readiness & Employment (VR&E), Chapter 33: Post 9/11 GI Bill®, Chapter 35: Dependents Education Assistance (DEA), Chapter 1606: Montgomery GI Bill®-Select Reserve (MGIB-SR) and the Fry Scholarship. Additionally, we help answer questions about the Alabama GI Dependent Scholarship (ALGI) and process the Alabama National Guard Education Assistance Program (ANGEAP).

In addition to helping students apply and utilize their GI Bill®, we also assist students determine if they qualify for resident tuition rates under Section 702 of The Veterans Choice & Accountability Act (Choice Act), the Alabama House Bill 424 (HB424), and the National Guard Waiver (NG Waiver). Auburn University also participates in the Yellow Ribbon Program (YRP), offering 100 slots a year.

For information on how to use VA Education benefits here at Auburn, and for a list of resources for military-affiliated students, please visit our website veterans.auburn.edu (https://veterans.auburn.edu/).

VA Reporting Information

If students have an issue or complaint about a school or training facility that is eligible to receive GI Bill® benefits, students can submit feedback to the Department of Veterans Affairs (VA). Students can submit feedback to alert the VA is a school isn't following the Principles of Excellence guidelines or if he/she has another concern or issue they would like to make the VA aware of. Feedback should be submitted via the following link: https://www.va.gov/education/submit-school-feedback/introduction (https://www.va.gov/education/submit-school-feedback/introduction/).

Polymer and Fiber Engineering — MS, PhD ... 1750
Polymer Engineering — Graduate Certificate ... 1750
Post-Masters Healthcare Simulation — Graduate Certificate ... 1797
Poultry Science ... 272
Poultry Science — ABM ... 1504
Poultry Science — MAg ... 1751
Poultry Science — MAg, MS, PhD ... 1751
Poultry Science — MS ... 1752
Poultry Science — PhD ... 1752
Poultry Science — Pre-Veterinary Medicine Option (POPV) ... 275
Poultry Science — Production Option (POPP) ... 277
Poultry Science - POUL ... 2265
Poultry Science Minor ... 275
Power Engineering — Graduate Certificate ... 1752
Pre-Health Professional Curricula ... 1338
Primary Care Nurse Practitioner — Graduate Certificate ... 1721
Professional and Continuing Education Non-credit Programs and Certificates ... 148
Professional Flight (AVPF) ... 980
Professional Forester Option — MNR ... 1712
Professional Officer Course ... 1389
Professional Sales Minor ... 403
Program Evaluation — Graduate Certificate ... 1653
Psychological Sciences ... 1092
Psychological Sciences — MS, PhD ... 1752
Psychology - PSYC ... 2267
Psychology Minor ... 1100
Psychology of Learning Minor ... 1800
Psychology (PSYC) ... 1099
Psychology: Applied Behavior Analysis (Non-Thesis) — MS ... 1755
Public Administration — ABM ... 1505
Public Administration — MPA ... 1747
Public Administration and Public Policy — PhD ... 1747
Public Administration Minor ... 1091
Public Administration (PUBA) ... 1090
Public and One Health - PAOH ... 2273

Public and One Health (PAOH) 1371
Public Health Minor 1371
Public History — Graduate Certificate 1679
Public Horticulture — Graduate Certificate 1681
Public Relations Communication - PRCM 2275
Public Relations Minor 1014
Public Relations (PRCM) 1013
Pulp and Paper Engineering — Graduate Certificate 1757

R

Raymond J. Harbert College of Business 345
Reading Education — MEd/MS, PhD 1616
Reading Education - CTRD 2276
Reading Instruction — Graduate Certificate 1633
Real Estate Development — MRED 1757
Real Estate Development - RDEV 2277
Real Estate Development Minor 390
Registration 1511
Rehabilitation & Special Education - RSED 2278
Rehabilitation and Disability Studies (RSRB) 559
Rehabilitation and Special Education — PhD 1780
Religion - RELG 2285
Repeat of Courses 141
Reserve Officers' Training Corps 1385
Restoration Ecology — Graduate Certificate 1672
Restoration Ecology — Graduate Certificate 1758
Restoration Ecology Minor 760
Rural and Community Development Minor 216
Rural Sociology — MS 1759
Rural Sociology — MS 1765
Rural Sociology - RSOC 2285
Rural Sociology Minor 1800
Rural Studies — Graduate Certificate 1760

S

Samuel Ginn College of Engineering 562
Satisfactory Progress 141
School of Accountancy 369
School of Architecture, Planning and Landscape Architecture 316
School of Aviation 965
School of Communication and Journalism 982
School of Fisheries, Aquaculture and Aquatic Sciences 251
School of Industrial and Graphic Design 301
School of Kinesiology 521

Science Education: General Science, Biology, Chemistry, or Physics — MEd/MS, EdS, PhD 1617
Science Teaching Double Major 508
Sciences & Math - SCMH 2287
Secondary Education - CTSE 2288
Service Learning & Student Engagement 148
Services 169
Social Science Education: General Social Science or History — MEd, EdS, PhD 1627
Social Work — MSW 1762
Social Work - SOWO 2293
Social Work Minor 1112
Social Work (SOWO) 1111
Sociology — MA 1764
Sociology — MA, MS 1763
Sociology — MS 1765
Sociology - SOCY 2295
Sociology, Anthropology and Social Work 1101
Sociology Minor 1113
Sociology (SOCY) 1112
Software Engineering (SENG) 679
Space Systems - SPCE 2298
Spanish — International Trade (FLST) 1161
Spanish — MA, MHS 1760
Spanish — MA, MHS 1762
Spanish Education (CSNB) 509
Spanish (FLSP) 1159
Spanish Linguistics Minor 1160
Spanish Minor 1160
Special Academic Opportunities 142
Special Education for Health and Related Service Professionals Minor 510
Special Education, Rehabilitation, and Counseling 539
Special Education, Rehabilitation, and Counseling — Graduate Certificates, MA, MEd, MS, EdS, PhD 1766
Specialist in Education Degree 1528
Speech, Language, and Hearing Sciences 1113
Speech, Language, and Hearing Sciences 1783
Speech, Language, and Hearing Sciences — MS 1784
Speech, Language, and Hearing Sciences - SLHS 2299
Speech, Language, and Hearing Sciences (SLHS) 1118
Sport Coaching Minor 538
Sport Communication Minor 1015
Sport Management — Minor 1699
Sport Management Minor 1800
Statement on the Importance of Writing at Auburn University 149

Statistics — MS ... 1785
Statistics - STAT ... 2303
Statistics and Data Science — Phd ... 1785
Statistics Minor ... 1330
Statistics Minor ... 1801
Statistics (Non-Thesis) — MS ... 1707
Stewardship-based Agriculture Minor ... 227
Structural Analysis in Structural Engineering — Graduate Certificate ... 1786
Structural Design in Structural Engineering — Graduate Certificate ... 1786
Student Affairs ... 102
Student Health Services ... 104
Student Records ... 149
Student Services ... 97
Studio Art Minor ... 965
Substantive Change ... 152
Supply Chain Management ... 403
Supply Chain Management — Graduate Certificate, MS, PhD ... 1787
Supply Chain Management — MS ... 1788
Supply Chain Management - SCMN ... 2308
Supply Chain Management Innovation — Graduate Certificate ... 1789
Supply Chain Management Minor ... 408
Supply Chain Management (SCMN) ... 407
Supply Chain Operations — Graduate Certificate ... 1789
Supply Chain Planning — Graduate Certificate ... 1790
Sustainability Studies - SUST ... 2311
Sustainability Studies Minor ... 1380
Sustainable Biomaterials and Packaging (BIOP) ... 749
